THREE TROPHIES WERE presented Monday to Sanford bowlers. George Touhy, second from left, made the presentations. Paul Marcotte, Men's Association secretary, received the award for Al Depalma for his highest average, 193, at Jet Lanes; Dot Powell, center, got the woman's award for highest average, 164; John Spolski's award was for games of 278, 211 and 213 for 702 series which is only the fourth sanctioned 700 rolled in Sanford; at right next to Spolski, is Fran Morton, Sanford Woman's Bowling Association secretary.

Cape Battens Down In Case **Ginny Strikes**

CAPE CANAVERAL (UPI) -America's \$1 billion space port at Cape Canaveral battened down with sandbags and storm warnings today in the face of a boiling threat from Maverick hurricane Ginny.

The tropical storm, located less than 200 miles east-northeast of here and moving toward the Florida east coast early today, sent emergency crews to work lashing down giant rockets and massive antennas shortly after dawn.

The 15,000-acre spaceport about 165 miles north of Miami, was placed under weather "condition-2"-an alert that a hurricane is within 24 hours of possibly hitting the area. Under normal procedure, "con dition-1"-the final hurricane warning-would be sounded 12 hours ahead of the expected arrival of the storm.

Informed sources said they suspected the hurricane might come inland further south, and that the Cape Canaveral area would be brushed by winds of 50 to 60 miles per hour after dark today.

As the sun gleamed bloodred through thick haze on the eastern horizon, crews set to the task of anchoring down all pieces of equipment that could be blown around by the hurricane's winds. "It's all a precautionary measure right now," said one spokesman. "Nobody's running around in a panic."

Several large rockets were standing on launching pads at the time the "condition-2" alert was issued. At least one -a Titan-2 intercontinental ballistic missile poised to fly within a few days-was hauled down and placed in the safety of a hangar on Cape Canaveral.

The National Aeronautics and Space Administration (NASA) had three of its rockets-a Saturn "super-booster," a revolutionary Centaur hydrogen-fueled rocket and first stage of a Delta rocketstanding.

Students Plan Mass Protests

TALLAHASSEE (UPI) -Florida A&M student leaders have threatened mass protests unless two suspended integra tion leaders are reinstated to the Negro university.

Mrs. Patricia Stephen Due and Reubin Kenon were indefinitely suspended by a faculty disciplinary committee after being convicted of contempt of court in a recent racial demonstration here.

Student president Prince McIntosh called the suspension "unjustified," and said Tuesday he and other student leaders will demand that President George W. Gore Jr. reinstate the students.

If the demand is not met, McIntosh said, "there will be mass protests."

Dr. Gore could not be reached for comment.

Conference Day Set At SSJH

Friday will be Conference Day at South Seminole Junior High School in Casselberry and teachers will be available for conferences with parents from 9:30-12:00 a.m. and 12:30-3:00 p.m.

Report cards are being distributed to the pupils today and appointments have been made with some of the parents whose children are having difficulties with their school work.

John Angel, principal would like to make it clear however that all parents are welcome whether they have an appointment or not.

Trend

NEW YORK (UPI)-While the number of farms and farm workers in the United States has dwindled considerably since 1935, the number of persons employed by the U. S. Department of Agriculture has increased 43 per cent, according to the Tax Foundation Inc. There is now one USDA worker for every 28 farms in the country. compared with one employe for 80 farms in 1935.

Timid Liberals

Surely by now there ought to have been some sober second thoughts among those Yale and Princeton University officials who felt it necessary to oppose publicly appearance on those campuses by Gov. George Wallace of Alabama and Gov. Ross Barnett of Mississippi.

Totally beside the point is the question of official university disagreement with the views held by Wallace and Barnett on racial and other matters. Also irrelevant is the question of how Negro and other elements in the university towns look upon the Wallace-Barnett views.

What is at stake here, it goes without saying, is the right of all sides to a controversy to be heard and the right of interested parties to hear divergent views.

The university, dedicated to the quest for truth, preaching the open mind, is the last place in a free society that should talk of barring speakers. Nor should it be necessary for a school to announce that it "dissociates itself from the views" of any speaker.

