## 'Scoop' Jackson To Visit Sanford

Seminole County has that "something" the Democratic presidential hopefuls want . . . votes. And that is why they are beating a path into this county and Central Florida as they gather forces for the March 14 presidential preference primary in Florida and the Democratic national convention in August at Miami Beach. Public school education would best be served if the old fabric of Cabinet operation with an elected commissioner be discarded.

Instead there would be a 15-member board of education appointed by the governor and confirmed by the senate. This board would select a trained, professionally qualified administrator.

Thus the sad state of affairs which is now tangled, would be straightened out and Florida's expenditure of about \$1.5 billion a year on education would be accomplished with better results. When the session opened it seemed as though legislators would rise to the occasion and take

For if this does take place, then voters (and the legislators) can look forward to a long and hot special session when the more controversial proposals and necessities of congressional and legislative re-

districting have to be handled. Let education be freed from the bonds of political in-fighting and let the one thing that must be paramount - the creation of an education system which will greatly improve the end-product - the graduates for the world in which they must live.,

(The two meeting sites in this immedalte area are Orlando on March 2 and DeLand on March 8.)

According to Frye, the exact locations and time will be announced in the near future, and sportsmen who desire additional information on meetings in their immediate area may contact the Commission's region offices in Panama City, Lake City, Ocala, Lakeland and West Palm Beach.
