

Tax Cut Bill

(Continued from Page One) may be laid before Congress before it adjourns late this month.

Under tentative plans, the resolution would put Congress on record as asking the President to direct Warren R. Austin, the American U. N. delegate, to call a general conference to revise the United Nations Charter. The aim would be to make that organization a more effective instrument for world peace.

Mentioned as possible sponsors of such a request include Senators Sparkman (D-Ala.), Byrd (D-Va.), O'Mahoney (D-Wyo.), McMahon (D-Conn.), Baldwin (R-Conn.) and Flanders (R-Vt.).

Congress may complete action by nightfall on a bill designating the Speaker of the House as President in the event President Truman should fail to complete his present term. House Republican Leader Hallett (Ind.) announced plans to call up the Senate line of succession and in effect stop the line with the speaker who at present is Joseph W. Martin, Jr. of Massachusetts, a 63-year-old bachelor.

Senator Gurney (R-S.) called for a showdown in the Senate on a proposal to unarm the armed forces under a new Secretary of National Security. He predicted a vote would be reached or expected passage of the bill. But Democratic strategists said they doubted that all of the debate would end before tomorrow.

Senator O'Mahoney (D-Wyo.) said the key to stabilization of the nation's economy is rehabilitation of Europe and Asia. Because of this, he said, "there won't be any quick solution" of the problem of reducing prices for food and other commodities in this country. Food exports, O'Mahoney said, are the major reason for high food prices.

Legal Notice

IN THE COURT OF THE COUNTY JUDGE, SEMINOLE COUNTY, FLORIDA.

In re: Estate of Mary C. Wardwell, Deceased.

To All Creditors and Persons Having Claims or Demands Against Said Estate:

You and each of you are hereby notified and required to present any claims and demands which you or either of you may have against the estate of Mary C. Wardwell, deceased, late of said County, to the County Judge of Seminole County, Florida, at his office in the Court House of said County at Sanford, Florida, within eight calendar months from the time of the first publication of this notice. Each claim or demand shall be in writing, and shall state the place of residence and post office address of the claimant, and shall be sworn to by the claimant, his agent, or his attorney, and any such claim or demand not so filed shall be void.

Mary P. Brent, As Administratrix of the Estate of Mary C. Wardwell, deceased.

Miners Return

(Continued from Page One) John L. Lewis and his policy makers.

They were scheduled to return to the pit yesterday after a 10-day vacation but prolonged the holiday an additional day until the union ratification procedure was carried out.

"I hope these wages don't go out the window in the higher cost-of-pork chops," one old miner mused as he waited the signal to enter the shaft.

"It's the best contract we ever had but it's likely to hit us right in the breadbasket," said another. "Watch the prices go up now. We'll need all of the raise to make ends meet."

Joe Chebaris, 28, of Bridgeville, provided a diversion in the mine washroom as he hoisted his dress clothes to a ceiling line after changing to work garb.

"Joe's hanging up his vacation," a miner chortled. "Yeah," commented another, "but don't forget that it's the first vacation we ever had. We've been paid for vacations before but we always were too busy to take 'em and money doesn't rest a man."

Outside a string of mules was led into the shaft where they are used for hauling. Their "vacation" never too. One of the onlookers wanted to know if the mules got anything out of the contract.

"No," laughed a miner, "not until they sign a union card, and they're too mean and ugly to do that."

The mine, along with many others, shut down prematurely before the men quit work in anger over the Taft-Hartley Labor Law. The miners are now reconciled to working under the measure, but they have not forgotten it.

Race Funds

(Continued from Page One) year. Due to heavy demands for new roads and other improvements, the Commission had to raise the county millage from 8 1/2 to 10 mills last year, said Mr. Herndon.

At the June 3 meeting, he reported the matter of the race track fund division was discussed, and it was decided that the County was in greater need of the race track money than the schools, particularly for new road construction. It was also pointed out that the previous division of this fund had been made to meet an emergency in connection with payment of salaries to school teachers, and that this emergency had been passed.

It was pointed out that roads in the county were badly in need of repairs, that the County is expanding rapidly, and that the Board would be unable to meet the demands of the citizens out of the present revenue, said Mr. Herndon.

It was further stated that these demands will increase as Seminole County develops, and that in some instances school buses had difficulty in transporting school children over certain roads.

At that time the Board was

Red Plot

(Continued from Page One) mountains but also controlling the forces fighting in the large cities.

"According to this plan the revolution was ready to start in Athens at 1 A. M. July 10. Orders already were given for distribution of arms to military units of the Communist party. The entire illegal machinery of the party (that which functions underground) was put into motion."

"The government has many more details concerning the plot, but these details are not made public now because it might interfere with subsequent developments. Those arrests and inquiries which will follow have absolutely no connection with present emergency laws. They are regular arrests made under prevailing civil laws and prosecutions will be carried out in civil courts. Most of those arrested will be taken out of Athens to islands near the city to facilitate the work of the authorities. Some of the ringleaders, however, will remain in Athens. This transport already has started."

"During the past few days government observers noted many important party members left the vicinity. We are certain these have gone either to the mountains or are hiding in Athens. This transport already has started."

"The Communist party, which in fact has outlawed itself, is not being prosecuted. The government is not arresting persons because they are members of the Communist party, but because they are planning to take advantage of the public school system, whether they are members of the party or not, only plotters were arrested. The majority of them are members of the party, however, some are just tools."

Since he was eight, Philip has been brought up in England and Scotland by Viscount Mountbatten, for many years the playboy "Lord Louis" who became one of World War II's top admirals and later Viceroy of India.

Princess Elizabeth and her sister Margaret were among Philip's childhood playmates at the late, usually luxurious Mountbatten home in London's Park Lane.

After schooling at Chelmsford and Gordonstoun in Scotland, Philip entered Portsmouth Naval College in 1937. He made the first football eleven and won the King's cup in the outstanding end of the year.

During the war he served as a midshipman on various cruisers and battleships. He was second in command of the destroyer, Wallace during the Sicily landings and was mentioned in dispatches as senior officer of the battleship Valiant in the Battle of Matapan.

Rumors linking him with Elizabeth first trickled out of royal circles in Athens. They were at first ignored, then denied. But Philip was frequently a house guest of the British royal family, and a widely published photograph of him, wearing with the Princess kept romance, romance alive.

Throughout the secure bubble, some leftist elements, opposed the match because of Philip's link with the Greek royal house. Philip displayed a talent for keeping out of the limelight that should stand him in good stead as the husband of a reigning queen.

A Prince consort, as well established constitutional tradition, should be seen but has heard in nothing affecting the government of the British Empire. Queen Victoria's husband, Albert, broke the rule and got into trouble. Philip is unlikely to repeat the mistake.

HERO TO RETIRE

WASHINGTON, July 9, (AP)—General Thomas T. Handy, army deputy chief of staff, will succeed General Jonathan M. Wainwright, hero of Corregidor, as commander of the Fourth Army with headquarters at San Antonio, Tex., when Wainwright retires. The War Department said today that Wainwright will doff his uniform Aug. 31. Handy will assume command the next day.

Rifle Company

(Continued from Page One) vices in the National Guard will reduce the requirement of active service in the regular Army at least half or more, he declared.

A model plane meet will be held Sunday at the Municipal Airport, it was announced by William A. Hollyhead, chairman of the model plane committee. All entrants will have planes attached to wires for "U-control." Contestants from all over the state are expected. John Sauls announced that a baseball game would be played

Food Prices

(Continued from Page One) Francis said that food lately has been "getting more than its usual share of the consumer dollar."

"We regard that as a warning signal," he declared. "To us it means that food is in for stiff competition from new automobiles, appliances and housing. In fact, the competition has begun. And higher rents may have some further effect."

Dealing with the role of food processors in the food price picture, Francis said the factors which dictate what the housewife pays "are largely outside the control of the processor."

He added that during the 12 months starting in March, 1946, General Foods had to pay higher prices ranging from 220 percent more for cocoa and 113 percent more for coffee to 36 percent more for sugar, 50 percent for corn and 54 percent for wheat.

"Today we are working on the smallest (profit) margins in the history of the company," Francis said. "If this is true with us, I believe it to be true of the industry."

Emerson P. Schmidt, director of the Chamber of Commerce's Economic Research Department, told the committee the proposed Marshall plan for Europe "will mean that we will have less to consume here with additional upward pressure on our price structure."

Schmidt added that this in turn will set in motion a generalized union wage demand across the economy.

The Chamber witness said he was not arguing against the Marshall plan but that if it is put into effect "the American people will have to recognize that through one means or another their standard of living must shrink."

Such shrinkage, he went on, could be made effective "in several ways or in a combination" of these ways:

- 1. Rationing, price and wage control.
- 2. "Exceedingly heavy" taxation to drain off excess money demand.
- 3. Government borrowing out of savings.
- 4. Inflation.

Schmidt said there is a theory prevalent today that "by taking toll of consumers in general, for the benefit of selected groups of organized labor, the total of our purchasing power is somehow increased."

He said this is exemplified "by giving consumers less coal for their dollars in order to give the John L. Lewis constituency some \$13 a day for digging it."

O'Mahoney, in describing the rehabilitation of Europe and Asia as the key to stabilization of America's economy, said that because of this "there won't be any quick solution" to the problem of reducing prices in this country.

During World War II world exports of cotton goods declined to about two and a half billion yards a year compared with about seven billion yards a year before the war.

