SANFORD, FLORIDA, SATURDAY, JULY 21, 1923

NUMBER 97

## SANFORD WILL OWN UTILITIES AND REDUCE THE RATES FOR WATER, GAS, ELECTRICITY

### GET SUPPLY OF PURE SOFT WATER FOR ALL DOMESTIC PURPOSES

### ALLOW WELLS

Use Lakes as Adjunct to Wells Giving City Unending Supply

Joseph F. Craig, engineering expert engaged by the city to locate a place from which could be obtained adequate supply of soft water, was present at Friday's meeting of the Chamber of Commerce, and gave an interesting and enlightening talk on this matter. Mr. Craig has completed his survey and in his report rendered to the City Commissioners, recommended that the shallow well system in conjunction with fresh water lakes adjacent to Sanford be utilized as a source of supply. He took issue with the recommendations of the special committee from the chamber, which was that test wells be sunk for this purpose, stating that experience had shown that soft water had never been secured at any great depth. The underground limestone formation of Florida, according to Mr. Craig, impregnates with sulphates and water affecting its purity, causes various degrees of hardness and is responsible for the disagreeable sulphurous odor.

Mr. Craig is also making an appraisal of the electric light, gas, and water plants of the Southern Utilities in Sanford. He has completed and submitted his report on the value of the waterworks and expects to have a similar report on the electric plant completed within the next few weeks. When the valuation is completed the city proposes to purchase them outright if satisfactory arrangements can be made with the Southern Utilities Co. and new plants will be constructed and issue for public ownership of utilities can be voted any time in the future by a large majority as there is a pronounced sentiment here in favor of this policy. In the meantime, efforts are being made to secure a reduction in present rates, and a report is being prepared by a special committee from the Chamber of Commerce which will be submitted to the City Commissioners at an early date, containing a schedule of new rates together with a request that they be made effective by suitable legislation. The city has the power to take this action by the authority vested in it under its revised charter.

### Teachers' Examinations Should Be Mentioned to County Superintendents

Subjects Wanted and Placed Where They Are To Be Held.

(By The Associated Press) TALLAHASSEE, Fla., July 21.—Chapters expecting to take examinations for positions as teachers next month should notify the county superintendent where the examination is to be held at least two weeks prior to the date of the quiz, according to W. Cawthon, state superintendent of education. The applicant should state for what certificate he or she expects to apply and on what subjects exemption will be claimed. From these applications the superintendent will estimate the number and kind of certificates to be applied for and report to the state superintendent in order that examination questions needed may be sent. Formerly it was the custom to send out the same kind of questions to all counties. The examinations on school subjects were conducted by the state superintendent personally. This system was changed in 1917 when an examining board known as the "Flying Squadron" was appointed to conduct the examinations. Recent changes in the state's educational laws have been made with the view of standardizing work in the elementary schools, making it necessary to again change the examination methods. The same questions on elementary school subjects will be asked this year as those on high school work will be asked on most particular needs.

### Pittman's Ferry Merchant Slain, Robbed, Threw Body in River

According To Report Received at Jackson.

(By The Associated Press) JACKSON, Ga., July 21.—P. A. Pittman, merchant at Pittman's Ferry on the road between Monticello and Jackson, was slain and robbed and body thrown into the river, according to report received here this morning.

JACKSON, July 21.—Three negroes have been arrested in connection with the killing. One of these is said by officers to have bloodstains on his clothing. The theory of the officers is Pittman was attacked in the store and his body dragged to the river where it was thrown from the ferry. The body was recovered by divers. Considerable money is said to be missing from the store and pistol and keys taken.

### TRIAL JUDGE IS WARNED BY LETTER

#### To Exonerate Floggers Aat Lumberton, N. C. Today

(By The Associated Press) LUMBERTON, N. C., July 21.—Judge Sinclair, presiding at the trial here of three men charged with flogging two white women received an anonymous letter this morning advising him to "use your every influence and brain in exonerating these guiltless servants." The letter bore postmark indicating it was mailed at five-thirty o'clock yesterday afternoon same time as stamped on unsigned letter to Stephen McIntyre, volunteer assistant to Solicitor McNeil, accusing McIntyre of "persecution." The letter to Judge Sinclair was very brief compared to the one to McIntyre and read as follows: "You have shown relentless spirit against these honorable men and we warn you to use your every influence and brain in exonerating these guiltless servants." The letter was printed in pencil as one the one to McIntyre, which told him that among twelve men that could be selected that "part of them are imbued with herculean spirit and giant strength of invisible empire. Therefore your efforts are as chaff before storm." The missive commanded McIntyre to show warning to Solicitor McNeil saying "It is as much to him as to you and same penalty on his if he exposes."

### RAILROADS ARE CHARGED WITH PADDING

Using Strategy to Show Lumber in South Show Higher Rate

(By The Associated Press) NEW ORLEANS, La., July 21.—Charges that railroads are endeavoring by strategy to augment their revenues on lumber shipments from the south without proper showing of needs and fairness of such additional revenue are made in a brief just filed with the Interstate Commerce Commission against all rail lines in southeast by the Southern Pine Association, in suit to prevent cancellation of roads of "combination rate" formula. The brief, which was made public here seeks to have the Interstate Commission to suspension order made permanent.

The Herald delivered six times a week for 10c.

### FLORIDA SHIPPERS WARNED FREIGHT INCREASES TO GO IN EFFECT UNLESS FOUGHT

(By P. H. McGowan, in Tampa Tribune) WASHINGTON, July 21.—"Unless Florida fruit and vegetable shippers co-operate with the Florida State Railroad Commission and file formal protest against the operation of the proposed ten per cent increase in refrigerator car service, effective August 10th, it is scarcely possible that anything can be done to prevent this increased rate going into effect."

This was the statement made yesterday at the office of the Interstate Commerce Commission here. In other words, while the Railroad Commission of Florida has filed formal protest most vigorously opposing the proposed increase, it was stated that the shippers have not done so, and the commission believes they should act without more delay. Unless they do so and make a showing that will offset that of the transportation lines making for the increase, Florida shippers, after August 10th, will probably be faced with the handicap of this ten per cent increase.

