NUMBER 43

## DRY WEATHER OF APRIL REFLECTED IN THE CROPS ALL OVER THE STATE OF FLORIDA

### Vegetable and Citrus Fruits Show Effects of Continued Drouth

(By The Associated Press)  
GAINESVILLE, May 16.—The dry weather of April is reflected in crop conditions and prospects in Florida on May 1 and the general crop situation is similar to that of a year ago, according to the monthly review of the Federal Bureau of Crop Estimates here. The drought has damaged the truck crops both as to quality and production and the condition of citrus crops has fallen while shedding in some localities has been severe. Staple crops have suffered little except on a small extremely early acreage.

"Prospects are far from gloomy, however," says the Bureau. "Timely May rains, which have already fallen in some sections, will put the state's fruit and staple crops in a very satisfactory condition. The truck crop season will soon be over with the exception of watermelons, cantaloupes and tomatoes, which have stood the drought well except in the lower part of the state.

Conditions of oranges and grapefruit has dropped from April 1 figures of 98% of normal for oranges and 91% for grapefruit, to 86% and 81% respectively May 1. In some localities, where the drought has been of unusual duration, says the Bureau, the damage resulting will lower production of the season 1922-23, but over the great bulk of the belt the damage is more apparent than real and will be very largely overcome with good May rains and the setting of fruit from late bloom.

Shedding, which has been general as a result of the dry weather, has not proceeded much farther than to remove the surplus fruit set from a heavy early bloom.

Field peas and velvet beans are considerably below usual condition at this time of the year. Dry weather has retarded growth and a rather light production of vine from early plantings is in prospect.

Condition of early hay crops and pasture generally is 74% of normal, compared with 82% a year ago and a usual condition at this time of about 85%.

Condition of Irish potatoes on May 1 was 86% of normal, compared with 94% a month earlier and 80% a year ago. The bulk of the crop has been harvested and this condition figure applies principally to the late acreage, which has felt the effect of dry weather.

The commercial production will be fully 150% of usual in spite of the large part of the state's crop which was not harvested on account of unsatisfactory market prices and high freight rates.

Shipment of tomatoes from the East Coast is well advanced, and the condition reported, 73% of normal, on May 1, is based largely on the central peninsula of the drought, has dropped from 85% on April 1 to 73% of normal at this date.

Melons are moving from South Florida and about ready for shipment in the lower central section of the state. The lack of rain has cut the crop short on all early plantings. The bulk of the state's acreage, from Marion county north, is developing nicely in spite of dry weather and on a greatly increased acreage, production will be larger than usual.

Condition of watermelons is 80% of normal compared with 77% a year ago and a usual of normal at this time. Cantaloupes, on an increased acreage over last year, show a condition of 75% of normal compared with 73% a year ago and a usual at this time of 76%.

## INDICTMENTS ARE QUASHED AGAINST EX-GOV. S. J. CATTS

(By The Associated Press)  
LAKE BUTLER, Fla., May 16.—With all state charges against him dismissed by the action of Judge Long here yesterday, former Governor Catts faced today only the peonage charge at Pensacola, which will probably come up at the fall term of court.

Search of documents in the Chicago labor headquarters show that a few men were trying to live off the workers and it was necessary to bring on labor troubles in order that a few loafers could live without labor.

## SUMMER RATES FOR FLORIDA TAKE EFFECT

### WILL MEAN THAT MANY THOUSANDS TO VISIT STATE DURING SUMMER MONTHS

Summer rates from points of control of the Southeastern Passenger Association to Jacksonville, on a tourist-fare basis, become effective today on all carriers operating direct or through connections into the city of Jacksonville. These fares place Jacksonville on a parity insofar as the application of summer tourist rates apply, with other cities making drives for vacation patronage.

The standard fare from such points to Jacksonville will be eighty per cent of double the one-way fare for the round-trip.