Czechs Retire From Meet At 'Red Command'

Acceptance To Paris Conclave Reversed By Soviet Dictate; Hungary Bows Out

PRAGUE, July 10, (AP)—Sources close to the government said today Czechoslovakia, by Moscow request, would withdraw her acceptance of the invitation to the European economic conference at Paris.

The cabinet went into hasty special session after hearing by telephone from Moscow, the informants said. It was believed the cabinet heard directly from its Communist Premier, Klement Gottwald, who flew to Moscow yesterday for talks with Prime Minister Stalin.

If Czechoslovakia should withdraw from the Paris conference on the Marshall aid-to-Europe proposal, it would virtually complete the boycott of the talks by Russia and the states within her orbit in Eastern Europe.

The government announced Tuesday it had "decided to accept the invitation and authorize the Czechoslovak ambassador in Paris, Jindrich Nosek, to participate in sessions of the conference."

(Czechoslovakia's Communist Premier and Foreign Minister Jan Masaryk, are conferring with Soviet authorities in Moscow. A Moscow dispatch today said it was indicated that they would leave for Prague Saturday.)

By A. I. GOLDBERG
PARIS, July 10, (AP)—A boycott of the European Economic Conference by virtually all states within the Soviet sphere developed today as Hungary joined Bulgaria, Romania, Yugoslavia and Poland in rejecting a British-French invitation to meet at Paris Saturday.

With today the deadline for replies' attendance by at least 15 of the 22 invited nations was certain. Only two nations in the Russian sphere, Finland and Albania, remained to be heard from. Albania was expected to follow the lead of Russia, whose foreign

New Law Firm Will Be Opened By Housholders

Mr. and Mrs. Karlisle Housholder, both graduates of the Florida law school, have leased a suite of offices in the Brunley-Palston Building formerly occupied by Judge J. C. DuShon and the late H. C. D. Boss and in the near future will occupy this location for the practice of law.

Mr. Housholder graduated last year and prior to attending the State University, attended Stetson University for three years. They were married in June, 1946, on the campus in the Florida Union Auditorium. Prior to attending law school, Karlisle attended college for two years, sold insurance for several years, and then served as a sergeant 18 months with the infantry training raw recruits.

After graduating from law school, Mr. Housholder during the past year was associated with the law firm of Adkins and Adkins in Gainesville. During the time the young couple were together at the University they resided in Murphree Hall. He attended under provisions of the G. I. Bill of Rights and she under a 1946 Florida act allowing veterans' wives to attend the University of Florida.

Karlisle Housholder was born in Sanford and graduated from Seminole High School. He recently declared that he had traveled all over the United States and had not found any better place to live than in Sanford and that he expected to make this city his home. Mrs. Housholder, whose maiden name was in Daytona Beach, came originally to Florida from Pittsburg, Pa.

E. P. Housholder will move in the near future from the offices in the Sanford Atlantic Bank Building which he has occupied for the past 23 years. He and Mrs. E. P. Housholder live at 2044 H. H. Hines Drive.

Discovery Of Red Plot In Athens Puts Dent In Soviet Expansion

Betrothal Announced

Princess Elizabeth of Great Britain whose engagement to Lieut. Philip Mountbatten R. N., former Prince of Greece and Denmark, was announced yesterday by her father King George VI. No date has been announced for the wedding, but it is rumored it will take place in October at Westminster Abbey. Both are great-great grandchildren of Queen Victoria, had been located in New York

Papy Jury To Be Selected From 93-Man Venire

LAWYERS REQUEST EXTRA LIST OF PROSPECTIVE JURORS

TALLAHASSEE, July 10, (AP)—The six-man jury to try former state Rep. Bernice C. Papy of Key West on legislative bribery charges here July 21 will be selected from a special 93-man venire, Circuit Judge W. May Walker ruled today.

With both defense and prosecuting attorneys present, the judge drew a regular panel of 18 names from the jurors' box today. That exhausted the name slips, and he ordered the county commission to put another 250 names in the box before next Tuesday, when he will draw the remaining 75.

State Attorney Orion C. Parker, Jr., and defense lawyers J. Lewis Hall and Weldon G. Stary joined in requesting the extra list of prospective jurors.

Papy was indicted on three counts on alleged attempts to bribe fellow members of the Florida House of Representatives to help defeat a bill which would have denied commercial telegraph and telephone facilities to race track bookmakers.

The indictment followed a grand jury investigation which the House requested after Reps. Hrayley Odham of Sanford and Clarence Camp, II, of Ocala charged on the floor of the House that Papy had offered them cash bribes. Papy, at liberty under bonds of \$2,000, has pleaded innocent to the charges.

Requesting the expanded list of prospective jurors, Defense Attorney Stary told the judge "a lot of people are going to disqualify themselves, there's been so much in the papers."

Hall said, "We're going to have a lot of people up here. If we don't have enough jurors it will mean a day's delay in the trial."

State Attorney Parker has served notice he will call only four witnesses for the state—Reps. Odham and Camp, House Speaker Thomas D. Beasley of De Funiak Springs and Mrs. Lamar Hledson of Tallahassee, chief clerk of the House. The defense is not required to submit its list of prospective witnesses in advance.

Pfc. V. K. Smith To Go To Austrian School

UNITED STATES FORCES IN AUSTRIA, July 10 (Special)—Pfc. Virgil K. Smith of Sanford has been selected to attend the USPA Zone Command School of Standards at Zell am See, near Salzburg, Austria.

Pfc. Smith, whose parents Mr. and Mrs. Virgil L. Smith live at 455 West Eighteenth Street, entered military service in September, 1946 at Boca Raton, Fla., shortly after graduating from Seminole High School. He is now serving with the 7701 Handgunners company in Vienna, as a supply clerk.

Effects Of Coal Pact on Prices Studied

Taft Disagrees With Hartley Over His Interpretation Of New Labor Statute

WASHINGTON, July 10, (AP)—President Truman received from his economic advisory council today a report appraising the possible effects of John L. Lewis' new coal contract on the cost-of-living.

Dr. Edwin G. Nourse, chairman of the three-man council, said the report will be discussed with the entire Cabinet at the White House tomorrow. He said it likely will be made public later.

Nourse declined to indicate the council's findings which were embraced in a mid-year report.

"Does it take into consideration the new coal wage contract and its possible influence on the wage-price spiral?" Nourse was asked.

"Oh yes, we are aware," Nourse replied. "We read the papers."

The question referred to the new contract Lewis has signed with bituminous coal operators in behalf of his 400,000 United Mine Workers. It gives them their highest wages in history.

Mr. Truman himself at his news conference declined comment on the agreement, saying it was a matter between the mine owners and workers.

A reporter asked the President whether he knew of any study being made by the government as to effects of the wage boost on the cost-of-living picture.

Smiling, Mr. Truman told the reporter that Mark Sullivan would probably tell him. He referred to the newspaper columnist.

(In his column today Sullivan discussed the coal-wage agreement saying "The consequences of this contract are not limited to the participants; the effect on them is only beginning. From them the consequences spread to the entire economy of the country and to every citizen.")

(Sullivan concluded by saying: "Labor is to get more wages, industry must charge higher prices, and the public must pay higher prices for goods. Poor picture.")

The authors of the Taft-Hartley Labor Law disagreed, meantime, as to whether the coal contract violated that statute.

Rep. Hartley (R-N.J.) told the House yesterday that a provision regarding collection of union initiation fees and assessments was a "clear violation." He demanded that the administration prosecute the mine operators.

But Senator Taft (R-Ohio) said he didn't think the contract is "in any way a violation of the law."

Taft spoke up at a hearing before the joint committee on the economic report after a witness, H. C. Forbes, had criticized the coal agreement. Forbes, publisher of "Business Magazine," said he

Dupont Trustees Prepare to Fight FEC-ACL Merger

JACKSONVILLE, July 10, (AP)—Trustees of the Alfred I. Dupont Estate, in a statement of opinion today, reiterated their determination to resist to the fullest extent consolidation of the Florida East Coast Railway with the Atlantic Coast Line as recently ordered by the Interstate Commerce Commission.

The trustees, holding controlling interest, said they would continue the fight for independent operation "regardless of time and cost." The statement was issued by Edward Ball, one of the four trustees.

The ICC consolidation decision, made on 5 to 4 vote, was announced May 20. As FEC is in receivership, the decision must go to federal court for further consideration and approval.

62 Boys From Seminole To Go To Camp Winona

YMCA Summer Camp At DeLeon Springs Will Open Monday

Camp Winona, near DeLeon Springs, will open for 62 boys of Seminole County on Monday, it was announced today by Herman E. Morris, Seminole High School principal, who is directing activities at the YMCA sponsored camp for the 22nd season.

The purpose of the camp, he said, is to give the boys a happy, wholesome vacation under the best possible environment and leadership.

The camp is a member in good standing of the National Rifle Association and the National Archery Association, and camps also participate in the National Red Cross life saving and swimming program.

Each boy is taught how to swim and to care for himself in the water, and lessons are given early in the day so that boys will have the very best methods. All kinds of sports are directed by a qualified athletic director.

Reveille is at 7:00 A. M. and is followed by flag raising, morning exercises and the morning meal with breakfast at 7:30. Cabin cleanup and inspection is at 8:00 o'clock, and the morning activity program starts a half hour later. At 11:00 o'clock there is a swimming instruction for beginners. The noon meal is followed by a rest period.