### VILLA WAS MURDERED BY BAND OF MEXICANS, BEING SHOT FROM AMBUSH

#### Villa, His Secretary and Three Members of Their Escort Were Slain

(By The Associated Press) MEXICO CITY, July 21.—General Villa was driving an automobile on the way to Guajuato. Immediately the news of the assassination reached here orders were sent to scour the countryside adjacent to the ambush in an endeavor to round up the guilty persons. The body of Villa is lying in the city hall at Parral, where thousands of persons have viewed it. President Obregon has ordered an investigation into the assassination.

### FINE OPPORTUNITY FOR YOUTH IN SOUTH FLORIDA

The Palm Beach Post presents most effectively the opportunity which South Florida offers and the irresistible attraction which it should present to ambitious young men and young women throughout the land: If the young men and women of America at large had the proper conception of what South Florida really is and what it actually promises, the state would hardly be large enough to hold the population which would surge into it from other sections more or less congested, more or less worn out and where existence in consequence is more or less problematical and complex; where opportunities are fewer and where the struggle for existence wages fiercely and without cessation. No better fortune could be suggested for a girl or boy than to grow up in Florida, whether born in the state or elsewhere. Beginning with infancy: Infant mortality is lower in Florida than in any state in the union. Many of the so-called children's diseases, which, in other states are frequently fatal, are in Florida, almost unknown. When these appear at all they manifest themselves in such a mild form as to create little uneasiness. Even diphtheria that scourge among children of a higher latitude, is in Florida, of such a mild type as practically to be harmless. An all-year outdoor existence contributes to health, strength and vigor, and there is enough rich and rare flora and fauna of an interesting character all over the state to quicken investigative instincts and to aid in the development of powers of observation for intelligent use in the various lines of thought and work throughout life. There are excellent educational advantages all over the state, not only in the grade and high schools, but there are numerous institutions of higher learning, where laboratories, agricultural experiment stations, fish and soil exhibits are accessible, and there are universities affiliated with the great colleges and universities of America. Sports at home and at school; scientific training in almost every branch of human activity; geological research and engineering pursuits all contribute their influence to the bodily and mental discipline which fits the American youth of today for successful activity in every field. Agriculture, stock raising, floriculture and horticulture offer the industrial openings young people begin to seek early in life. Land is plentiful and may be obtained on reasonable terms. Magnificent areas even now await but the implements that will turn them into productive holdings. Quick returns come from intelligent effort, and the whole state needs, more than any other factor in development, youth—youth above all else; youth, with its vigor, its energy, its ambition and aspiration; youth, with its hope, its faith; youth, with its future; youth—the great tonic which will single into activity all the sleeping potentialities of a great commonwealth inviting to appropriation of her tremendous resources. "Westward, ho," and "Go west, young man," are out of date, passe slogans which have died to a whisper while the clarion call, "Come South," rings insistently from the sunny stretches of wind swept Florida. The westward call of half a century ago attracted many young men and women who expended their youth and energy in building up a great empire beyond the Mississippi river, and today the west teems with a vast population, satisfied and opulent. Still youth is with us, continually seeking new fields for exploitation and glorious achievement. Florida offers the opportunity to youth—lusty, husky, courageous youth—and Florida of all places on earth is just the place where "youth's sweet manuscript" should unfold and assemble its pages for the story of life.

### SUPREME COURT AFFIRMS SENTENCE AUBREY NICHOLS

#### DELAND ASSAULT CASE WILL NOW GO TO THE JURY

(By The Associated Press) TALLAHASSEE, July 21.—The supreme court affirmed the death sentence imposed by the circuit court of Volusia upon Aubrey Lee Nichols, who was convicted of criminally assaulting a woman at Deland December 7th, 1921. Nichols in petition for new trial contended he had been sentenced without a fair trial.

### MUSICAL CARNIVAL WILL BE BIG EVENT LAKE MARY THURS.

#### HANDS, BATHING SUIT PARADE, CONTESTS, DANCING, SWIMMING AND EVERYTHING

The second annual Musical Carnival day to be held Thursday, July 26th, at Lake Mary, promises to be one of the biggest days ever held in Seminole county. The bands of Orlando, Eustis and Sanford will furnish the music for the occasion, and this will probably be the first time that a musical band concert has ever been given in this section of the state. The bathing suit parade will be made up of over a score of the prettiest girls in Sanford, which city, according to John L. McWhorter, analyst and general encyclopedist for the Tampa Tribune, has a super-abundance of feminine pulchritude. Judges of the contest will be Mrs. Ed. Fitzgerald of Daytona, Orlando's Adonis, S. Kendrick Gueney, secretary of the Orlando Chamber of Commerce, and Mrs. Earl W. Brown, of Deland. The Seminole Athletic Association has planned and will manage the athletic events that day. There will be sixteen competitive events—running, jumping, and water, that are sure to attract the athletic talent of this and neighboring communities. In addition there will be wrestling bouts and boxing exhibitions. Victor Check, the president of the Seminole Athletic Association, together with his associates, have arranged for a bait casting contest at artificial targets, which will bring out a large number of the followers of this sport. Provision will be made for the enjoyment of every one, irrespective of age. Lake Mary is popular as a bathing resort and has ample facilities to take care of any number desiring to take a dip in the clear cool waters of this lake. Luncheon can be secured on the grounds as the Woman's Club will handle this end of the affair. The moonlight dance will appeal to both old and young, an excellent floor and good music is the combination which invariably appeals to those who enjoy dancing. They can be assured of both these at Lake Mary Casino on Musical Carnival Day. If we are not a sophisticated people, why is it that so little enthusiasm when a new nickel cigar is announced?

