## State, Public Officials Face Loyalty Oath

Action On Senate's Citrus Bill Is Delayed By Review By House Committee

TALLAHASSEE, May 13.—(UPI)—Senators Boehm of West Palm Beach and Bell of Pensacola today introduced a bill yesterday night, Sunday, to limit Sunday baseball to the hours of from 3 P. M. to 8 P. M. Boehm asked that the bill be taken up for immediate action, but it was referred to a committee for consideration at the suggestion of Senator McArthur of Pensacola.

TALLAHASSEE, May 13.—(UPI)—A bill to remove present limitations on campaign expenses of candidates for political office was passed unanimously by the House today and sent to the Senate. Rep. Andrews of Orange, one of the introducers of the bill, called the limits "ridiculous." "You all have knowledge of the fact that more is spent on the race than allowed by law," he told the House. "There are ways of doing it."

TALLAHASSEE, May 13.—(UPI)—The legislative act requiring all public employees and elected officials in Florida to sign a loyalty oath became law today.

Governor Warren signed the bill making it mandatory that all those on public payrolls must sign oaths they are not members of the Communist Party, will not aid the party and do not belong to any group advocating overthrow of the state or federal government by force.

The Governor also made news when the Legislature overrode his final veto by a 69 to 5 vote.

Warren's veto was on a special act permitting Panama City to put a tax on alcohol beverages despite a general law giving that field of taxation to the State exclusive.

## 5,000 Police Join In Hunt For Sicily's Cop-Killing Giuliano

PALERMO, Italy, May 13.—(UPI)—Some 5,000 police were closing in today on the mountain stronghold where Sicily's "Robin Hood" bandit chief is holed up with about 20 of his men. The orders were to get this Sicilian Jesse James dead or alive.

The slaying of three policemen from ambush yesterday gave added emphasis to the tension. The three were machinegunned about 10 miles southeast of Palermo.

Ironically, the authorities did not believe Salvatore Giuliano was responsible for the killings. They attributed the ambush to lesser bandit, named Mauro.

However, the swarthy, dachyed, Giuliano and his men are estimated to have killed about 70 policemen since he took to the hills in 1943 after selling a patrolman who tried to seize his wagon load of black market wheat. He was 20 years old then.

## Mrs. Eisler Is Re-Arrested To Be Questioned

### U. S. Takes Woman Into Custody For Deportation Soon

WASHINGTON, May 13.—(UPI)—Mrs. Gerhart Eisler today was re-arrested for deportation while the Justice Department plans to bring her husband back from his flight across the seas.

The Department announced that Mrs. Eisler was taken into custody in New York City this morning. She had been at liberty, without bond, on charges of being illegally in this country.

One reason for her re-arrest was that the government wished to question her about the flight of Eisler, 52-year-old admitted Communist, as a stowaway on a Polish vessel.

The Justice Department said that Immigration Service officials in New York had been instructed to detain Mrs. Eisler on Ellis Island.

Except for the principle of the thing, the government could never quite a bit of money by just ignoring Eisler's flight while under charges looking to his deportation.

The 52-year-old admitted Communist owes this country time in prison for violating its laws while living here as an alien guest.

And while the Department frankly will be delighted to exclude him from the United States forever, it insists upon doing this through the regular procedures by a deportation action which already is in motion. Hence, elaborate arrangements have been completed for interception of the stowaway aboard the Polish liner *Batory*—now on the Atlantic—who has identified himself as Eisler. These arrangements call for his prompt return to America.

Mrs. Eisler, listed in official records as Brunhilde Rotstein Eisler, is a native of Poland.

She was first arrested in early 1948 on charges that she had over stayed her time in this country as a visiting alien.

Mrs. Eisler, now 37, came to New York in June, 1948, on a transatlantic. That simply permitted her passage through this country to Mexico. However, this was later changed to a temporary visiting permit.

Referring to the tick infestation, he advised that specimens be brought to his office for examination.

Elected as vice-presidents of the Association were G. S. Lee, Orlando; A. B. Merritt, Okahumpka; L. B. McLeod, Jr., Orlando, and Edward J. Cameron, Sanford.

Named as directors were Oscar Johns, Groveland; T. F. Thompson, Clermont; Clarence Dawson, Orlando; George W. Coward, Christmas; Francis Merriweather, Sanford and W. G. Kilbey, Geneva.

Former President Eugene was elected director to the Florida State Cattlemen's Association.

W. E. Hathaway, veteran presser of barbecues, received many compliments on the quality of the meat he had prepared for the barbecue that followed the meeting.

Cattlemen were urged by G. Dunn, Okahumpka, president and secretary of the State Cattlemen's Association, to co-operate in the tick eradication campaign now being undertaken by the State Livestock Board.

ANOTHER FIRST  
MOSCOW, May 13.—(UPI)—The Russians added the long-distance flight to their list of "firsts" today.

Komsomol Pravda, organ of the Young Communist League, said a Russian aviator, Peter Nikolichevich, first performed the feat. No date was given.

The paper also claimed Nikolichevich made the world's first long-distance flight when he flew from Kiev to St. Petersburg—750 miles—in 1914. Komsomol Pravda said the trip took one day.

He told of the infestation en-

## 30 Overcome By Acrid Fumes In Holland Tunnel

### Drums Of Chemicals Explode On Truck Near Jersey City

NEW YORK, May 13.—(UPI)—Drums of chemicals exploded on a truck in the Holland Tunnel today, filling the underwater highway with carbon disulfide fumes. Thirty persons were overcome.

The explosion, touched off when the truck caught fire, occurred in the tunnel's east bound tube at 7:35 A. M. EST. At the height of the heavy morning traffic, the tube links Jersey City with Manhattan.

The drums began exploding while the truck was near the Jersey City side of the tunnel. The flames spread to three other trucks and the acrid ammonia fumes, fanned by the tunnel's ventilation system, seeped through the tube.

Some trucks were backed out of the tube. Other motorists left their cars and, with handkerchiefs shielding their nostrils, raced along the walkways to the entrance of the

## National Guard To Attend Firing Drill At Blanding

Plans for attending test firing at Camp Blanding Saturday were announced last night at the Armory by Lieut. Raymond Kader, at the meeting of Company I.

The local guardians will leave the Armory at 8:00 A. M. Capt. Roy Green will go along as small army instructor. The men are due to be in fine shape to compete in matches at the annual National Guard encampment July 20 to Aug. 8 at Columbus, S. C.

Lieut. John Sauls reports that the Company continues to take in several new men at each meeting. Men wishing to join are advised to contact Lieut. Kader, Lieut. Sauls or Sgt. T. B. Brown, on meeting nights, Thursdays at 8:00 P. M. at the Armory.