The afternoon activity program begins at 2:30, the afternoon swim at 4:00, a free period at 5:00, and supper at 6:00 o'clock. Football is at 6:30 and Council fire with stunts and contests at 7:30 o'clock. Cabin devotions follow at 8:30 with taps and lights out at 9:30 P. M.

The following boys are due to attend the camp session: Donald Kelly, Robert Shoemaker, C. R. Flowers, Richard Phagan, Robert Shaw, Kenneth Hollis, James Hollis, Stanley Katz, Samuel Jacobson, Tommy Speer, Melville Brinson, Jimmy Daly, Robert Baker, Allison Baker, Gene Elsherry, Al Phillip, George Harden, John Fryer, Alfred Stanley, Wade Garner, Ronnie Garner, Nolly Dunn, Buddy Dunn and James Stripling.

Also Curtis Winfrey, Larry Burney, Joseph McDaniel, Walter Routh, J. T. Black, James McKee, Edwin Madden, Mike Welchel, Bobby Park, Wesley Spencer, Charles Marra, Bobby Mitchell, Sammy Dunn, Gerald Covington and Billy Clark.

Also Jeffrey Yates, Roberto Poey, Frederico Poey, Robert Gavin, John Eberhardt, Morris Phillip, Monros Pierce, George Putnam, Jimmie Owen, John Fox, Jimmie Fox, Kenneth Raguney, Jimmie Wright, Edward McCall, Edwin Lockett, Walter Graham, Billy Moore, Rodge Garner, Bobby Morris, Ernie Morris, Frank Cranston, Harold Cranston and Clyde Bowen.

SPORTSMEN HERT

The Seminole County Sportsman's Association will have a general meeting tomorrow evening at 8:00 o'clock at the Community house. All sportsmen of the area are urged to be present for the meeting.

MINE UNION CHIEFTAIN John L. Lewis chats with a reporter after leaving the meeting of the United Mine Workers' Policy Committee, in Washington, where an agreement with the northern coal operators had been ratified. The pact forestalled by one day a strike in the "captives" and northern commercial mines. (International Soundphoto)

High Idealism Is Stressed In Talk At Jaycee Meet

Rep. Bryant Of Ocala And State Jaycee Officers Present

"In our intellectual world of today, high idealism is of paramount importance, and unless our intellectual capabilities are used to the fullest, we cannot hope to survive," Rep. C. Ferris Bryant of Ocala told the Seminole Junior Chamber of Commerce at a noon meeting today at the Mayfair Inn.

"Idealism is the result of the operation of a good heart on a capable mind. Men with these qualities are needed in this country in this period of transition," Rep. Bryant added.

"Your president, Brailey Odham, is an outstanding example of a man with high idealism, a man who has the heart to push to completion those things that his mind tells him that are correct," Rep. Bryant stated as he praised the Sanford State Representative for his work in the recent session of the Legislature.

State Jaycee President Bill Redleston cited the need for the selling of Americanism to Americans in the shadow of the third world conflict.

Earlier I mentioned the importance of the President, which has sometimes gotten him into trouble. Certainly that was the case on the morning of July 18, 1948, when he told the representatives from every metropolitan area of any size in the United States that he had asked my old friend, Jim Pendergast, to help.

That request, I thought, was "the public admission of a partnership that has brought the Presidency into disrepute and

Efforts Fail To Stop Oil Export To Russia

WASHINGTON, July 10 (AP)—Chairman Welch (R-Ohio) of the House Merchant Marine Committee, acknowledged today that he is stumped in his efforts to block oil shipments to Russia.

"The blood on our battlefields is hardly dry and we are already in the shadow of the third world conflict," Welch said.

Welch said (A) the shipments were normal, (B) the department intends to continue to export petroleum products and (C) a halt might upset the world market and result in a drop in this country's own petroleum imports.

Corn Crop Forecast Below Nation's Goal

WASHINGTON, July 10, (AP)—The Agriculture Department today forecast a 1947 corn crop of 2,612,809,000 bushels as heavy rains and floods cut the crop nearly 300,000,000 bushels below the government's goal.

The forecasted crop would be about equal to the 1936-45 ten year average. It would necessitate some reduction in livestock feeding and reduced supplies of meat next year, and offer little hope of lower meat prices if consumer demand remains high.

The year's prospective production is about 675,000,000 bushels below last year's record crop. The wheat crop, on the other hand, improved about 35,000,000 bushels during June to boost the indicated crop to 1,438,000,000 bushels—by far the largest on record.

Truman Announces Intent Of Vetoing New Tax Cut Bill

Missourian Says President Faces Scandal Threat

Truman Seen Honest But Misted By Pendergast Machine

WASHINGTON, July 10, (AP)—President Truman said today that he will veto the new Republican \$4,000,000,000 income tax reduction bill.

Mr. Truman made this statement to a news conference shortly before the Senate began consideration of the legislation already passed overwhelmingly by the House.

"The President said he didn't see why there should be any change in his attitude since it is the same tax measure as the one he vetoed before, except for a different effective date."

Mr. Truman first disclosed his decision on the tax bill which would become effective Jan. 1, to Senator Barkley, the Senate Democratic leader. Barkley, telling reporters then of the decision, was asked what his attitude will be when the bill comes up on the Senate floor.

"I'm opposed to it," he said, adding he would fight it on the floor.

Then he said Mr. Truman is opposed to it and will "vote it."

Asked if a second veto could be sustained in the Senate, Barkley said "I hope so."

The measure was approved, 10-3 by the Senate Finance Committee yesterday with Barkley, and Senators Lucas (D-Ill.) and Connally (D-Tex.) opposing it.

The bill comes up on the Senate floor for consideration today. Senator George (Ga.) top-rank (Continued on Page Eight)

Two Day DDT Fog Spray Program Started By City

Thousands of flies, mosquitoes, roaches and other insects (besides) met their doom this morning as they and their eggs were sprayed throughout the City with a mist of fog from a DDT spraying machine operated by Irving Feinberg and William Jennings of Southern Chemicals Co.

The fog spraying which will take about two days to accomplish is being done through cooperation of the City Sanitary Department under E. H. Johnson and Grady Duncan and the County Health Unit represented by Dr. Frank Quillman and W. J. Robbins, sanitary officer with the chemical company.

The heater and spraying apparatus is mounted on a jeep which is driven through alleys at about eight miles an hour. Air heated at 200 degrees is combined with the spray from a 10 percent DDT solution. The resulting fog is shot out at high pressure to the right of the machine. It is harmless to humans, animals and birds.

The writer, following in an automobile with Mr. Duncan and Mr. Robbins, saw the fog billow out for at least 100 feet, penetrating weeds, crevices, wood piles, chicken yards and around garbage cans where flies and insects breed. Alleys are covered in two directions, and much interest was excited among residents in the process.

"I am truly satisfied that they are doing a very efficient job of spraying," commented Mr. Duncan. He pointed out that due to the heat process only six five gallon cans of solution are used in an hour, and that where the fog settles, the deadly effect on insects lasts for at least 90 days. The City was nearly rid of flies last year by the ordinary spraying method, he pointed out.

The spraying is designed to eliminate insects carrying polio, typhoid, malaria or typhoid germs or carriers of other diseases.

VFW Meeting To Hear Talk By Rev. Charles

Rev. Douglas E. Charles will address the regular meeting of the Veterans of Foreign Wars Post No. 2283 of Seminole County Monday evening at 7:00 o'clock. Rev. Charles has recently become affiliated with the First Presbyterian Church of Sanford and is assistant to Dr. M. D. Brownlee.

THE WEATHER

Considerable cloudiness with scattered showers through Friday. Moderate south and southwesterly winds.

Senator Barkley To Lead Opposition In Discussion On Floor Of Senate

WASHINGTON, July 10, (AP)—President Truman said today that he will veto the new Republican \$4,000,000,000 income tax reduction bill.

Mr. Truman made this statement to a news conference shortly before the Senate began consideration of the legislation already passed overwhelmingly by the House.

"The President said he didn't see why there should be any change in his attitude since it is the same tax measure as the one he vetoed before, except for a different effective date."

Mr. Truman first disclosed his decision on the tax bill which would become effective Jan. 1, to Senator Barkley, the Senate Democratic leader. Barkley, telling reporters then of the decision, was asked what his attitude will be when the bill comes up on the Senate floor.

"I'm opposed to it," he said, adding he would fight it on the floor.

Then he said Mr. Truman is opposed to it and will "vote it."

Asked if a second veto could be sustained in the Senate, Barkley said "I hope so."

The measure was approved, 10-3 by the Senate Finance Committee yesterday with Barkley, and Senators Lucas (D-Ill.) and Connally (D-Tex.) opposing it.

The bill comes up on the Senate floor for consideration today. Senator George (Ga.) top-rank (Continued on Page Eight)

Atlee Recommends Indian Dominion Head

LONDON, July 10, (AP)—Mahomed Ali Jinnah, India's Moslem League leader, has been recommended as governor general of the new dominion of Pakistan to be created Aug. 15, and Viscount Mountbatten, present viceroy, as governor general of India, Prime Minister Atlee announced today.

Atlee made his announcement in moving the second, decisive reading in the House of Commons of the government bill to grant a divided dominion status next month.

He said that while the formal announcement could not be made until the act was formally passed, the King had intimated he would be prepared to accept the recommendations of Jinnah and Lord Mountbatten as governors general.

