New here for the first time—the latest 1955 POWERHOUSE—the amazing binocular even the “experts” said was impossible to produce! Now—after 18 months of experiments—it is available to the public. Never before has such a powerful, quality binocular been offered at so low a price! The POWERHOUSE is not 4 . . . 5 . . . 7 . . . but 16 TIMES AREA MAGNIFICATION! Thoresen—world’s greatest importer of German binoculars—brings it to you DIRECT for only 4.98.

**TRIUMPH OF GERMAN OPTICAL INDUSTRY**

The POWERHOUSE is made in WESTERN GERMANY—world’s outstanding producer of quality optics—the finest cameras, telescopes, microscopes and binoculars. German know-how and superb workmanship are reflected in the many new features of the famous, nationally advertised POWERHOUSE. Much more powerful than last year’s model, the NEW POWERHOUSE gives you greater structural strength without losing weight. Strong light objectives combined with other high-speed materials for “anti-ghosting” construction. Weight only 18 ounces! Aluminum draw-tubes and center-post give you smooth, faster focusing in over 35 positions for really sharp viewing.

**FOLDS TO YOUR EYE WIDTH**

Just as in very expensive binoculars, your POWERHOUSE folds in the center on a parking pivot—adjusts at once to your own eye width! You’ll also like the new, modern design. It’s so rich looking! What’s more, you enjoy a fine grip.

**PRECISION GRIND LENSES**

The new, extra-power lenses are the crowning achievement of a 100-year-old firm. For difference, indeed, from the unrefined plastic lens stamped out by the millions. Each and every objective lens has special MULTICOATED COATING—a feature found in \$500 binoculars. Each lens is GRINDED to high tolerances, then checked individually for accuracy. This takes much

longer, costs 30 to 50 times more! But it’s worth it! You get CRYSTAL-CLEAR viewing. The high LUMINOUSITY gives you viewing even in moonlight! Your eyes never suffer the strain of excessive distortion and “ghost” images so common in cheap binoculars. When you’ve spent \$25.00, we could not give you better quality lenses.

**MARK OF AMERICAN DOLLAR MAKES THIS VALUE POSSIBLE**

In less than 18 months THORESEN has sold close to 750,000 binoculars of all types—making it the greatest importer of German binoculars in the world! This immense volume, plus the magic of the American dollar enables us to say for the first time why you can get a fine binocular like the POWERHOUSE for only 4.98.

## Sanford Negro Arrested Debate Arises Over Few Cents

An argument over a few pennies change left from the purchase of a bottle of whisky ended in the slaying of an Orlando Negro Saturday and the arrest of a Sanford Negro front porcher.

Changed in the case in Early Powell Milton, 25, Sanford, who has been working for the Champion Fruit Co. in Orlando. He was arrested here yesterday.

Orlando police said Milton signed a statement yesterday admitting the fatal slaying of L. D. Houser, 21, in a rooming house at 707 W. Church St., Orlando, about noon Saturday.

The rooming house is run by Houser's father, James Houser, police said.

Milton told police he was slaying and two other Negroes were sitting in a room drinking when an argument started over the division of a few pennies change left from the whisky purchase.

Police quoted Milton as saying he lost his temper and went for his knife.

Detective L. J. R. Beach said Houser was stabbed through the heart with a three-inch blade.

Milton fled after the stabbing and had an unidentified friend drive him to his wife's home on the southwest road in Sanford, police said.

He was picked up there at 1:30 p. m. yesterday by Seminole County Deputy Sheriff W. L. Long and held until Detective L. F. Neel and Patrolman F. J. Metcay arrived to return him to Orlando.

He is being held in the Orlando city jail pending a coroner's inquest.

### Lucky That Jean Is Type Of Girl Who Takes Chance

HOLLYWOOD — It's lucky that Jean Hagen is the type who likes to take a chance. Because she's making the switch from a charming wife and mother on TV to a wicked woman in the movies.

Jean's greatest fame has come from portraying Danny Thomas' wife on "Make Room for Daddy," the Emmy award winning TV series. She has won a wealth of fans by her gentle playing of the spouse of night club comedian Danny Williams.

How will they react to her playing a fast character in a film? "Oh, I don't think it will cause any commotion," she says. "People are intelligent enough to realize that an actress can play a variety of roles."

Jean made a specialty of playing fallen dolls before she became enmeshed in TV. She was enacting a woman of the streets in the Herman Wouk play, "The Trailer," when MGM signed her for a similar role in "Side Street."

"I kept busy at MGM; I had nine pictures and two babies in the three years I was there," said Jean, who is married to Tom Seidel, former agent and now a contractor.

In most of the roles, she was dumb or immoral, or both. She was the blonde who stole Tom Ewell from Judy Holliday in "Adam's Rib." She was the empty-headed film star in "Singing in the Rain." And she played Sterling Hayden's mistress in "The Asphalt Jungle."

"You know why I feel frustrated?" She said to Danny one day. "I don't do anything but this show. Whenever you have two days off, you can go out and play a benefit. It's what you love and you get a release. But I have no such escape."

Danny sympathized and told her to hunt up film work during their summer vacation.

She took him at his word. She signed up for a part in the hard-hitting "The Big Knife," from the Clifford Odets play that starred John Garfield. Jean plays the wife of a press agent and has a scene in which she seduces Jack Palance, who enacts a movie star.

