

Indian Roll To Go To Post As Favorite Tonight In Feature

ORLANDO, Feb. 5.—Indian Ed Willard's surprising victory over the favorite, Grayhound, will go to post in the feature event of tonight's program at the Sanford-Kennel Club, in an effort to boost her stock in the wide-spread scramble for the track championship.

The Indian scampered over the distance in 29 and 2-5/8 seconds to win the "hot box" feature last Thursday night. She was from the seven box then and tonight the "luck of the draw" has put her in the same box.

Stetson To Play University In DeLand Tonight

DELAND, Feb. 5.—Basketball teams of Stetson university, both varsity and freshmen, will play against the University of Florida in a double bill tonight.

Both Golden and Vann are safe bets as starters with the only question left in doubt being the other forward post.

Dartmouth college is the only U. S. pre-revolutionary university that has held graduation exercises every year since its founding.

Frank Lumpkin To Meet Elmer Ray In Ten-Rounder

ORLANDO, Feb. 5.—With a personal score to settle and a future shot at Beateat, Obie Walker, Atlanta negro, heavy-weight, for undisputed possession of the southern negro heavy-weight crown at stake as an added incentive, Elmer Ray and Frank Lumpkin square off tonight for a 10-round return bout that promises plenty of lively fireworks.

The 10-round re-match fight between Ray, 195-pound, Palatka veteran, and Lumpkin, 185-pound young local negro, headlines a card that includes 24 rounds of boxing.

Lumpkin out-pointed Ray here two weeks ago as the main attraction of the first boxing show put on by Stephens.

Dies Is Given Clean Bill By Legion Chief

Charges Of Collusion With Investigators Is Denied By Lead- er Of Silver Shirts

WASHINGTON, Feb. 6.—(AP)—William Dudley Pelley, Silver Shirt Legion leader, dropped in on the Dies committee today after a month's silence to give Chairman Dies "an absolutely clean bill of health" in regard to charges of collusion between Dies and himself.

Long, who has been hunted by a committee, surrendered himself and went before a closed session of the group to tell what he knew about the letters allegedly forged with his name to, recently brought forth as evidence of the connection between Dies and the legion chief.

Later at another committee hearing, he said he knew nothing of the letters, and didn't write them.

Congressman Hook, who placed the letters in the House record entered the hearing about the same time and remarked audibly: "Funny they can find Pelley, now, isn't it?"

Jax Attorneys Hit Wage Law In Federal Court

JACKSONVILLE, Feb. 6.—(AP)—Three Jacksonville attorneys in federal court yesterday attacked constitutionality of the wage-hour law on the ground that it invades rights reserved under the constitution to the individual states.

The power of Congress to regulate interstate commerce, they argued, does not include regulation of hours and wages.

Department of justice attorneys from Washington argued that regulation of wages and hours came under commerce powers of Congress and asked that the motions and demurrers be overruled.

The other two defendants are Walters Lumber Co. of Hilliard and Industrial Rag Co. of Jacksonville.

All three concerns were charged with failure to pay the minimum wage and compensation for overtime, and with having falsified records and with selling in interstate commerce goods produced in violation of the law.

Walters Lumber Co. also was charged with having fired employees who filed wage-hour complaints against that concern and the produce company also was charged with falsification of records.

Francis Dunning Kills Self At Home In Osteen

Francis Dunning, Osteen citrus grower, shot himself to death with a pistol at his home in the little Volusia county town of Osteen Sunday. He was 73 years old.

Mr. Dunning had been in poor health for several weeks, despondent over the loss of citrus in the recent freeze, according to facts ascertained by Peace Justice Maurice Foster of DeLand who conducted a coroner's inquest. A .32 caliber gun was used, and two bullet entries were shown, one in the chest and the other in the head. The despondent man pulled the trigger Sunday morning while his family was absent, according to the coroner's report.

Mr. Dunning had lived in Osteen 14 years where he was engaged postmaster. He was engaged in the growing of citrus.

Candidates May Now Pay Fees For Qualifying

Demo Group Levies Assessment Of 1 1/2 Percent At Meet

Any candidate who desires to do so may now pay his qualifying fees, County Clerk O. F. Herndon said today.

At a meeting of the Seminole County Democratic Committee Saturday night, an assessment of 1-2 percent of a year's salary or remuneration of the office sought by the candidate was levied while the qualifying fee which is required by the County is 2 percent of the annual remuneration of the office.

