County Sewer Service Rate Hike Proposed

By Paul C. Schaefer
Herald Staff Writer

Needed improvements and expansion for Seminole County utilities may increase residential customers' bills an average of \$7 per month. County Environmental Services Director Jim Bible told commissioners Monday that to meet the projected county needs through 1991, an increase of \$7 per month is needed. The increase would mean sewer service rates for an average residential customer would jump from \$19 per month to \$26 per month. Water rates, which average \$8 per month would remain

the same. The average monthly billings are based on a residential customer who uses about 10,000 gallons of water service monthly. Bible said that during the next five years, \$33 million in additional funding will be needed for water and sewer plant improvement and expansion. The average \$7 increase will balance the \$33 million bond issue the county would execute to pay for the expansion. The average homeowners water and sewer bill combined would increase from \$27 per month to \$34 per month. The existing rates average \$8 for water and \$19 for sewer service. The proposed

rates average \$8 for water and \$26 for sewer. Seminole County's water and sewer customers number nearly 12,500 now, but by 1990, about 22,500 customers are projected. The additional demands for service require plant improvements and expansion. County capital improvements and expansion for water service are expected to cost the county \$6.3 million over the next five years, but sewer service is projected to cost \$45.9 million. While Bible called the proposed increase "moderate", Seminole League of Homeowners president Dan Bushrui said "any increase to the

homeowners is not moderate." He said he could not endorse the proposed fee hike. If approved, the fee increase would be the first in Seminole County since 1982. The proposed rates would still be less than those charged in Lake Mary, Sanford, Winter Springs, the city of Orlando, and Orange County. After county staff prepares a rate resolution which would include rate structure and rates, the proposal will be placed on a county commission agenda, and a public hearing will be set. The proposed rate hike could be effective in March.

Park Deal Dead

By Jane Casselberry
Herald Staff Writer

Longwood's dream of a city park on Island Lake is apparently dead. Mayor Larry Goldberg said today as far as he is concerned unless the property owner Bill White comes down on his \$1 million asking price and makes a counter offer, the deal is off.

However, he said negotiation for a sewer deal with Seminole County is looking good and could make a site available for Candyland Park in Skylark subdivision. Goldberg said the City Attorney Ann Colby met with County Attorney Nikki Clayton Friday afternoon to rework a contract under which the county will treat the city's wastewater at its Greenwood Lakes facility. The commission suggested changes in the first draft of the contract at last week's meeting.

Goldberg said, "The contract looks real good and hopefully the commission will do something with it Monday night."

A negotiating committee named by the city commission in October has been trying to work out an acceptable deal with White on the 40-acre park site.

Goldberg said he thought White has the best interest of the city at heart because of the outstanding terms he offered in which Longwood would have 10-15 years to pay off the purchase price. "That way it would not be a real impact on the city," Goldberg said.

According to Bill Goebel, director of the city Parks and Recreation Department, White was willing to donate 130 acres of wetlands on his 170-acre tract for a bird sanctuary and wildlife preserve, if the city purchased the other 40 acres.

However, Goldberg said only 15-20 acres are high and dry enough to be built on. "It would be a very expensive deal for the city and we can't afford to pay that much for that amount of developable property that doesn't have an access," Goldberg said.

"I was under the impression that White wanted \$500,000 to \$600,000, but that is still too high," Goldberg said. "To pay \$1 million for park property would be a luxury the city can't afford. For that money we can buy property that is high and dry and build a park on it."

Goldberg said he had hoped the city could purchase the

City Drug Abuse Testing Begins

Voluntary Now, Mandatory Soon

By Karen Talley
Herald Staff Writer

Sanford's municipal substance abuse testing program has begun operating on a voluntary basis while the city continues working toward mid-December adoption of a mandatory screening system for staffers suspected of substance abuse and all job applicants.

So far, six employees and a prospective staffer have come forward for the voluntary testing, which began earlier this month, according to Personnel Officer Fran Diedrich.

Test results will be kept confidential, as part of the employee's medical record. The mandatory program, slated to begin next month, "is being carefully developed" by Sanford's personnel department, city attorney and civil service board to avoid legal challenges, Mrs. Diedrich said.

Applicants who screen positively will not be hired, while employees who test positively will be reprimanded, possibly suspended and "urged" to use the city's planned employee assistance program, Mrs. Diedrich said.

Employees will be required to submit to the mandatory pro-

gram if their supervisor has "reasonable suspicions," and those refusing the test or who fail it twice will face dismissal, Mrs. Diedrich said.

The city is not, however, focusing on diminishing its ranks without "first giving employees every opportunity to seek help for their problem," Mrs. Diedrich said. "Dismissal is definitely our last resort. Our concentration is rehabilitation through the employee assistance program."

The city's employee assistance program is expected to be in place by early January. Sanford will contract with a private organization to run the program.

In addition to alcohol and drug abuse difficulties, the assistance program will also offer counseling for legal and financial problems. Employees' families will also be able to avail themselves of the program.

City commissioners allocated \$5,000 last month to set up the testing system and another \$10,000 for the employee assistance program.

A municipal committee, including city staff and Commissioner Bob Thomas, will select a firm to run the assistance program from bid submissions the

city advertised for earlier this month. The committee's recommendation will be presented to the full city commission for approval.

Staffers have been told of the voluntary and mandatory programs by inter-office memos, bulletin board posting and "word of mouth" at city hall, Mrs. Diedrich said.

Additionally, meetings at city hall are planned to provide employees with fuller detail when the mandatory program is in place, she said.

Drug testing information for prospective employees is attached to the city's job application forms.

The consensus among department heads about the testing program "is one of support," according to Mrs. Diedrich. "They realize the screenings are a way to help those who are having difficulties."

When asked if any employees are already under consideration for mandatory testing, Mrs. Diedrich said only "in an organization of this size, there are bound to be some problems."

She also said a couple of employees had approached her about securing help when com-

Sanford Commission Overturns P&Z Board

By Karen Talley
Herald Staff Writer

Sanford commissioners have conditionally overturned a Planning and Zoning Board site plan denial to enable operation of a rooming house at 311 Park Ave. The site plan is for an off-street parking area, located two lots from the rooming house.

On a motion from City Commissioner John Mercer, it was agreed Monday that approval of the plan would be contingent on submission of a second site plan, focussing on the home's exterior, including landscaping. The property owner, Michael Nace, agreed to the second plan, although staff said its submission is not required by city law. At his attorney's request,

commissioners agreed the second plan will be reviewed by staff, not the P&Z.

Commissioners' indicated their decision to conditionally approve the parking plan was based on a lack of clarity regarding the P&Z's reasons for denying it and city staff's own assessment that the plan met their review criteria. Staff had passed its endorsement along to the P&Z.

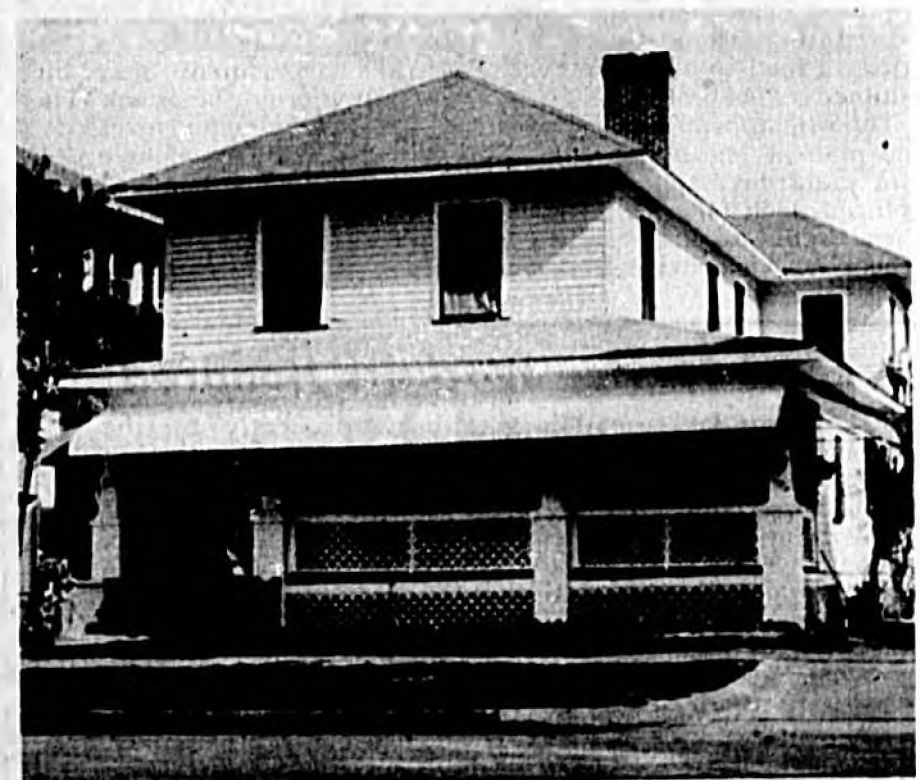

Commissioners' considerations were their second regarding the plan. It was first denied by the P&Z last July and this decision was upheld by commissioners later that month when neither Nace nor his representatives showed up for an appeal.

An amendment to the original plan brought it before the P&Z a second time. It was presented by attorney Bill Hutchison, who said the amendment involves a deed restriction that will be placed on the parking lot. The restriction will require Nace to remain as the lot's owner for as long as he operates the rooming house, Hutchison said.

Hutchison discussed the same restriction with P&Z members at their Nov. 6 meeting and threatened legal action when they voted 4-2 to deny the plan.

Commissioner's decision came after discussing the P&Z ruling with chairman John Morris, who attended Monday's meeting. Morris was one of two board

The subject of the site plan request is this house located at 311 Park Ave. Final approval for use as rooming house is contingent on exterior, including landscaping.

County 5-Year Public Facilities Requirements

Planners Say \$78.6 Million New Money Needed

By Paul C. Schaefer
Herald Staff Writer

To keep up with the demands on county facilities because of growth, Seminole County needs to spend \$78.6 million in new money over the next five years, the county commission was told Monday.

Assistant County Administrator Monte Beamer reported the results of a calculation of public facilities requirements study by the planning firm of Henderson, Young & Company Monday afternoon.

Sixty-million dollars, three-quarters of the dollar amount needed is created by growth, Ms. Beamer said. That money will come from growth related revenue

sources such as user charges and impact fees.

The balance of the total amount, \$18.6 million, is attributable to current service needs. Local option gas taxes, existing utility reserve funds and the continuation of an annual \$1.7 million capital projects budget allocation will be used to fund the difference.

She added that population projections show that the county's citizenry will grow from 254,477 to 302,154 during the next five years. Roads, parks, libraries, water and sewer service, the landfill, and public safety will all need to be expanded to meet the additional population's requirements.

The commission must not only project and plan funds to cover the needs, but set the standards for the improvements as well. Those standards include a four-minute average response time for public safety emergency calls, and one library book for each county resident along with improving 35 miles of arterial roads, and 18 miles of collector roads.

According to Pam Hastings of the assistant county administrator's office, the breakdown of five year funding needs include:

- \$40.03 million for arterial and collector roads;
- \$22.62 million for water and sewer systems;
- \$1.40 million for solid waste dispos-

al;

- \$3.05 million for fire and E.M.S. stations;
 - \$1.01 million for the county jail;
 - \$599,000 for regional parks;
 - \$2.85 million for major parks;
 - \$2.2 million for library books;
 - \$2.44 million for library buildings;
 - \$2.38 million for county government buildings and parking.
- Ms. Hastings said the figures were presented to the commission in first draft form, which will continue to be reviewed by commissioners and county planning staff. If adopted next year, the improvements would be written into the county's growth management comprehensive plan.

POLICE IN BRIEF

Teenagers in Car Charged With Cocaine And Alcohol Possession

Two 18-year-old men questioned by a Seminole County sheriff's deputy who found them in a car parked at Wekiva Reserve on Sand Lake Road at about midnight Sunday were charged with possession of cocaine and possession of alcohol by persons under 21 years of age.

The deputy reported seeing one empty beer can, one open can of beer and three unopened beers in the suspect's vehicle. He also reported finding a pipe, which apparently contained cocaine.

Arrested and being held in lieu of \$2,000 bond each were: Torrey A. Ryerson, 634 Oakview St., Altamonte Springs, and Brent M. Beard, of 2702 Brandon Court, Longwood.

Driving Under The Influence

The following persons have been arrested in Seminole County on a charge of driving under the influence:

—Ronald Robert DePolo, 39, 130 Brennan Place, Longwood, was arrested at 2:37 a.m. Saturday, on East Altamonte Drive, Altamonte Springs, after his car was seen traveling north in the southbound lane of Maitland Avenue. He was also charged with driving with a suspended license.

—Ronald Richard Laser, 24, 5410 Albert Drive, Winter Park, at 12:47 a.m. Saturday, at 5406 Albert Drive, Winter Park, after his car was clocked traveling 60 mph in a 25 mph zone on Tangerine Drive. His car was pursued by a sheriff's deputy to Albert Drive where he was also charged with fleeing to elude and reckless driving.

Burglaries And Thefts Reported

About \$14,500 worth of items including computer gear, a video recorder, a television, a motorcycle, a trailer and tools were stolen from a home at 5211 Healer Ave., Sanford, between Thursday and Sunday. A sheriff's report said Elizabeth R. Chavis, 38, of Daytona Beach, owns the stolen goods.

Henry Connelly, of 2461 Dollar Way, Sanford, reported to sheriff's deputies that a lawnmower, a heater and two fishing reels with a combined value of \$520 were stolen from a shed at his home Saturday or Sunday.

Ledlie B. Berry, 34, of 2644 Lake Howell Lane, Winter Park, gave sheriff's deputies the name of a suspect who may have stolen about \$1,400 worth of items including a \$500 pearl necklace from her home between Thursday and Saturday.

A gold pen and pencil set valued at \$150 were stolen from the car of Janet C. Whitehead, 21, of 991 Turkey Hollow, Winter Springs, Saturday or Sunday, while it was parked at Entenmann's Bakery, State Road 436, Casselberry.

Michael T. Crowthers, 24, of 242 12-League Circle, Casselberry, reported to sheriff's deputies a \$250 cassette recorder was stolen from his car at Willa Springs Plaza, Red Bug Lake Road, Casselberry, Saturday.

Man Arrested After Woman Gets Unwanted Haircut

A 22-year-old Winter Park woman reported to Seminole County sheriff's deputies she was held captive for more than five hours Saturday morning by a man who cut her hair within an inch of her scalp and allegedly tried twice to rape her.

Casselberry police spotted the suspect at Zayres on State Road 436, Casselberry, Sunday and he was arrested there by sheriff's deputies. The man has been charged with kidnapping, strong-armed robbery and attempted sexual battery.

The woman said she met with the man at her home about 8 a.m. Saturday, and they were going to look for a car. Instead they went to his apartment where he allegedly forced her

into a bedroom, held her down on the bed and with scissors cut about 10-inches off her hair. He allegedly tried to rape her.

She struggled and tried to escape, but the man blocked the door with a television and held her captive until he took her home at about 2 p.m. Saturday, after allegedly taking \$32 from her purse.

A police bulletin describing the suspect was issued by the sheriff's department after the woman reported the attack. The suspect was found and arrested.

Stephen William Heinke, 23, of 186 Kuzmany Road, Winter Park, was being held without bond.

—Susan Loden

Food Service Workers Honored

An annual reception was hosted recently by the Seminole School Food Service Association at Keith Elementary cafeteria to honor 34 food service employees who had completed the 85-86 school year with a perfect work attendance. The employees received a certificate of appreciation and small gift. Special recognition was given to Wylene Brooken, a recently retired Midway employee who had completed more than 30 years' service with only nine days' absence.

The Seminole County School Board employs approximately 300 food service workers, who prepare and serve more than 25,000 lunches per school day.

FIRE CALLS

Sanford fire fighters have responded to the following calls, details based on fire department reports:

SATURDAY
—1 a.m., 1702 W. 15th Street. Firemen remained on stand-by until Florida Power and Light workers arrived to repair a power line arcing in trees.

