

25,000 Fans Are Expected For Hambletonian

GOSHEN, N. Y., Aug. 6.—(AP)—It's Hambletonian time again and that means upwards of 25,000 will pour into this village today to watch nine picked three-year-old trotters battle over Good Time park's triangular course in the 16th "corn-tassel" derby.

The lineup for the \$30,725 race was completed Tuesday morning when the owners and trainers of the five colts and four fillies posted the starting fee of \$500—final payment of the \$900 necessary to qualify a trotter for the richest of all light harness horse racing stakes.

Harry McKenney, starting his first Hambletonian, will get the field away for the first of the best two out of three heats at 2 P. M. Eastern Standard Time. The weather promised to be fair.

Favorites Advance In Eastern Net Tourney At Rye

RYE, N. Y., Aug. 6.—(AP)—The second round of the eastern grass court tennis championships was completed Tuesday without a hint of trouble for the favorites. From top-seeded Bobby Riggs of Clinton, S. C., right down to Arthur Marx of Hollywood, California, a youngster who is making tennis fans forget to refer to him as the movie comedian's son, the players who were expected to win did win—and usually in straight sets.

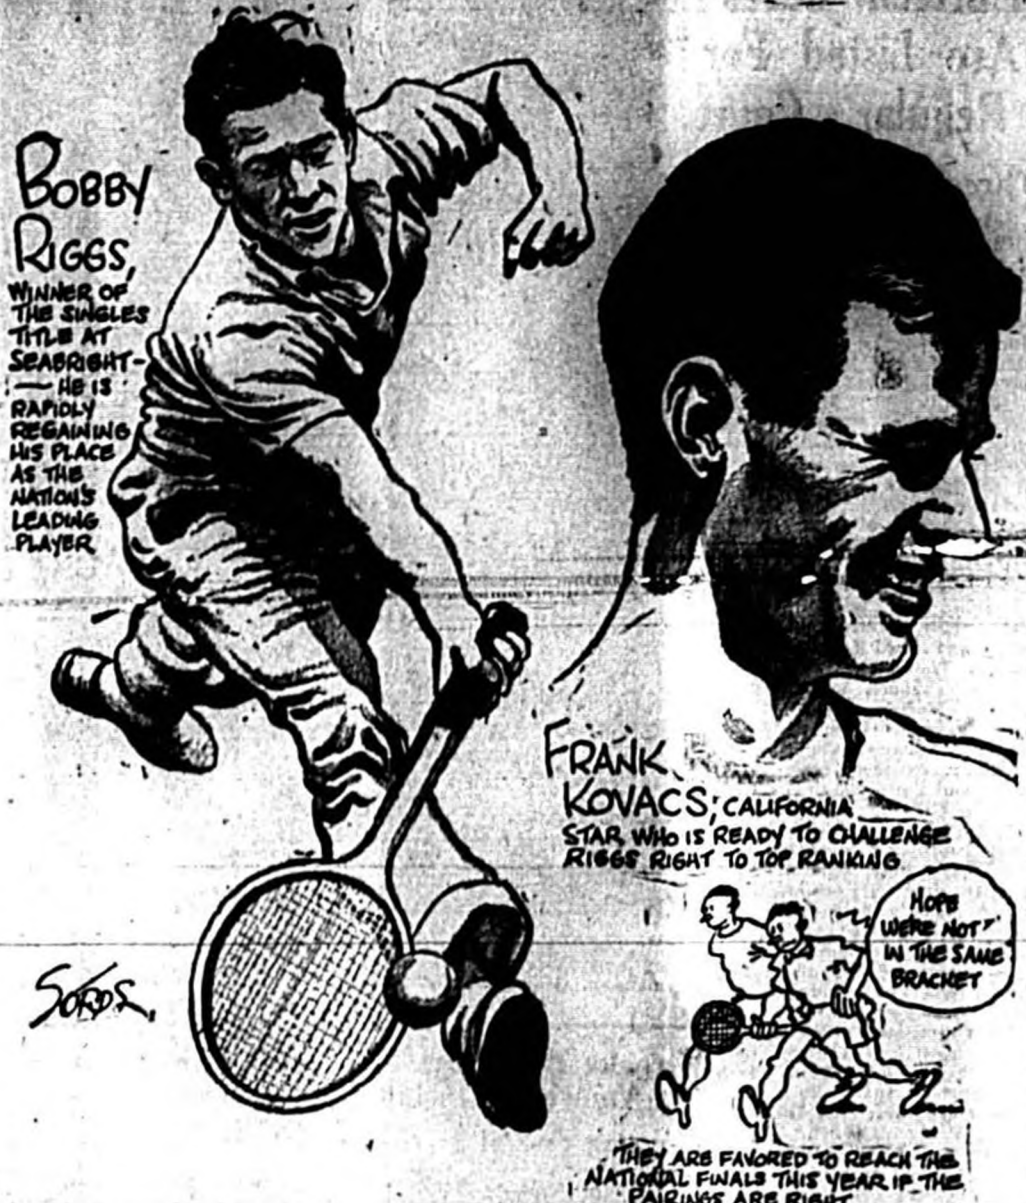

Riggs gave his strokes a good workout at the expense of Bill Canning of Hidden Valley, Calif., winning 6-4, 6-3, after running his opponent from baseline to net and back again with a mixture of drop shots and deep-driven backhand placements.

Marx, who will take on National Champion Don McNeill of Oklahoma City in the third round, knocked off Ronald Edwards of San Jose, Calif., 7-5, 6-3. McNeill seeded second in this tourney, whipped William Umstaedter of Milburn, N. J., 6-3, 6-0.

In between, these extremes, Frank Kovacs of Oakland Calif., Ted Schroeder's National champion doubles partner, Gardnar Mulloy of Coral Gables, Billy Talbot of Cincinnati, Ladislav Hecht of New York, Charles Glenwin of Santa Monica, Calif., Sidney Wood of New York, Ed Amark of San Francisco and Bryn Grant of Atlanta all came through to complete the round of sixteen.

Frank Riker of Spring Lake, N. J., Wayne Sabn of Reno, Nev., seeded fourth and fifth, and upsetter Earl Cochell of Los Angeles, who meets sixth-seeded Schroeder tomorrow, had won their third-round brackets earlier in the tourney.

Amateur Links Champ Is Busy With Army Life

MONTGOMERY, ALA., Aug. 6.—(AP)—Richard (Dick) Chapman, the dark and handsome 20-year-old king of United States amateur golfers, isn't claiming he'll be there at the finish when his title goes on the line at Omaha Aug. 25-30 and has picked himself a quarter from which he thinks a new champion Haly will come.

But at the same time he concedes "my game is more consistent, straighter, and a lot less work" than it was a week ago when he defeated Duff McCullough of Philadelphia, 11 and 9, over his "home" course, Winged Foot at Mamaroneck, N. Y., for the title.

He'll lay it on the line with confidence, too, because he's better competitor, although the only golf he gets in now is after 6 P. M. week days, except Wednesday and Saturday afternoons and Sundays. From 8:30 A. M. to 6:30 P. M. he's busy as assistant physical director at the Southeast air corps training center at Maxwell field here.

and the track fast.

Although Bill Gallon has won only one of his five heats in two races this season, the son of Sandy Flash from R. H. Johnston's Charlotte, N. C. stable, figures to go postward the three to two favorite to take the winner's share of the purse, amounting to \$20,365. He whipped all of the top two-year-olds in 1940 in hanging up a record of 2:04. This year he has bowed only to older horses—in a handicap event and to Vekstedt, a three-year-old not eligible for the Hambletonian.

Perpetual winner of the Matron, National and Historic stakes this season, might have pushed Bill Gallon for honors in the probable odds book had he not been taken ill after winning the Historic last Friday at the nearby half-mile track. As it was, his owner-driver, Dr. H. M. Parhall of Urbana, Ohio, didn't decide until a few minutes before deadline to start the speedy son of Protector.

Parhall said he hoped to become the first owner to drive a winner of trotting's derby. The Ohio veterinarian won with Lord Jim in 1934 and Peter Astra two years ago, but they carried the silks of other owners.

Parhall said he was not sure if Perpetual would be his best for the supreme test. As a result he was quoted at no better than 12 to 1.

Runner-up honors in pre-race quotations at 8 to 6, went to Bill Strang's filly Excelsior, a Brooklyn-owned colt who never has won a heat. But he was a consistent second to Bill Gallon in the 1940 Juvenile stakes and this season has been bidding for the big money almost every time.