Although Britain has promised to sever all ties with British India by next June, if the Indians insist, Atlee declared: "My hope is that these two new dominions (Pakistan and Hindustan) will continue within this great association (the British Commonwealth), giving and receiving benefits."

C. M. FARNELL DIES - Carl M. Farnell died early this morning at his home in Oviedo. He was reported by the Erickson Funeral Home. Funeral arrangements will be announced later following the arrival of relatives, held in Deland on July 27.

Atomic Energy Seen As Possible Help To Farmer

By ROBERT GEIGER
AP Newsfeatures Writer
WASHINGTON—Atomic scientists now are seeing what they can do to help the farmer. Radioactive products from the chain-reacting uranium pile at Oak Ridge, Tenn., are being used in large quantities on experimental farms.

In one type of experiment, the Bureau of Plant Industry of the Department of Agriculture, is seeking new information on how plants absorb phosphorus from soils. The phosphorus is made radioactive by exposure to radiation in the uranium pile, and its course through the plant's digestive system.

In another type of experiment, the bureau is studying weeds which were exposed to the Bikini atomic bomb explosion. As exposure to radiation sometimes causes the offspring of plants to have characteristics radically different from the parent, it is possible that useful new plant varieties will be developed.

A third experiment with radioactive carbon is probing the mystery of photosynthesis, the process by which light shining on plants converts carbon dioxide and water into food sugar. Research at the University of California at Berkeley hopes to find ways to improve on nature's photosynthesis and thereby make plants more efficient as food producers.

The objective of scientists is to produce new plants that may be immune to certain diseases, or plants capable of producing crops of better quality or in larger quantity.

The objective of scientists is to produce new plants that may be immune to certain diseases, or plants capable of producing crops of better quality or in larger quantity.

In the experiments using radioactive products from Oak Ridge, the scientists are seeking a solution to this problem: Superphosphate is the principal fertilizer in mixed fertilizers. Each season U. S. farmers placed nearly 6,000,000 tons of it on their lands. Most fertilizers are a mixture of nitrogen, phosphoric acid, and potash. Crops may use 60 percent of the nitrogen and potash. But they rarely take up more than 20 percent of the phosphorus.

Scientists want to know how much of the plant's phosphorus comes from the applied fertilizer and how much comes from the "native" phosphorus of the soil. Help is the major scientists are using to obtain the answer: superphosphate, prepared from the radioactive material at Oak Ridge, and it is fed to corn, cotton, potatoes and tobacco. Plants absorb this in the same way they do ordinary commercial fertilizer. It is a general fertilizer which shoots off electrons at random. They may be counted on a sensitive device, called the Geiger counter as plants grow and absorb nourishment from the soil and the fertilizer.

These results were obtained in laboratory experiments: Perennial rye grass was planted on three kinds of soils. The first was "evesboro" soil, a sandy loam of the east with very little native phosphorus. Matured grass grown on it absorbed 30 percent of its phosphorus from the applied superphosphate; only 20 percent from the soil. The second was "Davidson" soil, from Orange County, Va., a heavy clay loam. It is a general fertilizer which shoots off electrons at random. They may be counted on a sensitive device, called the Geiger counter as plants grow and absorb nourishment from the soil and the fertilizer.

The third soil was caribou soil from the potato producing region in Aroostook County, Me. It has a large supply of native soil phosphorus. This more fertile caribou soil supplied 88 percent of the phosphorus the grass required and only 12 percent was taken up from the applied superphosphate. This first field experiment is a joint project of the Department of Agriculture, the North Carolina agricultural experiment station and Cornell University.

Bill Terry To Quit Baseball For Fling In Soft Drink World

By BOB DUNNE
AP Newsfeatures
MEMPHIS, Tenn. — Mellowed somewhat in his 48th year, William Harold Terry has "quit baseball for good" again. The one-time wonder boy who succeeded John McGraw as manager of the Giants says he has made his final "final" break with the game. This time he is going into the soft drink business and with a title that's familiar — general manager.

Terry's last job as a general manager was with the Giants but he resigned five years ago and began a series of enterprises ranging from cotton raising to ranching.

Recently the old "lone wolf" of the majors was mentioned as a possible manager of several big league clubs and was even associated with a group reportedly formed to buy the Pittsburgh Pirates. This venture collapsed as did the others.

His last actual connection with the diamond was last year when he coached a Memphis high school team on which his son played.

Then he retired "for good." It was also in Memphis that Terry made his first break away. That was in 1918 — after his ever-changing career began with Atlanta as a southpaw pitcher in 1915. But he returned to the game later, winding up in 1924 with the Giants and finally becoming one of the all-time greats in first base.

He won the National League batting title in 1930 with a .401 average, and in June, 32, took McGraw's place. Morse and unpopularity Terry led the Giants to three World Series, the first one coming the year he took over from McGraw.

That was the year William said he'd make "baseball writers eat their unkind words."

New — 15 seasons later — he'd probably like them to drink "em — soft drinks, that is.

Peanut oil has been used for some years in oleomargarine, compounds, and vegetable shortenings, salad oil, and for other purposes.

He coached a Memphis high school team on which his son played.

Then he retired "for good." It was also in Memphis that Terry made his first break away. That was in 1918 — after his ever-changing career began with Atlanta as a southpaw pitcher in 1915. But he returned to the game later, winding up in 1924 with the Giants and finally becoming one of the all-time greats in first base.

Scientist Says Atom Bomb Size Limited

WASHINGTON, July 10, AP.— War Department scientist said today it may be possible to make atom bombs more than twice as powerful as the one which burst over Nagasaki, but that there are practical reasons why the size cannot be increased indefinitely. Even if the "technical difficulties" are overcome, he added, bigger bombs might prove unprofitable from the standpoint of damage inflicted for the increased amount of scarce and costly plutonium involved.

Dr. R. E. Lapp, physicist of the department's research and development division, said the result may be an "ultimate feasible size" beyond which the bombs "may not be progressively increased in destructive power."

Lapp, a member of the Bikini test staff, set forth his views in a paper prepared for a recent meeting of the American Medical Society. The War Department made it public today.

Lapp cited the fact that the Nagasaki-type bombs used so far involved the rapid bringing together of two "subcritical masses" of fissionable material, which upon contact produced an instantaneous release of energy in the form of an explosion.

He reasoned that to build bigger bombs, more than two such subcritical masses would have to be brought together, a matter "easier said than done."

"Furthermore," he wrote, "there is no guarantee that when one successfully detonates such an improved bomb will have the same efficiency per pound of plutonium as obtained with a smaller bomb. In view of the scarcity of this man-made element, it must be carefully rationed in peace and war."

"These two factors, which are obvious to any nuclear physicist, might alone limit the ultimate feasible size for atom bombs but there is another even more convincing reason why plutonium bombs may not be progressively increased in destructive power. This reason, simply stated, is that one 20,000-ton high explosive blast (this has been the officially expressed equivalent for the power of the bombs exploded so far) does not do as much direct damage as two 10,000-ton explosions. This rule holds true for all explosives."

In a section devoted to the question of "Defense Against Atomic Attack," Lapp said:

"The atomic bomb is a new type of high explosive and as such it is the same as any other high explosive in that you can protect against it only by deflecting it from its trajectory or by blowing it apart before it reaches its object."

"There is absolutely no mysterious mechanism in the bomb that one can detonate prematurely by radio waves, ultrasonics or other means."

Fibre-Glass-Plastic Plane Is Reported

CUMBERLAND, Md. — A. Derr Golladay figures if you could pour a pinne's fuselage into a mold instead of riveting it out of as many as 30,000 parts, it would save the airplane industry a great deal of time.

A veteran aircraft designer, Golladay has a model for a fibre-glass-plastic plane which he says he plans to produce in a small pilot plant here as soon as patent applications are completed.

"It can be made in two sections," he says, "and with jet engine could soar or coast a full hour without thrust power."

"Secret of the sleek performance is the elimination of air drag, through cutting down on the number of parts in the structure."

"Only 75 pounds of engine power, one-fourth the normal amount, will be needed to fly the craft at 300 miles an hour."

Oven-Cured. The entire fuselage, including the "skin" may be contact pressure-molded and "cured" in a large oven, Golladay says.

The proposed ship would have a new type landing gear making it possible for the craft to land across ditches or on any rough terrain that would demolish ordinary aircraft.

Synthetic fibers other than cellulose are becoming increasingly important in the textile economy of the United States.

THURSDAY, JULY 10, 1947

BIBLE VERSE FOR TODAY
IT IS CERTAIN THAT SOME WILL IMITATE YOU. LET YOUR EXAMPLE LEAD TO IMPROVEMENT AND NOT TO SHAME. Ye are the light of the world.—Matt. 5:14.

Even the coal miners are beginning to worry about what high wages are going to do to the cost of living.

The Communists apparently tried to pull the same stunt in Greece that they did in Hungary, but it didn't work.

Both Romania and Bulgaria have rejected invitations to attend the Paris "Marshall Plan" conference. They simply cannot bring themselves to accept our aid.

If it should develop that these Flying Saucers are from another planet such as Mars, we better invite them to join the United Nations so that we don't have to fight a war to make the Universe safe for democracy.

The University of Florida is expecting an enrollment of 9,000 students next September. We can remember when 500 set a new record. And yet there are people who can't understand why they have to have any more money now than they did 25 years ago.

Americans may drink more liquor than any other people on earth, but they also eat more ice cream. In fact, in most countries they have never even heard of ice cream. But last year the people of the United States consumed some 740,000,000 gallons of this most delectable confection.

