Outboard Motor Racing Becoming Big Popular Sport

Fast coming up as a spot and an industry, outboard motorboating is expected to reach an estimated \$255 million this year in the sales of motors, boats and fuel. Sports and commercial fishermen purchase 65 per cent of the total production, while cruising and family recreation is next in importance, followed by water skiing, hunting and racing.

The fast growth in public demand has been due in large part to the rapid development of outboard motor design and improvements since World War Two. A wide range of horsepower ratings provide models for practically every recreational need.

Among difficult problems that have required special attention in outboard operation have been spark plug fouling, exhaust port plugging, ring sticking and inadequate lubrication.

To eliminate these conditions, a new and different type of lubricant was required, a lubricant which would not only lubricate completely while diluted in gasoline, but would burn completely during the combustion process and pass out with the exhaust gases.

Extensive research by The Dow Chemical Company, one of the largest chemical companies in the world, has developed a synthetic oil which has all the desirable properties of an ideal two-cycle lubricant built into its molecular structure.

Introduced recently in Florida, this new synthetic lubricant mixes readily with the gasoline and

does not settle out upon standing. Unlike petroleum oils, it burns completely leaving no gum or sludgers. This prevents formation of hard carbon deposits, gum and varnishes that require engine overhaul to remove.

Operation tests have shown that its use has reduced spark plug failures by 80 per cent and fuel consumption from 10 to 15 per cent in most cases.

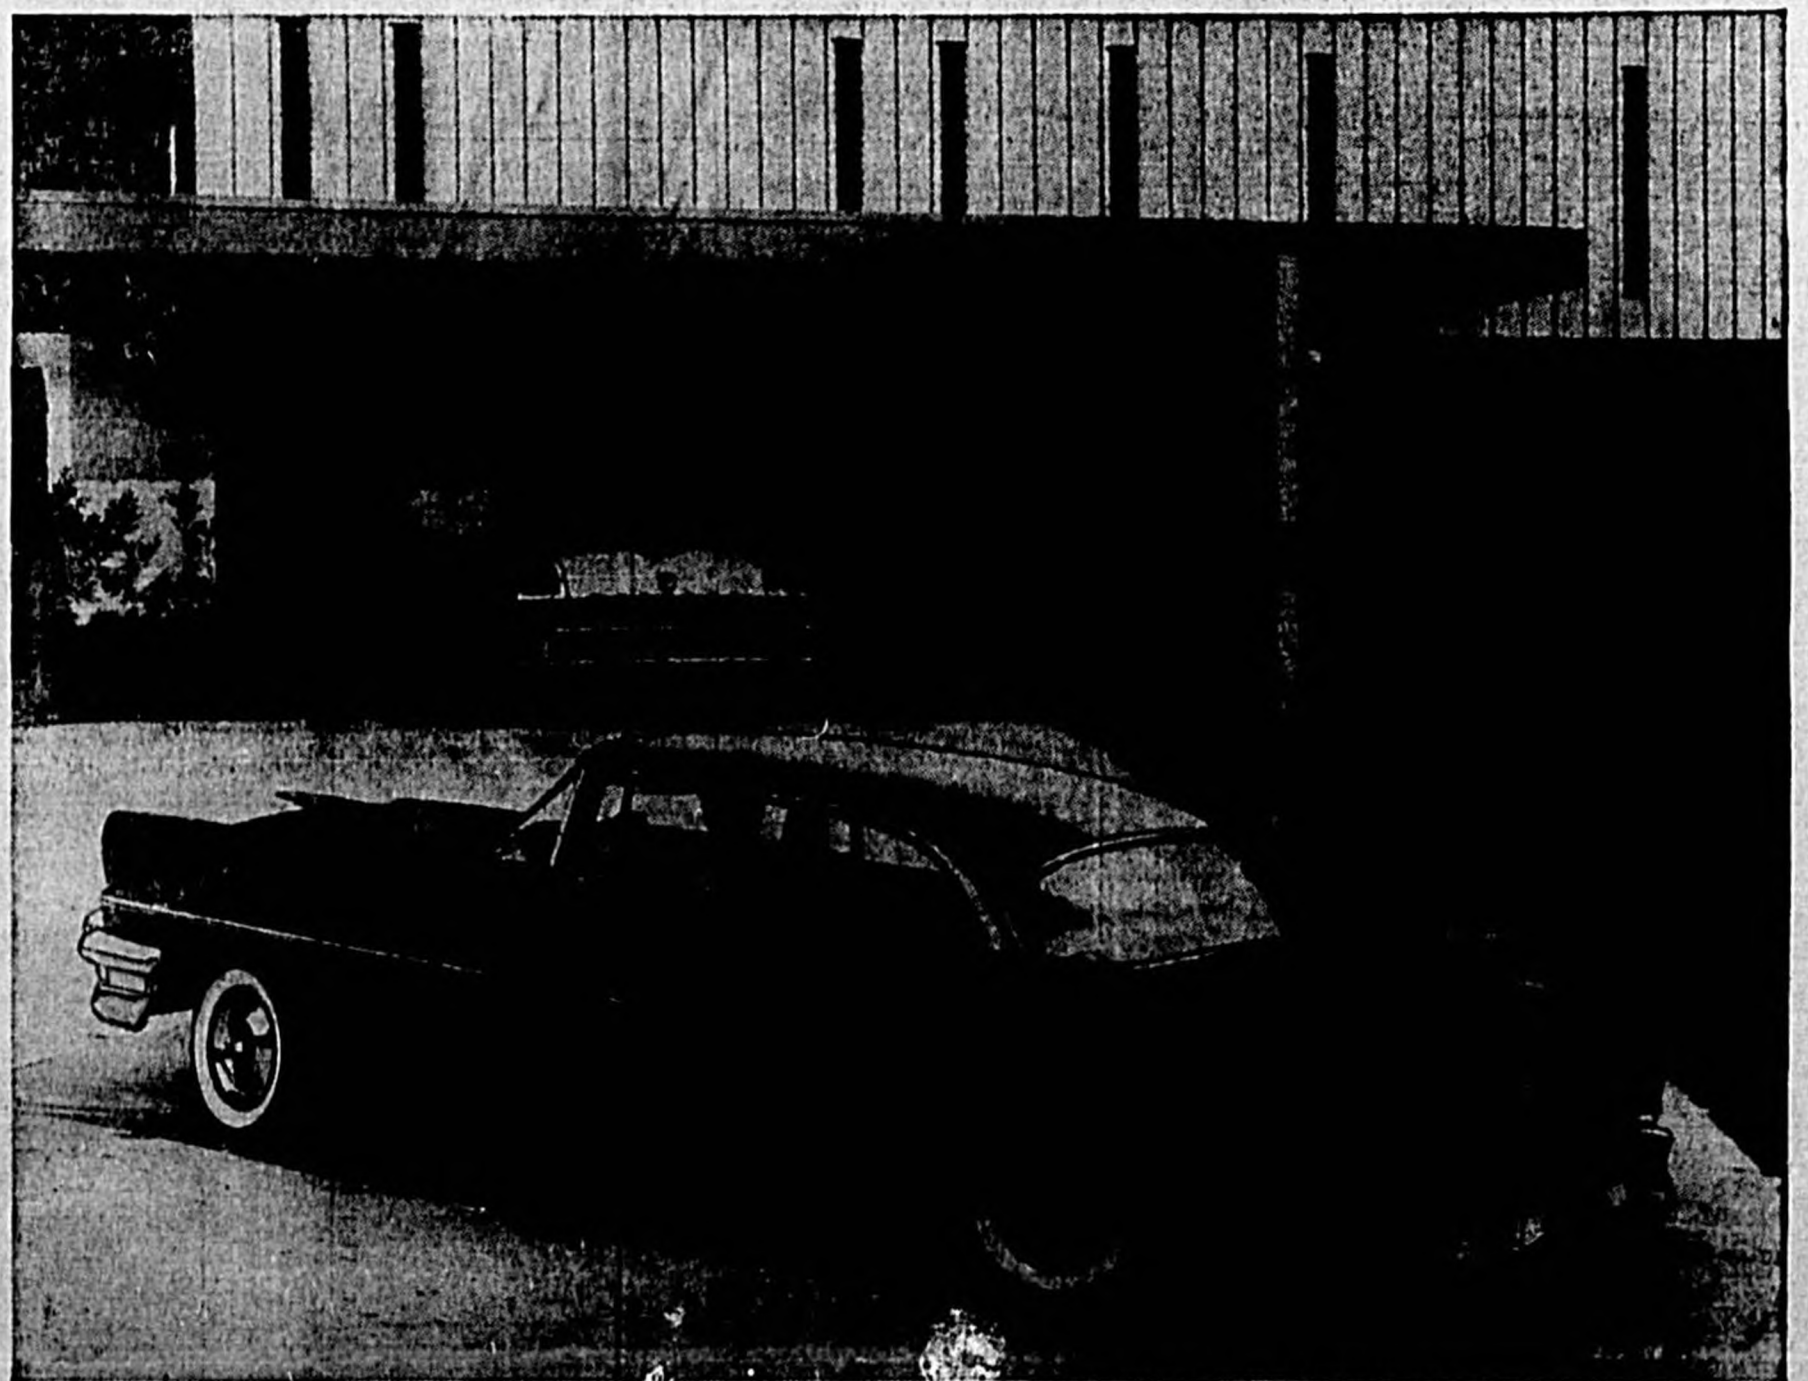

Tested for three years and 10,000 hours of actual engine operation at The Dow Chemical Company's Texas laboratories, the new lubricant is called Dowlube.

Don't say you can't afford a Mercury before you check the price of this one

Mercury's lowest-priced car—the 100-hp Custom 2-door 6-passenger Sedan—is shown above. Other models in the Custom series are: a 4-door Sedan, a hardtop Coupe, and a new 4-door all-metal 6-passenger Station Wagon.

AND LOOK AT THE EXTRA SIZE, BEAUTY, POWER, AND VALUE YOU GET

- Mercury is bigger than the "low-price" cars... in length, width, and wheelbase.
- You get exclusive styling—Mercury's stand-out styling is shared by no other car.
- You get high horsepower plus seven-cougar V-8 performance in every Mercury. (There is 128 horsepower in the Custom and Monterey, 150 horsepower in the ultra-smart Montclair.)
- There's a 4-barrel vacuum-operated carburetor standard on every model at no extra cost. You enjoy 3-barrel economy for normal driving, 4-barrel pickup for fast getaways and extra passing.
- Revolutionary new high-compression spark plugs provide top performance at all speeds—help prevent fouling and pre-ignition.
- You save when you buy. Compare our allowance on your present car. It's based on high-value cars. We can be generous.
- You protect future trade-in value. Mercury consistently leads its field for resale value.

Mercury's prices start below 13 models in the low-price field*

*Based on comparison of manufacturers' suggested list or factory retail price.

GULF ISN'T DOING ALL HIS STUFF

NEW YORK (AP) — "Stuff" and "Gulf", bronze figures which appear to strike the hours on a Herald Square clock tower, will be inactive for a couple of weeks because "Gulf" is not doing his stuff.

The figures, each weighing half a ton, swing hammers every hour on the hour from 8 a. m. to 10 p. m. The actual ringing is done by twin hammers within the bell.

Recently passers-by noticed that although the clock sounded the hour, Gulf was not doing any work.

German Appointments Kept Secret

BONN, Germany (AP) — Top commands in West Germany's armed forces will go to officers who narrowly escaped Nazi hanging in the resistance movement against Hitler.

Their prospective appointments are officially secret, since first they must be approved by a special committee of prominent German civilians. But informed sources say the big jobs will go to:

Gen. Hans Speidel, 57, once chief of staff to Rommel in France. Suspected of implication in the 1944 bomb plot against Hitler, he was held eight months by the Gestapo.

He taught history in Tuebingen University until appointed to the German delegation to discuss a European army in 1951. He is to be German military representative at NATO.

Lt. Gen. Adolf-Hoepfner, 57, who was in Hitler's war room when the 1944 bomb exploded. Hoepfner was wounded, and afterwards arrested as a conspirator. A professional soldier since 1915, he once described Hitler as "a hysterical dilettante." He is expected to be the armed forces' chief of staff.

Gen. Ludwig Crüwell, 62, former chief of staff to Rommel in the western desert. He was captured by the British July 1, 1942. Since the war he has led the veterans of the African Corps in keeping bright a hero's memory of Rommel. He is the leading candidate for inspector general of the armed forces.

Gen. Hasso von Manteuffel, 58, tank expert who led a Panzer army in the 1944 Battle of the Bulge. Now a member of Eisenhower's staff, he is the prospective army inspector general.

BUMPER TO BUMPER

DETROIT (AP) — An automobile bumper every three seconds. That's how fast they're plating them at the new spring and bumper plant of General Motors' Chevrolet Division.

The plating installation on two levels and covering an area equal to three football fields, is the world's largest automobile plating facility, company officials say.

Three production lines, each nearly one-third of a mile long can turn out four acres of plated surface in 16 hours. It takes a bumper 1 1/2 hours to go through the line.

More than 56,750,000 babies have been born in the United States in the last 10 years.

Seaway Would Displace Thousands

MORRISBURG, ONT. (AP) — Construction of the St. Lawrence seaway means the displacing of about 6,000 Canadians whose lives and livelihoods are tied to eight communities fronting the international section of the river.

Most of the villagers have generations-old roots in these communities. The problem is to get them — and their homes where possible — shifted with the least jolt to human values. It's the biggest job of its kind ever undertaken in Canada.

Damming of the river to create a hydroelectric pool will produce a 45-mile lake between Ontario and New York state. The waters will drown out seven Canadian communities. Another, Morrisburg, will lose about a third of its land area, and 1,250 of its 1,886 population must move.

One of the big problems: How is the owner of a home 50 years

or older to be compensated? Many of the older structures suit their occupants fine but would go begging on the current market.

The legislation under which the Ontario Hydroelectric Power Commission operates calls for payment on the basis of fair market value plus an amount unspecified — for "forceful taking."

"What we want," said youthful Reeve Mayor George Beavers of Morrisburg, "is to get homes replaced with the same facilities without its costing the owners money."

"Hydro tells us that the formula is market value plus something. But market values have been depressed here for many years, and largely on account of uncertainty over whether the community will go on existing as a result of the seaway. It isn't fair to base a price on sales prospects under those conditions."

He pointed out the window: "That old home is all the stake they've got. It's probably worth \$5,000 under values here, but it would cost \$10,000 to replace at present cost."

On the other side of the border the New York State Power Authority will re-establish relatively few displaced persons. But Ontario Hydro and the New York authority will divide equally the over-all cost of all the re-establishment, estimated unofficially at 65 to 70 million dollars on the Canadian side and perhaps 15 million on the U. S. frontage.

Experts say that the use of whiskey often aggravates the symptoms of the common cold.

Freedom Is Ordered For John Provo, Jailed For Treason

BALTIMORE (AP) — John David Provo, 37, once convicted and sentenced to life for wartime treason was ordered freed Monday when a federal judge ruled "deliberate" government delays prejudiced his chances of a fair trial at this time.

Judge Roszel C. Thomsen dismissed the indictment charging seven overt acts of treason while Provo was a prisoner of the Japanese after the fall of Corregidor in World War II.

He said he would sign an order for Provo's release sometime today. The decision automatically ruled out a second trial on the charges asked by the government.

Judge Thomsen said Provo would be released on his own recognizance pending the possibility of an appeal by the government to the Supreme Court.

Provo, a tall, scholarly-looking sometime San Francisco bank clerk, broke down and wept when his four young court-appointed lawyers told him of the decision, handed down in chambers.

"I am very grateful," he said. Judge Thomsen, in a 33-page opinion climaxing more than a month of hearings and deliberations on Provo's petition for release, said he found Provo "could not have a fair trial at this late date."

Private Confesses Shooting Parents

WACO, Tex. (AP) — Military authorities described as remorseless to a private who said he shot his parents to death last Thursday at their Wisconsin home.

Pvt. Eugene D. Salzman, 24, surprised a provost marshal and his wife Monday with a statement that he killed the couple.

Emil Salzman, 42, and his 28-year-old wife were found cut down by rifle fire in the driveway of their Hayward, Wis., home a week ago.

Capt. A. M. Miny and Chaplain Earl C. Parker went to the youth's cell to break gently to him the "sad news of his parents' deaths." They said they were unaware young Salzman already had been charged with murder in Wisconsin.

The youth, held in the stockade at James Connally Air Force Base here on an AWOL charge from nearby Ft. Hood, Tex., was picked up in a Waco tavern Saturday.

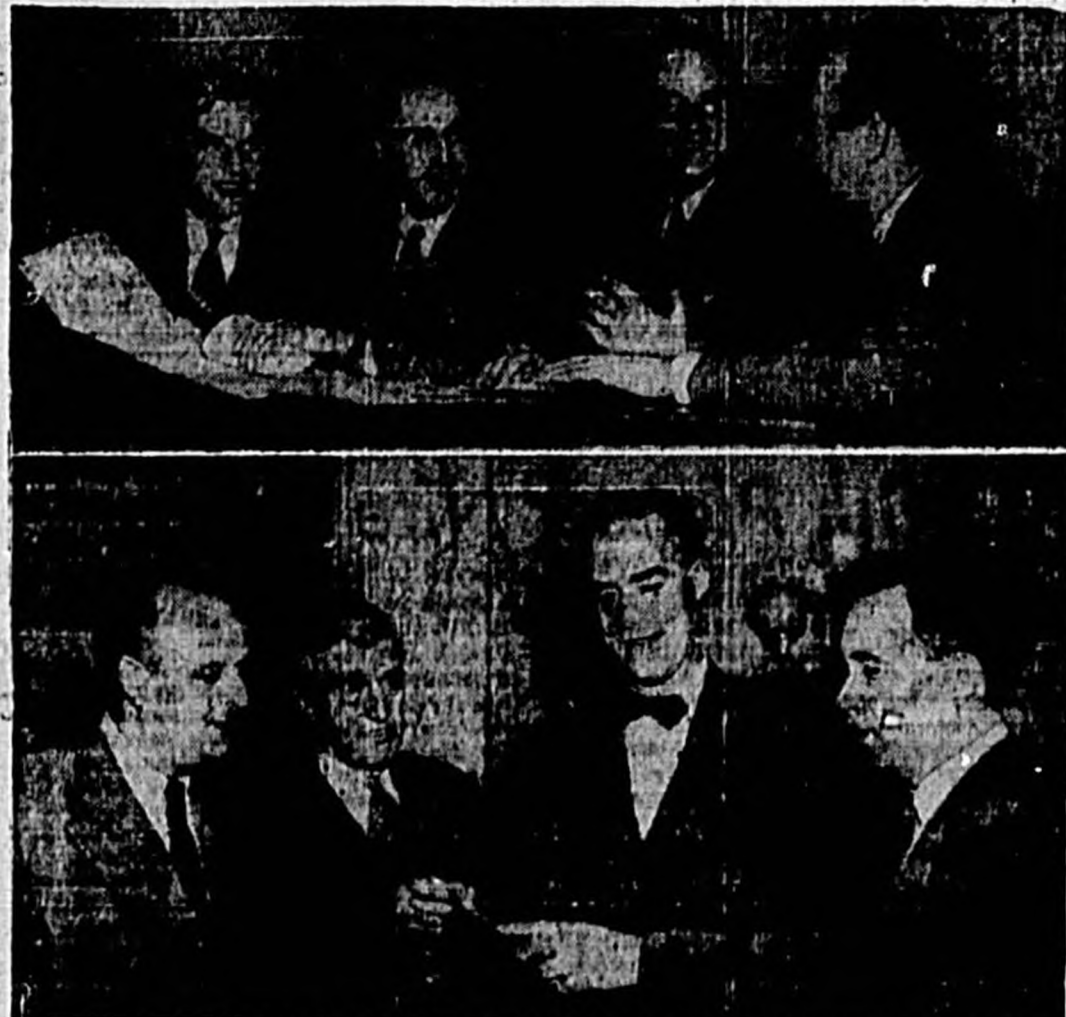

Miny, who learned of the parents' deaths from a Friday edition of the Chicago Tribune, said the private gave him no chance to brook the "news."

