ATLANTIC GALE LASHES PIER, WRECKS HOMES

Snapped in the half-light of the worst storm in years, this picture (top) shows destruction threatening the recreational pier at Long Branch, N. J., by the tremendous waves driven in by the nor'easter. Below is the wreckage of a waterfront home on Oak Island Beach, Long Island, N. Y., after it was swept from its foundations by a high wind. Two occupants of the house escaped injury. Damage was estimated at several million dollars as the gale lashed the north Atlantic coast from Cape Cod to Cape Hatteras. (Associated Press Photos)

Carolina Highway Chief Challenged

Appointed head of the South Carolina highway board during Gov. Olin D. Johnston's military regime, Joe Calus (above) and the other five members of the new board have been ordered by the supreme court to show cause why they should not cease to function. The order was obtained by the ousted board. (Associated Press Photo)

'OLDEST TWINS' CELEBRATE

MAYOR FIDDLES TO 'SAVE' CITY

Unlike Nero, who fiddled while Rome burned, Mayor William M. McNaair of Pittsburgh fiddled to save his city's pure water supply. He played his violin and wisecracked as a master of ceremonies of a show troupe for a week. His salary, \$1,500, will be used as a campaign fund to fight against pollution of rivers. McNaair is shown practicing in his dressing room between shows. (Associated Press Photo)

MODERN 'JEAN VAL JEAN' STORY

Somewhat reminiscent of Jean Val Jean in Victor Hugo's 'Les Miserables' is the experience of Carlotta Dietz. Six years ago he escaped from the North Carolina state prison at Raleigh, where he is serving a 25-year sentence for killing a police chief at Southern Cross, and made his way to Jackson, Ohio. There he married and gained a responsible job with an oil company. But the other day his identity became known and officers came to return him to prison. He is shown bidding his wife and three-year-old daughter farewell. (Associated Press Photo)

Up to Mrs. Gable!

Whether reconciliation or divorce will solve their estrangement is up to his wife, says Clark Gable. Shown telephoning her upon his arrival at Beverly Hills, Calif., by plane from New York, the screen lover said he was "entirely friendly" with her and denied rumored romances with other women. WAR RAGES FOR OLDEST WINDMILL

It was probably all right for Henry Ford to purchase America's oldest windmill from Dr. Edward F. Sisson. But when he started to move the mill, built in 1655, to Dearborn, Mich., he found a storm of protest by Cass Goddard who wants it to remain in the historic portion of West Virginia, Md. Resettlement New Deal Will Be Necessary

Special Dispensation For Seminole Growers May Be Worked Out In Washington

Conditions Here Quite Different

State Director Says Aid Under Present Set Up Impossible

There's got to be another "new deal" in the set up of the Rural Resettlement Administration if the farmers of Seminole County receive any aid from the Administration for their growing crops, it developed at a hearing conducted by RRA officials in Sanford Friday afternoon. Officials at the meeting agreed that conditions here are vastly different from those that obtain in other agricultural sections, and because of this difference an attempt will be made to get Washington officials to grant a special dispensation whereby Central and South Florida growers will be able to participate in RRA grants.

Dr. Wislizer of Washington, D. C., assistant to Prof. Rex Tugwell, director, attended the Sanford hearing and afterwards made the statement that he was bringing to the nation's capital a different picture of conditions in this section of the state than that which would be presented within his power to have the situation in Florida commented upon the market of farmers between the specialized farming in Florida and general farming in northern states.

J. A. Texada of Gainesville, Florida state director of the Rural Resettlement Administration, presided at the meeting. Mr. Texada emphasized the fact that he "fully realizes the difference in our farming season down here with other sections," and that he was taking Dr. Wislizer on this trip for the purpose of letting the Washington officials see at first hand just how different conditions here are so the latter might acquaint officials in Washington with the situation.

