

Sanford Club Downed By St. Augustine

Mote And Davis Hook Up In Pitchers' Duel Which Ends In 1 To 0 Win For Saints

Lookouts And Saints Unable To Secure But Four Hits Each Off Opposing Pitchers

The Sanford Lookouts were defeated by the St. Augustine Saints yesterday by the score of 1 to 0 at the Sanford Municipal Athletic Field.

A crowd of about 200 people saw a tough contest for the lookouts. Mote was on the mound for the Lookouts and allowed but four hits during the eight innings he was on the mound. Mote was in trouble only once, that being in the first inning when the Saints obtained their only and winning run of 1 in a game. Brainard relieved Mote in the eighth and set the Saints down in one, two, three order. Davis, on the mound for the Saints, held the lookouts to two hits until the sixth when the Lookouts obtained two hits and started a rally but failed to score. The Saints scored the only run of the game in the first half of the first inning. With one out, Fitzgerald singled to left and advanced to second on Chlado's single to center. Gonzalez hit a grounder down to third and an attempted double play ended with all men safe. Mote then walked Spradell forcing Fitzgerald across the plate. A quick double play ended the inning.

The lookouts were retired in one, two, three order the first two innings. In the third, Rodgers singled to right and stole second base. Haggerty went out pitcher to first. Davis struck out Mote and Clary to end the inning.

After the first inning, Mote allowed no Saints to get to second base and only four to get to first.

The lookouts put men on base in the seventh, eighth, and ninth but were unable to score. In the ninth, Langston singled to right to open the inning. Martin hit a grounder to short, who threw to third. Langston attempted to go to third but was thrown out. Holcomb fled out to left field. Prichard hit a grounder to short, who threw to first. Kasso fled out to right to end the inning.

The Lookouts journey to St. Augustine to even up with the Saints this afternoon.

Double Bill To Be Played Tomorrow

The Sanford Lookouts and the Daytona Beach Islanders will play a double bill here Tuesday. The first game will make up the game rained out July 15 and will start at 3:00 o'clock. The second game will be played at 8:15 o'clock that night.

No-Hit Game Turned In By Syracuse Star

SYRACUSE, N. Y., July 26. — (AP)—Lloyd (Whitley) Moore, right-hand pitcher fanned out by the Cincinnati Reds, joined the International League hall of fame last night by pitching a no-hit, no-run game to give the Syracuse Chiefs a 1 to 0 victory over the Jersey City Giants.

The 23-year-old six-footer, a strikeout star for the El Dorado team of the Cotton States League last year, bested Ben Cantwell, ex-Boston Bees' pitcher, in a tight flinging duel to earn the decision in the nightcap of a double-header after the Giants had won the opener 3-2.

Moore has been with Syracuse since mid-June, when he was sent down for seasoning by the Reds. Last night's was his sixth victory against two defeats since joining the Chiefs. He had fanned 90 batters in 61 innings before last night.

Three men reached first base on walks in last night's game, but all were stranded on the basepaths. Moore fanned four, collected one of the six hits the Chiefs made off Cantwell, and scored the only run of the game, in the eighth inning.

Moore won 20 games for El Dorado last year, and set a new strikeout record for the Cotton States League. Last July 31, he came within one pitch of hurling a no-hitter, when he was tagged for a safety with two-out in the ninth and two strikes on the batter.

Moore also was with Macon in the Sally League last season. Dec. Moore, also a Macon graduate, caught Moore last night.

Boston Bees Lead Majors With Seven Victories And No Defeats During Week

Bees Remarkable Pitching Staff Allows Opponents But 43 Hits In Seven Games

NEW YORK, July 26.—(AP)—The Boston Bees and their remarkable pitching staff were the whole show in the big leagues during the week ended yesterday, despite the heavy hitting of the St. Louis Browns and Washington Senators, and the Chicago Cubs' continued National League pace.

Despite the almost total absence of any heavy batting punch, the Bees won all seven of their games during the week exclusively by the top pitching performances in the big show this year.

In 53 innings, their flingers allowed the skimpy total of 43 hits and 12 runs, about six hits and less than two runs per game. The feat was all the more surprising in that the Bees had only first division clubs, the Cardinals and Pirates.

Second to them in the won-and-lost column in the National League for the week were the Chicago Cubs, whose two-out-of-three from the Giants kept them two games in front of the 1009.

Over in the American League, the top performers, despite the clouding of the Mats and Browns were the Detroit Tigers and Chicago White Sox, each with five victories in seven starts.

No other club in either circuit was able to challenge the Bees' hitting supremacy for the week. Given a new manager in the mid-week, when Rogers Hornsby was deposited in favor of Sunny Jim Bottomley, the

California To Use Large Refrigerators To Preserve Fruit

CHICAGO, July 26.—The largest ice refrigerators in the world, each big enough to hold 850 full grown men, are now being put into service. It was announced today at national ice association headquarters here.

The giant refrigerators are located in the fruit fields of California and will be used to preserve fruit.

The ice refrigerators are now in service, measuring 56 feet wide, 24 feet long, and 16 feet high. The refrigerators are placed near the fruit fields and orchards and the fruit is hurried into them, as soon as it is picked, to be pre-cooled rapidly for shipping in ice freight cars to all parts of the country.

Through the medium of the mammoth ice refrigerators adjoining the fruit orchards, the fruit is allowed to remain on the trees until it matures, thus deriving a maximum in flavor. Heretofore, the heat encountered after picking ripened the fruit so fast that pre-mature picking was essential.

In developing fruit refrigerators, the ice industry made an extensive survey. One of the findings shows that exposure of one day to 70 degrees of heat ages the fruit as much as exposure for eight days at 40 degrees. "This means," Emerson Brandt, technical secretary of the National Ice Association, said, "that all of the value gained by this new shipping procedure may be lost if the housewife does not immediately place the fruit in her own ice refrigerator after purchasing it from the retailer."

China May Build \$4,000,000 Span

HANKOW, China, July 26.—(AP)—Bridge construction work which in China has lagged far behind the building of new highways and railroads, is being pushed. A steel span across the Yangtze River at Hankow is planned.

The bridge will connect the Canton-Hankow and the Peiping-Hankow railways and will cost more than \$4,000,000.

Lightning Renders 25 Persons Unconscious

ALTON, Mo., July 26. (AP)—Twenty-five persons were rendered unconscious yesterday as lightning struck a large tree in front of the Riverfront Country Church near here. Four were injured seriously. Four were injured seriously.

The lightning struck a large tree in front of the church lawn following Sunday School services. Victims were scattered about the grounds by the force of the impact, witnesses reported.

Ten persons required treatment by a physician and one 6-year-old boy is not expected to live.

Savage Riots Bring Terror To Cleveland

Wave Of Vandalism In Co-Incident With Clashes At Gates Of Republic Steel

Sixty Persons Are Sent To Hospital

Newly Painted Houses Not Under Union's Label Are Stained

CLEVELAND, July 27.—(AP)—Four hundred policemen stood guard today in Cleveland's steel strike riot area to bring peace—temporarily at least—after one of the worst nights of violence in the city's history.

Republic Steel Corporation workers clashed with strikers and sympathizers near Republic's Corrigan-McKinney plant where one man was killed yesterday.

Clubs, pick-axes, iron pipes, and other weapons came crashing down upon the heads of workers and pickets alike. The union headquarters was wrecked.

Glass crashed in dozens of motor cars. A wave of vandalism, sporadic for several weeks, swelled over other sections of the city.

