gives you more miles per gallon!

The best way we know to offset higher gasoline prices is to drive a Kalser or a Frazer. Their 100% postwar engineering provides economy beyond your fondest expectational This boon to the thrift-minded is especially astonishing to people who previously owned prewar cars. They report that Kalaers and Frazers are giving them many more miles per gallon than they ever got before! And today that means a saving of not just cents, but dollars!

The reasons for such exceptional mileage are clear-cut. K-F chasels design in new. It takes every advantage of the accelerated technical advances made during the war years. For example, the horsepower-to-weight ratio is notably higher than in prewar design. The same is true of the compression ratio - the highest in any car on the road! And this means the most efficient use of costly fuel!

Vital and important as it is, greater economy is only one of the many advantages of fully postwar design you will find in the Kaiser and the Frazer. Come in and let us give you a demonstration. Discover oll the exclusive new features you should not be without in your next car! You'll be slad!

WASHINGTON, Feb. 5 (P)-President Truman today called price levels alarming and he said that if some way isn't found to stop their rise they will come down vith a crash.

Mr. Truman told a news conference he feels as strongly as ever that he ought to have the power to put on price ceilings and order

Mr. Truman discussed a dozen to questions. Among other things,

1. The Republican move in Congress to cut his \$39,700,000,000 budget will get nowhere. Just, he said, as it did last year.

2. He is not ready to answer what a reporter called the "jack pot" question-whether he will be candidate for President. A lot of the neighbors were audenly annoyed by Jeb Crowell's hammering at night. Jeb was building himself a new front porch—and the only time that he could give to it was after aundown.

Finally we decided the best thing to do was all pitch in and help—and get the carpentry over with as soon as possible. We did. Finished the porch next svening—and Jeb gratefully treated us to ice cold beer and tider. From where I all, that's what being a good neighbor means. In-

stead of complaining about the other fellow's habits, try to under-stand and phare his interests.

Be if my practising on the flute annoys you, come on over, neighbor, with your fiddle or guitar and join me! Maybe it will end up in our knowing and appreciating one another better . . . in an evening of good fellowship. And I'll promise to provide the beer that goes with evenings of good fellowship!

The Tampa Tribune tries desperately to show its readers how much the 39 billion dollars President Truman asks for to run this country next year really is. It would take 26 years, says the Tribune, for the Bureau of Printing and Engraving, working eight hours a day, five days a week, to print 39 billion \$1 bills.

Rep. Harold Knutson, the Mining a short vacation in Venice, Fla., he said, "The South has shown greater patience than Job. The northern Democrats have always gone on the theory that Southern states are in the bag. You don't have to give bait fish you have already landed and the bait has been going up north-to the more politically in-dependent Democratic states."

Montez Harris has made strong appeal to the County Com-mission for help in improving the mission for help in improving the Island Lake headquarters for colored boy scouts near Markham. Between 150 and 200 young men are expected to arrive at the camp in May from five southern states for training as acoutmasters. He is a Quaker and a conscientious objector and by some queer twist of reasoning has confused his oath of allegiance with the prospect of being drafted for war duty. Not being able to convince him otherwise, school authorities denied him his diploma though he was an outstanding student of high character.

Southern governors as well as senators and congressmen are up in arms over President Truman'10-point program for abolishing facial segregation in the South.
Everything from bolting the Democratic Party and nominating a candidate of their own, to voting for the Republican nomines whoever he may be has been suggested. Little will come of it, however, in all probability, just as that will come of the President's

Footwork Required

A dispatch from Reading, England, reports that the drastic curtailment of the gasoline supply has brought motor traffic to an absolute standstill there, and in other

small cities, towns, and villages in England.

The change is not so noticeable in London, where most people use taxis, which are allowed gas, and where government officials and diplomats may drive private cars. But in the outlying districts, everyone, old and young, goes by bicycle or walks. Elderly women cycle to market and to make calls, and those not owning bikes must walk miles on simple errands and to make visits.

Viewers with alarm have been wont to prophesy in recent years that the leg muscles of the human race were doomed to atrophy. Everyone went right on riding in cars, in spite of that prospect. In England, if anywhere, people were inclined to walk for pleasure, but grumbling is rife over being forced to walk or cycle. This is not altogether because people are lazy. Modern life is geared to speeds and distances which take motor travel for granted.

It is far harder to fit into a day the multiplicity of activities in which moderns are engaged when they must cover the distances between ports of call by the unaided use of the leg muscles.

Your Income Tax

While there has been a good show of tax-cut confidence on Capitol Hill since the House passed the Knutson bill, it is based not very much on the bill itself but on expectation of other things to happen to it in the future.

The House bill is a Republican bill which contains only one small gesture of compromise with the Democrats, the \$100 increase in exemptions. The general expectation is that the Senate will convert it into a true compromise bill which will thereby win enough Democratic votes in both

houses to override presidential veto, also expected.

