

NO SINGLE GIRL should forget that a bachelor who always knows how much change he's got in his pocket is a poor marriage risk. **FAVORING** Second outnumber streets called First is no longer news. What's called, I'm told, is streets called Fifth outnumber streets called Quart. ... If YOUR HAIR loses its luster, that could mean you're anemic. A medical fellow extends such ailments of the bloodstream have a way of dulling your hair.

BLONDES—Odds run 64 to 36 the young bachelor in any state bordering Canada will marry a blonde. So reports a Chicago statistician. Can't understand that. There aren't that many more blondes than brunettes. Blondes must marry often. Consider your girlfriends. Do the blondes among them record more marriages?

OPEN QUESTION—How do you account for the fact it's easier to teach a male parent to talk than a female? **MISTER, YOU'RE** not the man you were five years ago, believe that. At least, a specialist named Robert C. Cook says so. The cells of your body almost completely replace themselves, hair, brain, everything, in five years, he reports. **MOLLY O'FLANNAGHAN** says she collects things alphabetical. Like S hooks, I beams, T squares, B hives, A frames, C clamps and G strings. Can you think of anything she ought to add to her collection?

CUSTOMER SERVICE—Q "Can a private secretary be compelled to testify against his boss?" A. So far as I know, she can. On occasion, in some places, a man's wife, his lawyer, his doctor, even his minister in certain instances, can't be so compelled. A private secretary ought not be called upon to reveal her employer's secrets. Just as no newspaperman should ever be required to disclose his sources.

CONSIDER THIS—You don't hear much about the wives of professional football players. But they're significant to the outcome of the game. A loss may be the wives' fault. To some degree, anyhow. Jealousies run strong. They're competitive. More so than their husbands maybe. If they're not dealt with properly, they can wreck the spirit and the instincts without damaging the muscle and the bone. Such is the claim of a team physician.

ARE YOU IN POSSESSION of some old cotted pain that needs to be straitjacketed? Pour it through a lady's nylon stockings.

WHAT ANIMAL has the most natural enemies? Among fish, it's the herring. I think. ... **THE AVERAGE LIFE IN-SURANCE** policy has about eight times as many words in it as this column ordinarily carries.

Your questions and comments are welcomed and will be used in PASS IT ON whenever possible. Please address your letters to L. M. Boyd, P. O. Box 9066, Seattle, Wash. 98109.

ANALYZING RESULTS—Checking a print-out from FTU's newest computer are Dr. David R. Falconer, right, and Information Systems Director Bill Morris, Dr. Falconer, who has designed a computer link between FTU and the University of Florida, has been appointed Associate Director of Information Systems at FTU. He lives with his family at 611 Brookside Drive, Maitland.

Kirk Opens All-Out Drive To Best Askew In Vote

With ostentatious reminiscence of his successful 1966 campaign against the late Robert King High, Gov. Claude Kirk has started an all-out effort to paint a liberal label on Democratic opponent Reubin Askew.

Kirk, preparing to share some of the limelight that shines on President Nixon's visit to Florida today, attacked Monday with accusations of being "a permissive liberal" like Hubert H. Humphries and LeRoy Collins.

Askew also was "a pesty powderpuff for the pollsters," the Republican governor said as he swung into the final weeks of his re-election campaign.

Kirk also said Askew's tax reform program would end up as a tax on food and medicines even though Askew insisted it would only tax corporation profits.

Kirk stamped the Lakeland area and addressed the Florida State Federation meeting before returning to Tallahassee. He joins Nixon in West Palm Beach today and appears with the President at Miami Beach rally tonight.

Chiles Is Optimistic Of Winning

By THE ASSOCIATED PRESS
Democrat Lawton Chiles planned to keep up his walking campaign in the final days of the U.S. Senate race, but Republican Bill Cramer was hoping the side into office ahead of President Nixon's popularity.

Chiles drove his camper to Lake Apopka near Winter Garden Monday, then took a boat ride over the polluted waters. "I can remember when Lake Apopka was considered the best bass fishing in Florida," the 46-year-old state senator said. "Now, it's a green, bubbling, like a yeast, pool."

"This lake did not get into this condition overnight. It has been mired for years, but it's not dying for the past 20 to 30 years," he said. "It's a shame and an example of what all our lakes can be like if precautions aren't taken now."

Talking to campaign workers in St. Cloud, Chiles was buoyantly optimistic of winning. "The road is on with nine days left of walking," he said. "I'm ready to work hard this week than ever before. I'm going to continue to walk."

When Bill was running for election, he promised you he would not vote for a pay raise for state legislators. He kept his promise to you. He voted against the pay raise and voted to uphold the Governor's veto.

Bill Fulford spoke up for you in Tallahassee. Now you can speak up for him on November 3rd.

Unable To Recover Stolen Items Burglary Victims File Charge

By BILL SCOTT
A Longwood couple's problem in obtaining a search warrant, to enable authorities to enter a Sanford apartment to recover property stolen from their home, came to light today after the Herald yesterday revealed two persons were held in the county jail after possession of stolen property charges had been dropped.

Sibyl Coombs, in a disclosure to The Herald, said it took from 2 p.m. Saturday, Sept. 19, until ten-thirty a.m. the following Sunday to get someone to issue a search warrant, so officers could search a Park Avenue apartment to recover household items stolen Sept. 15 from their 850 Grand Street home.

Arrested in the raid were Richard Drebbow, 26, and Janet Kunselman, 27, who were charged after several items listed as missing by the Coombses were found in a closet at the apartment.

The two have since been freed after having been held in detention 10 days after Thomas Speer, assistant state attorney, said that Sanford Detective Roy Wil-

wood police managed to get Justice Lovett's secretary on the phone and, according to Mrs. Coombs, she told Chief Swaff (Continued on Page 1B, Col. 5)

5 Bond Issues Before Voters

By FRED VAN PELT
Five bond issues will be offered for approval or disapproval by the electorate in the Nov. 3 elections. These will be a two-way vote on all five issues: Freeholders (land owners) will vote their desires and non-freeholders will express their choices. This two-way vote is deemed necessary since the question is now in the courts whether a non-freeholder should have the right to vote for ad valorem taxation on privately owned lands.

Parks, Recreation Lands Principal referendum in dollars requested is to provide moneys for the purpose of purchasing lands for parks and recreation. The county seeks to raise \$1,680,750 in the sale of bonds for this purpose.

Juvenile Detention Facility Another referendum is for a vote on the question of selling bonds in the amount of \$25,000 to pay the cost of construction of a juvenile detention facility. Juveniles now are placed in the county jail for lack of other facilities.

Mental Health Facility A third referendum will be decided on the question of selling bonds in the amount of \$25,000 to pay the cost of construction of a mental health and incompetency facility. Seminole County has been using Orange County facilities, when feasible.

Branch County Office A fourth question for the voters will be a bond issue in the amount of \$25,000 to cover the cost of construction of a branch county office building in the southern part of the county. Officers now are maintained in rental space at Seminole Plaza.

Agricultural Center Final referendum before the electorate will be a bond issue in the amount of \$10,000 to pay the cost of construction of a new agricultural center building. Agricultural extension offices now occupy the building once condemned as the "county poor farm."

Titusville Well Permit Rescinded By State DOT

The City of Titusville would have "a pleasant report tomorrow." It was later learned that the permit for the test well was revoked by the DOT, and would not be re-issued without the approval of the Seminole County Commission.

Commission Chairman John Alexander had contended that the well could not be permanently located on the public right-of-way and that this was illegal action on the part of the DOT.

Local Canal Cost Is Attacked

By MARION BETHEA
"If this project goes through, the only people who will benefit are certain corporations with an increase in land values" (for lakefront property). So stated S. B. (Jim) Crowe at a meeting of the County Commission yesterday in which he presented remarks of the possible effects of salt water intrusion into the county's water table if the St. Johns Indian River Canal becomes a reality.

Chairman Refutes Charges

John Krider, chairman of the St. Johns Indian River Canal District, in rebuttal to statements made by S. B. (Jim) Crowe, said that "Crowe has been making these statements for the last 6-8 years" Krider said that the district was created in 1902 to ascertain if the canal is feasible and that this would be further discussed at the hearing on Nov. 20.

Commission Chairman John Alexander had contended that the well could not be permanently located on the public right-of-way and that this was illegal action on the part of the DOT.

One resident of the Geneva area told the Commission that the 16-inch well was being dug and requested that the Commission forego the operation to cease. Mrs. Margaret Cammack told the board that the same problem was experienced when "Mackie bought 1,500 acres for (Continued on Page 1B, Col. 1)

FLORIDA'S FUTURE AND YOURS! For Governor **REUBIN ASKEW** DEMOCRATIC CANDIDATE FOR GOVERNOR

Askew's Career Varied From Churchman To Politician

By DAVID L. LANGFORD
ST. AUGUSTINE (UPI) — A high sun burned on the wings of the plane as it took off from the runway at the Seminole County airport and headed for the north.

Earl Wells, Askew's publicity man, whispered aside: "During the runoff we got off the plane at this little airport and I said, 'Look, there's a reference to the candidate, who was telling them how he once heard the call to preach.'"

"The church is very important to me," said Reuther, O'Donovan Askew, who was a newsboy, bootblack, paratrooper, lawyer and editor in the Presbyterian Church on his way to winning the Democratic nomination for governor of Florida.

He talked about how he was born in Muskogee, Okla., one of six children, and moved to Pensacola as a small boy. He told about how at the age of 9 he built the largest magazine trade

in the county and later worked as a shine boy in a barber shop.

At 17 he got special permission to join the state guard, in the waiting months of World War II and later enlisted in the Army, working his way up to buck sergeant in the 52nd Airborne Division.

He heard public speaking at giving TI & E (Troop Information and Education) lectures to GIs, he says.

Upon discharge Askew enrolled at Florida State University

to study public administration. "I always wanted to enter politics," he said.

He was elected president of the sophomore class, later president of the Student Society and graduated as the most distinguished military student in the ROTC. He was commissioned a second lieutenant in the Air Force and sent to France with an aerial reconnaissance unit. That was during the Korean War.

Afterward, he earned a law degree at the University of Florida. He practiced law in Pensacola, became a prosecuting attorney, and in 1958 he was elected to the Florida House of Representatives.

Askew has built his campaign around a call for tax reform, specifically a corporate income tax. He calls himself a "fiscal conservative." And he is less than liberal on the race issue.

"I oppose massive busing," he told UPI. "The courts are on a tangent trying to equate busing with equal opportunity."

LOVE AND WAR—Writes a physician: "When a young man complains to me about some mysterious numbness in his arm, I always ask him how long he has been married. Usually, it's less than a year. This is a phenomenon frequently observed by neurologists. The male nervous system syndrome, by neurologists. The male nervous system syndrome, by neurologists. The male nervous system syndrome, by neurologists."

Florida Tech U Searches For Mascot, Nickname

By HARRY (HERKY) CUSH
Despite its youth, Florida Technological University is quite proud of its achievements in the field of education. It well it should be.

Academic "status" has come to FTU in three short years since its inception in 1968. So what's all this have to do with sports?

Well, it seems while the school has made great strides toward its primary goal — education — there are a few problems FTU hasn't solved. One involves the naming of a mascot of a nickname.

FTU President Charles N. Millican has announced that a three-member committee has been assigned the task of solving the mascot situation.

Selecting a mascot or nickname for a new school falls into two categories, easy and

hard. In most cases a mascot pops up quickly. The "Hurricane" tag came easily to Miami. As did the "Gator" for Florida and "Seminoles" for Jacksonville State. Jacksonville quickly "captured" the "Dolphin" as its mascot.

Are all the good mascots taken? By no means. FTU has its choice of many and a chance to select something different.

A quick scan of top colleges across the country finds a few schools using "Rockets" as their nicknames. Since the Kennedy Space Center only a few miles away.

"Pinto" is a name familiar to many and only recently was used by a leading automobile manufacturer for its newest creation. And with rosters be-

coming quite popular in Florida the "Pinto" tag might catch on. Since everything is "wild" nowadays, how about the "Wild Pintos"?

We have heard about the situation and it's quite different. Since FTU does have the high academic rating and is anxious to retain it, how does "Scholars" strike you?

That's the date of the first basketball game and FTU students are hoping they will have more to yell for than just FTU of the Black and Gold.

ought not keep apples and fresh-cut flowers in the same enclosed container, I'm told. Apples give off ethylene gas. It's said to wilt flowers, particularly carnations. . . SEX OF OFFSPRING in mammals and most insects is determined by the male parent. Not in moths, birds and butterflies, though. In them, the female determines it. . . IT'S NOT THAT THE Capricorn girl is exactly boy-crazy, says our Planet man, but it is a fact that when she falls, she falls hard.

CUSTOMER SERVICE—Q "Who said, 'You can put all the talent in Hollywood into a flea's navel and still have room for two garaway seeds and an agent's heart'?" A. Sounds like Fred Allen. Will check further. . . Q "Is it true the inventor of the modern flush water closet was an Englishman named Sir Thomas Crapper?" A. It is.

CONSIDER THIS—The college crowd just doesn't read books, evidently. The surveyors say the average college student now sees 20 minutes of every single book read. Still, maybe it's understandable. I remember how disappointing college was. Suddenly there was no time to read, at least not the kind of literature long before he gets to college, he never will, I suspect.

MIGHT AS WELL mention your skeleton weighs about 32 pounds, if average. . . HOW DID WE COME by the notion cats like cream? Most don't. Not especially. . . JUST 6 OUT OF every 100 convicts in U.S. prisons are tattooed.

MALE AND FEMALE—Castnets, those little clam-shaped instruments that Spanish dancers snap between their fingers, always come in pairs with gender. A castnet that clicks the high note is the female, the one that clicks the low note is the male. Only mention this because it ticks was long to get something in about sex.

