## School Sidewalk Not Longwood Picture

By DONNA ESTES

LONGWOOD — School Supt. Bud Layer, in conference with city officials, today made it ntention of going into either the sidewalk

onstruction or road building business. Mayor James R. Lormann said, "The city annot at this time build a foundation, let lone road or sidewalk access." to the planned Rock Lake Middle School.

Lormann added that if the city did have money for sidewalks, first priority would be long highly-traveled SR 427 to provide safe walkways for Lyman High School. The SR 427 sidewalk has been proposed by many councilmen over the years, including current board member H. A. Scott.

Layer warned city officials that citizen pressure would be brought to bear for safe walkways when the 1977 opening date of the niddle school approaches.

"To hell with pressure," Councilman Gerard Connell said, noting the city's concern walking to and from school along SR 434 and

#### **IN BRIEF**

### Refugee Aid Request

### Speeds Along In House

WASHINGTON (AP) - President Ford's emergency aid request to help up to 150,000 Indochina refugees start new lives is on an accelerated timetable for House action next week, rollowing uranimous suocommuce approval The House immigration subcommittee approved the bill Wednesday night after Judiciary Chairman Peter W. Rodino, D-N.J., took the extraordinary step of publicly telling the subcommittee to get moving.

#### Prisoners Whip 'Fats'

MENARD, Ill. (AP) - Nearly everyone in the joint beat Minnesota Fats. Those were the breaks for the World's Greatest Pool Player, as he styles himself, at a prison exhibition. Fats, perhaps the most famous hustler in the history of the game, was giving an exhibition and the joint was the Menard Correctional Center. "I've been ev, rywhere on earth and played every champion since I was 12 years old and never lost a match," Fats said Wednesday. "I hustled pool since I was two years old born and raised in a saloon." Then a score of prison inmates polished off Fats. Born Rudolph Wanderone 62 years ago in New York City, Fats wasn't exactly throwing the games but he did say, "People get a kick out of it when they beat me. I've gone for a day and never won a game. In eight ball, any living creature can beat you any game."

#### **Gulf Chief To Testify**

WASHINGTON (AP) - Sen. Frank Church says Gulf Oil Corp.'s chief executive will be called to testify publicly next week about who received \$4 million in political donations from the company. "We must insist on full disclosure," said Church, chairman of the Senate subcommittee on multinational corporations. A hearing is set for May 16. Gulf Chairman Bob R. Dorsey publicly assured the governments of Venezuela and Ecuador on Wednesday that those nations were not involved in the \$4

#### **Gun Registration Urged**

WASHINGTON (AP) - Some of those who favor gun control object to President Ford's decision not to recommend handgun registration and say registration is a compromise approach compared to proposals calling for a flat ban on the manufacture of cheap handguns. On the other hand, a major opponent of gun controls, the National Rifle Association, said Wednesday it was heartened by Ford's statement on gun control at his Tuesday night news conference.

President Ferdinand E. Marcos is saying that the "national interest" of the Philippines may dictate that his country discard its mutual defense treaty with the United States of America and take over U.S. bases at Clark Field and Subic Bay. This is startling word from one of America's closest allies in the Pacific.

Or is it really surprising? The Philippines lie close to the hot breath of the Communist advance through Southeast Asia. After watching the performance of the United States as chief backer of the effort to stem aggression against Laos, Cambodia and South Vietnam, the Filipinos can hardly be blamed for wondering whether their "national interest" is really being served by relying on the Americans as defense partners.

This is typical of the quandary facing U.S. allies around the world. If they are thinking in the same direction as President Marcos, they are in trouble, and so are we.

Scores of countries around the world have entered into security arrangements with the United States which rest on the principle that our national interest runs parallel with theirs. Now they have seen the United States identify its national interest in the survival of South Vietnam, and then abruptly change its mind. If this leads many of our allies to consider going it alone - or even warming up to Communist powers seeking influence in their regions - it could be disastrous for them and disastrous for U.S. security as well.

Secretary of State Kenry Kissinger is insisting that the "basic cornerstones" of our foreign policy have not changed because of the Indochina debacle. "Our nation is uniquely endowed to play a creative and decisive role in the new order which is taking form around us," he says. He is right, in terms of the leadership which a country as strong an "oil spot" type advance. That is, they have set as the United States is capable of exercising. However, the divergence that developed between the White House and Congress on aid to Vietnam. and other symptoms of weakness in our bipartisan foreign policy, suggests we are faltering in our resolve to play the creative and decisive role in world affairs that history has assigned to us.

As an historian, Mr. Kissinger can see a "new order" emerging from the diplomacy of detente, from the new economic power of Western Europe and Japan, and from the aspirations of the third world to accelerate their development by striking a better bargain for the resources they supply to the industrial nations. That view may be accurate, but it is by no means certain who will be in the role of in position for quick firing. Government officials architect for that new order.

