

Phil Scott, Fluctuating Fighter, Is Within One Match Of Heavy Crown

By Davis J. Walsh, International News Service Sports Editor.

NEW YORK, Jan. 9.—Reason has abandoned and bluntness is enthroned. Fluctuating Phil Scott, who has been meaning to go one way and down the next—is expected to fight 15 rounds with Sam Sharkey at Miami next week and thus today is within one match of a world's heavy-weight championship shot.

Thus, too, we see a vast neatly and quickly made out of an arm hole. Regardless of what they do for and with him, Scott is the same old fighter who left America last year without a single cent to show for at least one hundred million people.

At home they call him fauet because he runs when somebody uses the tap—that is, the tap to the stomach—but here he is bowed into the semi-final of the heavy-weight tournament on the strength of his monic and we hasten to conclude the ceremony, lest he becomes irked at our boorish ways and thus change his mind.

Man has spent the better part of a life time trying to coax their way to a point where the heavy-weight championship is within their reach.

Scott's fight at this point yesterday by a few spokes of the fan and the world's most colossal parley ever conceived in the mind of man. It all began at this time last year, with the earth still warm over Richard's grave and the need of putting over the Miami fight an imperative one. Jimmy Johnston wishing to get some hot money, strolled into the office of W. P. Carey and suggested Scott for a preliminary bout on the Miami card. Scott, at the time, was in England, a largely discredited fighter and pretty much disillusioned with Johnston and a world that was selfish and cold.

"Who's Scott?" said Mr. Carey, brightly. "I never heard of Scott." Obviously there was nothing left for Johnston to say to this, as he said it, thus: "The name is Phil Scott and I want you to remember it carefully, because some day he is going to cost you a million dollars."

Mr. Johnston is inclined to be that way about other people's money but he probably meant nothing very pertinent on this occasion, beyond a remark for what he had deemed to be lively at his expense.

In any case, he hit the air and took a generous gulp because it was free that day. So was Mr. Johnston and he walked very purposefully down the street, having first resisted an impulse to walk up the street.

He was opposite Fuzary's of vice when the great idea seized upon him and claimed him for its own. He thereupon entered without knocking, and Fuzary the idea of inserting Scott's name in a locker contract the promoter held on Schmelling's services and the garden was staked for the first payment on the debt Johnston had conceived that it owed him.

No Law Will Block Miami Title Match

MIAMI, Fla., Jan. 9.—(INS) There is no regulation in Florida which would prohibit the Miami bout between Jack Sharkey, the Boston pug, and Phil Scott, the London tower, according to Lou McLaughlin, the manager of the boxing champion. McLaughlin said, however, that a local ruling exists which provides that the boxing commission can determine the number and length of the round.

"In this case," McLaughlin said, "the commission will allow the Madison Square Garden Corporation to put on any length of fight it wishes." He said the local rule was adopted primarily in case of younger fighters participating in preliminaries.

HAACK IS NAMED TO REFEREE BOUT IN MIAMI ARENA

Memphis Man Will Be 3rd Party In Ring As Mandell Fights

MIAMI BEACH, Fla., Jan. 9.—(INS)—Following days of wrangling by managers, Billy Haack, Memphis boxing promoter and referee, today was selected as the third man in the non-title bout here Friday night between Sammy Mandell, world's lightweight champion, and Manuel Quintero, the Cuban contender.

The selection of Haack came after many conferences between Eddie Kane, the champion's defense manager and Dr. Rex Myers, of Tampa, the manager of the Cuban, who once was the doctor's office boy. Announcement that Haack would be acceptable to both was made early today.

Kane earlier enthusiastically vetoed the suggestion that Jack Sharkey be the arbiter, declaring that "I don't want a fighter for a referee. They're like first fire horses when they hear the gong, and want to fight themselves."

Both Mandell and Quintero are close to the weight and the fighting condition in which they will enter the ring at the Miami Beach Kennel Club. Mandell, weighing 137 and wishing to enter the ring at 136 1/2 laid off boxing yesterday in favor of nine rounds of floor work and rope skipping. However, the champion will box a light schedule today.