### Richard Holtzclaw Gets Much Favorable Comment From Critics

From the time that your reporter realized about 50 years ago, that "there's no business like show business" with its many ramifications, its ups and downs (mostly downs) and the almost utter impossibility to please a majority of theatre goers, one fact became paramount; to get a favorable "press," that is a good write-up about a performance, particularly by a music critic was about like getting every member of the Florida State senate to agree 100 per cent on any question. It was, therefore, very pleasing and a source of gratification to this writer to read in the New York papers recently the many fine things written about the Sanford boy, Dick Holtzclaw, who had the leading role in Donizetti's opera "Don Pasquale" presented by the New York City Opera Company at the City Center.

Douglas Watt in the New York Daily News wrote: "Don Pasquale revival is a winner. Richard Wentworth (that's Dick's professional name) was excellent in the title part, acting and singing with admirable authority and never overdoing things." Harriet Johnson of the New York Post very frankly stated: "Don Pasquale may or may not please you, depending on your point of view, your taste and your background in how conventionalized Italian opera should sound. The tale of the 70-year plus bachelor (Don Pasquale) who decides to take a wife (he should have known when he was well off) is played hilariously, without displaying too much finessé. If it had been sung in English rather than Italian, it would have more chance of becoming immediately popular with the public. . . Richard Wentworth in the title role, sang and acted the part as if he had been doing it all his life."

### Man Is Questioned In Nurse's Death

BROOKLINE, Mass. (AP)—A man described by police as a former suitor was questioned early today in the bludgeoning slaying of Miss Elizabeth Dose, 29, a pretty Beth Israel Hospital nurse.

Police took the man into custody for extensive questioning after he and four other male friends of the victim underwent lie detector and chemical tests.

Police said the man reacted to the lie detector test and chemical tests showed that blood might have been in contact with one of his cheeks.

During a break in the questioning, police said the man admitted he had a key to Miss Dose's apartment.

### The Corsi Case

Edward J. Corsi, who went to Washington to be an advisor on immigration and deputy administrator of the Refugee Relief Act, recently terminated his government service, a disappointed and bitter man.

Corsi expressed opposition to some provisions of the immigration laws and by so doing incurred the enmity of some powerful congressmen. One congressman accused him of having had Communist associations—a charge he has denied. The State Department said that no question of security was involved in the decision to terminate the post he held and offered him another job in the department.

Corsi is a widely respected man and his reputation has not suffered by the furor. Strong friends in both parties have sprung to his defense. Yet his valuable services have been lost to the department because it did not back him up.

A less widely known figure might have been dismissed with little notice. But such dismissals cannot help but have a bad effect on the morale of government workers. Nor can the kind of insecurity thus generated be expected to attract able people to devote their time and energy to playing important roles in government.

## How Is Your Poodle's Haircut?

LANGENTHAL, Switzerland.—Does your poodle wear a classical or a modern haircut?

If you spurn tradition and shave off all his hair except for "cuffs" on his legs, a tuft on his tail and a "corset" round the middle, then both you and your dog are suspect in the eyes of Fritz Ruef, recently elected president of the International Cynological Federation.

Cyng comes from the Greek for dog, and Mr. Ruef probably knows more about the etymology and sociology of the dog world than anyone else alive.

Differences over such important matters as a poodle's haircut have led to a great schism among the world's dog lovers, and Ruef is the undisputed leader of the traditionalists.

There can be no argument about a poodle's hair, according to Ruef. "To be a poodle," he says, "a poodle must have lots of hair in front and a crew cut behind. This standard was fixed long ago by the Paris Poodle Club and accepted as a binding by all self-respecting owners. It is obvious that a poodle owner who insists on dressing up his dog like a clown cannot claim equal rights in an association such as ours."

One of the main causes of the schism among the world's dog lovers was a dispute over the social register of breeders—the four-legged variety. Traditionally, a breeder's litter is limited to few puppies, and any puppies born after the fourth are destroyed to preserve the quality of the breed.

Unfortunately, Ruef said, base profit motives led to a refusal by certain "irresponsible elements" to limit the number of puppies. "They even wanted us to cancel this social offspring in our official register," Mr. Ruef exclaimed with indignation. "When we naturally refused, all those who were violating the rules became disaffected, and that is now the trouble started."

For a time, the split remained limited to Switzerland, but the rebels soon organized themselves in other countries and Mr. Ruef's International Cynological Federation is now at war with the rebel International Cynological Union in most countries of the eastern hemisphere. Only the United States, Russia and some relatively dogless countries are not yet involved, Ruef said.

Recognized "federation" dogs—says Ruef—are a distinct social cut above the upstart "union" dogs—not to mention the untouchable class of dogs who don't belong to any organization. "Federation" dogs are rigorously forbidden to have any social contacts with "union" or unorganized dogs. Miscellaneous do occur, Mr. Ruef admitted, but the offspring doesn't have a dog's chance of inclusion in any social register recognized by the federation.

In Switzerland alone, the dog's social register, Hundstammbuch, lists more than 53,000 blue-blooded dogs born since 1900. The annual supplements to the register are handsomely printed by the printing works Ruef runs in Langenthal.

The federation is recognized as the ruling body of the dog world by dog lovers' associations in nearly ever non-Communist country of the eastern hemisphere. American dogs have a separate organization.

Asked whether this meant that American or Russian dogs are not allowed to associate with European dogs, Mr. Ruef said: "Such unions are very uncommon. I cannot remember that such a case was ever inscribed on our register, but, of course, there may have been instances of which we were not informed."

Mr. Ruef, a round, balding little man of 68, is proud of his position as the world's No. 1 dog lover.

But his career contains a hidden tragedy. He does not have a single dog of his own.

"As a young man, I bred Irish terriers and dashbunds," he said. "But now I have to devote every spare minute to my organizational work, and have no time left for dogs of my own."

