CULED FROM THE STATE PRESS

An Epitome of the Week's Most Important Happenings in the State's Domain.

Work on three new buildings in the heart of Ocala was commenced Thursday, the cost of which will exceed \$60,000. The buildings are being erected for the Ocala National Bank, the Ross Lumber Company and Mr. Baxter Carn.

The two story residence of Hon. E. S. Matthews at Starke was, with nearly all its contents, destroyed by fire Sunday morning. Loss complete, as but few things were saved, as the fire was under such headway before it was discovered.

The senate passed without a dissenting vote the McCreary bill to extend and enlarge the powers of the railroad commissioners of the state of Florida, so as to give them the exclusive power and authority within the state of Florida to regulate charges and service of all persons, firms or corporations carrying on a telephone business within the state of Florida and for other purposes.

Two years at hard labor in the state penitentiary was the sentence passed upon young James F. Stewart, the former Southern Express Company office clerk, who was convicted of grand larceny for the theft of some diamonds which were sent through the St. Augustine office.

Jacksonville has a hen which, though she is furnished with plenty of corn, wheat and bread, is not satisfied, but persists in cleaning up the pennies, marbles, nails, collar buttons, broken glass, broken china and bar chips, given her. With this record, her henship might be able to parake of other products of the bar, as well as the chips, with perfect safety—the question is, has Jacksonville any of the "other products" to spare.

The Sarasota Times tells of the organization of a stock company for the purpose of developing Bay Island and constructing thereon a modern, commodious and attractive tourist hotel. The hotel is now in course of erection and will contain about fifty rooms, being three stories in height and having a bay front of about 100 feet. From an observatory on the building a very interesting and extended view will be possible of the bay, gulf and outlying keys.

Arguing in favor of a sea wall for West Palm Beach the News explains at length the sanitary benefits that would come from the plan and gives facts and reasons for the proposed improvement. The health of a community is of first importance, for there can be no progress in a place where disease abides. The sea wall, it is claimed, would do away with a menace that is well understood by sanitarians, and no doubt the people of West Palm Beach will come to understand its advantages and move for its construction.

W. S. Jordan was again named as the Democratic candidate for mayor of Jacksonville in the second primary Tuesday. This is equivalent to election.

Florida's legislature now has a bribery investigation all its own, and the capitol is throbbing with the greatest sensation of this session. It developed that Representative Wall of Bradford received a telegraph envelope from a house messenger, and upon opening it found it to contain \$100 bill and two \$50 bills. Mr. Wall handed the money back to the messenger and told him to give the bills back to the would-be bribes, with his respects and also to tell them to "Go to hell."

Col. Peter O. Knight, attorney for the Tampa Union Station Company and representing the Atlantic Coast Line, Seaboard Air Line and the Tampa Northern Railroad Companies, at a hearing before the state railroad commission at Tallahassee last Friday received notice yesterday from the commission that a fine of \$3,000 had been imposed upon the railroads mentioned for having violated, or disregarded, or failed to comply with the order of the commission to construct a Tampa union passenger station by January 1, 1911.

Orlando Will Bond

Orlando has a bill in the Legislature for \$350,000 and it is rumored that the city will call for a municipal light and water plant, as the citizens have had about enough of private ownership of public utilities.

USED A HATCHET

Goldsboro Negroes Fight A Battle With Keen Cutters

The petitions recently presented to the legislature reciting the peaceful tendencies of the negroes of Goldsboro was rudely shattered on Tuesday morning by a bloody affair that may prove a homicide.

Two residents of Goldsboro, Clark and Siplin engaged in a dispute about some work and came together to settle differences. Siplin had a sharp hatchet and before Clark could get in his work Siplin drove the hatchet full in his face inflicting an awful wound that will probably prove fatal. Siplin is now in jail awaiting trial.

City Council Meets

Council met in regular session May 1st at 7:30 p. m. Present, D. L. Thrasher, president; W. D. Holden, S. Runge, J. D. Davison, B. A. Howald; Absent, H. R. Stevens and H. Ward.

Minutes of last meeting; read and approved. Reports of marshal and treasurer for April read and ordered filed.

On motion the complaint of Mr. Frenger regarding sewer on Third street, between Sanford and Cypress avenues, was referred to the sanitary committee.

On motion the bill of the Sanford Garage & Machine Co., as to the care of the new fire engine was accepted and referred to the city attorney to prepare the necessary contract.

The following resolution was read and adopted: Resolved, that the fibre on the property of the Ox Fibre Brush Co., in the city of Sanford is dangerous and is a menace to health and property and that the Fiber Co. is hereby ordered to immediately remove this fiber from within the city limits.

E. E. Brady offered to keep horses subject to use of the city in case of fire, provided the city would furnish him room to store two carriages. On motion Mr. Brady's offer was accepted.

On motion the clerk was authorized to pay E. E. Brady \$100 per week on account of scavenger service.

On motion the clerk was authorized to issue tax redemption certificate for E. half lots 9 and 10, east, for sale 1901, on certificate of city attorney that the same is now the property of the city of Sanford.

On motion the bills as signed by the president and approved by the finance committee were ordered paid.

On motion council then adjourned.

M. W. Lovell, Clerk.

Little Folk's Recital

The little folks piano recital that is given annually by the pupils of Mrs. Fannie Stenbridge Munson is always an event that is anticipated with much pleasure by the people of Sanford, Tuesday evening, April 18th, at Mrs. Munson's Studio, the talented young pupils again delighted a large and appreciative audience of relatives and friends with a most pleasing performance reflecting much credit on a most excellent teacher. Mrs. Fannie Munson was assisted on the program by Miss Helen St. John and Miss Charlotte Keeler, who gave some very pleasing numbers. Miss St. John sang the song for little folks—"Little Orphan Annie," "Sweetheart Adieu," "Slumber Boat," "Mammies Chile."

The following stories from childland were charmingly given by Miss Charlotte Keeler, Moe Cow Moe, and The Hen by J. Vance Cook, Wynken Blynken and Nod, and Little Boy Blue by E. Field.

The following pupils program was beautifully carried out:

Part 1—Janizaries March, Kirchner; Ada and Maud Alice Wagner, Little Things, Rowe; Ding Dong Bell, Spaulding; Mina Howard, Sprightly Polka, Gouliani; Waltz, Holst; Caroline Spencer, Marche, Schmitt; Fairy Waltz, Streaborg; Mary Howard, Hunter's Song, Merry Sunshine, Pressels

First Step; Kathleen Brady, Minuet, Mozart-Schott; Ada Wagner, Cradle Song, Pfefferkorn; Pansy, Milo Deyo; Fannie Reba Munson.

Marche Rompupe, Gounod; Curious Story, Heller; May Thrasher, Swedish Wedding March, Sodermann; Maud Alice Wagner, Ada Wagner.

Part 2—Maud Alice Wagner, Valse Caprice, Englemann, Serenade, Schubert-Liszt, Sonate in F Major, Mozart, Soaps For Little Folks, Miss St. John, Stories From Child Land, Miss Keeler.

Best grade preserves and pickles just in, call and try them. W. W. Long, 28-1f

CHARTER BILL PASSES

Sanford Height and Goldsboro Are Now In City

NO DISSENTING VOTE ON BILL

After Being Reported Unfavorably In Committee Room Success of Measure Was Unanimous

After many days of anxiety and lobbying and jockeying for a place the famous Sanford Charter Bill passed the house on Wednesday, April 26th.

The bill to abolish the present municipal corporation of the towns of Goldsboro and Sanford Heights came up for consideration first and being disposed of the charter bill was passed in record time.

The measures were not passed without a struggle on the part of those towns, both of which had representatives at the State Capitol. Mayor A. V. French, of Sanford Heights, did yeoman service for his town and to his credit he said that he trumped the first card by having the bill for abolishing Sanford Heights reported unfavorably in the committee room which was certainly going some.

Reports from Tallahassee say that Mayor French was the champion lobbyist of this meeting and Representative Lake had no picnic when he pushed his bill through.

Now that it is all over there is no question but what Mr. Lake deserves credit for putting through the bill in record time after an unfavorable report, something that has seldom happened in the history of the legislature.

The Wednesday Club

Quite a large attendance of the club were present Wednesday afternoon for their last meeting of the year in the charming home of Mrs. D. L. Thrasher.

Miss Charlotte Keeler read a most interesting paper on "Mansemonel County, Virginia," giving in a bright, entertaining way a short history of the early colonial days and principal events transpiring in that important county, forming a part of the commonwealth of Virginia.

Mrs. M. Martin entertained the club with an admirable pen picture of "The Colonial Gentleman." Truly a charming personage, as portrayed by the pen of his contemporaries, and the historians of those early and luxurious times; when pleasing personality, culture and wealth combined to make the colonial gentleman an enviable individual.

Miss Tetherly read a very graphic description by (Hynd 1728) of the experiences of a party of surveyors who tried to pursue work "Through Dismal Swamp."

"Virginia of Today," was the very interesting condensed sketch, comparing the Virginia of colonial days with Virginia of the present; which showed much care and research, by Mrs. C. C. Worthington, who made her short topographical history of Virginia very interesting.

"Round About in Virginia," consisted of two very interesting items; one given by Mrs. J. W. Dickins, concerning an old Debtors Prison in Eastville, on the eastern shores of Virginia; and the other an article read by Mrs. L. R. Phillips, about Jamestown; its many ruins and some of the efforts being made to restore and preserve those fast disappearing landmarks.

After the conclusion of the program, the club elected the officers for the ensuing year. Mrs. Geo. L. Maris was unanimously re-elected president, as were also Mrs. May Dickins, vice-president; Mrs. S. O. Chase, secretary, and Mrs. A. D. Key, treasurer.

The president appointed Mrs. E. W. D. Dunn and Miss Clara Guild, program committee for the next year's study of Scandinavia. Mrs. Henry Wright will have charge of the civic program.

The club gave Mrs. D. L. Thrasher a rising vote of thanks for the much appreciated hospitality in the use of her home for the past five weeks, as a meeting place.

A rising vote of thanks was tendered Mrs. S. O. Chase for valuable assistance given the members of the club in the number of books kindly loaned by her. Also a rising vote of thanks to Mrs. A. D. Key for appreciated aid and suggestions in all the work done by the club and her unceasing interest and arduous duties as chairman of the program committee.

All the members, active and associate, who were not present at the meeting on Wednesday, are notified that Professor and Mrs. Maris have kindly invited the club, as has been their custom for several years past, to hold their last meeting in their charming home, Wednesday, May 10. The members are requested to meet promptly at three o'clock.

PROGRAM FOR MAY 10th.

DOINGS AT TALLAHASSEE

Legislators Have a Strenuous Week at State Capitol.

The past week has been filled with the things that generally throw an atmosphere of excited interest around the old capitol building. The race track bill and the capitol removal bill both were special orders for Wednesday, the capitol removal question coming up at ten o'clock and the race track taking their turn at the bat at three thirty in the afternoon. For over two hours the House of Representatives debated the question of submitting the capitol question. The affirmative was championed by McWilliams of St. Johns and the negative was headed by the representatives from Leon, Floyd of Franklin, Dougherty of Volusia and others. The vote in the House was decisive and no further attempt will probably be made this session to have the matter again considered.

Monday night somewhat of a sensation was created by the announcement of a member that he had been subjected to the indignity of the offer of a bribe, or at least, what was clearly intended to be a bribe. Mr. Wall of Putnam who has served before in the House and who everyone greatly respects and admires was handed an envelope upon leaving the capitol corridors about dark and when arriving home he opened it he found it contained two hundred dollars. He immediately called in a witness to the fact and returned and looked up the party who handed him the envelope and ordered him to return it to the source from which it came "and tell them to go to hell." An investigating committee was at once appointed by the House and they are at work to find out if possible the source of the intended bribe.

The bill introduced in the Senate by Senator Flournoy providing for a supreme court and railroad commission building was up for consideration immediately following the settlement of the capitol removal question. The senate bill carried an appropriation of two hundred thousand dollars. Gray of Gadsden succeeded in having an amendment adopted, cutting the appropriation to one hundred thousand dollars. The bill will likely pass in its amended form.

