

Hollywood Stars Pour Into Del Mar In Summer For Races And Swimming

By BOB MYERS
(For BOB THOMAS)

DEL MAR, Calif., Aug. 7.—(AP)—At this time each summer this little hamlet by the sea wakes up and finds it practically a suburb of Hollywood, peopled by many famous, odd and unusual characters from the movie capital 100 miles to the north.

The seasonal influx of celebrities comes here to vacation and bet on the horses at the Del Mar Race Track.

They vacation by morning, strolling about the beaches and private swimming pools, basking in the sun, and you haven't seen anything yet until you see Al Johnson or Chico Marx in shorts.

Or, for that matter, Betty Grable, if you care for a contrast. Having the freckled, athletic cast each afternoon in trying to pick a winner, the pace is uncommonly leisurely and slow; matching, as it does, the quaint Del Mar telephone system. It takes longer to get room service at Del Mar than it does to pick a winner at the track, and there have been instances where visitors left without consummating a deal in either department. Conscience Joe Frisco, they say was one.

Del Mar is used to the famous folk, however, and can thank or curse a man named Bing Crosby for the situation. He introduced Del Mar to the stars, and vice versa, for better or worse. The first meeting was nearly 15 years ago, when Del Bing started his golf tournaments down here. The nation's leading golfers competed, and after a fashion, so did his cronies from Hollywood.

The nearby Rancho Santa Fe course, in fact, still bears the scars where Bob, Betty and his Ozark golfing methods. Bob and his jokes on the unsuspecting Hope regularly practiced his golf galleries, and the native swears there are some trees and thickets bordering one fairway that have never regrown where Johnny Weissmuller blazed a masher trail.

Mrs. J. P. Macaure, 406 Raceance St., New Orleans, La., can't imagine a person who is sick and run-down set taking HADACOL. She says she continually sings the praises of HADACOL to all her friends. Mrs. Macaure was suffering from deficiencies of Vitamins B1, B2, Nicotin, and Iron, which HADACOL contains. Here is Mrs. Macaure's own statement: "I have taken at least 5 bottles of HADACOL. Before I took HADACOL, I was very nervous. My family was affected, too, because I was so irritable. I tried many things to relieve my system of this nervous condition but they gave me hardly any relief at all. Then my doctor suggested I take HADACOL, and I started taking it immediately. After the second bottle I felt like I had had all the troubles of the world off my shoulders. My nerves are now as steady as steel. My family thinks HADACOL is wonderful because my disposition is 100% better and I am not the least bit irritable. That's because I always have a bottle of HADACOL on the kitchen shelf. It's the most superior product on the market."

Give HADACOL a Chance. To help you, if your system lacks these essential elements, you, too, will be amazed at the wonderful results HADACOL can bring you, as it has to thousands and thousands of other fine folks who suffered a deficiency of Vitamins B1, B2, Nicotin, and Iron, which HADACOL contains. HADACOL helps build up the hemoglobin content of your blood (when iron is needed) to carry the essential Vitamins and Minerals to every organ and every part of your body—the heart, liver, kidneys and lungs, even to the eyes, hair and nails.

HADACOL is that wonderful new preparation—premiering blessed relief for your indigestion, stomach disturbances (gas, heartburn, sour "risings" after meals), for normal growth in children, as well as that general run-down condition, and aches and pains of neuritis, if your system lacks Vitamins B1, B2, Iron, and Nicotin.

HADACOL is being recommended by many doctors. HADACOL is so amazingly successful because if your system lacks Vitamins B1, B2, Iron and Nicotin it acts directly to relieve this deficiency—the real cause of your trouble. That's the kind of product you want—the kind you should start taking immediately.

Only One Genuine HADACOL. Don't go through life suffering such fiendish torture from your stomach or aches and pains of neuritis when relief is so close at hand as the nearest drugstore for sufferers from these deficiencies. Buy HADACOL only by Trial size bottles only \$1.25. Large bottles \$3.95. Refuse all imitations. HADACOL is the genuine HADACOL.

Sanford, The Lohman Corporation.

one afternoon searching for a lost ball.

Then about 11 years ago the race track was built and Crosby became president. Pat O'Brien was his vice president, and tourists entering the gates were often dumbfounded when they were greeted personally by both Bing and O'Brien.

Neither Crosby nor O'Brien ever detained them too long from getting to the pari-mutuel windows, of course, and the same thoughtful policy exists today. Crosby is no longer connected here but he left many fond memories, and a happy little son entitled, "Where the Turf Meets the Surf Down at Old Del Mar."

Bing's recording of this is still played over the loudspeaker on state occasions, and on occasions of late he made a live rendition which will be tendered, plus 100 verses of unexpurgated quality, by the track's young publicity chief, Eddie Reed.

Mr. Reed makes up in enthusiasm what he lacks in Crosby styling. And for that matter, the aforementioned Johnson and Marx make up at the letting window what they may lack in bathing trunk.

Del Mar and the race track appreciate such matters, and also Miss Grable.

National Guard

When over-fatigued men fell out, the rest picked them up and carried them. Various compliments by "high brass" were received by the Company.

The Company, led by Captain Gatchel and Lieut. John Sauls, embarked on the troop train pullmans for Ft. Jackson on July 22, arriving on the following morning at 9:30 o'clock at Ft. Jackson.

They found the camp all prepared, tents set up and food made ready for them by an advanced detachment under the command of Sgt. Le Cecil Jones.

In the entire tent area of the camp was the 48th Division, 7,500 men comprising all of the Georgia National Guard and a part of the Florida National Guard, or about 1,800 men.

Getting set up in camp and practice on the firing ranges occupied the attention of the men during the first week, said Capt. Gatchel. Instruction was given in the use of many weapons including M1 rifles, M2 machine guns, M1 carbines, M1 pistols, M1 automatic rifles, 45 calibre pistols and M-1 rifles.

During the latter part of the week preparation was made for bivouac, and pulling out of the bivouac, and setting up pup tents in the sham battle area. Squads were organized and platoons and companies were instructed for the new set-up.

On Monday morning, July 31, Company I in full field pack, joined the battalion for a four mile march. At this point they were taken in trucks 30 miles to the bivouac area, 50 miles from the main post and a wooded area. A simulated attack followed the next day, with portions of the unit providing realistic but futile defense in the form of blown up bridges, etc. Unpleasant in the battle game, "tagged casualties for the medic." On the third day of the activities the units dug in to defend against "counter attack." At nightfall they were out on new tactics and maneuvers including a six mile march in full pack. Some ate, and some "tried to eat" at 3:00 A. M., then caught two hours of sleep before the "dawn attack."

France Rearms

There were not stationed on the confines of Europe sufficient land and aerial forces to assure the maintenance of peace.

"These forces, to be constituted rapidly, cannot result from a single effort by the continental powers. This sentiment is particularly lively in the minds of the French, who have unhappy memories of the unhappy events of 1940 (when Germany invaded France), and who today note the consequences of initial insufficient of

sure, John Brown. President Bill has called another meeting for Friday, Aug. 11, at 2:00 o'clock in the offices of Mr. Bender to which all brokers and address members of the association, have been asked to attend for the purpose of electing officers, and to propose information concerning a proposed program of broker and salesmen orientation, public information, legislative action, professional ethics, and other important services.

President Raymond Bell summarized the program of the Seminole County Board of Realtors, as follows:

"The expert services of an experienced Realtor have been increasingly necessary since the beginning of the second world war when regulations governing the sale, rental and taxation of real estate have made it a difficult matter for the layman. The modern broker must be professionally able to serve his clients with the very latest information governing property rights, income tax factors, zoning regulations, development costs, building construction codes and many other factors.

"He has become a professional man whose services are as important as those of the physician, lawyer and banker. Because of these, the Seminole County Board of Realtors has been required to develop a practical program for the benefit of members, through modern education, and to permit extension of a better service to buyers and sellers of real estate. It is our purpose to carry this information to the consuming public and to train salesmen in the highest professional standards of the modern Realtor.

Pointing out that state and federal legislation affecting the realty ownership has introduced many new problems in financing, home buying and renting, Mr. Bell said: "We plan to coordinate our work program with that of the Florida Association of Realtors and the National Association of Realtors."

Guests of the Seminole County Realtors who attended the meeting were President S. Merle Healey of the Florida Association of Realtors, and Robert J. Lancaft of Orlando. Mr. Lancaft is the former director of the speakers' bureau of the Realtors Washington Committee, National Association of Real Estate Boards, Washington, D. C., and the director of the

returned to Tokyo. Harriman went to the American embassy. He said he would leave Tokyo tomorrow but did not disclose his next destination.

In Pusan, informed sources disclosed reports that Harriman would visit Taipei, seat of the Chinese Nationalist Government. In addition to Walker, Harriman said he talked in Korea with President Sherman Hays and John M. Moore, U. S. ambassador to Korea.

SO LITTLE TIME

WABWICK, Eng., Aug. 7.—(AP)—Anthony Eden declared today that the danger to peace is very great indeed.

The former foreign secretary, who once resigned his cabinet post as a protest against appeasement, asserted in a speech here that "time is not on our side" in the developing tension between Russia and the West.

AID TO VIET NAM

SINGAPORE, Aug. 7.—(AP)—John Melby, State Department official heading the American Military Survey Mission to Southeast Asia, said today he has called for more aid to Washington for military aid to Indochina.

