A CONVERSATION WITH JUDGE VERNON MIZE.  
Reporter: The Florida Highway Patrol has just published a survey which states that speeding, reckless driving and failure to yield the right of way has caused more deaths than driving while intoxicated. Any comment?  
Judge Mize: No, I've given jail sentences to persons charged with those traffic offenses as well as DWI.  
Reporter: Well, why did you decide on mandatory jail sentences for DWI?  
Judge Mize: No Comment.

We read with interest the school board story yesterday about Sanford Grammar School being inadequate. Nothing new around here. Remember we quoted the 1960 State survey on schools which stated that the grammar school was "obsolete." ... We spoke to a 63-year-old man recently who told us that he attended the school and things haven't changed much.

# GOP's McKinney Withdraws From Race

## Cleveland Denies Civil Board Pre-Judged Lee Case

### Leaving Town, Candidate Says

By Jane Casselberry  
Republicans who hoped to gain a foothold in Seminole County politics received a setback today when Patrick McKinney Jr. of Casselberry, party candidate for the State Legislature in group two, regrettably announced his withdrawal from the race.  
McKinney, personable young insurance man, was forced to make the decision Wednesday when his immediate transfer to the Insurance company's Atlanta, Ga., offices was confirmed.  
McKinney's withdrawal from the race assures Democrat S. J. Davis a seat in the Legislature next year. Davis defeated Democratic opponent Al Lormann in the first primary earlier in the week.  
McKinney said this morning that he extends his sincere appreciation and gratitude to the many staunch Republicans who supported and encouraged him to enter the legislative race.  
Earlier this year McKinney came to the foreground in the Seminole County political field as president of the South Seminole County Young Republicans Club which he was instrumental in organizing.  
The club was chartered late in February with 31 members at a state meeting held in Gainesville and within a month sported a roster of 47 members.

### Inspections Coming Up For Schools

As a result of the complaints by Ravenna Park parents Thursday to the Board of Public Instruction on the cleanliness at the Sanford Grammar School, the board has decided to undertake a series of inspections of all Seminole County Schools.  
While the dates for the inspections were not divulged, it was declared by board members that it was necessary for drastic steps to be taken to insure clean schools for children in the county to attend.  
It was remarked by Superintendent R. T. Milnes, that there is no reason for a school to be dirty and ill-kept, especially when cleanliness is one of the things "we attempt to teach children in health and sanitation classes."

Damage to both cars was estimated at over \$2,000.

# Estes Scandal To Make Tea Pot Dome Small Stuff

WASHINGTON (UPI) — Sen. John G. Tower, (R-Tex.), said today he had evidence that Billie Sol Estes scandals would "make the Teapot Dome scandal look like a Sunday school picnic."  
The senator told a news conference he thought the Estes affair would have political implications in the fall elections. Former President Dwight D. Eisenhower joined Republican congressional leaders Thursday in chiding the administration for not investigating Estes more enthusiastically.  
Tower said he started receiving complaints about Estes "almost as soon as I took office." He entered the Senate in June, 1961, a month before the Texas farm financier was named to the National Cotton Advisory Council.  
The Texas senator said the Estes case is already broader in scope than Teapot Dome, because the 1923 scandals were confined to one thing — oil. He said Estes' operations involve agriculture and finance.  
"It was apparent to many people something was wrong," Tower said. "I feel that he got favored treatment."  
The senator said he was new on the job and did not turn the complaints over to the Justice or Agriculture departments. But he said he was sure the information also was brought to the attention of government investigative agencies.  
Earlier, Chairman John L. McClellan said his senate investigations subcommittee has subpoenaed records of Estes which are said to include the name of officials not yet publicly identified with the case.

## Raps Baker On Statement Of Integrity

Civil Service Board Chairman Mack Cleveland Jr. Thursday night vehemently denied any pre-judging in the Emory Lee case and denied that the board had questioned the integrity of any department head in the city.  
Cleveland also leveled a verbal attack on City Commissioner Joe Baker for not attending the meeting after "he had proposed this meeting between the Civil Service Board and City Commission."  
On April 23, after the regular City Commission meeting was over Baker asked for a joint meeting for May 10 and although the board agreed that nothing could be accomplished, agreed to sit in on the regular civil service board meeting.  
At that time, Baker was quoted as saying he felt the civil service board had questioned the integrity of some of the city employees.  
However, Thursday night, only one commissioner, Tom McDonald, was present.  
"Maybe I got my wires crossed," said McDonald after not seeing the other four commissioners.  
"You didn't get mixed up at all," said Civil Service Board member Denver Cordell.  
Cleveland Thursday night said "we never questioned the integrity of any department head. However, it was brought out at the hearing there was some laziness on their part."  
"I wish Commissioner Baker were here tonight. It seems to me he should have shown the courtesy of coming here," Cleveland added.  
Cleveland said the board would be willing to meet with the City Commission anytime or place but "we will not justify our decision. If the purpose of any joint meeting is to justify what we did in a public hearing, then I for one would not be any party to it."  
"We gave everyone a chance at the hearing on Lee to have his say," Cleveland added.  
Cordell said there were a lot of things that were not brought out in the case at the hearing but "why go into that." He didn't elaborate.  
Early last month the Civil Service Board held a hearing on Lee, who was fired by the city. The Civil Service Board had mitigated the dismissal of Lee to a 30 day suspension without pay.  
However, soon afterwards, Lee resigned.  
At the meeting Thursday night, another member of the Civil Service Board Dr. Vincent Roberts said "if the city is not satisfied with my job they can reappoint someone else."  
Dr. Roberts as well as Denver Cordell's term expires in June.  
Cordell said "there will be some new faces around here. I'll bet." Roberts was appointed by the city board while Cordell was elected by city employees.

