Smart up-to-date housewives are buying—

SOUTH PINECREST homes

BECAUSE they have found for the first time the house plan that is the answer to any mother's dream. Study this plan and you too will decide that ease of movement and easy housekeeping must be your primary concern in selecting a new home.

ONE TRIP through our model home will convince you that these are really homes for the most discriminating family who want individual styling in a wisely selected and architecturally controlled subdivision.

THINK—how the location has developed to improve your property value. A super highway through Central Florida (soon to be completed) is within a few blocks. The beautiful new Pinecrest Elementary School is within walking distance, with no highways to cross. A new shopping center will soon be a reality within walking distance, and South Pinecrest is only minutes from downtown.

THESE HOMES are engineered for Florida living with lifetime terrazzo floors and built-up roofs, tile baths and built-ins galore . . . many other quality features too numerous to mention.

LET US SHOW YOU how you too can own a South Pinecrest home at these exceptionally fair (not low) prices.

112 Homes Already Sold . . . One Home Finished and Available . . . 3 will be Completed in 10 Days . . . 2 More Due To Be Completed in 3 Weeks . . .
... 7 additional homes under construction will be completed within 7 weeks.

Let Us Show You How Easily You Can Own Your Home

Titanium Mining Operation Been Working For Year

CLEARWATER S. C. — With Transplanted Montana gold mining equipment, a unique titanium mining operation has been operating successfully here for a year.

Owen H. Perry, vice president and general manager of Marine Minerals, Inc., says "we are the first ones to attempt mining the way we are doing."

The operation is producing these four different minerals: ilmenite, rutile, zircon, monazite. Ilmenite and rutile are the common elements of titanium, a hard but light metal in great demand by the aircraft industry.

Zircon is the ore of zirconium. Monazite is known as one of the rare earth minerals.

There's enough of the four minerals in Alban County's Horse Creek Valley to keep the operation going, Perry estimates, for longer than anyone now connected with it will be living.

About his production volume, Perry will say only that about 8,000 tons of earth are mined every 24 hours by a huge dredge formerly used in the Montana gold fields. He says about 1 per cent of that is usable.

Financially, the operation also is proving successful, Perry says.

The area now being mined is about 4 1/2 mile wide in some places. The dredge which measures more than 200 feet over-all, is similar, Perry says, to a type used to mine tin in Malaya. It was brought in pieces from Montana and reassembled here.

The four minerals which sink to the bottom of a container while the lighter substances wash away, are separated from the sand and earth inside the dredge. After going through a vast system of sieves and shaker beds, they then are pumped or hauled to the dryer house.

Big, gas fired ovens dry the minerals and remove other impurities. A complicated electric and magnetic process separates each into what resembles piles of fine black, brown and red sand ready for shipment.

Much of the output is being taken by a firm in Chattanooga, Tenn. which, like Marine Minerals, is a subsidiary of Chicago's Crane Co., plumbing fixture manufacturers.

The unique titanium mining operation is the result of a winter trip to the South in 1931. Perry, middle-aged Columbia University mining school graduate who lived all his life in his native Montana until he came to South Carolina two years ago, says the trip had the two-fold purpose of getting away from the cold weather and "to look around."

After looking around considerably in Georgia and North Carolina, Perry finally found what he wanted here. The site, along the geological fall line, looked promising. He spent two years studying and prospecting it before getting Marine Minerals into operation in June 1933.

Pictorial Review of Recent Happenings

On the Alert, 1956

Nationwide Test To Be July 20-26

For seven days in July, Operation Alert 1956 will conduct civil defense planning with the type of problems that would arise out of a mass nuclear attack on the U. S. A.

THE TWELVE ANNUAL training exercises, scheduled for July 20-26, will start on a nationwide stage some of the civil defense measures which would be taken if this nation were suddenly attacked by bombers and submarines capable of wiping out millions of persons and dozens of cities in a day.

From coast to coast, air bases and Atomic Energy Commission installations to be hit by the mythical nuclear blasts. These would include 75 hydroelectric dams rated as high as 5 million tons of TNT equivalent each. More than 30 Federal agencies will cooperate by evacuating key employees and operating from emergency sites. Coordinated by the Federal Civil Defense Administration, State and local CD organizations will carry out training exercises as if the attack were real.

JUNIOR SPACEMAN and Davy Crockett were among the two-thirds of the population of Bangor, Maine, which took part in a test evacuation during Operation Alert 1956. The test was typical of the ways local communities are expected by the Federal Civil Defense Administration to tie in their local civil defense training with Operation Alert 1956. (Courtesy Young's Photo Service, Brewer, Me.)