### Valuable Bible

"It is easier for a camel to go through the eye of a needle than for a rich man to enter into the kingdom of God." This familiar saying from the Gospel according to St. Matthew has troubled a great many Bible readers. Why should a camel try to go through the eye of a needle?

The explanation may be found in a priceless New Testament manuscript of the fifth century, written in the Aramaic language that was used in Palestine in Christ's day. A similarity is found in Aramaic between the words for "camel" and for "rope". There is some sense in the word "rope" in connection with a needle. If our early English translators were mistaken, the reason seems likely.

Another explanation sometimes given is that outside Jerusalem not many miles away was a very narrow mountain pass called "The Needle's Eye" through which a thin camel could go with difficulty and a fat or heavy-laden camel not at all. That also made sense, though now the rope interpretation has been given; it seems still more reasonable.

This controversy is recalled on the occasion of the permanent loan to the Library of Congress of this Aramaic manuscript. It is not the oldest New Testament manuscript, for there are earlier ones in Greek, but it will nevertheless become one of the greatest prizes in a library which already contains extraordinary book treasures.

### The Old House

If you had a chateau with 365 doors and windows, with miles of corridors, lofty halls and not even a part-time maid what would you do with it?

That's exactly what the Marquis de Masure did with his. It took 114 sticks of dynamite.

This little hut was built by the Marquis' father in the eighteen forties. It was a homey nest, good for quiet, informal entertaining. But since the German army moved out of it at the end of World War, the chateau has attracted little except dust and taxes.

The Marquis tried to give it away several times but a heap of classical rock is a sizable tax catcher. So, last week, the Marquis blew the thing up and now it's a rubble mess of tax-free smithereens.

Such a drastic tax dodge, while having a wishful appeal, is not advisable for American owners of split-level castles and ranch type chateaux located in the local new neighborhoods.

## U. S., Reds Are Both Left Guessing

Associated Press News Analyst  
WASHINGTON (AP)—The American people and the Red Chinese have one thing in common: Both are left guessing whether the Eisenhower administration intends to defend the Matsu and Quemoy islands, close to the Red China coast.

The administration itself is guessing, so far as is publicly known. All it has said is vague. Meanwhile, the American public gets repeated jolts from developing events, as if bumping into a short-circuit.

There have been several jolts in recent weeks. They were startling when they happened. The net effect was confusion. Chiang Kai-shek, the American ally, claims Matsu and Quemoy and has troops on them. His main forces are on Formosa. The United States, by treaty with Chiang is pledged to defend Formosa but not Matsu and Quemoy.

In a special message to Congress Jan. 24 President Eisenhower asked Congress for specific authority to defend Formosa and closely related localities. "Those localities could mean Matsu and Quemoy, But Eisenhower didn't say so.

He said such authority from Congress—which Congress gave him quickly—would reduce the possibility that the Red Chinese might misjudge the U.S. "purpose" and precipitate a major crisis. What he intended to do about Quemoy and Matsu, being vague in the message, could only leave the Chinese guessing. The President still hasn't said anything definite about the islands.

### Eating Habits of Baby

By NERMAN N. DUNDELER, M.D.

YOUR youngster isn't going to be a bottle baby all his life. And the quicker you train him to drink from a cup, the better it will be both for him and for you. I don't mean that you should expect him to pick up a cup and drink the milk the day you bring him home from the hospital. But, by the time he is five or six months old, you can offer him a little of his fruit juice from a cup.

For a while, he'll probably take only a sip or two. Don't worry if he's slow. It takes time for him to get used to it. If he seems to take it well from a cup, give him all his juice this way.

When he's about seven months old, offer him an ounce or two of his milk mixture once a day from a cup. If this works, gradually give him more milk from a cup at his other feeding times. By the age of nine or ten months, he should be drinking all or at least most of his milk from a cup. Usually, your tot will learn what is expected of him and will gladly drink from a cup. Some babies, though, will give their anxious mothers a difficult time. I'll have some tips tomorrow on what to do if your baby spurns a cup.

As for the breast-fed baby, you can begin giving him milk from a cup as soon as complete weaning is begun.

## Big Business Ranks Still Swell

NEW YORK (AP)—The ranks of the really big business firms continue to swell.

Despite last year's setback in general business activity, two more companies joined the total of those having assets in excess of one billion dollars.

There are now 33 nonfinancial corporations in this group of the nation's biggest businesses in addition, at the end of the year there were 74 banks in the country with resources in excess of one billion dollars. (Since then two firms merged, cutting the total to 17). And there were 15 insurance and finance companies in the same choice group.

Twenty-eight companies reported their 1954 sales totals were one billion dollars or better.

And 16 of the nation's big companies had net profit after taxes of 100 million dollars or higher.

Among the 33 nonfinancial corporations with assets in excess of one billion dollars are 11 oil companies, 6 railroads, 5 utilities, 3

auto makers and 3 in the electronics field.

Topping the 33 (leaving out of consideration the insurance companies) is the American Telephone & Telegraph Co. with assets of \$16,515,525,582. Second is Standard Oil (New Jersey) with \$6,614,743,182. General Motors is third with \$5,130,003,393.

Two companies are in the three billion dollar asset class: U.S. Steel and Pennsylvania Railroad. There are five in the two billion dollar

group. In order of size they are: DuPont, New York Central, Socony Vacuum, Indiana Standard Oil and Pacific Gas & Electric.

Just under two billion are Southern Pacific, Gulf Oil and the Texas Co. Ford Motors belongs in the group on basis of 1953 assets of \$1,825,124,900 (its 1954 assets are unreported).

