

ROLL WILL BE 788 MILLIONS

Commissioners May Reduce Cutting to 780 Millions, Says Reports To Governor

Details Of State Are Given By Comptroller

Revenue Fund Will Require 788 Millions; Other Figures Furnished In Statement

TALLAHASSEE, Fla., July 13.—The valuation on the tax roll for the state of Florida for 1926-27 will be around \$778,000,000, according to a statement made by Governor Martin, in a letter to the Governor from tax assessors indi-

viding the basis for estimating the roll, after the county commissioners had made possible deductions which would be \$750,000,000, the comptroller stated.

Mr. Amos' letter was sent to the Governor, he explained, as information upon which the executive would fix the state millage, which he has already done. The Governor announced a reduction of 101.2 to 71.2 mills, or approximately 29 per cent, bringing the state to its lowest mark in history.

The amount needed from the revenue fund, the comptroller reported for 1926-27, would be \$6,000,000, divided as follows: Buildings, \$1,480,817.20, and other expenses, estimated, \$4,844,846.

The estimated receipts for the coming period were divided by the comptroller as follows: Balance on hand June 30, 1926, \$2,085,967.67.

Out of the \$750,000,000, at 17.8 mills, \$1,687,500.

Less errors, insolvencies, land tax, 1 per cent, \$108,750, or \$1,578,750.

Simultaneous receipts, estimated, \$735,887.47.

After deducting the buildings and other expenses, Mr. Amos said that the balance on July 1 would be \$1,647,947.74.

Expenditures for the State of Health for the past year were \$1,188,750, the comptroller said.

With estimated balance on June 30 of \$140,000 in round figures, estimating that the expenditures for the coming year will run around the same as for the past year, millage of 3.8 mills will produce it.

The estimated need for pension will be \$1,600,000, which is payable monthly. To furnish the requirements to meet these payments continuously it is necessary that we have a larger balance on hand than might be absolutely needed if receipts were more uniform or more evenly distributed. Therefore, I estimate we will take a millage of 2.14 mills to meet our needs for this fund.

General revenue, pension, state fund of health, state and federal taxes, state prison, leaving the total tax of 1 mill fixed by the constitution, tick eradication and text books as fixed by law, would give, according to my estimate a possible millage for the year 1926 as follows:

Baker County First To Report On Free Textbook Shipment

TALLAHASSEE, Fla., July 13.—Baker county was the first county of Florida to report to the State Department of Public Instruction receipts of its shipment of free school text books for 1926-27, according to State Superintendent W. S. Cawthon.

L. L. Hodges, of Macclenny, superintendent of the county board of public instruction, has just forwarded a copy of the invoice after he checked to see that the books were all included in the shipment.

Mr. Cawthon, who is also furnished a copy of the invoice by the Jacksonville depository, checks the superintendent's copy with his own and presents the two to the State School Book Commission for approval, after which the commission is requested to issue an order in payment for the books.

Reports to the state department are to the effect that the text books are being received almost daily over the state now, and it is probable that the county superintendents will have their supplies in hand shortly, it was indicated.

Subway Strike Costs Rapid Transit Company \$399,300, Is Report

NEW YORK, July 13.—(AP)—The first week of the subway strike has cost the Interborough Rapid Transit Company at least in excess of \$399,300, company officials announced today.

The strike was started at 12 o'clock today, and it is estimated that the company will lose \$400,000 a day. The company has announced that all who are employed by the company have been ordered to report to work at 12 o'clock today, and that the company will enforce the order.

The company has announced today that it will operate for 24 hours a day, and that the company will enforce the order.

The company has announced today that it will operate for 24 hours a day, and that the company will enforce the order.

The company has announced today that it will operate for 24 hours a day, and that the company will enforce the order.

Local Girl Again Honored By Rollins College Board By Receiving Scholarship

WINTER PARK, Fla., July 12.—(AP)—Announcement of scholarships won by sophomores, junior, and senior in Rollins College was made today by Emilie B. Cass, registrar, as a part of a general report bearing on the opening of the forty-second year of the college in September 17, next.

Two seniors, Miss Katherine Lewis and Miss Jeannette Dickson, of Mt. Dora, have won honors for excellence in scholarship and leadership in student activities.

