

### Casualties Among UN Forces Rise Sharply In May

UNITED NATIONS, N. Y., June 5—(AP)—United Nations forces fighting alongside U. S. and South Korean troops in Korea suffered a sharp spurt in casualties during the last Chinese Communist offensive.

Latest information received by the British delegation to the U. N. sets total British dead at more than 700 and the wounded and missing at more than 1,100. These unofficial figures will be revised upward when later information provides the basis for new official figures, British sources said today. A previous British report had listed 82 dead and 756 wound-

ed and missing. Heavy losses in the Gloucestershire regiment accounted for more of the increase. French and Turkish casualties are among others expected to rise as a result of the recent fighting, but for the present only old figures are available. Following are casualty figures available here:

	Dead	Wounded	Missing
Turkey	408	898	307
France	89	314	2
Australia	70	302	35
Canada	43	92	—
Greece	42	76	1
Thailand	12	123	—
Netherlands	—	—	—
Belgium	36	94	5
Lux.	8	47	7

Ethiopian, Colombian and Cuban troops are en route to the battle front. No casualties have been reported for them. South Africa's combat air force has reported one casualty. New Zealand and the Philippines said they had no recent casualty figures. The Philippines delegation expects the island force will have a heavy toll when the effects of the recent offensive are listed.

United States battle casualty totals announced May 25 were 67,427, including 10,127 killed, 45,889 wounded and 11,411 missing. Of the latter figure, at least 102 are known now to be dead.

Republic of Korea in figures announced May 12, estimated that from the outbreak of the hostilities last June 25 up to Apr. 15, 18,150 ROK soldiers were killed, 50,764 were wounded and 57,250 were missing. ROK troops were hard hit in the late April and early May Red offensive and another sharp upturn is expected by South Korean officials for their later casualty figures.

### Korean War

(Continued from Page One)

Two Communist planes, possibly jets, bombed Allied lines near Yangju on the east central front Monday night. If they were Red jets, it was their deepest penetration of Korea.

China's Red radio for the third straight day appealed to workers for funds to buy planes, armor and other heavy fighting equipment sorely needed by Chinese in Korea.

Chinese defending the "iron triangle" were supported by the fact only 300 prisoners were captured Monday, AP correspondent Nate Polowitzky reported from U. S. Eighth Army headquarters. In contrast, thousands had surrendered at the start on the U. N. counteroffensive.

"The enemy is fighting a defensive campaign along the main routes to Chorwon and Kumhwa," an Eighth Army briefing officer said, "while they are fighting delaying actions in the east around Inje."

U. N. troops advancing northwest of Yonchon, 13 miles from Chorwon, were locked in a fight that continued through the night into Tuesday.

Twelve miles to the east, near Chail, Allied tanks were turned back Monday by heavy Red artillery fire. Chail is the gateway to two valleys leading to Chorwon and Kumhwa. It's ten miles from Chorwon, 16 from Kumhwa.

On the eastern flank of central forces driving toward the triangle, U. N. troops engaged in a fierce fight north of Ilwachon.

Hard fighting was reported to the rear of these spearheads in the center of the U. N. counteroffensive.

Largest action in this sector Monday was against 2,000 attacking Reds north of the Hantan River in the Yonpyong area.

All actions on this central front area were located by the names of towns close to the 38th Parallel, as they have been for a week. All mileage references were deleted by censors.

On the east coast, South Koreans beat off a sizable Red counterattack with the support of naval guns. They reported counting more than 1,000 Communist dead in two days.

Father north, American warships led by the battleship New Jersey put on a big bombardment display for top commanders. The New Jersey and supporting ships fired 1,100 rounds at transport targets around the port of Wonsan Monday morning. Helicopters directed fire at the one-ton shells from the battleship's 16 inch guns.

Admiral Arthur W. Radford, commander in chief of the Pacific Fleet, and Vice Admiral C. Turner Joy, commander of naval forces, Far East, watched from the New Jersey's bridge.

Castor oil is an important raw material in making paints, varnishes, lubricants, and nylon.

### Acheson Testifies

(Continued from Page One)

quarter million troops in Korea?" Acheson said: "I think that so far as the President's action under the Constitution of the United States is concerned, we are proceeding under his powers."

"So far as the United Nations in carrying out the repelling of the Security Council authorizes and requests, under the charter of the United Nations, assistance in carrying out the repelling of the armed attack on Korea."

Acheson also told how the United States abandoned, because of objections from other United Nations, a plan last November for "hot pursuit" of enemy planes into Manchuria.

The senators had received a general account of this previous from military witnesses, but Acheson added some documentary detail.

Senator Flanders asked Acheson at one point whether under the existing conditions MacArthur violated instructions in his advance to the borders of Manchuria last fall.

"Not as far as I know," Acheson replied. "There has been discussion as to whether or not some of his actions were in accordance with the interpretation of the plans that the military had in mind, but that is out of my field, and I do not know of it."

General J. Lawton Collins, army chief of staff, testified that MacArthur violated policy laid down by the chiefs of staff when he sent U. S. troops to the border. Collins said the policy was that only South Koreans should move close to the Chinese border.

He implied the Joint Chiefs were concerned the Chinese Reds might enter the war in force—as they did in 1950. U. S. troops approached their border.

Acheson testified behind closed doors but a censored stenographic report of his testimony was given to news reporters.

This quoted him as telling Gillette in the exchange about a possible armistice: "I think that the United States, as the military command, would way with its colleagues in this consult in the closest possible operation before making proposals about an armistice or before accepting proposals regarding an armistice which have been put forward by the other side."

The phrasing "have been put forward" was open to interpretation that Acheson was saying some proposals actually have been offered. But committee members told reporters after the hearing that they did not interpret Acheson's words as meaning that any armistice proposals have been advanced by the Chinese Communists.

They said they understood he simply was explaining the procedure that would be followed before any armistice terms would be offered or accepted by the United Nations Allies.

A dolphin is about one-fourth the size of its parent at birth.

### War Is Threatened By Fanatical Sect Of Iran Patriots

TEHRAN, Iran, June 5—(AP)—The frantic Moslem sect whose violence preceded the current crisis in Iran threatened this country today with widespread bloodshed unless the sect's leader is released from jail.

The sect, Fedayan Islam, sent letters to all members of Parliament demanding that Deputy Prime Minister Hussein Fatemi be dismissed as a traitor to Iran.

The group's leader, Navab Safavi, was arrested Sunday after a long police search. The Shah himself was reported to have ordered the arrest as a means of preventing new terrorist outbreaks.

Young, fiery Safavi told his captors they would have to release him within 24 hours.

The Fedayan Islam sect has made threats against many Iranian leaders' lives in their frantic attempts to drive all foreigners out of this country.

The sect's letters, distributed throughout Tehran in leaflets, charged that the Anglo-Iranian Oil Company, now facing nationalization of its Iranian holdings, paid for Fatemi's education in London. The deputy Prime Minister himself said he knew nothing of the letters or the leaflets.

Fatemi told reporters he has just presented to the Shah the three-man board of directors named to run Iran's oil industry when the British control of the industry is lifted by the nationalization act. He said the Shah expressed hope the board would do its best to serve the country in its enforcement of the oil law. The board leaves Thursday for Khuzestan, center of operations of the vast Anglo-Iranian company.

The Fedayan Islam sect has admitted it was behind the assassination of Premier Ali Razmara in March, charging that he was giving the country over to the foreigners.

### Price War Spreads Across U. S. As Big Crowds Buy Wildly

NEW YORK, June 5—(AP)—Price-cutting spread to new sectors of the nation's retail front today, stimulating the public appetite for bargains.

Shoppers swept into big New York department stores for the sixth day of the local price war, and grouped about harried sales clerks.

But with many items sold out, the hectic pace of previous days in the housewares and men's clothing departments eased a bit. Emphasis shifted from the electric mixers and toasters that were main targets of early buying, to other articles such as watches, pens, percolators, phonograph records and larger appliances.

As the stores exhausted their supplies of some brands, they instituted comparable price cuts on alternate brand name articles and reported a brisk business.

Across the nation, sporadic outbreaks of cutting of former "fair trade" fixed prices occurred.

At Oklahoma City, where a price chain had dropped prices on all electrical home appliances 25 percent, Katz Drug, a southwest chain, announced a three-day sale with the "world's lowest prices."

Reductions included: Sunbeam Mixmaster to \$33.25 from the fair trade price of \$46.50; Ronson lighters to \$3.94 from \$6.60, and Motorola television sets to \$179.95 from \$219.95. Some New York stores, before stocks were exhausted, sold Mixmasters at \$26.59 last week.