—8:11 a.m., 2413 S. French Ave., car accident. A Sanford man and woman declined hospital transport after on-scene survey.

—1:10 p.m., 1910 W. 13th Street, rescue. A 78-year-old woman complained of severe pain in her right leg. She declined hospital transport after survey.

—1:48 p.m., 2907 Magnolia Ave., rescue. A three-year-old boy was reportedly choking. He had recovered when rescue workers arrived.

—8:40 p.m., 806 Willow Ave., public intoxication. Person had left area when rescue workers

arrived. No action taken.
—8:02 p.m., 2018 Cedar Ave., rescue. A 61-year-old man suffered a possible heart attack. He was transported to the hospital.

SUNDAY
—1:01 a.m., 1206 Lincoln Ave., rescue. Parents who reported their one-year-old son ill were advised to seek a follow-up medical check up for him after rescue workers' survey.

—11:04 a.m., 614 Pine Ave., fire. A pan of grease on a gas stove ignited, causing fire damage to stove, ceiling and shelf above stove, and smoke damage throughout the home. An occupant in the home was reportedly asleep when the fire started, but was alerted by neighbors after one of them reportedly saw smoke coming from the home. Neighbors also reportedly extinguished the fire before firemen's arrival by putting a garden hose through a kitchen window.

Heart Attack Victim Had Little Chance

By Paul C. Schaefer
Herald Staff Writer

There was little chance of saving a 58-year-old man who died as the result of a heart attack at a high school football game Friday night, according to a Seminole County Medical Examiner's office spokesman.

The Pennsylvania man had a history of heart disease and heart surgery, the spokesman said.

He suffered a heart attack while watching the Lyman

versus Lake Mary High School varsity football game in the Lyman Stadium grandstands, 1141 Southeast Lake Avenue, Longwood.

Dead is Carl R. Harris, Franklin, Pennsylvania. He was the father of Lyman football assistant coach Michael "Mick" Harris. He suffered the fatal heart attack at about 8:45 p.m. Friday, late in the second quarter of the game. He was pronounced dead at South Seminole Community Hospital

at 9:57 p.m. While there was no ambulance contracted to be at the game in case of player injury, none is required, according to both Lyman Athletic Director Ken Pletzer and Superintendent of Schools Robert Hughes.

There was, however, an ambulance at the stadium at the time the man suffered the heart attack. The Florida/Rural Metro, Inc. ambulance was there responding to a call that a woman

spectator had suffered minor injuries in a possible scuffle, according to Seminole County Public Safety Lieutenant John Rougeux. A second Rural Metro ambulance was dispatched.

Rougeux said physicians in the grandstands immediately attempted to aid the man until the Public Safety Department arrived several minutes later. The Public Safety Department was in charge of the rescue operation, Rougeux said.

Rig Squeezes Truck Into Curb

No one was injured in a noon-hour accident Monday that squeezed a small pickup between a tractor-trailer rig and a curb at a busy intersection in Sanford.

"The next time I come through, I'm just going to have to take out the sign and the cement pole and everything," said an angry Robert Cox, 25, of Salisbury, Del., after he was charged with improper lane change by Officer Carlos Montil.

According to a Sanford Police report, Cox was driving a rig eastbound on state Road 46 when he started to turn right on to U.S. Highway 17-92. To his right, however, was a blue Isuzu pickup, also making the turn. The trailer of the rig pushed into the back of the small truck, crunching it into the curb.

"The impact pushed me to the side," said Elyse Plotnick, 18, of Winter Park. She said she had to get out the truck's passenger window. She was not injured.

Cox said that when he started

Jerry Oakley, of Sanford, with Sanford workers pull it from trapped spot against Paint and Body Wreckers, steers truck as rig.

his turn, there was a long line of northbound traffic waiting to turn left prompting him to turn right and take up two lanes.

They weren't going to move for me. She just came out of the corner on me. I've seen it happen many times. I think she was scared I was close to her."

Cox said. Cox said he was carrying a load of frozen food. Miss Plotnick was making deliveries of auto body supplies. —Deane Jordan

Pacific Storm Packs Floods

MIAMI (UPI) A new Pacific storm headed today for areas of Washington awash in floods that kept hundreds of people from their homes, cut main rail lines, sapped the state's supply of sandbags and stranded 1,000 weekend skiers for a third day.

A break in storm activity Monday allowed most of the 1,500 evacuated residents of Snoqualmie, Wash., to return to homes swamped by floodwaters that had lapped at the tops of street signs earlier in the day.

But meteorologist Pete Reynolds of the National Weather Service said the lull would end as a new Pacific storm reached the Washington coast today, promising heavy rain by tonight.

State officials said the floods fed by a week of rain and melting snow were the most widespread in western Washington since 1959. States of emergency were declared in King, Lewis, Skagit and Whatcom counties.

Flood warnings were in effect today for the Snoqualmie, Snohomish, Cedar, White, Chehalis, Skookumchuck and Cowlitz rivers in Washington and upper Tualatin rivers in northern Oregon.

Most of the rivers were receding, but the Snohomish was expected to crest 6 feet above flood stage today and the Chehalis was expected to rise to 7 feet above flood stage, the NWS said.

Along the Chehalis, several hundred people, including about 250 evacuated Monday in Centralia and the town of Chehalis, south of Seattle, were prevented from returning home today by high water.

Washington's main north-south rail line was under water south of Chehalis, Howard

Kallio of the Burlington Northern Railroad said officials were waiting for the river to recede before determining the line's status.

The state's main east-west rail line was closed Monday when a 60-foot section of track was washed out east of Skykomish. The track was expected to be repaired today.

Near Glacier, about 1,000 skiers who flocked over the weekend to Mount Baker ski resort, about 100 miles north of Seattle, remained stranded for a third day as the only access road, State Highway 542, was washed out by floods.

"We're just like a little island right now in the midst of a lot of water," Glacier Motel manager Diane Perreault said.

Tractors took emergency supplies to the skiers, and officials said they hoped to reopen the highway late today. A few stranded skiers paid up to \$100 a seat for a helicopter ride away Monday.

In Snoqualmie, 30 miles east of Seattle, floods that reached the tops of stop signs Monday forced the evacuation of the entire town of about 1,500 people.

Residents returned home Monday night to find their homes flooded by about 2 feet of water, said Linda Wearing of the state emergency services agency.

A report of two rafters missing on the Snoqualmie River turned out to be two separate incidents involving four teenagers, all of whom were rescued Monday, Wearing said.

Officials said the state ran out of sandbags Monday, but received a fresh supply of 20,000 from the Army Corps of Engineers, which reportedly has 500,000 on hand.

Meanwhile, Gulf Coast storms dumped up to 10 inches of rain on Evadale, Texas.

Local Report

The high temperature in Sanford Monday was 86 degrees and the 8 a.m. reading today was 64 degrees as reported by University of Florida Agricultural Research and Education Center on Celery Avenue. No rain was recorded. Slight chance of rain today with high in mid-80s.

NATION IN BRIEF

Amy Carter, Abbie Hoffman Arrested In CIA Protest

AMHERST, Mass. (UPI) — Amy Carter, the daughter of a president, and Abbie Hoffman, the foe of several, were among 60 people arrested in a protest against CIA recruitment at the University of Massachusetts that included a sit-in at an administration building.

Police in riot gear dragged Hoffman and 50 students from Munson Hall Monday night and charged them with trespassing. Another nine, including Carter, were arrested for trying to block the arrests and charged with obstructing justice, university police said.

The protesters were loaded onto three school buses and taken to Northampton District Court. Arraignments were scheduled for today.

Twenty-eight of those arrested were held overnight at the Hampshire County House of Correction because they refused to post a \$15 bond, but authorities would not say if Carter and Hoffman were among them. The others posted the bond or were released without bond.

Intelsat Executives Investigated

WASHINGTON (UPI) — Intelsat's board of governors will meet next week to weigh an external audit and the fate of the global satellite consortium's two top executives, suspended amid questions about an unauthorized \$1.35 million fee.

Richard Colino, director general of the international communications system, and Jose Alegrett, his deputy for business planning and external relations, were put on "administrative leave" with pay Monday in the wake of the audit.

A spokesman refused to divulge details of an investigation into the matter, but outside sources said the two officers approved a "finder's fee" to two mortgage brokers for arranging a loan that Intelsat never used.

The fee was grossly in excess of what would have been paid if Intelsat had accepted the loan to refinance construction of its new world headquarters in Washington, one source said, but added there was no evidence of kickbacks to Colino or Alegrett.

WORLD IN BRIEF

Assassination Plot Foiled, Pope Arrives Safely in Sydney

SYDNEY, Australia (UPI) — Pope John Paul II, smiling and buoyant despite an assassination plot foiled at his previous stop in Brisbane, arrived tonight in Australia's biggest city to the largest crowds expected on his two-week tour of Asia and the Pacific.

The pontiff descended from a Royal Air Force jet at Sydney's international airport amid the tightest security ever provided for a visiting dignitary and was cheered by hundreds of spectators standing safely behind barricades.

After a welcome from the premier of New South Wales state, Barrie Unsworth and other dignitaries, John Paul was scheduled to ride by his Popemobile to the Sydney Cricket Ground for a youth rally expected to draw 50,000 people.

Police in the Queensland capital of Brisbane earlier foiled an assassination plot against the pope, arresting a "madman" who said he wanted to drop a Molotov cocktail on the pontiff at the Brisbane City Hall.

Assistant Police Commissioner Ron Redmond said the suspect, a 24-year-old Irish-born Sydney man and recent mental patient, was arrested during a routine security sweep of the City Hall several hours before the pope's scheduled appearance there.

Soviets Stripped Of World Titles

STOCKHOLM, Sweden (UPI) — The International Modern Pentathlon Federation has stripped the Soviet Union of two world titles and banned 30 athletes, including two Americans, because of drug violations.

The decision Monday came in the biggest scandal in the history of pentathlon competition — one of the world's oldest sports. The organization banned the athletes for 30 months.

Anatolij Starostin, the 1980 Olympic champion, lost his world title and the Soviet Union also was stripped of the women's world team title. The latter action was taken after Soviet bronze medalist Tatjana Tchernetskaya was found to be among 12 athletes who used banned sedative drugs at the world championships in Montecatini, Italy, on Aug. 12-15.

Slow Meteor Stream On Final Approach

GAINESVILLE (UPI) — The year's brightest and longest meteor stream is making its annual approach, streaking slowly across the heavens and giving Earthlings ample time to view the light show, an astronomer said Monday.

As they burn up in the Earth's atmosphere, visitors from the Taurid meteor stream — so named because they seem to come from the constellation Taurus — will coast through the night at a mere 18.3 miles per second, and will be visible throughout the Northern Hemisphere.

That is a snail's pace compared to meteors from the eta Aquarid meteor stream, which streaked along at 41.3 miles per second in early May.

"In my experience it's more spectacular to see a slow moving meteor, since you've got the time to appreciate it," said Alex Smith, a University of Florida astronomer.

That's the good news. The bad news is that if people want to enjoy the celestial show-offs, they'll need to keep their eyes glued to the heavens, since during the Taurids' annual visit, they sprinkle the Earth with an average of only five to ten meteors per hour.

In contrast, some annual meteor streams shower the Earth with more than 50 meteors per hour during their annual light shows.

"Some patience might be required with the Taurids, but vigilance may pay off, since you may see orange meteors brighter than the brightest star, and about as bright as a planet," Smith said.

The best time to look for meteors, Smith said, is after midnight, as the dark side of the Earth rotates into the path of the oncoming meteors.

Of all the annual meteor streams, the Taurids are marathons and put on a running show from September 15th through December 15th this year. While most meteor streams have peaks of only a few days, the peak for the Taurids is 45 days.

The high proportion of bright meteors in the Taurids, Smith said, indicates that they are somewhat larger than most shower meteors. Most meteors are about the size of a grain of sand and are rather fragile.

"Radar studies have shown that the atmosphere slows the Taurids down less than most meteors," Smith said. That indicates they are denser and tougher than typical shower meteors. Lighter, more fragile meteors slow down more when

Shultz' Deputy Feeds Feud

WASHINGTON (UPI) — Deputy Secretary of State John Whitehead perpetuated his boss' criticism of the White House for its secret dealings with Iran at the same time he recommended less public criticism of President Reagan, expressing concern that America's leader not be left like the emperor "without clothes."

Whitehead, tapped by Secretary of State George Shultz to testify Monday before the House Foreign Affairs Committee, echoed Shultz's dissatisfaction about the level of State Department involvement in the Iranian operation. His remarks seemed likely to feed that feud within the administration.

Whitehead suggested, however, that the focus on Reagan's credibility showing no signs of abatement could jeopardize foreign policy for the remaining two years of his presidency.

"He may have been poorly advised in this whole incident, but it is important that we maintain his credibility with foreign leaders so that he can continue to provide the leadership that they look to from him and from the United States," Whitehead told the House panel.

"If we destroy that in what we do, we will have destroyed something that is very important to the country at a very crucial time for the United States," he warned.

Committee Chairman Dante Fascell, D-Fla., said he was concerned about reports that Shultz and his top aides were not "in the loop" on information about the ad-

ministration's 18-month Iranian operation.

Whitehead candidly agreed, bluntly backing up statements by Shultz that he was only "sporadically" informed about arms sales defended by Reagan as a way to build new ties to "moderate" elements in Tehran. He was consistently unable to answer basic questions about the reported \$12 billion in military deals.

Whitehead said the State Department has found it "difficult to cope" with the National Security Council, which handled the Iran operation from the White House, and he called for a prompt review of NSC operations.

Rep. Lee Hamilton, D-Ind., said it was "astounding" that Shultz and others could be ignored in the operation run by the National Security Council and kept secret from Congress on Reagan's order.

Hamilton said Reagan would have been on target in seeking a new relationship with Iran to end its war with Iraq, to curb Soviet influence in the oil-rich country, to discourage terrorism, and to win the release of American hostages held by pro-Iranian groups in Lebanon.

"(But) at some point the discussions focused on the hostages and the discussions went off course," Hamilton said. "It then became a matter of arms for hostages and that's where the mistake was made."

National Tree Topped

WASHINGTON (UPI) — Barbara Bush, wife of Vice President George Bush, was hoisted by crane Monday to place the main ornament atop the National Christmas Tree on the Ellipse near the White House, signaling the start of the holidays.

It is the traditional duty of the vice president's wife to start decorating the tree in preparation for the Pageant of Peace, which opens this year on Dec. 11.

Wearing a festive green coat and red sweater and carrying a red umbrella, Mrs. Bush was lifted in a container by a crane to reach the 32-foot tree. She placed the ornament on top of the living Colorado Blue Spruce

that was planted in 1978. The starburst ornament is studded with 50 red and white bulbs.

Mrs. Bush was presented with a plaque by officials of the National Park Service, which cares for the tree.

President Reagan will light the tree Dec. 11 in a one-hour ceremony that will feature musical entertainment by singer Tennessee Ernie Ford, the Philadelphia Boys Choir and Chorale and the U.S. Coast Guard Band.

The National Christmas Pageant of Peace will continue through Jan. 1. The pageant is highlighted by decorated trees of the 57 states and territories.

Skiers Trapped By Flooding

GLACIER, Wash. (UPI) — About 1,000 early-season skiers, trapped by flooding near Mount Baker, awaited an emergency airlift of food and blankets in good spirits Monday after eating and drinking "everything on hand."

The stranded skiers took refuge at cabins, churches and campgrounds and packed the Glacier Creek Motel.

"We're just like a little island right now in the midst of a lot of water," motel manager Diane Perreault said. "They've borrowed all our decks of cards and Scrabble games, and are pretty much making the best of a bad situation."

She described the trapped skiers as in good spirits.

The motel normally has only half a dozen visitors on Sunday nights but it was filled to its 62-person capacity by the flooding of a bridge on the only road from Mount Baker, about 20 miles south of the Canadian border.

"After about two or three hours people realized there was

no way out, so they started settling in," said Terry Melton, an engineer with the Boeing Co. in Seattle.

