## Red Demands Are Rejected By Marshall

### German Reparations From Current Production Asked By Molotov Are Denied

LONDON, Dec. 10 (AP)—Secretary of State Marshall charged tonight that Russia is taking assets from eastern Germany at a rate of more than \$300,000,000 yearly and he demanded that the withdrawal be halted effective Jan. 1.

LONDON, Dec. 10 (AP)—Secretary of State Marshall informed Soviet Russia tonight that the United States is not prepared to agree to any program of reparations from current production as a price for the unification of Germany.

Apparently Marshall was attempting to have a showdown with the Soviet Union and using the reparations for this purpose.

He declared in a statement to the Big Four foreign ministers council, made available by the American delegation:

"All these matters we have been discussing, the export-import program, the first charge on German exports, agreed statements of external occupation costs, balances, economy, et cetera, will revert to the questions of reparations."

"It is impossible to have a clear picture of how all these matters can be put into effect unless we get a clear answer from the Soviet delegation on the question of reparations from current production."

Marshall said he wanted it clearly understood that the United States is not prepared to agree to any program of reparations from current production as a price for the unification of Germany.

## Flivvers' Landing Marks End Of 123 Day World Flight

TETERBORO, N. J., Dec. 10 (AP)—Curtis E. Evans and George Truman landed their twin-engine, 100-horsepower, 11½-v.e.c. airplane at Teterboro airport at 10:40 A. M. today, ending a tearfully 25,000-mile globe-circling flight unique in the history of aviation.

The two former Army pilots came in as casually as they departed from this suburban commercial airport on Aug. 9. They had flown around the earth in 123 days to show that it could be done in little fabric-covered aircraft with a cruising speed of 105 miles per hour.

The flight of higher planes escorted the two pilots on the final lap from Harrisburg, Pa., today. Evans came in first, touching the runway a few seconds ahead of Truman.

The flags of 23 nations and various insignia, attached to each of their wings, were painted on the sides of each of the tiny planes, smallest ever to cross the oceans and to circle the globe.

Beneath each of the flags was the name of a leading person in that country, including that of the Pius XII.

Evans, 39-year-old former Army Air Force pilot, flew "The City of Angels" named after his native Los Angeles. Truman, 39-year-old wartime flight instructor, (Continued on Page Eight)

## Post Office Reveals New Seasonal Hours

Postmaster Joel E. Field today announced that the Post Office will be open every shopping day until Christmas, including Wednesday and Saturday afternoons. He urged that shoppers take advantage of these two days to relieve the strain on postal workers on other days.

After Christmas, said Mr. Field, the Post Office will be open all day on Wednesday and closed on Saturday afternoons. These hours have been found to be most practical.

**PINE CAMP FIRE**  
PINE CAMP, N. Y., Dec. 10 (AP)—Four army officers assigned to "Empire Snowdrift" winter maneuvers were burned to death and six others were injured early today in a fire which destroyed a two-story frame barracks at this northern New York military reservation. Eight others leaped to safety from first and second story windows of the flaming barracks. Cause of the fire was not determined.

## Truman Rejects Oil Export Ban

WASHINGTON, Dec. 10 (AP)—President Truman wants congress to think it over carefully before taking any action to prohibit shipments of oil abroad. Otherwise, he says, the country "may suffer."

Mr. Truman gave this advice to Chairman Welch (R-Calif.) of the House Public Lands Committee, in a letter made public by Welch today. Welch and Chairman Butler (R-Neb.) of the Senate Public Lands Committee joined last week in asking the President to ban oil exports as a means of conserving petroleum reserves at home. In giving reporters a copy of Mr. Truman's reply, Welch said the letter "does not answer the problem."

## Fred W. Smith, Lions President, Visits Local Club

### Civic Leaders Turn Out For Early Morning Reception At Bank

Fred W. Smith, president of Lions International, was escorted into Sanford this morning with a siren blowing police car leading the way down Park Avenue from the south city limits, and was given a hearty reception by City and County officials, and representatives of civic organizations at the Florida State Bank.

President Smith was accompanied here in his specially decorated Lions automobile by A. A. DeLage of Winter Garden, international representative of Lions and C. H. McNulty, a director of the organization, and Dr. C. W. Bressler Pettis, designer of the Monument of States at Kissimmee.

Members of the Sanford Lions Club, headed by King Lion W. O. Livingston turned out in good numbers for the welcoming. It was presided over by President Lester Tharp, Rotary by President Gordon Brison, the Elks by Exalted Ruler J. E. Rowland, the City by Commissioners Andrew Carraway and Iva R. Leher and the County by Judge E. W. Ware. Tax Collector John L. Galloway and Sheriff P. A. Mero. E. G. Kilpatrick, president of the bank, extended a welcome.

With a fine sense of humor, President Smith, a Californian, praised the Florida climate and declared that his wife had written him that Los Angeles had just received the first rain since January. He said that he was delighted with the early morning reception here (8:30 o'clock) and revealed that his trip was "an exceptionally fine experience. He declared that in all justice to the big cities, some of the finest work is being done by the smaller Lions Clubs.

The Lions movement is growing all over the United States, he asserted, and during the last (Continued on Page Three)

## De Gasperi Offers Big Public Works Outlay

ROME, Dec. 10 (AP)—Premier Alcide De Gasperi's government offered 11,000,000,000 lire (about \$3,850,000) today for public works in Rome city and province to avert a general strike threatened to protest unemployment, an official report said.

Newspapers forecast the cabinet's action might be its last and that the harried Premier might announce tomorrow his fifth government, including representatives of two small leftist parties, which would afford the government an unassailable majority in the assembly.

The chamber of labor for Rome province was to consider the government's offer later today. It had demanded 10,000,000,000 lire to help the unemployed in the Rome area, estimated at 80,000. The general strike threat remained implicit.

ROME, Dec. 10 (AP)—The Chamber of Labor voted a general strike for Rome's province, effective at midnight.

The government of Premier Alcide De Gasperi, according to unofficial reports, had offered about \$1,000,000,000 lire (about \$1,850,000) for public works in the city and province of Rome in an effort to avoid the strike, which was called to protest unemployment.

**MULJAMIAN CHARGE**  
LONDON, Dec. 10 (AP)—Nicholas Dolatorchey, Bulgarian political representative in Britain, said today the Bulgarian government had resigned as a formalist, but would be reconstituted immediately, with General Dimitroff continuing as premier.

## New UNGroup To Hold First Meet Jan. 5

### Secretary Will Convene Little Assembly To Study Misuse Of Veto Power

LAKE SUCCESS, Dec. 10 (AP)—Secretary-General Trygve Lie announced today that the year-around "Little Assembly" of the United Nations would convene for the first time here on Jan. 5.

The "Little Assembly" was created by the regular 1947 assembly at the suggestion of Secretary of State Marshall but Russia, the Soviet Ukraine, Poland, Yugoslavia, White Russia and Czechoslovakia declared they would refuse to attend on ground that the new body was illegal and contrary to the UN charter.

Lie, at his weekly news conference, said he had received no official notification of the Soviet bloc boycott announced by delegates of the six countries at the regular assembly which ran from Sept. 16 to Nov. 29 with all 57 member nations attending. The Soviet boycott would reduce the active membership on hand to a maximum of 51 nations.

The Secretary-General said he would preside at the opening session Jan. 5 pending selection of a chairman. The staff expects the new body to meet about twice a week. The big veto used 22 times by Russia in the Security Council, is one of the subjects listed for debate.

Lie announced that the commission to supervise elections and independence for Korea, also created at the suggestion of Marshall, would leave Jan. 2 and hold its first session in Seoul sometime before Jan. 10. The Soviet Ukraine, one of the nine nations named by the assembly to the Korean Commission, has announced refusal to serve, and it was considered likely that Russia would bar the commission from Soviet-occupied north.

## House Group Says Atom Bombs Could Cripple America

WASHINGTON, Dec. 10 (AP)—A House armed services subcommittee said today that one or two atom bombs dropped in the San Francisco Bay area probably would be enough to "cripple, and perhaps fatally, all American activities in the Pacific."

Referring to the location "virtually side by side" of the Army and Navy supply bases in Oakland, the Marine Corps supply depot in San Francisco, the Naval shipyard at Hunters Point and the Navy air base at Alameda, the group said:

"We believe atomic weapons could destroy them all further, therefore, they are so constructed that modern weapons should easily be able to reduce them to rubble."

The subcommittee, which inspected the area last September, said the armed forces should consider relocating the supply centers and eliminating duplicate facilities.

The report said subcommittee members "surmised that consideration of economy now are governing to perhaps too great an extent—the strategic plans of the Army and Navy" and added:

"In one instance in particular, we were advised flatly that an important installation is located (Continued on Page Eight)

## Prison Inmates End 2 Day Hunger Strike

MCNEIL ISLAND PRISON, Wash., Dec. 10 (AP)—McNeil Island penitentiary inmates ended a two day hunger strike yesterday against food served at the prison and Warden P. J. Egnor said President Truman's program of mealless Tuesdays and eggless Thursdays still would be strictly followed.

Announcing the end of the demonstration by an approximate 1,018 of the 1,500 federal convicts, the warden disclosed a committee of three inmates, chosen by fellow convicts, had conferred with him on suggestions for improving the meals.

"No rioting or serious disorders occurred at any time during the demonstration, the warden said. He blamed the protest mainly on the difficulty in serving a "varying diet" under the President's food conservation program.

## SANTA CLAUS GREET'S SANFORD KIDDIES

Santa Claus is shown as he waved a greeting at 10:30 o'clock last Saturday morning to a crowd of enthusiastic kiddies who gathered to give him a hearty welcome when he arrived at the Municipal Pier. Santa must have snow, or something that looks like it to keep him from getting homesick, as the Key Club boys did a fine job of decorating his float and the little cabin on it with imitation snow in the form of cotton to contrast with the small pine trees. Soon after landing, Santa was borne uptown to the cheers of thousands in the biggest and best parade ever sponsored by the Jaycees and Sanford Merchants Association.

