ecause of the caliber of its com-

Just another good football team because of the caliber of its competition.

Instead of the test game that most institutions use for the season opener, the Green Wave will start against Boaton College, 1940 national champions. Judging by the sophomore stars Orleanseans saw sweeping the award in the third quarter of last New Year's game, Boston should be a red-hot favorite to be as tough as a year ago.

From that opener, the Greenies go, on against Auburn, Rice, North Carolina, Ole Miss, Vanderbilt, Alabama, New York University and L. S. U. in succession. Six of the games are at home, in the big Tulane bowl on Willow Steet, three of them are away, Rice at Houston, Vandy at Neshville and N. Y. U. at at New York.

A rather safe bet is that, the Greenies will break all existing Gouthern attendance records—if fleey have anything like a fair record this year. They'll start against the Boston Eagles with more than 45,000, maybe 55,000.

And, barring repetition of last year's disastrous three-defeats-in-a-row start, any one of the other five home games may be as good for as many or more than the opener.

In the face of that schedule, however, Lowell "Red" Dawson, reticent Wave Coach, isn't too optimistic about the team's chances.

"We had an encouraging Spring seasion," he said recently, analysing his team's outlook, but we have too many shallow spots to aspect not to take a licking here and there. I believe we'll be good enough, however, to make it is defended in the combination assures the fans of a lot of ether heads in the sound of them we should do even better than that."

Work on the airport is expected to be attricted immediately as plans for as \$215,000 project have been ready since Aug. 9, 1941, Mr. Higgins said. Included in the appropriation will be the grading and the paving of the runways an outlined on the map published in The Herald recently.

bill to limit corporation profits to 6 percent, and said he wants to surround the limit with other provisions to make it as fair as possible on different kinds of firms.

He also said the reason for the proposal was "to remove the profit motive from the war or national defense."

Secretary of the Treasury Morgenthau proposed Wednesday that all corporate profits be limited to a six percent return on invested capital for the duration of the emergency.

He told the House banking and currency committee that such a ceiling is a necessary corollary to ground enactment of price control legislation if run-away inflation is to be averted, and that all profits in excess of six sets and in the subjected to 100 percent involves to be patriolic and make all profits in excess of six sets and the subjected to 100 percent involves to be a verted, and that such a subject to the men who is legislation if run-away inflation is to be averted, and that such a subject to the subject of the men who is subjected to 100 percent involves to be patriolic and make a couple of the men who is a subject of the men. By CLYDE J. BASER

For many years agricultural experts have been preaching the doctrine of crop diversification as the specific cure for financial ills besetting tillers of the soil. "Don't put all your eggs in one basket" was their theme—"throw in some vegetables, a few hogs and cattle and anything else you can think of which will keep the dollars rolling in every omath of the year."

"Fine," said the horny-handed sons of toil in West Florida, "but there ain't no me in raising them if we can't sell them, and if all of us farmers, start growine peas and beans and turning greens, and fattening hogs and cattle, milking cows and coaxing our hens to lay more eggs, we'll

The vegetable market, at the vegetable market built at Pensacola about three years ago did not immediately prove steeds of the state of the year, and in spite of the fact that this is the slack scapen for vegetables it seld more than \$14,000 worth of produce in the first 10 days after its creanization. Its new after its erganization. Its new manager believes that when the big production comes in this Fall, it will do a splendid cust-

Last year the State Farmers' Market t Marianna sold about \$21,000 worth of vegetables. New equipment for washing and gard ing sweet potatees has since been installed and plane have been completed for a considerable ex-pansion of facilities.

Sweet potitions are a big crop in this section, Prices they were able to obtain this Spring were poor and only about 2,000 bushels were sold through the mar ket. With better prospects thi Fall, the manager expects to dis-pose of around 200,060 bushels. About 37,000 watermelons were

shipped from June 12 to July 4, and some \$7,000 worth of wild blackberries were sold to wineries in June. The manager is working with farmers to obtain volume vegetable production for the December season.