Eighteen students admitted on Florida Honor Scholarships in 1924 have maintained high records and have received re-appointments. They are as follows: Paul Hilliard, Ft. Myers; Gladys Wilkinson, New Smyrna; Freda Kuebler, Titusville; Elbert Underwood, Perry; Emily Whitmore, and Gertrude Ward, Winter Park; Edith Dray, Titusville; Florence McKay, Sanford; Robert L. Martin, Oklawaha; Edward Eickhardt, Cocoa; Gladys Miller, West Palm Beach; Carl Warner, Crescent City; Martha Mathis, Bonifay; Louise Holland, Bartow; Elizabeth Atkinson, Ft. Lauderdale; Elroy Goddell, Davenport, Iowa; Annie Campbell, Vincent Conway, and Peter Babich, all of Winter Park.

Eleven students who won Florida honor scholarships in 1925, received renewals of these honors. They are: Aitha Miller, St. Cloud; Anne Hathaway, Brooksville; Elsie Hall, Orlando; Irene Pope, Winter Park; Ernest Upmyer, Maitland; Rodman Lehman, Sanford; Margaret White; Mt. Dora; Robert J. Cross, Bernalusia, La.; and Donald Pound, New York.

Students who received special scholarship awards are James M. Arroya, Daytona Beach; Weych scholarship; Barbara Sheffield, Catakill, N. Y.; Worthington scholarship; John Hilliar, Fort Myers, Chase scholarship; Miriam Boyd, Orlando, Hall scholarship; Charles Zeller, Warsaw, N. Y., Mark scholarship; Claude Couch, Bridgeton, N. J., Scott scholarship; Clara Adolph, Chicago, Palmer scholarship; H. A. McDonald, Ft. Myers, Burleigh scholarship; Austin L. Lacey, Northampton, Mass.

Ten honor scholarships open to freshmen are being awarded this summer. Seven have already been assigned as follows: Louise Howes, Orlando; Verna Maxson, Tampa; Howard Delamater, Clearwater; Harrison Cobb, Ft. Myers; Ward Mould, Daytona Beach; Cyril Cocke, Zephyrhills; and Edward Rowan, Greenboro, Fla.

popularized it with royalty the world over.

Lieutenant Colonel Bernard Freyberg, VC, DSO, is among the many swimmers who shortly will attempt to swim the Channel.

Colonel Freyberg made a dramatic attempt last year and got so close to shore after a seventeen hour battle with the tide that his tug-man almost cried when he was taken from the water 400 yards from shore.

His wife had kept unceasing watch throughout the long swim and as her husband's eyes had become bloodshot, his body blue with cold, and he failed to hear the directions shouted to him and she insisted he must leave the water.

Colonel Freyberg served at Gallipoli and is scarred with nine war wounds.

HIT BY STREET CAR ST. PETERSBURG, Fla., July 13.—(AP)—Mrs. A. K. Cook, wife of a prominent local lawyer and member of a well known Kentucky family, is in a local hospital, probably fatally injured as the result of being struck by a street-car last night. She has a fractured skull and other injuries.

Reported To Be Improved NEW YORK, July 13. (AP)—Capt. Otto G. Dowling, who nearly lost his life in the first explosion at the Lake Denmark navy arsenal as he was turning in the fire alarm, is reported at the Brooklyn naval hospital to be much improved.

Arthur Elmore the sailor who awoke one morning recently in the Buckingham Palace gardens, near the king's apartments was booked at Scotland Yard in a special book with such suspects who have been held for annoying royalty, the most famous of whom was Roy Jones, who gained a peep at Queen Victoria sitting on the throne.

Jones, son of a tailor in 1842, was first caught asleep on a sofa, next to the queen's bedroom. He explained that he got in by the simple method of climbing a wall and stepping through a French window. He had been in the palace three days, helped himself to eatables and not only had seen the queen on the throne but his sleep had been disturbed by the crying of the baby princess Royal.

After a term in a house of correction, Jones again returned to the palace. The third time the young man was apprehended there the authorities decided to huddle him off to sea and that was the last London ever saw of him.

Honeymoon passports are a good deal of a problem for newly married couples who wish to dash from a London church to a boat train and cross the channel to France on the day of their wedding.

The foreign office will not issue passports for a man and woman as man and wife until they have actually been married. In some cases clergymen have been entrusted by the foreign offices with such passports and have not delivered them until the young couple were legally entitled to them.

Prince Chichibu of Japan will go into residence at Magdalen College, Oxford in October after having passed many months of social activity in Great Britain and on the continent for the purpose of familiarizing himself with English and French. He will occupy rooms jutting out over Addison's walk, and overlooking a picturesque back water of the Cher. These apartments are regarded as the most beautiful in one of Oxford's loveliest colleges. In the seventeenth century these rooms were occupied by Oscar Wilde.

