Editorials **Commissioners** Face **Challenge** This Year

The Seminole Board of County Commissioners faces a real challenge in 1959. Board members must prove to the public that they are working for the benefit of the county as a whole, and that each knows what the other is doing.

Facts which came to light Tuesday make it mandatory that Commissioners lose no time in putting the county's house in order. Seminole residents were shocked Tuesday night when they learned that an ex-commissioner had left iccessor without funds, that the district's appropriaad been transferred to another district.

.f the action was meant to be humorous, it fell on unappreciative cars. Seminole County's tax money isn't a joke. At least it isn't to the people who pay the taxes. The money used in such "sporting" fashion does not belong to the County Commission. It is the property of all Seminole County. So is the entire county budget.

If F. A. Dyson's transfer of funds to the district of Homer Little was meant as a parting shot, an effort to embarrass his successor, David Gatchel, it was a success. It also emberrassed Seminole County.

Apparently, some loard members were unaware of the transfer until the meeting. This, too, is far from humorous. Unfortunately, our county will be judged by many on the basis of this incident. And how will we appear to the outside world?

Board members this year have a chance to erase this action, and prior incidents, from the memory of their employers, the taxpayers. At the start of the year, commissioners pledged themselves to harmony, hard work and progress for the county as a whole.

They now have a chance to fulfill that pledge. We believe they will do it. We know that it is needed in Seminole County.

A step in the right direction was the resolution prohibiting future transfers of this nature. The Herald believes the sigvey of roads, scheduled to start today, is needed. It is the beginning of a business-like approach to the county's operation.

The pledges made several weeks ago are important to the county. Future progress depends on fulfillment. Seminold County needs one board, not five. Only the members of the commission can make this a reality.

Next Governor Here?

Members of the Seminole County Chamber of Commerce will hear an interesting speaker at the annual banquet on Feb. 13.

Delivering the address will be Millard Caldwell, former have had an opportunity to know

Farm Families Get \$391,010 In Aid In County In '58

During 1958, farm families served by the Sanford Farmers Home Administration office, received farm loans totaling \$391,-010, it was reported this week by Curtis J. Green, county supervisor.

Green stated that funds were inaned for various purposes, but most were for housing and farm operation. The recently-expanded farm housing program is helping many farmers plan and develop better housing and farm building facilities, Green said. Most loans are repaid ahead of schedule and many farmers have repaid loans. and are now obtaining their credit needs through local banks and other leaders, Green added. Many part time farmers are now being helped with FHA loans. The Sanford office serves farm families located in Seminole, Orange, Volusia, Flagler and Brevard Counties.

Conference Slated In \$9 Million Suit

TALLAHASSEE (UPD -- A pre-trial conference will be held Jan. 27 in the nine-year-old 30 million dollar damage suit against the Florida Dul'ont interests. Federal Judge G. Harold Carswell said the main purpose of the meeting will be to set a date for retrial of the suit, brought by Roy Crummer of Orlando.

107

Crummer charged that the Du-Ponts conspired to destroy this multimillion dollar municipal bond husiness by instigating a number of state and federal investigations. A district judge dismissed the sult on grounds it was harred by the statute of limitations. But the U.S. Court of Appeals reversed the ruling and ordered the suit to be tried by a jury. Crummer maintains the alleged

compiracy was fraudulently con-cealed and he did not find out about it in time to bring suit with-in the three-year limitation.

New York City played host in THE conventions in 1957, attended by meanly four million dalegates.

......

.

×.

3

WASHINGTON (UPI) - On American at least has Deputy So viol Premier Anastas I. Mikoyar all in a lather. He's Alfonso Tans, a 70 year old

hotel barber. He stopped by the Boviet Embasay loday - for the third straight day - to give the visiting diplomat his morning mave.

Tana, who has waited on so many prominent people in the past 30 years that he can't remember them all, said Mikoyan is "s very nice fellow, a kind and gentie man." Unlike most barber customer re-

Intions, there's little conversation -almost none, in fact.

"We just say good morning and then, when I'm finished. "good day"," Tana said. "Then Mr. Mikoyan thanks me and bows." Proving to be something of a diplomat himself. Tana said when asked if Mikoyan got or needed a haireut: "He didn't ask for one."

Tana refused to say whether Mikoyan paid him for the shaves. or gave him a tip for his services. Those are money matters that I just won't discuss," he said. Asked how he happened to be tapped for the job, he replied: "Someone at the State Department asked me to do it. Somebody must have recommended me."

Cliburn Cancels Four Concerts TUCSON, Ariz. (UPI)-Pianlat

Van Cliburn said today he has gancelled his concerts for the next it days because of a toolhache. "I love playing, but I don't wink the audience would enjoy 8 M I'm sitting there wracked with pain." the popular young planist said. "And my powers of concentration would not be as good." Cliburn, who said he had been

bothered in the past four months by his teeth but has not had time to go to a dentist because of his beavy concert schedule, cancelled concerts set for San Antonio, Tex., Saturday: Atlanta, Jan. 13; Birm-Bigham, Jan 17, and Syracuse. B. Y., Jan 20. Cliburn has been here since

Monday and said he would probably have to remain until next week in order to have a wisdom tooth pulled.