The rest of the 33, starting with Consolidated Edison of New York with assets of \$1,596,640,221, and continuing in order of size are: General Electric, California Standard Oil, Bethlehem Steel, Commonwealth Edison, Santa Fe Railroad, Sears Roebuck, Union Pacific, Westinghouse Electric, Baltimore & Ohio, American Gas & Electric, Union Carbide.

Humble Oil (affiliate of Jersey Standard) reports \$2,241,633,837 in assets. Next come Sinclair Oil, Phillips Petroleum, Western Electric (controlled by AT&T), Cities Service. The two newcomers to this year's list—Shell Oil with \$1,041,866,153, and Chrysler with \$1,034,591,719—bring up the end.

The 16 nonfinancial corporations with earnings in excess of 100 million dollars are led by General Motors with 1954 profit of \$805,973,897. Jersey Standard Oil is second with \$584,793,158, followed closely by the Bell Telephone Systems' earnings of \$549,931,223. DuPont reports \$344,398,015. Texas Co. is fifth with \$228,140,781.

Then in order of size come General Electric, California Standard Oil, Humble (Jersey affiliate), Sears Roebuck, Bethlehem Steel, Shell Oil and Indiana Standard. Ford Motors is the sixteenth on basis of estimates only, since it does not publicly report its earnings. But in 1953 its earnings were estimated in excess of 100 million, and on the basis of sales its 1954 earnings should be in the same class.

If 1955 lives up to the promise of its booming early months, there should be still more companies pushing into the billion dollar asset group and into the 100 million or better profit class this year.

## Mexican Empire Lost Long Ago When General Takes Small Siesta

SAN JACINTO MONTUMENT, Tex. (AP)—One afternoon 119 years ago today Mexico took a siesta and Mexico lost an empire.

A band of Texans jumped the general and whipped his army. The story should interest not only Texans. It's important to folk in Arizona, New Mexico, California, Nevada, Utah and Colorado.

Their states became part of these United States, because of the battle of San Jacinto.

Things had gone badly for Texas that spring of 1836 in its fight for independence from Mexico. On March 6 the garrison at Alamo Mission in San Antonio had been massacred by the legions of Gen. Antonio Lopez de Santa Anna.

Santa Anna, the "Napoleonic of the West," swept east and camped at the junction of the San Jacinto River and Buffalo Bayou—30 miles east of Houston.

On the afternoon of April 8, 1836 Santa Anna took his siesta and his force of 1,500 scattered out lazily behind their breastworks. General Sam Houston's army—only 700—was only 12 miles away.

It was then with history's most rapid and complete re-arranging of the furniture that the United States was born. Gen. Santa Anna's army—only 700—was only 12 miles away.

Texas had independence, and nine years later joined the union. But the annexation of Texas touched off the U. S.-Mexican War, Mexico broke off relations with the United States and laid a claim to Texas.

The United States won the war, and in a treaty signed Feb. 2, 1848, Mexico ceded that part of the present United States west of Texas and the Louisiana Purchase and south of Oregon. The United States paid Mexico 15 million dollars.

Simple ceremonies Thursday marked the anniversary of the battle of San Jacinto. The crowd was expected to outnumber the 700 men responsible for the holiday who swanned a sleeping general.

## FSU Musicians To Appear Here At Seminole Hi

The Florida State University Symphonic will present a concert in the Seminole High School auditorium Wednesday at 8 p. m. SHS band director Ernest H. Cowley has extended an invitation for the public to attend the program which is being sponsored by the Sanford Kiwanis Club.

The FSU band program includes activities for any student interested in band work during college. The School of Music presents five different bands in which band students may participate.

The Symphonic Band is a concert ensemble of 75 pieces and it is devoted to the highest in music standards. Selections for this band is by audition. During the school year, the Symphonic Band presents three or four campus concerts, a music clinic for band directors and a short concert tour.

The Concert Band is an 80 piece group made up of students from all colleges of the University. This group emphasizes lighter music along with the serious concert literature. It is aimed at a program for the band college student who is interested in participating in band but not on a professional level. It could possibly be considered an extension to high school band activities.

The Marching Chiefs is a 120 piece marching unit striving for the best in music and marching maneuvers. This band has been acclaimed in the past two years as one of the finest in the South as well as the nation. This year it has performed at all Florida State University football games and it has made trips to Auburn, State, and Tampa for football performances as well as a 3400 mile trip to El Paso, Texas to appear in the Sun Bowl Game on New Year's Day.

The Circus Band is a 26 piece picket group which performs at the home show of the Florida State University All-Student Circus. The Circus is of the highest caliber and quality, and the band tries to maintain this caliber of performance.

The R. O. T. C. Band is a program by which members of the Air R. O. T. C. and Army R. O. T. C. may participate while they are active in those two programs. All of the Florida State University Bands are under the direction of Manley R. Whitcomb, Director of Bands at Florida State University. Mr. Whitcomb joined the faculty at Florida State in the fall of 1933 from Ohio State University, where he was Director of Bands at the Bucheye School for seventeen years.

## Ralph Smith Talks On Salvation Army At Group Meet

The Civic Department of the Women's Club met Wednesday at 12:30 p. m. at the Club house with a covered dish luncheon. Mrs. J. N. Gilman, Mrs. H. W. Goodspeed, Mrs. N. V. Farmer, and Mrs. Joe Corley acted as hostesses.

Mrs. F. E. Bois introduced Ralph A. Smith who told of some of the great work of the Salvation Army and that it is now celebrating its 75th Anniversary. It is a movement which grew out of one man's concern for the underprivileged, hopeless and Godless masses of England's poor in the middle of the 19th Century. Formerly a Methodist minister, William Booth believed that the salvation of the soul was the key to the salvation of the body, he founded the Christian Mission which in 1863 began its work in one of the poorest districts in London.

