

Many New Ideas in Better Buicks

Standard Six, five passenger two-door sedan

Greater Power, More Protection to Working Parts Included; Prices Lower

Buick again demonstrated the marvelous resources and abilities of the automotive industry when it introduced the present better Buick. Embodied in this latest Buick offering are additional power and strength, the best engineering achievements designed to give even longer motor car life, the maximum in comfort and safety, besides new beauty and refinements of design and finish representing the latest skill in body craftsmanship. And in face of these material and costly improvements, lower prices are announced throughout the entire line of Standard and Master Sixes.

The announcement and the showing of the better Buicks silenced the rumors that Buick would abandon the safe-in-board for another type engine which would permit of cheaper construction. The same principles that were inaugurated by Buick 21 years ago and which have made it

the leader in the industry have been adhered to throughout.

The mechanical improvements introduced would have been considered impossibilities only a year ago. They represent the work of Buick research and engineering staffs constantly striving for betterments.

The new prices likewise represent achievements of the engineering, production and business departments of the Buick organization, and are in no small measure due to the phenomenal approval of Buicks by the public. This latter factor has resulted in continuously increasing sales with the attendant possibilities of economies in purchasing and production.

The complete line includes 16 models, six in the Standard Six and ten in the Master Six class. In all cases the distinctive Buick lines have been continued, with refinements such as the rounding of radiator lines and the addition of streamline moldings. All are finished in new and beautiful tones of durable Duco. Some of the models have Duo-tone Duco finish in distinctive combinations.

All closed bodies are by Fisher and are upholstered in quality plush.

Buick has always been noted for its sealed chassis, which prevents dirt or water entering any of the moving parts. Now it has added an air cleaner, oil filter and gasoline strainer. These, combined with the standard Buick construction, practically eliminate the possibility of any foreign substance entering the engine or moving parts of the chassis and, consequently, minimize service requirements and add to the life of the car.

Because these three new units have no moving parts, there is nothing to get out of adjustment. They require no power—in fact are thoroughly automatic, and require only occasional cleaning to remove the dirt and grime gathered from the air, fuel and oil.

The above illustration shows the Standard Six five-passenger, two-door sedan. The price of this model, \$1,125, is representative of the increased values included in the entire line of Better Buicks.

STEWART'S WASHINGTON LETTER
By CHARLES P. STEWART

WASHINGTON Sept. 24.—From aviation's super-enthusiasts comes the complaint that only one member of President Coolidge's board of air inquiry—Senator Bingham of Connecticut—is a man of actual World War flying experience.

Bingham had it, as commander of America's biggest aviation field in Europe during the world conflict.

This isn't supposed to be a board hand-picked to declare for all the super-enthusiast's contentions. Impartial consideration is what's desired from it.

The further complaint is made that Bingham is on record as considering Col. Mitchell's aviation claims exaggerated. So he is. Are the conservatives entitled to representation on the board, as well as the radicals?

fought hard at the last session of Congress for all they demanded.

James G. Harbord and Rear Admiral Fletcher, the army and navy members of the board, are retired, it's worth noting. Nobody will have any strings on them, to influence them in reaching their conclusions.

President W. F. Durand of the Institute of Mechanical Engineers. The latter are represented too, is the strictly scientific and President H. E. Coffin of National Air Transport, Inc., is the pre-eminent practical member of the commission.

Dwight W. Morrow of J. P. Morgan & Co., the business man, Congressman Parker of New York is the civilian aviation specialist and Federal Judge Denison of Grand Rapids gives the calm, judicial touch to the investigation.

On paper, at least, it looks like a well-rounded body, competent and fairly representative of all the different interests. But it will have to hurry to finish its work, just started, before Congress meets.

Violin Instructor Is Named For Rollins

WINTER PARK, Sept. 24.—(AP)—Dr. R. J. Sprague, dean of Rollins College, has announced the appointment of Miss Gretchen Cox, as head of the violin department of the Rollins conservatory of music. Miss Cox is a graduate of the Chicago Musical College and has appeared for some time in chautauques.

Other heads of departments in the Rollins music conservatory are Miss Edna Wallace, public school music; Miss Nela Niles, piano; Miss Emmy Schenk, voice; and Professor Herman Stewart, pipe organ and theoretical subjects.

ST. PETERSBURG WILL GREET VETS AT ENCAMPMENT

Spanish American War Men Gather In Sunshine City For Annual Convention; Report Plans Complete

ST. PETERSBURG, Sept. 22.—(P)—This entire city is preparing to welcome 15,000 Spanish-American war veterans and their guests during the national encampment of the U. S. A. W. V. here September 27 to October 1.

Every club in the city has volunteered to do special duty. Every civic organization is to make the twenty-seventh annual encampment of the Spanish-American war veterans the greatest ever held.

The Chamber of Commerce has given over an entire floor as headquarters for city club committees where plans are made to perfect the smallest detail for the reception and entertainment of delegates and visitors.

The Rotary club has appointed John Lodwick, of this city and Cleveland, Ohio, to arrange for sponsors who will see that the visitors have plenty of dancing partners at the grand ball.