## War Surplus Bombers Seized

NEWARK, N. J. (UPI) — Two U. S. war surplus medium attack bombers headed for "a foreign destination" have been seized by order of the State Department and two more are expected to be seized later today.  
Lawrence Fishman, supervising customs agent for New Jersey and New York, said the planes were seized to "prevent their illegal export from the United States to a foreign destination." State Department officials in Washington said no export licenses had been issued for the planes, but they would not identify the sellers or the buyers or say where the planes were headed.

## Longwood OK's Water Ordinance

Longwood passed its second new ordinance in as many weeks Thursday night when the council unanimously approved the long studied water ordinance to become effective July 1.  
The dog ordinance, also hanging fire for the past several months, was passed last week.  
Primary changes in water department operations effected by the new rules and regulations center around the billing and responsibility of payment for water.  
Bills will be mailed quarterly on Jan. 15, April 15, July 15 and Oct. 15 and will be delinquent by the 10th of the following month after each billing.  
Rates will be \$4 for the first 15,000 gallons. Beyond this point, 30 cents per thousand gallons will be charged up to 65,000 gallons. 25 cents per thousand up to 115,000. Any amount from thereon will be charged at 20 cents per thousand.  
Twenty-five per cent of each quarterly billing will be added for dwellings outside the "city" limits which are serviced by the city water department.  
A \$10 permit for all water connections will be required and will be returned at the time of disconnection if all bills have been paid in full. Meter installation will require a \$50 fee.

## Baptists Continue Effort To Oust Pastor

Another step in the fight to have the Rev. Mr. Lewis D. Haines removed from the pulpit of Altamonte Springs First Baptist Church was taken Wednesday with the dispatch of a petition signed by the heads of 40 families to Maurice Barnes, Winter Park, moderator of the Wekiva Baptist Association.  
The families signing the petition are those who feel the recent letters from the church secretary relative to their continued membership in the congregation were in reality letters of dismissal authorized by a "questionable" by-law adopted on May 2.  
Copies of the petition, and certified copies of the charges brought against Haines when he was arrested, on a morals charge by the Maitland Police Department last February 28, were also enclosed with the Barnes letter, and sent to the State Department Thursday night.  
A letter was also mailed to Haines, signed by the recipients of the "dismissal" note, requesting him to resign from his pulpit.  
According to one member of the congregation, "the charge and recent conduct of the minister make his continued occupancy of our pulpit impossible."

### Teacher Appeals For Return Of Stolen Bike

A boy's bicycle, painted black, with large handlebars and no fenders was stolen last Saturday from in front of the Ritz Theater.

The boy's teacher, Virgal Duffell, has voiced an appeal for the return of the bike, as it is much needed for the boy to maintain his newspaper route.

The bike was obtained in very poor condition and represents a lot of hard work and effort on the part of both the boy and the teacher. Because he comes from a large family of low income, the maintenance of the paper route, and the profit derived is of great importance.

"It is to be hoped that the person who took this bike could not possibly need it as badly as this boy does, and we appeal to him to return it. If he, or anyone who knows of the whereabouts of the bike, will call the Grammar School and tell where we can pick it up, we will ask no further questions," Duffell said.

# Hospital Week

Once again we have come to that week of the year set aside for paying tribute to our nation's hospitals. And as we pause to pay tribute to Seminole Memorial Hospital, its medical and nursing staffs, administrators and trustees, housekeeping and maintenance personnel, and the volunteer workers, we deal with a changing scene.

Within a matter of a very few months the new wing will be completed and dedicated. . . truly, a dream engendered of the people, by the people and for the people.

The present hospital has outgrown itself many times over. But the efficiency, courtesy and professional techniques have brought the highest praise and deepest gratitude of many.

Within the past month several of the letters which have reached this desk were in praise of hospital personnel who have been working under great handicaps.

But the will has provided the way. And certainly no one can say that Seminole Memorial Hospital has not met her obligation in a manner

which exceeds all normal expectations considering the inadequate facilities.

And many people have faced an obligation, also when the call went out for financial help. The pledges from doctors and organizations were highly commendable.

It takes a lot of planning, hard work and money to construct, equip and furnish a new wing.

As in most cases of similar importance there has had to be a few people handling mountains of paper work and spending endless hours in discussions before vital decisions could be made.

And while this was going on, the present building had to be operated as efficiently and correctly as possible.

And again the will provided the way.

But it will be a great day for all of Seminole County when the new wing is dedicated and the persons involved with operating a non-profit institution for the benefit of the people can enjoy bigger, better, more modern and more adequate facilities.

## Dr. Crane's

## Worry Clinic

Tom's case should be an eye-opener to all clergymen. For Tom shows that in a crisis we use short words and don't indulge in fancy oratory. Jesus also placed His approval on short public prayers and said those of the winded sort should be reserved for home use. Seraphim took this case for future use. CASE M-471: Tom G., aged 31, was a soldier in the Korean War.

He had a twin brother in the Medical Corps, but Tom didn't

know his twin was in his sector. During a fierce battle, Tom was shot through the chest. And the first man to reach his side happened to be his twin brother.

Tom was dying. The pain was terrific and his eyes were glazing.

"Oh, Daddy, help me," whispered Tom, and then he was gone.

Please note that Tom had a throwback to his kindergarten days, for his daddy had died when the twins entered public school.