The work of the Mission spread out of one man's concern for the underprivileged, hopeless and Godless masses of England's poor in the middle of the 19th Century.

What is the Salvation Army? he asked. "It is found in the certificate of incorporation issued in the State of N. Y. from which the Salvation Army derives its existence in the U. S. as an evangelistic organization with a military form of government including a widely diversified system of social service, giving as its purpose the spiritual, moral and physical rehabilitation of all who need it and that we need to enlarge our program."

A short business session was conducted by Mrs. B. C. Moore, chairman of the department, and the club voted to give a donation to the Salvation Army. Announcement was made of a fish fry to be given May 14, 3 p. m. at the Wekiva River, Road 46, sponsored by the Sportsman's Association and the Seminole County Federation of the Women's Clubs for the improvement of a park.

## Seminole Hi

By IVONNE CULLEN

Six weeks tests started Thursday and everybody is walking around glum again.

Only 27 more days of school for the seniors. It seems like no time since school started last September.

The May Day Ball will be on May 14 this year so let's everyone plan to attend. We voted on May king and queen Thursday and everybody's wondering who it will be.

Now for some gossip: Glenda Silkwood is receiving letters from somebody in Japan who likes French puddles, and it seems Glenda's the puddle. Who is it Glenda? Carol Nutt is still crazy about Jimmy Owen. There's one case that just goes to show you that if you like somebody long enough you'll finally win him over.

Terry Smith and Chris Cass make a cute couple, and from the looks of things they kinda like each other too. . . Who's this James McKee has the mad crush on? . . . Some people say it's Margaret Moore. That true James, or is it Marianna Strickland? Sue Hayes and Joe Fisher still make a cute couple. Everytime you see one of them there's the other. . . What did you ever do about your broken zipper at the school baseball game Shirley? The last time I saw her, she looked mighty perplexed.

Louis Bullard is still tagging right at the heels of Delores Jones and from the look of things she doesn't mind a bit. . . Bobby Billhimer has decided to go to the University of Florida to college. Terry Smith and Dallas Turner are going to make Florida Southern their home for the next four years while Ronnie Robison will be going to the Citadel.

Betty Brazor and Colleen Engstrom have decided on Gainesville while Marilyn Calhoun and Shirley Wall have also decided on Southern. Rochell Eubanks and Helen Lindsay, and Lennie Rotunda, have decided to try their luck at landing jobs in the Washington D. C. FBI office.

Well, I guess that's all for now. . . Be seeing ya!

## Major League Club Owners Not Howling Over Big Drop In Attendance At Games

Fans Still Paying To See Contests, But By Way Of TV

NEW YORK (AP)—Great alarm already is being voiced in some quarters over the drastic dropoff in big league attendance. It has, indeed, been a disturbing feature of the new season. But note that there have been no howls of anguish to speak of from the club owners, the men who should be most concerned.

The truth is that, through the golden harvest from television and radio, the major year after year independence of the fan who only a short time ago supported them totally by the dollars he left at the turnstile. The fan still is picking up the tab, all right, but he's doing it at the drugstore counter and in the corner delicatessen.

A live audience of only 3,874 showed up at Ebbets Field on a recent day to watch Robin Roberts, the game's greatest pitcher, try to stop the Brooklyn Dodgers short of a record 10 straight opening victories. On the same day, a bare 8,923 paid their way into Yankee Stadium across the river.

The Brooklyn players were audibly disturbed and predicted that if things didn't pick up in a hurry it would be necessary to move the club to Los Angeles, or somewhere. President Walter O'Malley only smiled and mulctured platitudes about the weather being bad and the season young. He obviously wasn't worried at all.

And he needn't have been from what we were told by the boss man of another big league club about a month ago. He said that his team's no pennant winner would have a guaranteed income of something over \$500,000 before the season opened, and he saluted that several others would exceed that figure, possibly reaching the million mark.

## Lakeland Edges Orlando, 10 To 9

Both front-running teams got it in the neck in the Florida State League last night. Orlando was beaten by Lakeland 10-9 but that was mild compared to the treatment Cocoa received.

Sanford beat Cocoa 24-3. Pete Peterson struck out nine Cocoa men and gave up only four blows, three of them to Chico Garcia.

Juan Garcia hit a three-run homer in the eighth when Lakeland scored six runs to go ahead in the game with Orlando.

West Palm Beach handed Daytona Beach its sixth straight loss, 14-4. Perry Roberts and Jack Cross had a home run each in a 10-hit assault on three Daytona pitchers.

In the other game, Gainesville whipped St. Petersburg 7-6. Victory came on an unearned run in the ninth.

## Georgia, Alabama Head Standings In SEC Baseball

**By THE ASSOCIATED PRESS**

The Georgia Bulldogs have won 9 and lost 1. They are host today to fifth place Auburn at Athens. Mississippi State goes to Tulane and Louisiana State to Loyola of the South.

Alabama currently rests atop the western standings with 11 victories and only 1 defeat. Mississippi is in the runner-up slot with 6 triumphs in 7 starts.

On Tuesday's games Auburn plays at Georgia, Mississippi State at Tulane, Tennessee at Carson-Newman and Vanderbilt at Georgia Tech.

On Friday Georgia Tech plays Kentucky at Lexington, Auburn is at Florida, Mississippi at Alabama. Tennessee is at Vanderbilt and Tulane is host to Spring Hill.