### ROAD DEPARTMENT PROMISES AID TO THE SANFORD-ORLANDO ROAD, LAKE AND BLEDSOE BRING THE GLAD NEWS

#### Appeared Before Department to Obtain Hard Surfaced Main Highway

The Sanford-Orlando road in Seminole county will shortly be surfaced with asphalt or some other hard-surfaced material. This has been assured by the State Road Department according to the report made by Forest Lake at Friday's meeting of the Chamber of Commerce. Mr. Lake, accompanied by Commissioner G. L. Bledsoe, appeared before the Road Department at their recent meeting in Tallahassee and as a result engineers from this department were in Sanford Friday inspecting this road and making arrangements to immediately ship the necessary materials for this work. Seminole county has also been assured by the State Road Department that the latter will take over and

### BRITISH NOTE DELIVERED TO ALLIED AMBASSADORS ON GERMAN REPARATIONS

#### Will Bring Back Prisoner to Florida, Corthell Escaped

(By The Associated Press) TALLAHASSEE, July 21.—An officer with requisition papers left today for Pittsburgh, Pa., to bring back Dr. A. Edwards Corthell, who escaped last May 4th from the state prison farm. He was sentenced by Pinellas county court to two years for forgery but escaped after serving a little more than a year and made his way east where according to stories he is alleged to have told Pittsburgh authorities he forged the checks.

### REQUISITION OF GOVERNOR TURNED DOWN

#### Dave, of Adel, Wanted For Selling Mortgage Property

(By The Associated Press) ATLANTA, Ga., July 21.—Requisition from Governor Hardee of Florida for A. L. Dave, of Adel, Ga., wanted on charge of selling mortgaged property today was refused by the Georgia executive department. Florida officials were not present to push the case.

### Guess on Number of Words on Front Page of Daily Herald

#### Lloyd's Shoe Store is Giving Away Some Big Prizes at His Sale

Lloyd's Shoe Store is knocking them dead today with his big Clearance Sale on shoes. You noted the big page advertisement in yesterday's Herald giving the extremely low prices on all shoes in the store. And then the prizes that will be given away make it very interesting. The first prize will be any pair of shoes in the house and you know shoes run high these days. The second prize is any pair of \$5.00 shoes in the house and the third prize is a three month's subscription to the Daily Herald. And all you have to do is to guess the number of words that will appear on the front page of the Herald of the issue of August 4th. Easy enough and almost as easy as counting the beans in a jar but it will prove most interesting and it is sure and certain that the front page of the Herald will be read that day. And remember the big sale at Lloyd's starts today and the prices on the shoes are way down. See the window displays and get your shoes while they are cheap. You may never have such an opportunity again.

### KNOWLEDGE OF CONTENTS OF NOTES IS LIMITED TO A SMALL GROUP

### ABSOLUTE SECRECY

(By The Associated Press) LONDON, July 21.—British note in reply to German reparations communication has been delivered to allied ambassadors and all members of the British cabinet who have dispersed to country for week-end. It is understood the French cabinet meets tomorrow.

PARIS July 21.—The British note on reparations was received at foreign office today. Knowledge of the note's contents is limited to a small group of foreign office officials, each of whom promised Premier Poincare to keep information to himself, Premier saying the French government had given its word of honor to observe absolute secrecy until the British government agreed to the note's publication.

WASHINGTON, July 21.—British note on reparations sent to allied capitals also was delivered to Washington government today as a matter of information, the state department officials said. Text would not be made public nor could the subject be discussed. The note came through American embassy in London. It was said officials had not had opportunity to study the note in detail, but was indicated that when such opportunity be afforded no announcement could be expected in view of British government's injunction to strict secrecy.

### Governor Hardee Returns to Capital After Vacation

(By The Associated Press) TALLAHASSEE, July 21.—Governor Hardee returned to his office today after an absence of more than a week on a business trip to the east.

### Methodists Had Big Time at Palm Springs Thursday

Thursday was an epoch-making day for the Methodist Sunday School for good fellowship and pleasure. A large number of Methodists and their friends enjoyed the swimming and the sports at Palm Springs. A number of athletic contests took place. The event creating the most amusement was a race between the ladies coupled in pairs of fats and leans. The prize for this event was a tin whistle won by Mrs. John Leonard and Mrs. Talbert. Mrs. H. H. Chappell and Miss Johnson ran the winners a close second and in her congratulations to the winners Mrs. Chappell said that they might have run faster but certainly no harder. John Sneed had charge of the athletic events and directed the scramble of the boys in the race to see who could untie and don their shoes the quickest. Evans Spencer won this event. In the foot race for the boys, George Stoinoff carried off the honors in the closely contested race. The girls proved no less fleet in a thrilling race won by Ellen Talford. After the inspiring example of the girls, boys and ladies the men entered a race and contested for a prize, won by Frank Adams. At five o'clock an old-fashioned Methodist spread was served consisting of the traditional fried chicken, plumb pudding, pie and all the good things to eat to be found in Seminole county. The friends of the Methodist ladies from the other denominations said that the Methodist ladies certainly understood the culinary art. Frank Adams and W. E. Walcott served lemonade the entire afternoon and poured coffee during dinner.—E. H. S. Correct this mistake: "I have worn this watch for three years," said she, "and it keeps perfect time yet."

### SOCIETY

**MRS. FRED DAIGER, Society Editor**  
Phone 217-W

*If you have any friends visiting you or if you are going anywhere or coming home, or if you are entertaining, write a postal card to this department, giving details, or telephone the item. It will be greatly appreciated.*

Dr. and Mrs. E. D. Brownlee and Mrs. H. L. Gibson motored to Daytona Beach yesterday afternoon.

Captain John Wimblish, of Orlando, formerly of Sanford, was in the city yesterday afternoon on business.

Mrs. L. G. Stringfellow is visiting in New Smyrna as the guest of her brother, Mr. Wilkinson and his family.

Mr. and Mrs. Luke Thompson left yesterday by boat for Jacksonville from whence they will sail for New York.

Mrs. Harlow Goodspeed has returned home from Orlando where she has been the guest of Mrs. Roller, while Mr. Goodspeed was in the hospital there.