MEDICAL REPORT—Gallstones, overactive thyroids and malignant tumors. Those are what women are most often operated on for. What men are most often operated on for are ruptures, hemorrhoids and peptic ulcers. So states a medical bulletin.

Your questions and comments are welcomed and will be used in PASS IT ON wherever possible. Please address your letters to L. M. Boyd, P. O. Box 90068, Seattle, Wash. 98139.

Municipal Merger To Be Aired

By BILL SCOTT
Consolidation will be the featured theme at a luncheon of the Greater Sanford Chamber of Commerce directors meeting at the Sanford Civic Center Thursday.

On hand to relate the Jacksonville story to directors and guests will be Claude J. Yates, a former Southern Bell Telephone Company official and member of the board of directors of the Jacksonville branch of the Federal Reserve Bank of Atlanta.

Yates, who delivered the "Yates Manifesto" on Jacksonville's city-county governmental consolidation, is credited with being partly responsible for starting the consolidation at Jacksonville. Yates is a 1920 graduate of Bowling Green College at Bowling Green, Ky., and held a M.A. degree.

He was employed by Southern Bell and held numerous responsible positions with the telephone company from 1920 until he retired in 1965.

Following his retirement, Yates was elected president and chairman of the board of Industrial America Corporation, a holding company, where he served until his Sept. 1, 1970, retirement.

Broken Legs

Democrats Trot Out Three Winning Candidates

Florida's registered Democrat voters have presented a ticket for the Nov. 8 elections which names three competent, vigorous, courageous men for United States Senator, Governor and Congressman from the Fourth District who are strictly in step with the times and who should be treated with comfortable majorities.

We have already endorsed Senator Rubin Askew of Pensacola as eminently fitted to be the next governor. Every day of this final week of campaigning bears witness to the soundness of this choice.

Today we endorse Senator Lawton Chiles of Lakeland as the best candidate for Florida to send to the United States Senate where his characteristics of independent thought, cool appraisal and ability to see fundamentals of complex issues is greatly needed.

We also would return to Congress, U.S. Representative Bill Chappell of Ocala. Here is a legislator whose record in the Florida State legislature of professional ability prepared him for his first term in Washington where he has become identified with consumer interest issues.

It is Senator Chiles, however, whose successful campaign as the "walking senator" from the "pan-handle" to the "keys" to win the Democratic nomination breathed new life into this year's "friendly season."

Here is a personable, intelligent, sincere, honest and youthful politician (in the best sense of that abused word) who decided that it was the voter who counted. Not the prepared organizational rally. Not the hand-outs to the mass media. Not the glib phrase

nor the fancy wording.

Senator Chiles tackled the apathy, the "my vote won't count" excuse, the break-down between those who govern and those who are governed, with the only effective weapon.

He communicated. This he accomplished so that the Democrats with an almost three-to-one official registration over the Republicans, were enlivened to a new sense of involvement.

If the 1,008 miles the long-legged, bronzed and athletic Chiles strode during his 92 days from Century to Key Largo in the primary race did no more than that, he would have won an historic spot in the political annals of Florida.

The Askew-Chiles primary victories did, without doubt, light new fires under the Democrats and

so startle the Republicans so that the true strength of this Democratic drive may be assessed by its White House led opposition.

Floridians are being treated to the extraordinary spectacle of the President of the United States shedding his robes of office and donning the garb of political party campaigner and invading the Sunshine State to bolster the fading fortunes of the GOP nominees for U.S. Senator and Governor.

When all of the fuss and fury of the campaign dies down, as it will, Floridians may well draw a deep breath of comfort and thank the Democrats for shining State to bolster the fading fortunes of the GOP nominees for U.S. Senator and Governor.

When all of the fuss and fury of the campaign dies down, as it will, Floridians may well draw a deep breath of comfort and thank the Democrats for doing what is so desperately needed: Providing candidates whose election will return good government to Florida at the state level and send to Washington men whose concern will be Florida oriented.

Printed News

Criticism has a salutary effect upon journalists. The producer of printed journalism invariably stands to profit by both favorable and unfavorable criticism.

Such a service apparently has been done by Herbert Brucker for the Oct. 10 issue of Saturday Review. In "Can Printed News Save a Free Society?" Mr. Brucker uses his long and fruitful experience in journalism to answer that question.

He takes full account of the new journalistic media and their impact, adding: "Fortunately, print is unlikely to disappear. Facts, ideas, emotions, and meanings, fixed in print, are too valuable to give away entirely before the vacuum mind that seems to be induced by the vacuum tube. So, no matter how much they may change, newspapers should survive."

Mr. Brucker illustrates in several ways how the media differ as conveyors of news. One of the better examples is the old and the new presidential press conference as he explains it: "Today's press conference is a TV spectacular, a ritual of showmanship dominated by the President. Newspaper reporters have become but actors. They never follow up a question, because time and their numbers forbid. Besides, it would take a breath of individuality to ask the President, before watching nation, 'That's all very well, Sir, but why don't you answer the question?'"

"This printed journalism helps to press for answers to pertinent public questions. — New Orleans (La.) Times-Picayune

Dressing Up

People invited to a \$100 per plate fund raising dinner for California legislative candidates were started to find a footnote: "Refuse food dressing 25 cents extra."

Democrats Trot Out Three Winning Candidates

Florida's registered Democrat voters have presented a ticket for the Nov. 8 elections which names three competent, vigorous, courageous men for United States Senator, Governor and Congressman from the Fourth District who are strictly in step with the times and who should be treated with comfortable majorities.

We have already endorsed Senator Rubin Askew of Pensacola as eminently fitted to be the next governor. Every day of this final week of campaigning bears witness to the soundness of this choice.

Today we endorse Senator Lawton Chiles of Lakeland as the best candidate for Florida to send to the United States Senate where his characteristics of independent thought, cool appraisal and ability to see fundamentals of complex issues is greatly needed.

We also would return to Congress, U.S. Representative Bill Chappell of Ocala. Here is a legislator whose record in the Florida State legislature of professional ability prepared him for his first term in Washington where he has become identified with consumer interest issues.

It is Senator Chiles, however, whose successful campaign as the "walking senator" from the "pan-handle" to the "keys" to win the Democratic nomination breathed new life into this year's "friendly season."

Here is a personable, intelligent, sincere, honest and youthful politician (in the best sense of that abused word) who decided that it was the voter who counted. Not the prepared organizational rally. Not the hand-outs to the mass media. Not the glib phrase

THE BLITZ

Helen Fuller Says:

Tax-Financed Freight Trains?

WASHINGTON — Unless you live deep in the backwoods you are near one of the new super-highways. And so you know what a difference this vast transportation web is weaving in all our lives.

It is no secret that the constant roar of diesel-powered trucks smogs up the air we breathe. Nor is it a secret that the way we have arranged things the trucks are essential to sustaining us in the way of life to which we have become accustomed.

How would we get the lettuce, celery, fresh fruit, fresh fish, even underwear, sheets and towels, if those big interstate trucks were not running on the lines coast to coast?

But is this the smart way for the human race?

Those who look beyond this week and this month, have doubts. They are beginning to ask whatever happened to the railroad train.

Recent studies show that in terms of fuel — and consequently in air pollution — diesel trains can carry loads forty times more efficiently than trucks. But the trains are backed off the board, because they can not make a profit.

This fact calls for new thinking. Social security took some getting used to. So, I suppose, before our time, did the postal system all of us depend on and we never paid it! Way.

The railroads are in the same class.

With the tremendous growth in population that is ahead in the next twenty years we can look forward to a greater surge of trucks to supply our mounting demands for what they can haul.

There is a limit to how many trucks even the superhighways can accommodate.

When President Eisenhower signed the Federal Interstate Highways Act in 1954 he had no clue to how far the world would roll. He was thinking of the immediate need, not the final effect.

President Eisenhower could not have anticipated that the population of our country would grow by 70 per cent more than it was in 1945 — or that this growth in numbers of people and numbers of cars would call for one million more acres given

Political Notebook:

Buckley Tops, Ottinger Fades

By BRUCE HOSSAT
NEA Washington Correspondent

LOS ANGELES (NEA) — In a late cross-continent telephone check, I have been advised that New York's Democratic nominee for the U.S. Senate, Rep. Richard Ottinger, has personally done what others were supposed to do to him — stripped away priceless lead ground and put himself in danger of defeat by Conservative party challenger James Buckley.

Ottinger, leading both Buckley and incumbent Republican Sen. Charles Goodell by what seemed a healthy margin a month ago, has been staggering downhill ever since.

The experts' original script had it that Ottinger, coming strong off a late June primary victory rooted in heavy costly television exposure, could only be pulled within range of defeat if many liberals and moderates deserted him for Goodell in their rage over Vice President Spiro Agnew's anti-Goodell assaults.

In the ensuing weeks however, Ottinger has just been blowing it. In television debates with his rivals he has been creamed. On the issue front, he has been coming across soft and mushy.

As I noted in an earlier report, his identity factor was not nearly as high as his spry and nimble opponent, Buckley. Watching him campaign on busy streets in upper Manhattan, I saw hundreds of people fall to recognize him.

There was irony in this, for

Evil Practices Invading Area

By JANE CASSELLERY
Herald Staff Writer

Voodoo, witchas, devil worship, and sorcery — do these come out of pictures of the dark continent, and superstitious savages or maybe the Dark Ages?

As the use of LSD and other mind-bending drugs have increased so has the interest in ancient black arts and rituals both in England and this country. The satanic confusion of hallucinogenic drugs, sex, and witchcraft, are not new as during the past centuries, and on the history of man—the Dark Ages—these were used in the most sadistic and vile rituals, which often even included infant sacrifice.

A modern example of the terror of mixing drugs with black arts and rituals is the Sharon Tate murders allegedly committed by the "Manson Family."

Many innocent and ignorant people were put to death in horrendous ways with poisons and we had our own in Salem. But now with no fear of being

Don Oakley Says:

Crafts Training

By DON OAKLEY,
NEA Editor

No matter how much money the government devoted to education, there would be calls for more. Yet for every \$14 of federal money invested in universities, only \$1 is spent on vocational education.

Vocational education is a forgotten stepchild with no powerful lobby in Washington looking out for its interests.

But conventional education, on which we spend so much money in the belief that it is the answer to poverty, does not eradicate or even reduce poverty. Poverty would be reduced not by opening new universities but by offering education with a vocational purpose, says Marvin J. Feldman of the U.S. Office of Economic Opportunity and director of the vocational task force on educational and social problems.

He proposes a national system of vo-ed with the federal government supplying funds for the initial cost of buildings and materials. Another method would be performance contracts with private institutions to provide the education for the same

Letters To The Editor

Sophomore Slaps Spiro

Editor, Herald:

Sticks and stones will break my bones and so might Agnew's name calling. For the past few weeks, Spiro Agnew has been going around the country inflaming the passions of the people while amusing others.

Under the first amendment to the U.S. Constitution, people are entitled to the freedom of religion, speech, press and assembly and so is Mr. Agnew. It is perfectly proper for a vice president or anyone else, to go out and campaign for people, everything would be fine if that was what Agnew is doing. But Agnew is attacking "the basis of democracy."

Is it the Vice President of the United States who is accusing political and non-political people of being "self-styled revisionists, Marxists," "Pro-Nazi Brownshirts," "a draft card burner of Republican credentials," "radical libs," and "Christine Jorgensen's of the Republican Party?"

Mr. Agnew is becoming an embarrassment to members of his own party as well as to the people of the United States. What Agnew is doing is undignified and frankly ugly, for a man of that position. Mr. Agnew's actions are noticed not only at home but also abroad.

Does the United States defend light in knowing that other countries are aware of this political backstabbing? The one thing the United States doesn't need to lose is any of the little prestige we have. Agnew has done nothing but stir up trouble.

"Police arrested 39 demonstrators outside the Pittsburgh Hotel where Agnew spoke."

At first it appeared that Agnew was trying to light a fire under the pants of political figures for some action, but the constant attacks and sneering of Goodell, and now Muskie, Harris, Jorgensen, and the students of America have proved that the state's highways in 1969, the state Department of Public Works reported.

One God

Editor, Herald:

I want you to know that my wife and I heartily agree with you on your articles especially the one where you mentioned the way young people respect their people. They don't want to listen to anything, but how about everything. When we were youngsters we had respect for our seniors and would listen. And I want you to know that a lot of people agree with you.

When the parents of this generation begin to take a hold of their children and bring them up as they should be then our country will be a better place to live in.

We are with you 100 per cent. Glad for some people who will stand up and be counted regardless of race, religion, or whatever we are. There is only one God and believe me some people are sure going to have some answering to do when the time comes.

We are daily readers of your column.

Mr. and Mrs. C. A. Sumner

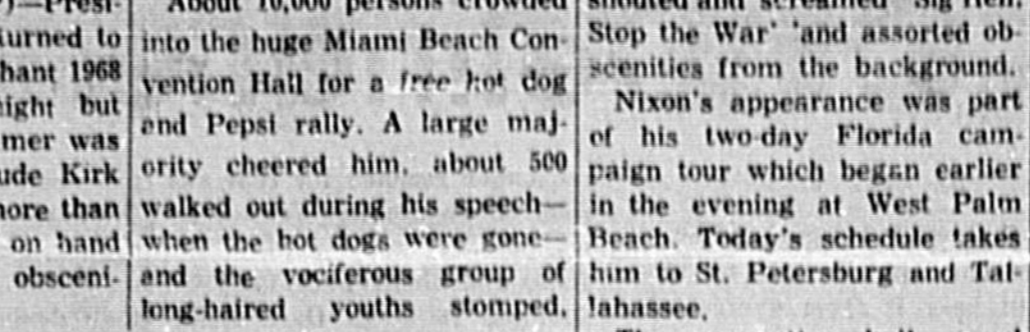

Cost Of Litter

On television each afternoon is a scary soap opera known as "Dark Shadows" with a hero who displays vampire tendencies in his lovelorn and futuristic such weird goings on as love between live and dead characters, grave robbing and child wifehoof.