Magdalen College has succeeded Oxford Church as the favorite institution for royal undergraduates. Edward, the Prince of Wales, Christ Church, and Magdalen College have actual-

WORK OF LAYING FASTEST CABLE IS BEING RUSHED

Approximately 300 Miles Of Western Union Line Has Been Laid From England; To Finish Job In September

NEW YORK, July 13.—Work is proceeding rapidly on the world's fastest cable now being laid between New York and London for the Western Union. Already approximately 300 miles of it have been laid out from Penzance, England and the giant ship Colonia is now pushing her prow eastward from Bay Roberts, Newfoundland, through the waters of the Atlantic to meet this buoyed end.

The final splice of this section will be made about the middle of July. The Colonia will then reload with cable and will proceed to lay the section from Bay Roberts to New York, completing it in September.

While engaged now in the laying of this permalloy cable, the Colonia keeps a careful record of every mile laid. This is done so that if a break occurs any section of the cable may be picked up without difficulty and the necessary repairs made. To grapple for a broken cable in the black depths of the ocean seems to be an almost hopeless task but so carefully and completely are the records kept that the picking up of a particular section in two or three miles of water is all in the day's work.

When a break occurs in a cable it is possible to tell from the shore by electrical measurements and calculations how far from either end the trouble lies. A cable ship then hurries to the spot which is clearly indicated on the chart made when the cable was laid or last repaired.

Having arrived at the place where the cable is to be picked up the cable ship puts over an anchor buoy to mark the point of departure. It then steams back and forth across the line of cable dragging a grapple which resembles a five-pronged anchor over the sea floor.

In shallow water an ordinary grapple is used but for depths of a mile or more a special form of grapple has been devised which, when it hooks the cable, cuts it in two and holds one of the severed ends tightly. It is a simple matter, to splice in a new section and then haul up the other end and splice that on.

Most of the breaks, however, occur in shallow water near the shore as there is little to interfere with the cable's smooth working in the depths of the sea. Near the shore the cable has a host of enemies both animate and inanimate.

The worst of these, especially in the warmer waters is the terrible boring sea worm against whose ravages ships' bottoms are

New Rollins Coach Will Be Selected Within Short Time

WINTER PARK, Fla., July 13.—(AP)—Following the announcement of the resignation of Howard P. Talman as coach at Rollins College, President Hamilton Holt issued a statement today in reply to the many inquiries. In it he asserted that a new coach had not been definitely selected but that an announcement as to Mr. Talman's successor could be looked for at an early date.

"The athletic situation," says the statement, "which in the South as well as the rest of the country and even at Rollins, I am sorry to say, has been bad, has been purified here by the dismissal of several students who came here with the evident purpose of doing nothing but playing games.

"It is the purpose of Rollins to build up its competitive athletic department only on the basis of clean sport. Whether or not Rollins wins must not be the chief factor in the playing of our games. The important factor in a game is the way the game is played and

the clean conduct of the men who represent the college.

"It is the purpose of Rollins to teach athletes to respect the principles of fair play—principles that in later life will guide them in decisions that require a steadfast purpose to the right. The man who guides the destinies of the State, must, therefore, be in sympathy with these ideals."

Ocala Bank Reports Show Increase In Deposits, Resources

OCALA, Fla., July 13. (AP)—The condition of the banks in Ocala as disclosed in their statements of June 30 last shows an increase in both deposits and resources of the same period of 1925.

Total deposits on June 30, 1926 were \$3,972,703.27, as compared with \$6,001,650.20 on June 30, 1925. The total resources of the former date was placed at \$7,843,584.16 and the latter date \$6,840,129.07.

According to a survey made by the local chamber of commerce, these figures, as compared, show a substantial gain over last year and are indicative of steady growth even during the summer months.

It was also pointed out that these figures represent an average spread over the community all of which points to a healthy condition throughout the town and county.

Dine — Dance

QUEEN OF DANCE DEAD

NEW YORK, July 13.—(AP)—Charlotte, queen of the dance, is dead. She went from stage door to jail, thence to court and the altar, all within 36 hours. A creditor had her arrested on a ground she was to leave the country. A judge freed her and denounced her detention over Sunday. Then she married her dancing partner, Curt Newmann.

First Pictures Of New Jersey Explosion

Crashed in at the town of New Hope, N. J., a mile and the navy ammunition depot at Lake Denmark. Shells in all directions over the countryside by the explosion rained down as terrific as on a battle front in war. Population fled madly from the stricken region, andilians were injured by the bombardment.