The Knights of Columbus will dispense cool drinks and ice water at various stations along the streets. The women of St. Mary's will keep open house at the K. of C. building and will serve luncheons honoring the wives of the visiting Knights.

The Elks will also keep open house at their club. The American

Legion headquarters will be turned over to the guests and legion members will serve a big fish fry at water front park.

The motor club, through its manager Miss Billie Perraine, will put on duty a group of girls known as the Knicker Corps, who will carry the visitors in cars on a sight seeing tour of the city.

Street car service will be free to all delegates and visitors, the chamber of commerce paying all fares during the encampment.

The Civilians will see that plenty of road meals are available during the week. All clubs will appoint committees to meet the trains.

The local encampment committee is making plans for the entertainments. The ice companies have donated the ice supply for the entire period. The hotels which usually open December 1 are open and making complete arrangements for the care and comfort of visitors. Already 15,000 applications have come in and the chamber of commerce is still filing and making hotel reservations.

A large camp grounds has been equipped completely and all possible comfort for those who drive here will be provided.

NOTICE
At the request of many citizens, tax-payers and property owners owning property within the area hereinafter described, notice is hereby given of intention to apply to the Legislature of the State of Florida, during the month of November 1925, for the passage of an Act of the Legislature amending Section 6, of Chapter 887, Laws of Florida, 1925, the purpose of said amendment being to enlarge the territorial limits of the City of Sanford, Florida, to include and embrace the following described lands in Seminole County, Florida, not now a part of the corporate limits of the City of Sanford, Florida, more particularly described as follows, to-wit: Sections Twenty (20), Twenty-one (21), Twenty-two (22) and Twenty-three (23) and Twenty-four (24).

Section 2322, the Southeast Quarter of the Southeast Quarter of Section Thirty (30); the Northeast Quarter of the Northeast Quarter of Section Thirty-one (31); the North Half of the North Half of Section Thirty-two (32); and the North Half of the Northwest Quarter of Section Thirty-three (33), all in Township Thirty-Nineteen (19) South, Range Thirty-one (31) East.

Dated at Sanford, Florida, this 9th day of September A. D. 1925.

WORK ON NEW TOURIST HOTEL BEING RUSHED

(Continued From Page 1)
The management of the same other large building operations the city are progressing at the rapid rate, according to reports available through various sources.
Work on the new MacLander Arcade, at First Street and Sanford Ave., is being extended rapidly, according to those in charge of the project. The structure, built by Rylander Investment Company of Orlando, will provide accommodations for 45 business establishments, it is pointed out.
Delay in the delivery of material for the location has imposed a delay in the construction of the building, it is shown. Those in charge report having unloaded the cars of lumber for the job yesterday, which will expediate the erection of forms for concrete beams, it is said.
Foundation Work Completed.
Construction of the Arcade has been under way for three weeks, it is pointed out, during which all footings and foundation work have been laid. Plastering on the sides of the building have been erected, and carpenters are rigging forms for the reinforced concrete roof beams.
Work on the structure will be completed, according to promoters, by the first of the year.

BRID PROSPECTS FOR HIGH SCHOOL TEAM ARE BRIGHT

(Continued From Page 1)
Encouraged over the results shown so far, and declare that they are pleased with the spirit and business shown by the members, it is pointed out that the daily arrival of new students will no doubt add additional candidates to Coach Welch's team.
Attention of the varsity has been confined for the past week to signal drill and to the perfecting of formation plays, it is noted.
The schedule for the coming season was announced today as follows:
Leesburg, at Leesburg, Oct. 3.
St. Cloud, at Sanford, Oct. 10.
DeLand, at Sanford, Oct. 17.
Palatka, at Sanford, Oct. 23.
Plant City, at Sanford, Oct. 31.
Orlando, at Orlando, Nov. 6.
Kissimmee, at Kissimmee, Nov. 14.
New Smyrna, at New Smyrna, Nov. 14.
Daytona, at Sanford, Nov. 20.

Activities of Bootlegging Are Widespread

NEW YORK, Sept. 25.—(AP)—A bootleggers' ring smashed by federal agents here, had orders for 4,800 cases of Scotch whiskey worth \$40,000 in a single day and deposited as much as \$200,000 in one bank a month and received at least a letter of credit for \$50,000 it was revealed by federal attorney Tucker today.

Man Who Gives Tip, Dead

NEW YORK, Sept. 25.—(AP)—Police headquarters today received information that David Bram, alleged pickpocket, narcotic peddler and rum runner, who was found dead in an automobile this morning, furnished the tip that led to the raiding of bootleggers' headquarters in the downtown section Wednesday by federal agents.

JAPS CATCH FLIES

TOKYO, Sept. 25.—(AP)—Residents of Asakusa ward caught early fifteen bushels of flies on fly extermination day. One hundred and eleven streets each had ingenious device of capture and offered prizes of one yen per 20 flies; glass fly-catchers, a silver watch, cotton piece goods and a paper umbrella.

FLORIDA FACTS

(By The Associated Press)
For the past few years approximately one million visitors have come to Florida annually, says a bulletin issued by the state department of agriculture. It anticipates that this number will be greatly exceeded during the coming fall and winter.

Previously the visitors came between November and March. They now come practically the year round.

