Ever thought about that word - its deep, stirring meaning? We start out as part of a family. And even though we know we are "little" it doesn't matter. We are part of the family-that's important. And what we will become—the family is looking out for that!

Then one day we are grownups. And again we are part of a family. But now we are "big." Oh so big! For what the rest of the family will become—that depends on us!

How important a part did the Church play in your transition from being little to being big? Well, in this free land, the chances are good that you grew up spiritually as well as physically.

But, even if you didn't-it's not too late! Not only can you see your children off to a free and fine education, but you can come with them to church . . . where the "little" and the "big" learn of GOD . . . where the truth of Christ's teaching guides the destiny of THE FAMILY.

Loring Burgess, president of the Seminole County Chamber of Commerce, has issued the following state-

membership of the Seminole County Chamber of Commerce salutes Chief Roy Williams, Chief Mack Clevecommunity.

"Their many years of faithful dedication to Sanford are unparalleled in this or any other area of Florida. May the record of these men forever be a challenge and inspiration to others."

Those B-17s will be familfar sights in the skies over Seminole County during the next few weeks. Jim Haley, of the U.S. Department of Agriculture, says they expect to cover 4,000 acres an hour in their serial fight on the fire ant. They will be flying just above the trees because the lower the better - for them. There are 208,320 acres to be covered in Seminole

A new recreation area is going up just outside Sanford. The Atlantic Coast Line Railroad is developing an simmon Avenue.

A special guest at the retirement party given at City Hall by public works employes for retiring "Sid" RiChard was Mrs. Mary Harkey, secretary to City Manager Pete Knowles. Mary recently underwent surgery and this was her first "social outing." Mary will soon be returning

to her desk. All civic luncheon clubs inve chiceiled their meeting this week in order to join the combined luncheon honoring Capt. James Mayo today. There will be no meetings of Rotary, Kiwanis, Llons or Jaycees.

Sixteen more palm trees were planted along the Lake Monroe shoreline last week in the first phase of "Operation Beautify" before the city had to pull their equipment off for another lob. You can tell how nice it's going to look eventually.

Nor is it surprising that school boards, under pressure from salesmen, architects, decorators, educators and other experts, should make some controversial decisions.

An example of how competition between the makers of two different but similar-purpose communities they represent—is conventional flooring versus carpeting for classrooms and libraries.

In recent years, the latter has cut into the market dominated by asphalt or vinyl tile and lineleum. High initial expenditure, the makers claim, is offset by carpeting's warmth, acoustical qualities and low maintenance cost,

"Resillent" flooring manufacturers say it is just the other way around. Some boards have been persuaded one way, some the other.
In Appleton, Wis., early this year, the school board approved the installation of carpeting in one junior high school. The cost was \$5,400. compared to \$800 for the vinyl tile previously planned. Public disapproval forced the board to reverse its decision.

In this instance, dollar signs aroused taxpayer interest in a school system. But money isn't always a

there's trouble as well as love in the air under Paris skies. And right now the colorful grande dame of Paris fashion is lashing out at the fashion bress. A news report from Paris states that Gabrielle Chanel,

the most copied designer in the world, is taking the whip in her influential hand and striking out at what she calls the magazines' love affair with Courreges, their kookie photographs and the fact that they ignored the elegance of spring's great couture collections.

It's rare for Chanel to champion the designers in the Paris couture group. Often they are the targets of her werhal barbs. She has even been known to assert that "when they run out of ideas, they copy Chanel."

But it's easy to understand why she chose to be their spokesman this time. Page after page of raves for Courreges designs - skirts ending at mid-thigh, boots for everything but sleeping, five-gallon hats tied with a bow smack under the lip and tennis ball sunglasses with just a slit to see through-prompt me to tip my hat to Mademoiselle Chanel for objecting to the overrated applause his

ruined. She is four years old, and the only grandchild on both sides of the family. My problem: How do I keep my parents and inlaws from spoiling her rotten? Whenever she goes to one of her grandparenta' homes, she gets whatever she wants, even if I say NO! They give her sweets any time she asks for them, let her skip her nap, and give her the run of the place. She does all the things there I don't let her do at home. She thinks of "Mother" as the person who spoils her fun and always says NO to her. This is making a nervous wreck of me. It's gotten so she won't even mind me at home any more. She has me where she wants me. Sometimes I wonder who is the parent and who is the child.