"I figured you'd find out," the youth said.

There are small tides in inland lakes, but the difference between high and low tide in Lake Michigan at Chicago is less than two inches.

TOO LATE TO CLASSIFY

CHICAGO, Feb. 15 (AP) — A "lost" front of food in a restaurant today a. m. was found containing a pair of valuable glass-eyes-wallet-personal items. Return to Herald Office. REWARD.

THE GOVERNORS OF NEW JERSEY, Connecticut, and New York, meet with Mayor Robert F. Wagner (right) of New York to discuss plans to evacuate the city in the case of a hydrogen bomb attack. They also discussed plans to provide shelter for the population of the Greater New York area against a radioactive fall-out. The Governors (l. to r.) are: Robert B. Meyner (New Jersey), Abraham A. Ribicoff (Connecticut), and Averell Harriman (New York). At bottom, Val Peterson, Federal Civil Defense Administrator, is shown in Washington as he met with members of the Senate Armed Services subcommittee on civil defense. Peterson told them that President Eisenhower has requested a rapid set-up in nationwide tests of the Government's ability to protect civilians against a nuclear bomb attack. He also told the group that his office has advised all citizens to build some sort of underground shelter "right now" and stock it with abundant food and water to last "five or six days." We are recommending this "because no man has any way of knowing when an actual attack may come." In the group (l. to r.) are: Peterson; Sen. Leverett Saltonstall (R-Mass.); Gov. Christian Herter of Massachusetts; and Sen. Henry M. Jackson (D-Wash.), acting chairman of the subcommittee.

Palm Circle Hears E. A. Crocker Speak On Hibiscus

The Palm Circle of the Sanford Garden Club met Thursday morning at the home of Mrs. Robert Bauman, with Mrs. Arthur Pitts as co-hostess. Mrs. Wade Garner, chairman, opened the meeting with an announcement of the flower show to be held April 28 and 29 in the new American Legion building. Mrs. Pitts stated that the theme of the flower show will be "April Cries a Party" and that corsages will be displayed on umbrellas. Mrs. W. W. Dawson requested each member of the Circle to exhibit a plant, naming its soil and culture. Mrs. Garner asked each to root plants for the plant sale at this time. On April 8 the Circle is invited to The Barn at Eustis. Each member is to meet at 10:30 a. m. at Mrs. J. Finch's home and bring a basket lunch.

Guest of the morning was E. A. Crocker of Lake Mary, who led a discussion of the many flowered, beautiful Shallow shrub which the poet Vergil, back in the days of the Aeneid, called Hibiscus. The following points were emphasized: hibiscus, which is susceptible to root knot disease may be helped by heavy leaf mulching, which cuts off life-giving air to the mischief making Nematodes, thus stifling them. If potash and phosphate are too easily washed off in our loose, sandy soil—leaving a preponderance of nitrogen—this could be remedied by a well balanced food, plus addition of iron and boron. Formula 5-5-7 was mentioned. Mr. Crocker advised that if the Double Bride proved too delicate and costly for amateur flower garden enthusiasts, a hardier but still showy type—as Mary Morgan—might be grown. In the nineties there were not over a dozen varieties of hibiscus in Florida.

Now, thanks to the ardent specialists who imported Hawaiian types and bred them to our climate, there are over 400 varieties—in astonishing hues of lavender, pink and rose. Many of these hybrids were achieved by crossing the Chinese Hibiscus with the fringed schizopetalis. Most beloved is the faithful Single Beasit. Propagation of hibiscus is by air layering and by cuttings.

St. Marks Chapter Makes Easter Plans At Monday Meet

St. Marks Chapter of the Women's Auxiliary of Holy Cross Church met Monday evening with Mr. and Mrs. Frank Miller.

Mrs. Margaret Bower opened the meeting with the devotionals and special prayer for missionaries and in Liberia. Regular business followed with reports from the board meeting announcing a quiet hour to be held for the Women of the Church during Passion Week. Also St. Catherine's Chapter will have a card party on the Tuesday after Easter and plans for landscaping the grounds were discussed.

There is a call for brass polishing cloths and material for dust cloths. The Diocese will hold its annual convention in Ft. Lauderdale, April 25, 27, and 28.

Lenten sewing is now available with materials to be obtained from Mrs. B. F. Whitner Sr.

The Deanery will meet in Leesburg March 21. Bishop Louttit will speak as will Deaconess Edith Booth whose subject will be "Life Service."

The Diocese will gratefully acknowledge the 10th anniversary of Bishop Louttit's ordination May 21. Gray Inn, the church home for elderly people, will build an addition for an infirmary to care for bed-patients.

An interested group heard a lesson on the "Book of Esther" from the Bible, given by Mrs. Amelia Noble. Mrs. Noble traced the background of the country and the people of the period. The Book of Esther is a political story and proved of great interest.

Following the lesson the hostesses assisted by Mrs. Miller, served delicious cake and fruit juice.

Cut hard-cooked eggs in lengthwise halves. Mash the yolks with Worcestershire and mayonnaise and add salt and pepper to taste. Refill white and yolk with a fork; sprinkle with paprika. Nice to serve as a first course when company's coming.

Mrs. Fred Ganas Elected President Of Ixora Circle

Mrs. Fred Ganas was elected as the new chairman of the Ixora Circle of the Garden Club Friday when the group met for a luncheon at the home of Mrs. C. R. Kirtley on Golden Lake. Mrs. Frank L. Woodruff III served as hostess with Mrs. Kirtley.

Elected to office with Mrs. Ganas were Mrs. Ralph Dean as vice chairman, Mrs. McKay Truluck, secretary, and Mrs. W. H. Meriwether, treasurer. Composing the nominating committee were Mrs. James Terwilliger Jr., Mrs. John Morgan and Mrs. Donald Jones.

The luncheon for the group celebrated the date of the formation of the circle. Spring flowers, including irises, roses, pink Watsonia blooms and calla lilies were used in decorating the rooms. Following a delicious luncheon a birthday cake was cut.

Later a short business meeting was conducted by chairman Mrs. Kirtley. Those attending the luncheon and meeting were Mrs. Douglas Stenstrom, Mrs. Taylor Brown, Mrs. Roy Green, Mrs. Housholder, Mrs. Fred Murray, Mrs. Truluck, Mrs. Joe Baker, Mrs. Al Doudney, Mrs. Hugh Wheelchel Jr., Mrs. Dean, Mrs. Terwilliger, Mrs. G. D. Bishop Jr., Mrs. William Bush, Mrs. George Eick, Mrs. Morgan, Mrs. E. Breckenridge, Mrs. Donald Bales, Mrs. Woodruff, and Mrs. Kirtley.

Consider All Needs Before Purchasing Sewing Machine

How to make a good buy in a home sewing machine is a question which concerns many families now that there are so many types of machines selling at different prices and suited to different purposes says Myrtle Wilson, Home Demonstration Agent.

Before you go shopping for a machine, the specialists advise considering the kind of sewing which you'll use it. For plain sewing, making simple garments, patching, mending and darning, a straight sewing machine is satisfactory. Many women prefer it for fine dressmaking and tailoring where machine-made decorations are not used. In contrast, the swing-needle or zigzag-type machines are for specialty sewing such as decorative stitching, embroidery, making place mats and napkins, finishing seams and buttonholes.

These machines, in part, do the jobs intended for the attachments that can be bought for straight sewing machines—and which are seldom used. You'll need to decide whether you'll need to do any of these things and which are done often enough to warrant the added cost of such a machine.

Whether you buy a cabinet or portable machine is another important question. A cabinet well-supported leaves and legs gives good sewing support ready for immediate use. Portable is the choice where space is limited—as in small homes or apartments, or where the machine must be moved often.

Many other points to help buyers choose the machine that will be a good lifetime investment are included in the new bulletin.

Disney Termed As 'True Genius' In Hollywood

HOLLYWOOD (AP)—Walt Disney is the world's most famous and successful hobbyist.

That may sound like an odd description of the creator who has been called Hollywood's only true genius. But Walt himself admits that he loves his work. Maybe that's why he has been so successful at it.

"You might say that I have commercialized my hobbies," he said in his informal office, where he is surrounded by replicas of his cartoon figures and posters of future attractions. "As far back as I can remember, I loved to draw."

When he was 14, he attended three months of Saturday art classes. After the first World War, he took a year and a half of night school lessons, but that was the extent of his art education.

"I started drawing trick slides for movie houses," he recalled, "and I was so excited about the work that there are so many types of machines selling at different prices and suited to different purposes says Myrtle Wilson, Home Demonstration Agent."

Before you go shopping for a machine, the specialists advise considering the kind of sewing which you'll use it. For plain sewing, making simple garments, patching, mending and darning, a straight sewing machine is satisfactory. Many women prefer it for fine dressmaking and tailoring where machine-made decorations are not used. In contrast, the swing-needle or zigzag-type machines are for specialty sewing such as decorative stitching, embroidery, making place mats and napkins, finishing seams and buttonholes.

Many other points to help buyers choose the machine that will be a good lifetime investment are included in the new bulletin.

Women Trapped In Effort To Get Into Man's World

By DOROTHY ROE AP Women's Editor

Today's women fought their way into a man's world, and now they're trapped in it, says Gertrude Toffelmier, a modern career woman, wife and mother with old-fashioned ideas.

This vital, streamlined scholar is on her way to Indonesia with her husband, orthopedic surgeon of Oakland, Calif., who will open an orthopedic department at the new Indonesian rehabilitation center, a medical mission worked out jointly by the World Veterans Federation and the United Nations. Also going along are their 19-year-old daughter Barbara and a nurse, Georgiana Long.

Mrs. Toffelmier, who holds a Ph.D. in anthropology and has translated a Malay dictionary, says she is anxious to study the life of Indonesian women, to find out if they are happier and calmer than Americans. Says she:

"Trying to have too many careers at once is what makes American women neurotic. I think women had it much better in our grandmother's day."

"Today your husband expects you to look like Marilyn Monroe, cook like Antoine, entertain like Elza Maxwell, garden like Burbank, keep track of the budget like a mechanical brain and make a success in a career besides."

Despite her nostalgic remarks, Mrs. Toffelmier has not patterned her own life after that of the simple housewife.

Since her marriage, she has taken her doctorate in anthropology at the University of California.

During her year in Indonesia she never know if you're getting hurt. Then you reach the point where there's nothing more you can do to it. The creation is over, and there's a big letdown."

If Walt has any time for a letdown, his coworkers don't notice it. He works long hours on his variety of projects—the feature pictures, Disneyland on TV, the vast amusement park he is building, the new Mickey Mouse Club for TV. I asked him if he ever gets away from work.

"No, I don't think I ever do," he replied. "Why should I? My work is a constant source of fun."

He does have a home life, and there he doesn't discuss his work. "I live in a world of women," he said. (He and his wife Lillian have two daughters.) "They have their own problems; no sense in bringing mine home."

It may be heartening for other fathers to learn that even Disney is not considered a genius by his own family.

Since Disneyland went on the air, Walt has suddenly found himself a star, along with Mickey Mouse and Donald Duck. The TV Academy nominated him as one of the outstanding new personalities because of his emcee duties on Disneyland (George Gobel won the Emmy).

I asked him if he wouldn't mind his privacy, now that he is a familiar figure in millions of homes.

"I don't think it will bother me," he laughed. "I don't get out much."

Meringue recipes sometimes call for a little lemon juice because the juice not only gives flavor to the meringue when it is used as a pie topping, but it helps the cutting quality. Add the lemon juice to the egg white before beating.

Legal Notice

THE STATE OF FLORIDA TO WILLIAM F. ALTLAND, 412 REYNOLDS AVENUE, PARKERSBURG, PENNSYLVANIA:

A sworn complaint for divorce having been filed against you in the Circuit Court in and for Seminole County, Florida, by MARGARET SHROYER ALTLAND, the short title of which is MARGARET SHROYER ALTLAND, Plaintiff, versus WILLIAM F. ALTLAND, Defendant, these presents are to command you to appear and file your written defenses herein on or before the 15th day of April, A. D. 1945, or otherwise a Decree Pro Confesso will be entered against you.

The Sanford Herald is designated as a newspaper of general circulation in which this citation shall be published once a week for four consecutive weeks.

Witness my hand and official seal of the Clerk of the Circuit Court, Seminole County, Florida, this 15th day of March, A. D. 1945.

Why Scrap Free Competition

In the production of Natural Gas or any other product?

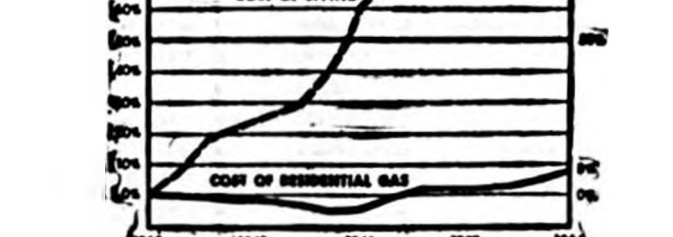

Natural gas comes to most consumers through interstate pipelines and local utility systems. They have franchises from state or local bodies, and have long been regulated. The producers who find the gas have not been regulated because more than 5,000 of them compete vigorously—and free competition is the best of all price controls. Yet these producers have recently been singled out for Federal controls and price-fixing. This is a step without peacetime precedent—to price-fix a consumer product at its source. It is a step that deeply disturbs many Americans, including the undersigned committee. They believe the proposed controls are against the public interest and can benefit no one. They believe the issue goes far beyond gas. It goes to the roots of America's greatness. They believe the controls plan is unwise for many reasons.

It is Unnecessary because gas supplies have tripled in sixteen years. And costs to consumers have risen a nation-wide average of only one-eleventh as much as the cost of living.

It is Dangerous because it could easily be the first step toward Federal controls on coal or oil—or lumber or grain or your business.

It is Unfair because it singles out one competitive industry for such controls.

It is Shortsighted because it stifles the bold and risky exploring that's needed to assure adequate supplies.

As shown by the chart above, based on figures of the Bureau of Labor Statistics for a national average, the cost of natural gas to the residential consumer has gone up only one-eleventh as much as the cost of living in sixteen years.

FLORIDA NATURAL GAS AND OIL RESOURCES COMMITTEE

W. F. Robertson, Chairman
2620 Talleyroad Avenue, Jacksonville, Florida

Made up of individuals and companies concerned with natural gas and the broader basic issues of a free economy. This Committee believes that it has a responsibility to place the facts before the American people, that they may form a judgment of their own free will.

Judges As Candidates

A justice of the Supreme Court could not run for president or vice-president until five years after he has left the bench, if a constitutional amendment goes through, sponsored by Senator John M. Butler of Maryland. A like proposal passed in the Senate in the last Congress, but was not acted on by the House.

The aim is to emphasize the Court's complete severance from politics, making it vain for any justice to write decisions that might win him political favor. Yet why does this come up now?

Only once has a judge left the Court to run for president. That was Charles E. Hughes in 1916. Many thought his action poor policy; this thought may have contributed the few popular votes that lost him the presidency. But in 1930, when President Hoover nominated him for Chief Justice, his earlier resignation was not used as an argument against his confirmation. Since then

no justice has lent the slightest encouragement to political boosters.

The amendment appears to be an effort to hamper the popular choice for the presidency. The people can be trusted to reject political ventures on the part of judges, as they did in the case of Hughes.

Tribute To Police

Should a specialist discuss publicly matters outside of his particular field? Not if he is a scientist, says Senator John W. Bricker of Ohio, addressing a New York City gathering in honor of the 108th birthday of the inventor, Thomas A. Edison. He said that Edison had political convictions, but did not trade on his scientific reputation to influence public opinion on political matters outside his field of special competence.

Senator Bricker is not quite accurate. Edison supported enthusiastically Theodore Roosevelt's bolt from the Republican party in 1912, and four years later came out strongly for the reelection of President Wilson. Whether or not all citizens agreed with these stands, none questioned his right to take them.

Scientists are citizens, and may legitimately have views on subjects outside their own fields. Business men are specialists, too, often completely wrapped up in one line of work. Would Senator Bricker deplore it if a businessman advanced opinions on our foreign policy?

White Islands

Safety zones long used to let pedestrians get across a busy street alive, may be copied if war comes. A West German organization advocates places of refuge for women and children. Warring nations would guarantee not to attack these "white islands," as the organization calls them. The nations will be approached for their consent to the plan.

As with all other proposals, everything depends on the details. Where would these islands be located and how large would they need to be? How would refugees get there, and what provision would be made for their support during their stay?

This is not to throw cold water on a humanitarian idea. It is to indicate that its possibilities deserve exploration.