Railroads at one time furnished practically all the transportation into this state. Good roads however have increased travel by automobile until a large part of the tourist travel into Florida is by automobile.

The agricultural bulletin states that the fact is becoming well known throughout the country that the Florida summer climate is as pleasant if not more pleasant than either sections of the country. This is offered as a reason for the marked increase in summer tourists into the state.

The department of agriculture has hundreds of letters from wealthy and prominent citizens from throughout the United States commending the living and enjoyable features of Florida and telling why they spend a part of their time each year in this state.

The Florida school for the deaf and the blind which is located at St. Augustine, has several departments including industrial, household, music, literary and athletic. The work of the school is carried on in two co-ordinate departments for the deaf. These are the literary and the industrial.

For the blind the departments of literature, music and industry are carried on co-ordinately.

These courses, as far as practical, are carried on the same plans as those of the best public schools of the state.

The primary aims of the school, as stated by the superintendent, are to give the deaf and the blind children of the state the same intellectual training as that afforded the children that have perfect eyes and hearing sense.

Every effort is made to keep the school up to the highest standards in the country of such institutions and all new innovations that come to the front are given careful consideration.

The graduates of the school almost without exception become wholly self-supporting. This has been especially true within the past few years, the records show.

The principal need of the education system for negroes in the state of Florida at the present time is well-trained and capable teachers. This is a statement of J. R. E. Lee, president of the Agricultural and Mechanical College for Negroes of Florida, which is located in Tallahassee.

He states that fully one half of the teachers of negroes such attend a six weeks summer school every year. He further advocates that an professor of extension education be employed to conduct correspondence classes throughout the year.

The strawberry section of Florida where were produced for the five year period of 1919-23 annually per acre average 1,899 quarts, covers Bradford, Dade, Hillsborough, Osceola and Polk counties.

The leading shipping points are Kissimmee, Hampton, Galloway, Plant City, Starke, Lawtey, Kathleen, Dover and Lakeland.

Two more large shipping firms have secured shipping operations in Pensacola.

Her Diamond Caused a Murder

Mrs. Suzanne Crawford of San Antonio, Tex., showed her former husband, Charles Crawford, a diamond engagement ring her fiance, Prentice M. Henley, had given her. A quarrel resulted and Crawford was seriously wounded. Henley offered his blood, believing a transfusion operation might save Crawford's life, but he died. Mrs. Crawford is being held under \$1500 bond in connection with the slaying.

teachers. This is a statement of J. R. E. Lee, president of the Agricultural and Mechanical College for Negroes of Florida, which is located in Tallahassee.

- 8.—Completion of city beautification program.
- 9.—Expansion of school system with provision for increased facilities.

BIBLE THOUGHT FOR TODAY

SEEK ETERNAL THINGS:—We look not at the things which are seen, but at the things which are not seen; for the things which are seen are temporal; but the things which are not seen are eternal. I Corinthians 4: 18.
PRAYER:—Open thou our eyes, O Lord, that we may behold wondrous things out of thy law.

FACE THE SUN

Don't hunt for trouble,
 Don't look for success,
 You'll find what you look for;
 Don't look for distress,
 If you see but your shadow,
 Remember, I pray,
 That the sun is still shining,
 But you're in the way.
 Don't grumble, don't bluster,
 Don't dream, and don't shirk,
 Don't think of your worries,
 But think of your work.
 The worries will vanish,
 The work will be done;
 No man sees his shadow
 Who faces the sun.
 —Publisher Unknown.

Read "Lavish Tippers." There might be something in there for you.

The Cosmic Urge, says our office boy, is something like the seven year itch.

May be those Tampa policemen were just trying to eliminate parking difficulties.

Since the Shenandoah disaster balloons are not so popular. Men's trousers are being cut to eighteen inches.

Just because every time your girl drives your car she strips the gears, don't get the idea that she's immodest.

Wonder what George Washington is thinking as he turns over in his grave after reading Secretary of State Kellogg's refusal to admit Saklatvala to this country?

It rained in Asheville the other day and some of the younger generation who saw it for the first time, thought the world was coming to an end.

"Women have more sense than men," says an editorial in the Tampa Tribune. Gosh! What a henpecked weakling that man Lambright must be!

Mister Cailloux hasn't had much to say yet but the rumor has gotten around that France is going to pay her debt. Well, that's all we wanted in the first place.

Some day someone is going to sprain his ankle falling off that concrete tennis court into the pits which surround it and the city will have a lawsuit on its hands.

Sanford golfers staged a comeback yesterday when they defeated Euatis, but it must be remembered that the sportsmen from Lake county were playing upon a strange course.

The records from Lakehurst show that the Shenandoah's last flight was made against the advice of Commander Lansdowne. May he Colonel Mitchell isn't such a big liar after all.

We thought the passing of the dime novel would mean something better in literature, but instead we find Puck, Hot Dog, the Red Book, the Wampus Cat, Whiz Bang and La Vie Parisienne.

The Miami Herald carried more advertising during the first six months of 1925 than any other newspaper in the United States. Five Florida newspapers appear in the list prepared by Editor and Publisher showing the seventy-six newspapers which lead in the field of advertising.