At San Francisco, prices were reported leveling off at the reduced tags put on yesterday, while Sunbeam shops joined in dropping prices in hopes of keeping their customers from flocking to city stores.

When a drug store in Omaha cut prices on some electrical appliances, an appliance store served notice it would "meet or beat" any advertised price.

Other cities that got into the fight yesterday included Newark, N. J., and Baltimore, Md.

### Jaycee Meet

(Continued from Page One) the agenda Thursday and the conference reaches a climax Friday with the annual election, an affair that resembles the national political conventions in noise and color.

Campaigning energetically for the presidency were Ed Rood, a 34-year-old attorney who was named the outstanding young man of Tampa in 1949; Lee Price, a Swainsboro, Ga., lawyer, and Bill McDaniel, Dallas insurance salesman.

The winner will succeed Richard W. Kemler of Marshalltown, Ia., a dark horse who slipped in to win last year's election when the two favorites deadlocked.

The convention will continue through Saturday.

It is estimated that 20 per cent of the nation's steel and 30 per cent of its pig iron are made in Pennsylvania, mostly in the industrialized western section of the state.

## SELL YOURSELF AND SAVE!

During the month of June we will pay you, the buyer, a sales commission on every used car bought from our lot at Sanford and Commercial Avenues.

As far as we know, this is the first time self-selling savings have ever been offered to the automobile buyer.

During June we will feature 20 special values that we feel will not be equaled by any dealer anywhere. These specials plus your sales commission means lower cost. A real saving to you, the buyer.

## "Some day I'm going to own a Roadmaster"

ONE thing that interests us mightily is the fact that so many people are stepping up, when they buy automobiles. We've been looking at surveys, and it seems that just about everyone wants a better car than the one he's now driving. So we know how you feel, and we'd like to help you make your dreams come true. We'd like you to discover how fine a fine car can be. We'd like you to stretch out in the room of a ROADMASTER—feel the luxury of its double-depth cushions—stroke the fine texture of its fabrics. We'd like you to know the proud levelness of its ride—and its gentle obedience to your hand on the wheel.

We'd like to show you the many extras this custom-built Buick provides—at no extra charge when we come to make out a bill of sale. But above all, we'd like you to experience two thrills found exclusively in ROADMASTERS. One is the smooth might of its Fireball Engine. The other is the supreme simplicity of Dynaflo Drive, which is, incidentally, one of the many features included in the price. We try to hold down our enthusiasm in talking about this masterful beauty. We might claim—you'll find more room—more comfort—

more luxury—a smoother ride—more conveniences—more thrill in a ROADMASTER than in any other car in the fine-car field. But why spoil the thrill of discovery? Come find out for yourself how completely a 1951 ROADMASTER fulfills the dreams of the car you hope sometime to own. And let us whisper something to you: The cost of making this step to ROADMASTER ownership is less than most people believe.

Clear to partly cloudy and continued rather warm through Thursday, except for local afternoon thundershowers in widely scattered places.

## Tank Force Hammers At "Iron Triangle" In Bitter Fighting

Reds Reported Organizing New Type Defensive System To Halt Allied Drive

By OLEN CLEMENTS  
TOKYO, June 6—(AP)—Allied tank patrols today hammered at the gates of Choson and Kumhwa, southern anchors of the Communist central Korean stronghold.

A tough and confident United Nations army "is standing at the front door now, hammering at the lock," AP Tokyo Bureau Chief Robert Emson reported from Eighth Army headquarters in Korea.

Tight censorship blocked out the exact distance Allied troops were from the Red's strategic Choson-Kumhwa-Pyongyang base. The Eighth Army reported gains of up to two miles, except on the bitterly defended eastern front.

In the west, Emson reported Allies had "battled" all the way back to the gates of Choson. Exactly where they were six weeks ago when the Communists' first spring offensive was touched off.

Then, the main lines were four miles from Choson. Armored patrols stabbed two miles closer. Wednesday night, the Eighth Army announced U. N. troops rolled one to two miles nearer Choson from positions north of Yonchon. And a tank patrol rumbled 2 1/2 miles ahead of the line, running a gauntlet of Red fire.

Dispatches from the central front reported U. N. troops drove nearly a mile closer in Kumhwa. Southern gateway to the Communist supply and build-up zone. Allied infantrymen slugged through sporadic artillery and mortar fire, routing out Chinese from log-topped fox holes.

Smaller, more careful advances were made to the east on the Hwachon-Kumhwa road, although Chinese there had pulled back three miles to stouter defenses. Bitter fighting was fiercest east. North Koreans fought a fierce delaying action against U. N. tanks pushing from Yanggu and Inje while Communist trucks carted off the remains of a sizeable ammunition dump.

Emson reported official estimates that U. N. troops had advanced 10 miles since the Communist attack.

## Atomic War Would Destroy World. Students Are Told

If all-out war with atomic weapons can be averted, the world stands on the threshold of its greatest golden age, Benson W. Davis, dean of Stetson University, told fellow Northwestern students today. He was introduced by Ralph A. Smith, Joel Field presided.

Peace-time use of atomic energy in medical and industrial fields can result in a greater change in our way of life than the automobile and other inventions, he said. He predicted, however, that if an atomic war is fought, any war following it will be fought with atomics and atomics.

Democracy, he pointed out, does not mean that a man can do just what he pleases, and declared that the idea that democracy means unrestricted freedom is wrong.

The slogan, freedom is not free, is correct, he asserted, and pointed out that as Winston Churchill expressed it, freedom is won only with blood, sweat and tears.

He warned that freedom of enterprise is being slowly eliminated by socialism, with two out of every five workers in this country being paid by the government.

Dean Davis pointed out that changes are due in the field of religion, and that rifts between Christian sects furnish ammunition for atheists and Communists. Startling changes are also due in the race question, he stated, and declared that the Argon race is a pitifully small minority, outnumbered 11.2 to one. The people of China and India, outnumbering the white race, he added.

Three new Rwandians were inducted as members of the club of J. Martin Silverman and E. H. Hanev. They are W. W. Dawson, of the Dawson Construction Co. of Sanford, Ted Williams, sawmill operator and D. L. Harper, traffic manager of Chase and Co. Quartz replicas of some of the largest and most famous diamonds in the world were shown by William E. Kader, Jeweler, whose son, Raymond Kader, is a member of the American Gem Society. These included limitations of the Hope Jubilee and Schuylker diamonds.

### Cadets 'Step Out' For June Week

MARCHING ACROSS THE PLAIN at West Point, N. Y., members of the cadet corps at the U. S. Military Academy (top) appear to be putting on a special review for Gen. William and Cathy Stevens, as the youngsters wave to them from their front row position. Attending the lawn party at the academy, Air Force chief Gen. Hoyt S. Vandenberg (bottom, right) and his daughter, Mrs. Ruth Miller, are on hand for the gala festivities as Cadet Hoyt S. Vandenberg, Jr., graduate. (International Soundphoto)

### DiSalle Contends Inflation Halted By Price Control

NEW YORK, June 6—(AP)—Price boss Michael DiSalle said today price controls have virtually checked price rises. He struck out at critics who contend the job could be done through higher taxes and other indirect controls alone.

The head of the Office of Price Stabilization told the National Association of Purchasing Agents the economic control program must make use of both direct and indirect controls within their limitations.

"Without the other would present an unbalanced approach that would be disastrous," DiSalle added in a prepared address.

He said prices have remained "relatively stable" since February an cited the government's "relaxation of controls" as the cause.

### Universal Military Training Is Still In First Planning Stage

(Editors: The following summary of the new draft-universal military training bill may be used at any time, but it is intended primarily for use—with editing in conform—with the House committee action, sending the measure to the White House. That may come tomorrow, Thursday, June 7.)

WASHINGTON, June 6—(AP)—Universal Military Training will be a good while going into effect under the legislation nearing final action in Congress.

The Senate already has approved the compromise measure, which also extends the draft law, and the House is expected to follow suit—possibly tomorrow. But that doesn't mean the program will start any time soon.

First, Congress must do several more things before any 18-year olds begin training under the nation's first UMT program. Second, the program won't start until the draft can be called off, or at least drastically curtailed.