DAMAGE RINGS for Philadelphia-Camden "bees" are being drilled during last year's Operation Alert, just as they will be this year, in concentric rings from the point the bomb hits. In addition to simulated bomb "scenarios" in the 1956 Alert, the Civil Defense directors will seek to minimize fallout "casualties" by swift shelter commands on the basis of predicted and monitored fallout patterns. (Radio Creek Enquirer and News Photo)

AN OLD AMERICAN CUSTOM, coffee and doughnuts, is introduced to three international beauties (top) on their arrival in Long Beach, Calif., to compete in the "Miss Universe" beauty pageant. They are (l. to r.): Can Uysal, Turkey; Rossana Galli, Italy, and Anita Treyens, France. At bottom are (l. to r.): Titina Aquirre, Uruguay; Maria Rodriguez, Cuba and Paquita Vivo, Puerto Rico. (International)

ALTHEA GIBSON of New York is shown in Rome, Italy, after she won the women's singles title in international tennis tournament. Miss Gibson scored over Suzie Korynczy of Hungary in a 6-3, 7-8 victory. It was her fifth tournament victory in Italy and her 12th on a tour that began in India last summer. She will play at Wimbledon. (International)

STUDENT NURSE Patricia Shanley lights the pipe of John Robb on his 102nd birthday. He is in St. Peter's Hospital, Albany, N. Y., for a checkup. Robb, who wore eyeglasses for 50 years, put them aside six weeks ago and says he can see better than ever. (International)

THE ITALIAN LINE'S motor vessel Giulio Cesare makes its first entry into the port of New York. The 47,100-ton, 1,100 passenger liner docked with one more passenger than she had when she left Italy. Flavia Giulia Cesarina D'Ortona was born at sea and named for the ship. The mother of the baby looks on (right) while Captain Giuseppe Chavien, skipper of the vessel, holds the tiny infant.

FOR THE FOURTH successive year, the United States Air Force is operating a children's airlift from Berlin to West Germany. The planes carry hundreds of needy children to foster homes in the west for a vacation. Here, Gen. William H. Turner (left), commander in chief of the United States Air Force in Europe, and U.S. Ambassador James B. Conant escort some of the youngsters to the airplane that carried them to Frankfurt. (International Radiophoto)

SWEDISH actress Anita Ekberg and her fiance, British actor Anthony Steel, embrace at Rome's Ciampino airport on her arrival from New York. The couple, who plan to wed soon, kissed over and over for the benefit of photographers. (International)

FRED L. BOHM (left), Zanesville, Ohio, the newly-elected ruler of the Elks, accepts the gavel from the past exalted ruler, John L. Walker, Roanoke, Va. The Elks are holding their convention in Chicago.

COMMUNICATIONS will be the lifeline of Operation Alert, 1956, just as they are of any effective nationwide defense against "sneaking" planes. Shown here is part of the communications center at Federal Civil Defense Administration national headquarters at Battle Creek, Michigan, during last year's Operation Alert. (Radio Creek Enquirer and News Photo)

THREE TWELVE INTERNATIONAL BEAUTIES enjoy themselves at Falmouth Park, N. J., before leaving for the "Miss Universe" pageant in Long Beach, Calif. Shown in the water (l. to r.) are: Maria Jose Cardoso, Brazil; Rossana Galli, Italy; Anita Treyens, France; Sara Tal, Israel; Maria Rodriguez, Cuba; Marina Orzech, Germany; Gudaug Gudmundsdottir, Iceland; Lucienne Auquier, Belgium; Ingrid Goide, Sweden; Elaine Bishenden, Canada; Can Uysal, of Turkey, and Iris Waller, of England.

BIRTHDAYS OF THE PRESIDENTS

By Robert C. Phibbs, President, Encyclopaedia Britannica

Calvin Coolidge and his simple Vermont home. Night covered a little white house at Plymouth in the Vermont hills when, early on the morning of August 3, 1923, there was an urgent knocking at the door. Quickly a lamp was lighted inside the house, and the elderly man who answered the door assured the messengers that he would arouse his son. Soon the son came slowly down the narrow, old-fashioned stairway. President Harding was dead — and there, in the little sitting room, by the light of a kerosene lamp, at 2:42 A. M., Vice-President Calvin Coolidge became the 29th president of the United States.

The number of offices to which Coolidge was elected by the people, rather than appointed — without one defeat in his record — showed that the people had confidence in him. His qualities were seen to honesty, courage, faithfulness to duty, and simplicity. So it came as no surprise that in 1920, when Warren G. Harding was nominated for president, Coolidge was chosen as his running mate.

Because of his overwhelming popularity Coolidge was elected to two consecutive terms in the White House. During these days, national prosperity continued.

As the president's term neared its end, the country wondered whether he would seek re-nomination and disregard the tradition that a president cannot have a third term. But he announced tersely: "I do not choose to run for president in 1928." After Herbert Hoover was inaugurated, March 4, 1929, Calvin Coolidge retired to Northampton, Massachusetts.

On the afternoon of January 5, 1933, the whole world was startled by the news flash, "Calvin Coolidge is dead." He died without warning at his home, from a blood clot. President Hoover with members of his cabinet and many notables gathered in the Northampton church to attend the funeral. The miles of icy, rutty road, along which Coolidge's body was afterwards borne northward, were lined with rich and poor, standing with uncovered heads. In the midst of rain and hail he was laid to rest in the ancestral graveyard at Plymouth, Vermont.