The United States takes more than half the Kapok produced in Netherlands Indies, according to the Department of Commerce.

Ganas Asked To Report For Grid Team At Murray

MURRAY, Ky., Aug. 5.—(Special)—Under a re-vamped coaching setup at Murray State, Fred Ganas of Sanford was one of the 33 varsity prospects that have been asked to report here Sept. 8 for initial football practice. Athletic Director Roy Stewart announced today.

Jm Moore has been promoted from assistant to head football coach, allowing Stewart to devote his entire time to directing the health department and the athletic program. Rice Mountjoy, former Danville, Ky., High School coach, will be assistant football coach.

For the first time in history, Murray will have a parity football game on the opening day of school—with Culver-Stockton of Missouri here on the night of Sept. 22. The eight remaining games are all S. I. A. A. encounters, three of which are with Murray's sister institutions, Western, Morehead, and Eastern. Stewart hopes that the state college will likewise play each other in basketball.

Only two varsity prospects have been definitely lost on account of the national defense program, according to Stewart James Nanney, Fulton, Ky., seabeck, and Sergei Bychewsky, New London, Conn., guard, both of whom have enlisted in the air service. Others, of course, may be called before the season gets under way. One or two, in addition, have scholastic difficulties to overcome, Stewart intimated.

Varsity prospects listed by Murray's athletic director: Centers: Sanford Braxton, Sheffield, Ala.; Harold Fuson, Corbin, Ky.; Gill Lee, Paducah, Ky.; Guards: Roger Fuller, Carrollton; Jack Dempsey, Carmi, Ill.; Everett Craig, Blytheville, Ark.; Perkins Marquess, Hopkinsville; Bush-Hendrickson, Jansons; Mike Nicholas, Ithaca, N. Y. Tackles: Jess Hann, LaPorte, Ind.; Clifford White, Cleveland, Ohio; Jerry Glover, Pontiac, Mich.; Tom Johnson, Marion, West New York, N. Y.; George Speth, Buffalo, N. Y. Ends: Jim Tucker, Georgetown, Ill.; Ray Moore, Waverly, Tenn.; Bob Salmons, Beloit, Wis.; Wild Ellison, Corbin; Don Mandola, West New York, N. Y.; Fred Ganas, Sanford, Fla.; Jack Haines, South Bend, Ind. Quarterbacks: Peter Koss, Moosup, Conn.; Gene Evers, Paducah, Ky. Wingbacks: Leo Hott, Bridgeport, Conn.; Steve Levanolaki, LaPorte, Ind.; Joe Russell, Portsmouth, Ohio; Harold Gish, Central City. Tailbacks: Jack Thompson, Centerville, Tenn.; Teddy Sasseen, Mayfield; Bob Perkins, Ithaca, N. Y. Fullbacks: Jack Lambert, LaPorte, Ind.; Carl Ferrara, Neptune, N. J. "We have two splendid prospects this year—Pete Koss in the backfield and Jack Haines in the line; hence we should have well-balanced squad leadership. Both are top-notch performers," Stewart said.

Murray's 1941 Varsity Schedule: Sept. 22—Culver Stockton at Murray. Oct. 4—Eastern Kentucky at Richmond. Oct. 10—Union University of Jackson, Tenn. at Murray. Oct. 18—University Tech of Covington at Owensboro, Ky.

Douglas MacArthur Carries On Family's Tradition In Philippines

By Associated Press

Lieut. Gen. Arthur MacArthur shipped clear the Spaniards out of Manila in 1898. Later the defended Manila against the forces of Aguinaldo, and still later he served two years as military governor of the Philippines.

Newest chapter in the story of the MacArthurs and the Philippines was started when President Roosevelt named Arthur MacArthur's son commander of combined U. S. and Filipino forces in the islands. The son is Douglas MacArthur, military adviser to the Philippine government since 1935.

The younger MacArthur, with the current rank of lieutenant general, has in a period of 30 years held five different assignments in the Philippines, but there was time between these jobs for him to become best known to the American public as a leading leader of doughboys in France and as an army chief of staff who insisted on modernization of U. S. armed forces.

His record in brief: Born at Little Rock, Ark., 1890. Graduated from West Point at head of his class in 1913. Assigned to Philippines as an officer of engineers. Aide to President Theodore Roosevelt. Chief of staff, later division commander, 42nd Div. Oct. 25—Morehead (Homecoming) at Murray. Oct. 31—Delta State at Cleveland, Miss. Nov. 9—Memphis State at Murray. Nov. 15—Middle Tennessee at Murfreesboro at Murray. Nov. 22—Western Kentucky at Bowling Green. Night Games—8 P. M.

Overriding Veto On Road Bill Is Asked

WASHINGTON, Aug. 6.—(AP)—The Senate postoffice and post roads committee recommended Tuesday the Senate override President Roosevelt's veto of a \$295,000,000 defense highway program.

In response to the committee's unanimous request, the Senate agreed to set aside temporarily the pending Army service extension bill to act on the re-

Reds Seek To Halt Drive On Leningrad

Nazi Columns Strike In Two Directions And Are Only 75 Miles From City

Moscow Officials Remain Confident

One German Division Said Routed With 2,500 Casualties

Russian troops were reported today fighting fiercely to stem a two-headed drive on Leningrad, with Nazi columns striking from the south along Lake Peipus shores and German-Finnish forces attacking from the north on the Karelian Isthmus, within 75 miles of the city.

The Soviets said the push from the north was temporarily abated overnight but that there was heavy fighting to the south.

A Reuters Moscow dispatch said the high command is confident the Germans will reach neither Kiev nor Leningrad, let alone Moscow itself.

A Red bulletin said Russian troops had routed one Hitler "Heimwehr" (home guard) division, hitting the field with 2,500 killed and wounded.

The Russians reported stubborn fighting continuing early today in the main line of the eastern front, indicating that the power of the Red Army remained unbroken despite the extraordinary German claims of some 4,000,000 Red Army men killed or captured, not to mention the wounded.

The Soviet commission said the battles were raging in the Lake Peipus region, where the German divisions of the Karelian Isthmus on Lake Ladoga, was the first regarding that far northern front in many days.

The German High Command has asserted that the Red Army is in a state of collapse in the Ukraine.

Army Makes Work Of Play

Swimming in August usually is considered a pleasure, but not when the swimmer has to wear full uniform, including heavy brogans and steel helmets, and a 50-pound pack, as soldiers at Fort Devens, Mass., learned to their sorrow. Members of the First Medical Battalion there are shown as they practiced swimming in full battle regalia.

Walkouts Cripple Bruno Mussolini, Defense Work At Son Of Il Duce, 2 Big Shipyards Killed In Crash

ROME, Aug. 7.—(P)—Bruno Mussolini, 22, second son of Il Duce, was killed today when a plane which he was testing crashed near Pisa, Italy. Young Mussolini was a captain in the Italian air corps.

A member of the Fascist armed forces since the invasion of Ethiopia six years ago, Bruno Mussolini was the author of a book in which he told of the "virtues of war."

One of the most widely criticized passages of the book was one in which he described the pleasure he had in bombing a group of Ethiopian natives, and when the bomb crashed seeing them spread out "like the petals of a rose."

Several years ago Mussolini's son paid a visit to Hollywood, Calif., and spent some time observing the techniques of picture making. He was not well received in the film capital, however, and cut short his visit to the United States.

Like his father, Bruno Mussolini was athletically inclined and took part in many sports.

Alfred Vanderbilt's Wife Asks Divorce

NEW YORK, Aug. 7.—(P)—Consent for Alfred Gwynn Vanderbilt said today the millionaire husband had been served divorce papers by his wife, the former socialite Helen, west coast resident.

Train Strikes Auto; Motorist Is Killed

SOUTH BEND, Ind., Aug. 7.—(P)—A woman grand touring automobile struck an oncoming passenger train, killing the motorist and injuring the driver.

Man Dies

NEW YORK, Aug. 7.—(P)—A man died today after a long illness.

Senate Votes Longer Term For Army Men

Wicks Sees Shortage Of Aviation Fuel Here Unless Production Increases

WASHINGTON, Aug. 7.—(P)—The Senate voted today to keep Army selectees, guardsmen, reserve and enlisted men in uniform 18 months beyond the present active service period. The fixed maximum service liability of selectees was set at two years and half, and that of one, three year enlistees could be retained four and a half years.

WASHINGTON, Aug. 7.—(P)—Petroleum Administrator Wicks announced today four American tankers have been turned over to Russia to haul aviation gasoline.