The dog tax question was up in the House Monday and the House after having a deal of fun with the bill so butchered it up that the introducer withdrew it.

This question will again be up for consideration however, as there are other bills pending.

The Governor's reception on Tuesday evening was quite a brilliant social function. The Governor's invitation was unique for its extensiveness and it seemed from the crowds that thronged the rooms, halls and verandas of the mansion that most everbody invited had come. This was the usual reception given by the Governor during the session of the Legislature and it was equal or surpassed possibly any previous function of this kind for enjoyment and hospitality.

New Moving Pictures.

The new motion picture theatre will be opened Monday night. They have installed the latest and best equipment obtainable, using Edison's latest thought in the machine with the outside shutter which makes it entirely flickerless. In addition they will put illustrated songs on every program. What to call the new theatre will be left with the public, and each one attending will be allowed to vote and the one selecting the lucky name first will be given a cash prize. The contest will be open the first week and the decision announced Saturday night.

The management assures the public that the motion pictures given will be seen for the first time and that they will never duplicate what has been given here. Our aim is the best possible in pictures and music.

CHAS. L. POLK & Co.

Big Things in Big Florida

While in Photographer T. P. Robinson's place of business yesterday that gentleman showed us what is claimed to be the biggest tree in Florida. It is on hammock land owned by the Holden Real Estate Co., of Sanford, and it certainly is a whopper. The picture is taken with Mr. Holden standing in front of the tree and while he is a large man the position makes him look very small. This immense cypress is 42 feet, 6 inches in circumference, or in round number about 14 feet in diameter. We will wager that the majority of the people of this city did not know how close they lived to such a curiosity. Get Mr. Robinson to show you the picture, if you cannot go and see the tree as it stands.—Orlando Reporter Star

NEWS OF THE WORLD

Items of Interest Gleaned From Various Sources

HAPPENINGS DURING THE WEEK

Here the Readers Will Find a Brief Historical Spring Flowing For Hurried Readers

The full strength of the Socialist party of America has been offered for the defense of John J. and J. B. McNamara, who was charged with murder in connection with the explosion at the Los Angeles Times building by the national executive committee of the party now in session at Boston.

The charge that a Morgan loan is being forced on Honduras deserves attention. It is one thing for the power of the United States to be used to collect a debt due Mr. Morgan, but quite another to have it force a loan from him on a weak country. If the administration proposes to rob a weak nation in the interest of J. Pierpont Morgan, congress should know it and congress should stop it.

Jack Johnson is going to buy an aeroplane. Thus he will escape the danger of being arrested for speeding. As far as the danger of injury by falling is concerned, he can make himself immune against that by so weighting himself that he will be sure to strike on his head.

Three weeks of extraordinary session of the sixty-second congress having passed into history with a record of rapid fire legislation by the house, the senate is finally organized to transact business but in no haste to consider that part of the democratic program already disposed of by the lower branch. Canadian reciprocity is the only matter now being considered by the senate and that, probably will not come before it for discussion for several weeks.

Property valued at upwards of six million dollars was destroyed, hundreds of people made homeless and almost the entire business section of Bangor, Maine, was devastated during a conflagration which occurred on Monday. A light rain fell which helped to check the fire. One life is known to have been lost, an unknown man who was killed by a falling wall.

So far as it is possible to ascertain, Easton, Pa., the scene of the awful railroad accident, eight persons were burned to death, three fatally injured, two others so seriously injured that their lives are disposed of and scores of persons were cut and burned and bruised, some dangerously, in the wreck of the teachers' special from Utica, N. Y., to Washington, D. C., on the Bolvidere-Delaware division of the Pennsylvania Railroad at Marth's Creek, N. J., Sunday afternoon.

By a vote of 40 to 7, the Illinois senate ordered the arrest of Edward Tilden, Geo. M. Benedict and Wm. C. Cummings of Chicago and their appearance now before the senate to show cause why they should not be punished for contempt. The alleged contempt consists in the refusal of the three bankers, to submit evidence before the senate committee that is investigating bribery, the bank records and a list of their customers. It has been alleged that these bank books might prove some of the stories told of money said to have been subscribed toward the election of William Lorimer as United States senator.

Senators Bryan and Fletcher were well provided with committee places in the distribution by the minority of the senate. Both these Florida senators will be heard from prominently and advantageously in the deliberations of the upper house.

Press dispatches from Manila say the Dutch have taken possession of Patmas Islands, 60 miles southeast of Mindnao, lowering the Stars and Stripes and substituting the flag of Holland. The tone of the semi-official statement given out at Washington on receipt of the news indicates the willingness of this government to let Holland have the islands, which are small in area, contain but half a hundred Filipinos and, although considered a part of the Philippine archipelago are not worth making a fuss about.

Notice

There will be a called meeting of the Sanford Library and Reading Room Association, in the Library room No. 20 Pico Block, on Saturday, May 6th, at 4 p. m. Important business.

A. D. DUNN, Secretary.
By order of C. R. Walker, President.

HOT? WHEW!!

Well I guess, but a whole lot of the discomforts that many men seem willing to put up with are unnecessary and they wouldn't put up with them, either, if they once experienced the feel-good-all-over state of the men we are outfitting for these sizzling hot days. Comfort begins with the suit -- of course one of our Dressy Blue Serges, or one of the light-weight, high color patterns, now so popular, at prices ranging from **\$10 to \$30**

CURBSTONE GLEANINGS

A Budget of Opinion "Just Between You and Me"

EVEN THE GATE POST NOT IN IT

A Chiel is Among Ye Taking Notes and Faith, He'll Prent "Em" — So Says Saunterer.

Special Correspondence to The Herald.
There are rumors on the curbstone of dark lanterns, gum shoes and greed, graft and corruption in city affairs. That the city is bound to go to the demdition bows if carried on any further by the present mayor and city council. Now if some of you folks know anything that has taken place, taking place or will take place why don't you get the facts and expose the rascals. If you don't know whereof you speak, then for the sake of our city, shut up. If a stranger ever hears your tale of woe he will never stop until he is in Canada.

Well, it looks as though Sanford Heights has been swallowed up in the capacious maw of Sanford. The boys "did their darndest" but it was no use. Now that it is almost over the matter, ought to drop.

Every once in awhile I hear some leather lunged lobster chewing the rag about the removal of the coal chute and wanting to know why in the summer breezes the city council does not move it, "rush down with pinchbars and pick ax and tear it down," and all that tommyrot. Some of these same gents allowed the chute to be placed there and now they do not want to give the railroad time to tear it down. I was just as crazy as a loon about the coal chute and the freight yards and all of it, but when I received the assurance of the council and the railway officials that it would be moved I was willing to wait. You can't push these affairs, all the reports of these Wisenheimers to the contrary notwithstanding, and you can take it from me that the coal chute will be moved, the freight yards will be moved and perhaps the passenger depot. In fact we may wake up some morning and find out that the whole blamed business has moved.

Now, will you be good?

Sanford should have a Fourth of July celebration this year and make the "old-

est inhabitant" wake up once more. It has been two years since we had such an elegant time with the help of Orlando's ball team and we have had no such time since. B. W. Herndon might be induced to get up another one if he is approached in the right manner, and you might mention a barbecue to him also. Bart just dotes on barbecues and I know he is anxious to arrange for a big celebration. If all the merchants donate as freely as they did before we could certainly have a grand time.

My friend, George Fernald thinks we should acquire telephong, manners and suggests the following:

Have you a "nice" telephone manner, a properly modulated telephone voice, a clear enunciation and a complete knowledge of telephone "form"?

If so, look for them to help you to a better job. Indeed, in some cases those things are becoming vitally necessary to securing a position.

The lady's maid, part of whose duties will be to answer the telephone, is put to the test before she obtains a personal interview with her prospective mistress. If she screams or screeches or mumbles there's nothing doing. She must look elsewhere or take up a course in "voice culture" as it relates to telephone practice. On the other hand, if she has that "excellent thing in woman," a naturally sweet voice, and talks quietly and distinctly and intelligently, milady is immediately possessed in her favor.

But the lady's maid is only one of many workers to whom telephone manners are vitally important. Fully as important are they to the doctor's, dentist's or other professional man's assistant.

And the telephone is becoming so integral a part of business and social life that ignorance of the essentials of telephoning and inability to make one's self clear and to restrain all indications of temper are going to be serious handicap to every one under any circumstances.

Nowadays every one is called on, at some time or other to talk over the telephone. How you talk to a person unseen is one of the best tests that can be applied to a person's intelligence and power of self control.

If you would succeed in business or society, learn how to talk over the telephone.

Now is the time to swat the fly and we should keep at it until he is a thing of the past. Along this line Editor Sparkman of the Lake City Index has the fol-

lowing, which is so good that I reproduce it here:

If the news were brought to Lake City today that a hostile body of men were marching upon the city with a determination to kill and maim many of our people and bring sorrow and desolation into our homes, the people would be aroused as they would not have been since '63 when the federal troops were marching on the city, and every man would turn out to repel the foe. Yet there is already as great a foe as that depicted right here. Every day he is multiplying and preparing for his toll of victims in death and disease. Every time a filthy fly drags his nasty legs over an article of food you and yours are to consume he is putting you in imminent danger by scattering germs of typhoid, tuberculosis, small pox and other disease and before the summer is past just as surely as these words are written there will be graves in the cemetery, there will be heartbroken mothers, fathers, sisters and brothers, sickness and suffering. And most if not all of this tragedy can be prevented by a little precaution. Keep the flies out of your kitchens and dining rooms and positively refuse to buy food of any nature to which the flies have access and are permitted to pollute with their filthy disease germs. If you do not do these things it is a certainty that before the summer is past you will pay twofold for your neglect in suffering and sorrow.

And now our sister city of Orlando will bond for \$350,000 and expect to purchase their own water and light plant. I congratulate the good people of Orlando upon their resolve to have municipal ownership and believe that they will never regret this step.

—THE SAUNTERER.

There is no better, safer investment than selected real estate.

Improved transportation is the forerunner of increased values.

THE ROADS OF THE WHOLE WORLD MUST BE REMADE

"Old Macadam Will No Longer Stand Strain of Automobile."

Nelson P. Lewis, chief engineer of the board of estimate of the borough of Manhattan, New York city, believes that the roads of every civilized country will have to be rebuilt because the old macadam, the best thing until now for highways, is unable to stand the grind of automobiles. Roads will have to be rebuilt to suit automobiles, because the automobile is a good thing for roads of the kind that can bear its peculiar pressure. Speaking on this subject recently, Mr. Lewis said:

"While I believe that only a bituminous substance, such as tar, asphalt or mineral oil, should be used as binding material for loose rock and sand in place of water and that all our roads should be relaid, as they must be sooner or later, many engineers seem to think that by spreading a cohesive mixture over the surface of the roads as they are will be all that is required. Some others believe that new macadam may be laid and the surface treated with this bituminous mixture. They assume that it will penetrate through and make the rock fittings fast.

"On one point there is no disagreement. It is that no roads anywhere except those newly built according to some of these more modern processes are able to withstand automobile traffic. When vehicles were drawn by horses the only damage done to the roads was by the horseshoes. The drawn vehicle was a benefit to the road, having the effect of a steam roller in packing and hardening the sand and clay.

"Everywhere the cry of bad roads is going up. We are no worse off than the rest of the world. It is a problem which now engages the serious attention of the French government, and England, which spent a hundred years in making her splendid highways, is now rebuilding them as fast as she can to accommodate them to new conditions.

"It is quite generally agreed that some form of bitumen is best adapted for this purpose.

"There are four general methods of using it:

"First.—Coating the surface to form, temporarily at least, a waterproof and dustless road.

"Second.—The penetration method, by which the bituminous matter is forced down into the broken stone, and sand or screenings are used to take up the excess of bitumen.

"Third.—The interposition of the bituminous mixture between the bottom course of stone and the top course, or new wearing surface, and the forcing of the upper course into the mixture, additional material being added to the surface to completely fill the interstices between the stones, while sand or screenings are applied to take up any excess upon the surface.

