

Covington

Covers Sports

Several years ago a little sports car was pretty much a novelty in these parts. I recall that Earl Ratliff drove up to school in a little "bug" called a Renault. Of course, it really caused quite a stir around the campus being the first car of that size to be seen. In fact, it was so cute that a group of young lads led by "Binga" Graham grabbed it by both ends and carried it to the front steps of the school and parked it.

Now if a Frenchman were to come to Sanford blindfolded he would surely believe he was in Paris for the beep-beep's of the Renaults can be heard everywhere. The little car types have become so popular in recent years that Sanford has a very active club called the Seminole Sports Car Club.

Although the club has been active for some time, very few people other than its members know much about its activities.

Recently five members of the club formed a sports car racing team and in their first outing they made a fine showing.

The five men have dubbed their team "Scuderia Seminole," Scuderia being an Italian name for racing stable.

Insuranceman Bud Moughton is responsible for the logistical end, such as fund raising and parts supply; Ron

Gates, a nurseryman from Daytona Beach, handles all scoring and timing; Jim DeBrine, an old school buddy of mine, does all the mechanical maintenance and the driving is shared by Phil Bell of Sanford and Bob Roe of Orlando.

For its initial run, the Scuderia entered the Lion's 300-mile handicap race staged by the Sports Car Club of America at Venice Oct. 18 and brought home five trophies. These were earned by placing second in class in a 53-mile preliminary race on a rain-drenched course on Saturday; and by coming in fourth overall in the featured 300-mile race on Sunday. In Sunday's race, the Scuderia's little red bomb was running against 50 other cars—some of whose engines were seven times larger!

This group of daring young gentlemen have big plans for the future. They are laying the ground work to enter the SCCA races at Dunnellon in January and at Cocoa in February. If another car can be located in time, the Scuderia may enter the FIA compact and economy car race at Sebring December 12.

For the lovers of foreign cars this is the club to join. These fellows show more enthusiasm for their favorite sport than has been displayed in a long time.

Banks Gets MVP Award; Aims To Hoist Cubs Now

BOSTON (UPI) — Shortstop Banks, confirmed as the American League's most valuable player, set his sights today on hoisting his Chicago Cubs out of the second division.

The plugging pins possession of the Cub, a powerhouse at the plate and an automation in the field, Wednesday was named an unprecedeted second straight MVP award by the National League writers.

Banks, who set two fielding records while his team finished in a fifth place this season, said he'd get as much pleasure as winning the MVP award again. Naturally, every player wants to win the MVP title and also to play in the World Series. I hope next year we can do something about it."

Banks clubbed out 45 home runs while carrying the Chicago National League entry this season to beat out another power-hitting infielder, Milwaukee Braves third baseman Eddie Mathews, for the coveted award.

The rangy Banks, who recently signed for an estimated \$40,000 for next season, hit .304, drove in 143 runs, collected 179 hits including 25 doubles, six triples, and scored 87 times.

His fielding broke two National League records, the first a shortstop with the fewest errors over a season, 12, and the second for the highest shortstop fielding percentage in the history of his league, .985.

The award race wasn't a one-man affair, but it wasn't far from it.

Banks polled 322 points of a possible 318. He led Mathews by 44 points and more easily out-

Junior Title Fight Scheduled

MIAMI (UPI) — The winner of a 30-round bout between Vince Martinez and Chico Tejedor here Dec. 3 will be recognized as the world junior middleweight champion by the Miami Boxing Commission.

Chuck Geiger, chairman of the commission, said Martinez and Tejedor were selected as opponents because of their winning records. They split two earlier fights.

It will be the first junior middleweight title bout in history. The weight limit has been set at 135 pounds.

Royals Get Reed

CINCINNATI (UPI) — The Cincinnati Royals have acquired Hub Reed from the St. Louis Hawks for a player to be named later. Although he set scoring records at Oklahoma City University, Reed has been a bench warmer with the Hawks this season.

Heavy Seven Alfa Paces Navy Keglers

Top place Heavy Seven Alfa continued to roll by taking three points from Heavy Three "B", while Big John Uhr, top man sat out and the Heavy Seven's bowed with blind High for the winners was Gerald Smith, as Carl Stuckart led for the losers.

Second place GGA Tower continued its pace and remained within one point of the leaders by taking three from the Chiefs of Fasroni. Bill Grimes led the Chiefs of Fasroni. The loss dropped the CPO side into the cellar.

Heavy Three Alfa zoomed ahead of NAS Operations by taking three from the fast moving Whitehorns of FASRONI Fifty-One. Both Latta took honors for the Alfa gang, as Danny Ross led for the White Hatters.

The second slot is well filled, after Tuesday's play, as The Pig 'N' Whistle and Robsons tied with a 16-14 record. Foodmart holds third with 15-15, and then comes Wilson-Maier with 14-16, and Rounaud & Anderson with 10-20.

The insurance team took the first game by a small margin of safety, but were really surprised as Foodmart laid it on in the second to win by over a hundred pins. But apparently you can't keep Pryor down for long, and they bounced back to win the third game, with pins to spare. Lillian Ordern rolled high for the underwriters, and Eve Rogers sparked Foodmart.

Wilson-Maier was caught napping all three games, and though they had a scratch series nearly equal to the league record, it wasn't enough to beat the Pig after handicaps were added. Mary Sarte was responsible for the restaurant people taking all three as she turned in a 301 scratch series to lead her team. Marcie Woods was high for the furniture bowlers, and ably helped this week by Virginia Lang and Faye Griffin. These two bowlers are turning in higher series each week, and lifting their average as they do so.

Robson Sporting Goods took the back seat to Rounauds this week as the druggists decided enough was enough. They won the first game, but Robson came back strong to win the second game and also set a new league record for scratch game, having a 710. Now seemed the time to really pour it on, according to the druggists, and they did so with a 711 scratch game, winning the last game and taking away Robsons newly won scratch game honors.

Both Mary Lou Danyluk and Alberta Shaw turned in identical series to lead Rounauds, and Margaret Knight rolled high for the sportswear. Mary Lou had the only turkey rolled this week and spills were made by Mary Sarte, the 27, Ermie Webb, 8-10, and Frances Cross, the 8-10.

Next week The Pig will try for Pryor's berth as they play each other on five and six. Rounauds will go against Wilson-Maier on one and two alleys, and Robsons will play the Foodmart on lanes three and four.

NOTICE TO THE PUBLIC

NOTICE IS HEREBY GIVEN that the Board of Adjustment will hold a regular monthly meeting in the City Commission Room of the City Hall at 3:30 P. M. on Tuesday, November 10, 1959, in order to consider an appeal for a Variance of the Zoning Code of the City of Sanford pertaining to the rear yard requirements for commercial property located on the Southwest corner of 23rd Street and French Avenue, legal description: Dreamwood, Block 8, Lots 1 to 8 inclusive, and beginning at the Northeast corner of said Lot 1, Block 8, run East 17 feet to the Westerly right-of-way 135 feet, thence West 17 feet to the Southeast corner of said Lot 8, Block 8, thence North to beginning, and the East 2 feet of the North 122.5 feet of that certain unnamed alley on the West side of Lots 1 to 8 inclusive, Block 8, Dreamwood.

