Thirty Days on Cow Chow"

Is the verdict of the judge when a cow has been guilty of losing money during the summer months.

> "Thirty days on Cow Chow" will be the Third Degree as to whether it will pay to keep or sell a cow.

If she can't make you a good profit on Cow Chow she can't make it on any ration,

Every pound of Cow Chow fed a good dairy odw will make het produce about three pounds more milk per day on grass-up to normal production.

Cow Chow lowers the per gallon cost of producing milk on pasture. And you can get more milk from fewer cows now. You will get more milk next winter. Don't lose winter profits by under production on pasture. Order today and start to putting the proof right in the milk pail.
