

CAMPBELL SETS NEW RECORD

NEW CABINET INCLUDES 3 SOUTHERNERS

Unofficial But Reported Authentic Lineup Names Hull, Roper, Swanson To Board

WASHINGTON, Feb. 22. (Copyright by A.P.)—Word reached informed quarters in Washington today that President-elect Franklin D. Roosevelt had completed the selection of his cabinet and that the list contains at least one surprise name, that of Daniel C. Roper of South Carolina, selected as secretary of commerce.

The complete cabinet slate as expected by Democrats here is announced shortly by President-elect Roosevelt in a following:

- Charles E. Mitchell, chairman of the National City Bank of New York City, who admitted to a Senate committee that he avoided paying an income tax in 1929 by the sale of stock which he later re-bought.
- Charles E. Mitchell, veteran chairman of the National City Bank of New York, who admitted to a Senate committee that he avoided paying an income tax in 1929 by selling stock in the bank to a member of his family at a loss of nearly \$2,000,000, which he later re-bought.
- Earlier, the stocky, gray-haired financier had testified to receiving total bonus payments, in addition to his salary, of about \$2,500,000 during the three years of the market "boom," 1927, 1928 and 1929, from the bank and its security affiliate, the National City Company.
- The committee also heard from the counsel, Ferdinand Pecora, the story of an involved transaction by which he suggested the bank had "bailed out" a loss of \$30,000,000 on the Cohan sugar loans by selling stock to the public for the purchase of the sugar company through its affiliate.
- Mitchell's story of how he avoided paying an income tax in 1929 was developed by persistent questioning from Pecora after the banker had spent almost an hour on the stand.

The selection of Ickes, a political ally of Senator Hiram Johnson, of California, is hailed as a recognition of western insurgents who bolted President Hoover and helped elect Roosevelt.

Roper, of South Carolina, is a former commissioner of internal revenue under Woodrow Wilson and was an important supporter of William Gibbs McAdoo.

Information is that Hiram Cummings, of Connecticut, will be governor-general of the Philippines. He was chairman of the Democratic National Committee in 1920.

The selection of Hull and Wood is formally announced yesterday; Walsh is understood to have accepted some time ago, and Swanson is said to have accepted yesterday.

Prominent Publisher Pays Visit To City

Robert H. Gore, prominent Chicago publisher and rapidly ascending political figure who spent a short time in the city yesterday afternoon, expressed the opinion that the most noticeable effect of the "new deal" promised by the Democratic party will be a material improvement in business conditions within the coming year.

Mr. Gore, who has been host to James A. Farley and scores of other Democratic leaders during their recent three weeks stay in Florida, arrived in Sanford by motor, where he observed what he termed "a busy city with a splendid, rich, agricultural background."

As the owner of three Florida newspapers, at Ft. Lauderdale, DeLand, and Daytona Beach, Mr. Gore has gained considerable prominence in that field, while during the recent campaign, he lent a vigorous hand in advancing the cause of the Democratic party. An indication of the value of his services during the campaign, press notices recently have stated that he is slated for the important post of Commissioner of Internal Revenue in the new administration.

HE MEETS THE KING

LONDON — Premier Ramsay MacDonald was received in audience by King George at Buckingham Palace.

TAX DODGER

Charles E. Mitchell, chairman of the National City Bank of New York City, who admitted to a Senate committee that he avoided paying an income tax in 1929 by the sale of stock which he later re-bought.

HUGE SALARY OF BANKER IS BARED IN SENATE QUIZ

Mitchell Tells Group How He Dodged Pay- ment Of Income Tax

WASHINGTON, Feb. 22.—(A.P.)—Charles E. Mitchell, veteran chairman of the National City Bank of New York, told a Senate committee yesterday he avoided paying an income tax in 1929 by selling stock in the bank to a member of his family at a loss of nearly \$2,000,000, which he later re-bought.

Earlier, the stocky, gray-haired financier had testified to receiving total bonus payments, in addition to his salary, of about \$2,500,000 during the three years of the market "boom," 1927, 1928 and 1929, from the bank and its security affiliate, the National City Company.

The committee also heard from the counsel, Ferdinand Pecora, the story of an involved transaction by which he suggested the bank had "bailed out" a loss of \$30,000,000 on the Cohan sugar loans by selling stock to the public for the purchase of the sugar company through its affiliate.