Senator Russell (D-Ga.), chairman of the Senate Armed Services Committee, listed these steps Congress must take before UMT gets started:

## Bond Petition For Hospital Is Approved

700 Freeholders Sign Notice Asking For Referendum Vote On County Hospital

Petitions of freeholders asking for an election to approve issuing bonds to finance the building of a county hospital were presented to the County Commission yesterday by O. P. Herndon, and approved by the commissioners.

"It was determined by the Commission," said Mr. Herndon this morning, "that more than five percent of the resident freeholders had affixed signatures. It was estimated that 45 names would have been sufficient, and the list contained over 700." The Commission deferred further action on the matter until a later meeting, probably a special session.

The Commission directed that advertisements be placed for bids on improvements and additions to the County Court House in accordance with plans submitted by Elton J. Moughton, architect. These plans include additions to the offices of County Judge Douglas Stevenson, Tax Collector Sanford Doudney and Tax Collector John Galloway. An addition will also be made to the upper and lower record vault.

Plans were approved for a joint venture by the County, State and U. S. Geological Survey for a complete survey of the underwater table in Seminole County. Sources of water supply will be determined with the idea of combining low water and salt infiltration.

A letter received by City Manager Clifford McKibbin from Capt. D. T. Day of the Naval Command, was read stating that the Navy did not consider it advisable to give right of way for the widening of Twenty-Fifth Street until plans for new runway construction are completed.

Mr. Herndon was directed to ask permission of Capt. J. T. Chittenden, Naval Air Station commander, to use most of the vacant lot just outside of the grounds field for county road building purposes.

The Commission agreed to send a letter to the Scott Camp at Silver Lake to clean the beach and create a beach for Boy Scout use. Bids were asked for a one and a half ton pickup truck for road work.

Following the request of Jack Davis, county road superintendent, all county road projects were granted a five day week and one hour hour was added in each working day.

Further study with County Surveyor M. L. Hagan was requested by the Commission following City Manager McKibbin's proposal for the granting of a right-of-way for a pipe and power line along the old Lake Mary Road where the City desires to drill a well to add to its water supply.

The Commission offered no objection to the laying of pipe.

### Sanford Soldier Comes Home After Fighting In Korea

Cpl. William E. Hardy of the Seventh Infantry Division in Korea and now home on leave, did his part in helping to smash the North Korean and Chinese aggression. He is the son of Mr. and Mrs. J. T. Hardy.

On June 18 he will resume duty at Ft. Jackson, S. C., where he received basic training in the fall of 1949. Yesterday, he visited Seminole High School, where he hopes to resume his studies when his army service is finished.

He was sent overseas on Aug. 3, and after two weeks with his unit at a Japanese camp, landed at Pusan, Korea. Fourteen days later he was participating in the landing at Inchon on the west coast and in the contest with the North Koreans for Seoul.

Following this action he was sent with his unit to Wusan on the east coast, another landing operation that eventually took him close to the Manchurian border and the Choson Reservoir. Chinese attacks forced the Marines to withdraw, and he and his comrades of the Seventh Division protected the withdrawal clear to the beachhead at Hungnam.

He went into action again after Christmas, participating in engagements up to March 30. Cpl. Hardy learned the North Koreans as much better fighters than the Chinese, and had high praise for the fighting ability of the French, Turks, Canadians and British. He expressed the opinion that the Chinese will be driven to the Manchurian border.

During an action on Jan. 27 while with a patrol of nine who were fighting more than 40 of the enemy, he fell from a cliff and fractured two ribs, but kept on fighting.

## Acheson Denies Appeasement Motive In Unsuccessful Try At Ending Korean Conflict

Marshall Lashes At Criticism Of Korean Policies

General Reviews U. S. Record In Greece And Berlin Airlift

ST. LOUIS, June 6—(AP)—Secretary of Defense George C. Marshall lashed out today at critics of the present situation in Korea, saying they were those who "spied stalemated about Greece and the Berlin airlift."

But, the five-star general declared, we have a remarkable record—a record met in turn by courageous decision and so far with the avoidance of a general war.

General Marshall, in a prepared speech, told the graduating class of Washington University: "There were many criticisms and dim views of the European recovery program and there were more regarding the courageous decision of this government regarding Greece."

The latter was advertised as a statement, as a costly and futile enterprise. It proved to be a significant success in saving Greece from Communist domination.

He said there also were "those who spied stalemated and the waste of large sums" in connection with the airlift in Berlin.

"But it ended in success," the general continued. "Turning to Korea, he declared: "When you attempt to judge what has happened and what is happening there, you should first be clearly in mind the position of the United States in connection with the creation of the Republic of South Korea and the responsibility for us that is entailed."

Then you should be well briefed on the succession of events in that struggle, and particularly on the amazing performance of our heavily outnumbered troops.

The Eighth Army, since General Ridgway assumed command, has struck a deadly blow in the Communist prestige in Asia, he said, adding:

"We have not seen the end in Korea. No man can predict exactly what will be but it is becoming more and more apparent that without totally aping our military success we have used a terrific problem for the hostile regime in China."

The general called for final enactment of Universal Military Training.

"We never will tolerate or finance a large standing army," General Marshall said, "which means that we must have a form of citizen-soldiery that will be effective in this world of today."

Evelyn Daniels Will Be Buried Tomorrow

Funeral services will be held tomorrow at 3:00 P. M. at Geneva Methodist Church for Miss Evelyn Daniels, 33, who died Sunday at 4:00 A. M. in Miami after an illness of five weeks. The Rev. E. J. Stammers of Oviedo will conduct the service and interment will follow in the Geneva cemetery.

A former resident of Geneva, Miss Daniels was born June 30, 1918. She had lived in Miami for three years and was a member of the Allapattis Methodist Church there.

She is survived by one sister, Mrs. Joseph Faye of Orlando; her stepmother, Mrs. Florence Daniels of Miami; an uncle, Rev. J. M. Daniels of West Palm Beach; an aunt, Mrs. W. F. Branton of Cocoa; three cousins, Miss Margaret Daniels, Coral Gables; Mrs. Franklin Nott, St. Petersburg; and Mrs. Schubert of Cocoa.

Collection Phase Of Jaycee Paper Drive Is Success

School Teachers Ask Warren For Increase In Pay

Seminole Group Will Back Educational Association Move

The collecting phase of the Jaycee Scrap Paper Drive ended Sunday with the Jaycee membership covering the city in one sweep picking up paper scattered at the curb on all street within the city limits.

Rick Farrell, chairman of the paper drive committee, said that the drive was a tremendous success with an estimated 10 tons of waste paper, magazines and out-casted cardboard collected.

The success of the drive was mostly wholly due to the efforts of the school children throughout the county—about 25 or 30 of the 100,000 pupils who were in the various schools with Union High leading all schools with 10 tons.

The children left their little paper in the city for the Jaycees to pick up on Sunday. The children in each school were given the largest amount of paper will be rewarded with an ice cream party this week. The program has been donated by Southern Danies, Benson Datties, and Schmoles, Lee Creek Co. P. O. 875.

The paper is now stored in a local warehouse and will be separated and banded for shipment. This hard and time-consuming work is to be done by the Jaycee membership.

The Jaycees, in cooperation with the Sanford Fire Department, wish to thank all those who have helped in this drive to prevent fires and to raise money for the Jaycee Youth Program. Mr. Farrell stated: For the use of their trucks, which made the drive possible, Heller Motor Sales, Seminole County Motors, W.D.S. Pontiac, Hunt Mercury, Security Lumber Co., Strickland-Morrison, Inc., H. J. Lingle, Echols Building Co. and the City of Sanford have been commended.

HIG FOUR  
PALE, June 6—(AP)—The West coast Big Three delayed today their reply to the Soviet Union's demand that any four-power foreign ministry conference must specifically discuss the North Atlantic Pact and American bases abroad.

The West was scheduled to give an answer to the "yes-but" acceptance by the Soviet Union of an invitation to convene the Big Four meeting on international relations. But it appeared that the foreign ministers' deputies would not meet today.

JAP TREATY  
LONDON, June 6—(AP)—British diplomats reported today that the Japanese peace treaty, which they said would be signed by the Japanese government to give up the idea of inviting the Chinese Nationalist government to sign the treaty.

IN THE FAMILY  
COLUMBIA, Mo., June 6—(AP)—A husband and a wife, members of the same graduating class at the University of Missouri, have been elected to Phi Beta Kappa National Scholarship Honor Society.

They are Edward Lee Davis of Mexico, Mo., and his wife, Bettie. They live in a university student trailer camp on the campus.