Edward F. Lane, Chairman

JV's Roll Over DeLand, 33-20

By JERRY COVINGTON
The Sanford Seminole Junior Varsity team finished its 1959 season here last night in fine style by rolling over DeLand by a score of 33-20.

Coach Dick Silvers and Bud Layer led their youngsters to a near perfect season finishing with a 4-1 record. Their only loss was in the opening game when Leesburg squared past them 7-0.

Halfback Bubba Davis was nothing short of spectacular in the victory here last night.

The youngster scored on a 25 yard run in the first period, a 27 yard run in the 4th period, and an 18 yard run in the final three minutes. He displayed good speed and ran as hard as any half-back seen this year.

Although DeLand rolled up 20 points, the Seminole defense was

outstanding. They picked up two of their touchdowns as a result of Sanford fumbles and if it hadn't been for this, the big defense would have held them much tighter.

Linebacker and center Johnny Phillips made a great showing especially on defense as well as Mark Whitehead, Pee-wee Knight, Don Harvey, and James Jones. The line play on offense and defense was outstanding throughout the contest and it was a team effort all the way.

On the opening kickoff Sanford fumbled and DeLand recovered on the 30. On seven plays they marched for the score and ran for the extra point making it a quick 7-0.

Then Sanford got the ball and began to roll. Davis and Bobby Bowen ripped off good yardage and with the ball on the DeLand 21, Davis broke off tackle and went for the first Sanford score.

Bobby Edwards ran the point making the score 14-7.

Early in the second quarter Sanford moved to the DeLand 5 yard line on good runs by Riser, Bowen and Davis. Bowen then hit up the middle for the score giving Sanford the edge.

Edwards again added the point making the score 14-14.

DeLand took over and began to move. They moved inside the Sanford 15 yard line but the big defense held and the Seminoles took over on downs. On second play, quarterback Terwilliger fumbled and a DeLand lineman picked the ball up and raced for the score. They also ran the point making the score 14-14.

The second half opened with Sanford kicking. The Bullogs showed a little fire and on three

beautiful pass plays they had tak-

en the lead again. This time the PAT was no good and the score read Sanford, 14 and DeLand, 20.

Sanford took the kick off and on the second play from scrimmage, Butch Riser broke through and outran the entire Bulldog secondary for a 51 yard TD. Sanford's attempt at the point failed and the score was deadlocked at 20-20.

Early in the final period the Seminoles began their march again. Riser and Bowen moved the ball well and from the 27, Davis broke through and romped for his second score. The point attempt was no good but the Seminoles held a 6 point lead, 26-20.

From here on out it was Sanford all the way. The big defense held and the Seminoles began their final march down the field. From the 18 yard line Davis ripped up the middle this time for his third TD of the evening. To add salt to the wound, Davis then started the end for the extra point making the Seminoles a 32-20 victory.

Blue Hens Take Over Ratings

NEW YORK (UPI) — The Delaware Blue Hens, playing for a coach who believes football should be fun, today snapped Mississippi Southern's two-year grip on first place in United Press International's small college ratings.

Coach Dave Nelson's Blue Hens moved from second to first following an easy, 34-14 victory over Rutgers of the major college football division. But the Blue Hens owe a vote of thanks to Memphis State, which gave them a big assist by upsetting Mississippi Southern last Saturday night, 21-24. Mississippi Southern slipped to second.

SEC 'Lesser Lights' Prep For Tilts

United Press International

Two of the Southeastern Conference's lesser lights, Alabama and Tulane, are working hard in preparation for their half of the Deep South's second football doubleheader of the season Saturday in historic Mobile.

The Alabama port city is host in its well-known way to North Carolina State and Mississippi Southern in the opener. Tulane and Alabama close out the day with nightcap SEC match.

Former Alabama great Johnny Mack Brown visited the Crimson Tide practice Wednesday in which the players were praised by Coach Paul Bryant. The spirited

scrimmage might have been helped by Brown's appearance.

Tulane Coach Andy Pilney avoided scrimmaging the Green Wave Wednesday, but the squad did work on offensive running plays in a dummy workout. Pilney said Alabama has a better better team than last year due to their better passing.

Georgia's Bulldogs were pronounced in good physical shape with their traditional rivalry Saturday against Florida in Jacksonville's Gator Bowl. The Bulldogs cut out the rough stuff to avoid any injuries. Florida's Bob Woodruff, not the most optimistic coach in the conference, said his players "were a little ragged" following a full-speed defensive scrimmage.

Tennessee sharpened its passing offense in a drill for LSU.

The Vols are host in Knoxville to the Tigers for the Homecoming game.

Auburn worked on its good kicking game in what Coach Ralph Jordan said was "a good, spirited

workout." Mississippi State, which

scrapped the Tigers at Birmingham Saturday, worked out in the rain.

Coach Wade Walker switched Bobby Fleming from third base left tackle to the No. 2 left guard position.

Vanderbilt was rained out of a

practice, so the Commodores

watched films of the Kentucky games. Mississippi worked hard

in the rain for its game Saturday with Chattanooga.

Coach Bobby Dodd of Georgia Tech said, "I'm afraid Notre Dame is too strong for our line or scrimage." Duke roared over Tech's line last weekend with ease in upsetting the Yellow Jackets.

Dodd said center Maxie Baughan has two injured ankles but will play against the Irish.

The Rambutti Pygmies, who live deep in the Ituri Forest of the northern Belgian Congo of Africa, are the smallest people in the world—not much more than four feet tall.

CBS Boss Denies Charge Network Ignored Rigging

WASHINGTON (UPI) — CBS President Frank Stanton today hotly denied a congressional investigator's charge that network officials ignored 1957 "storm signals" that TV quiz shows were rigged.

"Sure, we were wrong," Stanton said. "I don't want to deny that I — but a lot of people were involved. I wouldn't say there were storm signals up all over. Very few people knew about this."

His voice raised, the head of the Columbia Broadcasting System fired the reply at Robert W. Lishman, chief counsel for House subcommittee investigating quiz show fixes. Lishman had challenged Stanton's statement that he was "completely unaware" that any "irregularity" on the CBS network until Aug. 8, 1958.

Stanton had said in a prepared statement that "when you ask about quiz shows in general came to my attention, I was assured by our television network people

that these shows were completely above criticism of this kind (rigging)."

"With benefit of hindsight," he said, "it is now clear that I should have gone further."

Stanton also said Congress could pass a law making it a crime to "use deceitful practices," but that there is no sure way to eliminate the danger of rigged quiz shows. That is why CBS took all its big money shows off the air, he said.

He conceded that the television industry "didn't exercise sufficient diligence" prior to 1958 to prevent quiz show rigging. But he added that "hindsight is always 20-20."

"I grew up in the business," he said. "I should have known, I at least could have been more curious."

Lishman said it was "rather remarkable" that the president of a major network "did not have any inkling" of the rigging prior to Aug. 8, 1958. Stanton said this

was the date the sponsor of the "Dotto" show called irregularities to the attention of CBS and NBC officials.

Stanton implicitly criticized the stand taken by the National Broadcasting Co. NBC has not taken its big quiz shows off the air but has set up a special investigating unit.