Melby and his 18-man group arrived today from Saigon. They will stay a week, then go to Rangoon.

AS THE CROW FLIES

DANBURY, Conn., Aug. 7.—(AP)—Richard H. Crowe, New York banker, said today he has called for a federal correctional institution to be in a jovial mood.

He had served 13 months of a three-year sentence, which made him eligible for parole.

Crowe was formerly assistant manager of the Broadway office of the National City Bank of New York. He disappeared in March 1949, with \$885,560 in cash and securities.

ESTATE Electric Range

Model 3014 \$319.95 with the original HIDE-AWAY GRID-ALL

Treat your family to the extra-luscious flavor of grilled foods... distinct from fried flavor because the Grid-All automatically drains off fat and grease. Or use the Grid-All's "steam-table" heat to keep two pans warm. Flush-to-top cover restores center work space.

- Timetable Automatic Control of Oven and appliance outlet
- Famous Balanced Heat Oven, Fibreglass-insulated
- Mirror Minder
- Chrome fluorescent top lamp
- 7-hat "3-in-1" surface units
- Individual Tel-U-Lites for all units
- Independent broiler with aluminum broiler pan in top of oven
- 7-hat Electricator
- One-piece top, metal back and switch dial panel
- Thermatone Oven Heat Control
- Acid-resistant porcelain enamel finish all around
- 1 super-size and 2 regular-size stainless drawers, all on roller bearings

"Right where we've been for 29 years"

Korean War

(Continued From Page One)
crack North Korean sixth division. It is backed by the Red first division. The two total around 15,000 men.

The offensive had been under way only a short time when B-29s came in less than six days out of the United States, plastered Pyongyang, North Korean capital, and the industrial city of Wonsan with 540 tons of bombs. This was the biggest single blow dealt thus far by the B-29s.

In the latest official field report Monday on the new allied offensive a U. S. Eighth Army communiqué released at 8:35 P. M. (5:35 A. M. EST) said:

"The attack launched this morning by the 25th Division and the Marine brigade advanced about 2,000 yards today on a broad front. Strong resistance was met with U. S. forces inflicting heavy casualties on the enemy."

The Reds, getting ready for a thrust of their own toward Pusan, 25 miles east of the kickoff place for the United Nations drive, hit the American right flank hard. On the northern front the Communists began a new offensive south of Yegion, the Eighth Army command post. Allied South Koreans were engaged in severe fighting there.

The log American push plowed into two North Korean divisions in the rugged coastal country of the southern sector. The attack was made from the village of Kusan, 35 air miles west of Pusan, the main U. S. seaport on the southeastern tip of the peninsula.

The blow was punched out by the Army's 25th and fifth regimental combat teams, the Fifth Marine reinforced regiment of the First Marine Division and some South Korean commando units. The United Nations offensive force had more than 6,000 men in it.

The Americans hit the Reds a triple blow to start the offensive. First a curtain of steel was laid down by artillery for 20 minutes. Next fighter planes strafed and rocketed the North Korean Communist lines.

Then the infantrymen leaped out of their foxholes and took out the enemy.

Carrier-based planes supported land planes in the air attack on the Reds, who were caught just before trying to jump off on a counter-attack of their own.

The offensive began at 6:30 A. M. (3:30 P. M. EST Sunday). The attacking U. N. troops lunged from the east and southwest toward the main road between

Senate Bill

(Continued From Page One)
controls and rationing into effect if and when he saw fit. That is the sort of plan the President has said he would accept.

Today, Sparkman said, the committee buckled down to the job of actually writing a bill.

The sections tentatively approved at the Committee's first session today provide, Sparkman said, for:

1. Encouragement of voluntary action by business, labor, agriculture and consumers designed to keep the wage, price and supply situation in hand without mandatory controls.
2. Selective use of wage and price controls in the case of specific commodities—for example meat or lumber. The Committee made no final decision as to whether price controls in those cases would be only at pre-retail levels, or would include the retail level.
3. General wage, price and rationing controls. The section dealing with that authority says:

United Nations

(Continued From Page One)
The Korean War has priority over all other problems. He recalled that he said once before the first round in his efforts to settle the East-West problem was a victory for his attempts to contact governments. He said the second round was interrupted by the Korean War and that the U. N. now has first to settle the Korean conflict.

Lie was asked about the question of Chinese representation, which the Soviet Union has attempted to link to the Korean War. He said the Chinese question can be settled separately but not as a condition. He thus ruled out as far as he is concerned any move to make the Chinese settlement a condition of the Korean peace.

Asked whether the return of Malik to the Security Council would be for the better, Lie said he liked to think that it would be but that it is premature to say anything about results to be gained.

Chingang and Red-head Chinju, 55 miles west of Pusan Chinju, now a rubber city, has been the springboard for frequent Red thrusts at Pusan.

General MacArthur's headquarters in Tokyo said the attack was progressing on schedule. It was called an offensive—not a counter-attack. The U. N. forces Monday were about 15 miles east of Chinju.

Miami S&G

(Continued From Page One)
confirmation of the subpoena from Senator Kefauver, who said the hearing will be public.

Those called to Washington are S. and G. partners Sam Cohen, Jules Leavitt, Harold Salvey and Eddie Rosenbaum, and their attorney Ben Cohen, in addition to Johnston.

Johnston is owner of the Miami Beach Kennel Club and three other Florida dog tracks. It was testified in a Kefauver Committee hearing in Miami in Mid-July that Johnston, Lou Wolfson of Jacksonville, and C. V. Griffin of Howland-The-Hills each contributed \$154,000 to the 1948 political campaign of Governor Fuller Warren.

The action today came close behind the seizure of S. and G. books, keeping records by clips for use in a grand jury probe of an alleged conspiracy to violate Florida Gambling laws.

U N REPORT

TOKYO, Aug. 7.—(AP)—The United Nations Commission on Korea yesterday denounced North Korean aggression and promised punishment.

"Aggression is an international crime subject to international repressive action and punishment," also is working up a bill to cancel some of the non-defense appropriations already voted in a general appropriations bill. The measure passed the Senate last week.

Members have all but abandoned hope for early adjournment. They are talking now about a long recess starting late this month and running well beyond Labor Day.

The Senate was not in session today but hopes to start debate soon on the controls bill. Also in the works this week is Senate action on four Presidential appointees to high federal office. There is strong opposition to all four: Martin Hutchinson of Virginia to be a Federal Trade Commissioner, Neil Andrews to be a federal judge in Georgia, Carroll Switzer to be a federal judge in Iowa and Frank E. Hook of Michigan to be a member of the Motor Carrier Claims Commission.

Lie opened his conference with a statement on assistance offered in response to his plea of July 14 to 52 U. N. members. He said he had received replies from 41 countries and that the offer of forces is increasing. He also called attention to offers of economic assistance and said they are important.

Lie was asked if a letter from Malik asking for faster translation into Russian of documents for the coming General Assembly meant the Russians would attend the Assembly. He said it might be an indication but added that French and Spanish translations also are being requested by delegates using those languages and observed it seemed everyone wanted faster documents.

Upper bracket Beauty

For the second straight year, Ford has received the Gold Medal award as "Fashion Car of the Year." And its good looks are matched, as owners will tell you, by its fine-car quality. Take a "Test Drive" in this '50 Ford and you'll find it has the "feel" of America's finest cars, too. We call it "big-car roadability"—you'll call it the smoothest, quietest ride on wheels. You'll agree Ford's

Truman Asks For Tighter Anti-Spy Law

Proposal Held Try At Stopping GOP Sponsored Mundt-Nixon Measure

WASHINGTON, Aug. 8.—(AP)—The House today postponed until at least tomorrow further debate on an economic controls bill while its Banking Committee worked on a compromise. Speaker Mayburn told newsmen he hoped that the House would be in a position to resume consideration of the bill tomorrow. It already has spent almost a week on controls legislation without making any substantial progress.

WASHINGTON, Aug. 8.—(AP)—President Truman asked Congress today for a tighter espionage law and a new law requiring aliens to report where they are and what they are doing.

Mr. Truman said additional anti-sabotage and security legislation is needed because Communist imperialism seeks to "weaken and overthrow free nations by working within their borders."

So he recommended that Congress:

1. Remedy "defects" in present laws governing espionage, the registration of foreign agents and the security of national defense installations.
2. Give the Attorney General power to require aliens to report their whereabouts and activities at regular intervals.

In a 3500 word message to the lawmakers, Mr. Truman asked them to be wary of any action limiting personal liberty. But he said the Bill of Rights must be intended "to prevent the government from maintaining our nation's integrity against subversion or attack."

Glen Taylor Seeks Renomination For Idaho Senate Seat

BOISE, Idaho, Aug. 8.—(AP)—A terrific campaign featuring the renomination attempt of Senator Glen H. Taylor (D-Idaho) and record 69 candidates is expected to draw a heavy Idaho primary vote today.

Taylor, who returned to the Democratic fold after running for vice president on the Progressive Party ticket with Henry A. Wallace in 1948, has faced bitter attacks from Republicans and some members of his own party.

He has been accused of keeping company with Communist front organizations—but has denied the charges.

The ex-cowboy singer's chief opposition is expected from U.S. Senator D. Worth Clark, whom Taylor defeated in 1944 in one of the most closely-contested elections in Idaho history. Taylor won that time by 2100 votes.