Newly painted houses, finished without benefit of union approval, were sprayed with stain. For several hours last night, rioting near the plant sent more than 60 persons to hospitals and doctors to obtain treatment for head wounds and other injuries. The night-time rioting was the third outbreak in 24 hours.

Re-Routing Talk About Canal Seen Intimidation Move

Even discussion of possibly re-routng the St. Johns-Indian proposed canal to traverse Volusia county is "purest bunk," according to Frank Kay Anderson, member of the board of commissioners of the Upper St. Johns River Navigation District. Such discussion, he says, "originates wholly from Jacksonville interests desirous of intimidating the Sanford-Titusville districts in an effort to quiet their outright opposition to the Florida Cross-State Ship Canal."

"It is impossible to feel," said Anderson, "that such widespread publicity was circulated in good faith. The only body legally empowered to take right-of-way titles or otherwise to construct the proposed St. Johns-Indian River canal is our board. That is well known both at Washington and in Florida. Volusia county is outside the territory comprised in the district created by the Legislature and therefore is wholly outside of consideration as a possible route for the canal, even if a logical route across that county could be presented."

A special session of the Legislature would be necessary to alter this situation, he further pointed out, and open of opposition of the Legislature to the proposed Cross-State canal, as evidenced by its rejection of the resolution calling upon the federal government to complete that project in his opinion, indicates that interests promoting the cross-state undertaking would be powerless to change the status of the proposed Sanford-Titusville yards and barge canal.

C. Of C. Meeting Of Directors Put Off

The special meeting of the Board of Directors of the Seminole County Chamber of Commerce, which was originally scheduled for tonight has been postponed until further notice due to incomplete plans on the proposed trailer camp. It was announced today by T. E. Simpson, president.

Civil Engineer Fred T. Williams is working on estimates of the camp and it is expected that they will be completed within a few days.

Gotham Welcomes Scottsboro Boys

A thunderous welcome, in which several persons were trampled underfoot, greeted the freed Scottsboro boys as they arrived in New York with their attorney, Samuel Leibowitz (right). One of the youths, Olen Montgomery, (in overalls and glasses), seems somewhat bewildered by the reception of a happy Harlemite and police pull him through the cheering, mauling throng.

Growers Desire New Body To Run U.S. Citrus Pact

Committee Draws Up Platform Opposing Citrus Commission

WINTER HAVEN, July 27.—(AP)—A platform which proposed that the Florida Citrus commission not administer the federal marketing agreement by becoming the control committee for the citrus industry was adopted by a growers' committee of 11 yesterday.

The group, at its organization meeting, elected Frank T. Laird of Groveland its chairman. A series of meetings was held recently in the citrus belt to select a committee of 11 members.

F. R. Porter of Winter Haven and J. A. Seartlett, DeLand, were named vice chairmen; A. F. Pickett of Lakeland, secretary-treasurer, and Eleanor McClenithan, Leesburg, secretary.

The committee adopted a platform for a marketing agreement and proposing that it be a "continuing agreement, providing with itself means of terminating and amending it."

The proposal that the federal marketing agreement not be administered by personnel of the Florida citrus commission carried over from the previous year.

Exams Will Be Given For Post Office Job

Examinations will be given by the United States Civil Service Commission in the near future for the purpose of filling a vacancy of postmaster at the Geneva Post Office according to an announcement made today by M. L. Wright, local secretary of the Board of Civil Service Examiners.

Only persons of the Geneva Post Office are eligible for examination and persons who wish to take the test may obtain application blanks from the Civil Service Commission in Atlanta, Ga., or Geneva.

Matters To Ask For Reconsideration Of Proposed Polar Hop

KANSAS CITY, July 27.—(AP)—Wearing boots, spurs and a 16-gallon hat in cowboy fashion, Jimmie Maters flew to Chicago last night on route to Washington to ask Commerce Department officials to reconsider his proposed polar flight to Moscow.

Maters said he and Navigator H. E. Jones will wear such regalia if their proposed flight is approved by Federal officials.

Trailer Camp Site Is Chosen By City Heads

Location On Property Between Palmetto And Hood Selected After Discussions

Location of the proposed municipally owned and operated trailer camp will be on the vacant plot overlooking Lake Monroe between Hood and Palmetto Avenues, the Sanford City Commissioners decided at their regular meeting in the City Hall last night.

After considerable discussion among the Commissioners and T. E. Simpson, president of the Seminole County Chamber of Commerce representing the Trailer Camp Committee, it was decided that a temporary camp on the lakeshore site would be a more practical investment for the city than the proposed Belair location.

Plans for the building of the camp are to be secured in the form of loans which the City will repay over a period of years and will be collected from local business interests in a fund drive by the Trailer Camp Committee, composed of business leaders.

Telegram Is Sent Cantwell Praising Him For His Honor

A two-foot telegram of congratulations was sent today to Ben Cantwell, Sanford right-handed pitcher, and star of the major league, who yesterday was bought by the New York Giants. The message, started by Arthur Branan, and signed by L. Murray of the local Western Union office, was signed by many people of the city.

It stated, "Congratulations. We are happy that your brilliant performance has been rewarded and we predict continued success for you. Remember that the old home town is solidly back of you with every possible good wish."

The large number of signatures necessitated the long extension to the original paper.

Early this morning, another message was sent to Mr. Cantwell by the Chamber of Commerce. A telegram sent to Mrs. Cantwell read as follows: "Permit us to share your happiness today and through you express our sincere congratulations to Mr. Cantwell on his more than well deserved advancement."

It was signed, Mrs. A. M. Phillips, president of the Sanford Woman's Club.

U. S. Ambassadors In Far East Seek Peace

WASHINGTON, July 27.—(AP)—Secretary Hull said today the American ambassadors in Tokyo and Peking had been instructed to express hope to the Japanese and Chinese governments that hostilities would be avoided in Japan.

The secretary's statement, made at a press conference in answer to questions was based on the announcement in London last night that the British and French ambassadors in both countries are understood to be making similar observations. Hull explained the action taken by the United States was independent of the action taken by the other countries.

CITY NEWS BRIEFS

The directors of the Sanford Kiwanis Club will hold a meeting at 12:15 o'clock tomorrow at the Valdez Hotel.

H. Darrow and B. J. Nix officiated at the meeting of Boy Scout Troop 14 last night in the Baptist Church Annex.

Members of the Sanford Chess and Checker Club will meet tonight at 7:30 o'clock for their regular weekly meeting, according to the club secretary.

TWENTY INJURED IN CLEVELAND STRIKE CLASH

Twenty persons, two of them policemen, were injured as labor trouble flared anew at a Cleveland, Ohio, plant of Republic Steel Corporation. Police, who clashed with strike sympathizers, said the trouble began when the latter attempted to block a street with railroad ties and automobiles. Above, police are shown restoring order after the fight, by clearing the street.

WPA Project For Lake Shore Park Discussed By City

Confidence Expressed Town May Get U. S. Aid In Enterprise

Possibilities of securing a W.P.A. project for the proposed Lake Shore Park to be located between the Mayfair Hotel and Sanford Avenue, were discussed at the regular bi-monthly meeting of the Sanford City Commissioners last night.

Mayor Edward Higgins told the body about his interview with Rex Wilson, district supervisor of projects, and stated that Mr. Wilson seemed confident that the City might get a project for the proposed park.

In view of this fact the Commissioners authorized City Engineer Fred T. Williams to compile a general budget for the entire park and also for sections of the park under the W.P.A. set-up. The government allocates 45 percent of the cost and the City would be required to furnish 55 percent.