It is said to be very popular among drug addicts and vulnerable young children. On the day prior to the first of the stars grave desecrations I noticed the state's highways in 1969, the state Department of Public Works reported.

President Stumping Florida For Cramer And Kirk

MIAMI BEACH (AP)—President Richard Nixon returned to the scene of his triumph 1968 nomination Tuesday night, but this time Rep. Bill Cramer was in his arms. Gov. Claude Kirk was in his lap and more than 200 young people were on hand to barrage him with obscenities.

About 10,000 persons crowded into the huge Miami Beach Convention Hall for a free hot dog and Pepsi rally. A large majority cheered him, about 500 walked out during his speech—when the hot dogs were gone—and the vociferous group of long-haired youths stomped, shouted and screamed "Sig Heil, Stop the War" and assorted obscenities from the background.

Nixon's appearance was part of his two-day Florida campaign tour which began earlier in the evening at West Palm Beach. Today's schedule takes him to St. Petersburg and Tallahassee.

The convention hall crowd was composed of not only elderly Miami Beach residents who generally supported the President.

Florida's "Big Three" Republicans were on stage with Nixon to share the limelight. U.S. Sen. Edward Gurney came on first. He boosted Cramer, vice U.S. Senator, his own said of Kirk: "He's got the guts and courage to stand up for the people."

At this, about 500 Kirk sign-bearers stood and waved their placards. The walls of the hall were ringed with Cramer signs. The only Kirk signs were hand carried.

Kirk followed and drew loud boos from the hecklers when he said "four people" would be unhappy if he is re-elected: "Huntley, Brinkley, Cranike and The Miami Herald."

Nixon, just off his helicopter from West Palm Beach, arrived at that moment and took the podium. He held up his arms in his traditional "V" salute, holding Cramer's hand with his right fist and Kirk's with his left.

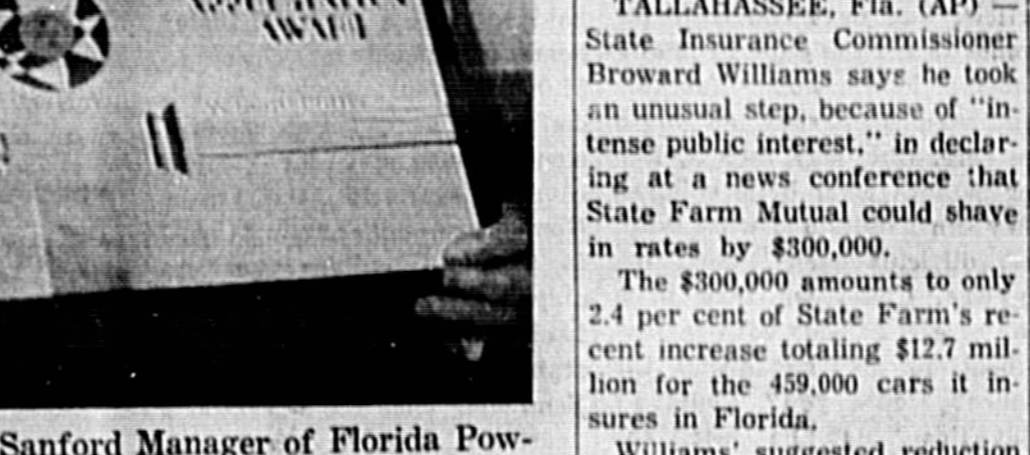

Then Cramer introduced the President to the crowd, saying

the decision to go into Cambodia. "How sweet it is to have the President of the United States back in Florida. The state of Florida loves you and supports you."

At that point the hecklers screamed and yelled, drowning out Cramer.

After they subsided, Cramer said: "There are a few hecklers in the background but look, Mr. President at the people who support you as I sat at the White House when you made

Auto Insurance Cut By State Farm Seen

TALLAHASSEE, Fla. (AP)—State Insurance Commissioner Broward Williams says he took an unusual step, because of "intense public interest," in declaring at a news conference that State Farm Mutual could shave in rates by \$300,000.

The \$300,000 amount to only 2.4 per cent of State Farm's recent increase totaling \$12.7 million for the 459,000 cars it insures in Florida.

Williams' suggested reduction would amount to saving \$2 cents on an average annual increase of \$28 on each policy in force.

"Normally, we don't release these figures at this point," Williams said in an interview. "In fairness to them, we should get with the company officials so that they can point out to us if there are any errors."

Williams said his act would be in conference with State Farm officials late this week and next week to review his office's specific findings in the 23.6 per cent State Farm increase.

Under existing law, the company can voluntarily reduce its rates if the state finds them excessive. If it chooses not to do so, a formal hearing must be held and, at its conclusion, the insurance commissioner can order a rate reduction.

"The reason we held the news conference," said Williams, "was because of the intense public interest in this. The public feels more comfortable," he wanted to allay their fears that nothing's being done to help them," he added.

Biennial Budgets Proposed

TALLAHASSEE, Fla. (AP)—Give us biennial budgets or give us the money to hire more budget makers. Agriculture Commissioner Doyle Cramer pleaded Tuesday in behalf of state agencies.

"The time has come for biennial budgets or to put enough people on the payroll to serve where they need to serve," Cramer said at the opening of the North Florida Fair.

"We have a job to do and the Legislature must put at our disposal tools with which to do that job," he said.

State budgets were made up for two-year cycles until the Governmental Reorganization Act was passed in 1969 with a requirement for yearly budgets.

Opposition to annual budgets has been mounting, with Cabinet members in the lead. "Zarfle" put this week. Comptroller Fred Dickinson urged a return to yearly budgets.

Apartment Industry Booming Through U.S.

MIAMI BEACH (AP) — Within the next five years, it is estimated that one out of every two new housing units built in this country will be an apartment.

Despite rising costs, the apartment industry is booming, with the government playing an increasingly large role, industry sources say.

In 1968, apartments accounted for about 40 per cent of the approximately 1.4 million new housing starts, Gerard M. Gross, president of the National Apartment Association, said.

Of the 2.4 million housing units expected to be built in 1975, apartments will account for at least 1.2 million, he predicted in a speech prepared for delivery today before the Mortgage Bankers Association convention.

"The tremendous surge in population among people in the 20 to 34 age bracket, and in those over 35, is fueling this apartment upswing, he said, describing these age groups as "prime apartment markets."

In adapting to these new markets, apartment builders are more and more taking "the environmental approach toward apartment construction," he said.

Many apartment complexes—whether high rise or strung along together in the garden variety—include golf courses, recreation rooms, bars and spas, he said. Family projects, in addition, even had day nurseries with baby sitters facilities, he added.

Second In Two Weeks

Two Russ Hijack Plane

By NICK LUDINGTON
Associated Press Writer
ANKARA, Turkey (AP) — Turkish authorities today questioned two Soviet students seeking asylum after the second successful hijacking of a Soviet plane in two weeks. There was speculation that the hijacking would harden the Soviet government's attitude toward two U.S. generals whose plane crossed into Soviet Armenia last week.

The Turkish government sent state security police and an interpreter to Sinop, on Turkey's Black Sea coast, to investigate. Anatolia said the pair had been flying from Kersb to Krasnodar, north of the Black Sea, when Glinov and Paderiy took it over. One other passenger was aboard, Yuri Derzhinov.

Eliminate Causes of Delinquency

By RAY KNIGHT
So, what happens after we get out of school? What will keep it from overcrowding, isolation, no better than a jail? That will depend on the community's heart. Backing up a staff with heart, and providing individual foster homes to give homeless kids a heart to go on. There must be a resolve that the juvenile home will never need to be enlarged.

Our goal of all out victory over delinquency includes turning the detention home into a youth hostel or social center for all youth some day—soon. This means working now to eliminate the causes of delinquency in Seminole County, regardless of cost in efforts and sacrifices.

Strikes And Snares
BY JOHN A. SPOLSKI
Got a couple of 'mists'... to start this week's column. After all, how many times does a bowler roll his first 300 series, or... how many times does a bowler lay claim to currently having the highest woman's single game for the league? (Better mention it before someone else gets real hot...)

Last week, while reviewing the exploits of the Deltona Pin Busters League (as you might have already guessed), I covered all of the high games. Well, almost, how... cause the one which I omitted was coincidentally the current high single game.

Boxing Slated Tonight
Amateur boxing returns to Sanford tonight under the local promotion of R. G. Kondracki. The fights are set for 8 p.m. at the Sanford Armory. Headlining the card is the main event which pits Kip Braden, 160, Tampa, against Victor Perez, 154, Sanford. The two met several weeks ago in an exhibition, while both were members of the Sanford Boxing Team. Both fighters felt the other "spared" just a little harder than he should have, and both fighters have been looking forward to this fight tonight.

He Did It; But, Out Of League
It's a familiar story to many of us... oh, how well we remember those big scores; unfortunately, it was during a practice game. And then when it came time for league action, we tried too hard and it seemed like that first 200 game would never occur, or that big 600 was always spoiled because of one low game of the three game set.

Reggie's Back On The Beam
We've missed his smiling face around the lanes these past couple of months and are happy to see him back again, pounding the three-pocket. However, his opponents weren't smiling when he finished with the City League high for the week of 213, 219, 268/640. By now you may have guessed, we were referring to Reggie Sigmon. (Now, if we can only cure him of telling those corny jokes...)

Cocoa Is Foe Seminole Homecoming This Weekend

By GREY BOYLES
Herald Sports Staff
This week at Seminole High as the student body and faculty is ready for the Friday night against the Cocoa Tigers. Monday was a "teacher spirit day" as the teachers and administration wore "Goody" clothes. Tuesday was "shoes, sneakers and crazy hat day" and today will be "tricycle day" as races will be held. Thursday will be the signal-calling position, while Kevin Spolski came in off the beach to lead the Tribe in a last period, and threw another apparent TD which was ruled an incomplete pass on an objectional call from the referee.

Clay Has Rough Road To Hoe

By ED SCHUYLER JR.
Associated Press Writer
ATLANTA (AP) — The U.S. Supreme Court and Bob Foster stood today as the two major blocks to a heavyweight title fight between Muhammad Ali and champion Joe Frazier, a fight that easily could be the richest in history and one of the best.

Monday night's fight was shown on closed circuit television to 200 locations, with 900,000 seats, in the United States and Canada. It also was beamed to South America, Europe, Australia, Asia and the Soviet Union.

On the possibility that you may be new to the area, and aren't aware of the fact that we do have two excellent youth bowling leagues here at the lanes, may I take the time to introduce you to our young Bantam bowlers... ages seven through 12; and also the slightly older Jr.Srs who take to the lanes at 1 p.m. The Bantams bowl at 9:30 p.m. Incidentally, both of these leagues have immediate openings for three or four boys or girls to become regular and participating members of a team.

CROOMS tries desperately to get on the scoreboard during action with Lyman last night. In the photo (left), the Panther signal-caller lets fly with a pass; in the photo (right), Henry Freeman (24) leaps in vain to catch that same pass, but it falls incomplete as two Lyman defenders are right behind him. Freeman was in the end zone when the pass slipped through his hands. (Gary Taylor Photo)

Lyman Baby Greyhounds Outplay Crooms Panthers

By MOSE PERKINS
Herald Sports Staff
Last night at Longwood Stadium the Crooms Panthers played the Greyhounds of Lyman. Lyman was victorious by a score of 14-0.
The Greyhounds kicked to Crooms at the start of the game. Henry Freeman barely returned the ball eight yards. The Greyhounds' strong defense kept the Panthers from getting a drive going.
Crooms tried to punt on fourth down but the ball was blocked by several of the Greyhounds. Brent Poole picked up the ball and carried it straight into the end zone for a Lyman TD.
After Lyman had kicked to the Panthers, Henry Freeman fumbled the ball making it first and ten for Lyman. On fourth down Lyman punted and Freeman's return was five yards.
Matt Leslie quarterback of Lyman threw a TD pass to Rod Dowling. The conversation was good. Lyman had a 15-0 lead at halftime.
In the second half Lyman kicked to Crooms once again. Charles Hill returned the ball 14 yards. The Panthers punted on fourth down.
The Greyhounds fumbled the ball and it was recovered by Jim Steffens of the Panthers. The Panthers could not get a drive going. In the last quarter Lyman punted and Freeman returned the ball 55 yards.
Charles Hill ran very hard in the second half trying to get a Panther drive started. Steve Richards, Jim Steffens and Charles Hill fought very hard to win but were unsuccessful.
There were many sport fans from Sanford at Lyman's game, but the Panthers couldn't pull off a win as they ended their season 2-3-4.

Close Ones Are Hard To Lose

By LARRY NEELY
Herald Sports Staff
Close ones are the hardest to lose. Although the Oviedo Lions went down 20-10 to Umatilla last Friday night, they didn't do it without a hard fight. In some respects Oviedo did win a few things, undoubtedly a victory would have been better if it had been total.
After seemingly getting off on the wrong foot offensively after the opener with Seminole High the Lions finally came in offensive efforts such as they did the last quarter of the game with Umatilla. Oviedo's hopes will be much brighter for the remainder of the season. With a 2-5 record something is going to have to give and soon to put them on top for the season.
The biggest problem facing the Lions seems to be their inability to get everything working at one time. Against Apopka the defense wouldn't quit but the offense almost did and in the Lakeview outing nothing was working any too well for Oviedo. With the type of competition facing Oviedo, they have to get everything working reasonably well if they are to get things going for them once again.
With four successive road games facing them they will be at somewhat of a disadvantage but then again the Lions upset Apopka in the Blue Darters' own back yard which indicates that the Lions can win on the road if they want to. Oviedo meets Come Friday in Cardinal territory and neither team will walk away with the game without a hard fight. Oviedo has what it takes to win. It's just a matter of putting it all together and making it work.