JOSEPH "SPÉCS" O'KEEFE (above), the government witness in the trial of 11 suspects in the \$1,219,000 Brinks robbery, is shown in Boston where he was brought for a meeting with Stanley Gusciora. The latter was taken from a Pennsylvania prison for arraignment in court in connection with the spectacular crime. O'Keefe is the lone member of the gang who has been willing to talk. (International)

COMMAND CENTER where the Federal government's leaders will make the decisions charting the nation's defense against "sneaking" planes during "Operation Alert, 1956" will be located somewhere outside Washington, D. C. This is a section of the emergency center, known as "Highpoint," showing how the national picture of damage sustained and civil defense remedial actions is received via facsimile (left, foreground) from the Federal Civil Defense Administration's national communications center, and relayed by telephone to the staff at the states board in background. (F.C.D.A. Photo)

KEY TO SUCCESSFUL civil defense countermeasures against an attack would be available during time for protection of city populations. Here, attack covering elements of Federal Civil Defense Administration headquarters, the "sneaking planes" from reports relayed from Air Stations. During "Operation Alert, 1956," training exercises for CD personnel will be carried out to improve alertness, response and communication. (F.C.D.A. Photo)

POPE PIUS XII prays at the tomb of Rome's first archbishop on St. Peter's Day. The tomb of the "Prince of the Apostles" is in St. Peter's Basilica. (International)

FACTS AND FIGURES on "casualties" and "damage" to target areas have been fed into an electronic computer such as this for Operation Alert 1956 to get a lightning-quick picture of the bomb-damage accountants in the 10 target areas throughout the nation. Evaluated data from target areas goes by wire to the operations room at F.C.D.A. Headquarters. (U. S. Air Force Photo)

Social Events

between you 'n me

By SANDRA BERC

JIMMY AND CAROL DE Brine were down for the weekend from Eau Claire visiting relatives and friends. Seems as though it's their opinion it's hotter here than over there. . . While chatting with Carol she told me that Barb (Mrs. Lynwood) Whitley and her new baby are visiting here also from Birmingham, Ala. They have gone to Homestead for a week to visit relatives but will return to spend some time with her family. Mr. and Mrs. Bill Cassabe, Lynnwood will probably join them later. . .

MRS. DONALD BARON (the former Miss Jeanne Lane Miller) writes from Arizona that "it's hot and getting hotter." Bless our Florida breeze! Jeanne Lane and her little daughter are seeing hubby's end of the United States having been there for only a short while. They plan to make their home in that state.

TOMMY WYATT'S mother is having a hard time keeping her son on a vacation! Tommy is in St. Petersburg with his aunt enjoying the sun and sea but gets the urge it seems to come home when he starts thinking about his piano. Tommy was quite active in his musical abilities at Seminole High School from which he graduated this year. He is planning to continue it at Florida State University next year. Good Luck!

ON THE NEW ARRIVAL LIST . . . THE William D. Pulbers, 2544 Palmetto Ave, from Rodus, N. Y. He is in the Navy. The Pulbers have two boys, one two years, and one six months. Mr. and Mrs. Walter W. Calbaugh of 2423 Princeton Ave. here from Cleveland, Ohio. Mr. Princeton is a chief in the Navy and they have one boy, five. Mr. and Mrs. C. A. Bone and their girls, four and two. Here from Memphis, Tenn., they are at 822 Rosella Drive and members of the Presbyterian Church. He is a chief in the Navy. . . Lt. Cdr. H. M. Cummins from Boise, Idaho. The Cummins are living at 1100 Cronell Drive and have two girls. . . Cdr. and Mrs. G. T. Forrest from Murry, Ky. They are living at 2022 Elizabeth Court and have two boys. . . And last Lt. Cdr. and Mrs. R. W. Mann from Wilmet, Ill. living at 2108 Magnolia Ave. They have two boys and a little girl and plan to buy a home here.

IRIS CAUSEY, Al Collins, Kay Jenkins and two other teenagers were really enjoying themselves at Sanlando Springs Sunday. Al cuts quite a caper doing the new "rock and roll" style of dancing. Even a brief shower of "rain" didn't stop the juke box by the concession stand as the feet from beating rhythm. As they

Mrs. DIAL BOYLE has accepted a job in Durham, N. C. for next year. Dial says she will probably teach seventh grade and looks forward to it. She was such a hit with all of the students at Junior High School, I know they will hate to see her go. A good personality and smile go a long way in breaking the ice between teachers and pupils. Since she attended Duke University which is in Durham she won't be a stranger in town knowing quite a few of the local people.

IT WAS BROUGHT to my attention that this month, powerboat racers will vie for the 53 year old symbol, The Harmsworth Trophy of speed on water. I am proud to announce that the first winner of the trophy, 15 inches high and 31 inches long weighing 85 pounds, was won by a woman! Miss Dorothy Levitt was her name and she piloted a craft called "Napier 1" with an average speed back in 1903, of just under 20 mph.

OVERHEAD of a just year old in church Sunday, as she refused to join in singing a well known hymn: "But I know the Rock N' Roll Water better."

SHADES OF YELLOW ON WHITE make a bright-summer stripe design for this pure silk taffeta day dress designed by Luis Favez. The front is very smooth and simple. The back is slashed to show an under-vest. Collared V-back is prettied by double bows.