The third aspirant for the Democratic nomination for the six-year Senate term is Rep. Compton I. White of Clark county.

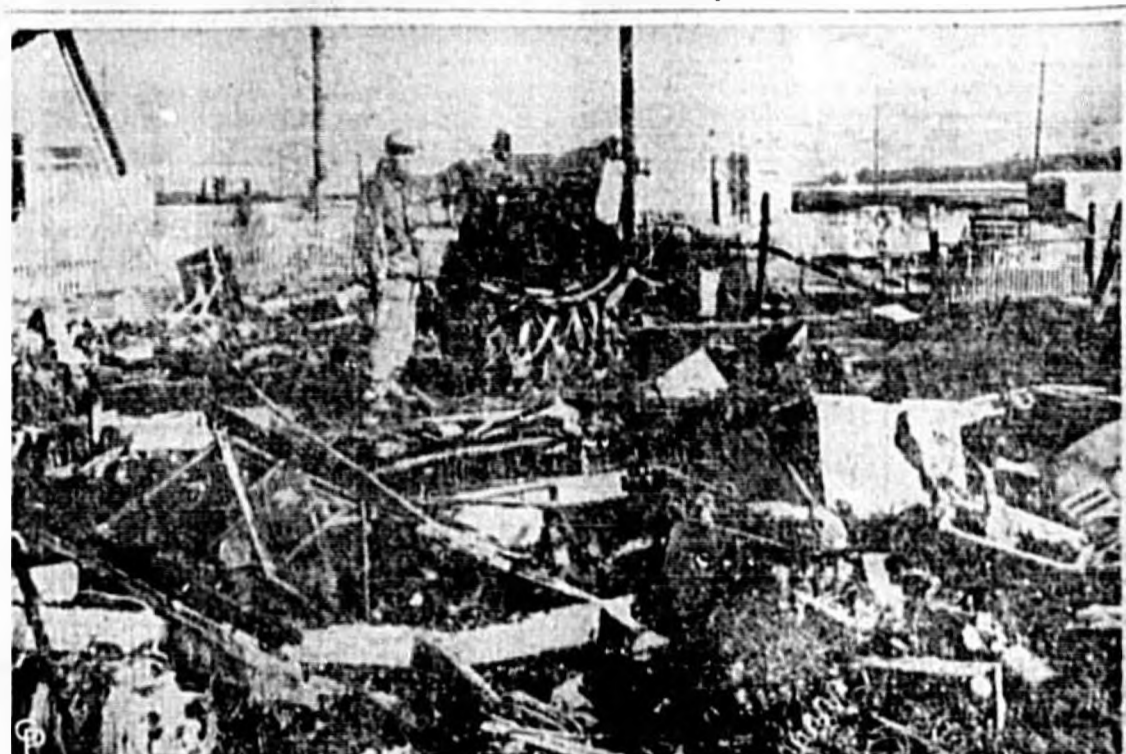

White of Clark county is the Republican nomination for the six-year Senate seat are Governor C. A. Robins; Rep. John E. Sanborn of Hagerman and Herman Walker of Yayette.

OMAHA, Neb., Aug. 8.—(AP)—A light turnout of voters was expected in Nebraska's primary election today despite help from the weather.

Not even promised fair skies and comfortable temperatures appeared likely to make up for the absence of vote-provoking issues.

Election day found three of the state's four congressmen, all bidding renomination, away in Washington. Only Republican Rep. A. L. Miller, opposed by Hammond (Continued on Page Three)

17 Die In B-29 Crash-Explosion

Standing beside one of the fire-scoured motors of the bomb-laden B-29 Superfortress that crashed and exploded in Fairfield-Suisun, Calif. Air Base, Corp. Burchhardt Hufnagle surveys the wreckage littered field. At least 17 persons died and 60 were hospitalized after the big aircraft, carrying 8000 gallons of gasoline and a bomb cargo, crashed up a mile from the end of the runway. The explosion set fire to sections of a trailer camp and shattered others. Some can be seen in the background here. Many of the injured were residents of the camp. Among the dead was Brig. Gen. Robert F. Travis, commander of the Northern California Air Force Base. (International Staffphoto)

Fire Protection Is Discussed By Seminole Board

Need For Improving Old Lake Mary Road Told By Residents

Provision for fire protection in Seminole County, and improvement of the old road paralleling the ACL tracks from the County Club road to Lake Mary, were the main topics of discussion at the meeting of the County Commission this morning.

Randall Chase, chairman of the County Fire Protection Committee and E. L. Mulpus, district forester of the Florida Board of Forestry, pointed out the need for fighting destructive forest fires and fires in homes in rural areas where fire fighting facilities are not available.

County Commission Chairman J. F. McClelland and other commissioners agreed to the need of fire protection, and stated that if the majority of land owners of forest and acreage throughout the county would sign a petition asking such protection, the matter could be placed on the bracket for approval by citizens in the November general election.

Mr. Mulpus pointed out that this fire protection could be given by the Forestry Department for about \$4000 a year. He said that such action on fire protection is asked by a number of local organizations including the Sanford Woman's Club, the Sally Harrison chapter of the I. O. O. F., the County Federation of Women's Clubs, the Seminole Sports Association and the Audubon Society.

A delegation of Lake Mary citizens headed by Raymond H. Ball, local realtor, and C. F. Beasington, president of the Lake Mary Chamber of Commerce, urged that action be taken to improve and have the original route to Lake Mary from Sanford, a three mile stretch running parallel to the ACL tracks, and terminating at the County Club road.

Mr. Ball, the spokesman of the group, pointed out that the railroad is now building its new short cut to Rand's siding from a point near the cemetery, necessitating changes in the route of the old road, and suggested that now might be a good time to improve it. (Continued on Page Three)

STILL AT LARGE
TALLAHASSEE, Aug. 8.—(AP)—The United States today discussed the possibility of permitting guards of the criminal insane ward at the State Hospital to carry guns.

Eight inmates of the ward escaped early Sunday morning after they broke through a thin wall and unlocked the main entrance door with a home-made key. The guard on duty at the time immediately resigned. Five of the eight still are at large.

CITRUS ADVERTISING
LAKELAND, Aug. 8.—(AP)—The Advertising Committee of the Florida Citrus Commission today voted unanimously to turn the commission over to J. Walter Thompson Advertising Agency.

This action would cost Ben and Bowles, New York agency which has held the account for seven years.

MacArthur Urges Peace Treaty As Best Jap Defense

WASHINGTON, Aug. 8.—(AP)—Douglas MacArthur said today it is doubtful that the U.S. Armed Forces could accept Japan as a full partner in the Pacific.

In a cable to Magnuson, MacArthur said the first and logical step in providing for the security of Japan lies in "the early conclusion and consummation of a Japanese peace treaty."

Magnuson proposed in a bill introduced last week to permit the enlistment of Japanese war veterans in the American armed forces at half pay and with no citizenship or veterans benefits.

The Washington senator said this would provide additional manpower for the Korean fighting, restoring some American troops now on occupation duties. He asked MacArthur's opinion of the move.

MacArthur replied in a message made public by Magnuson that "the evident underlying purpose of the move is to have in mind of bolstering the security of Japan and thereby strengthening resistance to totalitarian Communism throughout the world has my heartfelt understanding and sympathy."

"Whether your actual proposal is feasible at this time, however, is more doubtful," the General said. "This is largely due to the fact that no peace treaty has yet been consummated for Japan and consequently it is under international control."

"It would seem to me that the first and logical step in the matter would be in the consummation of a peace treaty wherein the security of Japan could be fully provided."

"Until such action is accomplished, a unilateral approach to the problem by the United States and as you suggest would be of doubtful feasibility."

A-Bomb Manager Quits With Blast At Chairman Dean

WASHINGTON, Aug. 8.—(AP)—Carroll L. Wilson quit today as general manager of the Atomic Energy Commission with a blast at AEC Chairman Gordon Dean.

President Truman accepted Dean's resignation effective next Tuesday. Wilson followed up with a statement saying he lacked a proper degree of confidence in Dean.

He said there has been a trend toward the Commission's assuming a more direct role in the management of the atomic program.

He said he fears this will result in "a underdone, slow moving administration machine which is incapable of giving the country the kind of direction needed to maintain and increase our leadership in the atomic field."

Dean only recently was appointed chairman of the five-member Commission and confirmed by the Senate.

In his letter of resignation to the President, Wilson did not say what he said were "compelling" reasons behind his decision to quit his \$15,000-a-year job.

His duties have been to carry out policies and administrative functions assigned by the Commission.

But in his statement Wilson made it perfectly clear why he was quitting.

Reds Accuse Americans Of Inhumanity

Western Delegates Expecting Soviet Veto Of S. Korean Representative

LAKE SUCCESS, Aug. 8.—(AP)—The United Nations Security Council went into session today to act on the Korean question, with Russia, Jakob A. Malik, presenting a long telegram from the North Korean chairman of the United States anti-inhuman attacks on civilians.

The telegram was from Pak Hon Son, minister for foreign affairs of South Korea, it said, engaging in barbarous attacks on civilians in South Korea, it said, engaging in barbarous attacks on civilians in South Korea, it said, engaging in barbarous attacks on civilians in South Korea, it said.