Control of "dollar-down-dollar-month" buying as a means of curbing inflation was recommended to Congress Wednesday by Leonard Henderson, head of the Office of Price Administration.

Representative Wolcott (R-Mich.) senior minority member, announced an order by the Federal Reserve Board increasing red-inked rates would tend to lower the volume of installment buying, because in many cases retailers would be required by their banks to get larger down payments on their merchandise.

Mrs. Gay Dies At Elder Springs Home

Mrs. Leonard Gay, who came to Sanford from High Springs, Dec. 15, 1938, died at her home at Elder Springs Wednesday night after an illness of two months. She was born in Lafayette, La., and was a member of the First Baptist Church at Trenton.

Survivors include her husband, E. Gay of Sanford; six daughters, Mrs. R. H. Taylor, Trenton, Mrs. O. L. Turner, Ocoee, Mrs. Josie Davison, Houston, Texas; Mrs. E. B. Cross, Sanford, and Mrs. Ralph Glendon, Sanford; one son, Samuel Hubert Gay, Ocoee; a brother, General Slaughter Bell, and 22 grandchildren.

The remains will be taken to Trenton Friday morning for funeral services and interment will be held in the Pine Grove Cemetery at Trenton Friday afternoon. Arrangements are under the direction of William C. Erickson.

Cotton Penalty Set At 7 Cents A Pound

WASHINGTON, Aug. 7.—(P)—The Agriculture Department said today the grower penalty for marketing 1941 cotton in excess of sales quotas will be seven cents a pound.

The penalty was three cents last year. The increase was authorized by recent legislation which also upped the loan rate from 68 to 75 percent of parity.

Roosevelt Keeps Tab On Events By Radio

WASHINGTON, Aug. 7.—(P)—President Roosevelt, vacationing in New England, was reported today in close touch with leading back, he good and the weather is excellent.

30,000 Marked Egyptian Cotton

NEW YORK, Aug. 7.—(P)—The Egyptian cotton market today was reported to be in a state of confusion.

German Soldiers Watch Flames Of War

According to the official German caption with this photo, transmitted by radio from Berlin to New York, Nazi soldiers are standing by their trucks, watching flames consume a building in Smolensk, strategic gateway to Moscow. Germany repeatedly has laid claim to capture of the city, but Russia maintains it still is in Red hands.

Special Election Ballots Ordered By County Board

Vote Affecting Hospital Slated To Be On August 19

Less than two weeks remain before a special election will be held on Aug. 19, at which time the freeholders in Seminole County will be given the opportunity to express approval or disapproval of a special act which would give the Board of County Commissioners the authority to call a second election to issue additional hospital bonds.

At its meeting on Tuesday the County Commission named a clerk and inspector for each of the election districts. Mr. Housholder said "and also ordered the printing of ballots for the special election."

"The ballots will be in a simple form with a clear statement of the act to be voted upon. These in favor of approving the act will mark under the heading for approval and those against will mark against approval," Mr. Housholder said.

"The Commission also has authorized the printing of sufficient circulars and literature to be distributed throughout the county calling the attention of voters to the date of the election, and urging all freeholders to take part in the election."

"It was pointed out that the question of having a hospital had existed for a number of years and that it was now practically apparent that no aid would be received from the government for the project," Mr. Housholder said.

"This will simply make the law effective and does not approve the issuance of bonds," Mr. Housholder pointed out.

"If the law is not made effective, there would be no way for any further action until after the next Legislature. If the law becomes effective, the people will be in a position to tell the Commission what they want," Mr. Housholder added.

If the special act is approved in the election on Aug. 19, the Commission will then have the authority to call another election to approve the issue of additional bonds to enable the county to build the hospital, without outside aid.

Housholder Will Leave Tomorrow To Enter Army

Karlsruhe Housholder, native of Sanford and well known to many people here, has volunteered for the Army and will leave tomorrow for Camp Blanding to begin his period of service. He is the only son of Senator Edwin F. Housholder and Mrs. Housholder, and has resided with them at their home in Rose Court.

Mr. Housholder is a member of the Junior Chamber of Commerce and the Kiwanis Club. He did not receive any military training in college because of a defective eye, but since he has now been able to pass the physical examination, he says he feels that he should volunteer and not wait the call of his draft number, which was among the last drawn.

Jim Webb Leads Gun Club Meet With 98 Score

Rifle Range Flooded, Members Of Group Stick To Pistols

Jim Webb fired a 98 three times on the pistol range to lead the marksmen at the regular weekly shoot of the Seminole Gun Club yesterday afternoon. Ned Smith, secretary, reported today only 21 pistols were fired since the rifle range was under water due to recent rains.

Three visitors attended the shoot yesterday from nearby Orlando and Winter Park. They were Jerry Knight of Orlando and Thomas Royal and John Fluno, both of Winter Park.

Jaasper Wolfe led the match scores with 291. The complete list is as follows:

NAME	ST.	TIM	RAP	MAT
J. Wolfe	98	99	94	201
J. Webb	98	92	90	280
J. Allenby	93	91	83	277
A. Derthick	93	93	85	271
J. Jones	90	87	83	260
D. Vernay	82	83	80	254
T. Royal	93	86	73	252
J. Knight	82	70	81	233
J. Fluno	56	74	50	180

In the slow fire bracket, the following scores were made:

NAME	SCORE
Jim Webb	98
Jaasper Wolfe	94
Jack Flint	94
Thomas Royal	93
Jim Allenby	93
Aldan Derthick	93
J. V. Jones	90
Ned Smith	89
W. H. Knauer	84
Dick Vernay	83
Jerry Knight	82
John Fluno	66

DeLand Will Honor W. J. "Bill" Page

W. J. Page, president of the DeLand Red Hats and well known among Sanford baseball fans, will be honored at the DeLand baseball park Thursday night, Aug. 14, which has been designated as "Bill Page Night."

Contract Announced

WASHINGTON, Aug. 7.—(P)—The War Department announced today a contract for more than \$5,000,000 for cotton cloth.

Longwood Garage Operator Is Given Magazine Subscription For Honesty

H. F. Beckman of Longwood, operator of Beckman's Garage, was the possessor of a six months complimentary subscription to the Reader's Digest today because he told the truth.

Last June the magazine publisher as its leading article entitled "The Reader: Man Will Open You If You Don't Watch Out." It told how the editor had sent an automobile, with a wire disconnected, on a tour of the country.

British Warn Japanese They Are Prepared

Everything Said In Readiness To Halt Nipponese Attempt To Move Westward

Threat Is Seen To Burma Road

United States Joins England To Urge Resistance In East

In the Far East, the British warned Japan today that "all preparations are ready to smash any Japanese attempt to cut the Burma Road or move further westward."

This appeared to refer to a possible Japanese move into Thailand from an Indo-China base or an invasion of Yunnan in southwest China.

The United States and Great Britain, in parallel representations, have urged Thailand (Siam) to take a firm stand against Japanese demands for military supplies in event of an attack by Japan, a responsible source revealed last night.

The disclosure came soon after the United States, hinting at new economic reprisals, warned Japan to stay out of Thailand—potential powder keg for the Far East.

The warning, echoing a similar pronouncement by Britain, was contained in a press conference statement by Secretary of State Hull who declared that any Japanese thrust into Thai territory would be a matter of increasing concern to the United States.

Hull, asked whether he had had any conversations with or made representations to Thailand, replied that he was not able to go into any details now because nothing very definite had been decided.

The source said representations already had been made for the purpose of encouraging Thailand to take a "strong and independent attitude toward Japan."

This quarter indicated the two English-speaking nations have offered to implement their encouragement with more than words—military material. Such an offer would be calculated to give Japan pause before attempting to move into Thailand.

Bases demanded by Japan it was said presumably would be used as a springboard for attacks on British Burma or Singapore, the Netherlands East Indies, and China.

Units of Japanese forces which recently moved into French Indo-China have been dispatched to the adjacent Thailand border in the past few days and penetration of Thailand is regarded here in London as the next likely Japanese move.

For this reason British forces have been moving up to the Thailand boundary.

(Thailand has been very friendly with Japan, in a diplomatic sense, in recent years, and there is fear among authorities in Washington and in London that its government will yield to Japanese demands.)

Strange Malady In Dakota Kills Sixty

FARGO, N. D., Aug. 7.—(P)—A special medical corps headed by federal doctors in working night and day on a baffling malady, possibly mosquito-borne, which has killed 60 persons in little over a month.

Doctors said the malady was sleeping sickness. It broke out here a few weeks ago, spreading over this area.