One blueprint is that supported by American policy - nations working out their destiny within secure borders, striving to give their people the freedom, justice and the opportunity for selfdetermination. The other is the blueprint of totalitarianism sponsored by Moscow and Peking which locks people into systems not of their own

### Impractical Ban

The petition to the Consumer Product Safety Commission to have handgun bullets banned as a "hazardous substance" is patently an attempt to leapfrog the legislative process to achieve some kind of gun control. The federal judge who ordered the commission to consider the petition should not have gone along with the game.

Congress is going to have to decide whether any type of firearms or ammunition is going to be outlawed or placed under stricter cortrol in an effort to curtail the use of guns by criminals. Admittedly, legislating in this area is full of pitfalls, but there are even more along the route of trying to sneak guns or bullets under the broad definition of "hazardous substances" now subject to federal control. Where would the list end? With Scotch whisky? Green apples? Gasoline?

Nearly \$4,000 worth of merchandise will be auctioned starting at 5 p.m. and take place at the Land O'Fabrics building on First Street in Sanford. The store will be opened at 9 a.m. and Flea Market will be available until the start of the auctioneering at 5 p.m.

According to Rev. Blair McGarvey, there'll be many prizes in various categories - one of which is a ride in Johnny Bolton's P-51 Mustang airplane. Last Foreigners Reach

Thailand From Cambodia

The last 550 foreigners trapped in Phnom Penh crossed into Thailand today and several painted a picture of a "dead city" littered with decomposing bodies and abandoned household goods, populated only by stray pets and Khmer Rouge soldiers.

However, earlier evacuees in accounts released today related mixed tales of killings and kindness from the Khmer Rouge victors, and one of the last women to arrive said soldiers "scorting them gave them coconut milk and oranges all along the 200-mile road to the border. In Bangkok, reliable sources reported that the U.S. government has imposed a freeze on any more Cambodian and Vietnamese refugees who want to go to the United States. An Embassy spokesman said he had no

knowledge of any such directive from Washington. In South Vietnam, where the new government resumed communications with the outside world, Associated Press writers George Esper and Peter Arnett reported they were able to move about freely and tried to interview Lt. Gen. Tran Van Tra, chairman of the military administration committee for Saigon under the new regime.

## Oviedo Will Hold Special City Election On June 26

By DONNA ESTES Herald Staff Writer

OVIEDO - A special election has been called here for June 26 to fill a vacancy on the City Council and to get voter reaction to a

recommended change in the city's form of government. The Council vacancy was created by the resignation of Walter Rawlson, who has moved from the community. Rawlson was elected in Sec ember, 1974, unopposed. The term of office to be

filled in the special election extends to September, 1976. Two candidates have qualified so far - Ray Beasley, a six-

## Dick Allen Hated, Loved; Now A Phillie

PHILADELPHIA (AP) - They either love him or hate him. Nothing has aroused the emotions of Philadelphia

sports fans like the Dick Allen saga. Ever since the Philadelphia Phillies expressed interest last December in reacquiring their one-time headache, the newspapers, television and radio stations have been besieged with letters and calls about Allen.

The tone has been either, "Hey! Let's get him, he'll win a pennant for us," or "If the Phillies get that burn again I'll cancel my season tickets." There is no argument about Allen's ability. He's recognized, even by his detractors, as one of the super hitters of modern baseball.

You could awaken Dick Allen at midnight, hand him a bat. and he'd probably hit the wall for a double.

The question now that the Phillies have him back is how much love, or hate, the fans have for Allen. The fans are divided. So when he first steps on the field at Veterans Stadium, there will probably be as many cheers as boos or as many boos as cheers, depending on how you look at

## First Round Miller's Jinx

DALLAS (AP) — Johnny Miller's chance of success in the \$175,000 Byron Nelson Golf Ciassic will depend, to a great extent, on how he fares in today's first round.

"I need to get that good first round," golf's new golden boy said before tecing off in the first 18 holes of the four-day chase for a \$35,000 first prize.

"I'm a front-runner," Miller said. "If I get off to a bad start I might not do too good. But if I can open up with a good round, if I can get that fast start, I might be hard to handle." The lack of a fast start has been his problem—that is, if he has had a problem-the last couple of months.

"I haven't looked it up, but my caddy told me I haven't broken par in the first round in something like the last four or five tournaments," he said. Actually, he hasn't broken par in the first round in his las seven starts.

And he hasn't won any of them. By way of contrast, he won three of his first four starts the year, setting numerous records and capturing the imagination of the nation's golfing millions in the process. In every one of those, he had a first round in the 60s.

For a brief time there was some question whether he would start at all. A foot infection made him doubtful starter. Some antibiotics solved the problem, however.

"That's been the problem, just getting off to a good start,"

"It doesn't bother me at all now," Miller said before getting away on the 6,957-yard, pay-71 Treston Trail Golf Club course. Whether he wins or not, Miller appears almost certain of achieving one goal-reclaiming the No. 1 money-winning position. Miller had led that pretigious list from January 1974 until Jack Nicklaus edged past him two weeks ago in the Tournament

Instead, Drouin shot the puck-a rising backhander that soared over the right leg of Philadelphia Flyers' goaltender Bernie Parent at 1:53 of overtime to give the Islanders a 4-3 victory and sudden life in the National Hockey League's playoff semifinals.