NBC President Robert E. Kintner recommended in testimony Thursday that Congress bolster NBC's clean-up measures by making it a crime for any person to participate in rigging a TV quiz show.

Subcommittee members questioned whether the TV industry's "self-policing" proposals go far enough in preventing recurrences of fakery.

Stanton said it might be desirable for Congress to give the government power to crack down on fraudulent games or contests carried on or in any advertising medium — television, radio and newspaper and other publications.

VOL. XLIX United Press Leased Wire Established 1908 FRIDAY, NOVEMBER 6, 1959 SANFORD FLORIDA NO. 555

Gatchel, Beckwith Considered For Vacancy In Clerk's Post

No Immediate Action Taken By Governor

Gov. LeRoy Collins will have to make a choice between two men for the circuit court clerk's job being vacated by the resignation of O. P. Herndon.

Arthur Beckwith Jr., deputy tax collector for the past eight years, has applied for consideration for the post.

County Commissioner David Gatchel, who was the commission's liaison man with Mrs. Mary Earle Walker in the long wrangle over the tax assessment roll, is the only other known prospect being considered.

The governor's office reported at noon that Herndon's resignation had been received, but no action was indicated.

Until the resignation is officially accepted, the veteran clerk technically still is in office and the work can proceed, but with him and Deputy Clerk E. L. Burdick both retiring effective today, no official papers could be signed in the office unless a replacement is made as soon as the resignation is official.

Sen. Douglas Stenstrom gave his support to Beckwith today. He issued a statement which said: "I have today recommended to Gov. Collins that Mr. Arthur Beckwith Jr., of Sanford be appointed to fill the unexpired portion of Mr. Herndon's term as clerk of the circuit court of Seminole County.

"Mr. Beckwith, in my opinion, is well qualified to perform the duties of this office by reason of his eight years of service in the tax collector's office."

Gatchel said this morning that his announcement yesterday that he would seek the job brought "hundreds of calls" from friends.

"It's good to know that I have such good support and I appreciate the good wishes of my friends," he said. "I took this action because I really want the job and feel that I will be able to give the people the fiscal responsibility and service needed in the clerk's office," he said.

Gatchel said he wouldn't comment at this time.

The highly popular Herndon and Burdick, who are rounding out a total of 57 years of public service today, ended with "the usual" work day.

Herndon, known as "Judge" to many residents, spent his last day "making a final check of the routine, including bookkeeping."

Burdick spent the final day on the job "like any other day."

Herndon has been clerk since 1933 and Burdick has worked in the clerk's office since 1928. Both began their last day with plenty of work on their desks.

They said they plan a little of leisure after today. Herndon said he will "just take it easy and perhaps do a little work around the house." Burdick plans to visit his children in New York and "maybe do a little fishing."

Big Snow Storm

Slams Midwest Leaving 14 Dead

United Press International
The season's first big snow storm was expected to blow itself out today with a parting shot at hard-hit northern Michigan.

Fifteen inches of white covered the ground at Marquette, Mich., but the weather bureau predicted the storm would fizzle to flurries over Michigan and the upper Ohio Valley today.

At least 14 deaths were blamed on the storm, four each in Wisconsin and Iowa, two in Montana and one each in Minnesota, Illinois, Colorado and Kentucky. Most victims died in traffic accidents.

The storm swept out of the Rockies Wednesday to grasp an area from Montana to Texas to Alabama to Wisconsin in its chilly grip.

Fourteen inches of snow fell in Montana, Deadwood, S. D., reported 13 inches, Jamestown, N. D. was smothered under two-foot drifts and Wausau, Wis., received 11 inches.

Rush hour traffic in Midwest cities turned into giant jams as officials were unable to clear streets and handle the rash of fender-bending accidents.

Dozens of schools closed when buses bogged down on snow-blocked roads. Hundreds of cars were abandoned in roadside ditches because their drivers could not cope with ice-paved highways and whistling winds.

PROCLAMING EDUCATION WEEK in Sanford is Mayor A. L. Wilson, who joined School Supt. R. T. Millee in sanctioning local participation in American Education Week Nov. 8 through 14. During the week, officials and teachers stress informing the public on school problems, aims and methods. (Staff Photo)

Missile Industry Needs Students, Teachers Told Over Flag Display

Berlin 'Tense' Over Flag Display

BERLIN (UPI) — At any other time in any other place American officials might consider the incident of the East German flags as scarcely more than a mildly interesting footnote to the history of the curious world in which we live.

But the time is the tense and tumultuous year of 1959.

And the place is Berlin — this vital, divided city where nerves are jangled and tempers apt to be shorter than they are almost anywhere else that the political interest of East and West collide.

So beginning today and through Sunday, an Allied army of 30,000-41,000 U.S., French and British troops and 19,000 West Berlin police — will be ready if needed to keep East Germany from flying its new hammer-and-compass flag over the stations on the elevated railroad in the Western sector.

They said they plan a little of leisure after today. Herndon said he will "just take it easy and perhaps do a little work around the house." Burdick plans to visit his children in New York and "maybe do a little fishing."

In return, the Allies have held a formal alert — but the Communists are wary and the Allies are wary.

out a cooperative program to include high school students interested in science, a Martin Co. engineer told sunny teachers last night.

R. C. Shreckengost, deputy engineer on the Martin Bulbup project, urged the teacher members of the Seminole County Education Assn. to encourage high school students to investigate the missile and electronics fields.

The Martin Co. is trying to employ Florida people and already has begun a high school cooperative training program at Orlando, he said.

Ernie Cowley, Sanford member of the steering committee of the program action committee of the Florida Education Assn., reported on plans being studied by the group for discussion with legislators during the coming term.

The talks were part of the program for the County association's second meeting of the year and were heard by 250 teachers present.

EXECUTIVE BUILDING COMMITTEE of the Good Shepherd Lutheran Church and John Langly, Orlando, architect advisor, made plans for the church's initial building fund drive at a kickoff dinner at the Shrine Club. Langly told the group that before any congregation builds a church, it must know why it is needed and wanted. A film on church architecture was shown. The committee is, front row, left to right, Bill Myers, finance chairman; Richard Sites and John Peasgood. Back row, Bobby Briscoe, Langly, Reid Iverson, chairman of the committee, and Jim Bryant. (Staff Photo)

Cold Wave Expected To Hit Area Tonight

The first cold wave is expected to hit the country tonight with temperatures dipping to 45 degrees, the weather bureau reported this morning. Chilly north winds blew the most severe cold front of the season into northern Florida today with Central Florida to get the brunt of the cold spell tonight and early tomorrow.

Giant California Fire Under Control

MAJIBU, Calif. (UPI) — A wind-whipped brush fire was contained today six hours after it erupted and sent fire-plagued Santa Monica Mountain residents scurrying to safety.

One home was destroyed and another damaged as the flames spread a blackened path over 60 acres of watershed. There were no injuries.

The swift moving flames were spurred along by winds up to 80 miles an hour at times. Los Angeles County Fire Chief Keith Klinger had expressed early concern for some 70 homes in the area.

Quick action by fire crews who rushed in masses of equipment was credited with early containment of the fire that threat its way through scattered scrub oak and dry grass that covers the coastal range.

