IN THE HEART OF THE WORLD'S GREATEST VEGETABLE SECTION

VOLUME XI

SANFORD, FLORIDA, FRIDAY, MARCH 5, 1920

NUMBER 29

WEST IS IN GRIP OF WORST BLIZZARD KNOWN IN YEARS

Towns Isolated, Wires Are Down TRAINS LAID OUT

FORECASTER SAYS STORM IS COMING SOUTH ON A VISIT

Chicago March 4 (By Associated Press) Winter's worst storms swept eastward from mountain and plain states where yesterday it reached blizzard proportions isolating towns in Colorado, Nebraska and South Dakota and wire communications in Oklahoma, Missouri, Iowa, Kansas, North Texas and Arizona. The blizzard will spread rapidly east and south today and tonight the forecast says sharply reducing temperatures. Twelve to twenty feet of snow is reported in the Laplata district in Colorado. Relief parties on snowshoes carrying provisions left for Cumbres Pass where trains are snow bound and are unable to proceed until the heavy snows are cleared away.

Late Wires

Washington March 4 (By Associated Press) Extension preferential rights entry all public lands to former service men urged before House Ways and Means Committee by D. W. Ross, Berkeley Calif. Clarence J. Owens, southern commercial congress, urged southern cut over lands to be utilized for soldiers settlement.

London, March 4 Lloyd George announced in Commons Allies reached decision regarding Armenian massacres, which dispatched their representatives to Constantinople. Not advisable publish decision, but fully alive to the gravity of position and need strong measures to protect minorities.

El Paso, March 4 Instruction transmitted Lieutenants Wolf, and Usher, American aviators been at Sonora since Feb. 2nd return to United States immediately without waiting for release of airplane. Question of release of airplane which made forced landing taken up later.

Chicago, March 4 Federal officials continued seizures spoiled impure foods Chicago warehouses, while district attorney prepared ask warrants to arrest owners food stuffs confiscated yesterday. Food held warehouse export Europe spoiled while waiting settling exchange market.

London, March 4 Evening Standard says allied supreme council decided to allow Germany float international loan because Germany ruined means danger spot in Europe.

SHOP MEN AND OTHERS WANT RAISE

UNION OFFICIALS IN CHICAGO TODAY TO DISCUSS THE WAGE SITUATION

Chicago March 4 (By Associated Press) The representatives of four hundred thousand maintenance of waymen and shop laborers of the union are here to discuss the wage scale officials of the union say the men are underpaid and tired of troubles.

Weather Report

For Florida probably local rain tonight and Friday except fair extreme south portion, colder Friday north and central portion. Much colder Friday night. Entire peninsula probably freezing temperature north portion and frost south.

Three Fort Myers Citizens Perish When Plane Burns

Fort Myers, March 2.—Capt. R. C. M. Page, aviation pilot; Thomas H. Colcord, member of the Fort Myers City Council, and G. Hunter Bryant, Lee county tax assessor, all citizens of Fort Myers, were burned to death when flames destroyed Captain Page's seaplane in an accident near Everglade, sixty miles south of the city, today.

All three men were members of prominent Lee county families and were well-known throughout this county, having lived here for many years. Captain Page is said to have been the first Florida man to go overseas with the aviation corps, sailing Oct. 15, 1907, from Mineola. He has the credit of bringing down three German airplanes while at the front. Since his return he had been carrying passengers extensively in his flying boat at Fort Myers, Naples, Sanibel, Useppa Island and other points along the coast.

The seaplane left here yesterday morning, carrying Mr. Bryant to attend to his duties in connection with assessment of road taxes in the southern part of Lee county. He chose the air route because the roads were in bad condition. Mr. roads were in bad condition. Mr. Colcord made the trip in place of Captain Page's mechanic.

The bodies were brought here tonight for burial.

High School Notes

"Much Ado About Betty". The seniors have started rehearsing on their class play. It will be given in the High School Auditorium, date announced later. Watch the Daily Herald for announcements. All star cast including 22 members of the senior class.

PORTUGAL FACES AN OVERTHROW

MONARCHISTS GATHERING ON BORDER READY TO SEIZE GOVERNMENT

London, March 4 (By Associated Press) Portuguese monarchists are gathering on the Spanish frontier and several including one who is prominent have entered Portugal says the Daily Mail despatch. The Railroad strike is spreading and large bodies of troops are said to be moving towards the frontier. The reports that the workers have proclaimed a soviet government have not yet been confirmed.

Valdez Arrivals

Dr. M. V. McCue Rossa, Martinsburg, W. Va.; Mrs. F. J. S. Roberts, Chicago, Ill.; Miss E. English, Shathroy, Canada; J. W. Pope, Jacksonville, Fla.; H. W. Fagan, Jacksonville, Fla.; S. W. Cooper, Mobile, Ala.; M. Bohman, Savannah, Ga.; M. Haligan, Milwaukee, Wis.; Tracy L. Smith, Philadelphia, Pa.; Tredwell Woolley, Philadelphia, Pa.; F. W. Cook, Jacksonville, Fla.; Fred Weiss, Jacksonville, Fla.; W. A. Bramsworth, Jacksonville, Fla.; James Kerr, Indianapolis, Ind.; Samuel A. Shell, Jacksonville, Fla.; A. B. Murdock, Jacksonville, Fla.; Charles Wheeler, Jacksonville, Fla.; C. C. Harris, Indianapolis, Inc.; R. F. Lewis, Tampa, Fla.; R. J. Sackett, New Orleans, La.; C. E. Bennel, Savannah, Ga.

For Musical Beginners.

Builders of modern fairs might well take a hint from a unique feature in Buckland's hotel in Brook street, now undergoing transformation to accommodate the new Guards club. This was a suite of "sound-proof" rooms called the "Handel suite," after the composer, who lived and died in Brook street, for the use of musically inclined visitors. This admirable arrangement enabled amateurs of such distressing instruments in the hands of the novice as the piccolo or the bagpipes to practice without disturbing their fellow-guests.—London Times.

HON. BRAXTON BEACHAM of Orlando, Fla.

One of the foremost men in Florida, who is being urged by his many friends to make the race for Commissioner of Agriculture and who will be elected if he decides to run. Mr. Beacham was here yesterday and declined to become a candidate on account of a recent operation, but his friends say he must run anyhow.