Mrs. J. O. Andes left Thursday afternoon for Greenville, S. C., where

she will spend a few weeks with her cousins, Mr. and Mrs. R. A. Means, Sr.

Mr. and Mrs. S. H. A. Malnes announce the birth of an 8-pound daughter this morning. The little lassie has been named Doris Lorraine. Mrs. Malnes will be remembered as Miss Bertha Macey.

#### ROOK PARTY

Miss Rebecca Stevens was the charming young hostess on Monday evening when she entertained a number of her friends at Rook, at her home on Park avenue.

Baskets and vases of garden flowers were effectively used in the rooms where the tables were placed, and crystal dishes filled with candles were placed on the tables. At a late hour the hostess assisted by her mother, Mrs. H. R. Stevens, served sherbet and home-made cake, as refreshments.

The guests for the evening were: Camilla Puleston, Elizabeth Whitner, Elizabeth Turnbull, Louise Thrasher, Louise Wells of Tampa, Telma Godbee and Luella Mahoney.

#### FOR VISITOR

Mrs. J. G. Sharon entertained most delightfully last evening at bridge at her home on Tenth street complimenting her house guest, Miss Elizabeth

Smith of Madison, Fla. There were six tables of players. The rooms where the card tables were arranged were adorned with quantities of summer flowers in the various hues.

After a spirited game of bridge, scores were counted and prizes awarded. The prize for big score, hand-made handkerchiefs, went to Miss Sarah Wheelis. The men's prize, an Ever-sharp pencil was won by Stanley Vernay. The honoree was presented a dainty vanity.

Following the awarding of the prizes, Mrs. Sharon served a delicious ice course.

Mrs. Sharon's guests were Misses Elizabeth Smith, honoree, Serita Lake, Maude Lake, Mae Holly, Georgia Mobley, Sarah Wheelis, Mary Elizabeth Puleston, Sarah Evelyn Williams, Katherine Huff, Gladys Wilson, Fern Ward, Sarah Malphus and Walter Connelly, Calvin Teague, Randall Chase, Robert Holly, Stanley Vernay, Harry Wimblish, Robert Thrasher, John Meisch, Hilliard Malphus, G. W. Spencer, Hammond Connelly and Jas. Sharon.

#### FOR MISS CRABTREE

Mrs. F. E. Roumillat entertained a number of the young girls at her home on Palmetto avenue, in honor of her cousin, Miss Dorothy Crabtree, of Tampa, who is her house guest. This attractive home was lovingly

### LOCALS

The ladies of the Episcopal church will hold a cooked food sale at Stokes' Grocery Saturday afternoon. 96-11p

Mr. and Mrs. Herbert Russell are now at home to their many friends in the Gibbs home on Magnolia avenue.

Mrs. Emma Godbee is recovering from a severe cold which confined her to the house for the past week.

Mrs. M. L. Preston, of Miami, is the guest of her aunt, Mrs. R. J. Holly for several days visit.

Mr. and Mrs. C. A. Reed and Mrs. Grant have returned from Daytona Beach.

John Bell of Lake Monroe, writes from Hot Springs that he is enjoying the baths but not the climate.

Mr. and Mrs. Endor Curlett, of Geneva, are in the city today on business.

Mrs. M. Thomas of Jacksonville is expected to arrive today from Jacksonville for a visit with her sister, Mrs. R. J. Holly and also with her old friend, Mrs. Savage.

The Chamber of Commerce held a fine meeting at the Hotel Valdez today with the largest crowd present of the summer season. The particulars of the meeting will be given in Saturday's Herald.

Mr. and Mrs. H. J. Lehman are leaving today for their old home in Crown Point, Ind. Mr. Lehman will only be away a short time but Mrs. Lehman will make an extended visit, going to Chicago and Benton Harbor, Mich., before returning.

Fred Walsma who has just returned from a trip to Cuba says that it is good to get back to a clean city again. The sanitary department of Havana was on strike while he was over there and he said the conditions were bad and the weather was hot.

If it does not rain and the sun is not too hot the Rotes and the Kiwanis will play ball today in order that the Woman's Club House can be built. If you want to see a good game of ball or a good bowl of game come out this afternoon about five o'clock and see the fat and lean men play.

Baumel's July Clearance Sale is now in full swing in summer merchandise and the choicest bargains at exceedingly low prices. Special bargains are offered for Saturday and the prices are quoted to you today in the Herald. Specials on skirts, waists, hose, bathing suits, sweaters, dresses, etc. Read the ad today and attend the sale tomorrow.

Mr. and Mrs. J. J. N. Conner and family arrived here yesterday afternoon after a two weeks business and pleasure trip in the northern part of the state. Mr. Conner reports business is good for this time of the sea-

with its decorations of pink roses combined with ferns, and the tally cards used during the games were also in floral designs.

After several interesting games, the prize, dainty hand-made handkerchiefs, was won by Miss Luella Mahoney.

At the conclusion of the game, the hostess served a tempting ice course. Invited to meet Miss Crabtree were Misses Rebecca Stevens, Carmela Barber, Margaret Polers, Camilla Puleston, Louise Mahoney and Louise Wells, of Tampa.

son up in this part of the state. He also says they had plenty of fried chicken and good things to eat while on this trip. They motored up and back in their new Dodge car.

Yowell & Company call your attention to their sale tomorrow—the Big Dollar Day Sale—at which you will get some real bargains for one big cent dollar. Don't fail to attend the sale at Yowell's.

J. H. Gillespie has been elected vice-president of Palmer College at DeFuniak Springs and will also hold the chair of Latin. Before coming to Sanford he was vice-president of the Alabama College of Alabama. Mr. Gillespie has been in the insurance business here for some time.

The Pure Food Market has a fine supply of beef, Florida and Western Pork, Mutton, Fat Hens and Fryers and home made sausage and everything in this line that you want. Delivered to your home, quick service and the aim is to please. See the ad today.

FARMERS GET LESS, CONSUMERS PAY MORE FOR FARM PRODUCTS.