His was one of about 60 cars turned back Sunday when state Department of Transportation officials said no one could cross the bridge, which was covered with up to 3 feet of water, mud and boulders.

"We ate all the hamburger meat, all the kegs of beer. There were a lot of single people around, and they filled up the two lounges and drank everything on hand."

The bridge, flooded by heavy rains and melting snow, was about 2 1/2 miles west of Glacier on state Highway 542. Mount Baker, about 15 miles east of the highway, lies at the end of the highway.

When people were told the road would not be passable until late Monday afternoon by the earliest, people quickly returned to Glacier, where a long line starting forming at the motel.

are in the stream. That would be like trying to count the grains of sand on a beach."

Late Night Host Fires Network

NEW YORK (UPI) — Jimmy Breslin's late night talk show on ABC has been canceled, but disagreement remains over who was fired first — the columnist or the network.

The Pulitzer Prize-winning writer said in a front-page advertisement in The New York Times Monday that he was firing the television network.

But ABC said it had the first word, and decided last week not to renew "Jimmy Breslin's People."

Breslin's tiny ad in the Times, addressed to ABC, read: "Your services, such as they are, will no longer be required, as of Dec. 20, 1986."

He wrote in his column in the New York Daily News Sunday that he was unhappy with the program's time slot in New York. He said he was told his show would be broadcast at midnight, but that it was aired at 12:30 a.m. or 1:30 a.m. in his hometown "and nobody I know sees it."

"I thus become the first person in America to fire a network," he wrote.

The network, in a statement, responded that ABC decided last Friday not to renew Breslin's show or another late-night program, the "Dick Cavett Show."

Representatives of Dick Cavett were advised Friday of ABC's plans, the network said.

Swiss Disaster Teaches Lesson

Switzerland is the last place one would suspect of unleashing ecological catastrophe on Europe. It is a country of tidy chalets, majestic mountains and crystal-clear Alpine air. The Swiss themselves project the image of solid, responsible citizens.

Yet, the storybook image faded — especially in the eyes of Switzerland's neighbors — due to a Nov. 1 accident in the Swiss town of Basel.

The water that firefighters poured on a fire at the Sandoz company washed about 40 tons of agricultural chemicals, mercury and other compounds directly into the Rhine River. The warehouse had no sprinklers, no heat sensors or drainage channels to keep the contaminated water out of the river.

Millions of fish died, wildlife suffered and the Rhine was ruined temporarily as a source of drinking water. Experts say it will take two years before the river, the busiest in Europe, is back to normal.

The Netherlands, France, Luxembourg and West Germany, downstream from the chemical spill, were justifiably upset with Swiss authorities, who didn't inform them promptly. It was an unconscionable lapse, because the other countries needed the earliest possible warning to close off the Rhine's tributaries and water supplies before the deadly stream of toxins reached them.

It is all the more puzzling because of Basel's interest in promoting good transnational relations with other countries along the upper Rhine. We recently praised the city for setting up a local government and industry association to improve international cooperation. The organization was able to work out transborder bus passes, but apparently failed in a moment of environmental crisis. Swiss authorities must not only mend fences with other Rhine countries, they must find a way to make sure it never happens again.

The Swiss accident is the latest in a string of global disasters, stretching from the lethal chemical release in Bhopal, India, to the Chernobyl nuclear reactor accident in the Soviet Union.

But this one makes us realize that we can't afford to be complacent about environmental safeguards in our own country. We sense that if it can happen in pristine Switzerland, it can happen anywhere.

Now, the Europeans cynically call Basel "Chernobyl" (the French word for Basel and "Bhopal on the Rhine." If there is a lesson in this for us, it is that Americans can't take industrial safety for granted. We must be vigilant lest we wind up with a "Basel on the Ohio."

Faith Bears Fruit

Untouched by the controversy surrounding the secret deals this country apparently made to win the release of our hostages in Lebanon is the remarkably successful amateur diplomat from Great Britain, Terry Waite. Waite doesn't make policy, of course, but he does get results. When he brought David Jacobsen out of captivity recently, it was the ninth hostage in the last five years whose freedom he has negotiated. He fully deserves the praise and gratitude he has received.

Waite's first mission on behalf of hostages came in 1981, when he volunteered to represent the Most Rev. Robert Runcie, archbishop of Canterbury, in an effort to persuade Iranian authorities to free three Anglican missionaries. His next effort led to the release in 1984 of four Britons held captive in Libya.

Waite's deep religious faith and imposing physical stature — he is 6 feet 7 inches tall — are attributes prized in the Middle East, and he has found them useful in his hostage negotiations. He also is described as an attentive and patient listener who is always well-prepared.

This hostile and suspicious world could use a few more Terry Waites. We hope he continues his remarkable work.

BERRY'S WORLD

DICK WEST

Improve Shooting And Passing With Jock

WASHINGTON (UPI) — Partisanship stops at the water's edge, the old saying goes, and that is particularly true of armed invasions or negotiating with the Russians.

It has been my observation that Republicans and Democrats storming the beaches are just as likely to get hit as Independents. And vice versa. "Shoot now and ascertain their party affiliation later," seems to be the credo of America's potential enemies.

Still, there is no getting around the fact that some politicians are more belligerent than others.

Also that some throw better passes and shoot baskets more accurately.

The presumed victory scored, finally, by Tom McMillan, a former basketball star, in Maryland's 4th Congressional District enhances the possibility that the United States someday will have an ex-jock in the White House.

Don't laugh, you non-athletic voters. We already have in the House Rep. Jack Kemp, R-N.Y., a former pro football quarterback who is frequently mentioned as a presidential can-

didate. Then, in the Senate, there is the up-and-coming Bill Bradley, D-N.J., a former pro basketball player.

It may be true that Bradley has made his mark, thus far, more as a tax than a defense expert. But there will be plenty of military issues arising during the next two years for him to stand up tall on.

Already, we have the matter of sending spare parts to Iran. And that is only the beginning. McMillan, Kemp or Bradley could very well be the next chief executive. Among others.

Their political futures may depend on how they stand on "drunk voting," as one of the more thoughtful cartoonists recently hypothesized.

To prevent drunk voting, I would like to see Congress go beyond the penalties that have been suggested for drunk drivers and crack down on all forms of drunkenness.

Never mind the Constitution. Think of the political advantages that could accrue from being a member of CADS (Candidates Against Drunks).

That might mean staying sober for two or three years, or however long the 1988 presidential campaign lasts, but some sacrifice is necessary. Now back to belligerency.

I wouldn't speculate as to whether McMillan might be more warlike than Bradley. I do know that since both played the same sport, are members of the same political party and will be serving together in the 100th Congress, there will be an opportunity to make direct comparisons.

Kemp, on the other hand, as a minority member of the House, will be out of the firing line, so to speak.

It is, however, none too early to determine where any prospective candidates stand with respect to orbiting a ball as part of President Reagan's Strategic Defense Initiative, otherwise known as "Star Wars."

Will it be a football or a basketball?

Either way, I can't see Soviet leader Gorbachev trading any missiles for SDI research. A few hostages maybe, but no strategic weapons.

ROBERT WALTERS

Reagan's Well May Run Dry

WASHINGTON (NEA) — The unrelenting criticism of President Reagan's decision to supply weapons to Iran has produced at least one salutary development — an unprecedented display of candor from senior administration officials.

We have White House Chief of Staff Donald Regan acknowledging that he and other presidential aides spend much of their time cleaning up various messes made by Reagan.

At the same time, Secretary of State George Shultz, supposedly the president's principal foreign policy adviser, publicly disputes Reagan's decision to ship armaments to a nation that "continues to pursue a policy of terrorism."

What's going on? The president has made a dreadful mistake, he refuses to acknowledge it and his advisers are sent out for yet another round of "damage control" — the administration's euphemism for spreading shameless propaganda.

"Some of us are like the shovel brigade that follow a parade down Main Street cleaning up. We took Reykjavik and turned what was really a sour situation into something that turned out pretty well," explains Regan.

"Who was it that took the disinformation thing and managed to turn it? Who was it that took this loss in the Senate and pointed out a few facts and managed to pull that? I don't say we'll be able to do it four times in a row. But here we go again, and we're trying," he adds.

Each of those instances involve a presidential mistake, miscalculation or embarrassment that the administration sought to paper over by placing a special "spin" on the version offered for public consumption.

That practice routinely involves misleading, deceiving or withholding information. Reagan himself embraced such tactics during the recent address in which he attempted to deny that he was trading munitions for hostages with Iran.

For example, he began by pointedly rejecting reports that the arms were shipped through Spain or Italy — then avoided any reference to more credible accounts that identify Israel as the intermediary.

This is hardly the first time the president has attempted to disguise his motives and actions, but until now most people have been willing to give him the benefit of the doubt. That reservoir of good will may now be depleted.

JACK ANDERSON

CIA Deals Weave Through Israel

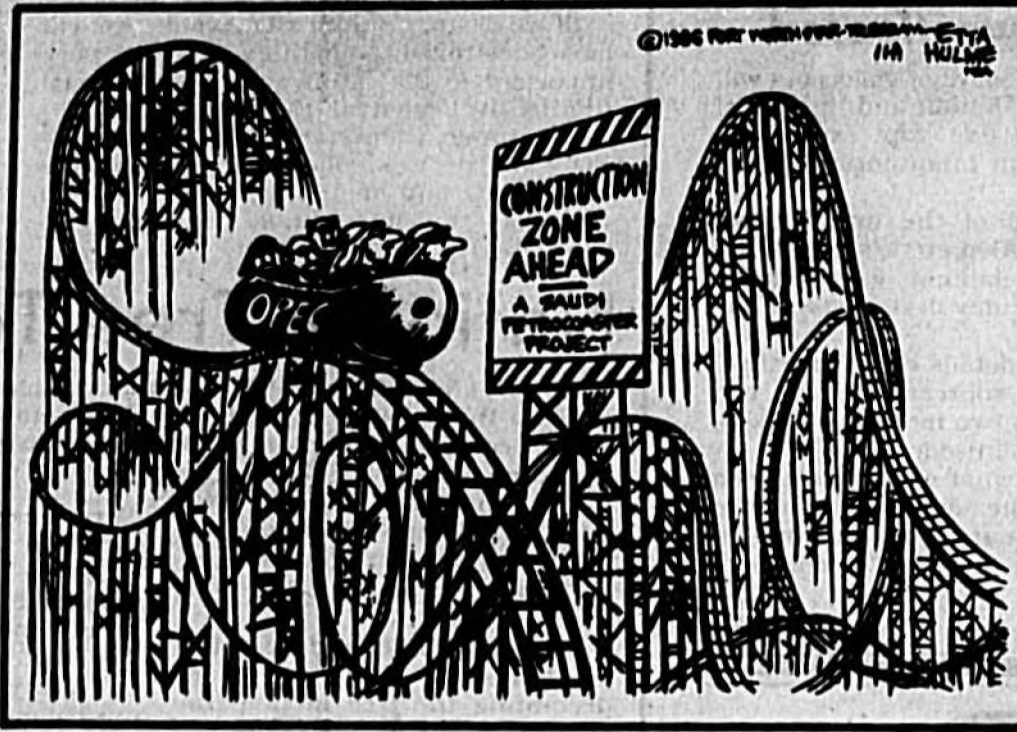

By Jack Anderson and Joseph Spear

WASHINGTON — It should have been no surprise that Israel was the middleman used by the Reagan administration for its secret shipment of weapons to Iran. For years the Israelis have been up to their shoulder holsters in the murky world of international arms traffic.

Purchase orders, bills of lading and other documents obtained by our associates Corky Johnson and Donald Goldberg relating to CIA "front" corporations show a mysterious Israeli thread woven through weapons deals conducted by the CIA. Here are some of the details of this complex, clandestine trade in weapons of war.

In 1980 the CIA set up a front called Associated Traders, which funneled millions of dollars through the First National Bank of Maryland to pay for huge arms shipments. Two weapons brokerage firms, Sherwood International Export Corp. and Shimon Ltd., handled the transactions for the CIA.

Shipping papers show that several

Lure Of Leadership

By Steve Gerstel

WASHINGTON (UPI) — For weeks, Senate Democratic leader Robert Byrd carried in an inside coat pocket a little card. There are those who claim they were given quick glimpses, but none who boast they were allowed a look long enough to find the secret.

Marked on that card, in some fashion, was Byrd's head count of his colleagues in the fight for Senate Democratic leadership in the 100th Congress — majority leader.

From the very start, Byrd predicted that he would win, telling one and all that he had enough votes locked up to ensure that he would lead Democrats in the Senate for two more years, as he has for the past ten.

At the beginning, Sen. Bennett Johnston of Louisiana, the only person willing to challenge Byrd, was not convinced. He badly underestimated his wily opponent from West Virginia.

On the day after the midterm elections, Johnston claimed more senators were supporting him, including leaners, than were backing Byrd. One day later, he even predicted that he would beat Byrd and pick up more than 30 votes.

But six days after the election, Johnston called a news conference to say he was pulling out of the race — the leaners were leaning the other way and one senator, who had urged him to make the race, had switched.

Once more Byrd proved that he is a superb tactician and politician and has, as Johnston pointed out, the "aura of electability."

But that doesn't fully explain why the Democrats, moving into a period when they will have control of the Senate for the first time in six years, decided so overwhelmingly to stay with the same leadership for at least two more years.

The election, conducted by secret ballot, is still, according to a Sun Belt senator, a "sort of an in-family situation," that makes it extremely difficult to slap down an incumbent leader.

This may be even more true in the case of Byrd who does his very best and who attracts opposition on such vague grounds as personality, or lack of it, and media relations, or lack of them.

This same senator also pointed out that Byrd got a "lot of early commitments" before Johnston even jumped into the race and added that these pledges "usually stick in something like this. They can be put into the bank."

Yet, this senator felt that Johnston would benefit by the major change in the Senate and with the influx of the new Democrats. Even that didn't work out as Byrd claimed new commitments on the night of the elections and the day after from both incumbents and freshmen.

In addition, Johnston had some weaknesses. He identified the problems with Byrd, as an aide to a Northern liberal said, "but for us he's not the answer to the problem."

Which raises the question whether any senator could have seriously challenged Byrd.

The Sun Belt senator, without naming names, said, "Not every member is willing to do this job. I have other names, people who would fit in, people who would do a good job."

"It takes a very unique individual who is in love with the Senate and who is willing to get married to the Senate," he said.

And it may well be that this "marriage" between Byrd and the Senate could not have been broken by any other candidate.

SCIENCE WORLD

Biologist Creates Discipline

By Deithia Ricks
UPI Science Writer

LOS ANGELES (UPI) — Language, literature, religion and music have been so profoundly influenced by insects that a biologist is developing a new field of study strictly devoted to the cultural contributions of bugs.

"Bugs frighten and fascinate people," said Charles Hogue of the Los Angeles County Museum of Natural History. "Almost no aspect of our culture is untouched by these creatures."

The biologist is cataloging references to creepy crawlers in popular culture, literature and religions of the world, examining why in the United States people get "as mad as hornets" or how occupied one has to become to be as "busy as a bee."

Hogue calls the new discipline cultural entomology — cultural because "it refers to those things that we choose to do, not what we have to do." And entomology, because it is the formal study of insects.

"Cultural entomology is the study of the influence of insects on human culture," the biologist said. "I am interested in the study of cultural entomology in a comprehensive way."

Hogue acknowledges that an attempt was made in the 19th Century to establish cultural entomology as a serious discipline. But he notes that it did not quite catch on in an era when such scientists as Joseph Lister and Louis Pasteur were more concerned with microscopic bugs.

He said the attempt is being made anew with fresh references, new information and a 20th Century computer to keep track of it all.

Hogue has found that such figures of speech as "don't bug me" exist in almost all languages and that bugs are such convincing literary tools that they often are employed in stories to express moods and images.

"So-called primitive people see a parallel between their lives and those of insects and try to emulate insects in their own cultures," said Hogue who serves as the museum's curator of entomology.