ELKS ELECT OFFICERS FOR YEAR

HELD ENTHUSIASTIC MEETING LAST NIGHT AND GET READY FOR BIG THING

Last evening the annual election of officers of the Sanford Lodge of Elks was held, and the following officers were elected to serve during the current year:

Exalted Ruler, Roy C. Bower. Esteemed Leading Knight, W. E. Watson; Esteemed Loyal Knight, Chas. L. Britt; Esteemed Lecturing Knight, Edw. Higgins; Secretary, E. F. Housholder; Treasurer, L. P. McCuller; Tyler, E. B. Rourke; Trustees, one year each: E. A. Douglass and Geo. C. Chamberlain, new men in the official life of Elksdom with exception of Bro. McCuller and Bro. Rourke who have filled their respective offices since 1913, and Bro. Housholder, the secretary who has filled his position since 1917.

There will be other officers appointed by the Exalted Ruler, and with the new officers Sanford Lodge of Elks expect to take a new lease on life, and hope again in the near future to be in a home that they can call their own.

The Elks Lodge Rooms after this week will be located in the Seminole County Bank Bldg. and all Elks are expected to come up and take part in the ceremonies.

JENKINS EXPELL- ED FROM MEXICO

SAID TO HAVE ALLEGED DEALINGS WITH THE REBELS

Mexico City March 4 (By Associated Press) W. O. Jenkins, former American consul will be expelled from Mexico as the result of his alleged dealings with the rebels it is reported.

Hate That Afford Protection.

The natives of the Philippines and South Sea Islands wear large sun hats as a protection from the heat. Palm leaves of various kinds furnish the material generally used, but the shapes differ. Some are woven flat and some with a peak. The commonest form in the Philippines is made of palm leaves covered with cane, a cane bandana giving an air space above the head. The ornamentation of these hats is very simple; no colors are used with the exception of brown, which is occasionally introduced in the use of hemp.—Asiatic Magazine.

BOARD OF TRADE WILL REORGANIZE NEXT TUES. NIGHT

EIGHT CLUBS IN STATE LEAGUE

St. Petersburg and Daytona Taken In—112 Games To Begin May 10th

Orlando, March 3.—By unanimous vote the directors of the Florida State League with W. W. Rose, president, presiding at the meeting here tonight, voted to take in St. Petersburg and Daytona as members of the League. S. B. Denton and Edward C. Darlington, owners of the Tampa club, asked for a franchise for Havana, but this request was refused on the grounds that the league is a state organization.

The meeting was held in the Elks home and was attended by about thirty directors. It was decided that the season should commence each year on the second Monday in May and continue to September 2, and the schedule to be 112 games played. The guarantee for each game was fixed at \$50.

A motion to reinstate Chapman of Sanford and Dunfee of Orlando was voted down, these two players violated league rules last season and will be not permitted to play.

The addition of St. Petersburg and Daytona makes the circuit consist of eight clubs.

Hon. Forest Lake and L. P. McCuller of this city represented the Sanford Club at the meeting.

Prominent Hoosier Here

Among the prominent visitors to the city this week is C. D. Porter of Indiana whose wife is Gene Stratton Porter the well known writer of Freckles and many other popular novels and short stories. Mr. Porter is comfortably located at the J. A. Harrold home and will spend a few weeks here enjoying the fishing and the Florida sunshine.

MEXICAN BANDIT IS KILLED

ONE WHO KILLED FORMER CONSUL MEETS HIS FATE

Mexico City March 4 (By Associated Press) Manuel Gonzalez the leader of the band who murdered Augustus Morrill, former American consul at Mannanango on February twenty sixth was killed by government pursuing troops it is semi-officially announced. Other bandits were killed and wounded during the battle.

Florida leads all Southern States

except Texas in the number of automobiles per capita, according to statistics recently compiled by the Omaha Chamber of Commerce. Figures were secured direct from the persons in each State in charge of automobile registration. The figures are interesting and are as follows: Texas, one for every 13.6 persons; Florida, one for every 16.6 persons; Georgia, one for every 21.4 persons; North Carolina, one for every 21.9; South Carolina, one for every 23.5; Virginia, one for every 23.5; Kentucky, one for every 26.6; Tennessee, one for every 28.8; Arkansas, one for every 36.4; Alabama, one for every 40.1; Mississippi, one for every 41.1.—Tallahassee Democrat.

Important News.

Jack's little playmate, Ben, was called home to God, so Jack was told when Ben died. A few nights later when Jack was saying his prayers his mother heard, "And please, God tell Bennie that one of his rabbits died today."

Tax of Idleness.

It would be thought a hard government that should tax its people one-tenth part of their time, to be employed in its service. But idleness taxes many of us much more, if we reckon all that is spent in absolute sloth, or in doing nothing; with that which is spent in idle employments or amusements that amount to nothing. Sloth, like rust, consumes faster than labor wears; while the used key is always bright, as Poor Richard says.—Franklin

Much Work To Do Here This Season

FOR ACTIVE BODY

WILL BE PLACED IN THE FIELD TO LOOK AFTER PEOPLE'S INTERESTS

There are at least two hundred men in Seminole County who believe that a Board of Trade is indispensable in promoting the welfare and the uplifting of the community and that no real progress can be made without a body and believing this a meeting called for next Tuesday night at the Court House at 7:30 to reorganize the Board of Trade, elect officers for the ensuing year and take such other steps as will put new life into this body of men who have done such good work in the past but who have certainly languished for the past few months. This is not only true of this community but of others and almost fifty per cent of the state papers are urging a better attendance at the Board of Trade meetings or asking for reorganizing or the organizing of new trade bodies all over the state.

There seemed to be a lethargy after the strenuous days of the war and the people just wanted to go way back and sit down for some time to come and forget all activities in the line of community work. This is the wrong idea for this kind of work should never stop and when a community thinks they can get along without a live trade body of some kind that community is sliding backward or is not getting what is coming to them.

It is useless to enumerate the many good things brought to Sanford by the Board of Trade or to enumerate the many good things that can be brought here now. Every citizen admits that our city needs such a body now and needs it more than it ever did and it is expected that at least fifty per cent of the real men of the county will be present at the meeting next Tuesday night. We can at least judge them by their works.