TODAY'S BIBLE VERSE

The effectual fervent prayer of a righteous man avails much.—James 5:16. A righteous man will pray for right things, not for selfish purely material things. Such prayers have often been spectacularly effective.

What To Do If You Should Get Shingles

By HERMAN H. SUTCLIFF, M.D.
EVER since the time of Hippocrates, physicians have wrestled with the problem of herpes zoster—shingles. Well, we have a tool—hold on to it now, but it isn't licked yet.
Usually Fatal
While shingles does not kill and does not cause other nerve diseases such as polio, it does produce an untidy rash, and almost always a great deal of pain. And if it attacks your delicate eye tissue, the scars it might leave can impair your vision.
You are most likely to be struck by this virus if you are a man and past the age of 50. Children are seldom stricken. The disease usually develops in early summer or late autumn. It can, however, strike at any time.
Related to Chicken Pox
The virus which causes shingles is closely related to the one responsible for chicken pox. For three or four days before the rash breaks out, you probably will have chills, a feeling of general malaise and maybe a slight fever. Your stomach and bowels might be upset, too.
You will notice pain at the spot where the rash will break out. This rash, composed of blisters surrounded by red pain, appears in a few days and spreads along the course of various nerves.
After Five Days
About five days later the blisters begin to dry up and scab over. In younger patients, the pain usually lasts until the rash begins to heal. This pain may vary from merely an annoying itching to a severe burning sensation.
In older patients, the pain may continue for months, or even years, after the rash has cleared up.
Drugs That Help
Some physicians report that autotomy, if given at the beginning of the disease, will help prevent, or modify this lingering after-pain. A new product called Proctamide also gave "good to excellent" results in a number of test cases, according to Dr. William March of the National Naval Medical Center. ACTS and cortisone usually help relieve the pain suffered along with the rash.
Binding the area covered with the rash with thick layers of cotton often gives relief. Use of an electric heating pad might be helpful, too.
Three times a day, you might apply a mild lotion to the rash, such as zinc ointment or boric acid ointment with one per cent petrolatum.
When Scabs Are Absorbed
If your scalp is involved, you don't have to cut your hair. Keep the area perfectly clean with soap and water, and benzocaine. Then you can apply a mild anti-septic ointment.
Don't move the affected part of your body any more than is necessary. Heavy pillows should stay home and rest. Younger folks can probably continue their usual activities.
QUESTIONS AND ANSWERS
Q. E. I. I have had a perforated ear for years and sometimes have a pain down the side of my face. Is this dangerous, and is there anything I can do about it?
A. Answer: The condition you describe is not a dangerous one. However, it should receive attention, as it may indicate that some nerve inflammation has occurred.

Nixon Sounds Call To California GOP For Majority Party

LOS ANGELES (AP)—Vice President Richard M. Nixon has sounded a call to California's Republicans—perhaps the strongest segment of the GOP—to build a majority party by 1958.
"The young vice president, at President Eisenhower's behest, urged 2,400 fellow southern California Republicans in one of three speeches Monday to organize to do a big job this year and next."
Nixon said bluntly the GOP won in 1952 only because of its strong candidate and added: "The Republican party today is not strong enough to elect a president."
Nixon gave this insight into the President's views:
"The current situation is one the President feels we should remedy and that's why he's taking hold of the Republican leadership at this time. He believes it's his responsibility to build the party so its strength will be as strong as that of the President himself."

Academy Nominees Failing Physicals

WASHINGTON (AP)—Half of the young men nominated for the new Air Force Academy have been failing their physical examinations.
Brig. Gen. Don Z. Zimmerman, dean of the faculty of the new institution, disclosed this Monday and said that as a result, the Air Force has recommended that congressmen send candidates for the academy to the Air Force for the stiff physical examination required for flight training, before nominating them.
"If congressmen do this, the men they do finally nominate will have a much better chance of being selected," Zimmerman told the Cosmos Club, a Washington social organization.

SAM DAWSON

Professors Asked Value Of Stocks

NEW YORK (AP)—What stocks do the big brains at the colleges buy? The Senate Banking Committee is asking both college professors and practicing stock brokers to appraise the value of stocks in the bull market that started 18 months ago.
A look at the common stock holdings in the endowment funds of colleges might give a clue as to their assessment of various stocks.

My New York

By MEL HEISLER
NEW YORK — Things one New Yorker thinks about.
The other night I dropped into Basin street, the gloomy, cavernous cellar in West 54th street where the hot jazz hermits hole up—and was pleased to note the presence of a gentleman who seems to have slid gracefully and genially into middle age. So few do. This was the now-benign Benny Goodman, who in the old days was known in some circles as "The Ray," because of the icy glare he fixated on trombones or drummers he thought were not paying attention to business at rehearsal. He was a tough taskmaster, which, of course, paid off in the best big band that popular music has known.
When I saw Benny recently, however, surrounded by a new generation of aficionados, who have grown up on the technically interesting but emotionally short modern jazz, he was mellowness itself.
Goodman joked with the customers, talked with columnists at ringside tables, stood respectfully by while a couple of the men in his new act blew some of the interesting but unemotional music—and then, beat of all, got in there and played with them, note for note, beat for beat, right down the line. What came out was, naturally, pure gold, as it always has been.
It's strange how age and the years take the indignation and shrines out of a man. I could see the other night that Benny still enjoys wallowing in the luxury of hot jazz played by good men—but it was an easy-going pleasure.
You felt that if the old master hit a clinker on his clarinet, he'd just grin and turn up his eyes and say, "Hey, how about that?" In the old days, you felt he might have shot himself. On the other hand, old days or new, Benny Goodman never was one to hit clinkers at that, was he?
If you could take young, on-the-way-up actors to one side and give them one place of sound advice to remember when they're stars, chances are you would tell them not to forget what real people are like.
Too many young ones hit it big quickly and then immediately be-

JAMES MARLOW

Ike To Consider Two Problems

Associated Press News Analyst WASHINGTON (AP)—What happens to Harold E. Stassen is of less importance to the people of Asia than what happens to American aid for them. President Eisenhower will have to consider both problems soon.

What Eisenhower does about Stassen will be of primary concern to Stassen. What the President does about aid for Asia may in the end mean the difference between communism or losing it.

Stassen, three times a candidate for the Republican presidential nomination and now a loyal Eisenhower supporter, is a lame-duck boss. He heads the Foreign Operations Administration, due by law to end June 30.

FOA has handled this country's foreign aid program. The government is certain to continue that aid to some degree and in some way Congress could keep FOA alive another year but seems in no mood to do so.

It's not in the mood to hand out much money either. FOA's work may be handed over entirely to the State Department or split up among other agencies. Eisenhower could keep Stassen as aid boss under the State Department or give him some other job.

Stassen yesterday laid a report on FOA's work during the last six months of 1954. But the administration still hasn't sent Congress its request—it will in April—on the amount of aid it wants to give in the fiscal year beginning July 1.

Stassen said requests for all foreign aid spending in the next fiscal year will be held to 24 billion dollars—Asia's share would have to come out of that—compared with \$3,200,000,000 made available this year.

But no matter how much money Congress votes, the aid program could well be wrecked by delay and confusion if it is divided among agencies instead of under some central direction.

Secretary of State Dulles returned from his Asian trip last week expressing confidence about the future of the area—that is, on the chances of keeping it out of the hands.

He spoke happily about the military alliances this country has made in Asia to "tie all Red armies. He was vague on this.

SAD FAMILY STORY
MEMPHIS, TENN. (AP)—Sheriff L. S. E. Hall and P. J. Hewitt stopped a big car and gave the woman a ticket for speeding. She turned around and started back.

A few minutes later they stopped a small car and gave the man driver a ticket. As they were writing it, the woman drove up and stopped.

"That's my husband," she said. "I hurried back to warn him but he just thought I was waving."

CITIZEN SOLDIER
BRIDGEPORT, CONN. (AP)—Joseph Kleinhandler, 22, a native of France, said he would be a happy man if he could enter the Army as an American citizen.

Uncle Sam obliged him on both counts. Kleinhandler was drafted seven days after being sworn in as a citizen.

with the new small-size taxicabs these days. Asset: they should make the streets a little less crowded. Liability: you are much closer, alas, to the driver and virtually are forced to listen to his stories of the book he's writing about the strange people he's encountered.

Listen, man to man now — is that spring just around the corner?

White-Fuel STARTS YOU FAST!
Get warm-up! No cold starting!
Phillips 66 brings you the only gasoline with the added super aviation fuel component DI-isopropyl.
If you appreciate instant starting and freedom from cold starting, fill up today with Phillips 66 Plus-Fix.
Phillips Petroleum Company was the first to make DI-isopropyl and also MF Alkylate. These two components are so valuable to smooth performance that, until recently, their use was restricted by the U. S. Government to high performance aviation gasoline. New authorities have removed restrictions.
New Phillips 66 Plus-Fix provides increased power, higher anti-knock and greater fuel economy. And you benefit from smoother Phillips 66 controlled volatility. In addition, Phillips 66 Plus-Fix gives you the clean burning qualities that result from use of normal and aviation gasoline components. Fill up today with Plus-Fix!
PHILLIPS PETROLEUM COMPANY
New All-Weather Motor Oil can Double the life of an engine!
TRON-ARTIC is the new all-weather motor oil that protects your car winter and summer. It flows easily at temperatures below zero, yet at extremely high engine heat, it retains its film strength. Compared to ordinary oils it has reduced wear 60% or more... saves cost oil consumption 15% to 45%... saves pistons and packing rings... saves valves and piston rings... saves the motor oil. TRON-ARTIC Motor Oil is the perfect name for Plus-Fix.
Phillips 66 Products are distributed in Sanford and vicinity by Mac's Oil Co.

Ladies Group Plans Banquet

Gamma Lambda Chapter of Beta Sigma Phi met recently at the home of Annabelle Fleming. The business meeting was presided over by Mrs. Daphne Connelly and Annabelle Fleming, the chapter sponsor and director respectively, were co-hostesses.

Plans were made concerning the chapter's Cancer Fund raising activities and also for the Founders Day Banquet to be held March 25 at the Mt. Plymouth Hotel. In addition to honoring Beta Sigma Phi's founder and first president, Walter W. Ross, formal initiations will be held for the 12 new members.

Those to be honored at the impressive Ritual of Jewels Ceremony will be Jean Armstrong, Mary Ellen Brown, Sue Harper, Sylvia Hayes, Charlotte Knowles, Nancy Martin, Harriett Cowley, Carolyn Stanley, Patricia Stenstrom, Marion Singeltary, Jeanette Wolfer and Carolyn Stenstrom. All active and inactive members, their husbands and boyfriends are cordially invited to attend.

Immediately following the business meeting Connie Williams presided over an interesting talk on "Prize Possessions" which is a part of this year's cultural program. All members had been asked to bring their most prized possessions, which resulted in a rather cluttered room but provided an unusual and enjoyable program.

Articles of sentimental, historical, monetary and amusement value were shown and their respective values appraised. Probably the smallest item shown was an engagement ring and the largest was the husband of Annabelle Fleming, no explanations necessary.

Information concerning the banquet can be obtained from Elizabeth Horton, phone 2230-R, president of Gamma Lambda Chapter.

Finances Subject Of Elsie Knight Circle Meeting

The subject for the meeting of the Elsie Knight Circle of the First Baptist Church which was held in the educational building Monday evening was conducted by Mrs. Irving Pryor and was based on the co-operative program.

Various members took part on the program which explained the different ways in which monies are spent to carry out the church program and missionary work at home and in foreign fields.

The devotional on "Prayer" was presented by Mrs. Verne C. Messenger and the business session was presided over by Mrs. F. L. Dampler, chairman. A letter from Miss Beverly Benton, president of the Y. W. A. which the circle sponsors, thanking the group for the banquet given the Y. W. A.'s during their "focus week", was read by Mrs. Pryor. A letter from Mrs. George C. Dixon, former advisor to the circle was read. Mrs. Dixon moved to Boston, Mass. the first of the year.

The stewardship lesson was offered by Mrs. Lillian Vickery and Mrs. Pryor gave a report of the recent meeting of the Business Women's Federation held in New Smyrna. Following the business and program meeting Mrs. Estelle Gilson, hostess, served refreshments to the following: Mrs. Vickery, Mrs. C. A. Anderson Jr., Mrs. N. C. Slawter, Mrs. John Kader, Mrs. Susan S. Stephenson, Mrs. Dampler, Mrs.

Chivalry

(Continued From Page One) It has. You don't find men who are chivalrous any more... Most of them say you can do it yourself".

PETE SCHIRARD: "Yes, women don't show enough appreciation..."

MRS. JOE FISHER: "I think men are polite... I've been seeing men around for a long time and they always are gentlemen... Maybe it's my old age... I don't know."

FRANCIS ROUMILLAT: "No it's not dying but it's taking a terrific beating... women just don't appreciate it any more... Instead, women are becoming competitors for everything... there isn't that old time helplessness..."

MRS. ANNA WELLS: "I don't think it is too much the man's fault because girls try to act too much like men for the men themselves to appreciate them as women..."

L. E. VAUGHN: "No it's not completely gone... On a bus completely out of 10 men will get up and offer seats to women but I think it starts in the home... Children now days are taught to say 'yes' and 'no' instead of 'yes sir' and 'no sir'..."

MRS. J. P. CULLUM: "No, it has not. I'm sure of it. In fact I think women are chivalrous too... People nowadays are always doing things for other people..."

O. K. GOFF: "I think it has passed everywhere except the South... It's just born in a Southerner to be polite..."

MICHAEL THOMAS: "No, it has not died... Men are still doing polite things they did 50 years ago... I know myself that men are still gentlemen..."

MRS. HUGH WHELCHER SR.: "No, it hasn't died at all... Men still go out of their way to help women... I ought to know, I have five in my household..."

ROBERT COX: "Oh, no... men don't put it in words, but they are still gentlemen at heart... If women could get a seat on a bus 10 years ago they can still get just as many now..."

MRS. JULIUS DINGELDER: "Why of course not!... The modern caveman lugs my groceries to my car... he let's me jump out of the burning house first... he let's me put my toes into the icy ocean first... He won't ever change if the modern cavewoman remains a 'clinging vine' and is demonstratively grateful for the attention and courtesies..."

Well, we see that the opinions are many and varied, but the general thought seems to be that chivalry is still around. Maybe some of it is gone, but why? Could be because men aren't given a chance to be as courteous as they used to, and feel a little silly when they're scoffed at for some chivalrous deed. Maybe we can do something to bring chivalry back into full bloom. How about it, girls?

If you want a fine upstanding pie crust, be sure to roll out the pie dough one inch larger than the inverted pie pan. This will give you enough pastry to work with when you seal and flute the edge.

Always use a kettle of adequate size when you are doing a lot of deep-fat frying and never fill it more than two-thirds full. When re-using the fat, add a small amount of fresh fat, to replace that lost in frying.

Messengers, Mrs. Pryor, Mrs. Roy Reel and Miss Martha Fox.

It was announced that the April meeting, to be held the third Monday in April, will be at the home of Mrs. C. B. Sheppard.

THE SEMINOLE COUNTY Elementary Spring Festival was presented in the Seminole High School auditorium last night. The program included a massed fifth and sixth grade chorus composed of all the fifth and sixth graders in the county. (Staff Photo)

Program On China Given At Meeting

The Woman's Society of Christian Service of the First Methodist Church met for its regular business meeting and program Monday in McKinley Hall with the board meeting at 9:30 a. m.

The session was opened with the devotion given by Mrs. J. C. Davis after which Mrs. W. W. Tyre and Mrs. Roy Wall sang a duet entitled "Christ Is Away."

The mission study on China was given and those taking part on the program were Mrs. Roy Tillis, Mrs. J. T. Garrison, Mrs. Milton Wyatt, Mrs. W. P. Chapman and Mrs. Grady Herman.

A covered dish luncheon was served to the 30 members present and the three visitors. Mrs. R. E. Davis, Mrs. Lavant Hartman and Mrs. Frank Roper, who is the vice-president of the Orlando district.

A session on the study will be held in McKinley Hall tonight at 7:30 o'clock.

Miss Jean Knight Speaks On Hawaii

The Jacaranda Garden Circle of the Sanford Garden Club met Friday evening with Mrs. Joseph Terlap at her beautiful home on Golden Lake.

The meeting opened with prayer and reports of various committee chairmen were given. Mrs. Metta Starke gave a report of the Flower Show committee meeting and urged all members to cooperate with this committee.

Mrs. Starke was elected delegate to the state convention in Jacksonville with Mrs. Terlap as alternate. The meeting was then turned over to the program chairman, Mrs. W. B. Brinson who introduced the speaker, Miss Jean Knight of Orlando, niece of Mrs. R. E. Peurifoy. Miss Knight spent three years in Hawaii with the Air Force. She showed colored slides of Hawaii including scenes, shrubbery, flowers and flowering trees native to the islands as well as pictures she took of a volcano eruption.

Refreshments were served by Mrs. Terlap to the following: Mrs. W. B. Brinson, Mrs. G. E. Peurifoy, Mrs. R. G. Hickson, Mrs. Elton Bush, Mrs. Lyman Myers, Mrs. Mabel Gear, Mrs. Irving Pryor, Mrs. Fay A. Jones, Mrs. A. J. Walker, Mrs. Metta Starke, Mrs. C. M. Flowers, Mrs. J. C. Andrews, Mrs. F. L. Miller, Mrs. Geneva

Banquet Is Held At IOOF Hall

A covered dish supper was held Monday night at the IOOF Hall by the Sanford Oddfellows and Rebekahs to honor the members who had been in the order for more than 25 years.

The honored guests were introduced by Ralph Spotts and the ladies were presented with corsages from the Rebekahs of this lodge.

Those being honored were Mrs. Mae Myers, Mrs. May Kubos, Mrs. Byron Squires, Mrs. Ed Brown, Mr. and Mrs. Walter Flanders, Ed Hurt, D. C. Howard, Vic Green, Mr. and Mrs. Floyd Athour, J. T. Hardy, B. C. Green, and Norma Hartwick.

Those not able to attend were A. B. Lavejoy, J. E. Anderson, W. C. Hill, I. E. Southward, M. and Mrs. Frank Ashdown, Mrs. Vic Green, Emma Lynn and Emma Rows.

Over fifty persons attended the supper and meeting at which Gordon Fredrick gave a talk on "Law In Everyday Living."