FOOTBALL TRAINERS' ROUNDUP

By THE ASSOCIATED PRESS
The Florida football teams that were losers last week concentrated Tuesday on avoiding the same mistakes the coming weekend. Florida State, a winner last Saturday, concentrated on keeping its timing sharp.
FSU's Seminoles met the University of Miami Hurricanes in Miami's Orange Bowl Friday night.
Coach Bill Peterson stressed the passing game as the Seminoles worked out in pads.
Peterson said it looked like key running back Arthur Monroe would not recover from an injury in time for the Miami game.
Monroe broke a bone in his left wrist during the Seminoles' victory over South Carolina last Saturday.
The Hurricanes, meanwhile, tried to eradicate the errors that cost them a victory last week against Pittsburgh.
Coach Walt Kichek said he would concentrate on smoothing the offensive game. He also said he expected Dieter Mathis to return to the lineup after missing the first four games of the season because of an injury.
Florida A&M, which dropped a game to Tennessee State last week, was also working on mistakes as it prepared to meet Tuskegee Institute at home Saturday.
Battlers' Coach Pete Griffin said, "None of our opponents really beat us. We beat ourselves. We've got to try and eliminate those mistakes and not beat ourselves in the future."
Two battlers, linebacker Leroy Jackson and cornerback Harry Passmore, might miss the Tuskegee game because of injuries, Griffin said.

FTU Coach Is Greeted By Several New Coaches

By HARRY "HERKY" CUSH
Herald Sports Staff
Turnovers, as any basketball buff can tell you, are not a surprising aspect of the floor sport. At least this is what Florida Technological University head coach, Gene "Torchy" Clark, thought before this season.
However, a certain form of turnover, that of player turnover, has surprised Clark to some degree.
In greeting candidates for the 1971 FTU team Clark was surprised to see only five members of last year's team in the group. "I didn't think there would be that large of a turnover in just one year," explained Clark.
There were three seniors on last year's team which meant a dozen roundballers were eligible for additional service. Failure of the "lot" seven to show up this year hasn't prompted Clark to do any soul searching.
"If I had my choice of players on last year's team who were eligible to return I would have picked the five who did show up," commented Clark.
In evaluating his team at this stage Clark is "satisfied with the type of players and what we've been doing." Clark does feel his crew can play representative ball but wouldn't venture a guess as to how many games they'll win.
As is the case with most non-scholarship schools FTU will be without the real big boardman, but hope to make up for it with speed.
And speed is plentiful on the FTU squad. Four of the five returnees are 6-1 or smaller but two of them led the Black and Gold in scoring last season.
Leading FTU in scoring during its initial campaign was Mike Clark, a 6-1 sophomore.
The son of the FTU coach set an average of 24 points a game last season. Although he did lead the team in scoring last year Coach Clark feels his son is more of a playmaker.
Clark has a few newcomers that he expects to be big contributors. Junior Mike Malone, 6-3 sophomore; Steve Barry, 6-1 junior; Bob Griffin, 6-4 junior; and Mike Clancy, 6-3 Fitzgerald, a 6-2 senior transfer from Florida State. Fitzgerald played for Clark at Appleton High School in Wisconsin two years ago. It was Clark who got Fitzgerald to attend FSU on a scholarship. But Fitzgerald didn't like it and decided to return to the other holdover and another member of the "mugny corps." He's one of the many quick guards Clark can call on.
Another letter winner at FTU, but not on the varsity, is sophomore Randy Greenwood. The 18-year-old Greenwood is up from last year's freshman team. And at 6-5 is the tallest member of the FTU varsity, Jesse, Clark, Mathis, and Jenkins were all starters last year but this is not to say they have won the nod this year. Clark has a few newcomers battling for starting jobs.
Leading the pack of newcomers is a new face to FTU but not new to Clark. He's Pat Fitzgerald, a 6-2 senior transfer from Florida State. Fitzgerald played for Clark at Appleton High School in Wisconsin two years ago. It was Clark who got Fitzgerald to attend FSU on a scholarship. But Fitzgerald didn't like it and decided to return to the other holdover and another member of the "mugny corps." He's one of the many quick guards Clark can call on.

GREG ROBINSON, (30) leaps high in the air to attempt a shot while a Brevard defender is also off the ground, in an attempt to block it. The Raiders will be opening their season in mid-November. These same two teams meet this Friday night on Brevard's home court. Seminole won the first game 73-50.

Losers Concentrating On Correcting Miscues

By THE ASSOCIATED PRESS
The Florida football teams that were losers last week concentrated Tuesday on avoiding the same mistakes the coming weekend. Florida State, a winner last Saturday, concentrated on keeping its timing sharp.
FSU's Seminoles met the University of Miami Hurricanes in Miami's Orange Bowl Friday night.
Coach Bill Peterson stressed the passing game as the Seminoles worked out in pads.
Peterson said it looked like key running back Arthur Monroe would not recover from an injury in time for the Miami game.
Monroe broke a bone in his left wrist during the Seminoles' victory over South Carolina last Saturday.
The Hurricanes, meanwhile, tried to eradicate the errors that cost them a victory last week against Pittsburgh.
Coach Walt Kichek said he would concentrate on smoothing the offensive game. He also said he expected Dieter Mathis to return to the lineup after missing the first four games of the season because of an injury.
Florida A&M, which dropped a game to Tennessee State last week, was also working on mistakes as it prepared to meet Tuskegee Institute at home Saturday.
Battlers' Coach Pete Griffin said, "None of our opponents really beat us. We beat ourselves. We've got to try and eliminate those mistakes and not beat ourselves in the future."
Two battlers, linebacker Leroy Jackson and cornerback Harry Passmore, might miss the Tuskegee game because of injuries, Griffin said.

Herald Sports Staff
Lyman's Greyhounds are back on the right track.
There were questions in many people's minds about how the team would react, after playing one bad quarter of football and then losing their first game to Boone two weeks ago.
Those doubts were dispelled, much to the chagrin of the DeLand Bulldogs, last Friday night in DeLand. Lyman completely routed a good DeLand team 47-0. Lyman's Head Coach Dick Copeland was as surprised, as anyone, as to the totality of the Greyhounds' win. Copeland said, "I felt we could win, but I didn't expect anything like this."
Lyman seemed to have everything going right for them, they could have probably taken on any team in the state and beat them. The victory over DeLand was without a doubt the Greyhounds' best game of the season.
It is rather intriguing that the defense that played so poorly in the last quarter of the Boone game, the week before, could play so spectacularly against DeLand. The Greyhound defense held DeLand's offense in check so well that the Bulldogs never came close to scoring a touchdown. (This was the same DeLand offense that had averaged 27 points a game and upset Gainesville High in the first game of the season.)
After the DeLand game, Coach West had only one thing to say about the defense. "Beautiful."
In a game that everyone seemed to do everything right, the player that did more things right, had to be Lyman quarterback Bruce Rose. Rose ran for two touchdowns, and passed for two more. On one of his TD runs, a 24 yard scamper, Rose looked more like a running back than he did a quarterback.
Fullback Bob Florence also played outstanding ball, in a game that he turned in his best performance of the year. The hard running fullback scored two touchdowns and gained over 150 yards rushing.
The Greyhounds travel to Evans this Friday to play the winless Trujano, and they hope to bring home their sixth win in seven games.
Nobody seems to be worried about the Boone game anymore.

Herald Class A Ratings

There was a shuffle in The Sanford Herald Class A Ratings this week as top-ranked Lake City was elevated to Class AA, while second-ranked Leesburg had trouble slipping by a weak opponent for the second straight week.
Venice moved into the top ten for the first time this week. The new number one team is Tampa Blake, the defending Class A champion. They moved to the top after stopping powerful Chamberlain 37-0.
Here is The Sanford Herald Class A Ratings for this week:

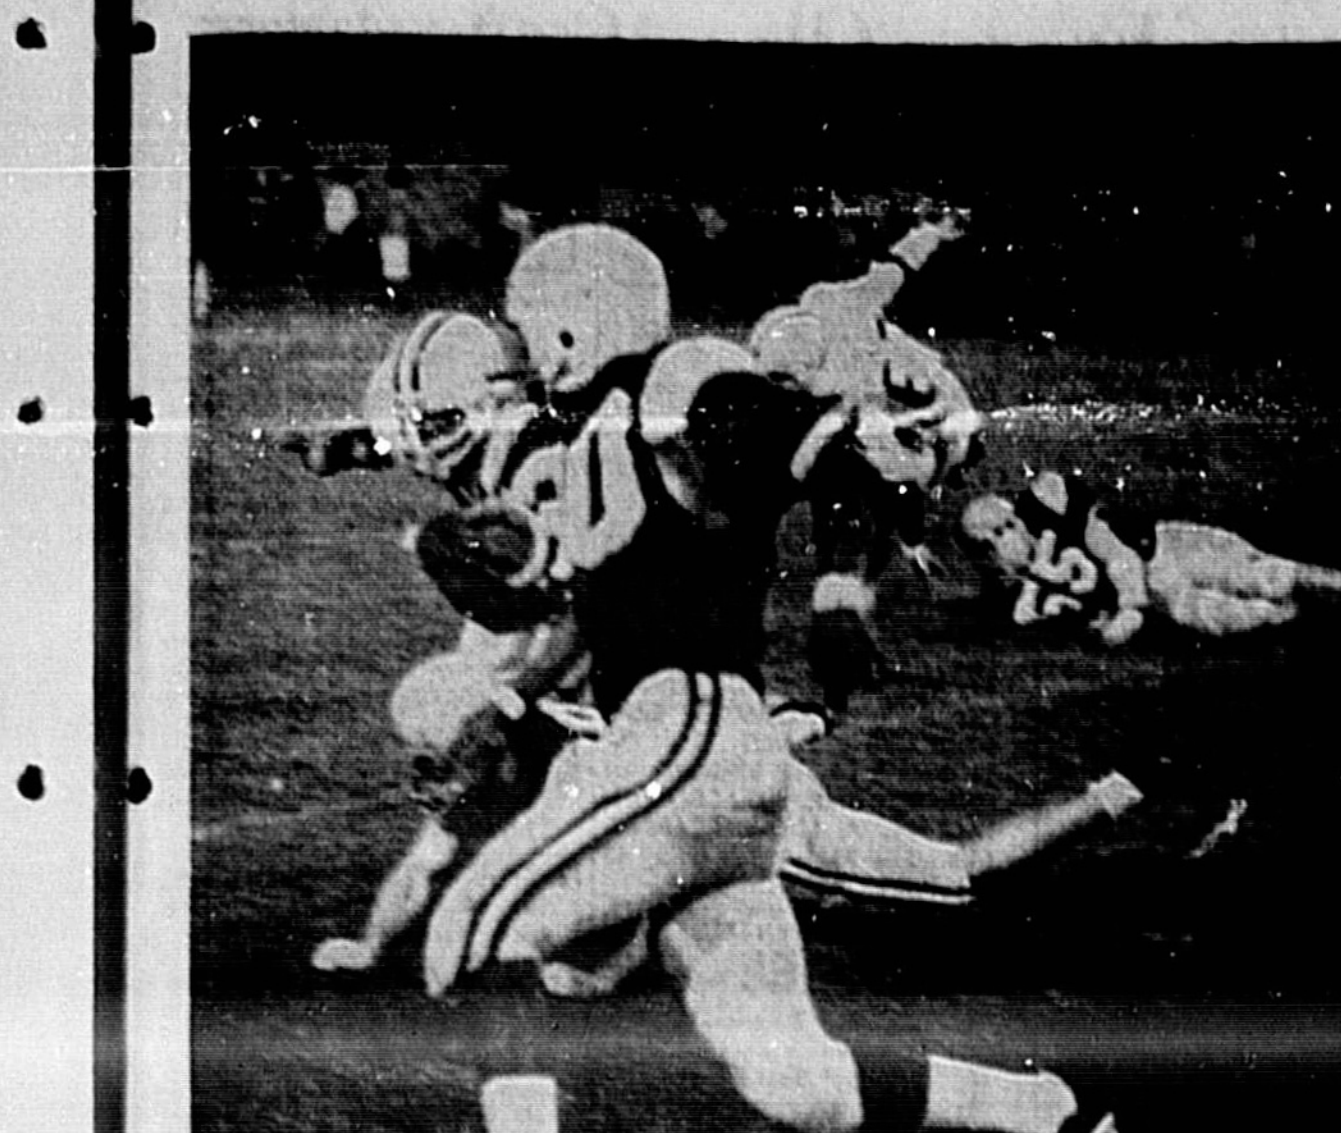

1. Tampa Blake	6-0-0
2. Tampa Middleton	5-0-1
3. Leesburg	6-0-0
4. Live Oak	5-1-0
5. Quincy	5-1-0
6. Bartow	6-0-0
7. Hollywood Chamblade	5-0-0
8. Palatka South	5-1-0
9. Tallahassee Rickards	4-2-0
10. Venice	5-0-0

Sport Shorts

Jockey Eddie Belmonte has had two mounts in the Belmont Stakes. He was third with Dike in 1969 and third again this year with Nasika.
Joe Peplone's June baseball team really beat us. We beat ourselves. We've got to try and eliminate those mistakes and not beat ourselves in the future.
Two battlers, linebacker Leroy Jackson and cornerback Harry Passmore, might miss the Tuskegee game because of injuries, Griffin said.