In addition, special summer rates have been announced by the Clyde Line amounting to a reduction of approximately twenty per cent in the regular fare. This reduction is expected to greatly stimulate water travel from northern points to Jacksonville this being the first season since the beginning of the world war that such tickets have been available. The last summer during which those fares were effective found many tourists in the city, all south bound boats bringing large complements of tourists. The definite date for the inauguration of these fares has not been announced.

The inauguration of summer tourist rates to Florida is considered a big gain for prestige for this state, according to the Florida Development Board, which was directly responsible for the securing of these fare concessions. Efforts to secure such fares were taken up early in the year and following the first steps there was considerable correspondence and several conferences, culminating in a meeting in Atlanta, March 30 of representatives of all lines composing the Southeastern Passenger Association. At this meeting an agreement was reached on rates and privileges and all other passenger associations were advised by wire of the rates adopted.

Special summer tourist tickets will be on sale from today to September 30, with final return limited to October 31. These tickets will carry full stop-over privileges in Florida.

So far there has been reported a substantial demand for such tickets and members of the development board and local passenger officials believe these rates will result in a healthy increase in summer travel to Florida.

Week-end tickets from principal parts to seashore and mountain resorts will be placed on sale beginning this week by the Southern Railway system, announcement has been made by G. R. Pettit, district passenger agent. These round trip tickets will be sold on the basis of sixty per cent of double the one-way fare.

Such tickets will be sold on Fridays and Saturdays and will be good for return until Tuesdays. This is a more liberal arrangement than has ever before been in effect and one which will enable people of the South to visit resorts at a low cost. These tickets will be on sale until the last of September.

Peggy Joyce may have thought it smart to caug so many suicides among the men of Paris but it will not get her anywhere with the censored pictures in this country under Will Hays.

## SANFORD BAND NOW MILITARY ORGANIZATION

Major Chester H. Wilson, of St. Augustine, in company with Captain Ralph E. Stevens, paid the Herald office a visit this morning, and imparted the pleasing information that the Sanford band is now a military organization and that it will be known in the future as the 154th Infantry Band, nearly all the members having enlisted as musicians with the Florida National Guard. This action on the part of the band will make it a permanent organization and will assure it both state and federal aid, as the government will furnish all instruments, uniforms, music, and will pay the members according to their rating and the number of drills participated in.

Sanford is now the premier military town of the state, having a machine gun squad, an infantry company, a medical detachment and a regimental band. These military organizations are a distinct asset to the town, bringing, as they do, at least \$1,000 a month in cash into the city, besides which the equipment is valued at not less than \$75,000.

Captain Geo. A. DeCottes is in command of Co. D, and Captain Ralph E. Stevens commands the medical detachment.

The annual encampment of the Florida National Guard will be held this year at Camp Johnston, Jacksonville, from August 5 to 20, inclusive.

The Herald is informed that there is every possibility of Sanford securing an armory in the near future if the local legal talent of the city will prepare a bill to that end to be presented to the governor and the legislature, and it is understood that the necessary steps will be taken at once.

Every citizen of this city and county should boost these military organizations to the utmost—none of them need any financial support but do ask the moral support of our people.

## UNITED STATES REFUSAL IS NOT FINAL?

(By The Associated Press)  
GENOA, May 16.—Premier Lloyd George does not feel, it was indicated today, that the United States refusal to participate in the commission at the Hague on Russian affairs is the final American word, as the document indicates great American interest in Russia's economic reconstruction and the reply is regarded as forming a basis for further correspondence.

WASHINGTON, May 16.—The American note declining to participate in the proposed meeting at the Hague for the discussion of Russian conditions was intended to leave the door open for further discussions, it was said today at the White House.

## ANOTHER BIG BLUFF

(By The Associated Press)  
WASHINGTON, May 16.—Government is taking steps to forestall any tendencies toward raising the price of soft coal at the mines, it was said today at the White House. Secretary Hoover has the matter under investigation and action is in his charge, it was said.