## November Sales At Farm Market Reach \$414,573

### Over \$72,000 Jump Is Seen On 155,329 Units Of Produce

The exceptional growth of produce sales at the Sanford State Farmer's Market is reflected in the November sales report of \$414,573 for 155,329 units of Florida grown produce compiled by Market Manager H. J. Lehman. This represents a \$72,424 increase in business over Nov. 1946 when 134,472 units were sold.

Trucks from all over the Atlantic seaboard and middle west are jamming the market area, and the main market platform is heaped high with celery, cabbage, beans and other produce.

One of the "hottest deals" at the market, in the parlance of dealers, is the string bean deal. More than 100,125 "hampers" of fine grade locally grown beans were sold for \$319,000 in November. (Continued on Page Eight)

## Local Residents Urged To Join In Tourist Activities At Center

The tourist club will meet tonight at 8:00 o'clock at the Tourist Center and a fine program of outings, parties and events will be planned for the coming year, it was announced today by E. M. Armitage, director of tourist activities of the Seminole County Chamber of Commerce.

Residents of Sanford and Seminole County are urged by Mr. Armitage to attend the forthcoming meet and welcome the winter visitors and enjoy the good time that will follow in the form of car, golf, and outdoor sports.

The shuffle board courts and the horse shoe courts have been put into fine shape by city workers, a windbreak has been installed to protect players, and the city has installed lights for night playing.

An innovation is the large red and black checkerboard painted on the cement court east of the Tourist Center. This is played with large disks with hook eyes attached and played with poles with hooks to lift the disks. Mr. Armitage reported that this form of checkers was formerly played in Canada and should prove very popular here.

Among the outings planned this year, said Mr. Armitage, are (Continued on Page Eight)

## Cold Wave, Rain Hits Most Parts Of U. S.

By ASSOCIATED PRESS  
Snow, freezing rain and rain fell over a wide area of the country today as temperatures in most parts of the Midwest climbed from their sub-zero levels of yesterday morning.

A band of light snow extended northward through Missouri, Iowa, Wisconsin and parts of Indiana and Michigan. Freezing rain made motor travel hazardous in the lower Missouri and lower Ohio valleys while rain also fell over parts of the Gulf states.

The mercury, which dropped to nearly 30 below in parts of Minnesota yesterday, was generally in the 10 to 20 above mark today. Rochester reported a low of 19 above as compared to a 22 below 24 hours ago. Pellston, Mich., had the nation's lowest reading, 4 below, and temperatures were near the zero mark in parts of the Dakotas and Nebraska.

Temperatures were below the seasonal normal in the Eastern states and they also were slightly lower in the Pacific coast and in parts of the Gulf states.

## TRUMAN CHRISTMAS

WASHINGTON, Dec. 10 (AP)—The President and Mrs. Truman are planning a family get-together Christmas in the White House—the first Yuletide season they will have spent in the executive mansion since Mr. Truman succeeded the late President Franklin D. Roosevelt in 1945.

Mrs. James H. White, White House social secretary, said today that the President's sister, Miss Mary Truman of Grandview, Mo., and Mrs. Truman's three brothers and their wives will be on hand when the President carves the Christmas turkey in the family dining room.

## Wallace Attacks Democratic Party As A "War Party"

### Says He Will Run In 1948 If Present Policies Not Changed

ITHACA, N. Y., Dec. 10 (AP)—Henry A. Wallace said today that "unless there is a change" in America's foreign policy "there will be a third party" in the presidential race next year.

Asked at a news conference whether he would head a third party, the former Democratic Vice president and dismissed Secretary of Commerce said, "I will do what I can to help."

Wallace began here an upstate New York speaking tour, the object of which, he said, was to "confirm" a "theory" that the people north of the Bronx "are open minded to the fact the world changes."

Reminded that Senator Brewster (R-Me.) said in Washington Monday that he had heard Wallace planned to bolt the Democratic Party and announce his candidacy for presidency on a new ticket, the former cabinet member declared:

"I haven't employed Senator Brewster as my public relations man. I am not aware of the fact that he was engaged by the FBI." "Is the FBI keeping an eye on you?" a reporter asked.

"Not that I know of," Wallace (Continued on Page Eight)

## France Rejects Red Note Of Protest

PARIS, Dec. 10 (AP)—France ruled today that the terms of a Russian note protesting treatment of Soviet citizens in France and breaking off French-Russian trade talks were unacceptable.

The French charge d'affaires in Moscow, Pierre Charpentier, will be instructed to return the note to the Soviet government, it was announced.

In Moscow, a French embassy spokesman said the five members of the French repatriation mission ordered out of Russia yesterday had received their exit visas and would depart today or tomorrow. They were expelled after the French had ordered the Russians' repatriation mission out of France, charging its members with subversive activities.

## Ticket To Moscow Is Provided Free

HARTFORD, Conn., Dec. 10 (AP)—The Connecticut secretary of the state's office approved papers today organizing the American Anti-Communist League whose slogan is a "free one-way ticket to Moscow."

Albert B. Epstein, a restaurant cashier and one of the founders, said the league will give a "free, first class, one-way ticket to Moscow" to any American Communist who renounces his citizenship and promises to "go to Russia and stay there."

Epstein said: "I lived in Russia at the time of the revolution and have had enough of Communism."

## GOP Offers Program For Price Control

### Anti-Trust Laws To Be Set Aside To Allow Industry-Wide Price Agreements

WASHINGTON, Dec. 10 (AP)—Republican congressional leaders agreed today on a four-point anti-inflation program for enactment during the present session of Congress. Senator Taft of Ohio, chairman of the Senate Republican Steering Committee, and House Republican Leader, Halleck of Indiana, announced the program provides for:

1. Voluntary industry-wide agreement to hold living costs in line. Anti-trust laws would be set aside temporarily for such agreements, and the Administration would be given money to promote such a program.

2. Continuation and expansion of export controls.

3. Increase, from the present 25 percent to 40 percent, the gold reserves required behind currency issues by Federal Reserve Banks; and increase from 25 to 35 percent the gold reserves that Federal Reserve Banks must carry to support the deposits of commercial banks.

4. Controls over vital transportation facilities, such as boxcars.

The Republicans drafted this program as a reply to President Truman's request for broad powers to resume rationing and price controls if the Administration should decide they are necessary.

A draft of a bill covering most of the President's request was presented by Secretary of Commerce Harriman yesterday to a Senate Judiciary Subcommittee, but Republicans have made clear (Continued on Page Eight)

## 29 In Army C-54 That Crashed In Goose Bay Forest

WESTOVER FIELD, Mass., Dec. 10 (AP)—A big ATC transport plane with 37 crew members burned last night before midnight in the icy wilderness north of Goose Bay, Labrador. The number of survivors—if any—was unknown. From the air, one man could be seen in the center of the wreckage waving his arms. A small reconnaissance plane spotted the lone figure in the wreckage. The main ground rescue party was reported in Goose River, near the scene. Whether the man at the crash was an advance member of the rescue group is not known.

WESTOVER FIELD, Mass., Dec. 10 (AP)—A C-54 U. S. Army Air Force plane, reported carrying 29 passengers, crashed shortly before midnight in an inaccessible, heavily forested area four miles north of Goose Bay Airfield, N.H.

The commanding officer of the air transport command at Goose Bay Airport appealed to Westover Army Airfield to send a helicopter with all possible speed as "there are signs of survivors."

The Westover Public Relations Officer said that although the (Continued on Page Eight)

## SECURITY RISK

WASHINGTON, Dec. 10 (AP)—The State Department said today it is retaining the right to fire or transfer an employe as a "bad security risk" even though he has been cleared of any disloyalty by President Truman's review board.

Employe accused of disloyalty, nevertheless, will be informed of the nature of the charges and given the right to be represented by counsel. They also will be granted opportunity to establish "affirmative" loyalty to the United States, the department said.

\$5.00 to \$14.95

**Yowell's**

Bought Your Christmas Seals?

**FRONTIER**—They are a people that the world forgot. They live in a no-man's land where the only law is a gun.

The Pomaks are an example of Communism socking the poor. Of this "lost race" inside Europe, historians confess that nothing of its origin is certain; Pomaks are not even mentioned in most famous encyclopedias.

There are, however, 350,000 Pomaks along both sides of the Greco-Bulgarian border, clinging to tiny, rocky farms in the Rodops mountains which their forefathers settled before a Norman conqueror set foot in England.

They are Moslems but seem to have no blood kinship with the Turks, although they once fought for the Ottoman Empire. Many

have blond hair, blue eyes and almost Nordic features.

Their females are veiled from the cradles to the grave. Elders who have visited Metra cry the words of Mohammed from need-pointed minarets, but most of the faithful have never been farther than 25 miles from where they were born.

Much of the mountain territory sprinkled with Pomak villages is, by default, under Communist control in the Greek civil war. Taxes of corn, donkeys and home-woven clothing are collected with sub-machine guns.

In one afternoon, I saw half the population of Pachni, a mile from Bulgaria, flee to Glaviki, a village four miles deeper within Greece, because Greek rebels demanded a ton of corn.

Taking advantage of the rebels' daylight absence, the villagers trekked off with wives, children and winter food reserves, since at Glaviki they could be protected by an outpost of 90 Royalist troops.

Glaviki was quiet. Soldiers dozed at lookout stations while young, bare-bottomed Pomaks begged a share of their American rations. Old women trudged in with huge bundles of firewood on their stooped backs. Tobacco was hung out to dry on racks beside sagging stone-and-timber houses.

At dusk, the village locked itself in. All windows were shuttered and doors bolted. A new squad, more alert, took over the lookout duty. Night belonged to the rebels.

Pomaks, some students theorize, may be originally of Bulgar stock or a tribe—Kumans or Pechenegs—which wandered south across the Danube, in the 11th Century to halt in the peaks of Thrace. Fifty thousand are under the Greek flag, 300,000 in Bulgaria.