New recreation facilities for enlisted men include handball, boxing and ping pong facilities, radio-phonograph and play ball machine.

She and Eisler were married in New York City in 1942, and have since resided there.

## Lieut. Comdr. E. H. Potter Returns To Sanford From Besieged Shanghai

Lieut. Comdr. Edward H. Potter, USN, who arrived Saturday from Shanghai, China, to join Mrs. Potter, the former Joan Azaroff and daughter Robin Ann, declared today that business in Shanghai, a city of 6,000,000 people, was practically at a standstill when he left on April 23.

The wealthy Chinese were leaving as the Communist Army got nearer, the middle class was sparse, and the poor class was more or less indifferent, he said.

He had not seen his wife and child since November, when all dependents of naval personnel were asked to leave China. Mrs. Potter and Robin Ann, who had lived for 14 months in Shanghai, arrived back in Sanford in December.

Potter left when the Navy found its position untenable and withdrew from Shanghai due to the fact that the Whangpoo River, tributary of the Yangtze River, is so narrow that it could be easily bottled up, he pointed out.

His service in Shanghai totalled 2½ months with "Fleet Weather Central" which kept track of weather conditions and which was located in the same building as the Chinese weather bureau. The Chinese did well with the United weather recording facilities at their disposal, he asserted.

He told of the infestation en-

## West Accused Of Torpedoing Berlin Block

### Soviets Say Allies Are Evading Limiting Their Restrictions For Travel

LAKE SUCCESS, May 13.—(UPI)—The Political Committee of the United Nations Assembly approved today a plan for partitioning Italy's prewar African empire.

A Western spokesman promptly labelled the accusation "a lot of nonsense." His spokesman was Lawrence Wilkinson, economist adviser to the U. S. military government. "We were told by our government to remove all restrictions put into effect since May 1, 1948," he said. "We've done that and more."

The committee rejected Russia's plan for collective trusteeship over the African territories. Mussolini left in the war.

The approved plan assigns parts of the territories to Britain, France, Italy and Ethiopia either under the U. N. trusteeship system or in outright annexation.

The vote in the 18-nation committee was 11 to 10. Seven abstained.

The western powers are evading the lifting of their restrictions under invalid pretenses, it charged.

"The agreement cannot be fulfilled by the Soviet side alone," it added.

Some observers saw in these words an implied threat to reimpose the blockade—but such a step would be a matter of policy for higher authorities than the Russians in Germany to decide.

But the Rundschau statement need for getting supplies from Western Germany for her nearly bankrupt occupation zone.

Wilkinson said that at a four-power meeting of economic chiefs here yesterday the British representative insisted on a resolution to give the Western province of Eritrea to the Anglo-Egyptian Sudan. This was defeated by 16 votes against and 10 in favor. Twenty-one abstained.

No provision was made for western Eritrea immediately.

The approved plan provides that:

1. Libya would be divided into three parts. Cyrenaica would be placed under British trusteeship. The Fezzan would go under French trusteeship. Tripolitania would remain temporarily under British trusteeship but would be transferred to Italian trusteeship in 1951. An advisory committee would help British administer Tripolitania.

2. Italian Somaliland would be placed under Italian trusteeship. Eritrea would be divided. The eastern part would be ceded to Eritrea. Disposition of the western provinces is to be settled later.

Russia had sought to have all the colonies placed under collective U. N. trusteeships instead of individual countries.

The delegates had heard Russia's Andriy A. Grinenko in a previous session accuse the United States and Britain of making a deal to keep control of strategic parts of Mussolini's African empires.

The local guardians will leave the Armory at 8:00 A. M. Capt. Roy Green will go along as small army instructor. The men are due to be in fine shape to compete in matches at the annual National Guard encampment July 20 to Aug. 8 at Columbus, S. C.

Lieut. John Sauls reports that the Company continues to take in several new men at each meeting. Men wishing to join are advised to contact Lieut. Kader, Lieut. Sauls or Sgt. T. B. Brown, on meeting nights, Thursdays at 8:00 P. M. at the Armory.

New recreation facilities for enlisted men include handball, boxing and ping pong facilities, radio-phonograph and play ball machine.

She and Eisler were married in New York City in 1942, and have since resided there.

## Jaycees Pledge \$200 To Hospital Drive For Funds

The Seminole County Junior Chamber of Commerce yesterday at their meeting at the Tourist Center pledged \$200 as their contribution toward the drive to secure funds to operate the Ford Laughton Memorial Hospital.

The organization agreed to give more toward the drive, if after investigation of its financial standing, money is available.

MacDonald Bryan, director of the \$25,000 fund campaign for the hospital, outlined the need for money on which to run the institution. Mr. Bryan told the Jaycees that the remaining funds will be used to purchase medical equipment, supplies and furniture.

President Gordon Bradley appointed Clifford Ables, treasurer, George Williams and T. E. Tuck to review the financial standing of the organization and to report to the meeting next week to see if the hospital donation may be increased.

George Williams gave the organization a report on the proposed docks and terminal project by the City, and action taken at the City Commission Monday night.

The living conditions in the officers' compound were very comfortable, including the quarters in which the family lived, he declared. An Amak or servant did all housework and cooking for a salary of 60 cents a day. Most food, including frozen foods, were shipped in from the United States.

The compound had its own swimming pool, garden, movie place and church, he said. He (Continued on page eight)

LEGION MEET

The Legion committee appointed to investigate the possibility of adding improvements to the Legion Hut will report Monday night following the "big feed" at 7:00 o'clock at Campbell-Lassing Post No. 58, J. Quincy Galloway, commander, stated today. Tickets for the supper may be obtained from Mr. Galloway, Joel Field, Charles Vodopich, James Singletary, and Mr. Rounilat and Andersons.

## \$406 Million Military Pay Boost Is Okayed By House Committee

### Red Prongs Move Negotiations On Within 15 Miles Southern Coal Contracts Set

#### 1,000 Commies And Many Horses Are Killed By Chinese

SAN FRANCISCO, May 13.—(UPI)—Press wireless and other radio communication companies reported today they were unable to transmit to Communists threatened Shanghai. Dispatches from Shanghai were still being received, however. A press wireless supervisor explained that the Chinese government radio sending and receiving stations are on opposite sides of Shanghai, and that the receiving station, about four miles southwest of the city, was not acknowledging messages.

**FRIDAY, MAY 13, 1948**

It wasn't the Russians who blocked Berlin, but the Western Powers, the Russian radio is now telling the people of Germany and Russia.

President Truman is sticking by his \$4,000,000,000 tax boom demand. The people are making \$3,000,000,000 less, but he wants \$4,000,000,000 more.

The lifting of Berlin blockade seems to have been as productive of as much controversy as its institution in the first place. The road to peace is a long and tedious one.