## BALLOTING FOR ELECTION OF FIVE BISHOPS

(By The Associated Press)  
HOT SPRINGS, Ark., May 16.—Balloting began today at the general conference of the Methodist Episcopal Church, South, for the election of five bishops. A virtual withdrawal of Dr. Franklin N. Parker, of Atlanta, one of those to be balloted upon was announced in a statement by Dr. Parker, who asked his friends to refrain from voting for him, saying he wished to continue in educational work.

Let us do your Job Printing.

## SHIELDS CASE CONTINUED TO THE FALL TERM

(By The Associated Press)  
DELAND, Fla., May 16.—Judge Perkins in circuit court this morning announced the continuance of the case of Mrs. Alice E. Shields, who is charged with murder in the first degree in connection with the killing of her husband, William A. Shields, near here last February. Mrs. Shields was returned to the county jail.

Although her counsel pleaded she was in frail health and remaining in jail until the fall term mean death, Judge Perkins held it was a capital case, therefore unobtainable, much as he regretted it.

## U. S. WILL NOT PARTICIPATE IN NEW CONFERENCE

(By The Associated Press)  
WASHINGTON, May 16.—The government having removed today the last possible doubt as to the finality of its decision not to participate in conferences on the European economic situation of the Genoa type, officials here are waiting with interest the next move of the powers attending the Italian meeting.

## M. K. & T. RAILWAY, TEXAS-LOUISIANA, WAS SOLD TODAY

(By The Associated Press)  
NEW ORLEANS, May 16.—In what is said to be the largest railway deal in the entire south in the last twenty five years, William Edenborn, owner of the Louisiana Railway and Navigation Company, announced today he had arranged to purchase the branch of the Missouri, Kansas and Texas railroad in Texas and Louisiana.

## OVERSUBSCRIBE CHURCH BUILDING AND LOAN FUND

(By The Associated Press)  
JACKSONVILLE, May 16.—The million dollar church building and loan fund of the Southern Baptist convention was over subscribed, it was learned here today, as hundreds of messengers over the south gathered for the opening tomorrow of the sixty-sixth annual session.

Dr. L. B. Warren, secretary of the Department Home Mission Board, who raised the fund just as continued retinal trouble destroyed his sight, will make a formal report later. An optimistic report on the progress of the seventy-five million dollar campaign is also expected. Many questions of vital importance to Baptists are coming up before the convention ends next Monday, and some lively debates are predicted. The re-election of President E. Y. Mullins, of Louisville, and other officers is predicted with the exception of Dr. H. C. Moore, recording secretary. Dr. J. J. Taylor has announced he will oppose his re-election on the grounds of being editorial secretary of the Sunday School Board and not entitled to be an officer of the convention. Dr. Taylor will nominate A. S. Barnes, of Montgomery, as recording secretary. New Orleans and Kansas City are both seeking the next convention.

## NOOSE SLOWLY TIGHTENING ON LABOR LEADERS

(By The Associated Press)  
CHICAGO, May 16.—Evidence distinctly connecting the bomb throwers and the slayers of two policemen with the "big three" Chicago labor leaders is claimed today by police and state's attorneys who worked indefatigably since Terrence Lyons, acting lieutenant, and Thomas Clark, patrolman, were shot down a week ago after two buildings had been dynamited in the so-called labor war.

## WORLD IS PASSING INTO RADIO ERA VERY FAST—STATIONS WILL BE NUMEROUS

### One Can Now Sit in Home in Sanford and Get Stuff as Far as 500 Miles or More

The editor of the Herald had an opportunity to "listen in" on the radio outfit of Dr. Stevens of this city a few nights ago and it is wonderful about this radio thing. Since there are several outfits here now and more to be installed it is interesting to read about radio and the following history is timely:

It is nearly two years since the first radio broadcasting schedule was established by the Westinghouse Electric and Manufacturing Company at East Pittsburgh, Pa. Broadcasting of music, etc., by the radio phone had been done for several years prior to this but no regular programs were ever arranged and the greater portion of such broadcasting was by experimenters. The De Forest Radio Telephone and Telegraph Co., broadcasted phonograph music from their experimental station in New York city during the winter of 1916, but little attention was ever given these concerts by the general public.