An improved tent by the road leading from stricken Lake Denmark, N. J., with a family thankful to have escaped death in the explosion and bombardment which wrecked their home along with the navy ammunition depot there. The picture shows, left to right the family of Mr. and Mrs. Dan Rich; Mary, Nettie, Lucy and the father and mother.

SEMINOLE HIGH SCHOOL GOING UP SPEEDILY

Continued from page one.

The latest type of school conveniences are included in the specifications. The toilets will have tile floors. The floors will be of maple. The roof will be of tar and gravel. The building will have storage rooms and janitor's quarters.

The building will have three front entrances, and two at the rear. There will be 10 exits to facilitate dismissal of classes and as a fire safety measure.

The "safety exit bolts" will be used on all doors. These doors can not be locked from the inside, although they will not allow ingress. This type of door will push open with a pressure against the long bolt.

The domestic science department will be able to give the girl students, practical as well as theoretical training. In addition to the science laboratory, a kitchen and dining room will be at the pupil's disposal. The girl will have the same facilities at school as at home.

Construction work was started on the building about the middle of April by Frank Lassing, general contractor. Lee Bros. have the plumbing contract, and the Randall Electric Co., the electrical contract.

Attempt To Locate Missing Operator Continued By Cops

LOS ANGELES, July 14. (AP)—Officers investigating the abduction story of Aimee Semple McPherson, Angelus Temple evangelist, today concentrated on the attempt to locate Kenneth G. Ormiston, former temple radio operator, who disappeared a few days after Mrs. McPherson was reported drowned at Ocean Park, May 18. The motive for the extension of the search was believed to have been disclosed in the publication by the Los Angeles Times today of a report that Ormiston had been partially identified as the man who sent a telegram to Mrs. Minnie Kennedy, the evangelist's mother, on May 21, saying the evangelist was safe.

Investigators believed that Or-

miston has left the state. Officials refused to state as to whether Mrs. Kennedy was questioned by the grand jury yesterday concerning the telegram. The grand jury recessed after yesterday's session, to re-convene tomorrow.

Robert Scott Denies He Fired Shot Which Killed Joseph Maurer

CHICAGO, July 14. (AP)—Robert B. Scott, brother of Russell T. Scott, who is under sentence to hang, took the witness stand today and denied that he fired the shot which killed Joseph Maurer, a murderer to which he has pleaded guilty.

Robert testified after several long conferences between opposing counsel and Judge William N. Gormill. After 10 minutes of preliminary questioning regarding Robert's life history, the judge announced:

"There are certain questions, I replied.

WANTS NEW HISTORY
LONDON: Prime Minister Baldwin thinks the defeated side is never represented properly in history. He wants the story of the American Revolution written from the English viewpoint.

MANY U. S. FLAGS MISSING
PARIS: American flags were conspicuous by their small number, compared with other years, in today's decorations for Bastille Day.

understand from your counsel which you do not desire to answer. I want to respect that desire. I want to ask you one direct question. Did you fire the shot which killed Joseph Maurer?"

"I did not, your honor," replied Scott in a strong voice.

"There is one further question I want to ask you and you may answer it or not, as you choose," continued Judge Gormill. "Were you in the City Hall Pharmacy on the night of April 2, 1924."

"I prefer not to answer," Scott replied.

M. E. Prather of the United States Marine Corps describes the damage to the depot here in being bandaged for serious injuries in the explosion which wrecked the temporary hospital in Dover, N. J., said would lose the sight of an eye. Mrs. E. R. Churchill, a nurse, and Private D. M. Huntley of the marine corps, are

DEVELOPER

An Unwarranted Parole

It is difficult to understand how Illinois can expect to check its crime wave in the face of the disgraceful precedent established by Governor Len Small last week when he issued a parole to Ignace Potz, convicted murderer of a motorcycle policeman.

Potz was sentenced to die in 1922, but Governor Small commuted the penalty to life imprisonment. Last week he issued Potz a parole, to take effect in 1930.

Setting at naught the findings of twelve fair and impartial jurymen, Illinois' chief executive goes over the head, or more appropriately, behind the back of justice to free a man as guilty of a dastardly crime as any man can be.

With astounding audacity he endorses crime at a time when the citizens of his state are making a sincere and concerted effort to weed out gangsters and gunmen and the rest of the human riff-raff responsible for Chicago's unsavory reputation. With cool assurance of his political power, he makes no attempt to excuse his inexcusable action, knowing full well that any effort at justification would prove absurd.