At that stage in their lives, their Daddy was regarded as omnipotent and all-wise.

So Tom now reverted to his childhood and cried out to his daddy for help.

And he didn't waste words! His request was short and direct, as is usually true of all of us human beings when we

are in urgent need.

Jesus criticized long prayers as being "show off" stuff.

Instead, he held up as an example, the publican who prayed: "Lord, be merciful to me, a sinner."

So why don't you clergymen take the hint?

Last week I attended a swanky church. The service was also being broadcast via radio.

The assistant pastor delivered an opening prayer that ran 3 minutes and 15 seconds, for I timed it to be accurate.

It was a typical trite church prayer covering the standard items of asking God to remember all those who could not be present because of illness, and those present who needed help, etc. etc.

If you priests and clerics wish to show off on the pulpit by long oratorical prayers, why not go into a huddle with some advertising man in your parish, and at least vary your trite formula?

If you are not praying direct from the heart (which means about a 10 or 15 word prayer) then you are trying to show off, so let an advertising copy writer give you pointers!

One of my medical colleagues was called by a frantic husband to examine his ailing wife.

"If you have anything to say to her," the doctor informed him in the hall outside the bedroom, "you better do it fast. For your wife is dying and will last only a few minutes."

This man knelt down by the bedside. He took his wife's hands in his own, and poured out his heart with this single sentence: "Honey, I love you with all my heart."

Only 8 words in all! No fancy phrases or orastical effects. For in a time of crisis, we use monosyllables and few of them, but to the point.

Jesus said if we want to indulge in long prayers, go into our closets where people can't see or hear us.

But in public, Christ placed his approval on short prayers, direct from the heart, for Jesus vised prayers as oratorical show-off.

If you clerics want to indulge in oratory, let the congregation keep their eyes open so they can see your facial expressions and gestures.

It is poor platform psychology to let an audience shut its eyes, so make your public prayers short!

### It Just Pays To Get Denounced

WASHINGTON (UPI) — A friend and colleague of mine in the newspaper trade has written a book which I predict will bring him great riches.

The official publication date is still two weeks away, and already the book has been denounced.

A denunciation of a book has long been recognized as a surefire sales stimulant, but few authors are fortunate enough to have their works castigated even before they are formally published.

I therefore offer congratulations to A. Robert Smith, correspondent for several Oregon newspapers, who has put together a biography of Sen. Wayne Morse titled "The Tiger in the State."

Smith's book was pounced on by no less than the Tiger himself, who rose on the floor of the Senate this week to complain that it contained untruths, half-truths and out-of-context distortions.

I don't suppose that Smith, who values his reputation as a reporter, particularly relished that sort of comment.

In reply to the Morse blast, he said the book, while "not without criticism," was "non-partisan and gave the senator 'far more credit for valuable public service than any of his political enemies will ever grant him.'"

I can understand why Smith, as a journalist, wouldn't like to have his objectivity questioned. But as an author, he is to be envied. Many authors are unable to get denounced at all.

As evidence of this, I can cite my own experience last fall when the literary world was enriched by a book of mine, the title of which has been carefully concealed from all but a few close friends.

I went around to just about everybody I knew trying to get them to denounce it, but to no avail.

"This is the most innocuous book since 'The Five Little Peppers,'" one of them told me. "I'd look pretty silly denouncing it."

"Couldn't you just suggest that it be kept out of the hands of Camp Five girls or something?" I begged.

"I doubt you could get this book banned from a Tibetan monastery," he replied.

### Vienna Conference Pays Off

Just short of a year ago, President Kennedy met in Vienna with Nikita Khrushchev and learned at first hand the nature of his enemy.

It seems probable that out of that meeting was born the determination for what since has become administration policy. This week, in Canberra, Secretary of State Dean Rusk has been explaining that policy to U. S. partners in the Anzus Pact, Australia and New Zealand.

It was at Vienna in early June that Khrushchev served an ultimatum on Kennedy—that the Allies get out of Berlin and declare it a "free city" by the first of the year or lose all their rights there in a separate Soviet peace treaty with Communist East Germany.

In Washington and in week-end conferences at Hyannis Port, Mass., with State Department and Defense officials and with U. S. ambassadors summoned home from abroad, the U. S. reply began to take shape.

The steady buildup of U. S. military strength, accompanied by clear warnings to Khrushchev that any move against Berlin could touch off a nuclear war.

In Europe, two U. S. ambassadors explained it to this correspondent this way: "The President is determined that the United States shall not be swayed by Soviet tactics of hot and cold, and that U. S. and Allied military strength must be built up steadily to meet any condition.

In the past year there have been tangible results. An important one was that the end of the year passed without Soviet action. Militarily, the United States increased its manpower in Europe.

Resumed nuclear testing. Turned over five nuclear-armed Polaris submarines to NATO.

Built up its European weapons stockpiles and permitted disclosure that it was experimenting with floating arms depots in Southeast Asia. These depots permit the United States to fly troops to any emergency area and to "leave" weapons and equipment already awaiting them.

Disclosed that it has set as a goal the ability to fly two divisions to Europe within a matter of days.

Relaxed its nuclear security to the extent that it now will permit its NATO allies to know the locations and extent of nuclear stockpiles in their individual countries. It gives the Allies reassuring knowledge of U. S. striking power and its consequent deterrent force on the U. S. S. R.

In his report to the nation on his Vienna meeting with Khrushchev the President enumerated other important points of U. S. policy.