However, with the rapid development of the radio telephone during the World War and the broadcasting of music, news and other information by the Westinghouse Company during the past year and a half, we now find ourselves passing into the Radio era.

No invention in the history of the world has ever received the attention of so great a number of scientists and engineers at one time as radio. There are probably a million and a half persons operating radio receiving stations at this time in the United States. Everyone of these is or soon will be a radio experimenter. The greatest of all radio experimenters today is the American school boy. He has made some of the most valuable discoveries known to science and will produce results from a conglomeration of oatmeal boxes and scrapwire that are almost uncanny. Armstrong famous the world over for the discovery of the regenerative circuit found in most receiving sets today, was an undergraduate at Columbia when his discovery was made. Meet any radio "bug" and he is sure to tell you of a new "hook-up" he has devised and a new method he has found for bringing in "K. D. K. A." louder than ever. Every radio publication is encouraging these radio experimenters by offering them prizes for various types of home made apparatus such as amullent, neatest and most efficient, one magazine having ever gone so far as to start a contest on crystal amplifiers. There is nothing in the theory of radio to indicate that such a thing is even possible, but the theories have been exploded to such an extent of late that no one dares to say "impossible."

The fascination of radio may be enjoyed by no one class of listeners alone. The young or old, male or female, well or sick may all enjoy its thrills in like manner. The baby gets its bedtime story, mother gets the fashion talk—cooking helps and items of interest to her, father gets the stock market—crop reports—news items, etc.; sister gets the dance music or classic selection if she so desires while brother "cashes in" on all of it with special interest in the baseball scores and flash items. More people are receiving the word of God today through radio than Billy Sunday ever hoped to reach. Families grouped around the radio at home listen to the sermon coming through the ether from a church hundreds of miles away. William Jennings Bryan preached a sermon in Pittsburg a few months ago and during the two following weeks forty thousand letters were received at the Westinghouse station commenting on the sermon. The number of receiving stations in New York city at this time is esti-

mated at between thirty and forty thousand with over twenty thousand in Chicago.

With radio arousing the interest of everyone the demand for radio apparatus has increased until the radio manufacturers have been literally swamped and deliveries on orders for radio sets have been held up from four to eight weeks. Seeing that the radio manufacturers were unable to meet the demand, manufacturers of every other line from steel workers to phonograph builders have entered the radio field. The result is that today we find complete radio receiving outfits advertised at prices ranging from \$5 up. It is needless to say that the \$5 outfit is soon replaced by a more expensive and reliable equipment or the purchaser, failing to get the results anticipated, gives up in despair and believes it all a fake.

In purchasing a radio receiving apparatus no matter in what manner, either from your local dealer or a mail order house, it is important to consider three things. First, the equipment should be of reliable manufacture. All apparatus and mechanical devices are subject to wear. The parts of your radio set will need replacement at some future date. The larger manufacturers will be able to replace the worn or defective part but the "fly-by-night" class will not. Therefore in selecting a radio outfit first find out who made it, their reputation as manufacturers and their reliability.

Secondly, bear in mind the fact that crystal detectors are efficient for distances up to ten or fifteen miles of the broadcasting station. Although it is possible to receive "telegraph" signals over greater distances, this is about the limit of distance for "phone" work with a crystal detector. If you are located at a distance greater than the above mentioned, insist on a vacuum tube detector. This type of instrument while costing approximately double the price of the crystal set is a far better investment. The vacuum tube detector is the more modern method, crystals having been used for telegraph work since the earliest days of radio.

Thirdly, the control of your receiver should be as simple as possible. The single circuit, regenerative receivers will be found very desirable as tuning with this type of instrument is usually accomplished by a single adjustment. There are many types and makes of radio apparatus on the market today which are thoroughly reliable in every respect. All of these come within the three specifications mentioned above and the prospective radioist may feel safe in abiding by them.