The parole issued to Potz is made all the more intolerable by the fact that it is only one of many granted to notorious criminals by Governor Small. Potz was convicted in short order of one of the most cold-blooded, premeditated murders in the criminal annals of Illinois. He deliberately plotted to kill the policeman to protect his bootleg industry, and no form of justice can be distorted to condone his escape from the gallows.

Aside from the question of the legality of a double commutation, aside from the friendly relations of Potz and Len Small politics, aside from the significance of the date 1930, the pardoning of Potz should invoke the censure of every decent American.

It is men like Governor Small who are responsible for the deplorable degeneracy of law enforcement in Illinois. A man who places politics above justice and common decency is scarcely fitted to hold office in any true democracy, and the sooner the people of Illinois rid themselves of this type of official, the better the state will be.

That Industrial Survey

Chamber of Commerce officials should be encouraged in their attempt to expedite plans for an industrial survey of Sanford, for a collection of authentic, accurate data concerning the city's industrial possibilities is of vital importance to business expansion at this time.

It is a logical, to-be-expected fact that most of us here in Sanford don't really know what we have to offer in the industrial field. Most of us have no adequate conception of the excellent advantages that this city offers to the manufacturer in the way of location, transportation, power supply and civic co-operation.

This ignorance on an all important subject is pardonable, for the data that industrial men desire is of a somewhat technical nature, and heretofore no attempt has been made to prepare any comprehensive information of this nature for an intelligent presentation of facts and figures, in the language that manufacturers deal in.

Sanford's celery crop has been advertised widely, and the city today enjoys a national reputation for agricultural productiveness, but we have boomed our farms and neglected industry, when in reality our chances for manufacturing are as attractive as our possession of farms.

Centrally located at the head of navigation on the St. Johns, midway between Tampa and Jacksonville, enjoying excellent rail and water facilities and lying within three miles of two of the largest power generating plants in the south, Sanford has all fundamental requirements for industrial development.

The reason for the lack of factories and plants here may be found in the cloak of secrecy that has always covered industrial opportunities. No serious attempt has been made to exploit these possibilities with a view toward attracting industries, and the few manufacturers that have located here just happened to stumble upon the attractions Sanford has to offer.

A comprehensive industrial survey by experts will remedy this situation, and enable the commercial body to give detailed, technical data of practical value to interests seeking a factory location.

The broadcasting of information concerning Sanford's industrial field will undoubtedly attract many manufacturers to this city, and the early completion of the survey should occupy the attention of the Chamber of Commerce to the exclusion of all conflicting programs.

STORY OF TRIP THROUGH FLORIDA EVERGLADES GIVEN BY L. CHURCH

Editor's Note: Since beginning the publication of Mr. Ingram's Everglades story, the Herald has obtained through the courtesy of E. O. Chase, a record of the trip in narrative form, written by A. Church, who accompanied Mr. Chase on the venture. Excerpts from the record will appear daily in The Herald.

"The Everglades were always associated in my mind with Seminole Indians, plenty of deer, turkey fish and all kinds of game usually found in the wild and undeveloped sections of our state, besides being endowed with that glimmer that unexplored regions shroud themselves in, and which to an ardent fancy would have all the attractions that the imagination can picture forth.

"The opportunity of joining an expedition for exploring this region was, therefore, eagerly embraced, despite the advice of friends who had been upon the wishes of relatives; that I should not run the risks of such an undertaking.

"The plan was to have enough men to carry everything we should need in packs, as we knew it would be impracticable to carry horses with us all the way.

"This plan necessitated a rigid economy in baggage, and for several days before we left home we were busy calculating the least possible bulk of blankets, clothes, shoes and all the various articles which each of us wished to carry along for comfort and convenience. Finally despairing of being able to make a selection from amongst the many things which my friends knew would be necessary and which I couldn't take, I put everything aside except one single blanket, one change of clothes, two pairs of shoes, two extra pairs of shoes, and a change of underwear.

"I then packed my baggage and started on my trip. I had a very good trip, and I was very much interested in the country. I saw many interesting things, and I was very much interested in the people. I was very much interested in the country, and I was very much interested in the people.

sleep on at night. "Provisions estimated to last our party twelve days had been selected and carefully packed away in sacks. Our party was armed with two shot guns, two Winchester rifles and numerous pistols, besides which had to carry two portable canvas boats, three tents, axes, cooking utensils, etc., to which was added at Fort Myers two wooden boats between twelve and sixteen feet in length.