I DEEPLY APPRECIATE THE SUPPORT GIVEN TO ME BY THE VOTERS DURING THE ELECTION FOR COUNTY COMMISSIONER, DISTRICT 2. I PLEDGE MY BEST EFFORTS IN WORKING TOWARD A BETTER SEMINOLE COUNTY FOR ALL OUR PEOPLE.

MY SINCEREST THANKS

## Political Notebook

WASHINGTON (NEA) — President Kennedy has become one of the most prolific writers of letters to Congress ever to occupy the White House.

In addition to the 19 major policy messages he has sent to Capitol Hill this year, the President has also sent 15 letters to the Speaker of the House and the President of the Senate, asking for additional legislation, or money.

House Republicans estimate that the 19 messages call for additional government expenditures of \$10 billion by 1970. No such estimate is made for the 15 letters. But the figures cited for each letter add up to another \$4 billion over the next eight years.

You have to consider the whole \$10 billion kit and caboodle as the complete Kennedy program, up to May 1.

The possibility of additional letters being sent to Congress before adjournment must not be ruled out.

The President has already promised to send up recommendations for financing political campaigns. He will have other ideas. For what ever else you think about this president, you have to admit he's prolific, full of (Boston baked) beans and he's always busy doing something.

These mass notes which the President sends to Congress on the average of one a week are something like letters from a young son just starting out in the world to the old folks at home. He wants more money, naturally.

Some of the letters merely ask for loans which will be paid back. Some are one-shot requests for a few odd millions as supplementary appropriations to carry on the business from now till June 30, end of the fiscal year.

Some are just reorganization matters which will cost little or nothing as house-keeping pin money. But others are for continuing operations which will cost as much or more in later years than they'll cost now, if Congress approves them at all.

Since nobody can remember all these letters except the President, whose memory is prodigious, you may want a list to paste in your hat, your mirror, or over the kitchen sink. There were four letters in February, six in March, five in April.

## Letters To The Editor

Dear Larry:

In your column of May 7th, you state that Mr. Leffler and Mr. Knowles "were never contacted" by the committee you refer to as "opponents of the franchise." This is quite true, but to keep the record straight, I, as a member of this committee, would appreciate your informing the public, through your very popular column, why, perhaps, this committee did not contact Mr. Leffler and Mr. Knowles.

This committee was aware that when Mr. Leffler and Mr. Knowles were starting work on their "revitalized" directive, I, as an individual in the "opponents" committee, having not then been recognized (talked with both of them, suggesting that some of the freeholders in the county group objecting to the first directive, be allowed to attend their meetings, so that we might be informed of their conclusions and so that they might, if they so desired, discuss our objections with us.

My suggestion was based on the hope that, by giving the committee the views of many freeholders in Seminole County, some adjustments might be arrived at, and thus the directive finally offered the County Commission for approval, might have gained the support of the public at a whole.

I might add that my idea had the support and approval of Chairman Hutchinson, who originally appointed the committee.

I regret to say that I was told, courteously but firmly, by both Mr. Leffler and Mr. Knowles, that they did not consider this practical and felt it would offer them no assistance in writing their directive. However, they both assured me that the most objectionable features in the first directive, submitted by Mr. Avery—objections which the Herald supported in an editorial on December 4th—would be removed.

This, certainly, was not fully accomplished, and when what you term the "revitalized" directive was made

public, it was found to still contain features to which residents of the county and some of the Commissioners themselves objected.

Considering the above facts, the idea of Mr. Leffler, Mr. Knowles and Mr. Kratzer joining in any manner with our committee was, I am sure not even thought of by any of us, nor, I would guess, considered by the gentlemen in question, but I was in contact with Mr. Leffler, and some of the suggestions he made are included in the report we presented to the County Commissioners on May 1st.

Sincerely yours,  
Paul L. Bissell

## Pay Raise To Spain's Striking Workers

MADRID (UPI) — The Spanish government today announced wage increases for some factory workers and journalists in a move aimed at ending a wave of strikes which have crippled the country's industry.

The pay raises went to railway equipment factory workers and newsmen in nearly all parts of the country. They were the first in an expected series of wage boosts designed to get the more than 60,000 striking miners and industrial workers back to work in northern Spain.

Madrid workers, meanwhile, appeared to be ignoring a call for a general strike to support the walkouts.

Leaflets said to be circulated by the Communists appeared in Madrid the past two days urging the general strike. But by early morning today, buses were running on schedule, telephones and public utilities were functioning normally, and other services appeared unaffected.

The strikes in northern Spain are chief of state Gen. Francisco Franco's gravest social crisis in the 25 years he has ruled. As reports came in of hundreds of new strikers joining the movement, the government took action to stop it.

Informed sources said the cabinet would vote pay increases for all industrial and mining workers. The strike started a month ago for economic reasons, but has taken on political significance because of its size.

All strikes are illegal in Spain, and hundreds of labor agitators have been arrested. But previous appeals by government and church to return to work have been ignored.

A new strike was reported Thursday in the national railway equipment plant at Irun on the French border, where 1,000 men were out. Reports of planned walkouts in the mines in central, northeastern, and eastern Spain reached Madrid.

Although government sources put most of the blame for the labor troubles on the Communists, it was felt that other groups, including Catholic action laborers brotherhoods, were supporting it as well.

Students in Coimbra, 100 miles north of Lisbon, also threatened to strike if the government has not acceded to their demands by midnight Saturday.

They called on the government to repeal its punitive measures against the Coimbra undergraduate union. They said if it does not, they will boycott classes and final examinations.