The City Commissioners in their meeting last night also voted to employ Sidney A. Stubbs, local architect, to supervise drilling of four test wells in an effort to locate the Hawthorne stratum of water as a source of a new water supply for the City.

Payment of 12 1/2 cents per coupon for 550 coupons which were detached from bonds that were refunded was approved at the meeting, also the purchase of 20 tons of asphalt for the street paving project on Magnolia Avenue and Second Street at a cost of \$19,950 per ton.

After the regular meeting last night the Commissioners met as a Delinquent Tax Adjustment Board in accordance with an act passed in the last session of the Florida State Legislature, and received all complaints asking for the adjustment of delinquent City taxes.

Senate O. K.'s Bill Limit Train Length

WASHINGTON, July 27.—(AP)—The Senate late yesterday passed and sent to the House a bill by Sen. Jim McCarran (D., Nev.), to limit railroad trains to 70 cars.

The action came after six hours of debate and confused parliamentary maneuvers during which Sen. Royal S. Copeland (D., N. Y.) offered an anti-lynching measure as a rider. Southern senators hurried to the floor from the cloak-rooms ready to filibuster the Copeland amendment if necessary but it was tabled, 41 to 34.

FLOG CHARGE DISMISSED

BARTOW, July 27.—(AP)—The State yesterday dismissed second degree murder charges against Richard C. Tittsworth, former chief of police at Tampa and one of the original defendants in the Florida flogging cases.

Urged For Senate Rankin Accuses Labor Board Of CIO Connections

Political opponents of Gov. Carl E. Bailey of Arkansas, dissatisfied with his selection as Democratic candidate to succeed the late Sen. Joe Robinson, are urging Mrs. Robinson (above), to seek her husband's seat as an independent.

WASHINGTON, July 27.—(AP)—Representative Rankin (D. Miss.) accused the Labor Relations Board yesterday of "conspiring with communistic influences to destroy Southern industries."

He added, in a formal statement, he expects to ask the administration to remove the present members of the board or curtail their activities.

Rankin, co-author of the TVA act and one of the leading proponents of the administration's power policies, was the second member of Congress to criticize the board within the last week.

Senator Nye (R. N. D.), issued a statement last Thursday saying the board "has such a pronounced Communist for Industrial Organization."

Winners Named In Jaycee's Contest

Dave and H. W. Shannon as "The Shannon Boys With Guitar and Fiddle," and Evans McCoy, baritone, were judged winners of an amateur contest sponsored by the Orlando Jaycees as many Sanford performers competed yesterday before the Orlando Junior Chamber of Commerce at their weekly luncheon.

The winners will perform on the stage of the Beacham Theater in Orlando in the near future in competition for a free trip to the Great Lakes Exposition in Cleveland with all expenses paid.

M. L. Baburn, Sanford Jaycee, acted as master of ceremonies and announced the following program: Anne Denison, who gave a reading; the Whiddon Trio, composed of Thelma, Earl, and Donald Whiddon, who presented a song; Doris Jackson, who entertained with a tap dance accompanied at the piano by Mary Beldin; Evans McCoy, who entertained with a vocal selection accompanied at the piano by Mildred Nix; Randall Priest, with a harmonica novelty act; the Shannon Boys, with guitar and fiddle; hillbilly music; and Helen Harker, who rendered a selection on a piano accordion.

It was stated that the winners were chosen not by applause, but by several judges who, after considerable deliberation, made their decision.

The program was presented by Ed Shinkhouse, who made a short talk which described Sanford and Seminole County and the territory's various points of interest.

MONTAGUE ARRAIGNED

LOS ANGELES, July 27.—(AP)—The one-time mystery man of golfing, John Montague, was arraigned in municipal court yesterday on charges he participated in a New York roadhouse robbery seven years ago.

The case was continued until Aug. 9 pending Governor Frank Merriam's action on the signing of extradition papers.

U.S. Marines Preparing To Guard Lives

"Devil Dogs" Getting Ready To Sandbag Fortifications For Gates Of Legation

Foreign Circles Uneasy In Crisis

Japs Give Assurance Foreign Properties Will Be Protected

PEIPING, July 27.—(AP)—United States marines prepared to sandbag fortifications for the gates of the international legation quarter this afternoon after the Japanese ultimatum for evacuation of Chinese troops from the tense region west of Peiping had expired in a tense atmosphere of Japanese military secrecy.

The American contingent was assigned to guard the four gates of the legation quarter against any hostilities that might break out if China failed to comply with Japan's demands.

Foreign circles seemed alarmed over the impending deadline of the second Japanese ultimatum tomorrow noon demanding evacuation of China's 37th Division troops from Peiping itself.

It was rumored that Japanese military leaders had threatened to bomb this ancient capital if China failed to comply, but other reports declared Japan had given foreign powers assurance the city with a heavy international population would be spared such action.

Strictest secrecy also valued the actions of the Chinese military forces and authorities declined to disclose whether the soldiers of the 27th Division had quit the area west of Peiping as Japan demanded. (Unconfirmed reports at Nanking said China had rejected the Japanese demands.)

(Peiping dispatches gave no confirmation of Japanese reports that 800 Chinese had been virtually annihilated by Japanese bombing planes and infantry in a clash 15 miles east of the ancient capital.)

Japanese reports said troops and planes hurried their force against a Chinese regiment when Chinese soldiers refused to disarm.

At Tokyo Japan's premier, Prince Fumimaro Konoye, disclaimed any territorial ambitions in North China but said if China failed to fulfill her promises "decisive measures" would be taken by Japan.

"What Japan wants from China is not territory but co-operation," he told a press session of the Japanese parliament.

IN LAKE STORM

CHICAGO, July 27.—(AP)—The Wilmette Coast Guard yesterday announced receipt of a radio message from the Canadian steamer Harrison reporting seven men adrift on a barge in a gale on Lake Huron.

The message said the Harrison was standing by the barge.

TUESDAY, JULY 27, 1937

SONNET

The clock marks midnight and
 the moon is out,
 The full moon, hanging low among
 the stars;
 The cricket chirps its nocturnal all
 about,
 Intoning silence that it mar,
 How full the night and yet so in-
 complete!

There's something lacking in the
 quietness,
 Something that makes that sad
 which should be sweet
 And dulls the stars and lets the
 moon shine less
 The kiss when youth and youth
 had met at night
 Beneath this same old moon, this
 same old sky
 When quick galvanic lightning
 look to flight
 And passed from lip to lip and
 eye to eye
 Now this is lacking, for the miles
 are long
 Between us, though our love is
 still as strong.

WALTER JULIAN PERIN.

Congressmen seem anxious to
 go and go home, and that's
 nothing to the way their constituents
 feel about it. Now, if we could
 just get them to stay home, every-
 thing would be lovely.

Musell, according to pro-
 reports, has cut down the size of
 his newspaper to six pages
 that will put the editors on the
 spot the next time it does make
 a long-winded speech declaring
 the facts do not want war.

Dayton Beach Sun Record.

If it is true that salt in the
 system will effect the effect from
 the heat in the atmosphere then it
 must be that the salt air here is
 what keeps us from falling victims
 of the heat here in Florida. An-
 other selling point for the Florida
 Southerner—Bowling Green Expo-
 sition.

U. S. Marines are ordered out
 to protect American lives in the
 Philippines and pride swells in
 the chests of all patriotic citizens.
 But suppose some of those marines
 get killed and suppose they kill
 some Japs and this involves the
 United States in a war with Japan
 would our pride be worth all the
 subsequent loss of lives over the
 protection of a few.

