From the "head gardner at the Mayfair" comes a magnificent bouquet of petunias in recognition of our recent tribute to the Mayfair's petunia's. What a pleasant world this would be if everycatch more flies with petunias than you can with brickbats?

Governor Duft of Pennsylvania is on mighty solid ground in urging big business to lead the fight against inflation by starting a drive to, roll back prices. If retail prices do not come down, big labor will persist in its demands for higher and higher wages, which would eventually cost big business more than a cut in prices would now. And a cut in prices would cut the ground right out from in under big labor's new wage demands.

We are glad to see the "powers" that be" in Sanford getting after the "Cuba" and "bolita" gamblers in this section whose racket has flourished during the war years to an unprecedented extent. Now that conditions are getting back to normal, there are not many people who can afford to lose the week. And, as indicated in this most of the selling is done to neg- she was built. roes who can least afford to lose.

And the first thing you know they are the only voice that can be heard. That years. has happened in Poland, Yugo slavia, Bulgaria, Rumania, Hungary, and now Czechozlovakia, all since the recent war ended. And yet there are some people in this country who are so fat-head-ed that they still insist the Com-

We hope that every Sanford person read the story in Tuesday night's Herald on the present night's Herald on the present needs of American education. Five billion dollars a year more than is now being spent is needed to give our children the kind of an avages of the 12th century now of the Indian wars. Sanford has been very fortunate in the past in not the Russians have been putting having any real disasters which called for large expenditures of money for rehabilitation work, but we cannot count too heavily on luck in this respect continuing indefinitely. One never knows when disaster will strike home and it is the better part of foresight to be prepared for it.

Florida itself was not so fortunate last year. On account of hurricanes which were followed by exceedingly destructive flood conditions lasting for many weeks, immediate relief was needed to provide for thousands of homeless persons and to help repair their damaged houses. As a result, more than \$750,000 was spent by the Red Cross in Florida last year, though this state had contributed only \$300,000 to the national organization.

When such disasters strike, there is no time to put on a drive to raise funds, to gather experienced relief crews and trained personnel. Something has to be done at once, or people will starve, suffer from cold and disease, and die of exposure. The American Red Cross is the only agency organized on a national scale, fully equipped and adequately financed to cope with such situations.

Army And Liquor

"From the way some mothers talk, you would think the army had invented sex." This harried remark with which a War Department official relieved his feelings Communist drive has slowed down might have included drunkenness as well. Tectotallers are to a crawl. However, this is due admittedly not common in the army; but official figures to the fact that Moscow already suggest that the military establishment is not doing a bad job with the alcohol problem. In fact, the Army may be doing better than civil life.

New York Giants Baseball School **Comes To Close At Airport Site**

The New York Giants 1948 has aball school is nearly at the end of the session, Carl Hubbell, director of the Giants farm system stated yesterday.

Sign Contracts The Giants returned nearly 40 youngsters to their homes yester-day afternoon, leaving but a dozen aspirants in the Municipal Air-

port camp, "We have signed some mighty gold looking players from the school, but we are not sure that any of them will make the grade." Manager Hal Gruber of the Sanford Giants entry in the Florida

State League said today, The youngsters signed will be brought back to the Giants spring coaches and scouts, who will be bere to conduct the spring drills. Eddie Montague, Gianta scout, said that he likes the looks of neveral of the youngsters signed to Sanford contracts, and they will be of great assistance to the Sanford club when the baseball wars are on this summer.

"We are looking to get several players optioned to the Sanford club after the spring drills open," Gruber stated. Anti-Poll Tax Bill Given Approval By Senate Sub-Group

Demands Of Southern Southerners Told ings Brushed Aside: To Clean Hands 7 States Affected

RICHMOND, Va., Feb. 27, (P)— A House of Delegates Committee today approved unanimously Governor William M. Tuck's plan to keep President Truman's name, if he is renominated, off the presiden-tial ballot in Virginia. The bill was amended in two major particulars before being approved by the house privileges and

elections committee. One change would permit minor parties not on the Virginla ballot four years ago to get on the ballot if they qualify in ten other states, thus making it possible for the party of Henry A. Wallace to appear. A second amendment provides that only the state convention of a party may instruct its electors how to cast the vote of the state for President. Originally, the bill would have permitted this power to be delegated by the convention to

the state committee. WASHINGTON Feb. 27 (AP)--Anti-poll tax legislation was approved today by a Senate Rules Subcommittee which brushed asid must clean its own hands. a southern senator's demand for hearings. The measure would let