Coimbra students staged a sit-in and hunger strike Thursday, with about 1,000 participating, but called a truce after police agreed to withdraw from the campus.

## Portugal Police Detain 1,000 After Sit-Down

LISBON (UPI) — Police today detained a reported 1,000 university students and their families following a students' sit-down hunger strike against government control of Lisbon University.

Earlier, the 86 students actually involved in the hunger strike were arrested by police called to the school canteen by university authorities.

Then other students and their relatives who had assembled on the university grounds were taken into custody.

The students had said they would continue their hunger strike even if jailed. The student body issued a communique threatening to boycott all classes.

The students' strike followed two separate clashes between police and worker demonstrators in Lisbon this month, but was not connected to the other dispute.

The Lisbon students claimed that the university, students as well as professors, could not exist under government "measures" to academic freedom.

Students in Coimbra, 100 miles north of Lisbon, also threatened to strike if the government has not acceded to their demands by midnight Saturday.

They called on the government to repeal its punitive measures against the Coimbra undergraduate union. They said if it does not, they will boycott classes and final examinations.

## U. S. Deserter Jailed

MIAMI (UPI) — Cuban authorities sent back to this country Thursday a sergeant accused of deserting the U. S. Army and seeking political asylum in Cuba.

FBI agents promptly placed Sgt. Robert Joe Keesee, 28, under arrest when he landed here aboard a regular commercial airliner from Havana. He was held in the Dade County jail pending a hearing today before a U. S. commissioner.

Wesley Grapp, special agent in charge of the Miami FBI office, said Keesee faced charges of desertion, airplane theft and automobile theft.

## 'Fair Profit' Stressed

MIAMI BEACH (UPI) — Labor Secretary Arthur Goldberg told members of the Textile Workers Union of America Thursday night that the Kennedy administration wants a "decent, fair profit for industry."

Addressing more than 1,000 delegates at the union's annual convention, Goldberg stressed that both employers and workers as well as the federal government would benefit from a general wage-price level.

The former counsel for the AFL-CIO textile union told the gathering that there will be no wage and price controls within the same general level.

"And while some changes may be advances, prices can also go down," Goldberg added.

Delegates at the convention adopted a resolution backing the King-Anderson plan for medical care for the aged financed through social security.

Keesee, from Amarillo, Tex., is accused in a federal warrant issued in Albuquerque, N. Mex., with renting a small plane there and flying it to Havana, via Key West, last March 23. Cuban officials kept the plane, the FBI said.

No one knew Keesee had gone to Cuba until the Cuban radio announced the next day that he had landed at Havana and asked for political asylum. He was charged with desertion from the Army, the FBI said, after he failed to return to Fort Huachuca, Ariz., Jan. 30 at the end of a two-week leave.

The "Youth Employment Service" branch of the Florida State Employment Service and the Jobs for Youth drive in Seminole County was kicked off Thursday with a luncheon at the Civic Center, sponsored by the Jaycees and attended by business and civic leaders of the community.

A. Wurlley Brown, chairman of the State Industrial Commission was the featured speaker and he told the assembled group of over 75 people that:

"Young people are a good business investment—they are geared to learn and to pick up the way an employer wants

things done. Today's beginning workers represent our skilled manpower of the future."

"Your most valuable assets," he said, "are the hopes, dreams, energy and talents possessed by your young people."

Brown emphasized that while the industrial commission is concerned with finding employment for young people who fall in various classifications, such as those seeking summer work, high school drop outs, college students seeking part-time employment—stress must be given to the development of new

industries and space age technology, which will require a level of education and training of youth not dreamed of a few years ago.

Brown, who was introduced by Gordon Frederick, was preceded by FSES Manager, Joe Foy, who has spearheaded the drive for jobs for youth in Seminole County.

Foy introduced Miss Sherri Lee, Seminole High School senior, and Miss Darlene Shea, Lyman High School senior. These two girls will implement the youth employment service, using a desk at the FSES offices, and their salary for the summer will be

### Boxing Probe Hearings Set

NEW YORK (UPI)—At least four and perhaps five public hearings will be held this year by New York's Joint Legislative Boxing Committee as it probes intensely the question of whether prize fighting, live and televised, should be banned from the state. That was learned authoritatively today, a few hours after Assemblyman Howard H. Plumadore — chairman of the new hard-hitting committee — had announced that the first public hearing would be held in New York on May 21. He gave out the hearing date after a three-hour committee meeting in a midtown hotel.

### Palmer Takes Early Colonial Lead

FORT WORTH, Tex. (UPI)—Arnold Palmer, driving to perfection and putting nearly as well, nursed a one stroke lead into the second round of the Colonial National Invitation golf tournament today, hoping fate doesn't play an encore in his behalf. Palmer, who has never finished better than sixth in this affair, led the opening round once before — in 1958 with a dazzling five-under-par

record tying 65, only to fade to a 77 the following day and never get on speaking terms with par again to finish in a tie for 12th. This time, he posted his subpar 67 early Thursday afternoon and let the field shoot at 11-in vain. Three players — Gary Player, Doug Ford, and Bo Wininger — came within a stroke of him with 68, and five others slipped par by a stroke at 69—Johnny Pelt, Tommy Jacobs, Jack Cupit, Jack Nicklaus and Bill Collins.