The selection of a trailer camp
 site in the downtown area is a
 sensible move. It is improbable
 that tourists would care to do
 much touring around in the out-
 skirts of town trying to find a
 camp, and after they got there,
 they wouldn't be as likely to come
 to town and spend their money as
 if they were already in the midst
 of the city.

Winter Park has been all
 hot and bothered about the find-
 ing of "five large bombs" in a
 conflict by a group of boys scouts.
 The inference was made that the
 bombs were planted there in
 anticipation of labor disorders or
 perhaps a foreign invasion. Now
 the manufacturer of the bombs
 says they were stolen from him
 and were intended for fair and
 exhibitions and that "if one
 went off in a person's hand he
 would lose that member, but I
 don't think it would be powerful
 enough to kill him." What's that
 kid saying about "making a
 mountain out of a mole hill."

Representative Rankin of Min-
 nneapolis charges the National La-
 bor Relations Board of conspir-
 ing with Communists to wreck
 industry in Dixie. Mr. Rankin is
 one of Roosevelt's closest advisers,
 and what he says must neces-
 sarily have weight. He de-
 clares that the board has acted
 in a ruthless manner to aid in
 destroying a cotton mill in Tu-
 scumbago and that he has
 evidence proving that board of-
 ficials boasted they were going
 to close every factory in the
 South. We believe the South is one
 of the most conservative activi-

Delusions

A delusion, according to Webster, is a "misleading of the mind, false belief or misconception," and bearing this definition in mind we move to suggest that there are a great many "delusions" floating around concerning the economic picture of the United States. One delusion widely held is that there are more persons engaged in agriculture than in industry, but according to facts published recently by the United States Chamber of Commerce 15,400,000 persons are engaged in industrial work compared to 10,953,000 for agriculture.

The average person will tell you that "big business" caused the depression so that it could beat down wages and make a lot of dough, but accurate figures reveal that during the four depression years from 1930 to 1934, business paid out 18 billion dollars more than it received. In other words, this huge amount of money was the contribution of business to give people jobs.

It is commonly held that a few big rich people and large corporations get a majority of the national income and that this is why there isn't enough money to make us all well off. Statistics prove that 65 percent of the total national income goes to wages. This doesn't look as though five percent of the people own 95 percent of the wealth, with the inference that 5 percent of the people get 95 percent of the income.

Another interesting angle on the business front is the revelation that eighteen major industries employ over 1,123,000 workers making products that were unknown fifty years ago. This fact might help those who are so worried about the "machine age" being such a menace to mankind to get straightened out on that point. Labor-saving machinery has been the biggest provider of labor that we have. If a person doesn't believe it he should look at China where they don't have machinery, or at any other country where everything is done by hand. If you want to find real unemployment go to those places.

Be On Guard

With John L. Lewis and his CIO running into difficulties in the North, it is not unlikely that they will turn their attention to other sections to conquer, and it is not improbable that they may attempt to enter the Florida citrus field. Rumors of this have already been spread abroad and warnings have been issued to Floridians to be on guard against any encroachment from this labor leader and his nefarious racket.

What it might mean to state citrus is shown by the Miami Herald which says "Once in control, the Lewis faction might be able at a moment's notice to shut off shipping of this perishable crop just when growers could not afford to risk a finish fight."

"As Charles Francis Coe, the noted author, told Orlando Junior Chamber of Commerce members the other day:

"We have been forewarned. Now is the time to act. I plead with you men to serve your country in this critical time. I want my country back again. You want it back. Thugs and racketeers are rapidly taking possession. It is time to act."

"Anyone who has watched the great golden crop of citrus moving to market in the winter and spring will know what a sit-down strike in the groves and packing houses would do. It would make the devastation of the radiators of the mythical Mediterranean fruit fly look like a gentle zephyr stirring the leaves, by comparison. No single thing could strike the financial nerves of this state such a paralyzing blow as Lewis tactics employed to bend the citrus industry to his will.

"Following that would be the organizing and shutting down of hotel and resort services, waiters, baggagemen, maids and servants. A preliminary assault upon Florida already has flared up in West Palm Beach with the unionization of common laborers. What happened there can happen elsewhere.

"Now is the time to take care that the Lewis poison does not kill the spirit of enterprise in Florida, as we have watched it do in the industrial centers of the North. Unless the citizens of Florida make this labor unrat the object of their unwavering watch, Florida is likely to wake up some morning to find the Memorial day massacre being re-enacted in the sun-splashed streets of her fairest cities."

SANFORD TWENTY YEARS AGO

There has been quite a kick about the condition of our city streets. We think they should be sprinkled with water before the sweeper comes along in order to keep down the dust.

Speaking of a clean-up for Sanford, something should be done about the English sparrows. There are entirely too many around and the song birds don't have a chance.

Dr. J. N. Robinson has been the beach where he spent his two weeks vacation. The doctor enjoyed every minute of his stay and is jacked like an Indian.

The Herald office is indebted to J. E. A. Fahl, formerly a globe trotter but now a prosaic German sign painter, is in the city from Tampa.

Word from the Laurel Park Camp where Walter and Hawkins Connolly and Robert Holly are attending school indicates that the boys are not only holding their own in their studies but in baseball and other field sports as well.

All young men who are subject to draft had better drill with the home guards every Tuesday and Friday nights. The man who knows something about military tactics before he goes into the army is the man who will be promoted rapidly.

R. A. Terhoun, of the post-office force is taking his vacation by being sick in bed in

WASHINGTON DAYBOOK

By PRESTON GROVER

WASHINGTON, July 27.—"Dear Alben" the President called this in a letter and pointed, perhaps inadvertently, to Senator Barkley of Kentucky as his choice for majority leader to succeed Joe Robinson.

"Dear Alben" thereafter was elected by a one-vote majority over Senator Harrison of Mississippi to place together the morale of a senate badly shattered by one of the bitterest controversies since the Civil War. It will be a testy job for Barkley, but from this vantage point there appears no one in the senate better able to do it.

That is not to say that Barkley is an ideal leader sent by a Divine Providence to salvage the working parts of the New Deal. He has no doubts. He lacks others. But there is nobody else better.

He is jovial and hearty and physically as tough as a fiddler. Being majority leader requires all that. He has a booming voice, of good timber, with which he can set the ventilating system in the senate vibrating.

He is not a bookish man, and while, like any senator, he must do a certain amount of reading, he gets his information and viewpoints by contact and debate rather than by sustained study. But his associate credit him with his ability at "finding the mosaic" of a crowd mingling in a crowd, a word here, a sentence or gesture there, gives Barkley understanding of its tone. That is an advantage to leadership.

Had he chosen to remain in Pasadena to practice law rather than to

Too Late To Classify

By RUSSELL KAY

A lot of folks have been verily upset for the last week or so about what Governor Fred was gonna do with the Citrus Commission. Some of us who don't care what he was gonna do with every last one of the present members of the board and replace 'em with a set of newly discovered relatives from around Lake City.

Other folks who seem to have a flare for gubernatorial meddling had it all doped out that all the governor was interested in was gettin' his meat-locks on that \$400,000 of advertisin' money so he could turn it over to some friends of one of his relatives down in Miami.

I've had no less than a dozen folks tell me what Fred was gonna do and all of 'em went to great length to explain just how come and why. Well, I just sat back and let 'em rave and carry on, but as far as I was concerned they wasn't foolin' nobody but themselves.

If you ask me, there ain't nobody knows what Mr. Fred Brown Conn. is gonna do on account of Fred not really knowin' himself until he up and does it.