Radio is with us to stay. Colleges are adding radio to their other courses and the general public have taken it up to so great an extent that we must either keep up with the progress of time or drop out of the procession. If you are not a radio "bug" you are in either of two classes. You have never heard a radio concert or else you are too skeptical to accept the fact that radio is the most fascinating thrilling and entertaining subject of the day. If you have a young son, buy him a radio and in one week you will be one of the million and a half radio enthusiasts yourself, "listening in" on the world at large.

## ENFORCING PROHIBITION IN NEW YORK

(By The Associated Press)  
NEW YORK, May 16.—The sloop Grace and Edna, loaded, it was said with two thousand cases of whiskey, was brought into port today after being captured off the New Jersey coast. Six members of the crew were arrested including two who gave the names of John Wells and Clinton Saunders, of Miami, Florida.

## \$25,000 DAMAGE SUIT AGAINST STETSON UP

(By The Associated Press)  
ORLANDO, May 16.—Twenty-five thousand dollar damage suit of Miss Helen Hunt, of Jacksonville, against Stetson University on the grounds of alleged malicious expulsion began here today.

I'M FOREVER CHASING CHICKENS!

J. H. Tillis pulling one of his usual stunts at the Shriners' Celebration Saturday, May 27

LAKE MONROE

Peppers are moving slowly. The prolonged drouth has cut the crop short. Plants are holding up but the fruit is inferior and a short yield.

Miss Thelma Lake entertained a few of her friends Friday evening with a dance. Delicious refreshments were served and all had a most pleasant evening.

Among those present were: Misses Annie Brunton, Jacksonville; Beatrice Martin, Agnes Parrot, Alice Bolly, Sanford; Roberta and Josephine Wynne, Linda Miles, Mr. and Mrs. Dan Talbott, East Side; Mr. and Mrs. Chas. Bell, Mr. and Mrs. S. H. Buchanan, and Messrs. Jerry Hawkins, Jacksonville; Rush Stafford, Henry, Phillip and William Miles, Brown Stafford, Walter Price, Lake Monroe; Elmer Lunquist, Billie Browns, Eddie Bender, Charles Miller, Albert Bolly, Sanford.

Miss Dora May Oglesby and Mr. Napoleon Harold were quietly married at the Baptist church Sunday, April 30, Rev. R. L. Smith, pastor, performing the ceremony. The bride is a daughter of Mr. Ed Oglesby and is very popular. The young couple have gone to Jacksonville where the groom is engaged in business.

Mr. Black of Chuluota, has purchased the J. W. Bell residence. Mr. Black is also a prospective purchaser of the grocery of E. A. Oatesen.

W. E. Hawkins has bought the Phillips place and will move to the same.

Mr. and Mrs. J. T. Jacobs of Chuluota have purchased a two acre tract of land from a Bartow man and will erect a new home.

The chicken pillow given by the community for the benefit of the baseball team was quite a success. The men worked hard all day and cleared the new ball grounds just back of the school. That evening the women assembled and prepared a bountiful feast. After supper the young folks enjoyed themselves in merry games.

The ball team played a close and exciting game of ball with Longwood Saturday and won by a score of 3 to 2. Rollins college came over to Longwood and helped the other side, but Longwood and Rollins together couldn't put our boys out. Our team is getting stronger all the time and the boys are going to pull off some big stunts this summer.

Miss Frances Hawkins is visiting her uncle, Mr. Ed Hawkins at West Palm Beach.

Miss Annie Bruton of Jacksonville continues the charming guest of Miss Roberta Wynne.

Mrs. Dick Cone of Orlando is visiting her parents, Mr. and Mrs. E. Stafford.

Mr. McGuire Wagner is a guest of her sister, Mrs. Jim Oglesby, Jr.

Mr. and Mrs. Hodges, of Fort Christmas visited Mr. and Mrs. Bailey Sunday.