Mitchell's story of how he avoided paying an income tax in 1929 was developed by persistent questioning from Pecora after the banker had spent almost an hour on the stand.

Scores Of County Residents Pleased Over Local Display At Orlando Fair

Scores of Seminole County residents returned to their homes yesterday from the Central Florida Exposition at Orlando, thoroughly pleased over what is easily the finest display ever to represent the county at that five-county fair.

Occupying the entire stage of the Municipal Auditorium in which is housed all county exhibits, the Seminole County display is the first attraction, no matter through which door the visitors enter. Done in green and sparkling lines, the display houses dozens of products of the county, from cured meats to manufactured products. Flowers, bulbs, citrus, truck crops, jellies and home canned food products all are displayed as representing the finest articles made or grown in the county.

The central feature of the display is a dramatic depicting celery growing in its various phases. The clearing of land, preparation of the soil, seed-bed process, young celery, prepared celery, cutting of celery, and finally its being taken to a wash house, are all depicted in the dramatic. Fresh celery, citrus, and other truck vegetables will be placed in the booth every day so that the

HULL, WOODIN GIVEN POSTS IN CABINET

Veteran Senator Will Head Department Of State, Other Is In Charge Treasury

NEW YORK, Feb. 22.—(A.P.)—Two tried and successful veterans in the fields of politics and business, were announced last night by President-elect Roosevelt for his premier cabinet posts—Senator Hull, of Tennessee, for secretary of state and William H. Woodin, of New York, for secretary of the treasury.

The announcement came suddenly from the Roosevelt residence on East Sixty-Fifth Street after a swift moving day in international affairs.

Impending developments in war debts and world economic impelled Mr. Roosevelt to make his announcement of these two cabinet members. They will go to work immediately with foreign envoys on the Roosevelt program to bring a revival of world trade and prosperity.

"Mr. Roosevelt announced to Congress by a two-thirds vote disapproval."

Orange County Seen In Good Financial State

ORLANDO, Feb. 22.—Sound financial condition of Orange as compared with other Florida counties was reflected yesterday in a report before the Orlando Chamber of Commerce. An outstanding item in the report showed the total cash balance and securities to be \$1,270,928.44.

The balance sheet of the county showed total assets including roads and improved property belonging to the county to be \$11,500,000, the total indebtedness as of Dec. 31, 1932 to be \$8,785,000, including the total bonded indebtedness and the amount due on the courthouse site.

These figures formed a part of the cheering report given by C. M. Gay, clerk of the board of county commissioners, for S. J. Sligh, chairman, who suffered a slight indisposition.

The county holds in its sinking fund \$152,000, of its own bonds purchased by the former board at a discount of more than \$41,000 and at a savings of \$17,000 annually in interest. The county also holds in its road construction funds \$128,000 new courthouse bonds.

HOUSE VOTES HUGE POWER TO ROOSEVELT

Autocratic Power To Revise Government Placed In Hands Of Incoming President

WASHINGTON, Feb. 22.—(A.P.)—Autocratic power for President-elect Roosevelt to reorganize the government was approved yesterday by the House after it had rejected \$187,000,000 in savings proposed by the Senate in amendments to the Treasury-Postoffice Department bill.

Ignoring the Bratton Amendment calling for a flat 5 percent reduction on all appropriations and estimated to save \$143,000,000, the House substituted its own economy amendment giving sweeping authority to the incoming executive to abolish and consolidate government activities.

The amendment gives the new President power to shuffle brains at will, unless such a House of Congress by a two-thirds vote disapproval.

No effort was made to present for action Speaker Garner's proposal to give the incoming President power to reduce salaries and cut veterans compensation. Chairman Byrns, of the Appropriations Committee, opened three hours of debate by saying the conference did not want to "include any matter suggested from the outside."

That might cause a filibuster in the Senate and prevent passage of the appropriation bills at this session.

The Tennesseean said that if it was desired to change the provisions, it could be done at the special session to be held in April.

In that connection, Byrns said Swager, Shockey, former House member and chairman of the Appropriations Committee, was investigating government agencies with a view to having a report on consolidations ready for the President very soon after his inauguration.