As if loafers were not being paid enough already not to work, the lower house in the Florida Legislature has passed a bill increasing jobless benefits from \$15 a week for 16 weeks to \$20 a week for 20 weeks. For many of these people who do not want to work that means they can get by sitting on the front porch in a rocking chair for five months. And that is what is being done with the tax money of those who do work.

Highest social honor which can come to a man at Yale is to be the last man tapped for Skull and Bones, secret senior society. It is a distinction usually reserved for the captain of the football team and the fact that next year's captain is a negro had provoked considerable speculation. But not only did Skull and Bones tap the negro; he turned it down; to go Berzilus, one of the newer societies. The world moves on.

Those who do not pay income taxes, or other direct forms of taxation often delude themselves into thinking they are escaping a fair share of the cost of government. However, every tax is ultimately paid by the average consumer, and we are all consumers. If you are an automobile driver or use kerosene in your home, you pay your share of taxes, all right. More than \$1,342,973,000 were collected by state governments from gasoline and fuel oil users alone last year.

Violence has broken out in Orlando where the United Mine Workers Union is trying to take over the taxicab business. One driver was forced to the curb by a group of ruffians and severely beaten. He did not want to join the UMW union, any more than other drivers in Orlando, but he may have to, or lose his life. This is not unusual with the UMW, or the CIO. They either organize you, or they lynch you. But unfortunately, the anti-lynching bill does not apply to such tactics.

The sins of Frank Hague have finally caught up with him and after a rule of 32 years the people have finally regained control of the Jersey City government. The trouble about a dictatorship is that it is so hard to get rid of it. It looks good at first, as its promises are surveyed, but as the realization dawns that the promises are not to be carried out, the discovery is made that power once surrendered by the people is not easily recovered. Sometimes it takes an assassination as in Louisiana; again it just takes time, and plenty of it.

Segregation is being abolished in the Armed Forces. Secretary Johnson has ordered all negroes in the Air Force distributed evenly throughout all units. There are not many negroes in the Air Force, but many negroes to distribute. But there are some. There might be two or three in each group, and they probably could manage to get along all right with other members of the group. However, being a good private in the Army envisages promotion. A corporal's life is bad enough under any circumstances; a sergeant's even worse. We would not want to be a negro corporal in a segregated unit ordering the men not to eat opposite butts or clean out latrines.

**The Hospital Crisis**

Although many individuals and business organizations have prospered from the war-borne boom, some people and many institutions operating on more or less fixed incomes, which have failed to rise in proportion to the general inflationary trend, have found budget balancing in the post-war era far more difficult than during the depression. This is particularly true of privately endowed colleges, hospitals and other charitable institutions throughout the country.

The Fernand Laughton Memorial Hospital has not escaped this financial crisis. The problem of securing sufficient revenues to match rapidly growing expenses has become increasingly difficult in the last few years. The hospital is a private institution operated by a non-profit association. Whenever there is an excess of receipts over expenditures, the profits are plowed back into improvements or additional equipment. Whenever there is a loss, the deficit cannot be offset by merely increasing the taxes which the public has to pay. It has to be met by voluntary contributions.

That is the purpose of the present drive. The hospital has over \$9,000 in unpaid bills. These bills have got to be paid. The hospital is currently being operated at a loss. More unpaid bills will accrue throughout the year unless sufficient contributions are made to meet them. The goal for the drive must be fixed at \$25,000, the least amount which the hospital must have if it is to continue operation throughout the year. Anything less than that will result in a serious deterioration of services and possibly the closing of the hospital.

A quick glance at the figures will show what has brought about this condition. In 1941 nurses working at the hospital were paid \$6,151; in 1948 they were paid \$38,430. Groceries which the hospital has to buy for patients' meals have increased in cost from \$4,224 to \$18,599. Other items of expenses, such as laundry have jumped from \$900 to \$2,780; and bed linen from \$140 to \$1,056, an increase of 651 percent. The hospital management has made every effort to match these increasing costs with increased revenues, with surprisingly good results, but you cannot raise that kind of money without considerable difficulty.

The hospital has, for instance, succeeded in raising its gross receipts from \$18,577.70 in 1941 to \$103,164.64 in 1948. That is an increase of over 500 percent, and it was accomplished without increasing the cost of private rooms more than \$2 per day. The 1948 receipts do include certain items like the sale of war bonds and the sale of certain equipment to the County which cannot be repeated, but even so, the revenue from patients alone increased from \$17,255.56 in 1941 to \$86,772.44 in 1948.

That by itself shows the growing demand for the services of the hospital and the increasing necessity for its maintenance and support. The average number of patients using the hospital on any one day in 1941 was 9.6. By 1948 this use of the hospital had grown to 21.4. The total patient days in 1941 were 3,515 in 1941 and 10,225 in 1948 in spite of the fact that the average person stayed in the hospital longer in those days than he does now. The number of babies born in the hospital was 88 in 1941, and 387 in 1948.

Well persons, particularly young people, sometimes have the feeling that they will never have to use the hospital. Such institutions, they are inclined to think, are meant for the weak and sickly. To a certain extent this is true, but we would point out to them that in our country it is considered the duty of the strong to help protect the weak. We also point out that during the past year 147 persons were admitted to the hospital as the result of accidents. And an accident is something which can happen to anyone. When it does, the nearness of the hospital and the use of its facilities mean the difference between life and death.

But to make this drive a success is going to take the co-operation and help of everyone. A fund like \$25,000 cannot be raised by contacting a few merchants on First Street or by passing the hat around for nickles and dimes. Every working man and woman should carefully examine his income in the light of his present day needs and his condition in 1941 and determine the most he can give to assure himself and his family this sorely needed protection against accidents and diseases.

**Think First!**

"...They always talk who never think."

—Matthew Prior (1664-1721)

Rare indeed is the person who never has committed the folly of talking before thinking. As a young reporter, I remember an old editor who used to tell me never to be ashamed to confess ignorance—never to try to cover up lack of knowledge by glib patter.

This wise man used to recall how he had learned the lesson the hard way. Once (as he told it) while crossing the Atlantic, he was approached by a fellow passenger.

"I just wanted to tell you," the man said, and it was obvious he was speaking with considerable emotion, "how deeply I appreciated your message."

Now, the editor could not recall the occasion for any message; in fact, he could not even place the man who seemed so grateful. But, rather than admit he was at a loss, he said rather grandly:

"Oh, that's all right. I was glad of the opportunity to send it."

Naturally, he was puzzled when the other man turned absolutely white and left abruptly without another word.

"On making discrete inquiries," the editor confessed, "I learned that I knew the man, indeed, and that the message I had been so glad to send him had been one of condolence on the recent death of his wife!"