Mr. Jerry Hawkins has returned to Jacksonville after visiting friends here.

Mrs. George McCrumb left Saturday for a four months stay at Coronado Beach.

Miss Ora Billings of St. Cloud is visiting Miss Leola Webb.

Mr. Lawrence Stone will leave in two weeks for an extended visit to relatives in New York. She will accompany Mr. and Mrs. Frank Meisch who will also visit New York.

Mr. Mithew Turbell of Sanford was out visiting old friends at Monroe Monday.

Messrs. Ben Lake, Studorf Witte, Stake and Fred Bolly, Barcliff and Dan Talbott spent the week-end at Daytona fishing.

Mr. W. J. Jewell has been confined to his home by illness.

Henry Miles is recovering after a short illness.

UPSALA AND GRAPEVILLE

Mrs. Volie Williams went to Orlando Wednesday afternoon.

Norman Swanson came over to see his mother who has recently had a severe spell of acute indigestion.

Emil Magnuson was a guest at the home of his sister, Mrs. J. E. Lundquist, coming up from Windermere with Mr. and Mrs. Fry, and as usual attended the Sunday school.

Mrs. Pritchard is still suffering from severe headaches; she tells us a number of Upsala ladies have called to see her.

George Fuller, who has been attending college near Nashville, Tennessee, is a guest at present at the home of Mr. and Mrs. Forrest West. He is a Canadian by birth, but has lived in West Florida, though his

parents now reside in Detroit.

Mr. and Mrs. Frances Berquist of Fort Meade made the trip in their car and are visiting at the home of his sister, Mrs. E. W. Lundquist.

Mr. and Mrs. West and family went to Formosa Sunday and again on Tuesday, the latter time Mrs. Ballinger went with them to see Mrs. V. C. Collier.

Fred Krell and wife and little ones made the trip in their car Friday from Arcadia where he has been engaged packing oranges. His family are with Mr. and Mrs. Tyner, Fred having gone to Ocala for tomato packing.

Will Henderson, one of the A. C. L. shop force who is recuperating from an attack of influenza is spending this week with his married daughter in Port Tampa. His little son, Robert was ill also and Dr. Tolar was called out.

Mr. August Swanson attended the service at the Methodist church in honor of the Royal Neighbors last Sunday.

Mr. and Mrs. Noah Fry, Mrs. Bengston and Miss Eunice Tyner came up Saturday from Windermere to spend the week-end with Mr. and Mrs. T. O. Tyner, as Mr. Tyner has not been at all well.

Most of the family attended the morning service at the Lutheran church in the Swedish language.

Mr. Cramer and family as usual spent Saturday with Mrs. V. C. Collier at the sanitarium at Formosa; Mr. Thomson again being their guest.

There was a good attendance at the evening service led by Rev. Walkenburgh at the Lutheran church which was in English. He took for his text "The Two Ways" showing by the word man's freedom of choice. One thought he emphasized was "The danger of forgetting God."

Rev. Walkenburgh was a guest at the home of Mr. and Mrs. Carlson, near Monroe. At the close of the service he sang sweetly, "No hideth my soul in the cleft of the rock," others joining in on the chorus.

A number from the west side were present and Carl Pierson brought out Mr. and Mrs. Helvorson from Sanford.

Some of the young folks are planning on a chicken pillow at Crystal lake this Wednesday evening.

A SOUTHERN CINDERELLA

The Expression Class at the High School, Miss Ora Williams, teacher, will give a play on the evening of Friday, May 20th, in the High School auditorium. The proceeds of this play will be given to the Domestic Science Course which we hope to have established in the high school next year. The title of this play is, "A Southern Cinderella."

The story of the play is as follows: Twenty years before the opening of the story, Madame Charities banishes her only child because of an unsuited marriage. Her daughter dies in poverty and leaves an only child. Later through the influence of a friend, Madame Charities relents and makes a will in favor of her grand-daughter. This will be thought to be destroyed, but later turns up and the Southern Cinderella comes into her own. One of the best characters in the play is Mammy Judy, whose course of true love is rather rock at first.

