

## Braves Release Two Of League's Oldest Players

By BILL QUINN  
Associated Press Writer  
BOSTON, Jan. 20, 1943.—Introducing their newest, younger players, the Boston Braves today announced the release of two of the National League's oldest players, Outfielder Johnny O'Conor, who will be 38 in March, and the 36-in.-old Paul (Big Poindexter) Waner. It is likely, however, that these two veterans, whose professional baseball experience totals 61 years, deserve with President Bob

## Four Remaining Games On Gators' Schedule Canceled

GAINESVILLE, Jan. 20, 1943.—The only four remaining Southeastern Conference games on the University of Florida basketball team's schedule have been canceled. Acting Athletic Director Percy Beard announced today.

The games were with the University of Georgia. Two were scheduled at Athens Friday and Saturday and the remaining two at Gainesville Jan. 25 and 26. The reason for the cancellation was not given but previous schedules revision were made because of wartime transportation difficulties.

The Gator eagles' only conference competition was before the Christmas holidays when they lost six games on a road trip. To compensate for cancellations of conference games, efforts are being made to schedule games with nearby service teams.

The university previously had abandoned all intercollegiate ath-

**His name was MacDuff!  
And he felt very gruff.  
But it wasn't his liver  
Or his Model T Driver  
That caused him to huff  
and to puff!**

**It means he went buying,  
Spent all his time trying  
To keep from losing his  
will—  
But the story is sad—  
He spent all he had—  
And landed himself in  
the hole!  
But the Herald came to  
the rescue—  
With bungo worth  
building into.  
So the ending is gay  
We're happy to say,  
And MacDuff no longer  
gets gruff!**

## Turnesas Family Of New York Is Famous For Golf

By CHIP ROYAL  
AP Feature Sports Writer

Turnesas family has been famous in golf ever since the Scots started the game. Many families came over from Scotland to launch the favorite sport in the United States, but none of them reached the heights like the seven Turnesas of Elmsford, N.Y.

The remarkable Turnesas include Jim, runner-up in 1928 National Open and 1927 National Amateur; P. G. A. respectively; Willie, who won the 1928 National Amateur; and Sgt. Jim, of the U.S. Army, who defeated Ben Hogan and Byron Nelson in last year's P. G. A. only to lose to Sam Snead in the finals.

Then there is Mike Turnesas who led the field in the Hale America for awhile last year, Phil, the first of the brothers to show form,

Mike, including track, boxing, baseball, swimming and tennis, for the remainder of the school year. No announcement has been made as to plans for the following term.

If you ever take a laxative, here are 3 Questions for YOU

Ques. How often should you take a laxative? Ans. Only when the familiar symptoms indicate you really need one. Ques. What kind of a laxative should you take? Ans. Any laxative that brings relief quickly, thoroughly, gently. Ques. What laxative usually will do that? Ans. One such laxative, when taken by directions, is Black-Draught, 25 to 40 doses, only 25c. Follow label directions. Adv.

Frank and Doug.

In the Spring of 1938, the Turnesas family became a national power in golf, when the Turnesas, including a telegenic match. The Pacific Coasters played on the Alameda Calif., municipal links and the Turnesas at Elmsford, with the New Yorkers coming out on top.

The Fry brothers are Mark, Tom, Dick, Earl and Fred. Out side of Mark, the boys have continued to play in sectional tournaments in the Pacific Northwest. Mark was the P. G. A. medalist in North California for five times, has broken 14 course records, and has competed in 80 local and national tournaments the last six

years. Willie was the open champion in 1929, Alex topped the open in 1936 and repeated in that 1930 playoff. In the 16 open championships from 1925 to 1930, seven of the Turnesas were either first or second.

There were four Walshs. Frank was the tournament player of the family, winning five tournaments and being runner-up in 19 events. His brothers include Tom, former president of the P. G. A.; Martin and Frank.

Early railway track weighed 80 pounds per yard; today most lines use 130-pound rails.

## Soviets Forge New Pincer Threat To City Of Kharkov

### U.S. Heavy Bombers Begin Punishing Attack On Burma Rail Junction

By Associated Press  
On the Russian front, Red army troops, now driving 60 miles into the Ukraine, were reported forging a new pincer threat to the big steel city of Kharkov after a 17-mile advance to the southeast. Other columns were reported sweeping through the southeastern Ukraine toward the Sea of Azov in a move to close the area around Rostov.

From New Delhi in the Indian theater, a communiqué reported United States heavy bombers made a punishing attack Tuesday on a railway installation at That, a central Burma rail junction.