And while a lot of folks may not approve of what he does and can't for the life of them understand why he did it, there is no disputin' the fact that whatever Fred does and regardless of how he does it, the big idea in the back of the Governor's mind is to do RIGHT.

Some folks may snort and kick up their heels at that statement, but that's because their idea of what was right differed with Fred's viewpoint in some particular instance. But if you're inclined to be fair minded and unbiased you'll find that with all his bluntness, plain talk and gruff manner, there's a whole lot of horse-sense, old fashioned honesty and a mighty big heart hidden beneath that rough exterior.

But gettin' back to the citrus commission, some folks seemed to think that Fred had a lot of crust goin' down to Lakeland and pekin' his nose into their affairs, but considerin' the fact that those boys handle several hundred thousand dollars every year and the Governor is personally responsible for their behavior, it's only natural that Fred figured if they wasn't gonna come and tell him what they planned to do maybe he'd better go down there and find out for himself. That's the kind of a governor Fred is.

The fact that the Commission had a clean record and had been doin' a mighty fine job didn't have nothin' to do with it. Fred just wasn't takin' their word for it or anybody else's. He wanted to know what they were doin', how they were doin' it, why they did it, and what they planned to do next.

When they found out he wasn't foolin' they got busy and gave

him all the information he wanted. He looked it over, found it OK, and told 'em to go right on ahead like they'd been doin' and if they needed any help from him all they had to do was ask for it.

It is proper and fitting for a governor to keep in close touch with what is goin' on and Fred ought to take a day off every now and then to drop in unexpectd on this or that department, board or commission, and demand an accountin'. It shouldn't stop with the Citrus Commission.

As the sayin' goes—"A little checkin' now and then is helpful to the best of men."

And in spite of Fred's affection for Mr. Roosevelt, it seems that he don't hold no kindly feelings for some of the "new deal" fired help who seem to think they can order a governor around, just because they happen to be an office boy in the administration playhouse.

So right at the moment there's a big argument goin' on as to just what constitutes UNEMPLOYMENT in Florida. Fred insists that Mr. Emerson is unemployed and one of Mr. Roosevelt's hired men contends that he most definitely is employed.

Maybe I'm wrong, but I'm bettin' on Fred.

BASTMAN REAPPOINTED

WASHINGTON, July 27.—(AP)—The senate confirmed Joseph B. Eastman last night for reappointment to the interstate commerce commission.

There are national forests in 37 states.

Treasury Seeking To Collect Taxes From Big Company

WASHINGTON, July 27.—(AP)—Treasury officials last night disclosed they had filed a tax claim for approximately \$4,000,000 against the Associated Gas and Electric Company—the heart of the sprawling utility empire controlled by Howard C. Hoopes.

Hoopes, bitter foe of New Deal power politics, was reported to have spent more than \$1,000,000 in a futile effort to defeat the public utility holding company act and its so-called "death sentence."

The new claim brought the total pending assessments against Hoopes' power kingdom to \$58,000,000.

The treasury's latest move followed a re-examination of the books of the Associated Gas and Electric Company and its 206 subsidiaries which is reported to have revealed that large sources of income had not been trapped by revenue collectors. They included earnings from sales of power, coal and water as well as intercorporate sales of securities and management contracts.

The short pudgy utilities magnate leaped into national prominence soon after two Congressional committees were named to investigate one of the most sweeping campaigns against a piece of legislation ever known in the capital. Thousands of disgraced old timers deluged the offices of Congressmen and senators demanding that they vote against the "death sentence."

A part of the campaign against the bill dealt with an appeal to Congressmen and Senators to protect the life savings of widows and orphans which had been invested in utilities stocks. Hoopes said he conceived this plan of attack while resting during the winter at his Florida estate.

The Associated Gas and Electric system has been involved in tax litigation for more than a decade. The heaviest suit filed against it

center politics he would have been successively president of every civic club in the vicinity. He is that kind.

Another point, he thinks fast on his feet in debate.

His main lack of boss of the senate is a touch of hot iron. He is tender-hearted. That will have a soothing effect in these fire days and over selection of the court issue after the split on the court issue. But sometimes a nuisance-maker must be suppressed with a harsh tone and a fiery eye. If Barkley has either, he hasn't displayed it on the floor in recent years.

He can become angry at affronts, and boils if his personal integrity is questioned. But anger of the "boon" is another angle. Attilla the Hun once said: "Where my horse treads, no grass grows." Joe Robinson had a dash of that.

Barkley, so far, never has displayed the iron in his system. Likely enough it just isn't there. In its stead he displays a sort of aloofness, becomes distant. The trick isn't so good.

They tell us every about Barkley, and later he got a lot of orders, the Federal company selling an unbreakable crockery, to be delivered later. If got a lot of orders. He is the kind who would, but when he came to deliver the crockery his horse and wagon got away from him and the unbreakable crockery was smashed over the country side. It was a mistake. Now Barkley has a lot of "unbreakable" political crockery to mend.

Rankin Accuses Labor Board Of CIO Connections

Tupelo, Miss., July 27. —Rankin spoke specifically of the activity of the board's representatives in Tupelo, Miss., his home. "The ruthless manner in which they (board agents) helped to destroy and force the liquidation of the cotton mill in Tupelo, throwing all the employees out of work, and the brutal manner in which they are now trying to destroy the garment factories in that city, is enough to stir the people of my State to revolt," his statement said.

Rankin mentioned three garment mills, the Tupelo Garment Company, Reed Brothers and Millam Company. None of these companies had any labor trouble before the "C. I. O." came in he asserted.

Labor Board officials commented that they had issued a complaint against the Tupelo garment company and had conducted a hearing July 6 in Tupelo. No decision on the complaint, charged, had been made, they added.

In his statement, Rankin declared he would oppose appropriate another dollar for the board until the representatives cease "their communistic activities." He added he would ask changes in the Wagner labor disputes act unless these activities are halted.

Owen Wright Hurls Lookouts To Victory

Joe Ruggerio And Langston Lead Hitters in 4 to 1 Win Over St. Augustine Saints

Wright Holds Opponents To Five Hits; Strikes Out Ten Men And Walks None

The Sanford Lookouts yesterday owned up the two-game series with St. Augustine Saints by leading them a 4 to 1 defeat in the ancient city. Owen Wright, on the mound for five innings, was nipped for only five hits. His control was perfect, striking no men and striking out ten. Black started for St. Augustine and during the five innings he pitched he struck out ten men. In the sixth, he was relieved by Wright who allowed the Lookouts but two hits and one run.

Wright opened the scoring in the first inning, getting two hits and one run. With two out, Martin got on first due to an error by Billy Gates. Pritchard got a scratch hit over first, advancing Martin to second. "Little Joe" Ruggerio came through with a neat single over short-stop scoring Martin. Humph struck out to end the inning.

In the Saint's half of the second inning, Catoe started to enter with the away. He stole second and went to third on Owen's single to short. The Saints tried the double steal and Owens was tagged out after Catoe had covered.

The remainder of the game Wright had the Saints guessing. They could obtain but two hits in the last seven innings.

In the fifth, Kasse singled through the box. Rodgers grounded out and Wright struck out. Clay singled to center scoring Kasse. Langston singled to left advancing Clay to second. "Freddy" Martin singled to center scoring Clay and sending Pritchard to second. Pritchard walked, filling the bases but Ruggerio grounded out.

In the sixth, the Lookouts pushed over another run to slow up the game. With one out, Rodgers singled to left and was sacrificed to second. Clay hit one to short stop who fumbled, allowing Rodgers to score and Clay to get to first. Langston flew out to end the inning.