In Saturday games Kentucky is host to Georgia Tech, Florida takes on Auburn, Alabama enters Mississippi and Tennessee and Vanderbilt clash in Nashville.

Last Saturday Georgia Tech defeated Georgia 8-2, Vanderbilt swept a doubleheader from Kentucky 14-9 and 8-0, Auburn walloped Florida 17-7 and Mississippi State outlasted Louisiana State 13-10.

## Betsy Rawls Wins Over Patty Berg In Women's Meef

CARROLLTON, Ga.—Betsy Rawls could hardly have picked a better time to snap out of her slump and win a golf tournament.

Her three-stroke triumph over Patty Berg in the \$5,000 Carrollton Women's Open gave her morale a big boost as she and the other touring professionals headed for Betsy's hometown of Spartanburg, S.C., and the Peach Blossom Open.

Miss Rawls, who hadn't won a tournament since the Texas Open in October, played cautiously in the final round Sunday and took a 77 for a 54-hole total of 218—one stroke over the record winning score for this tournament.

Miss Berg, the St. Andrews, Ill., shotmaker, had trailed Miss Rawls by four strokes after each of the first two rounds, but carded a closing 78 for a 221 total.

"I changed my grip a little after the Babe Zaharias Open in Beaumont a week ago," Miss Rawls reported.

Best round of the final day was carded by Alice Bauer Hage of Sarasota, Fla. Her 74 boosted her into a tie for third at 227 with her sister, Mariene Bauer, and Jackie Pung of Honolulu. The other two closed with 79s.

Miss Rawls' victory, her second here, was worth \$1,000 and Miss Berg, also a former winner, collected \$700. The trio tied for third got \$500.33 each.

Mrs. Zaharias, of Tampa, Fla.; Bel Dodd of San Antonio, Tex.; and Mickey Wright of San Diego, Calif., ended in a tie for sixth at 229 and won \$303.33 each.

## Thurman Terrell And Nat Sharper Lead Onslaught

The Sanford Cardinals greeted Cocoa starter Jim Kelly with 11 runs in the second inning and eight in the third and went on to blast the Indians, 24-3 here last night in a Florida State League game.

Leaders of the Sanford onslaught were Thurman Terrell and Nat Sharper. Terrell packed the second-inning burst with a home run with two men on and Sharper added another four-base hit in the eighth, also with two men on.

In Saturday night's game, Cocoa had two five-run innings to gain a 15-11 victory over Sanford.

In the 28-hit slugfest, Russ Davis and Thurman Terrell homered for Sanford and Charlie Greenhill and Ino Rodrigues homered for Cocoa.

Friday night's game with Lakeland saw rookies Kermit Turner stagger through a 14-hit attack and still pitch Lakeland to a 16-9 victory over the Cardinals.

Turner had a six-run cushion provided for him in the first inning that, softened the blows that Sanford got off him.

## UF Teams Face Week's Schedule Of Seven Games

GAINESVILLE—Florida's Spring sports teams see action in seven games this week in tennis, baseball, and track.

Head of the Gators' tennis team is Coach Bill Poller's tennis squad, which meets four opponents, two of the Southeastern Conference. Tonight and Tuesday Florida plays Stetson and Florida Southern here; Friday and Saturday they'll oppose Georgia in Athens and Georgia Tech in Atlanta.

The Gator netmen have rolled up an impressive 9-1 record this season, with victories over Georgia Auburn, Davidson, Ohio State, Florida Tech, Jacksonville Navy, Florida Southern, Centre and Stetson. Powerful Duke, of the Southern Conference handed the Gators their only loss.

Florida's basketballers finish up a four-game, home-and-home stand with Auburn of the Southeastern Conference when they play games here on Friday and Saturday. The Gators met Auburn on the road last weekend.

Burt Touchberry, a sophomore right-handed, remained Florida's outstanding pitcher, compiling a 1-1 record before the first Auburn series.

Florida and Auburn, a couple of old-time track rivals, renew a 15-year-old dual meet series here on Saturday. Last season, Auburn hustled the Gators their first dual meet loss in four years. The Gator-Tiger all-time series currently stands at eight victories for Auburn, seven for Florida.

Florida's high ranking national collegiate track men—pole vaulter Earl Foucher and sprinter Bumper Watson—will be in action again at that time. This weekend, the pair represented Florida at the Kansas Relays. It was against Auburn last season that Foucher scored 14' 7 1/2" for a new Southern record and America's leading collegiate vault of 1954.

## Spearfishing Rodeo Slated At Pensacola

PENSACOLA—A deep-sea spearfishing rodeo ten miles off Pensacola Beach in approximately 55 feet of water will be one of the many plans for the two-day contest were announced by Raymond Edwards, president of the Pensacola Fish Divers.

Participants from all underwater or spearfishing clubs in the United States are being invited.

Scene of operations will be the bulk of a Russian freighter which was torpedoed in the Gulf early in World War II. The vessel at the time was towed into Pensacola bay, but was later carried into deep water and sunk after U. S. military officials found it unmanageable.

Now its yawning crumbling holds and cabins are the lairs of giant fish of many species. And the waters above and around the bulk team with countless others.

Whittaker, too, is generally good, and local fish divers say nearly all conditions are ideal either for deep-sea aqualing operations or shallow-dive spearfishing.

Rules of the Fiesta rodeo are contained in circulars sent all Florida skin divers' clubs, as well as all other nationally recognized clubs. Participants must be sponsored by a club, must be at least 18 years old, and will pay an entry fee of \$5.00. Usual safety rules will prevail. Participants must waive rights of recourse for mishaps.