Marianna and Pensacola managers are working out arrange.

Marianna and Pensacola managers are working out arrangements with South Florida fruit packers to make these markets diversion points for bitrus during the winter. Trucks bringing fruit north will hand ground corn, hay, poultry, fertilizer and other North Florida produce, to the benefit of both sections and saving gasoline.

Sales at the State Livestock Market at Jay last year totaled

Sales at the State Livestock Market at Jay last year totaled more than \$92,698. July and August sales this year exceeded \$22,475. Farmers in this section used to raise considerable vegetables but quit because there was no demand for volume production. A new vegetable mais let has been added to the Stateset-up and farmers again are planting large acreage.

The State Livestock Market at DeFuniak Springs sold more than \$11,370 worth of stock has year amount to more than \$17,130.

Bonifay's State Livestock Market operates as a cooperative and is almost exclusively a fat hog market. Last year about \$22,000 worth of stock was add.

Sales open again this mouth and the county agent estimates the total will coved \$35,000 for this The State maintains a cream-ery and an egg and politry mar-ket at Chipley which did a \$47, 500 business last year. Consider

Jewish Student House Built At Florida State Around Eustis

TALLAHASSEE, S.pt. 10
(Special)—The first B'nai Brith Hillel Foundation on any all-girl campus in the United States har just been established at the Florida State College for Women.

This is the final step in a process of development that began two and a half years ago. At that time, the B'nai B'rith, a Jewish fraternal organization which supports the Hillel student groups, decided to establish Jewish student houses at the two state universities of Florida. The Florida Federation of B'nai B'rith le Iges engaged Rabbi David Max Eichhorn, DD, to act as its director of student work at these schools, Rabbi Eichhorn spent most of the week at Gainesville and only was able to be in Tul-TALLAHASSEE, S.pt. 19

reason, the University of Florida City Engineer Baldwin said Hillel was given the status of a construction in Eustis has been Foundation, which meant it was guided by a full-time director, while the work at F. S. C. W. 1924-25.

was listed as a Counselorship, meaning that it had only partitime professional guidance.

As the work expanded, it he. Company, Cleveland, Ohio, and meaning that it had only parting a \$5,000 bungalew is Comptime professional guidance.

As the work expanded, it became evident that a full-time disprominent in Ohio banking curector was needed on each cam-pus. This was achieved this Fall and now, thanks to the B'nai FAMOUS NAMES IN MARINES
B'rith, there is a rabbi doing fulltime student work at Gaines
ville where Dr. Eichhorn will deJackson, Jesse James and a time student work at Gaines-ville where Dr. Eichhorn will de-vote himself entirely to looking after the welfare of the Jewish igirls at F. S. C. W. He will also serve as rabbi of Temple Israel of Tallahassee, as well as being the Jewish chaplain at the Dale Mabry air base and the Federa! Correctional Institution

orrectional Institution. There are about 75 Jewish girls at F. S. C. W. They carry on an intensive program of activities in the edifice of Temple larrael, which is located only :wo

BE FOR TODAY

The Christian Science Monitor)

Cleaning Up Our Town

The discourse of another case of pollomyelitis in Orlando and four others in Orange county is not an epidemic but it is enough to make folks wonder why this disease, what causes it and what can be done to prevent its spread. Medical science admits that this is something it doesn't know much about but it believes it is caused by a germ which is somehow related to filth and uncleanliness.

An Orlando doctor discussing the recent cases reveals that some of the children contracting the disease had been playing with rats and had obtained tweezers from their mother to pick fleas from them. This tends to substantiate the theory that infantile paralysis is spread by fleas which have been living off the blood of infected rats.