The fire started near the Hughes Aircraft experimental laboratory when an electrical generator exploded, spewing out flames which were caught and spread by the winds. Electronic research is conducted at the plant.

Spy Satellites Predicted Soon

MIAMI BEACH (UPI) — An Air Force general predicts the United States will have a system of spy satellites in orbit by the early 1960's to give quick warning of enemy missile attack.

Major Gen. Victor R. Haugen said Tuesday the satellites would be the heart of the new Missile Identification, Detection and Alarm System called MIDAS.

Haugen, Air Force director of development and planning, said satellites also promise to be of great use in future navigation and communications. He said studies have shown that three satellites in 24-hour orbits can provide a "secure, instantaneous communication network."

Bolander plans to explain what

Dusty Boots Rodeo Scheduled Nov. 15

The Dusty Boots Riding Association will sponsor a rodeo and barbecue November 15 it was announced today by Hugh Carlton, chairman of rodeo arrangements.

Carlton said this would be a "full-fledged" rodeo with cowboys coming here from all over the state of Florida. Also some of the best quarter horses from the Southeast will be seen in cattle cutting demonstrations and contests. Bucking horses, calf roping, steer dogging and wild cow milking will add excitement to the show.

The rodeo will take place at 2 p.m. on the grounds back of Sanford Farmer's Auction Market. Previous to the show, between noon and rodeo time, a barbecue will be served to every ticket holder. Admission will be \$1.25 for adults and 75¢ for children and will include both events.

Carlton stated that the club is raising approximately \$1,000 to help riders and regular rodeo stock to Sanford.

The club is a non-profit organization and was formed for people interested in riding. Over fifty members take part in trail rides and other club activities.

State Representative Gordon Frederick, addressing Lake Mary Chamber of Commerce members last night, blamed voter apathy for defeat of the reapportionment amendment, Tuesday.

He said he was greatly disappointed that approximately only one-sixth of the registered voters went to the polls and explained that he feels this was the last chance for a fair reapportionment for some time.

He explained duties of legislators while in session and mentioned some of the bills the Seminole County group worked on in 1959.

He concluded with a general discussion period, answering questions on lobbyists' pressure, re-apportionment in the future, procedures of forming and presenting bills, racial integration and reassessment of property values in the state.

Ed Zimmerman, speaking for citizens of the area, expressed appreciation to the legislator for his part in securing approval of the bill creating the Lake Mary Fire District.

Frederick Hits Voter 'Apathy'

State Representative Gordon Frederick, addressing Lake Mary Chamber of Commerce members last night, blamed voter apathy for defeat of the reapportionment amendment, Tuesday.

He said he was greatly disappointed that approximately only one-sixth of the registered voters went to the polls and explained that he feels this was the last chance for a fair reapportionment for some time.

Sanford Ave. Bids Due By Nov. 19

Bids will be received at Tallahassee Nov. 19 for the portion of the Sanford Ave. project which includes widening it to four lanes from Road 48 to Ginderlee, a distance of 1.6 miles.

Bids will be received at 10:30 a.m. on the project, which will make Sanford Ave. four lanes all the way to the entry to the Naval Air Station.

Had To Happen

Federal Re-Entry Into Lynch Case Angers Mississippi

JACKSON, Miss. (UPI) — Mississippi Gov. elect Ross Barnett today criticized the U. S. Justice Department's decision to re-enter the Mack Charles Parker lynching case.

The Pearl River County grand jury at Poplarville, Miss., did not return indictments against a group of white men believed to have lynched the 23-year-old Negro truck driver. The grand jury adjourned Thursday without considering the case.

The Justice Department announced it would take the case before a federal grand jury.

Barnett said, "If the federal government has no jurisdiction in the matter it has no business doing this. The county grand jury would have final authority."

Circuit Judge Sobe Dale, who commended the Pearl River jury after receiving its report, said he has "just as much respect for our state court as federal courts." Dale said the government's re-entry apparently did not come as a surprise to anyone in Poplarville. "The decision had already been made to do something about it a long time ago," he asserted. Acting U. S. Atty. Gen. Lawrence E. Walsh said federal indictments will be sought from a grand jury of the U. S. court for the southern district of Mississippi. Federal Judge Sidney Mizell of Biloxi could call a jury into session at any time. The federal jury usually meets in Jackson. Walsh did not say what federal laws might have been violated. But the government might seek indictment of the lynchers on charges of violating a civil rights law that prohibits conspiracies to deprive people of their legal rights.

The law carries a maximum penalty of 10 years in prison and a \$5,000 fine. The federal kidnapping law provides the death penalty. Parker, who was accused of raping a pregnant white housewife and mother, was dragged from his jail cell at Poplarville last April 25, just two days before his scheduled trial on the rape charge. He was beaten and shot to death and his body thrown into the Pearl River.

Retail Prices May Rise Because Of Steel Strike

WASHINGTON (UPI) — Price increases on a variety of consumer goods are expected unless strike-idled steel mills resume production within the next few days, government economists said today.

The 113-day-old walkout is now close to the point where it creates shortages that in turn cause prices to go up or remain firm instead of declining normally.

Government experts so far have not been able to put their finger on any inflationary movements in the price of steel or products made from it.

But some feel that the time is now ripe for such a trend if the law of supply and demand works as it has in past shortages of similar commodities.

One economist cited new car prices as an example. They may not rise because of the strike but dealers presumably will reduce discounts if they have no trouble selling new models.

This works in reverse, too. If a buyer is looking for a new car and realizes that auto-industry production has been partially halted by the strike, he may not shop as carefully or haggle for a bargain.

The same situation applies to stoves, refrigerators and other home appliances, the economists said.

Federal officials have been quietly checking reports of a "gray market" in steel. This means the sale of steel by a warehouse outside the regular channels of trade to get a higher price.

These officials report they have found no evidence yet of gray-market operations, however. Non-strike mills have not raised the average price of \$150 a ton either, they added.

Economists said some price increases may be hidden by manufacturers. For example, a bobby-pin firm may put 25 pins into a box instead of 20 without reducing the price tag on the box. In the long run, using substitutes for steel or importing foreign steel costs producers more than buying it from their usual sources. This added cost usually is passed on to the consumer.

The economists also foresee smaller trade-in allowances and a reduction in such extra services as free delivery if the strike goes on much longer.

Some of these price rises may be temporary, the government officials said, until steel production reaches pre-strike volume. They won't be reflected in the Labor Department's consumer price index at least until announcement of the October figures late this month.

No runaway inflation seems in prospect. One economist said there has been no report of panic.

PVT. LEONARD FAULK Jr., son of Mr. and Mrs. Leonard Leon Faulk of Oviedo, has been assigned to Company C, 6th Battalion, 2nd Training Regiment at Ft. Jackson, S. C. He will have eight weeks basic combat training.

Two Cars Collide On Park Ave.

A two-car collision involving two out-of-city drivers resulted in \$350 damage yesterday afternoon.

Police reported a car operated by Esther Foeing Muskett of Orange City pulled out from a stop position on Park Ave. and crashed into a vehicle driven by Ruby Wilson Bell of Apopka.

Damage to Muskett's car was estimated at \$150 and \$400 to the Bell vehicle. No charges have been filed as yet, police reported.