### Pender, Fullmer Fight Slated

BOSTON (UPI)—The on-again, off-again middleweight title match between Paul Pender and Gene Fullmer will be fought in Boston, Mass. in late June, if Pender's adviser has his way. John J. Cronin Jr., counsel for Pender, champion of Massachusetts, New York and Europe, expects final arrangements for the fight to be completed within the next two weeks. The same confusion that has clouded possession of the middleweight boxing championship for over two years has for the past 10 days surrounded the possibility of a title-clearing match.

record tying 65, only to fade to a 77 the following day and never get on speaking terms with par again to finish in a tie for 12th. This time, he posted his subpar 67 early Thursday afternoon and let the field shoot at 11-in vain. Three players — Gary Player, Doug Ford, and Bo Wininger — came within a stroke of him with 68, and five others slipped par by a stroke at 69—Johnny Pelt, Tommy Jacobs, Jack Cupit, Jack Nicklaus and Bill Collins.

Palmer had his game in a deep groove through 11 holes when he was five under par, but, then his irons started misbehaving. A bad eight iron shot cost him a bogey on the 12th and a pulled three iron shot on the 13th cost him another. His eight iron tripped him again on the 17th and he took his third bogey. Otherwise, he said, "I drove perfect all day... was in the fairway on all but the 13th when the ball bounced from the middle of the fairway into the rough... and putted very well." His putting was good enough for six birdies and he had three other putts bounce out of the cup for possible birdies.

If Palmer can nurse his lead through the remaining 54 holes, he'll add \$7,000 to his \$32,308.33 bankroll for the season, chalk up his sixth triumph of the year and add another tournament to his list of conquests over courses that have defied him. Thursday's first round play was marred by the disqualification of two players—Mike Souchak, who shot a 72, and Ken Venturi, who had an 80. They both signed incorrect score cards.

### Nuts 'N Bolts Rack Up Plenty

The Nuts 'N Bolts team pulled themselves together in the David Smith's Used Car League, Monday night, and racked up the highest team series rolled to date in the new women's scratch league. Gloria Accardi and Midge Woods sparked the team with identical 621 series to make the 1916 score. The Flat Tires thought they were still on the road, as they posted a 1792 series, losing three points to the Nuts 'N Bolts. The Double Clutchers did just that in passing up the Four Jalopies, winning four; The New Dealers, Puddle Jumpers, Paint Jobs and Hot Rodders call it a tie as they each took two.

The Peanut Venders are leading the league with 8 1/2 wins, with three teams tied in second spot with 8 wins each. Gloria Accardi had to play games, 206, and Margie Woods took series high with a 533.

### Richards Was Way Off Base About O'Dell

By United Press International  
Billy O'Dell is one pitcher in a million—not because he has a 5-0 record for the San Francisco Giants—but because he's one fellow about whom Paul Richards guessed wrong. Richards is one of those guys who's never supposed to be wrong when it comes to judging pitchers. He's got a fantastic string of successes with lame-armed and lame-brained pitchers who couldn't win for anybody but him. And just the opposite is supposed to be true: When Richards gives up on 'em, well, there just ain't any hope left.

Richards felt that way about O'Dell's performance in his first two years with the Giants generally supporting Richards' judgment (8-13 in 1960 and 7-5 in 1961) but this year it's different. O'Dell made it five in a row Thursday night when he pitched the Giants to a 6-0 victory over the St. Louis Cardinals in a game halted after 8 2/3 innings by a heavy rain. The victory restored the Giants' National League lead over the Cardinals and Los Angeles Dodgers to four games.

Willie McCovey hit a three-run homer and Felipe Alou had a two-run double to lead an 11-hit attack that dealt Bob Gibson his second defeat against three wins. O'Dell also held Stan Musial hitless

—leaving the great Cardinal star still one hit short of Honus Wagner's all-time league mark of 3,430 hits during a career. The Los Angeles Dodgers beat the Houston Colts, 6-2, and the Milwaukee Braves defeated the Pittsburgh Pirates, 4-3, in other NL games.

Don Drysdale yielded homers to Roman Mejias and Carl Warwick but allowed only one other run as he secured his fifth victory. Drysdale retired 17 consecutive batters until Warwick's homer in the ninth. Rookie Larry Burright homered for the Dodgers. Frank Bolling's ninth-inning homer gave the Braves their victory after Mack Jones' three-run homer in the eighth produced a 3-3 tie. Dear Abby: By Abigail Van Buren

DEAR ABBY: Do you think that two children, 14 and 16, who get a generous allowance, should put the arm on their father for extra money to buy a Mother's Day present?

DEAR POP: You are a softie. There would be more sentiment in a card, purchased with their "own" hard-saved money than a gift to Mother for which Father paid.

DEAR ABBY: I have always gotten a big kick out of your column but never thought I'd be writing to you with a problem. Here it is. Every girl I date more than three or four times wants to get married. I am no Casanova, Abby, but I have this trouble with every girl I start dating. I come from a well-to-do family and have no money worries, but I don't brag about it. I like girls but I don't enjoy being put on the spot with talk of marriage. I don't want to stop dating but can't think of any other way out.

DEAR J. F. I have some shatter-

ing news for you. ALL girls want to get married. And if you aren't in the market to buy, better not hang around the merchandise mart.

DEAR ABBY: A letter in your column interested me very much. It was from a boy who said he had been kissed in "Italian." I am an Italian musician and would like to know exactly what an Italian style kiss is. Thank you. ANGELO

DEAR ANGELO: It starts out pianissimo, reaches a crescendo and winds up fortissimo. Yes, there is a repeat with a second ending.

CONFIDENTIAL TO ALL MOTHERS ON MOTHER'S DAY: If you have no mother to remember on Mother's Day, remember your Father. I mean your Father in heaven. The One who remembered YOU with the privilege of becoming a mother.