Assistant Secretary of Labor Hannah says the importation of some 400,000 Displaced Persons from Europe is all to the good. "It would actually increase our economic well being," he intimated. In fact, they might be used to mine coal if worse comes to worse, instead of letting the senators do it.

Did you know that the assessed valuation of real estate in Seminole County paying taxes is \$12,643,720 and that the assessed valuation of real estate exempt from taxation is \$8,749,240? And did you know that of this \$8,749,240 of real estate, exempt from taxation, only \$5,524,890 is represented by homesteads?

The New York Times receives enough free publicity from government sources in a single week to print 800 columns, says Rep. Harness of Indiana. Most of it, the Representative continues, is "pure hog wash" to which we can heartily subscribe. For we receive about 800 columns a week, too. And all this propaganda costs the government about \$75,000,000 a year.

President Truman's special air safety inquiry board which has been investigating airplane accidents for the past several weeks has finally brought forth their report in which they recommend greater safety on air lines. Like the little boy who told his father the subject of the preacher's sermon was "Sin," and when asked what he said, answered, "He was against it."

Senator Taft who has introduced a bill providing federal aid to public schools says, "Nothing in my opinion could be more dangerous than the direction of education from Washington," and insists that while his bill grants federal aid, it contains insurance against federal control. The purpose of the bill is to provide "poor" states with as good schools as the wealthier states.

Is Your Job Fun?

"If your job is work, not fun, you will probably be wise to get out of it," counsels William J. Reilly, career consultant, in the Reader's Digest for July. "Work is something you don't enjoy doing. Your life is too short and too valuable to fritter away on a job that bores you, forces you to be with people you don't like, or calls for a knack you haven't got."

Dr. Reilly's article, condensed from the American Magazine, holds that a majority of Americans are dissatisfied with their jobs. Accountants want to be teachers; salesmen want to be cabinet makers; men who are dealing with things want to be dealing with people, and vice versa. Health and happiness for such misplaced persons depends on a change of career. The usual excuses: "I don't have the money"—"I don't have the time"—"My family won't let me"—should never be allowed to prevent a shift of jobs.

Conceding that it is often difficult to make an abrupt change of work, the author urges "testing your desire by studying and experimenting in another field during spare hours. If the new field looks promising, draw up a plan whereby you can shift from one career to the other over a period of time." Sticking to the plan is important—"when you start making excuses for postponing action, you are doomed to stay where you are."

Reilly gives three factors as paramount in estimating your chances of success in any job: your ability to do the job, your capacity for getting along well with your associates on it, and your actual desire to do it. The last is held "overwhelmingly the most important."

While industry "almost universally ignores the desire factor in hiring men," those corporations which have studied individual desires and placed employees in congenial work have found job turnover much reduced.

Fitting Machines To Men

Ever since machines were developed to do part of man's work, the men who have operated them have had to adopt themselves to the machines. Those whose speed and co-ordination of motion were not adaptable to the demand of the machines were cast aside and left to do manual labor. Now, however, a new approach is being made to the relationship of man to machine.

At Johns Hopkins University in Baltimore, experiments in what they call "human engineering" are being carried on under contract with the Navy Department's Office of Research and Invention. The reactions of a group of men to different designs and speeds of cranks, knobs and gauges are being studied and recorded. These results are passed on to the machine designers, with the result that machines are to be designed with reference to the men who are to run them as well as to the product to be manufactured.

In the long run, the product cannot fail to be improved and production increased by this practical recognition of the human element. The idea, so obvious that one wonders why it was not conceived sooner.

Billions Of Words

Far be it from newspaper men to do or say anything appearing to underestimate the value of reading and writing in any of their forms; but it seems lately as if this noble art is being deluged with limitless expansion, until it reaches a rate making the inventors themselves dizzy.

Thus the new Ultrafax system is credited with transmitting a million words a minute by "microwave," and at the same time carrying ordinary telephone and telegraph messages and television. Here are wonders which even the most romantic of scientific explorers could not have dared to prophesy only a few years ago. And obviously the end is not yet, by any means.

But let us not be too proud. As the poet Tennyson, himself a scientific enthusiast, wrote nearly a century ago: "Let knowledge grow from more to more, But more of reverence in us dwell; That mind and soul, according well, May make one music as before, But vaster. We are fools, and slight; We mock Thee when we do not fear; But help thy foolish ones to bear; Help thy vain worlds to hear Thy light."

RURAL COMMON SENSE

By SPUD JOHNSON
FARM SAFETY WEEK IS EFFORT TO HELP REDUCE UNNECESSARY ACCIDENTS

National Farm Safety Week, July 20-26, has been proclaimed by President Truman in an effort to reduce the harrowing toll of crippling, disabling and fatal accidents to farm people throughout the country. Organizations interested in promoting all-year safety through observance of the week realize that a good portion of this toll is unnecessary. They include the U. S. Department of Agriculture, National Safety Council, National Fire Protection Association, Farm Equipment Institute, American Farm Bureau Federation, Farmers' Union, National Grange, American Red Cross and many others.

To point up the seriousness of the situation, they call attention to some rather startling figures. For instance, if you take an hour for lunch each day, two farm residents in the United States will be killed and 205 injured during that time. Death comes to a member of a

TOO LATE TO CLASSIFY

By RUSSELL KAY

There ought to be a law against three-day holidays for they sure mess up a fellow's routine. Maybe it would be better if we could figure out a way to eliminate the Monday morning after. Anyhow, it sure is hard to take.

When we closed our office last Thursday night I didn't worry a bit about this week's column for I figured that I had three days in which to write it. Of course I planned a lot of fun, frolic and play, but was confident that I would still find time to dash off a column during the holiday period.

In my younger days I used to be up before daylight on the morning of July Fourth and in company with a few pals would begin shooting cannon crackers at 4:00 A.M. There wasn't any ban on fireworks and we kids would work our heads off mowing lawns, chopping wood, sweeping sidewalks or doing other odd jobs to make a few dollars and we'd spend it all on fireworks.

When it came to noise I think our crowd could hold their own with any of them. We went in for giant cannon crackers and as background music would set off bunches of smaller crackers to the delight of neighbors who had foolishly imagined that they would take advantage of their holiday to get a little extra sleep.

I remember one kid, who was chemically inclined, discovered that a job of potash and sulphur properly mixed and placed on the street-car track would explode with a blast you could hear a mile away. It was hard on the eardrums of the car crew and passengers and probably didn't do the rolling stock any good, but it was about the biggest thrill we got on the Fourth.

Providence must have looked after me for I came through unharmed but for a few trifling powder burns. Since we have adopted our "safe and sane" Fourth, the day hasn't had much of a kick for me and I'm glad that when I was a kid I was permitted to sure-enough celebrate.

But getting back to the imbecile past weekend, I spent it on a three-day fishing trip and, in spite of the fact that I'm old enough to know better, I managed to gather a grand and glorious mess of sunburn that for downright discomfort can hold its own with about anything that a firecracker can do to you.

I woke up this morning with a

three-alarm nose, blistered ears and a stinging neck. One thumb is raw from a line cut and my hands are all scratched and cut from the injection of barbed hooks, wicked fish teeth and run-of-the-mill bruises that you never remember inflicting but always show up painfully the next day. So much for my exterior. My interior was as backlashed as most of the casta I made. It seems that the mixture of coca-cola, lukewarm beer, salami, spam, chewing gum, cheese crackers, canned beans, salted peanuts, potato chips and bourbon and soda that I had accumulated over the three-day period, and that tasted wonderfully good at the time I indulged in them, were extremely unwholesome to my uncooperative stomach. And so the condition I find myself in on this bright and shiny July morning is anything but conducive to the writing of an instructive and intelligent column unless it be as a warning to others to avoid my mistakes come another holiday. Oh yes, we did catch some fish—well, we should have, considering the fact that we would start out before daylight and not return until after dark. It was a salt water excursion and I had bounced around in an open boat casting for trout, ladyfish, blues, larks or what-have-you until the tide changed. Then we would park somewhere and indulge in bottom fishing for snook, rede, cobia or anything that happened along. I did manage to snag a few trout, and a couple of blues, but my specialty seemed to be catfish whether we fished on the top or the bottom. How those fool cats could distinguish my plug or my hook from all the others—I will never be able to figure out, but they sure did, and if you think removing a three-hook plug from the face of a catfish is easy you just ought to try it some time. Financially the trip was a flop. The promoter had assured us when we started out that we could sell our fish for more than enough to cover the cost of the trip. When it was all over I got me a pencil and paper and figured that each edible fish I got cost me about \$11.00, and on top of that I had to clean the fool things. But in spite of the experience I did have fun and after nature makes her adjustments and I get back to normal, I'll probably do it all over again.

Announcement

Having assumed control of the building located on the northeast corner of First Street and Park Avenue, Sanford, Florida, known as the Brumley-Puleston Building, I desire to make the following announcement:

The entire first floor will be combined and remodeled into one store room and will be occupied by Roumiliat & Anderson, Inc., Druggist. They have occupied the corner room since the erection of the building some 25 years ago. This firm will equip the new store room with modern fixtures and appliances to enable them to better serve their customers. We expect to begin work on the alterations and improvements at once and hope to have everything completed by early fall and ready for occupancy of their new upper drug store.

The lobby entrance to the second floor will continue to be occupied by J. B. Lawson, Jeweler and Watch Repair.