The candidates have until Mar. 22 to pay these fees, Mr. Herndon pointed out.

At its meeting in the Court House, the Democratic Committee endorsed the proposal of E. F. Housholder that an effort be made to increase the voting in this county. He pointed out that according to the last census there are approximately 6,000 in this county who are qualified to vote and that at present there are only approximately 4,000 registered.

The registration books are now open in all of the county precincts and those who are not registered were urged to do so at once in order to be eligible to cast ballots in the May primaries.

J. H. Truluck, chairman of the Jackson Day Committee, appeared before the committee and requested the support of the group in raising funds for the party, following which each precinct committee pledged his assistance in a canvass of his precinct to raise funds for the expenses of the state and national headquarters.

Chairman Fred Bender presided over the meeting in which Mrs. Newton Merrill, state committee woman gave a report on the state committee convention held in St. Petersburg. It was decided by 23 persons present that the meetings of the group in the future will be held quarterly. It was also decided that the candidates for offices in Seminole County will be invited to attend the next meeting of the committee.

James G. Sharod, Jr., was named secretary of the committee and all committee assessments will be paid to him by the candidates. He pointed out that the candidate is required by law to present a receipt showing the committee's assessment has been paid before the county qualifying fee can be paid.

Rev. Packard was named treasurer for the group.

Hoover Says Graft Found In Miami Area

Charge Made Before House Committee January 10 Is An- nounced To Public

WASHINGTON, Feb. 6.—(AP)—Edgar Hoover, FBI director, today announced that his staff had found "evidence indicating local graft, corruption, and inefficiency" in the Miami area.

This charge, and another that police authorities of the resort had failed to cooperate with the Justice Department's investigation, was made before the House appropriations sub-committee Jan. 10. The committee made the testimony public today.

Hoover said police officers in that area had been instructed "not to come near the representatives of the FBI. He said the FBI's greatest problem was caused by the fact that gambling houses and houses of prostitution had become meccas of criminal interests.

He said the investigation had turned up evidence of "some stunts" in the Tampa and Orlando, though not as regards open gambling casinos.

He termed the Miami and Miami Beach area as "one of the greatest problems we have had to contend with in the entire country, because of the influx of criminals from various sections of the country." He said six Miami Beach police officers had police records.

Board Head Is Charged With Black-Listing

WASHINGTON, Feb. 6.—(AP)—A charge that J. Warren Madden, head of the board of directors of a little blacklisting board, was made by counsel for a labor investigating committee yesterday.

Madden had defended the board's actions against an employment agency accused of "blacklisting" union workers.

Edmund M. Toland, the committee attorney, made the accusation during a bitter controversy over the board's actions against Charles Fahy, general counsel for the labor board, for more time to present the board's case.

Saying he had had only five days to answer four or five weeks of testimony, Fahy asked permission to call a long list of board employees who, he said, had been mentioned in the testimony.

Toland, on his feet quickly with an objection, asserted that the request was made solely as a means of getting publicity.

"It shows a lack of appreciation for the favors the board has been doing in this investigation," he declared.

He knew of no other congressional inquiry, the attorney continued, in which counsel for the agency being investigated had been allowed to present witnesses and examine them without cross-examination.

For four days, Toland said, he had sat and listened to board officials testify, powerless to cross-examine them with documents his staff had obtained from the board's files.

"I have documents to show that he (Madden) did a little blacklisting himself," he shouted.

Fahy protested that the statement was unfair but Toland rushed on: "Put him on the stand!"

Founders Day Meet Will Be At Mayfair

The Founders Day luncheon, which, according to a previous announcement, was to have been held in the Woman's Club will now be held at the Mayfair Hotel at 1:00 o'clock on Thursday. It was decided today. Reservations for the luncheon should be made at the Chamber of Commerce.

Samuel E. Cobb, a director of the National Archives in Washington, who will be the principal speaker at the luncheon, is a member of the Florida Historical Society, the Southern Historical Society and the American Military Institute. Born in Madison, his father came to Florida from Alabama in the early 1830s and his mother was a native of Gadsden county.

FDR Asserts He Is Tired Of Third Term Discussion

President Says Talk Has Been Fun But He's Had Enough

HYDE PARK, N. Y., Feb. 6.—(AP)—President Roosevelt said at a press conference yesterday he was getting tired of attempts to sound him out on a third term and that when anything was said it would be at a time of his choosing and his alone.