DRAFT DODGER FACES TRIAL

WEALTHY PHILADELPHIA YOUTH BEFORE COURT MARTIAL FOR SLACKING

New York March 4 (By Associated Press) Grover Cleveland Bergoll a wealthy Philadelphia faced court martial at Governor's Island today charged with desertion through eluding the draft. Army officials believe the outcome will have a bearing on the 170,000 draft dodging cases in the country.

SUPREME COUNCIL TO ADHERE

TO REFUSAL TO ALLOW THE RESTORATION OF THE HAPSBURGS

London March 4 (By Associated Press) The Supreme Allied Council has resolved to adhere to the refusal to allow the restoration of the Hapsburgs either in Austria or Hungary is started in conference circles in answer to inquiries regarding the Rumanian fears of the appointment of Horthy as Hungarian regent means the return of former rulers.

We have been unable to enthrone over this "drive" for money to pay some job hunters to help our legally elected and empowered officers to enforce the prohibition law. It would be so much cheaper and simpler, more direct and less open to suspicion of graft to devote the same effort to electing officers who will do their duty.—Leesburg Commercial

UNION CYPRESS COMPANY

Forest Lake and C. E.
Melton Close Deal

BUY R. R. PROPERTY

AND MELBOURNE TIMES
SAVE IT MAY BE EXTENDED
TO SANFORD LATER ON

The following from the Melbourne Times about two of our fellow townsmen will be interesting to Sanford people:

Good news is slow sometimes, but

it is nevertheless welcome when it does come. The big saw mill of the Union Cypress Company at Hopkins burned down the last day of August last year, and for many days thereafter there were all kinds of rumors afloat as to whether the mill would be rebuilt; but when the mammoth lumber yards began to dwindle and the salvaged machinery was being shipped away, it began to look as though this great institution was a thing of the past so far as this community was concerned.

The stockholders, failing to agree on a policy of reconstruction, decided to liquidate the assets of the company and as a result the mill of the big lumber plant is in a rather dilapidated condition today. But with the energy and capital that will be furnished by Hon. Forest Lake of Sanford, one of the prominent bankers of the state, and Mr. C. E. Melton, an experienced lumber and mill man, it will not take

long to breathe new life into the Union Cypress Company. These men have purchased the entire holdings of this company, including the railroad; and the work of rebuilding the saw mill and equipping it with up to date machinery will be started at once.

The company was under lease over 100,000,000 feet of pine timber and over 10,000,000 feet of cypress, which means that the new mill will have a run of at least fifteen years; and with Mr. Lake interested in the enterprise it may mean the eventual extension of the railroad to Sanford. Further details of the transfer of ownership and a history of the Union Cypress Company will appear in these columns next week.

FLORIDA FARMING INDUSTRY

Yet Some Are Averse
To Fencing Lands

MAKE MODEL FARMS

AND OTHERWISE DEVELOPS
THE STATE AS IT SHOULD
BE DONE

Florida is flourishing at almost an alarming rate. Every day we read of large tracts of land being purchased by live stock men, old-time cattle men, capitalists and big farmers, and all announce that they are going to fence these lands at once and develop them into great pastures and ranches.

In the face of this there are still many of the old range cattle men in the State who pre-ist in saying what they undoubtedly do not believe in their hearts, that the State will ever amount to anything except for scrub free range cattle and some of them are going so far as to obstruct, to the extent of their ability the efforts of the developers to improve these lands and fence them up. One of the commissioners of Putnam county is a cow man and he has bitterly opposed the efforts of others to have a road built through a small portion of the county to connect up with a road from Flagler county which is being built to the county line, to assist in the development of a 30,000 acre tract which has already had \$200,000 expended on it by the owners and on which there are now twenty well-developed farms with over 5600 acres under cultivation, with experienced farmers living on each of them in comfortable, attractive homes built by the developing company for the new settlers, and there are now \$50,000 worth of crops growing in this section that two years ago was practically a wilderness. And still this county commissioner, elected by the people to represent them and their interests, persists in saying that this splendid settlement will never amount to anything and that it doesn't need a road to connect it up with Palatka yet he has a shell road built as far as his place in San Mateo and also a road built off on one side to his brother's place. Of course he is sore because the free range enjoyed by his cattle for so long is narrowing down and he will have to do as others are doing, buy some land and fence it for his pasture or go out of the cattle business.

For the benefit of this cow man—county commissioner and other of his ilk, we will cite a few of the big fencing developments in the State in the past two or three years. In Friday's Times-Union two items told of a banker in DeSoto county fencing up 12,000 acres and a new company that has just purchased 60,000 acres in the same county which it will have fenced at once for a ranch. In this same county the Kissimmee Island Cattle Company has fenced 240,000 acres, and over in Ocala county the same company has a ranch of 225,000 acres fenced. In Polk county two big ranches have been fenced to the tune of about 25,000 acres and a number of smaller ones. Over in Okeechobee county the Southern Ranch, Inc., bought 250,000 acres and is fencing it as rapidly as possible, having 25,000 acres already enclosed. In Palm Beach county three big developments are going forward with great speed, one by W. J. Conners, one by Fred Kealey and one by the Southern States Land and Timber Company and the land to be fenced by them will aggregate 150,000 acres. Down in Dade county the Pennsylvania Sugar Company is developing a 70,000 acre sugar central, which is being fenced as rapidly as possible. The Curiles-Bright ranch is fencing another 12,000 acres, and there are a dozen other developments that will aggregate 50,000 acres more, all being fenced.

Hillsborough, Pasco, Hernando, Seminole, St. Lucie, Brevard, Volusia, St. Johns, Flagler, Putnam, Clay, Lee and in many of the North Florida counties large farms and ranches are being fenced, so it is easily seen that with what has been done in the past three years and what will be done in the next two years, fully two million acres will be placed under fence. Does this not look like business? Does all this amount to nothing? The range cattle men are seeing the handwriting on the wall and the wise ones are falling in line and securing large tracts before they become too high in price, as all of this development is bound to eliminate cheap land in Florida very soon.—Florida Times-Union.