Miss Marie Chase is suing Edward Gallagher, of Gallagher and Shean fame, for the recovery of some of her clothing which she claims Mr. Gallagher has in his apartment. That may be all right but what we want to know is how her clothing got in Mr. Gallagher's apartment in the first place.

When Is a Bubble Not a Bubble?

A local man who has spent the last six weeks in roaming from city to city throughout the North told us upon his return to Sanford that he didn't believe there would be enough people left in the North this winter to run their municipal governments and keep their stores open.
 Of the hundreds he talked with, nearly all stated positively that they were coming to Florida this winter. A few said they were going to try to come. Only one declared that he was not coming. The Sanford man told him that he should join some vaudeville circuit as he would be the only man in America NOT coming to Florida this winter.

This Twentieth Century Hogra, as it has been called, is attracting the attention of the entire world. It has its likenesses but not its equal in all history. The "forty-niners" were but a handful compared to the hordes which are flocking to Florida. The rushes to the Klondike are practically insignificant.

What will be the result no one can say. We Floridians have great confidence in our state and its stability and we confidently believe that it is on the eve of a thoroughly glorious and prosperous future. But others not so confident wonder what it is all coming to. We were interested to note recently a little skepticism in Life. It said:

"When are you going to Florida?" is an ordinary salutation on the streets of Our Town. The roads in this region are full of cars which might be labeled "Florida or Bust," after the manner of the old prairie schooners bound for Kansas or Texas. Whether these latter day tourists will come back busted, or will stay in the land of sunshine and become millionaires, we do not know. At any rate the flight to Florida is in full swing and is one of the most amazing movements of modern times. Never, perhaps, has there been such a boom. In some of the inland cities and towns the withdrawal of money for investment in Florida real estate has become a matter of concern to bankers and financiers. The home town boosters are pointing out what they consider safer investments in local property. But there is no stopping a boom when it is on its way, and we can only sit back and watch Florida, and wonder what will happen and how soon.

We do not believe that bankers in northern towns should worry when their depositors draw out their money for Florida investments. They should remember that the prosperity of one section makes itself felt throughout the whole country. If the depositors make money on their investments they will doubtless bring some of it back to deposit again in the home bank.

Northern bankers who are seeking to find safer investments at home for their depositors should also remember that money is not being sent to Florida in large quantities to lie idle. The money that comes here is immediately put to work. Huge buildings are being constructed, homes erected, streets paved, bridges built and in short everything is being done which results in a great commonwealth.

For this vast amount of construction, lumber, steel, iron, coal, cement and hundreds of other materials in large quantities are needed and most of these are shipped from other states. Transportation lines are congested with the enormous amount of freight which is being sent to this state. All this means business for corporations and work for the laborer, which are the indices of prosperity.

Doubting Thomas's may point their fingers and wait for the bubble to burst. Timid capitalists may wonder if the investment is a safe one. The binder boys may rush in for quick profits hoping to get out before the crash comes. But as for ourselves, we are here to stay, crash or no crash.

If the sun continues to shine and give us a warm salubrious climate, we will continue to hold out our hands in welcome to the tourist as long as he cares to come, and if ever he does not, we will lie down in a hammock under some shady palm tree and again have our drink of lemonade.

Fire Prevention Week

President Coolidge has issued his annual proclamation on fire prevention week. He recommends that the week beginning Sunday October 4, be observed as National Fire Prevention Week and he declares that there is need "for earnest study of the principles of fire protection as a practical measure of national economy."

During 1924 fires in the United States destroyed the lives of 15,000 persons and the destruction of property exceeded \$548,000,000 which is said to be the heaviest toll in history. Fire results in a per capita loss in this country of approximately five dollars, while in Great Britain, where they apparently have learned the danger of fire and something of the means of prevention, the per capita cost was only one dollar.

From this it can readily be seen how serious the situation really is. A lighted cigarette carelessly thrown down may be a small thing and may cause no damage at all, but on the other hand it may also cause irreparable property damage and the loss of many lives. The situation has certainly reached the point where it demands considerable thought and where persons can no longer shut their eyes to the dangers involved.

The average yearly destruction of homes by fire is said to approach \$66,000,000. As the St. Augustine Record aptly puts it: "Since it is to his home that every man instinctively goes in quest of safety there is grim irony, more than a little, in the revelation that somebody's dwelling suffers attack by fire every three minutes."

The week October 4 to 11, Fire Prevention Week, is one contemplated to produce an enlightening effect upon the minds of American citizens and to educate them in the best methods of fire prevention.

FOR FREEDOM'S battle once begun,
 Bequeathed by bleeding sire to son,
 Though baffled oft, is ever won. —Byron.

THE ITALIAN Princess Mafalda married a good-looking German Prince, Philip of Hesse, Wednesday.

Many royal families were represented, from Germany, Denmark, Greece, Roumania, Great Britain, Spain, other countries.

Prince Philip, whose family was among the first to accept the teachings of Luther, was married by special dispensation, after promising that any children born would be brought up in their mother's Catholic faith.

THE MARRIAGE means that the Prince can never become head of the house of Hesse. If he did, it would be necessary for his wife and children to become Lutherans. Martin Luther becomes less important, apparently, after such a beating as Foch and his associates gave to William Hohenzollern.