"Now that a rat-carrying flea is feared as the host for the pollomyelitis germ," writes Ormund Powers in the Orlando Sentinel, "rat traps are in demand. People are putting them in pantries, attics, under their houses, in garages. The steel spring trap works better than the cage trap, according to our experience. We have also discovered that

The steel spring trap works better than the cage trap, according to our experience. We have also discovered that raw bacon will catch four times as many rats as choose."

Meanwhile, Judson Walker, Orange county school superintendent, issues orders to school principals and janitors to rid Orange county schools of rats. Walker is quoted in the Sentinel as saying that teachers will make an immediate check of school premises and see to it that rats are eliminated from school buildings and that all avenues of entrance to them are closed.

Whether or not rats are actually responsible for the

entrance to them are closed.

Whether or not rats are actually responsible for the paralysis epidemic which has affected certain areas of the South this summer, they should not be tolerated in any civilized community. Rats are dirty filthy creatures which serve no good purpose whatever and should be reientlessly eliminated from every habitable area. A vigorous whole-hearted aggressive public blitzkrieg should be turned on them which would soon make them extinct.

But while we are at it we should clean up some of the other sore spots in our community. We need a housing project here for our colored population some of whom have to live in surroundings wholly unfit for human beings, constituting a health menace to our entire community. We should be able to get such a housing project from the government since most of our negroes work on our farms and

anould be able to get such a housing project from the government since most of our negroes work on our farms and agriculture has come to be a defense industry.

But we also need to drain our swamps and nearby marshes to get rid of the mosquitoes which constantly hreaten our people with malaria and yellow fever. We need to supply proper sanitary facilities to all those homes which do not already have them and to arrange for a mod-

when sewage disposal system. More than anything else we need an up-to-date hospital.

When we have done all these things, which we can do and should do, we will not have to worry about the health of our children or of our community.

Don't Forget Parks

Unless you have a tourist complex, look at literature communication works in your own anameer of commerce and take vacations within your own state, you may never know that Florida has more state parks representing a total of 15,57% acres. The Florida Everglades National Park, existent in name only, has received more publicity than all of our State parks.

State parks.

Florida has been growing fast and tuday many of the most identified by private interests into bushes are becoming private propositions. It is possible to drive for miles hetween groves, farms, billbourds, cut-over lands and fenced pastures without encountaring, a single picule spot. Most lakes and beaches along filmways are privately owned and operated with charges making is prohibitive for a family of moderate making is prohibitive for a family of moderate. This may beand exaggerated but if not a picture of today, it is surely the picture of tomorrow. If the present trend continues, the visitors, as well as the "native citizen," will find themselves in a position where they are unable to unload the family car and take advantage of the natural outdoor recreational advantages of Florida.

hell to breakfast.

Practically every go burgant today has its licity every go burgant today has its licity want on the proposition. The proposition of the present of the present is a position where they are unable to unload the family car and take advantage of the natural of this trash in the outdoor recreational advantages of Florida.

unload the family car and take advantage of the natural of this treah in the mails eath outdoor recreational advantages of Florida.

One answer is the state park system which is just getting underway but is still underfinanced.

The State has some good men working on these parks but they lack funds and crews to do the necessary development to make the natural playgrounds really available to the traveling public.

The park board would like to locate and acquire some heach frontage for a State park but once again, private interests interfers. Right now emphasis is on defense and lower taxes, but Florida will be an outdoor tourist state long after the present emergency is forget to the Florida forest and park service should be maintained—and encouraged.—Fort Myers News-Press.

TOO LATE TO CLASSIFY By RUSSELL KAY

ately bembarded him with gobathe spirot and wasting at the and gobs of waste paper and bunghole. First stop this we kly then admonished him to please avalanche of press dope that nosave it for 'em, that was the body reads, and there will be littered that broke the camel's the need to call on business men tile need to call on business men and housewives to save the waste paper that accumulates in homes and places of business."

Constant Care Needed For Farm Electrical Motors

GAINESVILLE, Sept. 25—(Special)—trareful handling and frequent inspection are necessary for obtaining maximum trivier from electric motors on the farm Frazier Rogers, head of the agricultur I engineering department in the University of Florida, points out.