"Fourth.—The mixing method, under which the stone which is to form the wearing surface is thoroughly coated with the hot bituminous cement, with a proper amount of screenings and other fine material added to reduce the voids, the mixture being spread upon the road while hot, after which it is thoroughly rolled, as in the case of the ordinary asphalt pavement or bituminous macadam of the American type, the surface again being coated with sand or screenings, as in the other cases.

"Surface coating can be considered temporary or palliative only."

DRAQ, DRAQ, DRAQ!

If every farmer could but see the real figures showing the comparatively small cost of maintaining good roads and the loss caused by poor ones! Get busy with the drags!

New Kansas Road Bill.
A new road bill is being considered by the Kansas legislature. It provides for a state highway commission to consist of the regents of the agricultural college. This commission is to appoint a state engineer, who will pass on all bridges and road improvements.

The highway fund is to be provided by the taxing of motor car owners, dealers and manufacturers. The state engineer is to receive a salary fixed by the commission. The money derived from the taxing of motor vehicles, after the expenses of the highway commission's offices has been paid, is to be turned over to the county treasurers in proportion to the amount each county has paid in.

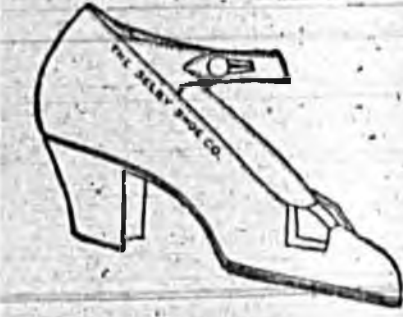

Durable and Dustless.
A durable and dustless road pavement is claimed by Francis Wood, a British engineer, in a combination of two inch granite with Trinidad lake bitumen. It is said to cost less than macadam and to be good for at least fifteen years, experiment having shown that it will stand wear, tear and wet better than any other paving ever tried.

Something to Judge By.
"They say he isn't very bright."
"I wouldn't say that."
"What is your opinion?"
"Well, when he gets on a jury the lawyers are careful not to object to him."

BROWN ROT CONQUERED.

Belief That Worst Foe of Stone Fruit Growers is Under Control.

The Rural New Yorker says that brown rot, the most destructive fungous disease known to the peach orchardist, has finally been put under control. J. H. Hale of Georgia and Connecticut paid his respects to the brown rot disease in the following terms: "The brown rot is so great a factor for evil in the raising of peaches for the market that in a few years more it would have accomplished the complete failure of my orchard plant in the state of Georgia. We can master or control every other enemy of the peach by up to date methods and precautions, but until now we have had no weapon that would touch the brown rot fungus." And then he continued to say that "the use of the self boiled lime sulphur spray as a foliage treatment for the peach tree, recently discovered by W. M. Scott of the United States department of agriculture, alone would swing the future status of my fortune from failure to success."

The importance of this spray to Mr. Hale reaches to every other peach grower in the country, with somewhat less force, except perhaps, to orchardists in the arid regions of the west where the climatic conditions are unfriendly to the career of the destructive fungus. In the early peach section of Georgia the work of Mr. Scott means the restoration of prosperous peach growing, where recently the industry has had to be abandoned solely on account of brown rot. Gradually in the past fifteen years the peach belt has been pushed farther south into the humid regions of Georgia for the

BROWN ROT OF PEACH.

[Thin the fruit, destroy the mummies, spray with self boiled lime sulphur and arsenate of lead. Directions given in circular of Virginia agricultural experiment station.]

sake of producing earlier fruit. It is here that the rot has worked the most utter ruin.

While in general it is true that the coastal plains are hardest hit, it is a fact that wherever there are stone fruits raised in abundance there is brown rot present, waiting only the awakening touch of the friendly dampness to bring it to life, when in a few days it will devour a large part or all of the profits of the orchard. In a recent year D. M. Wertz of Waynesboro, Pa., a large orchardist located in the mountain region, where peach trees are assumed to be comparatively safe from brown rot, lost twenty carloads, or about one-third of his crop, from a sudden outbreak of the fungus.

A man is not master of his farm unless he has a familiarity with each acre's value and each acre's ability. It is useless in these days of high priced land to bother with average yields. It is not wise to wait until compulsion causes one to take care of the fertility of the soil.

Feeding Mangels.

The use of roots and especially mangels for dairy cows is still much practiced in many portions of the United States and Canada. The English farmers say that mangels should not be fed until they have been stored about three months for the reason that during the period of storing the mangel gains much in sugar.—Hoard's Dairyman.

There are thousands of dollars lost every year by sowing poor seeds. Do not expect a good crop when poor seeds are sown. Seasons, good cultivation and proper fertilization will not compensate for seed from inferior plants.

Humor and Philosophy

By DUNCAN M. SMITH

PERT PARAGRAPHS.

THE man who knows how to make money seldom knows how to spend it, and conversely the spender can't make it, and thus is society kept in a constant state of evolution.

Art is long, which is probably the explanation of the fact that the artist is generally short.

A wife is like a man's digestion—as long as his digestion is good he pays no attention to it, but a bad one makes him sit up and take notice.

Truth crushed to earth gets a lawyer and sues for damages.

You know a pessimist by the way he squints when the sun shines.

While a lie is disgraceful, there are cases in which it has been known to be more respectable than the truth.

If we were to give as we should like to be given to most of us would be taking advantage of the statute governing bankruptcy.

A man says he wouldn't know how to act if he were in love, as if that would make any difference.

On Time.

I want to sing a song of spring,
For it is now the season
When winter jumps his job as king,
To say so is not treason.
I want to raise my plaintive voice
And fill my lungs of leather
That I may justice do the choice
And charming brand of weather.

To warble forth in limpid rhyme,
The charms we see unfolding
Should not be counted as a crime
Or bring on me a scolding.
For other men have had their say,
The merry May bells clanging,
And made a skillful getaway
Without a first class hanging.

We see the beauties on display
In great profusion swarming
Along the flower bespangled way
When springtime is performing.
Too fine it is for human tongue,
For words cannot express it.
So most of it must go unsung,
You'll simply have to guess it.

And why should not a time like this
Have poets to enbalm it
In words that rhyme with bliss and kiss
And sizzle as a comet?
I simply have to sing of spring
Without the least compunction.
You cannot stop me, though you bring
To bear a great injunction.

Perverse.

"It is awful the way scorching automobiles run through the streets."
"They ought to be fined."
"They have absolutely no regard for the common man."

"I should say they haven't. I have been carrying accident insurance for more than a month, and not one has run over me yet."

Loses His Job.

"I nearly always lose my job."
"That's hard luck. What is the reason?"

"My boss is so stupid."
"How stupid?"
"Never can see the point when I tell him how to run the business."

Had a String.

"Old Roundsmen doesn't come out with the boys as he used to."
"No; he had an accident."
"What was that?"

"Some months ago his creditors got after him, and he had to put his property in his wife's name."

Gold Reserve.

"He has a streak of yellow."
"Why, I thought him a courageous young fellow."
"He may be courageous enough, but his old man's bank account gives him a decidedly other tinge."

His Specialty.

"He makes love to every girl he meets."
"He can't help it."
"Why?"

"He says love is a mere nothing, and he does nothing exceedingly well."

She Squelches Him.

"Does your husband ever get an overbearing streak?"
"Sometimes. Not often."
"What do you do?"
"Just steer him up against the cook."

Truthful John.

John was trying to beat his best friend out of his motorcar.
"John," said his father, "what are you doing?"
"Doing my best," returned John.

THE SANFORD HERALD

Published every Friday Morning at Sanford, Fla. R. J. HOLLY, Editor and Proprietor

Subscription Price, \$2.00 a Year in Advance

Entered as second-class mail matter August 22nd 1908, at the Postoffice at Sanford, Florida, under Act of March 3rd, 1879.

Office in Herald Building Telephone No. 148.

M. E. Miller has purchased the Tavares Herald from T. P. Carnes and will assume charge at once. The Herald gives greetings to the new editor.

The Jacksonville Metropolis celebrated the anniversary of the great fire on May 1st by a special edition of 48 pages giving a fine description of the old and new Jacksonville.

Post Card Day in Sanford was observed by the sending of thousands of cards and many copies of the Herald but many more could have been sent and every day in the year be Post Card Day.

Editor Simmons of the Ft. Meade Leader was horse-whipped last week by a county official. This does not mean that a law is out on editors in every county. There are several editors in Orange County that won't stand for horsewhipping.

An article in the Jacksonville Metropolis states that the Southern Express Co. is prospering in Jacksonville and might put up a building some time and have property of their own. The many warm friends of the express company in Florida will be tickled to death to learn that the public spirit of this benevolent organization is being manifested. After such a struggle against the 'cruel' world to have some 'real' property to hold. Let us to prayer!

Enthusiastic meeting of the grower's week means that the Association is stronger and better next year and year's experience will be rich dividend. The retiring officers and directors be commended for the good work shown in the face of great difficulties the new directorate can profit experience. The Herald is heartily in favor of the Association being of service to the growers and this usual will lend a hearty support Association at all times.

ORANGE REPRESENTATIVES

Orange County can well be proud of her and Representatives. Senator and Representatives Lake and on have been conspicuous during session and are receiving the recognition of the people. For Massey while occupying the office of attorney for the Railroad Commission started the probe into the affairs of Ellen N. and the railroad brought to time was chiefly due to Attorney-General Trammel and Stokes. Orange County is always ahead.

COMMISSIONERS MEET

To Build the Bridge at the East Coast Ferry. Met in regular session last Tuesday 2. Present: Chairman Overstreet, Commissioners Merrill, Woodruff, and Brown. J. D. Farrell, supervisor, in attendance to the visit and inspection of County Camp of prisoners was reviewed. Application of Sld J. Jones & Co. for a road line between sections 35 and 36, T. 21 S. R. 30 E., received and laid over under the rules. The committee to which the petition for the road from Oakland to the Lake county line was referred made their report, and upon motion the petition was prayed for with the addition to the route, from where it strikes the county line, then north on the county line until the road leading to Mant Verde is reached in Lake Co., was granted. Application of Peter N. Pruitt for a pardon was presented and signed by the board. C. W. Goodrich appeared before the board in reference to establishing permanently the corners of land; laid over for future consideration. Upon motion the letter of S. A. Robinson was turned over to the attorney of the board and he requested to draw a bill preventing hogs from running at large in the county and mail the same to Mr. Robinson. The purchasing of a new scraper referred to Messrs. Overstreet & Branham. Letter from M. L. Fletcher received and read. Adjourned to Wednesday, May 3, 1911. 8:30 a. m. Board met, Present Chairman Overstreet, Commissioners Merrill, Dillard, Woodruff and Brown. Pursuant to adjournment the plans for the Jessup bridge were submitted. After