ADA LEWIS, well known for years as a successful actress, is now said to be dying. Her success proved the importance of opportunity.

Many years ago, when Harrigan and Hart produced one of their old-fashioned plays, a little Irish girl sang "The Brooklyn Bridge, at Midnight Is Known as Lover's Lane," and the chorus included a girl in rags, hands on her hips, chewing gum and making "touch gestures" as the contribution to stage business.
 She evidently had talent, so Richard Harding Davis, then a reporter on the Evening Sun, was sent by this writer to "write up" Harrigan and Hart's "touch girl." The story appeared; Ada Lewis became a star immediately. Davis was a good reporter.

EVIDENCE AT the Shenandoah investigation shows that Commander Lansdowne, who understood flying, protested against taking his ship through the storm belt of the Middle West, and asked for a postponement.

Those knowing nothing about flying, but unfortunate controlling aviation in the United States, ordered him to go, in order to "improve" certain state fairs on the way." Because his advice was not taken, Lansdowne was killed.

WHO IS responsible for his death? And how good a suit damages have his widow and other Shenandoah widows against those that sent their husbands to death?

CONSIDER KEMAL Pasha, and Turkey that obeys his orders. He tells the League of Nations, England, France, Italy and the rest in language of Shakespeare, "Let go to." Turkey doesn't care what the League of Nations may say, and announces that it will pay no attention to any world court decisions.

SUPPOSE THIS country were in the League of Nations, or affiliated with the World Court. Suppose it were necessary to discipline the Turks to force them to accept the views of Western Europe? Don't you think this country would be expected to do its share, and supply men, or at least money, to fight the Turks?

Do you feel that we ought to supply men or money to fight the Turks? Do we want to mix in the fight about Mosul, and the oil wells there?

PRESIDENT COOLIDGE is level-headed, with common sense. Very likely he would tell Western Europe and the Turks to fight it out at their leisure. But Coolidge will have successors. You know to what extent Woodrow Wilson endeavored to speak for the United States, how he lent money for the United States, and made promises for the United States.

Who can tell what another President, with a fondness for war or a desire to be important, might do?

VICTORIA WOODHULL, still living in London, aged 88, has given her beautiful Manor House to the Sulgrave committee of the Anglo-American Society. To this generation the name Victoria Woodhull means nothing. It means a good deal to the few remaining "old-time" living reporters, sent by Dr. V. and later by John Bogart, of the Sun, to interview Victoria Woodhull and her sister genius, Tennessee Claffin.

IN THE days of long ago they were the only two men in Wall Street, when Jay Gould was active. Stokes was shooting Fiske and Russell Sage, beginning to sell "Puts and Calls."

Think of a day when there wasn't a female stenographer or a typewriter machine in Wall Street, not a woman employed in any of the big banks or offices, only Tennessee Claffin and Victoria Woodhull, telling financiers what spirits said.

CHINA, YOU may be interested to hear, is hanging handits in Shanghai. For a while a disorganized government was unable to furnish hangmen and protection for the hangings.

Partial order being restored, 12 Chinese robbers were hanged yesterday, after having been paraded through the streets. Six will be hanged every day for the next thirty days.

CHINESE TAKE death calmly. When criminals are sentenced to be beheaded, a dozen or more will walk out, kneel down in a row, and wait for the headsman to come along and chop their heads off, not one trying to escape. They are not nervous.

ONE CAN CARRY THIS BUSINESS OF BLUFFING TOO FAR

NATHALEA CRANE, POET

NEW YORK WORLD

Accepting membership in the British Society of Authors, of which Thomas Hardy is President, twelve-year-old Nathalia Crane of Brooklyn wears an honor conferred upon her not as a child-poet but as poet.

Naturally she is both. Her first book of verse, "The Janitor's Boy," takes its title from a specimen of pawkly humor suited to her years but with none of the music that keeps through, for instance, her poem about her blind cousin:

"If the darkness who would answer for the color of a rose,
 Or the vestments of the May moth and the pilgrimage it goes?
 In Miss Crane's new volume.

"Lava Lane," she tells of one of her unfortunates in "The Making of a Saint":

"She died in a disarrayed garret
 In a vacuous sort of a house;
 The Jords of the rafter were sorry—
 The spider, the moth and the mouse.
 They felt that a burden was on them,

Romans Don't Make Roman Candles

WAYCROSS JOURNAL, HERALD

"When in Rome do as Romans do," has been handed down to us as a rule of etiquette. Sometimes the idea works and sometimes it doesn't.

Speaking of Rome, we are told by history that Rome, after conquering the world, was unable to conquer herself. The citizens of many cities of today are in much the same condition as Rome was at that time. After selling their city to the world they have been unable to sell it to themselves.

Perhaps to a certain extent this has been due to the wrong method of approach. They start out to sell the city to itself without thinking of perhaps assuming that it is already sold to itself. That's wrong, a city is not sold to itself until every citizen knows his city, realizes the value of its various institutions and is willing to go out of the way to help build the city.

ANOTHER PERIL

MIAMI HERALD

Bald heads have long been a subject of jest and their possessors have been annoyed by flies that regarded them as parking space. Some men have made trade marks of their shiny domes and others have added to the fortunes of makers of nostrums by buying all sorts of mixtures that were guaranteed to grow hair.