The authority for Mr. Roosevelt was asserted by Representative Wood, of Indiana, and LaGuardia, of New York, Republican, as an abdication of Congress to the executive branch. They were answered by Representative Lull, of Indiana, who said "The whole country is demanding not asking, that the federal government shall be re-organized."

Assassin's Bullet May Bring Family Reunion

MIAMI, Feb. 22.—(A.P.)—An assassin's bullet intended for President-elect Franklin D. Roosevelt may bring about a family reunion.

Margaret Kreis, of Newark, N. J., one of five persons wounded by Giuseppe Zangara's bullets in the attempt upon Roosevelt's life here last Wednesday night, learned yesterday that her brother, Herman, whom she has not seen for nine years, is living in Lynden, Wash.

A letter to the chief of police here brought the information that the Washington man and Miss Kreis are related.

At the hospital, where she is recovering from a bullet wound in the head, Miss Kreis said she had not seen her brother for nine years, and had not heard from him for six years.

PROBE STILL GOES ON

CHIPLEY — Authorities from several northwest counties continue their investigation into the disappearance of Sam D. May, former Washington county judge.

BRING UP BEER AGAIN

WASHINGTON — Senate Democratic leaders hope to get up a 3.05 percent beer bill before adjournment Mar. 4, but prospects for final passage at this session are doubtful.

SPEAKS HERE

Bishop James J. Cannon, Jr., noted dry leader who is scheduled to deliver an address at the First Methodist Church here tomorrow night at 8:00 o'clock.

\$1,600,000 IS CUT FROM OPERATING COSTS OF STATE

One Cent Tax On Gasoline Is Expected To Return Difference

TALLAHASSEE, Feb. 22.—(A.P.)—Gov. Dave Sholtz last night said the state Budget Commission's report, which is virtually completed, will recommend an annual expenditure of approximately \$1,600,000 from the general revenue fund for operation of the state government proper as compared with more than \$6,000,000 spent during each of the past two years.

He said the budget was based on an expectation that the legislature will enact a law calling for one-cent per gallon tax on gasoline with the revenue going to the general revenue fund. This tax was levied by the 1931 legislature as an emergency measure, to run two years.

The governor also said he anticipated no reduction in that portion of the state gasoline levy which gives revenue from three cents per gallon tax to counties for the retirement of road and bridge bonds. The only gasoline tax reduction possible, he said, is in that portion which gives from three cents tax per gallon to the State Road Department and even that is not possible this year, due to the road department's debts and heavy budget of work carried over from last year.

The budget commission, he said, looks its work faced with the necessity of reducing all general revenue expenditures to some within the total of \$4,500,000, since there has been a deficit in income of \$1,700,000 this year.

ORDER JURY PROBE

DENVER — A grand jury investigation of all the ramifications of the Charles Butcher II kidnaping case ordered.

President-Elect Is Recipient Of Shell

WASHINGTON, Feb. 22.—(A.P.)—A second apparent attempt on the life of President-elect Roosevelt is under investigation following the discovery of a package addressed to him and containing a crudely wrapped shotgun shell. Opinion is that it was the work of a crank. Authorities said if the shell had exploded it might have resulted fatally. An investigation centering at Watertown, N. Y., is underway for it was mailed from that city.

RIVER PROJECT IS PICTURED AS 2ND IN-IMPORT

U.S. Engineer Shows Steps Necessary To Secure Federal Aid For St. Johns Canal

Major Beverly C. Dunn, head of the U. S. War Department's Engineers' Office at Jacksonville, yesterday told Sanford Rotarians and members of the St. Johns River Improvement Association meeting in joint session at the Celery Club, that the St. Johns River project is the second most important now under consideration by his office, the first being the proposed cross-state canal.

Speaking generally upon subjects related to his office, Major Dunn stated that in connection with the proposed St. Johns River canal, his board of engineers was now up to the point of submitting its preliminary survey this fall. He had previously pointed out that when the department is advised of a project, its first order is a preliminary survey to determine whether the project has merit and is feasible. If it is worthy of recommendation, he said, quick action often results.

"We are waiting for a local survey made by interests who are sponsoring the canal," he said. "We have learned that this subject and that it is planning to submit an actively backed project of the private and much more detailed survey. I might say that such a survey is very advisable, although many sections have secured improvement without an accompanying survey. It is a good plan, however, to submit such a survey to the Rivers and Harbors Committee together with our preliminary survey."