Soldiers To Release Non-Combat Duties

ATLANTA, Aug. 7.—(P)—The Fourth Corps Area quarters master today notified soldiers now in Army camps whose jobs can be taken over by civilians that they will be assigned to combat organization. A sum of \$7,444,500 has been set aside in this area for civilian employment. The policy is expected to add 30,000 men to the fighting forces of the nation.

SEES CALIFORNIA

John L. Hamrick of Sanford still in California visiting "beauty spots" according to post card received from him today. He said "This is one of the prettiest places I have ever seen. The scenery is beautiful and the people are very friendly."

Mold Treatment Is Outlined By Station Worker

GAINESVILLE, Aug. 7 (Special)—Those troublesome, unsightly molds that show up on food, clothes, shoes, and other things during Florida's rainy season may be controlled or prevented by careful handling of articles which commonly provide favorable conditions for their development. Erdman West, State Department Station mycologist, said today.

Mr. West explained, are mold that cause a conspicuous growth, white or colored, on articles they attack. They will grow on any organic matter, but particularly that which is moist or in a moist atmosphere. If allowed to develop, they will render any article unsightly and damage it severely.

To help folks with this problem, the mycologist offered the following suggestions:

C. F. Phosphor

Particularly troublesome molds. Dry shoes thoroughly before putting them away and keep them in a shoe rack where they will get plenty of ventilation. It's a good idea to clean and polish shoes, as polish makes them look better and also protects them from molds.

Fertilization, grease, milk, or other food stains are fertile ground for development of molds on clothing. Keep clothes clean and dry in a well ventilated place. Don't put away clothes until they have been dry cleaned.

Remove spots from furniture from mold which grow in humid spots on the upholstery by soap suds, food, or even hair oil. Treat spots with dry cleaning fluid and dry them as soon as possible after they are discovered. Mold growth on furniture may be sponged off, dried, treated with dry cleaning fluid, and then thoroughly aired. Adequate ventilation of furniture and materials is effective in preventing mold. If mold has gotten deep into the padding or mattress, call a trained upholsterer to remedy the trouble.

Molds attack many foods that are not kept under refrigeration in well ventilated receptacles. Molded foods will cause serious trouble, but some persons are attacked by indigestion if they eat such foods. Clean and dry the bread box frequently. Store most foods in the refrigerator, and promptly dispose of moldy scraps.

Water in the house should be regularly repaired and water should not come into the house any way or through open windows should be mopped up as soon as possible, for molds are likely to form on the woodwork. If a leak in the wood dries, it should be wiped off promptly and the wood dried.

Moisture on the interior of the house should be removed and replaced with new material. All new material should be treated with a mold-preventing material.

Molds that attack humans cause itching, abrasions, and more serious complications. Certain fungi have been found of which treatment of fungus infections on hands and feet, but infections of the nose, ears, and other parts of the body should be treated promptly by a physician.

Soil Building Payment Rates Changed Little

GAINESVILLE, Aug. 7 (Special)—The United States Department of Agriculture has informed H. G. Clayton, state AAA administrative officer, that soil building allowance rates which will be the basis for determining maximum payments which farmers may earn by carrying out approved soil-building practices under the 1942 AAA farm program. The rates will be substantially as in 1941.

Farmers may earn two types of payments: (1) a payment for carrying out approved soil-building practices, and (2) a payment for planting within special crop allotments, such as those for cotton, tobacco, peanuts, and potatoes. Rates for compliance with special crop allotments and other provisions will be announced later.

As in former years, conservation payments to be made under the 1942 program are contingent on the annual appropriation authorized by Congress for this purpose in the Agricultural Adjustment Act of 1938.

The new program will provide allotments on the same Florida crops as in 1941 except that there will be no allotments for commercial vegetables or celery, and, in lieu of total soil-depleting allotments, there may be substituted special crop allotments covering certain feed grains in surplus areas. These crops were formerly included in the total soil-depleting allotment for the farm.

A soil-building allowance is established for each farm on the basis of such factors as the

farm's cropland fenced non-crop land, commercial vegetable and commercial orchards. The participating farmer may earn his farm's allowance by carrying out approved soil-building practices.

Under the 1942 program, the farm's allowance will be computed on the basis of the following rates: 70 cents per acre of cropland not included in special-crop allotments for the farm in areas where food grain allotments are not established. This is the same rate which applied in Florida in 1941; rates of non-crop pasture land, which will be the same as those used under the 1941 program, vary by areas: \$2 per acre of orchards, except for any orchard land included in cropland, for which the rate will be \$1.50 per acre; \$1 per acre of commercial vegetable or nursery crops on the farm. The variable rate is \$1.50 per acre in 1941 but is applicable to a smaller acreage than in 1941.

Included in the 1942 program, as in 1941, will be a special allowance of \$15 which farmers may earn by planting forest trees. This payment will be in addition to any other allowances which may be computed for the farm. The 1942 program continues

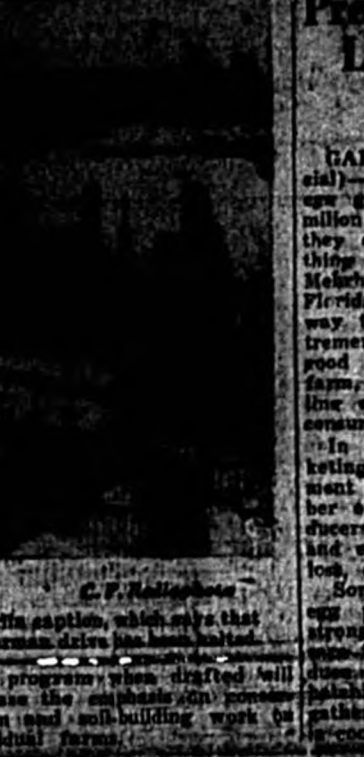

This is a truck passing a blighted Soviet city, according to the Berlin caption, which says that the supplies are moving along a highway toward Minsk. Moscow claims the German drive has been halted.

Preventing Egg Loss Discussed By Poultryman

GAINESVILLE, Aug. 7 (Special)—A hen's egg is just a good egg gone wrong, but when 175 million dozen eggs go bad — as they do each year — there's something to worry about, says W. E. Hebbard, poultryman with the Florida Extension Service. The way to prevent much of this tremendous egg loss is to follow food production methods on the farm, and good methods of handling eggs from the nest to the consumer.

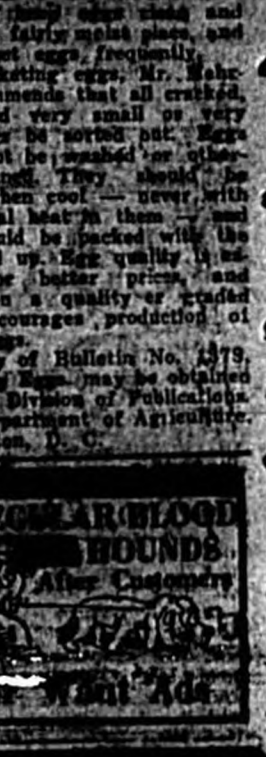

In a revised bulletin on marketing eggs, the U. S. Department of Agriculture gives a number of suggestions for how producers can handle their flock and eggs to help cut down this loss and save food for defense.

Some of the suggestions for egg production are: (1) Keep strong, healthy chickens housed together; (2) give them clean, dry nesting places; (3) gather eggs at least twice a day; (4) cool eggs in a cool place; (5) pack eggs in a cool place; (6) use clean, dry packing material; (7) use clean, dry packing material; (8) use clean, dry packing material; (9) use clean, dry packing material; (10) use clean, dry packing material.

three times a day in hot weather; (11) use clean, dry packing material; (12) use clean, dry packing material; (13) use clean, dry packing material; (14) use clean, dry packing material; (15) use clean, dry packing material; (16) use clean, dry packing material; (17) use clean, dry packing material; (18) use clean, dry packing material; (19) use clean, dry packing material; (20) use clean, dry packing material.

A copy of Bulletin No. 4379, Marketing Eggs, may be obtained from the Division of Publications, U. S. Department of Agriculture, Washington, D. C.

What Will Major Powers Do To Protect Interests In Far East?

By Associated Press

Proposing to be unopposed bases of Oceania and East Asia, Japan's fight, or all right. Thus far, Japan's fight with China. Diplomacy has been successful in Thailand, French Indo-China. But questions are not won by light, unless Japan's move.

What are the stakes and problems presented that three powers most greatly concerned? The U. S. is concerned with the Philippines and these islands. The 7,000,000 people are rich in natural resources, which are being developed by the United States.