Geo. I. Russell and I. W. Phillips. J. S. McCawley sureties: B. C. Abernathy and J. M. Cook. Chas. F. Granniss sureties: Chas. G. Lee and L. L. Payne. (Pistol). (Rifle). Bond of Jas. Thompson as Notary Public with O. W. Leake and C. B. Davids as sureties was approved. Petition of J. A. Smith, C. W. Smith et al, for road from point of clay road, near Mathew Stewart's home and run due north through Central Avenue Plymouth to intersect Merrimack Avenue in the village of Merrimack received, read and upon motion the road is, ordered to be opened as petitioned for. Petition of Anna Anderson for relief referred to the Clerk of the board. The request of Dr. Nixon to establish a telephone line from Chuluota to Christmas received and granted upon condition that he comply with the law in such cases provided. Upon motion the tax assessor is to be paid a monthly salary of his clerk in making up the assessment roll of 1911; the said amounts to be deducted in the final settlement with the assessor. Communication of H. C. McDaniel in reference to trees along public road received and read. Clerk instructed to answer. Letter from Hon. S. A. Robinson received and read. P. L. Starbird appeared before the board requesting a reduction in his assessment on personal property. Upon motion it was ordered that the tax collector collect taxes on an assessment of \$800.00 and account for the change in his final report. J. W. Childress appeared before the board asking for relief concerning his taxes; Upon motion it was ordered that the assessor assess the property of Mr. Childress at a valuation of \$10.00 for the year 1911. W. M. Hansell appeared before the board in reference to the road petitioned for by C. H. Hoffner et al, upon motion it was ordered that the subject matter be referred to Supt., of roads and bridges and Chairman Overstreet. Col. Wm. H. Jewell appeared before the board in reference to the burning of the Granniss barn; upon motion it was ordered that a reward of \$500.00 be paid for the arrest and conviction of the criminal provided Mr. Granniss will give the same amount. G. O. Swartz appeared before the board in reference to a drainage ditch that has been dug on his place. W. D. Holden appeared before the board in reference to taxes on lot 3, block 3, tier one, Sanford; upon motion it was ordered that the comptroller be requested to allow Mr. Holden to redeem said lot at a flat sum of \$200.00 not including clerk's costs. In reference to the taxes on the Robert Hungerford Industrial School lands it was ordered upon motion that the Clerk certify to the assessor that the school land is not subject to taxation. In reference to the map used by the county from Dr. Aldridge's land, map of said land surveyed by J. O. Fries, Co. Surveyor, submitted area 1 67-100 acre; upon motion it was ordered that a warrant for \$200.00 be issued, in full payment of the mark used by the county. Messrs. Dickson and Cheney appeared before the board in reference to the bridge at the East Coast Ferry asking that the necessary work be done to have a good crossing at the East Coast Ferry; action postponed until Tuesday. The application of Mr. Dommerich for a change in the public road from Lake Howell to Woodbridge was upon motion referred to Supt., of roads and bridges with power to act. Petition of S. E. Mathers, J. M. Williamson for a road line between sections 35 and 36, T. 21 S. R. 30 E., received and laid over under the rules. The committee to which the petition for the road from Oakland to the Lake county line was referred made their report, and upon motion the petition was prayed for with the addition to the route, from where it strikes the county line, then north on the county line until the road leading to Mant Verde is reached in Lake Co., was granted. Application of Peter N. Pruitt for a pardon was presented and signed by the board. C. W. Goodrich appeared before the board in reference to establishing permanently the corners of land; laid over for future consideration. Upon motion the letter of S. A. Robinson was turned over to the attorney of the board and he requested to draw a bill preventing hogs from running at large in the county and mail the same to Mr. Robinson. The purchasing of a new scraper referred to Messrs. Overstreet & Branham. Letter from M. L. Fletcher received and read. Adjourned to Wednesday, May 3, 1911. 8:30 a. m. Entertained Senior Class

Miss Eugenia Pope delightfully entertained the Senior class of the Sanford High School at a party last Friday evening, given at her handsome new home on Sanford Heights. The evening was pleasantly spent, playing games of different kinds and ice cream, cake and fruit were served. Some of those present were Miss Carrie Lovell, Miss Martha Fox, Miss Mary Chappell, Miss Sadie Williams, Miss Ruth Mettinger, Miss Mabel Cowan, Miss Willie Singletary, Miss Gussie Tillis, Seth Woodruff, Ernest Household, Ernest Betts, Vall Lovell, Marx Baker, Abie Kanner and Harry Carlson.

The Welaka Club held the monthly business meeting in the club rooms Tuesday afternoon, a large number of the members being present. The President Mrs. R. S. Keelor was detained at home on account of sickness, and Mrs. R. J. Holly presided. A pleasant social hour followed the business session. Mrs. J. W. Dickens is hostess for the month, assisted on this occasion by Miss Madge Ward and Miss Mabel Bowler.

A progressive dinner was greatly enjoyed last Friday evening by a congenial party of friends in this city. The courses of an elegant dinner were served at the homes of each member of the party as they progressed from house to house in automobiles. Those who made up this pleasant party were Mr. and Mrs. A. P. Connelly, Mr. and Mrs. B. W. Herndon, Mrs. Robert A. Newman, Mr. and Mrs. D. L. Thraher, Dr. and Mrs. S. Puleston.

Pupils Recital

An event that is looked forward to with unusual interest is the pupils recital which will be presented to the public by Mrs. R. Homrighous on Saturday evening, May 13th, at the Congregational Church. In addition to the advanced pupils who will take part on the program, the Ladies' Chorus under the direction of Mrs. Homrighous will make their first public appearance.

The pupils who will take part on the program, are Mrs. H. C. Maitland, Mrs. G. L. Speer, Mrs. E. Hester, Mrs. Jessie Speer, Misses Flossie Frank, Mercedes Munson, Laura Fish, Margaret Wight, Ellen Mahoney and Gladys Gardner. Messrs. Clarence Mahoney and Frank Adams.

The members of the chorus are Mesdames W. T. Johns M. H. Bowler, Greenland, Polk, Greenman, Geo. L. Speer, Jessie Speer, Hester, Witte, McDaniel, Waldron, A. A. Brown, Misses Flossie Frank, Mabel Bowler, Laura Fish, Jessie Stumon, Josie Stumon, Gladys Gardner and Helen St. John.

Misses Madge Ward and Elossie Frank will act as accompanists. Misses Charlotte Keelor, Madge Ward, Helen St. John, Flossie Frank and Mable Bowler will act as ushers for the evening.

Circuit Court Postponed.

In Circuit Court, Seventh Judicial Circuit in and for Orange County, Florida. Spring term, 1911. With the consent of the bar, and because of the illness of my family it is ordered by the court that the Spring term of this Court be continued to the third Monday in June, and that all causes, suits, motions, and other pending matters be continued to that day. Done in open Court at Kissimmee, Fla., this 1st day of May, A. D. 1911. MINOR S. JONES, Judge.

Drink Pure Water.

thorough discussion, upon motion the clerk is instructed to advertise for bids for building bridge at the mouth of Lake Jessup; plans and specifications to be found at the Clerk's office.

In reference to building the bridge at the East Coast Ferry, upon motion it was ordered that the bridge be built and the Clerk instructed to advertise for bids; Mr. Branham to provide the plans and specifications to be found at the clerk's office.

Clerk instructed to write Mr. Swartz in regard to his land on Beardall Ave., matter is under advisement and answer will be given at June session.

The reports of the county officers were received and filed. Accounts examined and warrants ordered paid. Adjourned to June session.

LEASED THE GABBET PLACE

Cruse Barnes Well Satisfied with Returns from Crops.

Cruse Barnes is one of the oldest and most successful celery growers in this section, and when it was announced several weeks ago that he had disposed of his fine farm on the lake front and would quit the celery business some of the calamity howlers picked him for a shining example of a grower who had become disgusted and quit.

They were mistaken as they generally are for Mr. Barnes has made good returns straight through the season. When other people plowed under the lettuce that was damaged by the storm, Mr. Barnes left his in the field and realized a good profit from it long before the other fellow could get lettuce growing. The other day on four cars of celery he received \$1.76 per crate in return. This farm was sold the other day because he received his price for it, but he had no intention of quitting the game.

This week Mr. Barnes leased the Gabbet place on the lake front opposite his former place and he is busy getting the farm in good shape for next season. The growers who have lived here long enough to become acquainted with soils and fertilizers have made good and the real figures of their profits are not made public.

IN AND ABOUT THE CITY

Little Happenings—Mention of Matters in Brief.

PERSONAL ITEMS OF INTEREST

Summary of the Floating Small Talk Succinctly Arranged for Hurried Herald Readers.

Fred Wellington and family left today for Oswego, N. Y., to spend the summer. They will return next season to their farm near Sanford.

Kenneth Murrell has returned to his home in this city from a trip to Atlanta.

Miss May Leonardi, of Osteen, is the guest of Miss Beattie Graves.

Friday evening, May 12, the ladies of the Methodist church will give a moonlight car ride. The destination will be the residence of Mrs. H. H. Chappell, where the evening will be spent, a program given, and refreshments served. Car fare will be 35 cents, which will include refreshments. All are invited to go and spend a pleasant evening.

Mr. Mason Tate, of Osteen, was operated on at the Nursing Home last week and is doing well.

Mr. and Mrs. A. M. Hill have sold their home on Magnolia Avenue and returned to Wichita, Kansas to make their home.

The friends of Mrs. J. C. Dempsey, of Tampa, will regret to learn that she has been taken to the DeSoto Sanatorium, where she will undergo an operation. Mrs. Dempsey has frequently visited her sister, Mrs. Sheldon A. Morris, in Jacksonville, and with whom she has spent the past week, and she has many friends in Jacksonville who hope for her speedy recovery. Mr. Dempsey arrived in Jacksonville yesterday to be with his wife during the operation, and her mother has also come to this city.—Times-Union.

Mrs. Dempsey is a sister of Mrs. J. A. Harrold, of this city and has a large circle of friends here who will be glad to learn that she is now out of danger.

Mrs. H. H. Deane returned to her home in Jacksonville Tuesday afternoon, after a visit of some weeks with her sister and brother, Mrs. J. N. Whitner and Mr. D. A. Caldwell.

Mrs. J. C. Higgins returned to the city Tuesday afternoon, from a short visit to Baltimore.

Mrs. Sydney C. Houston, of Ft. Lauderdale, is in town on a pleasant visit to relatives.

Mrs. Stephen Bolagh, of New Smyrna, is at the nursing home. She was sent here by Dr. L. B. Borchelle for operation.

H. E. T. Glover of this city, will leave next week for his home in London, England, after a stay of several months in this city. Mr. Glover has a celery farm on Celery avenue which brought in some of the finest returns recorded this season.

R. C. Keene, of Macon, Ga., has accepted a position with N. O. Garner. Mr. Keene is an experienced grocery man and will prove a valuable aid to Mr. Garner in taking care of his growing business.

The advanced piano pupils of Mrs. T. Pieton Warlow, soprano, will give a recital in Studio of Mrs. Munson Monday May, 22nd, 8, p. m. Voluntary admission for programme expenses. Seats may be reserved of Mrs. D. L. Thrasher.

Don Peabody was circulating among old Sanford friends on Wednesday. He is located in Ocala in the moving picture business.

Messrs. Carmichael and Dekle, of Ocala, were in the city on Wednesday.

A. S. Nidor has returned from a business trip to Jacksonville.

Mrs. J. N. Whitner has returned from Jacksonville, where she accompanied Miss Alice for treatment of her eyes. Her friends will be glad to learn that the eye is greatly improved and Miss Alice will return home in a few days.

Robert Herndon is at home again after touring the west with the Neill Burgess Co. Mr. Herndon has attained wonderful success on the stage and his many Sanford friends are proud of his achievement.

Mr. Ralph West and family left last Wednesday for Rome, Ga., where they will make their future home and where Mr. West has charge of the Virginia-Carolina Chemical Co.'s plant. We are sorry to lose these good people from our midst and hope to see them in Sanford again in the near future.

J. A. Abrams, representing the Jno. A. Cunningham Co., of Jacksonville, was in the city on Tuesday calling on the local trade.

Mrs. Henry McLaulin left on Thursday morning for Macon, Ga., where she was called by the serious illness of her sister.

The Sanford Music Club.
The regular meeting will be held in Mrs. Munson's Studio on Saturday at 3:30 p. m. All members be present, as it is the annual election of officers.
M. MARTIN, Pres.

Methodist Church

Services at the First Methodist Church next Sunday night at 7:30 will be in form of a song service and will consist in study of and use of the "Old Songs" as follows:
1. "Come thou Almighty King," by J. A. Hendry.
2. "Come thou fount of every blessing," by Rev. Mr. Langley.
3. "Come ye that love the Lord," by J. W. Knight.
4. "Christ the Lord is risen," by L. R. Phillips.
5. "Come Holy Ghost our hearts inspire," by J. K. Metenger.
6. "Come every soul by sin oppressed," by A. R. Choffell.
7. "Children of the Heavenly King," by Mrs. L. R. Phillips.
8. "Christ for the World," by Mrs. C. M. Hamilton.
In connection with use of each hymn will be given a brief history of the composer and the hymn. Should these services be appreciated they will be held from time to time as we may think wise. A cordial invitation extended to all.