The telegram said more than 4,000 persons had been killed or injured at Wonsan and that Seoul had about 7,000 casualties.

About 30 minutes were required for reading and translation of the telegram.

Russia was favorably disposed to the Western delegations, and expected far to strike back with his blunt veto.

After the North Korean telegram was read, Malik announced Friday for the weekend, it all Commission on Korea. The Commission reported it was receiving further reports of Communist atrocities against wounded and captured American soldiers.

Malik's telegram raised a point of order asking whether Malik as President of the Council did not feel it obligatory to carry out a Council decision of June 25 to install a representative of South Korea in the Security Council.

Whether the Council would vote today or later in the week remained to be seen. If Russia followed last week's pattern, however, a far more procedural scramble would be in prospect.

North Koreans Pour Across River As U.S. Hits Back In South

France To Receive Two Warships Through U. S. Arms Aid Program

WASHINGTON, Aug. 8.—(AP)—The two vessels of the U.S. Navy's Pacific Fleet, the USS Haddock and the USS Gato, will be sent to France through the U.S. Arms Aid Program.

The two vessels of the U.S. Navy's Pacific Fleet, the USS Haddock and the USS Gato, will be sent to France through the U.S. Arms Aid Program.

France is the second country to get warships from the United States under the assistance program. Two destroyer escorts, the USS Haddock and the USS Gato, were transferred to the Netherlands on June 1. Eight more ships of the same class are now being readied to American shipyards for early delivery to Western European Allies.

India-China has received six support landing ships and eight C-47 transport airplanes from this country.

Turkey will take delivery of a submarine rescue ship on Aug. 15. Two submarines now being refitted by the Navy also are expected to go to Turkey.

Burma is expected to get a number of small patrol craft in the near future.

The tempo of arms aid to the smaller nations of Southeast Asia is likely to be stepped up soon, Defense Department officials said, following receipt of the preliminary report of the U. S. survey mission now in South-east Asia.

No immediate information was available here as to the specific recommendations in the report, but Defense officials said that the Vietnam army of Indochina needs small arms, light anti-aircraft and small heavy weapons. Needs of the former French colonial state are being considered in addition to requirements of the French army now opposing Communist-led rebels in Indochina.

France has already received about 100 U. S. Navy airplanes. They were ferried across the Atlantic by the French escort carrier, the USS Bataan. This ship is expected to make at least one more ferrying trip before the end of the summer.

Great Britain has taken delivery of a substantial number of B-29 Superfortresses in the last few months. The total number of these bombers to be given to the United Kingdom has not been announced but it is generally understood here that it will run to about 20 Superfortresses.

Although defense officials have decided to give out the exact number of guns, tanks and other heavy ground equipment included in the current arms aid program, spokesmen said today that the movement of armaments from the United States to Western Europe is proceeding steadily.

Legion Post Moves Against Sabotage

Helping the home defense and protection of the community against subversive influences were the major topics of discussion last night at a meeting of Sanford Post 53, American Legion.

Commander Karlisle Housholder urged that a more intensive membership drive be started to raise the Post's numbers to a new figure. The names of Chester Miller and Capt. Earle T. Louka were suggested as membership leaders.

Three new members were added to the Post. Frank Stanley Verney, bull grower; John Gore, carpenter and Freddie Escalvion, father.

Plans were discussed to raise funds for the Legion Memorial Plaque which will be placed in the new Municipal Stadium.

The Post voted to compensate Karl Lungren, now in Bay Pines Hospital, for three days work which he had donated as a Legion member in the building of new kitchen facilities at the Hut.

COMMUNIST HIT

ATLANTA, Aug. 8.—(AP)—An ordinance that would give Communists 48 hours to get out of town was in the hands of the police committee of city council for study today.

The measure, based on a similar ordinance in effect in Birmingham, Ala., was introduced at yesterday's council meeting. It calls for the departure of Communists within 48 hours and makes it unlawful to distribute Communist inspired literature or associate with Communists.

Three Battles Rage Along Front, At Taegu, In South And Extreme North

MIAMI, Aug. 8.—(AP)—The military observer for the Soviet newspaper Literary Gazette reported today that the Communist North Koreans had broken through American defense lines and in other sectors had systematically thrown back American counterattacks. The report said the North Koreans continue to push relentlessly forward in the crucial sector.

Quoting Washington columnist Drew Pearson as having exposed "faked" figures, the article accused General MacArthur of understating the American losses of men and equipment.

TOKYO, Wednesday, Aug. 9.—(AP)—North Korean troops poured across the allied Nakdong River defense barrier in Korea and bulged out two miles eastward on a 2,000-yard front Tuesday.

General MacArthur's was summarized at 11:30 P. M. Tuesday (8:30 A. M. EST) said the "possible threat from the small bridgehead" across the river "has neither increase nor decreased."

Upwards of 9,000 Reds were reported over in two river crossings. U. S. Eighth Army headquarters in Korea said the two Communist bridgeheads were of "primary concern at present."

The two-day old American Marine and infantry offensive in the extreme south made small and bloody gains in day-long attacks. Later it was bogged by Communist flanking that pocketed one company unit for a while. U. S. Marines broke that up and freed Army men from the trap.

The offensive had gained 10 miles and was 10 to 12 miles east of Chungju. Red-held added city in the south.

The Red bridgeheads posed threats to Allied forces at two places. One was five miles north of Wonsan, 15 miles northwest of Taegu, the provincial South Korean capital. The other was six miles south of Changgyong, which is southwest of Taegu.

At least three Red regiments—30,000 men and probably more (Continued on Page Three)

Reward Offered For Cemetery Thieves

Local florists today announced an offer of a reward of \$100 for information that will lead to the arrest and conviction of any person or persons caught stealing flowers from the local cemetery.

Florists making this announcement include J. R. McNell, A. R. Houseller, A. P. Ramsey, and J. H. Stewart.

This action is the result of numerous complaints lately of flowers being stolen from graves in the cemetery. A caretaker is employed at the cemetery during both day and night but he is unable to watch the entire area all the time.

CHARITTY TAX
TALLAHASSEE, Aug. 8.—(AP)—The nickel-a-package Florida cigarette tax produced \$1,415,897 in June. Beverage Director Lewis M. Schott reported today.

Incorporated cities and towns will get \$1,057,941 from collections within their limits, and the State Tuberculosis Board will receive \$355,956.

Allocations to the various municipalities include Sanford \$7,796.

Dr. Julian N. Tolar Completes 33 Years of Practice in Sanford

Dr. Julian N. Tolar, physician and surgeon, who on Oct. 1 will have practiced medicine in Sanford for the past 33 years, said today that he was much interested recently to read in the Herald how Dr. J. N. Robson drove in his house and buggy to attend to the births of many of Sanford's residents.

"When I started practice in Taylor county," said Dr. Tolar, "I couldn't even afford a horse and buggy, but the lumber company who employed I served, loaned me a mule."

"Riding through the woods one night on my way to a home, where there was a sick child the mule stopped dead and I looked down and there was a big rattlesnake coiled right in the middle of the road. I pulled around it and went to the home. It was about 1:00 o'clock in the morning when I came back and the mule stopped again in the same place and there the snake still was. Again I pulled around it and went on."

Dr. Tolar, whose father was in the turpentine business, came to Sanford when he was one year old in 1881. As a boy he worked in the Phillips Drug Store where Bonnell and Anderson's Pharmacy is now located, also in Nowland's Pharmacy.

Trained nurses were very scarce, and Dr. T. A. Neal and Dr. Sam Faleston used to call on

TODAY'S BIBLE VERSE

Humble and trust, willingness to learn and faith in our leaders and obedience are child-like virtues...

Richard Crowe, big New York bank cashier, smiled broadly as he was released from prison yesterday...

It may be hard for the French, as well as some Americans, to understand why arms should be given at this time to the West Germans...

Only a bold and enlightened act of statemanship can prevent another world war, says Tyngge Lie, secretary general of the United Nations...

We are constantly being amazed at the extent to which loyal Americans have been taken in by Communist propaganda of one kind or another...

Plans are under way in DeLand for the construction of a 50 bed hospital as provided for under the terms of the will of the late Judge Fish...

The Army is not telling the truth about Korean casualties, says Communist Drew Pearson, who has been called a "chronic liar" and whose names by almost every physicist since Hoover...

Collins' Magazine paints an horrendous picture of what will happen in New York come the third World War and an atomic bomb attack...

The Atom In War

What about this business of using the atomic bomb? From a military standpoint the question has not yet arisen...

The question seems to rest on a premise that the morality of warfare can be gauged by the size and pace of the war...

One of the lessons of World War II is that it is disastrously foolish to suppose that war can be limited at will; it is limited only by the practical facts of the situation...

The State Department

The much-attacked State Department ought to pin up on its walls the observation made nearly half a century ago by Henry Adams...

"The secretary of state has always stood as much alone as the historian. Required to look far ahead and round him, he measures forces unknown to party managers...

"The secretary of state exists only to recognize the existence of a world which Congress repudiates whenever it can; of bargains which Congress distrusts and tries to turn to its advantage...

This is not to say that the State Department is always right, and Congress always wrong. Adams suggests that Congress is apt to take a short-time view of current events...

How To Keep A Friend

By Robert Hillier

I was angry with my friend. I told my wrath, my friend did end. I have found these lines in a poem by William Blake...