It now seems that a bald head is a real peril as well as a source of minor troubles. Away out in Glacier National Park a physician whose head was smooth and shiny was on a camping trip. He slept outdoors and did not conceal his naked poll from the gaze of all and sundry. He was not particularly proud of it, according to reports, but he was not ashamed of it either. So he laid it on the bosom

LAVISH TIPPERS

GAINESVILLE SUN

Steamship stewards tell of an American millionaire who, on a recent voyage across the Atlantic gave \$10 to every member of the crew and \$25 to every officer, though only a few of them had rendered him any direct service. It was a large ship, and his tips aggregated \$10,000. They tell of another passenger who, after a six-day passage, surprised a steward by giving him \$8400.

Such lavishes, though extreme, is said to be typical of a rather large and growing class of American travelers. It is plumb foolishness, from any standpoint. Worse than that, it is downright injurious to the average tourist. It fixes false standards of tipping, which ordinary folk can not afford. It drains money out of their pocket to feed a system which itself is foolish and iniquitous. It changes the attitude of serving people on shipboard and in trains and hotels, and induces them to play up to the lavish spender and neglect the humbler patron.

Yet, from some queer freak of human nature, most people seem to admire the egotistic tipper, when what he needs is ostracism.

DAN DOBBS SAID

Spirit messengers always come collect.
 Being in love can, laborer, limit the camera to starting small forest fire per day.
 Wind, rain, hail, lightning, nudge Michigan. Not so bad as they had an election.
 Talk about fat styles, and scanty dresses. The less a woman wears the warmer she looks.
 Arrested 75 Chinese at New York. The work of jail must have a big wage.
 New York's a great city, just about every kind of thing in the world except food.
 We believe in people having stone in their closets. Much more than having them in their hands.
 Bad news from Paris. Doyle seeing ghosts. But they are American tourists.
 Ford wants people to change way they once did. But he try to bring back his 1918 flivver.
 But marry one of these sisters. Then tell her your name can keep her in the kitchen refrigerator.
 These forest fires are worse. They should take in the woods reading "No fires permitted."
 American Legion had a in New York where men gotten the war except for watches now and then.

 Miss Clara Whitehurst, of Tampa, to W. J. Stephens, of Tampa.

Seattle Bar Would Have Lawyers Name Judicial Candidates

SEATTLE, Sept. 25.—(AP)—Contending that the average layman does not know the qualifications of judicial candidates, the Washington State Bar association is proposing amendments to state election laws whereby members of the legal profession could indicate their preferences in candidates for the bench.
 The proposal, which originated at a recent state convention, would not interfere with the present method of voting, members of the association explain. After filings for judgeships have been made, the lawyers would take a vote on the candidates and make an endorsement. This recommendation would be printed on the official ballots under the name of the approved candidate.
 The association believes thousands of voters would be guided by the endorsements.
 A counter suggestion, proposed by a local newspaper in a humorous vein, would exclude lawyers from voting for judges on the ground of prejudice.

Washington Clinches Flag By Winning 2 At Cleveland While Athletics Are Losing

WASHINGTON, Sept. 25.—(AP)—Washington captured its second consecutive American League pennant Thursday and will face Pittsburgh, which clinched the National League title yesterday, in the world series starting at the latter city Oct. 7.

The American League race ended suddenly as the champions took two games from Cleveland yesterday while St. Louis came from behind to nose out Philadelphia, sole remaining contender, in an eleven-inning contest.

It happened so quickly that apparently none but the rabid fans who had figured out the mathematical chances of Washington and Philadelphia were aware that the Senators had won the pennant. The crowd walked calmly from the field, only a few fans running to Manager Harris and President Clark Griffith with congratulations.

Not so with the players, although they had counted the pennant all but won with an eight-game lead over the Athletics was real jubilation in the dressing room. Smiling broadly Manager Harris declared that all regulars appear as usual tomorrow to start against St. Louis in the three-game series.

The youthful pilot, who won the world series last year in his first attempt at managing, directed yesterday's games from the bench. He has a badly lacerated finger on the throwing hand and there is some doubt whether he will be able to start at his post at second base in the world's series.

The veteran "Dutch" Reuther accounted for the first game yesterday scoring his eighteenth victory of the season. The champions had to go ten innings, however, to defeat Sherrod Smith, 4 to 3. Alexander Ferguson, Boston and New York cast-off turned in the second and pennant clinching contest, 6 to 2. He was seldom in trouble after the second inning and received great support from the patched up team behind him. Besides Manager Harris, Roger Peckinpaugh, shortstop, is out of the game with a sprained ankle. Adams and Scott played in their places.

The outcome of the Philadelphia St. Louis game was posted during the eighth inning of the second game and it added stimulus to the champions who promptly unleashed a four-run attack.

Goslin's eighth home run of the season and his double accounted for two of Washington's runs in the opener. The latter blow ended the contest.

FIRST GAME
Score by innings:
Cleveland .. 010 000 00—3-9-0
Washington .. 100 200 001—4-9-0
Batteries: Smith and Sewell; Reuther and Severid.