How many of us have been similarly shamed by stupid errors of the tongue! How many potential friends have we alienated by tactless, hair-trigger references to death, divorce, physical peculiarities or other delicate subjects, spoken without thought in the presence of others to whose backs grounds we were strangers. How easy to avoid all this by thinking first, talking later! After all, even the clowns have a better reputation than the magpie.—by Sidney Shafrazi

**YOU'RE TELLING ME!**

By WILLIAM DITT  
Central Press Writer

WHILE the rest of the country was sweltering under an unreasonable heat wave, Wyoming experienced snow, sleet and rain storms. High price to pay just to be different.

The eyes of a crested glow-stick adolescence seem wonderful for reading in bed.

A blizzard says many citizens are really fed up. A bad temper, too, is never far off his mind.

British sportsmen, however, are now putting out sets of shorts the size of which

**THE WORLD TODAY**

By DEWITT MACKENZIE

The Moscow radio—which course speaks with the voice of the Kremlin—broadcasts that collaboration between the American and the Russian economic systems is both possible and desirable.

That's a highly important statement, whether you regard it with suspicion or with hope. It's particularly interesting, coming as it does almost on the eve of the big Four conference set for May 23.

We see no quarrel with the thesis that American and Russian economic systems might collaborate despite the ideological clash between the two nations.

Communistic and democratic nations have similar economic needs. They must be fed, clothed and housed, and life otherwise must be made worth while. Surely they should be able to engage in economic operations to meet these requirements.

This fact in no way conflicts with the truth that democracy and Communism cannot mix ideologically. They are oil and water.

However, when we say that these two differing economic systems might collaborate we must add a proviso. Such collaboration calls for a spirit of amity. And it calls for non-interference in each other's internal affairs.

This touches a difficulty which frequently has put a strain on Russo-American relations ever since the establishment of the Soviet government. Washington refused to recognize the Russian state until 1933 because of Moscow's persistent efforts to spread Communism in the United States by means of Red agents.

Britain, which recognized the Soviet in 1922, encountered similar Communist activities and made frequent raids on the Russian trade company's headquarters in London. Finally London broke off relations in 1927 and didn't resume them again until 1939.

When President Franklin D. Roosevelt recognized the Soviet Union it was with the specific understanding that all Russian communists propagandists should leave America. Nevertheless, activists of the Comintern (general staff for world revolution) continued to cause as much heat in foreign countries that in 1943 Russia "abolished" that body, as a gesture towards her allies.

Canada has uncovered her big spy ring with ramifications reaching into the United States and Britain, and convicted a number of agents. The United States has had a constant procession of investigations and prosecutions involving foreign agents. Some of the testimony brought out is enough to curl your hair.

Well now, it doesn't take much imagination to see that these harrrowing conditions would have to be arranged before there could be heavy collaboration, economic or otherwise, between Russia and America.

Mind you, we are talking about foreign propagandists and foreign agents whose bushels it would be silly to think that any great country wouldn't have secret agents producing about abroad to see what they could find. All the powers have such agents, but their business is to gather information and not to create revolutions or spread propaganda.

If Russia and the United States could in some way iron out this question of interference (and Russia claims to have her own grievances), then it might be possible to implement the Moscow radio's suggestion that economic collaboration is both possible and desirable.

**State Advertising Commission Makes 'Ringling' Movie**

SARASOTA, May 13—(FSN)—The Florida State Advertising Commission is making a motion picture of the Ringling Museums. Representatives of the Florida State News and Photo Service, official publicity bureau for the Commission, have been at the museum working on the project.

The move is the first of a proposed series being made by the state to help tell the story of Florida. Distribution will be national as well as statewide. In color, the movie will be released through the educational system to the schools; in black-and-white, it will be shown far and wide through television.

Emphasis is placed on the manner in which museums facilities are made use of by the educational institutions of the state. There will be shots of children being conducted through the galleries and court of the John and Mable Ringling Museum of Art, and of Florida State University students taking part in the art seminar which is an annual event.

The project has been organized by Horace Badler, director of the Florida News and Photo Service. He is being assisted by Guy Livingston, Morris Monte de Oca, and Edward Lippman, Lippman is the photographer who scooped the world with his picture of a B-52 crashing into the 79th floor of the Empire State Building in New York in 1945.

According to the Twentieth Century Fund, large corporations usually make profits at a lower rate than small ones but they also lose money at a lower rate.

Niniveh, capital of the Assyrian empire, was destroyed in 616 B.C.

**FAMILIAR DETOUR****Death Came Instead Of Spring 4 Years Ago On Sugar Loaf Hill**

By BIRM PRICE

ATLANTA, May 13—(UPI)—Everything is green now and that's what makes remembering hard.

There were trees on the Sugar Loaf, but they weren't green. They were the dead wood from which crucifixes are made.

You see, spring did not come to the Sugar Loaf four years ago today and a half a world away.

It was the key to the whole defense system of Southern Okinawa. It was the last great battle of World War II, a decisive battle that turned a flank and won an island. You may remember the Navy's biggest shells and the Air Forces' biggest bombs. Nobody knew that, though, on May 12, 1945, a bright, sunny day after weeks of dredding rains, the Sugar Loaf just looked like another hill.

The battle was a hand-to-hand affair where grenades were rolled, not thrown; where men strangled each other to death in muddy holes.

It was a battle where men fought at 20 paces or less with flames, knives, pistols, rifles and even rocks.

Some men died on the road to Sugar Loaf at places called Half-moon and Horsehoe hills.

The Sugar Loaf was just a grayish-brown lump of earth garnished by gnarled trees. It was supported on two banks by the other hills and dominated by the guns of Shuri Castle.

The Japanese now call the Japanese defense of the Sugar Loaf a "classic in static defense." In a

way the Sugar Loaf was doing for Okinawa what the Maginot Line was for France.

The Sugar Loaf was making war a battle of attrition.

But no war of attrition reckons with men like Corp. Donald "Rusty" Golar.

Rusty arrived at the top of the Loaf in one piece. He had half a dozen companions in similar condition. The others were sprawled on the face of the slope, dead or wounded.

For nearly a whole day Rusty was a one-man war. He fought with a light machine gun, a pistol, grenades, an automatic rifle and carbine. When he had exhausted all his means of battle, Rusty threw a couple of rocks at the Japanese, picked up a wounded comrade and started for the rear.

Rusty got him there. Carefully he placed the wounded man on the ground, sat down and died.

By the time it was over the Japanese counted 3,662 dead and wounded spent taking a beat-up town.

After it was over men sat in the mud and cried. Some prayed. Some just sat, stunned by weariness.