What can be done? A NERVOUS WRECK

DEAR WRECK: Apparently you are still the "child" where your parents and in-laws are concerned. It's time you grew up and assumed the role of parent to your daughter. Continue to say NO to her when it's in her best interests. And learn how to say NO, NO, NO to your parents and inlaws when they undermine your efforts to discipline your child. You'll need your husband's support. But if you must do it alone, do it. And start today.

DEAR ABBY: When someone wrote asking you why they made stretch pants in sizes 18 and 20 when women who required those sizes looked so ridiculous in them, you answered, "Manufacturers will make anything they think they can sell,"

How right you were, Abby. I thought I had seen everything when I saw MA-TERNITY STRETCH PANTS, featuring a let-out adjustable waistband. Then I saw an ad in a magazine for MATERNITY WED-DING GOWNS, What next?

BUSINESS Helping Keep MERICA POWERFU

Our Banks are free to aid free enterprise

Able to Make Their Own Decisions, unhampered by burdensome bureaueratic dictates, America's banks have promoted individual initiative by advancing funds to make new enterprises possible, Keeping capital at work, investing wisely in America's future, they

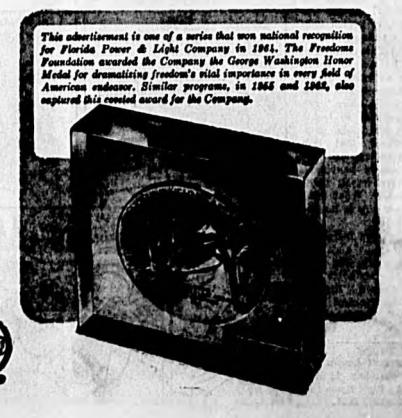

have helped create the world's most prosperous economy. Today, our banks are free to aid free enterprise - from the giants of industry to the smallest retail store.

But what of tomorrow? There are some among us who advocate federal ownership of certain businesses... the first move of a creeping socialism that would in time destroy our greatest economic freedom.

We must be ever vigilant in our defense of this freedom of individual Initiative and enterprise if we are to keep America Powerful.

______ Today, as part of the world's greatest power system, investor-owned, tax-paying Florida Power & Light Company speeds expansion to keep abreast of our growing need for more power. As in the case of the banking business, our past achievements have been possible only because our Nation has been free of oppressive dictatorships. We hope, through even more sutstanding performance, to encourage the trend in America today which proposes more freedom for private enterprise so that Industry may serve our Country more efficiently.

\$70,000 Plant **Announced For** Altamonte

By Donna Estes The request of Jack Gale of Cox and Gale Associates to resone property on Maitland Avenue in Altamonte Springs immediately south of the Seventh-Day Advantist Church from RI-AA single family residence to R3 multiple family dwelling was unanimously approved by the Altamente Springs Town Council at public hearing.

No objections were raised to the request, Gale explained that the six-

unit contemporary Mediterranean type building his firm plans to construct at this loeation will cost \$70,000, in addition to the cost of the property, with construction to begin in approximately eight wooks.

The building is designed for rental and each unit will be completely furnished including wall to wall carpeting. In answer to question from Councilman Colin Crews, Gale

stated that his firm plans to own and operate the building and does not plan it for resale in the near future. Four residents appeared to

support the request. In another public hearing, council decided to abandon a portion of the right of way on Florida Boulevard running southeast from Lake Street as petitioned by Orville Johnson. Johnson pointed out that young unemployed drifter didn't want to get further in that particular portion of the street never had been formally opened or used.