"Little Joe" Ruggerio and Mayo Langston led the hitting. With two hits in four trips to the plate, Claude of the Saints also connected for two hits.

New Wilt-Resistant Melon Finds Ready Market Acceptance

LEESBURG, Fla., July 27.—The new Leesburg watermelon, developed in recent years by Dr. M. N. Walker of the Florida Experiment Station's laboratory here, is an attractive to the market for quality as it is to growers for wilt resistance. The first carload of the new melon to move was shipped this season and found ready acceptance by the trade.

Bred from the Kieckley Sweet, the Leesburg surpasses this melon in resistance to wilt and in toughness of rind, it will produce good crops on land severely infested with wilt organisms, thus making it unnecessary for growers to clear new land every year to avoid wilt infection. It is little troubled with white heart and does not burn red.

Commercial quantities of seed have been saved from this year's crop, and it is expected that larger acreages will be grown to the Leesburg next year. Dr. Walker is endeavoring to improve the melon in size and quality, and to find other strains which may be even better adapted to growing on wilt-sick land in Florida.

The new melon has attracted widespread attention and interest, needs for trial plantings having been supplied to workers as far away as Gaza in Egypt and Manila in the Philippine Islands.

WOULD CONTINUE FAIR

PARIS, July 27.—(AP)—Premier Camille Chautauque last night called Thomas Watson, chairman of the U. S. delegation to the Paris World's Fair to inquire whether the United States would consent to extension of the exposition for one year.

There will be no "exp" Games at the 1939 Golden Gate International Exposition, it has been announced.

After the close of the 1939 Golden Gate International Exposition, the administration building will become one of the most modern air terminal buildings in the world.

Cleveland at Philadelphia.
St. Louis at Boston.

San Francisco's 1939 Exposition already has acquired a reputation for the use of color and it is predicted that it will be the most colorful exposition ever held in the United States.

Traffic facilities at the 1939 Golden Gate International Exposition on Treasure Island in San Francisco Bay, have been designed to handle a peak load of more than 50,000 persons per hour.

The Dade County Growers' Cooperative Marketing Association operates both a wholesale and a retail market at Miami. The manager estimates that 1485,000 worth of business was handled

YANKEE BIG SHOT. Joe DiMaggio's "big shot" of Yankee Stadium now. He is the home run and scoring ace of the Yankees and isn't so far behind the veteran team-mate, Lou Gehrig, in batting percentage. Joe likely will clean up \$48,000 this year.

State Markets Are Providing Outlet For Farm Products

GAINESVILLE, July 27.—Marketing a farm crop after it is produced is an extremely important operation. If the grower can't secure a profit on his product, he has wasted his energies, time and money in producing it. He and his community and the State suffer as a result.

The system of centralized farmers' markets, most of them supervised by the State Agricultural Marketing Board, which has been set up during the last two or three years is proving of considerable assistance in solving some of the marketing problems facing Florida growers. It is possible that a few roadside markets under the same set-up will be tried during the coming tourist season.

Growers sell through these State farmers' markets, and that is a good indication that they are satisfied with results. The market at Wacahula was opened officially on April 12, but was used for some time prior to that. It is reported that during this, its first short season, there were sold 120,718 packages for a total value of \$228,645.35. The Sanford market, in its third year, grossed about three-quarters of a million dollars.

The Dade County Growers' Cooperative Marketing Association operates both a wholesale and a retail market at Miami. The manager estimates that 1485,000 worth of business was handled

by the market during the past fiscal year, and that half of it was done through the retail side. Growers of the area are in better financial condition and dealers are highly satisfied.

Both the Miami market and a number of state farmers' markets hope to build cold storage rooms in connection, so that surplus produce can be carried over and sold later, when the market is not flooded. This should assure a more even flow of vegetables and other products to market, and stable prices which will be of benefit to both producers and consumers.

There is need for much additional research on vegetable production and marketing in Florida. A number of crops, such as lettuce and caulicifers which formerly flourished in this state are produced in much smaller quantities now. There is need for definite information as to the size and type of product that the market want, and then how to produce it in good quality. Considerable progress has been made during recent years in grading packaging and shipping, but there is room for still more improvement here.

The Florida vegetable industry with an annual value of around \$5 million dollars is indeed important to the state and its welfare. Anything which will improve it is eagerly welcomed.

The municipal airport that will be built on 400-acre Treasure Island in San Francisco Bay, after the close of the World's Fair in 1942, is valued at \$7,500,000.

New York Giants Purchase Ben Cantwell From Farm In International League

Former Florida State League Pitcher And Sanford Veteran Given Another Chance At Big Leagues

NEW YORK, July 27.—(AP)—The New York Giants, now in St. Louis for the opening of their Western tour today, have purchased Ben Cantwell, veteran right-handed pitcher, from their Jersey City farm in the International League.

Cantwell, purchased from the Bees by the Giants for Jersey City this year, replaced Clydeell Castleman, who has left the mainstay of the last place Jersey City club's mound staff, having won 13 and lost seven games.

Purchase of Ben Cantwell yesterday by the Giants from their Jersey City farm in the International League gives the veteran Sanford, Fla., pitcher a chance to complete 10 years of service in the major leagues, which makes him a free agent if the New York club does not wish to keep him after the finish of the current season.

Cantwell, who started his professional baseball career in the Florida State League and then started for the local club of the old Southeastern circuit, reported to the Giants Aug. 1, 1927.

Most of Cantwell's major league campaigning was done in the uniform of the Boston Nationals, being involved in a trade between the Giants and the Bees, then known as the Braves.

Although Cantwell's won-and-loss record with the lowly Bees last summer was only fair, he had a superb earned run mark and Ben, as well as many close followers of the game, were surprised when Boston sold him during the winter to Jersey City.

The Giants had obtained the Albany franchise in the International League and had transferred it to Jersey City. They, of course, wished a pitcher of proven ability for their farm.

Cantwell, bitterly disappointed at apparently losing his chance of completing a 10-year term in the majors, gave his best effort.

Story Of Gainesville Dog Hero Uncovered

GAINESVILLE, July 27.—(AP)—"Sport," little white Spitz dog, is going given anti-rabies treatments, but had it not been for "Sport" young John Blitts probably would be taking the treatments.

A stray dog, later killed and

Gunfire, Bombs And Arson Greet King, Queen In Belfast

Hostile Reception Is Blamed On Irish Republicans But Does Not Curtail Plans

Night Of Terror Precedes Arrival

Gas Main Is Blown Up, Bridge Dynamited, Houses Are Burned

BELFAST, Northern Ireland, July 28.—(AP)—Terrorists shattered the peace of Belfast and Ulster's Free State border with bombs, arson and gunfire today in a hostile greeting to King George VI and Queen Elizabeth.

Police blamed the outbreak on Irish republicans.

While the King and Queen, on a coronation visit, were driving to the Belfast city hall through crowded streets, a gas main explosion a half mile away, boomed through a wide area of Belfast. It came as a climax to a night of terror in which customs houses were burned and a railroad bridge was dynamited.

The Belfast explosion broke scores of windows and damaged the customs building. A child playing nearby was injured but because many workmen were elsewhere to see the King and Queen there were no other casualties in the usually crowded area.

The King and Queen heard the explosion and "nobody" was made in the coronation program. An estimated million persons jammed the streets to see the sovereigns in their nine-hour visit.

The outrages were believed designed to frighten the crowds who came from the Free State to see the King and not as attacks upon the monarch himself.