Quintero, tipping the scales at 138, expects to enter the ring a shade under that figure, as specified in his contract. He also will box a light schedule today. He evidenced a knock-out punch yesterday when he dropped Tom Walker, Los Angeles sparring partner, in the first round. He also boxed two rounds yesterday with Tommy Jones, New York, and Joe Petch, Tampa.

Reiselt And Layton Are Tied In Tourney

NEW YORK, Jan. 9.—(INS)—Reiselt and Johnny Layton, defending champion, today were tied for the lead in the world's three-cushion championship tournament, each having won five matches and lost one.

The deadlock is a result of Layton's victory last night over Allen Hall, 50 to 25, and Reiselt's, 50 to 49, in which, Copulas equaled the world's championship tournament high-run mark of 17.

In the two afternoon matches Annie Keckhoer defeated Charles Johnson in a 72 minute match, 50 to 49, while Tiff Denton knocked Harry Schuler, 50 to 25.

Marble Column To Be Lasting Monument To Man Whose Tomb Will Be At Its Base

(Continued from page 1) tive here early this afternoon. Mrs. Bok, who accompanied her husband to their winter home here Sunday, was at his bedside when the end came this morning.

While arrangements for the funeral services tomorrow afternoon have not been completed, it is probable that the urn which was placed with him in Mountain Lake hid sanctuary and the Bok Staring Tower will carry his body to the resting place of the foot of the great pile, and in all probability there will be music from Anton Brues on the tower bells to sound a requiem for the little Dutch boy who came to America in a bleak morning in October, 1893 and overcame the handicap of his foreign birth, rose to the top of his chosen profession.

The burial crypt faces the north and is located just in front of the great north door of the tower, a work of art in which there is portrayed in panels of beaten copper an allegorical picture of the rise of man from the primeval ooze. The plain slab in which the Bok Tower is interposed and the view of it generally is a relief from the concealed tomb.

After a heart stroke Sunday, Bok's condition grew worse until yesterday. Specialists were summoned hurriedly from New York. They did not, though, have sufficient time in which to reach his bedside before the philanthropist died. He became suddenly worse last night, and physicians feared that the end was near.

U. S. DELEGATES TO NAVY MEET DEPART TODAY

(Continued from page 1) cross the Atlantic in trust of an amiable understanding with the United States, with naval parity as its basis.

In this mission he was successful, and the American delegates to the forthcoming naval conference set sail today under far different conditions than obtained two years ago. At Geneva two years ago, it was British-American differences that led to a reluctant break-up of President Coolidge's effort to obtain further naval agreement.

Today, however, substantial agreement already exists between the two English-speaking nations on the broad principles of naval limitation. There is still a slight difference between them over the cruiser question, but it amounts to only three ships involving some 30,000 tons, and no one anticipates that any insuperable difficulties will be encountered in adjusting this.

The danger points of the forthcoming conference, and they admittedly are numerous, lie elsewhere—with France, which is still smoldering under what she conceives to have been a begrudging treatment at the Washington conference in 1921-22, with the French and Italian aspirations; and with Great Britain's naval policy as regards to Europe.

With their own naval policy settled on a basis of parity with the strongest, which is conceded by all the powers, the American delegates may find themselves playing the role of mediators and peace-makers for the others, when and if the anticipated dissensions arise to plague the conference.

At Oakland, Cal.—Wesley Ketchell, Portland, middleweight, defeated George Dixon, Portland, bantam (10).

LOCAL DEALER OF CHEVROLET GIVES FACTS ABOUT CAR

Stresses Importance Of Easy Riding Features Of '30 Model

"Luxury in motoring for many years was a phrase used only in relation to the high-priced car," according to a statement issued by the Chevrolet Company to its local agents, White-Higleyman Company located on Magnolia Avenue, recently. "The amount of the original investment in a car determined not only its size but the completeness of equipment designed to add to the comfort and convenience of the passengers. Purchase of a low priced automobile invariably meant a further investment for a speedometer, horn, snubbers and many other items not included in the list price."

Stressing the importance of the "easy riding feature" of an automobile, the statement from the Chevrolet headquarters made it known that the low-priced car today should embody practically every comfort device of the most costly car as a further step to the economies of standardized precision manufacture. Yet the fact remains that within the price range of a four the purchaser may obtain an operating six-cylinder unit complete in every detail at no investment beyond the delivered price of the car.