Watch for the program in full. 15-447w-11c.

SALTS FINE FOR ACHING KIDNEYS

WE EAT TOO MUCH MEAT WHICH CLOGS KIDNEYS, THEN THE BACK HURTS

Most folks forget that the kidneys like the bowels get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless, inexpensive; makes a delightful effervescent lithia water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.—Adv.

LONGWOOD

Mrs. L. R. Payne and little son were visitors in Orlando Thursday.

F. J. Nelmyer was transacting business in Sanford Friday.

F. J. Rover of Orlando, has purchased the Wade Entzinger grove, better known as the Kelly grove, and expects to build immediately.

Miss Hettie Arnette returned last week from DoLeon Springs where she has been teaching.

Mr. and Mrs. B. J. Overstreet returned Wednesday from Jacksonville.

Rev. Burr delivered his farewell sermon Sunday morning. He is giving up his charge owing to his ill health.

The Longwood base ball team played Monroe Saturday on the home diamond, the score being 3 to 2 in favor of Monroe.

F. H. Phipps, of Tampa, is spending several days in town with his brother, J. E. Phipps.

Mrs. A. Y. Fuller was shopping in Orlando Tuesday.

Mr. and Mrs. J. S. Dinkel were visitors in Orlando Tuesday.

E. S. Miller is spending several days in Fort Pierce.

There will be the regular services at the Church of Christ Sunday afternoon at 3:30.

Mrs. L. T. Hunt and children, of Fort Lauderdale arrived Wednesday to spend some time with Mrs. Hunt's parents, Mr. and Mrs. J. H. Allen.

ATTENTION! \$1490 buys a Cadillac in good condition. nearly new. N. H. Garner. Itc

The large and modern Tanlac Laboratories at Dayton, Ohio, occupy 60,000 square feet of floor space. Union Pharmacy.—Adv.

ALBERT W. GILCHRIST, PUNTA GORDA, FLA., GOVERNOR OF FLORIDA, 1909-1913 CANDIDATE U. S. SENATOR

Senator Park Trammell on the stump admits that he voted against the draft law, the only fair and just way of raising a great army, contrary to the wishes of President Wilson and the advice of the professional military staff, and to the action of all our allies.

Senator Trammell admits that he voted against the return of the railroads to private ownership.

Senator Trammell admits that he voted against the Woman's Suffrage Amendment.

Senator Trammell admits that during his 5 1/2 years as senator that no bill introduced by himself in the U. S. Senate has ever become a law.

The veterans of all wars, their widows for life and children to the age of sixteen, the veterans at the age of sixty to sixty-two, receive a pension, all disabled veterans receive a pension. This is a great adjusted compensation. The proposed bonus or adjusted compensation bill will cost the tax payers about \$4,000,000,000.

The soldiers of no other wars have ever received such. The soldiers of the world wide war should not receive the \$4,000,000,000 bonus or adjusted compensation and a pension which is also an adjusted compensation. Trammell favors this bonus, Gilchrist is opposed to it. Gilchrist holds that there is nothing too good for the disabled soldiers, sailors and marines. If elected he will do all in his power for them.

Muscle Shanks for Henry Ford, U. S. to enter League of Nations with such reservation as will safeguard our country's interest. When the Republican tariff watermelon is cut, Florida to get some of its heart.

The nation helps in irrigation why not in drainage? The state authorities to prescribe specifications of material for roads provided for in federal aid roads law. Transportation rates must come down.

ALL DAY MEETING.

There will be an all-day meeting of the League of Women's Voters and the County Federation of Women's Clubs Thursday, May 25, beginning at 9 a. m., at the Woman's Club. A picnic unch will be served.

NOTICE OF INTENTION TO APPLY FOR LETTERS PATENT

Notice is hereby given that on the 30th day of May, 1922, the undersigned will apply to the honorable Cary A. Hardee, Governor of the State of Florida, for Letters Patent incorporating ROSE COURT INCORPORATED, under the following proposed charter, the original of which is now on file in the office of the Secretary of State at Tallahassee, Florida.