Japan's interests in the Far East are vast. She has a long coast and a large population. Her interests are in the Philippines, the Malay Peninsula, and the East Indies. She has a long coast and a large population. Her interests are in the Philippines, the Malay Peninsula, and the East Indies.

Figure It Out For Yourself

You can see that prices for just about everything are advancing rapidly, including furniture and while we offer you these values, we can do it because we bought by the carload — before prices went up!

Flaming Approves Action Of A. C. I. In Waiving Double Time Penalties

BOSTON, July 7 (Special)—While stoutly defending the principle of time-and-a-half pay for overtime work beyond 40 hours a week, as required by the Fair Labor Standards Act, General Flaming, administrator of the wage and hour division of the United States Department of Labor, today commended the action of the American Federation of Labor in waiving the double time penalty during the defense emergency.

"Covering the annual cost of the defense program," said Flaming, "the American Federation of Labor, the largest labor organization in the country, has voluntarily agreed to waive the double time penalty for overtime work during the defense emergency. This is a very real restraint upon our productive effort. The time-and-a-half for overtime work is a very real restraint upon our productive effort. The time-and-a-half for overtime work is a very real restraint upon our productive effort."

Flaming said he believed that such a waiver could be done to relieve the shortage of skilled men, whose such shortages have developed by making available to defense industries the services of skilled men now engaged in purely routine or unskilled jobs. He said the convention of the American Federation of Labor, which was held in New York City last week, was a landmark in the history of the labor movement. He said he believed that such a waiver could be done to relieve the shortage of skilled men, whose such shortages have developed by making available to defense industries the services of skilled men now engaged in purely routine or unskilled jobs. Comptroller Lee Discusses Taxes At Chipley Meet

CHIPLEY, Aug. 7 (Special)—One county—Washington—could have a one-year tax holiday if its delinquent taxes—already totaling close to \$175,000 since the Murphy Act—were collected, State Comptroller J. M. Lee told the Kiwanis luncheon club this week. He pointed out that these delinquencies are not long due, are antiquated and based on boom time values but have accumulated since 1933. The same applies to many other counties, he stated.

"With wrong threatening the world," Comptroller Lee told the club, "I point out that these huge wrongs grow from many small wrongs—just as many small delinquencies insuring to the benefit of a few individuals, have built up the astounding total of \$100,000,000 which was reported at the Kiwanis luncheon club this week. He pointed out that these delinquencies are not long due, are antiquated and based on boom time values but have accumulated since 1933. The same applies to many other counties, he stated."

Quincy Gives Novel Welcome To Soldiers

QUINCY, Aug. 7 (Special)—Faces of 43rd Division troops passing through here this week on route to Louisiana maneuvers were all smiles—and for good reason.

Advance units of the New England outfit were greeted Sunday with a banner across the street reading: "Welcome 43rd Division Quincy Junior Chamber of Commerce—No Generals Play Golf Here—Tobacco Festival, Oct. 1-4."

Quincy Mayor J. M. Lee said the city had done its best to give the boys a good time. He said the city had done its best to give the boys a good time. He said the city had done its best to give the boys a good time.

Washington Experts, All But One, Guessed Wrong On Russian Conflict

By JACK STINNETT

WASHINGTON, Aug. 7 (AP)—One of the duties of the departments of government is to keep the President informed. When any vital issue arises, the experts go into high and proud away on statistics and knowledge until they have turned out a clear summary and their best conclusions. Often, it is from such memorandums of fact and probabilities that the policy of the United States is shaped.

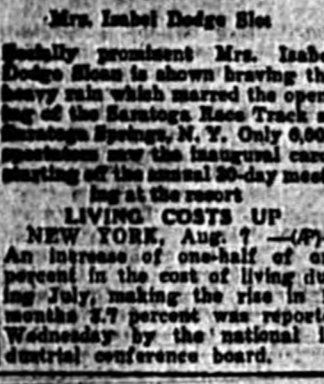

Such a matter of vital importance arose when Germany marched on Russia. The experts went into their huddles and from authorities on labor, agriculture, economics, political activity, industry and military and naval affairs, went to work to be stacked on the President's desk. As nearly as I can find out, only one expert out of all the scores of more, even closely acquainted, the course of the Russian-German war so far. All the rest said, in effect, that the Nazis would do just what they said they would do, and in recent times—annihilate the Russian armies and take everything they wanted short of the Volga River.

But this one fellow (I can't disclose his name) figured it differently. Roughly, his conclusions were that the Germans first would win smashing victories, that somewhere this side of the Ural Mountains or in them, the Nazi war machines would slow down and stall, and that ultimately the Russians would win the war.

Even his timing erred in favor of the Germans, and of course how right he is, from here on rests with the future. But some of the steps by which he arrived at these conclusions are interesting.

The man figured that the initial German drive would be farther and faster than is had. He even thought the Nazis would be in Moscow by now, perhaps even have the Ukraine. On this score, not as surprising as have to forecast complete Russian collapse in six weeks.

I must point out that the main body of opinion here still holds with the other experts—not with my one dissenting. It's just interesting that there was one and to know that his conclusions and arguments went to the President's desk, almost in full and that, at some major points, his observations as far as holding against all the others.

Mrs. Isabel Dodge Elm

Recently prominent Mrs. Isabel Dodge Elm is shown having the heavy mink which marked the opening of the Seasoning Race Track at Saratoga Springs, N. Y. Only 6,000 spectators saw the inaugural card, starting off the annual 30-day meeting at the resort.

Editorial Against War

Although editorial opinion can change overnight and probably would in the event of an overt act such as an attack on a U. S. warship by any foreign power, two weeks ago most American newspaper editors were opposed by a ratio of two to one to this country's active participation in the war.

On the basis of a poll conducted by Editor & Publisher among 1,878 newspaper editors, of whom 871 replied, only six states including Florida think the U. S. ought to get in now. Answering the question, "Do you favor active military and naval participation in the war?" 250 said "yes"; 615, "no". Answering the question, "Do you favor immediate seizure of strategic bases owned by foreign powers?" 589 said "yes"; only 228, "no".

Naturally enough most belligerent state in this country at the moment is Maine, nearest to the scene of actual fighting, with 5 to 0 for war. But oddly enough, next most belligerent is Wyoming, neighbor to Senator Wheeler's home state of Montana, and probably the last state in the union to face actual invasion in the event of successful foreign attack, with four to one for war. Florida voted 10 to 9 for war. Other states for war were Louisiana, Vermont, and Virginia while North Carolina, North Dakota, and Rhode Island tied, with New York almost evenly divided.

But while most U. S. editors are against immediate participation in the war, some 65 percent of them write editorials advocating an interventionist policy and more active aid to Britain. It is difficult to see what more active aid we could give Britain without using at least a part of our now almost idle naval and air fleets. However, this is a mental conflict for the individual editors themselves to reconcile. The fact remains that on May 8, at least 73 percent of American newspapers were advocating the use of convoys for U. S. shipping.

If a nervous Nazi or Japanese finger accidentally pulled a trigger on a gun pointing in the wrong direction, there is little doubt that American newspapers would be almost unanimously in favor of returning the fire.

Notice: Cowboys

The American public's penchant for organization has at last resulted in the NADC... the National Association of Drugstore Cowboys. Started in Hollywood by a couple of actors interested in promoting a picture they were making, it is now spreading throughout the country like wild-fire.

Calling attention to this organization, the Ocala Banner remarks that inasmuch as that city has many potential members of the association the following ten plank platform might be of value in drawing up the necessary rules and by-laws:

1. Roped-off spaces in front of drugstores so cowboys can whistle at passing femininity without being shoved by pedestrians.
2. Beautiful hostesses in drugstores to entertain the boys during inclement weather.
3. Free lunch counters as an integral part of all soda fountains.
4. Drugstore bank nights to make cowboying more profitable.
5. Club chairs within reach of all drugstore magazine racks.
6. More sincere smiles from druggists for postage stamp buyers and free telephone users.
7. The granting of right-of-way to the Association's members over paying customers.
8. Abolition of drug departments as an unwarranted interference with the recreation of cowboys.
9. Installation of pinball machines within reach of the fountain stools and which don't require nickels to operate them.
10. Construction of grandstands for pinball kibitzers.

THE RIVER
(Front Poetry)

The river nudged the shore, fallen and capped by arches of iron and steel and changes of color and sound; it nudged the shore, touched the sand and pebbles, touched the mud and reeds, and the river nudged its way into the valleys; it nudged past wharves, and nudged into the city; it nudged every side now foisted and nudged, then nudged on its way forgotten.