It is so easy to misinterpret the words and deeds of others. Conversely, one must be a very tactful person in deed to avoid offending someone else...

How can we expect understanding between nations when individuals—friends and kin—are so jump? In my own life, I have found that the answer lies in Blake's couplet...

Often it turns out that there is some very simple answer. Perhaps I misunderstood my friend entirely. Or perhaps I had unconsciously heard up several small resentments of which this one became the climax...

The next two lines in Blake's poem tells what happens if you follow the opposite course: I was angry with my foe; I told it not, my wrath did grow...

So unless you really wish to nurse your wrath, letting your good friend become your bitter enemy—and that is a very grave decision—you had better let him know, at once, exactly what is on your mind...

Can He Duck Now?

Tampa Tribune

Despite his manifest disinclination to remove or even censure a sheriff, as evidenced in the Oklawaha and Columbia County cases, we wonder how Governor Warren is going to get around the positive proof then reflected in the admission that Sheriff Clark, of Broward County...

First denying that he had any knowledge of these operations, the sheriff, when confronted with the documentary evidence, acknowledged that he was a stockholder in the Broward Novelty and a corporation which handled \$225,335 in bolita operations in one year, \$221,000 in another year, \$181,000 in another year...

Corruption Bared By Senate. The information brought out by the Kefauver inquiry, combined with a shameful revelation of local corruption and plagues East Coast law enforcement officers have had to face...

THE WORLD TODAY

By DeWitt MacKENZIE, AP Foreign Affairs Analyst

There could be no more startling indication of the dangers of our time than the growing sentiment among the democracies for the rearming of Western Germany to help meet the Red menace...

That's an amazing change of attitude— which France, for one, thus far disapproves— towards a defeated nation which has been condemned to punishment for twice plunging the world into war...

It's strange but understandable, for the consensus of military experts is that without the support of this former keystone of Central Europe the Western Allies would face a grim task in event of another all-out clash at arms...

Only five years ago the victorious Allies declared grimly that Germany never again would be permitted to rearm, and would be accepted only as a democracy...

Why this sudden change? Well, Western military men and statesmen have reluctantly faced the fact that Russia—with her satellite states—is much better prepared for war than is the United States...

The great discrepancy in military preparedness, the most obvious, is the situation which yesterday led Anthony Eden form a British foreign secretary, to declare that "the danger to peace is very great indeed..."

These circumstances, belatedly admitted by the Western powers have not them scurrying about to put their military houses in order...

Since Western Germany is the barrier between the Soviet bloc and the democracies, the need of her rearmament is obvious from the viewpoint of the latter...

Whether the Germans would consent to rearmament under such circumstances hasn't been determined. Vice Chancellor Blumberg has said the army will not be reformed...

By forcing the Western Allies to rearm, Russia is putting a heavy economic pressure on nations already badly hit by the last war. In short, the Communists want to gain even though they die...

However, while the Western bloc is well aware of this mad twist of fate, it is bound to resist the Communist idea of reversing it, and rearming the nation which it swore to keep under wraps...

A committee of the United States House of Representatives has been set up to investigate the activities of the Sheriff of Dade County, Sheriff Sullivan, of Dade County, confronted with open and long-continued law breaking in that county...

The stink of the East Coast putridity doesn't stop with the Sheriff of Broward County, Sheriff Sullivan, of Dade County, confronted with open and long-continued law breaking in that county...

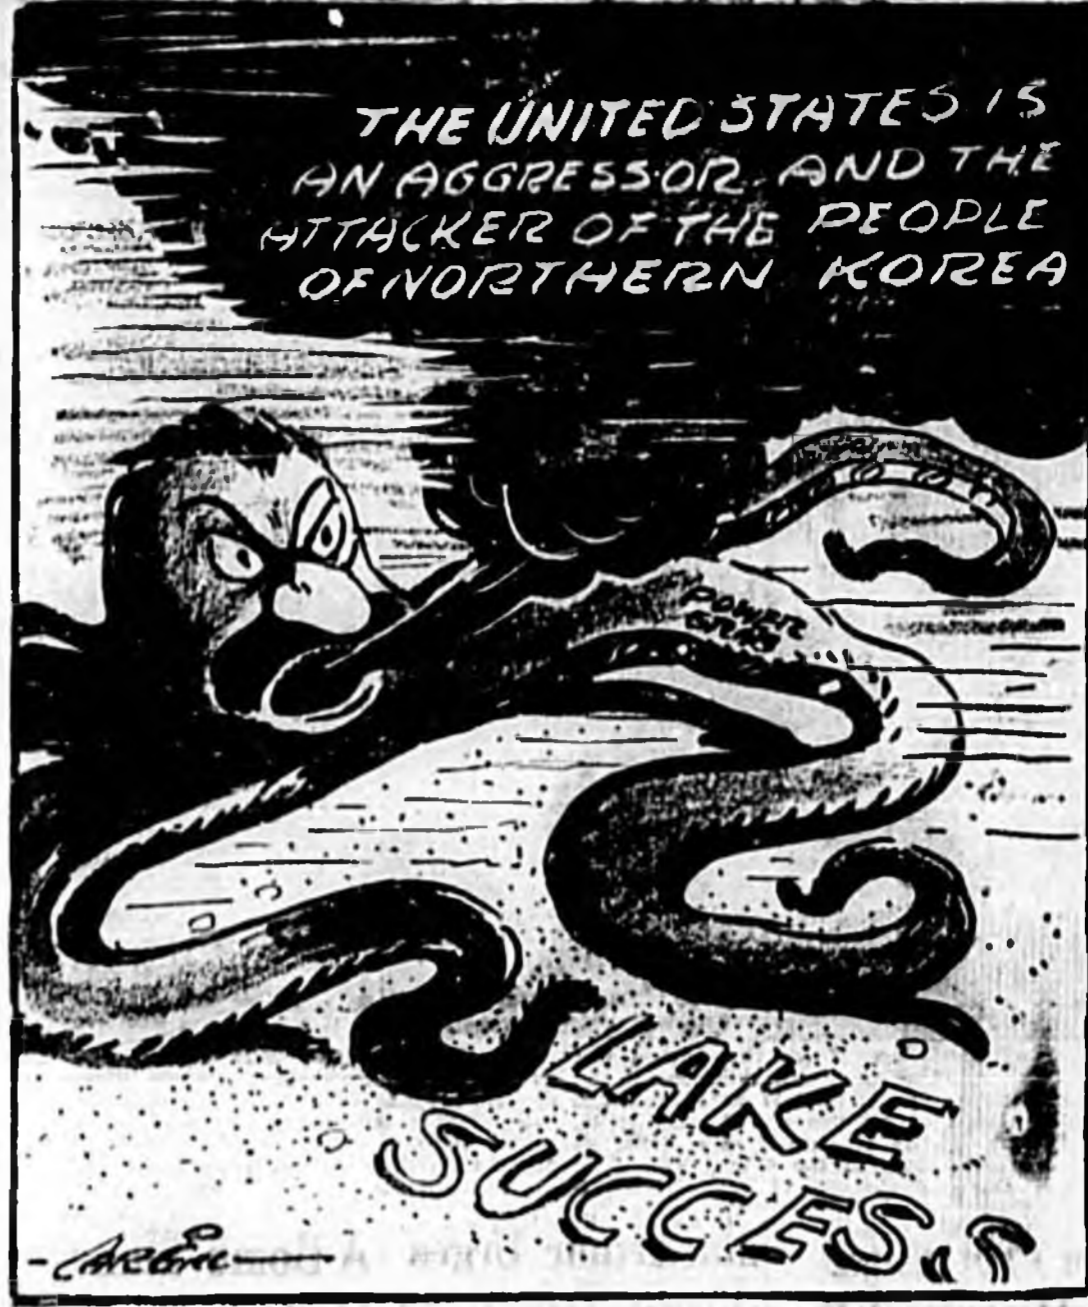

Realizing that he cannot ignore these disclosures, Governor Warren has called a hearing for Friday, notifying Sheriff Clark that it is "to determine whether you are guilty of malfeasance in office, in that you are part owner of a company which violated the law against gambling..."

It was also brought out at the hearing Saturday that the sheriff's brother was a stockholder in the company and had an interest in an armored car service that carried money from wide-open Broward County gambling houses...

Corruption Bared By Senate. The information brought out by the Kefauver inquiry, combined with a shameful revelation of local corruption and plagues East Coast law enforcement officers have had to face...

It's up to you, Governor.

MUDDYING THE WATERS

Inside WASHINGTON MARCH OF EVENTS

See Twice as Many Planes—But When? Production Step-up Easier Before War II

WASHINGTON—Aircraft production will be ordered doubled under the accelerated defense program and the warplane builders will be criticized when they announce it will take eight months to turn the trick...

Critics will recall President Roosevelt's call for annual production of 50,000 warplanes when the United States got into World War II. They will point out that the industry expanded production from about 3,500 planes a year to the 50,000 figure in a little under two years...

WASHINGTON—A rocket fired at Banana River, Fla., set off the stage for a new series of experiments which may culminate in atom bomb-carrying guided missiles which can pinpoint their targets across thousands of miles...

The double-header composed of a German V-2 with an American-made WAC Corporal in the nose reached an altitude of 10 miles, but traveled 63 miles over the Atlantic before ditching itself...