Calendar

TUESDAY
The Unity Class will meet at 8:30 p. m. in the Valdez Hotel with the Rev. Carolyn Parsons as teacher. The public is invited.
The First Baptist Church will have the Morning Devotional in charge over WTRR at 8:30 a. m.
The Phebean-Golden Circle Class of the First Baptist Church will hold its regular business and social meeting at 8 p. m. at the home of Mrs. J. H. David, 318 W. 18th St.
The last in a series of swimming lessons that navy children may attend will be held at the NAS pool. Registration will be held in the morning and those unable to attend registration may call Mrs. H. D. Murry, 3037-R. Mrs. F. B. Scott is instructor.
The Pioneer Fellowship and Recreation of the First Presbyterian Church will meet at 7:30 p. m. at the church.
WEDNESDAY
The First Baptist Church will have the Morning Devotional in charge over WTRR at 8:30 a. m. The First Baptist Church will

STUDY is play to the 51 youngsters who attended the Christian Church Bible school. Six teenage assistants were on hand to give the students more individual attention. (Staff Photo)

Duplicate Bridge Club Has New Director For Games

The Sanford Duplicate Bridge Club has been fortunate in securing Miss Ina Kiehl of Orlando as director for its Thursday evening duplicate games. Miss Kiehl is well known to Central Florida bridge players both as a player and as a director.
Nine tables were in play last Thursday, producing an average of 104 for the evening. The first four pairs were very close, with a tie for first between Mrs. Schaal and Mrs. Kronenberger and Mrs. Spitz and Mrs. Eckardt with 125 points.
They were followed by Mr. Spitz and Mr. Bricklin with 123 and Mrs. Clifton and Mr. Rockwell with 122 points.

BIRTHS

Mr. and Mrs. John E. Pierce Jr., of Daytona announce the birth of a son, Hugh Martin born Friday, July 13. The young man weighed 8 lbs., 14 1/2 oz. Mrs. Pierce is the former Miss Mary Ann Welches.
Mr. and Mrs. W. C. Jennings are the proud parents of a daughter, Luena Elizabeth weighing 8 lbs. 4 1/2 oz. The young Miss was born in Lakeland, July 13. Mrs. Jennings is the former Miss Martha Jo Carr.
The Rev. and Mrs. Emmett Herndon of DeLand announce the birth of a son, James Emmett Herndon II, June 29, weighing 8 lbs. 14 oz. Rev. Herndon is the Presbyterian minister to the students at Stetson University Church at DeLand. He is the son of Mr. and Mrs. Robert E. Herndon, 209 E. 4th St.
Some light weight spun rayon ones may be ironed without dampening first.

Spotlight On Hollywood

HOLLYWOOD — We've heard about stars who have been helped or jinxed by Academy awards. Here's a girl Oscar did nothing for.
Absolutely nothing. Or so says Kim Hunter, who won the supporting award four years ago for her role as Marlon Brando's long-suffering wife in "A Streetcar Named Desire."
"I must honestly say that winning the Oscar had no real effect on my career," she said. "It didn't raise my salary to any degree. There was no great increase in the number of scripts I was offered. No studio made a move to sign me to a term contract.
"Certainly the Oscar was a great satisfaction personally to me. But career-wise it did nothing."
This is in direct contrast to tradition which has dictated that the Oscar buoy up an actor's career or puts it on the skids. Historians point out that such winners as Katharine Paxinos, James Dunn, Mercedes McCambridge, Celeste Holm and others did little in films after copying the big prize.
On the other hand, others like Frank Sinatra, Anne Baxter and Eva Marie Saint have prospered after being awarded the Oscar. You just can't figure it.
Perhaps the reason for Miss Hunter's lack of reaction from the Oscar is her own independence of Hollywood. She prefers to live in New York with her husband, writer Robert Emmett, and two children. Occasionally she comes out here for a picture—she's now doing "The Young Stranger" at RKO. But she devotes just as much of her energies to the stage and TV.
"I learned my lesson," she said. Her lesson came during her first stab at a Hollywood career. She came here as a David Selznick player—and never appeared in a Selznick picture. During five years in Hollywood, she made four pictures and an Army short! Her next experiences with films was even less fruitful. She played opposite David Niven in "Blow-up to Heaven" and signed a contract with J. Arthur Rank. The result: A year and a half of complete inactivity.
No wonder she's wary of contracts!

Radio-TV Highlights

NEW YORK — It has become a cliché that television consumes talent at an outrageous rate, that with many programs and entertainers it's here today and gone tomorrow.
While a few programs come and go each season, a great majority appear to be going on forever.
Listen to a few names and programs and then tell us what year it is: *Patti Page*, *Dinah Shore*, *Julius & Ross*, *Arthur Godfrey*, *Groucho Marx*, *Janet Blair*, *Ed Sullivan*, "Disneyland," "I Love Lucy," "The \$64,000 Question," "Dragnet," "Ford Theatre". . . The list can grow extraordinarily long—and the year is 1956. It seems that no entertainer with a relatively high degree of popularity in July of 1953 has disappeared from the home screen a year later except Jimmy Durkin. Even Liberace, who faded for a while, is staging a comeback.
New drama programs have appeared in the past year, and at least one—"Playwrights '56"—has gone. But the great majority of regulars—"Climax," "The Robert Montgomery Show," and "Studio One"—have long been with us and show no signs of leaving.
Although there have been some newcomers to the lists of most widely viewed programs, it's surprising how many at the top a year ago are still listed up there: Sullivan, "I Love Lucy," "The \$64,000 Question," "Disneyland," "Ford Theatre," "I've Got a Secret". . . Who started this rumor that it's here today and gone tomorrow television?
True, some regular weekly programs almost invariably disappear. But the faces of vanished programs almost invariably reappear in the frames of new programs. It's really quite amazing how practically no one ever permanently disappears.