Adelaide Gordon Is Victim Of Death After Long Illness

Mrs. Adelaide G. Gordon, who has been a resident in this vicinity for the past 17 years, died yesterday afternoon at 1:15 o'clock.

Mrs. Gordon, who has been in ill health for some time, lived in Upland. She was born in Canada on August 11 1892, and was the widow of the late Samuel M. Gordon, who died several years ago.

The survivors are: three daughters, Miss Loretta and Miss Margaret Gordon of Sanford; and Miss Ruth Gordon of Canada; two sons, William Gordon of Ashland, Ala., and Vern Gordon of Kansas City, Mo.; also one brother, William Thase of Canada, and two sisters, also of Canada.

Funeral services will be held in the Erickson Funeral Home Thursday afternoon at 3 o'clock and interment will be made in the Lake View Cemetery.

W. H. Preston Acting Retreat Commander

FORT SCREVEN, Ga., July 28.—W. H. Preston, of Sanford, who is blue trainee of Company A at the Fort Screven C. M. T. C. camp was acting battalion commander at a retreat parade presented yesterday at the camp. He was among a group of other blue trainees who took command of the unit of the C. M. T. C. battalion for the first time during the camp.

During the parade, the battalion was reviewed by 100 young women who sponsored the unit. They were afterwards guests of the officers at the company's mess.

The commanding officer of the first battalion, 28th Infantry, stated that he was well pleased with the participation of the trainees and the efficiency with which they handled the troops.

Dupree Sees Trailer Camp As Big Asset

Commissioner Reveals His Opinion In Regard To Project After Inspection Trip

"Although we haven't a fat purse which we might unleash to get funds to build the largest trailer camp in the state, we should be able in 30 or 40 days time to equip a first class place which would be capable of accommodating approximately 300 trailers," said City Commissioner W. R. Dupree today.

Mr. Dupree has made an inspection of many trailer camps in the state, and has returned with the opinion that Sanford should have such a camp "second to none in proportion to our population."

He stated that he has been looking forward with the hope that the people of the city would realize that many new dollars can be obtained and spent in Sanford which would help to revolutionize business activities and attract the classes of people who might eventually buy homes in the city or county.

He believes that the project might be financed through a loan secured by the city, and that money received from trailer owners would "come in fast enough to meet all due obligations."

Mr. Dupree said that he has talked with a large number of the leading business people and residents of Sanford, and he believes that about 85 percent of them are heartily in favor of the project.

"I feel that a great number of the people feel that the camp should, for the first year, be located close to town, due to our exceptional opportunity of having the empty space between Palmetto Avenue and the Court House," he said.

"The attraction of our beautiful lake," he continued, "convenience in access to business, churches, theaters, the zoo, and other advantages would offer an inducement, where other towns do not have such space available. We could operate in a first class way, with a small cost for police protection, and the city conveniences."

Mr. Dupree stated that in his belief, the location would doubtless be outgrown, and a larger space should be prepared to take care of another camp which might be erected in the future.

"Proposed equipment to be placed in the lake front location would amount to about \$6,000, and should be built with the idea in view that it might be salvaged and removed to a larger location farther from town."

"Whatever we do should be done immediately, and I believe the above plan to be the most practical and feasible in order that we might get our portion of the new dollars to come from such an enterprise," he said.

CITY NEWS BRIEFS

Sanford Sea Scouts of the ship "Seminole Lion" will meet at the Junior High school tomorrow night at 7:30 o'clock, it was announced by Clifford Bell, skipper.

Superintendent of Public Instruction T. W. Lawton, returned to his office on business today but plans to return to Daytona Beach tonight where he is spending his vacation.

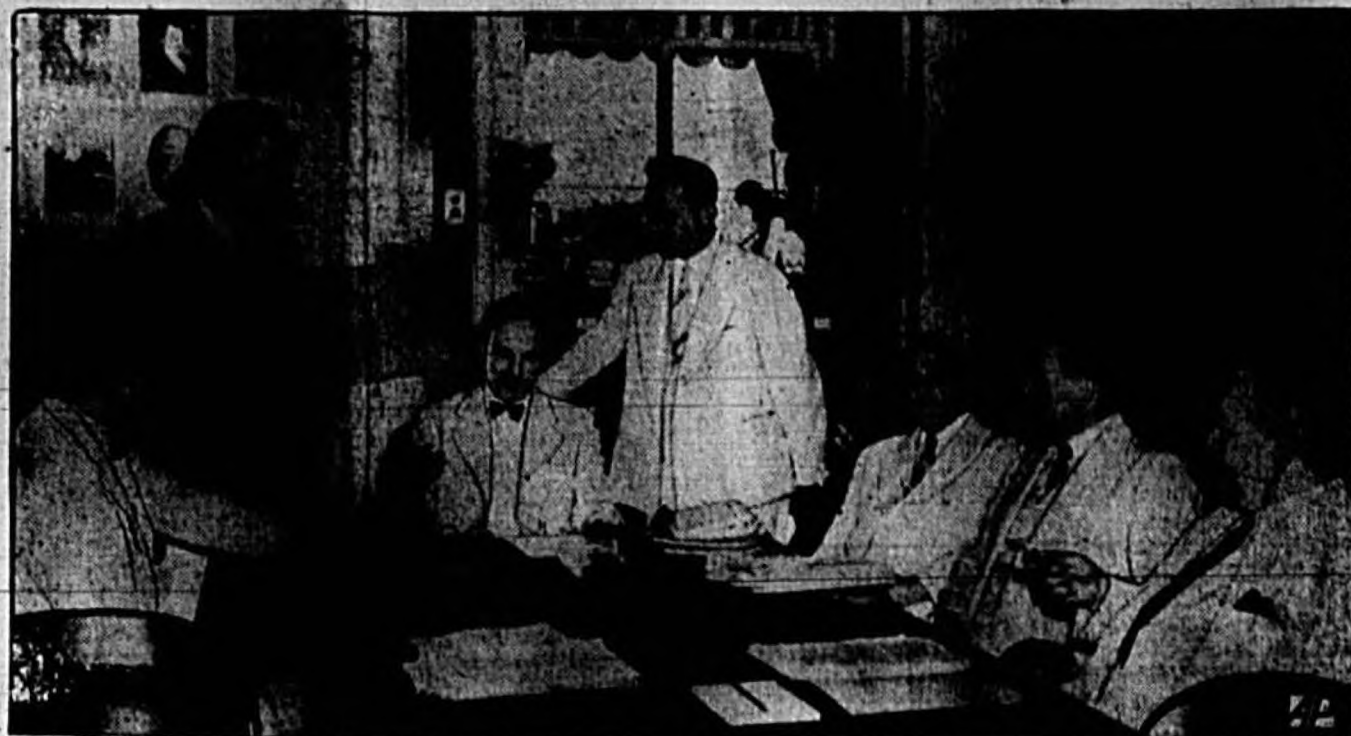

Chief of Police, Roy G. Williams announced today City officials had begun picking up dogs that have not been vaccinated. The last time for securing of dog license and vaccination of dogs expired last week, but was extended when veterinarians agreed to vaccinate the dogs the first few days of this week.

The Colocoe colored school is nearing completion and will probably be ready for acceptance at the next meeting of the Seminole School Board, T. W. Lawton, superintendent of public instruction, reported today, adding that bids for the construction of a 6-room colored school at Midway would also be received at the next meeting of the Board.

Leaf tobacco exports by the United States totaled 417,539,000 pounds in 1936.