They mentioned the possibility of piggy-back assemblies composed not of two, but of three or four rockets to gain greater distance. Both at White Sands and at Point Mugu, the Armed Services are testing up to 100,000 miles in 500,000 pounds and air base facilities greater than any built before...

GETTING ACQUAINTED—The State department has gone beyond cultivating members of Congress themselves in its efforts to make lawmakers understand the scope and nature of American foreign policy and its problems...

The stink of the East Coast putridity doesn't stop with the Sheriff of Broward County, Sheriff Sullivan, of Dade County, confronted with open and long-continued law breaking in that county...

Congressman Herlong Reports. All this week we have been wrestling with legislation designed to curb inflation and prevent hoarding. The great difficulty is that there are about as many ideas on what we should do as there are Members of Congress...

What is right. Then, too, quite often some people can't distinguish between what is right and what is good politics. I believe that now if ever, politics should be put in the window because what is happening to our boys in Korea today and our national defense is more important than what may happen in the November election...

Doctor Tolar

(Continued From Page One)

Philadelphia Hospital, he started practice in Taylor county.

In 1917 he married Ella Myr McIntyre, and in the fall of that year they came to Sanford, and Dr. Tolar became physician, examiner and local surgeon for the A. C. L. Railroad, a post he still holds. For the past 25 years he has served as City physician, tending to prisoners. The old family home still stands at Second Street facing the ACL tracks. Later the Tolar family lived at Third and Elm Avenue. The present home was at 207 East Tenth Street and was purchased by Dr. Tolar in 1918, and was remodelled.

Dr. Tolar recently installed an air conditioning system in his office, and finds that one of the benefits is that instruments are "more slippery." On the wall hangs a certificate signed by the late President Roosevelt, commanding Dr. Tolar for his service on the draft board.

Dr. Tolar is strongly opposed to President Truman's Plan No. 27, which sought to create a Department of Health, Education and Security, was which was defeated in the House of Representatives on July 10 by a vote of 249 to 71.

All six of Florida's Congressmen were present and voted against this plan, he pointed out. His son Ralph is now assistant chief pharmacist of the Virginia Medical College at Richmond, is married and has one son.

SALES UP

JACKSONVILLE, Aug. 7.—Even before the outbreak of hostilities in Korea, consumer buying was on the increase at Florida department stores reporting to the Federal Reserve Bank of Atlanta.

At the end of June, on the eve of major developments in Korea, sales at reporting department stores showed substantial gains over June of 1949. T. A. Sanford, vice president and manager of the Jacksonville branch, said today:

COTTON YIELD OFF WASHINGTON, Aug. 7.—The Agriculture Department today forecast this year's cotton crop at 10,268,000 bales of 500 pounds gross weight. This first estimate of the year compares with last year's crop of 11,128,000 bales and with a ten-year average of 11,629,000 bales.

(Continued From Page One) have in order to serve him and the Commission effectively in administering the program.

"Without such a relationship the Commission cannot properly discharge its heavy burden of responsibility and the program will not go forward as it must."

Wilson apparently questions Dean's experience and understanding of administrative problems.

Even under the best conditions with a top organization of a full time commission, there are difficulties operating and administrative problems, Wilson said.

"To make it workable requires in the chairman exceptional experience and understanding of administration of large undertakings as well as a keen appreciation on the part of the other commissioners of the undesirable consequences of management by committee. There has been a steady trend during the past years in the direction of the Commission as a body assuming the direct role of management of the program."

"As a consequence, the role of the general manager has changed greatly from what it was during the first couple of years."

"I have serious apprehensions that the ultimate projection of the trend will result in a cumbersome slow moving administrative machine which is incapable of giving the country the kind of direction needed to maintain and increase our leadership in the atomic field."

The Commission named Carleton Shugg, now Wilson's deputy to serve as acting general manager.

WASHINGTON, Aug. 8—(AP)—The National Labor Relations Board today slashed away from the powers it gave to General Counsel Robert N. Denham three years ago and took back control over 219 employees.

The action was another slap at Denham in the running battle between the five-man board and its chief prosecuting officer.

Denham struck back quickly. He withdrew two employees he had assigned to the board "as a courtesy" three years ago.

"I didn't want to do this but the board asked for it," Denham told reporters.

Referring to the board's move, he added:

"The whole thing is silly and represents a new low in sniping in a government agency."

The board's action was disclosed in an official statement in daily Federal Register. It said it was stripping Denham of most of his authority over the NLRB division of administration and taking back its 219 employees.

Gambling

(Continued From Page One) allegedly are a party to the action.

The sheriff of Dade county, James Alexander Sullivan, admitted under questioning by the Kefauver committee last month that his assets increased from \$2,000 to \$100,000.

Try and Stop Me

By BENNETT CERF

RANDY WILLIAMS declares that selling books requires the power of suggestion rather than a ton of equipment. As an example he tells how his firm sold 200,000 copies of *The Secretary's Handbook*. "There was no such thing as a list of private secretaries," says Williams, "so we acquired the next best thing: a list of important men who certainly had one secretary, and probably more. To each of these gentlemen we addressed a letter with the slogan, 'Don't Fire Your Secretary!' emblazoned on the envelope."

"Of course, nine out of ten secretaries tore open the letters themselves to see what was inside. What they found was so glowing a tribute to *The Secretary's Handbook*, they insured ordering a copy immediately."

An eager student drank in Mr. Williams' words, and wrote in her notebook, "Always open the boss's mail."

Gene Fowler says it's harder to keep a secret from his wife than to smuggle daylight past a rooster.

Security Council

(Continued From Page One) The American resolution obviously was aimed directly at Russia, since most of the world's non-Communist countries already are doing everything they can to stop the North Korean invasion of South Korea.

The Soviet resolution, on the other hand, was not even considered seriously by the Council majority, even though Soviet Deputy Foreign Minister Jakob Malik, this month's Council president, filed it under the heading of peaceful settlement of the Korean question.

Several measures to combat Communism and subversive activities are pending in Congress. Those mostly widely known are backed by Rep. Nixon (R-Calif) and Senator Mundt (R-SD).

Nixon is a member of the House Un-American Activities Committee and Mundt used to be before moving from House to Senate. In 1948 the GOP controlled House passed their Mundt-Nixon bill but the Senate failed to go along.

This bill required, among other things, that Communists and Communist Fronts register with the Justice Department.

It looked for a while as though similar legislation would get nowhere in this Congress.

But the Korean war generated steam for some sort of legislation.

WASHINGTON, Aug. 8—(AP)—President Truman joined with Secretary of Defense Johnson today in denouncing a housing construction strike in Alaska as one that jeopardizes "the security of the United States."

Johnson emerged from a White House talk with the President to say that the strike of AFL steamfitters and plumbers on defense housing in Alaska is "jeopardizing the security of the United States."

And, he added, "I say that after consulting with the President of the United States."

"Then, the President approves your statement?" a reporter asked.

"Yes," Johnson said that defense housing projects in Fairbanks and Anchorage primarily were affected.

A SLASHING REBUKE is given by U. S. Delegate Warren Austin (top, right) as he points angrily at Soviet Delegate Jacob Malik (left) during a heated session of the U N Security Council at Lake Success, N. Y. The former U. S. Senator by words and gestures resented the Russian attack on U. S. intentions after Malik waved photographs (bottom) taken while U. S. roving Ambassador John Foster Dulles inspected the 38th Parallel which divides Korea in two. Dulles visited Korea just prior to the war. (International Soundphoto)

Stanfield, Jones Given Service Pins

C. J. Jones and W. A. Stanfield have been awarded service pins by Florida Power and Light Company in recognition of their many years of employment. H. H. Coleman, division manager, announced yesterday.

A jeweled pin will be presented to Mr. Jones, who resides at Lake Monroe, in recognition of his 25 years of service. A 25 year pin will be presented to Stanfield, who resides at 519 Magnolia Avenue.

Both men are well known locally. Jones, a watch engineer at Florida Power and Light Company's big plant here, is a member of the Masons, Elks and the Woodmen of the World.

Stanfield, water tester at the plant, is a member of the Masons, Scottish Rite, York Rite and the Shrine. He has been elected to office in the Masonic Lodge, the Scottish and York Rite bodies.

"Better Balance" makes MERCURY the best car for you!

YOU GET THE RIGHT POWER!

With a big, new Mercury, you've got an engine that's right for the car—and a car that's right for the engine. Result: Livelier "get-up-and-go" performance... plus greater economy! Mercury is "America's No. 1 Economy Car!"