MARVA MASTERS

Another Profiteer

The scene was a small theater in a provincial town. A melodrama was being played to an audience of factory workers enjoying a well-deserved respite.

The heroine, fured all unsuspecting to the villain's lair, had just realized with horror that his intentions were anything but honorable. Swiftly she snatched up a handy carving-knife.

"Stand back, you unspeakable cad, or you will rue this hour!" she cried defiantly. "I may be only a poor, weak feminine creature—but, by Heaven, I will sell my honor dearly!"

Came an accusing voice from the auditorium "Profiteer!"—Manufacturers' Life News-Letter.

FHA Program Helps Modest Income Group

WASHINGTON, Aug. 5.—(Special)—Consistent effort on the part of the Federal Housing Administration to bring home ownership within the reach of modest-income families has resulted in new trends in the housing field toward that end.

Substantiating the FHA's claims that the whole emphasis of the building industry is changing is a recent report made by the National Association of Real Estate Boards declaring that the \$3,000-\$4,500 house has become the No. 1 house on America's home-building program.

Homes in this bracket represent "the lion's share of today's construction in 46 percent of the reporting cities; and in the average city it makes up 50 percent of the current home-building program," according to the report.

Until the advent of the FHA the tendency was widespread to build far too many houses for the people who could pay top prices and far too few for the little fellow who was looking for a low-cost house. Too many builders erroneously thought if a development of expensive homes had succeeded for a competitor, similar ventures would succeed for them.

This resulted in overbuilding.

Now, however, the FHA program will save her again, for Russia will be hungry enough to bargain, and tired enough to quit.

Bill Gallon Wins 16th Hambletonian At Good Time Park Before 25,000

GOSHEN, N. Y., Aug. 7.—(AP)—Two cooperative owners of the Good Time Park, 25,000 spectators and they took home a big haul Wednesday as Bill Gallon won the 16th Hambletonian. The 16th Hambletonian was the first of the season to be held at Good Time Park.

The brown and white Flash, owned by the two partners, won the race in 1:57.4, the fastest time in the history of the Hambletonian.

Three years ago and not until the southern sportman purchased Bill out of the hands of the late Mrs. J. H. Haver, the Flash was a 10-year-old gelding. He was bought for \$20,000 and was trained by the late J. H. Haver. He was a very fair investment of his original sale price of \$1800.

His Excellency, many who have seen him, have been very much interested in the Flash. He was bought by Bill Stang, a wealthy sportsman and trainer, who has been very successful in the past. He has been very successful in the past. He has been very successful in the past.

ON TITLE-TRAIL By Jack Soris

MRS. SARAH PALFREY COOKE

no better than sixth as Patrick Sullivan's lightly weighted 110 lbs. of Mochas, Maine, took the front when the final test came. The second mile he outgamed His Excellency in a photo finish to win 2:01-2 and in the final test he pulled away to score by three lengths over the Brooklyn-owned speedster in 2:05.

Ben White, driver bidding for his third Hambletonian, went to the whip on His Excellency both times in an effort to stave off the southern's great stretch drive but the big colt was not equal to the task. He was picked up for \$7,000 and had the honor of forcing the classic into extra heats for the first time since 1934 when Lord Jim had to go four miles to win.

An increasing volume of vitamin products is being produced in China by the Department of Commerce.

Senators Ring Up 5 To 2 Win Over Leesburg Anglers

ORLANDO, Aug. 7. (Special)—The Orlando Senators got off to a fast start here Wednesday night by scoring four runs in the first two innings and defeated the Leesburg Anglers 5 to 2, in a Florida State League game.

The Senators collected eight hits off Hussey, Leesburg's ace hurler, while Cleary held the Anglers to five safe blows. Score: Senators 5, Leesburg 2.

University of Tampa Enrolls 198 Freshmen

TAMPA, Aug. 8.—(Special)—The University of Tampa is "just beginning to serve its broad field of possibilities," declared President James Elliott Mooney in making the announcement that 198 freshmen had been enrolled for the September term, compared to eight at this time last year.

"I believe," said President Mooney, "that we are growing simply because parents and students appreciate the effects the University is making to serve individual needs. The splendid new building, the library and the honor of Florida and Tampa a great service."

While 108 students from outside Tampa and 90 from Tampa have already paid their fees for entrance in September, records indicate that only six from Tampa and two from outside the city had paid their fees a year ago.

Dr. Mooney declared that during the last 12 months a total of 1284 persons took some form of classroom work at the University. Many of the sources of fees to the University were designed to train for national defense work.

"Education must be a link with the past, a vital power in the present, and a potential of increasing value toward the future," declared Dr. Mooney. "The colleges and universities of the nation can help a great deal during this present emergency but their most important duty is ahead when the solution of the greatest of world upheavals must be solved."

"Life is a continuous chain of events with every link essential. A mere link or two of education cannot bring success. The whole chain must be made of the true metals of life—curiosity, courage, forbearance, humility and goodness. We must not forget the spiritual links. They are essential. And to all of these such strength and power as we may have, we can only be measured in terms of the long pull in life's service for others and only others," he said.

Miami Junior Net Games Open Aug. 18

MIAMI BEACH, Aug. 7.—(AP)—The 13th annual Miami Beach junior tennis tournament, with 13 divisions for players 18 or under, will be held Aug. 18-25.

The open tournament attracted 114 Florida competitors last year. Aug. 18 is the deadline for entries.

Arcaro's Suspension Extended To Aug. 20

SARATOGA SPRINGS, N. Y., Aug. 7.—(AP)—The suspension of Johnny Eddie Arcaro, imposed by the stewards at Empire City July 23 for rough riding, has been extended through Aug. 20 by the board of stewards of the jockey club, it was announced Wednesday.

The stewards pointed out that Arcaro had been repeatedly warned about rough riding, practices of a dangerous nature while in the saddle and other flagrant offenses, of which culminated in the offense of July 23, for which he was punished.

Vegetable Growers Asked To Lengthen Season To Meet Increased Consumption

TALLAHASSEE, Aug. 7—Florida vegetable growers must lengthen their growing seasons to meet the unusual circumstances arising from national defense if they raise sufficient produce to provide for Army purchases and increased home consumption, Nathan Mayo, commissioner of Agriculture, said today.

"While it is impossible to state definitely just what curtailments in transportation facilities available to agricultural products will be made due to war conditions," Mr. Mayo said, "information received by my office indicates that some action along this line is in prospect. Many east-west routes have already been withdrawn from their normal routes and all of them may be taken over by our government. Railroads have improved their facilities tremendously but still will probably be hard pressed to serve demands for increased supply an important part of the emergency, but manufacturing of tanks and other war essentials is reducing the output of trucks, and each day brings us nearer to the gasoline ration card.

"Last Spring, William L. Wilson, director of State Farmers' Markets, advised me that Army purchasing centers asked the State Farmers' Market for produce which Florida growers had stopped harvesting because the usual season had ended. Florida production has been turned to the New York market and our growers stop their activities as soon as produce from northern states hit the market. During this period the demand of our own local markets are supplied by produce shipped in from northern states.

"Concentration of large army units in southern states, the policy adopted by army purchas-

ing centers of buying fresh fruits and vegetables as near as possible to Army camps, the willingness they have shown in buying produce locally which can be secured in satisfactory amounts, and the difficulties now arising in transportation, have changed conditions greatly and the Florida grower will extend his growing seasons to meet this change.

"State Farmers' Markets need up to help growers market their produce. Realizing this change in conditions, Mr. Wilson wrote to Dr. Wilmon Newell, expert for agriculture at the University of Florida, asking for information on Florida vegetable harvesting periods. A table which he had prepared by Dr. F. S. Jamison, head of the vegetable research division of the State Experiment Station, has been mimeographed and sent to army Quartermaster Market Centers and to managers of State Farmers' Markets. The table shows the harvesting time for all vegetables grown commercially in North, Central and South Florida. An examination of it reveals that our growers can harvest some vegetable or other practically the year round. Copies of this table will be sent to any interested person sending a request for it to the office of the director of State Farmers' Markets, Jacksonville.

"We have the demand we have the markets, and we need the co-operation of Florida vegetable growers to make the coming year one of the best in the agricultural history of the state," Mr. Mayo said.

Advertising revenue \$249 daily and weekly newspaper, reporting to the Department of Commerce, totaled 639,495,000 in 1939.