Vic Green gave a humorous talk on his trips to Europe and Alaska and Mrs. Algid Brown, who joined the Rebekahs in 1908, told of her years with the order.

Dance To Be Held Tonight At USO

A St. Patrick's Day Dance will be held at the USO tonight from 8:11 o'clock. Junior hostesses Miss Peggy Best and Senior hostesses will represent the Episcopal Women. Refreshments will be served.

Tomorrow night there will be a Junior hostess meeting at 7 o'clock. Everyone is urged to attend to plan program for the coming month.

BIRTHS

Mr. and Mrs. Earl Wilson Swanner announce the birth of a 7 lb. 5 oz. daughter, Dawn Louisa, March 11 at the Orange Memorial Hospital, Orlando. Mrs. Swanner will be remembered as the former Miss Barbara Saunders.

Van Buskirk and guests, Miss Jean Knight, Mrs. J. P. Stevens, Mrs. Timothy Stevens, and Mrs. T. C. Pitchford.

Personals

Miss Mary Jane Madden, who is an instructor in the school of Nursing at the Florida State Hospital in Chattahoochee, spent the weekend with her parents Mr. and Mrs. A. C. Madden.

Miss Patti Witte has left for Fort Myers to spend some time with her parents, Mr. and Mrs. Henry Witte, formerly of Sanford.

Mr. and Mrs. A. J. Moreland are leaving Thursday for Thomaston, Ga. to spend a week with relatives.

Mrs. William Moran and Miss Wanda Wroblecki of Lowville, Mass., are visiting here with Mr. and Mrs. A. B. Duxbury.

Mrs. Mabel Brown Acts As Hostess

The Business Women's Circle No. One of the First Presbyterian Church met Monday evening with Mrs. Mabel Brown at 114 Park Avenue. As hostess she was assisted by Mrs. J. C. Walter and Mrs. John Smith. In the absence of the circle chairman, Mrs. W. S. Brumley, Mrs. Brown presided at the business meeting.

Miss Lettie Caldwell made announcements from the auxiliary and members were asked to read the New Testament through during the year.

Mrs. W. J. Hartley gave an inspiring Bible lesson on "Faith" after which delicious refreshments were served by the hostesses.

Those present were: Mrs. Brown, Mrs. Smith, Miss Caldwell, Mrs. Walter, Mrs. Hartley, Mrs. Longwood, Mrs. C. M. Boyd, Mrs. Mrs. William B. Wray, Mrs. F. W. Bastline, of Longwood, Mrs. C. F. Lynd, Mrs. Carrie F. Smith, Mrs. Stanley Verney.

Miss Elsie Farley, Miss Anna Nelson, Miss Laura Chittenden, Miss Edna Chittenden, Mrs. Floyd Case, Mrs. G. B. Gilbert, Mrs. Striam Vinup, Mrs. E. J. Loueka, Mrs. Daisy Knox, Mrs. Olive Hunt, and Mrs. May P. Maxwell.

Make your cake look pretty when you slice it! When you bake a cake in a pan that is 13 by 9 1/2 inches, cut it crosswise into 3-inch strips. Then cut these diamonds, squares, circles, strips into rectangles, triangles,

School Of Dancing Entertains Group

The Duxbury School of Dancing entertained the All State Tourist Club Monday at 8 p. m. at the Eustis Municipal Auditorium.

The program, consisting of ballet, tap, aerobic, and some numbers was loudly applauded and Sanford was acknowledged for having such fine entertainment.

In order the numbers came as follows: "Cavalcade of Taps", a classical ballet; "Ballin' The You", easy rhythm, military tap; "That's Ad I Want From piano solo, South American; "Little Shoemaker, ballet, aerobic; "You You Beautiful Doll", Gypsy ballet, double aerobic; "Can-Can dance, Hawaiian song and dance, soft shoe, "Peg O My Heart", song, "Pretty Baby", and "Top Hat" tap.

Those taking part were June Jennings, Dottie Williams, Carole Nutt, Mary Jane Flynn, Nancy Richards, Geraldine Spivey, Janice Knitaw, Michael Pope, Deanna Nichols, Cindy May, Sandy Miller, Judy Miller, Bonnie Tully, Donna Ashley, Marilyn Washburn, Sally Robb, Allison Lee, Judy Burcheall, Jeanette Harvey, Miss Norma Faye Harvey, Mrs. Christine Blankenship and Mrs. Doris Duxbury.

TO WOMEN

who are watching helplessly as their skins dry up and age prematurely

A frank statement by Jacqueline Cochran explaining how her miracle preparation, FLOWING VELVET, has restored the freshness of youth to countless despairing women.

Many people think of me as an aviation expert only. Yet, I started my career as a beauty operator before becoming the head of my cosmetic company. And I have constantly sought to create a limited number of simple corrective preparations, based on natural ingredients, that are easy to use—and above everything else—effective.

THE DRY SKIN PROBLEM

Dry, sensitive skin is the major problem of millions of American women. Greasy, heavy preparations only "butter" faces superficially. The logical answer is moisture... not surface moisture, but moisture in the tissue. Several years ago, after long and painstaking research, I succeeded in finding a way to make this beneficial moisture penetrate into the skin.

THE RESULT? A NEW PRODUCT WAS BORN: FLOWING VELVET, the now-famous formula that has given hope, confidence and new beauty to hundreds of thousands of delighted women all over the world who swear by it.

WHAT IS FLOWING VELVET?

FLOWING VELVET is a triple-action, greaseless, flowing formula containing a revolutionary, exclusive ingredient—HYDROLIN, that works 3 ways:

1. It furnishes moisture that actually sinks into the skin.
2. It provides necessary oils for essential lubrication.
3. It maintains the normal balance of oils and moisture.

HOW TO USE IT

Apply it at night, after your skin cleansing. It disappears instantly, leaving no trace of grease on your face or upon your pillow.

Apply it again in the morning, under your foundation. It keeps your skin dewy, soft and beautiful all through the day.

Apply it often, as you wish. FLOWING VELVET is instantly absorbed by the thirsty skin. It is so rich and concentrated that only a few drops are all that you ever need.

NOTHING LIKE IT

Because FLOWING VELVET was so revolutionary and so successful, imitations inevitably followed. (I consider them a compliment.) But—NO ONE CAN SUCCESSFULLY IMITATE IT—since its miraculous element, HYDROLIN, was developed and is exclusively controlled, by my own laboratories.

"FLOWING VELVET" is unique, and the only greaseless moisturizing preparation that will actually do more for your skin than you could ever dream possible—in so short a time.

MAKE THIS TEST: Meet our specially-trained Jacqueline Cochran consultant. Watch her pour a few drops of FLOWING VELVET on your wrist. And see it sink instantly into your skin.

Major League Scouts Size Up Clewiston Hurler

CLEWISTON (AP)—Three major league baseball scouts came here yesterday to look over Dick Bethea of Clewiston High and the left-handed pitcher accompanied with a 10-0 no-hitter over Stuart High.

Bethea struck out 14 and walked none in his first game this season. He averaged five no-hitters over the past two seasons.

WEST PALM BEACH (AP)—Heavy losses have forced the Legion Arena, one of the nation's oldest boxing clubs, to close for the season.

Matchmaker Gabe Menendez of Washington, D.C., announced yesterday he was quitting and said television cost him support of the local fans. He had planned to operate until April.

WINTER PARK (AP)—Allen Morris, the South's No. 2 tennis player, led the Presbyterian team to a 7-2 victory over Roll yesterday. He defeated Chuck Warden 6-4, 6-1 in the feature match.

DELAND (AP)—A five-lit second inning attack produced a 3-2 Stetson victory over the Furman baseball team yesterday.

ST. PETERSBURG (AP)—The \$12,500 St. Petersburg Open golf tournament will open tomorrow with a field of 149, including most of the top touring professionals and 25 amateurs.

WINTER HAVEN (AP)—The water ski queens of the United States and Europe will renew an old rivalry in an intercontinental tournament at nearby Cypress Gardens March 30.

Two years ago Toronto Willie McGuire of Oswego, Ore., defeated the European star, Marina Doris. Mrs. McGuire has won the United States women's championship seven times.

DETROIT PITCHER HOPES WILLIAMS REJOINS RED SOX

LAKELAND, Fla. (AP)—Ned Garver is liable to be picked by the Detroit Tigers right-ender hopes Ted Williams comes back to the Boston Red Sox.

Not that Garver ends Ted any soft touch, Williams has ruined him often with his home run drive. Ned just relishes the rest of battle with the best in the business.

"Everytime you go up against Williams is a real experience," Ned said. "There are spots where it's fun to see him walk up to the plate. But it's a test to try to match your ability against his. I guess I can remember almost every time I pitched against him. Baseball can't afford to lose those guys."

Garver barricaded himself behind a mountain of "ifs" before predicting he'll win 3 games for the first time since 1931. "If I have no arm trouble, if I don't get hurt, if I pitch in turn, if I get a fair shake in runs scored, I think I can win 30."

KID GAVILAN SET TO MEET DYKES IN BOUT TONIGHT

MIA, Fla. (AP)—Kid Gavilan of Cuba, former welterweight boxing champion, goes after his 10th ring victory tonight against the cagey veteran, Bobby Dykes of Miami, in a nationally televised 10-round bout in Miami Stadium.

A crowd of about 6,000 is expected although the fight will be shown locally as well as nationwide by the Columbia Broadcasting System at 10 p.m. (EST).

New-Look Orioles Edge Dodgers, 8-6

9th Inning Rally Sees Clutch Hits By Two Veterans

The Associated Press Veterans Glenn Woodling and Hoot Evers, who have been shuttling around baseball's major leagues for quite a while, may have found a happy hunting ground with the new-look Baltimore Orioles.

Baltimore, which finished seventh in the American League last season, underwent a vast shuffling of personnel during the winter—including a new manager, Paul Richards.

Woodling came to the Orioles in the off-season deal that sent Bob Turley to the New York Yankees. Evers was purchased from the Detroit Tigers.

Both players came up with clutch hits last night in Baltimore's ninth-inning rally as the Orioles edged the Brooklyn Dodgers 8-6.

The Dodgers were leading by three runs when Brooklyn rookie Bob Darnell allowed three walks and a hit for one run and left the bases loaded. Glenn Cox relieved Darnell and Evers poked a two-run single to tie the score 6-6. Woodling then doubled to drive in two more runs.

The St. Louis Cards posted their fifth victory in six starts, defeating the Detroit Tigers 5-2. Gordon Jones, Bob Tiefenauer and Joe Presko subdued the Tigers with five hits.

The Cincinnati Redlegs edged the Pittsburgh Pirates 9-7, scoring seven runs in the last two innings.

Ewell Blackwell tested his arm as the New York Yankees downed the Philadelphia Phils 9-2. Hampered recently by arm trouble, Blackie threw easily and without pain in his three-inning stint. He gave up two runs and six hits.

The Milwaukee Braves tallied five runs in the third inning off lefty Mel Parnell and went on to whip the Boston Red Sox 7-5. Ralph Kiner collected four hits in four official at bats to spark the Cleveland Indians to a 13-7 triumph over the New York Giants.

The tribe clinched the verdict with a five-run uprising in the eighth inning off losing pitcher Ebbson Gomez.

TOURNAMENT TO OPEN

SARASOTA, Fla. (AP)—Eighty professionals and 79 invited amateurs battle par and possible showers tomorrow in the opening round of the eighth annual \$6,000 Gulf Coast International Golf tournament.

The New York Giants will play 10 exhibition games this spring with their World Series rivals, the Cleveland Indians.

NIT Champion Beaten, 68-64, By St. Francis

NEW YORK (AP)—The guys in the press row saved themselves a lot of time by tagging Maurice Stokes "The Magnificent" during last year's National Invitation basketball tournament. They don't have to search for a new nickname this year. Maurice is still magnificent.

Stokes, a 6-6 center with a fine shot and great rebounding bounce, again was the big man for the St. Francis, Pa. last night as the Frankies upset defending champion Holy Cross 68-64 to gain the semifinals of the NIT.

Another upset seemed in the making for a moment in the other quarter-final game at Madison Square Garden. But it was only a fleeting moment. Then second-seeded Dayton settled down and padded its attack with St. Louis errors to whip the Billikens 97-81.

That paired Dayton and St. Francis in one of tomorrow night's semi-finals. Top-seeded Duquesne and No. 4 seed Cincinnati, who reached the quarter-finals Monday, will meet in the other.

Holy Cross, seeded No. 3, was beaten by Stokes and a St. Francis zone, which William Skip Hughes, St. Francis coach, admitted must be "about the worst zone in the country." But it served its purpose. It protected Stokes from possible foul penalties and kept the Crusaders pretty well in check.

Holy Cross just did manage to gain a 34-32 lead at the half. Stokes had just one foul against him at the intermission. And the weak-bench Frankies had just three as a team. With the second half, Hughes discarded the zone and set Stokes loose. "And when Stokes moves," says Hughes, "We move."

Stokes finished with 21 points, but really made it a victory with his rebounding and team play. The Frankies stayed within reach until 5 1/2 minutes remained, then took a 47-56 lead and never fell back. Dayton had too much height and too much Jack Salee for St. Louis, which had set a flock of Garden scoring records in whipping Connecticut 110-103 in the first round.

Sallee, a Dandy floor man and driver, was topped with 33.

U.S. Smashes Argentina In Pan-American Games

IT'S BEEN A LONG TRIP—Leslie Seaward of Savannah, Ga., rode his bicycle from Savannah to Jacksonville in just ten hours. That is a pretty good clip for a man of 60 years of age. A retired fireman, he claims title to holding the bike-riding championship of the U. S. He rode from Savannah to Los Angeles, Calif. in just 17 days, which included a two-day layover in Austin and El Paso, Tex. On the 3000-mile trip Mr. Seaward averaged 175 miles per day. He came through Sanford on his way to Wildwood to visit his son, Charles Seaward, who is employed by the Seaboard Railroad.

NEW YORK (AP)—Nino Valdes and Archie Moore, two snubbed would-be opponents of Heavyweight champion Rocky Marciano, probably will fight early in May in Las Vegas.

Each wanted a shot at Marciano's title and both waged all-out publicity campaigns to back the Rock into a corner. But it all went for naught when Marciano agreed to defend his championship against England's Don Cockell in San Francisco on May 18.

So now it appears that they'll settle for each other and in the process try to take some of the thunder away from the title bout. The winner certainly will deserve a shot at Marciano, assuming the Brockton Blockbuster takes care of Cockell.

Charley Johnston, Moore's manager, and Bobby Glasson, Valdes' pilot, headed for Las Vegas today to try to iron out details. Johnston admitted he wasn't satisfied with the original offer for his fighter's services, but added that the offer was not far from his demands.

equaled his own meet record of 4.50 meters, or 14 feet 9 1/4 inches.

Williams is a real experience," Ned said. "There are spots where it's fun to see him walk up to the plate. But it's a test to try to match your ability against his. I guess I can remember almost every time I pitched against him. Baseball can't afford to lose those guys."

Garver barricaded himself behind a mountain of "ifs" before predicting he'll win 3 games for the first time since 1931. "If I have no arm trouble, if I don't get hurt, if I pitch in turn, if I get a fair shake in runs scored, I think I can win 30."

Team Captures 5 More Medals

MEXICO CITY (AP)—The United States trophy chest was decorated with five more gold medals today and Uncle Sam had the unofficial track and field championship of the Pan-American Games won and locked up tight.

There are still 10 more days of action on the athletic fields of the 18-game program, but the big team from the U. S. A. has already smashed the defending champion, Argentina.

Unofficial point standings gave the United States 220; Argentina, 75 1/2; Mexico, 36 1/2; Cuba, 28; Brazil and Chile, 22; Venezuela and Dutch West Indies, 18; Panama, 15; Puerto Rico, 9 1/2; Jamaica, 7; Canada and Colombia, 6; Trinidad, 5; Uruguay, 2 1/2; Paraguay, 2; Guatemala, 1.

Today's track and field include the 200-meter dash for men, 100 for women, and the hop, step and jump, featuring Pvt. Rosslyn Range of the U. S. Army, the broad jumping sensation two days ago.

There are excellent events to come. And standout performances to recall from yesterday included: The rousing four-way fight in the 800 meters. It found 19-year-old Arnie Sowell, of Pittsburgh, the winner in a new Pan-Am meet record time of 1:49.7; the old master of the two laps, Hal Whitfield, a faded fourth, and California's Lon Spurrier and Ramon Sandoval, of Chile, sandwiched tightly in between.

The come-from-behind run in the stretch by Oswald Saurez of Argentina to grab victory from Horace Ashenfelter, of New Jersey, in the 5,000-meter race. The time was 18:30.6.

The one-two punch in the discus by Fortune Gordien and Parry O'Brien, of California, with the world record holder, Gordien, setting a new games record of 53.10 meters, or 174 feet 2 1/4 inches.

The one-two-three procession over the vaulting bar by the Rev. Bob Richards, Bob Smith and Don Las. En route, the Vaulting Vicar

equaled his own meet record of 4.50 meters, or 14 feet 9 1/4 inches.

equaled his own meet record of 4.50 meters, or 14 feet 9 1/4 inches.

WHY WAIT?
ONLY 15 DAYS LEFT
TO FILE YOUR 1935 APPLICATION
FOR HOMESTEAD EXEMPTION
AND PERSONAL PROPERTY RETURNS!
MARCH 31st IS THE LAST DAY!
TAX LAWS PROVIDE SEVERE PENALTIES FOR FAILURE TO FILE RETURNS ON TANGIBLE AND INTANGIBLE PERSONAL PROPERTY.
HOMESTEAD EXEMPTION CANNOT BE GRANTED UNLESS APPLICATION IS FILED WITHIN THE PRESCRIBED TIME.
Blanks have been mailed to all who filed application or made returns last year. If you failed to receive yours please call for them at the Tax Assessor's Office.
When applying for Homestead Exemption for the first time, please bring your deed with you. Also your 1935 automobile tag number. If you need help with your returns, I shall be glad to assist you.
IT IS NOT NECESSARY TO FILE APPLICATION FOR HOMESTEAD EXEMPTION AT THE CITY HALL, BUT IF YOU ARE ENTITLED TO WIDOWS EXEMPTION OR DISABILITY EXEMPTION, APPLICATION FOR THESE SHOULD BE FILED WITH THE CITY.
SANFORD F. DOUDNEY
TAX ASSESSOR

Life-Long Dream Of World Travel Comes True For Floyd Dobbins Jr.