SECOND GAME
Score by innings:
Cleveland .. 010 000 001—2-10-3
Washington .. 100 100 04x—6-12-0
Batteries: Shaute and Myatt; Ferguson and Ruel.

YANKS WHIP CHISOX
NEW YORK, Sept. 25.—(AP)—

For the first time this season and for the sixth time in his career, Babe Ruth hit a home run with the bases full, yesterday, giving the Yankees a 6 to 5 victory over the White Sox. The big drive which was Ruth's 21st of the year, was made off Pitcher George Connelly, with one out in the extra session.

The clubs went into the tenth deadlocked at two all. Chicago staged a three-run rally at the expense of Ben Shields, recruit southpaw from Springfield.

Score by innings:
Chicago .. 000 001 100 3—5-7-4
New York .. 011 000 000 4—6-11-1
Batteries: Faber and Schalk; Shields and Bengough.

BOSTON BLANKS TIGERS
BOSTON, Sept. 25.—(AP)—Ruffing of the Red Sox pitched fourth ball yesterday and was the main factor in Boston's victory over Detroit, 5 to 0. Boston hit Daus hard. Catches of fouls by Prothro were features of the game, Jack Warner, infielder obtained by Vernon, made his big league debut, appearing at third base for Detroit late in the game. He had no chances.

Score by innings:
Detroit .. 000 000 000—0-4-1
Boston .. 200 010 20x—5-12-0
Batteries: Daus and Bassler; Ruffing and Bischoff.

BROWNS BEAT ATHLETICS
PHILADELPHIA, Sept. 25.—(AP)—The Philadelphia Athletics lost their last game of the season with the St. Louis Browns here yesterday, 6 to 4, in 11 innings. The Athletics won the season's series with the Browns by the slim margin of 12 victories to 10 defeats.

Score by innings:
St. Louis .. 020 000 002 02—6-12-1
Phia .. 200 001 100 00—4-16-3
Batteries: Van Gilder, Gaston and Dixon; Groves, Harris and Cochrane.

ATLANTA BEATEN IN SECOND GAME BY FORT WORTH

Texans Even Up Series By Winning 7 to 1; 2 Teams Leave For Fort Worth to Play the Next Three Games

ATLANTA, Ga., Sept. 25.—(AP)—The Fort Worth Panthers, champions of the Texas League, last night hit the long, long trail back home a happy lot, for they had evened the count against Atlanta in the Dixie series.

Led by Joe Pate, southpaw artist, who pitched a masterful game, the Texans swept the Crakers before them this afternoon, the final score being 7 to 1.

Cy Warmoth, a left hander, started for Atlanta, but lasted only two innings and a fraction—long enough for the Panthers to gather four runs from five hits and four walks. "Wheeler" Dell replaced him and yielded the other scores to Fort Worth.

"Stormy" Davis, centerfielder, hit his second home run of the series for the Panthers in the eighth inning. The ball went into the left field stands. No one was on the bases.

The two teams will spend today traveling and will resume the series in Fort Worth Saturday—each having won one contest. The club first winning four games will be crowned champions of Dixie. Three games will be played in Fort Worth and if a sixth is necessary, the teams will return to Atlanta. The scene of a seventh game would be decided by the flip of a coin.

REDS DOWN ROBINS			
CINCINNATI, Sept. 25.—(AP)—			
Cincinnati	3	2	1
Brooklyn	3	2	1
The winning run was scored by Critz, who singled and went to second on Boone's fly to Brown. Hargrave was purposely passed but Rixey singled, bringing in the winning run.			
Score by innings: Brooklyn .. 020 000 000 00—2-9-2 Cincinnati .. 000 020 000 01—3-6-1 Batteries: McGraw and DeBerry; Rixey and Hargrave.			

REDS DOWN ROBINS
CINCINNATI, Sept. 25.—(AP)—Cincinnati won an extra-inning game from Brooklyn, 3 to 2, Thursday. The winning run was scored by Critz, who singled and went to second on Boone's fly to Brown. Hargrave was purposely passed but Rixey singled, bringing in the winning run.

Score by innings:
Brooklyn .. 020 000 000 00—2-9-2
Cincinnati .. 000 020 000 01—3-6-1
Batteries: McGraw and DeBerry; Rixey and Hargrave.

Realty Firm's Claim To Be Heard This Week

DAYTONA, Sept. 25.—(AP)—A public hearing will be held in this city on September 29 next on the application to the war department of the Daytona Shores, Incorporated, for permission to develop certain water projects on the Halifax river. Colonel Gilbert A. Youngberg, United States District Engineer of Florida, will conduct the hearing.

One plan calls for the construction of a bridge at the company's property across the Halifax river two and one half miles north of Ormond. The other plans call for the construction of bulkheads and the dredging of the river at the same location.

Tampa—Memorial Highway to be widened to 55 feet.

SECOND PLACE IN NATIONAL LOOP IS CINCHED BY N. Y.

Giants Whitewash Pittsburgh By Score of 4-0; Dodgers Lose Extra Inning Contest To Cincinnati by 3-2 Score

PITTSBURGH, Sept. 25.—(AP)—The New York Giants clinched second place in the National League pennant race yesterday by defeating the Pirates, 4 to 0. Jack Scott holding the new champions to eight hits. The Giants made three off Rube Oldham and the other was a home run by Bill Terry, off Babe Adams, who replaced Oldham in the sixth.