New Committee For Market Is Appointed

Ben Packard, chairman, John Mack, Jr., and Geo. E. Balme comprise the new building committee of the advisory committee of the Sanford State Farmers' Wholesale Market, as appointed by Chairman H. M. Papworth of the larger committee. No building operations at the market are contemplated at the present time, Market Manager J. G. Michael stated, but the committee will be ready to function at any time it is found possible to add to the facilities of the big institution.

Mosquitoes Will Be Controlled In Seminole County

Mosquitoes are not to be allowed to buzz around at will in Seminole County and let whom they please and when ever they have the inclination. They're going to be controlled by Uncle Sam.

A. C. Newman of Jacksonville, director of mosquito control work in Florida, has just only notified County Engineer Tony L. Pittsford that work on the County House ditch will be undertaken within the next fortnight but that other drainage ditches will be dug in order to force mosquitoes to go elsewhere for pastures. He advised Mr. Pittsford that other drainage projects in this county will be worked out as soon as possible.

Vegetables Of Seminole Will Be On Exhibit

Bulk Of Display In New York Show Is Expected To Come From This Section

Seminole County produce will feature the Florida Exhibit in Rockefeller Center, New York, this winter. This is the forecast as made by J. M. Rhodes, State Marketing Commissioner, and concurred in by J. G. Michael, manager of the Sanford State Farmers' Wholesale Market in Sanford, and by E. H. Whitner of Sanford who has been appointed by exhibition officials to select and make shipments twice weekly during the season of vegetables to be displayed in the big show in the nation's metropolis.

Mr. Whitner tells The Herald that he will "re-secure" orders to get to the exhibition the best examples of Florida produce, including what part of the crop which produce is grown, but for some of the location in this county. The State Market it is more probable that the bulk of the exhibits will be shipped from Sanford.

Manager J. G. Michael of the big market has offered to cooperate with Mr. Whitner in every way, and both ask vegetable growers who have any produce that is especially nice to deliver to the market for use in the New York show. The Farmers' Market, Mr. Whitner and Mr. Michael will be the assembling point for all vegetable exhibits, produce grown in other parts of the state being sent here and then transported from Sanford to New York. State Marketing Commissioner Rhodes, in a letter to Mr. Michael, stated he hoped complete cooperation would be given Mr. Whitner in the handling of creditable samples of Florida produce.

The Florida Exhibit in Rockefeller Center is to open on Dec. 1 and will continue for three months and during that time produce will be shipped to it twice weekly from Sanford, as it is the desire to have on display at all times the freshest fruits of Florida soil. Mr. Whitner has made arrangements for a display of plant city strawberries at the opening of the exhibition, as well as tomatoes from the Miami section, potatoes from Hastings and beans, beets, cabbage, carrots, collards, cucumbers, egg plant, lettuce, okra, peas, parsley, peppers, radishes, turnips and other vegetables grown in the Sanford area.

As Mr. Whitner has had any funds at his disposal it is hoped that donations of produce for exhibition purposes will be received, as the Rockefeller exhibit is for the purpose of advertising Florida and its resources, and persons furnishing produce for the exhibition.

Daytona Miss Chosen To Represent State

TALLAHASSEE, Nov. 23. (AP)—Miss Charlotte Haines of Daytona Beach, was named by Governor Sholtz to represent Florida at the annual Christmas carnival in Birmingham Nov. 28, 29, 30. An invitation to name a Florida representative, who will be "princess" at the carnival, was sent by the Birmingham Chamber of Commerce, the Debutante Club and the City of Birmingham. Four other Southern girls also were invited to send "princesses."

Winter Treks To Southland; Frost Feared

Citrus Fruits Will Probably Escape; Truckers Told To Take Precautions

Wintery weather is journeying into the Southland, and the United States Weather Bureau warns growers of truck crops to take precautions against a serious drop in temperatures tonight. Citrus fruits, however, are expected to escape damage. The official weather bureau forecast reads:

"Fair and colder with heavy frost in the north portion of Florida, light to heavy frost in the central portion, and light frost in the interior of the south portion of the state tonight. Freezing temperatures in the interior of the north portion tonight 'Sunday' fair."