CHANGES PERSONEL OF GROWERS

TRUCK GROWERS ASSOCIATION MAKES CHANGES IN SEVERAL OFFICIALS

The Sanford Truck Growers, Inc., have been making several changes in the past few weeks. J. D. Jacobs as general manager resigning about two weeks ago and his place being filled by W. B. Ahearn. D. C. Marlowe who has been secretary and treasurer since the organization started resigned his position Saturday and for the remainder of the season Mr. Michales will take care of this part of the association. Rex Packard has also resigned as president and his position will be filled at the next regular meeting.

These changes were brought about for many reasons and it is thought they will all be good for the association and the good work that was begun under these old officers will be continued under the new and the Truck Growers Association should be stronger and better as the years go by and it withstands the many changes of time.

W. B. Ahearn the new general manager is no stranger to Sanford as he has been coming here for many years in his capacity as the representative of the W. B. Ahearn Bro-

kerage Co., of Chicago. Prior to that time he was with the H. Woods Co of Chicago and the G. M. H. Wagner Co., and has been in the buying and selling game for twenty five years and brings to the association brings to the association his knowledge ledge gained after many years in the buying and selling and shipping of fruits and vegetables in all parts of the country. As an instance of what his experience means to the association that has been making consignments he had 65 cars dumped on him last week to sell and by Saturday night he had sold them all with a wide distribution all over the United States.

Mr. Marlowe has not disclosed his plans for the future but it is safe to assert that he will stay here and engage in the shipping business for he knows all about this part of the business and is one of the best posted transportation men in the business.

Watt's Many Inventions.
James Watt was interested in many inventions and devices. Among them may be mentioned a new kind of clock, which, to quote Watt's own language, "is to be ranked in mechanics as dillies and rubicos are ranked in poetry"; a micrometer, a drawing machine, which he himself termed "a glimmerack"; a copying machine for letters, prototype of the copying device so long in use; a machine for drying linen and muslin by steam; a method of getting illuminating gas from coal; a kind of oil lamp, and a smoke-consuming device on the down draft principle.

**THE BALL HARDWARE
COMPANY**

They couldn't be built now for twice \$71,000

When the talk turns from politics to railroads, and the traveler with the cocksure air breaks in with, "There's an awful lot of 'water' in the railroads," here are some hard-pan facts to give him:

American railroads have cost \$80,900 a mile—roadbed, structures, stations, yards, terminals, freight and passenger trains—everything from the great city terminals to the last spike.

A good concrete-and-asphalt highway costs \$36,000 a mile—just a bare road, not counting the cost of culverts, bridges, etc.

Our railroads couldn't be duplicated today for \$150,000 a mile.

They are capitalized for only \$71,000 a mile—much less than their actual value. Seventy-one thousand dollars today will buy one locomotive.

English railways are capitalized at \$274,000 a mile; the French at \$155,000; German \$132,000; even in Canada (still in pioneer development) they are capitalized at \$67,000 a mile. The average for all foreign countries is \$100,000.

Low capitalization and high operating efficiency have enabled American Railroads to pay the highest wages while charging the lowest rates.

CHANDLER SIX

Famous For Its Marvelous Motor

It Will Be a Chandler Six
If You Ask Chandler Owners

If by chance you aren't convinced that the Chandler is the greatest of sixes, compare them all. Check the Chandler against other cars of similar size and type that list at prices ranging hundreds of dollars higher.

See for yourself how much more the Chandler offers you in real motor car value, in excellence of mechanical design and construction, in actual performance, in extraordinary economy of maintenance, and in the beauty and comfort of its bodies.

Or ask Chandler owners who have owned other cars. They will tell you why they like the Chandler better. They will tell you how it serves them so well.

The Famous Celery Avenue

HISTORY OF SANFORD CELERY, FROM PEN OF RECENT VISITOR

The following story of Celery Avenue was written by C. A. Whittle, editorial manager of the Soil Improvement Committee of the Southern Fertilizer Association:

An avenue ten miles long, brick paved and flanked with celery farms. Properly named, we'll say.

Here and there as a part of the landscape along this avenue are palms rearing their flaring crests forty, fifty or more feet into the air, pines and live oaks festooned with grey moss swaying in the breezes. Along the avenue is a lake formed by the waters of St. Johns river. About midway of Celery Avenue is a white city. Having visualized this scene, take a fresh, icy-cold, crisp, juicy piece of celery with just enough salt to the taste; close the eyes, sink the teeth into a generous mouthful and crunch and crunch.

The glory of Sanford, Florida will then flood the senses. Yes, the city on the avenue is Sanford. Its foundation, its up-building, its glory is celery—the celery of Celery Avenue.

"See that 20-acre tract," said my host in whose automobile we were riding.

"Yes" it was easy enough to see, being not much larger than a barn lot.

"Well, the owner sold off of it \$45,000 worth of products last year," said my adviser whose veracity is well established.

"Gosh" or something to that effect was the surprised comment. Then followed other accounts of equally

as great achievements as the auto whirled along. Then my friend added "But last year was an exceptional year. The celery farmers made a killing then."

Upon inquiry as to prices this year it was found that the crop had been going at \$5.00 a crate, but the freeze up in the north had cut down the demand for the time, and the price was shading off; that is, it would be off if there was any celery offered to the market. When the north went out of the market Sanford stopped shipping. When the country wants celery enough to pay what Sanford thinks it is worth then Sanford will resume trade relationships. For the time, Sanford celery is king.

But Sanford does not carry all of its marketables in one basket. Lettuce is a side line and early potatoes are quite generally grown after a crop of celery, and after the potatoes comes corn for "roasting ears" or "green corn."

Two things make the Sanford region the most wonderful trucking places in the world. They are its sub-irrigation system and its high fertilization.

Along one side of each celery farm can be seen the tops of 18-inch to 2 feet tiles standing upright in the ground. Here and there is a water pipe and faucet. The water pipes mark an artesian well. Turn on the water at one of these wells and a stream as big as one's arm gushes forth. The celery farms are underlain with drain tiles. To irrigate the land the water is first turned into the bigger pipes at one side of the field and then turned into the drain, or irrigation pipes at will.

This irrigation system serves as a drainage system also. It is the complete system of soil moisture control ever devised.

The absolute control of the moisture makes it possible to apply fertilizers enough to veritably stuff the plants and force them to the greatest possible production.