NAACP Leaders Facing Contempt, Possible Jail

TALLAHASSEE (UPI) — Contempt proceedings will be filed against three Florida NAACP leaders for their refusal to cooperate with a legislative investigating committee.

The committee also will seek to have the state president of the NAACP, the Rev. A. Leon Lowry of Tampa, jailed for his refusal to appear at the second day of a committee hearing here.

The committee ended its hearings into alleged Communist influence in the NAACP Thursday. It ran into a uniform refusal of witness to cooperate.

Committee Chairman Cliff Herrell said, "It is obvious the NAACP witnesses have no desire to cooperate with the committee to clear up the infiltration of Communist Party members into the organization."

Herrell said his committee has evidence that Communists were instructed to infiltrate the NAACP "and have done so in Florida."

The committee voted to bring contempt proceedings against Lowry, the Rev. Theodore Gibson, president of the Miami NAACP, and the Rev. Edward L. Graham of Miami. Gibson refused to turn over membership records. Graham refused to say if he were a member of the organization.

In Miami, Fred Hockett, head of the Florida White Citizens Councils, was angered by the refusal of the Negro witnesses to cooperate with the committee.

He said he would seek an alliance with the Florida Ku Klux Klan and "organize a big Klan in Miami."

He said "It's come to the point of tar and feathers."

Editorials

A Story Of Killowatts And Shareholder Gain

By GORDON J. TOLL
Manager, Security Association, Inc.

About four weeks ago, Southern Nevada Power Company was discussed here. A brief review: It supplies electricity in Clark County, Las Vegas and North Las Vegas, several military installations such as Nellis Air Force Base, a permanent installation, Indian Springs Air Force Base and Lake Mead Ammunition Depot. It also supplies such corporations as Thomson Metal Co., Stauffer Chemical of Nevada, American Potash, United States Lime, Manganeso, Inc., and Price Products, Inc.

Last week, Reid Gardner, president, told shareholders in the company's annual meeting that net income of \$1,000,000 in the first quarter of 1960 were the highest in the company's history. Armed by warmer than usual temperatures, and by continued growth and good business conditions in the area served, revenues for the quarter were 10 per cent above a year earlier. This brought the strong gain for the year right through Sept. 30 to 11 per cent.

For the last 12 months net income of \$1,800,000 was earned. This is equal to preferred dividends to \$1.84 a share or 100,000 average common shares outstanding during the period. The showing compares with the net income of preferred dividends plus net income of 100,000 average common shares — reported for the 12 months ended Sept. 30, 1959.

No income for the September quarter of 1959 amounted to 50 cents per share against net of 50 cents per share earned in the similar 1949 period.

The construction of the Company's third unit at Clark Station has been awarded and ground breaking is scheduled for January, 1960. Commercial operation of the 60,000 kilowatt unit is scheduled for July, 1961, unless the settlement of the steel strike is further delayed. Completion of this third unit will bring net capability at Clark Station to approximately 180,000 kw and the company's system capability to 250,000 kw.

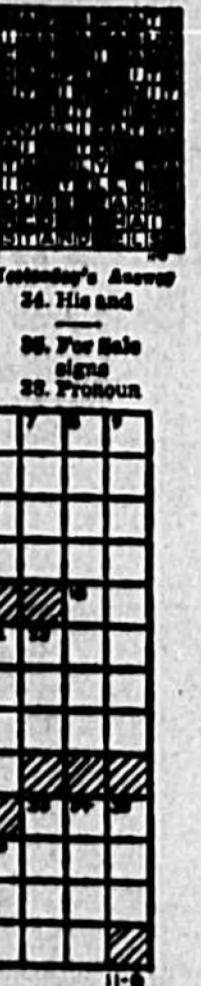

That sure is a lot of kilowatts.

Here are four well managed companies which, over six years, have averaged over 200 per cent increase in earnings: Southern Business Machine, reported approximately at \$410 a share; Litton Industries, about \$120 a share; General Foods, \$90 a share; Florida Power and Light, \$51 a share. Over the years, these stocks have maintained exceptional, continuous earnings growth.

About this time every year, the subject of reducing income taxes by taking capital losses is often heard in many conversations. There are a variety of reasons why consideration is being given to this important topic at the moment. (It seems odd to speak of it in November, when most people are thinking of the February March.)

First let's consider that the rule of securities held for more than six months establishes a long term loss or gain; if held six months or less, a short term gain or loss. Stocks sold at a profit may be repurchased immediately — stocks sold at a loss may not be repurchased for six months. If you sell a loss, you get a tax credit. This year to take a profit includable in 1960 you must sell by December 24, but 1959 losses may be taken right up through December 31.

Assignment Washington

By ED KOTTERBA

WASHINGTON. — Why the mystery continent of Antarctica is your destination, you crave the world. The Navy or the boys at the National Science Foundation will tell you.

You hadn't known, for instance, that the Navy's version is the bottom of the world to look for things like wingless flies.

After all, the United Nations Antarctic program has come to the rescue of the explorers who have been unable to find a way to the pole.

They had to wait for the arrival of the Soviet Union's first nuclear icebreaker, the *Arctic Fox*, to open the way to the pole.

Scientists figure that someday

— if not too far down the road —

the Soviet Union will have

icebreakers to match ours.

It's not the Arctic Fox, however,

that has been the mystery of Antarc-

tica for so long.

It's the Navy's version that has

been the mystery of the world.

It's the Navy's version that has

been the mystery of the world.

Seminole Travel To Leesburg Tonight For OBC Tilt

Large Sanford Turnout Expected For 8 p.m. Play

By JERRY COVINGTON

The Sanford Seminoles travel to Leesburg tonight where they take on the Yellow Jackets in an Orange Bell Contest.

Game time is called for 8:30 p.m. and a large delegation from Sanford is expected to travel over for the contest.

Couch Jim Pigott got a look at the Jackets last week while the

Seminole were enjoying an open date and is expecting a tough ball game. He reported their defense one of the finest he has seen all season and the Seminoles are preparing to take to the air if unable to move on the ground. The Jackets sport one of the finest football field runners in the conference in Gary Brown. Brown is a standout on the track team and holds several records in the OBC books.

Although Leesburg has a very poor record at present, they have steadily improved in the last few games and Pigott is expecting one of the toughest ball games this season. "The Jackets are hungry for victory and they will be going all out," Pigott said.

However, the Seminoles are in high spirits after having an extra week of drills and are anxious to get back in action.

They were very impressive against Winter Park in their last outing and if they show the same team effort they should be rated as one touchdown favorites. It promises to be worth anyone's while to travel over to neighboring Leesburg for this important OBC tilt.

Starting Sanford Offensive Lineup

- LE—Christensen
- LH—Boggs
- LG—Winn
- C—Butter
- RG—Allard
- RT—Markham
- RE—Gracey
- RH—Lamquist
- LDE—Lovelace
- FB—Mama
- QB—Roberts

U. S. Favored In Ryder Play

PALM DESERT, Calif. (UPI) — Capt. Sam Snead reached into the strategy bank and came up with some brilliant pairings that made the United States the favorite to win the Scotch foursome matches in the opening round of the Ryder Cup competition today.

Both Sned and Capt. Dai Rees of the invading squad were confident of victory—and both seemed pleased with the pairings.