SAMUEL PULESTON, EDWARD HIGGINS, R. C. MAXWELL.

We, the undersigned, hereby associate ourselves together for the purpose of becoming incorporated and forming a corporation under and by virtue of the laws and constitution of the State of Florida, and under the following proposed charter, to-wit:

PROPOSED CHARTER OF ROSE COURT, INCORPORATED

Article I. The name of this corporation shall be ROSE COURT, INCORPORATED, and its principal place of business shall be in the City of Sanford, Seminole County, with branch offices at such other points in the State of Florida, and in the United States or foreign countries as the Board of Directors may from time to time designate.

Article II. The general nature of business to be conducted by this corporation shall be to buy, own, sell and convey real estate, and to improve the same by erecting buildings thereon; to buy and sell real estate for others on commission; to borrow money and money otherwise owing, by mortgages, deeds, bonds, notes or other obligation; to make advances and loans of money; to

Article III. The amount of the capital stock of this corporation shall be Fifty Thousand Dollars (\$50,000.00); to be divided into five hundred shares of the par value of One Hundred Dollars (\$100.00) each, to be paid for with lawful money of the United States. All or any portion of the said capital stock, may, however, be payable in, or issued for, used for, or in the purchase of property, services, at a just value, and therefor to be determined by the Board of Directors.

Article IV. The term for which this corporation is organized shall be for ninety-nine years.

Article V. The business of this corporation shall be conducted by a president, a vice-president, a secretary and a treasurer. (The Office of Secretary and Treasurer may be held by one and the same person, and the board of directors, the Board of Directors shall consist of not more than five nor less than three, the number of said board to be fixed by the stockholders at each annual meeting. The Board of Directors shall be elected by the stockholders at their annual meeting, which meeting shall be held at such time as may be determined by the by-laws. Until the annual meeting of the stockholders or until their death, or equities in their stead, the business of this corporation shall be conducted by the following officers: Edward Higgins, Vice-President; Samuel Puleston, President; R. C. Maxwell, Secretary and Treasurer; and Samuel Puleston, Edward Higgins and R. C. Maxwell, the Board of Directors.

Article VI. The incorporators of this company shall meet in the City of Sanford on the 4th day of June, 1922, to complete the organization of the Company and adopt by-laws.

Article VII. The highest amount of indebtedness or liability to which this corporation may at any time incur shall not exceed the amount of its authorized capital stock.

Article VIII. The names and residences of the incorporators and subscribers of stock, with the number of shares subscribed by each are as follows: Samuel Puleston, of Sanford, Fla., 131 shares; Edward Higgins, of Sanford, Fla., 131 shares; R. C. Maxwell, of Sanford, Fla., 138 shares.

IN WITNESS WHEREOF, the said Samuel Puleston, Edward Higgins and R. C. Maxwell, as incorporators, and ROSE COURT, INCORPORATED, have hereunto set their hands on this 12th day of May, A. D. 1922.

SAMUEL PULESTON, EDWARD HIGGINS, R. C. MAXWELL.

STATE OF FLORIDA, COUNTY OF SEMINOLE. I, the undersigned an officer duly authorized to take acknowledgments of deeds in the State of Florida, do hereby certify that on the 12th day of May, 1922, personally appeared before me Samuel Puleston, Edward Higgins and R. C. Maxwell, each to me well and personally known to me to be the persons described in and who subscribed their names to the foregoing Articles of Incorporation of ROSE COURT, INCORPORATED, and they each severally acknowledged to me that they signed their names thereto for the uses and purposes therein expressed.

WITNESS my hand and official seal of office at Sanford, County of Seminole and State of Florida, this 12th day of May, A. D. 1922.

W. L. HUMBLE, Notary Public, State of Florida at Large.

My commission expires February 10, 1925.