It is rather common to find that five tons of fertilizer are used on an acre in a season and there are a number of records of the use of as much as six to eight tons, and one of four-ton tons, in a season.

In growing celery it is the practice to fertilize at every cultivation the cultivation being very week or ten days. But for the irrigation system by which the moisture is controlled, so much fertilizers would

burn up the crop during a dry period. Not all who have sought a fortune on Celery Avenue have found it. Little fortunes and great hopes have been planted with celery; something happened and "poof" they have gone up like smoke.

Celery growing requires exact knowledge exactly applied. It requires "scads" of money to grow celery. One stands to make or lose heavily. But a great deal of the element of chance in growing the crop has been eliminated by the method of moisture control now used so that the capricious market is practically the sole uncertainty.

The fertilizer salesmen of Sanford does not live on easy street, no, not by any means. Think about the loss when just one customer goes up.

Celery Avenue might well be designated "Uneasy Street" to the fertilizer man. He must watch his customer. He must advise him and help him. In fact, it is up to the fertilizer salesman to make his customer succeed if possible. And they have done it. Therefore, you will find growers in the Sanford region who attribute their success to fertilizer salesmen.

REGISTRATION BOOKS OPENS MARCH FIRST

VOTERS SHOULD GET READY FOR THE BIG ELECTION IN JUNE

There have been so many questions asked The Herald about the registration of young men that following will be interesting to all the voters:

The registration books for the Sanford precincts will open on March 1st and will remain open for the period between March 1 and thirty days prior to the primary elections on June 8. The law relative to registration and payment of poll taxes reads as follows:

"No person shall be permitted to vote at an election who shall have failed to pay at least on or before the second Saturday in the month preceding the day of such election his poll taxes for the two years next preceding the year in which such election shall be held; provided that no person shall be prevented from voting on account of not having paid a poll tax for any year which shall not have been lawfully assessed against him by reason of his not being of age and who shall have procured and

shall exhibit the certificate of the supervisor of registration to that effect as hereinafter provided. Provided that any person who has not been in this state one year previous to any general election shall be required to pay more than one year's poll tax. "All persons who were not of age in the preceding year, that is 1919, do not have a poll tax assessed against them, and of course are not liable therefore, but they must go before the registration officer and secure a certificate to this effect which will state that the person was not liable for the two preceding years on the grounds of not being of age, this certificate takes the place of the poll tax receipt for the two preceding years. THIS CERTIFICATE MUST BE SECURED.

This means that any young man who has attained the age of twenty-one years since January 1, 1920, will not have to pay his poll tax, but is required to secure a certificate from the Supervisor of Registration in lieu of his poll tax receipt.

POLITICAL ANNOUNCEMENTS

For State Attorney
To the Democratic Voters of the Seventh Judicial Circuit of the State of Florida:

I hereby announce my candidacy for the office of State Attorney of the State of Florida, subject to the action of the coming Democratic Primary.

Should I be favored with this nomination and subsequently appointed by the Governor, I will at all times endeavor to discharge the duties of this important office faithfully and to the best of my ability, without fear or favor to any person or persons.

GEO. A. DECOTTES.

For The Legislature
I hereby announce my candidacy for the position of Representative for Seminole County subject to the decision of the Democratic primary. If elected to this high office it will be my duty to serve all the people of my county as their public servant.

F. P. FORSTER.

For Tax Assessor
I wish to announce that I am a candidate for re-election to the office of Tax Assessor of Seminole County, subject to the Primary to be held in June. I shall appreciate your support. Yours very truly,

A. VAUGHAN

For Tax Collector
I am a candidate for re-election to the office of Tax Collector of Seminole County, subject to the action of the Democratic Primary, and will appreciate your support.

JNO. D. JINKINS

For County Judge
To the People of Seminole County
I beg to announce that I am a candidate for re-election to the office of County Judge of Seminole County Florida, subject to the Democratic Primary Election in June, and respectfully solicit your vote and influence in my behalf, which if given I assure you will be greatly appreciated.

E. F. HOUSHOLDER.

For County Judge
I hereby announce that I am a candidate for the office I formerly held of County Judge of Seminole County, subject to the action of the June primary.
I earnestly request the support of the citizens of Seminole County, and will greatly appreciate your influence in my behalf.

GEORGE GRIFFIN HERRING

For Clerk of Circuit Court
I hereby announce my candidacy for the office of Clerk of The Circuit Court, Seminole County, subject to decision of the Democratic primary to be held June 8th, 1920.

Respectfully,
W. L. MORGAN

For Sheriff
I hereby announce my candidacy for the office of Sheriff of Seminole County subject to the decision of the Democratic Primary.

W. P. CARTER

FOR SHERIFF
Having been urged by a large number of the voters of Seminole County to become a candidate for the office of Sheriff, I hereby announce my candidacy subject to the decision of the Democratic primary.

C. M. HAND

For Sheriff
I hereby announce that I am a candidate for re-election to the office of Sheriff of Seminole County subject to the decision of the Democratic Primary to be held in June, 1920.

E. E. BRADY

FOR SHERIFF
I hereby announce my candidacy for the office of Sheriff of Seminole County subject to the decision of the Democratic Primary. If elected, I pledge myself to discharge every duty fearlessly, faithfully, and impartially.

A. B. CAMERON.

Office: Herald Building Telephone No. 18

There is one sure method of saving money. Don't spend it.

Popular opinion is popular only so far as it is satisfactory to the object.

There is, at least, one noticeable effect of the war. America is quite safe for plutocracy.

It's comforting to know that arbitration is coming into style, and disquieting to know that style never lasts.

Some people are always endeavoring to enlarge their circle of acquaintances. The borrowing is easier you know.

Beauty, they say, is only skin deep. But that, we imagine, depends upon whether or not it is of the drug store variety.

An exchange avers that tenths of the conceit in the world is monopolized by men under 40. How old are you?

We insist, however, that there is no comparison between the prevailing price inflations and automobile tires. The latter sometimes blow up.

If the average American girl knew the number of microbes in a single kiss, she'd order a coffin, shut her eyes, and take one last delicious plunge.

If the former crown prince gets short of cash he might secure a booking in the American movies. It takes all sorts of people to make up a reel.