Secretary Of State Admits Attempt To Have MacArthur Change UN Report

WASHINGTON, June 6—(AP)—Secretary of State Acheson said today General Douglas MacArthur's headquarters had a report three months in advance that the North Korean Reds planned a June invasion of South Korea but refused to believe it.

WASHINGTON, June 6—(AP)—Secretary of State Acheson denied today there was any "appeasement" in United States support of last January's futile war in the United Nations for a cease fire in Korea.

Acheson told the Senate's MacArthur inquiry that the State Department backed the move because "We thought that the sound thing to do was to vote in favor of this resolution."

The U. S. Senate's resolution sought to arrange an armistice and submit to an appropriate body of U. N. members the problem of the future of Formosa and China's representation in the United Nations.

Nothing came of the move because the Chinese Reds rejected the proposal.

Senator Russell (D-Ga.) brought up the matter at the Senate hearing. He is chairman of the Senate Armed Services and Foreign Relations Committee conducting the inquiry into the dismissal of General Douglas MacArthur.

At another point, Acheson acknowledged that the State Department once tried to get MacArthur to change a report to the United Nations. But he said he considered the matter "trivial" and had not heard of it until MacArthur mentioned it in testimony to the Senate.

MacArthur told the majority of the State Department wanted him to make a political statement which he refused to do.

Acheson's contention was that the report contained "various conclusions and statements which he (MacArthur) was making about what seemed to be the political situation."

He suggested to the Defense Department that such statements did not belong in a factual report of military activities but rather in a separate report which MacArthur had submitted to the State Department.

Senator Wiley (R-W.Va.) asked whether the incident raised any question on the part of you as the State Department toward him.

"Not that I know of," Acheson said, adding:

"I don't create any irritation in my mind because I never knew of the incident until it was mentioned at one of these hearings. It was an unpleasant surprise to me and I regretted it."

The U. S. unsuccessful effort in Korea to get a Korean cease fire had come up earlier in testimony by Acheson to the Senate. He said the report "did not mention the incident because it was considered to be of a nature that would be discussed again after the aggression stopped."

Similarly, the president had suggested the future of Formosa should be considered in the United Nations and we thought that

THE CASKET CONTAINING THE BODY OF Lt. Bernard DeLatre de Tassigny, 28, is carried from a plane in Paris after being returned to France from Indo-China. Command-in-Chief of French Forces in the Far East, Gen. Jean DeLatre de Tassigny (arrow) and his wife (next to him) accompanied their son's body. The lieutenant was killed while fighting Communist troops in northern Indo-China. (International Soundphoto)

# Richard's Incredible White Sox Take 3 Game Lead In American

CHICAGO, June 6—(AP)—Manager Steve O'Neill, whose Boston Red Sox were chased out of town with four straight licks in a five-game series, thinks the White Sox upsurge is a great thing for baseball.

That was the nicest praise the veteran American League skipper could muster after watching the first-place Chicago wrecking crew slam 14 of his pitchers for 49 hits and 29 runs during the four-game winning span.

The Red Sox, who blew into Chicago with 11 wins in their last 12 starts, were highly favored for the pennant in pre-season reckoning and O'Neill certainly isn't ready to concede the bumping to any other club at this early stage.

He, like other managers whose teams have been chastised by the Frisky Comiskey's, is amazed but not perturbed, especially.

He views the White Sox, who have outscored 24 pitchers in their last 28 starts to save 3 1/2 games ahead in the race, as a pennant possibility rather than a probability.

The White Sox are playing great ball and their unpredicted rise to the top has been a great thing for baseball generally, observed the affable O'Neill before he led the humiliated gold-plated Sox into Detroit today. "Whereas you had to figure on New York, Boston, Cleveland and Detroit in the pennant drive, now you've got to figure the White Sox. The race has become thicker and the interest stronger."

While conceding that Chicago has tremendous speed, O'Neill is inclined to believe the team is "way over its head" in hitting.

"They've got four players in the first 10 hitters of the league and the team averages is .295," he said. "I figure the team that can average .285 has a fine chance for

By ED HARPER

Quiet, unassuming Frank Threlka, the 32-year-old Louisville Slugger reflectively, grinned a little and said, "Daytona Beach figures to be the best in the league in my book. With a little pitching you couldn't stop them."

Frank is in about the best spot on the team to decide. Almost every play involves the second baseman in some way, either handling the ball directly, covering second or first or backing somebody up.

Aside from the shortstop, the keystone job is the most demanding on the team—and it's a job which seldom gets the appreciation or understanding devoted to the most spectacular, but seldom less difficult, infield positions.

Frank, who at 19 has been playing ball for half his life, started at the position and plays it with an assurance and meticulous attention to detail which often makes the spectacular play seem easy and the impossible one hard.

There are two ways for infielders to develop. In baseball lingo the player develops "in" who makes a lazy stab at a ball on which he has less than an even chance of making a play—there have been some good ones in the majors who developed this way. Sid Gordon and Buddy Kerr among them.

But Frank belongs to another category—and a superior one in the opinion of most baseball experts. The wiry Louisville second-sacker takes off like a low-flying hawk after every ball no matter where it hits within the limit of the first to second area. It's for this reason that Frank has drawn a lot of undesired errors—some from the local score keeper as well as in other parks.

But Frank belongs to another category—and a superior one in the opinion of most baseball experts. It's for this reason that Frank has drawn a lot of undesired errors—some from the local score keeper as well as in other parks.

# Savold - Joe Louis Bout To Be Seen In 150 Movie Theaters

NEW YORK, June 6—(AP)—Mike Jacobs' dream of a \$10,000,000 gate for a heavyweight championship fight may not be too far away, after all.

Four big theater corporations—Fabian, Loew's, RKO and United Artists announced plans last night to televise Joe Louis-Lee Savold bout on a vast network of movie screens.

"This will mark the historical first network of theater television," said Nathan L. Halpern, spokesman for the theater companies.

James D. Norris, president of the enterprise promises to solve the International Boxing Club, said the present television dilemma of the sports world—a means of collecting TV revenue without adversely affecting the gate.

Norris took over the reins of bigtime boxing from Jacobs, who, before illness forced his retirement, foresaw millions of fans swarming into movie houses and paying for the privilege of watching his gladiators through this new and marvelous medium.

The Louis-Savold bout at the Polo Grounds, matching the former heavyweight champion with the British-recognized king of the heavies, will not be televised generally. That is, there's no way of getting it on your parlor set.

But under the arrangement of the theater group, the fight will be relayed by coaxial cable direct from cameras at the ringside to large screens in special cities, outside the New York area.

Patrons will pay admission just as they do for an ordinary show—probably around \$1.50. The IBC and the fighters get a cut of the scattered proceeds.

College football's special television committee, toying with the same idea, has been assured by theater companies that 150 movie houses will be ready for the job by fall. It's reasonable to assume there will be thousands of such theaters in the next few years, collecting fares from millions of spectators.

# Giants Meet Cocoa In Doubleheader

The Sanford Giants will meet the Cocoa Indians here tonight in a twin bill scheduled to begin at 6:30 P. M. Bob Callahan and Ray Scheidt have drawn the hurling assignments for the Giants.

# DeLand Red Hats Take Over First By Beating Cocoa

Red Hats 6; Islets 5

DAYTONA BEACH, June 6—(AP)—DeLand's Red Hats scored a run in the eleventh inning on a wild pitch by islander Hurler Bob Green here last night to defeat the Islanders 6 to 5.

It was the Islander's ninth loss in a row. George Fultz, who came in as the second reliever for DeLand, gained the win. Green went the route for the Islanders.

# Palatka 9; Indians 4

PALATKA, June 6—(AP)—Dick Engquist pitched a double and three singles in five at bats here last night to lead the Azaleas in a 13-hit attack on two Cocos hurlers to record their second straight win over the Indians, 9-4.

The Azaleas trailed 2-0 going into the third inning, but three walks and two hits accounted for four runs and the locals were never heated after that.

Starter Lefty Bridges weakened in the seventh and hit a batter after walking two to load the bases with only one away, and Jove Rivero took the local mound and retired the side on two pitched balls, the fourth Cocoa run scoring on an infield out.

Veteran Cecil Huston hurled the final two innings for Palatka.

# G-Men 8; Packers 1

MYRTLE BEACH, June 6—(AP)—Myrtle Hoag, collecting his second win without a loss, pitched a sparkling two-hitter here last night as the Gainesville G-Men blasted the Leesburg Packers, 8-1.

The lone Pecker tally came on a sixth-inning home run by catcher Arnie Sanchez. Johnny Sykes rared the other safety, a harmless single in the second.

