Seminole County Building and Loan Association

"Seminole County's New Financial Institution"

OFFICE 210 East First Street

The organization of this financial institution was made possible through the efforts of a group of Sanford business and financial men, who have the growth and welfare of Sanford at heart. Filled with a spirit of civic pride they have realized that in this fast growing community there is an ever increasing demand for funds, loaned on easy terms, to finance the building of homes.

The Association will serve two classes of clients: receiving the savings of thrifty and far seeing people, and loaning these funds to members who wish to buy or build a home. The outstanding advantages for the saving members is safety, yield and availability; for the barrowing member, the opportunity to finance the building or purchase of a home by, easy monthly, payments of principle and interest.

These men will direct the affairs of this association.

The Seminole County Building and Loan does not accept deposits in competition with the banks, but co-operates with them in supplying construction money for home building.

Read what these prominent personage have to say:

President Coolidge

"No greater contribution could be made to assure the stability of the pation and the advancement of its ideals than to make it a nation of home-owning families, and that all the instrumentalities toward this end are deserving of encouragement".

U. S. Senator Calder

Chairman of the Senate Housing Committee, says: "For the solution of house shortage problems we must look to the Savings and Loan Associations. These splendid institutions have to date assumed most of the burden of financing home building, in addition to their wonderful work in promoting thrift."

Herbert Hoover, Sec. Com.

"Your Associations—true peoples banks—encourage thrift throughout the nation—having made their assets sound and worthy of confidence. It is my earnest desire that the Savings and Loan Associations of the United States should be encouraged by the public spirited citizens in every locality."

Sec. Treas. Mellon

No greater service could be rendered the country than to increase the number of homes owned by those who occupy them. Building and Loan Associations in countless instances have made such ownership possible.

Building and Loan Associations have been in successful operation since 1835. In the United States there are now over 11,800 associations with combined assets of more than \$4,765,000,000 representing the savings of over 8,500,000 members share holders.

This remarkable showing is only made as a result of the whole-hearted support and co-operation by the citizens of the communities in which they operate,

The Seminole County Building and Loan Association, under State Supervision and Examination, is a mutual co-operative financial institution in which all members investing or borrowing, are stockholders.

Its funds are secured by First Mortgages on homes.

Chief Williams Pleased With New Traffic Rule Passed By Commission

Much / favorable comment was heard on the streets of the city this morning over the passage yesterday by the City Commissioners of the ordinance providing a fall sentence for persons caught operating a motor vehicle while under the influence of intoxicating liquiors for the second time. Many citisans stated that the ordinance was been passed in its orliginal form containing a clause calling for imprisonment for the first offency instead of granting the option of a fins.

At the meeting during which the ordinance was passed, Mayor Forrest Lake and Commissioner S. O. Chase advocated it's passage without the privilege of paying a fine for the first offense. Commissioner F. F. Housholder, stated that while he was in favor of the most while he was in favor of the most live, and would vote for the or the make on a charge of driving and would vote for the army in the privilege of paying a fine of the most interest of the army in the privilege of paying a fine of the community, and will not the army all army in the privilege of paying a fine of the most interest of the army in the new ordinance was an anther with the new ordinance was an arther was an anther while the new ordinance was an arther was an ar

The Fighting Man

It is a most remarkable thing to what limits fool mortals will go in their adoration of any well press-agented individual. Give a man a front page head-line twice a week with more insignificant mention inside once in a while and half the world will travel miles to grovel at his feet no matter how brainless, uncouth or worthless he may be.

Take the case of Mr. William Harrison Dempsey, better known as "Jack" by the sporting world. He certainly is hardly the type of man to excite real admiration when his record is carefully considered. Ignorant and uncultured, a "hobo" who forsook his country in time of war, a roughneck who made money because he could hit and was fortunate in the selection of his husiness manager.

"The last of the Eastern Lake Section"

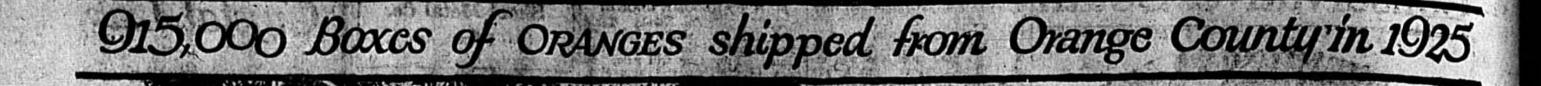

Conservative and Sound--

After all, those are two of the greatest assets a property may have. And you will find them represented convincingly in this ideally-located, moderately-priced, development.

Nearby is everything to be desired—the Hotel Forrest Lake, beautiful Lake Monroe, and only a few minutes to the commercial center of the city.

Many of Sanford's foremost citizens have purchased sites in Marvania. They appreciate what these sites will be worth when Seminole and Crescent Boulevards are opened.