The second floor, which is maintained for offices, has been refinished, cleaned and painted, and is at present occupied by Roy Holler, Insurance; John Eick, Commission Merchant; Dr. J. A. Smith, Physician; and J. G. Sharon, Attorney, who has moved his offices from his former location to rooms in the northwest corner of the building.

The suite of offices formerly occupied by Judge J. G. Sharon and the late A. C. DuBose has been leased by Karlyle and Daris Housholder, who will return to Sanford this summer to establish their offices for the practice of law. I will become associated with them at this location. The six office rooms comprising the suite are being refinished and decorated for occupancy at a date to be announced later.

This building will at all times be kept in the best of repair and condition for the convenience of the public having business with the occupants.

With the rapid growth Sanford is now enjoying we now demand will warrant the completion of the third and fourth floors for occupancy. We do not have any office or store rooms for rent.

We solicit your suggestions and good will in the hope that this building, which occupies a key location in the business district, will always be a credit and benefit to a progressive City—Sanford.

Sanford, Florida

Social And Personal Activities

Social Calender

FRIDAY
The Mimosa Circle of the Garden Club will meet at 10:00 P. M. with Mrs. E. L. Campbell, 412 Catalina Drive. Members are asked to bring plants to sell with proceeds to go toward the building fund.

MONDAY
Circle No. 10, Women's Society of Christian Services, of the First Methodist Church will meet with Mrs. L. M. Swain, 1109 East Fourth Street, at 8:00 P. M.

TUESDAY
The R. W. Ware Bible Class of the First Methodist Church will meet at the home of Mr. and Mrs. R. T. Warren, 1012 Magnolia Avenue, at 7:00 P. M. Each lady is asked to bring a covered dish. Meat, rolls and drinks will be provided by the hostess, Mrs. Warren. Mrs. C. E. Williams and Mrs. G. L. Wynn.

THURSDAY
The R. W. Ware Bible Class of the First Methodist Church will meet at the home of Mr. and Mrs. R. T. Warren, 1012 Magnolia Avenue, at 7:00 P. M. Each lady is asked to bring a covered dish. Meat, rolls and drinks will be provided by the hostess, Mrs. Warren. Mrs. C. E. Williams and Mrs. G. L. Wynn.

AAAF Offers Special Training Courses
High school graduates may now apply and be selected for training in numerous specialized Army Air Force training courses of their choice prior to enlistment and without obligation. It was announced today by Capt. Mildred F. Mathews, commanding officer of the Orlando Army Recruiting Station.

Enlistments in the new regular Army are now authorized for periods of two, three, four and five years, he said, with the exception of the Army Air Force which has a minimum enlistment period of three years. The Army recruiting station is located in the Rutland Building in Orlando.

Red Cross Will Hold Institute In Palatka

Mrs. W. A. Leavitt, Hopie Service chairman, and Mrs. Ethyl Gelsler, executive secretary of the Seminole County Red Cross Chapter, will attend a Red Cross Home Service-Claims Institute to be held July 11 in Palatka. It was announced today by A. E. Shinholzer, chapter chairman.

Services to veterans in filing claims for government benefits will receive major attention. Staff members from Red Cross Southeastern Area Headquarters in Atlanta will conduct the institute, which will also include instruction on obtaining social histories, financial assistance, consultation and guidance to servicemen and veterans.

Red Cross Chapter representatives from several chapters in this section will attend. "Home Service," Mr. Shinholzer said, "is a program of family service through which the American Red Cross carries out in communities its primary responsibility to servicemen and veterans, and their dependents."

During the past two months, there was a total of 163 cases taken care of by the local chapter. Of this number 115 were veterans, which is a decided increase over the preceding months, Mr. Shinholzer stated.

Personals

Mrs. H. M. Papworth is spending this week at The Honeymoon in Hot Springs, Va.

Mr. and Mrs. Frank Woodruff have as their guests, John Plaxco, of Louisville, Ga.

Dr. and Mrs. Frank Woodruff have as their guests Mrs. G. H. Wyman and daughter, Patricia, and Mr. and Mrs. Paul Gill of Jacksonville.

Mr. and Mrs. Frank Woodruff have as their guests, Mrs. Mahoney's brother Charles Ryan of Palatka.

Mrs. W. A. Fitts and children, Linda and Alice, have returned to Sanford after spending a short time in Ft. Pierce.

Mrs. Virgil L. Smith is recuperating from a major operation performed at the Orange Memorial Hospital in Orlando yesterday.

Miss Helen Terwilliger, who has been spending the past month with her grandparents, Mr. and Mrs. Fred Thurston, will leave Friday to return to her home in Chester, Pa.

Mr. and Mrs. Warren H. Phelps of Lake Mary have left for Orlando, N. Y., to visit Mrs. Phelps' sister, Mrs. June Peretta. En route home they plan to visit another sister, Mrs. R. L. Duncan, Jr. in Chilhowie, Va.

Spending the past weekend with Mr. and Mrs. L. Talbot at their home on South Sanford Avenue were Mr. and Mrs. A. Dorenier and granddaughter, Mrs. Pauline Wolf, of Cleveland, O., and Neva Talbot of St. Petersburg.

Awards Announced For 4-H Girls Camp

The seventeen 4-H girls who attended the camp at the Lutheran Camp site at Groveland from June 30 to July 6 have returned to their respective homes and reported that they were greatly benefitted by the instruction in recreation and crafts.

Those winning awards were as follows: For the best camper, June McGill, Geneva; the most musical, Katherine Cullum, Sanford; Recreation and swimming, blue ribbon; effort in water, Mary Lee Largent, Longwood; improvement in swimming, Janet Shaw, Longwood; leadership in water, Jane Davis, Sanford; leadership in demonstrations, Jean Glesler, Longwood; second place; leadership in recreation, June McGill, Geneva.

Those winning blue ribbons or first place in crafts were: Lois Muse, Jane Davis, Jean Ann Glesler, Donna Witte, Jane Davis, Janet Shaw, Barbara Eubanks, Katherine Cullum, Edna Michels, June McGill, Florence McGill, Brennetta Largent, Mary Lee Largent and Minnie Lee Metts. Winning red ribbons or second place in the Crafts were Doris Thompson, Maud Ann Bevin, Jane Davis, Barbara Eubanks, Ann Whitaker and Jean Glesler.

Miss Betty Jack Brochie, daughter of Mr. and Mrs. Earl Broome, whose engagement and approaching marriage to James Lawrence Ingley, Jr., son of Mr. and Mrs. James Lawrence Ingley, was announced today.

Betty Jack Brochie To Wed James Ingley

Mr. and Mrs. George Earl Broome announced today the engagement of her daughter, Betty Jack Brochie to James Lawrence Ingley, Jr., son of Mr. and Mrs. James Lawrence Ingley. Miss Brochie attended Central Florida schools and graduated from Seminole High School. She studied at the Florida State University in Tallahassee for two and a half years.

Mr. Ingley attended Jacksonville and Sanford schools for his early education and graduated from Sewanee Military Academy in Tennessee. During the war he served two years in the Army Air Corps and is now attending Alabama Polytechnic Institute in Auburn, Ala., where he is a member of Pi Kappa Alpha social fraternity. The wedding will be an event of late August.

Rationing To Affect Princess's Trousseau

LONDON, July 10.—There won't be any buying spree for Princess Elizabeth when she gets ready for her trousseau, unless Britain's clothes rationing scheme is lifted before then. And, like so many other newlyweds, it's likely the young royal couple may have to do with lack of domestic ware, furnishings and linens.

Coupons, the housing shortage, linens and bedlinen will probably hit Britain's No. 1 engaged couple as it does the humblest of her future subjects. And like many of her generations, she'll probably depend a good deal for her luxuries on the generosity of her friends abroad.

Throughout the war years and until the Royal family went to South Africa, the Princess lived on the same coupon ration as any other British girl. Again and again Princess Elizabeth attended functions in the same ensemble, with new coupons, free hats to ring the changes.

When gifts of shoes or stockings were given from British firms, the Royal Family was scrupulous to surrender coupons in exchange.

It is unlikely these days when production problems are as bad as they've ever been, and when the glare of publicity is on the betrothed couple, that any extra coupon allocation will be granted.

Like everybody else, Elizabeth must make her ration coupons last until the end of September. Like everybody else, she'll be wondering how many will be allowed for the next period, and just how long they'll last. And she'll have to be much more careful than girls in whom reporters are interested not to infringe any regulations.

Clothes for the Royal tour to South Africa were classed as "for export only" and the Royal Princesses had their first opportunity to buy as they liked. But unless the honeymoon is to be abroad, it is unlikely that the same license will be taken by the Princess.

Most British girls, many of whom hire wedding dresses from a film studio, are wondering today what the Princess's B.B.C. about her wedding dress. Restrictions have brought in a 1947 fashion for brides to wear their mother's great-grandmother's. With the London museum filled with royal clothes through the ages, Princess Elizabeth might have a good choice.

There's shortage in Royal residences just as much as in flat London.

The Princess's childhood home off Hyde Park corner was blitzed and the site has been rented Clarence House and St. James's Palace have brought in a 1947 fashion for brides to wear their mother's great-grandmother's. With the London museum filled with royal clothes through the ages, Princess Elizabeth might have a good choice.

The newlyweds probably will begin married life in a wing of Buckingham Palace, with probably a country house of their own an easier problem these days when so many stately homes of England have come onto the market.

As for Lieut. Philip Mountbatten, his clothes problems are simpler.