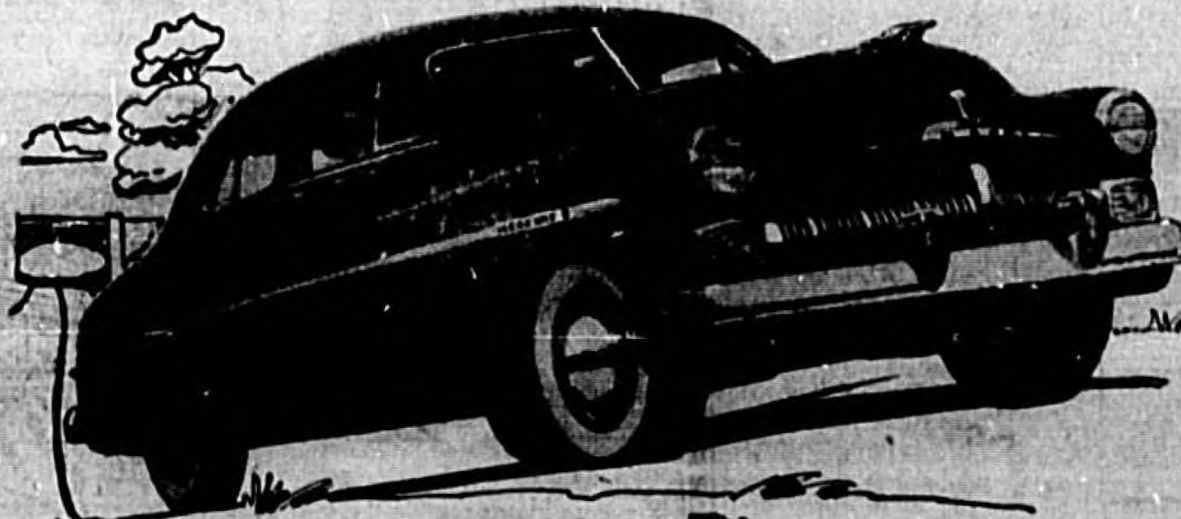

2. YOU GET THE RIGHT RIDING COMFORT!

The road may look rough—but it will never feel rough—when you travel in Mercury! "Cushion-Coll" springing plus foam-rubber cushioned seats make it the smoothest thing on wheels. And six ride comfortably in this big, roomy, broad-beamed Mercury, too!

3. YOU GET THE RIGHT ROADABILITY!

If ever a car was "built for the road," it's Mercury! It takes curves, rough roads as though they didn't exist! And to Mercury they don't! Get your hands on it for just a few miles—and you'll know what we mean when we say: "Go for a ride—and you'll go for Mercury!"

Go for a ride—and you'll go for **MERCURY**

North Koreans Driven Back On Chinju By U. S. Marines; Doughboys Break Up Victory Charge With Fixed Bayonets

House Agrees On Economic Control Bill

WASHINGTON, Aug. 9.—(AP)—The Senate today approved without dissent a bill making espionage for a foreign power punishable by death or up to 30 years imprisonment in time of peace. The bill, which now goes to the House, was introduced by Senator Eastland (D-Miss.). Penalties for espionage now are punishable only by up to 20 years imprisonment. The death sentence and 30 years imprisonment are applicable only in time of war. The new penalties would be applicable for two years dating from the time the bill is enacted into law.

WASHINGTON, Aug. 9.—(AP)—The House today approved broad discretionary wage and price control authority for President Truman. It adopted by overwhelming vote the vital wage and price section of the overall economic control bill. A final bill on the bill may come tonight. The section was a compromise worked out by Democrats and Republicans after a week of hickering had produced no progress. President's request for authority to fight inflation.

WASHINGTON, Aug. 9.—(AP)—President Truman today signed into law a bill giving his authority to take immediate steps to safeguard U.S. ports against possible sneak atomic attack.

WASHINGTON, Aug. 9.—(AP)—A bill to subject doctors, dentists and other specialists in the draft was introduced in the Senate by Senator Glenn (R-Ohio). Glenn, former chairman of the Senate Armed Services Committee, proposed that the Selective Service Act be amended to require registration of professional persons in age 45. Draft registration now is limited to men 18 through 25 years and only those 19 through 25 are subject to induction. Glenn's bill is similar to one pending in the House.

WASHINGTON, Aug. 9.—(AP)—After a week of mix-ups, House

ACL To Construct New Freight Line Through Sanford

The Atlantic Coast Line Railroad Company today announced plans for construction of a new freight main line, 12,200 feet in length, to diverge from its Jacksonville-Tampa main line at a point adjacent to intersection of Lake Mary Road, on the south, and extend northwardly parallel to and approximately 300 feet west of the city limit line along Roosevelt Avenue to the east end of Randa Yard, on the north, where connection will be made with present main line in vicinity of the First Street crossing. The estimated cost of this project is understood to be approximately \$100,000, including cost of necessary right of way. This new freight line will enable freight trains operating between Tampa and Randa Yard at Sanford and between Tampa and Jacksonville to avoid the use of the longer, and curved segment of main track via the passenger station route, and use of the by-pass line by freight trains will expedite their movement with resultant improved operating efficiency and economy. In addition to the right of way and other property recently acquired by the Atlantic Coast Line Railroad for use in constructing the new freight main line, one of its affiliates, the Atlantic Land and Improvement Company, has purchased a sizeable acreage of land in vicinity of the southern end of the project with view to developing the area for industrial purposes.

SWIMMING CONTEST
A swimming contest at the Municipal Swimming Pool will be staged by the Seminole District of Boy Scouts on Aug. 17 at 8:00 P. M.

All Boy Scouts in Seminole County are invited to participate in the meet, said G. A. McFadden, county chairman of Scout camp activities. The public is cordially invited to attend.

Americans Begin 'Big Push'

ATTACKING in the Masan-Chindong sector, about 15,000 tank-led Marines and infantrymen launched the first major American offensive of the Korean campaign. Further north, the Yanks smashed against the Communist battalion that managed to cross the Nakdong River north of Chirhyon. In the central sector (1), east of Wargwan, 7,000 Reds were slain in 24 hours. To the west of Andong, North Korean troops were stalled in their fierce drive against the U. S. defense line. (Central Press)

Effort To Delete ACL Testimony On FEC Beaten

WASHINGTON, Aug. 9.—(AP)—An unsuccessful effort was made today to strike from the Florida East Coast reorganization hearing testimony concerning a plan put forward by Atlantic Coast Line to take over the Florida railroad. The plan was outlined yesterday by Edward W. Bourne, ACL attorney, who took the witness stand in an unusual procedure before the Interstate Commerce Commission. Miller Walton, attorney for the rival W. G. Weldon plan, asked that Bourne's testimony be struck from the record.

Old Pillings Being Removed From Lake

The extremely low water in Lake Monroe recently revealed old pillings, the remains of a dock once used by the railroad for water-borne freight and located about 15 feet west of the present yacht club. City workers under S. M. Richard are removing the pillings to make the area safe for boating, said City Manager Clifford McKibbin. A six-inch water line and four new hydrants have been installed in the Goldboro area on Orleanor Avenue. This will give increased fire protection and permit extension of smaller mains in the areas which have not previously had water service.

SCHOOL BOARD

The County School Board will meet tomorrow morning at 10:00 o'clock, and among other items will consider bids on school buses and tires, said Supt. T. W. Lawton.

GUNMAN SLAIN

POPULAR BLUFF, Mo., Aug. 9.—(AP)—William Harry Sparks, 39, was slain in conjunction with the slaying of three and wounding of five other persons near Eminence Monday night, was shot to death by officers in northern Ripley county today.

Gain Of Five Miles Is Registered As Bottleneck Broken During Night Fight

By TOM LAMB WITH U. S. FORCES IN SOUTH KOREA, Aug. 9.—(AP)—American doughboys, driving toward Chinju, silently clasped hands on a hill five miles west of Chindong at dawn today. Then they stomped out of their foxholes with fixed bayonets and broke up a wild Korean Red "victory" charge in hand-to-hand combat. It was one of many skirmishes as the Army's Fifth Regimental Combat Team broke out of the Chindong bottleneck during the night and drove five miles west toward Chinju. "We went up the hill in pitch darkness," said Capt. Frederick Griffiths, 33, of Cleveland, Ohio, commander of Company K. "One machinegun opened up on us from our left flank and hit two of our men. But we didn't even bother with the machinegun. We kept going. The hill was our objective. "We got up on the hill and started to dig in. Just then we heard a bunch of gooks hollering 'Victory, Victory' in English from a higher hill in front of us. They started to come down. "I gave the order to fix bayonets. Then we took off like a team. In other words, each guy was telling the other he wouldn't let them down. And they didn't. "After 'fix bayonets' I didn't have to tell the men to move ahead. They just started. They and the gooks were on us. They looked out of surprise. One of my lieutenants made bayonet contact with them. The rest of us kept shooting and throwing grenades. The first line of Koreans was shot right there. We counted a total 25 bodies on the hill later. The second line of Koreans, the last man on the hill. We blew part of his head off. "The rest of them ran down the hill. We counted about 15 bodies. Then we found one of their ammo dumps. I broke it up with my 57 mm. weapon and we blew up the dump. "Some of the gooks ran into a (Continued on Page 3)

Clark Leads Glenn Taylor In Race For Idaho Senate Seat

By ASSOCIATED PRESS Former Senator D. Worth Clark was leading away from Senator Glenn Taylor today in their bid-and-tuck race for Idaho's Democratic Senate nomination. In 675 precincts of 829, Clark has 4,247 votes and Taylor 3,247, a lead of 1,000. A third candidate, Rep. Compton White, had 13,041. During the night, first one and then the other held a slight margin. The race is for a full six year term. Senator Henry Dworshak, serving by appointment, won the Republican nomination for the year term. His two opponents are Rep. Abe McGreggor Goff and Ventress Kuhn, Boise businessmen, conceded. The Taylor-Clark contest featured primary elections yesterday in Idaho, Nebraska and Arkansas. Taylor ran for Vice President on Henry A. Wallace's Progressive Party ticket in 1948, but this year returned to the Democratic Party. Last night Wallace resigned because it condemns the U. S. position in Korea. Taylor's opponents in the campaign accused him of being friendly toward Russia and of associating with Communist elements. He denied it. State Senator Herman Walker continued to hold a tight lead for the Republican nomination for the six year term. His opponents were Governor C. A. Robins and Rep. John Ranborn. Claude Burtenshaw, Ricks College professor, clung to his initial lead in a five man contest for the Democratic Senate nomination for the four year term. Nebraska's Republican governor, Val Peterson, won a third term nomination over two opponents. All four of the state's representatives—three Republicans and one Democrat—won re-election. Reps. O'Sullivan (D) and Walter (R) were renominated. Walter R. Backus, Central City attorney, was running ahead in a five day race for the Democratic gubernatorial nomination. Senator J. William Fulbright and six House Democrats were renominated without opposition in Arkansas.