Heroes were counted by the dozens. One was Corp. Walter G. Parker, who gathered four enemy

**Owen Roberts To Deliver Address To Stetson Grads**

DELAND, May 13—Owen J. Roberts, former associate justice of the United States Supreme Court, will deliver the commencement address June 6 at John B. Stetson University, President J. Ollie Edmunds announced today.

The exercises will be held at 7:30 A.M. in Forest of Arden, a large wooded area on the campus in DeLand. The largest class in the history of the University, estimated at 180, will receive degrees of bachelor of arts, bachelor of science, bachelor of law and master of arts. The degrees will be presented by President Edmunds.

The appearance of Justice Roberts marks the beginning of a year-long Golden Jubilee observance for the Stetson College of Law, the oldest law school in Florida. Many other leading figures of the nation's bar will participate in the Jubilee.

Justice Roberts has been close to the university picture since he was graduated summa cum laude from the University of Pennsylvania law school in 1898. He taught for several years after his graduation and in 1948 returned to the University of Pennsylvania to lecture in a refresher law course for young lawyers returning from the military services. In the fall of 1948, in an emergency, Justice Roberts filled the vacancy in the DeLand, and since that time has been spending the greater part of every day handling the administrative matters of the law school.

**Potter Returns**

**Social Calendar****FRIDAY**

The Gleaner's Class of the First Presbyterian Church will have a covered dish supper at the home of Mrs. J. O. Andes, 608 West Twentieth Street, at 7:00 P. M. All members are urged to attend.

The American Home Department of the Sanford Woman's Club will hold a club social at 8:00 P. M. as its last meeting of the year.

**Local Golfers To Go To State Tourney**

Members of the Sanford Woman's Golf Association who plan to leave over the weekend for Ponte Vedra to participate in the State Woman's Golf Association tournament, May 17-21, are Mrs. Andrew Carraway, Mrs. Cecile Joseph, Mrs. John Ivey and Mrs. E. B. Smith who will stay at the Inlet, also Mrs. Bart Biggin-Betham, Mrs. Ellen Stiles and Miss Dorothy Powell who will be guests of Mrs. E. M. Clark of Jacksonville Beach. For the tournament last year Miss Powell was awarded a consolation prize in the second flight.

The local group met yesterday for a luncheon at the Seminole Country Club where decorations were of pink ribbons and greenery. During the luncheon the new president, Mrs. Price Beard, was presented with a gavel by the outgoing president, Miss Powell. She thanked all officers and committee for the work during the past season.

Plans were made for the annual party with husbands and friends as guests which will be held May 22. Mrs. Harry Woodruff will serve as chairman of the entertainment committee and Mrs. W. G. Flauding will direct the program. Announcement was made of a two-ball foursome scheduled for May 22. All members desiring to participate are asked to contact Mrs. E. B. Smith.

Winners in the tournament which followed the luncheon were Mrs. E. B. Smith, Class A; Mrs. W. R. Williams, Class B; and Mrs. A. D. Marah, Class C. The putting contest was won by Mrs. Price Beard.

Those attending the luncheon were Mrs. Carraway, Mrs. Joseph, Miss Powell, Mrs. Harold Knutson, Miss Helen Cabas, Mrs. Harry Cooke, Mrs. George Thurston, Mrs. Woodruff, Mrs. Camilla Bruce, Mrs. J. W. Altman, Mrs. Bruce Laney of Orlando, Mrs. C. E. Ginn, Mrs. Robert Reely, Mrs. Hugh Whetzel, Mrs. Heard, Mrs. E. C. Mayman, Mrs. Ivey, Mrs. Paul Campbell, Mrs. March, Miss Maude Wilson, Mrs. Hal Gruber and Mrs. Fleming.

Mold flavored gelatin in an orange juice mixture, when set, can be cut into cubes; served the cubes in a salad on a bed of shredded lettuce with sour cream dressing. Garnish the top of the frosted cake with shavings of sweet chocolate.

To make a Nesselrode frosting for a white cake add a little rum flavoring, some chopped drained maraschino cherries, and a few chopped marrows to a boiled frosting. Sprinkle the top of the frosted cake with shavings of sweet chocolate.

For a white cake add a little rum flavoring, some chopped drained maraschino cherries, and a few chopped marrows to a boiled frosting. Sprinkle the top of the frosted cake with shavings of sweet chocolate.

## Arkansas Doctor Urges Free And Untrammeled Medical Profession

TOPEKA, Kansas, May 13.—(Special)—An urgent plea for continuation of "a free and untrammeled medical profession" in the United States was made here last night by Dr. R. B. Robins, member of the House of Delegates of the American Medical Association and Democratic National Committeeman for Arkansas.

Dr. Robins branded President Truman's plan for Compulsory Health Insurance as a "bureau-thrift scheme that would throttle medical progress in our country and convert our doctors from free practitioners into Government paymasters."

Addressing the Kansas Chapter of the American Academy of General Practice, Dr. Robins warned that "socialized medicine"—as he defined the Truman plan—would wreck the Voluntary Health-protection program, embracing 60,000,000 Americans.

He singled out United States Senator James E. Murray of Montana as one of the "drum-beaters for political medicine" who are attempting to "deplete us with false and misleading arguments."

"Typical of the desperate efforts in behalf of this socialist scheme is Senator Murray's statement in a recent radio broadcast that Voluntary Health Insurance Plans 'cost too much and give too little,'" Dr. Robins said. "In his blind allegiance to the political medicine doctrine, Senator Murray apparently has lost his eyes to the established fact that the cost of Voluntary Health protection to an individual or family is far less than the tax required for Federal Compulsory Health Insurance."

"Under our Voluntary System—the free, American way—our people are the healthiest in the world, and the United States leads all Nations in medical advances.

"Americans today may buy a health insurance policy for the price of a pack of cigarettes a day. Yet Senator Murray and his cohorts would foist on them a politically-controlled system imposing heavy taxes on all wage earners regardless of their need of medical care. If our citizens cannot afford Voluntary Health Insurance at very modest costs, surely they cannot afford political medicine with all its extravagant administrative and red-tape expense."

"Both doctors and patients would be down by COMPREHENSIVE into a regimented distribution of medical care if President Truman and Senator Murray have their way. And the experience of other countries has proved socialist medicine leads to inferior medical care and a decline in National health. Compulsory Health Insurance is a threat to health and a threat to freedom."

### Legislature Action

(Continued from Page One.)

Meanwhile, an increased budget for Florida A. and M. College for Negroes was urged to counter the move of six negroes who want to enter the University of Florida.

The Senate and House Appropriations committees were told by the Cabinet Board of Education the requested \$2,763,000 budget for Florida A. and M. would meet 90 percent of the education needs of Florida's negroes.