In winning the two-game series with Leesburg, the G's wrapped up the decision in the fourth when they rapped out seven hits for four runs. Lou Garcia's double was the longest blow of the inning.

# Gibson Girl

MANCHESTER, England, June 6—(AP)—Althea Gibson is making a good showing in her first international tennis venture.

Pointing to the All-England championships at Wimbledon, the Negro miss from New York won her second match yesterday in the northern lawn tennis tournament.

She defeated Britain's Norma Potts, 6-4, 6-4, to join Beverly Baker of Santa Monica, Calif., and Betty Rosenquest of South Orange, N. J., in the third round.

Miss Baker easily vanquished Nancy Liebert of Britain, 6-3, 6-3. Miss Rosenquest topped Britain's Rose Walsh, 6-2, 6-2.

In the men's division, Harold Burrows of Charlottesville, Va., triumphed over C. V. Fox of Britain, 6-1, 6-1.

born and shortstop Daryl Spencer were ousted by umpire Bill Brockwell for too much arguing after a decision at second base. Larry Dippio homered for the second time in the second inning off losing pitcher Pete Mallory.

# Urquhart Leads FSL With 12 Wins; Kettles Is Hardest Hitting Hurler

SILVER SPRINGS, June 6. Goose Kettles, former manager of the Cocoa Indians, is the Class D Florida State League's hardest hitting pitcher, according to official averages released at league headquarters here today for the period ending at midnight Sunday, June 3.

Coming up with 14 hits in 31 trips, the big fellow had a .412 mark after 18 tilts to be challenged only by Mike Dzingeulowski of Orlando and Jerry Schultz of Sanford each with a .215 average.

While 50 of the loop's players may be classed as "regular" hurlers, only three of them had hit homers thru Sunday—Al Neville of Sanford had two, while Jorge Rivero and Don Urquhart of Gainesville had one each and only three had stolen a base—Urquhart of Gainesville and Dzingeulowski, each with two.

Urquhart had won 12 with Jim Coppock of Daytona second with 10, while Jim Vickery and Lowell Gray, Cocoa rookies, had each dropped 10 of 14 decisions.

Here's how they stood in wins and batting thru Sunday:

Pitcher-Club	W	L	ab	rbi	avg.	
Porter, Sanford	6	0	1	3	2	.667
Schultz, Sanford	15	5	5	32	10	.513

# Mrs. Merritt Says Nagging Aches And Pains Left Her After Taking Hadacol

HADACOL Relieves Nagging Aches and Pains When Due to Deficiencies of Vitamins B1, B2, Niacin and Iron

Mrs. Louise Merritt of Earling, West Virginia, suffered from nagging aches and pains, a poor appetite and a tired run-down feeling which can be caused by a lack of Vitamins B1, B2, Niacin and iron and the pains bothered her so that she was unable to do much house work. But Mrs. Merritt told her story in her own words:

"I am 27 years old, married and I am a housewife. Before I started taking HADACOL, I didn't have any appetite. I felt tired all the time and I suffered from nagging aches and pains, and I was unable to do much house work. Now, I am on my 14th bottle of HADACOL and I am eating well and the nagging aches and pains and tired feelings have all left me. I was also underweight before taking HADACOL. Now I have gained a few pounds. I intend to continue taking HADACOL."

Yes, now Mrs. Merritt is able to enjoy life once again. It is possible to actually relieve the REAL CAUSE of those nagging aches and pains when due to the lack of Vitamins B1, B2, Niacin and Iron in the system.

AND LISTEN TO THIS! Continued use of this great HADACOL not only gives continuous complete relief but helps keep such painful distress from returning when caused by such deficiencies. Now that's the kind of product you have been waiting for. That's the kind you should buy and start taking at once.

And HADACOL'S wonderful Vitamins and Minerals come in special pleasant liquid form so they are quickly absorbed and assimilated in the blood, ready to go to work at once.

Because HADACOL helps build up the hemoglobin content of your blood (when iron is needed) to carry these precious Vitamins and Minerals to every organ and to every part of your body.

Louise Merritt

You may have tried other Vitamin preparations or other Vitamin and Mineral preparations, so we make you this offer. Try a bottle of HADACOL today. You be the judge. If you do not believe that HADACOL is the best Vitamin and Mineral preparation you have ever taken, we will gladly send you back your money. That's our positive money-back guarantee. You take no chances.

So be fair to yourself. Don't go through life suffering from nagging aches and pains when they are caused by lack of Vitamins B1, B2, Niacin and Iron, when relief may be as close at hand as your nearest drug store.

**REFUSE SUBSTITUTES**

There is only one HADACOL. Don't let anyone tell you something else is "just as good." Insist on genuine HADACOL. You risk nothing because HADACOL is sold on a strict money-back guarantee.

Sold at all drug stores. Trial size, \$1.25, but buy the large family-size, only \$3.50, a 3-oz. bottle. The L. S. L. Corporation, Inc., 1000 Broadway, New York 10, N. Y.

His own best play of the season was a driving stab of a slashing single by Altobelli in the hole between first and second which Frank came up with and made the throw while almost standing on his head.

But Frank has something else which is the essential of every top infielder—call it brains, instinct or what have you—he knows what to do on every play, never making the costly "errors in judgment" for which there is no place on the scorecard, but which show all too glaringly in the score.

Maybe Frank's greatest asset is something that defies description—tenor spirit.

**ATTENDANCE**  
LOS ANGELES, June 6—(AP)—Pacific Coast League attendance is down.

Figures for the first 10 weeks of that 1951 baseball season show that attendance is down 335,740—1,283,083 to 949,343.

The biggest drop was at Oakland, totaling 126,516—208,567 to 82,051.

Francis Quinlan of Boston was the first amateur to win the U.S. Open in a triple playoff in 1913. He did it when he was 20.

Military Training

(Continued From Page One)

Training course, each trainee would be transferred to the reserves for seven and a half years. The Defense Department would operate the whole program. UMT proposals have been before Congress off an ever since President George Washington's time. He recommended it—unsuccessfully—and many other Presidents have also tried to get it through Congress. The idea behind UMT is that the country's safety demands a large, trained force of young men who can be summoned to active duty—and who would be ready for demobilization. It is too expensive, the UMT argument runs, to maintain a huge standing army indefinitely. On the other hand, those opposed to UMT say that it is not really a reserve force. It is a standing force for training and might militarize the country. Each trainee would remain subject to call during the seven and a half years following his six months' basic training. The draft UMT bill includes these other "major points," according to Senator Russell. They are all connected with the draft, not UMT. 1. Persons deferred from induction for occupational reasons, such as a defense industry job or college study, remain liable for service until they are 35 years old. Under the present law liability ends when they reach 28. 2. Physical and mental standards for induction are cut back to about the same minimum levels used during 1945, or during the last war. Sponsors claim the new standards will make 150,000 men, previously selected and still in the present 10 through 26 year old draft pool, eligible for induction. 3. Authority for local draft boards to require conscientious objectors to take civilian jobs "contributing to the national health, safety or interest." At present they are merely deferred. Failure to comply could bring five years in prison and a \$10,000 fine. 4. Expansion of the so-called "foreign legion" in the Army from 2,500 to 12,500 in the next five years. The Senate had previously passed a bill to increase it to 125,000. These carefully screened aliens become eligible for citizenship after five years' honorable service. 5. Removal of the present limitation of two per cent of total strength of women in the armed services, such as the Army, Navy and Marine Corps. 6. A \$500,000 ceiling upon military personnel in the Army, Navy, Air Force and Marines. The actual goal is 3,462,205. 7. Lowering of the minimum

Roy Wall Moves To His New Building

Roy Wall, plumber, who has been in business here for the past five years, moved recently into his new building at 1007 Sanford Avenue. The building is of concrete-block construction, has a frontage of 36 feet and depth of 44 feet, and a 24 by 8 foot glass front. Lighting is fluorescent. Concrete floors are covered with asphalt tile, and ceiling material is asbestos. Adequate parking facilities have been provided for customers. Prior to coming to Sanford, Mr. and Mrs. Wall were engaged in business in Tampa. They plan the opening of their new building during the next two weeks.