Personals

Mr. and Mrs. Roger Jemenez, of Lake Monroe, recently entertained as their guests, Mr. and Mrs. Donald J. Sweet, and children, Mary Ellen, Charles, and Frank, of Endicott, N.Y. Mrs. Sweet, is the pen pal of Mrs. Jemenez. This was their first meeting, after corresponding for twenty five years.
Miss Betty Jemenez spent Friday with the Sweet family at New Smyrna Beach.
Friends of Mrs. J. H. Tindal of Lake Monroe, will be pleased to hear she is recuperating nicely at home, after undergoing surgery at the Orange Memorial Hospital.
Mr. and Mrs. C. E. Hittell, and children, and Mr. and Mrs. F. W. Yeakle and son, visited Silver Springs and Rainbow Springs over the weekend.
Mr. and Mrs. Irvin Smith and children are spending their vacation in North Carolina and Michigan.
Mr. and Mrs. Roy Marion and son Ken, arrived Sunday from St. Louis, Mo., to visit with Mrs. Marion's parents, Mr. and Mrs. Turner Lodge and her brother-in-law and sister, Mr. and Mrs. Bart Galotta.
Mr. and Mrs. J. L. Jackson and Mr. and Mrs. Bert Stecie are spending several weeks in Waynesville, N. C.

Mrs. Robert Orwig Feted At Shower In Butler Home

Mrs. Robert Orwig was feted Wednesday night with a Stork Shower by Mrs. I. J. Butler Jr. in her home at 8 p.m.
Various colored roses and natural greenery were placed in attractive vases and holders about the party rooms. Games were played with prizes going to Mrs. Robert Reeves and Mrs. Marion Butler.
Cake, in the shape of a pair of booties, coffee and ice tea, ham and turkey sandwiches were served to the guests.
Attending were Mrs. James Gut, Mrs. David Gatchel, Mrs. Ed Fielding, Mrs. Wade Singletary, Mrs. I. J. Butler Sr., Mrs. Marion Butler, Mrs. Ernest Housholder, Mrs. Robert Reeves, Mrs. Robert Reeves, Mrs. Alice Gillespie, Mrs. Orwig and the hostess.
If you keep a bottle of raspberry syrup on hand for use in summer drinks, use it once in a while for fruit desserts. Pour the syrup over grapefruit sections or sliced fresh pineapple, for instance.

Council Studying State's Economy

TALLAHASSEE, (AP)—A citrus industry worth more than 1 billion dollars a year, a two-million dollar construction industry and total real estate values of 28 billion dollars were seen possible for Florida by 1970 today by the State Council for the Study of Higher Education.

The council has been making studies of the state's economy and population trends in order to map long range plans for higher education facilities.

Citing a "very favorable" national demand for Florida citrus, the council based its 1970 estimate on the likelihood of a larger population and higher income level.

"If picking and packing costs are included, the return to citrus growers and packers would increase from 189 million dollars in 1954 to 253 million in 1970," the council said.

"The construction industry when measured by construction per capita, has become larger in Florida than in the South or in the United States.

"Under the impetus of population extension, together with rebuilding at higher income levels, Florida's new construction should expand from 817 million dollars in 1952 to a little under or over two billion dollars in 1970.

"Land values in Florida and elsewhere are going up as a result of a booming economy. However, underlying influences are much stronger and tougher in Florida now than in the 1920s.

"Viewed in the long perspective, total real estate values of over 12 billion dollars in 1952 may readily reach 26 billion dollars or more in 1970 as a result of more intensive and competitive land use by a larger population having higher incomes."

In making its estimates, the council is considering the dollar to be worth what it was in 1952 to prevent "the illusion of growth from inflation."

In a general discussion of the state's economy, the council said Florida's water resources are superior but care must be taken to prevent increased pollution from causing water pollution by sewage and industry.

Farm acreage has grown markedly during the past half century, the council reported, and estimates that by 1970 the state will have an additional 95,000 acres of vegetables, 200,000 acres of citrus and 250,000 acres of field crops.

The council expects vegetable production to go from the 1952 total of 142 million dollars to 215 million in 1970 when chief crops probably will be tomatoes, snap beans, Irish potatoes, sweet corn, celery and watermelons.

The largest gain is predicted for improved pastures which are expected to go from 14 million dollars in 1952 to 34 million in 1970.

Physical volume of beef cattle is expected to triple from 1953

to 1970 and dollar value is expected to quadruple. Production value is expected to go from 31 million dollars in 1953 to 120 million in 1970.

Poultry production is expected to double to 64 million dollars by 1970 and given improved dairy management milk production may almost double to 80 million.

"Sensational" increases in greenhouse and nursery products were judged likely to continue. The industry was worth 22 million dollars in 1953 after doubling since 1940 and 72 million dollars worth of production is expected by 1970.

The retail value of fisheries production should be between 132 and 159 million dollars in 1970, the council said.

The council predicted retail sales in Florida will have reached the 9,700,000,000 dollar mark by 1970 in comparison with four billion in 1954.

In the field of manufacturing, the council said labor productivity has risen at a faster rate in Florida than nationally "but output per employe, now below the national average for a majority of industries, needs to be raised by more skilled labor and greater mechanization.

"The continuance of past favorable trends will mean in 1970 a three billion dollar total value of products of which 1,286 million dollars would be value added by manufacture in contrast to 634 million dollars in 1952.

The council forecast a significant growth in tourism by 1970 but said the Florida "economy will expand by a little faster rate than at present."