Most of us, at one time or another, have dreamed of traveling around the world. Everyone likes to think of what it's like to bark on the sands of the French Riviera, eat exotic dishes in places like Saudi Arabia, Egypt, Ceylon and Japan, and visit dangerous and exciting spots like Saigon, French Indo-China.

Well, Floyd Dobbins Jr., yeoman chief, Fleet Aircraft Service Squadron Fifty-One, did all these things a couple of years ago when he was attached to the destroyer U. S. S. Stephen Potter.

Dobbins sailed aboard the Stephen Potter from New York City on April 1, 1953 as part of Destroyer Squadron 24, scheduled for a round-the-world cruise. Part of this cruise was to be spent in Korean waters.

The ship proceeded to Colon, Panama, before transiting the Panama Canal and stopping at Balboa, Canal Zone. From there, the Potter steamed to San Diego where it became part of the Cruiser-Destroyer Force, Pacific Fleet. After a short stay there, the next stop was Pearl Harbor. Chief Dobbins recalls that this 10-day visit was one of the most enjoyable of the cruise.

The most memorable event at the vessel's next stop, Midway, was seeing the well-known "Coony" birds, according to Dobbins. "They were the funniest things I ever saw," says the chief. "They are very clumsy and often trip over their own feet. When they meet on the beach, they stand and bow to each other as if they were taking a course in etiquette. But the thing I recall most is that they always run before they take off. In fact, they even went right off beside our planes and taxied down the field to take off with them."

After Midway, the Potter traveled to Yokosuka, Japan, and on the way crossed the International Date Line. Arriving in Yokosuka on May 11, it was only four days later that the ship joined the 7th Fleet and began a tour of duty in Korean waters. On June 12, they joined the UN Blockade and proceeded to do considerable shore bombardment at what was known as the "Bomb Line." This was the front line where the Chinese Communists were engaging our Army and Marine Corps forces.

The following month the Potter was still part of the UN Blockade but had moved to Wonsan Harbor. It was here that the ship fired the last shot by UN naval forces in

the Korean War.

Returning to Sasebo, Japan, the Potter departed for Hong Kong on August 7, and subsequently stopped at Saigon, Indo-China and Singapore, Hong Kong, of course, is still in the hands of the British while the nearby Chinese mainland is Communist territory. At Saigon, says Dobbins, it was necessary to man the ship's 60mm guns while proceeding up the Saigon River to the South China Sea to the city. The Reds were not fighting that far south but guerrilla raiding parties often hit the French outposts which lined the river. The incident best remembered by Dobbins about Singapore was seeing roasted dogs and cats hanging in the window of an eating place.

Following this, short visits were made at Trincomalee, Ceylon, Aden, Saudi Arabia, and Port Said, Egypt. Then they went to Izmir, Turkey, and on to Naples, Italy. After Italy, it was Cannes, France, Gibraltar and Argentina, Newfoundland in that order before returning to Boston, Massachusetts on October 2, 1953.

In seven months, the Stephen Potter steamed a total of more than 56,000 nautical miles. In land miles this is equal to about 100,000 miles or an average of 480 miles every day. Quite a bit of traveling, isn't it?

Sand storms played havoc with the ship during its stay in Saudi Arabia and again while steaming through the Red Sea. While anchored in Aden, many natives in row boats (known as "bum boats") lingered around the ships in an attempt to sell souvenirs to the sailors. All of a sudden one day, when everything looked calm and natural, the natives cleared out in a hurry. Men aboard the ships wondered what had made them run off but it wasn't long before they found out. Outside of the city a sand storm was headed their way. It was necessary for everyone to go below decks, close all hatches, and turn off the ventilation. The storm lasted about two hours, Chief Dobbins said, and when they went back up on deck the sand was more than an inch thick on almost the entire deck.

A few days later, while steaming through the Red Sea in a 138 degree heat, another one hit. This was even more unbearable because of the intense heat.

Shortly after return to the States, Chief Dobbins was transferred to Commander-in-Chief, Atlantic Fleet, Headquarters in Norfolk, Virginia. There he held the post of

PEGGY KINNAN GOES SLEDGING behind a good team of Huskies (top) with Oscar Martin to guide her in a test run at Chesterfield Inlet, Northwest Territory. In March, Peggy embarks for the North Pole with an American expedition with the hope of becoming the first woman to reach the top of the world. The test, at a balmy 44 degrees below zero, was brightened by an invitation to tea in the cozy igloo of an Eskimo mother (bottom). (International Executive)

Mabel Walker Has Finished Training At Ft. McClellan

Wac Center, Fort McClellan, Ala. Private Mabel E. Walker daughter of Mr. and Mrs. Chancy Walker, 470 Sipas Ave. Sanford, has just completed basic training at the new Women's Army Corps Center, Fort McClellan, Ala.

Private Walker has been transferred to Fort Lawton, Wash. She is a graduate of Crooms Academy, Sanford.

The new \$7,000,000 Center includes 22 cream-colored modern, functional buildings, situated on rolling land with a view of the Appalachian Mountains. The setting of tree-shaded lawns and attractive buildings suggests an American college campus rather than a military installation.

Fort McClellan is also the permanent home of the Chemical Corps Training Command.

The Center's buildings are of concrete block and have large louver windows set in steel frames. All have built-in circulation fans and natural gas heating. Floors are of asphalt tile.

Headquartering as a ceremonial was formerly practiced by peoples in all parts of the world.

yeoman in charge in the important Operations Department. Last month he was transferred to Fleet Aircraft Service Squadron 51 for duty and is presently assigned to the Communications Department. His five children reside in Sebring, Fla.

Eleven Frenchmen Ready To Attempt Conquest Of Peak

PARIS (AP) — Eleven Frenchmen are about to undertake a conquest of the fifth highest mountain in the world—27,790-foot Mt. Makalu, on the border of Nepal and Tibet.

Twenty miles east of Everest, Makalu is swept by the same icy winds of the high Himalayas. On its last year a group of Californians led by Dr. William Sirri was beaten back by storms and avalanches at 23,000 feet.

The French feel new equipment will help them scale the peak. An advance group made a reconnaissance of approaches last October.

The French team hopes to have its base camp established by April 10 and an advanced base ready a month later. The main assault will be in May.

The expedition, organized by the French Mountain Federation and the French Alpine Club, is headed by Jean Franco. At 40 he is the youngest member of the team; the youngest is 26.

Franco said the expedition plans to adopt the strategy of the British expedition which conquered Mt. Everest in May 1953. Advance camps will be built at intervals up the mountain from the base camp, each one smaller in size than the last below it. The topmost camp will have tent space for two men who will make the last try for the summit.

The team's improved equipment will include radio sets weighing only six pounds and tents—"nylon outside and silk within"—which can withstand 82-mile-an-hour winds, Franco said. There will also be better oxygen apparatus, clothing and boots.

News Of Men In Service

TOKYO QUARTERMASTER DEPT. JAPAN — Army M/Bgt. H. B. Henley, whose wife, Frances, lives at 101 E. Tenth st., Sanford, Fla., is a member of the Tokyo Quartermaster Depot in Japan.

Sergeant Henley, a personnel management specialist, is a veteran of 14 year's Army service and has served in Korea.

Clipper

Biggest, Most Powerful in the Medium-Price Field... Built by Packard Craftsmen

From 1955 Clipper is designed to be a distinctive in appearance as well as in performance... and to bring you a new measure of motoring pleasure.

Biggest in the medium-price field, nearly 18 feet over-all, the Clipper adds up to comfort in a big way. It gives you more room—head room, shoulder room, hip room and leg room than any other car in its class.

Most powerful in its field, Clipper's great new 245 and 265 horsepower V-8's deliver

more driving force at the rear wheels through every speed range. New Twin Ultramatic, actually two transmissions in one, is the perfect power mate, with a choice of starts at your finger tips... lightning getaway or cruising glide.

In also, performance, individuality, quality... however you measure a car... you own it to yourself to see and drive the 1955 Clipper before making your choice. The Clipper shows you're going places... in style.

We invite you to come in and Drive the 1955 Clipper. Today

Postal Official Sees No Barriers

WASHINGTON — A postal official says there is nothing standing in the way of Johns Hopkins University receiving the Russian publications to which it has subscribed.

Walter Rohe, special assistant for public relations to the postmaster general, said Monday he was sure that if the Hopkins School of Advanced International Studies in Washington would communicate with the Post Office Department solicitor, any difficulties in the delivery would be immediately cleared up.

Heir Given Freedom by Ontario Court

TORONTO — John Leonard, heir to a fortune of more than two million dollars seven years ago, was free yesterday after an Ontario Court of Appeals wiped his conviction on a charge of robbery with violence.

Mr. Leonard, 31, was convicted last year of robbing the head office of the Bank of Montreal in Toronto. He was sentenced to 10 years in jail, but was freed on appeal.

THE OLD HOME TOWN By STANLEY

Two Officers Receive Notice Of Higher Rate

Two officers attached to Fleet Aircraft Service Squadron 51 have been notified of their selection for promotion to Lieutenant Commander.

Lt. Leslie E. Lewis, USN, Maintenance Officer, and Lt. Robert T. Northridge, USNR, Assistant Administrative/Personnel Officer, will receive their appointments to LCDR sometime before June 30. No notification has been received concerning the actual date as yet.

A native of Fall City, Nebraska, Lt. Lewis enlisted in the Navy in 1935 at the age of 17. He advanced through the ranks to aviation metallurgy second class and then became an enlisted pilot in 1942. He was commissioned in August 1943. He was advanced to Lieutenant (jg) in February 1945 and in January 1949 became a Lieutenant.

Lt. Lewis reported to Fleetron-51 last July from Heavy Attack Training Unit, Norfolk, Va., where he was Flight and Schedule Officer and Assistant Operations and Training Officer.

It is the intention of Lt. Lewis to

retire from the naval service this year after completing 20 years service. After retirement he will enter Randolph-Macon College, Ashland, Va., and after completing studies there he intends to study for the ministry at Duke University School of Divinity.

While attached to Heavy Attack Training Unit in Norfolk, he became an approved Supply Pastor of the Methodist Church. He immediately moved with his wife and 6-year-old daughter into the underprivileged Riverside section of South Norfolk and began his Christian work. In four months, his church was constituted and it has enjoyed a steady growth ever since. Since his transfer to Sanford, the church has continued to grow and he has had reports that a building program is now making substantial progress.

Lt. Northridge was commissioned as a naval aviator on October 1, 1943 after completing various phases of the war-time V-5 program at Athens, Ga., Dallas, Texas, and Corpus Christi, Texas. After commissioning he went to Hollywood Beach, Florida for navigation training and then to NAAS Banana River, Florida for bombing training.

From Banana River, Lt. Northridge was transferred to Hutchinson, Kansas for transition training from PBVs to B24s before being

ordered to Patrol Bombing Squadron 119 for duty in the Pacific. In September 1945 he was released to the Naval Reserve at Jacksonville. From then until October 1952 he served in the active Reserve at Squantum, Massachusetts before being recalled for the Korean emergency. From December 1952 until December 1953 he was in Ireland and then ordered to Fleetron-51. Last November he voluntarily extended his term of active duty for one year.

A native of Worcester, Mass., Lt. Northridge attended Stetson University from 1938-'40 where he met his wife. They were married in DeLand in 1943, and are presently residing in DeLand.

WRONG BALCONY SCENE
PHOENIX, ARIZ. (AP) — A 50-year-old Indian came to town and electrified pedestrians by skipping from one balcony to another on a hotel building.

Then William Hassell missed and landed on the sidewalk 20 feet below.

"Did you hurt yourself?" a bystander asked.

"No, I'm an acrobat — watch," Hassell replied.

He went back to his room, reappeared on the balcony and made two five-foot leaps.

On the third try he missed and ended up in the hospital.

Students Are Urged To Finish School Before Enlisting

High school students are urged to finish school and earn that "all important" diploma before applying for enlistment in the United States Marine Corps, according to Major W. F. Lane, Officer in Charge of Leatherneck recruiting in Florida.

"The young man who completes his education benefits himself as well as the Marine Corps by having a diploma," the Major said. "While the Marine Corps understandably holds a great attraction to young men of adventuresome spirit, it must be pointed out in all fairness that the high school diploma is not only a great asset while serving in the Corps, but is a 'must' upon return to civilian life. Thus, we encourage a young man to finish school and get that diploma. It's a safe bet that the Marine Corps will still be there after he graduates and we will be happy to consider his enlistment then," Major Lane emphasized.

He added, "a high school graduate has a greater chance of meeting the Corps' high mental requirements. Because of a very limited quota enlisted each month, only those applicants who can meet the high recruiting standards of the Marine Corps will be accepted. This of course gives the high school graduate a great advantage over the non-graduate. Moreover, throughout his enlistment, the Marine who possesses a high school education has better opportunities for promotion and consideration for enrollment in many of the Corps' technical schools."

"While attending school," he said, "young men would do well to consider the advantages of joining an Organized Marine Corps Reserve activity as a preparation for regular service. By joining the Citizen Marines, a young man can advance in rank by applying himself and when he so decides, can join the Regular Marine Corps at the same rank he holds in the Reserves, up to and including sergeant."

"In the meanwhile, he's completing his education, discharging some of his obligated military service time, earning spending money and preparing himself for active duty by simply attending periodic drills. But the important thing is, he will have earned his high school diploma and will be a greater asset to himself and the Marine Corps," Major Lane concluded.

For further information on the Organized Marine Corps Reserve, see your Leatherneck recruiter at Post Office every Wednesday morning from 9 to 12:00 A. M.

Drive the low-price Plymouth soon—see why it

LEADS "ALL 3" IN VALUE!

TOP TWO ENGINES

Plymouth's PowerFlow 117 engine is the smoothest, thirteenth in the lowest price field, with exclusive Chrono-Sealed Action that adds years to its smooth, whisper-quiet operation. And Plymouth's new 167-hp Fly-Fire is the most powerful standard V-8 in the low-price 3. Both engines thrive on regular, NOT premium, fuel.

NEWEST STYLING

Of all 3 low-price cars, only Plymouth's styling is completely and honestly new. Its sleek, forward-looking lines mean this Plymouth will look "new" years from now, and have a higher trade-in value. And, of all 3, only Plymouth gives you a sweep-back windshield design, with far more visibility than in other cars in the low-price 3.

LARGEST SIZE

Biggest, longest, lowest car of the low-price 3, Plymouth is actually larger than some high-price cars! To you this means more roominess, more comfort inside, and the smooth, steady ride only a big car can give. Plymouth is priced for every pocketbook; 22 models in three great lines—the Belvedere, the Savoy, the Plaza.

SMOOTHEST RIDE

Only a big car, like Plymouth, can give you a truly "big car" ride. This Plymouth's frame is longer, stronger rear springs are wider, exclusive Griflow shock absorbers have still more cushioning action. When you look at all 3 this year, you'll see why the big swing is to Plymouth! Come in today for your demonstration.

Eight States Would Move Quickly

WASHINGTON (AP)—Eight states would be ready to move immediately under the school-building agency provisions of President Eisenhower's aid-to-education plan if Congress enacts them. These states already have agencies specifically charged with assisting local school districts to overcome classroom shortages, or other agencies which can exercise similar functions. The President called for the establishment of state agencies which with federal help would issue bonds to build schools. The local districts would rent the buildings and eventually the rents would pay off the bonds. Then the buildings would become the districts' property. Six states have constitutional provisions that might prevent their setting up school-building agencies until the three-year life of the Eisenhower plan has expired, but others are in better shape. In being, 11 apparently could set them up under existing laws, and 14 others could do so with simple enabling legislation. Pennsylvania, Georgia, Indiana and Maine have state school-building agencies as such. Of these, the Pennsylvania State Public School Building Authority apparently operates most closely in the way contemplated in the president's proposal. Pennsylvania's school districts which have reached their legal bonding limits may submit building plans and ask the authority to come to the rescue with money it has raised with bonds. If the authority approves the plans, it forwards the project money to the district, which repays it with interest over a 40-year rental period. Interest has run around 3 per cent, which is somewhat high by usual financial standards, but officials note that these school districts are financially distressed and have to take pretty much what they can get. Another part of the Eisenhower plan, the federal government could buy local school bonds at rates up to 3 1/2 per cent. Aside from the statewide building authority, Pennsylvania has numerous local school-building authorities which operate on a similar principle. They are, actually, a legalized evasion of school district bonding limits. Together, the state and local authorities have built or contracted for more than 455 million dollars' worth of schools since 1930. School districts themselves, without any authority help, have built 108 million dollars' worth in the same time. The Georgia system operates somewhat differently in detail, but the objective is the same as in Pennsylvania — to funnel state money down to local school districts. Local systems must first consult with the State Department of Education to fix their needs. Then they go to the building authority, which — instead of giving them the money — itself acquires sites and builds the schools for lease to the district. The Georgia Department of Education makes an annual allotment to school districts for building purposes, and this money is used for the rest that pays off authority bonds. The Georgia authority has spent 120 million dollars on schools in approximately two years and is now planning a final bond issue of 21 million. No schools have been built in Indiana by the state school-building authority because of court action brought almost as soon as it was set up in 1931 with power to issue bonds and lease schools. Those who

SURGEONS REMOVE part of a tubercular lung from Mrs. Doris Grayson, 36, at National Jewish Hospital in Denver as blood donors and their battle to save the young mother, who has rare O-negative blood that will not clot because of the tuberculosis. Police cars rushed donors of the same blood type to a blood bank and then hurried the fresh blood back to the operating room. Post-operative report: Mrs. Grayson will recover and no longer be a bleeder. (International)

Reader Wonders About Old Acts Of Brother, Sis

HOLLYWOOD (AP)—A reader writes in to ask, "Where are the brother and sister movie star teams of yesterday?" A good question. It was provoked by the recent death of Tom Moore. Most of the obituaries said that he was a silent film star, along with his two brothers Owen and Matt. Old-timers recall that there was a fourth brother, Joe, who also starred in the flickers. Any movie fan of the earlier vintage can bring a host of brother and sister teams to mind. Here are some of them: Mary Lottie and Jack Pickford; Wally and Noah Berry; William and Dustin Farnum; Syd and Charlie Chaplin; Norma, Constance and Natalie Talmadge; Dorothy and Lillian Gish; Helene and Dolores Costello; Barbara, Joan and Constance Bennett; Jackie and Bobby Coogan; Mae and Lovey Marsh; Viola Dana and Shirley Mason; Mary MacLaren and Katharine MacDonald; Anita and Lucille Lionel Barrymore; Frank and Ralph Morgan. Later on came the Young Sisters — Loretta, Georgiana and Sally Lee Stewart; Ethel, John and Blaine. And the Lanes-Lois, Rosemary and Priscilla. And of course there were brother acts like the Marxes and Ritzes. Bob Crosby has managed to carve a career for himself despite the eminence of brother Bing, though Bob has never really clicked in films. The most noted of the sister teams of recent times are Joan Fontaine and Olivia De Havilland. Both have won Academy Awards and their sisterly rivalry once broke into an open feud. They are now more or less at peace. — Steve Forest is setting a big buildup at MGM and may match the fame of his brother Dana Andrews. And Marisa Pavan's career is progressing well enough that she might catch up with her twin Pier Angeli. In the second generation of acting families are young Sydney and Charles Chaplin Jr.; Diana and her half-brother John Barrymore Jr. But none has yet reached the fame of the previous generation. Added entries: Larry Tierney; Scott Brady; George Sanders-Tom Conway. I asked one film historian why family teams aren't as prevalent as they used to be. "Because the picture business is no longer a family affair," he explained. "In the old days, an actor would pick up a job in the movies and bring along his brother or sister when he reported to work. The chances were that the brother or sister would get a job in the picture too. "Nowadays there's so much competition in the getting field that you can't expect lightning to strike twice in the same family." Redwood trees secrete a poison which kills insects on which many birds feed, so birds are rare in redwood forests.