When western statesmen, in 1878, carved up the Sultan's domain in Europe, 21 Pomak villages fought off the acquisitive Bulgars and set up an independent republic. Bulgaria annexed it in 1886 and that was the last of Pomaks self-rule.

Perhaps with tongue in cheek, Greece sent a Pomak delegation to the Paris peace conference last year. Bulgaria was demanding Greek Thrace. The Pomak claimed part of Bulgaria. The conference snubbed both.

### Seminole Schools Get 6th Installment

TALLAHASSEE Dec. 10 (Special)—The Seminole County Board of Public Instruction will receive \$24,073 next week as the sixth installment of school funds from the State Minimum Foundation-Program Fund.

Colin English, State School Superintendent, reported that the county will receive \$19,271 for teachers salaries, \$1,427 for transportation, and \$3,375 for current expense.

The checks will be mailed from Tallahassee Monday, December 15. A total of \$2,707,455 will be sent to all 67 Florida counties; \$1,139,002 for transportation, and \$324,189 for current expense.

A HELLO GIRL, Mary McGraw sits with some of the 4,500 dolls which New York Telephone Company employees will distribute to children this Christmas. This is the thirty-first annual collection of dolls and toys to be distributed by the phone workers to under-privileged children in New York. (International)

### A and P Grocery To Stay Open Six Days

The A and P Grocery has revised a former practice of store hours designed to give each employee a full holiday during the week, instead of a Wednesday half holiday, and the store will be open six days a week. It was announced today by Manager Earl Evans, who stated that the staggered hour system went into effect Monday.

Employees will continue to work 48 hours a week, he revealed. A worker after six months of employment is entitled to a week paid vacation and after a year of work two weeks paid vacation.

Store hours will be as follows: Monday through Thursday, 8:30 A. M. to 6:30 P. M.; Friday, 8:00 A. M. to 7:00 P. M. and Saturdays, 8:00 A. M. to 8:00 P. M.

Colored Elks of Celery City Lodge 542, I.B.O.E., will hold an Elk memorial service Sunday afternoon at 3:30 o'clock at the Elks Auditorium at Seventh Street and Cypress Avenue. All "Bills and Daughters" are requested to be present. It was announced by Jerry Walker, exalted ruler, and S. J. Walden, secretary.

"Right Where We've Been For 26 Years"

### Former Physical Prowess If Some Of Nation's Leaders Are Related

By JANE BADR  
WASHINGTON—As Chief Justice of the United States, Fred M. Vinson ranks next to the President in any line-up where protocol is strictly adhered to.

He had to take a backseat the other night, however, when he was a guest at the father and son banquet of the National Press Club. The sons had their eyes on the Redskins. Capital's professional football players, and rushed them for autographs.

"I know I'm strictly playing second fiddle," said the justice with mock bitterness when he got to take a bow.

The Master of Ceremonies nevertheless had built him up as a great athlete. He introduced him as a famous second baseman back in 1909, when he played Intercollegiate baseball on the team of Centre College at Danville, Ky.

"I refute the claim and the reputation. I was shortstop—but, a pretty good shortstop," the justice said sort of wistfully, eyeing the youngsters.

"Now I've found out how I really rate with the young fry."

Be that as it may, the Chief Justice ranks as No. 1 spectator-sportman in capital circles.

SHIELDING her Mexican hairpins Chihuahua pup against the cold, Mrs. John Jacob Astor holds him under her pink coat as she leaves a New York night club. Note "Wow-Wow's" beautiful, blue, supple look.

(Continued from Page Three)

Marshall said, "It is in a critical economic state. What we do here should, as I have repeatedly said, be related to that reality. We should not confine ourselves to what will become quite academic unless Europe assumes the grave economic difficulties which press upon her."

Marshall was understood to be ready to press upon Russia the necessity of lifting the curtain on affairs in the Soviet occupation zone, contending that unless Russia furnishes information, it will be virtually impossible for the council to achieve agreement on German unification.

Probably the most active muscle-builder in the President's cabinet is Secretary of Defense James V. Forrestal. His devotion to physical exercise goes back to the time he entered college.

A rather puny chap then, he nicknamed "Bunt." He went in for boxing, wrestling, tennis and setting-up exercises. A well-aimed blow in a boxing bout flattened his Irish nose, a mark he will carry through life.

Aside from the military aspects, Secretary of State Marshall's career as a student at Virginia Military Institute became athletics. During his last two years the six-foot, husky youngster gained considerable fame in Virginia as a football tackle. Today he gets most of his exercise from horse-back riding.

In his earlier years Secretary of Commerce Harrison was a polo player of note, was a member of the U. S. team that defeated the Argentinians in 1928. Still earlier he was a member of the Grafton and of the Yale undergraduate crews. Now his principal diversions are skiing, bowling and croquet.

Secretary Interior Krug played center on the University of Wisconsin's football team. Secretary of the Treasury Snyder plays an occasional game of golf, but for the most part top men in the government these days have little time for anything more strenuous than bridge, gin rummy or poker.

President Truman once in awhile finds time to pitch a mean horseshoe on the back lawn of the White House.

### Doctor Describes New Gun Used In Fighting Cancer

By HOWARD W. BLACKESLEE  
AP Science Editor  
URBANA, ILL., Dec. 9

A new, sharpshooting gun for cancer is described by Dr. Lester Skaggs, of the Michael Reese Hospital, Chicago, now working at the University of Illinois on developments of betatrons.

This gun, Dr. Skaggs says, will be a betatron of 55,000,000 electron-volts and it is expected to be the most powerful weapon yet made for fighting cancer.

Betatrons are electrical energy machines which whirl the minutest known particles of matter, electrons, until they are traveling close to the velocity of light, which is 186,000 miles a second. At those speeds the electrons can be drawn from the betatron in the form of a beam.

It is such a beam that Dr. Skaggs wants for cancer. This beam, as 55,000,000 electron-volts, he says, will exceed anything before used for cancer.

This beam, while having effect on destroying the cancer, will have no effect beyond that point. This is because X-rays and radium rays, which keep on going past the cancer, damaging the tissues beyond.

Industry has betatrons of the energy wanted for cancer, Dr. Skaggs says, no hospital research center has one. He estimates that it will cost \$100,000 to build a cancer betatron. He says this money has not been raised.

Dr. Skaggs is working with Professor Donald W. R. K. of the University of Illinois, center of the betatron in 1940, a university is planning one of these instruments to deliver 200,000,000 electron-volt beams for research.

### and Boosters Have Organizational Meet

Marking the opening of a concerted drive toward the improvement of the Seminole High School, an organizational meeting of the Seminole Band Boosters Association was held Monday at the home of Mrs. C. L. Henbeck, 2468 Sanford Avenue.

E. Black, leader of the band, told of the needs of the organization in the form of new uniforms and instruments. He told of his year plan for the improvement of the musical group and told that he had made a bid to the State Music Festival in Sanford in 1950. This festival is held this year in Tampa and a year before in Miami.

The group decided to start the year with a candy sale in the aptown area on Saturday and a later date in the season will be an old-fashioned box social. Meetings will be given during the year also to assist in raising funds for the band.

At the meeting Monday night J. P. Holtzclaw was appointed acting secretary-treasurer and other attending were Mrs. R. Smith, Mrs. R. A. Futrell, Mrs. E. H. Haffitt, Mrs. C. B. yes, Mrs. W. H. Garner, Mrs. Johnson, Mrs. J. A. Cranston, Mrs. S. C. Graham, Mrs. Hollenck and Mrs. and Mr. Black.

# Happy Endorses Expansion

### Commissioner Joins Majors In Plan To Bring Four Teams Of PCL Up Ladder

By JOE REICHLER  
 NEW YORK, Dec. 10 (AP)—Commissioner A. B. Chandler joined the Major Leagues today in endorsing the long-range plan to bring in four teams of the Pacific Coast League for the purpose of expanding each Major League from eight to 10 teams.

The commissioner, who was a member of the five-man committee which visited the coast last August, intends to bring the plan before the joint Major League meeting tomorrow.

Along with the National and American Leagues, Chandler is of the opinion that the 10-club plan is the most practical and could be accomplished with the "least trouble to baseball."

The National League owners touched on the coast league problem yesterday at the three-day winter meetings began. Although league President Ford Frick declined to reveal the decision, it was learned that the senior circuit rejected both PCL requests.

They held: First, the eight clubs involved the moment cannot support Major League baseball; second, it would be unfair to the two other Triple-A leagues to grant the PCL special privileges without doing the same for them.

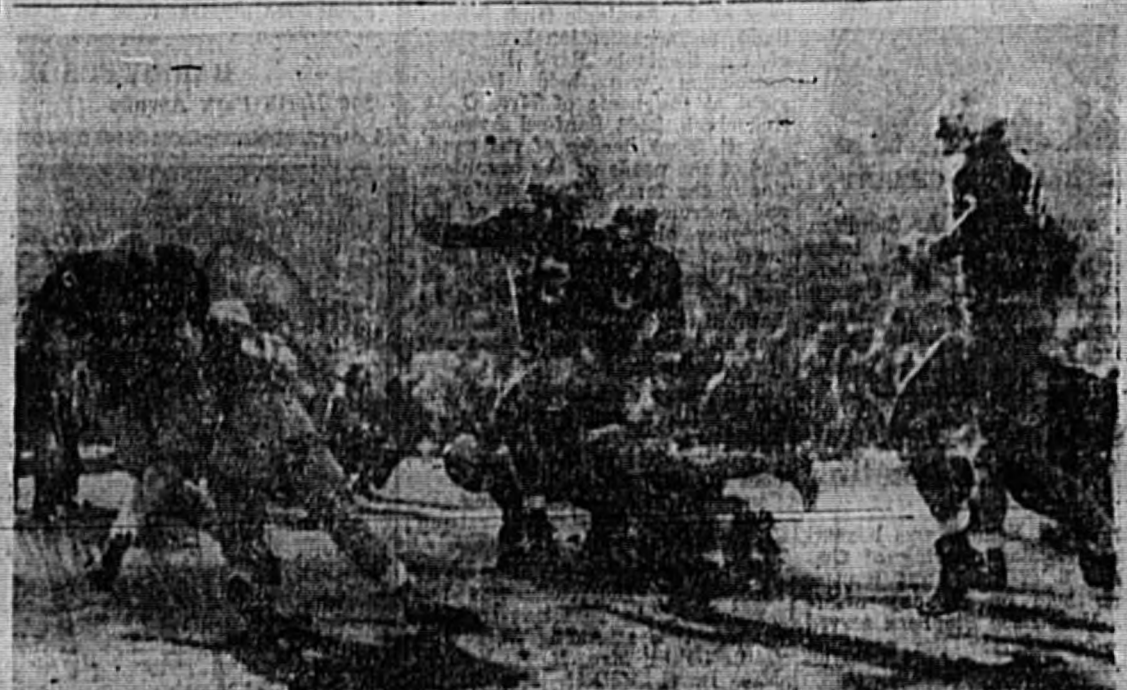

The American League is expected to take pretty much the same action today. Should that occur, the next step, it was generally agreed, would be for the so-called "big four" clubs of Los Angeles, San Francisco, Hollywood and Oakland to prepare the way to purchase their territorial release from the Pacific Coast League and thus pave the way for their entry into the Majors.