As reported by The Associated Press, the first touch of real winter weather made its way southward through Georgia last night and is expected to leave traces of frost tomorrow morning as far south as Lake Okechobee, far down on the Florida peninsula. Thermometers in the Tallahassee area may drop as low as the middle twenties tonight, said the weather bureau.

The weather bureau had a word of comfort, however, for citrus men of Central Florida. "So far as citrus crops are concerned," the bureau announced, "we don't expect these temperatures to be damaging. In central Florida it probably will get down to the neighborhood of 32 degrees."

A warning was issued to truck men whose crops are not as well insulated against the cold as citrus trees and fruits. Frost is expected to be found over the entire northern portion of the state tonight and on the coast.

Youth Administration Reports Being Made

Reports of local participation in the National Youth Administration were prepared today by J. W. Lawton, county superintendent of schools, and D. H. McKay, city superintendent of schools, for forwarding to Administration officials in Washington. The reports were made up from the time sheets and activity reports of boys and girls working in various capacities in the county.

Red Cross Roll Call Nearing Completion

Business and professional men were today being contacted by Red Cross workers in a final effort to complete Seminole County's quota of 400 members. An effort was to be made to reach all of them, but should any be needed they are copies of the Red Cross Roll Call, to leave their contributions at his office in the Court House. Memberships are \$1 per year. Roll call directors will meet in City Hall building next Monday afternoon at 2 o'clock to canvass returns and ascertain if it will be necessary to continue the campaign until Thanksgiving Day.

Lewis Resigns As Vice President Of Labor Federation

Action Is Caused By Opposition To His Unionization Plans

WASHINGTON, Nov. 22. (AP)—John L. Lewis, vice president of the United Mine Workers, resigned today as vice president of the American Federation of Labor, after a year and a half of bitter fight. Lewis took a new turn today with the resignation of John L. Lewis as Federation vice president.

In a tersely worded letter to Wm. Green, Federation president, the key figure of the United Mine Workers said he had decided to resign because of his opposition to the Federation's plan to unionize the coal industry.

Sewer System Is To Be Provided City Of Key West

KEY WEST, Fla., Nov. 22. (AP)—The blueprint for a sewer system for the New Deal play city, which is to be built and operated by the Federal Government, is being prepared by the city engineer.

The latest work on the sewer system, which is to be built and operated by the Federal Government, is being prepared by the city engineer. The system is to be built and operated by the Federal Government.

The WPA project does not provide for a fresh water supply but merely for installing the distribution system at the time the sewer pipes are laid. Plans are already in the making, however, for piping fresh water into Key West from the mainland probably from Florida City, the pipes would be laid alongside the sewerage highway.

Footprints Seen On Island May Be Of Lost Aviator

SINGAPORE, Straits Settlements, Nov. 23. (AP)—Reports of footprints seen in the sand of Sayer Island through fresh holes in the missing St. Charles Kingford-Smith might still be alive. Captain Hussey, who flew over that area after a steamer reported seeing flares rising from the island, said he searched all six Sayer Islands, was certain of nothing on four of them, but the other two were covered with jungle.

St. Augustine No Match For Sanford's Fast Celery Feds Who Win By Decisive Score

Local Squad Chalks Up 18-0 Win Over Ancient City Team

Displaying the St. Augustine Mullet in every department of play, the Sanford Celery Feds turned in an 18 to 0 victory over the Ancient City in that town last night. Lady Luck favored St. Augustine twice in the first quarter when Sanford in scoring position fumbled the ball and St. Augustine recovered. Leon Lawson, half back, turned in the counter late in the second quarter after Billy Zachry, half back, with a long end run had placed the ball deep in St. Augustine's territory. Leland McClelland accounted for the second touchdown and an over the line pass from Bob Stoloff to Jack Purdon completed the scoring of the evening.

St. Augustine won the coin and elected to kick. Swinging immediately into action, the Celery Feds made 2 first downs when Leland McClelland was forced to leave the game because of injuries and Sanford, unable to get going again, punted. St. Augustine couldn't advance the ball at all and punted it back only to have Roy Wright return it to their own 30 yard stripe. After several plays and a 15 yard run by Zachry, the ball rested on the 9 yard line where St. Augustine recovered a Sanford fumble and the first scoring drive was foiled. The rest of the quarter saw little action.