The good book tells us that it is not well for man to be alone. But it would take a mouth full to convince some of the henpecked gentry of this fact.

Some people are versatile geniuses in making life disagreeable for others, and they find the pastime so pleasing they never think of taking a reef in their sails.

No, don't ask us to think of the days when steak was 15 cents a pound and eggs 10 cents a dozen. There are limits to the memory of, even a newspaper editor.

An exchange sagely remarks that "nearly every divorce results in two or more marriages." Quite interesting indeed. Possibly one of the couple annexes a couple of new ones.

Fellow came to town one day this week and emitted dire predictions of an approaching panic. It broke when he returned home and his wife met him at the door. Poor devil.

Candidates for office should take warning and see that they are properly maneuvered before attempting to shake hands with our local population. We are just a bit fastidious in these parts.

Now winter's gone — Spring's come to stay,
And all the world begins to play.

THE spring is the automobile world's playtime. If your car is inclined to be cranky and "act up a bit" it needs a thorough overhauling. Bring it here. We won't sell you conversation. The only thing you will pay for is good solid work at a reasonable charge per hour.

B. and O. Motor Co. SANFORD, FLA.

MUNICIPAL OWNED ELECTRIC AND WATER PLANTS

We used to be prejudiced against cities and towns owning and operating water works and electric plants. We had the idea that it would be a disturbing element in municipal politics and that it would corrupt city officials.

When we read of the troubles some towns are having with corporation owned public utilities, we are glad our own city, operating and owning its electric light and water plants, is having no such troubles. Gainesville is the best lighted city in Florida and the water we drink is pure. The prices charged are reasonable and those officials who have these things in charge are always courteous. Our opinions have all changed about municipal ownership. The Sanford Herald tells us of the poor service that city gets from a corporation owned lighting plant. May we take the liberty of suggesting to our friends down there that they try our plan.—Gainesville Sun.

Yes, Col. Bob, you can take all the liberties you want. We have been trampled upon so much by this company that we are hardly able to resent anything but when you talk about municipal ownership you are not taking any liberties with us. Why, man, you are doing us the biggest kind of a favor. And we will go farther and ask you about the cost of operation and what it costs the consumer for we are forming a league here that will get municipal ownership or get somebody's goat. We happen to know something about good old Gainesville service and their own plants for we lived there about ten years and we also know that Gainesville is only one of the many Florida cities owning their plants and getting excellent service at cheaper rates than we are paying all of which makes us feel like a lot of sumps because we ever let a foreign company in here to take our money and give us nothing in return. However, we know when we have enough and we have had enough right now and we will soon have our own plants.

CATTS VS FLETCHER

The Jacksonville and Tallahassee correspondent of The Baltimore (Md) Sun gives the following figures as specific causes for which the present Governor Catts will have to answer for when the voters approach the polls on election day, at which time Governor Catts hopes to be able to swing the votes of Florida his way to enable him to be seated in the Senatorial chair in Washington. J. F. Essary is the name of the correspondent for the Northern paper, and he seems to be dividing his time between Jacksonville and Tallahassee while writing for the series of articles, which evidently are written for the purpose of throwing additional light upon the oncoming election.

Mr. Essary seems to be giving both sides of the question fair play, which is the only right thing to do, and from time to time we may reprint some of his sayings and wish to submit them to you only for your approval. In politics, we are true Democrats, and in cases where more than one Democratic candidate is running we cannot support either one or the other through our editorial columns, as long as each of the candidates in question bears a good moral and business reputation. But, if we hear about something that we think the public should know about in its true light—something pertaining to the reputation of some candidate seeking office we will openly tell you all we learn about the case. The News takes this stand because it believes in fair play and believes that all candidates should be dealt with in the same manner.

Daughter—Private secretary; salary, 2,000 a year.
Daughter—Secretary State Board of Institutions and Board of Pardons salary, \$1,000 a year.
Son—Adjutant General of the State; salary, \$3,000 a year.
Son—Naval stores Inspector of West Florida; fees about \$1,000 a year.
Son—Harbor master at Key West fees in excess of \$1,000 a year.
Son-in-Law—Tax collector of Duval county, in which Jacksonville is located, an office which in 1918 paid \$14,000.
The Governor's salary is \$6,000 a year, with \$1,200 contingent fund. But the aggregate amount of money paid by the tax payers of Florida to the members of the Catts family is not less than \$32,000 a year, a rather neat sum.—Gainesville News

In a few months we will be having the good old summer time and the ball team will be practicing at Holden Park and the fans will be busy hicking the winners and all will be peace on the St. Johns river. And during the summer time we will be getting our plans all ready for the municipal plant that will guarantee us service ere another winter brings the hundreds of visitors to our city again.

In Circuit Court, Seventh Judicial Circuit, Seminole County, Florida, in Chancery Seth Woodruff Individually, Plaintiff, vs. J. G. Morris, et al. Defendants.

Notice is hereby given that William Bothamy purchaser of Tax Certificate No. 26, dated the 4th day of June A. D. 1917, has filed said certificate in my office and has made application for tax deed to issue in accordance with law. Said certificate embraces the following described property situated in Seminole County, Florida, to-wit: Beg. 36.40 ch E of SW Cor Sec. 35 TWP. 19 S. R. 30 E (Tan W 15 ch N 15 ch E 7.42 ch S 10 ch E 11.31 ch to Ry SWly along W side to beg. 14 acres. The said land being assessed at the date of the issuance of such certificate in the name of unknown. Unless said certificate shall be redeemed according to law, tax deed will issue thereon on the 6th day of April A. D. 1920.

Witness my official signature and seal this the 4th day of March A. D. 1920.
E. A. DOUGLASS, Clerk of Circuit Court, Seminole County, Florida. (Seal) By V. N. Douglass D. C. W29-5tc.

In Circuit Court, Seventh Judicial Circuit, In and For Seminole County, Florida.
Jessup Drainage District, a special drainage district of Seminole County, Florida, acting by and through L. A. Brunley, L. P. Hagan, C. W. W. Entzinger, O. P. Swope and E. H. Kilbee, being and constituting the Board of County Commissioners of Seminole County, Florida.