The National League voted down unlimited night baseball.

The two leagues also discussed the 22 amendments to the Major League agreement adopted by the Minors in Miami last week but did not disclose their decision.

Will Harridge, who still had another year to serve on his 10-year pact, was re-elected president of the American League for 10 more years at a "substantial increase in salary." It is believed he received \$40,000 per year. Frick last July was elected to a four-year term as National League President.

Most of the 260 square miles in the United States devoted to growing the English walnuts is in California and Oregon.

THE FIGHTING IRISH of Notre Dame gave Southern California a taste of what is likely to happen in the Rose Bowl game, when Michigan will be taken on. Here you see the one score chalked up by the Trojans in the process of being made. Jack Kirby, Trojan halfback, is managing to get over the goal line with Johnny Lujack, Irish back, hanging on. Notre Dame won 38 to 7. (International)

## Many Choice Stories Come From Events At Minor League Meet

By ARTHUR BECKWITH, JR., Herald Sports Editor

Now that the Minor League meeting is over in the Magic City of Miami the baseball whirly-gig has nearly stopped whirling and is down to earth again with some of the hottest and juiciest stories of many a day.

One of the best was that Ed Levy-Whitner, manager of the Sanford entry in the Florida State League during 1946, was considered as manager for the Daytona Beach club for the coming year, but Levy has not yet received his release from the Toronto Maple Leafs, the team for which he played last year.

Therefore, the islets would not take the risk of not getting him for the job. They did hire Sam Demma, who is a New Orleans boy of Italian descent.

Demma began playing pro ball in 1940 and got his first managerial post at Greenville, Ala. last season. He piloted his club to the pennant in the Class D Alabama State League and batted .301 while handling the catching assignments for the team.

Eddie Gilliland, former DeLand Chamber of Commerce leader, who has been high on the baseball ladder of officials, is in Florida and is interested in buying a ball club, it has been reported. It has been said that the former head of the Detroit Tiger farm system is interested in buying the DeLand Red Hats.

Bill (Rawmont) Rogers, who piloted the Feds in 1936, 1937 and 1938, has accepted a job with the Washington Senators and will be in the Senator farm system in '48. Freddie Francis, St. Augustine baseball enthusiast, is interested in buying a club. Freddy's partner will be Bill Steinecke, who is wanted by the skipper's reins if they can find the club they want.

The Brooklyn chain has Catcher Johnny Sosh up for sale and it is reported that Pensacola is interested in buying him for a catcher-manager.

Don Anderson, who piloted the St. Augustine Saints to the 1947

Florida State League pennant, has been re-signed as playing manager for the 1948 season. It has been announced by Tony Mattin, president of the St. Augustine Baseball Association, it has also been announced that the Chicago Cubs have renewed their working agreement with the Saints for the '48 season and will furnish the Ancient City nine with the needed players. Johnny Theobald, Art Stillwell, Jack Wilkes and Stan Karpinski have been sold to the Portsmouth, Va. entry in the Piedmont League. Portsmouth is a Cub farm team.

Kerry Davis has signed a contract to ump in the South Atlantic League for 1948. It is also reported that Eddie Boell, Davis' partner in blue for the 1947 St. season, is up for a promotion probably the Sally League. Dick Bass, 1946 pilot of the Gainesville G-Men, is reportedly looking for a job. He piloted Kingsport, Tenn. last season.

The Miami Tourists in the Florida International circuit report that Tommy West, former Daytona Beach Islander player is being considered for the managerial position for their club. Pat Patterson, former DeLand Red Hat Skipper is out on the Pacific coast scouting for the Ciney Reds.

## Wolf Announces '48 Gator Grid Games

GAINESVILLE, Dec. 10 (AP)—A complete 10-game football slate for the University of Florida in 1948 was announced here today by Athletic Director Ray Wolf. The sites of all games were not definitely set, Wolf said, and one of the four games listed for Gainesville may be played in Tampa.

The schedule:

- Sept. 25—Mississippi in Jacksonville.
- Oct. 2—Tulsa in Gainesville.
- Oct. 9—Auburn in Gainesville.
- Oct. 16—Rollins in Gainesville.
- Oct. 23—Georgia Tech in Atlanta.
- Oct. 30—Furman in Greenville.
- Nov. 6—Georgia in Jacksonville.
- Nov. 13—Kentucky in Lexington.
- Nov. 20—Miami in Gainesville.
- Nov. 27—Alabama in Tuscaloosa or Birmingham.

## Sports Roundup

NEW YORK, Dec. 10 (AP)—After listening to Jim Turner's unofficial report on 1947 Pacific coast league baseball, this corner doubts that the circuit will achieve major league status or even contribute a few teams to the majors in the near future.

Turner, who had a good year with an ordinary club at Portland, Ore., figures that it will be about three more years before the major leagues return to normal playing strength and that before that his league won't have much to contribute next season.

"The kids will have to come up through the minors from the bottom," he explains. "A lot of fellows who were away in service never will regain their old form. Others had their development retarded."

Portland's best player, according to Jim, was pitcher Vic Raschi, sent down by the Yankees. With the top coast prospects are Bob Chesnes and Ed Fitzgerald, who go to Pittsburg. "The pitcher, Chesnes," says Turner, "will win if he recovers from an arm operation. The catcher, Fitzgerald, will be good, too, but maybe not this year."

Extract from a letter from manager, Jack Laken, explaining why Chuck Taylor will win the welterweight title from Ray Robinson in Detroit next week: "I am the sole manager of Chuck Taylor, and I wish to go on record that I have done a splendid job with Taylor since signing him when he was still a soldier."

Frank L. Lane, American Association president, maintains that Dixie Walker's place in the Dodger outfield, will be a really great ball player in a few seasons.

One of the Midwest's football and basketball officials, accepted his usual slate of games for this year then changed his mind because of the conflict of baseball business.

Contrasts noted at the grand opening of Al Schacht's "new joint" Monday: Pauline Betz, the dainty tennis pro, and Donna Fox, the amateur bobsledder who is a follower of his sport all since "He's Too Fat For Me." The Lincoln (Neb.) Star's Morris Anderson, cures phog Allen, Kansas U. basketball coach, as saying "all big time teams are professional, including every team playing in a coming bowl game. The odd part, Anderson points out, is that Kansas will play in the Orange Bowl."

Sixty Gill, Oregon State basketball coach: "No place in the United States that I know of has the seating capacity for all the people who want to go to basketball games. Our gym seats 2,600; We hope to increase that to 10,000 soon, and it may be obsolete before it is finished."

## Season Closed Today On Mullet Fishing

Florida's first statewide closed season on mullet started today. Until Jan. 20 it will be against the law to take, possess or transport mullet in any of the 67 counties of the state.

## STAR GETS CALL

ALTOONA, Pa. Dec. 10 (AP)—The parents of Janet Blair, movie star from Altoona, announced yesterday she has accepted an invitation to be "Miss Penn State" at the Penn State-Southern Methodist Cotton Bowl game at Dallas, Texas, Jan. 1.

## Carbon dioxide first was identified as a gas about 1800, but was not produced commercially until 1857.

## COMMENTS

### from the SIDELINES

By ARTHUR BECKWITH, JR.

**Seminole High Feds**  
 Monday night we attended the annual Seminole High School Celery Fed grid banquet given by the Tri-Hi-Y girls' organization at the school, and we can truthfully say that the event, held at the Longwood Hotel, was a complete success.

The girls were something "out of this world" in their chic little long skirts, bustles, full skirts, rounded shoulders and in other words truly up to date with the best in the 1947 fall fashion parade.

Ryron Beard, after receiving the Lions Club trophy in recognition as the best blocker on the club said, "I don't deserve it, but I won't refuse it."

Jack Morrison, representing the Lions, stated that the club is giving a plaque to the school so that the names of the winners of the trophy can be engraved and kept as a memorial to the winners of the cup. The plaque has room for about 18 names, Morrison asserted.

Johnny Alexander and Beard were named captains by their teammates in a secret ballot. Beard, one of the outstanding ends in conference play was named on the second all-conference team by the coaches of the East Florida Conference during their meeting at the local high school Saturday. Alexander, a diminutive scab back for the Feds, has played outstanding football for his team this year, and many of the games he played nearly every minute of the contest.

Principal Herman Morris stated that the winner of the Peter Schaal trophy was one of the hardest of all to select. Morris reported that the team members were judged by 11 men who were unable to reach a decision. Schaal then asked Morris and Coach Kettes to assist with the selections. Morris stated that he decided to allow the players to vote on a secret ballot for the player they thought was the most valuable and they sent the name to Schaal.

Wallace Tyre was named winner of the trophy. Tyre, a lineman, was one of the stalwarts in the Fed defense and offense this year. Winning the most valuable award is a difficult task for a lineman, and Principal Morris reported that never before in the 20 years history of the trophy has a guard been selected.