When play got underway at 9 a.m. today, the pairings were:

Bob Rosburg and Mike Souchak, U. S., vs. B. J. Hunt and Eric Brown, Great Britain.

Julius Boros and Dow Finsterwald, U. S., vs. Ken Bousfield and Lee Brown, Great Britain.

Sned, Dr. Cary Middlecoff, U. S., and Harry Weetman and Dave Thomas, Britain.

Doug Ford and Art Wall, U. S., vs. Peter Alliss and Christy O'Connor, Great Britain.

"I'm hoping to win all four matches," said Sned, "but the only way I would be disappointed would be to lose three or more of them."

Sned thinks that his strongest team is made up of Wall and Ford.

Reiser Named Coach

LOS ANGELES (UPI) — Pete Reiser today was named a coach of the Los Angeles Dodgers to replace his former Brooklyn roommate, Pee Wee Reese, who accepted a broadcasting job.

Happiness Through Health
(By DR. F. LEO KERWIN)

Middle Age And Beyond:

Our body machinery runs way in the body before a person is aware that something is wrong. If the trouble is detected in its early stages, an individual by following his Chiropractors instructions, may be able to continue to work and enjoy life for many years to come.

Modern Chiropractors meet the problem of disease of illness through the physical and mechanical approach, rather than through the chemical or drug approach. Under modern Chiropractic the technique is painless. Frail, sick, aged and even infants are cured for without pain. Its record in alleviation of suffering, and restoration of health is most gratifying. Are you a Chiropractic case?

For women who are undergoing the natural physiological changes which usually begin between the ages of 40 and 50, a thorough Chiropractic examination is advisable. Certain diseases do not appear until later in life and then develop slowly. Hardening of the arteries, chronic kidney disease, and extreme nervousness may gain head FAirfax 2-7442.

R. H. HAMLIN of Enterprise is shown with his catch of 23 speckled perch which he caught in Lake Monroe.

'Fuzzy' Bowl Picture Should Clear Saturday

United Press International

The post-season bowl picture may be jumbled and fuzzy right now, but it should start coming in clearer after this Saturday's big program of college football games.

Northwestern, Washington, Oregon, Louisiana State, Syracuse, Penn State, Kansas, Texas, Air Force, Mississippi, and Georgia all are in position where a big win could put them definitely in focus for one of those golden New Year's Day invitation.

With only three Saturdays left in the 1959 season, here's the bowl situation:

ROSE — Northwestern (6-4) can clinch a tie for first place in the Big Ten and thus put one foot in the bowl by making good as a six-point pick over Wisconsin (if Purdue loses).

In the West, Washington and Oregon (each 6-1) are front-running for the bowl berth.

Mississippi (6-1) remains a possibility, too, despite a 7-6 loss to LSU last week and is a prohibitive choice this week over Chattanooga.

Other possibilities are Clemson (5-1) and the runnerup team in the Southwest Conference.

SUGAR — National Champion Louisiana State (7-0) is in line for a return appearance but faces a tough assignment — seven-point pick over Tennessee. Mississippi (6-1) remains a possibility, too, despite a 7-6 loss to LSU last week and is a prohibitive choice this week over Chattanooga.

Other possibilities are Clemson (5-1) and the runnerup team in the Southwest Conference.

ORANGE — There's a report Syracuse (6-0) will get a bid if it beats Penn State (also 6-0) in their showdown for the Eastern championship. Penn State, a seven-point underdog, also is a possibility. Kansas (4-3) can clinch a tie for first place in the Big Eight and put one foot in the bowl by beating Colorado.

COTTON — Texas (7-0) should move closer to host berth by fulfilling 16-point odds over Baylor. The Air Force (4-1), a possible No. 1, is favored by seven over Missouri. Other possibilities — Mississippi, Syracuse, Penn State.

GATOR — Georgia (6-1), a strong possibility, is a three-point pick over Florida. Other possibilities — Mississippi, Arkansas, Syracuse, Penn State.

MIAMI — New York Promoter Anthony J. Velella promises he will stage the next heavyweight championship fight in Miami if the rent on the Orange Bowl is set at \$60,000.

Velella told a meeting of civic officials he holds a contract to promote the Ingemar Johansson-Floyd Patterson re-match.

He said he would stage the fight here Feb. 26 if the city will accept the flat rental fee for the bowl.

NOTICE TO PROPERTY OWNERS!

Woodruff's Job May Be On Line In Georgia Tilt

United Press International

At the Georgia-Florida game each year in Jacksonville's Gator Bowl, the Florida students chant: "We got Wally worried," a jab at Georgia Coach Wally Butta, whose deer face is only outdone by the Bulldog mascot.

But this year it may well be Georgia who has Woodruff worried.

Gator Coach Robert Woodruff, tall, husky veteran of 10 years at Florida, was reported Thursday to be on his way out if he doesn't beat Georgia in the Gator Bowl Saturday.

Jacksonville, scene of the traditional game, also houses the biggest number of Gator alumni and football boosters.

"Any statement at this time would be premature and not in the best interests of the current football season," said J. J. Daniel, chairman of the Florida Board of Control. University President J. Wayne Reitz asked he not be quoted at all in the matter.

Woodruff's team at Florida have posted a 51-41-6 record over the years and this season the figures are 3-3-1.

Butta has to win this game to stay in the SEC lead and in line for a bowl bid.

Florida worked out briefly Thursday in its last practice session for the Georgia game. "I wish we had a little more time to get ready for Georgia," Woodruff said. The Bulldogs ran through a light, 45-minute workout on both offensive and defensive tactics.

At Knoxville, where the buming

is coming out for Tennessee's Homecoming, the Vols cut short

their workout because of the weather and planned a light session today. LSU was reported working on fundamentals and learning what it could of the Vol single wing attack.

Georgia Tech worked its tackles hard Thursday to prepare for Notre Dame's off-tackle plays. Halfback Floyd Fauchette, center Maxie Baughan and tackle Toby Dease looked good in the workout.

Alabama worked out in sweat clothes before leaving for Mobile where they meet Tulane Saturday night. Tulane confined its practice to running plays and passing by quarterbacks Phil Nugent and Bob Cornell.

Covers Sports

By JERRY COVINGTON

The successful season and the fighting spirit that the Seminole junior varsity displayed this fall makes the future look bright for the football program at SHS.

Coaches Dick Silvers and Bud Layer did a tremendous job in training their youngsters and a fine 4-1 record proves it.

This was probably one of the finest JV squads the Seminoles have produced in some time. After suffering a 7-0 defeat in the opening game against Leesburg, the offensive-minded lads rolled over the remainder of their opponents without much difficulty.

I think that the spirit these young hopefuls carried with them all season was their greatest asset. They had plenty of talent, but the desire made the talent come forth. Although there were standouts on the squad, every victory was a great team effort.

Youngsters are born with desire and spirit, but it sometimes takes something or someone to bring it out to its fullest. Dick Silvers and Bud Layer are masters at this and they are to be commended for their great job.

Youngsters like Pee Wee Knight, Donald Harvey, Johnny Phillips, and Jimmy Williams are destined to be outstanding linemen on the varsity some day and there is no doubt that Bubba Davis and Butch Riser will be there to fill the gap left by stars like John Lovelace and Ray Lundquist.