WHEREAS the Jessup Drainage District, a special drainage district in the County of Seminole and State of Florida, has filed its petition in this Court to determine its authority to incur bonded debt and to issue bonds to the amount of Twenty-six Thousand (\$22,000.00) Dollars, and to determine the legality of all proceedings had or taken in connection therewith, and all proceedings heretofore taken being fully set forth and described in said petition, now on file in the office of the Clerk of the Circuit Court of Seminole County, Florida.

NOW, THEREFORE, This is to notify you, the tax payers and citizens of the said Jessup Drainage District, that an order has been made and issued by the Judge of the Seventh Judicial Circuit in and for Seminole County, Florida, that he will at DeLand, Volusia County, Florida, in said circuit on the 20th day of March A. D. 1919 at 2 P. M. or wherever the Court may then be, hear said cause and you may show cause at such time and place, if any you have why said bonds should not be validated and confirmed.

COUNTY HAPPENINGS

OVIEDO

Mrs. Mary West of Nashville arrived Thursday, having been summoned to the bedside of her son C. L. West. The friends of Mr. West are glad to know that he is improving rapidly.

Mr. and Mrs. Ed Jordan have vacated the home of W. E. Luther for the season.

Mrs. Thompson was called to Island Grove Saturday by the illness of her sister Mrs. Hendrix. During Mrs. Thompson's absence her place in school is being filled by Mrs. R. W. Lawton.

Mr. and Mrs. S. W. Swope, Francis Swope and Mrs. W. E. Young spent Saturday in Orlando.

Mr. and Mrs. C. A. Brannon are spending the week with Mrs. A. Leinhardt.

Mr. and Mrs. Gove and children and Doc Malcolm spent Sunday in Daytona.

Mrs. A. Leinhardt spent Saturday in Orlando.

LAKE MARY ITEMS

Our village has missed the Flu so far.

Mr. Guthrie with a force of men was here last week shipping the fruit from the Cameron places there was about five thousand boxes, the fruit from the Dr. Philip grove also being shipped.

Mr. and Mrs. Cadman and children have moved to Orlando where they have recently purchased a home. The people here regretted very much to have them go.

Among the new people coming here this winter are Mr. and Mrs. W. B. Olson of New York, they having purchased the Applegate place. Also Mr. and Mrs. W. P. Monore and children of Newberry and Mr. and Mrs. Riely and baby of Maitland.

Mr. Tuxworth is out again after being on the sick list for a couple of weeks.

Melvin Dunn had the misfortune of having his arm fractured Monday on the school grounds.

The village was shocked Saturday morning to learn of the death of Mr. Charlie Lundquist, having passed away in the early part of the morning at the house of his son Axel. He had not been in the best of health for some time but kept up and came up to the village two weeks prior to his death. He was a good peaceable neighbor having lived around this vicinity for a good many years and was nearing his 86th mile post. He is survived by one son and three daughters besides a good many grandchildren. The remains were laid to rest in the Upsala cemetery and the sympathy of the community goes to the family in the loss of their father.

James Reed returned home some two weeks ago after having spent several months with his children in different parts of the north.

Card of Thanks
I wish to extend my most sincere thanks to the people of Upsala, Grapeville and Lake Mary, who were so kind and good during the illness and death of my father.

Axel Lundquist.

LONGWOOD PICK-UPS

Mr. and Mrs. F. H. Ranges of Milton, Maine who have been the guests of Mr. and Mrs. Hardy for the past ten days left Monday for Pelmere, Fla.

Edward Golden of Choes, N. Y. is the guest of Mr. and Mrs. J. M. Waits.

Miss Mary Smith of Fernangina returned to her home on Monday after spending several days the guest of her aunt Mrs. J. M. Waits.

C. W. Entzinger spent Tuesday in Sanford attending county commissioners meeting.

School work was resumed on Monday having been closed for two weeks on account of influenza.

Willard M. McWorkman went down to Orlando on Monday.

Mr. and Mrs. J. S. Dinkel were in Sanford on Saturday and drove home in their new Chandler.

Friends of Mrs. Rineau will be sorry to hear of her illness at her home.

Thrift in Peace Time
The first requisite for you to do is to think—this will bring forth ideas of two kinds; viz. Imperfected and Perfected Ideas. The Imperfected Idea is one where you think you will some day start to save but just seem never to do it. The Perfected is where you ACT AT ONCE and save for thrift's sake. Which course will you take? You know which is best and We Know where we can help you. Will you Come HERE?

PEOPLES BANK OF SANFORD

in one of the Bryant-Smith cottages in South Longwood.

L. H. Dunbar is spending a few days over at Coronado beach.

Dr. Edwards of Orlando was called to attend the little son of Mr. and Mrs. Delmar McWorkman who was suffering from potomacine poisoning.

Miss Annie Coleman of Wildwood is the guest of Mrs. Rineau.

Miss Lillian Waits and Miss Mary Smith were visitors in Orlando on Saturday.

Friends of Miss Lillian Singelton will be glad to know that she has recovered from influenza and has returned to her home in Jacksonville. Miss Singelton has been in the Florida Sanitarium for the past ten days.

Mrs. Wyatts left Monday for Fernandina where she will be the guest of her daughter Mrs. Smith.

Miss Mary Cummings of Orlando is the guest of Miss Harriett Grist.

The ladies of the Civic League held their regular monthly meeting Tuesday afternoon.

The ladies of the Civic League will give a pie social at the Library Tuesday evening March 9th, the proceeds to go to the building fund.

GRAPEVILLE AND UPSALA

Mr. and Mrs. Emil Magnuson who have been at Courtney, on Merritts Island since the holidays, returned home the latter part of last week.

Mr. and Mrs. Gothart Swanson of Colorado who have been touring the southern part of the state, came up in their car, which is arranged to camp out in and are stopping with their uncle and aunt, Mr. and Mrs. August Swanson.

Mr. and Mrs. Henry Peterson and daughters, Idalina and Edwinna of Holly Hill and Mrs. Christine Palmquist of Miami came over by auto Sunday to visit their relatives here.

Mrs. Palmquist, who has been ailing for some time has been visiting with Mr. and Mrs. Peterson this winter, her many friends are glad to see her able to be about again.