"He's lucky," smiled a Fleet Street photographer in a worn, one-year suit. "He can add to his wardrobe with his shirts and things at the Navy officer's shop."

Weidman of St. Augustine, G. W. Austin and W. A. Adams.

ment compensation. Mrs. Moseley said that during June, 100 veterans registered for work and that employment was found for 27 of whom 2 were disabled. The total number of applicants registered for work at the beginning of July at the Sanford office was 629, including 418 veterans which is 232 higher than at the beginning of June.

"Our Florida Veterans," Mrs. Moseley pointed out, "did a magnificent job during the war, the least they can expect is a job during peace. These veterans still have to depend upon the Readjustment Allowance claims. They are strong, resourceful, and many possess high skills. They are anxious to get back to gainful employment."

Job applicants in the local office include 42 professional and managerial, 42 clerical and sales, 30 service, 43 skilled, 140 semi-skilled, 136 unskilled, and 210 unemployable.

Payments of unemployment compensation amounting to \$1,266.00 were made in this county during the week ending June 26, to 63 persons. State-wide payments amounted to \$154,930.50 and were made to 10,161 persons.

These figures do not include allowances paid to unemployed veterans from federal funds which are tabulated on a state-wide basis. These payments amounted to \$307,000 for the week ending June 28 and were made to 14,565 veterans.

USES Urges Local Employment Of Vets

Employers in Sanford today were urged to make a special effort to employ one or more veterans registered for jobs with the Florida State Employment Service. Mrs. Moseley, manager of the local employment office made the appeal for employment of veterans in connection with release of monthly data on the employment situation in the Seminole County including job openings, applicants and payments of unemployment and veterans readjustment.

Your local merchants come first, patronize them... but for those things you can't find at home, come to Orlando!
ORLANDO RETAIL MERCHANTS ASS'N.

CHICAGO airlines agent Rosemary Kammerer, who believes that hats should be topical not practical, is shown wearing the "flying saucer hat" which she designed herself. It is made of one large saucer attached to five smaller ones. (International)
During the war Australia woolen mills at Sydney expanded production to 750,000 yards of cloth annually.
Charlie Chaplin, as the old saying goes, still plans to make more movies and is working on two stories at home. Neither contains his old tramp character, which he feels is not in keeping with the times.
Errol Flynn will start "Don Juan" in September and has set the first of the year as his sailing date for Africa. Miss America, Marilyn Buford, has left MGM, but she intends to pursue her hopeful acting career. She goes into the second lead in "Dream of Rutherford" for Seymour Nebenzahl.
Bob Hope is a popular man with the gals, no matter what he might say. Barbara Stanwyck, Ida Lupino and Joan Caulfield have all expressed willingness to appear in his "Palace." What ever happened to his deal with Jane Russell? Billy Wilder takes a five-man crew to Germany at the end of the month to film backgrounds for "Foreign Affairs." They'll shoot seven weeks in the American, British, French and, they hope, Russian zones.
Alice White, of the "Flaming Youth" era films, is playing a shady lady in "Time Of Your Life" and having the time of her life. Happily married to a screen writer, she took the job on a dare and now wants to do more work. She looks beautiful and blond. She had to dye from red for the role... Twosomes at the "Black Narcissus" preme; Jean Sabler and Margaret Whiting; Edmund O'Brien and Olga San Juan; Tony Martin and Cyd Charisse... and how about that beige tux or John Payne!
Ronald Reagan, weak but willing, was back on the Warner lot against doctor's orders. He lost 10 pounds in his pneumonia seizure. He said his wife, Jane Wyman, is feeling better but still dependent over losing her baby... Walter Pidgeon scoffs at the local fascists. He has kept in trim for 10 years via the "Pidgeon diet"—nothing but fruit juices every Thursday and Friday.
Five times as much Vitamin A has been found in the milk of cows fed on good alfalfa hay as in the milk of cows fed on poor timothy hay.

Celery Feds Will Entertain Gainesville Here Tonight

Last Night's Twin Bill Rained Out; Charlie Bissen To Toss This Evening

By ARTHUR BECKWITH, JR., Herald Sports Editor.
The Municipal Park last night at 7:15 o'clock and completely soaked the park, which was being readied for the contest with the Daytona Beach Islanders, and washed out a scheduled twin bill.

Earlier in the afternoon a heavy downpour forced the postponement of one tilt, but there were hopes of playing the final fracas until the final shower.

Tonight the Sanford Celery Feds will entertain the Gainesville G-Men in a single tilt, which is scheduled to get underway at 8:15 o'clock.

Manager Don Murray will send Charlie Bissen to the hill for the Feds and either Mason Leeper or Manager Myrl Hoag will handle the hunting for the Islanders.

Elsewhere in the league last night, the Palatka Azaleas trimmed the Leeburg Pirates in a no hit contest by a 7 to 1 margin behind the effective hurling of Len Golocoecha and Alton McGhagan. Golocoecha was relieved in the fifth frame after working four Buc players for the only Pirate tally of the game.

The DeLand Red Hats trimmed the Gainville G-Men while the St. Augustine Saints were drubbing the Orlando Senators, and as a result the Ancient City nine have replaced the G's as the league leaders.

DeLand edged Gainesville, 7 to 6 and the Saints trimmed the Senators by a 7 to 2 margin.

Babe Ruth Praises Legion Ball Leagues As Ideal Training

DALLAS, July 10, (AP)—George Herman Ruth, a shell of the giant Babe Ruth, today set the greatest playing records of diamond history, said today the American Legion Junior Baseball program gave just what he wanted for the kids of the nation, a chance to play the game where their idols did.

Still suffering from a neck ailment that almost took his life, the Babe said he was enjoying every minute of his national tour in the interest of American Legion Baseball. He flew from New York to Dallas yesterday, will appear in a parade today and will play for the American Legion teams play tonight, then go to Houston tomorrow for a similar appearance. He previously had been to Syracuse and Detroit.

Admitting that the fans liked right baseball, he declared he definitely was against playing under the lights.

"The youngsters aren't getting the chance to play the game as they should," he snorted. "They play at night in the minors, then try to play in the majors in daylight. They can't make the switch and get started right. The kids today are too soft."

"Suddenly when they're at an age when they should be ready for professional ball they're handed a ball and bat and told to start playing. They play a few years without taking the knocks of the game and having to fight for the breaks. Then they get into minor league ball that's all played under the lights. It isn't good for their health. Their baseball career is pretty short compared to the 20-odd years men used to play in the majors."

DeLand edged Gainesville, 7 to 6 and the Saints trimmed the Senators by a 7 to 2 margin.

Sanford's Buddy Lake Named On League's All-Star Vetern Team

SILVER SPRINGS, July 10, (Special)—Gainesville, St. Augustine and DeLand dominate, but every team will be represented when the Class D Florida State League stages its history-making all-star game at St. Augustine, Sunday afternoon at 3:15 o'clock. An official team tabulation released today at headquarters shows.

Nearly 3,800 fans cast ballots last week-end in the circuit's eight parks, and they chose the following players for their "All-Rookie" team, which includes:

Player-Club	Pos	Ave
Joe Zander, Daytona	1b	.231
Elynn Hanson, Palatka	2b	.293
Dave Burke, Gainesville	3b	.279
Tony Vega, DeLand	ss	.291
Bob Thorpe, Gainesville	lf	.283
Ty Brasler, Orlando	of	.297
Rex Thropo, Orlando	of	.261
Bordie Waddell, DeLand	c	.278

Average Batting .276

Player	Pos	Ave
Juan Perez, DeLand	1bp	.183
Ralph Perez, DeLand	1bp	.171
T. O'Callaghan, G'ville	rph	.224
G. Alonzo, DeLand	rph	.235
Glenn Leiphart, G'ville	util	.283
Grover Hartley, Daytona	mgr	

Here's the fans' choice for the "All-Veteran" team that will take on the youngsters:

Player-Club	Pos	Ave
Mario Perez, DeLand	1b	.279
Lyle Judy, St. Augustine	2b	.319
Jack Wilkes, St. Aug.	3b	.263
Bill Good, Leeburg	ss	.222
Stan Karpinski, St. Aug.	of	.274
Bryll Hoag, Gainesville	of	.357
Buddy Lake, Sanford	of	.280
Art Stillwell, St. Aug.	c	.277

Season Average .281

Player	Pos	Ave
Tommy Leeper, G'ville	1bp	.394
Mason Hyde, Orlando	1bp	.327
George Fultz, G'ville	1bp	.312
J. Bumgarner, Leeburg	rph	.342
T. Theobald, Palatka	rph	.318
Bill Steinecke, DeLand	mgr	

Actually, Steinecke was the fans' choice for three jobs—veteran manager, rookie manager and veteran catcher. The popular "people's choice" polled 1,259 votes to 824 by Hoag for the veteran manager job; got 916 votes for the 682 cast for Hoag as rookie manager; got 945 votes to 724 by Stillwell as veteran catcher.

Since he had to handle all three, he took the high vote job, handed the catching assignment to Stillwell and, since Hoag had already been picked, turned the rookie managerial role over to Hartley, third high in the stiffest Hoag's current handling and pitching sensation of the league, was the most popular of the many players voted for. He polled 2,055 votes to 1,375 votes cast. Oddly, Dave Burke, the Gainesville led who last month paid the stiffest fine ever assessed against a

ment of \$475 should even be considered in the matter.