TOM SIMS

Count your toes after swimming in a strange swimming hole. The speed limit means how fast you can go, not how slow. Being cynical is enough to make any man a cynic.

Chicago woman wants a divorce because her husband shot her. They'll do it every time.

Haines City (Fla.) church has rocking chairs instead of pews, perhaps to make falling out easier.

Fame is a fleeting thing. In New York, students were found using Grant's Tomb as a handball court.

Dempsey may be world champion heavyweight fighter, but these women who reduce deserve honorable mention.

Hempsted, L. I., man was killed on the eve of his wedding. Now he is missing. Women do change their minds.

Someone robbed a movie actor in Los Angeles and got only \$200.00, so it must have been the day before payday.

Coolidge has a license to catch fish in the next state. What state? That's what you want to know.

As Brisbane Sees It

The Calvin Coolidge Way. Why the Irish Love The Sun and Earth Warmth. BY ARTHUR BRISBANE (Copyright 1926, by King Co.)

THE PRESIDENT caught a pike weighing three pounds, and announced his plan to catch that pike's grandfather. Sure enough, Calvin Coolidge caught a six-pound pike. See tomorrow's news for his next catch.

That is the Coolidge method, first in the legislature, then governor, then Vice-President, then President. First little fish, then big fish. Watch the 1928 returns.

A SUPREME Grand Chapter of the Royal Order of Orange celebrates in Philadelphia the Battle of the Boyne. Fighting Irishmen on such occasions have an answer for their exulting "Orange" friends. The battle of the Boyne was no test, for the Irish, to their sorrow, were led by an Englishman, James, while the English were led by William, a Dutchman. And the English king was far from the fight, galloping to the rear, long before it stopped.

DR. ARBOTT of the Smithsonian institution, in 30 years' study, discovers that the heat given off by the sun varies greatly from day to day and year to year. The remarkable thing is that, sending its rays through more than 90,000,000 miles of ether at absolute zero, the sun has kept us warm enough to live, for at least 500,000 years. One cosmic freeze would wipe us out.

THERE IS no big and no little in science. Dr. Abbott spent 30 years studying the sun, which is a million times as big as our earth. Darwin spent 30 years studying the earthworm, half the size of your little finger, but longer, getting information as to the creation of our fertile soil.

UNITED STATES Consul General Miller at Seoul, Korea, gives this information about an American missionary of the Seventh Day Adventist church. The mission, a little Korean boy, stealing apples from his orchard. First threatening the boy's mother with prison for her son, the good missionary ordered a nurse to bring acid, and with it he burned, in Korean, the word "thief" on each of the boy's cheeks. The missionary's mark is still there, and the missionary has settled with the boy's mother for \$310 with a public apology.

THIS HURTS missionary work in the East generally, as the story spreads. But it should not cause to be forgotten the innumerable kindnesses, self-sacrifice and devotion of missionaries of all churches.

MRS. CLEMMINGTON Carson of New York, swam from Dover to Ramsgate, in the rough channel water, twenty-two miles in 6 hours. It was a fine performance, but a \$75.00 put-put boat would do better.

Nancy Hanks, a powerful woman, might have beaten Mrs. Carson's swimming record. Instead, she contributed Abraham Lincoln to write the proclamation and that was more useful than it would have been for her to swim from Paris down the Seine past Gibraltar to the Mediterranean through the Suez Canal and on to China.

WILL H. HAYS, determined to make moving pictures as pure as they are instructive, says they mustn't have any title to make prohibition ridiculous. No pictures must make light of the law of the land. This is sound, morally, but is it not going in the direction of censorship in advance? It is the business of moving pictures, like that of newspapers and of history, to tell what really happens, and if millions look upon prohibition as ridiculous, which they do, must pictures pretend not to know it?

WITNESSES in the trial of a wholesale bootlegger said that cargo were landed in New Jersey and in New York under the protection of uniformed policemen.

The bootlegging industry pays gladly \$200 a day to policemen and other officials that make less than \$200 a month. Each says to himself, "If I don't take it, somebody else will." That is wrong, but the bootleggers thrive.

IN EUROPE, where they have dictators, the labor leaders meet strong opposition. General Pangalos, Greek dictator, hearing of a strike, sends leaders and "agitators" to think it over on an island in the Aegean sea. What would some American corporations give for such an island?

THE MORE you cut prices, if you do it wisely, the more you make. That applies to Uncle Sam in his tax collecting. The President and Mr. Mellon slashed income taxes, cutting half from the maximum percentage collectable, and "grave lack of revenue" was predicted.