Secretary of State R. A. Gray and members of the Board of Control said increased budget for Florida A. and M. would not completely solve the problem of letting negroes attend white state schools but it would help.

Action on the Senate-passed citrus bill which would alter almost of the state's citrus regulations was delayed when Speaker Murray referred the measure to the House Citrus Committee for study.

The loyalty oath law says any person on any state, county or city payroll who fails to sign an oath will be discharged.

Should any person signing the oath later join or support the Continental Party, he will be discharged immediately.

The new law also provides that a candidate for office who refuses to sign such an oath will be considered as not having qualified.

Statements made in the oath which are proved to be false will make a person subject to prosecution for perjury.

The law touches everyone being paid by public funds from the Governor on down. Teachers and even members of school districts will have to sign such oaths.

The bill originally was introduced by Senator Mathews of Jacksonville but was altered to strike out provisions making it illegal to support principles or programs of the Communist Party. New bills continued to come in.

Rep. Collins of Sarasota offered to permit trustees of the International Improvement Fund to provide \$1,000,000 to supplement federal flood and drought control expenditures in Florida.

A bill to allow county commissioners to forbid fishing from dangerous bridges in the interest of traffic safety was introduced by Rep. Saunders of St. Lucie.

Rep. Luckie of Duval suggested defining peddling of merchandise over highway rights of way as an obstruction and therefore against the law.

It would be unlawful to deposit sewage wastes in rivers or streams without necessary permission by the Department of Health.

The bill, introduced by Rep. Mathews of Jacksonville, would require the state to furnish the money for dredging and maintenance of the waterways.

### Chinese War

(Continued from Page One.)

Another developed to the north-west around the village of Linlang, a stone's throw from the south bank of the Yangtze and just north of the Shanghai-Nanking railroad. Red lines there appear to be about 20 miles from Shanghai and somewhat less from Wusong.

Wusong is where the narrow Whampoa river pours its gritty flood into the Yangtze and where ships from Shanghai pass through a narrow channel to the Yangtze and sea. It is about eight miles north of Shanghai. Wusong is the city's main artery. It could not live long if it were cut.

Liangzhou has now cut Shanghai's air link. There are three other airfields but they are even more exposed than Liangzhou.

The Shanghai garrison commando body said the Reds have struck on the northwest with their divisions. The Nationalists were reported holding their own in some places and falling back in others.

The area has a depth defense and if resistance is resisted it might take the Communists a long time to come through.

The drive from the southern seems to be less spread out. It is concentrated in a single spearhead along the railroad to Liangzhou. From that direction the rail road command, everything the Whampoa river and all important entrants to Shanghai.

Both to the northward and southward of Liangzhou is hot rice paddies. Bridges across all small streams have been destroyed or are heavily guarded.

All Communist attacks, according to the communiques, have been under the cover of artillery. The Communists used an estimated 20 artillery pieces in the fighting in the northeast this morning.

A communiqué adds, "3,000 Red troops with over 100 horses and mules fell easy prey to the Chinese as a precautionary move against guerrilla operations in that area. Several guerrillas have been arrested in the Peking area."

The source, who declined use of his name, said Ford has informed the CM-United Auto Workers of its stand.

The union previously had asked Ford to open the 1949 talks not later than Monday, 60 days prior to expiration of the present pact.

The big automobile company has been shelled out as the UAW's first target in a drive for \$100 a month pension and health and welfare plans, along with a wage boost.

### Coal Negotiations

(Continued from Page One.)

Moody pointed out that date was less than four weeks before the date of contract expired. He suggested more time might be needed to agree on a new contract. Davis then agreed to the earlier date.

And in South Bend, Ind., pickets stopped an attempt by the Packard Motor Company to repossess seven broken cars and an inflation auto parts from the strike-bound Hendrix Aviation plant.

Sheriff Stephen C. Hipsak and two deputies read to the 60 pickets in front of the Hendrix gates a circuit court order allowing Packard to remove its equipment from the Hendrix plant.

The pickets replied that they would refuse to move. Six semitrailers started to move into the plant through the pickets. The sheriff said the pickets shouted: "We'll wreck your trucks," and the first driver stopped. He said he could go no farther and the attempt was called off by the sheriff.

About 7,000 GM-IOI Auto workers have been on strike at the Hendrix plant since April 29. Other major auto makers have removed their brake discs from the plant under court orders without difficulty.

Monroeville, Ind.—In Detroit an authority source said the Ford Motor Co. "flatly refused" to open 1949 labor contract talks with its workers' end their strike.

The source, who declined use of his name, said Ford has informed the CM-United Auto Workers of its stand.

The union previously had asked Ford to open the 1949 talks not later than Monday, 60 days prior to expiration of the present pact.

The big automobile company has been shelled out as the UAW's first target in a drive for \$100 a month pension and health and welfare plans, along with a wage boost.

### America's Business

(Continued from Page One.)

It is undisputed tolling in a kitchen designed for a shorter one. Home appliance makers are now considering her plight, the design firm is turning out kitchen sinks, stoves and counters bases that can be adjusted to the height of the woman using them.

Other things that designers think contrary women now wants include more color in the kitchen, but colorful plastic fittings for desks, dining room lighting that makes both the food and her complexion look better, a combination of pink, yellow and white light is said to do the trick; house trailers with all the modern kitchen gadgets, even if it leaves less space for people in the living room part.

The designer is now having a field day. The buyers' market means that companies are fighting hard to furnish what they think the customer wants or thinks she wants.

Maybe someone will build flexible furniture that can be moved around corners.

One New York store reports selling an eight-foot sofa to a family who found it couldn't be squeezed into their elevator. The sofa was cut in two, reassembled in the apartment, and after a month's wait for fabric was reupholstered. The family says it looks fine, but it cost more than they had planned.

### Truck Explosions

(Continued from Page One.)

Tunnel. Carbon disulfide is a poisonous substance that can be used as a solvent for rubber or as an insecticide.

Farmers wearing gas masks and New York Fire Authority fire-fighting crews attacked the blaring truck with the most distinguishing chemicals. Their efforts were hampered at first by the fact that very large amounts of smoke were emitted and when the smoke occurred.

When a former interior minister, Giuseppe Giolani, offered \$100,000 lire for his head in 1948, Giolani offered \$50,000 for Roberto's.

Giolani recently challenged the government to send him or its representatives to deal with him, one at a time.

The town of Monroe, N. D., was renamed by a Frankman, Mr. Frankman, who named the town after his wife.

### Berlin Blockade

(Continued from Page One.)

The Soviets had incurred Western wrath yesterday by refusing to allow trucks from West Berlin to travel to the Western occupation zones without obtaining permits from the Soviet military or the Russian-backed German economic commission. West Berlin and West Germany are separated by 100 miles of Russian-controlled territory, the geographical fact which made the blockade possible.