Then, grinning a bit, he admitted some perfectly grand wise cracks, on his part and on the part of the press, had evolved from repeated efforts of reporters to get him to give a clue to his political intentions.

It has been awfully amusing, the President said, but after all, you can drive a willing horse to death—both the press and the President.

Newsmen reminded the President that the Pennsylvania Democratic state committee on Saturday had declined to endorse Senator Guffey specifically for renomination and had endorsed a third term unanimously.

He was reminded, too, that petitions had been filed in Illinois the same day to place his name on the democratic primary advisory ballot.

To a request for comment, Roosevelt said there was no news, that there was no law to make questions because we are all tired of it.

"You said, 'All tired of it,'" a reporter interjected. "Did you mean of the question or of what is going on?"

The President said he thought newsmen agreed with him and that they, too, were tired. He suggested putting it this way: "You're all very busy, because, very obviously, when anything is said, it will be at a time of my choosing and not of their choosing."

Nevertheless, a reporter remarked, "We will keep on trying, Mr. President."

The President said he wouldn't add an admission to those assembled at the conference to tell their offices that they did not want to be put in a ridiculous or immature position.

Lake Mary Names New Officers To Commerce Body

Art Tomkinson was named president of the Lake Mary Chamber of Commerce at its annual election of officers held last night in the Community House as the climax of a meeting marked by considerable enthusiasm over the increased activities noticed in Sanford's neighboring community.

James Kinsky was elected vice-president, G. C. Van Huskirk, secretary, and Raymond Hall was named treasurer at the same meeting.

Opinions expressed at the meeting were unanimous in the belief that Lake Mary's most successful tourist season and that only a lack of housing facilities prevented many additional tourists from spending the winter there.

As part of the entertainment facilities provided for the visitors, as well as the home people, are the Tuesday night social affairs held at the Community House, where various kinds of card games, checkers, Chinese checkers, dominoes, and other games are enjoyed.

On Friday nights dances are held for the younger people, and it was announced that next Friday night a special program will be held at which time Norman Beasley and his "Florida Cowboys" will provide an entertainment feature, followed by a dance.

House Committee Makes Big Slash In Appropriations

Total Cuts Below Amounts For Cur- rent Fiscal Year

WASHINGTON, Feb. 6.—(AP)—The House Appropriations committee today cut \$228,013 from President Roosevelt's \$100,000,000 request for expenses of the State, Commerce and Justice departments, and federal courts during the next fiscal year.

The reduction brought to \$197,717,000 the amount slashed from presidential estimates in a half dozen appropriation measures now before Congress.

The \$107,373,000 bill for the three departments and courts contained funds for such activities as counter-espionage, anti-trust investigations, and 1910 census.

The total \$142,850 is below appropriations for the current year.

Fred R. Wilson, local attorney, will be the guest speaker at the regular meeting of the Lions Club in the Valdez Hotel Wednesday night at 7:00 o'clock. Secretary C. E. Adams urged a full attendance of members.

Final arrangements for the annual Shrine Club dinner dance will be made at a special meeting of the members of the club in the Valdez Hotel Wednesday night at 8:00 o'clock. President George Weinstein urged a full attendance of members.

Disaster Debt Moratorium Purchases Of Every Hurt By Cold

Citrus Growers Are Hardest Hit

Damage Suffered By Industry In State Is Over \$50,000,000

Damage to citrus and truck crops in Seminole County as a result of the freeze is approximately \$3,000,000, according to an estimate by the Seminole County Disaster Committee which met in the office of County Agent C. R. Dawson in the Court House yesterday afternoon and recommended that a moratorium be declared on all crop and private loans to growers because of the heavy damage suffered.

The county's citrus growers were hardest hit, suffering an estimated loss of \$2,000,000, including the loss of fruit which was estimated at between 90 and 95 percent and the damage to trees which was estimated at \$1,000,000, the committee reported.

The damage to this county's 4,500 acres of citrus was estimated at approximately \$100,000 while the damage to other truck crops was estimated at \$100,000.

Principals Discuss Democracy Day Plan

Observance of Democracy Day on George Washington's birthday, Feb. 22, was the chief topic of discussion at the meeting of Seminole County's white school principals in the Court House Saturday afternoon. Superintendent of Schools T. W. Lawton said today.