Death of Little Ben Guthrie.

The many friends of Mr. and Mrs. B. J. Guthrie will deeply sympathize with them in the loss of their bright little boy, Ben, who died on Tuesday after a short illness. Little Ben was one of the brightest buds of promise in our midst and was a source of joy and comfort to his parents and the entire neighborhood where he resided. The funeral services were conducted from the Presbyterian Church on Wednesday morning, Rev. J. F. McKinnon officiating. Only the memory of the lovely boy is left, yet how sweet, how uplifting its influence. For, after all, death is but the slipping off of the outer body. When death strikes down the innocent and young, for every fragile form from which he lets the panting spirit free, a hundred virtues rise, in shapes of mercy, charity and love, to walk the world and bless it. Of every tear that sorrowing mortals shed on such green graves, some good is born, some gentler nature comes.

Informal Reception.

Last Friday evening the ladies of the Eastern Star gave an informal reception in the Masonic Lodge in honor of the Masons and their families. Mr. C. F. Haskins was master of ceremonies and addressed the assembly, stating the object of the gathering. Worthy Matron Miss Mary Ensminger in a very pleasing talk told of the object of the Eastern Star. Addresses were also made by M. W. Lovell, F. P. Forster, O. L. Taylor, C. R. Walker and Past Worthy Matron Mrs. Robbins in behalf of the Order. A recitation by Miss Carrie Ensminger. Vocal numbers were given by Miss Mabel Bowler, accompanied by Miss Flossie Frank and Mr. Frank Campbell accompanied by Miss Carrie Lovell. Fruit punch was served during the evening by Mrs. K. L. Jones. Ice cream and cake was also served. At the close of this pleasant evening the crowd joined in singing several Eastern Star songs, closing with "Nearer My God to Thee."

Almost A Drowning

On Wednesday morning a little Harry Terwilliger was playing on the city dock he fell into the water and but for the timely assistance of Chas. Tate the little fellow would have been drowned. Mr. Tate by holding on to the cross beams of the dock managed to reach the boy as he was going down for the last time, and held him until assistance reached them. The physician was forced to work for almost an hour to bring the lad around and the escape from death was near enough to prove a warning to children in the future.

W. C. T. U. Meeting

The W. C. T. U. will meet on Tuesday afternoon at 3:30 at the Methodist church. The program for this meeting will have to do entirely with the subject of recreations. There will be a talk by Miss Savage on the Public Playground Movement in America, a report and discussion of the work of the National Story Tellers' League and an open discussion on what Sanford has to offer its boys and girls in the way of recreation. It is hoped that all members and many visitors will be present at this meeting.

Bold Burglar at Work

Early Sunday morning burglars entered a down stairs front room of the Robbins' Nest through the window. Dr. A. A. Armstrong of Fair Haven, N. J., who had been spending the winter in Sanford for his health had rented the room for a few days.

The thieves got a gold watch worth at least \$50, about \$22 in money, a Waterman fountain pen, a clinical thermometer, a pearl handled physician's knife, a hypodermic syringe and perhaps some other things. After being riddled, the trousers were left in a rocking chair on the front piazza.

Sanford Suits Him.

J. T. Jones returned this week to Worcester, Mass., after a season's farming on the Chappel place. Mr. Jones was a

street car conductor in his home town and came to Sanford to escape the rigors of a northern climate. With no experience in farming he took a few acres on the Chappel place and under the supervision of H. H. Chappel planted a crop. With a small outlay of money Mr. Jones made good and left Sanford so well satisfied that he will return in the early fall and try it again.

COUNTY HAPPENINGS

A Budget of Interesting Items From Correspondents

THE EVENTS OF ORANGE COUNTY

Efficient Staff of Reporters Weekly Covers the Territory for The Herald

PAOLA POINTS

Special Cor. to The Herald.
After our exceptionally cool April weather, May seems to be bringing us a taste of the good old summer time.

Mrs. C. A. Fox of Sylvan Lake, who has been quite ill for the past week, is now improving, we are pleased to hear.

Mrs. Elizabeth Bullock of Island Lake and Mrs. E. R. Remyon and little daughter, Alice, left Tuesday, May 2d, for Steubenville, Ohio, their northern home.

On Friday night, the home of Mr. J. O. Tabor, at Twin Lakes was entirely destroyed by fire, nothing whatever being saved. This was probably the oldest house in the neighborhood, being built in the early 70's. Miss Tabor was quite badly burned about the face and arms in an attempt to put the fire out, which started, it is supposed, by the explosion of an incubator lamp. Miss Tabor is now fast recovering, under the skillful care of Dr. Neal of Sanford.

A new schedule for the Leesburg "passenger" went into effect May 2d, the train coming out from Sanford about 5 o'clock instead of 7.

We note with interest the opening of the amusement park near Monroe. All success to Mr. Victor Schmeiz of Sylvan Lake in his new venture.

GENEVA JOTTINGS

Special Correspondence to The Herald.
Capt. Leonard is again in Geneva after several months spent with his son-in-law in St. Augustine.

Mrs. B. V. David is in Sanford, where she went to seek medical treatment for her baby girl.

Mr. and Mrs. C. A. Raulerson visited Sanford last Saturday.

Mrs. A. Grey Moran and children, Helen and Aubrey, Jr., are visiting friends and relatives in Sanford and Lake Mary, while Mr. Moran has gone on a visit to his mother in Miami.

Miss Leta Peters has resumed her position in Jacksonville as stenographer and left Geneva last week to accept the same. We will miss Miss Peters very much and hope she will soon return.

Mr. and Mrs. Howard, and Mr. and Mrs. David Speer visited Orlando and Sanford last Saturday.

Mr. Lamrose returned to his summer home in New York last Wednesday.

The Niblo property was sold at public outcry last week. The house and grove were purchased by L. P. Daniel.

The fishing from Lake Harney is over for this season.

Mr. and Mrs. Laing and two children, Jule and Robie, from Sanford, spent the week end with their relatives, Mr. and Mrs. W. D. Ballard.

Mr. and Mrs. Potter, who have been visiting Mr. and Mrs. Geo. Peters, have gone to Bartow for a while before returning to their home in New York.

MOORE'S STATION

To the Editor of The Herald:
Mrs. Walker of Miller avenue and Mr. Ingraham of Cameron avenue have been on the sick list.

F. L. Craig will attend the railroad conductors' convention held in Jacksonville next week.

Mr. and Mrs. James Hickson chaperoned a launch party of young people from about here last Saturday. A delightful trip to Lake Harney was enjoyed.

Byrd Willis has returned to Cow Creek after several weeks at home.

Every one is cordially invited to attend the entertainment Friday night given by the pupils, under the direction of E. A. Gilbert, for the benefit of Pine Grove Union Sunday School.

L. M. Lucas was in Tampa a portion of the week and will return there Saturday to take a position on a Government dredge.

Two other growers have accepted positions in town—A. Homrighous at the post office and G. A. Crim at the A. C. L. Ry. depot.

F. M. Estridge and family have been entertaining their son, James, from Mulberry and a nephew from the east coast.

Mr. Waite and family who have been living on Miller avenue, are moving to Longwood where they have purchased a home.

W. W. Britt and family, people from northern part of the state, will move into the house vacated by Mr. Waite.

Mrs. J. W. Dunlap and daughter, Beulah, left last week for their former home in Canton, Ohio. They visited in Lynchburg, Va., enroute. Mr. Dunlap will join them next week. They have resided about Sanford several years.

MADE FROM SCRAP IRON.

How Some Old Material May Be Turned Into a Useful Tool.

On every farm there is sure to accumulate in time a considerable amount of old iron. This is always saved with the idea that some of it can be utilized for various purposes and with the knowledge that the remainder can be sold as old iron. It is good economy to save this material, and it is a good plan to sort it more or less closely so that similar articles

USEFUL IN MAKING WIRE JOINTS.
[From the Kansas Farmer.]

may be together. Use for something from this scrap pile may be found almost daily. For instance, an old wagon tire may be cut, straightened out and used as the connecting rod on a wagon brake.

In the cut shown herewith there is indicated a way in which a very useful tool may be made from the half of an old strap hinge. This homemade tool is for use in making wire joints or couplings, and the picture shows pretty well how it is used. As the loop on the ordinary hinge is generally too small to accommodate a two- or three strand wire, the picture is drawn to show this loop cut off and the end of the hinge bent over to form a new one. Before this new loop is made a section of the hinge should be filed away, as shown, so as to give a grip on the end of the wire. A nice, smooth wire coupling or splice not only adds much to its appearance, but increases its life as well. A good joint does not pull apart, and with the aid of this tool it is just as easy to make a good, smooth joint as a poor one, and it lasts.—Kansas Farmer.

The Dane buys our cottonseed and linseed meal and exports butter, keeping all the fertility on his soil. Can the Dane teach us anything?

Method For Old Orchards.
Professor W. N. Munson recommends for treatment of old orchards to plow as early as possible in the spring, harrow at once and apply about 500 pounds of fertilizer to the acre, then harrow about once in two weeks until the middle of August, when a cover crop of rye, or spring vetch should be sown. In working among the trees he finds the traceless harness of great value. The exact time and method of tillage are not so important as to be sure that a fair amount of tillage is given.—American Cultivator.

For Tying Up Shocks.
A handy thing to use in tying up corn or fodder shocks: Bore a three-eighths inch hole in a broomstick; pass through this a piece of clothesline six inches shorter than a bay baling wire. In the end of the line tie a three inch ring. Go around the shock with the line and stick, place the stick through the ring and pull it through. Then you can tie the shock with baling wire.

For an Underground Tank.
We have the assurance of the Scientific American that the best material for an underground tank is heavy black sheet iron thoroughly painted with iron paint or some preserving compound. This is said to be more durable than galvanized iron, especially in some soils and where electric currents exist.

Knew He Was a Hoodoo.
"If you are so sure that horse will win why don't you bet on him?"
"I ain't got nothing against the horse."
"What harm would that do him?"
"If I were to bet on him, he would fall dead just before reaching the wire."

She Was a Conversationalist.
"Are you a professional performer?"
"Yes, madam."
"Guarantee satisfaction?"
"Surely, madam."
"How loud can you play?"

Looking For the Limit.
"How high is the morning pa?"
"The morning hasn't begun."
"It must have, I hear people speak of the top of the morning."

POULTRY NOTES BY C.M. BARNITZ RIVERSIDE PA. CORRESPONDENCE SOLICITED

[These articles and illustrations must not be reprinted without special permission.]

HOW TO FINELY FINISH TURKEYS

About two weeks before Thanksgiving stories on turkey fattening appear, and most of them advise close confinement and lots of corn.

They are neither timely nor do they bring best results.

Finely finished birds that bring the bon ton are not built in a day.

For the first six months of a turkey's life it should be fed much protein to build big bone and large, strong frame.

The flock should then be divided into breeders and market birds.

The former should live a normal, natural life to fit them for reproduc-

A FINELY FINISHED TURKEY.

tion, while the latter should be separated into three parts, gobblers, hens and smaller or backward birds, these to be kept distinct, not more than thirty to the bunch.

What is meant by finishing fowls?

This is a process by which weight is not only added, but the flesh is softened by displacing the water, of which the muscles are largely composed, with globules of fat, these permeating the whole flesh so that the bird is a juicy perfect and not packed with lumps of fat, much of it waste.

While corn is chief ration for yellow meated birds, it must be offset with vegetables and cannot be continued as long or liver trouble results.

For a real finish use the following: Equal parts ground oats, barley, buck wheat and wheat midds wet up with

AN UNFINISHED TURKEY (NOTE DIFFERENCE). skim milk or buttermilk to the consistency of cream, to which add a half ounce of warm tallow for each bird.

Feed in clean troughs morn and night all they will eat with a relish, at noon giving scalded oats or wheat or raw vegetables, such as apples, beets, turnips. Shell, grit, charcoal and plenty of fresh water are essential, a roomy shed and yard are needed, and the fowls should be kept free from filth, lice and excitement.