However, early today West Berlin police quoted the officer commanding the Russians' highway checkpoint outside Berlin as saying such trucks now need only an order from the West Berlin government.

There was no official announcement of the change, and the proof of it will lie in what happens when there is an actual test.

Yesterday there was some whining interpretation of the rule. Numerous empty trucks were forbidden to proceed from West Berlin to West Germany for lack of a Russian permit, but a truck load of radio sets was allowed to pass without the permit. Even east German police said they were confused.

Meanwhile, fresh food shipments from the Western zone were pouring into West Berlin without interference by the Russians. Trucks loaded with produce were coming through at 10 and 15 minute intervals, and rail shipments of food and coal were moving smoothly. The Russian-controlled Berlin railroad said more than 140,000 tons of foodstuffs and other supplies were moving toward Berlin from Soviet zone in barges.

Johnson said in an announcement that he has received Army and Navy proposals along the same line but has asked for "clarifying information" before making any decision on them.

Officials said that under the new Air Force policy negroes will be assigned on the basis of individual capacity. Some separate negro units will continue in existence.

### Air Force Orders Segregation End

(Continued from Page One.)

WASHINGTON, May 13—(AP)—Negro personnel will be distributed throughout the Air Force instead of serving in special units under a new policy approved by Secretary of Defense Johnson.

The Air Force plan—intended to carry out Johnson's Apr. 9 directive to end racial discrimination in the armed forces—was okayed yesterday.

Johnson said in an announcement that he has received Army and Navy proposals along the same line but has asked for "clarifying information" before making any decision on them.

Officials said that under the new Air Force policy negroes will be assigned on the basis of individual capacity. Some separate negro units will continue in existence.

**Mrs. Cassube Hostess Mrs. Beck Hostess To Christian Circle For Chase Meeting**

The Golden Rule Circle of the First Christian Church met on the monthly meeting of the Women's Bible Class of the First Cassube Baptist Church held at her home, 2920 Laurel Avenue, on Tuesday evening. Hostesses with Mrs. Beck as president, Mrs. J. L. Jackson, were Mrs. J. W. Young and Ouida Wilson. Mrs. W. C. Bumley, Mrs. J. R. Fariss talked on stage.

Refreshments were served to the room, decorated by the hostesses, and other spring flowers.

Reverend Mrs. C. A. Anderson directed the refreshments.

Delicious refreshments consisting of ice cream, cake and salted nuts were served by the hostesses.

Dick Powell and June Allyson may join the Mrs. and Mrs. team on the screen.

Powell wasn't able to obtain his wife's services for his own film, "Mrs. Mike." But his repertory film, "Meet the People," has been script-hunting.

In Unity There Is Strength—  
To Protect the Peace of the World;  
To Promote the Progress of America;  
To Produce Prosperity for Sanford.

## Lawmaker Hits Warren's Tax Plan 'Dinner'

Pooser Says He Feels Many Laws concocted by Bunch Of Drunks In A Huddle

TALLAHASSEE, May 16—(AP)—Rep. Brantley Odham and M. B. Smith today introduced HB1002, authorizing the Longwood town council to act as a tax adjustment board; also HB-1007 authorizing conveyance of County property to the Battle Harrison Chapter of the D.A.R.

TALLAHASSEE, May 16—(AP)—The Senate, by a voice vote, today adopted a conference report recommending approval of the House version of the cattle toning bill. No comment was made on the report and there were only a few scattered "no's" voted in the voting. Meanwhile the House voted 80-0 for a bill that would prohibit selling Florida beef that isn't stamped "Produced in Florida" or "Florida Beef."

TALLAHASSEE, May 16—(AP)—Governor Warren's private dinner with a little group of legislators to seek financial problem solution drew fire today from an unnamed lawmaker and was defended by one who'll be there.

Rep. Pooser of Jackson said he noticed the governor has "invited two or three big shots over to the White House to sit tea with him. It may be tea. It probably will be colored tea anyway."

He said, "I may not be a leader in this Legislature, but I'm not a sheep."

"If the Governor wants to know how I'm going to vote on anything, he'll have to go in a huddle with me personally."

Rep. Simpson of Jefferson, who said he had been invited to be meeting tonight at chairman of the Housing Finance Committee, repelled the conference in an effort to "set a starting point" for solving the state's revenue dilemma. "It's hard to get a starting point with a great number of people present," Simpson said. He added that whatever plan is agreed upon

Higgins Explains Meeting Of Flood Control Committee

Placing of a one mill ceiling on ad valorem taxes levied for flood control project maintenance instead of unlimited levy of millage based on benefits that individual property owners would receive, was recommended by the Florida Flood Control Committee at Okachobee Saturday. Edward Higgins, who attended the meeting with County Commissioners W. G. Kilker, reported today.

Objection was made, he pointed out, to House Bill 407 which provides for maintenance costs to be assessed on the basis of benefits received without limitation.

Bermude County, he stated, would not pay any maintenance unless it received protection from flood or until the project had been completed by the Federal government.

Formation of a water conserva-

tion and control district by 17 counties including Seminole, Brevard, Orange, Volusia and Lake counties was approved by the committee.

Each county would levy a \$10 mill tax to pay for organization costs in forming the district and this tax would be paid just one year, said Mr. Higgins.

He analyzed this to mean that Seminole County would pay approximately \$5,000 at one time to belong to the drainage district and would pay no more taxes until

Commission To Study Recreation Plans

The City Commission at its meeting tonight at 8:00 o'clock will consider the possibility of a recreation program for youth. Interested citizens are advised to be present.

Other actions will include decision on paving of the Southwest Road in Goldsboro and other business carried over from the last meeting.

TEXAS TORNADO  
AMARILLO, Tex., May 16—(AP)—A skipping, whipping tornado chewed up a four-square mile area in southern Amarillo last night, killing four people. About 60 were injured.

It was the first destructive tornado in the 40-year history of this panhandle capital of 100,000 people. Seven found dead. One man and woman workers still plowing their way through a series of shambles.

FLOOD PROGRAM

WASHINGTON, May 16—(AP)—The chief of Army Engineers said today that on paper the national flood control program now includes nearly 1,000 projects with an estimated cost of \$7,300,000,000.

An unidentified man reported

the fire. Chief Cleveland declared

The losses are covered by fire insurance.

