

Islamic Nations To Hear Plea From Afghan Rebels

ISLAMABAD, Pakistan, (UPI) — An emergency meeting of the Islamic Conference is considering expelling Afghanistan's Soviet-backed government from the organization, and has decided to allow Afghan rebels to present their case for assistance, conference officials said today.

Habib Chatti, secretary general of the Islamic Conference, told reporters after a morning session "a certain country" had proposed expelling the Kabul government. Host country Pakistan, which borders Afghanistan, was believed to be behind the move.

Chatti said representatives of a newly-formed Islamic Alliance for the Liberation of Afghanistan, a coalition of six Afghan guerrilla groups, had won approval to appear before the important political committee, which is drafting the final communique.

"They (the rebels) will be addressing the political committee" he said. "The committee has decided that they would be allowed to speak."

The twin moves of expelling Afghanistan from the 42-member Islamic Conference and admitting the rebels would constitute a major diplomatic defeat for the Soviet Union, which has been campaigning to turn down any anti-Moscow action by the Muslim countries.

In addition, Chatti said the conference was "certain" to approve a final communique specifically calling on the Soviet Union to withdraw its estimated 85,000 troops from Afghanistan, which did not send a representative to the emergency summit.

"There is a consensus of opinion strongly against the Soviet intervention in Afghanistan," he said.

Bani-Sadr Hardens Iran Stand

By United Press International

Abol Hassan Bani-Sadr, holding an innumerable 6 million-vote lead in Iran's first presidential contest, has apparently backed off from a moderate stand on the American hostages — calling for a crisis Washington can best resolve.

Incomplete returns in early counting gave the finance minister and close friend of Ayatollah Ruhollah Khomeini 7 million votes out of the 11 million reported counted Sunday by Tehran Radio, monitored by the BBC in London. There were 22 million eligible voters in the election Friday.

Bani-Sadr continued to reap such a large share of the ballot, he was expected to take 77 percent of the votes cast, giving him the necessary majority to negotiate the need for a run-off election in the contest of seven main candidates.

Bani-Sadr, 46, apparently hardened his earlier moderate stance on the U.S. hostages, who were in their 86th day of captivity in the U.S. Embassy in Tehran today, at a news conference Sunday.

"The greater part of the solution" lies with the Americans," Bani-Sadr said. "Only when America abandons its expansionist policies and respects the sovereignty of other nations" will "allow" Iran to pursue criminals and the crisis in American-Iranian relations be resolved, Bani-Sadr said.

The reference to criminals abroad clearly referred to the exiled Shah of Iran, whose extradition from the United States for trial in Iran was demanded by the Muslim students who seized the embassy and the hostages Nov. 4.

Admiral Ahmad Madani, former governor of the southern province of Khuzestan, trailed far behind in second place with approximately 15 percent of the vote, or about a million votes in the

Peter Quincy points to destination at Fort Clinch on map of state

Audubon Staffer To Canoe Around State

By JANE CASSELLBERRY
Herald Staff Writer

How can you follow an act like "Eagle Lady" Doris Mager's nest-sitting exploit last June? With a 90-mile canoe trip around the coast of Florida, of course!

It was while the Florida Audubon Society staff at the state headquarters in Maitland was kicking around the question of "What do we do next?" that it came up with the suggestion that chapter liaison staffer Peter Quincy make the trip to call attention to "The Year of the Coast" proclaimed by Governor Bob Graham.

Ms. Mager, known for her efforts in rescuing and caring for wounded eagles and other birds of prey, actually lived atop a pine tree in an eagle's nest near Ovidelo for six days to raise funds for construction of an aviary for the large birds.

The society plans to highlight the tremendous economic, environmental and aesthetic values of the coast, while recognizing the widespread misuse and abuse of coastal resources. This effort is aimed at publicizing the need for coastal resource planning and management in the state. Eighty-five percent of the population of Florida lives on the coast.

Other objectives are to raise funds for coastal conservation efforts and to broaden the image of the Florida Audubon Society. "When they hear Florida Audubon, a lot of people think we're just involved with birds," pointed out Janet Roth, vice president in charge of Public Relations, "but we are involved in the total conservation picture — clean air, clean water, and preservation of the wetlands and coastal areas."

A marine biologist and geologist, Quincy's longest canoe trip to date was a "60-mile" river trip. He has never gone to sea in a canoe before. "It will be a unique experience for me," he said.