First Sea Island Gets \$1 A Pound

LEESBURG, Aug. 7—The first bale of Sea Island cotton ginned in Florida this season was bought by the First National Bank of Leesburg here Wednesday for \$418—a dollar a pound. It was grown by A. Hugh Bourlay, Leesburg, who has 50 acres. Growers, who have hopes of

Dr. Honorio V. LaFrente, pictured at the White House, Dr. Honorio V. LaFrente, who has been in Washington in connection with the Peru-Ecuador boundary trouble, was presented to President Roosevelt by Capt. Colon Elroy Alfaro, Ecuadorian minister.

getting from 50 cents to \$1 a pound for their long staple cotton this season because of a shortage of raw silk and Egyptian cotton, said today was the first since 1917 that Sea Island had brought so much.

Like county leads Florida in Sea Island production with 4000 acres.

Poultrymen Wage Campaign Against Pullorum Disease

GAINESVILLE, Aug. 7—Poultrymen from all of Florida are expected to gather at Camp McQuarrie, in the Ocala National Forest, for the fourth annual Poultry Institute during the week of Aug. 18-23.

D. F. Sowell, poultryman with the State Agricultural Extension Service, said today an interesting program has been arranged for the week beginning Monday evening and continuing through Friday noon. Tuesday will be devoted to management of the layers and miscellaneous items, Wednesday to marketing and the annual meeting of the Florida Poultry Producers' Association, Thursday to breeding and hatching, and Friday to buyers and diseases.

Outstanding speakers for the week include D. F. King, head of the poultry husbandry department at Alabama Polytechnic Institute, Auburn, and editor of the poultry department of Progressive Farmer, O. F. Gossett of Danville, Ill., representative of a commercial feed company, and H. E. Roebker of Atlanta, formerly superintendent of Blue Springs Farm in Georgia.

The second annual Camp McQuarrie Egg Show will be staged during the week, and a number of producers are expected to enter dozens of eggs.

Recreation features will include swimming, fishing, tall stories, banaroo court, checkers, bridge, handball, and horseshoes.

Camp McQuarrie is a permanent 4-11 club camp, maintained by the Extension Service near Astor Park. Poultrymen who desire to spend the week will not be charged for lodging and

More Taxes On Low Income Group Asked

Treasury Secretary Morgenthau Seeks Taxation For Millions More People

Corporation Tax Increase Sought

Lower Personal Income Exemption Is Asked Of Congress

WASHINGTON, Aug. 8.—(AP)—Advocating an "all-out" tax program for defense, Secretary of the Treasury Morgenthau asked Congress today to tax millions of additional persons with small incomes by cutting personal income tax exemption and to stiffen other taxes on married couples and corporations.

He told the Senate Finance Committee that revenue from the House-approved tax bill should be increased from the present \$3,326,000,000 to "at least" \$5,500,000,000.

Morgenthau hinted strongly that he would like much more. He gave no figures on how deeply he thought personal exemptions should be cut.

"We have attempted to spell out as many provisions and standards as we could," he added, noting with a smile that the pending bill had more provisions than exist in total tax laws.

Henderson said that although a price control administration probably would have almost total responsibility for administering the program, the power to regulate prices would be exercised in many cases by other departments or agencies of government.

Under questioning by Representative Williams (D., Mo.), Henderson told the House Banking committee that if he were selected as administrator, he would seek a staff that would not be "too big" and that would set prices under which executives and industry could "go forward with this great task."

Government Hints Drastic Steps In Shipyard Trouble

Plans of drastic government action if necessary to keep shipyards in full production were hinted by high officials yesterday after williams held work of four costliest yards.

About 25,000 workers were involved in the program, which is being handled by the War Relocation Authority and the War Relocation Administration.

Under questioning by Representative Williams (D., Mo.), Henderson told the House Banking committee that if he were selected as administrator, he would seek a staff that would not be "too big" and that would set prices under which executives and industry could "go forward with this great task."

Activity Of U. S. In South America Cited

BERLIN, Aug. 8.—(AP)—All British cables reports today disclosed that the United States is increasing its activity in South America.

The cables said that the United States is increasing its activity in South America.

New Senator

Roger C. Pease, publisher of the News-Piedmont, Greenville, S. C., has been appointed by Gov. Burnet R. Maybank to fill unexpired term of the late Sen. Alva M. Lumpkin, who died in Washington after serving less than two weeks.

War Inescapable, Cox Says Urging Draft Extension

House Told It Should Approve Indefinite Period Of Service

WASHINGTON, Aug. 8.—(AP)—Rep. Cox (D-Ga.) told the House today it should approve indefinite extension of service for all men in uniform "because war is inescapable."

"The public has given overwhelming support to the President in what he has done and if this means war, there is little reason to complain," Cox asserted as the House opened seven hours of debate on the service extension bill.

There were indications the amendment might be redrafted, if not deleted altogether, in the House.

It was apparent the pay increase would alter the Army's present budget plans and necessitate an additional appropriation if it should become law.

The Senate completed congressional action on two other defense measures by accepting amendments of the House in bills previously passed by the Senate.

Most important of these was a bill revising conditions for recruitment in the Navy, Coast Guard and Marine Corps to provide a 2400 man bonus for immediate re-enlistment, double the present amount.

The second measure extended benefits of federal workmen's compensation law to men employed on naval bases or other defense projects outside of the continental United States.

The transfer was made without comment, and Army officials indicated there would be no further announcements made until funds for the camp are available.

An Army appropriation bill is still pending in the Senate.

Cotton Crop Is Expected To Be Short This Year

Output Of Florida's Farms Forecast As 64 Percent Normal

WASHINGTON, Aug. 8.—(AP)—The Agricultural Department today forecast this year's cotton crop at 10,817,000 bales of 500 pounds gross weight in its first official estimate this season based on conditions existing Aug. 1.

It indicated that the production compares with 12,566,000 bales produced in 1940.

Cotton acreage in cultivation July 1 was 23,519,000 acres—5.4 percent less than 24,811,000 acres a year ago.

Florida was reported to have a condition 64 percent normal, an acre yield of 904 pounds, and a total production of 14,000 bales.

Weather Said Good For Celery Plants

Weather conditions were described as ideal today by H. J. Lehman, manager of the Sanford State Farmers Market, for the celery seed beds which have been set out by Seminole County farmers.

"Judging from the seed beds there will be quite a bit of early celery," Mr. Lehman commented, adding that the average would be about the same for next year's crop as last season's.

The young plants are shaded in the seed beds for two months before being transplanted to the fields, where they are out about four months later, Mr. Lehman said he believed some of the plants would be ready to be set out in about two or three weeks.

Lions Club Members Enjoy River Cruise

Members of the Lions Club enjoyed a boat trip on Lake Monroe and along the St. Johns River yesterday aboard F. E. Roumillat's cruiser, the "Savannah." The group met at the Sanford Boat Works about 2:30 P. M. and returned about 9:30 o'clock last night. A fried chicken supper was served aboard the boat.

Those present were: Alva L. Collins, Maxwell Stewart, Ed Melech, Porter Lancaster, W. B. Elberbe, W. A. Adams, O. S. Toler, F. D. Scott, S. C. Dickerson, E. K. Laney, Eddie Langstaff, Fred Pope, W. A. Patrick, James E. Rowland, W. A. Ludwig, John Melech, Jr., Joe Melech and F. E. Roumillat.

Early Building Of Venice Camp Seen

WASHINGTON, Aug. 8.—(Special)—An early start on construction of the Army's projected anti-aircraft firing center at Venice was seen Thursday in the War Relocation Authority's construction department, according to construction superintendent there.

The transfer was made without comment, and Army officials indicated there would be no further announcements made until funds for the camp are available.

U. S. Skeptical Of Vicky's Assurances

WASHINGTON, Aug. 11.—(AP)—The United States withheld full acceptance of assurances that the Vichy government would not permit the French to be used as a base for German military operations from the Atlantic to the Pacific.

Hull Declares Germany Eyes This Territory

Secretary Of State Says Japan Is Responsible For Encirclement In East

WASHINGTON, Aug. 8.—(AP)—Secretary of State Hull said today Germany was looking with longing eyes to the Western Hemisphere for further conquest.

A veteran of the diplomatic arena is responsible for any encirclement of itself in the Pacific.

Hull made the comments on statements by a Berlin spokesman who asserted the Germans plan to launch a campaign to expose what they called the ruthless power politics of President Roosevelt in Latin America and by a Tokyo spokesman who declared Japan is encircled by the United States, Britain, China and the Netherlands.