Dr. E. T. Doss had an appointment in Miami and was unable to appear at the banquet. However, he is expected to be present for the chapel program Friday morning and will make the awards of the sweaters for the first-year letter winners for the Kiwanis club.

Names of the letter winners will be announced at the program Friday, Morris announced. County Superintendent T. W. Lawton acted as master of ceremonies for the occasion, and as usual kept the meeting in roars of laughter from his encyclopedia of witty stories.

## 228 Golfers Start Miami Open Tourney

MIAMI, Dec. 10 (AP)—A field of 228 golfers will begin teeing off at sunrise tomorrow in the \$10,000 Miami Open Tournament but only the better players will stay in the running after the opening round.

First threesome will start play at 6:45 A.M. (EST) and tournament officials said only 150 low scoring pros and ties, plus the 15 low amateurs, will compete after tomorrow.

The second day's play will cut the field still further, to the low 64 pros and ties and the 10 low amateurs who will complete the four-day tournament.

The field falls short of the 252 starters in 1945 and the 239 of last year, but it includes nearly all the leading golfers of the year among the 197 pros and 31 amateurs.

Those on hand include Lew Worsham, National Open Champion from Oakmont, Pa.; defending champion Sammy Sneed of Hot Springs, Va.; champion money-winner Ben Hogan of Hershey, Pa.; and Dave Douglas of Wilmington, Del., a newcomer who won the \$10,000 Orlando open in a playoff Monday.

Other "big name" golfers ready to shoot for the top money of \$2,500 include Tony Penn, Claude Harmon, Herman Kieber, Jimmy Demaret, Ellsworth Vines, Bob Hamilton, Fred Haas, Jr., Bobby Cruickshank and Tommy Armour.

The tournament has an international flavor with golfers from Great Britain, Canada, Cuba and Argentina among the starters. Skee Reigel, national amateur champion, leads the Simon pure.

**Rural Common Sense**  
By Spud Johnson  
Striking evidence of the growing concern of Florida farmers in the matter of increasing and maintaining the fertility of their soil is seen in the recent reports from county agents on the acreage being planted to blue lupine this season. Five Florida counties planted this great winter cover crop in 1947, 24 planted it last year, and an even larger number are planning it this year. In Suwannee County alone, blue lupine plantings this season have been estimated at well over 10,000 acres, and every county in which lupine was planted last year has increased acreage this season. Many farmers who have planted this crop and turned it under in the early spring before planting corn on the land have reported substantially increased corn yields, and the crop has also resulted in increased yields of other harvest crops. Blue lupine, a legume, produces a very heavy, looking mass of green material to the ground and when the crop is turned under at peak of growth, the soil is enriched with very appreciable quantities of nitrogen and large quantities of organic materials. In the northern and north central sections of the state, lupine is easily grown, and this fact, plus its beneficial effect on the soil, accounts for its growing popularity among farmers. Farmers in other sections of the state are also looking more and more to cover crops for improving and maintaining their soil. They are planting more and more acres to such cover-crops as clover, alfalfa, soybeans, and vetch, and agents report, and this means that they have become conscious of the importance of keeping their work-shops—the soil—in good condition. Planting of summer and winter legume and other soil improvement practices are rapidly becoming the rule rather than the exception in Florida. The farmer and grower who practices producing crops year after year on the same land with little effort to maintain the soil is disappearing just as rapidly. It is a healthy development—this business of giving the soil a crop that has taken place in Florida during the past few years, and it insures the future of Florida agriculture. Farmers who are seeking information on blue lupine or other crops should talk it over with their county agents, who can tell them which cover-crop is most suitable for their particular situation and sections.

### British Threaten Severe Measures To End Fighting Arab Minister Says Fight Will Begin As British Leave

JERUSALEM Dec. 10 (AP)—Eighteen Arab convicts in Acre prison escaped today while Arabs of the town of Acre engaged prison guards with gunfire. It was announced officially.

A press release said the Arab prisoners, separated from Jewish inmates after fights following the announcement of the United Nations vote to partition Palestine, had overpowered and bound the warden.

The gunfire of Acre Arabs covered their flight, it said. All Jewish prisoners of Acre numbering about 80, had been transferred to the Jerusalem central prison.

The British threatened Palestinian Arabs and Jews today with severe measures unless they ended the communal strife which has resulted in 127 deaths in the Holy Land and 255 in the whole Middle East since the United Nations voted to partition the mandate.

Foreign Minister Fadhil Jamali of Iraq said in New York a "general struggle" would begin in Palestine when the British, who surrender their mandate May 15, pull out in August.

"Plans are being made over there now for the fight," he said, referring apparently to the Arab League meeting in Cairo.

The Arab League leaders were talking of holy war and invasion of Palestine by armies of the seven nearby Arab states when the British leave.

Foreign Minister Faisal Al Saud of Saudi Arabia said in Cairo he "personally would hate to attend any further meetings of the United Nations."

Arabs attacked Gevulot in the southern Palestinian desert and killed six Jews. Police drove them off. An Arab house in Karatilya was blown up and four Arabs were killed. Two heavy explosions jarred Haifa.

An uneasy calm settled over the Tel Aviv-Jaffa border battle area where the British opposed a curfew.

General Sir Alan Cunningham, high commissioner of Palestine, issued the warning to the opposing factions, but did not disclose the nature of the severe measures he had in mind.

Palestine property losses in the 11 days of riots and were estimated at \$10,000,000.

The death toll in Palestine alone mounted to at least 120 on the basis of unofficial tallies as the disorders entered their 11th day since Arabs first began venting their anger at the United Nations decision to partition the Holy Land.

Including at least 124 killed in Eden and another four in Syria, the Associated Press count of dead in the Middle East since the communal conflicts began last week stood at 248.

In the tortured border area between all-Jewish Tel Aviv and Arab Jaffa, where British troops had "shoot to kill" orders for enforcing a dusk to dawn curfew, a Jew was killed by a shot in the back a few moments after he was released by police. He had been arrested on an arms charge with four companions.

In Jerusalem, a Jewish Agency spokesman said the dead man was a member of Hagana, the Jewish defense organization, and charged that British police fired the fatal shot. He complained of the "unruly behavior of policemen, especially in the lower ranks."

"It seems some are ready to pay off all kinds of scores," he declared.

Two Arab bodies were found in that region and two Jewish-owned carpenter shops were ruined by fire. Several small Jewish houses were burned and a Jew was wounded by gunfire in an industrial section of Tel Aviv.

The British troop commander confirmed today 15 sentences ranging from one day to 15 years for illegal possession of arms. Twelve of those sentenced were Arabs, the other three Jews.

### Thief Chains Driver To Tree, Steals Cab

LOUISVILLE, Ky. Dec. 10 (AP)—A holdup man who, police said, chained a taxicab driver by his neck to a tree, was described today by the victim as "a smooth operator."

Driver Albert Huesman, 25, told officers he was left chained to the tree at an isolated spot in Inopropolis Park last night after the man took \$20 and drove away in the cab.

For more than an hour in freezing weather Huesman said he remained there. He had on a suit but no overcoat.

Three high school boys noticed in passing a white taxicab waving in underbrush around the tree. Approaching, they saw the chained man and called police. It took detectives John Meeks and Charles Troxell 15 minutes, working with "hackaws," to free the driver.

Huesman said his "fare," carrying a bag, had asked if he took a drink after being picked up. Huesman said "No" and the man took a gun from the bag. He then ordered Huesman to drive to the park. There, Huesman said, he learned the bag also contained the chain and lock.

"He was a smooth operator and looked like he knew what he was doing," added Huesman.

### GOP Offers

(Continued from Page One)  
that measure will get no where. Even before the Republican program was officially announced, it had come under attack from Democrats.

Rep. August H. Andersen (R-Minn.) offered an amendment under which two thirds of the food received by France, Italy and Austria would be distributed free among "needy persons in low-income groups" through the Red Cross and such other relief, charitable and church organizations as might be approved.

But Rep. Michener (R-Mich.) presiding over the House, ruled the amendment could be considered under House rules. He said it was a "very difficult" ruling because of his personal preference would be to "see the Red Cross in the picture."

The ruling came as the House drove into a third day of action on amendments to the bill. Prospects of a cut in the \$500,000,000 total aid the bill would authorize were increased when House Republican Leader Hallack of Indiana lined up with those demanding a reduction.

WASHINGTON Dec. 10 (AP)—Red Cross distribution of food to be sent Europe under the emergency foreign aid bill was proposed in the House today, but failed to get consideration.

Rep. August H. Andersen (R-Minn.) offered an amendment under which two thirds of the food received by France, Italy and Austria would be distributed free among "needy persons in low-income groups" through the Red Cross and such other relief, charitable and church organizations as might be approved.

WASHINGTON Dec. 10 (AP)—Rep. Lehman revealed the bean deal is nearly over now.

Local growers, quick to see the possibilities of a good market for newly grown beans after the storm disasters in the Glades areas had wiped out bean crops, planted an estimated 461 acres of beans in this area as compared with 179 acres last year. This was quite an increase in market business from the \$200,000 bean sales in November, 1946.

Many carloads of beans were sent north by local shipping organizations.

Early cabbage shows a decrease during November with sales of \$7,500 at \$2.76 a unit as compared with \$0,496 of the 84 pound bags that sold for \$22,019 in November, 1946.

Zellwood grown celery in three and five dozen sizes is of fine quality and is averaging about \$4.25 a crate. Local English peas are bringing about \$3.00 and initial cuttings of iceberg lettuce are bringing \$3.75 a unit.

The Sanford celery crop is reported to be coming along slower than was indicated several weeks ago, and local shippers predict that aside from a few scattered shipments there will be no appreciable movement until on or after Dec. 29. Heavy morning fogs, combined with warm dry weather have made many celery growers fearful of blight unless there is a change of weather to cool and rainy. Damage of this nature is reported very light and more of a retarding nature than anything else.