Vaughan, Inc. Ships Thousands Of Fern, Plants To Many Places

Growing and shipping fern and ornamental plants is a business worth thousands of dollars a year in the job of Vaughan, Inc. located just inside Fern Park on Highway 17-82 in Seminole County. The fernery was started in 1923 with Mr. Vaughan taking over in 1930. Since then the business has grown and spread all over Seminole County. Although Vaughan, Inc. is not the only fernery in Seminole County it is the biggest. There are three in Fern Park alone, 30 acres in Altamonte Springs, and 40 acres in Oviedo (also cultivated). The 40 acres in Fern Park, on which the main fernery is located, has nine greenhouses, a lath shed and 20 acres of fern. Besides these the office buildings are situated on a small lake with landscaped grounds and tall waving pines just off to the right of the lath shed. Mr. Vaughan stated that Florida leads the country in Fern Growing with 80 per cent being grown here. Texas is next with 30 per cent and then California with five per cent. His workers include 50 to 150 people. Fern, properly called Adiantum Filix-mas, is planted when very young. Although it comes from a seed grown in Italy, the fernery, buys the young plants from places which specialize in selling just the plants. After planting the fern puts forth runners which take root and send up shoots which in turn put forth other runners. Consequently the fernery has to buy only one set of young plants because the fern reproduces itself. The biggest headache of the fern business is the weeds which seem to choke the plants. Anywhere from 25 to 30 people are kept busy pulling weeds alone. Fern has to be grown in a half shade and half sunlight places. The lath sheds are made of slats which tend to give the growing plants a checked appearance. Water is furnished by overhead irrigation. When it has been cut and graded the fern is sent all over the United States and Canada to wholesale florists. It is usually sent by express and is crated with black ice. As much as 25 pounds of ice is sometimes used. The most popular and most modern way to grow fern is this day and age is under oak trees. The fern in Oviedo is all grown under these natural shade trees. This requires less work and saves the cost of building lath sheds. Mr. Vaughan states that someday all the fern grows will be under oaks. A recent addition to Vaughan, Incorporated is the raising of ornamental plants or "dish garden plants". Started two years ago it has become one of the seven major producers in the state. More than 50 varieties are grown in the steam heated green houses. The temperature is kept at 80 and the plants are grown in peat-moss brought over from Germany. This moss is completely sterile and there is less danger for the young plants to catch diseases. Since the plants are forced-grown, Vaughan, Inc. turns out a half-million every eight to 10 weeks. The plants are kept at the required 80° by heated pipes which run under the raised tables on which they are grown. Since the foliage plants require 80 per cent shade the glass houses are very well suited. When plants are shipped they have to be wrapped separately and put in corrugated cartons. The most popular plants are the "dish garden plants" which about 80 per cent of the shipping orders. The other 20 per cent are the larger plants which are mostly used in hotels, restaurants, and homes. Temperatures of 100 degrees and over have been reported from all 48 of the United States.

brought the suit contended the authority was unconstitutional. The case has not reached the State Supreme Court. The Maine authority has put four million dollars into schools in 41 towns, the school units in Maine. The Maine authority has virtually reached its present legal borrowing limit. The four states in which agencies other than specifically designated building authorities can carry on similar activities are Arkansas, Florida and North and South Dakota. The Arkansas Legislature just last week passed an act designating the State Education Board to receive and administer any building funds made available by the federal government under the Eisenhower or any other plan. The Florida State Board of Education issues school construction bonds which are guaranteed by allocations of auto license revenue amounting to about nine million dollars a year. The board would have power to accept federal school funds. The North Dakota School Construction Board, which has advanced over two million dollars to school districts since it went into operation July 1, 1933, could accept federal funds and operate as a building authority. South Dakota officials say they believe the State Department of Public Instruction could act as a bond-issuing agency. RABBIT GETS TEETH MERIDIAN, MISS (AP)—When it comes to pulling "baby teeth" Mrs. Margie Aust, a teacher for 25 years, believes there's no better anaesthetic than the story of "Brer Rabbit." And Mrs. Aust should know. She recently pulled her 180th tooth and, as usual, had the tooth dangling on a string while the tiny patient sat enthralled with the tale of the resourceful rabbit. In fact, says Mrs. Aust, the little student was disappointed that the tooth was out before the story ended. These were 25.3 births per thousand population in the United States in 1934.

Teenagers In Bars Crackdown Asked By Miami Mayor

TAMPA (AP)—Mayor Curtis Hixon has ordered police to crack down on bars where teenagers hang out, after newspaper reporters wrote they found boys and girls drinking, staggering and dancing with bar hostesses. The Hillsborough County grand jury and the State Beverage Department also took steps following the Tampa Tribune story. The grand jury summoned Police Capt. Horace Locke, who investigated the teenage drinking case. It did not immediately make a report. Malcolm Beard, district beverage supervisor, said he will ask for revocation of the liquor license of the bar referred to in the story. He said the grounds would be arrested of a waitress on a charge of serving a 19-year-old sirman. Mayor Hixon directed Police Chief B. J. Roberts to "crack down on bar operators who allow teenagers to frequent or visit the bars whether they are served or not." CEREBRAL PALSY CENTER HAS BASEMENT FIRE REISTERSTOWN, Md. (AP)—The Children's Rehabilitation Institute, a large private cerebral palsy treatment center, has closed its doors temporarily after a basement fire which routed the entire staff and 70 young crippled patients. The patients, ranging in age from 2 to 25 and none of them able to walk, were carried to safety yesterday by about 50 quick-acting employees. Fifteen confined the blaze to the laundry and maintenance room. There was some damage to the dormitory on the floor above. There were 25.3 births per thousand population in the United States in 1934.

Are you a "Do-It-Yourself" Driver? Or would you rather be waited on hand and foot?

Advertisement for Chevrolet cars. It features several illustrations of steering wheels and brake pedals, each with a caption describing a feature. The text includes: 'Rather shift for yourself... or let Powerglide do it?', 'Shifts smoothly and easy with Chevrolet's new and finer Synchro-Mesh transmission. A flick of your wrist is all it takes to shift gears.', 'Want standard steering... or extra-easy Power Steering?', 'Try this easy new Chevrolet steering. Only Chevrolet and some higher-priced cars use a ball bearing system to cut friction to a minimum.', 'There's nothing quite so easy as Power Steering, of course. Good news: Chevrolet's new linkage-type Power Steering carries a reduced price!', 'Apply the brakes like this... or have power make it easier?', 'Improved brakes and new swing-type pedals make stopping a cinch. And Chevrolet's exclusive Anti-Dive control gives you "heads up" stops!', 'Position the seat yourself... or let electricity do it?', 'Chevrolet's big, beautifully upholstered front seat moves up and forward or down and back into your most comfortable driving position.', 'No worry about your battery in a new Chevrolet. It's the only car in its field with the reserve power of a 12-volt electrical system!'. The advertisement concludes with 'Automatically— Chevrolet's stealing the thunder from the high-priced cars! What's a high-priced car got that Chevrolet hasn't? Not automatic power features. Not style—just look below. Not performance—just try out Chevrolet's new V8 or one of the new 6's. Not ride—perhaps the thing that will surprise you most is Chevrolet's fine, solid feel on the road. Come put it to the test. See how Chevrolet's stealing the thunder from the high-priced cars in every way!'. At the bottom, it says 'COMPLETE and OFFICIAL figures show that again in 1934—for the 19th straight year—MORE PEOPLE BOUGHT CHEVROLETS THAN ANY OTHER CAR!' and 'HOLLER MOTOR SALES'.

Advertisement for Stan Comstock. It says 'Established 30 years in Orlando' and 'RECOMMENDS KEYSTONE CUSTODIAN FUND'. At the bottom, it says 'Allen & Co.' and 'ACE CLASS Company'.

Advertisement for Boat Wright. It says 'Grand Opening Tomorrow 6 Reasons Why You Should Use BOAT WRIGHT SUPER B-30 ALKYD FLAT WALL ENAMEL'. It lists features: 'Self-Priming and Self-Sealing', 'Completely Odorless', 'Easy To Work With—Leaves No Brush Marks', 'May Be Applied With Brush, Spray or Roller', 'Wear-Resistant and Completely Washable', 'Selection of Durable Colors'. It offers an 'Introductory Offer 15% CASH DISCOUNT ON This And All Boat Wright Products Offer Expires April 15th, 1933'. At the bottom, it says 'ACE CLASS Company'.

Advertisement for Dowlube. It says 'announcing DOWLUBE the amazing new super lubricant for outboards!'. It features an illustration of a boat on water. Text includes: 'no spark plug fouling • slower trolling', 'smoother performance at all speeds', 'engines last longer'. At the bottom, it says 'AVAILABLE AT FOLLOWING DEALERS' and lists several dealers.

Eight States Would Move Quickly

WASHINGTON (AP)—Eight states would be ready to move immediately under the school-building agency provisions of President Eisenhower's aid-to-education plan if Congress enacts them. These states already have agencies specifically charged with assisting local school districts to overcome classroom shortages, or other agencies which can exercise similar functions. The President called for the establishment of state agencies which with federal help would issue bonds to build schools. The local districts would rent the buildings and eventually the rents would pay off the bonds. Then the buildings would become the districts' property. Six states have constitutional provisions that might prevent their setting up school-building agencies until the three-year life of the Eisenhower plan has expired, but others are in better shape. Aside from the 8 with agencies in being, 11 apparently could set them up under existing laws, and 14 others could do so with simple enabling legislation. Four states — Pennsylvania, Georgia, Indiana and Maine — have state school-building agencies as such. Of these, the Pennsylvania State Public School Building Authority apparently operates most closely to the way contemplated in the president's proposal. Pennsylvania's 8 school districts which have reached their legal bonding limits may submit building plans and ask the authority to come to the rescue with money it has raised with bonds. If the authority approves the plans, it forwards the project money to the district, which repays it with interest over a 40-year rental period. The Maine authority has put four million dollars into schools in 41 towns, the school units in Maine. The Maine authority has virtually reached its present legal borrowing limit. The four states in which agencies other than specifically designated building authorities can carry on similar activities are Arkansas, Florida and North and South Dakota. The Arkansas Legislature just last week passed an act designating the State Education Board to receive and administer any building funds made available by the federal government under the Eisenhower or any other plan. The Florida State Board of Education issues school construction bonds which are guaranteed by allocations of auto license revenue amounting to about nine million dollars a year. The board would have power to accept federal school funds. The North Dakota School Construction Board, which has advanced over two million dollars to school districts since it went into operation July 1, 1953, could accept federal funds and operate as a building authority. South Dakota officials say they believe the State Department of Public Instruction could act as a bond-issuing agency.

SURGEONS REMOVE part of a tubercular lung from Mrs. Doris Grayson, 36, at National Jewish Hospital in Denver as blood donors and police stand-by outside. Chest X-ray on the wall guide doctors in their battle to save the young mother, who has rare O-negative blood that will not clot because of the tubercular. Police cars rushed donors of the same blood type to a blood bank and then hurried the fresh blood back to the operating room. Post-operative report: Mrs. Grayson will recover and no longer be a bleeder. (International)

Reader Wonders About Old Acts Of Brother, Sis

HOLLYWOOD (AP) — A reader writes in to ask, "Where are the brother and sister movie star teams of yesterday?" A good question. It was provoked by the recent death of Tom Moore. Most of the obituaries said that he was a silent film star, along with his two brothers Owen and Matt. Old-timers recall that there was a fourth brother, Joe, who also starred in the flickers. Any movie fan of the earlier vintage can bring a host of brother and sister teams to mind. Here are some of them: Mary Lottie and Jack Pickford; Wally and Noah Barry; William and Dustin Farnum; Syd and Charlie Chaplin; Norma, Constance and Natalie Talmadge; Dorothy and Lillian Gish; Helene and Dolores Costello; Barbara, Joan and Constance Bennett; Jackie and Bobby Congan; Mae and Lovey Marsh; Viola Dana and Shirley Mason; Mary MacLaren and Katherine MacDonald; Anita and Lucille Lionel Barrymore; Frank and Ralph Morgan. Later on came the Young sisters — Loretta, Georgiana and Sally Lee Stewart; Ethel, John and Blane, and the Lane-Lois, Rosemary and Priscilla. And of course there were brother acts like the Marxes and Ritzes. Bob Crosby has managed to carve a career for himself despite the eminence of brother Bing, though Bob has never really clicked in films. The most noted of the sister teams of recent times are Joan Fontaine and Olivia De Havilland. Both have won Academy Awards, and their sisterly rivalry once broke into an open feud. They are now more or less at peace. Steve Forest is setting a big buildup at MGM and may match the fame of his brother Dana Andrews. And Marisa Pavan's career is progressing well enough that she might catch up with her twin Pier Angel.

In the second generation of acting families are young Sydney and Charles Chaplin Jr.; Diana and her half-brother John Barrymore Jr. But none has yet reached the fame of the previous generation. Added entries: Larry Tierney-Scott Brady; George Sanders-Tom Conway. I asked one film historian why family teams aren't as prevalent as they used to be. "Because the picture business is no longer a family affair," he explained. "In the old days, an actor would pick up a job in the movies and bring along his brother or sister when he reported to work. The chances were that the brother or sister would get a job in the picture too. "Nowadays there's so much competition in the acting field that you can't expect lightning to strike twice in the same family." Redwood trees secrete a poison which kills insects on which many birds feed, so birds are rare in redwood forests.

Vaughan, Inc. Ships Thousands of Fern Plants to Many Places

Growing and shipping fern and ornamental plants—thousands of them—is the business of Vaughan, Inc. located just inside Fern Park on Highway 17-52 in Seminole County. The Fernery was started in 1923 with Mr. Vaughan taking over in 1936. Since then the business has grown and spread all over Seminole County. Although Vaughan, Inc. is not the only fernery in Seminole County it is the biggest. There are three in Fern Park alone, 20 acres in Altamonte Springs, and 40 acres in Oviedo (six cultivated). The 40 acres in Fern Park, on which the main fernery is located, has nine greenhouses, a lath shed and 80 acres of fern. Besides these the office buildings are situated on a small lake with landscaped grounds and tall waving pines just off to the right of the lath shed. Mr. Vaughan stated that Florida leads the country in Fern Growing with 85 per cent being grown here. Texas is next with 14 per cent and then California with five per cent. His workers include 20 to 100 people. Fern property called Asparagus Plumosus Nanus, is planted when very young. Although it comes from a seed grown in Italy, the fernery, buys the young plants from places which specialize in selling just the plants. After planting the fern pots fourth runners which take root and send up shoots which in turn put forth other runners. Consequently the fernery has to buy only one set of young plants because the fern reproduces itself. The biggest headache of the fern business is the weeds which seem to choke the plants. Anywhere from 25 to 50 people are bent busy pulling weeds alone. Fern has to be grown in a half shade and half sunlight place. The lath sheds are made of slats which tend to give the growing plants a checked appearance. Water is furnished by overhead irrigation. When it has been cut and graded the fern is sent all over the United States and Canada to wholesale florists. It is usually sent by express and is treated with Meck-10. As much as 25 pounds of tea is sometimes used. The most popular of 24 most re-

cent way to grow fern is this day and age is under oak trees. The fern in Oviedo is all grown under these natural shade trees. This requires less work and saves the cost of building lath sheds. Mr. Vaughan states that someday all the fern grown will be under oaks. A recent addition to Vaughan, Incorporated is the raising of ornamental plants or "dish garden plants". Started two years ago it has become one of the seven major producers in the state. More than 50 varieties are grown in the steam heated green houses. The temperature is kept at 80° and the plants are grown in peat moss brought over from Germany. This moss is completely sterile and there is less danger for the young plants to catch diseases. Since the plants are forced-grown Vaughan, Inc. turns out a half-million every eight to 10 weeks. The plants are kept at the required 80° by heated pipes which run under the raised tables on which they are grown. Since the foliage plants require 80 per cent shade the glass houses are very well suited. When plants are shipped they have to be wrapped separately and put in corrugated cartons. The most popular plants are the "dish garden plants" taking about 80 per cent of the shipping orders. The other 20 per cent are the larger plants which are mostly used in hotels, restaurants, and homes. Temperatures of 100 degrees and over have been reported from all 48 of the United States.