Three to four weeks are needed to bring birds to perfection. The finished turkey herein portrayed gained eight pounds in that time.

KNIFING AN ERMINE.

Cold Trick That Traps the Shy Little Fur Prize.

You are doubtless aware that the ermine of which your muff is made has been the emblem of royalty almost since royalty began. In Russia, until very recent years, its use being forbidden to those not of noble birth. But I wonder if you are likewise aware that it is brother, or at least first cousin, to the weasel. Ermine, as a matter of fact, is nothing more than the weasel of common coat in its northern coat, for, like other arctic and subarctic animals, the weasel turns white in winter in order that it may be as inconspicuous as possible in its environment of ice and snow.

It is very shy, is the ermine, and special snares must be devised by the trapper to avoid injuring the delicate skin. Even the smallest of the steel traps are too heavy for such tiny animals as these, and here it is that the trapper's fertility of resource is most strikingly displayed. Smearing a little grease on his hunting knife, he lays it across the succession of dots and dashes which show that an ermine has passed that way. Along comes the tiny white form on its erratic course again. The grease appeals to it, and it begins to lick the knife blade, which in those far northern lands, where the mercury drops to 20, 30, 40 degrees below zero, is inconceivably cold. Did you never as a child on a winter's morning put your tongue to some piece of metal only to find that it did not easily come away? So it is then with the ermine, whose tiny red tongue is instantly frozen to the steel as though with glue. The knife being too heavy for the little animal to carry off, it can only wait until the trapper comes upon his rounds, and you, my lady, have a muff of snowy unmarred skins.—E. A. Powell, F. R. G. S., in Everybody's.

QUEER STREET NAMES.

One Feature in Which Brussels Outdoes London or Paris.

There are many bewildering street names in European cities, and of these London presents a bewildering variety. "Brimondsey" possesses a Piccadilly street. Near Gray's Inn there is to be found a Cold Bath square. Most of the Nightingale lanes and Love lanes are hidden, ironically enough, in the slums of the east end of the British capital.

In Brussels some of the street names are really bizarre. The Short Street of the Long Chariot, the Street of the Red Hulled Women and the Street of Sorrows are remarkable enough to catch the least observant eye. The Street of the One Person is, as one might guess, an extremely narrow one. But the cream of the Brussels street name surely belongs to the Street of the Uncracked Silver Cocoon. This in the original appears as one ponderous word of thirty-six letters. The 7,000 inhabitants of the Rue des Mauvais Garçons signed a petition praying that the name of the street be changed. They contended that the denomination of the thoroughfare in which they reside produces a bad impression on those to whom they are obliged to give their address.

This Street of the Bad Boys was, it appears, so named in the sixteenth century because of the noisy character of its inhabitants. But now it needs no such designation, those who reside there being for the most part peaceful and respectable citizens.

Among the peculiar street names in Paris may be mentioned the Street of the Little Windows, the Street of the Mule's Foot, the Street of the Holy Fathers, the Street of the Daughters of Calvary, the Street of the Dry Tree, the Street of the Empty Pocket and the Boulevard of the Good News.—Harper's Weekly.

Booksellers' English.

Booksellers' English is sometimes a peculiar product. In a recent catalogue the author of a work under the heading of "Mystical Theology" is referred to in a footnote as "next to Ignatius Loyola, perhaps the greatest soul sexton that ever handled shovel." The simile is startling and not quite intelligible to the lay understanding. But it is in reference to a volume of church music that this bookseller really lets himself go. "Religious harmony must be moving, but noble without; grave, solemn, seraphic, fit for a martyr to play and an angel to hear."—London Chronicle.

THE CURIOUS TADPOLE.

Maybe He Turns Into a Frog and Then Maybe He Doesn't.

If a tadpole cannot get to the top of the water when it is at the time of life when it is breathing by means of its gills, like a fish, it will not become a frog. It will then always be a tadpole.

Keep a tadpole in cold water and in the dark or away from the light and it will be years getting to be a frog. Left to the course of nature, says Browning's Magazine, the tadpole becomes a frog in from six to eight weeks, although it will have been two years arriving at that chance to change into the mature frog.

The tadpole's mouth is so tiny that it would be difficult to insert a pin-head into it, yet it has horny jaws and a sharp, biting beak, with three rows of teeth on the upper jaw. A hood grows down and encloses the gills on the right side, leaving them open like a spout on the left side.

At this stage of its transformation the tadpole breathes like a fish, taking water through the gills into the mouth and spouting it out on the left side. Its tail is what the tadpole feeds on by absorption of the white corpuscles of the blood during the molting and moulting epoch in its life, when it is fasting. When it is ready to outgrow the tail and the horny beak are gone, the wide mouth of the mature frog having taken the place of the latter.

There are forty species of frogs, only one of which is in South America. Australia has no frogs. Of all those forty species only one is edible—the Rana esculenta—and nowhere is this one more plentiful than in America, although that eminent naturalist St. George Mivart declares that the edible frog is unknown in America.

A frog that is common in France will mew like a cat if its thigh is squeezed and emit the odor of garlic. For this it has to go through life bearing the name of Pelobates fuscus. Most species of frogs will not take anything in the way of food that is not a live, moving thing or something with the semblance of life and will starve to death among a million creatures if none obliges the frog by moving.

Rapture.

Yes, back to the land! Oh, isn't it grand? It's me for the cute little farm, A place to sit down with never a frown Away from all worry and harm, With nothing to vex, to fret or perplex Or cause just a bit of ado, To eat cottage cheese and live at my ease 'Neath skies quite abnormally blue.

How weary I am of all of the jam The city crowds in without for me, The little, mad rush, the scramble and crush.

The whole unrefined jamboree! The ways of the town call only a frown From those who are mixed in the game. The grand overflow of squalor and woe— A picture you hardly would frame.

And so, if you please, allow me to seize A sizable chunk of the soil, And give me a row of cabbage to hoe, To joy in the pleasure of toil, An acre of hay in which to get gay, Would suit me exactly and fine, My dreaming time floats through oceans of oats, And every old thing in that line.

I want to go forth, east, south, west or north, Or any old place on the map, To where I can be a twin to the bee, A most energetic old chap, The land of the grass for me has some class, Where nothing can fret or alarm, I'm dying to miss all civilized bliss, Oh, please turn me loose on the farm!

Innocent.

"He fell from the forty-second story of the great skyscraper to the hard granite pavement below."

"Was he hurt much?" "I said he fell from the forty-second story."

"Was he hurt?" "Yes, if you must know, he was hurt much. I said he fell from the forty-second story. Hear that! He was killed! Understand? K-I-L-L-E-D, killed! Get it?"

"Well, you needn't get fresh. I didn't kill him. I have a perfectly good alibi. I was busy killing a man about your size and build about that time with an ordinary ax. Get that? An ax—a-x, ax. Understand? And I didn't wear all of the edge of neither."

WHAT CURES ECZEMA?

We have had so many inquiries lately regarding Eczema and other skin diseases, that we are glad to make our answer public. After careful investigation we have found that a simple wash of Oil of Wintergreen, as compounded in D. D. D., can be relied upon. We would not make this statement to our patrons, friends and neighbors unless we were sure of it—and although there are many so-called Eczema remedies sold, we ourselves unhesitatingly recommend D. D. D. Prescription.

Because—We know that it gives instant relief to that torturing itch.

Because—D. D. D. starts the cure at the foundation of the trouble.

Because—It cleanses, soothes and heals the skin.

Because—It enables Nature to repair the ravages of the disease.

Bulletin

The Need of The South Is The Need of Florida

There is no free land in the South as there was in the West. But, on the other hand, there were in the West no accessible markets in the early days, no transportation system, no settled civilization. The South has all these. One fact that the Southern people have themselves been slow to put full value on is the need of a larger working population. There has never been labor enough—neither unskilled farm

labor nor skilled labor. As for independent farmers—men who own their own land—there is now no parallel on the continent to the opportunities that the Southern States offer. New comers, of course, require some capital, but men who have enough money to begin life may begin it there with the best outlook for success.—Editorial in the February World's Work.

There is hardly a parallel in the state of Florida to the opportunities for successful diversified farming offered by the rich agricultural lands known as Volusia Farms, just across the river from Sanford. The success of Volusia Farms has been far greater than we anticipated this time last year when we first opened this district for settlement. Much of the land has been taken up by a splendid class of settlers, and this in itself, has made the remaining acres of greater value. The more people who settle on Volusia Farms, the greater the automatic increase in value, so that there will come a time—and not in the dim future either—when you will be glad to pay a price per acre based on the producing possibilities of the soil if you wish to settle there.

Diversified farming is the keynote to a good living and something in the bank. All over Florida today you will find corn fields, vegetable gardens, pasture lands, chicken runs, orange and grapefruit groves more equally divided on the average farm than formerly. Our farmers are not relying on one crop.

At the present price of chickens, eggs, meats and other table products, we look for a much larger diversity of agriculture in Florida than ever before. **We look forward to the time when Volusia Farms is the Center of the Greatest Diversity the State has ever known.**

Volusia Farms has the soil. Not because we say so, but because this is proven by the wide diversity of Volusia county products in general. Chickens, cattle and hogs can be raised on Volusia Farms almost without cost. The lands furnish an immense amount of food. Grass grows plentifully without cultivation.

All kinds of vegetables and fruits can be raised on Volusia Farms, and a man looking for a little recreation between times can enjoy the splendid fishing on the St. Johns river or hunting in the woods of the country.

Compared with the early days of the west (and we are in the

early days of the NEW Florida) one need but give little thought to the question of which offers the greatest opportunities. Volusia Farms has frontage on the St. Johns river. Volusia Farms has a standard railroad intersecting east and west. Volusia Farms has roads radiating all directions.

Yet with all the advantages of soil and equable year-round climate, Volusia Farms still need more people—the need of the South is the need of Florida, and the need of Florida is the need of Volusia Farms.

Volusia Farms Needs More People—Men with enough money to begin a life such as they have never known further north, a life where a man earns both the wages and the PROFITS.

We do not advocate any man to come to Volusia Farms without money unless he is willing to hire himself out until he learns the difference between Volusia Farms farming and the work he did previous to his coming here, and even then, a little money is a desirable thing.

To the small capitalist who is willing to put shoulder to the wheel in the early stages of settling in a new place, Volusia Farms is a good investment. Resulting from the past few years of general development throughout the State a constantly increasing tide of prosperity has set in with every likelihood of its continuance. Prices of land increase every week.

During the summer season, Homeseekers' excursions are run from all important railroad centers in the north and central west, leaving every first and third Tuesday of each month. Tickets are good for twenty-five days, a sufficiently long time allowance for anyone to come to Sanford and permit us to carry him over Volusia Farms.

You should not buy land sight unseen. We prefer not to sell you land sight unseen—although we will make a reservation for you and allow you to change location if at the end of a reasonable time you come here, and, after inspection, prefer another tract.

The Homeseekers' excursion

from your section affords you a splendid chance to take a few days off this summer to see what Florida is really like. It won't be so hot as the country you have left behind, for the breezes from either ocean or gulf continually sweep over the peninsula of Florida making our days enjoyable and our nights comfortable.

You'll see oranges "in the making"—green on the trees, you'll see our farmers busy with one of the three and four crops a year, and you'll see those who can leave home enjoying themselves at one of Florida's beach resorts or inland springs. Florida has all these advantages and no competition outside of her boundary line.

In thus seeing Florida for yourself you will understand her better and understand your own capabilities for getting a living from her rich soil. You will know what you are buying and WHERE. Beware of the booklet which contains illustrations taken in other parts of Florida other than those described in its pages. We recently looked over a booklet showing orange groves in a section of Florida where oranges do not grow—leaving the reader to infer that citrus fruits would do well in that section. We have seen a booklet containing the picture of an Indian river hotel, altho the booklet described a town over 250 miles from the Indian River.