Reports from the Bureau of Labor Statistics of the Department of Labor for the month from May 15 to June 15 were in the tenor of all those for the last year—the cost of living in the cities is rising. According to the digest of the Bureau's latest report published by the New York Herald, a Republican newspaper, "the cost of living is gradually increasing in some localities, while in others it is hardly perceptible."

In Washington, the seat of the national government and official residence of President Harding, the increase for the month was 3 per cent. In eighteen of the twenty-three cities covered by the report there was a rise of from about one-half of 1 per cent to 3 per cent.

While the residents of the cities and towns were paying more for their food and clothing the prices paid to producers of grain, milk, eggs, meats, and vegetables were lower than they were in the same month of last year—a fact shown by the Department of Agriculture.

ENGINEER COCKE RESIGNS.

No tears will be shed in this section of the state because of the resignation of Cocke, the engineer of the state road department.

There is hardly a doubt that this man has cost the state quite a sum of money. It is our belief that there was a general agreement among contractors bidding for work to be let by the road department that they would add a certain percentage to offset arbitrary exactions expected from him. The commissioners of this county have had unpleasant and expensive experience with him. The commissioners had plans made for the Sulphur Springs crossing of the Hillsborough, but when they were shown to Cocke he contemptuously threw them aside with the remark that his department would make the plans for the bridges built under its supervision. He treated in like discourteous manner the specifications for the widening of the Riverview road. He has refused the approval of bills for long periods after they were due, causing the commissioners much embarrassment and inconvenience, and imposing heavy losses on contractors.

But the chief complaint against him was based on his arbitrary decisions against the use of materials found in the state in the construction of the state's roads.

Of course it is well that the engineer in charge of road work be strict in requiring compliance with the specifications, but contractors are entitled to fair treatment.

It has been known for some time that at least two members of the state road department were dissatisfied with Engineer Cocke's methods, and his resignation therefore did not occasion much surprise.—Tampa Times.

FREE SPEECH AND A FREE PRESS.

Free speech and a free press has been the great boast of our Republic at least during the better years of its history, but it seems to be but a mockery at least out in New Mexico.

Out in Las Vegas, Carl C. Magee, editor of the Albuquerque Tribune was found guilty of contempt in District Judge B. Leahy's court and sentenced to ninety days in the county jail on each of four citations, the sentences to run consecutively, and in addition, fined \$1 and costs on each of the seven counts in the citations.

The Magee Publishing Company, which issues the Tribune, was fined \$1,000 on each of three counts and \$1,050 on another, a total of \$4,050 in the same connection.

The company was a co-defendant with Magee, cited to appear and show cause why it should not be adjudged guilty of contempt for publishing the series of alleged contemptuous editorials written by Magee. The court found Magee and the company equally guilty.

Magee in his writings had charged that Judge Leahy's court and various county officials of San Miguel county were influenced by a political machine.

Shortly after Magee had been found guilty of contempt, he was served with another contempt citation based upon an editorial in his paper.

It would seem that our boasted freedom of the press in the far west has become a "sounding brass and a tinkling cymbal."

These court decisions in these latter days if there are such things as taught by Conan Doyle, we know that the author of the Declaration of Independence has turned many times in his grave and his soul is very much tormented.—Ocala Banner.

JUST KIDS— Big Business. By Ad Carter

INTERNATIONAL CARTOON CO.

RETAIL SITUATION

GLOUCESTER, Mass., July 21.—Roger W. Babson, who has been visiting his parents here for a few days, issued the following statement as he left the city:

"Every group of people today has its problems. Employers have their difficulties; wage workers have their struggles; and professional men have their temptations. The greatest practical problem, however, is faced by the retailers of our average community. Surely they have problems to confront; in fact, our retailers are up against four fundamental difficulties.

(1)—INCREASED NUMBER OF RETAILERS.—Investigation fails to find a single city in the United States where, during the past ten years, the number of retailers has not increased at a greater rate than the population. To put it in another way, the number of retailers is increasing everywhere more rapidly than the population.

(2)—INCREASED COST OF DOING BUSINESS.—Retailers are faced today with increased rents, increased wages, increased taxes, and increases in almost every department of their business. Of course, this is largely a natural result of the increase in the number of retailers. For instance, in most cities the retail section is limited to a certain area, and as the demand for store space increases, rents increase also.

(3)—AUTOMOBILE SALES.—The automobile is effecting the retailers in our larger cities. During the past few years people have been getting out of the habit of using street cars and walking to the retail stores. They have been coming in automobiles instead. But just now as they have formed the automobile habit, the authorities come around and forbid parking in front of the best retail stores. The police authorities cannot be blamed for making these rulings, but the effect on the retail trade in the congested districts is apt to be very harmful. Already the exclusive shops in the center of the cities are losing trade, while the suburban shops are gaining trade. Automobiles are also changing the class of goods demanded so that retailers who fail to adjust their business accordingly are falling by the wayside.

(4)—CHAIN STORE COMPETITION.—Altho the chain store is in its infancy, many lines of trade are already feeling the effect of chain store organizations. It is mostly felt by the grocers, shoe stores, hardware dealers, clothing stores, but other lines are gradually being forced to meet this chain store competition. Considering that it is only in its infancy, the ultimate results may be serious.

"Yet, notwithstanding these four problems facing the retailers, I believe," said Mr. Babson, "that the independent retailer has a splendid opportunity if he will only organize and grasp it. There are many things which these independent retailers should do, but I will mention only four:

(1)—WORK HARDER FOR NEW CUSTOMERS AND CIRCULARIZE COLLECTIVELY FOR NEW TRADE.—The better retailers must organize into groups for collective advertising, circularizing, and general educational work. The better retailers can form groups of about fifty, of which there need be only one representative of a given line in each group. It will be found that such groups can unite in sales promotion plans for new customers, and the entire fifty can get as good, if not better results, for an amount of money that it would cost

one when working independently. The retailers should do more advertising, and cover with their advertising a larger territory than they did before the days of the automobile. Now every small city retailer can consider as a possible customer everyone living within a radius of forty miles. While each retailer should advertise his own business independently, yet he should be willing to join with the others in constructive and educational advertising.