Mr. Rogers sity, the same impartant points in handling an electric motor:

Den't overload it, as this causes over-heating which may have known insulation and result in a short cut. If it stalls, disconnect current immediately.

Keep it dry and clean, and keep all connections tight.

Apply lubriciants to bearings only.

Have any broken or were party

repaired or replaced promptly. Check frequently to be cure it is in good ranning order,

a trefical storm which caused million; of dollars damage to erops and property.

The heaviest blow in years—peak winds of 100 miles an hour were recorded as it lashed inland—spent its violence as it moved northeastward before vering west into Texas again near Eulphur Springs.

Graham Picks Yankees To Win In World Series

By DILLON GRAHAM NEW YORK, Sept. 25,-(P)-The Yankees to win.

That's the way this corner dopes out the World Series. The Yanks should triumph, but not in their customary four straight games. I concer the series to go

at least six games.

The men of "McCarthy possess too much power and the much pitching for their National League rivals, Besides they I ive the poise and confidence that comes from experience in these Fall post-season engagements. From a defensive angle, too, the Yanks bave an edge, with a tighter infield unit.

With Charlie Keller in there to contribute his power punches.

National League Pennant Race

The end of the furious Na-tional League pennant race is just around the corner now. It might come today.

If the Brocklyn Dodgers win today and the St Louis Cardinals lose, the Dodgers would te sure of capturing the championship by at least a half a game, no matter what happen-ed in the closing contests Sat-urday and Sunday.

The Dodgers drove from be-bind to beat the Beston Braves,

The Cardinals also won yes-terday, shutting out the Pitts-burgh Pirates, 4-0. This kept St. Louis a game and half be-hind Brooklyn.

The standings:

Brocklyn 98 51 -610 16 54 -610 St. Louis Remaining schedule: Brooklyn-Sept. 25 at Bo-ten; 26, open date; 27-28, Phil-

st. Louis—Sept. 25. at Pitts-burgh; 26 open date; 27-28 at Chicago.

four games. But, without him, and with several other regular under par physically—I say five

under par paysically—I say five or six games.

St. Louis should afford the Yanks more trouble than Brooklyn. The Cards not only have power but they boast the fastest team is the majors. And their young, fast and Iricky pitchers—Ernie White and Ilowie Pollet and Howard Krist—would give the New Yorkers trouble. The probable loss of Terry Moore and Enos Slaughter from dally action though, would erimp the Cards chances.

No team has more hustle and spirit than the Dodgers. Brooklyn has been getting the breaks all season and has won more than its share of extra inning contests. That luck might continuo into the series. Wyatt definitely should bother the Yanks. And they might have difficulty

And they might have difficulty with Kirby Illigbe. But Brooklyn can't match the Yankee batting

And after their nerve-strain-ing doglight right down to the wire, either the Brooks or the Cards are in danger of a let-

Celery Feds To Open Football Season Tonight At Eustis Game U. S. Bases

The football season opens for in top shape, Rain stopped all Seminole High School tonight practice Menday, allowed a little when the squad of about 35 celery Feds journeys to Eustis to drown out the practice scheduler on the same under the lights during the lights last night. Celery Feds journeys to Eustis to play a game under the lights, starting at 8:00 o'clock.

A green squad with plenty of spirit will represent the local high school on the field and though only three regulars from last year will be handling the pigskin, the team will have a said.

Cut Production

For the most part the team is made up of inexperience! hoys, having only three regulars. Jack Herring and Lambert Palmer and bill Branan pigskin, the team will have a said this afternoon.

As the team shapes up now the line will be a little heavier than last year, about 163 average, but the gain will be less tin J. Brown.

Tackles—W. L. Hiers and Bill Branan game but the scales a little under 150 pounds each, Coach McLucas state.