An employment force of over two million was predicted for 1970 with an accompanying growth in the number of professional workers from 81,494 in 1950 to well over 200,000.

A Princeton University professor, Dr. Hugh Scott Taylor, has won several awards for producing high octane gasoline to serve our petroleum reserves.

He came from his native England in 1914 and stayed here.

Two tons of electronic sound amplifying equipment are needed to serve the Republican and Democratic national conventions so that both speeches and music can be heard by the huge throng of delegates.

A Swiss colony in New Glarus, Wis., has 83 factories to manufacture Swiss cheese. Tiny farmhouses here are built in architecture of Swiss mountain houses.

KAY DOUGLAS, 18, of New York City, gives a wide-eyed gasp at Fallsides Park, New Jersey, as she learns that she has won the title of Miss New York State. Carol Kragg (left), 18, took second place. In addition to the title, Kay won a trip to Long Beach, Calif., and a chance to compete in the Miss Universe pageant. (International)

Maybe You Eat Too Much

By NEWMAN S. BUSHNICK, M.D.

MAYBE you don't need quite as much food value as some doctors seem to think.

Climate and work-saving devices may be reducing the food needs of many Americans. At least this appears to be the case in Texas.

Caloric Values

Dr. Frances I. Scollar, dean of the School of Home Economics of the North Texas State College at Denton, studied the caloric values of the diets of 81 young women living in the school's Home Management House.

She found the average number of calories eaten each day by each girl amounted to 1,981. Average age of the women was 19.6 years.

Now this daily caloric average is considerably under that recommended by the National Research Council. For girls in the 16 to 20 year age bracket the Council recommends a daily allowance of 2,600 calories. For 25-year-old women it is 2,300.

The 81 girls taking part in the study were not trying to lose weight nor were they trying to gain it. They ate what they wanted to eat as they would in their own homes as usual.

They ate such things as milk, meat, eggs, bread, butter, and other carbohydrates and fats, and also some fruits and vegetables.

All of the girls had some fluid milk during the five-day study. And only three of them had no carbonated beverages or sugar during the study.

While the total daily caloric intake, including composite foods, milk, sugar and beverages, ranged from 1,394 to 2,009 calories, the average was under 2,000.

Heavier and Taller

In general, the girls were heavier and taller than the National Research Council averages. Yet they consumed fewer calories. Dr. Scollar says the study:

"Suggests that Texas climate and labor-saving devices have lessened the caloric requirements of these young college women."

Perhaps the fuel needs of many of us should be re-evaluated in the light of more extensive use of labor-saving devices, shorter working hours and more leisure time.

QUESTION AND ANSWER

Q. M. I. Can a person have amoebic infection of the liver?

A. Answer: Yes. This is a very serious complication of amoebic dysentery.

The amoeba often travels from the blood stream to the liver and may form large abscesses which may even penetrate into the chest cavity.

1/Lt. Ben Williams Is Administrator At Japan Hospital

First Lieutenant Ben H. Williams Jr. left by plane for Tokyo, Japan Friday where he will be stationed as Hospital Administrator for the Air Force Base Hospital in Fukuoka, Japan.

Lt. Williams is a native of Sanford. He graduated from Seminole High School in 1942. He served 3 1/2 years in the Army Air Force in World War II.

The newly appointed Hospital Administrator attended Stetson University in St. Louis, Missouri June 6.

He served his year's residency in the John Sealy Hospital in Galveston, Tex.

Lt. Williams is the son of Mr. and Mrs. B. H. Williams of 2513 Palmetto Ave.

A city survey showed the section referred to by Lee, with 7,000 inhabitants, is expected to have 10,000 by 1975.

Manitoulin Island in Lake Ontario is rated as the largest freshwater island in the world.

"NO MAN MORE WORTHY OF ESTEEM THAN A PHYSICIAN"

(Author's name below)

A physician devotes many years of his life to learning all about the properties of the body, the diseases that assault it, and the remedies that will benefit it. All his learning and experience is available to you.

Do you make proper use of his ability and willingness to help you live a healthier life? Do you consult him at the beginning of an illness, or wait until you are so sick that treatment is more difficult? Be wise. Depend more on your physician instead of self treatment.

Collins Announces Special Session For Next Monday

TALLAHASSEE (U)—Gov. Leroy Collins announced today a special session of the Florida Legislature will convene Monday, July 24, to deal with segregation and four other emergency matters.

Collins said the official proclamation for the call will be filed with the secretary of state later in the week.

The governor said in a formal statement that matters to be included in the call will be:

1. The four-point program recommended by a special legal committee to stave off integration of the races in Florida.
2. Providing funds for the Mediterranean fruit fly eradication program.
3. Measures to improve highway safety.
4. Emergency institutional improvements.
5. Measures to prevent misleading advertising by real estate development promoters.

The governor said "limited additional appropriations" will be needed to put the recommended program into effect.

County Will Be Featured Over TV

Seminole County will be featured and spotlighted on a 15-minute TV program over WDBQ-TV tomorrow afternoon from 4:00 to 4:15 p. m.

Seminole County Commissioner John Meach and Chamber of Commerce Manager Forrest Broderidge will appear on the quarter hour salute.

Bond Purchases Show Increase

Savings Bond purchases in Florida in June increased more than 8 per cent over those of the same month a year ago, according to figures just released by W. A. Patrick, Savings Bond Chairman at Sanford.