Both teams opened the second quarter by being offside but on the next play St. Augustine sent the ball for the first time into Sanford's territory. McClelland was sent back into the game and Zachry going off the left side of the line for 40 yards placed the ball on St. Augustine's 30 yard line. A fumble cost Sanford 5 yards but McClelland going through right guard made first down. With 3 downs and goal to go, Sanford fumbled and St. Augustine recovered. St. Augustine punted. Zachry and Lawson made a first down but an incomplete pass, several attempts and no gains forced Sanford to punt. St. Augustine after several plays punted it right back on their own 40 yard line.

Brailley Odham was sent in for Frans Warner who had been quite jolted on a previous play. Starting another touchdown drive, Sanford marched down the field and this time they were not to be denied as Leon Lawson crossed the goal line for the first touchdown. The try for extra points failed and shortly after "King Kong" Williams kicked off the half ended.

When the whistle resounded St. Augustine still could not penetrate the Sanford front line and was forced to give the ball to Sanford on a punt. Hitting for the goal since more, Zachry made a first down to place the ball on St. Augustine's 48 yard line and then going around right end on a reverse play carried the ball to the 12 yard line. Three ties resulted in a first down and then McClelland crossed the goal for the second touchdown. The try for the extra point failed. Zachry was then replaced by Bob Stoloff, Bob Williams by Jack Wilkinson, McClelland by Lester Phillips, Billie Ogbert by Sam Wells and Jim Stappler by D. B. Hodges, also Roland Sheehan relieved Lawson.

Opening play once more, Sanford was soon in possession of the ball on her own 40 yard line. Merchant on a reverse play advanced it to the Saints' 40 yard line where a direct over the line pass, Stoloff to Jack Purdon counted for the last touchdown to make the score 18 to 0.

During the rest of the game, Sanford, with practically an entire team of substitutes, continued to make first downs at will while St. Augustine was lucky to pick up one. St. Augustine tried their only pass in the third quarter only to have Elwin Squires knock it down. Before the quarter ended John Morgan relieved Stoloff and Jack

Wilkinson To Take His Boxing Boys To Jacksonville Dec. 5

A telegram from Jimmy Murdoch, Jacksonville boxing promoter, to Judge S. A. B. Wilkinson, Seminole Boys' Athletic Club sponsor, caused the latter today to decide definitely to take his boxers to the big city for a show on the evening of Thursday, Dec. 5. When the invitation was first received Judge Wilkinson was undecided as to whether to accept it, as his boys were booked for an exhibition at an American Legion meeting on Monday, Dec. 2. But when a wire came today from Murdoch saying: "I expect you and eight boxers Dec. 5," the judge decided to take his hard-hitting bunch to Jacksonville, "providing, of course, we can arrange transportation," he said.

Sanford Boys Play On Champion Five

Playing full time in all games throughout the tournament, Bob Cornell and J. W. The decisive game was played at the close of a basketball tournament in which various classes and fraternities participated.

Baby Hatters Lose To Florida Freshies

GAINESVILLE, Nov. 23.—The University of Florida freshmen found plenty of opposition in a fighting Hatter team from Stetson yesterday and had their goal line crossed twice for the first time in three seasons, but won the game 33 to 12.

This was the first time that a Florida freshman team had been scored on since Rainey Cawthon took over the coachship three years ago.

Almost the entire freshman squad took part in the game while substitutions on the Stetson side were few and far between.

JUNIOR HIGH SCHOOL NOTES

BY ELIZABETH KELLY
Sports Editor

Girls' Sports: Miss Takach is rather pleased with the girls' play this past week. It has been only these last few days that the girls have shown any real signs of development in basketball play. But as the game is absolutely new to the majority of the girls, Miss Takach is stressing fundamentals entirely.