Awards will consist of trophies and prizes. Trophies will be limited to five classes of fish snapper, amberjack, barracuda, grouper and Jewfish. Grand trophy will be for the largest fish of any species.

If no fish of any species is landed, trophy for that class will go to the second largest fish landed.

Fish must be shot and surfaced without help except in boating.

Pensacola's Fiesta de Five Flags is a celebration commemorating the city's history since the first European settlement here by Don Tristan de Luna in 1559. Official dates this year are June 9, 10, 11 and 12, but so many sports events are added to the parade and pageantry that mark the celebration, some are scheduled before and after the official dates.

Stan Mural is the only active player in the National League who has made more than 2,000 base hits. He has 2,418.

## Tigers Defeat Giants, 4-3, In Rotary League Thriller

A rampage in the last inning of the Rotary league game Friday evening garnered the Giants two runs with the tying and winning runs on the base, but the effort fell short and the Tigers won the game, 4-3.

Two Tigers were out in their third try at bat when Cordell lofted a fly in deep short field. Widerhold booted it and the outskirt was on. Cordell swept second and ramed home on a single to right by Bramlett. Brock faced a leer into the opposite field and Goldman was passed leaving the home. Smith stepped out at shortstop and it looked like the tying run would be scored. But he was caught and the ball took a bad hop however, and Bramlett and Brooks both crashed runs to make it three in the inning that ended with Goldman struck out.

## Rocky Castellani Favored To Win In Bout Tonight

Rocky Castellani, aiming for another title shot at midweight champion Bobo Olson, is a 5-1 favorite to beat Cuba's Chico Vanzo in a televised 15-round bout (7 p.m. EST) at New York's St. Nicholas Arena tonight.

The 27-year-old ex-Marine from Cleveland, now ranked as the third contender, has won two straight since he was outboxed by Olson last Aug. 3. Castellani's opponent Vanzo is 14-4 and outboxed Rocky Olson in 1954.

## Senator George Says Absence Of Nationalist China At Table Should Not Prevent Peace Talks

WASHINGTON (AP)—Sen. George (D-Ga.) said today the absence of Nationalist China from the conference table should not prevent U. S. peace talks with Red China.

George, who heads the Senate Foreign Relations Committee, thus went a step further than the State Department has been willing to go, in renewing his proposal for a conference to seek a way to ease tension in the Formosa area.

### Shoemaker Named To Vice-Presidency Of Ozier-Weller

Announcement was made today of the re-organization of a local building firm, Cecil R. Ozier, president of Ozier-Weller Homes, Inc., stated that A. K. "Kay" Shoemaker Jr. is now vice-president and general manager of this firm. He will have complete charge of all the firm's operations in this area.

"Kay," a native of Sanford, attended local schools and is a graduate engineer from the University of Florida. Since graduation he has been working with all types of heavy and light construction. A veteran of the Korean campaign, he served with an engineering construction battalion as a construction engineer.

With Shoemaker's engineering and architectural knowledge the firm is in a position to offer all types of architectural services. He will be happy to consult with anyone concerning plans they might have clipped from a paper, or one they had sketched. He can also advise and assist in securing VA and FHA loans, on either the firm's land, or the individual's.

In addition to custom building, both residential and business, Ozier-Weller Homes will build a number of three bedroom bungalow and frame homes in the \$9,000 bracket.

Other members of the Ozier-Weller Homes, Inc. firm will remain the same, namely, Mrs. Irene Anderson, bookkeeper, Mrs. Ruth Hillman, secretary, and Bert Anderson, construction superintendent.

Merv Ozier, son of Cecil Ozier, who formerly had charge of the Ozier operations in Sanford, is now heading the land development section of his father's Illinois properties. Merv, his wife, Phyllis and daughter Melanie, are now at home at 604 Illinois Ave., Rantoul, Ill.

### Young Boy Looks For Any Burglar To Try Out Alarm

LOUISVILLE, Ky. (AP)—Fast! Any burglars around! Twelve-year-old Steve Bader needs one for an experiment. He made and installed a burglar alarm in his bedroom but nobody's been around to try it out.

"There were plenty of burglars when my father was a boy. This was his room and burglars came in through the window about four times."

Steve found the plans for his alarm in a book but they were too complicated. So Steve, who wants to be an electrician, figured out a simpler version.

He fastened an "arm" to a block of wood and attached it to the door. Now, whenever the door is open, the arm triggers an old doorbell powered with two flashlight batteries.

(Incidentally, Steve's alarm doesn't protect him from window intruders.)

### Glee Club To Give Operetta Tonight

"How Me Down" will be presented at the Seminole High Glee Club's annual operetta at the S. H. S. Gym tonight at 8 o'clock.

Including pirates, comedians, songsters, dancing and many other acts it unfolds a story of adventure and romance.

The entire Glee Club is included in the operetta with Miss Ollie Reese White directing. "Costumes and almost-professional dancing and singing tend to make this one of the best operettas presented on the S. H. S. stage," she stated.

Tickets may be purchased at the door.

### Strolling In Sanford

Former members of the Sanford Bath and Tennis Club will be interested to learn that negotiations are under way with officials of the New York Giants who own and operate the Mayfair Inn to lease the facilities of the popular resort hotel during the summer months. ### Waller Robertson Makes Flying Visit To Quemoy Island

TAIPEI, Formosa (AP)—U. S. Asst. Secretary of State Waller Robertson made a surprise flying visit to the disputed offshore island of Quemoy today.

He was accompanied by Chinese Nationalist Defense Minister Yu Ta-wai, Foreign Minister George Yeh and Maj. Gen. William C. Chase, chief of the American Military Assistance Advisory Group on Formosa.