Teenagers In Bars Crackdown Asked By Miami Mayor

TAMPA (AP)—Mayor Curtis Hixon has ordered police to crack down on bars where teen-agers hang out, after newspaper reporters wrote they found boys and girls drinking, stoggering and dancing with bar hostesses. The Hillsborough County grand jury and the State Beverage Department also took steps following the Tampa Tribune story. The grand jury summoned Police Capt. Horace Locke, who investigated the teen-age drinking case. It did not immediately make a report. Malcolm Beard, district beverage supervisor, said he will ask for revocation of the liquor license of the bar referred to in the story. He said the grounds would be arrest of a waitress on a charge of serving a 19-year-old airman. Mayor Hixon directed Police Chief B. J. Roberts to "crack down on bar operators who allow teen-agers to frequent or visit the bars whether they are served or not." CEREBRAL PALSY CENTER HAS BASEMENT FIRE — REISTERSTOWN, Md. (AP) — The Children's Rehabilitation Institute, a large private cerebral palsy treatment center, has closed its doors temporarily after a basement fire which routed the entire staff and 70 young crippled patients. The patients, ranging in age from 3 to 25 and none of them able to walk, were carried to safety yesterday by about 60 quick-acting employees. Firemen confined the blaze to the laundry and maintenance room. There was some damage to the dormitory on the floor above. There were 252 births per thousand population in the United States in 1954. RABBIT GETS TEETH MERIDIAN, MISS (AP)—When it comes to pulling "baby teeth" Mrs. Margie Aust, a teacher for 25 years, believes there's no better anesthetic than the story of "Brer Rabbit." And Mrs. Aust should know. She recently pulled her 1600th tooth and, as usual, had the tooth dangling on a string while the tiny patient sat enthralled with the tale of the resourceful rabbit. In fact, says Mrs. Aust, the little student was disappointed that the tooth was out before the story ended.

Are you a "Do-It-Yourself" Driver? Or would you rather be waited on hand and foot?

City Seeks Agreement With Big League Club

A meeting was to be held in DeLand today to complete a working agreement with a major league baseball club following Sanford's acceptance into the Florida State League last night.

President R. J. Bauman and other members of the local baseball group, along with FLS boss John Krider, were to meet with representatives of the club at 2 p. m.

(Although there was no announcement of the name of the club, it was rumored to be the St. Louis Cardinals.) Sanford and Tampa were granted tentative franchises at a league meeting last night in Orlando at which bids by Miami and West Palm Beach were denied.

A deadline of midnight Sunday was set for Sanford and Tampa to post the necessary \$1,600 guarantee with minor league headquarters in Columbia, O.

The league said if either Tampa or Sanford is unable to make it, West Palm Beach gets first chance at the eighth franchise and Miami gets second chance.

But if both Tampa and Sanford stay out, the league will open with six teams: Daytona Beach, Lakeland, Cocoa, Orlando, Gainesville and St. Petersburg.

Tampa's problem is getting around debts incurred by that city's former entry into the new defunct Florida International League. A conference with the minor leagues' boss, George Trautman, at Tampa today was expected to supply the answer.

DeLand a charter member of the Class D circuit, was forced to drop any plans for operating because of financial support.

DeLand, which had a working agreement with the Cardinals, was apparently ready to operate. Owner Joe DeLuy had a promise of \$2,500 from a DeLand citizen, but the latter backed down and DeLuy was forced to cancel his plans.

League directors decided on a split season again, the first and second half winners meeting for the pennant.

Highway Patrolman Carl Williams, who is replacing Patrolman Robert Harrison, became a member of the Junior Chamber of Commerce at its weekly luncheon meeting today.

Harrison has been transferred to Daytona Beach.

Instead of having a program, 11 Jaycees set out following the luncheon to contact 175 persons in a membership drive. George Andrew Speer and Tommy Peterson are co-chairmen of the campaign.

Application Filed By Light Company With AEC Group

An application was filed this week with the Atomic Energy Commission by Florida Power and Light Company for access to confidential information about nuclear reactors, with particular reference to their possible use in electric power plants.

The company seeks a contract with the AEC under the revised Atomic Energy Act which will permit certain of its engineers and executives to study and keep up with the progress of nuclear reactor development for power plant purposes and contribute to that effort.

"We do not know when it will be economically feasible to install atomic energy power plants," said H. File, company president, but "when an atomic energy unit is developed that will result in a lower over-all cost than a conventional unit, the company will certainly be interested in constructing one. That is why we are making arrangements to get any and all available information directly from the Atomic Energy Commission."

Farm Bureau Meets In FFA Building

The Seminole County Farm Bureau held its regular meeting preceded by a covered dish supper Tuesday night at the FFA building at Seminole High School.

Several problems confronting today's farmers were discussed. A representative of the Social Security Administration was on hand to answer questions on farmers' problems pertaining to the Social Security law.

All farmers are invited to attend these meetings and bring their problems so that they may be ironed out to a better understanding for all concerned. The bureau meets every third Tuesday of the month with the next session scheduled for April 19.

Pending Cases Go Before Board

TALLAHASSEE — The long-pending case of a cop-killer, a rapist and a murderer who has violated his parole are up for action before the Cabinet Pardon Board today.

Clemency is being asked for John McVeigh, war veteran sentenced to death for the Christmas Eve, 1933, slaying of a Jacksonville policeman. His attorneys say McVeigh's mind was clouded by dope when he shot Patrolman Robert Q. Tucker but the prosecution says there was no evidence of insanity.

McVeigh, a parole violator and driver of a stolen car when he killed the policeman attempting to arrest him for a traffic violation, is in the death house at Raiford along with Walter Lee Irvin, rapist sentenced to die for his share in the notorious 1949 Grove-land attack on a young housewife.

Irvin, who recently failed in an attempt to have his case reviewed by the U.S. Supreme Court, has won support from a group of St. Petersburg ministers who said they have some doubt as to the young Negro's guilt.

ASSISTANCE GIVEN BERLIN — Assistance under President Eisenhower's flood aid program has been given to more than 2,000 East German families, a Red Cross official said.

Taxpayers Deadline Set For March 31, Galloway Reports

Last day on which taxpayers can pay 1954 taxes without penalty will be March 31, John L. Galloway, County Tax Collector, said today.

Failure to pay taxes on or before that date, he said, will result in a minimum penalty of three per cent on real property taxes and one per cent on personal and intangible taxes.

He also pointed out that the tax laws require the additional charge of cost of advertising the property as delinquent.

Patrolman Arnold Williams of Sanford is among early nominees in the contest to determine Florida's seven most courteous law enforcement officers.

Others beside Williams listed in the contest's division three (for communities of 5,000 to 10,000 population) are Elie Wilson of Bartow; Assistant Chief S. G. Reddick of Delray Beach, and Bob Willoughby of Winter Park.

There are seven contest divisions. One winner will be chosen from each.

The "Courteous Cop Contest", which is sponsored annually by the Florida Clubs of the American Automobile Association, continues through midnight Thursday, March 31. It is designed to stimulate the tourist industry through courteous treatment of visitors.

Prizes include travel-paid trips to Cuba, Nassau, Tampa, Miami Beach and Palm Beach for the winning officers and their wives. Gray Lines of Cuba will provide sightseeing tours for Havana trip winners, while Playtours will do the same in Nassau.

So many ballots have been turned in since the Feb. 21 start of the contest that tabulators have found it impossible to keep up with them.

"We've already printed and distributed more than 35,000 blank ballots to supplement the thousands that have been published by newspaper," said Kenneth C. Kinke, manager of the North Florida Division of the A.A.A.

Ballots are available at the Seminole County Chamber of Commerce office here. All ballots are to be sent to State Contest Headquarters, 14 S. Main, Orlando.

Statement Made On Polio Vaccine

Because of the interest aroused by a recent story on polio vaccine, Dr. Terry Bird, County Health Officer, today issued the following statement:

"If the vaccine is given to the first and second graders, it will not be a test or experiment. It will be a proven vaccine that will protect your child for at least one year from polio.

It will be available to other children through your family doctor.

"The vaccine causes little or no reaction. There may be slight soreness of the arm."

Tanker Owners Refuse To Reveal Ship's Destination

HELSINKI, Finland — Owners of the Finnish tanker Aruba—carrying 13,000 tons of jet fuel for Red China—refused today to reveal the vessel's new destination after announcing she would not be sent to "dangerous waters."

Authorities in Ceylon who said they have been in touch with the Aruba reported she was heading for Singapore. The ship is now in the Indian Ocean.

The seaman's union in Helsinki said yesterday that the Aruba's crew, fearful of becoming embroiled in a war action, had refused to sail beyond Singapore.

Unconfirmed reports in Helsinki said the Re-Be Shipping Co., owners of the Aruba, were negotiating to sell the hazardous cargo and that the outcome would decide the ship's destination. The cargo was loaded in Communist Romania.

JUDGE LEARNS TRUTH PROVIDENCE, R. I. — Philip Santamaria, 21, brought into court for driving without a license, said it wasn't his third offense, as police claimed, but only the second.

Judge Luigi DePasquale told officers to check the record and said to Santamaria: "If it is the third time, I'll send you to jail for telling me differently." It was, and he did—for 10 days.

Publisher Says Brooklyn Paper Presses Are 'Silenced Forever'

NEW YORK — The publisher of the 11-year-old Brooklyn Eagle says the newspaper's presses have been "silenced forever."

Publisher Frank D. Schroth announced yesterday that the Eagle struck last Jan. 29 by the CIO American Newspaper Guild over a wage dispute, would never publish again.

But a Guild spokesman said the union intended to maintain picket lines on the basis that the strike was still on. And a federal mediator said he would seek to set up a fresh mediation conference today.

When the ILS ANG members, editorial and business employees, went out, an equal number of employees belonging to 8 or 16 craft unions refused to cross picket lines.

In a letter to the ANG and the craft unions, Schroth said: "Faced with the choice of accepting terms that would have doubled the great financial loss of 1954, or of suspending completely, we have chosen to quit. In these circumstances there is no hope for us. The Newspaper Guild problem is malignant."

Schroth, in announcing the "momentous decision" to shut down the only major daily newspaper in a community of nearly three million, added: "On January 29 the paper had 130,000 circulation on weekdays, 165,000 on Sundays, and many loyal advertisers. It also had 630 employees."

"Now it has nothing. No circulation. No advertising. No employees."

Churchill Unhappy With Dulles' Move

Ptlmn. A. Williams Nominee In Contest

Patrolman Arnold Williams of Sanford is among early nominees in the contest to determine Florida's seven most courteous law enforcement officers.

Others beside Williams listed in the contest's division three (for communities of 5,000 to 10,000 population) are Elie Wilson of Bartow; Assistant Chief S. G. Reddick of Delray Beach, and Bob Willoughby of Winter Park.

There are seven contest divisions. One winner will be chosen from each.

The "Courteous Cop Contest", which is sponsored annually by the Florida Clubs of the American Automobile Association, continues through midnight Thursday, March 31. It is designed to stimulate the tourist industry through courteous treatment of visitors.

Prizes include travel-paid trips to Cuba, Nassau, Tampa, Miami Beach and Palm Beach for the winning officers and their wives. Gray Lines of Cuba will provide sightseeing tours for Havana trip winners, while Playtours will do the same in Nassau.

So many ballots have been turned in since the Feb. 21 start of the contest that tabulators have found it impossible to keep up with them.

"We've already printed and distributed more than 35,000 blank ballots to supplement the thousands that have been published by newspaper," said Kenneth C. Kinke, manager of the North Florida Division of the A.A.A.

Ballots are available at the Seminole County Chamber of Commerce office here. All ballots are to be sent to State Contest Headquarters, 14 S. Main, Orlando.

Band Will Attend District Contest In DeLand Friday

Fifty-seven members of the Seminole High School Band will leave at 7 a. m. tomorrow for an all-day district contest in DeLand which will include bands from Seminole, Orange, Volusia, Marion, and Brevard Counties.

During the day each group will enter four phases of the contest which are concert, sight reading, drill, and solo and ensemble events.

Each band enters in a classification based on the high school enrollment and they are then rated in their group, with superior being the highest possible rating. First on the schedule for the local band are solos and ensembles beginning at 7:40 a. m.

The group will enter 15 events in this contest and at 1:30 p. m. in the DeLand High auditorium will play the concert consisting of the march of "His Honor, overture "Sir Lancelot," and "Au Pays Lorrain". Immediately following this the students will be given a march and overture, recently published, to be sight read.

Entering the student contest event will be Honnie Robison and Bob Reely Jr. All events are open to the public.

At 7:45 p. m. in DeLand Memorial Stadium all bands will mass together to play five marches and each will then perform separately 13 required maneuvers and a special show. The SHS Band is to enter the field at 10:20 to be judged.

Director Ernest Cowley stated today, "I believe this year's band will make a fine showing in all the events that it enters. The students have put in many hours of extra practice since the Christmas holidays along with their regular activities."

Holy Land Slides To Be Seen Tonight

The Rev. Phillip C. Schlessmann, pastor of the Lutheran Church of the Redeemer, has invited the public to attend a showing tonight at the Yacht Club at 7:30 o'clock, of colored slides taken in Jerusalem by George Trent, who is stationed at SNA-AS.

Among the slides taken by Trent while on detachment with the Navy in the Mediterranean, are pictures of the Garden of Gethsemane, River Jordan, Church of all Nations and other places and events concerning the life of Christ.

Rev. R. Spear Jr. To Speak In Eustis

The Rev. Robert H. Spear Jr., pastor of the Sanford Church of the Nazarene, is the special speaker at Evangelistic services at the Eustis Church of the Nazarene which began March 16 and will continue through March 27.

During his absence, his father, the Rev. R. H. Spear Sr. will fill the pulpit of the Sanford Church of the Nazarene.

TELEPHONE OPERATOR CAR IS MOLESTED

Telephone operator Eula Bagwell's car, parked near the Sanford Herald office, was molested yesterday, City Police were informed.

A Police report said the car was covered with "some kind of white stuff, like Bon Ami," and had the word "carb" written all over it.

Minister Answers Questions

Action May Hurt Free Exchange

LONDON (AP)—The Prime Minister, who was answering legislators' questions, indicated his displeasure at Washington's publication of the documents by saying:

"If this became an established practice it might hamper the free exchange of views at future conferences. In any case, it would seem a good thing to consult together on the text of any publication during the lifetime of the individuals concerned."

The 1945 Yalta conference in the Crimea was attended by President Roosevelt, Premier Stalin and Churchill. The 80-year-old British leader is the only survivor of the Big Three.

Britons generally were shocked and angered by disclosures in the documents—particularly President Roosevelt's suggestion that Hong Kong be turned over to China.

The Churchill government disclosed Saturday that it had approved a U. S. suggestion for publication of the Yalta record. A Foreign Office statement said publication would be "unacceptable" during the lifetime of the conferees and might lead to misunderstandings.

"When the U. S. government asked if we nevertheless would agree to publication, the British government gave their consent," Churchill said today.

Churchill was asked to comment on a remark about the Poles attributed to him in the Yalta papers according to which he said: "In that the Polish elections will be held in a fair way, I do not care much about the Poles myself."

The Prime Minister did not deny making the remark, but claimed that the quotation as presented gave an erroneous impression.

Address Books Tell Customers' Names

NEW YORK (AP)—Names of well-paying customers for Pat Ward's charms and poppets out of two address books as the jittery ex-caller girl bares the bedroom secrets of her love-for-sale career at the Mickey Jekke trial.

She already has named a score of men she says had relations with her, paying anywhere from \$50 to \$200 apiece.

She was called back today to reveal more names in the state's case against the 25-year-old old-maid margarine heir, charged with recruiting her for safe society prostitution.

The prosecution is using a big black leather book it identified as Jekke's telephone book and a small red leather book it identified as Pat's.

Pat, star witness for the prosecution, testified yesterday she and Jekke compiled the directories when he allegedly was starting her out in the vice trade in 1951 and 1952.

Nationalist China Interest Is Slight

TAIPEI, Formosa (AP)—Nationalist Chinese officials, bitterly familiar with the effects of the Yalta conference which gave Soviet Russia special rights in Manchuria, evinced only scant interest today in the records published by the U. S. State Department.

President Chiang Kai-shek, in southern Formosa, was not expected to comment.

The matter was not even mentioned at a routine Cabinet meeting, according to a minister who attended.

Comment Affirmed By Supreme Court

The Florida Supreme Court yesterday affirmed without comment Seminole Circuit Judge Vassar Carlton's judgment in the case of A. D. Rosier against National Gypsum Co.

Judge Carlton had ruled in favor of National Gypsum. Rosier was suing the firm for failure to comply with a purchase agreement.

Rosier operates a plumbing and heating supply company at 111 N. French Ave.

Douglas Stenstrom was the attorney for Rosier. Clark W. Toole Jr. represented National Gypsum.

Marble Chips Gone From Building Site

Twenty-five bags of marble chips, valued at \$75, were stolen yesterday from the site of a new building being constructed at 1301 E. 2nd St., City Police reported.

The building is being constructed by Dr. A. W. Epps and Dr. John Morgan. Located directly behind the new hospital. It will have two office rooms and a lobby. Lowell E. Ozler is the contractor.

Strolling In Sanford

Students from this area who were announced on the Dean's list of Florida State University in Tallahassee were Harold H. Kastner Jr., Miss Beatrice M. Bisbee, Clyde R. Walker, Miss Margaret A. Wilson, and Clarence Grantham, Sanford; Spencer N. Roads of Altamonte Springs, and Miss Susan K. Welschberger of Oviedo.

Miss Diane Hart, daughter of Mr. and Mrs. P. O. Hart, has recently been elected secretary of her sorority, Chi Omega, for the 1955-56 year at Marietta College, Marietta, Ohio, where she is her junior year majoring in home economics.

Honor Department—Harry Cushing made his first hole-in-one yesterday on the no. 16 hole using seven iron. He was playing with Chapt. J. E. Vose in a match against F. D. Scott and John Williams.

Checks for the Easter Seal Drive may be mailed to the Florida State Bank.

Seems like the youngsters at South Side Primary School are just as anxious as the "grown folks" to get the new Pine Crest School on 27th Street completed. While in the halls of the school the other day the Stroller noticed that the bulletin boards were filled with clippings following the progress of the school.

In yesterday's Strolling, it was brought out that the Chamber of Commerce had received a 1910 edition of The Herald mail-away paper. Today it was learned that this same 1910 copy is the one that brought the D. Chittenden family to Sanford from Union, New York. Mr. Chittenden was interested in celery and was convinced that our City was the place for him to settle.

The Seminole High School faculty members, Mrs. W. D. Wray, Miss Edna Chittenden, and W. G. Fleming, left this morning for Tampa where they will be delegates to the annual Florida Education Association meeting. The sessions will last through Saturday.

An American Cancer Society film will be shown at the Ritz Theatre Saturday through the courtesy of Herb Roller, theatre manager and film distribution chairman for the Seminole County Cancer Unit.