Diplomatic sources here expressed conviction yesterday the upsurge of totalitarian manifestations from one end of "South America to the other was linked with an Axis effort to create a diversion during crucial portions of the European war.

They said the combined effect of these manifestations, which included alleged plotting against the state in Bolivia and Argentina and at least one propaganda drive in Colombia, was intended to disturb North American access to Britain, Russia and China.

The diplomats with whom this has been discussed discovery of the movements appeared in complete agreement that Axis agents in the Western Hemisphere were under orders to cause the stir, adding that the stir would be of course declined to be quoted by name said "the fact that the governments of Argentina, Bolivia and Colombia, representatives of three distinct sections of this continent, uncovered pro-Axis movements in their countries almost simultaneously points to one thing—orders of the Axis high command to create trouble in this hemisphere."

Saturday Is Final Day For Licenses

Tomorrow is the final day for obtaining dog licenses and vaccination against rabies, H. N. Sayer, city clerk, said today, following a lengthy illness. She was the wife of G. P. Paxton, former fire chief of Sanford and now observer for the United States Weather Bureau.

She was born at Sanford, Fla., on May 11, 1869. Mrs. Paxton was the daughter of the late A. H. Brock and Nan S. Brock. The family moved to Loveland, Ohio, where Mrs. Paxton lived until she married her husband in 1903.

She became a member of the Presbyterian Church at an early age and when she came to Sanford in 1919 transferred her membership to the church here. She has been active in various clubs in addition to her church work.

Survivors include in addition to her husband a son, E. H. Paxton, Shenectady, N. Y.; a daughter, Mrs. H. C. Washburn, Sanford; three brothers, A. C. Brock, Loveland, Ohio; E. F. Brock, Sanford; and C. P. Brock, Cincinnati, Ohio, and several nieces and nephews.

Funeral services will be held at the Brickton Funeral Home at 10:00 o'clock Sunday morning, with Dr. E. D. Browley, pastor of the Presbyterian Church, officiating. Pallbearers will be H. P. Pope, J. Rainey, A. K. Roosevelt, Dr. H. H. McCallin, E. F. Brock and C. P. Brock. Burial will be in Evergreen Cemetery.

8539 Men Employed On Airport Program

JACKSONVILLE, Aug. 8.—(AP)—The WPA defense airport program, as the current fiscal year began, employed 8539 men on 31 sites certified as having military importance, State Administrator Hartness announced Thursday.

A summary of the program disclosed that projects with an estimated completed value of nearly \$14,706,933 were under way on June 30. The WPA and the sponsors had spent \$7,031,176 on these projects, leaving \$7,675,757 worth of work to complete the active program.

House Sustains Veto On Defense Road Bill

WASHINGTON, Aug. 8.—(AP)—By a 341-166 vote the House Thursday sustained President Roosevelt's veto of legislation which would have authorized \$280,000,000 for defense highway programs.

The official roll call vote was announced as 341 to 128, after several members had changed their votes, and it fell only two votes short of the two-thirds necessary to override the veto.

Red Force South Of Kiev Captured, Germans Claim

Nazi Fliers Meet Death In The Soviet

According to the Soviet censor, the bodies of its crew still lie amid the wreckage of the German plane shot down behind the Russian lines on the eastern front. Nazi fliers early in the war that the Russian air force had been knocked from the skies, but the Russians report that an armada still is operating on the eastern front. Nazi fliers early in the war that the Russian air force had been knocked from the skies, but the Russians report that an armada still is operating on the eastern front.

ers Are Reported Taken By Invaders Of Soviet Russia

Odessa Believed Object Of Drive

Nazis Announce Fall Of Wessenberg On Road To Leningrad

Adolf Hitler's High Command reported today that German forces driving deep into the lower Ukraine had annihilated a Red Army force trapped southeast of Uman, 125 miles south of Kiev, capturing more than 100,000 prisoners and the supreme commander of the Russian sixth army.

Further unconfirmed reports said Kiev itself had been surrounded. The High Command report indicated, however, that the main Nazi thrust was directed at cutting off the Black Sea port of Odessa.

In the north, the Nazis and German divisions drove toward Leningrad, had captured Wessenberg, 68 miles southeast of the city, and that the main Odessa-Kiev railroad line had been cut.

Meanwhile, the possibility arose that the Red army, which had fought Berlin for the first time in the war.

Reich reported an attack by the Red army on the city of Leningrad, but the attack had not been made.

The first anniversary of the opening of the battle of Britain, when British and German planes clashed in the skies over London, was celebrated today in the city.

The Red army reported an attack by the Red army on the city of Leningrad, but the attack had not been made.

Mrs. Paxton Dies At Home After Long Illness

Wife Of Former Fire Chief Had Lived Here For 31 Years

Mrs. G. P. Paxton, resident of Sanford for the past 31 years, died this morning at 1:30 o'clock at her home, 915 Myrtle Avenue, following a lengthy illness. She was the wife of G. P. Paxton, former fire chief of Sanford and now observer for the United States Weather Bureau.

She was born at Sanford, Fla., on May 11, 1869. Mrs. Paxton was the daughter of the late A. H. Brock and Nan S. Brock. The family moved to Loveland, Ohio, where Mrs. Paxton lived until she married her husband in 1903.

She became a member of the Presbyterian Church at an early age and when she came to Sanford in 1919 transferred her membership to the church here. She has been active in various clubs in addition to her church work.

Survivors include in addition to her husband a son, E. H. Paxton, Shenectady, N. Y.; a daughter, Mrs. H. C. Washburn, Sanford; three brothers, A. C. Brock, Loveland, Ohio; E. F. Brock, Sanford; and C. P. Brock, Cincinnati, Ohio, and several nieces and nephews.

Funeral services will be held at the Brickton Funeral Home at 10:00 o'clock Sunday morning, with Dr. E. D. Browley, pastor of the Presbyterian Church, officiating. Pallbearers will be H. P. Pope, J. Rainey, A. K. Roosevelt, Dr. H. H. McCallin, E. F. Brock and C. P. Brock. Burial will be in Evergreen Cemetery.

17 Young Men Ride Bus To Blanding For Indefinite Stay In Army Camp

Defense Stamps For Matinee To Be Sold At Ritz

Seventeen young men took drivers, celery farmers and clock makers, boarded a chartered bus at 1:30 o'clock this afternoon and left for Blanding to begin their term of service in Uncle Sam's rapidly expanding armed forces.

Five of the men were volunteers. The remaining 12 had been drafted to meet the large quota yet to be filled by the Seminoles County draft board.

Katlyle Housholder, 21-year-old insurance salesman, has charge of the group until they reach Camp Blanding.

How long the men will remain in service is uncertain. Under present law the term for draftees is one year, but a bill has been passed by the Senate to extend this period 18 months, with an increased pay for the extra time.

The four volunteers are: Katlyle Housholder, 21, insurance salesman, Hillsboro Drive; Myrl C. Dunne, 21, farmer, 201 West Third Street; Robert A. Campbell, 21, tractor driver, Chuluota; James C. Matthews, 24, state taker of poultry farm, Lake Mary Drive; Warren, Jr., 20, clerk, Lake Monroe.

The special matinee, which is for children only, is being staged throughout the state at approximately the same hour by the Florida State Theaters, Inc., group as a contribution to national defense and to encourage children to save for defense. The feature to be shown is "A Dangerous Game," with Richard Arlen and Anny Delvey.

July Shipping Loss Is Lowest In Year

LONDON, Aug. 8.—(AP)—First loss of the admiralty Alexander disclosed last night that convoys, planes and patrols in the North Atlantic had cut July British shipping losses to the lowest in more than a year.

Although Alexander did not give specific figures, he declared that "the month of July is the best we have had since I have been at the Admiralty." He took office with the Churchill government on May 12, 1940.

Previously the lowest month under Alexander was January 1941, when 308,002 tons of British, Allied and neutral shipping were sunk. June, 1941, was the next lowest with 329,396.

Game Law Arrests Announced As 176

PUNTA GORDA, Aug. 8.—(Special)—Reporting 176 arrests for game law violations in the first congressional district in the 1940-41 fiscal year against 83 during the previous year, D. F. Smoot, chief conservation officer for the district, said Thursday the activities of the 31 game wardens under his supervision may have resulted in marked decreases in reported law violations.

LOCAL WEATHER

Partly cloudy and continued warm tonight and Saturday scattered thunderstorms in the extreme south portion Saturday afternoon.

LICENSE ISSUED

Herman G. Echols and Ruby Knight Peters were issued a marriage license by the County judge's office last night. It was reported today.