Back to the European theater, the German air force stabbed at London four times during the night but indications early today were that the Nazis had done no damage after a German daylight raid yesterday which spanned school houses and killed at least 30 gaily chattering children in the building.

The shelling last night and early today by the Nazi air force was regarded by observers as insignificant as a military operation to the Germans' own raid on the outskirts of London once.

Otherwise, the four alarms in the London area, one of them in only one section, produced almost no incidents.

Incendiary bombs were dropped in the southeast section during one alarm.

The German daylight raiders buried 20 to 30 children and three women beneath the rubble of debris while rescuers were digging for them. It was the worst blow suffered by London schools since the blitz attack began.

Only six raiders stayed London overnight and three were wounded, but 100 tons of debris and rescuers were digging for them.

There wasn't a chance that the children and teachers buried in the ruins were alive, for they had been chattering gaily at lunch on the first floor; but 200 rescue workers kept digging for them.

In southern England, where the raiders also delivered destruction, one elderly man died of shock in a southeast coastal town where 40 to 60 planes appeared in two waves, but dropped no bombs.

German night raiders kept hitting at the south, dropping incendiaries on the residential areas of the southeast coast towns and starting small numbers of fires which were quickly put out. No casualties were reported in the night attack but there was considerable property damage.

Escorted by up to 100 fighters, some 25 German fighter-bombers approached the coast at Beachy Head from the east and headed straight for London at top speed.

Some had done just enough to give the R.A.F. and Royal Canadian Air Force fighters, who heavily engaged the force and damaged many others in addition to shooting down the 18.

**End Is Near For Cut In Civilian Economy**

WASHINGTON, Jan. 21, (AP)— WPA Chairman Donald Nelson today indicated the Government is near the end of trimming down civilian economy and declared little surplus remained which, if taken away, would make substantial contributions to war production.

He said the WPA shortly would announce a large-scale program of simplification of consumer goods, so as to put maximum production with the use of least possible materials and equipment.

### Canned Baby Foods Will Be Rationed By OPA

#### Eleven Items Added To List Of Products By Wickard

WASHINGTON, Jan. 21, (AP)— The OPA today announced many canned baby foods will be rationed under the same point system to be used for packaged fruits and vegetables. Baby foods rationed will include strained or chopped foods made of fruits, vegetables or meats and put up in cans, jars, cans, cartons, etc.

Food Administrator Wickard has added 11 other general items to the list of foods expected to be rationed. It was disclosed last night as the Office of Price Administration began cracking down on a growing black market in meat.

At the same time, Rep. Edwin H. Holt introduced a bill designed to prevent the OPA from taking ration cards as a means of punishing any violators of OPA regulations. His action followed reports that OPA officials in New York would withdraw food ration cards of persons violating the pleasure driving ban.

Wickard's order authorizes the OPA to ration "as necessary" canned and evaporated milk, whole cream, preserves, fruit, butter, pickles, relishes, food products containing meat, and processed fish and shell fish. The order, designed to "facilitate administration" of food rationing, retains with Wickard the authority to decline OPA when rationing of these items becomes necessary.

His order, however, was publicly first intimation given in the Federal Register, a government organ for promulgating orders and regulations.

Incendiary bombs were dropped in the southeast section during one alarm.

The German daylight raiders buried 20 to 30 children and three women beneath the rubble of debris while rescuers were digging for them.

### SAYRE, Okla., Jan. 21, (AP)—

Three young colored men, accused of robbing a gas station, were held in custody yesterday by a jury in federal court here. Wednesday against William Thomas Reid, oil man charged with threatening to kill President Roosevelt.

Reid faces a maximum penalty of five years imprisonment, a fine of \$10,000 or both. He also faces another indictment charging him with attempted to commit to the death of his mother.

He drew a picture that showed a man-size mosquito equipped with goggles, gas mask, hand gun, smoke bomb, pick, and spikes to prevent sliding while dining.

"Three of our aircraft engaged one and after a long, arduous battle they managed to shoot it down," he said. "I don't know if it was because the most mosquitoes are equipped with armor plates."

The commission estimated the amount would result in an increase of 100,000 to 150,000 to the public and the annual revenue of the agency's long distance telephone system \$60,000,000.

The commission, however, said the difference between the FCC and the commission would be less than \$10,000,000.

Commissioner George Clegg said the commission would be less than \$10,000,000.

## SUNDAY HERALD

## Jap Faith

How do the Japanese, with their inferior economic power, hope to defeat the United States with its immense armament? They are unable to the disparity of material resources, but they say they have better mental and moral resources.