The booklet, "Resources of Volusia Farms" tells the REAL story. Nearly all the pictures were taken by our Mr. Packard personally and every word in the booklet faithfully describes the resources of this favored fruit and vegetable belt of southern Volusia county. Send for the book. It is free. Even if you think you are not interested in Florida, read the book as a matter of information. Get posted on the wonderful development of Florida. Who knows but what the reading of the "Resources of Volusia Farms" may mean to YOU the red letter day of your life—the actual turning point of your career. This opportunity is with YOU. Send for the book NOW. Address your post card or letter plainly:

SANFORD, FLORIDA

THE TRUTH GOOD ENOUGH.
 With so powerful an argument as the plain unvarnished truth about the productiveness of the soils of the South, as well as the records of the weather bureaus that show that several crops per year can be made from every acre, it would appear that those who have lands to sell would have no reason either to stretch the truth or to conceal whatever there may be that might be regarded as detrimental. But it is learned that some land agents are doing both of these things and already some of the people who have come down from the North and West to investigate have discovered the deception. The effect of this will be to discredit the statements that are accurate, for the man who investigates will believe that if deceived in one thing he is likely to be in all.
 Why not tell the truth, the absolute truth about the land of the South? The plain truth makes a showing so much better than any land in the North is credited with, that the bare cold facts are sufficient.
 When even the poorest of the pine lands will produce two crops a year that will pay better than the best corn land in the North, what more is needed as an argument for the South? With gross returns of \$100 per acre can be made and is obtained from the valley lands planted to sugarcane and when the net returns are nearly 50 per cent of that, what better argument is needed?
 When live stock can be produced on home grown crops at a cost of from 2 1/2 to 3 cents per pound, is not that a convincing fact?
 When from two to ten tons of hay can be cut per acre from lands, would that not seem to be an alluring item?
 When land can produce from 30 bushels to 60 bushels of oats to the acre and then the same acre grows from 30 to 60 bushels of peanuts the same year, besides producing two tons of hay, would it not appear that no other argument is needed?—Trucker and Farmer.

Best grade Butterine at Long's grocery. Try it while butter is high. 26-1f

FOR AGED PEOPLE.
 Old Folks Should Be Careful in Their Selection of Regulative Medicines. We have a safe, dependable and altogether ideal remedy that is particularly adapted to the requirements of aged people and persons of weak constitutions who suffer from constipation or other bowel disorders. We are so certain that it will relieve these complaints and give absolute satisfaction in every particular that we offer it with our personal guarantee that it shall cost the user nothing if it fails to substantiate our claims. This remedy is called **Rexall Orderlies**.
 Rexall Orderlies have a soothing, healing, strengthening, tonic and regulative action upon the bowels. They remove all irritation, dryness, soreness and weakness. They restore the bowels and associate organs to more vigorous and healthy activity. They are eaten like candy, may be taken at any time without inconvenience, do not cause any griping, nausea, diarrhoea, excessive looseness, flatulence or other disagreeable effect. Price 25c. and 10c. Sold only at our store—The Rexall Store L. R. Phillips & Co.

Getting Back at "Orange County"

The card writer now known to some of the readers of the "people's Forum" in the Times-Union, as "Orange County" makes his appearance again in the issue of May 2.

This time he rambles round from unkind remarks about the Tallahassee correspondent of the Times-Union to the powers of Parliament, and repeats, substantially, what he said in his first article about Sanford Heights and Goldsboro.

He accuses the members of the legislature of weakness and by so doing charges the member who has his residence in Sanford; not of being smart and fair, but of being designing, shrewd. He appoints himself judge; it is reasonable to assume he does, by reason of the free use of the personal pronoun. And this judge now says he has no feeling of unkindness; he thinks Sanford's ambition to grow, "laudable", though in his first article he charged some citizens of Sanford who are supporting our efforts to be a greater and a better city, as being personally interested money makers; this judge also said something about "niggers in the woodpile".

Now the writer of this article announces the belief, that you, "Orange County" are not a citizen of Sanford; not a resident of the alleged Sanford Heights and that you are not a resident of Goldsboro would you be so pleased as you appear interested?

You, "Orange County" had no right, and no known creditable reason to directly charge—to insinuate—or endeavor to create the impression that men of Sanford, who are as good, at least, as you are and you refer to "all good men", have unworthy motives in what you are now, it seems willingly to admit is a "laudable ambition". The people of Sanford feel that they are quite capable of seeing the difference between right and wrong; they resent the implication that as a people they are not as well qualified to do so, as the review of their conduct, from a forum beyond the interested zone.

Men properly equipped, whatever you may think to do so, have investigated the matter and it is found that the lines of "Sanford Heights" are not possible; this statement has not been denied, substantially, yet you continue to use, "duly incorporated".

If the lobbying tactics to defeat our "laudable ambition" were those reported to us—told to the writer by a member from another county—it is creditable to the members of the present house that they voted for the bills introduced by the member whose good offices we solicited.

The finishing paragraph of your appeal to the country at large, in the paper of May 2, veils a threat, followed in the next line with a plea for forgiveness. Every citizen of Sanford is willing to be magnanimous—it is you who are filling the air with rasping discord. Where does your interest center that you should carry palls of strife among a people we believe you do not mingle with on Sunday or meet at the polls on a municipal election day.

The "many excellent gentlemen" who did not vote your way are charged by you with not having "backbone". Your definition of the word seems to be, the member who would vote my (your) way would have "backbone".

If our information is correct, and it is certainly as reliable as any you may have, the members of this legislature had the manhood to vote for measures that were carried to them on their merits

by a man, forceful, and of well known temperate habits.

You have said unkind things about us. We have been told that some of those desiring the defeat of our bills were liberal with money for drinks and cigars at Tallahassee.

As a paid attorney you have the right to carry your cause to a court of justice; or, as a paid attorney, you may have the right to go to Tallahassee as a lobbyist. But as a citizen of Orlando you have no right to meddle in the domestic affairs of the city of Sanford.

If you feel that you can say unkind things about Sanford and its people, from an office in so beautiful a residential city as you live, and expect no defense, you have the opportunity to do what you accused the correspondent of the Times-Union of doing. You said he "Really Thinks".

The writer of this article does not apologize for what he has to say; he is not being paid for writing and he does not aspire to any public office, better than that he lives in Sanford; he would be unworthy of citizenship among this estimable people should he be passive while you charge us with having invoked a "wholly brutal, arbitrary and wanton use of legislative power". You must know what the use of such words mean, and you say you are not making a fight on Sanford. Now, if you are not making a fight on Sanford, what are you doing? Your interest in our affairs, if you are the person we think you are, certainly does not come from your heart; if it does you are a very meddling fellow and we do not make obeisance to your most distinguished consideration.

A CITIZEN OF SANFORD.

Bring your old tires to Sanford Machine & Garage Co. for vulcanizing. 48-1f

To the People of Sanford

The undersigned officials of the town of Goldsboro, and representing its citizens, appeal to the citizens of the city of Sanford for aid and sympathy in protecting our town from spoliation or destruction as the result of a plan on the part of your city officials to procure from the present legislature an amended charter, whereby the corporate limits will be so extended as to include the town of Goldsboro and thus destroy our corporate existence.

This town was duly incorporated about twenty years ago and it has ever since regularly maintained its official corporate existence, performing all the duties of a municipality.

We have always been and we are now a peaceable, orderly and law abiding community. We appealed to your council, protesting against the proposed action so far as it affected the interests of this town but our appeal was unheeded. We now appeal to you, citizens of Sanford, for your help in this matter. We are proud of the prosperity and development of your city; but it is no good reason that, because you are big, you should swallow up our town just because we are little. There can be no just charge brought against us to justify the abolishment or overthrow of our corporate existence. If it is done in the way proposed it will be an instance of the tyrannical use of might, of power, and because we are few and feeble. Surely you will not justify and uphold such a proceeding!

We have acquired some property as a town. We own our own house, school and other corporate property. We feel a pride in our town organization and earnestly wish to preserve it. To swallow us up in the corporate limits of Sanford will add very little to Sanford and take a great deal from us. It will impose upon us a part of the burden of your bonded and other indebtedness and add heavily to our burden of taxation, while we reap no material benefit thereby. We shall make our appeal to the legislature in this behalf and beg that you, the justice loving citizens of Sanford, will give us such support as you can and we shall be ever grateful to you.

M. B. BELLAMY, Mayor Goldsboro
 G. W. BENTON, President Council
 T. T. GREEN, Town Clerk. 35-4tc

CULLED FROM THE STATE PRESS

An Epitome of the Week's Most Important Happenings in the State's Domain.

At the meeting of the Chamber of Commerce it was decided to hold, as usual a Fourth of July celebration in West Palm Beach. After enthusiastic discussion, E. T. Moore was appointed a committee to secure the necessary funds and make preliminary arrangements. This will be a pleasant task for the business men of the city are glad to aid in any movement that will result in increased advertising for the city. There is little doubt that the celebration this year will eclipse all former efforts made by West Palm Beach.

The John Anderson Boulevard which is to connect Jacksonville to St. Augustine, with one of the finest automobile drives in the country, is being prepared for its shelled service.

The State Bankers' Association met in Ocala this week and many matters of importance in financial matters were discussed. A banquet was served the members on Wednesday night by the Women's Club.

A two weeks convention of the Order of Railway Conductors is now in session at Jacksonville and it is estimated that over 7000 visitors will be in attendance and expect to visit various parts of the state ere returning home.

At a meeting of the Duval County Democratic Executive Committee, held at the court house for the purpose of recommending a suitable person to preside over the circuit courts of the Fourth Judicial Circuit, Judge R. M. Call was unanimously recommended to succeed himself.

Will H. Bulloch, for many years connected with the Bartow Courier Informant, and its brilliant local editor for the past three years, has severed his connection with that paper and with his family will move out West.

The House of Representatives has passed a bill appropriating \$5,000 to the Florida Division of Confederate Veterans to help them erect in Florida a memorial to the women in Florida and the South whose glorious record during the stormy period of the sixties thrilled the world with admiration.

The Polk County Record of May 5th was devoted almost exclusively to a write-up of Bartow and Winter Haven, accompanied by striking illustrations that will be certain to redound to the good of those communities. Thousands of copies of that issue should be distributed throughout the North and West, as a bid for immigration.

Sister Carlotta was elected to the state presidency of the W. D. C. at Madison last week making her third term for this high office.

General J. C. Davant, one of the best known attorneys and a civil war veteran, died at his home at Brooksville on Monday. He had been ill about one week. General Davant was about seventy years old. The deceased was brigadier-general of the Second brigade, United Confederate Veterans, Florida division. He fought throughout the Civil war and made a splendid record.

Examination of applicants before the State Medical association, which is in session at Tallahassee is in progress. There are sixty would be doctors, who are undergoing examination before a board at the court house. This is the largest list that has ever come before any session of the association previously. Four of the applicants are Italians, two are Spaniards, while six negroes are among them. There are also two women applicants.

Ladies of Live Oak are preparing to have a very fine chrysanthemum show fall. Arrangements are being made for the extensive growing of this beautiful flower and prizes will be offered for the most attractive displays, single flowers and varieties. The flower show has more than the name suggests to recommend it, for it means that during the summer and early fall, on account of the attention given to the raising of chrysanthemums, the flower gardens will be very beautiful and thus add to the pleasure of all who live at Live Oak.

NAMELESS THEATER STARTS

Public is Expected to Name New Play House This Week

The new moving picture show started in the old opera house building last Tuesday night and the S. R. O. sign was out most of the time for the people crowded the place at every performance. The new management expects the patrons to name the new building and the name that suits their fancy will be worth \$5.00 in gold to the lucky person.

The pictures are very good and one of the latest improved picture machines promise the patrons a good entertainment every day and night. Polk & Co. are determined to give their patrons the best that money can buy in the amusement line and good music and illustrated songs will be given at every performance. The management has not fully decided upon the vaudeville attractions but will give the public something good and clean in this line if the patronage warrants these added attractions. Many changes are yet to be made in the opera house and the equipment and the new show starts off with a good patronage assured.