FBI Joins Union In Probing Wave Of Vandalism Acts

ATLANTA (AP)—The FBI joined union and company officials today in probing a wave of vandalism in the four-day-old strike of Southern Bell Telephone Co. workers in nine Southeastern states.

Damage reports continued to mount while negotiators tried to reach agreement on a new contract for the estimated 30,000 workers affected by the walkout.

The FBI entered the picture after a cable serving several government offices in West Palm Beach, Fla., was cut yesterday.

W. A. Smallwood, district director of the CIO Communications Workers of America, urged strikers to help prevent vandalism.

"We are striking on matters of high principle and we desire intensely to keep the strike on the same high plane," he said.

He said the strike was "highly effective." Company spokesmen disputed this and said supervisory workers were handling jobs of union strikers.

Day Dawns Briskly For Annual Parade

NEW YORK (AP)—Today's the day and the Avenue's the place for the nation's No. 1 salute to St. Patrick. The day dawned clear and brisk for the annual St. Patrick's Day parade.

The route for the colorful procession, starting at noon, was from 64th Street to 98th Street. The parade was expected to last five hours.

There was a reviewing stand at 64th Street for Gov. Averell Harriman, Mayor Robert F. Wagner and other officials.

The steps of St. Patrick's Cathedral at 6th Street were the spot for Francis Cardinal Spellman and other Roman Catholic dignitaries to review the Irish and the Irish-Americans.

CARL WILLIAMS (Staff Photo)

FHP C. Williams Replaces Harrison, Taken Into Jaycees

Highway Patrolman Carl Williams, who is replacing Patrolman Robert Harrison, became a member of the Junior Chamber of Commerce at its weekly luncheon meeting today.

Harrison has been transferred to Daytona Beach.

Instead of having a program, 11 Jaycees set out following the luncheon to contact 175 persons in a membership drive. George Andrew Speer and Tommy Peterson are co-chairmen of the campaign.

Mishap Last Night Involves Two Cars On W. First St.

Damage estimated at \$100 was caused to each of two cars involved in an accident at 9:05 p. m. last night on front of the B. E. Purcell Co on W. 1st St.

Involved were a 1952 Chevrolet driven by James Wilson Hughes, 33, attached to the supply department at the Naval Air Station, and a 1954 Ford sedan, owned by Esther W. Rive, 210 W. 20th St.

Hughes was charged with careless and negligent driving.

Police Sgt. R. W. Tench, investigating officer, said Mrs. Rive's car was parked at the curb and Hughes was backing his car out when the accident occurred.

Tench said the bumper of Hughes' car became hooked in the left front fender of Mrs. Rive's vehicle, pulling the car out from the curb. The cars broke loose and Mrs. Rive's car went up over the curb onto the sidewalk.

City Seeks Agreement With Big League Club

A meeting was to be held in DeLand today to complete a working agreement with a major league baseball club following Sanford's acceptance into the Florida State League last night.

President R. J. Bauman and other members of the local baseball group, along with FLS boss John Krider, were to meet with representatives of the club at 2 p. m.

(Although there was no announcement of the name of the club, it was rumored to be the St. Louis Cardinals.)

Sanford and Tampa were granted tentative franchises at a league meeting last night in Orlando at which bids by Miami and West Palm Beach were denied.

A deadline of midnight Sunday was set for Sanford and Tampa to post the necessary \$1,600 guarantee with minor league headquarters in Columbia, O.

The league said if either Tampa or Sanford is unable to make it, West Palm Beach gets first chance at the eighth franchise and Miami gets second chance.

But if both Tampa and Sanford stay out, the league will open with six teams: Daytona Beach, Lakeland, Cocoa, Orlando, Gainesville and St. Petersburg.

Tampa's problem is getting around debts incurred by that city's former entry into the new defunct Florida International League. A conference with the minor leagues' boss, George Trautman, at Tampa today was expected to supply the answer.

DeLand a charter member of the Class D circuit, was forced to drop any plans for operating because of financial support.

DeLand, which had a working agreement with the Cardinals, was apparently ready to operate. Owner Joe DeLuy had a promise of \$2,500 from a DeLand citizen, but the latter backed down and DeLuy was forced to cancel his plans.

League directors decided on a split season again, the first and second half winners meeting for the pennant.

Application Filed
By Light Company
With AEC Group

An application was filed this week with the Atomic Energy Commission by Florida Power and Light Company for access to confidential information about nuclear reactors, with particular reference to their possible use in electric power plants.

The company seeks a contract with the AEC under the revised Atomic Energy Act which will permit certain of its engineers and executives to study and keep up with the progress of nuclear reactor development for power plant purposes and contribute to that effort.

"We do not know when it will be economically feasible to install atomic energy power plants," said H. File, company president, but "if when an atomic energy unit is developed that will result in a lower over-all cost than a conventional unit, the company will certainly be interested in constructing one. That is why we are making arrangements to get any and all available information directly from the Atomic Energy Commission."

Farm Bureau Meets
In FFA Building

The Seminole County Farm Bureau held its regular meeting preceded by a covered dish supper Tuesday night at the FFA building at Seminole High School.

Several problems confronting today's farmers were discussed. A representative of the Social Security Administration was on hand to answer questions on farmers' problems pertaining to the Social Security law.

All farmers are invited to attend these meetings and bring their problems so that they may be ironed out to a better understanding for all concerned. The bureau meets every third Tuesday of the month with the next session scheduled for April 19.

New Probe Shows
State Of Confusion

WASHINGTON (AP)—Sen. Mundt (R-SD) said today the Senate's new investigation shows "an unconscionable state of confusion" marked Army handling of the Irving Peress case.

Mundt said he has heard nothing yet to support the contention of Sen. McCarthy (R-Wis) that some Communist "marionettes" at the Pentagon were pulling strings to help Peress.

He added in an interview, however, that he is listening hopefully for evidence that someone has straightened out the twisted trail of Red taps to which Army witnesses had testified.

ASSISTANCE GIVEN
BERLIN (AP)—Assistance under President Eisenhower's flood aid program has been given to more than 2,000 East German families, a Red Cross official said.

Day Dawns Briskly
For Annual Parade

NEW YORK (AP)—Today's day and night parade for the nation's No. 1 salute to St. Patrick. The day dawned clear and brisk for the annual St. Patrick's Day parade.

The route for the colorful procession, starting at noon, was from 64th Street to 96th Street. The parade was expected to last five hours.

There was a reviewing stand at 64th Street for Gov. Averell Harriman, Mayor Robert F. Wagner and other officials.

The steps of St. Patrick's Cathedral at 64th Street were the spot for Francis Cardinal Spellman and other Roman Catholic dignitaries to review the Irish and the Irish-Americans.

Students from this area who were announced on the Dean's list of Florida State University in Tallahassee were Harold H. Kastner Jr., Miss Beatrice M. Bisbee, Clyde R. Walker, Miss Margaret A. Wilson, and Clarence Grantham, Sanford; Spencer N. Roads of Altamonte Springs, and Miss Susan K. Welschberger of Oviedo.

Honor Department—Harry Cushing made his first hole-in-one yesterday on the no. 16 hole using seven iron. He was playing with Chapt. J. E. Vose in a match against F. D. Scott and John Williams.

Checks for the Easter Seal Drive may be mailed to the Florida State Bank.

Seems like the youngsters at South Side Primary School are just as anxious as the "grown folks" to get the new Pine Crest School on 27th Street completed. While in the halls of the school the other day the Stroller noticed that the bulletin boards were filled with clippings following the progress of the school.

In yesterday's Strolling, it was brought out that the Chamber of Commerce had received a 1910 edition of The Herald mail-away paper. Today it was learned that this same 1910 copy is the one that brought the D. Chittenden family to Sanford from Union, New York. Mr. Chittenden was interested in celery and was convinced that our City was the place for him to settle.

Taxpayers Deadline Set For March 31, Galloway Reports

Last day on which taxpayers can pay 1954 taxes without penalty will be March 31, John L. Galloway, County Tax Collector, said today.

Failure to pay taxes on or before that date, he said, will result in a minimum penalty of three per cent on real property taxes and one per cent on personal and intangible taxes.

He also pointed out that the tax laws require the additional charge of cost of advertising the property as delinquent.

Patrolman Arnold Williams of Sanford is among early nominees in the contest to determine Florida's seven most courteous law enforcement officers.

Others beside Williams listed in the contest's division three (for communities of 5,000 to 10,000 population) are

Ellie Wilson of Bartow; Assistant Chief S. G. Reddick of Delray Beach, and Bob Willoughby of Winter Park.

There are seven contest divisions. One winner will be chosen from each.

The "Courteous Cop Contest", which is sponsored annually by the Florida Clubs of the American Automobile Association, continues through midnight Thursday, March 31. It is designed to stimulate the tourist industry through courteous treatment of visitors.

Prizes include travel-paid trips to Cuba, Nassau, Tampa, Miami Beach and Palm Beach for the winning officers and their wives. Gray Lines of Cuba will provide sightseeing tours for Havana trip winners, while Playtours will do the same in Nassau.

So many ballots have been turned in since the Feb. 21 start of the contest that tabulators have found it impossible to keep up with them.

"We've already printed and distributed more than 35,000 blank ballots to supplement the thousands that have been published by newspaper," said Kenneth C. Kinke, manager of the North Florida Division of the A.A.A.

Ballots are available at the Seminole County Chamber of Commerce office here. All ballots are to be sent to State Contest Headquarters, 14 S. Main, Orlando.

400 Delegates
Expected In City
For P-TA Meeting

The annual meeting for District Six of the Florida Congress of Parents and Teachers will be held at Seminole High School tomorrow with registration beginning at 9:30 a. m. Mrs. D. Hales Jackson, district president has announced.

Mrs. Ellen Dell Dieler, Chicago field consultant for the National Congress of Parents and Teachers will be featured speaker. Opportunity for general discussion of the legislation action program will be given and reports of the various counties in the district will be read.

Following lunch which will be served in the school cafeteria, the delegates will form three discussion groups to study P-TA procedure. About 400 delegates are expected to attend.

Holy Land Slides
To Be Seen Tonight

The Rev. Phillip C. Schlessmann, pastor of the Lutheran Church of the Redeemer, has invited the public to attend a showing tonight at the Yacht Club at 7:30 o'clock, of colored slides taken in Jerusalem by George Trent, who is stationed at SNAAS.

Among the slides taken by Trent while on detachment with the Navy in the Mediterranean, are pictures of the Garden of Gethsemane, River Jordan, Church of all Nations and other places and events concerning the life of Christ.

Publisher Says Brooklyn Paper
Presses Are 'Silenced Forever'

NEW YORK (AP)—The publisher of the 11-year-old Brooklyn Eagle says the newspaper's presses have been "silenced forever."

Publisher Frank D. Schroth announced yesterday that the Eagle struck last Jan. 29 by the CIO American Newspaper Guild over a wage dispute, would never publish again.

But a Guild spokesman said the union intended to maintain picket lines on the basis that the strike was still on. And a federal mediator said he would seek to set up a fresh mediation conference today.

When the ILS ANG members, editorial and business employees, went out, an equal number of employees belonging to 8 or 16 craft unions refused to cross picket lines.

In a letter to the ANG and the craft unions, Schroth said:

"Facing with the choice of accepting terms that would have doubled the great financial loss of 1954, or of suspending completely, we have chosen to quit. In these circumstances there is no hope for us. The Newspaper Guild problem is malignant."

Schroth, in announcing the "momentous decision" to shut down the only major daily newspaper in a community of nearly three million, added:

"On January 29 the paper had 190,000 circulation on weekdays, 165,000 on Sundays, and many loyal advertisers. It also had 630 employees."

"Now it has nothing. No circulation. No advertising. No employees."

"So the Pulitzer Prize-winning paper of poet, Walt Whitman, the founder, Isaac Van Anden and crusading editor, St. Clair McKelway has been silenced forever."

Churchill Unhappy With Dulles' Move

Ptlmn. A. Williams Nominee In Contest

Patrolman Arnold Williams of Sanford is among early nominees in the contest to determine Florida's seven most courteous law enforcement officers.

Others beside Williams listed in the contest's division three (for communities of 5,000 to 10,000 population) are

Ellie Wilson of Bartow; Assistant Chief S. G. Reddick of Delray Beach, and Bob Willoughby of Winter Park.

There are seven contest divisions. One winner will be chosen from each.

The "Courteous Cop Contest", which is sponsored annually by the Florida Clubs of the American Automobile Association, continues through midnight Thursday, March 31. It is designed to stimulate the tourist industry through courteous treatment of visitors.

Band Will Attend
District Contest
In DeLand Friday

Fifty-seven members of the Seminole High School Band will leave at 7 a. m. tomorrow for an all-day district contest in DeLand which will include bands from Seminole, Orange, Volusia, Marion, and Brevard Counties. During the day each group will enter four phases of the contest which are concert, sight reading, drill, and solo and ensemble events.

Each band enters in a classification based on the high school enrollment and they are then rated in the highest possible rating. First on the schedule for the local band are solos and ensembles beginning at 7:40 a. m.

The group will enter 15 events in this contest and at 1:30 p. m. in the DeLand High auditorium will play the concert consisting of the march of "His Honor, overture "Sir Lancelot," and "Au Pays Lorrain". Immediately following this the students will be given a march and overture, recently published, to be sight read.

Entering the student contest event will be Honnie Robison and Bob Reely Jr. All events are open to the public.

At 7:45 p. m. in DeLand Memorial Stadium all bands will mass together to play five marches and each will then perform separately 13 required maneuvers and a special show. The SHS Band is to enter the field at 10:20 to be judged.

Director Ernest Cowley stated today, "I believe this year's band will make a fine showing in all the events that it enters. The students have put in many hours of extra practice since the Christmas holidays along with their regular activities."

Address Books Tell
Customers' Names

NEW YORK (AP)—Names of well-paying customers for Pat Ward's charts and poppers out of two address books as the jittery ex-caller galls the bedroom secrets of her love-for-sale career at the Mickey Jolke trial.

She already has named a score of men she says had relations with her, paying anywhere from \$50 to \$200 apiece.

She was called back today to reveal more names in the state's case against the 25-year-old old-maid margarine heir, charged with recruiting her for safe society prostitution.

The prosecution is using a big black leather book it identified as Jolke's telephone book and a small red leather book it identified as Pat's.

Pat, star witness for the prosecution, testified yesterday she and Jolke compiled the directories when he allegedly was starting her out in the vice trade in 1951 and 1952.

Nationalist China
Interest Is Slight

TAIPEI, Formosa (AP)—Nationalist Chinese officials, bitterly familiar with the effects of the Yalta conference which gave Soviet Russia special rights in Manchuria, evinced only scant interest today in the records published by the U. S. State Department.

President Chiang Kai-shek, in southern Formosa, was not expected to comment.

The matter was not even mentioned at a routine Cabinet meeting, according to a minister who attended.

MISSION ARRIVES
NEW DELHI (AP)—Ex-King Norodom Sihanouk of Cambodia has arrived here with a 10-man good will mission to India.

HOUSE TO DEBATE
THE HAGUE, Netherlands (AP)—The Dutch lower house has decided to start debate March 29 on the Paris accords to rearm West Germany.

Minister Answers Questions

Action May Hurt
Free Exchange

LONDON (AP)—The Prime Minister, who was answering legislators' questions, indicated his displeasure at Washington's publication of the documents by saying:

"If this became an established practice it might hamper the free exchange of views at future conferences. In any case, it would seem a good thing to consult together on the text of any publication during the lifetime of the individuals concerned."

The 1945 Yalta conference in the Crimea was attended by President Roosevelt, Premier Stalin and Churchill. The 80-year-old British leader is the only survivor of the Big Three.

Britons generally were shocked and angered by disclosures in the documents—particularly President Roosevelt's suggestion that Hong Kong be turned over to China.

The Churchill government disclosed Saturday that it had approved a U. S. suggestion for publication of the Yalta record. A Foreign Office statement said publication would be "unacceptable" during the lifetime of the conferees and might lead to misunderstandings.

"When the U. S. government asked if we nevertheless would agree to publication, the British government gave their consent," Churchill said today.

Churchill was asked to comment on a remark about the Poles attributed to him in the Yalta papers according to which he said: "In that the Polish elections will be held in a fair way, I do not care much about the Poles myself."

The Prime Minister did not deny making the remark, but claimed that the quotation as presented gave an erroneous impression.

Horse Show Owner
Suit Is Opened
In Circuit Court

A \$5,000 damage suit brought by a show horse owner against the former owner of Maysal Ranch, near Longwood, opened today in Seminole Circuit Court.

I. Grady Stephens, Lake Park, charged that his mare was damaged in 1952 while being put to stud on the ranch then owned by Albert D. Burke.

Burke is making a \$198 counter claim for medical expenses and board.

Jury men who must decide the case are Albert E. Hall, Bernard D. Lake, Lou G. Hattaway, Benjamin F. Whitner Jr., William B. Williams, and Bonner L. Carter.

Attorneys for Stephens are Heskin A. Whitaker, Orlando, and Morrow, Fulton and Sullivan, West Palm Beach. W. C. Hultquist Jr. is the attorney for Burke.

In court yesterday, an all-male jury granted Maybelle J. Picketts \$3,911.31 and her husband Samuel, \$1,000 for injuries received in a two-car collision in Sanford Sept. 1, 1953.

Their suit was brought against Dolan H. Rowe, Sanford.

Attorney George A. Speer Jr., represented Mr. and Mrs. Picketts and the Orlando firm of Maguire, Voorhis and Wells represented Rowe.

Comment Affirmed
By Supreme Court

The Florida Supreme Court yesterday affirmed without comment Seminole Circuit Judge Vassar Carlton's judgment in the case of A. D. Rosier against National Gypsum Co.

Judge Carlton had ruled in favor of National Gypsum. Rosier was suing the firm for failure to comply with a purchase agreement.

Rosier operates a plumbing and heating supply company at 111 N. French Ave.

Douglas Stenstrom was the attorney for Rosier. Clark W. Toole Jr. represented National Gypsum.

Marble Chips Gone
From Building Site

Twenty-five bags of marble chips, valued at \$75, were stolen yesterday from the site of a new building being constructed at 1301 E. 2nd St., City Police reported.

The building is being constructed by Dr. A. W. Epps and Dr. John Morgan. Located directly behind the new hospital. It will have two office rooms and a lobby. Lowell E. Ozler is the contractor.