## Postal Employees Aid Hospital Drive

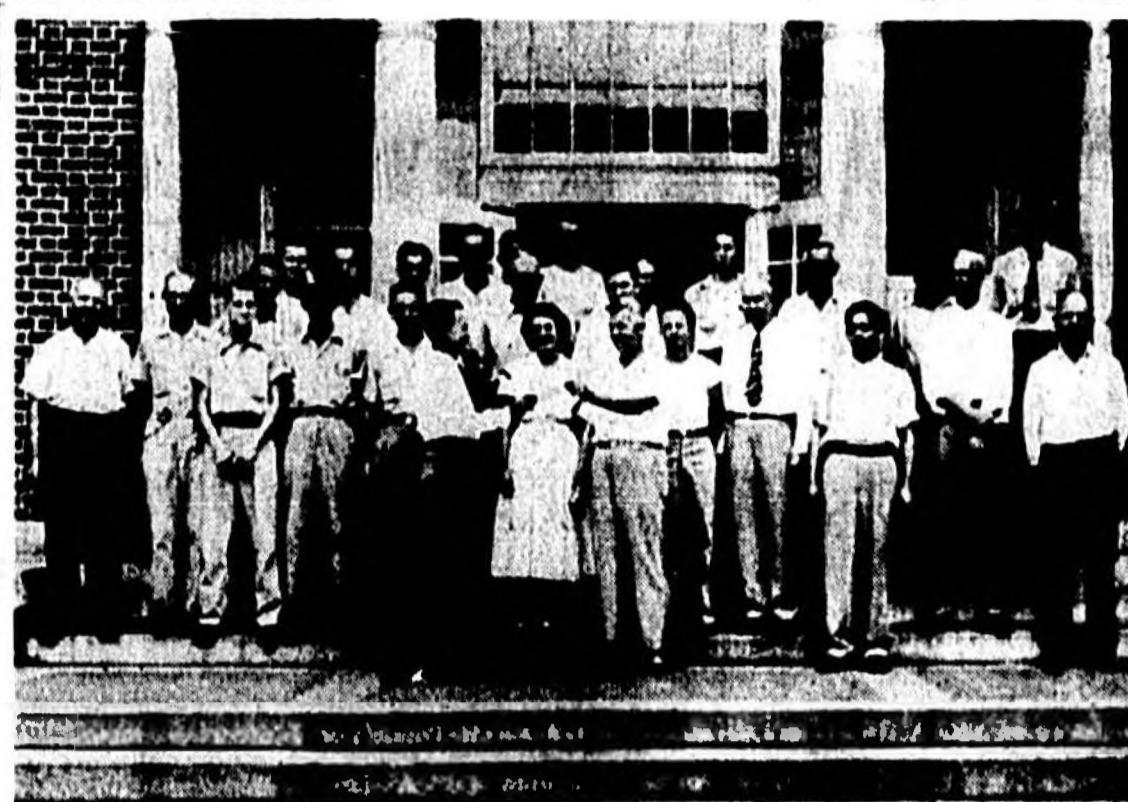

Photo By Cox  
Mahon Wright, oldest of Sanford Post Office employees both in age and point of service, presents money under No. 1, the \$100,000 money order issued by this Post Office to Big Island Memorial Hospital while Cecile Joseph, clerk, looks on. Another \$100,000 money order since the post office was founded was issued. Oscar Harrison, director of the financial department. Also shown, left to right in the picture are H. K. Hardison, Myron Smith, Edward T. Hunt, Fred George, John A. Bewley, Luther David, Harold V. Appleby, James Leonard, Henry Longwell, Herbert Marchand, Dick McLaughlin, Charles Shaffer, Harold Herbst, John Cranston, Clayton Smith, C. E. Proctor, Jr., William E. Evans, Joel Field, Postmaster, E. A. Covington, Clyde Perry, Oscar Harrison, A. C. Madden, Sealy Walden, and Lincoln J. Patterson.

## British Court Refuses Bail To Gerhart Eisler

WASHINGTON, May 16—(AP)—The railroad indicated today that the new freight rate increase they are now seeking will be the last to be asked for the postwar period.

Attorney Jacob Aronson told the Interstate Commerce Commission that although operating costs have continued to go up since the increase was asked last October, the railroads

now rates at this time will not ask for rates higher than those sought in their petition."

Aronson, vice president and general counsel for the New York Central system, is acting as chief counsel for the railroads in the proceeding.

His statement was made at the opening of final argument before the commission this morning. Apparently it was intended as an answer to current talk that the railroads might ask still higher freight rates as a result of wage increases unions have secured during the last few months.

Aronson asserted that "in spite of developments since last October, that the railroads propose to make most intensive effort to get by and hope that they shall succeed."

In October, the railroads asked a 13 percent rate increase.

Noting that the commission had authorized an increase of four to six per cent on a temporary "emergency" basis in December, Aronson calculated that a further hike of about 6½ per cent above charges now in effect would be equal to the 13 percent increase

## Motors Inn Is Damaged By 2nd Fire In 3 Weeks

The Seminole High School Glee Club under the direction of Miss Ollie Regas Whittle presented a program of music at the Rotary luncheon today which was characterized by President George Stine as the most outstanding program of the year.

Mrs. Whittle, who was introduced by Rolland Dean as former instructor in music at Leon County high school in Tallahassee, one of the best music teachers in the state, presented Arnold Harrington Glee Club president, and conducted the singing.

Mr. Harrington presented the program which consisted of "Rolling Down the Jordan" and "The Cliff Song" by the Boys' Club; "Off Their Eyes," and "The Day Is Over" by "The Girls" Glee Club; and "The Holy Religion," and "Russian Picnic," by the combined clubs.

J. D. Pick served as accompanist for the girls, and Miss Carolyn Pritchard for the girls.

President Stine announced that a Ladies Night barbecue will be held at the Elks Club on June 10. Visiting Rotarians were introduced by Dr. C. L. Persons A. R. Young of West Virginia was introduced by Dr. O. L. Persons as a visiting Rotarian.

PARSON FOUND

MANILA, May 16—(AP)—The Rev. Curran L. Spottswood, Jr., of Mobile, Ala., a flying parson reported missing in northern Luzon, was heard from today.

He wrote the head of the Methodist mission, Dr. Ernest Tucker of Colorado Springs, Colo., that he was attempting to take off in his small plane on May 8 when he was clipped off by a log.

## Court Blasts Illinois Free Speech Ruling

### Rights Exist Even When Utterances Stir People Into Anger And Unrest

WASHINGTON, May 16—(AP)—The Supreme Court split 4 to 1 today in declaring the right of free speech exists when no utterances stir people to anger and unrest.

The majority opinion prompted a dissent by Justice Jackson that if this court does not temper its doctrinaire logic with a little practical wisdom it will convert the constitutional Bill of Rights into a suicide pact."

In the Douglas decision today's minority decision, Chief Justice Stone wrote a dissenting opinion in the case involving a speech delivered in a church. Justice Jackson and Burton concurred in Jackson's opinion in which he tended to move to violence against the angry mob outside.