MOSLEM LEADER IMPLORERS ARABS TO FIGHT

A POLICEMAN carries a shield (top) to protect himself from stone-throwing Arabs as he patrols a street in Jerusalem with other officers. In the background is a burning taxicab set afire by demonstrators against the partition of Palestine. Meanwhile, in Cairo, Egypt, the president of the Young Men Moslem's Association, Saleh Harb Pasha, brandished a revolver (bottom) in one hand and a copy of the Koran in the other. He had just concluded a speech at El Ashar Mosque before 15,000 persons calling upon Arabs to fight for Palestine. (International Radiophoto)

### Florida State News In Brief

BRADENTON, Dec. 10 (AP)—Mrs. Dorothy Witt, 30, who remained unconscious for 11 days after being found in a gas-filled tourist cabin here, died at a hospital yesterday.

Archie Witt, 55, her husband, was found dead Nov. 29 in the cabin by a friend who came to invite the couple on a fishing trip. His body was lying in front of a cook stove on which a blackened, scorched pot of crabs had been boiling.

JACKSONVILLE Dec. 10 (AP)—Charles F. Lovan, Jacksonville general contractor and flier, has been missing in his private plane since last night when he was last heard from in the vicinity of Daytona Beach.

Capt. Arthur Stone, operations officer of the Civil Air Patrol, said several CAP planes took off today to search for him.

MIAMI Dec. 10 (AP)—A group of 20 doctors has signed a lease on the 250-bed hospital at the Miami Naval Air Station at Opa-locka.

The hospital, to be known as the North Dade Hospital, will serve all Dade county and particularly the north end of the county, a spokesman for the group said.

MIAMI Dec. 10 (AP)—The body of Dr. Gabriel Turbay, former Colombian ambassador to the United States, arrived here today by train from New York City en route to Bogota.

Colombian consulate officials said they did not know whether the body would be sent by plane today or tomorrow to Colombia. Dr. Turbay, who was Colombian ambassador to the United States from 1938 to 1943 and from 1944 to 1945, died three weeks ago while in Paris.

### Trade Paper Says Large Steel Companies Fight Black Market

NEW YORK Dec. 10 (AP)—Major steel companies are making an effort "to wreck the black market steel racket." The Iron Age metalworking trade weekly, said today.

"Dozens of customers have been thrown off mill order books for gray market activity," the publication reported, adding that the vice-president and general counsel of one major firm "has been given the specific job of tracking down any gray market steel involving his company's products."

Any attack on such operations, the Iron Age said, is a difficult job "because of the great number of customers and the alacrity and experience of some steel consumers in obtaining more steel than they need and selling the surplus at premium prices."

"No system of government allocation or control would have any effect on the steel gray market which involves only 4 or 5 per cent of the total steel being shipped. Nor can the activities of steel companies which are desperately trying to protect their names by searching out gray market dealers make much dent in such transactions as long as demand continues far above available supply."

Commenting on increases effective Jan. 1 in the price of tin mill products, the trade paper said that increased steel-making costs on such products had been absorbed by producers for the past five months, since annual contracts between tinplate makers and canmakers prevented any advance before the end of the year.

Tinplate producers still may be taking some chance because they have no idea of how much more steel-making costs will advance during 1948," it added.

Nothing automobile output "at full tilt" this week. The Iron Age said: "When the last figures are in for 1947 they will probably show that the automobile industry got a greater percentage of available steel than any other group. Although total finished steel production this year will be 28.8 per cent greater than a year ago, automobile makers as a group will receive about 38.7 per cent more steel than they were shipped in 1946."

No major changes were reported in scrap prices, with the iron age steel scrap composite remaining at \$40.25 a gross ton. A Commerce Department commission, said, is starting a new attempt "to uncover" scrap in Europe for use there in an effort to eliminate the necessity for exporting scrap from this country under the Marshall Plan.

Ingot production this week was unchanged at the postwar peak of 98 per cent of capacity, the publication said.

### Wallace Attacks

(Continued from Page One)  
launched. He expressed "wonder" as to where "Brewster got his information."

"Was it right?" Wallace was asked. "My attitude today," he said, "is just exactly the same as it has been right along. If it is apparent that the Democratic Party is a war party, I will do all I can to see that there is a third party."

Wallace added that in his opinion on the Democratic National Administration is a "war party," but he "hoped" a change in "attitude" would occur.

"Frankly, I'd like to see just exactly what President Truman is going to say when he submits his message to Congress," Wallace said in developing the theme that he hoped to alter the Truman foreign policy course which he described as a "Get Tough With Russia" policy.

Wallace said he would like to receive "some assurance" from Senator Howard McGrath, chairman of the Democratic National Committee, that the Democratic Party is not "a war party." He said he had not been invited to talk with the Democratic leaders and that any move "should come from them rather than from me."

McGrath said in New York City last night he would "welcome" Wallace's support in the 1948 presidential campaign, but added he did not have the "slightest idea" the Democratic Party would receive such support.

### 29 In Army C-54

(Continued from Page One)  
plane is capable of transporting 40 persons, it is possible the craft carried only its normal crew of five and cargo. That was not determined immediately, however.

ATHENS, Dec. 10 (AP)—Greek, British and American planes started a search at dawn today for an American C-47 military transport plane missing since last night with four persons aboard.

Hassani Airport officials said they feared the plane—assigned to the U. S. military attaché's office in Baghdad—might have crashed landed in the sea off the Attica coast.

The last radio message received from the crew at about 6:00 P. M. (EST) Tuesday, said they were preparing to bail out somewhere in the Athens vicinity.

The plane was en route from Rome to Athens when it became lost due to bad visibility.

PENDLETON, Ore., Dec. 10 (AP)—An Army ground party planned to search the snowbound Blue Mountains south of here today for wreckage of an airplane reported by a hunter who said there were human bones in the debris.

An Army Air Rescue plane from McChord Field, Wash., carrying 7 men and a jeep, was prevented by snow from landing here to start the search yesterday.

CAA officials are puzzled by the report, and at Portland, E. S. Leach, senior CAA inspector, said the wreckage may be that of a crashed plane—previously located. The CAA has no record of a plane missing in the area which answers the twin engine C-45 description given by the hunter, Henry Davenport, Silberton, Ore.

A number of wartime aircraft disappearances during flights over the rugged coastal and Cascade Mountains have never been cleared up.

KONAWA, Okla., Dec. 10 (AP)—Three men were killed today in a pre-dawn airplane crash near here.

Raymond Reed of the Reed Flying Service at Wewoka reported the small plane took off from there for Duncan at 5 A. M. (CST). The crash occurred a short time later. The plane burned.

Two of the dead were named by the Oklahoma highway patrol as Ollie Bon Martin, Prague, Okla., and C. S. Tucker, Wewoka, Okla. The third man was not immediately identified.

### House Group

(Continued from Page One)  
in this area for economy reasons only, although the location acknowledged is strategic.

The report said, however, that Congress should provide constant "prodding and inquiry" to assure consolidation of separate facilities maintained unnecessarily by different arms of the service.

It urged Secretary of Defense Forrestal to "initiate extensive studies between the services on the topmost level, at the earliest possible date, to insure that local consolidations are made."

The inspection was made by Reps. Jack Z. Anderson (R-Calif.), Risley (R-Okl.), Haverner (D-Calif.) and Holifield (D-Calif.).

### Fliwer Fliers

(Continued from Page One)  
tor and Air Transport Command pilot, made the world-girdling hop in "The City of Washington" named for his home town of Washington, D. C.

Ahead of the two fliers were a civic reception and a press conference at Teterboro and then a trip by motor, under police escort, to New York City for a greeting by Mayor William O'Dwyer and another reception there.

## GOP Rejects Truman Call For Control

President Says Anything Short Of 10 Point Program Will Prove Inadequate

WASHINGTON, Dec. 11 (AP)—Republican leaders today brushed aside President Truman's new call for his 10-point anti-inflation program and pushed their own bill toward approval by the House Banking Committee by nightfall.

Chairman Wolcott (R-Mich.) flatly predicted approval by his committee and told reporters:

"If the President doesn't want it, he doesn't have to take it. Enforcement of the program we propose is discretionary."

At his news conference, Mr. Truman said anything short of the program he has proposed to curb living costs will be inadequate. His program, he said, should be carried out to the letter. This included requests for standby price-wage and rationing author-

## Vigorous Program Offered To Fight Isms In South America

By HILLEE WHEELLOCK  
BUCK FALLS, Pa., Dec. 11 (AP)—A vigorous program by Methodist and other Protestant churches to counteract Communism, Fascism and atheism in Latin America was recommended to the board of missions and church extension of the Methodist church.

The proposals for Latin America are part of a four-year program to double the foreign missionary staff of the Methodist church as well as the present financial aid of the church for missionary purposes in all foreign fields.

They were made yesterday to the board at its annual session by Dr. Ralph E. Dittendorfer of New York, executive secretary of the board's division on foreign missions and for 24 years head of the denominations' overseas service.

Dr. Dittendorfer asked for \$95 new missionaries and a total budget of \$18,741,265 for the next four years. Of the grand total he recommended \$5,120,000 be allocated for Latin American projects.

The wide gap between the rich few and the poverty stricken

## Army Called Out In Rome To Keep Order

First General Strike Since Pre-Fascist Days Is Commenced; Crowds Are Riotous

ROME, Dec. 11 (AP)—The Communist-controlled Chamber of Labor voted tonight in continue Rome's day-old general strike.

ROME, Dec. 11 (AP)—Fighting men of Italy's three armed services moved into Rome late today to help police keep order in the capital, ridden by its first general strike since pre-Fascist days.

With groups of strikers roaming the capital to force the closing of the few business establishments remaining open, the government called out soldiers, sailors and air force men to guard trouble areas.

Police riot squads at countless places had found difficulty controlling crowds, half in a holiday mood, half more menacing. Many of the bands, made up largely of young prisoners, wore Communist Party badges or colors. Dispersed at one point, they popped up promptly at another.

ROME, Dec. 11 (AP)—A general strike directed by leftists closed down all but vital public services and railroads in Rome today, but government and labor leaders were reported to have agreed on broad general lines which might end the multiple walkout.