The honor of handling the bats and equipment in the all-star classic will go to the DeLand and Daytona Beach boys, inasmuch as their managers will handle the teams.

The game is expected to attract a record crowd, including over 25 major and high minor league scouts, and neighboring league officials.

were doing their best and we have never said a thing about it.

When those youngsters are out there on the diamond doing their best, the least we could do is to cheer them instead of RAZING them to death. One way to break a player's spirit in short order is to continually "ride" him.

Egg Report Given At Dade City Market

JACKSONVILLE, July 10, (Special)—Receipts of eggs at the Dade City State Farmers' Market during the last weekly report period totaled 3,912 dozen. Manager James T. Johnson has reported to the Jacksonville offices of Florida State Markets. Prices for the first four days of the period, were quoted as follows: Extra large eggs, 59 cents per dozen; large eggs, 57 cents; medium eggs, 52 cents; small eggs, 41 cents. For the last two days covered by the report, prices on the first three classifications were up two cents per dozen, the price of 41 cents per dozen for small eggs remaining unchanged. Light offerings of poultry were handled, for which prices were reported as follows: Fryers, 35 cents per pound; heavy hens, 30 cents per pound; leghorn hens, 20 cents per pound; roosters, 15 cents per pound.

Indian Drug Traffic During War Is Hit

WASHINGTON, July 10. (AP)—An American wartime note to Great Britain, published recently by the State Department, said a "considerable number" of American troops became opium addicts during their stay in India. The note, dealing with postwar plans to control drug traffic in Burma, said the soldiers required special attention upon their return home. No numbers were given. The American note of Aug. 8, 1945, and the British reply were published, officials said, because of congressional interest in narcotics problems in the Far East and because of a forthcoming meeting of the United Nations drugs commission.

The phrase "cotton is king" was coined by Sen. James H. Hammond applied to those of the order who live on land.

Kansas Is Harvesting Biggest Wheat Crop

GREAT BEND, Kas., July 10. (AP)—The golden tide is rolling in from Kansas' big wheat harvest. Grain belt reports indicate recently farmers are capitalizing on a combination of good weather after a long rainy spell, improvement in the supply of combines, and just plain get-the-job-done determination to bring in the greatest crop in the state's history. In many counties, yields were exceeding early expectations—bolstering predictions of some observers that the crop will top the government's latest estimate of 278,000,000 bushels.

Tired Kidneys Often Bring Sleepless Nights

Doctors say your kidneys contain 15 miles of tiny tubes or filters which purify the blood and keep you healthy. When they get tired and stop working right in the daytime, many people have to get up nights. Frequent urination, backache, dizziness, and burning sometimes show there is something wrong with your kidneys or bladder. Don't neglect this condition and lose valuable, restful sleep. When disorder of kidney function permits poisonous matter to remain in your blood, it may also cause nagging backache, rheumatic pain, leg pain, loss of pep and energy, swelling, puffiness under the eyes, headache and dizziness. Don't wait! Ask your druggist for Doan's Pills, a simple, gentle, and successful remedy for millions for over 50 years. Doan's give rapid relief and will help the 15 miles of tiny tubes of your kidneys to get rid of the waste from your blood. Get Doan's Pills.

Jaycee Meet

(Continued from Page One)
filed." Rolleston stated. There are those among us who are trying to destroy our democracy. Those are the people to whom we have to sell democracy. Let's sell America to Americans, and if anyone does not love America, let him leave. We have no place here for those who do not love America," Rolleston asserted.

Roy Powell, state executive vice president of the Junior Chamber of Commerce, congratulated Sanford for taking progressive steps and for the completion of radio station WTRR. "Such projects are worth while and should be brought to the front in every Florida city," Powell added.

Rep. Bryant advocated direct participation in the state and national governments. He also stated that several projects involving the state government should be undertaken by the Florida Junior Chamber of Commerce.

"A close scrutiny of the state welfare organization is needed. Politicians are prone to leave welfare organizations alone. These organizations need supervision to see that those who need help are getting it, and those who need no help do not get it. We should take it upon ourselves to see that the problems of tax exemptions are properly completed. The laws restricting the invasion of professional men into the state should also be looked into," Bryant added. He also said that highway beautification in the state of Florida is of prime importance.

President Bralley Odham stated that the Seminole County Jaycees have already sponsored and have state funds to beautify the Lakeshore Drive. Odham stated that \$10,000 has been appropriated for this beautification project.

D. J. Lyons, Bob Eubanks, Sam Hendrick, Ernest A. Roulen, Douglas Charles, A. L. Lyons and R. L. Dean were introduced to the group as guests. J. L. Fields, a new member, was also introduced.

Coal Pact

(Continued from Page One)
thought some provisions indicated that Lewis and the operators "entered into a conspiracy to thumb

SEATED AT HIS DESK in the White House, President Truman is shown as he signed into law a resolution making the United States a member of the United Nations International Refugee Organization. The measure authorizes a \$73,500,000 contribution towards care of Europe's 900,000 displaced persons in the next twelve months. At the signing ceremony are (l. to r.): Assistant Secretary of State John Hildring, Rep. Bol Bloom of New York, and Goldthwaite Dorr. (International)

their noses" at the act. "I don't agree," Taft replied. "The theory is that the employers and employees should be able to make any contract they want to in free collective bargaining. Whatever the employer and employee want to agree it is all right with me. I don't think it is in any way a violation of the law."

Later, in response to questions, Taft told reporters there may have been a violation in the provision for fee collections but said this "is only a minor item." He added:

"As far as the employer is concerned it is up to him to protect himself when he makes a contract. They are free to make any contract they wish to make." Hartley had contended that only

union dues may be withheld from workers' paychecks and that in going beyond that field "the operators agreed to pay money for an illegal reason."

Eighteen major commercial products are made from apples, and at least three more are in the offing, according to reports from the Eastern Regional Laboratory.

Eggs, like all other ingredients used in cake-making, should be at room temperature—about 70 degrees Fahrenheit—to combine well.

Which hazel comes from the hamamelis shrub. The name hamamelis comes from the Greek meaning "flowers and fruit on one tree."

Tax Bid

(Continued from Page One)
ing Democrat on the Finance Committee, told a reporter the situation may be different by the time the bill reaches the White House.

"I think the individual income tax payer is entitled to some relief," George said. "We are likely to get him into a squeeze, play unless something is done now. A tightening of the economic conditions would make it impossible to give him relief."

George voted for the bill in committee yesterday. The three negative votes were cast by Democratic Senators Barkley (Ky), Connally (Tex) and Lucas (Ill). If enacted, the bill would grant tax reductions ranging from 30 percent on taxable incomes, after exemptions and deductions, of \$1,000 or less to 10.5 percent on incomes above \$302,000.

WASHINGTON, July 10, (AP)—President Truman told a news conference today:

1. He has no thought at this time of calling Congress back into special session this Fall to consider European aid legislation. He added, however, that if the necessity arises he will take whatever steps are necessary. 2. He has no intention of sending a special message to Congress on Secretary of State Marshall's plan for European economic recovery. He said he can not make recommendations until after the Paris conference on the "self-help" proposal.

3. He has no plans now for a cross country trip this Fall, as urged by officers of the Democratic National Committee. Moreover, he added, he has no plans for a trip anywhere.

4. He still favors the proposed Missouri River Valley Authority patterned after the TVA, but said this would not take care of the immediate problem of flood control in the Midwest.

5. He has no intention of naming John R. Steelman, his assistant, as head of the new conciliation service under the Taft-Hartley Labor Act.

Soft pine supplied for many years the major lumber requirements of the United States.

Paris Meet

(Continued from Page One)
minister, V. M. Molotov, opposed the plan for economic cooperation in three-power talks last week. Observers last night said there was only a 50-50 chance that Finland would accept.

Hungary's Council of Ministers announced after a long session this morning that "Hungary regrets it cannot participate in a conference in which all the big powers do not take part together." To some observers, the decision was a surprise, because of Hungary's grave economic condition. A Polish government spokesman in Warsaw, commenting on Poland's rejection of the bid, told a news conference the Poles still looked to the United States, principally, to supply what would be necessary to rebuild the ravaged nation. Poland recently sent notes to envoys of the four big powers expressing Poland's willingness to participate in European reconstruction through coal deliveries, but regretting that the nations invited to the Paris conference would be excluded from making amendments and changes in the Marshall proposal.

Switzerland, meanwhile, announced three conditions for her participation. The government announced that the Swiss would assume no obligations contrary to Switzerland's traditional status as a neutral; that the conclusions reached at Paris concerning Swiss economy would be subject to Swiss government approval; and that the Swiss reserved the right to maintain trade agreements with nations not represented at the conference.

Facès Scandal (Continued from Page One)
which, at the same time, has certainly adversely affected the political fortunes of the man who made the admission. The former congressman continued: "The joint venture of Messrs. Truman and Pendergast proceeded according to schedule and was

apparently successful. Postmaster General Hannegan applauded the results achieved. But like their cohorts of 1936, the political roustabouts of 1946 became carried away with their enthusiasm and simply failed to take into account the mathematical improbability of the returns which they concocted. So sure were they of the ground on which they stood, that they did not even bother to make the ballots and the count check." Slaughter traced developments which ultimately led to the return of some 70 indictments for alleged vote irregularities in the 1946 primary election, and mentioned the theft from the Kansas City election commissioner's vault of ballots to be used in prosecution of the cases. Aging wine in bottles before releasing it for sale is called "blinking."