"Hindu holy writings tell us that ants are divine, the first born of the world. To the ancient Egyptians, various insects were revered, especially several species of dung scarabs," he said.

of these arms shipments originated in Israel. Sherwood has had a close working relationship with Israeli defense officials, our sources report, and several former Israeli military officers have worked for the company.

Shimon is a Cayman Islands company, believed to be associated with Sherwood, but little is known about it. Michael Kokin, president of Sherwood, did not return our telephone calls seeking information or comment.

One interesting CIA arms shipment handled by Shimon in 1982 can be traced from the Israeli Mediterranean port of Ashdod to Lagos, Nigeria, where the trail ended. The CIA reportedly operates an air cargo service out of Lagos, and may have delivered the \$4 million worth of weapons to U.S.-supported rebel groups, including those fighting in Angola.

The Israeli shipment was part of a \$9.4 million transaction in which Shimon sent weapons to Lagos from several locations, including Portugal, the former colonial power

in Angola. Portugal is a major trans-shipment point for arms; some of the U.S. shipments to Iran, in fact, went by way of Portugal, according to our sources. The CIA paid the money into Shimon's bank account in Luxembourg.

In another CIA arms deal, the agency's front company, Associated Traders, received 57 radio transmitters manufactured in Israel. The units, which cost a total of \$128,250, were purchased by Sherwood and flown from Tel Aviv to Washington-Dulles International Airport. The radios were the standard backpack type used for combat in rugged terrain — such as that in Central America.

In 1984, Sherwood and an Israeli shipping firm, Merico, were involved in a little-publicized incident after Italian officials seized the Merico freighter Viking, which was loaded with weapons that they feared were destined for the Red Brigades terrorists.

Merico told the Italians that the ship's deadly cargo was headed for Brazil in a deal arranged by

Sherwood. Brazil at first denied it was importing the arms, many of which were types that Brazil manufactured and exported itself. But the Brazilians later changed their story and said they had contracted with Sherwood for the arms.

According to court papers, Sherwood was recently stopped by the Bureau of Alcohol, Tobacco and Firearms from importing 17,000 frames for Browning .30-caliber machineguns. The seller was the Israeli Defense Ministry. Sherwood executives said they wanted to assemble the machineguns for sale to "friendly foreign governments."

It's against the law to import fully automatic weapons without valid purchase orders from the federal government or local governments. BATF officials said Sherwood could provide no proof of the machineguns' ultimate destination. Our sources said it is doubtful that the Israeli government would have sold Sherwood the guns without knowing where they were going.

Seminole Veterinary Hospital
A Full-Service Pet Facility

"There is a genuine need to educate the public about proper preventative health care for animals," says Dr. Julia Jones of Seminole Veterinary Hospital in Sanford. "Many problems could be avoided if pet owners could become more aware of what is available. Our little friends depend on their family to take care of them."

Kittens and puppies along with their mothers should be examined several days after birth to check for physical abnormalities and illnesses. The mother should be checked for parasites and dewormed if necessary. Hookworm anemia can be a serious problem in a young animal and if the mother is the carrier, the offspring should be dewormed starting at 2 weeks.

Puppy Protocol:
Starting at 6-8 weeks of age, vaccinate for distemper, parvovirus, parainfluenza, hepatitis, and leptospirosis. This should be repeated every 3-4 weeks until 16 weeks of age, then yearly thereafter. Rabies vaccines are given once at 16 weeks of age then yearly.

Puppies should be started on a daily dose of heartworm preventative at 8-12 weeks of age and checked yearly for heartworms. This is especially important in the Southeast as this disease is carried by a heavily infected mosquito population. Fecal exams should be done at 8 weeks then yearly.

Kitten Protocol:
Vaccination starts at 8 weeks of age for feline distemper and the upper respiratory viruses and is repeated every 3-4 weeks until 16 weeks of age. It then requires a yearly booster. A rabies vaccine is given at 16 weeks then yearly. A vaccine is available for feline leukemia, a serious viral disease

Dr. Julia Jones examines dog at Seminole Veterinary Hospital.

that suppresses the immune system. It is contagious between cats and leaves them open to opportunistic infections, tumors and leukemias. The period between infection and disease can be months to years. They can also be infected before birth. Cats should be tested and if negative, vaccinated at that time, 2 weeks later and then two months later. It then becomes part of the yearly booster shots. This is especially an important vaccine in households with more than one cat or for cats who go outdoors. Feces are examined for parasites at 8 weeks and yearly.

Florida fleas are determined to make us and our pets miserable. Persistence in controlling them on the animal, the house and the yard is necessary to keep them in check. Ask your veterinarian for proper insecticides and their use.

Yearly check-ups for dogs and cats are as important as they are for people. As your pet starts to reach senior citizen status, you may wish to include routine blood screening for metabolic problems and chest x-rays or EKG's for early detection of heart and lung diseases.

Proper medical and dietary management relating to these problems may prolong life or avoid medical emergencies. Pets are a responsibility and regular check-ups and preventative medicine can help them live longer, healthier and happier lives.

Seminole Veterinary Hospital at 2515 W. 25th St., Sanford, is a full-service animal hospital and boarding facility. Internal Medicine Specialist Dr. Ted Bellhorn was joined in the practice in August by Dr. Julia Jones. Dr. Bellhorn is a veterinary graduate of Auburn University, who went to a residency in Internal Medicine at Ohio State University. Dr. Jones completed an internship in small animal medicine and surgery at the University of Minnesota after receiving her veterinary degree at the University of Florida. Once a month they are joined by Dr. Sue West, a veterinary ophthalmologist from Tampa, for special eye problems.

U.S. Baby Food Firms Eye Chinese Market

HONG KONG (UPI) — The race to feed a quarter of the world's infants is heating up with two major U.S. manufacturers trying to capture the China market.
With at least 16 million children born in China each year, baby food could mean big business for Gerber Products Co. and H.J. Heinz Co.
Both hope to open infant cereal factories

in Peking.
The Chinese government, with its policy of one child per family, deems baby food ventures an important way to reduce widespread vitamin deficiencies in youngsters, according to spokesmen from both companies.
Gerber, headquartered in Fremont, Mich., is talking about signing a contract with an undisclosed Chinese

partner in mid-1987 and going into production 18 months later in Peking.
Pittsburgh-based Heinz, meanwhile, plans to branch out next year from a factory already in place in southern Guangzhou province.
In the latest move, Gerber representatives stopped in Hong Kong to promote the proposed Chinese joint venture while en route to India — another Third World country targeted for possible

expansion.
In China, infants generally have high carbohydrate-low protein diets because traditionally they are fed a substance skimmed from cooked rice, said Frank Kelly, Gerber's director of international marketing.
Although Gerber's prospective partners "are not pounding on the table," they want to move quickly to start production because they are under pressure, Kelly said.

Act II owner Darline Cook shows sweater to Michelle Bennett.

Act II Has Bargains On Re-Sale Fashions

There's something for everyone at Act II, Sanford's complete consignment shop at 217 E. First St. You can save money on name brand re-sale fashions and salesmen's samples. They have just received new salesmen's samples in large and extra-large sizes.

For ladies, Act II has new and like-new fashions in current style, from business and casualwear to formal and bridal attire, coats and furs.

The curtain went up on Act II in November 1985 when owner Darline Cook opened the shop in Historic Downtown Sanford.

There's a sale every day at Act II. (This month white tagged items are 20 percent off the regular price and yellow tagged items, 50 percent off.) Sale tag colors are posted at the entrance door and at the counter. Senior citizens also receive a 10 percent discount off regular prices.

Be sure to visit now and take advantage of this special offer — mention this *Herald Business Review* article to receive 20 percent off any regular price items in the store through Dec. 5.

They carry a large selection of accessories, (many are salesmen's samples), purses, hats, belts and name brand shoes such as Aigner and Hush Puppies to name a few.

New namebrand jewelry, such as are found at quality mall stores, is available at discount prices for great buys for Christmas gifts. Gift boxes and jewelry boxes are available.

Darline's own special interest is vintage jewelry and apparel for men and women, beaded sweaters, hats, shoes, purses and antique rhinestone, pearls and crystal vintage jewelry to make you sparkle during this holiday season. For men there are tuxedo shirts, vintage coats, ties, clips and bow ties.

In current fashions for men Act II has everything from business suits to casual wear including new Countess Mara polo shirts.

The children's section carries sizes from newborn to size 14 teen for boys and girls.

At Act II, you can recycle your wardrobe and make money, too. It is an attractive consignment shop designed to sell your new and like-new current style or vintage fashions. They accept only spotlessly clean, ready to wear fashions and accessories for men, women and children. You receive 50 percent of the selling price. Darline asks that you please call first for an appointment before bringing in clothes at 322-8236.

You will receive friendly, cheerful service at Act II. Darline will be glad to help you find any special items you may be looking for.

Act II is open 9:30 a.m. to 5:30 p.m., Monday through Friday and 9:30 a.m. to 4 p.m. Saturday. The store is located across the street from the Sanford Branch Library on the corner of First and Palmetto. Convenient parking is always available next to the store on Palmetto or across the street next to the library.

IN BRIEF

Sales Tax Hike For Indigent Health Care Proposed

TALLAHASSEE (UPI) — A bi-partisan proposal would mean a one-half cent, \$600 million sales tax hike to provide health care for the working poor, but must survive anti-tax sentiment in the Florida Legislature.

The tax increase in bills prefilled by Rep. Tom Woodruff, R-St Petersburg, and Rep. Alonzo Reddick, D-Orlando, would replace a system of passing health costs for the "medically indigent" to hospitals and doctors — who in turn pass the costs along to their paying customers.

It would mean quality health care for the 1.5 million Floridians who cannot afford private or group health insurance but are too well-off to qualify for Medicaid.

Victim Vows Cancer Fund Drive

MIAMI (UPI) — A 26-year-old man who lost three family members and his left leg to cancer said he will lead a "crusade" to raise \$1.8 million this year for the Dade County unit of the American Cancer Society.

"For 25 years my family has been confronted with this disease," Stephen Southerland said Monday. "The community helped us stay strong. Now, it's time that I give something back. Nobody had to twist my arm."

In 1974, bone cancer cost Southerland his left leg and last summer — just before he was to take the state Bar exam — a brain tumor was discovered and removed.

Researchers have traced cancer through six generations of the family.

No Bundy Birthday Cake

STARKE (UPI) — Ted Bundy, the notorious ravager and killer of young women, marked his 40th birthday Monday alone in his death row cell at Florida State Prison with nothing special, Florida State Prison officials reported.

Pupil's Work Chosen For Christmas Card

For the second straight year, a Keeth Elementary School student will provide the inspiration for Cardinal Industries, Inc.'s 1988 holiday greeting card.

Jennifer Pultz, a fifth-grader at the Winter Springs school, earned that honor when her artwork was judged by a panel of Cardinal jurists to be the best among more than 500 entries submitted by third, fourth and fifth grade students from 25 Seminole County schools.

Jennifer's design of a cardinal holding an ornament with a picture of a house will serve as the cover of Cardinal's corporate holiday greeting card, which will be mailed in December to more than 5,000 people around the country. Cardinal is the nation's largest manufacturer of modular housing systems with a factory in Sanford.

For winning the second annual contest, Jennifer receives an all-expenses-paid weekend for four at Walt Disney World's Magic Kingdom. Jan Bogden, art teacher at Keeth, received dinner for two at Arthur's 27 Restaurant in Orlando.

Jennifer follows in the footsteps of Jim Goll, a Keeth student who won last year's contest and a trip for him and

his family to present his card to Florida Governor Bob Graham and the rest of the state cabinet.

In fact, three of this year's finalists go to Keeth and study under Bogden. They include third grader Patrick McGaha (3rd place) and fifth grader Matt McClelland (4th place). Dien Tran, a fifth grader at Hamilton Elementary, was second and Spring Lake third grader Lisa Smith was fifth.

They each received passes to Disney. A special award was presented to Keeth fifth-grader David Bierschied for his design of a Cardinal housing module with holiday decorations being transported.

The rules of the contest stipulated that the designs had to incorporate the cardinal bird, the traditional bird of the holiday season.

"This is one of the most exciting programs our students are involved in during the school year and is one they have looked forward to with great anticipation," said John B. Blair, coordinator of fine arts for Seminole County schools. "We even surpassed last year's student participation."

Last year's contest attracted 400 entries from 17 schools.

Jennifer Pultz' award-winning art

Reward Offered For Tips On Box Car Murder

The unsolved murder of a man found west of Sanford one day after he disappeared from his Orlando apartment has been added to the Crimeline Program.

A reward of up to \$1,000 is available for information leading to a conviction in the death of William James Neville, 53, of Lake Fredrica Apartments.

Neville was found dead in a deserted railroad box car near the old Sanford ice house Sept. 16.

He was discovered by county workers surveying a field off the Rand Yard Road. Neville died from a blow to the head, reports show.

He was last seen Sept. 14 at

10:15 a.m., according to his wife. He was on his way to a 10:30 mass at Blessed Trinity Catholic Church, about a mile away. The medical examiner said he died shortly after that time. His white, 1983 4-door Toyota Corolla was found Sept. 15 parked in the rear of a business at 1109 West Church

Street near downtown Orlando.

Anyone having any information about the crime, or any other unsolved crime, should call Crimeline at 1-800-423-TIPS. You don't have to give your name, and you may be eligible for a reward of up to \$1,000.

IN THE SERVICE

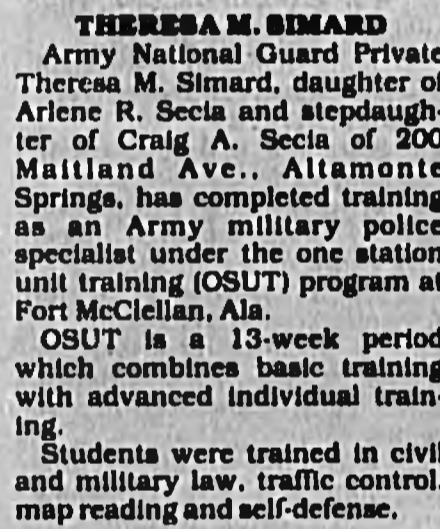

CLAUDE R. HUFF

Airman Claude R. Huff, son of Mr. and Mrs. Don Hoff of 118 Eastern Fork, Longwood, has graduated from Air Force basic training at Lackland Air Force Base, Texas.

During the six weeks of training the airman studied the Air Force mission, organization and customs and received special training in human relations.

In addition, airmen who complete basic training earn credits toward an associate's degree through the Community College of the Air Force.

He is a 1982 graduate of Lyman High School.

THERESA M. SIMARD

Army National Guard Private Theresa M. Simard, daughter of Arlene R. Secia and stepdaughter of Craig A. Secia of 200 Matland Ave., Altamonte Springs, has completed training as an Army military police specialist under the one station unit training (OSUT) program at Fort McClellan, Ala.

OSUT is a 13-week period which combines basic training with advanced individual training.

Students were trained in civil and military law, traffic control, map reading and self-defense.

Airman Jackson Alexander Jr., son of Juanita Lindsay of 74 10th St., Sanford, has graduated from Air Force basic training at Lackland Air Force Base, Texas.

During the six weeks of training the airman studied the Air Force mission, organization and customs and received special training in human relations.

In addition, airmen who complete basic training earn credits toward an associate degree through the Community College of the Air Force.

His uncle and aunt, Mr. and Mrs. Abraham Hill, reside at 308 Seventh St., Sanford.

MATTHEW S. RISBE

Airman Matthew S. Risbe, son of Larence A. and Rosemary M. Risbe of 103 Cherry Hill Circle Longwood, has graduated from Air Force basic training at Lackland Air Force Base, Texas.

During the six weeks of training the airman studied the Air Force mission, organization and customs and received special training in human relations.

In addition, airmen who complete basic training earn credits toward an associate degree through the Community College of the Air Force.

He is a 1986 graduate of Lake Brantley High School.

Airman Vernon R. Ramassar, son of Joyce A. Ramassar of 201 McKay Blvd., Sanford, and grandson of Georgia Curtis of Cheriton, Va., has graduated from Air Force basic training at Lackland Air Force Base, Texas.