(2)—GIVE BETTER SERVICE.—Retailers must remember that they are the servants of the consumer and not in business to gouge the consumer. The retailer whose chief interest is in his customer has a good business today and is sure to prosper in the years to come. Retailers need not worry about 'cash and carry' systems, or other new fangled schemes provided they will give service. People are willing to pay for service and attention. The retailer who offers fair city prices enjoy real prosperity.

(3)—ESTABLISH BETTER RELATIONS WITH MANUFACTURERS.—One of the greatest advantages which the chain stores have is their intimate relations with the manufacturers from whom they buy their goods. It would be possible for retailers to establish such a relationship if they would only invest their money in the stocks of the companies from which they buy. For instance, if a grocer, instead of buying mining, oil, and other stocks, about which he knows nothing, would invest his savings in the National Biscuit Company, Quaker Oats Company, American Sugar Refinery Company, etc., he would then establish a relationship which would soon be very valuable. One sees very clearly what this would mean if a large group should combine their stock holdings and vote their stock as a group.

(4)—STUDY BUSINESS CONDITIONS.—Retailers must give more thought and study to the conditions of the country as a whole. The average retailer must realize that his business depends a great deal upon the business conditions of the entire country, yes, of the entire world. This is necessary in order to know when to buy and when not to buy, when to borrow and when not to borrow, when to advertise and when not to advertise.

"It is true that the retailers of our country are faced with four tremendous problems, but I believe that all these problems can be met if the better retailers will only organize and fight collectively:—first, to get new customers; second, to give better service; third, to establish stronger relations with the companies from which they buy; and fourth, to study business conditions in general. Today business is about normal as indicated by the Babsonchart. What the future is to show will largely be determined by the attitude of the nation's retailers. It is commonly said that the stock market discounts industrial changes. Certainly the retailers discount stock market changes. The retailer is primarily responsible both for the high prices of over-expansion and the buyers' strikes with the depressions that follow."

G. W. Lawton, Bracelet Watch Expert, 215 South Orange, Orlando, Fla. 4-24-1fc

ORGANIZATION MAKES USE OF EXPERIENCE POSSIBLE.

"Individual farmers have fought many manifest evils. They have developed some organized strength with which they fight more effectively. In some cases farmers have found a way to decrease abuses, but in every case where progress has been made organization has been the bed rock of their strength and their progress." So President Gompers of the American Federation of Labor advised farmers at the recent national conference. "I can prescribe nothing short of more and more organization. Wherever there is organization there is a center—a clearing house—for the gathering and disseminating of information, of economic experience, of the manifestations within your occupation. The records so accumulated will serve to disclose the wisdom of unwisdom of contemplated policies and undertakings. Something like scientific procedure then becomes possible. The recorded experience of mankind is the only thing that enables us to avoid mistakes that were made a century ago.

"If it were not for recorded experience—experience recorded in written records and in memory for transmission from day to day and from generation to generation—we should have each day to learn again how to start fire with a whirling stick. Recorded experience in given occupations is no less vital to our social structure as a whole, less important in guiding us from day to day than in guiding us from century to century. Organization is a means of bringing us to a central point for common use of the experience of all.

"There is no force in our social organization that will not come to a council table with the farmers of the world. And, let me point out, the council table with the farmers of the world is the goal. The battleship of the world, such as some may think it, is not the goal. The Herald delivered six weeks for 15c.

MUNICIPAL ATHLETIC FIELD AND GOLF LINKS.

Some time ago The Herald said that the city of Sanford should have municipal golf links in order that all the people could enjoy this game and enjoy the beautiful country club that was only being used by a few people. It seems that the idea has taken root in the minds of many of the people here, especially in view of the fact that so many other Florida cities were voting bonds for municipal golf links. Now the idea is advanced that the city should not only own the golf links but also an athletic field, a fair grounds and all of these amusements that our people would be able to enjoy life in the open as they should in every part of Florida.

We are glad to note that the merchants of Sanford are in the mind of putting on special sales days all through the summer and stimulating business instead of taking summer vacations. This is a season when most of the people will stay at home or take their vacations near home and we can work up some fine sales days and sales weeks here this summer.

The Retail Merchants Committee of the Chamber of Commerce will take up this matter at once and put it over.

The negroes are all going north, and now the poor plow mules must learn to understand white-folks' talk.

The Daily Herald, 15c per week.

### FLORIDA FACTS

Florida had in cultivation 1,174,847 acres in 1913-1914. This acreage yielded field crops and vegetable and garden products and other farm products valued at \$83,937,135. Counties reporting in 1922 showed values of fruit crops, field crops, truck crops, milk, eggs, poultry, live stock on hand, all kinds, aggregating \$185,329,459.

Suwannee County in 1922 produced field crops valued at \$2,000,181, garden and vegetable products worth \$2,000,000 and fruits and nuts worth \$841,034.

Union county's fruits and nuts crops in 1922 yielded \$1,836,114.

The federal government patented to the state of Florida under the Act of Congress of September 28, 1850, a total of 20,414,173.38 acres of lands—swamp and overflowed, prior to January 1, 1921. On the latter date only 1,189,902.13 (estimated) acres remained in possession of the state. More than nine million acres were given to railroads to encourage the building of railroads throughout the state.

There were in the state of Florida 120,077 acres of unappropriated and unreserved federal lands on July 1, 1920.

More than \$2,000,000,000 would be required to buy Florida, according to agricultural department statisticians. These figures are based on the 1921 report of the State Comptroller which gives the assessed valuation of all kinds of property at \$423,906,718. The difference between that sum and the estimated value is represented in the state's natural expansion in wealth and by variations between assessed values and actual values of property.