It was decided that appropriate programs will be held in the schools of every community on the night of Feb. 22 in which the students, the P. T. A. and others will take part. The program for Sanford will be held in the Junior High School.

Mr. Lawton has been named chairman of the observance in Seminole County by Colin English, state school superintendent, who is chairman of the observance for Florida.

Mr. Lawton has sent letters to the officers of all civic, social, religious and other groups in Seminole County inviting them to attend the meeting of the Board of Directors of the Seminole County Chamber of Commerce Tuesday, Feb. 13 when plans for the observance of the day by these groups will be discussed.

The freeze about as much as in curdling Florida sugar cane as a federal quota.

Opinions seem to differ strongly on the extent of the celery damage from the recent freeze.

It is perhaps natural that the horse should join the world-wide conflict to establish stable governments, says The Sanford Herald.

The Orlando Sentinel says that out of 40,000,000 boxes of citrus fruit this season, 17,000,000 were shipped before the freeze.

Although official surveys estimate Lee county's freeze loss at \$3,000,000, the Post-Newsweek says, "Having had the four or five days they needed to check up on their freeze damage, Lee county citrus growers are now convinced that they haven't any loss."

A new magazine which has come recently to our desk is the "Florida Patrolman" published monthly in Tampa.

Although the military communiqué announced the capture Sunday of a "strong enemy point" on the shore of Lake Ladoga where the Russian defenders were said to have fled over the bodies of more than 500 of their comrades.

The communiqué also reported the crushing of six Russian attacks along the eastern frontier from the Karelian isthmus north to Salla but officials in Helsinki said they were unable to confirm Stockholm dispatches describing the wiping out of the Red army's 18th division with nearly 18,000 dead.

A Stockholm dispatch, credited to a correspondent at the Finnish front, told the Russian division had been trapped and annihilated in the Kiteles sector, in the vicinity of the fighting mentioned in tonight's communiqué.

The Russian retreat was cut off, the Stockholm Dagbladet Nyheter reported, when the guns of Finland's fortress on Mantal island cut their communications to the rear.

Unofficially, it was said here the Finns might well have dispersed and perhaps annihilated the Russian division after the Russian lines had been broken near Mantal fortress, whose guns the Russians repeatedly have tried in silence to attack across the Lake Ladoga.

If the Finnish division finally had been wiped out on the Red army's 44th and 12th divisions were trapped and annihilated at Mantal.

A Dangerous Precedent

It must have come as somewhat of a shock to Senator Andrews when he was deserted by the Townsend Club the other day at the Orlando convention which endorsed Jerry Carter for United States Senator. It was certainly a surprise to us since we recalled that Senator Andrews was one of the first political leaders of any consequence to be converted to their cause.

That the Townsends are in danger of sinking their ship on the rocks of political treachery seems a foregone conclusion. In deserting one who has proven himself their friend in the vain hope of getting another who offers better promises, if not bigger promises, they are holding out little reward for those who stick with them. The endorsement of a fickle friend is not one on which to base future strength and confidence.

If Carter is elected, he may conclude that Townsend support is not one on which to rely in the future and steer his course so as to gain strength with other elements among the voters. And Carter may not be elected. Because a few hand-picked delegates in convention assembled decide to abandon Senator Andrews, it by no means follows that all believers in the Townsend movement will be so quick to forget his services.

For the public as a whole, there are other considerations in selecting a United States Senator which will carry weight besides his attitude toward the Townsend plan. Senator Andrews has proven his stature in the light of the Capitol Dome itself. In the short period he has been in Washington he has fully demonstrated his ability to serve this state with distinguished ability.

To replace him with a man like Jerry Carter would be the height of folly at the present time. We have no desire to magnify Senator Andrews by the contrast with his opponent whose record in public life is well known since Gov. Catts elevated him to the office of Hotel Commissioner. But we feel sure the public can recognize the better man.

Beauty Preserved

We are delighted to learn that regardless of whatever Florida's fruit and vegetable industry may have suffered as a result of the recent freeze, many of her most beautiful garden spots have been left intact and as glorious and colorful as ever. That the frigid weather passed them by so lightly was not due to any appreciation of the artifice by the Weather Man, but rather to indefatigable efforts on the part of those in charge of the gardens.

Dick Pope writes us from his magnificent Cypress Gardens near Winter Haven that he has all but succumbed to pneumonia himself but his flowers are as beautiful as ever. Night after night in sub-freezing temperatures may not have been the best prescription for Mr. Pope's own health but his constant vigilance and attention to his hundreds of amudge pots, as well as a favored position within the protection of Lake Eloise, served the noble purpose of preserving his gardens.