During the six weeks of training the airman studied the Air Force mission, organization and customs and received special training in human relations.

In addition, airmen who complete basic training earn credits toward an associate degree through the Community College of the Air Force.

Local Man Wins Audio-Visual Award

Paul T. Biggers, a Sanford native and 1932 graduate of Seminole High School, received the Pioneer Award in Audio-Visual education at the annual meeting of the International Audio Visual Society in Columbia, S.C. recently.

President Richard Helton presented the award and stated

that Biggers recognized the effectiveness of audio-visual aids in the early days of the expansion of their use in education. He made valuable contributions in this field while teaching at North Carolina State University and in three public school systems.

He was active in the professional organization also.

Biggers is a graduate of North Carolina State University. He obtained a masters degree at Appalachian State University and did graduate work at East Carolina University and the University of Arizona.

He served in the Naval Reserve during WWII and the Korean Conflict with the rank of lieutenant commander. He retired from the Washington, N.C. school system as coordinator of audio-visual education and now resides in Washington and DeBary, Fla.

Selective Service Reps Visit Local Schools

Representatives of the Selective Service System were at Lake Mary High School last week to talk with junior and senior male students about their obligation to register in compliance with the Military Selective Service Act.

This was one of more than 20 school visits scheduled during the week in Orange, Osceola and Seminole counties for the purpose of making students aware of the registration requirement.

Selective Service officers from Florida and Alabama are making visits throughout the tri-county area.

Although the draft ended in

1973, the requirement to register was reinstated in 1980. Young men are required to register with Selective Service within 30 days of their 18th birthday. Registration is accomplished at all regular United States post offices.

Registration is required as a prerequisite to obtaining state or federal college financial aid, receiving training under federal programs such as the Job Training Partnership Act, and employment by the federal government. There are also substantial criminal penalties for failing to register.

Students were told that there

is no draft and that it would take action by Congress to resume military conscription. Selective Service maintains registration files of males from ages 18 to 26 so that up to six weeks would be called upon for induction in the event of a national emergency.

Standby Selective Service local boards have been appointed throughout the country, and would consider applications, or reclassifications, exemptions, or deferments if the draft were resumed.

Although registration normally is accomplished at the post office, students were offered

the opportunity, as a convenience, to register with the Selective Service officers immediately after the school presentation.

Officers who met with students at Lake Mary High were Woody Barnes and Richard Smith.

In support of the Selective Service awareness campaign, mayors of nine cities in the area have signed proclamations encouraging compliance with the registration requirement. The cities are Altamonte Springs, Apopka, Belle Isle, Orlando, Oviedo, Sanford, Windermere, Winter Park and Winter Springs.

Lake Howell Teams Bow Out In Style

Lake Howell High School used the final meet, the state meet, of the season to reach and achieve both team and personal goals.

The Lake Howell girls team walked away with its first ever state championship. The Silver Hawks boys squad also found victory with their 13th place finish this past Saturday at DeLand.

The girls, paced by the senior trio of Lisa Samocki, Martha and Mary Fonseca, achieved what had been an obstacle the three previous years. Lake Howell had been close three times to a state title, but came up short.

A year ago, after being top-ranked all season, the Lady Silver Hawks dropped a heart-breaker to Winter Park in the state meet. This year, they were beaten by Largo at the DeLand Invitational after being top-ranked and finished the regular season poll in second.

The Lady Silver Hawks had won practically every cross country meet with the exception of a state title. All that changed when Lake Howell convinced the entire state it was not to be denied as it pummeled both top-ranked Largo and third-ranked and defending champion Winter Park.

The Lady Hawks compiled 76 points while Largo (103) and Winter Park (104) were comfortably behind.

"I'm so happy for the seniors," Lake Howell coach Tom Hammontree said. "They've worked so hard for this and they deserve it."

Samocki, coming off a severe foot injury, received all-state honors as did Martha Fonseca. Samocki finished fourth and Martha Fonseca finished 10th. Mary Fonseca came away with second team all-state honors as she finished 17th giving the Lady Silver Hawks a strong top three.

The trio has also helped the other runners along as Lake Howell came in hungry for the state meet. "Your goal when you start the season is to win state," Hammontree said. "To see it happen and watch the kids do it with a total team effort is so much more gratifying."

Hammontree has turned the Lady Silver Hawk program to one of state prominence over the past four years and will look to pick up again next year as Lake Howell has experience and talented youth moving in to fill the gaps.

On the boys side, Lake Howell coach Joe Corso's troops turned in a gutsy performance with many of the runners a little under the weather due to the flu bug for the meet. "We've run better, the kids were just a little down today," Corso said. "We've had a good season the team really came through this year."

Jeff Van Buskirk felt his performance, 39th with a 16:36 effort, could have been better but wasn't looking for any excuses. "We're just happy to have been here," Van Buskirk said. "It's nice to run in any state meet."

Both Van Buskirk and Chuck Buster were looking to finish in the top 10, but both were hit with the flu early in the week and it hampered their chances at an all-state honor.

"I was hoping to run under 15:41," Buster said. "I just happened to get sick, now I'll just take a couple of weeks off and start preparing for track."

Another Seminole County athlete gained more respect at the state final as Robin Rogers finished 10th in the boys race, becoming the first male cross country runner to not lose to another county runner since Lake Howell's Ken Cheeseman in 1982.

Rogers finished 10th as he followed through with a race plan which helped him stay close to the lead runners. "I stayed with the runners I wanted to," Rogers said. "With about a half mile left, though, they took off."

Rogers hung on and was able to achieve his final goal of the season with a state medal and a spot on the all-state team.

Apopka Wins Tiebreaker

Hardwick's Grab Hangs 6-3 Loss On Lake Howell

By Sam Cook
Herald Sports Editor

APOPKA — Apopka High assistant football coach Sonny Wise says Robert Hardwick stands 6-foot-4. Apopka quarterback Dan LaForest puts him at 6-5. Hardwick himself maintains he's 6-6.

Regardless of the measuring stick, Hardwick grew in stature Monday night.

Hardwick, a 208-pound tight end, curled around a six-yard scoring pass from LaForest on the seventh play of the Kansas tiebreaker system to give Apopka a 6-3 victory over Lake Howell High in prep football mini-playoff action before 3,401 damp fans at Roger Williams Field.

"The kids showed a lot of guts," Apopka coach Chip Gierke said after the tiebreaker. "We worked on that play all week. One of my assistants suggested it. Hardwick's size made the difference."

The playoff victory, necessitated by a three-way tie among Apopka, Lake Howell and Winter Park for the District 5A-5 championship, sends the Blue Darters into Friday's Region 5A-3 showdown at Vero Beach against Coach Billy Livings' Indians. Apopka is 7-3.

"That's the way it goes," disheartened Lake Howell coach Mike Biscaglia said. "It was definitely a mismatch. It was a

Football

great call."

Apopka's victory came after a similar 6-3 Lake Howell victory over Winter Park in the first tiebreaker. Silver Hawk quarterback Mark Wainwright tossed a six-yard TD pass to Henry Heim to knock out Winter Park and send Howell into the final.

Lake Howell opened defensively in the first tiebreaker, an advantage Apopka had in the second. "It was an advantage to go last," LaForest, a 6-4 junior, said. "We knew exactly what we had to do."

On the opening series, Lake Howell's Cornel Rigby picked up three yards on first down over left tackle to the Apopka 7-yard line. Rigby tried the right side and found four more yards to the Apopka 3. On third down, though, linebacker Tommy McCarthy tripped up Nate Hoskins for a one-yard loss. Jeff Phillips came on and drilled a 22-yard field goal for a 3-0 edge.

Apopka's Jerome Orr gained three yards on first down but burly Steve Scoggins was stacked up after a one-yard gain by Howell defensive end Craig Wagner on second down.

Facing a third down, Hardwick split

out slightly to the left and ran a fade route into the corner. Five-foot-8 Howell defender Bruce Yamson had him covered closely from the front side but LaForest lofted the ball perfectly to Hardwick's inside shoulder for the touchdown.

"It was a timing pattern," LaForest said. "Not many DBs can cover someone of Hardwick's size on a play like that."

Hardwick agreed. "I knew it would work. It was a perfect throw," he said. "We had worked on that play all week."

Howell's opening victory, like Apopka's, took seven plays. Winter Park opened on offense and sent standout halfback Hilton Mobley to the left side. Yamson dropped him for a one-yard loss. Quarterback Jerry Magee then knifed inside right end for six yards to the Lake Howell 5. On third down, though, safety David Dees nailed Magee for a two-yard loss on a similar try to the left side. Todd Hodgson came on and kicked a 22-yard field goal for a 3-0 lead.

Howell's Rigby was stacked up for a four-yard loss on first down, but the determined junior came back with an eight-yard gainer on second down to the Winter Park 6. Wainwright then took a quick drop to his left on third down and looked over the middle. He found Heim wide open for the six-yard TD toss.

"We were happy just to be here."

Herald Photo by Sam Cook

Lake Howell's Bruce Yamson wraps up Winter Park's Hilton Mobley as Marty Golloher looks on.

Biscaglia said. "We had a great season."

Lake Howell's 9-1 mark was the best in school history. The Silver Hawks also won the Seminole Athletic Conference for the first time with a spotless 5-0 record. They were ranked eighth in Monday's Florida Sportswriters Association Prep Football Poll. Biscaglia was also named District 7 Coach of the Year and linebacker Jeff Harris made the All-District 7 First Team.

Herald Photo by Bonnie Wieboldt

Charlie Rose, left, congratulates 100 backstroke winner senior, finished second in the 100 back but won the state title Trippi Schwenk of Sarasota Riverview. Rose, a Lyman High senior, finished second in the 200 IM for the second consecutive year.

'The Name Of The Rose:' Rave Review For Charlie

By Chris Fister
Herald Sports Writer

"The Name of the Rose," a recently-released mystery movie, didn't smell too good to one critic who gave it one star (with five stars being the highest).

That critic would have been in a five-star mood had he seen this particular Rose Saturday at the Justus Aquatic Center.

The name of the Rose — Charlie. Charlie Rose, a Lyman High School senior, drew a rave review from everyone on hand at the 4A State Swimming Championships. Rose took his second state title in the 200 individual medley, a second in the 100 backstroke and swam the anchor leg on the winning 400 free relay team. He went All-American in all three events.

"The Charlie Rose era ended in a super way," Lyman coach Don Clark said. "He's the greatest athlete to come out of Lyman in four years. No one has better leadership or more heart and desire."

In the 200 IM, which includes the freestyle, butterfly, backstroke and breaststroke, Rose took the early lead and held off Craig Becker of Fort Walton Beach at the finish. Rose finished with a time of 1:54.23 compared to 1:54.83 for Becker.

"The front end of the IM is my strongest part," Rose said. "I tried to take it out as fast as I could and get a big enough lead because

Swimming

I knew the second place guy (Becker) was a breaststroke."

It was the second year in a row Rose won the 200 IM. He also took fifth as a sophomore and qualified for state as a freshman.

In the backstroke, Rose finished with a personal best time of 53.47 for second place behind Trippi Schwenk of Sarasota Riverview who finished in 52.22.

"The 200 back is my best event but it's not held in high school meets," Rose said. "I worked on my sprint a lot and it was there. I was shooting for first but he (Schwenk) just swam faster."

In the 400 free relay, Lyman's foursome of Chuck Reinighaus, Tom Mooney, Sam Rennard and Rose posted a first-place time of 3:12.33 compared to 3:14.08 for West Orange.

"We started out with Chuck (Reinighaus) and (Tom) Mooney and they got us about a body-length lead," Rose said. "And Sam (Rennard) held it for me. But I was worried about it because the guy who anchored for West Orange (Peter Schuyten) got second in the 100 free. But I just sprinted as hard as I could and we had a big enough lead to win it."

Angels Cut Reggie — Twins Pick Kelly

Baseball

ANAHEIM, Calif. (UPI) — His options reduced by one team, aging slugger Reggie Jackson said he will "step aside with dignity" if no club offers him a contract for next season.

The California Angels Monday told the former All-Star to find work elsewhere. Jackson, a 19-year veteran, is now a 40-year-old free agent.

"Things just didn't work out for 1987," Jackson said in a statement released by the Angels after a 1 1/2-hour meeting between the designated hitter and General Manager Mike Port.

"As to what offers there will be in '87 depends on the other

clubs. I'm prepared to play baseball physically and mentally. If it doesn't come about, then I'll step aside with dignity."

PLAYERS WANTED TOM
MINNEAPOLIS (UPI) — One day after wondering about his status for next season, Tom Kelly was named manager of the Minnesota Twins.

Kelly, who finished this past season 12-11 as the Twins' interim skipper, was officially named Minnesota's manager Monday.

"I'm 36 and one of the 26

managers in the majors," Kelly said at the news conference announcing his appointment.

"This is what I always wanted," Minnesota right fielder Tom Brunansky said Kelly was the players' choice for manager.

"We felt Tom was the manager we wanted," Brunansky said. "We had a taste of working for him at the end of the season. He did a great job in leading us."

NL ROOKIE: WORRELL
NEW YORK (UPI) — Todd Worrell, the National League's Rookie of the Year whose career skyrocketed when he was switched to the bullpen, says "people see my best" in relief roles. Worrell led the NL with 36

in the team race, Lyman compiled 140 points and edged out arch rival and seven-time defending champion Winter Park (131). But Pensacola Washington pulled off a big surprise by finishing with 144 points for the state title.

"Team wise it was kind of ironic," Rose said. "All we talked about was beating Winter Park. We had what we needed to do figured out to the exact point."

"Everything was going great," Rose added. "But we overlooked that Washington had a good team this year. We haven't seen them all year and they pulled a heck of a team together. We only had four gutsy in individual events and all four placed high. The only problem was we didn't have any in consolation heats and Washington did. They got a couple points there and that's where they got us."

Not only Rose, but Reinighaus, Mooney and Radkewich also set personal bests in each of their events Saturday.

"We would have liked to get first, but we're really happy with second," Rose said. "It's our highest finish ever. Everyone swam their best so we couldn't hope for any more."

Rose will now turn his attention to choosing the college he will compete for. Rose said he has five recruiting trips planned including Tennessee, Alabama, Auburn, Georgia and Florida.

Jackson

Kelly

saves and was nearly a unanimous choice Monday in voting by the Baseball Writers Association of America, gathering 23 of 24 first-place votes.

"I'm very capable in this league of pitching 10 years as a short reliever," Worrell said from his home in Temple City, Calif.

Dolphins Demolish Jets, 45-3

MIAMI (UPI) — Miami's recipe for Monday night's 45-3 win over the New York Jets included two ingredients missing in the first 11 games of the season — an effective running game and a defense that stopped a good offense.

The Dolphins, who had the No. 27 rushing offense, rushed for 189 yards against the NFL's No. 1 rushing defense, 148 of those by Lorenzo Hampton. Miami's defense, rocked for 51 points by the Jets in the first meeting of the year between the two teams, surrendered a season-low 3 points and caused four turnovers. The Jets won the first game 51-45 in overtime.

The injury-riddled Jets saw their nine-game winning streak end and at 10-2, New York is a game up on New England in the AFC East. Miami, 6-6, notched its first 1986 win against a team with a winning record and atoned for a dismal showing in their last Monday night appearance, a 26-16 loss to Cleveland Nov. 10.

New York, which began its winning streak with the win over Miami, played without defensive line starters Mark Gastineau, Joe Klecko, Marty Lyons and linebacker Lance Mehl.

Miami's previous five wins had come against Houston, Indianapolis (twice) and Buffalo (twice). Those teams have a combined 6-30 record.

"I always felt that we were better than our record indicated, but we never proved it," Miami Coach Don Shula said. "Tonight I felt we proved it. I felt that we would be able to run the ball to provide better balance. The defense played an outstanding game."

Dimming the glow of the Miami victory was the news that wide receiver Mark Clayton and cornerback Paul Lankford would be lost for the season. Clayton separated a shoulder and Lankford suffered a cracked tibia in his left leg.