## MAUGHAN WILL GET CHANCE AT ANOTHER CROSS-COUNTRY FLY WASHINGTON DISCUSSES QUESTION

### Will Make Third Attempt But Old Plane Will Not Be Used

ROCK SPRINGS, Wyo., July 21.—Further flight in the airplane piloted by Russell L. Maughan, army aviator, who was forced down here Thursday on the fourth leg of his proposed ocean-to-ocean daylight flight, is impossible in its present condition, and to repair the motor would require an indefinite period, Lieut. Maughan announced here last night.

An inspection by mechanics at the air mail field here, where Lieut. Maughan landed because of leaking oil, revealed that the plane would not leave the ground, it was announced. It previously had been planned by the army flier to make a test flight yesterday.

Reporting the condition of the machine to the army air service officers at Washington, Lieut. Maughan declared that the investigation showed that not only was his oil cooler leaking, but that water was flowing from the cylinders and mixing with the oil. More than an inch and a half of the fluid had flowed into the cockpit when he turned back to the air mail field Thursday. Lieut. Maughan pointed out that either the water leak or the oil leak would have forced him down had he continued the flight. Mechanics expressed great surprise last night that Lieut. Maughan ever succeeded in reaching Rock Springs.

Asserting his belief that the army flier could not have flown much further without having been forced to land, O. E. Stutz, mechanic of McCook Field, told the Associated Press last night that the plane was in a "terrible condition" and to repair the present motor might require several months.

Water was pouring out of the cracked water jackets at the termination

of the flight. The water jackets were of aluminum castings, it was said by air mail officials, and could not be replaced at any point west of the Mississippi river.

Lieut. Maughan, who was advised yesterday to return to McCook Field for instructions, expects to be in Rock Springs for several days awaiting the decision of Washington officials to send either a new motor or have the aviator return to McCook field by other means.

Lieut. Maughan said he was surprised to read newspaper accounts that he was sick or nearly "semi-conscious" as the result of escaping oil fumes when he landed at Cheyenne, Wyo., Thursday.

"That is the first I knew about it," the lieutenant said, smilingly after glancing at a newspaper.

The aviator explained that it had been his pre-arranged policy to lie down and rest at each stopping place, while mechanics refueled the plane.

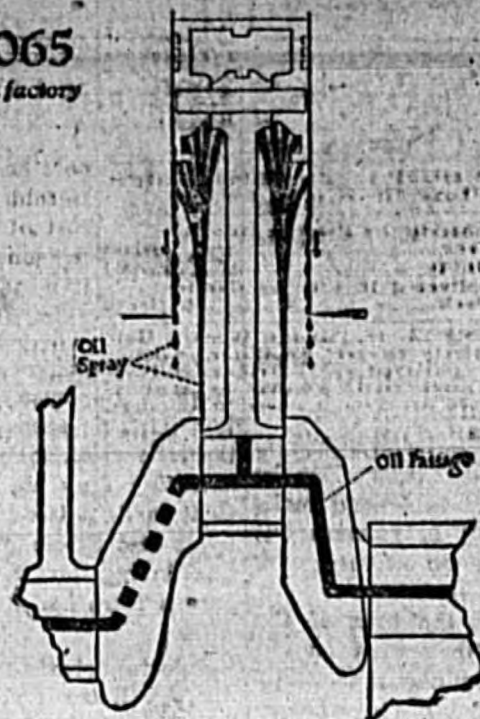

"I am ready and anxious to start again, any time plans for a repetition of the flight are completed," he said, highly elated over hopes aroused by advices from Washington that a conference on the question of the feasibility of another attempt would be held.

"I know I can make it. I would have made it this time if it had been a question only of endurance. I only had a little more than six hundred miles to go, and three hours to make it in. I had been saving my engine, waiting for that last dash. My speed was only about 155 miles an hour, because I was saving it, to reduce the wear and tear on the engine as much as possible."

### High-Pressure Oiling—2 Gallons a Minute!

LUBRICATION is life—in motors. Because it defeats wear and vibration. Jewett has a hollow crankshaft, high-pressure system, forcing 2 gallons of oil per minute to all main and connecting rod bearings, and spraying the entire internal mechanism. Metal never rubs metal in a Jewett motor—a thin film of oil safeguards bearings.

The results of such ideal lubrication are real smoothness and decided silence. Further, the continuous oil-stream tends to keep bearings cool, and Jewett takes long distances at high speeds, climbs continued grades, or trudges soft roads, without overheating. You know what happens to cars equipped with circulating and splash lubrication, under like conditions. Let us show you the Jewett! You try to overheat it.

## VITRIFIED Brick

OUTLAST THE ROUNDS

### HOGS NEAR LOWEST PRICE IN 10 YEARS UNDER HIGH TARIFF.

Hogs of an average weight of 245 pounds sold in Chicago during the week of June 25-30, 1923, at \$6.96 a hundredweight, compared with an average of \$8.24 for June, 1921, and \$13 for June, 1920. The price in June, this year, was almost the lowest recorded in a decade.

In 1920 live swine had pork products were admitted free of duty. In 1921 the Republicans imposed a heavy tariff on all livestock, including hogs, and on meats, fresh and cured. For the last ten months there has been a duty of 50 cents a hundred pounds on live hogs, (equal to about \$2 per animal) of 75 cents a hundredweight on fresh pork, and of 2 cents a pound on "bacon, hams, shoulders, and other pork, prepared or preserved."

While the Republican tariff has been of no assistance to the agricultural producers of the country it has increased their cost of living by taxing everything they require to clothe themselves, build, repair and furnish their homes.

### HARDING IS NOW ENJOYING COPPER RIVER R. R. TRIP!

(By The Associated Press)  
CORDOVA, Alaska, July 21.—The presidential transport Henderson arrived at the Cordova dock during the night and President Harding came ashore shortly before ten o'clock this morning. He and most of the members of his party left soon after on a trip to the interior over the Copper River railroad.