One of the most interesting things to me is to watch a lad go through the football program. I have seen many kids turn

into men just in a few short weeks on the gridiron. This is what takes place every fall and it is a thrilling experience.

Joe Bonkowski, fireballing righthander of the Sanford Greyhounds this past season, was signed by the Washington Senators in a way very much like one would read in a story or see in a movie.

Joe was playing on a sand lot baseball team in a Polish neighborhood in Philadelphia. The manager of the team was a part time scout for the Nats and whenever he found prospects he would take them to Griffith Stadium for a tryout. The scout took several older lads down to D. C. one Saturday for the brass to take a look at and Joe was invited along just for the ride. While the other youngsters were working out, Joe sat in a box seat at the dugout. Joe Haynes saw him sitting there and, noticing his broad shoulders and big hands, asked him if he would like to put on a suit and throw a little.

Well, Joe began to fire the ball after warming up a few minutes and all the coaches and scouts gathered around to watch the blazing speed. Sherry Robert saw him and decided that he had better get down to business. It turned out that Joe signed a contract and picked up a \$15,000 bonus check and they sent the other fellows home.

Joe always got a little sick when he told the ending to his story. The day after he inked his contract, the Philadelphia Phillies came by with a check for \$25,000. As Joe always said, "I would foul up a free lunch."

•Worry Clinic

Milly's problem occurs in every community dozens of times per season, so scrapbook this vital Case Report. You may discuss it in your high school classes, too, for it shows the best way to break up an unwise romance. And if you are already infatuated with the wrong type of person, order the Rating Scale below, for it puts eyes into the head of blind Cupid:

BY GEORGE W. CRANE,
PH. D., M. D.

CASE C — 483: Milly D., aged 19, is a college freshman.

"Dr. Crane," her mother told me, "Milly became infatuated with an immature boy in our home town."

"He had no regular job. In fact, he spent most of his time tinkering with an old jalopy. He'd cover it with pennants and obscure the windshield with stickers, like an adolescent."

"When Milly started going with him, her father immediately pointed out the boy's shortcomings."

"But the more we showed Milly his flaws, the more ardently she defended him."

"Today I found a note from the boy friend suggesting they elope next week."

"What can we do at this late date? Anyway why does Milly become such a vigorous defender of this boy when her Daddy opposes him?"

SALES PSYCHOLOGY

"Reputation is simply repellent," runs an adage from sales psychology.

If you say a thing long enough, you will believe it, although at the outset you may be fully aware of its falsity.

That's why fishermen finally believe they actually caught those monsters; they've repeated their fish tales so often they have finally convinced themselves:

If a parent thus criticizes his child's choice of friends or sweethearts, the normal child starts defending them.

Otherwise, he admits he was stupid. And nobody likes to deflate his own ego by admitting he is a fool.

The more Milly's father condemned her boy friend, the more positively Milly rallied to his defense.

She was FORCED to do so, to save face.

So her father actually convinced Milly of her boy friend's virtues by thus making her repeat her defense so often she began to believe it!

PARENTS, BEWARE

Parents, beware of thus being

Is Adlai New Darkhorse?

BY LYLE C. WILSON

WASHINGTON (UPI) — The compromise candidates most discussed as available to break a deadlock in next year's Democratic national convention are Adlai E. Stevenson and Missouri's Sen. Stuart Symington.

This compromise, if any, would hold the top spot for the left wing of the Democratic Party. Compromise talk among responsible Democrats rarely goes so far as to suggest an accommodation between the party's southern conservatives and northern radicals.

Sen. Lyndon B. Johnson of Texas would be a likely choice in any deal between the basically opposed elements of the party. Northern Democrats generally do not consider Johnson even remotely eligible for their presidential nomination. They do not hesitate to say as much.

Sen. Paul H. Douglas (D-Ill.) ruled Johnson out a few days ago on charges that he was tied to the gas and oil industries and vote like a southerner on civil rights.

Gov. Edmund D. Brown slugged Johnson with a public statement that the senator could not carry California because of his position on civil rights and oil.

Rep. Emanuel Celler (D-N. Y.) faulted Johnson for being a southerner, for being illiberal and on the grounds that the Negro vote would be against him in the north.

Mrs. Eleanor Roosevelt downrates the senator. Americans for Democratic Action say that Johnson won't do. The foregoing are samples of the current machine-

gunning of Lyndon Johnson. Speaker Sam Rayburn, also a Texan, is boozing Johnson back home for the presidential nomination.

Mr. Sam is a practical political. Other practical politicians suspect that the speaker has objectives in addition to obtaining the nomination of Johnson.

One of these objectives might be to whomp up enough Johnson enthusiasm in Texas to obtain a tightly organized Texas delegation to the convention. Texas Democrats are angrily divided but might be pulled together with Johnson as a rallying point.

So, if Mr. Sam were unable to nominate his man, he still might turn up at the convention with a big and tightly controlled delegation—controlled by Mr. Sam, that is.

ADA scored senators in the last session of Congress on the basis of 13 significant votes. Johnson voted against ADA on five of them. Those votes and Johnson's policies as Senate Democratic leader killed him with the left wingers.

Two of these votes were to protect the privilege of minority groups to filibuster in the Senate, one minority right or privilege which the left wing denounces as evil. Johnson voted to reduce spending tax money for urban housing. He opposed reducing tax allowances to the oil and gas industries. He voted to continue the requirement that students obtaining federal funds for education must swear to their loyalty as U. S. citizens.

Sen. Hubert H. Humphrey (D-Minn.) and Symington voted with

Air Ace Tells Of Test Flight Explosion

LOS ANGELES (UPI) — Key-manned Scott Crossfield, pilot of America's X-15 space ship which was jolted at 45,000 feet by an explosion during a test flight Thursday, came home today to determine what happened.

"We've got to take the plane apart to find out what happened," Crossfield said.

"I knew there was an explosion and some internal damage to the X-15. But when I came in for the landing on the alternative strip at Rosamond Dry Lake, I felt everything was just great."

North American Aviation, build-

er of the dart-like X-15, admitted it was necessary for daredevil Crossfield, 38, to make a quick emergency landing in the craft designed to carry man 100 miles above the earth at speeds in excess of 4,000 miles an hour.

Eyewitnesses reported the X-15 was warped out of shape as it landed at the Edwards Air Force Base auxiliary strip 68 miles northeast of Los Angeles.

Impact of the 50-foot ship's landing wrenches it so forcefully that one section behind the cockpit was sagging about two feet below the rest of the fuselage.

But North American said the damaged space ship was just one of three in the multi-million dollar program to get a manned aircraft into the ionosphere above the earth. A spokesman said the aircraft, which was being trucked back here from the desert base, apparently was damaged when some of the propellers exploded in the lower engine.

The damaged X-15 made the two previous powered flights. Crossfield said that Air Force

FUTURE FLORIDA BUILDER: playing today...planning tomorrow!

A few pieces of scrap...wet sand...a toy automobile...and our ingenious youngster builds his own waterfront estate.

But what will happen when he turns from playing in the sand to planning and building tomorrow's homes or factories or industrial projects?