Major Dunn explained that the reason large sums of money have been spent on the St. Johns River from Jacksonville to the sea is "because that is where the traffic is." He said that the department considers traffic as a prime consideration, and added that because Senator D. C. Fletcher had recently secured passage of a bill which provides that pleasure craft tonnage is of equal importance with freight tonnage when consideration of the worth of projects is concerned, "I think that there is a very good chance for work on the project in this section."

After digressing to speak of the cross-state canal and its progress, Major Dunn again stated that "I recommend that someone (Continued On Page Four)

Pardon For All Dry Law Violators Is Urged

ANNAPOLIS, Md., Feb. 22.—(A.P.)—A resolution was introduced in the Maryland House of Delegates yesterday, calling on the President of the United States to "issue a full and unconditional pardon to all citizens convicted under the Volstead law."

"The bill," the resolution said, "has been filed with good citizens convicted of violating those unpopular measures and such persons should be restored to their families."

Japan Warns U.S., Other Powers That It May Have To Protect Tientsin Garrison

TOKYO, Feb. 22.—(A.P.)—The United States and other governments which maintain military forces and spheres of influence in the Peking-Tientsin area will be informed that Japan may be compelled to extend its military operations to those cities.

The Foreign Office announced today that the ambassadors of all principal powers will be told that the Japanese army has no intention of carrying the campaign in Jehol province south of the Great Wall of China unless Chinese reprisals force such action.

"There is real danger of a backwash from the Jehol campaign on our garrison at Tientsin or in the massacre of Japanese at Peiping," said a foreign office spokesman. "In this event our army will be compelled to move to protect them. Harming such unfortunate developments, fighting will be confined to Jehol," he said.

The United States has a small military force in this area, along with other powers which participated in the Boxer protocol of 1901. This document provided for

Roars Along Beach Course At 272 Mile Clip This Morning

Averages Mile in 13.33 Seconds In 2 Runs To Break Old Mark By 21 Miles An Hour

DAYTONA BEACH, Feb. 22.—(A.P.)—Sir Malcolm Campbell ended his quest for a new world's automobile speed record shortly after noon today when he drove his giant Bluebird twice over the hard packed sands of the world famed beach to set an amazing average run of 272.108 miles an hour.

On his first run along the course the intrepid Briton traveled 278.55 miles an hour, while on his return trip his speed was 270.670. This gave him an average of 272.108 miles an hour.

In setting his new record before a large throng, Sir Malcolm exceeded by 21.800 miles an hour his old record of 253.968 miles an hour which he established here on Feb. 24, 1932.

He was clocked over a measured mile in 13.16 seconds on his first run and 13.20 seconds on his second run for an elapsed time of 13.23 seconds for one mile.

Sir Malcolm decided definitely last night to take his Bluebird racing car onto the ocean speedway about noon today for official trials.

Following a conference with racing officials, the 48-year-old British driver ordered the necessary timing apparatus set up to clock the car on its runs today. Low tide occurred at 12:15 P. M. but it was possible for him to race on the course an hour or so before and after the tide receded.

Campbell's all sail that a continuance of a high wind which event the course yesterday, probably would be the only factor that would prevent him from making an official attempt upon the speed record today. The wind appeared to be subsiding last night.

"I expect to at least make a test run," Campbell said, "and if conditions are right, I will shoot for the record immediately."

Vincent Funeral Rites Are Held This Morning

Funeral services for Mrs. Mollie P. Vincent, 73, who died at the Fernald-Lawton Memorial Hospital late Sunday afternoon, were held from the Egleston Funeral Home this morning at 10:00 o'clock. Burial was in Eskew Cemetery with Rev. Wm. P. Brooks of the First Baptist Church officiating.

Mrs. Vincent had lived in the Wasson section for the past four months, leaving her brother, R. J. King. She was a native of Tennessee, where she was born on Aug. 28, 1859. Surviving her are two daughters, Mrs. A. B. Taylor, of Detroit, and Mrs. M. Galloway, of Wannam; two sons, C. D. Vincent, of Chattanooga, Tenn., and J. A. Vincent, of Atlanta, Ga.; and two brothers, R. J. King, of Wasson, and J. N. McDonlad, of Chattanooga.