\$3,481,390 went into Series E and H Bonds during the month as compared with \$3,131,302 the prior year. He indicated, "For the first half of 1956 the figures now show \$63,288,720 which is 36.8 per cent of Florida's \$172.1 million quota for the year, a little behind our objective." Patrick said, "An ordinarily about 35 per cent of the year's purchases are made during the first six months."

Lobster Divers 'Magnify' Story

BIDDEFORD, Maine (U)—Two able divers, accused of possessing 45 short lobsters, came up with the excess in municipal court.

They didn't know the lobsters were too small—their diving goggles magnified the size.

Judge Daniel E. Crowley was somewhat impressed. He fined David O. Whitcomb and Richard D. Craven, both of Portland, a total of \$30 instead of the usual \$5 per lobster.

Bullet-Scarred Bloody Car Found

LOS ANGELES (U)—Police still are trying to find out what happened to a young Texan whose bloody, bullet-scarred sports car was abandoned with its motor running, its radio blaring jazz.

There were no new clues in the disappearance of Eugene H. Robertson, 28. His flashy car was found early yesterday in an alley behind a Hollywood hotel.

Sheriff, County Commissioners May Solve Burden

The burden of enforcing a state statute prohibiting livestock running at large or straying on public highways rests with the Sheriff and Board of County Commissioners, according to a letter from State Attorney General Richard W. Ervin to C. D. Perry of Geneva.

The letter, read to the Board of Seminole County Commissioners yesterday during their regular meeting, was to clarify the fact that Florida Highway Patrolmen could not necessarily enforce the law requiring that livestock be kept off public highways.

However, it was explained that the Seminole County Sheriff is enforcing the livestock statute as completely as possible.

'Ham' Operators Save Child's Life On Mercy Mission

NEW YORK (U)—"The bleeding has stopped. The baby is in good condition. Everybody here is very, very grateful to all of you."

That was the message a ham radio operator in Leopoldville, Belgian Congo, flashed to a ham radio operator on Staten Island here yesterday. It signaled the successful completion of a 6,996-mile mission of mercy.

Children's Choir Stops In Sanford

Eighteen children of the Carol Choir, First Baptist Church, Pierson arrived in Sanford by Atlantic Coast Line Train yesterday afternoon at 2:35 for a visit.

The youngsters, with their choir director Mrs. Wesley Braddock and Mrs. Aubrey Hudson, spent the afternoon visiting the Sanford Zoo and Sanford's many parks and playgrounds.

Commercial Class On Sewing Is Resumed

The Commercial Sewing Class under the co-sponsorship of the Seminole County Board of Public Instruction and the Sanford Industrial Board has resumed classes after a ten day vacation.

There are a few vacancies for applicants who desire to attend the present class. It appears that job opportunities in the three industrial sewing plants in Sanford are going to be favorable with additional help being needed to fulfill commitments.

Funeral Services Slated Tomorrow

Funeral services for Lloyd H. Croome will be held at 2 p. m. tomorrow at the First Baptist Church with Rev. W. P. Brooks Jr. officiating.

Burial will be in Oaklawn Memorial Park.

Funeral Home is in charge of arrangements.

Tallahassee, Tampa Will Be Targets

Information received at Civil Defense headquarters indicates that Tallahassee and Tampa will both be under nuclear bombardment on Friday when the mock air attack is made on 16 cities in the nation. The announcement came from Dr. A. B. Peterson Sr. and his assistant in charge of operations, Roy G. Williams.

Inmates Show Marked Reactions To Cancer Cells

NEW YORK (U)—A cancer researcher says 14 Ohio State Penitentiary inmates have experienced marked reactions to live cancer cell injections.

The 14 volunteers received the injections nearly a month ago. The purpose of the experiment was not to try to transmit the disease itself but to study the body's resistance to cancerous cells.

Stoudsburg Folks Help Circus Group

STROUDSBURG, Pa. (U)—The people of Stoudsburg are keeping boxes marked "Donations Appreciated" well filled, assuring food for an eight-man crew of the delectable King Bros. circus stranded here without money.

The circus unit was one of several headed back for winter headquarters at Macon, Ga., after giving up at its last booking in Middletown, Conn. Mechanical trouble and a series of tire blowouts ate up the unit's travel money.

Attorney Disbarred By Florida Court

TALLAHASSEE (U)—The Florida Supreme Court today disbarred attorney Leroy Barkstrom of Miami.

Barkstrom was accused by the Florida bar of misusing funds entrusted to his care by a client.

Richard M. Saul, who was the court's referee in the disbarment case, reported that Barkstrom failed to appear Oct. 27, 1953, for a hearing on the charges against him and was not represented by counsel.

Weather

Partly cloudy through Thursday with scattered mostly afternoon showers.

POLE VOLUNTEERS
MIAMI BEACH (U)—A panel discussion of volunteer service in the pole fight is sponsored this afternoon by Pole Club International in the annual session of its four-day annual convention.

Human Bones Are Unearthed By Crew Cleaning Ditches

Hunt-McRoberts, Wilson-Maier Teams Play Tonight

The Hunt-McRoberts softball team beat out Wilson-Maier Furniture Co. by one run in the first game of the playoffs to determine the championship team of the league.