The defeat was the worst suffered by the Jets since a 56-3 loss to New England Sept. 9, 1979. It was the first loss for the Jets since a 20-6 defeat to New England Sept. 11.

Of course, any Miami formula for victory includes a strong performance by quarterback Dan Marino. The four-year veteran out of Pittsburgh threw for 288 yards and four touchdowns, and had a career-best 80.6 percent completion percentage on 29 of 36.

"We moved it (the ball) in the first half but we had some turnovers and penalties," New York Coach Joe Walton said. "I'm disappointed in the game because we got beat badly. What else can I say? We got beat by a team that was better tonight."

The Dolphins only punted once, and scored on seven of their first eight possessions. Miami's running game allowed the Dolphins to keep the ball for 40:23.

Hampton's 54-yard run was the longest by a Dolphin this

See DOLPHINS, Page 11A

Temple Topples Wildcats

United Press International
Temple captured the National Invitation Tournament's version of the Philadelphia Story Monday night.

The Owls, led by Nate Blackwell's 15 second-half points, recorded a 90-83 victory over cross-town rival Villanova in the tournament's second round. Although the Palestra, a neutral site in the city, was available, the NIT chose to schedule the game at DuPont Pavilion — the Wildcats' home court.

"I didn't care where we played Villanova," Temple Coach John Chaney said. "It makes no difference if we play here, at Temple or the Palestra. I think it's great that the inner-city schools continue playing each other."

Villanova and Temple play in the Big Five — an unofficial league consisting of Philadelphia-based teams. The two schools will play their regularly scheduled game later in December.

Temple will face Nevada-Las Vegas in the semifinals Friday night in New York. Sophomore Mike Vreecwyk added 19 points for the Owls, including four 3-point baskets.

"I think it was pretty simple — we had to stop Vreecwyk and that's all," Villanova Coach Rollie Massimino said.

But it was Blackwell who wasn't stopped at the end. He scored 15 of his 19 points in the second half.

"Blackwell really drilled it in the second half after he only had four points at halftime," Massimino said. "We thought he would slack off."

Blackwell, a senior guard who has assumed a leadership role for the young Owls, had scored a career-high 24 points in the first victory over Virginia.

Villanova, which should be tough late in the season, was led by Kenny Wilson's 21 points.

Memphis State will play Western Kentucky in the other semifinal Friday night.

In other games, Memphis State defeated Michigan 82-76. Western Kentucky outscored Texas Christian 98-90 and Nevada-Las Vegas beat Oklahoma 90-81.

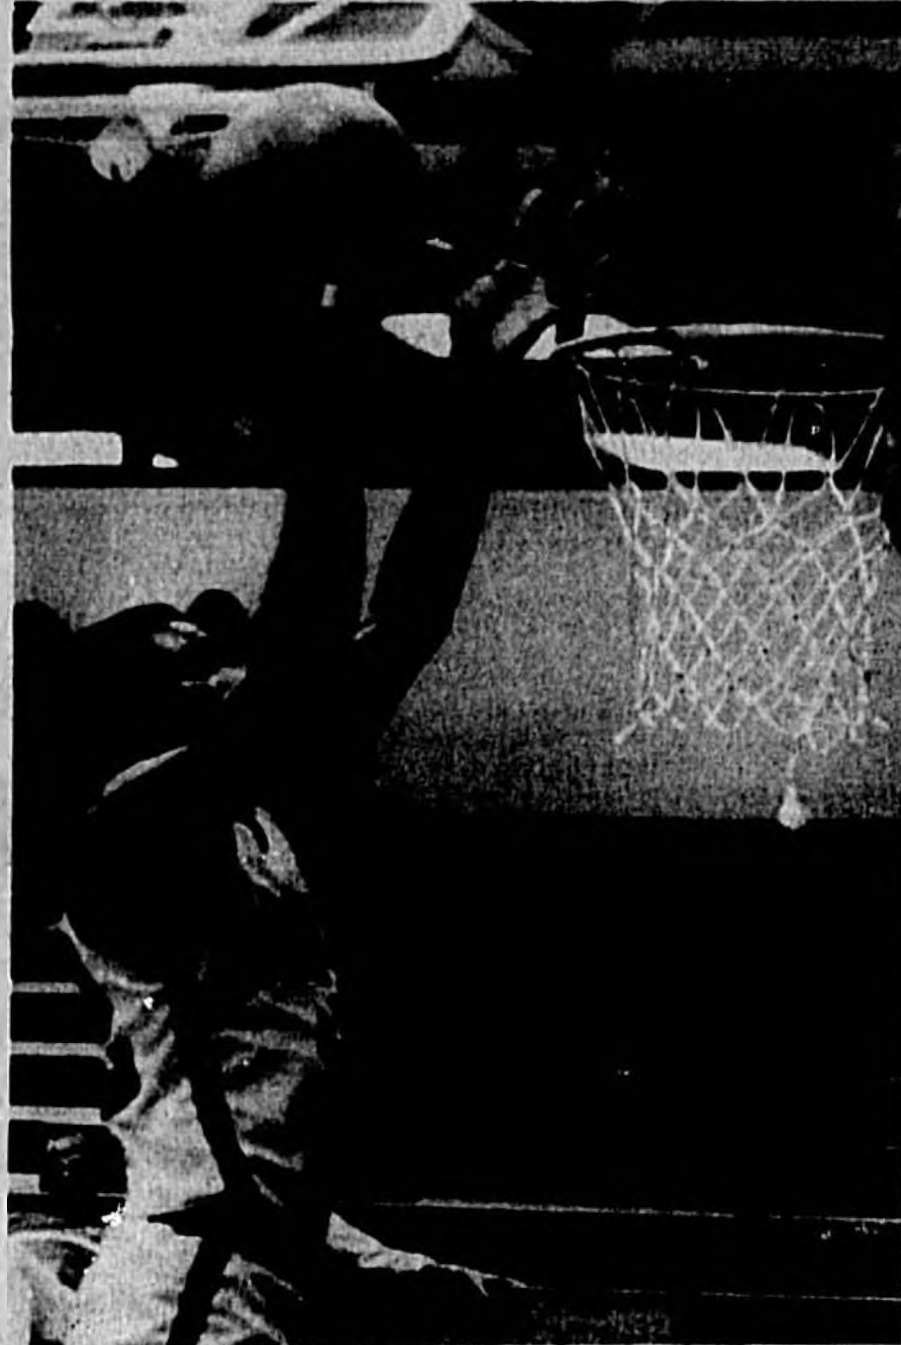

Tigers 83, Wolverines 76
At Memphis, Tenn., Marvin Alexander scored 14 of his 21 points in the second half to lead the Tigers over Michigan. Memphis State, which led by as many as 20 points in the second half, won its 39th consecutive home game.

Hilltoppers 96, Frogs 90
At Bowling Green, Ky., Tellea Frank and Kannard Johnson combined for 47 points to lead Western Kentucky. Frank had a game-high 12 rebounds and scored 25 points, and Johnson hit 7 of 14 floor shots for 22 points as the Hilltoppers rallied from a 53-49 halftime deficit. TCU's Jamie Dixon scored a game-high 31 points.

Rebels 90, Sooners 81
At Las Vegas, Nev., Freddie Banks scored 24 points and Arnon Gilliam added 18 to lead No. 3 Nevada-Las Vegas over No. 7 Oklahoma. Banks made 5 3-point baskets, but shot only 9 for 21 from the floor. Oklahoma's Tim McCallister led all players with 31 points, including five 3-point baskets.

PRATER LIFTS OLE MISS
OXFORD, Miss. (UPI) — Mississippi's Charles Prater, in his first game with the Rebels, hit a three-point effort as the buzzer sounded to give Ole Miss a 79-78 win in exhibition basketball Monday night.

The Spirit Express used 6-of-11 three-point attempts to build a lead of as many as 10 points but the junior college transfer broke a deadlock with the Memphis-based amateur group.

Herald Photo by Louis Raimondo

SCC's Claude Jackson goes high in the air to control a rebound and drop in two points. Jackson and Raiders put 9-0 mark on line at home tonight against Florida College at 7:30.

SCC Puts 9-0 Start On The Line Tonight

By Mark Blythe
Herald Sports Writer

Bill Payne, Seminole Community College's men's basketball coach, has a knack of getting his teams to perform well early in the season. This year's amazing outfit is no different.

The Raiders, 9-0 and ranked second in the state Junior College poll behind Pensacola, are looking for their 10th victory tonight at home against Florida College. Tipoff is 7:30 p.m. There is no charge for admission.

"I'm a little nervous," Payne said of tonight's game. "They're big and strong and will definitely play us aggressively."

Seminole has already defeated the Falcons this year in Temple Terrace (near Tampa), but Florida College would like nothing better than to upset the Raiders tonight.

"They're not going to change much. We're not changing either, you don't change something that isn't broken," Payne said referring to the Raiders' unblemished record.

Balance has led SCC to its early-season success as both the inside and outside games have been solid.

"We don't know exactly what we're going to do going into the game," Payne said. "We'll just see what's working and make adjustments during the game."

Point guard Darris Gallagher has been able to help the Raiders attack with his ball handling and ability to dish the ball off. Gallagher leads the team in assists with an average of 9.9 per game.

Gallagher, a 5-8 sophomore, has also come through when he has been asked to score as he is the third highest point scorer and is averaging 13.3 points a game. Gallagher is averaging 58.4 percent from the field and 80.7 from the free throw line. Gallagher, surprisingly is also the Raiders fifth leading rebounder, averaging four per game.

Malcolm Houston, SCC's three-point ace, leads the Raiders in the scoring department, averaging 19.4 points per game. Houston has made 32 of 67

Basketball

three-point field goal attempts this season for a sparkling 47.8 percentage to go along with his 50 percent shooting overall from the field. Houston is also averaging 1.8 assists a game and is shooting 78 percent from the free throw line.

Vance Hall, playing in the middle for SCC, is second in scoring, averaging 18.1 points a game. Hall, who committed to play next year at South Alabama, is also leading the team in rebounds as he is averaging 9.4 boards a game. Hall also leads the way in field goal percentage as he is hitting 62.6 percent from the floor this year.

Forward Claude Jackson is the Raiders fourth leading scorer, averaging 12.7 points per game. Jackson is second on the rebounding list, averaging seven a game.

Barry Dunning is Seminole's fifth leading scorer at this point, averaging 9.9 points a game. Dunning is also grabbing 6.6 boards a game and is shooting 54.2 percent from the field. Jackson is also averaging 1.2 assists on the year.

James Morris is sixth on the SCC scoring list with nine points per game. Morris is also averaging 1.7 assists and is shooting 73 percent from the free throw line.

Efrem Brooks, former Sanford Herald Player of the Year while at Lake Howell High, leads the way for the Raiders from the charity stripe with an 81.3 average. Brooks is also averaging 2.4 assists per game and is hitting 51.1 of his shots from the field.

Rob Williams, reserve center, is averaging 4.9 boards a game for SCC and shooting 50 percent from the field. Holly Keller of Colonial is fifth for the Raiders from the free throw line with a percentage of 70.6.

Seminole, with one of the most potent offenses in the state, is averaging 101.9 points a game and limiting its opponents to an average of 82.6 points per game.

Quickly-Maturing Lady Seminoles Open With Rotary

By Chris Fister
Herald Sports Writer

After getting the young Seminole High team off the ground last year, coach Charles Steele is looking for a little more maturity to carry the Lady Seminoles up another step in 1986-87.

Lack of experience and depth are the only things holding the Lady Tribe back. The 11 players currently on the roster have only a combined five years of varsity experience.

"I can see the girls beginning to jell," Steele said. "All this team needs is some maturity. The potential is there. If the girls stay together, we'll be a team to be reckoned with in the future."

Seminole opens the season Wednesday afternoon at 4 against Orlando Colonial in the first round of the Rotary Thanksgiving Tournament at the University of Central Florida. In Wednesday's other games, Oviedo's Lady Lions play two-time defending champion Cocoa Beach at 5:30, Lake Brantley's Lady Patriots tangle with Winter Park at 7 and DeLand takes on Orlando Edgewater at 8:30.

The teams will take Thursday (Thanksgiving) off and return to action Friday when the Seminole-Colonial winner plays the DeLand-Edgewater survivor and the Oviedo-Cocoa Beach winner takes on the Brantley-Winter Park winner.

Steele said his team has been hit with the flu the past week but he expects his starting lineup Wednesday to include 6-1 senior Yolanda Robinson, 6-2 sophomore Liz Long, 5-7 sophomore Adrian Hillman, 5-5 junior LaShon Cash and either 5-7 sophomore Aretha Riggins or 5-11 sophomore Chineta Olichris.

Steele will also get a look at three promising freshmen including 5-11 Sherry Reddick along with Michelle Toombs and Shawna Cohen. Sophomores Cindy Lyons and Tammi Scott will also get some playing time in the tournament.

"We've got quickness and size

Basketball

but we just don't have the depth," Steele said. "We have to stay out of foul trouble to be tough."

Robinson, Long and Hillman all played on the varsity squad a year ago while Riggins played the first part of the season before going out with a knee injury and later being sidelined for the year with Landy-Ouillian-Barre Syndrome. Riggins, though, has come back to almost 100 percent going into the 1986-87 season, according to Steele.

"Yolanda (Robinson) had a down year last year but she's made up her mind to play this year," Steele said. "She's become a lot more aggressive underneath and is working for position better."

In Hillman, Riggins and Cash, Steele said he has three quick players who can handle the ball well and are developing their outside shots. Long will be counted on for more defensive rebounding strength but she may also be the top outside shooter on the team at this point.

Lake Brantley coach Cindy Frank said, position for position, her team looks stronger at this point than her team of last year did. The Lady Patriots will go with sophomore Tracy Brandenburg at the point, senior Ashley Thomas at the two spot, senior Janice Abaray at the four spot and senior Laurie Rivers at the five spot. The three spot will be filled by either junior Susan Asplen or Chicago transfer Julie Billmyer. Gretchen Mull, a 6-0 sophomore, and Jennifer Tufford, a 5-8 sophomore, will also see plenty of action for the Lady Patriots.

"We starting out stronger this year at every position except the shooting guard," Frank said. "We need someone to shoot consistently from the outside to fill the spot vacated by Sherry (Asplen)."

Again it is at guard where the

Steele

Hillman

Long

Strickland

Robinson

Riggins

Lady Patriots are the strongest. Brandenburg improved steadily as the season progressed a year ago while Thomas was the team's third-leading scorer. Rivers and Mull will be counted on heavily to give the Lady Patriots strength inside.

"If Laurie (Rivers) hangs onto the ball, she'll be a lot better inside," Frank said. "She's become much more aggressive and is showing some leadership ability. Gretchen (Mull) has improved a lot but she's still pretty inexperienced."

Oviedo's Lady Lions are much in the same boat as Seminole High with a lot of inexperience. Oviedo's most experienced players are returning varsity players Bobbie Kelly, Jodie Switzer and Suzanne Hughes. Kelly, a senior, has been playing three years for the Lady Lions while Switzer and Hughes are entering their second seasons.

Kelly will provide the inside strength while Switzer, a junior, will be counted on for her outside shot. Hughes, a sophomore, is one of the promising prospects for the future in Seminole County.

Lyman, Brantley Flash Explosives

By Chris Fister
Herald Sports Writer

LAKE MARY — Lyman's Lady Greyhounds and Lake Brantley's Lady Patriots, a pair of potential state powerhouses, showed their explosive capabilities Monday night at the Seminole Athletic Conference Girls Soccer Jamboree.

But, while Lyman and Lake Brantley are the favorites, the other four SAC teams, Seminole, Oviedo, Lake Mary and Lake Howell, all have the talent and potential to make it a very interesting year.

In Monday night's opener in the jamboree (three, 40-minute halves), Oviedo's aggressive defense held 1985-86 state runner-up Lyman scoreless for more than 25 minutes. But the Lady Greyhounds then erupted for three goals in a five-minute span for a 3-0 victory.