Several groups of girls have shown considerable progress in playing together, and from these girls the school team will later on be chosen. Absolutely accurate pass work is essential to good play, and to this end Miss Takach hopes to reach.

The girls of both grades need to study up on all basketball and volley ball rules and play as a written text is planned for the early part of the coming week. And, too, girls, there are only two weeks left in the second six weeks' period in which to prepare for the tournament.

Nearly all girls' teams have suffered this past week on account of so many players having colds. Hurry and get well girls, you are needed.

Boys' Sports: The boys as well as the girls have developed pleasingly well these first few weeks of the season in basketball. Mr. Schirrad expressed belief that if the boys continue to show willingness to learn and practice, he will have several smooth working teams by the middle of December.

The boys of the Eighth Grade seem to have some little edge over the Seventh Grade boys as far, but this is only natural. Most of the Eighth Grade boys received experience last year on the courts. The Seventh Grade boys, nevertheless, will be depended upon to place several good teams in tournament play and win for themselves athletic emblems.

Every boy in either grade will have an opportunity shortly to show just what basketball knowledge he has gained these past few weeks. Mr. Schirrad plans to test each boy soon in his pass work, shooting, pivoting, and general knowledge of the game.

So, you boys, too, must brush up on the rules of the game, and on your individual play.

Who said Miss Takach didn't have a couple of able assistants for gym work? We're speaking of you Miss Earle and Miss Hurthman. The Schmidt-Cunningham combination at forwards seems to be working fine. . . . a couple good basketball players in the making. . . . Touch football is still being played and with plenty of interest. . . . the department appreciates the spirit of these boys. . . . New hand-tennis balls have been secured for the girls. . . . now the game can be played more correctly and accurately. . . . Mary Lynn Ross seems to be quite a shot in basketball. . . . sharpen up that eye Mary Lynn. . . . The cool weather has put much needed pep into the boys and girls practices. . . . let's continue the snappy play. . . . Nearly everyone turned out for the county volley ball tourna-

Peril In Tax On Social Security Seen By R. R. Head

Additional Levy May Put Rail Lines In Difficult Position

NEW YORK, Nov. 23.—Faced with the additional annual burden of the various social security laws, including the railroad retirement act, the railroads will be forced to a policy of the most drastic economy, with possible further reductions in working forces and employment, according to Edward E. Loomis, president of the Lehigh Valley Railroad, in an article entitled "Taxes and Labor" in the December "Forum" magazine.

Decrying the government's financial policies, he states: "For the fiscal year ended June 30, 1935, total collections by the federal government reached the colossal sum of \$5,500,000,000. Yet that amount failed by more than \$500,000,000 to meet the appropriations for that period. In other words, federal outgo is almost twice federal income."

"In addition, the present Administration has provided for emergency expenditures or appropriations, not included in the budget, which bring the total to almost eleven billion dollars, a terrific obligation falling on the shoulders of the taxpayers, because now and in the future these emergency expenditures, as well as general expenses, must be paid; and the only way that can be accomplished is through additional taxes. It must be learned by employees, as well as by employers that industrial taxes cannot always be paid out of profits and that ever-increasing taxes can well have the effect of destroying not only profits but industry itself."

Government bureaucracy and advocacy of government ownership of railroads and other industries are "danger signals not only to these industries but to all taxpayers," he affirms. "Under normal business conditions, the enormous sums paid by the railroads in taxes are available for the support of the various government activities. About 45 percent of all rail taxes go to the support of public schools. In the event of government ownership of railroads, who will replace the carriers with their contribution to the common tax pot? The answer is simple—this enormous amount will be spread over the remaining taxpayers."

In addition to railroad tax levies of \$248,112,732 paid in 1934, only exceeded by the all-time peak of more than \$1,000,000 a day reached in 1929, "railroads as well as their employees are confronted with the additional annual burden laid upon them by the various social-security laws," Mr. Loomis warns. "In view of the fact that the Class I railroads of the United States have been unable to earn their fixed charges—interest on bonds, etc.—during the last three years, a rather difficult situation is going to develop."