Quincy will launch his 17-foot aluminum canoe from Ft. Pickens State Park in Pensacola with Lt. Governor Wayne Mixson as his canoeing partner. Mixson has signed on for the first leg of the trip along the Gulf coast. Fifty-four others have signed up for stints on the trip from Pensacola to Fort Clinch State Park, northernmost spot on Florida's east coast.

They include Elton Glendanner, director of the State Department of Natural Resources; Col. Robert Brantly, director of the Game and Freshwater Fish Commission; State Rep. Dale Padgett, several county commission candidates; municipal leaders; business leaders; chapter representatives; outdoor writers and others.

Sears, Roebuck and Co. is furnishing the canoe and all necessary camping gear for the adventure, right down to Quincy's thermal underwear. February can be cold even in the Sunshine State, especially in the Panhandle, but this time of year was chosen to avoid the hurricane season and in hopes the mosquitoes will not be as bad as they would in warmer months, especially in the southern tip of

Man Held In Girl's Murder; No Arrest In Henson Case

A former resident of Orlando, currently serving a life term for a Georgia murder, has been extradited to Seminole County on charges he raped and murdered an Orange County teenager here in May, 1978.

Richard Allen Oliver, 24, was transferred to the Seminole County Jail from the Atlanta Diagnostic and Classification Center Saturday, said Sanford police.

The Herald incorrectly reported Sunday Oliver was being held for the murder of a Sanford resident, Paul Henson, late last year. Police have not yet made an arrest in that case.

Oliver is charged with raping and murdering Ms. Clayton, whose body was found off Lockwood Road near Ovidelo.

A Seminole grand jury indicted Oliver on May 4, 1979, but his arrest was delayed due to his incarceration in Georgia.

He will be arraigned Tuesday on the indictment, and will be held at the county jail without bail.

Sanford police are continuing with the last stages of their investigation into the death of Henson, a Sanford truck driver, found shot in his home on Nov. 29.

Sanford Det. William Bernosky said he is expecting results from the two-month, three-state investigation within two weeks, after final polygraph tests are completed on suspects by out-of-state police agencies.

Hospital Employees Will Not Lose: HCA

Seminole Memorial Hospital employees' benefits were among top concerns as negotiations began this morning between Seminole County and Hospital Corporation of America (HCA), the Nashville group that has won the rights to assume control of SMH.

County Administrator Roger Neiswander and Assistant County Administrator Jeff Eickberger began discussing aspects of the proposed deal to the death of Henson, a Sanford truck driver, found shot in his home on Nov. 29.

Sanford Det. William Bernosky said he is expecting results from the two-month, three-state investigation within two weeks, after final polygraph tests are completed on suspects by out-of-state police agencies.

"We want to make sure employees receiving benefits based on the number of years worked are not cut off just because we came in."

Although HCA has different medical and life insurance programs than the county for employees, Lewis pointed out areas of customer service where HCA might be better.

In other areas of the contract negotiations, the county and HCA agreed they would probably settle accounts receivable at \$1.7 million, with the realization that the amount actually collectible may be more or less.

Another main area of concern according to Neiswander is pay back of the \$1 million Hill-Barthe obligation, an obligation to refund federal loan money as the hospital transfers to a profit-making entity.

Lewis said, "HCA is willing to negotiate the pay back for the county, but we don't have the power to pay it off. It's still the county's obligation."

'Prudent' Carter Budget Boosts Defense, Energy

WASHINGTON (UPI) — President Carter today sent Congress a "prudent and responsible" \$118.8 billion budget for fiscal 1981 which gives top priority to defense, energy and helping the nation's youth find jobs.

In an effort to curb inflation, Carter proposed a federal deficit of \$13.8 billion — which would be the lowest in seven years, \$60 billion smaller than when he first ran for the White House.

Carter offered no tax cuts for the American people in this election year, saying that would be inflationary. But he said he would consider tax cuts, along with more job programs, if the economy significantly worsens.

The budget document contains a forecast by Carter's economists that consumer prices will rise 10.4 percent during calendar year 1980, compared to last year's 13.3 percent.

The Pentagon got the fastest increase — proposed expenditures of \$142.7 billion in 1980, a 3 percent "real" increase over 1980, a 3 percent "real" increase over 1980, a 3 percent "real" increase over 1980, a 3 percent "real" increase over 1980.