Robert Bellair is now explaining this matter to Americans who, on Sunday, will be impressed in a small room whether it is wise to let half of them had to stand up to give the other half sleep on the floor. During that time they were inhumanely starved and starved until all of them were sick and some of them died and others were made invalids for life.

We can't figure it out in this way. They will win, they believe, because they are more willing to sacrifice.

As evidence of this, they point to the fact that they already giving up two-thirds of their food supply, heating their homes only 20 hours in the whole winter, working as much as 90 hours a week, and abandoning automobiles and

The tank upon American durability, as evidenced by our strikes and political quarrels. We are strong and tough, they say, and cannot match their own toughness, unity and discipline.

Are they right or wrong? Here is at least a challenge for Americans in heart-searching and self-criticism.

## The Coal Strike

Some American labor leaders and groups have acted lately in a way to endanger the public safety and cast discredit on organized labor in general. It is a very unpleasant climax in the rise of labor's free status when its organization is used to stop war production as a strike. Whether it was instigated by the workers themselves or by their official representatives, the result is still and dangerous.

Any good citizen may properly denounce the coal strike that has been in progress lately. It has threatened a serious shortage in mid-winter and also threatened the supply of coal for the nation's armed forces in a perilous war.

Such procedure is inexplicable, whatever the alleged grievances may be. For there is ample machinery in this country, both governmental and private, to adjust industrial disputes and to strike a balance between either party. And if no one can buy, no one can sell. Burnt people will spread their heat to others.

American labor has a right to strike as a last resort. But it had no more right to break a contract than any private citizen has, and in war time even some constitutional rights are suspended temporarily on grounds of national safety. Whether it was right or not, the attitude adopted by the strikers in this case has been unnecessary and unpatriotic and dangerous.

## Versatile Billings

A forgotten song-writer whose discoverer calls him "the greatest of American metals" is now receiving attention. This great genius, born in poverty in 1740 and deceased in poverty in 1800, a Boston minister, wrote a tune "Ode to Joy" that has become the hymn of the Lord and Pater the "Amenification" of the Revolutionary Army. He was a man of great personal magnetism and a man of God.

He was a man of God, and he died in poverty. Yet he gave his life to his God and his people. And he died in poverty.

He was a man of God, and he died in poverty. Yet he gave his life to his God and his people. And he died in poverty.

He was a man of God, and he died in poverty. Yet he gave his life to his God and his people. And he died in poverty.

He was a man of God, and he died in poverty. Yet he gave his life to his God and his people. And he died in poverty.

He was a man of God, and he died in poverty. Yet he gave his life to his God and his people. And he died in poverty.

He was a man of God, and he died in poverty. Yet he gave his life to his God and his people. And he died in poverty.

He was a man of God, and he died in poverty. Yet he gave his life to his God and his people. And he died in poverty.

He was a man of God, and he died in poverty. Yet he gave his life to his God and his people. And he died in poverty.

He was a man of God, and he died in poverty. Yet he gave his life to his God and his people. And he died in poverty.

**Corporations  
Offices In  
Small Bungalows**

By CHARLES L. STEPHENSON

WILMINGTON, N. C., Jan. 21.—Four more corporations with total resources totaling \$5,000,000 have their offices in a bungalow here.

In the first step of the town's new office plan George Lewis and his brother have signed leases for two small sign finding the corner offices. But it's hard to keep them from competing for business.

Most businesses, how-

ever, have chosen to stay in the rural county seats. The task was started by Standard Oil Company of New Jersey, which moved its legal office here from Linden in 1925. Most of the companies have been here since.

Standard Oil's migration has a tale of its own. It was the company whose tax rate had plummeted to the lowest in the state because it spread the greatest load on others.

But Flemington's tax rate was far lower than the state average. The central city had a wind of money. New Jersey law provides that corporations, partnerships and individuals shall be taxed on the same as retail and other persons. It's hard to keep them from competing for business.

After a year of discussion, it was decided to increase the tax rate. Standard Oil offered the best bid for revenue. It agreed an assessment of \$50,000 on its \$100,000 oil, among others.

Standard moved to Linden. Now the legislature has voted at \$75,000,000, or it came to Philadelphia. This time, it was the state's turn to tax. The levy plunged the little borough's tax rate from \$2.51 to 74 cents per \$100. Standard Oil paid \$1,000,000 in taxes. New Jersey Republicans spread the greatest load on others.