Mrs. Geo. Clark and Mrs. Westerdick went with their Sabbath school to Geneva Saturday and spent the day with Mr. and Mrs. Tolman.

Mrs. Williams and baby spent

Cotton Seed Meal NITRATE SODA Potash Nitrate ASHES CHASE & CO

SANFORD HIGH SCHOOL CHAMPIONS

GIRLS OF SANFORD HIGH ARE THE LEADERS IN THE STATE AND PROVE IT

The Sanford High School is represented this year by the strongest girls' basketball team in the State. This school has in previous years been favored with very strong basketball teams, but the one representing Sanford at present is believed to be the maor.

Upon her record for the basketball season to date, Sanford declares herself a claim to the State Championship. The schedule to the present has probably been the heaviest of any High School in the State. Sanford has games scheduled and intends to schedule other contests with bonafide claimants to the Championship. Any High School making an eligible claim for the honor will please accept this challenge for two games, one to be played on your court and one in Sanford. If a third game is necessary the Sanford Girls will meet you half way. In answering this challenge please state your claims including a record of your schedule to the time of your acceptance of the challenge. Address all correspondence to Miss Julia Zachary, Mgr. Sanford High School Girls' Basketball Team, Sanford, Fla.

The Girls' Basketball Team of Stetson University is the only team in the state that has scored a victory against Sanford. A series of two games were played, one in DeLand and one in Sanford, each team adding a victory to their list

when playing on their home floor. Stetson University is not an eligible contestant for the High School Championship, and should this team have won both games the chances for Sanford would have been just as great. But, Sanford intends to play a third game with Stetson and thereby prove herself to be the fastest in the entire state.

The following schedule will support the claims of Sanford:
Sanford 53—Kissimmee 7
Sanford 20—Seabreeze 11

Sanford 07—Rollins College 12
Sanford 8—Leesburg 8
Sanford 21—Cathedral 9
Sanford 21—Seabreeze 08
Sanford 16—Stetson University 20
Sanford 24—Orlando 16
Sanford 30—Rollins College 23
Sanford 26—Stetson University 13
Sanford 74—Orlando 8
Leesburg forfeited one game in failing to appear for a return game in Sanford.

Celery Is Fine

A. Chorpanty who owns the farm on Beardall avenue formerly owned by the editor of the Herald sent us in some fine celery the other day just to show us what we missed by not remaining a farmer. Others in the celery delta have sent some fine stuff into the Herald office but did not want their names used. The celery is excellent this year and should bring good prices and while you are coming to town drop off a few bunches for the Herald force. We like it.

To Control Liquor Traffic

Birmingham, Eng. Mar. 2.—Lady Astor addressed the opening meeting here the other night of a women's campaign for state purchase and control of the liquor trade. She characterized the plan as "practical" but said no government in England at the present time could hope to win an election with prohibition as its main platform plank.

WORLD'S GREATEST SHIPYARD

HOG ISLAND WILL LAUNCH LAST SHIPS IN JUNE AND THEN QUIT

Philadelphia, Mar. 2. (By Associated Press) The world's greatest shipyard at Hog Island, built to overcome the ravages of the German submarine and help win the war for the Allies, will launch its last war-time ship in June and turn it over to the government in September. When the last of the fabricated ships of the war-time contractor leaves the vast plant on the Delaware, Hog Island will have turned over to the government 122 vessels a record of more than one ship a week since the first boat was sent overboard in August, 1918. There have been several double launchings in one day, and on Memorial Day last year five ships were launched in a little more than an hour, establishing a world's record.

When Hog Island was going at top speed during the war with 50 ways occupied approximately 35,000 men were employed. This force has been reduced to about 22,000 and after the last ship is launched in June the force will be reduced to 25 percent of this number. These men will complete and equip the ships still left to be turned over to the government.

What is to become of Hog Island is the great problem confronting the owners of the yard. Recently the United States Shipping Board took over the title to the ground. Philadelphia has been urged to take over the yard and continue it either as a

shipbuilding plant or convert it into a great terminal. Efforts to interest the state have also been made, but amount of money required to buy the great plant has been a stumbling block. It was proposed that the state purchase the 900 hundred acres with 2 miles of water front and lease them out to manufacturing and other concerns.

NEWBERRY ELECTION FRAUDS

FIFTEEN MORE DEFENDANTS ARE DISCHARGED BY JUDGE

Grand Rapids, Mich. Mar. 3 (By Associated Press) Fifteen more defendants were discharged by Judge Sessions in the Newberry election conspiracy trial leaving eighty-five defendants of the fifth count indictment based on the Federal statute October 16, 1918, dismissed.

PRESIDENT IS BETTER GOES OUT

TAKES AUTO RIDE FIRST TIME HE HAS BEEN OUT SINCE OCTOBER

Washington March 3 (By Associated Press) President Wilson went automobiling today this being the first time he has been out since his return to Washington from his Western tour. He has been ill since October.

A HERALD WANT AD FOR RESULTS

ELDER SPRINGS WATER

THOMAS D. BAKER, Ph. D.
Analytical and Consulting Chemist - Professional of Natural Science
Emertus, Rollins College, Florida
Private Laboratory of Rollins College
Winter Park, Fla., Nov. 31st, 1918

Mr. T. O. Charles
Sanford, Fla.

Dear Sir:
I have completed careful chemical analysis of the sample of water that you brought me early last week, and have obtained the following results:
Color..... Clear
Reactivity..... Neutral
Free Ammonia..... 00 parts per million
Aluminoid Ammonia..... Trace
Clear Chlorine..... 1.75 parts per million
Neutral Total Solids..... 8.00 parts per million
Hardness..... 23.03 parts per million
Trace Nitrates..... Trace

The absence practically of free and aluminoid ammonia in this water and its very small amount of chlorine indicates its excellent quality for household purposes. In addition to the good quality characteristics of superior household water, it is characterized by its high natural aeration and LOW degree of hardness.

The bacteriological analysis, resulting in an average total count, in four samples of the water, of 2 bacteria per cent; and in finding no colons, or other harmful bacteria, fully confirm its good quality indicated by the CHEMICAL analysis.

Of the many waters of this and other regions that I have analyzed, I have found none superior in all good qualities to that of the "Elder Water."

Yours very respectfully,
(Signed) THOS. D. BAKER