The money would be used to develop a new land-based intercontinental missile system, the MX; bolster NATO forces and improve the U.S. ability to deploy forces in other parts of the world.

"I cannot ignore the major increases in Soviet military spending that have taken place," Carter said. "I cannot ignore the implications of terrorism in Iran or Soviet aggression in Afghanistan."

SUPPORTING THE SHERIFF

LA. Gov. Wayne Mixson, at the microphone, announces his support for the re-election of Seminole County Sheriff John Polk at a fund-raising barbecue held in Polk's honor Saturday. More than 1,000 persons, including state Insurance Commissioner Bill Gunter, attended the barbecue to assist Polk in filling up his war-chest for the upcoming campaign.

DEAR DR. LAMB— What do you think of this diet? Best: beef with all the fat, hamburger meat — very fat, lots of butter and mayonnaise. For example, she eats ground hamburger and adds four or five eggs, fries it in lots of butter and puts it on the plate with a big chunk of butter on top and loads of mayonnaise all over it. She eats it grease and all — no sugar, etc. She's been on this diet for over a month and has lost 25 pounds. Other readers who want his issue can send 75 cents with a long, stamped, self-addressed envelope for it. Send your request to me, in care of this newspaper, P.O. Box 1551, Radio City Station, New York, NY 10101.

DEAR READER — I really don't care where it came from — it's a terrible diet. First, it's grossly deficient in calcium. Since she's taking a sensible exercise program, the adjustment in lifestyle should be permanent. The weight loss should be slow and gradual. In the process a person learns to eat properly and live properly so that he can avoid obesity. Crash diets are the ones that usually cause the most trouble. The more odd-ball a diet is, the shorter length of time a person should be on it if he wishes to maintain his health. Excessive loss of water or salt or both can cause a person to be fatigued. It can cause mental confusion and disorientation. This is sometimes mistaken for senility when it happens in an older person. Salt and water disturbances, particularly potassium salt loss, can contribute to serious heart irregularities. This is apparently one factor in the deaths from the liquid protein diet that were reported.

HOROSCOPE

By BERNICE BEDE OSOL
For Tuesday, January 29, 1980

YOUR BIRTHDAY
January 29, 1980
This coming year other may do more favors with fewer strings attached than they have in a long time. Be grateful to your benefactors and take full advantage of your opportunities.

AQUARIUS (Jan. 20-Feb. 18)
Material items could come your way today from two different sources. One is through your personal effort, but the other might be an unexpected gift. Romance, career, travel, resources and possible pitfalls for the coming month are all discussed in your Astro-Graph Letter that begins with your birthday. Mail \$1 for each to Astro-Graph, Box 486, Radio City Station, N.Y. 10019. Be sure to specify birth date.

PISCES (Feb. 19-March 20)
You could begin to feel more independent and in control of things today. This is the time to push forward. You make the breaks come easier.

ARIES (March 21-April 19)
Don't be stuffy or sensitive about letting another go. It won't damage your image one bit.

AURUS (April 20-May 20)
Because of your charm and wit, you won't have much difficulty swaying those with whom you come in contact today. People are drawn to you.

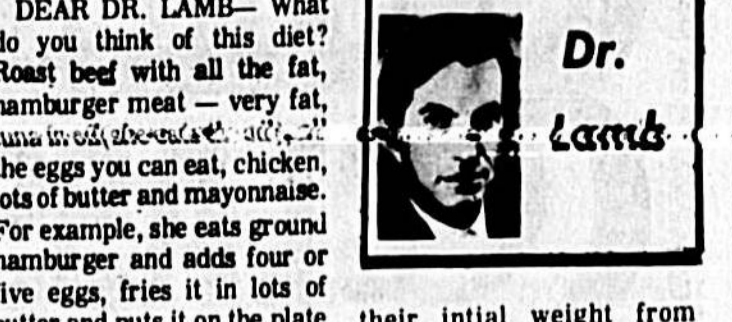

GEMINI (May 21-June 20)
Goals that are important will appear to come more easily today.

SPIDER-MAN
You shouldn't be making any major decisions about your future today.

ZOOMIES
You'll be in a hurry today.

TUMBLEWEEDS
You'll have a move today.

Meat, Eggs, Butter Form 'Terrible' Diet