Greyhounds 'Back On Right Track'

By CLAY HARTSOE
Herald Sports Staff
Lyman's Greyhounds are back on the right track.
There were questions in many people's minds about how the team would react, after playing one bad quarter of football and then losing their first game to Boone two weeks ago.
Those doubts were dispelled, much to the chagrin of the DeLand Bulldogs, last Friday night in DeLand. Lyman completely routed a good DeLand team 47-0. Lyman's Head Coach Dick Copeland was as surprised, as anyone, as to the totality of the Greyhounds' win. Copeland said, "I felt we could win, but I didn't expect anything like this."
Lyman seemed to have everything going right for them, they could have probably taken on any team in the state and beat them. The victory over DeLand was without a doubt the Greyhounds' best game of the season.
It is rather intriguing that the defense that played so poorly in the last quarter of the Boone game, the week before, could play so spectacularly against DeLand. The Greyhound defense held DeLand's offense in check so well that the Bulldogs never came close to scoring a touchdown. (This was the same DeLand offense that had averaged 27 points a game and upset Gainesville High in the first game of the season.)
After the DeLand game, Coach West had only one thing to say about the defense. "Beautiful."
In a game that everyone seemed to do everything right, the player that did more things right, had to be Lyman quarterback Bruce Rose. Rose ran for two touchdowns, and passed for two more. On one of his TD runs, a 24 yard scamper, Rose looked more like a running back than he did a quarterback.
Fullback Bob Florence also played outstanding ball, in a game that he turned in his best performance of the year. The hard running fullback scored two touchdowns and gained over 150 yards rushing.
The Greyhounds travel to Evans this Friday to play the winless Trujano, and they hope to bring home their sixth win in seven games.
Nobody seems to be worried about the Boone game anymore.

SEC Teams Hold Long Practices

By THE ASSOCIATED PRESS
Southeastern college football teams began getting down to serious work Tuesday in preparation for upcoming weekend battles.
Tennessee drilled for more than two hours after taking Monday off as a reward for the 38-7 clobbering the Vols handed Florida last Saturday.
The ninth-ranked Vols worked on natural grass as they sought to polish their game play for Wake Forest in Memphis. Memorial Stadium site of the game, has natural turf.
Georgia's Bulldogs held their first session of hard work for the week but Coach Vince Dooley said midquarter exams probably captured the attention of most players and the session could have been better.
Offensive guard John Jennings of Columbia, S.C., will be one of the co-captains in the week's game against South Carolina. Defensive tackle Sammie Wood of Gadsden, Ala., will be the other homecoming tilt.
Coach Paul Bryant sent his Alabama Crimson Tide through Auburn, Ala. National Manager Harry Walker, 1947 National League batting champion with .263, managed Columbus, Ohio, in the American Association in 1951. In 1956 he led Houston to the Texas League pennant.
Slate will play on an artificial field for the first time this year and Shira said the Bulldogs spent the afternoon working on all phases of its passing game. Slate meets Alabama Saturday. Florida's Doug Dickey drilled the team on pass defense hoping to find a way to slow Auburn's skilled quarterback Pat Sullivan. The Gators met Auburn Saturday but Florida's defensive back corps is two men short because of injuries.
Harbin Clark, playing with a shoulder injury last week, and Ted Hader, suffering from a pulled muscle, are doubtful starters.
Georgia Tech Coach Bud Carson said he was well pleased with his team's 90-minute session Tuesday. Carson said the Jackets' offense "looked as sharp as it has all year." Tech meets Duke at Durham, N.C., Saturday. Both teams have 5-2 records.
Mississippi State journeyed 90 miles to Tuscaloosa Tuesday for a 90-minute workout on Alabama's artificial turf. Coach Charlie Shira said the trip was "well worth the time."

Panthers Are Still Alive

ORLANDO, Fla. (AP) - A partner has come up with enough money to keep the Orlando Panthers active in the Atlantic Coast Football League for at least two more weeks, but six players who decided the future was too insecure have quit the club.
Tom Redmond of Anderson, Ind., met with the 32 players in the Tangerine Bowl Tuesday and promised enough money to get the team to Roanoke, Va., for a game Saturday. He also promised \$3,000 to cover at least half the weekly payroll and said he thought the other half could be raised at the Nov. 7 home game against the Potomac, Pa. Firebirds.
The Panthers, formed in 1966, have a 4-4 record and have averaged about 5,000 fans at home games. Atlantic Coast League teams must pay their own expenses at away games and do not receive any of the profits.
Team officials said the Panthers must have at least 7,000 paying fans at home games to stay in business.
The six players who quit the club included two standouts, tackle Wallace Dickey who played three years for the Denver Broncos and defensive back Tony Goldsman, who played two years with the Buffalo Bills.
Dickey said he would play for the Broncos or the Toronto Argonauts of the Canadian Football League next year.
The other players who resigned were fullbacks Teddy Washington and Hank Jones and defensive backs Joe Stephens and Ural White.
The team's future was so uncertain that players who decided to hold a light workout after the meeting Tuesday found that their uniforms and towels hadn't been cleaned since last week's game.

Cycle Meeting Tonight

A meeting has been set for 7:30 p.m. tonight at the Seminole Motorcycle Shop at 2702 South Sanford Avenue, where the forming of a Seminole County Motorcycle Club will be discussed.
A field meet and scramble races were staged last weekend, and more of these will be held in the future, along with motorcrosses and other events.
For further information, contact the Seminole Motorcycle Shop.

'Beatle's' Testimony Sought

By LINDA DEUTSCH
LOS ANGELES (AP) — John Lennon of the Beatles is being sought as a witness in the Sharon Tate murder trial. The defense wants him to say whether the group's songs could have inspired Charles Manson to violence. "We want John Lennon to testify," a defense source said in an interview Tuesday. "We feel he may want to explain the lyrics."

Differences Expressed By Leaders Nation's Economy In 3-Way Fight

By NEIL GILBRIDE
WASHINGTON (AP) — A three-cornered political argument over whether the nation's economy is improving or getting worse under President Nixon's policies is softening the congressional campaign. "There is no economic upturn in sight," AFL-CIO President George Meany said Tuesday, and added that things could get worse. He cited a 10 per cent rise in living costs and nearly 2 million more unemployed in Nixon's first 20 months in office. Herbert Stein, top Nixon economic adviser, countered by saying the rate of inflation is declining, production output is no longer falling and the general economy is headed for recovery. House Speaker John W. McCormack — a Democrat — chimed in by charging the administration had planned to withhold unemployment after the Nov. 3 elections, a report showing five more major industrial cities with substantial unemployment of 9 to 89 per cent — compared with the national rate of 5.5 per cent. The Labor Department continued McCormack's figures and released the report, but sharply denied any intent to withhold it. "There is absolutely no truth to that," a spokesman said. McCormack and congressmen from other affected states were given a few hours' advance notice in line with usual policy, he added. The report added the Los Angeles-Long Beach, San Diego and San Bernardino-Riverside-Ontario areas of California, along with New Brunswick-Perth Amboy, N.J., and Lawrence-Haverhill, Mass., to the list of substantial jobless areas. That brings the total to 36 of the nation's 150 major industrial areas with substantial unemployment. The report also removed two major areas from the list, Rome, Uta, N.Y., and Kenosha, Wis., because of improved employment, added 13 smaller areas to the substantial jobless list and one — Roundup, Mont. — as a persistent jobless area. It said a total of 626 large and small labor areas are now classified as substantial or persistent jobless areas. Stein, in a speech prepared for a conference in London, renewed a Nixon administration claim that the 5.5 per cent national jobless rate — highest in nearly seven years — was itself overstated because the September job survey was done in the week including Labor Day. "An accident of the calendar," he called it. "This is complete deception. It is plain, ordinary calculated deception. There has not been an improvement and there is no indication that there is going to be an improvement," said the 76-year-old leader of 13.6 million union members in an interview. Stein criticized what he called the "exclusively political" Democratic and liberal Republican candidates.

B52 Bombers Continue Air Strikes Against Red Supply Lines In Laos

By GEORGE ESPER
Associated Press Writer
SAIGON (AP) — U.S. B52 bombers flew more strikes today against North Vietnamese supply routes through southern Laos. The big bombers have flown more than 800 strikes in the region in the past 2 1/2 weeks. Many of the raids are concentrated in a 70-square-mile area just west of the demilitarized zone. The area is south of the Bang Hien River and north of Khe Sanh, and there have been reports of heavy North Vietnamese movement through it toward the northwestern part of South Vietnam. North Vietnam charged Tuesday that many U.S. warplanes, including B52 bombers, at locked Hanoi Village in the northern part of the demilitarized zone last Sunday. "We don't comment on propaganda from Hanoi," said a U.S. spokesman. The B52s have concentrated their raids along a 200-mile stretch of the Ho Chi Minh trail through the southern Laotian panhandle. The campaign is so concentrated that no B52 raids have been flown in South Vietnam since Oct. 10. Despite the massive campaign, sources said, there has been a sizable buildup of North Vietnamese troops in the northern quarter of South Vietnam. Informants said one North Vietnamese division is pushing from the west and is poised just southwest of Khe Sanh, and that one regiment crossed the demilitarized zone and is within 12 miles of the provincial capital of Quang Tri. Tons of supplies were reported moving along a four-lane highway running southwestward from the DMZ into Laos, and then circling around eastward to the north of Khe Sanh.

Titusville Well OK Rescinded

* Continued From Page 1
a trailer park and the county stopped them." Alexander said that the situation differed in that Geneva encompassed a recharge area and is part of the Florida aquifer. William Lichter, of the U.S. Geological Survey, expressed concern of taking a large quantity of water from the area and spoke of the salt water intrusion. He said that the Geneva area is surrounded by salty water and that 10 million gallons of water per day are recharged in the area. He continued that the effect was of a bubble of fresh water floating on salt water and that the portion of 10 million gallons should be retained to keep the salt water down. Commissioner Robert Parker questioned Lichter as to the fact that rumors were to the effect of the operation running 24 hours and asked what a 16-inch well would do to the area running for this length of time. Lichter replied that the longer the pump was in operation the worse the effect. "Mrs. Maria Farmer, a resident of Matlix, who owns property in the Buck Lake area, said that this was a "case of one cork is pulled out of the bottle it lets the salt water in." She continued that it did not seem reasonable to take water from people using it in one area and transmit it to another area. Oliver Mathieu, another resident of the area, said that the permit for the "test" well was issued in Seminole County by the State Board of Health. Further resolution of the matter by the commission is anticipated shortly with the enactment of an ordinance being drafted by Johnson, under home rule, which will give the county power to regulate the drilling and operation of wells where water is transmitted from the county to areas outside of the county.

CENTER of the controversy in the "test" drilling is this rig on the site in Geneva, Fla. (Liz Mathieu Photo)

Jury Probe Of Police 'Political'

By LARRY NERLY
ALTA MONTE SPRINGS — The investigation into the police department by the Seminole County grand jury at the request of the office of State Attorney Abbott Herring has "political motivation," according to City Manager Rolfe Wagner. Wagner told The Herald this morning that the grand jury is conducting a probe into law enforcement agencies in the county just to accomplish political goals.

Burglary Victims Complain

* Continued From Page 1
Wagner stated that the state attorney's office had informed the city that it is conducting another investigation. The city official said that when he pointed out that the State Police Standards Council had performed a similar probe into all the law enforcement agencies in the state that the investigator became "angry with me and left in a huff."

Defendant Is Moved

Sylvia Tobia Powell, 37-year-old restaurant hostess, charged Monday night by Seminole County Sheriff's authorities with murder in the shooting death of her 32-year-old husband, was transferred yesterday to Brevard County for safe-keeping. The Herald has learned. Mrs. Powell was arrested a month after Henry Porter Joyce, a Baltimore truck driver, was also charged with murder in the death of Maynard G. Powell of Lake Monroe.