"Oviedo was very aggressive and had some good threats on offense," Lyman first-year head coach Laura Dryden said. "It took us a while, but once we found the rhythm we looked pretty good."

Probably the turning point in the half came with 19 minutes remaining when Oviedo's Jill Knutson made some good moves to break into the open for a one-on-one with Lyman keeper Leah Ahern. Ahern came out just in time to stop Knutson's shot from giving Oviedo the lead.

Lyman finally cracked Oviedo's defense with 14:45 remaining when Karen Abernethy unloaded one of her patented booming shots from 35 yards out. The shot was hit so hard that it bounced through the hands of Oviedo's keeper and rolled into the goal.

The Lady Greyhounds made it 2-0 with 12:11 left to play when Maye Belle Bryant scored on an assist from Diana Boyesen. Bryant came back to make it 3-0 with 9:47 remaining when she scored on an assist from Jennifer Sutherland.

Along with Knutson's offensive showing, Oviedo was led by midfielder Cathy Bergman and defender Doris Arcomone.

In Monday's second half, Lake Howell and Seminole fought to a

Soccer

1-1 tie, which is nothing new to the two SAC teams who tied twice a year ago.

Lake Howell got on the board first with 11 minutes gone in the half when Mindy Garberg got a free ball in the penalty area and fired it between the pipes for a 1-0 lead.

That was the only ball that would get past Seminole keeper Sherri Rumler in the first 17 minutes of play. Rumler moved from goalkeeper to forward and wasted no time in getting her feet wet offensively. With 12:25 left to play, Rumler took a pass on the left side line, made a nifty move around a defender and slipped a shot past the keeper to tie the score at 1-1.

"Once we get a little game experience we'll be pretty good," Seminole coach Suzy Reno said. "We should have a better year than last year. Kim (Walsh) showed she can play in the goal and that means Sherri (Rumler) will play more at forward."

In Monday's nightcap, Lake Brantley showed a relentless offensive attack in a 5-0 rout of Lake Mary's Lady Rams. Brantley benefitted from a pair of penalty kicks in the first six minutes of play. Both penalty kicks were a result of fouls called against one Lake Mary player and Brantley's Cara Marlen converted both into goals.

Lake Brantley upped its lead to 3-0 with the game still only seven minutes old when Karen Kopp tipped in a loose ball in front of the goal mouth. Julie DeRusso got into the scoring column with 24:36 remaining when she made a slick move around the defender.

Tammy Scott then went in at keeper for the Lady Rams and she made some excellent saves including a diving save of a header by Kopp with 18:15 remaining. Brantley kept up the offensive pressure though and increased the lead to 5-0 with 7:26 left to play when DeRusso crossed the ball in front of the goal and Jennifer Josephs tipped it in.

McClintock Puts It 'All' Together, Qualifies For State Meet

By Chris Fister
Herald Sports Writer

Just when she needed it most, Abbie McClintock put together her best all-around performance of the season.

In this past weekend's Class IV Section Meet at Jacksonville, the last chance for Class IV gymnasts to qualify for state, McClintock, representing Sanford Gymnastics Association, came through with a score of 35.60 to qualify for the Class IV State Meet in the 9-11 age group.

McClintock's state-qualifying effort was led by a dynamic routine on the balance beam. McClintock, a fifth grader at Woodlands Elementary School, stuck a 9.35 on the beam for

first place and added a seventh on vault (8.75) and 10th on floor exercise (8.8).

Another SGA gymnast who had already qualified for state in the 9-11 division, Sammy Wongsuwan, turned in a solid effort in taking eighth place in the all-around with a score of 34.40. Wongsuwan, a fifth grader at Winter Springs Elementary, took second on the beam (9.25) and also scored an 8.35 on vault, 8.1 on the uneven parallel bars and 8.65 on floor exercise.

In the 11-14 age group, Kristin Horn had an all-around of 28.60 led by a 10th place on floor exercise (8.8) along with a 7.95 on vault.

Another SGA member going to state

Gymnastics

is Brett Leckie who qualified in the first local meet.

In Class III competition last week, the SGA's Jenny Kopp qualified for state in the 11-14 age division with a score of 33.25. Kopp's all-around was led by a score of 9.11 on vault.

Brown's Gymnastics of Altamonte Springs took second place in the team standings this past weekend with 174.35 points with heat All American of Jacksonville winning by a narrow margin with a score of 174.65.

Brown's had six competitors in the

9-11 age division who had already qualified for the state meet. Jennifer Dickinson led the way as she finished second in the all-around at 35.30 including a 9.0 on bars (third), 9.2 on beam (third) and 8.85 on floor (seventh).

Jenni Beathard took fourth in the all-around at 34.95 with a first place score of 9.3 on bars paving the way. Beathard was also 10th on beam (8.65) and tied for 10th on vault (8.8).

Lynn Kennedy, seventh all-around at 34.30 took a fourth place on beam with a score of 9.1. Laura Viles finished 10th all-around (34.25) led by a fifth on bars (8.9). Kristi Polvani posted a seventh on beam (8.85) while Kim Ford tied for 10th on vault (8.6).

This past weekend's meet also marked the end of the season for gymnasts in the 7-8 age division.

For Brown's, Jennifer Naylor was the top 7-8 performer as she was seventh all-around at 32.30. Naylor was fourth on bars (7.95) and fifth on beam (8.25).

Jessica Durs finished eighth all-around at 31.90 including a tie for first on vault (8.65), seventh on floor (8.45), eighth on beam (8.05) and 10th on bars (8.75).

Traci Tombros tied Durs for first on vault (8.65), took sixth on beam (8.25) and eighth on floor exercise (8.40). Allison Bartholomew claimed ninth on bars (7.1).

SPORTS IN BRIEF

Seminole Pony Baseball To Hold Spring Registration On 3 Dates

Seminole Pony Baseball will hold its Spring Season Registration Jan. 10, 17 and 24. The League is open to players age 5-16 who are residents of Seminole County.

The Jan. 10 sign-up will be held at Denmark Sporting Good store on 17-92 in Longwood in conjunction with their annual Coaches and Players Clinic. Local college coaches and Major League baseball personalities will be present.

The Jan. 17 and 24 sign-ups will be held at the Pony League's Complex. All sign-ups will be from 10 a.m.-2 p.m.

All games are played at the League's Complex on State Road 419 near Winter Springs. Practices are held in your local communities.

The League will hold for the first time a Wrangler Division age 5 and 6. Players in this division will play T-ball using a new cloth "Incred-Ball."

The Pinto Division (age 7-8) play half T-ball and half Coaches Pitch. Mustang (age 9-10), Bronco (11-12), Pony (13-14) and Colt (15-16) all play Major League rules (leading off, stealing bases). All League ages are determined as of Aug. 31, 1987.

Registration fee is \$25 for Wranglers, \$35 for Pintos and \$40 for all other divisions. This includes jersey, cap and insurance.

The league is just finishing its Winter Instructional League which it holds from September through November, with over 750 players participating. Montreal Expo '87 Raines and Cleveland Indian Tony Bernazard were present during the league watching their sons play and instructing.

For additional information call Mike Black at 327-2198.

Sooners, Michigan Bank On ECU

NEW YORK (UPI) — A 40-point underdog that recently won its first Division I-A game in over a year holds the lone hope for Oklahoma or Michigan slipping in as national champion.

East Carolina is almost a six-touchdown underdog for Thursday night's game against No. 1 Miami. And why not? The Pirates are 2-9, with one of those victories coming against Division I-AA Georgia Southern and the other coming Nov. 5 against Cincinnati.

Before their triumph over the Bearcats, you would have to travel back 17 games before discovering East Carolina's last Division I-A victory, 14 months ago.

In Miami, East Carolina is facing a team the United Press International Board of Coaches voted No. 1 Monday for the ninth straight week. The Hurricanes earned 44 of 50 first-place votes and 743 points.

Penn State retained its No. 2 spot and kept alive the chance for a national-title game against Miami Jan. 2 in the Sunbelt Fiesta Bowl with a 34-14 triumph last Saturday over Pittsburgh. The Nittany Lions secured five No. 1 votes and 697 points.

Gators Have Liberty Bowl Hope

MEMPHIS, Tenn. (UPI) — The University of Florida could replace Tennessee in the Liberty Bowl should the Vols lose their final game of the season Saturday against Vanderbilt, bowl Executive Director Bud Dudley says.

Tennessee accepted the Liberty Bowl's bid to play Minnesota following the Vols' victory Saturday over Kentucky. However, the 5-5 Vols would have a losing record should they fail to arch-rival Vandy in Nashville.

"It would be our option to rescind the bid," Dudley said Monday. "However, as of now they are one of our two teams."

Dudley also said public tickets have been sold for the Dec. 29 contest and the only tickets out are the 17,500 UT requested and the 8,500 asked for by Minnesota.

Layne: Critical But Improved

LUBBOCK, Texas (UPI) — Former pro football great Bobby Layne, hospitalized since earlier this month for treatment of a liver ailment, was reported in critical but improved condition Monday, hospital officials said.

Methodist Hospital spokeswoman Dolores Munoz said Layne remained on the critical list despite his improved condition. He underwent a tracheotomy on Saturday to assist him in breathing, she said.

Layne, a member of the Pro Football Hall of Fame who played with Pittsburgh and Detroit, has been hospitalized twice this year for internal bleeding caused by liver problems.

Wilander kallies To Beat Gilbert

ATLANTA (UPI) — Mats Wilander rallied in the third set and defeated Brad Gilbert 7-6 (7-4), 3-6, 6-4 Monday night in the opening round of the \$500,000 AT&T Challenge.

Yannick Noah had used a key service break in the third game of the final set to defeat Mikael Pernfors 6-3, 5-7, 6-4 in Monday's first match.

Wilander, who recently returned to the tour from a two-month hiatus, said he "didn't play very well."

"It takes a while to get back into the rhythm," Wilander said. "I played very confidently when I had to. I won the important points and that's why I won this match."

Stocks Open Mixed

NEW YORK (UPI) — Prices opened mixed today in active trading of New York Stock Exchange issues. The Dow Jones Industrial average, which climbed 12.51 Monday, was up 1.27 to 1907.34 shortly after the market opened. Declines led advances 485-376 among the 1,338 issues crossing the New York Stock Exchange tape. Early turnover amounted to about 9,599,000 shares. The stock market posted a gain Monday, aided by a strong

bond market and by futures-related buy programs. Trading was active. Bond prices strengthened because many analysts believe the Federal Reserve Board will let interest rates ease to keep the economy moving ahead in the first quarter of 1987. High premiums on stock index futures contracts made it profitable for arbitrageurs to sell the contracts and buy the cash stocks on which the futures are based. Monte Gordon, research

director of Dreyfus Corp., said money that prior to the Ivan Boesky insider-trading scandal might have gone into merger-related issues is now flowing into the broader market. "Investors are expecting new revelations related to the Boesky case and as a result, they're reluctant to put their money into the takeover situations," Gordon said. "Speculative money is now marking time in blue chip, energy, food and drug issues," he said.

Gold Looks Mixed As Dollar Declines

The U.S. dollar moved lower on major money markets today. The price of gold was mixed. In Tokyo, where markets were closed for a national holiday on Monday, the dollar closed higher against the Japanese yen at 163.90 yen, against last Friday's close of 163.25. In European trading, the dollar opened in Frankfurt at 2.0125 German marks, against Monday's close of 2.02. In Zurich the dollar opened at 1.6815 Swiss francs, against a previous close of 1.6915; in Paris at 6.5875 French francs, against 6.6125; in Amsterdam at 2.2695 Dutch guilders, against 2.284; and in Milan at 1.3935 lire, against a previous close of 1.40125. In London, the pound fell slightly to \$1.4145, compared with \$1.4175 on Monday. In early New York trading, the dollar was mixed against major foreign currencies in light trading. Gold rose \$2 an ounce in

Zurich to \$382.50 an ounce, against Monday's close of \$380.50. In London, gold opened 75 cents an ounce higher at \$382.50, against a previous close of \$381.75. The morning fixing in London was \$380.75, off \$1 from Monday's close. Silver rose 5 cents to \$5.30 an ounce in Zurich, against a previous close of \$5.25; and in London, silver fell 4 cents an ounce to \$5.25, against \$5.29. In earlier trading in the Far East, gold closed at \$382.75 an ounce on the Hong Kong Bullion Exchange, up \$3.40 from Monday's close. In early trading on New York's Comex, a 100-troy-ounce gold futures contract for current delivery in November opened at \$380.40 an ounce, off \$1.60 from Monday's close. A 5,000-troy-ounce silver futures contract for delivery in November opened at \$5.241, off 2 cents an ounce.

Inflation Up Slightly In October

WASHINGTON (UPI) — Inflation rose a seasonally adjusted 0.2 percent in October but was held in check by a decline in energy prices, the Labor Department said today. Prices for food and beverages, apparel, transportation, medical care and entertainment showed gains last month. The Bureau of Labor Statistics' Consumer Price Index has registered slight gains over the three last months with a 0.3 percent increase in September and a 0.2

percent hike in August. Overall, inflation in the first 10 months of 1984 measured a seasonally adjusted annual rate of 0.7 percent, largely because of continued low world oil prices. The last time the United States experienced such a low inflation rate over a calendar year was in 1961, when the index rose the same 0.7 percent. The department's market basket of consumer goods that cost \$100 in 1967 now costs \$330.50.

Copter Crashes, No Survivors

CINCINNATI (UPI) — A radio station traffic helicopter crashed in a nature preserve today in heavy fog, killing a reporter and the pilot, police said. The helicopter took off from Mays Heliport near Lunken Airport about 6:30 a.m. but airport officials lost radio contact with the craft about one minute later. Another radio station traffic helicopter took off at about the same time, but immediately returned after running into de-

nsure fog. Killed were WKRC traffic reporter Nancy McCormack, 24, and a pilot whose name was not immediately disclosed. The crash site was not found until two hours later because it was in a fogged-in wooded area on a hilltop. The wreckage was first spotted by Mark Kelly, who had been searching the east side of Cincinnati for the downed helicopter. "I was driving down Kellogg Avenue and figured the

helicopter had to be close," Kelly said. "I looked into the woods and saw straps hanging in a tree. Then I saw debris scattered everywhere. I immediately went for help." Hamilton County authorities arrived on the scene and reported no survivors. Shortly after the helicopter took off, a person reported hearing an explosion near the area where the wrecked copter was located.

...Sanford

Continued from page 1A members who voted for the plan's approval. When asked to elaborate on reasons for the P&Z denial, Morris said "I get the impression there was great concern" about the home's proximity to the city's downtown historic district and a residential area the city rezoned in 1983 to prevent additional multi-family operations. The zoning house is located in a special commercial zone that allows multi-family operations. At the end of Monday's meeting, Morris again approached commissioners and said "I want to reassure you that although P&Z decisions may at times appear capricious and arbitrary,

they are not. The board's takes the city of Sanford and its citizens as a whole into its considerations." Mercer began his motion for the plan's conditional approval by saying, "In view of the lack of reason for lack of P&Z approval..." P&Z member Brent Carl moved for the plan's denial Nov. 8 after stating it did not meet the P&Z's review criteria and that he was troubled by the home's proximity "to an area the city is trying to upgrade." In saying the plan didn't meet P&Z review criteria, Carl read a passage from the city's zoning ordinance handbook. It states that P&Z considerations ensure "safety and convenience of the public are properly provided, that adequate parking and off-street parking and loading are provided and that adequate

protection and separation are provided for contiguous and nearby property." The P&Z vote to deny the plan was passed by Carl, Lon Howell, Hortense Evans and Eddie Keith. In addition to Morris, P&Z member Gary Davidson voted for the plan.