From McKee Jungle Gardens near Vero Beach also comes the welcome news that no damage was done. Three hundred and fifty heaters and over ten thousand gallons of oil were used in the battle against this latest aggressor from the Far North. Special shelters were also built for the protection of hundreds of apes and monkeys, who must have wondered what glacial period they were getting into, and no loss of wild life was reported.

At Palatka where the mercury dropped to 18 degrees, the Ravine Gardens' more than 100,000 azaleas came through unscathed. While their blooming period may be delayed a month or six weeks, they will still be as lovely as ever when the Azalea Festival is held on March 9-10, now postponed from Feb. 17-18.

All this is as good news for our home folks as for our visitors, all of whom recognize what infinite charm exists in these outstanding garden spots.

Unofficial quarters, commenting on Scandinavian reports, said earlier today Finnish troops might have dispersed and perhaps completely wiped out a Russian division of about 18,000 men in the crushing of a strong Red army offensive northeast of Lake Ladoga.

Last night's military communiqué announced the capture Sunday of a "strong enemy point" on the shore of Lake Ladoga where the Russian defenders were said to have fled over the bodies of more than 500 of their comrades.

Thirteenth Annual 'Living' Magazine Slated At Rollins

WINTER PARK, Feb. 3.—(AP)—The thirteenth annual "Animated Magazine," a program in which outstanding authors will read their manuscripts in person, will be presented on the Rollins College campus here Feb. 23.

About 5,000 "subscribers" are expected to be present for the readings. Chairs and benches will be set up on the campus. Dr. Hamilton Holt, president of the Rollins College, who originated the animated magazine idea, will preside over the program as "editor." Dr. Edwin C. Grever, college vice president, will be official "publisher" for the thirteenth year.

Among the contributors this year will be Dr. John H. Finley, editor emeritus of The New York Times, who will present the leading editorial.

Other contributors will be Arthur Gullerman, poet; Carl Sandburg, poet and biographer; Owen D. Young, former chairman of the board of the General Electric Co.; Thomas Dreiser, author and journalist; Cecil Roberts, British novelist and poet; Dr. Joseph R. B. and Stone, pastor of St. Nicholas Church of New York City; Countess Alexandra Tolstoy, biographer; Joseph C. Lincoln, author of Cape Cod novels and ballads; and Schurman, former president of Cornell University and former ambassador in Germany; and Rex Beach, novelist and president of the Rollins Alumni Association.

Breaking the tradition of the Rollins "animated magazine" designed to cut down the flow of Lake Ladoga and supply at the Mannerheim line from the rear.

The Russians appeared to have opened their lines in a series of hammerblows at the Mannerheim line on the Karelian isthmus and at Alttiedo to the north of Lake Ladoga.

The Russian retreat was cut off, the Stockholm Dagbladet Nyheter reported, when the guns of Finland's fortress on Mantal island cut their communications to the rear.

TUNNELING PROJECT

"TOO LATE TO CLASSIFY"

By RUSSELL MAY

Several gubernatorial candidates advocate a constructive intelligent advertising program for Florida.

They contend that we should make a greater effort to tell folks in other sections of the state the charms and advantages of Florida.

That's fine, but just what are they going to advertise? Sunshine—bathing beaches—mocking birds—and all the other famed attractions? Well, I'm for it.

But I would go further than that—I wouldn't content myself with telling just ONE SIDE of the story.

Every now and then I'd inject an advertisement for all the world to read that would do more for Florida than all the other ads combined. I'd take liberal space in northern papers and magazines to point out a few things told about this state that we now leave unsaid, but which would be better TOLD.

I'd point out to prospective tourists that along with the warm sun and sea, Florida has a lot of things to offer their journey over our highways would be dangerous because we hold the woods over sacred and that while enjoying our seaports they must likewise dodge our helms.

A few ads like that would go a long way toward bringing our home folks to realize how back there we are in this respect. At the same time it would be no contrary to the usual appeal found in advertisements that I'm inclined to believe it would leave a favorable impression on the reader and react to Florida's good.