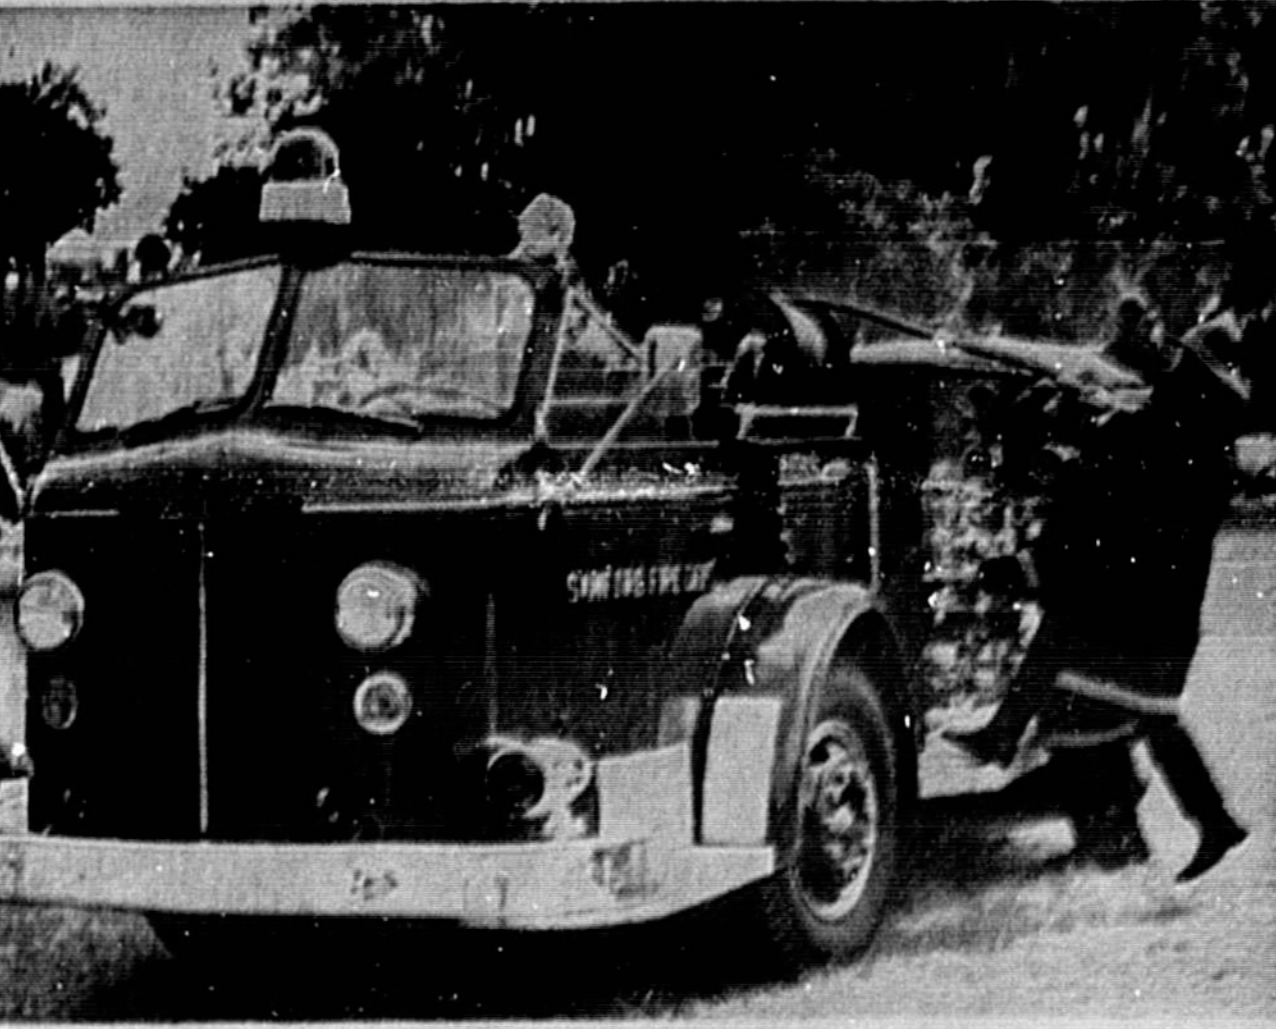

Area Deaths

FRANCES HUGHES — Miss Frances Mae Hughes, 70, of Miami died Monday at La Posada Nursing home, Miami, in charge of arrangements.

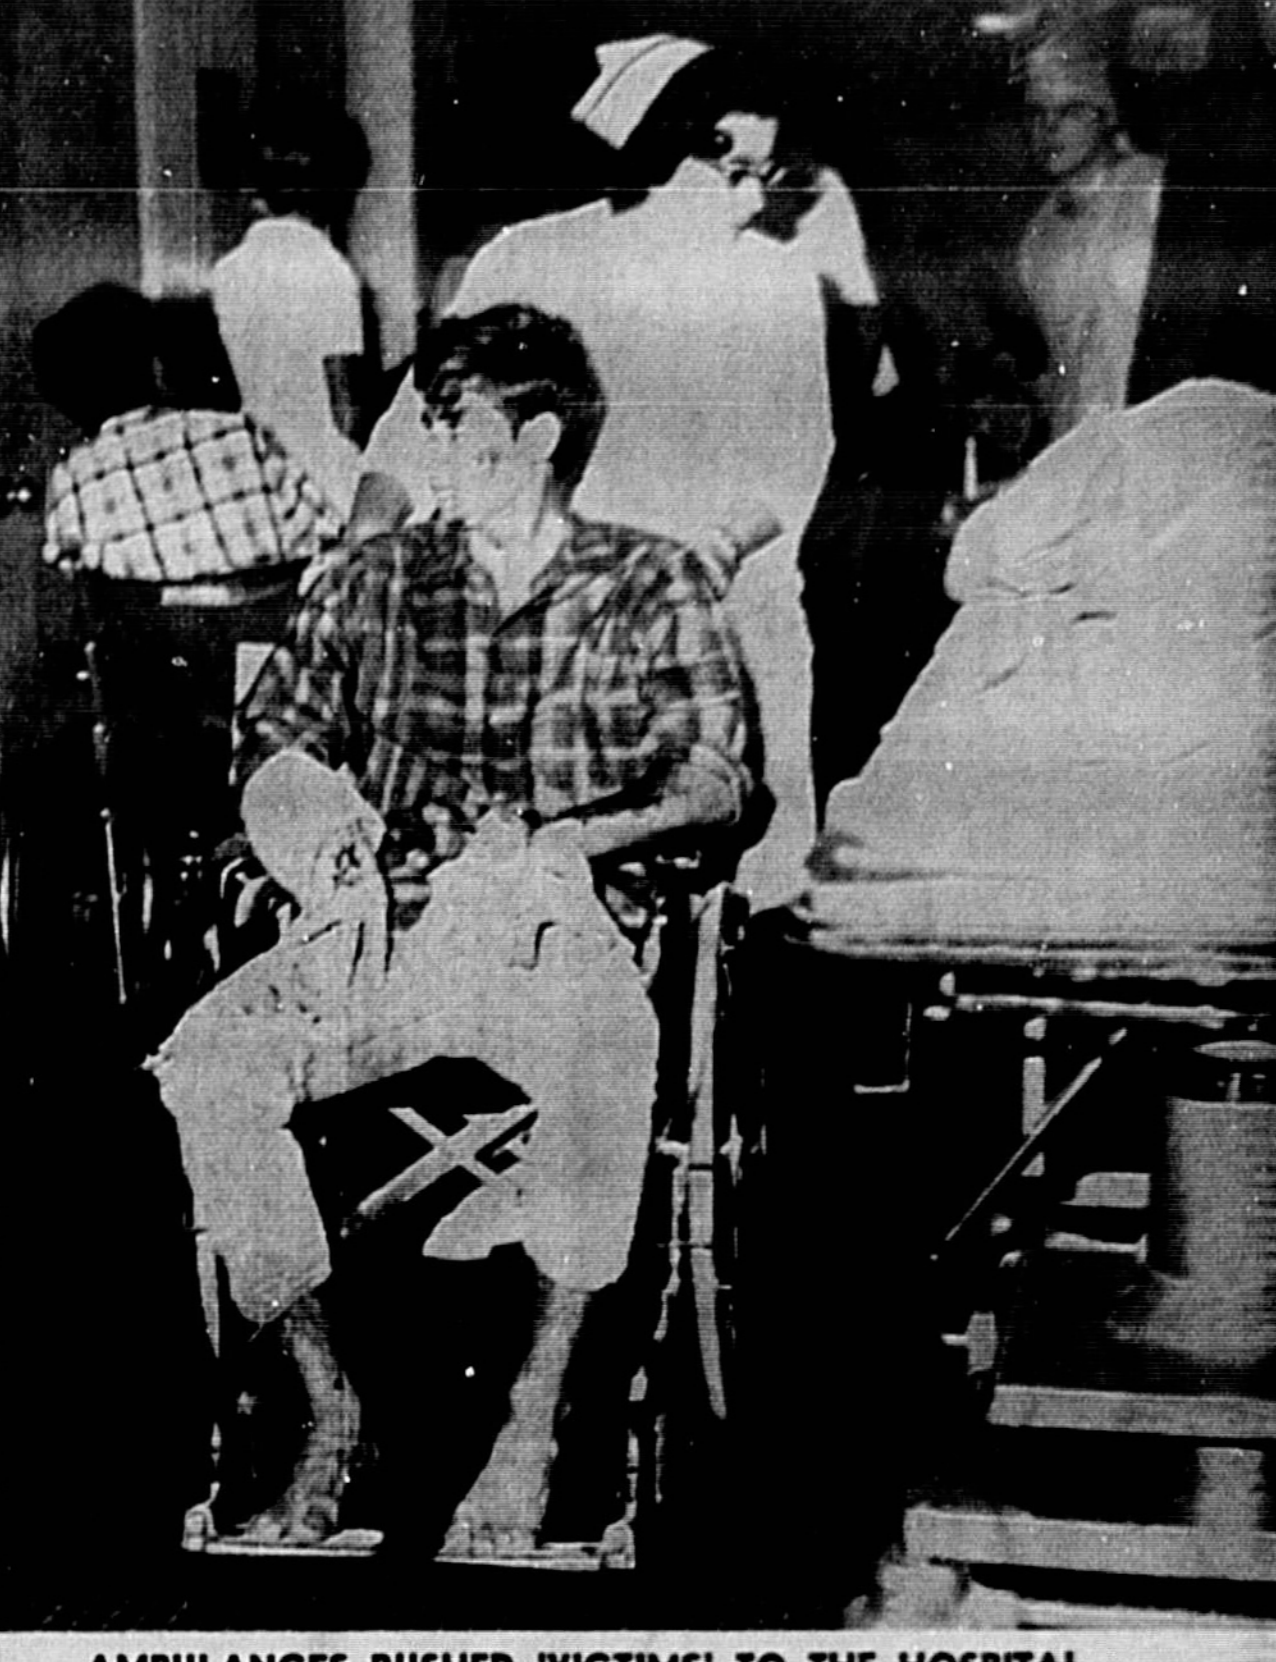

ADAM M. ASHDOWN — Mrs. Adam M. Ashdown, 83, of Miami died Monday at Grankow Chapel with Rev. J. B. Breen officiating. The body will be sent to Soles, N. Y. for burial, Grankow Funeral Home in charge.

HUGHES, MISS FRANCES MAE — Funeral services for Miss Frances Mae Ashdown, 70, of Miami, will be held 10 p.m. Thursday at Grankow Funeral Home, 407 Sumnerlin Avenue, in charge of arrangements.

SANFORD FIREMEN WERE FIRST ON THE SCENE...

AMBULANCES RUSHED 'VICTIMS' TO THE HOSPITAL...

'Explosion' Tests Disaster Plans

* Continued From Page 1
ent. The emergency entrance at the hospital was hard put to handle two ambulances, let alone six and there weren't enough rolling stretchers for the "victims" to allow the ambulance crews to return to duty if they had been required to make a second trip. The hospital personnel seemed to be quite efficient, to the non-medical participant at least, and everything was done with speed and precision to attend to our various injuries. Two of the casualties, including this reporter, were "lost" but, according to Dr. Luis Perez, who pronounced me "dead," it was the nature of the injury, not the treatment.

Defendant Is Moved

Joyce entered an innocent plea at his arraignment yesterday before Circuit Court Judge Tom Waldron. Mack N. Cleveland Jr., Sanford attorney, told The Herald last night, he had been employed by Mrs. Powell to defend her, but found her missing when he went to the county jail late Tuesday afternoon. Sheriff John Polk said today he had been talking with Cleveland about the transportation.

'Plimoth' Colony Cook Book

Recipes Commemorate 350th Pilgrim Anniversary
By TOM HIGGE
Associated Press Writer

The citizens of Plymouth, Mass. have kicked off a round of celebrations commemorating the 350th anniversary of the day their Pilgrim forefathers landed on the shores of Massachusetts Bay.

To mark the event, the Plymouth Antiquarian Society has prepared the "Plimoth Colony Cook Book," a compendium of old recipes for Red Flannel Hash, Hasty Pudding, Bubble and Squeak and other robust dishes that sustained our ancestors in the bleak days when they were trying to make a home in a strange and sometimes hostile land.

It was a particularly bleak December morning in 1620 when the Pilgrims landed. They couldn't have picked a worse time of year to make their perilous voyage to an alien land that provided no shelter and no crops to harvest.

Most of the menfolk in the frostbitten party had been brought up in urban areas and knew little if anything about hunting, trapping or even fishing.

Half the colony perished from exposure, starvation and disease that first winter, but those who survived learned how to stay alive in the wilderness.

Friendly Indians taught them about the delights of stewed pumpkin, roasted corn on the cob and squash pudding. They also showed the settlers how to net codfish and ferment out clams, oysters and the formidable-looking but delicious lobster.

As time went by, the Pilgrims also learned where to look for edible berries, and to tap the sugar maple and boil down its sap for sweetening.

To start the day off, the Pilgrims breakfasted on such rib-sticking fare as Brown Bread, Brewick, dry brown bread cooked slowly with a little water until it is soft. They would add a nugget of butter to the mixture and serve it up as a cereal with milk and sugar.

The winters were cold and the nights long in New England, and the settlers went in heavily for such solid fare as stews, chowders, baked beans and pot roasts.

They also learned to be thrifty in a land where food was hard to come by. Leftover meat was used for stews and hash and pie left over from dinner the night before, often appeared on the breakfast table.

A sample of this sturdy fare is "Plimoth Succotash" which is a far cry from the mixture of corn and lima beans we eat today. Here is a recipe from the anniversary cook book.

PLIMOTH SUCCOTASH
1 quart pea beans
4 lb. corned beef
5 lbs. lard
5 quarts bulled corn
3 medium turnip
2 medium potatoes
Soak beans overnight, then cook and mash. Boil beef and fowl until tender and save liquor. Cut up turnip and potatoes and cook in the liquor. Cut the beef and fowl (after removing chicken meat from the bones) into 1/4 inch cubes.
Combine all ingredients and boil together for about one hour. Stir frequently. Serve in soup plates. It is better the second or third day. Serves 10 to 12 people.
Good for a supper party accompanied by a cold ale.

WEEKDAY LUNCH
The buns may be made from a package of hot roll mix.
Tomato Soup
Egg Buns
Fruit and Cookies
Beverage

EGG BUNS
3 hard-cooked eggs, chopped
2 strips crisp-cooked bacon, crumbled
1 tablespoon minced green pepper
1/4 teaspoon salt
1/4 cup mayonnaise
4 small buns
Mix together all the ingredients except the buns. Split the buns and use the egg mixture as a filling for them. Makes 2 servings—2 filled buns per portion.