It was Resch's "him or me" victory that kept New York from teetering over the brink of Stanley Cup elimination Wednesday night. His first-period save on a penalty shot by the Flyers' Bill Barber temporarily preserved an early Islanders' lead and helped hand the defending champions their first loss in 22 games.

DALLAS, Tex. (AP) - Bigger stores, more coupons and electronic gadgets at every turn. That's what consumers can expect to find at the supermarket in coming months, according to experts at an industry convention here.

Bigger Stores,

The annual report of the Super Market Institute, presented Monday and based on a survey of 11,000 stores with annual sales of some \$35 billion, indicated: -There were about 2 per cent fewer supermarkets at the end of 1974 than there were a year earlier, but there was about 3 million more square feet of floor space, in-

dicating a trend toward bigger stores. The statistics on store closings did not reflect the recent decision by A & P. the nation's second largest chain in terms of sale, to close more than one-third of its 3,600 outlets. -Coupons and other discount operations are gaining ground, but trading stamps are losing. Fifty-two per cent of the stores surveyed by the institute said they were

putting more emphasis on coupons; 48 per cent described themselves as discount operations; and only 17 per cent were offering trading stamps, a decline from the previous -The average customer spent \$8.23 on each trip to the supermarket last year. That was 10.2 per cent more than the previous year, but inflation ate up the increase. When spending was measured in real dollars, the amount of the

average transaction declined more than 18 per cent. -Supermarket profits were at their highest level since 1971, representing 4.1 per cent of total assets, compared with 2.5 per cent in 1973, 4 per cent in 1972 and 5.3 per cent -The supermarkets' net profit before taxes last year

was equal to 1.8 per cent of sales, the highest in five years. After tax figures were not available. Almost 10 cents of every dollar spent at the supermarket went for labor costs and fringe benefits - about the same as a year earlier. -Retail sales rose 16.4 per cent in 1974. After adjustment for inflation, the increase was about 1.5 per cent. -Energy costs added to the grocery bill and are likely to add still more, offsetting recent declines in the prices paid to farmers. The supermarket operators surveyed said electricity bills went up 24 per cent in 1974; heating bills went up 20 per cent; and transportation costs rose 19 per cent. The retailers said they expected electric bills to go up another 17 per cent this year and predicted heating and transportation costs would jump 15 per cent. Some 12,000 persons are on hand for the convention and many of the retailers, wholesalers and manufacturers ate, drank or stared their way through more than 600 exhibits Monday afternoon, seeking ways to boost profits

and cut costs with new products.

### **Energy Saving Program** Announced By Walgreen

THE HERALD SERVICES The Walgreen Co., is reaffirming its nationwide program to support energy conservation, company President Charles R.

Walgreen said today. "We have adopted an overall, total approach to the energy crisis," said Walgreen, "which involves each of our 29,000 employes, in addition to the corporation itself. In 1974. we realized a corporate energy savings of close to nine per cent. We hope to increase that savings for The Walgreen energy

program is divided into a corporate conservation plan, and a campaign designed to promote an "energy consciousness" on the part of its customers and employes.

Walgreen stated that the company reduced the use of exterior and unnecessary interior lighting. In addition, temperatures during the winter months have been reduced from 72 to 68 degrees. This heating fuel consumption that amounts to ap-

### Alaska Pipeline May Be Running Out Of Funding

By THE HERALD SERVICES

ANCHORAGE - (LENS) - At last the trans-Alaska pipeline is being built. Five years' delay have taken their toll. The most hopeful prediction now is that the 798-mile pipeline from Prudhoe Bay to the southern port of Valdez will have cost \$6 billion when completed in 1977, not the North Slope facility itself will cost another \$2 billion. Still, it should be worth it. In 1978 the companies hope to

## 'Nets' Good Samaritan

Now here's a real fish story.

Seems Milton Moore of Lake Mary was shrimping out of the Cedar Creek Fish Camp, New Smyrna Beach, last Saturday night and in the process his wallet slipped out of his pocket and fell into the drink.

A search of the area proved fruitless and Moore returned home minus the wallet and the \$73 it contained

Then on Monday morning, Moore got a call from Ivan Zimmerman of 1068 June Terrace, Daytona Beach, informing him that his wallet had been found.

Zimmerman and his wife had been out shrimping Sunday night when Mrs. Zimmerman dipped the wallet out of the water, turned to her husband and said, "Bet that's the biggest shrimp you ever saw."

Not only did the Zimmermans do a good deed in telling Moore his wallet had been found - with the \$73 still in it - but they took all his papers out of the soggy leather case and had everything dried out and nearly as good as new when Moore arrived to pick it up. It's tough to find good people like the Zimmermans