"An instance of the well rounded equipment of the low-priced car is seen in the new six-cylinder Chevrolet for 1936. Among the features new to the line this year, which will add measurably to the comfort of millions of motorists during the present season, are Delco-Lowboy hydraulic shock absorbers at all four wheels, replacing the tension spring of other years; new self-adjusting shackles for easier and quieter spring action; long, resilient springs carrying 81 per cent of the wheelload; descer as well as lower stop; and larger balloon tires.

"Coupled with the smooth action of a more powerful and refined power plant, these added features promise a degree of motoring comfort hitherto foreign to the field of the low-priced car."

Arrest Communists

NEW YORK, Jan. 9.—(INS) Sixty communists were arrested today when police reserves charged a mob of about 150 men and women, parading and singing in front of a shoe company office.

One patrolman, Thomas Julia, had his face lacerated by a group of furious women who surrounded him, striking and clawing in the near riot.

BOK WILL BE BURIED TODAY NEAR TOWER

(Continued from page 1)

Begining a half hour before the burial, the carillon bells will toll a requiem for the builder of the tower. The American people will be followed by "God's Hand," an old Dutch folk song for which Bok had composed the words. While the requiem services are in progress, Anton Brown, the famous Belgian bellfounder, will have charge of the carillon programs, which play Chopin's "No. 1" march.

Mr. Bok's widow will be the member of the committee in charge of the funeral. When the funeral came early yesterday morning, Bok was stricken with a heart attack upon his arrival last year.

'Big Six' Delegation At Hague Meeting Is Unable To Agree

LONDON, Jan. 10.—(U.S.P.)—After 90 minutes of fruitless discussion, the "Big Six" delegation at the Hague conference at the Hague gathered today with the situation as bleak as ever. Efforts to reach a compromise on the various points failed, and a deadlock was declared. As the meeting was adjourned, Philip Snowden, British member of the delegation, declared that he had not been able to reach any compromise on the various points. Snowden said that the British delegation would not be able to reach any compromise on the various points.

Linked the Germans for 'not playing a more conciliatory part'

The entire 90 minutes of today's discussion were occupied with wangling over technicalities, words and phrases. The adjournment was due to a refusal of the Germans to take advantage of the British clause. They pointed out that while they fully trust the present government of Germany, they have no confidence in the national assembly, which strongly influences the policy of all responsible persons, and that they do not trust the national assembly.

Indian Refuses To Kill Sleeping Tiger; Gets Badly Injured

BOMBAY, Jan. 9.—(U.S.P.)—A young Indian hunter named Marunge who would not kill a tiger while it was asleep, has been badly injured. He was suffering from a broken leg and a broken arm. After a battle which lasted 15 minutes, the tiger was killed, it being afterwards discovered that the animal's head had been completely smashed.

BAD BREATH, DULL FEELING

Virginia Lady Tells How She Gets Rid of These Symptoms. Rural Market, Va.—"Every so often," says Mrs. L. W. Hilton, of this place, "I am troubled with bad breath and biliousness, the result of indigestion. My health gets bad, and I feel dull and lifeless. Such a spell follows constipation, and I have found it wise never to allow it to run on. At the first sign of such symptoms, I begin taking a course of Theford's Black-Draught, and in a few days I am feeling well again. I have found that I always feel better after I have taken it. I am glad to recommend Black-Draught to others. We have used it in our family for six years or more. Constipation damps up poisons in the bowels, where they are absorbed into the general system, causing many serious ailments. At the first sign of constipation, take Theford's Black-Draught. This valuable remedy has been in use since 1835, with constantly increasing popularity because of its real merit. Insist on the genuine, in a yellow package, marked 'Theford's.' Price 25c.

A THREE DAYS' COUGH IS YOUR DANGER SIGNAL

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified croscote that is pleasant to take. Creomulsion is a medical discovery with two-fold action: it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs croscote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to croscote, other healing elements which soothe and heal the inflamed membranes and stop the irritation, while the croscote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs. Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and minor forms of bronchial irritations, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. (adv.)