The overriding of a veto on the bill as it now stands is not assured even in the House, despite the rousing margin of 19 votes more than two thirds, since every congress-Sired mercy and not sacrifice; man who votes for a measure will not necessarily vote also and the knowledge of God, more to override a veto. Money Racket

With disconcerting frequency the old money changing racket seems to bob up in the news. The mechanics vary little. The swindler approaches a cashier or store clerk with a handful of small bills, asking a large bill in return.

The clerk who makes the exchange first and then counts the money discovers it to be a dollar or so short. Called back, the swindler calls the whole thing off, re trieves the small bills and hands over an envelope into which he says he put the large bill. By the time the clerk discovers the envelope is empty the swindler and his loot this country. which he says he put the large bill. By the time the clerk

U.S. NewspaperAds Tax Returns Must Be Increase Over All Other Advertising

NEW YORK, Feb. 5 (P)—National advertising increased by a greater amount in newspapers than in any other major media during 1947.

The volume in newspapers was up 35 percent over 1946 figures, while total national advertising expenditures in all major media advanced only 16.4 percent, according to the trade journal, Printer's Ink.

National expenditures for radio advertising, the magazine asid, were 0.9 percent below the 1946 level.

So both parties will meet in convention in Philadelphia, this June and draw up platforms. Those platforms are promises of what they'll try to do if they win And in those platforms both parties probably will promise, if elected, to try to do in the next four years the things Mr. Tru-man suggested yesterday that Congress do this year.

What Mr, Truman did yester-day—the points he suggested— is not a brand new story. In 1944 the Republicans and

Democrats met in Chicago and drew up platforms. In one way or another they talked of doing, between 1944 and 1948, the things Mr. Truman talked of yesterday. For example, the Republican platform of 1944 set up these

Hillsborough Has Spotlight At Fair Of Florida State

TAMPA, Feb. 5 (A5-Hillsborough county's agricultural achievements drew the spotlight at the Florida State Fair here today.

The profits brought out by the county exhibit were that Hillsbertough has 12,000 acres of vegetables, 27,000 acres of citrus
groves, 32,000 beef cattle on ranges, the largest farm population of any Florida county, And the Republican platform, somewhat vaguely, talked of statehood for Hawaii and Alaska although it didn't say when.

The Democratic platform of 1944, among other things, set up these goals:

Statehood for Alaska and Hawaii, sometime—the language was vague—and a vote for the people of Washington, D. C.

That Democratic platform of That Democratic platform of the state's rural population, and seven and one-half percent of the state's milk production, and seven and one-half percent of the state's rural population.

work.

In Mexico and Arizona Indians can't vote. But in Washington, D. C., the nation's capital, where there are 900,000 people, no one can vote.

Mr. Truman asked Congress to pass a law so Washingtonians can vote. And he wants Alasks and Hawaii made states so the people there can vote.

Will Congress do what the President asked? Probably not much of it, if any at all. It may let the people here in Washington to vote.

And it may let Hawaii and Alasks become states. Don't bet so no it.

Supposs the Republican-controlled Congress tries to put though an anti-lynching law, Members of Mr. Truman's own party, southern Democrats, are sure to try to block it by a fill-buster. The same with an anti-politax law. The same with any law to see a man isn't barred from a job because of color.

That Democrate platform of 1944 didn't say anything, by mame, about anti-lynching, anti-politax any anything, by didn't say anything, anti-politax on equality in job-seeking.

One suspects that the govern-ment's anxiety relates not so much to the present momenta as to a dangerous period around the first of June. The experts tell us that Britain's gold and dollar reserves will be exhausted by about that time. That could produce a grave situation, failing outside help, and the government obviously would be most unwise to bank on the Marshall Plan while that project is still under discussion in Congress.

So with maybe four months to go before the monetary reserves run out, Attlee is taking time by the forelock in trying to inaugurate his startling program to protect the value of the pound sterling and prevent infla-tion. Should this fail, and should no assistance be forthcoming from outside; England would be reduced to the expedient of barter trade with the result that her position as a world power would deteriorate rapidly.

Such a contingency raise another problem which is of world wide import and especially to the United States, Apro-pos of this the U. S. State De-partment a couple of weeks ago presented to Congress a summary of the European politica situation prepared by Truman Administration spencies. These analyses showed, among other things, that American foreign policy makers believe if Britain should fail to regain its world position, the "stabilizing influence which it has heretofore exercised in many strategic parts of the world would be lost and the adverse effects on the interest of the United States would be incalculable."

Senator Accuses President Of Planning EBI Gestapo In South

MONTGOMERY, Ala., Feb. 6, (47)— Governor James E. Folsom declared today the states themselves should handle racial problems without federal interference, and charged both major parties have used them as a "political football." In an address prepared for broadcast over a statewide radio network, the avowed presidential candidate said he is "sworn to uphold the Constitution of the United States, but I am also sworn to uphold the Constitution of the State of Alabama."

Folsom relierated his intention to see the Democratic presidential nomination as Alabama's favorite son.

WASHINGTON Feb. 6 (/P)-The bitter Democratic feud over civil rights hit a new pitch today. Senator Russell (D.Ga) contended that President Truman is planning an FBI "Gestapo" to break down race segregation in the South.