How's the world treating you? For a personal, unpublished reply, send a self-addressed stamped envelope to ABBY, care of this paper.

INGRID THULIN tells Glenn Ford that despite her love for him she cannot desert her husband in Metro-Goldwyn-Mayer's "The Four Horsemen of the Apocalypse." Based on the famous novel by Vicente Blasco-Ibanez, the big picture has an all-star cast, including Charles Boyer, Lee J. Cobb, Paul Lukas, Yvette Mimieux, Karl Boehm and Paul Henreid.

Ford Film Set For Drive-In

'One of Metro-Goldwyn-Mayer's greatest pictures for 1922 is the film version, in CinemaScope and color, of the famous Vicente Blasco-Ibanez novel, "The Four Horsemen of the Apocalypse," brought to the screen with a notable all-star cast, filmed largely on location in Paris and the magnificent French chateau country, and directed by the brilliant Academy Award winner Vincente Minnelli.

More than three years of preparation were devoted to this classic drama which is at once a passionate love story, the story of a family torn asunder by divided loyalties, the spectacle of Paris invaded by the Nazis during World War II, and the suspenseful drama of a rich and reckless scion who devotes his life to pleasure until he is caught up in the realities of a tremendous conflict.

Jacoby On Bridge By Oswald Jacoby

The duck play at no-trump is apparent enough when you only have one stopper in the suit opened by your opponent. It frequently pays to duck when you have two stoppers. If South wins the first spade lead he will wind up in the coup. He will have to go after the diamonds and East's ace will take the first trick in that suit. East will lead a second spade and it won't matter whether or not South ducks this one. Eventually West will make three spade tricks and set the hand.

We The Women: By Ruth Millet

A beauty salon in Levittown, N. Y., is open every Wednesday night to men only. Since the idea seems to have caught on in Levittown that a man as well as a woman might look younger with a dye job or better groomed after a mud pack, facial and manicure, it just might spread to the rest of the country.

Women customers expect the operators who work on them to be good listeners who will gasp, chuck, soothe or sympathize as the need requires, depending on whether the customer wants to pass on gossip, take her husband's relative apart, talk about her operation or her troubles. Women expect to make and receive telephone calls at a beauty salon, so the shops are accustomed to having their receptionists serve as secretaries to their customers. Women never miss a beauty

appointment just because they haven't anyone to leave with. Junior, Junior is just turned loose in the shop while mom relaxes under the dryer, un mindful that her little darling is taking the shop apart. Women expect to be served coffee while they dry, or even to send out for a sandwich if they have skipped lunch. Women expect to read the magazines they consider too expensive to subscribe to themselves, and they complain loudly if every slick magazine on the market isn't available in their beauty shops. So just make yourselves at home, men, when it's your turn to take over the beauty shops. Women sure do.

ALGIERS, Algeria (UPI)—The Algerian provisional executive commission meets today to discuss proposals to speed up independence and to hand over the administration of the country to the Moslem majority.

The important meeting of Algeria's civil leaders later in the day was called against a background of mounting bloodshed caused by the Secret Army Organization (OAS), which has vowed to keep Algeria French.

Terrorist attacks throughout Algeria Thursday claimed 35 lives and wounded 28 others, bringing the 1962 casualty toll to 4,477 dead and 8,432 wounded.

Forty-four of the dead were Moslems, including 16 women. Among the other victims were a European mother and daughter whose throats were cut by Moslem terrorists in the city of Blida.

The OAS has turned its terrorist campaign against Moslem women in an attempt to provoke Moslems into bloody reprisals and postpone the independence date.

At Rocher Noir, the heavily fortified administrative capital outside Algiers, the provisional executive commission assembled to discuss referendum plans. The latest proposals include the pushing up of a self-determination vote to early July. It had been scheduled originally for a later date.

The vote is a formality in which the Moslems are expected to choose independence overwhelmingly. The country then will be turned over to them.

## Eisenhower Says He Wants To Help GOP

WASHINGTON (UPI)—Former President Eisenhower "wants to help and will help" Republican candidates running for Congress and other offices next fall, GOP National Chairman William E. Miller reported today.

Miller conferred with Eisenhower about the campaign Thursday during the ex-president's visit to Washington to meet with Republican leaders and hold a news conference.

The party chairman said Eisenhower would play "an active role" in the campaign although no firm plans had been made yet. He indicated, however, that the former president would not be expected to barnstorm from state to state in behalf of individual candidates for Congress and governorships.

Miller visualized regional GOP meetings at which

Eisenhower could talk "basic Republican philosophy" rather than local issues. Funds permitting, he said, such speeches would be carried on

## Sex On TV Probe Opens

WASHINGTON (UPI)—The Senate juvenile delinquency subcommittee today summoned CBS-TV President James T. Aubrey to answer charges that officials of major networks ordered sex put into programs aimed at young people.

Investigators said Chairman Thomas J. Dodd, D-Conn., would produce documents showing that the network chiefs were responsible in part for "excessive" crime, sex and violence on television.

After Aubrey's testimony, Dodd said the subcommittee would call Walter D. Scott, executive vice president of NBC, and Thomas Moore, acting president of ABC-TV.

The subcommittee is investigating the effect of television on juveniles.

In earlier testimony, network spokesmen have blamed unimaginative writers and producers for any overtones of TV violence that may have occurred, and some blamed what they called the low taste of the viewers.

national television networks. Miller also announced that the first meeting of the All-Republican Conference, now being set up, will be held at Gettysburg, Pa., Eisenhower's home town, probably in June.