At the lower tax rate, the government's receipts for this year have increased by \$251,972,613. Income tax yielded \$1,072,799,810, which New York state paid one quarter.

This nation ought to have a fly-machine fleet to protect its interests of money. The other distinguished financier bragged patriotically about this nation. "We have the gold, copper, and chrome." That sounds good. But some could have said that the gold, copper, and chrome.

SPEEDY JUSTICE ORLANDO REPORTER-STAR

On the 2nd day of April, 1926, Mrs. Louise Calvert, of London, was arrested on a charge of murder. On the 7th of May she was tried and found guilty of strangling to death her landlady and robbing her. And though she was but a mother of a little girl 5 years old, and a baby boy only a few months old, she was put to death for her crime on the 24th of June.

A trifle over two months were consumed in disposing of this case with all of its sad tracings and connections. How it stands out in contrast to American criminal procedure. Had that murder happened in one of our large cities in America, as many years would have been consumed in the disposal of the case. Criminal lawyers would have had a case of their own. Although, would have had a rich field in which to operate, the woman was too poor to hire doctors to swear her insane, the state would have furnished them at the expense of the taxpayers. The time of courts would have been occupied for several months before these criminal lawyers would have exhausted all the statutory means available under our American practice. Commercial photog rapher would have pictured the woman in a dozen different poses.

"IN THE GOOD OLD DAYS" COLUMBUS, GA., ENQUIRER-SUN

Under the caption, "The Young Man's Time," the Charleston News and Courier has the following interesting editorial showing the difference between the customs of two score years and those of today.

"Forty years ago a young man's 'time' belonged to his father until the son was twenty-one. If he wished to work for others and retain his wages he had to be given his time by his father. Many a boy of sixteen of that period went away to school, where not only did he earn his expenses while studying, but he sent a weekly cash in-statement home to his mother. How different is the spirit of this age that would prevent a boy's working until he is eighteen, and would make the taxpayers furnish him free schooling through college, and then if he failed to support his wife would give his wife a pension. This new method furnishes our Loeb's and Leopolds. The old method furnished the world with its Edison's, Ford's and other work-wizards who have made this country richer than the thief of Bagdad. For a man who has learned to make himself work in command of a slave who will do more work for his master than would the slave of the Wonderful Lamp."

ORGANIZE, ADVERTISE, REALIZE PALATKA NEWS

For years, Palatka has dreamed of the day when she would become the hub of this entire section. For years, roads centering in Palatka have been projected and we have talked about nothing else. Let a visitor come to the city and he was immediately told of the time when Palatka would mark the spot where would be gathered together all the streams of travel coming into the state. He was shown that on the new bridge spanning the magnificent mile-wide St. Johns would be grouped a half-dozen main highways on which most of the tourist traffic into the state would come; he was shown that all this traffic would center right in the heart of Palatka to cross the river, and he was shown what that would mean in regard to property values. Most of the roads are still projected. They have not yet been completed. On some of them the construction is working. Best of all, the work will be ready.

NOTICE

Notice is hereby given that the Board of County Commissioners in and for Seminole County, Florida, will at the next regular meeting to be held on Monday, August 2nd, A. D. 1926, at the Court House in Sanford, receive bids for the opening, clearing and grading of the right of way, of the Willingham road, County Commissioners District No. 1. Specification may be obtained from F. T. Williams, County Engineer, bids may be in the hands of the Clerk on or before 10 o'clock A. M. August 2nd, A. D. 1926. The Board reserves the right to reject any or all bids.

Witness my hand and official seal this 10th day of July A. D. 1926.

V. E. DOUGLASS, Clerk Board of County Commissioners (Seal).

Arrivals

Miss Fara Ward entertained most pleasantly at bridge Tuesday evening at the home of her sister, Mrs. E. R. Deas in Rose Court. Quantities of vari-colored zinnias and ferns were used in decorating the rooms where the card tables had been placed.

Of exceptional interest was the card game, scores for which were kept on tallies done in Colonial maidens wearing gowns of pastel tints. When these were collected it was found that high score was held by Miss Frances Jones of Winter Park, who was given a novelty bracelet. For not having any luck with her honors and points, Miss Frances Dutton was presented a perfume bottle.

Candles in compotes were placed on the tables and enjoyed during the game, and after the awarding of prizes the hostess assisted by her mother, Mrs. Harry Ward and Mrs. R. R. Deas, served delicious refreshments consisting of pineapple mousse, cake, salted almonds and punch.