Halloween Pumpkin Cookies

DEAR GERTIE: I've enjoyed so many of your recipes that now I want to ask you for one for pumpkin cookies—please. If you have a good one, I'd appreciate it.—COOKIE FAN
DEAR COOKIE FAN: I don't wonder at your lacking a recipe for pumpkin cookies because four of the best known comprehensive cookbooks—The Joy of Cooking, The Fannie Farmer Cookbook, The Basic Cook Book and Better Homes and Gardens New Cook Book—omit it. If you are planning to have any treats at Halloween for neighboring youngsters, these soft pumpkin cookies are appropriate to bake.

SOFT PUMPKIN COOKIES
3 cups un sifted flour
1 teaspoon baking soda
1/4 teaspoon salt
1/2 cup (1 quarter-pound stick) butter or margarine
1/4 cup sugar
1/4 cup dark corn syrup
1 cup canned pumpkin
1 large egg
1 teaspoon vanilla
1 cup raisins
1/2 cup coarsely chopped pecans
On a piece of wax paper, stirring with a fork, thoroughly mix together the flour, baking soda, salt, cinnamon and nutmeg.
In a large mixing bowl cream butter and sugar; stir in corn syrup, then pumpkin, egg and vanilla; mix well.
Gradually add flour mixture, stirring until smooth. Stir in raisins and pecans.
Drop by teaspoonfuls onto greased cookie sheet 2 inches apart, flattening slightly with back of spoon.
Bake in preheated 375-degree oven until cookies are lightly browned on bottom and spring back when touched—15 minutes.
With a wide metal spatula remove cookies to wire racks to cool.
Store between sheets of wax paper in a tightly covered tin box. Makes about 48 soft cookies.

FAMILY DINNER

This sauce for smoked tongue or ham is chock-full of raisins.
Smoked Tongue, Raisin Sauce, Spätzli, Salad Bowl, Chocolate Pudding, Beverage

RAISIN SAUCE
1/2 cup water
1/4 cup raisins
2 tablespoons cornstarch
1 tablespoon dark brown sugar
1 teaspoon salt
1/4 teaspoon ginger
1 tablespoon butter or margarine
2 tablespoons port wine or red wine vinegar
Into a 1 1/2-quart saucepan turn 2 cups of the water and the raisins. Bring to a boil; reduce heat and simmer 10 minutes. In a small bowl stir together the cornstarch, sugar, salt and ginger; gradually stir in the remaining 1/2 cup water, keeping smooth; gradually stir into mixture in saucepan. Bring to a boil, stirring constantly, and boil 1 minute. Remove from heat. Stir in butter and wine. Serve warm over smoked tongue or ham. Makes about 2 cups.

NOTE: If sauce thickens on standing, add up to 1/4 cup water. Sauce may be reheated.

SUNDAY BRUNCH
An old-fashioned recipe:
Fruit Compote
Scrambled Eggs, Sausage Links, Steamed Brown Bread, Beverage
STEAMED BROWN BREAD
1 cup sifted flour
1 teaspoon salt
1 teaspoon baking powder
1 teaspoon baking soda
1 cup whole wheat flour
1 cup cornmeal
1/4 cup light molasses
2 cups buttermilk
1 cup chopped pecans
1 cup raisins
Sift flour with salt, baking powder and soda; stir in whole wheat flour and cornmeal. Beat in molasses and buttermilk. Thoroughly mix in pecans and raisins. Pour into 2 greased 1-pound coffee cans. Cover cans tightly with foil. Set cans in large deep saucepan on a rack. Pour in boiling water so that 1 inch of can is covered. Tightly cover saucepan and steam over low heat for 3 hours; add more boiling water as necessary. Remove foil from cans and let bread set in cans for about 5 minutes; bread will fall away slightly from cans. Remove bread; slice and serve. Bread may be stored in freezer if properly wrapped. To reheat, steam bread in foil or slice and toast.

Preserve Cranberry Jellies

By CECILY BROWNSTONE
Associated Press Food Editor
DEAR CECILY: I wonder whether you can tell me how I can preserve cranberry jelly. When I make it for a meal my family refuses to eat much of it. I would like to put it in sealed jars so we can have it on hand. Because I have never done any preserving I would appreciate your help - PERPLEXED.

DEAR PERPLEXED: Here they are - all the necessary directions for making six 1/2-pint jars of real homemade cranberry jelly. If you want to double the recipe! Make the jelly batch by batch for good results. - C.B.

CRANBERRY JELLY
2 packages (each 1 lb.) fresh cranberries
4 cups water
4 cups sugar
Prepare jars, see note below. Pick over, rinse and drain cranberries. Measure 8 cups cranberries and turn into a 5-quart saucepot or Dutch oven. Add water. Place over high heat until cranberries begin to pop; reduce heat to moderate; cover and cook 10 minutes. Turn cranberries and liquid through a food mill into a large bowl to puree.
Rinse saucepot cranberries were cooked in and place a fine-mesh strainer over it. Put cranberry puree, one-fourth at a time, through strainer into saucepot, emptying seeds from strainer before adding more puree.
Over medium heat cook puree until it begins to boil. Add sugar at. Return mixture to a boil, stirring until sugar is dissolved. Spoon off any seeds that float to the top. Boil uncovered, stirring occasionally, for 10 minutes. Remove from heat; spoon off foam; stir to blend mixture.
Use a cup with a pouring lip as a ladle, pour jelly into hot 1/2-pint wide-mouth jars, filling jars to within 1/4 inch of top. Wipe tops and threads of jars with clean damp cloth. Put on lids; screw on bands evenly and tightly. Invert filled jars for a few seconds then stand upright to cool. Store in cool dry place. Makes six 1/2-pint jars.

NOTE: To prepare jars: wash six 1/2-pint wide-mouth jars, lids and bands in hot soapy water. Rinse in scalding water. Keep in hot water until ready to fill. Just before filling, invert on rubber tray or towels to drain.

FAMILY DINNER
Canned peaches serve as a relish.
Fried Chicken Hominy
Green Beans Pickled Peaches
Coffee Jelly with Custard Sauce
PICKLED PEACHES
2 cans (each 1 pound, 13 oz) cling peach halves
1/4 cup cider vinegar
1 cup light brown sugar, not packed
1/4 cup silvered candied or syrup-preserved ginger
Drain the syrup from 1 can of peaches into a medium saucepan. (Use the syrup from the other can of peaches some other way.) To the syrup in the saucepan add the vinegar, sugar and ginger. Bring to a boil, stirring until the sugar dissolves; reduce heat and simmer uncovered for 10 minutes. Add drained peaches from both cans and simmer 5 minutes. Turn into a refrigerator container and cool; cover and chill at least overnight to mellow. At serving time, with a slotted spoon, remove peaches and ginger to serving dish; put the ginger in the peach cavities. Store any leftover peaches in refrigerator. Makes about 12 servings.

SATURDAY SUPPER
This sauce stands up well in the refrigerator.
Turkey Cranberry Sauce
Green Peas Salad Bowl
Vanilla Ice Cream with Fig Sauce
1 cup firmly packed dark brown sugar
2 tablespoons cornstarch
1/4 teaspoon salt
1/4 cup water
1 tablespoon lemon juice
2 tablespoons butter
1/2 cup (4 oz) dried dried figs
1/2 cup chopped pecans
In a 3-quart saucepan thoroughly stir together the sugar, cornstarch and salt; gradually stir in water, keeping smooth. Cook, stirring constantly, until boiling and thickened. Add lemon juice and butter; stir until butter melts. Stir in figs and pecans. Cook over low heat for 5 to 10 minutes. Serve warm or cold over ice cream. Makes 1 1/2 cups.

Fresh Pie With Pears Delicious

By CECILY BROWNSTONE
AP Food Editor
FAMILY DINNER
A delicious pie that should be better known.
Meatballs with Rice and Gravy
Green Peas Salad Bowl
Fresh Pear Pie Beverage
FRESH PEAR PIE
Flaky pastry for a 2 crust 9-inch pie
1/4 cup flour
1/4 teaspoon salt
1/4 teaspoon nutmeg
Grated rind of 1 lemon, about 1 tablespoon
2 medium slightly underripe pears
2 tablespoons butter
Make up pastry; cut in half; refrigerate. In a large mixing bowl stir together the sugar, flour, salt, nutmeg and lemon rind; set aside.
Roll out half the pastry and line a generously buttered 9-inch pie plate with it. Roll out other half of pastry for top crust and cut vents in it.
Pare the pears; cut in half lengthwise; remove seeds and stem structure; slice thin crosswise - there should be about 6 cups. Add pears to sugar mixture and mix well; turn into pastry-lined pie plate. Dot pears with butter.
Cover with top crust; seal and flute edges. Bake in a preheated 325-degree oven on rack below center, until crust is browned and pears are tender - about 40 minutes. Serve warm or heat.

SUPPER FOR SIX
A different casserole!
Eleanor's Tongue and Mushroom Dish
Salad Bowl
Garlic Bread
Strawberry Tart
Beverage
ELEANOR'S TONGUE AND MUSHROOM DISH
2 tablespoons butter
1/2 cup flour
2 chicken bouillon cubes dissolved in 2 cups boiling water
1/2 teaspoon finely grated onion
1 1/2 tablespoons anchovy paste
1 tablespoon lemon juice
2 pounds cooked smoked tongue, thinly sliced
1/4 pound mushrooms, thinly sliced
In a medium saucepan over low heat melt butter; stir in flour; remove from heat. Gradually stir in bouillon, keeping smooth. Add onion, anchovy paste and lemon juice; cook over moderate heat, stirring constantly, until sauce thickens and boils.
Arrange sliced tongue and mushrooms in alternate layers in an oblong glass 1 1/2-quart baking dish (10 by 6 by 1 1/2 inches) and cover with sauce. Bake in a preheated 375-degree oven about 30 minutes. Makes 6 servings.

EVENING SNACK
A bite-size hors d'oeuvre.
Chinese Chicken Snacks
Diced Almonds Beverage
CHINESE CHICKEN SNACKS
1 can (18 oz) Chinese vegetables
1 can (1 1/2 oz) chicken spread
2 eggs, slightly beaten
1 cup buttermilk biscuit mix
Oil for deep-fat frying
Drain vegetables and chop into bite-size pieces; mix with chicken spread; form into 1-inch balls. Dip in egg, then in biscuit mix. Deep-fat fry in oil until golden brown - 3 to 5 minutes. Makes about 30. Serve with mustard and duck sauce.

SATURDAY SUPPER
Adding onions to mushrooms increases the mushroom flavor.
Mushroom Chicken
Rice Broccoli
Salad Bowl
Lemon Tart
Beverage
MUSHROOM CHICKEN
2 1/2-pound broiler-tray, cut up
1/4 cup flour
1 teaspoon salt
1/4 teaspoon pepper
1/4 teaspoon paprika
1/4 cup butter
2 medium onions, peeled and cut into thin strips (about 1 1/4 cups)
1 pound fresh mushrooms, sliced
Coat chicken pieces with mixture of flour and seasonings. Melt butter in a large skillet; add chicken and brown; cover lightly and cook until tender - 20 to 30 minutes. Remove chicken and keep warm. If there is more than a couple of tablespoons of fat in the skillet, pour off excess. Add onions to skillet; brown lightly; add mushrooms; cover and cook gently until mushrooms are wilted; add salt and pepper to taste. Serve mushroom mixture with chicken. Makes 4 to 6 servings.

2 Halloween Carnivals Saturday

By MRS. E. B. THOMAS, JR.
The Midway Elementary School PTA will sponsor a Halloween carnival on the school grounds Saturday, 8 p.m. This activity is for the entire family. All of the "lavender" carnival goodies, such as candied apples, hamburgers and pronto pups, cold drinks, peanuts and pop corn, will be for sale.

Family games will include dart throwing, candle and apple balancing.

For those who enjoy dancing, then report to the school's auditorium at 2 p.m. and dance until 4.

A hula hoop contest also will be held during the afternoon.

Three prizes will be awarded to the best dressed carnival participants.

So with all that is scheduled for you and your family, plan now to attend the Halloween carnival and support your PTA.

Mrs. Lenora Mobley is president; Mrs. Barbara Williams, carnival chairman; and W. M. Hamilton, principal.

To all religious, civic, social, fraternal organizations and friends:

On Sunday, Nov. 4, the Trinity United Methodist Church family will observe the 70th anniversary of the church and the third year that it has been in its new office.

"Except the Lord Build the

Policy Changes Eyed By Schools

By BILL SCOTT
Seminole County School Board has taken under advisement for possible passage at the next board meeting a proposed policy change which will prohibit students who are late entrants and age 16 and above from enrolling in regular school, thereby forcing them to attend the new adult high school.

Andrew Bracken, administrative aide, related the proposed policy change at Tuesday night's board session and said the change would exclude from school those persons, such as migrants, who arrive in Seminole County after 30 days of the new term have expired and are not transferring from another school.

Those persons, who are not required to attend classes under the compulsory attendance law since they are age 16 or above, are therefore relegated to the adult school, if they want to continue their education.

If passed at the next board session, the policy

JPs, Constables 'Passe'

Offices of Justice of the peace and constables have "outlived their usefulness" and "we recommend that these offices be abolished in Seminole County," it was stated in the final report of the current grand jury Wednesday. The full, final report follows:

The Grand Jury, in and for Seminole County, for the Spring Term, 1970, met at 9 o'clock a.m., on October 26, and the roll call was taken and the Clerk announced that 15 members of the 18 members of the Grand Jury were present.