In last night's twin bill affair, played under lights Hunt-McRoberts scored 14 runs on 13 hits to defeat the Wilson-Maier Furniture Co. team which scored 13 runs off of 8 hits.

Identified As Those Of Thomas

Human bones unearthed by a Seminole County crew this morning have been identified as those of James Albert Thomas, 85-year-old Negro man who disappeared last December.

J. D. Cassady, Seminole County Foreman in charge of a crew of nine men, was cleaning the ditch east of the Sanford city limits, this morning when the bones were found.

Defense Maintains M. McKeon Owes 'No Apologies'

PARRIS ISLAND, S. C. (U)—The defense maintained today 5-Sgt. Matthew C. McKeon owed "no apology to anyone" for the night march in which six Marines recruits drowned.

Thus defense attorney Emile Zola Berman of New York City laid down the lines on which he hopes to prove the 31-year-old former drill instructor was guilty of no wrongdoing.

McKeon is appearing before a general court martial. He is in the man who led 74 recruits on a night march into a tidal creek April 8. Six did not come back.

McKeon, whose home is at Worcester, Mass., pleaded innocent yesterday to the two major charges against him—involuntary manslaughter and oppression of recruits.

On two minor charges—drinking in barracks and in the presence of a recruit—he said nothing. As a result, the court ordered the court-martial to proceed as if he had pleaded innocent.

Sevier, government prosecutor, said only in a brief statement of about five minutes that "the presentation of evidence will be lengthy. It is our intention" to reconstruct the events which are the subject matter of the charges.

Berman was more verbose. In his opening statement, he told the board:

"Nowhere in the charges is there one word of charge or suggestion that the accused was either drunk, intoxicated or under the influence of alcohol in the slightest."

In summing up the points the defense hopes to prove that at the time, "in terms of Marine Corps training, the platoon was not sharp, was not disciplined."

"It was, to use a local expression," Berman continued, "a herd. They were not taking seriously the training."

"There were two minor events on that fateful day, minor to me. Other drill instructors reported that the platoon which was supposed to be working was indeed loitering around. A field day was ordered. "It was an order of the senior drill instructor (McKeon was a junior) that since the platoon was on the rifle range there would be no seconds at mess except seconds of protein—and no desserts."

"It was at this time," Berman went on, "that to teach them discipline and to improve morale, McKeon decided he would lead them on a night march."

When he led the platoon into the water, Berman related, McKeon was out from, "carefully monitoring. And at no time was he in water above his chest—his armpits."

While he marched with the men, Berman said, "McKeon kept dropping bits of advice like, 'when you get in combat at night stay out of the light. When you ford a stream stay close to the banks if possible.'"

While the march was under way Berman told the court, "the men scattered into groups—and one group wandered off."

"There was a sharp cry of help from one man—and Platoon 11 panicked. Men started to grab belts and jumped on one another."

Berman said McKeon rescued one man and thrice was pulled under by a struggling recruit.

"Another 10 seconds and there would be no reason for this occasion," the attorney observed.

The plain facts are, Berman contended, that McKeon was using training methods condoned by the Corps. "He was dedicated to the purpose of making Marines." The record of the Corps, Berman concluded, "requires no apology. If there are others who think so, the apology should not be made by McKeon."

Shortly after Berman's statement, the government put its first witness on the stand, Capt. Charles R. Waddell, the base adjutant.

Waddell testified as to the base regulations governing drinking at the time of the tragedy.

Last night and early today this training center was flooded with telephone calls from 26 Marines volunteering to add the defense of McKeon.

Seminole Among 27 Counties Without Car Death

Seminole County is among the 27 counties which went by June without a traffic death. 17 counties had only one traffic fatality during the 30 day period. However, a total of 91 died in traffic mishaps during the month, which gave Florida one of the largest highway death rates for June in several years.

Hillsborough County had 9 traffic deaths recorded in June, the largest number for any of the state's 67 counties.

Polk and Dade Counties came second with 7 deaths each and Duval was third with 6 traffic deaths counted and with four deaths each were Collier and Orange Counties.

Susan Q. Smith Enters Little Miss Seven Contest

Little Miss Susan Q. Smith of 801 Rosalia Drive, Sanford, has been entered in the Little Miss Seven Contest to be held at Sandhills Springs Friday and Saturday.

The daughter of Mr. and Mrs. Boyd Q. Smith, she is a student at Southside Elementary School.

Under the questionnaire asking for type of talent, it was answered:

"No talent, just sweet and pretty."

Susan's vital statistics are 23-20-23. She is 3 feet, 9 1/2 inches tall and weighs 43 pounds.

Meeting Scheduled

The annual meeting of the Seminole County Sportsman's Association will be held next Wednesday, July 26, at the Elk's Club Annex at 8 p. m., according to a announcement released today by the organization's president Porter Lansing.

Lansing said that there will be an election of officers for the coming year.

Guest speakers, according to the Sportsman's Association president, will talk on the "effects of water level on our game and fish."

Proceeding the meeting there will be a barbecue which will be served beginning at 8:30 p. m.

Cardinals Edge Tavares Entry

The Sanford Cardinals edged the Tavares entry in the Lake-Owens League last night 4-3 behind the steady pitching of Jim Hawkins.

The game, played at the Sanford Memorial Baseball Stadium, was a well played one.

Hawkins won his own game in the eighth inning with a single with two men on base.