Will he be permitted to work in a stimulating climate of free enterprise...to plan and build and sell according to the American way of open competition? Or,

will the strangling controls of socialism and bureaucracy choke off his initiative and ingenuity?

The kind of world he faces will depend largely on how effectively we oppose all threats to our personal and economic freedoms. Constant vigilance and ceaseless resistance are, as they always have been, the nation's bulwarks against the powerful influences that would destroy our way of life.

In America more than in any country on earth, perhaps, power is the backbone of our economy. The great power systems that have developed in our nation are vivid examples of flourishing free enterprise. With faith in a future that will continue free, Florida Power & Light Company is committed to a single, unwavering purpose: to provide more and more power for HAPPIER FLORIDA LIVING...ELECTRICALLY!

Scientist Says Food May Last Longer On Mars

WASHINGTON (UPI) — A scientist has reported evidence today that food-storing plants may flourish on Mars.

Many In Spain Forced To Hold Additional Job

(Editor's Note: This is the fourth of a series of articles by A. M. and R. H. Haskell.) Madrid . . . In Spain more people seem to hold more than one job than anything near what we consider normal. Children are not forced to do their school work, as they were in Hitler's Germany.

France is 60 years old. His health is excellent. As a French newspaper editor he has been writing for the stage. Spain is, more people forget, a monarchy with France as its ally. It is a country of several government departments. The greatest, however, has come from the press. Some 200,000 men represent the news of the world. They may be at work in a theater, after their day's work in a newspaper, or in one of most branches of business.

The many people are those who know foreign languages. Comedians, actors, writers, a man's secretary who is probably a member of the International Typographical Union, would have as early end. It was the second mechanical workers strike against the newspapers in 27 months.

There were no indications that the strike, called "Frente Popular," was a mere movement, as they were in Hitler's Germany.

TONY CURTIS has a role different from anything he has ever played before in Stanley Kramer's powerful drama, "The Defiant Ones," coming to the Movieland Drive-In Sunday. Curtis portrays a rugged escaped chain gang prisoner.

'The Defiant Ones' At Drive-In Sunday

"The Defiant Ones," called a escape while being chased by the police, opens at the MovieLand Drive-In starting Sunday.

The film stars Tony Curtis as an escaped convict and Sidney Poitier as his mate.

The story of two fugitives from a chain gang, one white, the other Negro, who have each other over though they

have been condemned to death.

A former executive with New York Magazine, Mr. Poitier had

been working at Lake Minnewaska in DeBarry and

several months ago when he moved to Sarasota.

Survivors include his wife, Mrs. Florence Poitier, Sarasota.

Yule Party Off

The annual Lake Mary Christmas Yule Party, suspended last year because of the lack of funds, will be held next month. Members voted to drop the Yule gift and the Yule dinner, but the head of the original organization, "I hate to see these numbers on the floor."

NEW YORK — Prime Minister Jawaharlal Nehru warning that if India and China, other nations would be dragged into it.

If unfortunately things go worse, India and China and even to the extent of war — hope not. I don't think so. I am only saying if such a thing will remain as isolated, limited affair.

Gilchrist Rites Scheduled Sunday

Funeral services for Mrs. Francis Gilchrist of Cedar Hill, who died Monday will be held Sunday at 2 p.m. at St. James A.M.E. Church, 1200 W. Main, officiating. Wilson Eichelsberger Mortuary is in charge.

Painful Confession

VERSAILLES, France (UPI) — Roger Bouvet, 29, confessed to police here yesterday that he had a love story about being robed of 20,000 francs (\$160) because he was in financial arguments with his wife. The thief, he said, caused his double pain. He had hit himself on the head with a rock to make the robbery look real.

The Sanford Herald

WEATHER: Clear and slightly warmer tonight and tomorrow. High today, 70-75. Low tonight, 50-55.

VOL. XLIX United Press Leased Wire Established 1908 MONDAY, NOVEMBER 9, 1959 SANFORD FLORIDA NO. 559

No Clerk

There was no word today on an appointment to fill the vacancy left by the resignation of Circuit Court Clerk O. P. Herndon.

The office of Gov. Leroy Colmes has since declined to indicate when Herndon's resignation may be accepted, reporting only that it had been received. Apparently the appointment of a new circuit clerk will be announced at the same time the resignation is officially accepted by the governor.

There were no reports of applicants for, or recommendations from, the clerk's job other than Arthur Beckwith Jr. and David Gatchel.

Government Determined To Halt New Strike Effort

CANCER SURVEY material is being studied by Mrs. R. E. Stutsman, left, chairman of the county survey sponsored by the Woman's Club; Mrs. Paul Colman, coordinator of the survey, and Mrs. Thomas Largen, education chairman of the Cancer Society. The Woman's Club group is seeking 300 families to volunteer for the study to get statistics for cancer research. (Staff Photo)

News Briefs

Climbers Saved

KATMANDU, Nepal (UPI) — The Nepal government announced today that 32 members of a Japanese mountain climbing team feared killed in an avalanche actually "are safe and are returning to Katmandu shortly."

Man Shot After Chase

OCALA (UPI) — A city policeman shot and killed a 24-year-old Negro man after a chase and exchange of gunfire Sunday. Authorities said Policeman D. R. Price was making a routine check of a grocery in the Negro section when he found Aaron Haynes struggling with a Negro woman.

No Money Spent

TALLAHASSEE (UPI) — Florida's two announced candidates for governor reported today they neither received nor spent any campaign contributions last week. The candidates, Sen. Marvin J. Heiser of Bonifay, and George A. Downs of Winter Park, are the only office seekers who have officially announced their intentions to run for the gubernatorial office.

Cancer Victim Given Up For Dead Recovers

BREMERTON, Wash. (UPI) — Joseph W. Mayerle, given up to die seven months ago, today was looking for work and doctors were hoping that he may be a living cure for cancer.

Seven months ago the 37-year-old ex-bartender walked out of the Seattle Veterans' hospital after doctors had told him they couldn't do anything to save his life. An exploratory operation showed his lungs were shot through with cancer.

He weighed 120 pounds. He had only a few weeks to live, doctors told him.

As he cheerfully chopped wood Sunday, Mayerle said, "I can break a leather belt around my chest right now." He weighs 158 pounds.

Three months after being told he would die, Mayerle walked into his doctor's office, rosy-cheeked and bubbling health.

"When my physician saw me enter his office, he turned white as a ghost," Mayerle recalled.

"It had just been four or five days after they told me I'd die when John Foster Dulles died of cancer," Mayerle said. "I lead

that some doctor said people never died with cancer, but died of starvation because they couldn't eat.

I decided I wouldn't die of starvation, so I forced myself, and the wife and kids kept at me, to eat, keep my stomach full."

Mayerle said he followed no diet, just ate what he wanted to.

He paid a little more for groceries than we would have ordinarily," he said, "but then, I guess we figured it was worth it."

Mayerle, who said he smokes only a pack a day and has a half daily since he was 27, now is hoping to find work to support his wife and three children. His third youngster was born just four weeks ago.

Doctors hope Mayerle may be a living cure for cancer. They were unable to explain his recovery, but said his lungs are completely free of malignancy.

A pint of Mayerle's blood will be used with another cancer victim to see if there is any similarity.