Thereafter, the Grand Jury heard testimony of various witnesses in the course of their meeting. The witnesses were Paul Leggee, Ned Julian, John Polk and Max Coberly. The witnesses and the Assistant State Attorney left the Grand Jury Room.

The Grand Jury deliberated and prepared this, its final report.

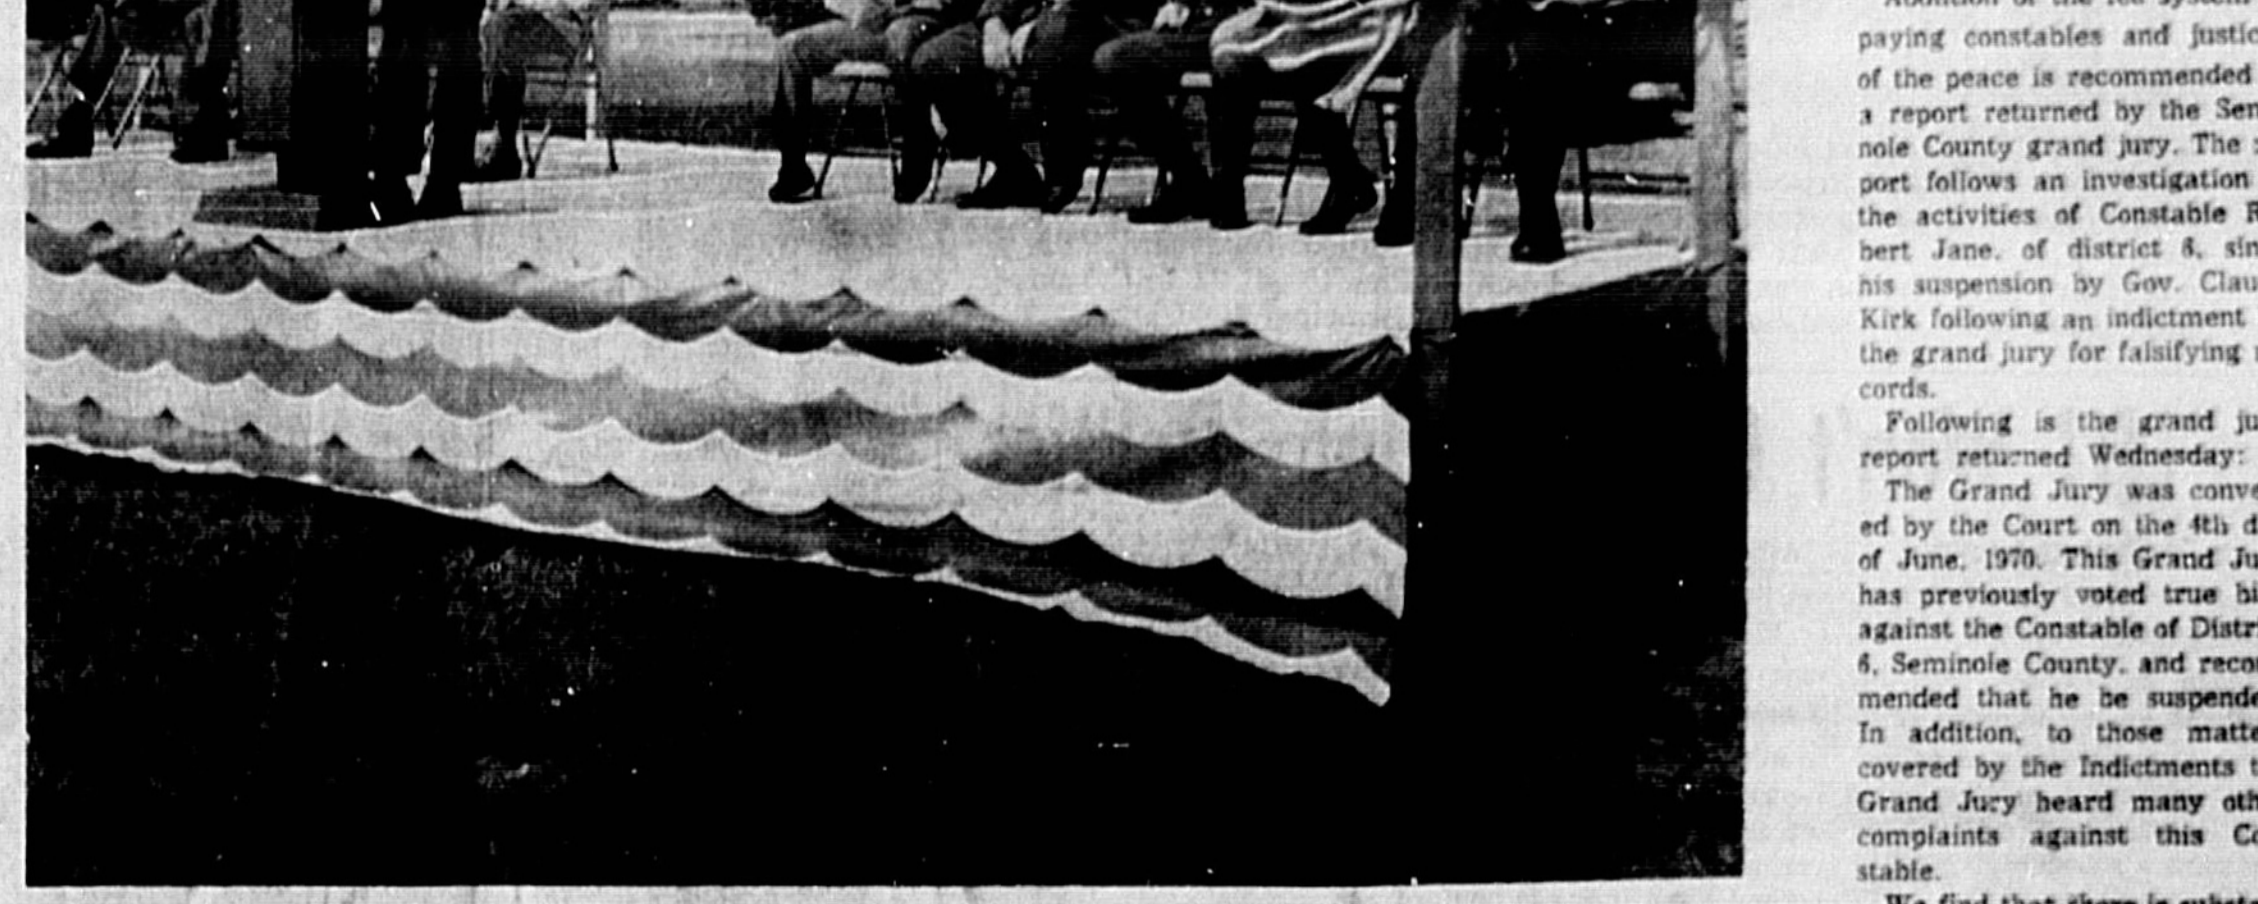

The Grand Jury, during its term (1) inspected the Seminole County Jail including that wing of the jail used for detention of juveniles. We also (2) heard evidence from a number of witnesses regarding the need for a separate building in Seminole County for the detention of juveniles. At the jail, the juveniles are detained in very small cells which were designed for maximum security.

There are no facilities for education, training or even exercise. In some cases detention has been for months at a time of juveniles who were not even adjudicated as delinquents, but were merely being held as witnesses. This Grand Jury is of the opinion that the practice of detaining juveniles in the County Jail is highly unsatisfactory, and we recommend to the voters of Seminole County that they approve the bond issue for the juvenile detention facility in the November 3, 1970, general election.

We found that prisoners in the County Jail are permitted to retain razor blades in their possession. We consider this to be a very dangerous practice and recommend that it be stopped.

Due to the lack of cooperation of citizens with the various law enforcement agencies the gathering of evidence and prosecution of (Continued on Page 1B, Col. 2)

Fee System Abolition Is Urged

Abolition of the fee system of paying constables and justices of the peace is recommended in a report returned by the Seminole County grand jury. The report follows an investigation of the activities of Constable Robert Jane, of district 6, since his suspension by Gov. Claude Kirk following an indictment by the grand jury for falsifying records.

Following is the grand jury report returned Wednesday:

The Grand Jury was convened by the Court on the 4th day of June, 1970. This Grand Jury has previously stated true bills against the Constable of District 6, Seminole County, and recommended that he be suspended. In addition, to those matters covered by the indictments the Grand Jury heard many other complaints against this Constable.

We find that there is substantial evidence to indicate that the Constable of District 6 of Seminole County engaged in the following practices which in our opinion are improper and against the best interest of law enforcement and justice in Seminole County:

1. He employed deputies before the law authorized him to do so.
2. After he was legally authorized to have four deputies he appointed more than that number.
3. This Constable, who was paid a flat fee for each arrest, told his deputies that he did not care what hours they worked, but that they must each make 100 arrests per month.
4. He failed to get his deputies bonded although he was advised that this is required by law.
5. His deputies did not wear uniforms and patrolled in unmarked cars. Suspected traffic violators were needlessly placed in fear for their safety when they were faced to stop by the deputies.
6. He failed to get his deputies bonded although he was advised that this is required by law.
7. His deputies did not wear uniforms and patrolled in unmarked cars. Suspected traffic violators were needlessly placed in fear for their safety when they were faced to stop by the deputies.

(Continued on Page 1B, Col. 2)

Electrical Board Member Charged

By MARION BETHA
Charges of an alleged building code infraction involving an appointed county official have been made by Jack Bratton to the Seminole County Commission. Bratton's charges stemmed from electrical work which he said, was done in which no inspection was made. Bratton said that when he was apprised of the matter that he requested Zoning Director Robert Brown to send an inspector to the site. The inspector, Bratton said, questioned who had performed the work and said that it was not according to the electrical code.

Bratton said that anyone on the electrical board should be of the epitome of character, and that in this particular incident there was no inspection, no permit, improper work and requested that the individual involved in the matter, Edward Kasell, of Oviedo, who is a member of the Board of Electrical Examiners, be removed from office.

Commissioner Robert Parker asked Bratton if the charges could not have emanated from a personal vendetta, and Bratton replied that he had had a problem with Kasell but had settled it in court.

Commissioner Chairman John Alexander questioned Brown in the matter as to the allegation of improper wiring, and asked if an electrical permit was taken out. Brown replied, "No," Alexander then asked if Kasell

had a master electrician license, and Brown again replied, "No."

Alexander noted that the matter should properly fall within the realm of the electrical examining board and suggested that the allegations be referred to this board. Should the allegations be found and there are further violations, it was suggested that Kasell's license be revoked. Alexander further noted that the review by the electrical examining board is being referred to the commission in writing.

Bratton still pressed the point of Kasell's removal, and went on to comment that Kasell was appointed to the board by Commissioner Robert Parker. Bratton also castigated the attendance of the examining board of electricians and said the commission should be aware that many are absent.

Trailer Permit Denial Appealed

An appeal against the county Board of Adjustment which denied a trailer parking permit at Sylvan Lake, has been referred to the board by County Commissioners for a hearing on Nov. 16.

The Board of Adjustment had denied the request on the basis that the trailer was not in keeping with properties of the area.

Mrs. William Henry, who requested the permit, told the commission that she had failed to realize the importance of the matter when it came before the adjustment board and did not attend the hearing. She continued that she desired the permit because she and her husband are building a home in the area, in which her husband is doing the construction, himself, and that the trailer would be utilized to contain materials and prevent theft. Public hearing, the commission denied a request by Southern States Utility

BULLETIN
Charlene Powers, accused by the State in the beating death of her two-year-old daughter, was declared incompetent today by a Circuit Court judge. Thus, by judge's order, the reasonable cost incurred in the taking of depositions (statements) of 11 witnesses in her case will be paid by Seminole County.

America 'Occupied' 100,000 Years

LOS ANGELES (AP) — A noted scientist says new archaeological findings prove that man migrated to North America probably from Asia 30,000 to 40,000 years earlier than previously supposed.

"Man has been in America for more than 30,000 years," Dr. Louis S.B. Leakey told newsmen Monday. "We are satisfied that we have uncovered a new chapter in the history of man in America."

Leakey said small pieces of stone unearthed eight months ago in the Mojave Desert of Southern California show that man lived there at least 50,000 "and more probably 100,000 years ago."

Leakey, one of the world's best known experts on early man, announced the findings at the Leakey Archaeological Foundation, together with scientists who worked under his direction.

Earlier calculations placed man on the North American continent no earlier than 20,000 years ago. The new findings, in a gully near the desert town of Calico, now present scientists with a gap of at least 30,000 years about which they know absolutely nothing, Leakey said.

The stones found at Calico are under 2 feet of topsoil apparently formed a beach about 16 inches in diameter, he said. A colt's magnet did not show, reported that magnetic tests showed that

rocks had been subjected to intense heat.

Near the hearth were chips of stone that must have been used for scraping, perhaps in skin animals, Leakey said.

Leakey said carbon dating and other tests place the age of the stones at 50,000 to 120,000 years.

The nature of the soil prevents Leakey from being sure, he said.

Asked Monday where the first North Americans come from, Leakey said, "They must have come from Asia. Your basic mountain sheep all arrived here fully evolved and undoubtedly came from Asia. Man must have followed them."

SPRING LAKE Girl Scout Troop 841 held their induction ceremony under the leadership of Mrs. Herbert McGinnis. First year members include, Kim Blake, April Roder, Shari Mosley, Terri Methvin; second row, Yvonne Oppelt, Ellen Campbell, Freddi Fruscella, Tracy Crawford, Marjie Coyle; third row, Michelle Saunders, Sandra Heath, Sharon Priest, Mrs. McGinnis, Kim Davis, Susan Steel, and Jeanette Walker.