While I told them of the many interesting and delightful attractions of Miami, Jacksonville, Tampa, Pensacola, Orlando, St. Petersburg and other points, I think I'd point out that all of these charming cities were infested with loan sharks and salary suckers when the good people of Florida permitted to prey on the helpless, the weak and the ignorant, making small loans and charging as high as 200 percent interest. Of course, I'd explain that the racketeers operating such institutions maintained a powerful lobby in Tallahassee and so far no Florida legislature had ever been strong enough to oppose it.

I am inclined to believe that a single page advertisement in the Saturday Evening Post along that line would cause an uproar within our state that the next legislature would put a stop to the evil if it didn't do anything else the entire session. And when they did I'd point out that fact with even greater vigor.

When I told the outsider of our marvelous citrus groves and urged them to eat more Florida fruit I think I'd mention to sand-trailers that the next legislature would put a stop to the evil if it didn't do anything else the entire session. And when they did I'd point out that fact with even greater vigor.

Freeze Damage In County Is Three Million

(Continued from Page One) tively placed at more than \$50,000,000 by those attending the meeting.

The morning session of the Orlando meeting was confined to reports on the amount of damage suffered by the citrus industry and the recommendations for organization to assist in the various federal agencies and Florida's delegation in Washington.

It was learned from authoritative sources that Representative Joe Hendricks attended the meeting to hear personally the amount of damage suffered by the citrus industry and the recommendations for federal assistance. Many persons from over the state prominently identified with the industry were present as well as about 150 growers, officials from the Federal Land Bank at Columbia, S. C., the Farm Credit Administration, Washington, D. C., the Disaster Relief Corporation, State WPA officials, Department of Agriculture representatives and others met jointly in the all citrus session to report on damage to citrus from the recent freeze.

Some counties' delegates reported that 25 percent of their citrus crops can be salvaged while others reported this year's crop a total loss and all of the citrus grovers reported widespread damage to groves, which in many cases will necessitate severe pruning.

The Seminole County disaster group estimated yesterday that 80 percent of the citrus crop was damaged by the cold and recent heavy frosts. Chicago Awarded National Meet of Democratic Party

WASHINGTON, Feb. 3.—(AP)—The Democratic national committee, yesterday decided to hold this year's nominating convention in Chicago, headquarters of the new deal and seats of President Roosevelt's nomination in 1932.

Chairman Farley was authorized to fix a date for the meeting. He assured committeemen he would try to set a time satisfactory to all, and said reporters he would send out the call soon after the Republicans decided on a date for their convention.

Republican leaders, who are concerned the strategy of delaying their convention until after the Democrats had chosen a nominee and written a platform, in order to take advantage of any popular reaction.

Farley favored this today. The Republican national committee meets here on Feb. 14 and party leaders, who are concerned they would not be able to meet the Democrats.

A spirited fight among four cities preceded the decision to hold the convention in Chicago. The main contenders were New York, Philadelphia, St. Paul, and Houston, Tex.

Mayor Kelly of Chicago, who led the successful fight by the Chicagoans, said the city was the best equipped to handle the convention. He said the city was the best equipped to handle the convention.

Phi Alpha Kappa To Give Dance Tonight

An informal girl-break dance will be sponsored tonight by the members of the Phi Alpha Kappa sorority at the City Hall from 8:00 P. M. until 12:00 o'clock. Miss Mary Higgins, president of the club, has announced.

The sorority, a social group composed of high school girls, has for years sponsored many of the dances for the younger set and first introduced the novelty idea of girls breaking at dances.

Eddie King To Play At Recreation Dance

Eddie King and his orchestra of Orlando will be featured at the regular weekly dance this Friday night at the City Hall from 8:00 until 12:00 P. M.

The dances are sponsored each Friday night by the City Recreation Department with R. M. Haldaber as director, for the enjoyment of the younger social set.

These dances are one of the many projects which the Recreation Department is carrying out for the benefit of the local people. All ages and groups are included in the work of the department.

Florida Cagers Beat Stetson By 42 To 30

DELAND, Feb. 6.—Florida cagers overcame an early Stetson lead to topple the Hatters, 42 to 30, here last night behind the sharpshooting of Forward Reed and Guard Zimmukas.

The Gators led at half time, 21 to 15. Stetson's Guard Scheffer paced the Hatters to an early advantage which they maintained up to within four minutes of half time when the Gators combination of Zimmukas, Elsh and Ren started clicking. Thereafter the Gators were in little difficulty.

Zimmukas led the Gator scoring with 10 points, closely followed by Ren with nine and Elsh with eight.