The group is being set up to serve as a voice of the GOP when it does not control the White House.

At his news conference Thursday, Eisenhower charged President Kennedy with seeking greatly increased power and increasingly heavy government spending "on all fronts."

He referred specifically to administration proposals for standby power, lower taxes and increase public works spending in a recession and also attacked the Kennedy farm program.

House Republicans claimed public support for the general GOP position on these and other issues based on a summary of their own polls. They said the results showed "overwhelming opposition to key Kennedy administration proposals and general lack of support of new frontier policies."

This conclusion was based on an analysis of returns from questionnaires circulated by GOP House members in 32 districts throughout the country.

## Titov Ends 13 Day Visit To U. S. Today

NEW YORK (UPI)—Soviet cosmonaut Gherman Titov, ending a 13-day visit to the United States which took him from Greenwich Village to the Golden Gate, returns home to Russia today.

Titov, who expressed mixed emotions about America during his stay here, was to depart from New York International Airport this afternoon with his wife Tamara, and their official party.

The 27-year-old Spaceman's day Thursday was typically varied. He went from the Princeton University campus to the prize ring at St. Nicholas Arena in Manhattan.

At Princeton, he spoke to about 1,000 students on the problems of man in space, such as weightlessness, space-ship control, eating and sleeping. "It is possible to live in outer space as you can see for yourself," Titov told the students.

Titov, who last August orbited the earth 17 times, later told a rally at the sports arena his "number one impression" of the American people was their "friendly attitude."

The affair, sponsored by the National Council of American-Soviet Friendship, drew a cheering crowd estimated at 4,000 by a Soviet official and 2,500 by a spokesman for the arena.

Titov, standing in a ring whose canvas had been replaced by a red carpet, declared: "The time will come when Soviet and American cosmonauts and astronauts will fly to Venus, to Mars, to other planets as friends and partners in this daring venture for the good of mankind."

A NEW PUMP HOUSE is under construction at the Enterprise Cemetery and when electricity and the pump are installed, another dream will come true for the community. In the past, all water has come from a centrally located hand pump. A pipe line running the cemetery's full length will be laid and 12 faucets and hose connections will be installed. Shown working on the building is Wilbur Bruce, president of the Cemetery Assn., son, Joe and Sidney Emanuel, association trustees. (Cox Photo)

## 'He Can Pay,' Mrs. Reynolds Says

DARIEN, Ga. (UPI)—Mrs. Muriel Reynolds' lawyers Thursday afternoon attempted to prove that her tobacco heir husband R. J. Reynolds can afford to pay the huge alimony she demands after the couple's divorce trial was turned over to defense counsel.

The plaintiff and the defendant were absent resting as lawyers chafed up Reynolds' earnings from 1954 to 1958 on a blackboard for the jury to see.

The 57-year-old Reynolds, suffering from a lung ailment requiring him to use oxygen even in the courtroom, had just finished two days on the witness stand.

By reading testimony into the record from the first divorce trial between the pair in 1960, lawyers showed that Reynolds netted more than \$1 million per year from 1954 to 1958 when he made \$3.6 million by selling his personal interest in R. J. Reynolds Tobacco Company.

The authority on the subject was Byron Harris, CPA and tax consultant for Reynolds.

Reynolds has claimed he is not able to pay his third wife the \$200,000 annual alimony she wants because he has given

most of his money to charities. He contends he lost \$25 million when he sold the R. J. Reynolds stock at the insistence of his wife whom he described as "nagging."

## Court To Consider 'Riders' Appeal

MONTGOMERY, Ala. (UPI)—The Alabama Supreme Court today considered the appeals of 11 "Freedom Riders" convicted of breach of the peace and unlawful assembly following their arrest here a year ago.

The high court heard oral arguments Thursday in the cases, including those of four white religion professors from New England.

Nine of the defendants, represented by one white attorney and four Negro lawyers, appeared in court. Asst. Atty. Gen. Leslie Hall asked the court to uphold the convictions because their actions were calculated to breach the peace while "there was a clear and present danger of a riot."

The case involves the second group of "Freedom Riders" to arrive in this capital city in less than a week last year. Their arrival followed on the heels of racial violence which broke out the previous Saturday at the Greyhound bus terminal when the first group of "Freedom Riders" entered this Deep South capital city.

The defendants were arrested after entering the trailways bus station and receiving service at a formerly "all-white" lunch counter prior to their planned trip to Mississippi. All were convicted in the court of appeals. The biracial group appealed their cases to the circuit court where they were sentenced by Judge Eugene Carter to 30 days in jail and fined \$100.

The Mid-Florida Country Club, on Sanlando Springs Road west of Longwood, was robbed of \$1,110.62 early this morning when safe crackers broke in and looted the club safe, according to Joseph Oliver, manager.

It was also reported this morning by the Sheriff's office that the Casselberry Country Club had been broken into and \$11.00 taken from the cash register.

The Mid-Florida robbery was reported to Oliver by the Sheriff's Office at four a. m. He went to the club to find the front door had been jimmied open, the large safe hauled out behind the club house and broken open.

Oliver declared, "It must have been a real job for two or three men to move that safe out behind the building. They took \$1,110.62 in cash, but left some money in the bottom of the box, and they also left a considerable bundle of checks.

The money in the safe represented the week's receipts.

The manager said it looked as though the men might have been scared off before they had finished the job. The Sheriff's men were on a routine patrol of the premises when the robbery was discovered.