Bond Issue

(Continued from Page One) to connect with the French Avenue water line but pointed out that the 60 foot right of way might not permit erection of a pump house on highway property, said Mr. Herndon. Taken under consideration was a \$1,000 offer by William Phillips, home builder, for 25 lots on Willow Avenue, near Orange Avenue and the Sanford Park development. A deed from Leo Hutner, granting right-of-way on Grapeville Avenue was approved, and construction work on the road is now due to proceed. An application for a railroad crossing on Red Avenue, near Oviedo, was approved. draft age from 19 to 18½ with a requirement that local draft boards call all men available in the present 19 through 26 pool before calling any 18 year olds. 8. Extension of the required combined active duty and reserve service to 8 years. It now averages about six years. 9. Extension of the present 21 months' draft service to 24 months, and a similar term for reservists called to active duty. Reservists who qualify as veterans of the last war could ask for discharge after 17 months' duty. 10. Deferral of high school students until graduation—or age 20—and college students until the end of the academic year. 11. Extension of the Draft Act, now due to expire July 9, to July 1, 1954. 12. Authority to the Secretary of Defense to regulate the use, possession, sale or traffic in beer, wine and other alcoholic beverages in and near armed forces installations. 13. Roman writer (ES) to 70 A. D. describes tooth powder made from ashes of such things as dog teeth, deer antlers, hare or mouse heads and pattern bones from livestock.

Korean War

(Continued from Page One) battlefront. He said 120,000 North Koreans hold the eastern and western flanks, with 100,000 Chinese in the center defending their vital triangle. Eunson indicated the Eighth Army was trying to provoke another Communist offensive, and if it doesn't come the Allies may sweep the Choswon-Kumhwa-Pyongyang area without a bitter fight. "The Eighth Army sloggers are digging in again," he reported, "with only tank-led raiding parties lobbing out at the frontlines." This recalled Lt. General James A. Van Fleet's statement that his ground forces might provoke another premature Red offensive, such as they launched Apr. 22. If the Reds don't come out again, Eunson reported, "the U. S. soldier might walk right in" and take over the strategic flat lands. Hints of a possible new type of warfare in Korea came in an unconfirmed report from Taipei. The China Union Press said 30,000 Soviet satellite troops have arrived in Red Korea. The Chinese Nationalist agency said 1,000,000 conscripts are digging deep tunnels, immune to air and artillery attack, linking strong points from which this new force will fight. Thirty thousand Red guerrillas still are operating in South Korea, a Korean Republic spokesman said. He reported 110,000 have been killed or captured since October. The Eighth Army gave this picture of the front Wednesday: West only patrol action on the dragging left flank south of the 38th Parallel. Gains of up to two miles near Tongchon, six miles north of the border. U. S. forces gained a little more than a half mile in the Yonpou area; one to two miles to the east and northeast. Limited gains were made in the Hwachon area. East: Reds put up heavy resistance north and northeast of Yangju at the eastern end of Hwachon Reservoir. This was the communists' only reference to heavy resistance. AP correspondent George A. McArthur said fierce fighting flared all along the eastern sector from Yangju to Inju. North Koreans, fighting stubbornly from their dugouts in the hills, held attacking Allies to slight gains above Yangju. U. S. infantrymen attacked through a mortar barrage north and northeast of Inju. They hacked out small gains. "Despite mounting Red resistance," McArthur reported, "there were no indications that the Communists were fighting anything but a defensive action." He said no Chinese were encountered in the area, only North

Government Drops "Mother Hubbard" Anti-Trust Suit

WASHINGTON, June 3.—(AP)—The government today dropped its so-called "Mother Hubbard" anti-trust suit against the U. S. petroleum industry. Attorney General McGrath, in announcing the action, said the litigation—originally filed in September 1945—was too unwieldy for prosecution as a single case. Instead, he said, the Justice Department has decided to press individual anti-trust cases against various segments of the oil industry in actions involving fewer defendants and more limited issues. The "Mother Hubbard" case was brought against the American Petroleum Institute and 357 corporations engaged in various phases of the petroleum business. Among lawyers, it has often been said facetiously that the case was never brought to trial because the government did not have a court house big enough to hold all of the defendants and their attorneys. Dismissal of the case was obtained in the U. S. District Court here.

School Teachers

(Continued from Page One) percent of this had been spent on education "which is vital to the stability of the state and nation." A committee of teachers was appointed to work with the Seminole County School Board in obtaining needed information about teachers' salaries in adjoining counties, and average salaries paid in other states. The committee includes E. T. Milver, chairman, Paul Miller, Roger Harris, Mrs. Ruth Hamilton and Mrs. Egan Price. The club voted that Mrs. Brock request the president of the County P. T. A. Council to appoint a group to act as a Citizens Committee of Seminole County to work for a raise in teachers' salaries. This action was reported to have been in keeping with that of several adjoining counties. Another called meeting of the Seminole County Teachers' Club is to be held on June 18. The hour and the place will be decided later.

State Farmers Market

Report No. 137 SANFORD STATE FARMERS' MARKET, Sanford, Florida. The following prices reported by the Dealers on the Sanford State Farmers Market for produce sold to Truckers & Dealers up to 1:30 P. M. June 3, 1951. Beans, Tendergreen, depending on quality, 60-70. Bell Peppers, depending on quality, 175-200. Cabbage, depending on quality, 40-70. Carrots, 250. Cauliflower, depending on quality, 1.00-1.25. Celery, depending on quality, 1.00-1.25. Corn, depending on quality, 1.00-1.25. Cucumbers, depending on quality, 1.00-1.25. Eggplant, 1.00-1.25. Lettuce, depending on quality, 1.00-1.25. Onions, 1.00-1.25. Potatoes, 1.00-1.25. Tomatoes, 1.00-1.25. Citrus: Grapefruit, 1.00-1.25. Lemons, 1.00-1.25. Oranges, 1.00-1.25. Tangerines, 1.00-1.25. The Sanford State Farmers' Market total receipts Monday June 3, 1951, 2,352 packages. Handling light, demand slow. Market slightly weaker.

Acheson Testifies

(Continued from Page One) after the aggression stopped, that was the place where it should be considered. "There is not anything in our action to indicate that the United States changed its attitude on these problems in any way, or that it would change its attitude in any of the discussions, but it was considered, and I think soundly, that if the aggression ceased, these matters were the subject of discussion." Critics have contended the United States by endorsing this plan had risked a situation in which it would have been outvoted by a coalition of the Red Chinese, British and Russian representatives. "We're not moving into a rather unhealthy climate to discuss these matters before that (United Nations) committee," Russell asked. "No, sir," Acheson said. An "appropriate body," he said, "could be a very much larger body, and indeed it would have been our purpose to have insisted that it should have included all of the FEC (Far Eastern Command) powers who

Iranian Crisis

(Continued from Page One) tions are only on paper." The leftist organ Ruznameh Ayandeh declared Mossadeq's "unclear, vague" policy is helping AIOC to postpone enactment of the oil law. The newspaper Shahed, a supporter of Mossadeq's national front, charged the oil company with a "fox" British trick because it said it could not get its representatives here for the midnight deadline last Monday the government originally set for beginning of the talks. In London the British cabinet approved a four-man AIOC mission to leave for Tehran this week. It includes Sir Thomas Gardner, one of the government's two representatives on the oil company's directorate. The British government owns more than 50 per cent of the stock in the company. Iran's government, however, continued to delay its moves to finally take over the oil properties. Deputy Prime Minister Hussein Fatemi said today the three-man temporary board of directors set up to run the nationalized oil industry "may

DiSalle Prices

(Continued from Page One) cost of living index as an indication that the "brakes have really taken hold." The index for last month, he noted, showed a rise of only one-tenth of one percent—the lowest increase in a year. "Yet the opponents of direct controls still say all this would have happened anyway," he said. "If that is true, why didn't it happen until a general (price) freeze order was issued?" DiSalle said these critics propose three things: 1—Tightening up on federal spending; 2—Curbing public and private credit expansion on 3—Increasing taxes "where they will most help take the pressure off markets already under strain." DiSalle said he "wholeheartedly subscribed" to the idea of eliminating any waste in government spending and favored credit controls with allowance for credit expansion to finance defense production. On taxes, he said, the critics have not said where the tax loads would fall or how high those taxes should be. "Intentionally enough," he added, "the suggestion comes from sources ordinarily opposed to higher taxes on the grounds that higher taxes blunt incentives and interfere with productive capacity." leave" Thursday for Khuzestan Province, site of the chief Anglo-Iranian holdings.

are interested in foreign questions—at least those powers: there may be others, too.