"These additional burdens are often imposed with no regard for income. As a result, the railroad management has no alternative; it must find the money to pay these increases, and it is forced to a policy of the most drastic economy—which may mean further reductions in working forces and employment, and a withdrawal of other benefits, such as group insurance, various relief payments and voluntary obligations of like character. We may not like this, but there is no other way."

Luxurious Craft Riding At Anchor In Miami Harbor

Morgan, Vanderbilt Astor And Other Yachts Are There

MIAMI, Nov. 23.—(AP)—A concentration of luxury craft unsurpassed in Miami's entire yachting history is confidently predicted for the annual winter maneuvers here of America's gleaming private navy.

Capt. Jack Bauder, superintendent of the Miami city yacht basin, already is scratching his head over arrangements for handling the millions of dollars' worth of pleasure ships he expects.

Heading the fleet, the vanguard of which already has dropped anchor, will be seven superdreadnaughts of the teakwood navy—the Vagabondia, owned by W. I. Mellon of Pittsburgh; and the Corsair, owned by J. P. Morgan; the Hussau, Edward F. Hutson; the Orion, Julius Forstman; the Alva, Mrs. William Boyce Thompson, and the Nourmahal, Vincent Astor, all of New York.

Scouring under their bows and sterns will be more than 200 "hip pocket" craft, tempted to invade southern waters in greater numbers than ever before by approaching completion of the North-South inland waterway.

Already this year Miami has had opportunity to see such trim craft as George F. Baker's 272-foot Viking, now cruising in Pacific waters, John Barrymore's Infanta and 225-foot Winchester of Brig-Gen. Cornelius Vanderbilt.

Others which already have anchored, or called, here include the Chelena, owned by Charles E. P. McCann of New York; the Arcadia, Huntington F. Harwick of Boston; the Coronet, Irving T. Bush of Brooklyn; and several smaller craft.

Also under Capt. Bauder's watchful eye, as he sits in his tiny office, at famed pier 5 on Biscayne Bay, are more than 170 charter boats, ready for a day's or a week's sailing or fishing.

Bauder, busy assigning space to early arrivals and arranging accommodations for others expected, forecasts an increase of 25 percent in the number of yachts here this winter.

He and other waterfront observers predicted \$125,000,000 worth of boats would berth in the municipal basin, which can accommodate some 600 craft, or the hundreds of private berths for runabouts and cabin cruisers scattered along the margins of Biscayne Bay and Indian Creek.

OLD PEOPLE find way to keep breath wholesome

Halitosis (bad breath) quickly yields to Listerine, safe antiseptic and deodorant

Either because of stomach disturbance, food fermentation, or the wearing of false teeth, old people frequently have halitosis (bad breath). No wonder other consider them a nuisance.

But now science has found that the regular use of Listerine will often overcome offensive mouth odors due to the fermentation of bits of food on mouth, teeth, or dental plate surfaces.

This safe antiseptic and quick deodorant works quickly. It cleans mouth, teeth, and gum surfaces. Halts fermentation and prevents a major cause of odors, and then counteracts the odor themselves.

Try using Listerine every two or three days. See how much more wholesome it leaves your mouth. How it sweetens your breath. Lambert Pharmaceutical Co., St. Louis, Mo.

People To Profit From Flight Into The Stratosphere

Information Gained Will Help Making Weather Forecasts

WASHINGTON, Nov. 23. (AP)—The man in the street stands to gain something more than a vicarious thrill from the fact that a huge balloon carried Capt. Albert W. Stevens and Capt. Ovil Anderson to a new high in a mysterious zone called the stratosphere. One benefit of stratosphere

flying to "John Doe" is the possibility of more definite information on whether to take his umbrella with him to work and whether to put anti-freeze in the auto radiator. Knowledge gathered of winds and air currents at great heights are considered important to more accurate weather forecasting. On the 1934 flight it was found that at one level the wind was blowing at a rate of 70 miles an hour, and other unexpected weather features were discovered. While such peculiarities would have only an indirect effect on weather at the surface of the earth, meteorologists believe that only by studying such phenomena can more accurate weather forecasting be done. Dr. Lyman Briggs sees in the spore studies a possibility of new light on the lives and dis-