It is a confession of weak faith in the processes of freedom when anyone refuses to listen to opposition arguments on any score whatsoever, or indicates that the expression of those views is being tolerated with

Implicit in our whole notion of

freedom is the idea that it is inherently strong that it can endure the stormiest exchanges of opinion, that it can even survive assaults

Thus it is that we let Communists, socialists and other nonlibertarians spout their stuff in this country. We are willing - and we should be - to test our prized freedoms against the competition, if any, offered by these alien philosophies of government.

It seems a painful reversal to hear now from anyone associated speakers.

Nor can the officials involved of such appearances.

They were not acting in the tradition of either American or university freedom. They behaved as men of small faith. Those who believe in the mechanisms of liberty should fear no test of them, nor fear to be associated with their unhampered use.

Bigger Than Castro

There may be good reason for it, but it seems heartless and unnatural for Americans to sit by and not provide help for Cubans who have been left homeless, hungry and stunned by the ravages of hurricane Flora.

Castro has scornfully rejected aid from the American Red Cross on the ground that any such help from a country that is "ruining the Cuban nation with a blockade and aggression" would be hypocritical.

Once again, Castro is wrong.

Dear Abby: By Abigail Van Buren

DEAR ABBY: I have a problem I'll het you've never heard of before. I want to take belly dencing lessons and I can't find any school that teaches it. I looked in the Yellow Pages under DANCING, BELLY and EGYPTIAN without success. I don't want to become a professional belly dencer. I just went to learn for my own satisfaction. Can you help me?

LORRAINE DEAR LORRAINE; Place an ad in the classified section of this newspaper. I understand the results they get are right on the button!

DEAR ABBY: Our 17year-old son bought himself a second-hand car with money he saved from working during the summer. A neighbor on our block told us that our son tears around at high speeds and is generally a reckless driver. Our son has never had a ticket (that we know

have nothing to gain by making up such a story. When we asked our son about this, he said he has never driven recklessly, and they must have confused him with somebody else. If he were your son, what would you do?

TRYING TO BE FAIR DEAR TRYING: Nothing. for the moment, If your son 15 a reckless driver, you will hear about it again, from the local police or another witness. Or you'll see it with your own eyes. There is a possibility that your neighbor is mistaken. When parents let their teenagers know that their word is as good as an adult's, and they ARE trusted, it does more good than ten trips to the woodshed.

. . . DEAR ABBY: I've always known it was extremely bad manners to congratulate a bride, but I never saw it in print any-

column. Every time I hear someone say "congratulations" to a newly engaged girl, I think (to myself) that he or she might as well add, "I didn't think you could land him!" I'm glad you used that letter in your column, Abby. I am sure that 99 out of 100 people continually make that social blunder.

NORTH

North and South would have been better advised to get to three no-trump. There would be no trouble with that contract. South should take most of the blame. If he had merely bid three spades North would surely have tried three notrump, but once South jumped #K74 to four there was nothing that North could do about it. Offhand it looks as if four

spades would make also, but strangely enough South wound up going down two tricks. It wasn't really his fault, but with the killing defense.

Most Russians Reported Gone

WASHINGTON (UPD) -Army Chief of Staff Gen. Earle G. Wheeler says that the Soviet Union has withdrawn about two-thirds of its forces from Cube since last October's erisis.

Wheeler told the Association of the U. S. Army Monday the remaining Russians were mainly technicians, training personnel and some air defense specialists.

While Wheeler did not mention any exact figures, officlais have estimated the peak Russian force at 22,000. His statement indicated there are only a little more than 7,000 stationed there at present.

Osceola County Cool To Karl

KISSIMMEE (UPI) - Gu bernatorial candidate Fred Karl, who says he will fight for a higger legislative voice for heavily-populated counties, got a cool reception from small-county officials here Monday.

Osceola County commissioners and the county attorney ate elsewhere when the Daytona Beach representative spoke at a Rotary Club lunchcon meeting.

County Commissioners Chester Barber and Tom Bumby said before the luncheon that they disagreed with Karl on school matters and felt he was against small countles.

Meets With Rusk

WASHINGTON (UPI) -Mohamed Yazid, a personal representative of Algerian President Ahmed Ben Bella, will meet Wednesday with Secretary of State Dean Rusk on the Algerian - Moroccan border conflict,