"We should have proposed for discussion other problems also," he said, in addition to Formosa and U. N. representation. "So that there is nothing in this resolution to indicate that the nations named were to be the only nations who will discuss these matters nor is there anything in the resolution to indicate that the two problems mentioned were to be the only problems." One point in the proposed cease fire agreement called for the Formosa and China representation issues to be considered by "an appropriate body which shall include representatives of" Britain, France, the United States,

Russian and the Chinese Red government. That was the "committee" to which Russell made reference.

It was Acheson's fifth day of testimony at the inquiry. As have all witnesses, he testified behind closed doors but a stenographic report of what was said was given to newsmen after first going through the hands of censors. There was nothing in the first portions of the transcript to indicate any notice had been taken of charges Senator Brewster (R-Maine) made against Acheson in a Senate speech yesterday. Brewster accused the Secretary of State of "bare faced distortion" in reviewing U. S. Far Eastern policies for the tain, France, the United States,

NO METALLIC DEPOSIT! The first special motor fuel —still first because it leaves NO METALLIC DEPOSIT! Amoco-Gas is completely different from all other gasolines. It is made differently, from a different formula. It is made from pure petroleum. It can burn completely. It leaves no metallic deposit. It saves your car's engine, and it saves you money. Use Amoco-Gas—for longer car life. There's nothing like it! AMOCO GAS -leaves no metallic deposit AMERICAN OIL COMPANY—Member to Florida

ODHAM MOTOR CO. THANKS YOU I want to sincerely thank all of my friends and customers for their patronage. I have given careful thought to my successor, BOB ROHL, owner of ROHL MOTOR CO., who will operate from the same location and will continue to sell and service the best car and truck on the road today, STUDEBAKER. BOB ROHL is able and experienced and until June first was the STUDEBAKER service representative for Florida and Southern Georgia. I strongly feel that BOB ROHL has the Automotive "Know How" that will enable him to make available to my friends and customers the best in automotive sales and service. BOB ROHL chose Sanford because he believes that Sanford is a Friendly and progressive city with a bright future in the further development of Florida. His investment in Sanford with STUDEBAKER is substantial and I feel that he will help Sanford's future. I am sure that all of you will join us in saying "Welcome to Sanford, BOB. We're glad you're here." Sincerely, Bailey ODHAM MOTOR CO.

STUDEBAKER in SANFORD is ROHL MOTOR CO. Inc. BOB ROHL, Formerly the STUDEBAKER Corporation General Service Representative for Florida and South Georgia is now Sanford's STUDEBAKER DEALER. The STUDEBAKER Sales and Service will continue operation at the same location, 1401 French Avenue, Across from the Farmers Market. We will Maintain for all car and truck owners a complete service and parts department staffed with Factory Trained Experts, the best of tools and equipment and using only factory authorized replacement parts. We invite all car and truck owners to come in—LOOK—DRIVE—COMPARE the NEW 1951 STUDEBAKER—Then find out why we say For A Better Deal Better See For Better Service Better See ROHL MOTOR CO. Inc. 1401 French Avenue Phone 1570 We are still offering big discounts on Kelvinator Refrigerators and Kelvinator Stoves. See us before you buy.

In Unity There Is Strength—  
To Protect the Peace of the World;  
To Promote the Progress of America;  
To Produce Prosperity for Sanford.

## THE WEATHER

Partly cloudy, warm and calm; through Friday with thunder-showers in a few scattered places on afternoon and evening.

# Allies Straddle Two Hills Dominating Red "Iron Triangle" Area

### Chinese Battle Desperately To Save Piled Up Supplies In Chorwon Region

TOKYO, June 7—(AP)—Allied troops today straddled the two most important mountains guarding the approaches to Chorwon and Kumhwa, Red strongholds in North Korea.

Sweating United Nations infantrymen clambered to the top of 2,700-foot Mount Kodae (four miles) south of Chorwon. (The name and location of the mountain were deleted by the censor, but neither this story nor previous censored field dispatches left any doubt as to the identity of the mountain.)

From this height the Allies dominate the mountain road and valley corridor up which other troops were pushing. They are in position to pump artillery fire into battered Chorwon, 17 miles north of the 38th Parallel.

Further to the east mid-level United Nations troops Wednesday seized 3,100-foot Kwangdok Mountain, southwest of Kumhwa, a delayed front line dispatch said. The mountain looks up another valley route and towers over hills to the north.

Allies bent off a series of battalion-sized counterattacks early Thursday morning on the road to Kumhwa, then they clawed their way 2,000 yards closer to the southeastern corner of the Reds' prized "Iron Triangle."

Many units burned up their normal supply of ammunition early in the attack. Tanks replaced them, turning a gantlet of Chinese artillery and mortar fire.

To the east, Allied troops were driven from one prominent ridge (Continued on Page Two)

## 5 Youths Caught Setting Dynamite Blasts In Miami

MIAMI, June 7—(AP)—Five teenage youths were detained by police today in an investigation of a series of dynamite blasts set off against public buildings in the Miami area.

Officers sought to uncover dynamite caches of the youths who, police were told, sometimes carried as many as 60 sticks of the explosive in their car.

Questioned by police and booked for investigation, according to Deputy Capt. Benjamin J. Heston, are Alex John Pennell, 18, former Miami High School student and now a University of Miami freshman; Samuel Chambers, 17, member of Miami Senior High School's 1951 graduating class; Daniel J. Ryan, 16, also a Miami High School senior; and John and James Stefano, 17-year-old Miami High School twins.

The series of mystery blasts that have rocked whole areas but caused only minor damage was climaxed Tuesday night by the dynamiting of a half-built Miami Jewish Center.

Howard said one youth told of retreating with his companions to a soda shop near Miami Jackson High School to listen for the explosion of eight sticks of dynamite planted against the school on the night of Mar. 7.

The explosion blew out 127 panes of glass in the school. A similar blast rocked Shandon Junior High School on the night of Mar. 26. The same night dynamite exploded against the walls of a downtown hotel, leaving 75 to 100 windows.

Detectives said they got the impression the Jackson High School explosion was the outgrowth of Keen High School football rivalry.

The youths will be brought before the Dade county collector today for further questioning, Howard said.

MISS FLORIDA  
MIAMI BEACH, June 7—(AP)—Mary Godwin, a tall, blonde 19-year-old from Gainesville, was chosen Miss Florida early today at a beauty pageant held in connection with the Junior Chamber of Commerce convention.

She is a freshman at the University of Florida, five feet eight inches in height and weighs 122 pounds. She will represent Florida at the Miss America contest in Atlantic City, N. J., in September.

Miss Godwin was chosen at the C. J. Blum Hotel, Miami Beach, in the early morning hours after the contest was moved from Bayfront Park because of heavy rain.

## Peron Inspired Article Blasts United States

### Interference In Internal Affairs Of Argentina Claimed; News Agencies Hit

BUENOS AIRES, Argentina, June 7—(AP)—Democracia, a semi-official newspaper which speaks authoritatively for the government charged today the United States is financing a campaign to discredit Argentina.

This is an added indication of worsening U. S.-Argentine relations since the government shut down and seized the independent newspaper La Prensa, an action sharply criticized in the United States.

The Democracia editorial signed "Democras," believed to be a pen-name of President Juan D. Peron himself, it said U. S. policy is being "conducted by amateurs," adding that this was particularly true with regard to Argentina's ever since Spanish invasion, as U. S. ambassador, "Insulted the Argentine flag," Braden, as ambassador in 1945, was frequently sharply critical of the Peron government's attitude toward Nazi Germany.

The editorial said that since the time the economy was headed by the U. S. sought to sabotage and boycott Argentine economy and that the U. S. embassy in Buenos Aires provided huge sums to "defame our country."

The editorial attacked the Associated Press and the United Press, describing them as "official or semi-official agencies charged with disseminating false news in order to discredit our country in the world." (Actually, neither agency has any connection with the U. S. or other governments.)

The writer said newspaper and radio campaigns in Brazil and Uruguay, "financed by dollars and pounds and culminated." "Documents prove that the United States embassy has directed a campaign against Argentina in Mexico," said the editorial.

This seemed to be a reference to a recent unreported story by a small Latin American news agency from Mexico that "Lt. General Harry Remon" had predicted invasion of Argentina and other countries which would not be to the will of the U. S. The U. S. State Department has said no Lt. General Harry Remon exists.

Democras wrote that labor organizations in Uruguay, Peru, Mexico, and other countries, which attack Argentine workers, were supported by money from official U. S. embassies.

