terest to a very high extent with Rep. E. Pope (Sandy) Bassett (R) of Maitland the one legislator who has shown his real interest in Seminole by keeping in touch with his constituents and informing the press. Thus any improvement along the line of com-

munications will be a vast improvement for Seminolians. But, as we said, this is only a first step and, when implemented, will disclose the unhappy fact that this county does not have the kind of legislative representation which allows the legislator to know his constituency or the constituency to have representation

THE BIG HURDLE

There is one step which can be taken in Seminole County, however, which has already been accomplished in Orange County-our legislative teaminate. This is the formation of a responsible and active County Council of Local Government.

But there is a Seminole County Board of Commissioners and it will be for them to now show their recognition of the import of this move by the Seminole-Orange legislative delegation to be more co-operative and more communicative even with those legis-

lators who have been uncommunicative in the past. Few understand that the county commission very much a creature of the legislature and that a very close relationship between the commissioners and the legislators is important and urgent.

not surprising. The growth and expansion of governmental responsibilities to the extent which is now being experienced and which will balloon in the months and years ahead has, to be frank, overwhelmed the county commission, as well as the state legislature, This is not unique to Seminole County, the state

of Florida and its municipalities. It has had historic and rather tragic impact from coast to coast. But here in Seminole there is such a new spirit of co-operation-even by necessity-and such an inwelcome move by the legislators could start a freeing

force that would encourage the kind of vigor and vision which must be produced! Global Comment:

Sanford's Marina Termed A Dump

By BILL SCOTT

The sunken Sanford Marina docks received attention at this morning's Greater Sanford Chamber of Commerce executive committee meeting when C. Vernon Mize, member, moved to suggest that the three groups involved with the city-owned facilities sit down together and discuss the situation with the Chamber Banker's Committee

The topic was brought before the committee by George Touhy, chamber president, who advised the problem was a three-corner hassle between the marina lessee, city commission and

He said the dock manufacturers claim the Lake Monroe facility docks, which has been leased to Monroe Harbours Inc., to operate, had not been given proper maintenance and there is a disagreement between the city and the lessee over who is responsible for the dock sinking in the west marina. Touhy stated the chamber should serve as a cata-