Score by innings:
New York .. 100 021 000—4-12-0
Pittsburgh .. 000 000 000—0-8-1
Batteries: Scott and Mcullen; Oldham, Adams and Goeh.

112 Park Avenue, Sanford

Also Saturday Night, Sept. 26th. At 8 o'Clock and 9 o'Clock

You will be shown this wonderful new Florida industry, that in short time will be shipping throughout the United States and other countries, the first Cavendish bananas ever grown in any country. This great development is co-operative. The plantations embrace between 1000 and 15,000 acres located in Peace Valley, about 4 miles from Winter Haven, are being divided into units of five acres each and are being sold with a small down payment and easy terms for the balance over a period of two years. We prepare, plant and cultivate each acre free for the first month, and thereafter continue the operation and care of your plantation and the picking of the crop for 15 per cent of the net receipts. You get the earnings without the risk of the income will give you returns better than 50 per cent on your investment.

Come to our office Friday or Saturday night and see the moving picture. We will be glad to give you further information and shall be pleased to take you to the property as our guest. Buses leave our Sanford office at 9:30 each morning.

Taylor - Alexander Co., Inc.

Firestone

Double the Mileage at Half the Cost

Only a few years ago a 32 x 4 cord tire listed over \$50.00. Today, you can buy the highest quality 32 x 4 tire—a Firestone Gum-Dipped Cord—for about \$26.00!

Last spring crude rubber cost tire makers around 40 cents a pound. Today, it is over 90 cents a pound.

It was not so long ago that 7,500 miles represented the average life of a cord tire, while today, 15,000 miles—and more—is only the usual performance for a Firestone Gum-Dipped Cord.

Due to large, concentrated production, specialized machinery and simplified factory methods, together with economical distribution, Firestone is able to keep tire prices low—no matter where the price of crude rubber goes.

And, because of special Firestone processes, chief among which is Gum-Dipping, motorists are today getting thousands of extra miles by using Gum-Dipped Cords.

Gum-Dipping is an exclusive method used by Firestone. It is an extra process, carried out in special Gum-Dipping plants, after which the cords are put through the usual calendaring machines. Gum-Dipping insulates and impregnates every fiber of every cord with rubber, and practically eliminates internal friction and heat, and builds strength and endurance into the tire.

In the day-in and day-out service of taxicabs, buses and trucks—on the cars of hundreds of thousands of motorists everywhere—Gum-Dipped Cords are giving unheard-of mileage, dependability and satisfaction.

Get ready for the coming months of slippery pavements and bad roads. Assure yourself of greater safety, comfort and economy by equipping now with Firestone Full-Size Gum-Dipped Balloons.

Haines City Shooters Hang Up New Record

HAINES CITY, Sept. 25.—(A)—
What is believed to be an amateur
record in trap shooting was estab-
lished at a practice shoot of the
Haines City Gun Club this week.
A five man squad, including one
novice, broke 123 out of 125 pig-
cons.
The squad was composed of Harry
Johnston, president of the club;
C. J. Cook; T. C. Kensler; A. B.
Palmer; and Mr. Law, all of this
city. The first four broke 25 pig-
cons out of 25. Law who was
shooting in the traps for the sec-
ond time broke 23 out of 25.
Johnston and Cook tied at 98 out
of 100 for singles and tied again
on doubles with scores of 18 out
of 24.

TEMPERAMENT

HON. ED. WALTHALL,
Core Semianale Hudson-Emes Co.
Sanford, Fla.
Here is a
Temperament is a big word that
covers a multitude of sins, but it
doesn't always cover them so that
you can't see what's underneath.
Temperament is something that
is allowed to develop in profession-
al people and expresses itself in
various forms—jealousy, ruthlessness,
unreliability and nothing
like anything in the spring.
Some people who make their ill-
lunge by entertaining the public in
one way or another seem to think
that their ability is just as great as
their temperament.
A singer whose only claim for the
title will be that she holds her
breath together and has a few
lingering from her arm when she appears
will be so temperamental that she
will have to take her daily baths in
billy goat milk.
An actor who once appeared on
the stage for about two ac-
cords while he opened the door of
an automobile for the grand hero
of the sex entanglement, will be so
temperamental that he cannot live
with any one wife for longer than
six months at a time. He has to get
a new wife every time he gets a
new suit of clothes.
A professor of sociology in a lit-
tle tea pot college will be so tem-
peramental that he will wear a
straw hat all the winter and an
overcoat all the summer.
In other words, Ed, temperament
is just another name of plain "nuts"
which is another way of saying
"houshous," which may be trans-
lated as meaning "nuts in the
belfry," which many will understand
as meaning "a screw loose."
Temperament sounds better but
it doesn't mean anything less. It's
just a way of calling a spade a
spade.
Some automobiles actually have
temperaments. They won't run right
when it's too hot or too cold, or
when the hill is too steep or the
sand is too deep. But thank good-
ness the old Essex is just a good,
sensible car that does its bit when-
ever it is called upon to perform.
Yours,
HILL.