"For more than a year the Southern Cone has been inundated by pamphlets against Argentina which can be traced to the United States," the editorial said, "in connection with the forthcoming political campaign (the Argentine presidential election scheduled for next February)." The North American organization will set up Montevideo to intervene in the affairs of this nation with radio broadcasts and other publicity. And, more important, our opposition is beginning to spend large sums of money. Now we can say that the campaign by radio, movies, television, newspapers, books and magazines is being directed from the United States in (Continued on Page Two)

# Russians Might Not Be Able To Stop Conflict In Korea, Secretary Of State Asserts

### Graduation Ceremonies Are Held At Lyman, Lake Mary And Longwood

Graduation exercises were held last night at Lyman High School, Longwood and at the Lake Mary School. Over 100 school students will graduate tonight.

Twelve students received their diplomas from Principal R. E. Miller at the Lyman School. The valedictorian was Clyde Walker, president of the Lyman School.

## Lovett Declares Defense May Need Over \$69 Billion

### Expanding American Interests May Demand More Money

WASHINGTON, June 7—(AP)—Defense Secretary Robert Lovett said today the armed forces may need authority to make more than the \$40,650,000,000 (600 million) of contracts and other commitments they are asking during the fiscal year starting July 1.

Lovett was the first of Defense Department witnesses to appear before a Senate Appropriations Subcommittee to justify the military budget request submitted by President Truman April 30.

He said in a prepared statement that the original, unmodified requests of each of three armed forces totaled about \$14 billion dollars as they turned them in to the Defense Department. Subsequent adjustments by the department's fiscal experts and by the budget bureau whittled this to the present \$40,650,000,000.

"To the best of our ability," Lovett said, "we have provided funds to support the essential procurement programs through these minimum lead time periods (the time required to get contracts on work started and the product rolling from manufacturing lines)."

That, he added, if subsequent evaluations of the world situation require "additional forces or further expanded procurement, it may be necessary for us to request additional funds during fiscal year 1952."

Lovett told the committee it is impossible to estimate how much of the military outlay (Continued on Page Two)

## Fred Rossetter Wins Honors At Princeton

Fred Rossetter, Princeton University student and son of Mr. and Mrs. A. K. Rossetter, has won top honors by attaining the highest departmental standing in geology in which he is majoring, and in other courses has also attained high marks.

During the summer months he will gain practical knowledge in geological work by association with the U. S. Geological Survey in Mt. Carmel, Pa.

## Wage River War In Indo-China

COMBATING FROM A RIVER CRAFT, these natives machine gunners of Indo-China's Vietnam forces hunt down the Red-inspired Vietminh guerrillas who have been particularly active in the rice-rich delta regions. French headquarters have reported extensive Vietminh military operations in the southern reaches of the Tonkin delta area. (International)

## Wildcat Captured

A wildcat kitten, recently presented to the Sanford Zoo, has been captured when it leaped into the cab of a pickup truck at the Sam Long ranch at Chulodota.

## Embarrassed

ROME, June 7—(AP)—A vacationing Scotland Yard inspector was changing a flat tire on his automobile yesterday. A friendly Italian, riding a bicycle, stopped to lend a helping hand. The inspector thanked him and after a while the Italian disappeared. So did the inspector's jacket and his papers.

Inspector Peter James, 40, of Scotland Yard, went to the Italian police to report the theft.

## Sportsmen's Fish Fry Attended By Over 200 People

Williams Is Praised By Porter Lansing For Fish Law Vote

George Mitten, president of the Seminole County Sportsmen's Association, welcomed more than 200 members, their wives, children and guests at a fish fry at Mullet Lake Park last evening.

The menu was tasty and included a platter of fish, corn on the cob, salad, bread, coffee and ice drinks.

Using sound track facilities, Porter Lansing, president of the Florida Wildlife Association, State Representative Volie Williams and Mr. M. Maxine Hodgkin Lincoln Insley, Del. Insley, recording secretary of the Wildlife Association and past president of the Volusia Sportsmen's Association and Wade Priest, chief wildlife officer of the Fifth District, made brief talks.

Mr. Lansing protested against the findings of a special committee that had recommended commercial fishing north of the Volusia bar on the St. Johns River and in Lake Okechobee on the grounds that there is an over-supply of salt fish in those areas.

Mr. Williams thanked Mr. Lansing and the Association for the commendation, but pointed out that the vote on the fish law was done for what he considered the best interest of all of the people.

He declared that if this pleased the sportsmen, he was glad and that the best interest of the people would have to be taken into account. He reviewed a number of bills handled in the House and Senate which were in any way related to sports, fishing and hunting.

One of the bills, which would have allowed certain types of trap and fishing rights was sponsored by Mr. Williams, who also quoted Lynn Twinn, commander of the Disabled American Veterans Post, as having been against the bill.

Mr. Hodgkin told the Sportsmen that their own holding an outing to be supported by entire families was possible through means of cementing family ties and camping in the outdoors.

When we seek recreation together as a family we learn to know each other better, to be patient, understanding and considerate," he declared. "When families are more closely knit together, the entire country must of necessity be more closely knit together."

Mr. Insley praised the work of Mr. Lansing in behalf of sportsmen, and commended Mr. Williams and Mr. Boyle for their efforts for conservation.

Assisting in cooking, providing supplies, selling tickets and making the outing a success were E. V. Turner, Carl Carlton, Bob Williams, James Slaughter, P. A. Metz, John Welch, Hal Johnson and C. C. Whittington.

## Bar Members Asked To Attend Induction

William Akerman, chairman of the program committee of the Orange County Bar Association, has invited attorneys of Sanford and Seminole County to attend the short program Monday afternoon at 3:00 o'clock in the Orange County Court House, Orlando, for the purpose of formally inducting the Hon. Terry H. Patterson into his office as new Circuit Judge.

In a letter to State Senator L. F. Boyle, Mr. Akerman wrote, "We would also appreciate your contacting the members of your county delegation to the legislature, advising them of the program and extending to them a cordial invitation to attend."

## Draft Bill

WASHINGTON, June 7—(AP)—House passage sent to President Truman today a bill lowering the draft age to 18½ years and laying the groundwork for Universal Military Training.

## Acheson Declares U.S. Cannot At Present Halt Occupation Of Europe By Russia

WASHINGTON, June 7—(AP)—Secretary of State Acheson today called a "hard question" whether Russia could stop the Korean war even if so minded.

Acheson made the statement in response to questions at the Senate's MacArthur hearings. Previously, the Senators had heard top U. S. military men testify they believed Russia could call off the fighting in Korea.

Like the military men, Acheson said he does not believe the United States has the military strength yet to prevent Russia from overrunning Europe if the Soviets turn to aggression there.

Senator Lodge (R-Mass.) asked of Russia "has enough influence to bring enough pressure to bear to stop the aggression in Korea if it wanted to?"

Acheson said "that is a hard question for me to answer. It is purely in the realm of speculation. I think the Kremlin's influence will be very helpful if directed in that line."

Also in response to Lodge's questions, Acheson said:

"I believe 'good use' is being made of the time which, as far as we are concerned, Acheson Lodge phrased it, 'our men are doing everything that they can do to stop the aggression in Korea if it wanted to?'"

"He does not think the U. S. made a 'mistake' when it pulled its troops out of Korea in June, 1949, Acheson said it was the recommendation of the United Nations, and also 'the recommendation of our military establishment.' (Continued on Page Two)

## Officers Elected At Annual Meet Of Farm Co-operative

The Seminole County Veterans Farm Co-operative, at its annual annual meeting held at the High School Farm Building, elected four officers and four members to the board of directors.

Samuel A. Tindel was re-elected president; Charles T. Dwyson, vice president; Boss D. Hunter, secretary and Carl F. Lind, treasurer.

The following directors were re-elected for another year: George W. Arnold, Theodore Aulin, Jr., Roger Bimney, and Frank Jones. George M. Janulis was elected to fill the unexpired term of Louis Matheson who resigned the Naval service several months ago.

Gus Schmah, Homer E. Carter and John Pearson will serve as advisors.

The committee in charge of the Co-operative's packing house reported, said Mr. Pearson, successful cash sale of all products and stated that more buyers than usual at this time of year had been attracted.

They were unable to fill out all orders received. The venture has proved so successful, that plans are being made to operate on a year-around basis and handle all commodities that they can process and sell, F.O.B.

Plans were made to cooperate with the Seminole County Farm Bureau and the Veterans On The Farm Training Class on June 16. The City Commission recently authorized these groups to use the play ground, swimming pool, shuffleboard courts and picnic tables for the occasion. This use will not be exclusive, however.