### THE 23RD PSALM UP-TO-DATE

Submitted to Ed. Higgins by Sandy Anderson

The Ford is my car.  
I shall not want another.  
It maketh me lie down in wet places.  
It spoileth my good clothes.  
It leadeth me in deep mud holes.  
It leadeth me into paths of ridicule for its name sake.  
It prepareth a break down for me in presence of mine enemies.  
Yea, though I run through the valleys, I am tossed up hills.  
I fear great evils, while it is with me.  
Its rods and engine discomfort me.  
It annoiceth my head with oil.  
Its tank runneth over.  
Surely the goodness of this thing follows me all the days of my life, I shall dwell in the house of the insane forever.

### TIRES! TIRES!

### Wight Bros. Department Garage Make Important Change

That Will Be of Interest to Their Many Customers and Friends

Owing the popularity of the Battery, their rugged construction and long life, and in an effort to furnish their customers with a battery of known quality and reliability, Ralph Wight, the efficient manager of Wight Bros. Department Garage, has for some time been perfecting arrangements to open a full fledged "EXIDE" Battery Service and has just closed a deal with Ray Brothers, the "EXIDE" Distributors for this territory, who will have charge of the Battery and Ignition Service, Recharging and repairing all makes of batteries, and there will be found there an Exide Battery for every known ignition job on earth. The Electric Storage Battery Co., Philadelphia, Pa., the oldest and largest makers of Storage Batteries in the world manufacture the "EXIDE" Battery in sizes from ninety tons down to the Radiophone Cell the size of a gun cartridge, the most important of which is the automobile battery, and as the battery is the life of your car you should not just buy a battery or the so-called just-as-good when you decide to get a new battery, but insist on "EXIDE." This makes two Exide stations in Sanford, one at Wight Bros. and one at Ray Bros. Service Stations.

The world is so topsy-turvy that aristocracy has no consolation in its poverty except that of ridiculing those who have the money.

The Daily Herald, 15c per week.

## OLDSMOBILE

A PRODUCT OF GENERAL MOTORS

When you drive an Oldsmobile Eight you have the satisfaction of knowing that under the hood of your car is the most powerful engine of its size in America. This fact was proved in the great General Motors Research Laboratories.

Every experienced motorist knows the advantages of having plenty of power to take care of sudden bursts of speed in traffic, and to overcome steep hills and deep sand roads. And the Oldsmobile Eight

gives you the smoothness and flexibility which go with eight cylinders.

Drive an Oldsmobile Eight and have the satisfaction of owning a big, handsome, comfortable car with an over-plus of power and an over-plus of strength in every important chassis part.

And all this at no higher cost than many cars of fewer cylinders. Oldsmobile is the lowest priced Eight on the market.

ROTARIANS TAKE SECOND GAME OF THE SERIES FROM KIWANIANS

Heavy Hitting by Bob Holly and Charles Britt Responsible for Defeat of Kiwanians

Yesterday afternoon the Kiwanians dropped the second game of the Rotary-Kiwanis series to the Rotas to the tune of 11 to 10. The game was a hitting fray all the way through.

Puleston started the mound job for the Rotas and did considerably better than the last game. Stevens who pitched the last and most part of the game was given the credit for the victory.

Britt and Holly led in the hitting attack for the Rotas, Britt getting four safeties out of five attempts and Holly, while getting only two hits brought in runners on both.

Steele and Lane were at the head of the heavy hitting list. Steele getting three out of three trips to the platter, one being good for four bases. Lane got three out of four.

This game evens up the series, both teams having one defeat and one victory to their credit.

The proceeds of the game will be given to the Women's Club.

The box score follows:

Box score table for the game between Rotarians and Kiwanians.

And now at last movement is on foot to have the city call a bond election for \$75,000 to be used in the construction of a municipal golf course, baseball park, and fair grounds.

Next week the Sanford Independents will meet the DeLand Legion team in what is expected to be the tightest game of the season.

Though the Legion team has defeated the locals three times they had a hard run for their money—and Sanford fans say that they will lose their "money" this time!

Municipal golf links will give most all of Sanford's citizens a chance to show what they can do on the links without much expense either.

Athletics Pound Four Brown Pitchers Hard

Roofs that Challenge Weather

It was Mark Twain who said, "Everybody talks a lot about the weather but nobody does anything about it."

But there is one thing you can do about the effect of weather on the roofs of your buildings. Cover them with our prepared roofing or shingles and you can laugh at intense heat, pounding rains, driving snow storms and severe cold.

Free booklets and samples. Call at our office and let us tell you how good roofings will save money for you and add distinctive beauty to your buildings through their cheerful colors.

**Upper St. Johns Drainage Dist. Badly Needed To Prevent Catastrophe**  
And Also Make Inland Waterway To Miami.  
Do the residents of the St. Johns Valley realize the inevitable result of the numerous drainage systems emptying into the St. Johns river in the event of a continued, rainy spell such as we are having at the present time. With these pouring their floods of water into the river suddenly instead of discharging it gradually as was formerly the case, and with the contingent lakes and flatwoods full to overflowing, what would be the effect of an "old time north-easter" such as most of his have only heard about. It is a curious fact that the people must have a concrete example of what would happen before any preventive measure will be taken, as in the case of Galveston, Dayton, Johnstown and many others. It would be rather new and novel to go shopping in a rowboat as they do in Venice, but the disadvantages would have to be figured in the hundreds of thousands of dollars.

This may not happen in many years, but the longer it is delayed the more damage it will do when it does happen. The conditions are perfect for such a catastrophe at the present time, and I regret to say that the sooner it happens the better, unless the people can be brought to realize the seriousness of the situation, and the necessity of taking action before it is too late.

The only consoling feature is the fact that the remedy is so easy of accomplishment. With the headwaters of the St. Johns fairly clamoring for an outlet into the Indian river, it would be such a small undertaking that it would scarcely justify the ceremonies of a barbecue or a fish fry to celebrate its completion. The Sanford Chamber of Commerce could do nothing with more vital and far-reaching effect than to appoint a committee to circulate a petition to have drainage district created by the next legislature.

How few things we really would need if there were no neighbors to envy or stand in awe.