Horda Flavor,

Signature of the soil, tempered by the warm sun overhead, brings forth untold treasures.

Mount Plymouth townsite development is rapidly underway. Business and residence lots are being offered now at prices which predetermine future enhancement beyond any reasonable guess.

Let us take you from the Orlando office, in a luxurious Pullman bus, over a marvelous highway, to see with your own eyes what less fortunate ones shall miss.

Or write for literature which tells more about the property, and the men behind it,—than we have space for here. It is not surprising, in the least, that Florida Flavor should lure men from across the continent. Ponce de Leon journeyed through these lands, expecting momentarily, so 'tis said, to find the fountain of youth. The soil which produces fruits of the flavor and blossoms of the fragrance which grow abundantly, even wild, in the highlands of Florida surely must contain also the sinews of youth.

The recent development of Florida lands is not surprising—only belated, delayed beyond the usual time for the recognition that was due.

True, there were many contributory causes, but the one outstanding reason was lack of publicity. Its resources until now were unknown.

You who ask yourself the question, "how long can the bubble last?"— are unmindful of what Florida has to offer the investor. Apparently you look upon the present activity much as you would the cry of "oil" or "gold," not taking into consideration that there is treasure enough underground, in the soil and above the surface of Florida to support every human being in America, if developed.

Don't ever put the question that way again. If your own enthusiasm seeks counsel among others, ask what section of Florida they think will most likely develop sooner.

The "solid central section" of Florida comprises seven adjoining counties in the highland, citrus-growing, lake-dotted region, right in the midst of which Mount Plymouth sparkles like a jewel.

When the most glamourous picture is over—and you come outside to the bright lights and the brighter laughter of friends -have a Camel!

No other cigarette in the world is like Camels. Camels contain the choicest Turkish and domestic tobaccos. The Camel blend is the triumph of expert blenders. Even the Camel cigarette paper is the finest—made especially in France. Into this one brand of cigarettes is concentrated the experience and skill of the largest tobacco organization in the world.

WHEN the exciting scenes are over. And you leave the great theatre thrilled at what you've seen. When, as the organ peals forth its rolling music, you come outside with jovial, laughing friends-have a Camel!

For nothing else on earth could be so refreshing among the great white lights as Camel. Camel adds of its own bright goodness to the enjoyment of every pleasing scene. Camel is the hale friend and companion for eventful days and carefree evenings. Here is something worth writing in words of gold: "Camels never tire the taste, or leave a cigaretty after-taste, no matter how freely you smoke them." And what's more, you can't buy choicer tobaccos or more perfect blending, no matter how much you pay.

So, this night as you leave for the brilliant scenes. And when the big show is finished and you've seen life in its tense and purposeful moments know then the mellowest fragrance that ever came from a cigarette.

Have a Camel!

Vewspaper Clippings Of Bygone Days Reveal Much Of Florida's Early History

TALLAHASSEE, Tla., Jan. 26.

OD—Newspaper clippings of days in the present gene by reveal many startling finings to those living in the present generation of Florida development and the terpsichorean craze known as the Charleston. Twenty-five years back, for instance, Jackson-ville felt some concern for the well-fire of the Sunshine state and sought removal of the capital there. At about the same time, Jackson-ville despatched a delegation to Washington to seek government and in clearing the St. Johns five of water-hyacinths.

Quick Way to End **Dangerous** Cough

Why let a dangerous cough hang on when you can, through a simple treatment, get speedy relief and often break it up completely in 24 hours?

This treatment is based on the famous Dr. King's New Discovery for Coughs. You take just one teaspoonful and hold it in your throat for 15 or 20 seconds before swallowing it. It has 20 seconds before swallowing it. It has a double action. It not only soothes and heals irritation, but also removes phlegm and congestion which are the real cause of the coughing. So the worst cough quickly disappears.

Dr. King's New Discovery is for coughs, chest colds, bronchitis, spasmodic croup, etc. Fine for children, of no harmful drugs. Very economical, as the dose is only one teaspoonful. At all good druggists. Ask for

DRUID PARK

Not Cheap, Only Priced Low

And there is a distinction.

Property that is worthless and admitted as such is "cheap."

Property that was bought at a low figure and therefore may be sold at a correspondingly low figure is "low priced."

Anyone who has inspected the property and taken into consideration the location will admit that there is nothing "cheap" about Druid Park "the low-priced sensation of Sanford.

Sanford Grove

"Amid Majestic Pines"

Offers an investment which should make an appeal to the careful invest tor. There can be no question as to the present value of these home when considered in comparison with what other property, no more far ably situated, is bringing. Development work now in progress cannot he but enhance their value. We can convince you of these facts if you but visit the property and see for yourself.

The terms at which these homesites can be bought are also of special terest to those who are considering purchasing a distinctive homesite Sanford or vicinity. For Sanford Grove is a most desirable home a munity. Its location, restriction, accessibility and environment as this.