China And Japan Wage Undeclared War With Fights On Land, Sea, Air; U.S. Marine Receives Bullet Wound

SENATE COMMITTEE HOLDS FATE OF NEW COURT BILL

The Senate judiciary committee is shown in session to consider the new court bill drafted by a sub-committee to replace President Roosevelt's ill-fated judiciary measure. The new bill, has provisions to speed up the lower federal courts but does not deal with the controversial Supreme Court issue which split Democratic ranks in the Senate wide open. Left to right around the table: Senators Tom Connally, Democrat of Texas; M. M. Logan, Democrat of Kentucky; Chairman Henry P. Ashurst, Democrat of Arizona; Carl A. Hatch, Democrat of New Mexico; William H. King, Democrat of Utah; Warren R. Austin, Republican of Vermont, and Pat McCarran, Democrat of Nevada.

Platinum May Be Big Money Maker In Alaskan Area

Recent Finds Result In Optimistic Prediction For Future

PLATINUM, Alaska, July 28.—(AP)—Platinum has built a bustling town of tents and log buildings on this bleak stretch of Alaskan seacoast and its mounting production brought predictions yesterday it soon would become the center of one of the world's richest fields.

E. A. Rasmunson, president of the Bank of Alaska at Anchorage, predicted a "tremendous" production of platinum by 1939 and said it might upset the world market for the precious metal before then.

Rasmunson made his prediction after surveying the hastily built city and the 100 square mile area of claims yielding an ever increasing volume of the precious metal.

In 1934 the Alaska production as reported by the United States Bureau of Mines was worth only \$84,600. It jumped to \$264,000 in 1935 and to \$12,000 in 1936. Much of the 1936 yield came from the new field.

Rasmunson said production this year would be "much larger" than in 1936, and that the district was gearing itself for real quantity production.

At the current value of \$50 an ounce, the unofficially estimated world production last year was \$26,000 ounces, or 16,800,000.

In addition to its platinum yield the barren seacoast area also has been producing worthy yields of placer gold.

The Goodnews Bay Company, which obtained a \$550,000 RFC loan, is bringing its dredge equipment here on the freighter La Touche.

Another big project is the Clara Platinum Production Company, headed by Dave Brandberg. Air planes, only quick transportation in this country of no roads, have brought heavy equipment as well as scores of stampedees.

Before Capt. Peter Wald established a trading post here four years ago, there was nothing but seacoast. Now the swiftly growing town of tents, frame and log buildings has a rotting, muddy main street ostentatiously named "Platinum Boulevard." Even the town site is staked as mining claims.

FARR CHESTY IN MEETING LOUIS

Tommy Farr, England's heavyweight pride, presented this picture of chestiness when he and Champion Joe Louis met in the office of the New York State Athletic Commission and signed articles for their bout Aug. 26. Joe looks on—without any display of emotion, as usual—while Dr. William Walker examines Farr.

Unique Display Gives Boost To Advantages Of Electric Ice Box

"Hell's Kitchen," an inclosure built to contain a stock model Westinghouse refrigerator, has been erected next door to the Ritz Theater by Scott-Carraway, Inc. in order to show the operation of the machine in hot weather.

The interior of the "bamboo hut" is heated to a temperature of 125 degrees by large electric light bulbs. Meters connected with the mechanism of the refrigerator show the actual condition time. Temperature inside the inclosure in addition to the temperatures of the milk and food compartments within the machine.

These tests will prove beyond question the actual value of a Westinghouse mechanical refrigerator. Fred Scott stated this morning.

3 Americans Among 15 Persons Killed In Airplane Crash

AMSTERDAM, July 28.—(AP)—Fifteen persons, three of them identified by airline attaches as Americans, died today in the flaming plunge of a Netherlands airliner identified as the "Golden Arrow" and said it had no other information about them at present. The transport, a Douglas (United States make), crashed in flames after an explosion in mid-air.

DROUGHT TO NTH DEGREE

NANKING, China, July 28.—(AP)—Weddings and funerals, most elaborate of Chinese festivities, will be drab affairs in Kweichow Province. The government has prohibited the making of rice wine in the province to conserve the stocks of rice for drought relief.

Tax Certificates To Be Sold Next Week By Jinkins

650 Pieces Of Property Are Involved In Auction Monday

Approximately 650 tax certificates for property on which the 1936 State and County taxes have not been paid will be sold at a public auction conducted by the local tax collector, Jno. D. Jinkins, in front of the Court House door next Monday at noon.

Title to the property is not conveyed at the purchase of the tax certificate, however, if the delinquent certificate is unredeemed after two years the purchaser may acquire a tax deed to the property by applying to the Clerk of the Circuit Court for same, Mr. Jinkins said.

The sale is not an auction in the real sense of the word. Nobody can buy a certificate for less than the amount of taxes due on the property it represents, plus the penalties added to cover the cost of the sale.

In competitive bidding the tax certificate is sold to the prospective purchaser who agrees to accept the lowest interest rate, the interest being charged to the owner of the property. A State statute allows a maximum interest rate of 15 percent, it was indicated.

Mr. Jinkins also notified taxpayers of the County that if the delinquent taxes were paid before the sale that the property would not be sold as advertised. The only additional fee will be the amount charged to cover the cost of advertisement.

Simpson Street Is Changed To Windsor

EVANSTON, Ill., July 28.—(AP)—Residents on the three-block stretch called Simpson street petitioned city councilmen to change the name of their thoroughfare to Windsor street "just because."

When the council got the petition the mayor could not restore order for five minutes. Some of the petitioners told the council the Duke and Duchess of Windsor romance gave them the idea. They thought the new name would attract people. Others thought it "sensitive" and "foolish" but the council ordered a resolution drawn changing the name.

Both Sides Claiming To Have Upper Hand As Heavy Casualty Lists Are Reported

Roosevelt Studies Crisis In Far East

Chinese Army States It Has Smashed Offensive On Peiping

By The Associated Press Japan and China fought an undeclared war on North China's land and sea coast today.

Chinese mortar fire kept Japanese munition ships from entering the mouth of China's Hai Ho.

Japanese cutters fought back, extending Nippon's punitive expedition from the smoldering environs of Peiping, some the dragon capital to Tangku on the sea.

An American marine, in isolated and siege-like Peiping, was shot apparently accidentally by rifle fire from Chinese troops barricaded near the United States embassy.

Chinese reports of battle victory, almost invariably denied by the Japanese, rolled in from dawn to dark.

Japanese air bombs and guns seared the troops of Nanking and their Peiping area strongholds with scattered heavy casualties.

President Roosevelt watched developments closely from Washington. The question of application of America's neutrality act was under consideration.

The Chinese 29th Army reported it has smashed the Japanese offensive against Peiping. The Japanese attacked Peiping's environs at dawn after the expiration of their final ultimatum demanding the withdrawal of Chinese divisions from the Peiping area.

Withering Japanese aerial attacks shattered the Chinese lines. Chinese commanders declared their troops recovered, however, and captured Fengtai, Japanese field headquarters west of Peiping and Langfang, important rail center.

Hearing To Be Held On Dry Cleaning Law

A public hearing concerning the Florida Dry Cleaning and Laundry Law passed in the recent 1937 session of the state legislature will be held on Aug. 10, at 9:00 A. M. in the City Hall, according to information received here today.

The purpose of the hearing will be to consider rules of fair competition, health and sanitary regulations, and other matters having to do with the proper practices in the laundry, dry cleaning, dyeing, and pressing industry.

This will mark the first time that the state has supervised and regulated activities of dry cleaning and laundry concerns in Seminole County.