...Testing

Continued from page 1A missioners first began discussing the testing programs last summer. These employees "have received help, are still on the job and their performance has improved," Mrs. Diedrich said. All 343 Sanford staffers, from City Manager Frank Falson on down, can be required to submit to the mandatory tests, Mrs. Diedrich said. A policy decision about mandatory testing for city commissioners has not been formulated and "I really doubt it will be necessary," she said. "I guess a

commissioner could (be tested under the mandatory program) if the other four told them to, but I don't see this happening. There has to be a reason for doing it and none of the commissioners has ever displayed any signs that would warrant the tests." Mrs. Diedrich said she will not volunteer to be tested, but would not refuse if directed under the mandatory program. Submission of samples must be witnessed, "and I'm not very comfortable about that," she said. The samples are taken at the city physician's office on East Second Street and forwarded to a Roche Laboratories in North Carolina for analysis.

AREA DEATHS

JAMES F. MOORE
Mr. James Franklin Moore, 61, of 2545 Park Drive, Sanford, died Sunday at his residence, Born Decatur, Ill., July 6, 1925. He moved to Sanford in 1978 from Zanesville, Ohio. He worked for S&H Fabricating and Engineering, Inc., Sanford. He was a U.S. Navy veteran of World War II and a Protestant. He is survived by his wife, Clarice. Oaklawn Funeral Home, Sanford, in charge of arrangements.

RICKEY RODGERS
Rickey Rodgers, 17, of 102 Laguna Court, Sanford, died Sunday in a traffic accident on State Road 415 near Osteen. Born Abington, Pa., Aug. 22, 1969, he came to this area in 1981 from Miami. He was employed by Custom Irrigation System, Winter Park. He attended Seminole High School. Survivors include his mother, Sharon Kramer of Sanford; stepfather, Ron Kramer, Sanford; sister, Teresa Rodgers, Sanford; stepgrandmother, Phyllis Kramer, Gainesville. Brinson Guardian Funeral Home, Sanford, is in charge of arrangements.

THOMAS J. NULTY
Mr. Thomas Joseph Nulty, 84, of 112 Grove Lane, Sanford, died Sunday at Central Florida Regional Hospital, Born Dec. 11, 1901 in Jersey City, N.J., he moved to Sanford from Lyndhurst, N.J., in 1975. He was a longshoreman in the shipping industry and a member of All Souls Catholic Church, Sanford. He was a member of the Teamsters Union and the Longshoremen's Union. Survivors include a son, Thomas B. Nulty, Sanford; two daughters, Iva M. Rice, Corpus Christi, Texas; Gertrude F. Tucker, Ohio. Baldwin-Fairchild Funeral Home, Altamonte Springs, is in charge of arrangements.

CHRISTINE L. PEARSON
Ms. Christine Louise Pearson, 50, of 232 E. Wilbur Ave., Lake Mary, died Monday at a Winter Park nursing home. Born April 21, 1936 in Derbyshire, England, she moved to Lake Mary from Kissimmee in 1984. She was a homemaker. Survivors include her parents, Ronald and Hilda Sallis, Worthing, England; brother, John Sallis, Tinner, England; sister, Leslie Drake, Manley,

Agreement In Principle In Philippines

Cease-Fire Proclaimed

MANILA, Philippines (UPI) — Government and rebel negotiators today tentatively agreed to an unprecedented cease-fire in the 17-year-old Philippine communist insurgency, officials said. Chief government emissary Ramon Mitra said the negotiators met for eight hours in a "make-or-break" bid to meet a weekend deadline set by President Corason Aquino. "In general principle, I think we have come to an agreement," Mitra said afterward. No details of the truce were announced. Mitra said the negotiators will meet again Wednesday and by then, he said they would be "ready to sign an agreement." Mitra said most of the day's secret meeting was spent revising a draft agreement before the 4-month-old talks broke off two weeks ago. Prior to that, the rebels had proposed a 100-day cease-fire while negotiations continued on a final accord. How to deal with the communist insurgency has been a major problem for Aquino since she took over for the ousted Ferdinand Marcos in February. The government panel members, following usual procedures, were fetched by rebel escorts for the secret talks aimed at ending a 17-year-old insurgency, aides to Mitra said. Mitra, the agriculture minister, had told reporters it was a make-or-break meeting.

Saying "the extreme left has no interest" in her peace efforts, Aquino Sunday gave the government panel "until the end of the month to produce a cease-fire or terminate all further negotiations." "This is a reasonable directive considering the fact that we are already 70 to 80 percent in agreement," said another negotiator, Teofisto Guingona. Aides said Mitra asked Armed Forces chief Gen. Fidel Ramos for a two-week extension of safe-conduct passes granted rebel emissaries when the talks began Aug. 5. If no accord is reached today, the safe-conduct passes will be revoked after two weeks and the emissaries will be subject to arrest, aides said. "We are confident, hopeful, that we will be able to achieve the cease-fire agreement within the month," Guingona said. The main sticking points were a government proposal that the rebels stop "taxation" in the countryside, and a counterproposal that the government stop arms procurement. Aquino issued the deadline for an agreement with the rebels Sunday when she sacked Juan Ponce Enrile, her defense minister, whose criticism of her "soft" approach to the insurgency fueled unrest in the armed forces. Aquino's Press Secretary Teodoro Benigno said Monday a coup plot by Enrile's supporters

that Aquino staved off included an eventual plan to "bump her off" and that Aquino's dismissal of Enrile Sunday removed one of the "three daggers" aimed at her 9-month-old government. Benigno said Aquino now must contend with the "daggers" of communist rebellion and economic crisis. On Saturday soldiers and residents in two southern military camps staged rallies urging Aquino to take a hard-line stand against the 23,000-member New Peoples Army. The rebels called off a scheduled meeting with the government Nov. 14, a day after the murder of leftist politician Rolando Olalia, whose funeral drew 100,000 Filipinos in the biggest show of left-wing clout since Aquino came to power Feb. 25. The left has charged Olalia's murder was part of an effort by the military and the CIA to "derail" the peace process. In another development, military authorities said government forces, backed by artillery and mortar fire, today beat back an attack by tribesmen recruited by communist rebels, killing seven of the tribesmen. Two soldiers also were reported killed. Regional military commander Brig. Gen. Mariano Adalem said the morning attack occurred at a military camp in the outskirts of Butuan city in Agusan del Norte province, 500 miles south of Manila on Mindanao Island.

France To Withdraw Peace Troops

PARIS (UPI) — France will withdraw about 900 of its 1,400 soldiers stationed in southern Lebanon as part of a U.N.-ordered reduction of its peace-keeping forces, Le Monde newspaper reported today. The newspaper, citing "sources close to the United Nations secretary-general," said the move would be announced Wednesday after a U.N. Security Council meeting. A spokesman for Foreign Minister Jean-Bernard Raimond said he could not confirm the

reports. "We are just waiting for the announcement at the U.N.," the spokesman said. Raimond was quoted as saying, "France remains firmly at the heart of the U.N. interim troops." But he indicated the decision to pull out was being made by the United Nations in a bid to ensure the safety of the multinational peacekeeping force. French soldiers make up the largest part of the 5,825-strong

U.N. Interim Force in Lebanon, formed in 1978 as a buffer between Israeli troops and Lebanese guerrillas in southern Lebanon. Attacks by pro-Iranian Moslem guerrillas on French troops in August and September alone killed four French soldiers and at least 23 wounded. The U.N. Security Council set up UNIFIL to police the south after Israel's 1978 incursion, in which Israeli troops began operations in the Litani river region of southern Lebanon.

Durables Down

WASHINGTON (UPI) — New orders for heavy manufactured products slumped by \$6.5 billion or 6 percent to \$102.2 billion in October, the largest month-to-month decrease since April 1984, the Commerce Department said Tuesday. Over half of the decline in durable goods orders was due to a \$3.8 billion or 43.1 percent drop in orders for defense capital goods. Excluding the volatile defense sector, durable goods orders declined 2.7 percent in September. Orders for durable goods, the most expensive manufactured products with an average life of

three years or longer, rose by a revised 4.7 percent in September, the largest rise since November 1984. "Non-defense orders are about the same as their third quarter average and I expect moderate growth in the coming months," Commerce Secretary Malcolm Baldrige said in a statement following the report. Virtually all of the major industry categories suffered in October. Transportation equipment was the hardest hit, with orders in that category dropping 11.8 percent to \$25.5 billion.

...Park

Continued from page 1A Island Lake site for \$350,000 and could acquire a \$150,000 Land and Water Conservation Fund matching grant to help pay for it. Goebel had hoped negotiations could be completed in time to complete necessary steps before the deadline for applying for the grant, Dec. 31. The city had been told by the

Department of Natural Resources that Longwood had an excellent chance of obtaining the grant money for the Island Lake site. The potential park site is located on the south side of State Road 434 on the east side of Island Lake next to the Longwood Industrial Park and bordering on Rolling Hills on the south. Goebel had plans to develop the park over a 5-7 year period.

HOSPITAL NOTES

Central Florida Regional Hospital Monday ADMISSIONS
Sanford: Loren Baker, Ellen W. Brotzman, Benny Capps, George Mollan, Linda A. Stollen, Rita C. Crews, Casselberry, Margaret J. Wirth, DeBarry, Catherine S. Wornack, Dellona
DISCHARGES
Sanford: Marjorie Cassell, Naomi Davis, Annie C. Fossitt, Lewis I. Houghay, G. F. John Turner, Robert H. Lellis, Jr., Osteen
BIRTHS
Michael and Linda Stollen, a baby girl

He proposed building a civic center on the property as well as picnic shelters, tennis courts, ball fields, jogging trail, nature trails and a swimming pool. Goldberg said he is looking at other possible sites for a park, including one on Longwood Hills Road. The Parks and Recreation Department has \$80,000 set aside for land acquisition and has \$25,000 a year in the capital improvements budget for the next five years.

Savannah, Ga. Sunrise Funeral Home, Sanford, is in charge of arrangements.

Funeral Notices

MOORE, JAMES F.
— Funeral services for James F. Moore, 61, of 1545 Park Drive, Sanford, who died Sunday, will be held this evening at 8 p.m. at the Oaklawn Funeral Home Chapel with the Rev. William Boyer officiating. Private interment in Oaklawn Memorial Park. Visitation for family and friends will be held 5 p.m. until service time. Oaklawn Funeral Home, Lake Mary, Sanford, in charge.

RODGERS, RICKEY
— Memorial services for Rickey Rodgers, 17, of 102 Laguna Court, Sanford, who died Sunday, will be held 7:30 p.m. today at Brinson Funeral Home with the Rev. Earl A. Keller officiating. Brinson Guardian Funeral Home in charge.

Get Second Opinion On Back Pain Cause

Dr. Gott

DEAR DR. GOTT — I had back surgery two years ago. I still have pain, and my job as a nurse's aide requires a lot of lifting. I've had one cortisone injection in my back. How safe is this treatment?

DEAR READER — Without knowing the exact type of back surgery you had, I cannot give you a definitive answer, except to say that continuing pain indicates a continuing problem. If you had a disc removed, you should avoid prolonged or heavy lifting. In my opinion, cortisone shots will not help a ruptured disc and can actually cause more damage, because the drug may weaken tissue.

I suggest that you get a second opinion from a neurosurgeon. Although you may not need additional surgery, you certainly could benefit from another opinion and, perhaps, other tests to see if your back pain could be helped by medicine or special exercise.

DEAR DR. GOTT — I am 85 and had a heart attack five years ago. My doctor, who died, never told me why he kept me on Peritrate and Anturane; he just said it was for my own good. Why do I need these medicines? I'm dizzy a lot of the time.

DEAR READER — Peritrate is supposed to improve circulation by reducing the stickiness of blood. Anturane is used to treat gout. You may or may not need these medicines. Get yourself a new doctor who will tailor your medications to your needs — and tell you the reasons why you require certain drugs.

To give you more information, I am sending you a free copy of my Health Report. CHOOSING A PHYSICIAN: MAKE A DECISION FOR GOOD HEALTH.

DEAR DR. GOTT — Can you tell me about anaphylaxis? I sure have all the symptoms, even the drop in blood pressure. I have no energy and feel it can't all be blamed on my age (69).

DEAR READER — Anaphylaxis is a severe and sometimes fatal reaction to a foreign substance. It can occur from food, vaccines, chemicals, drugs or insect venom. The reaction ap-

pears within seconds or minutes after a person has had contact with the substance.

In its mildest form, anaphylaxis causes redness, itching, swelling, lung spasm and fall in blood pressure. In its severest form, anaphylaxis causes shock and cardiac arrest. The condition usually is treated with injections of epinephrine (adrenaline) that reverse the body's

acute allergic response. Anaphylaxis is never a chronic condition. I'm afraid that you will have to consider other causes for your drop in blood pressure and loss of energy. You might have anemia, for example. Check with your doctor.

WIN AT BRIDGE

By James Jacoby

In last year's popular book by Frank Stewart, "A Christmas Stocking," the chapter "The Man from Out of Town" involves Sammy, a gentle old man who has none of the bad manners that sometimes afflict competitive bridge players. Why shouldn't he be nice, since it eventually becomes apparent that he is none other than old St. Nick, in civilian attire.

In today's hand, Sammy gets to the grand slam in no-trump. On the opening heart lead, declarer takes East's queen with his ace and starts running clubs. East is so excited to be defending such an ambitious contract that he plays the 10 of diamonds as a signal even before following to the first club. But Sammy does

not take advantage of the revoke by playing the jack of diamonds and letting it ride. (The Rules state that the diamond 10, an exposed card, would have to be played at the first opportunity.) Instead he just plays out all his clubs, discarding all the red cards from dummy, even the diamond ace. East must now reduce to five cards, and since he cannot throw a spade, he must let go one of his red kings. When that happens, Sammy simply plays the jack of that suit, and East is now squeezed once again, between the spades and the other red king.

This book by Frank Stewart makes a nice Christmas present. At \$8, including postage, it's a bargain. Send to Stocking, P.O. Box 18099, Memphis, TN 38181.

HOROSCOPE

What The Day Will Bring...

YOUR BIRTHDAY NOVEMBER 26, 1986

Conditions that have an influence upon your material well-being will be operating in your favor in the year ahead. Your chances for substantial accumulation look good.

SAGITTARIUS (Nov. 23-Dec. 21) A business deal you attempt to make with a friend today might not jell. Keep your pal as a pal and seek commercial links elsewhere. Looking for some great Christmas stocking stuffers? The Astro-Graph newsletter for the year ahead is perfect for the entire family. Mail \$1 each to Astro-Graph, c/o this newspaper, P.O. Box 91428, Cleveland, OH 44101-3428. Be sure to state zodiac signs.

CAPRICORN (Dec. 22-Jan. 19) You may be a bit reluctant to take the initiative today, yet be wary of delegating assignments to others. Save the ulcers and do

it yourself.

AQUARIUS (Jan. 20-Feb. 19) Your faith in your abilities will strengthen as time ticks on today. If you have something important to attend to, schedule it for the afternoon.

PISCES (Feb. 20-March 20) In career situations, even if you are dealing with persons you trust, it's wise to clarify all the terms to avoid any misunderstandings later.

ARIES (March 21-April 19) Today you may be tempted to take the easy way out and renege on an agreement you made with another. You'll like yourself more if you do what you promised.

TAURUS (April 20-May 20) This can be a productive day for you, provided you channel your energies toward a specific target. Without a goal, you might just spin your wheels.

GEMINI (May 21-June 20) In your associations with friends today, don't let one who has an axe to grind involve you in his or her petty peevs. Keep on the

beat of terms with everybody.

CANCER (June 21-July 22) Don't procrastinate today where your responsibilities are concerned. Once you get on a roll, you'll discover your duties weren't that bad after all.

LEO (July 23-Aug. 22) Associates will have greater respect for you if you don't talk unfavorably about someone today who is not present to defend himself or herself.

VIRGO (Aug. 23-Sept. 22) Financial situations may be likened to a will-o'-the-wisp today. What you acquire in one venture may fly out the window in another.

LIBRA (Sept. 23-Oct. 23) Avoid persons today who prefer to vegetate instead of getting up and doing things. You'll be happier with pals who make things happen.

SCORPIO (Oct. 24-Nov. 22) The doubts you are experiencing regarding a financial matter are of your own making. All will work out OK if you view the situation optimistically.