tribution of bacteria causing human and plant diseases. A tube with a sticky coating on the inside was dropped from the highest altitude of the flight, collecting spores on the sticky substance. When the tube reached the bottom of the stratosphere it was automatically sealed. Doctor Briggs is director of the national bureau of standards and chairman of the scientific advisory committee of the National Geographic society's air corps stratosphere flight. From this experiment it is hoped to discover if spores live at the rarefied heights and if they are similar to those lower down. One next going to catch the "stratosphere express" for London, though, until a good deal more is added to the sum of flying knowledge. "At the present time it

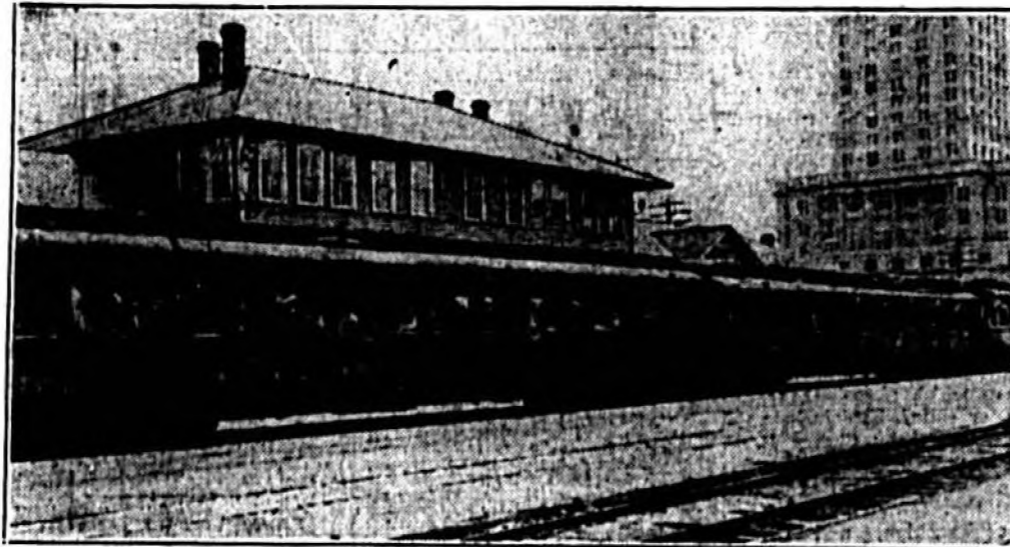

wouldn't be possible to build planes capable of commercial service in the higher parts of the stratosphere," said Doctor Briggs. "By building a stripped plane just light enough to get up there, aviators have taken the heavier-than-air ships up close to 45,000 feet. But thus far airplanes have not been developed to the point where a large ship, carrying a pay load and sufficient fuel for long hops, can be built. "From the standpoint of transportation, the stratosphere is ideal in theory, however. Its thinner air would make for great speeds." Airplane designers now have in view the building of planes which will fly normally at about 15,000 feet and one commercial airline has its pilots fly regularly at 10,000 feet.

'DIXIE' HOWELL ALTAR-BOUND

New Nation Of Chinese Asks Japan's Help

Soldiers Are Wanted In "Pungo Country" Of Communists, Official Declares

In Harmony With Japan, Says Yin

Head Of Council For "Rescue Of China" By Such Proceedings

Yin Hsiang-shan, head of the new nation, autonomous council for 25 counties in Hunan and Chinese provinces, asked Japanese government officials and military to send troops to purge North China of Communists.

In proclaiming political independence from Nanking, Yin said "I stand for the rescue of China and close harmony with Japan."

He declared that five provinces of North China had been invaded by 25 counties in self-government.

Yin said that the new nation had been established through the streets of the city today, maintaining its independence from Nanking.

Authority claimed there was danger of a clash with Communist forces if the government for autonomy was not established.