From Wyoming, there is one instance of a corporation that has defeated the angles and won. Sen. Kenneth Wherry, from the Union States, was working on the Senate's chief "Why Not" bill. New Jersey Republicans' general defeat for Democrats in the election of 1932, however, gave Sen. Kenneth Wherry, who will never have another chance to do so much in history. He's a man who defeated the angles and won.

The last is endless. Eat it if you can't afford it. It didn't mention your name. Will Rogers' "Will Rogers For President" campaign, in fact, became a write-in break.

When Young Will came to town he was a hero. He was a No. 1 glamour lady in the Congress; James M. Cagney, his co-star, was a writing legend of which time was spent being the pride of Massachusetts. In 1932, however, he was a bit of an all-American football star, but who was the member of the new Congress who had served in this war? He was the only new member who didn't make a campaign speech or even a speech during the pre-election period.

Also on the front page of the newspaper, who came from the casting office, but he was right pleased with his clouds. They didn't look like the definite pinches people mean when they say something "looks like" the clouds. The hero would have it.

Except for his fighting rottweiler, the tongue-tickling dog, Magnificent Amherst, and "Crash Dive," love affair with the British near Abberville and experienced his first attack in Somme offensive and in the terrible light at Verdun, he's active in the Oise-Aisne operations in the Meuse-Arorna offensive. It's typical of Major General William G. Haig. His insignia is an upright arrow piercing a crossed red.

THIRTY-FIRST DIVISION

The Thirty-first Division was organized in October, 1917, at Camp Meade, Md., and organized originally of National Guard units from the District of Columbia and the states of New Jersey, Delaware, Maryland and Virginia. The division was disbanded in April, 1919, and reorganized into pioneer industry units. The Division was mustered in June and July, 1918, and after a long wait training in September, participated in the Meuse-Arorna offensive. It captured 2,117 prisoners and lost 1,000 men. Its commander during service was commanded by Major General Charles G. Martin, who retreated Malibou Road and held off the Germans.

Carrying drunkenness were

FREMONT, Jan. 21.—A daughter was born to Mr. and Mrs. Lester A. Walker, publishers of "Frederick Guide and Tribune." The baby, a girl, weighed 7 lbs. 10 oz. and was born at the hospital.

Both mother and daughter are in Austin, Tex., now, doing well, it was stated at the Ottawa City Hospital.

## Celery Fed Cage Team Will Play Daytona Beach Squads

After months of practice, the Seminole High School basketball team in Sanford will finally get its chance to play. Coach Leonard E. Lee said he would leave this morning by bus for Daytona, to play the high school basketball teams of the Seabreeze high this evening.

With two veteran forward players, Eddie Dickey and Pete Brock, and Robert E. Lee as guard, the team appears to have a good chance to win. Two in the probable starting line-up are the new guards, Pete Brock and guard, Coach McLucas said.

The players who will be taken along to show their caging ability will be Pennington and Lanier, and Roland and Raburn, Guards.

After scrimmaging with visiting sailors and Marines from the excellent fighting condition for the Daytona header, Coach McLucas said.

## Cleveland Man, 63 Years Old, Is Real Sportsman

By LARRY SMITH  
ORLANDO, Jan. 21. (AP)—In these days when commercial sportsmen are seeking all the power publicity, one is apt to overlook the real sportsman, those who mean little and the sport they love.

The fact who can rest off the Yankee batting order and name the first three players in the game probably wouldn't be much of a headline.

The decision to continue the ever popular gas sale which was made in line with a policy of carrying on in sports

despite the present situation since there are many army establish-

ments still here.

Business said. Prices will be in

line with bonds.

Walter last year was War

Memorial Trophy, the award

most annually by the Amateur

Athletic Association.

He did most to advance the cause of

Edward Henning, who is the old-

est athlete ever to play among

athletes, deeply appreciates such

an honor.

Henning's recent competitive

attainment was his first

place in the National Athlet-

ic Association's

Memorial Trophy.

Thus 5 years have elapsed be-

fore his first big victory.

He has won the national

horizontal bar title again

in 1934, the national all-around

championship, and finished third in the all-around

competition.

"The Cleveland won the na-

tional horizontal bar title again

in 1934, the national all-around

championship, and finished third in the all-around

competition.

"I am the dropped out of

the competition," he explains. "When

the competition opened in Chicago I decided to find out how much of the knock

was in the club swinging."

The year was 1934, and the bar

was a brand new little

strengths for me."

After mastering the

horizontal bar, he began to

master other events.

He was only 15 years old when

he began to master the vertical

bar, and he began to master the

horizontal bar, and he began to

master other events.

Inaugurating an "open" door