Ball Team For Sanford

At last we are to have a ball team if the citizens will lend their aid and support. Next Monday night a meeting will be held in the Eagles Hall to formulate plans and reorganize the old association. It is rumored that G. W. Spencer will manage the new team which guarantees the success as no more enthusiastic fan ever lived than Spencer. Sanford needs a good ball team and under proper management the venture can be made a paying one and the success of the team will redound to the credit of the city. Two years ago our ball team advertised the city and the accounts of the games in the Herald were followed as closely by the out of town readers as any other items and visitors to the city later have remarked that Sanford must be a wide awake town to support ball as we did then. With a good ball park such as we have there is no reason why Sanford cannot put a good team in the field now and get ready for a successful season.

Be sure and attend the meeting next Monday night and assist in their organization.

A New Enterprise

A fish company composed of some of the citizens of Geneva has been organized at that place and will operate ten nets in Harney and Puzzle lakes. This company is headed by one who fully understands the business and who always "gets 'em when he goes after 'em." The fish house will be built near Geneva depot and fish shipped directly to the best markets. The intentions of this company are to supply the markets with the very best fresh water fish. They will be packed in ice and ready for shipping in a few hours after being caught. The name of this company will be the Geneva Fish Co.

We predict for this new enterprise success and much patronage, as only those will be employed who fully understand the business. These citizens have long known the need of a local company, but heretofore having no railroad it was impossible, but now they will push forward and endeavor to supply their customers with the best.

Fire at Orlando

Orlando was visited by a serious fire Wednesday morning, and for some time it appeared that there would be quite a conflagration. The fire department did good work and seemed to have gotten the fire under control, when the water main burst, which placed the fire department in a bad predicament. The flames spread rapidly from this time on, completely destroying the large freight depot and warehouse of the Atlantic Coast Line, Walker's packing house, Citrus Fruit Exchange packing house, six loaded freight cars and Guernsey's large warehouses.

The work of keeping the fire confined to a certain district was not successful, until the larger buildings had been consumed by the flames.

The loss is estimated at \$20,000. However, it is the largest fire that Orlando has experienced in years.

The board of county commissioners of Lafayette and Suwannee counties have decided to build a bridge across the Suwannee river at Dowling Park, are now advertising for bids for the purpose.

In the course of a few weeks Ft. Myers will have one of the finest brick school houses in Florida, and when it is finished the cost will reach close on to \$45,000.

ELECTION OF GROWERS

Interesting Developments Are Promised Shortly.

ANNUAL ELECTION OF OFFICERS

Florida Vegetable Growers Will Be Under New Heads Next Season—Members Satisfied

The Florida Vegetable Growers Association held their annual meeting in Eagles hall Thursday afternoon. The meeting was marked by a great deal of enthusiasm although many of the members were unable to be present as many are away either permanently or for the summer.

Directors for the coming year were elected as follows: Henry Nickle, O. L. Chase, B. E. Squires, O. W. Brady, C. M. Berry, R. L. Hughes and L. J. Hancock. The matter of the president of the board and secretary cannot be determined as yet their election comes up at the first meeting of the new board.

The report shows that the association now has 152 members who represent a total of 578 acres of gardens. During the past year the Association has shipped over 125,000 packages for its members and have paid to the growers \$109,205 including celery, lettuce, beans, cucumbers and all products handled by the association.

A glowing and well deserved tribute was paid to the old board of directors and especially to Mr. Harry Ward for their services rendered under such trying circumstances as they have been forced to face.

Many changes in policy were advanced by the meeting to be acted upon by the new board, principal of which were the reduction of expenses and a general overhauling of the affairs of the association.

The growers have great faith in the future of the association and expect to be better service to the farmers next season than in the past although they have no apologies to make for the past. As a whole they are all well pleased with the work of the past year and feel that their association has been a great benefit to the community both directly and indirectly.

At the first meeting of the new board of directors held Saturday evening the following officers were elected for the coming year: R. L. Hughes, Pres.; O. L. Chase, V. Pres.; C. M. Berry, Sec.; and O. W. Brady, Treas.

University Commencement

The University of Florida will have a most interesting commencement week commencing Friday, May 26th. The following program will be rendered during the week:

Friday, May, 26th, 1911.—7:30 p. m.—Declaration Contest by Representatives of Freshman and Sophomore Classes.

Saturday, May 27th.—8:00 p. m.—Gymnasium Exhibition.

Sunday, May 28th.—11:00 a. m.—Commencement Sermon by W. O. Carver, Th. D., D. D., Southern Baptist Theological Seminary, Louisville, Ky.

Monday, May, 29th.—10:00 a. m.—Oratorical Contest for the Board of Control Medal, by Representatives of Junior and Senior Classes.

3:00 p. m.—Business Meeting of Alumni Association.

8:00 p. m.—Annual Meeting of Alumni Address by Hon. F. P. Fleming, Jacksonville.

9:30 p. m.—Alumni Banquet.

Tuesday, May 30.—10:00 a. m.—Graduating Exercises, address by President W. O. Thompson, LL.D.; Ohio State University, Columbus. President Association of American State Universities.

Will Locate Here

W. W. Prather, the well known traveling salesman has fallen in love with Sanford and will make this city his home. Mr. Prather will take the management of Keel's Garage and being an experienced automobile salesman expects to make Sanford headquarters for the sale of high grade automobiles. This firm makes a specialty of the celebrated Cole cars and Mr. Prather will push the sales department to the front.

Mr. and Mrs. Prather are general favorites in Sanford and their many friends will be pleased to learn that Sanford will claim them as citizens.

The nursing home at 8th and Elm Ave. is prepared to care for a limited number of surgical cases. Mrs. Wright, nurse in charge.

NEW DEPARTURE FOR SANFORD

Five and Ten Cent Store Opens for Business This Week

The people of Sanford and vicinity are invited to inspect the display of the new five and ten cent store just opened in the Stone-Goye Block on First street, just east of the Boston store. Here you can find just what you have been looking for, everything in china, crockery, small hardware, kitchen utensils, towels and notions, and the many small articles that go to make up the usual household and they are sold at the small price of five, ten and twenty-five cents. The new store promises to fill a long felt want in Sanford and is bound to prove attractive to the public. These stores have been operated in every city and prove popular at all times, the small price for good material getting the trade and stimulating business. The Sanford five and ten cent store will be managed by McG. Caraway, who will endeavor to keep a large stock on hand at all times and assures his many friends that he has everything to supply their wants. On account of the very small profit on the goods the store is operated on the cash basis, but the customer gets the benefit every time and when you see the bargains you will become a customer at once.

Meeting of Hospital Association

A called meeting of the citizens of Sanford and Hospital Association met in Eagles Hall May 5th, 1911.

Mr. J. N. Whitner, acting for the president, called the meeting to order and read a statement prepared by her, which follows in part. Early in the winter, a few ladies met to discuss plans for an organization, by which the needy sick of our city might be cared for. A second meeting was held when it was decided that a more extended call should be given to the women of the town.

The Eagles kindly allowed the use of their hall, where on Jan. 23rd, more than fifty assembled and freely agreed upon the need of such an organization and comfortable quarters where sufferers might be placed.

At the close of the meeting it was announced that the Holden Real Estate Co. offered sufficient land for present and future use, if a hospital be erected thereon. This gave another phase to the movement and at the first meeting of executive board, thereafter, various methods were decided upon by which money should be raised towards building a hospital and securing the generous offer which had been made us.

Beyond our expectations the people have responded to the effort in hearty expressions of interest in gifts of money and in promises of more substantial aid if the works be made permanent.

The time has now arrived when those who began it feel that it has out grown the first intention and become important enough to claim the attention of the general public and for this reason this call for a mass meeting has been given. The secretary and treasurer report followed showing seventy-five members and four hundred and fifty dollars on hand.

A unanimous vote of thanks was tendered The Holden Real Estate Co., for this generous gift of a half block of land on Magnolia Ave.

A simple constitution read and adopted which will be published next week, followed by the election of officers and trustees which resulted as follows:

M. F. Robinson, president; C. E. Walker, vice-president; Mrs. Geo. F. Fernald, Treas.; Mrs. A. T. Rossetter Secretary.

Trustees—O. W. Brady, Mrs. D. A. Caldwell, Mrs. J. Cameron, Mrs. S. O. Chase, Mrs. Geo. H. Fernald, Mrs. R. Hornrightous, Mrs. M. Frank, Mrs. Roumelette, Mrs. J. N. Whitner, T. E. Wilson and Dr. Neal. This new board proposes to push the good work begun and accomplish much more for the good of humanity and trust to have the hearty co-operation of every citizen of Sanford and out lying districts.

A Sad Accident

In a spirit of mischief some of the young folks spilled Miss Blanche Biggers out of the hammock on the porch the other evening, and as a result she has a broken collar bone and a very badly shattered arm at the shoulder joint. The fracture is so bad that an operation to wire the joints will be made and it will be a miracle if the young lady ever has the full use of her right arm again. Being an expert stenographer, the accident will incapacitate Miss Blanche for a long time, and her many friends extend their sympathy and hope for a speedy recovery.

NEWS OF THE WORLD

Items of Interest Gleaned From Various Sources

HAPPENINGS DURING THE WEEK

Here the Readers Will Find a Brief Historical Spring Flowing For Hurried Readers

A Mobile negro convicted of stealing a bag of sugar, was sent to jail to serve a three months sentence. As the negro had too much of the sweet, the presiding Judge probably thought he needed some of the bitter to even up the over supply of sweet.

Nine hours of continuous hounding at the hands of the Republican minority of the house of representatives, failed to make a single change in the first Democratic tariff bill, that placing on the free list agricultural implements, meats and many other articles. The bill passed the house by a vote of 236 to 108, the Democratic voting solidly and mustering twenty-four Republicans with them. This came after the Democrats had voted down or ruled out of order more than 100 amendments, and had demonstrated again that the Democratic majority was a compact and smoothly working machine for the enactment of legislation.

The war in Mexico is an end for the present. President Diaz has announced that he will resign when peace is restored or no more anarchy is manifested. As a consequence Madero has ceased military operations and peace proposals will be further considered, with fair prospects of success, for all parties concerned now agree that Diaz's resignation, was all that was desired.

The battleship Texas is to be completed December 17, 1913. The contract price is \$5,830,000, but it is believed that when ready for sea with full armament, armor, furniture and stores, it will have cost \$11,000,000.

The Postoffice Department is now said to be making expense, and without taxing the magazines.

Now and novel methods of prosecuting a campaign for the passage of a congressional are to be followed by officers of the National One Cent Letter Postage Association at next fall's session of Congress, when a bill providing for the lowering of the rate on first-class matter, including all letters, from two cents to a one cent, will be introduced.

Rich men in England are going to the country that they may rent their own town houses to rich Americans who go over to see a ceremony in which they have none but a society or snobbish interest.

The American consul at Ontario reports that the cost of living is higher in Canada. But he knows what he can do when he gets tired of struggling along on the amount Uncle Sam is paying him.

Senator Bryan of Florida has offered an amendment to the Fletcher bill providing for the authorization and establishment of a soldier's home in Florida, so as to locate it at Osceola. In the bill originally offered by Senator Fletcher no place was designated and there is said to be considerable interest shown in many localities concerning the question of where the home shall be located.

The Jap baseball team, having swept the Pacific coast, is now marching to the conquest of the East.

From the recent report of the Carnegie hero fund commission it would appear that heroism is becoming a flourishing industry. The report shows that within the time covered thirty-five awards were made and thirty-six thousand dollars in money was distributed.

Forster to the Fore

The country home of J. O. Tabor at Twin Lakes was destroyed by fire last week, Mr. and Miss Tabor losing everything and Miss Tabor being severely burned in an attempt to rescue some valuables. With his customary forethought F. P. Forster immediately raised a nice sum for these good people to tide them over until they could start in again. The fire was said to have started from an incubator and the house was ablaze before the inmates knew of it. The house was one of the landmarks of that section, having been erected about the year 1870.

Best grade preserves and pickles just in, call and try them. W. W. Long. 26-11