The Chamber of Labor, which called the strike in protest against unemployment, estimated 500,000

## Six Killed In Pennsylvania Mine Blast

Several More Known To Have Been Injured In Gas Explosion At Mine

WILKES-BARRE, Pa., Dec. 11 (AP)—A gas explosion in the Franklin colliery of Lehigh Valley Coal Company today killed six men and injured at least three others.

A company spokesman announced that six were known to have perished in the underground blast. Names of the victims were not available immediately.

Mine rescue crews and ambulances were called to the anthracite colliery shortly before noon. The mine is located just outside the city.

Company officials said they had no exact information on casualties.

Wilkes-Barre general hospital reported that arrangements had been made there to receive three injured men.

Reporters were told that eight mine workers were in the section when the explosion occurred. Shortly after it occurred the colliery was ordered closed.

More than two hundred men are employed at the Franklin.

## 2 Killed, 9 Injured, 2 Missing In Texas Head-On Train Wreck

NEW BRAUNFELS, Tex., Dec. 11 (AP)—Two Missouri-Kansas-Texas passenger trains collided head-on near here last night and exploded into flames, killing two trainmen, injuring nine other crew members and leaving two of the crew missing.

The two trains ran together ten miles south of here at 11:43 P. M. (CST), the two locomotives stacking on top of each other and front cars telescoping.

Dead were Jack B. Coleman, fireman of Waco, Tex., about 28, and George W. Staunton, a train carman from San Antonio, Tex.

Missing were engineer, Roy Callaway, about 60, of Smithville, Tex., and a negro porter, Will Manney, of San Antonio.

Mickey Patrick, special agent for the railroad, said the two engineers "evidently got their orders mixed up."

Only J. M. Bayless, Arlington, Tex., baggage man, was listed in a critical condition only this morning at the New Braunfels General Hospital.

Mrs. Louise A. Krueger, hospital superintendent, said others injured were Paul E. Hooper, fireman, James R. Petras, San Antonio, and David R. Stanton, Arlington, Va.

Portions of the trains, number 3 headed south and number 6 headed north, were engulfed in flames following the collision and pieces of the engine bodies were blown several hundred yards into a nearby field.

Three of eleven cars on the

## Politics Gets Into Debate On European Aid

Republican Leader Attacks Democrats For Mis-managing Foreign Policies

WASHINGTON, Dec. 11 (AP)—The House got into a rousing political row over the emergency foreign aid bill today shortly after adopting an amendment which may raise the cost of the program to the United States by \$30,000,000.

The uproar began when Republican Leader Hallett (Ind.), speaking in support of the \$500,000,000 measure, remarked that the Democratic Administration "has terribly mismanaged the foreign affairs of this country."

Hallett added that the money is necessary only because of what he called the Administration's mismanagement. He spoke shortly after the House had adopted an amendment by Rep. Jack Z. Anderson (Calif.) directing government agencies, chiefly the Commodity Credit Corporation, to sell surplus products for foreign aid at prices which CCC officials have estimated would mean a \$500,000,000 loss on present holdings.

Rep. McCornack (Mass.), assistant Democratic leader, promptly challenged Hallett's statements and the fireworks were on.

"The time for political speeches and a preview of the 1948 campaign would have been better after the bill has been voted on," McCornack said.

McCornack said Hallett had

## McCarty Talks To Local Residents About Candidacy

Reveals Plans To Run In Demo Primary For Governor In '48

Announcing his intention to run for Governor of Florida, Dan McCarty told a group of local residents at the Mayfair Inn last night that he did not represent any special interest or particular group of people and that if elected he would try to serve the entire state of Florida.

Asked where West Florida began, he said that in Live Oak it began west of the Suwanee river, in Gainesville, it was west of Live Oak, in Sanford it began at Gainesville and in Miami it began at Fort Pierce. He added that as a resident of Fort Pierce, he was particularly familiar with the problems of South Florida, but that he is not running as a South Florida candidate and has many friends throughout North and West Florida.

Mr. McCarty was introduced to the gathering by J. C. Hutchison at a meeting sponsored by Mr. Randall Chase and Mr. Hutchison who said that Mr. McCarty was a citrus grower and cattleman, a graduate of the University

## Coach Fred Ganas Talks To Kiwanis About Basketball

3 Members Of School Team Introduced At Kiwanis Luncheon

Prospects for the Celery Fet basket ball team which is now being hastily rounded into form for a tussle with the Orlando high school team on Dec. 16, were pronounced good by Coach Fred Ganas, in a brief talk to Kiwanians yesterday noon at the Tourist Center.

Three members of the team, guests of Kiwanis, were introduced: Floyd Cooper, Junior; Chuck Herron, Senior, and Clyde Bowen, Senior. The latter, nicknamed "Squirrel," and five feet, five inches tall in height and 100 pounds in weight was pronounced an outstanding player by Coach Ganas who declared, "Don't let his size fool you."

"Squirrel," when called upon to speak, predicted that if the Ganas and he said his players, are not awed by six-footers such as the Seahorse team has.

Coach Ganas exhibited the new basketball uniforms with white shirts and dark or orange trousers depending in use on what color the opposing team will wear. Practice started Monday, he revealed, and pointed out that most of the team has rounded into good physical shape by playing on the football team.

Coach Ganas was introduced by John Leonardy and Dr. Harry Woodruff who had charge of the program.

President Lester Tharp thanked the Kiwanis members for their fine support during the year and particularly commended Secretary Ralph A. Smith.

Frank Lamson, told of the Kiwanis plan of instructing officers which starts with an international headquarters school for district governors, and other schools for lieutenant governors, club secretaries and presidents. He introduced Judge Smith who had earlier declared a mistrial in the case due to the illness of L. L. Frazier, juror, the case was resumed on Tuesday. During the earlier trial two days were spent in the selection of a jury. On Tuesday, the jury was selected by noon, and with Sheriff P. A. Mero, visited the scene of the accident.

Lloyd F. Boyle, who with G. W. Spencer, represented the defendant, told of the conflict of testimony of three state witnesses to the accident with the testimony of another state witness, Mrs. Perry Sizelove, whose testimony, he said, agreed with that of the defendant. This was to the effect that when Patrolman Bender was hit by the truck, he was not standing with one foot on the gas tank of the ditched skelter truck which he was endeavoring to aid in getting out of the ditch but was on the hard surfaced highway and walked into the left front fender of George's car.

Mr. Boyle declared that, according to his testimony, Mr. George swerved to the left when

## George Acquitted Of State Charge In Bender Death

Frederick George, Sanford veteran, was found not guilty of a manslaughter charge yesterday afternoon in Circuit Court in connection with the death of Patrolman C. O. Herndon, clerk, juror, was hit by the truck, the result of having been hit by a truck driven by George on West First Street.

The jury was only in conference about seven minutes before it returned with its verdict, according to O. P. Herndon, clerk, juror, was A. H. Barr, W. G. Anders, W. F. Lodge, Andrew M. Carraway, R. A. Gold and John L. Clark. B. A. Galloway served as alternate. George A. Toles, assistant state attorney, conducted the prosecution.

After Judge Smith had earlier declared a mistrial in the case due to the illness of L. L. Frazier, juror, the case was resumed on Tuesday. During the earlier trial two days were spent in the selection of a jury. On Tuesday, the jury was selected by noon, and with Sheriff P. A. Mero, visited the scene of the accident.

Lloyd F. Boyle, who with G. W. Spencer, represented the defendant, told of the conflict of testimony of three state witnesses to the accident with the testimony of another state witness, Mrs. Perry Sizelove, whose testimony, he said, agreed with that of the defendant. This was to the effect that when Patrolman Bender was hit by the truck, he was not standing with one foot on the gas tank of the ditched skelter truck which he was endeavoring to aid in getting out of the ditch but was on the hard surfaced highway and walked into the left front fender of George's car.

Mr. Boyle declared that, according to his testimony, Mr. George swerved to the left when

## Tests Finished On FM Equipment At Police Station

Tests were completed late yesterday afternoon at the police station's new FM sending and receiving equipment by H. A. Davidson, RCA installation electrician. On Tuesday a steepjack fastened a vertical dipole aerial to the tall pole at the station.

Two police automobiles have been equipped with the FM sending and receiving sets, and one car operated by the County Sheriff and deputies. The Police Department has ordered a new Ford and expects to install new radio equipment on it. It is equipped with radio equipped car, and for the Sheriff to have another Police Department motorcycle to be so equipped.

Work of the steepjack atop the tall pole at the station, a lot of interest Tuesday. To insure his safety, special guy wires were stretched in four directions to telephone poles and other secure places.

"It is hoped that we may be able to contact the Florida Highway Patrol which also uses the FM system," said Police Chief Roy G. Williams. He declared that he was highly pleased with the clarity and freedom from static and interference of the new system which marks another step forward in law enforcement in the City and County.

## Battle Is Fought In Walled City At Jerusalem

British Troops Bar Gates As Firing Is Begun Inside

JERUSALEM, Dec. 11 (AP)—British troops blocked the gates of Jerusalem's old walled city and before noon today as firing in its ancient maze of streets reached proportions which indicated a battle of sizable proportions had broken out between Arab and Jewish inhabitants.

Closing of the gates barred further exodus by both Jews and Arabs, but had been frantically moving out their possessions in army trucks throughout the morning.

Several hundred families already have fled the walled area, which in normal times has a population of about 20,000 Arabs, 2,500 Jews and 4,000 others of mixed nationalities—mostly Americans and Greeks.

A business man from the nearby city, who left the walled region a few minutes before the gates closed, said he had seen dead and wounded Arabs and Jews lying about. The battle apparently broke out when Arabs occupied a synagogue and hoisted their flag over the building. They later were driven out by the Jews. One Arab was reported killed and two Jews wounded in this engagement.

Two Arabs were slain in other disturbances arising in Jerusalem as communal strife resulting from the United Nations' decision to partition the Holy Land entered its 12th day.