The trip was kept secret until the party returned to Formosa.

Meanwhile, hope and fear held alternate sway in official Taipei as a mystery continued to surround the mission of Robertson and Adm. Arthur Radford, chairman of the U. S. Joint Chiefs of Staff. Radford apparently did not make the flight to Quemoy. It was announced that he remained in bed with a cold at the home of Generalissimo Chiang Kai-shek, where he and Robertson are house guests.

Nationalist uncertainties were stirred too by what seemed here to be the swing of world reaction in favor of Red China's offer to negotiate with the United States on the Formosa question.

## Diem Fires Officer

SAIGON, South Viet Nam (AP)—Premier Ngo Dinh Diem today fired a Binh Xuyen appointee, Lai van Sang, as director general of Vietnamese security police.

He named army Col. Nguyen Ngoc Le as Sang's successor.

The government indicated that, rather than force Sang out of the headquarters building in the center of town, he will pull himself temporarily a half mile away.

Instructions will be issued to all the 5,000 or so agents in the provinces that hereafter they will take their orders from Le.

The 33-year-old redhead gave warning of his intent in a hysterical call to her mother, Mrs. Ellen Marrener, 65.

Her mother telephoned police, who battered in a patio door and found the actress, clad in pajamas and a housecoat, sprawled unconscious on the living room floor.

Two detectives who had kicked in the door of her swank Sherman Oaks mansion saved her life.

### Commission Votes To Vacate Property On Right-Of-Way

The City Commission voted last night to vacate the west 10 feet of the street right-of-way east of the Southwest Street and between 15th and 16th Streets in order to clear the house of Major Wheeler.

The action was taken after it was pointed out that Wheeler had constructed his home on the right-of-way and did not desire to move the dwelling back.

In other action, the Commission: 1. Tabled a request by the Selig Co. of Atlanta to be permitted to place trash receptacles, with advertising on them, on city streets. No action was taken because Carl Taylor, Orlando, company representative, was not present.

2. Approved the report of City Attorney Edwin Shinholser on the preparation of bills for the legislature.

3. Adopted an ordinance pertaining to requested changes by the Civil Service Commission. The ordinance, which must be ratified by the legislature, provides for the expansion of the Civil Service Commission to five members; a one-year probationary period, and the opening of all examinations to department members who have had two years service.

### New Jersey Builder Will Appeal Ruling

NEWARK, N. J. (AP)—A New Jersey builder plans to appeal a federal court ruling that his Fort Lee housing project, which allegedly raked in huge windfall profits, had violated its contract with the Federal Housing Administration.

The ruling yesterday by Federal Judge Thomas F. Meaney in the first case involving so-called windfall profits was described as the first of its kind against a builder.

Under the decision, the FHA can hold a meeting of stockholders of the project—known as Linwood Park, Inc.—and assume control by electing two out of three stockholders. The FHA owns all of the corporation's preferred stock.

### Workers Scheduled To Strike Today At Atomic Center

ALBUQUERQUE (AP)—About 2,400 office and production workers were scheduled to go on strike today at the sprawling Sandia base, one of the nation's major atomic centers.

In an almost unprecedented action, the Atomic Workers Division of the AFL Metal Trades Union and the AFL Office Workers Union last night rejected an offer by the President's atomic energy labor-management relations panel to review the negotiations. The two unions voted to strike immediately.

The contract between Sandia Corp., a subsidiary of Western Electric, and the two unions ended April 20. They are stalled over wages and accrued vacation schedules and the union has rejected a 28-point company package.

### Statements Made By Peiping Radio On Negotiations

TOKYO (AP)—Peiping radio today declared that direct American-Red Chinese negotiations are "necessary" to relax tensions over Formosa.

In the next breath it accused the United States of "putting forth unreasonable prerequisites" for such negotiations, proposed last week by Red Chinese Premier Chou En-lai at the Asian-African conference at Bandung, Indonesia.

Quoting a long editorial from the People's Daily, the official Communist party organ in Peiping, the broadcast dealt largely with the conference but contained these paragraphs on the Formosan question:

"During the Asian-African conference, the delegates expressed concern over the tense situation in the Taiwan (Formosa) area. The United States attempted to distort facts and poison the atmosphere of the conference by exploiting the tension in the Taiwan area, tension which was brought about by the United States itself."

### Two Men Connected With Firm Site Annexation Not Feasible

After hearing that a plywood plant is planned just outside Sanford, the City Commission last night recommended the proposed 62-acre site not be annexed for 10 years.

Clifford McKibbin, chairman of the Chamber of Commerce's industrial committee, said two Sanford men plan a \$2,500,000 investment in the plant. He did not identify them.

The plant would be located east of Sanford Ave. and south of 27th St. Its products would be used for furniture making and building materials.

In hearing another request by McKibbin, the Commission learned an unauthorized sewer line has been laid on Bay Ave. The city, it was pointed out, has been sending out notices to adjoining property owners telling them they must connect to the line within 30 days.

The line was laid despite the fact that the Commission voted to eliminate the project from the sewer program as of last Feb. 21.

City Clerk Heald Sayer reported the contractor, Sullivan, Long and Hagerty of Bessemer, Ala., had not yet been paid the \$5,200 for the line. The Commission, on motion of Commissioner John Miller, passed a resolution withholding payment until a suitable answer is given as to why the job was done.

One of the city's bond trustees, Volie Williams Sr., said since Oct. 1 the city had retired \$13,000 worth of old bonds by buying them off the market for \$96,766. The balance of the city's debt is \$5,531,000, he said.