Marine Big Gun Barks At The Enemy In Korea

UNDER A CAMOUFLAGE NET in Korea, a veteran U. S. Marine gun crew loads and fires a 155-mm. gun. Opening the long-awaited American offensive against the enemy, Marines and infantrymen attacked on the southern Chindong sector, pushing northward. According to official communiques, the Marines big guns are tipping into Red North Korean concentrations. (Army Headquarters Photo)

First Cavalry Goes Into Hills To Drive Reds Back To Nakdong

By HAI BOYLE NAKTONG RIVER FRONT IN KOREA, Aug. 9.—(AP)—U. S. troops went up into the hills today chasing after a battalion of North Korean Reds who had slipped across the Nakdong River to the north east side. By nightfall the doughboys had driven the Reds back to the water's edge. The Reds waded through the river shallows last night two miles west of Wargwan and penetrated three miles. They were then isolated on a ridge some four miles from the city of Taegu. U. S. Cavalry Division, the first North Korean unit to be held in a counterattack. For about four hours the invaders' fire blocked the road from Wargwan to Taegu. They had good observation posts atop a 1,200-foot ridge and they could reach the highway with machineguns, mortar and howitzer fire. But the point blank fire of 19 American light tanks and a continuous snelling by tank artillery and infantry mortars forced the enemy to fall back as doughboys worked methodically up the ridge toward them. By 1:30 P. M. 110 men and the Americans were pushing the Reds steadily back toward the Nakdong River. Good observation posts atop a hill straddled a road on one of the hottest days of the year. It showed that trained American infantry has the stamina to fight North Koreans in this mountainous country. Praising the fighting spirit of his men, Maj. General Hobart (Continued on Page 3)

Pilot Delegates Make Report On 29th Convention

Restoration Of Village In France By Pilots Is Described Mrs. A. F. Hunt and Mrs. J. L. Clark reported on the twenty-ninth annual convention of Pilot International held at the Statler Hotel in Washington, D. C. July 23-30 at the picnic meeting of the local club held at "Time and Tide" last night. Mrs. Hunt and Mrs. Clark served as delegates to the convention which was attended by nearly 800 delegates, alternates and visitors from the United States, the District of Columbia, the Hawaiian Islands, Mexico, Canada, England and France. The main convention opened with a luncheon meeting with Mrs. Georgia Neese Clark, Treasurer of the United States, as speaker. Mrs. Susan Alber International president from Albuquerque, N. Mex., presided over the convention which had as its theme, "Action Now for Effective Citizenship." Mrs. Mamie (Continued on Page 3)

Dallas Purchases Goodnough Home

R. E. Dallas, hydro-electric construction engineer of Chattanooga, Tenn., has decided to make his home in Seminole County and recently purchased from W. F. Goodnough, a home and grove at Twin Lakes, one mile west of the County Club. Revenue stamps on the deed indicate a purchase price of \$25,400. The deal was handled by W. H. "Bill" Williams and Tom C. Boll of the features of the beautiful home site is an artificial island in the lake. Mr. Dallas owns and operates the Dallas Engineering and Construction Co., of Chattanooga, Tenn., which specializes in the manufacture of equipment for hydro-electric plants and which recently completed a hydro plant at La Pollette, Tenn. It is rumored that Mr. Dallas is also consummating a deal for an additional acreage in this immediate area southwest of Sanford.

PRICE WAR

NEWARK, N. J., Aug. 9.—(AP)—Some 3,000 gasoline stations went on a week-long shutdown strike today and police were alerted against possible violence in the fight to halt a New Jersey "price war." Flying squads of strikers, members of the New Jersey Gasoline Retailers Association, checked out stations still open. "Shock troops" were dispatched to persuade non-cooperating dealers to join the shutdown.

U. S. Pilots Report Comms Preparing To Flee Southern Base At Chinju

TOKYO, Thursday, Aug. 10.—(AP)—North Koreans today retreated before U. S. onslaughts on the southern and western fronts and pilots said the enemy was preparing to flee his southern base at Chinju. U. S. patrols were only seven miles east of that bomb-wrecked city 55 miles west of the main supply port of Pusan. Chinju is the apparent objective of a U. S. counteroffensive on the south coast. General MacArthur's war summary said American forces farther south had run into heavy opposition in their attempt to trap North Korean troops by linking up with the main body east of Chinju. This pocket southeast of Chinju last was reported with an seven miles of closing. Gains averaging about three miles were reported along the southern front. The summary, covering fighting of the past 24 hours, said two enemy battalions, possibly 1,600 men supported by tanks were "eliminated" from one ridgehead on the Nakdong River. But the enemy still tried to breach the river line, which protects Taegu, front line city and refuge. South Korean capital 55 miles northwest of Pusan. The enemy was pushing this pressure along the northern front—the roof of the abysmal Allied position in southeast Korea. South Koreans were forced to make a two-mile withdrawal at unspecified points on the northern sector, the headquarters summary reported. The North Koreans also were building up their forces in the Yongdok center, on the east coast end of the front. In combat ranging from bayonet thrusts to tank-busting, American doughboys forced the Reds to retreat in 14 deep company. South Koreans slammed invaders back across the Nakdong River on the central front. American attacks to the south picked up momentum and forced the Reds backward toward ruined Chinju, Communist base. The Fifth Regimental Combat Team was only seven miles from a linkup with the Sixth Regimental Combat Team. The picture may trap many Red troops. The Americans had been thinned down for two days near Chindong. They jumped off before dawn Wednesday in an effort to settle the dispute over the inch-wide area with them. Defenders of the Nakdong River line to the north showed the Reds out of two river crossings and held the U. S. 24th Division held their throats on an open spot from the hills and poured artillery shells into them. Serious threat to the important town of Taegu. The central front situation, the report said, and South Korean advances. The cheering news was given in a U. S. 8th Army communique issued at 8:30 P. M. (3:30 A. M. EST) Wednesday. The close fighting took place in (Continued on Page 3)

Cities Will Get 1/2 Of County's Road, Bridge Tax

Municipalities in Seminole County will receive one-half of the County road and bridge taxes collected in the municipalities, it was decided yesterday by the County Commission in making up its budget. This was in accord with Florida Statute 141.17, requiring this payment, said County Clerk O. P. Hemon. It was decided that the millage will remain the same as last year. The "one-half back" to the municipalities applies to the budget beginning Oct. 1, and by this plan the cities are expected to receive \$10,000. Dollars will receive \$1,129, Longwood, \$552 and Altamonte Springs, \$249. Due to the high cost of operating the County Planning Kitchen, which was closed Aug. 1 when Mr. H. H. Cole, president of the group and Mrs. S. O. Shindler, Mrs. E. P. Greenhaw, Mrs. R. W. Turner and Mrs. W. P. Chapman. The Board authorized Commissioner T. F. McMillan to have grade stakes set on the old Lake Mary road as the first step in putting the road in good condition. In response to requests by Mayor W. J. Gray of Ocala, who announced on Page Three)

Lions To Continue To Sponsor Blood Bank

Members of the Sanford Lions Club yesterday voted to continue to sponsor the Seminole Blood Bank. In order to ascertain the needs for blood donations, Dr. Frank Quillman was directed to secure a speaker to give a talk about the operation of the blood bank. Plans were made to appoint a permanent committee which will contact the Orlando Blood Bank and arrange to have a "balance sheet" sent to the club every month in order to check on donations of blood on hand, and to find out what persons have received blood from the bank. The Club decided to hold a dinner meeting at night once a month, and set the date at Aug. 29. At that time new members will be inducted.

Gay Delays Payments To Road Contractors

TALLAHASSEE, Aug. 9.—(AP)—Comptroller C. M. Gay is holding up payments totaling \$154,363 to six contractors for road building equipment until he gets a ruling that they are legal. The State Road Department's policy of renting equipment without competitive bids for construction of highways now is under attack in circuit court here. See Robert D. Ghio and Arthur J. Sims, former Road Department employees. The comptroller's records show he is withholding checks for \$19,970 to A. F. Wick Company, of Tallahassee, \$24,873 to Bert Pope of Quincy, \$4,184 to Adams and Murphy Contracting Company of Gwinnland, \$35,830 to R. R. McCormick and Sons of Jacksonville Beach, \$22,827 to Cooper and Deacon of Chipley and \$96,626 to Faulk and Coleman of Coosa.