The players were: Miss Lillian Shinholser, Miss Perrie Lee Bell, Miss Mildred Campbell, Miss Frances Dutton, Miss Mina Howard and Miss Margaret Zachary, Miss Frances Jones of Winter Park, Miss Ruby Hoynes, Mrs. Ralph Stevens, Mrs. Bryan Sturman and Miss Ward.

Mr. and Mrs. L. J. Haas and Mr. and Mrs. E. W. Straus of Tampa arrived in the city Tuesday by motor and are stopping at the Seminole.

J. D. Davidson is spending some time at Natural Bridge, Va., and is a guest at the Natural Bridge Hotel.

G. L. Corbett of Tampa spent the day here Tuesday attending to business.

Mrs. W. B. Lanier and daughter have returned home after a pleasant visit with relatives in Atlanta.

Mrs. G. W. Bailey returned home Tuesday after a delightful visit with friends at various points in Georgia.

Dr. J. H. Powe leaves Wednesday for Laurens, S. C., his former home, for a short visit with friends.

Mrs. J. M. Hardy, who has been the guest of her son and his wife, Mr. and Mrs. William J. Hardy at their home in San Lanta, left Wednesday morning for her home in Savannah, Ga.

Card of Thanks
We wish to thank our many friends and thoughtful acquaintances for their kindnesses and floral offerings during the recent illness and death of our father.

Circle Number Five Holds Business Meet

The regular business meeting of the Circle Number Five of the Methodist Church was held Monday afternoon at the home of Mrs. Beatrice Higgins on West First Street.

MASTER ROBERT HERNDON IS HOST AT LOVELY BIRTHDAY PARTY

One of the most delightful of the children's parties given this season was that of Tuesday afternoon when Master Robert S. Herndon entertained a number of his young friends at his home on Fourth Street. His birthday was last Tuesday but on account of illness his party was deferred until this week.

The national colors of red, white and blue, were artistically used in decorating the rooms for this affair. Crystal baskets of cut flowers in these colors were placed with pleasing effect in the living and dining rooms.

The refreshment table was laid with a white cover with ribbons of red, white and blue extending from the chandelier to the four corners, and centered with the large white birthday cake topped with five tiny blue tapers in red rose holders, embedded in asparagus ferns and cut flowers.

Games of all kinds were played during the afternoon the children being assisted in these by Mrs. Seth Woodruff and Mrs. Raymond Key. Later refreshments of ice cream and individual cakes were served by Mrs. Robert Herndon, assisted by Mrs. Claude Herndon, Mrs. Fred Daiger, Mrs. Raymond Key and Mrs. Seth Woodruff. The little guests were given favors of balloons and candy.

Those enjoying this enjoyable affair were: Charles Woodruff, Adelaide Key, Norma Kinkie, Daphne Takach, Louise Perkins, Jane Lloyd, Sue Belle Hill, Robert Grovenstein, Walter Fox, Jimmie Fox, Earl Fox, Comuelo Brumley, Mary Wiggins, Dorothy Wiggins, Herbert McCann, Jr., Joyce Hunt, Louise Anderson Wells, Mary Ethel Maires, O. P. Herndon, Jr., Frederick Daiger, Gordon Hall, Dudley McCracken, Robert Bower, Jack Woodruff, Harry Gibson, Brownlee, Quilla Porter, Marjorie June Burdick, Billie Herndon, Philothea Fox and Emmett Herndon.

Mr. and Mrs. Victor McLaulin, whose marriage was an interesting event of Saturday, returned home Tuesday from Daytona Beach where they spent the week-end.

Mrs. J. M. Hardy, who has been the guest of her son and his wife, Mr. and Mrs. William J. Hardy at their home in San Lanta, left Wednesday morning for her home in Savannah, Ga.

Circle Number Five Holds Business Meet

The regular business meeting of the Circle Number Five of the Methodist Church was held Monday afternoon at the home of Mrs. Beatrice Higgins on West First Street.

Mrs. Parker, the circle chairman presided, and after the reading of the various reports, much new business was brought to the attention of the members.

The main topic for the afternoon's discussion was the work for the orphanage, and plans were made to take care of this branch of activities.

At the conclusion of business a social hour was enjoyed, the hostess serving dainty refreshments.

Baptists Are To Hold Business Session

A business meeting during which matters of unusual importance will be considered, will be held by the First Baptist Church Wednesday night, 8 o'clock.