## Jaycees Are Told Of Goal In Drive On Sale Of Seals

A goal of \$5,000 has been set in the Tuberculosis Seal Sale for Seminole County for the coming year," Mrs. M. K. Kircher told the Seminole County Junior Chamber of Commerce at their noon meeting at the Mayfair Inn today.

Mrs. Kircher outlined the expenses of the Seminole County J. C. Association and stated that the money is spent for emergency relief, health education, rehabilitation of arrested cases of the disease, milk for the patients, medicine bills, transportation charges for patients being moved to hospitals and numerous other expenses.

"We are endeavoring to educate the general public to the need of a yearly x-ray checkup which can be obtained free of charge at the county health office," Mrs. Kircher added.

"We need laws to assist in the prevention of the disease and to send tubercular patients to hospitals where they can be treated," Dr. Frank Quillen of the Seminole County Health Unit said.

Vice president L. L. Tucker, in the absence of President Harold Odham, appointed Karl E. Hest, holder to work with the board of directors to develop a recommendation to the County Commissioners for the zoning of the county similar to the City zoning ordinance.

Jack Ratigan reported that a sign advertising Sanford is being set up on the approach to the St. Johns River bridge north of the city. Ratigan also stated that five other signs will be erected later. He stated that the Merchants' Association had expressed delight with the Christmas parade and thanked the Jaycee members who assisted.

Fred Stewart and Miss Mary Alice Herndon, Seminole High School students, rendered several musical selections and were accompanied by Miss Ollie Reese Whittle at the piano.

At a board of directors meeting following the luncheon, it was decided to award \$30 each to the Key Club and to Team No. 5 of the Boy Scouts for their entries in the Christmas parade last Saturday.

Vice president Tucker expressed

## 23 Dead 6 Alive In Plane Wreckage In Icy Wilderness

WESTOVER FIELD, Mass., Dec. 11 (AP)—The U. S. Air Transport Command announced today that 23 American military men aboard the plane transport plane that crashed in Labrador's icy wilderness Tuesday night.

A doctor who landed at the wreckage, eight miles north of Goose Bay, reported that 23 were killed in the crash.

Names of the survivors and dead are being withheld pending receipt of a complete report.

A local rescue and snow has prevented any large-scale rescue operations but doctors and medical supplies are being landed by helicopter.

A space has been cleared, within a half mile of the scattered, "barred" wreckage.

The "hot" transport plunged flaming into an ice-forested hillside on the approach to the St. Johns River bridge north of the city. Ratigan also stated that five other signs will be erected later. He stated that the Merchants' Association had expressed delight with the Christmas parade and thanked the Jaycee members who assisted.

Fred Stewart and Miss Mary Alice Herndon, Seminole High School students, rendered several musical selections and were accompanied by Miss Ollie Reese Whittle at the piano.

At a board of directors meeting following the luncheon, it was decided to award \$30 each to the Key Club and to Team No. 5 of the Boy Scouts for their entries in the Christmas parade last Saturday.

Vice president Tucker expressed

## Christmas Party Is Being Planned By Tourist Club

Plans for a Christmas entertainment on Dec. 18 at the Tourist Center which will again feature the singing of the Seminole High School Glee Club, were made last night at an enthusiastic gathering of members of the Sanford Tourist Club, augmented by local residents.

About 50 were present, and in the absence of C. E. Esterly, club president, E. M. Armitage, Chamber of Commerce director of tourist activities, presided. Mrs. Armitage served as acting secretary.

Preparation for the Christmas entertainment a decoration committee was appointed. It was planned to have a large, lighted tree in the main hall. A committee was also appointed to direct the serving of refreshments to entertaining artists, members and guests.

The date of the next meeting was set for Monday, and each Monday the club will be kept open for use of members and their friends. Shuffleboard and horseshoe courts will be kept open on week days, and inter-city meets are expected to be held in the near future, Mr. Armitage announced.

Sixteen new members were admitted to the club, and following the close of the meeting everyone went to the shuffleboard courts which were filled to capacity.

The outlook is very encouraging for one of the finest tourist seasons Sanford has ever had, Mr. Armitage said this morning.

## Britain Makes Trade Deal With Russia

LONDON, Dec. 11 (AP)—Britain will receive a substantial quantity of Russian grain under terms of a trade agreement announced today by J. Harold Wilson, president of the Board of Trade.

Newspapers speculated this might mean the end of bread rationing for Britain.

Wilson, back from talks at Moscow, told the House of Commons the agreement "includes quantities, prices and detailed terms and conditions for the shipment to Britain of a substantial quantity of coarse grain out of the 1947 Russian harvest." The House cheered his announcement.

## Wallace Is Against U.S. Aid To China

BUFFALO, N. Y., Dec. 11 (AP)—Henry A. Wallace declared today that Governor Thomas E. Dewey "out-Truman Truman" in favoring aid to China and espousing universal military training.

The former vice president, reiterating his opposition to financial help for China and compulsory military training in the United States, said at a news conference:

"I hesitate to say whether Dewey is a water-down version of Truman or the President is a water-down version of Dewey."

Wallace, currently on a speaking tour of upstate New York, contended that no help should be given to China because its government is led by Chiang Kai-shek, whom he called a "Fascist dictator."

## Scattered Sections Of Nation See Snow

By ASSOCIATED PRESS  
More snow fell over scattered sections of the country today and temperatures in some parts of the Midwest again dropped below zero.

The snow areas today included the eastern Great Lakes region and into New England and New York State; parts of North Dakota and Minnesota and the Pacific Northwest. Rain was reported along the Gulf Coast and fair weather over the Central and Southern Rockies westward and in most of the central plains states.

The coldest weather again was centered in North Dakota and Minnesota. The lowest early morning temperature, six below, was reported at Grand Forks, N. D., while Minneapolis' low was -3. Ten below was forecast for northeastern North Dakota tonight. Temperatures in the eastern snow belt area were around freezing.

## China Resells War Surplus To America

SHANGHAI, Dec. 11 (AP)—The Chinese government is reselling to America and other world in general at least 2,000,000 tons of Pacific island war surplus which China received in settlement of a wartime U.S. debt of \$174,000,000.

This was disclosed today when a contract was signed whereby the Bethlehem Steel Corp. will buy approximately 1,000,000 tons of scrap for \$30,000,000.

The sale was announced by Ralph Ring, general agent of United States Lines, who acted for Pacific Far East Lines. The latter firm will move mountains of scrap from dozens of Pacific islands in 100 shiploads during the next 18 months.

## Senator Asks WAA To Aid Farmer

WASHINGTON, Dec. 11 (AP)—In a move to help alleviate the fertilizer shortage in the South, Senator Stennis (D-Miss) is asking the War Assets Administration to release big storage tanks to farmers in that area.

Stennis told a reporter he has written Jess Lawson, war assets administrator, asking the agency to make available to farmers a special type of tank suitable for storage of anhydrous ammonia, a fertilizer.

The tanks were used at ordnance plants during the war, the senator said, and have been included in equipment declared surplus.

## Greek Charged With Cremating Relative

SAUROLITO, Calif., Dec. 11 (AP)—George Kasolas, 68, today was charged with shooting his nephew, then cremating the wounded man on a gasoline-fed pyre.

Kasolas, who lived on a houseboat in San Francisco Bay, is arrested yesterday after a 90 minute stand against some 75 policemen, sheriff's deputies, state highway patrolmen and guards from nearby San Quentin Prison.

They said he fired only once, a homemade shotgun slug, in return.

The nephew, Pete Hadzes, 56, was wounded two hours earlier with a homemade shotgun, then burned to death on the waterfront near the houseboat.

Police Chief James Doyle quoted Kasolas:

"Pete owed me money. He no longer paid. What would you do?"

He said police found six wallets containing \$2,650 in Kasolas' pockets. He reported the leather-faced, aging Greek and his nephew had been feuding five years. He said Hadzes owned the boat.

## Judge Herlong To Address Legion Post

Judge Sydney Herlong, Jr. of Leesburg, will speak on the subject of Communism to Legionnaires Monday evening at the supper meeting of Campbell-Lansing Post 53 at the Legion Hall. It was announced by Joel Field, adjutant. The active role taken by the Legion in the fight against Communism will be cited by Judge Herlong, Mr. Field declared.

A Christmas party will be held and the supper will be served by Mrs. G. H. Carlson at 7:00 P. M.

The admission to the meeting will be a toy to be given to the Elks for presentation to needy children at Christmas time. The date of the Legion movement will be discussed, according to Adjutant Joel Field and he urged that Legion members bring along an eligible member.

## Monroe Bridge Opens As Plane Taxis Thru

William G. Wurn, bridge tender at the Lake Monroe crossing has opened the bridge for the past six years for all kinds of boats on a sub-chamber to a war training boat and even a pile driver, but on Tuesday morning he got the surprise of his life when out of the dense fog a seaplane, evidently forced down by lack of visibility, taxied up the St. Johns River and signaled to be let through.

The nearby railroad bridge, hand operated, was opened and Mr. Wurn swung the mechanically opening highway bridge so that the plane could make its way on Lake Monora toward Sanford. Identity of the plane has not yet been revealed.

## FIRE INSPECTION

Firemen are making a thorough inspection of buildings and the business section in order to discover possible fire hazards and to acquaint them with buildings.

Today firemen Colla Godwin and J. R. Crow reported a very fine spirit of cooperation from those occupying buildings in aiding in the work. Tomorrow the inspection will be by Lieut. J. W. Harner and C. M. Whitten.

## FREEDOM TRAIN

COLUMBIA, S. C., Dec. 11 (AP)—The Freedom Train made a 18-hour stop here today on its 33,000-mile journey around the country.

Governor J. Strom Thurmond and other state and city officials spoke at a brief ceremony preceding the public inspection.

Army bands from Fort Jackson were assigned to play at intervals during the visit.

## CELESTY CUT

The first Sanford celery of the season was today cut on the farm of C. A. Hinton and was packed by Chase and Co. It was reported that the celery was of extra fine quality and took the company's "top" label. Sizes were heavy, running to three and four.
