assisted the nation's biggest dairy cooperative in a tax audit that failed to uncover the dairymen's massive illegal political donations and alleged kickbacks, the co-op's former

obbyist is quoted as saying. Bob A. Lilly, former lobbyist for Associated Milk Producers, Inc., said Connally, then Treasury secretary and in command of the Internal Revenue Service, "may have resolved" the tax matter, according to notes taken by a

lawyer who interviewed Lilly. Also, co-op lawyer Jake Jacobsen once told the milk producers' leaders that Connally had written about the matter directly to R.L. Phinney, the IRS district director in Austin, Tex., an informed source said.

Phinney, a long-time friend and former business partner of Connally, acknowledged that he had been involved in the 1971 audit, but denied that Connally or anyone in Washington had contacted him about it.

Mehren and Lilly were interviewed by lawyers conducting an independent probe of the milk producers' political activities. The notes of those interviews were subpoenaed recently and made public in court records.

Also made public was a letter that Lilly wrote to Jacobsen when the tax audit began. The letter was dated Aug. 26, 1971, a few months after Jacobsen had enlisted Connally to help persuade President Nixon to raise milk prices. Lilly asked Jacobsen to help again.

Lilly said Doyle Bond, an IRS agent from San Antonio, Tex., the milk producers' headquarters, was asking questions about some suspicious checks. Lilly said Bond had indicated he might get a promotion if he could "raise an issue over our questionable expenditures."

Those questionable expenditures may total several million dollars, recent disclosures indicate. But when the audit was over, nothing new had been uncovered-and the milk producers owed no extra taxes.

#### A Teacher's Dream

CORDIA, Ky. (AP) - Mrs. Ruby Amburgey, who has been planning her "dream trip" to England for nearly 20 years, will be going in July, thanks to two years of conniving by her high school English students. Mrs. Amburgey has dreamed of visiting the home of her favorite English authors and has especially wanted to visit St Paul's Cathedral in London, to see her husband's name, Arnold Amburgey, among a list of American servicemen killed in action during World War II. She finally is getting her chance. Last Thursday, during a "class day" celebration, the 11 students in the senior class at Cordia High School where Mrs. Amburgey has taught English to all four grades since 1964 presented her with a check for \$600, raised in secret over two years by cake sales, minicarnivals and profits from the school newspaper. "I tried to speak, but I couldn't. I cried," Mrs. Amburgey said

They said Michael Baroca, 32, went to the rescue of 13year-old Joyce Dowsey of Montgomery, Ala., who was swept about 200 yards offshore when the water at Gulf Shores State Park became rough. She also drowned.

#### Hearst: Patty Forced

HILLSBOROUGH, Calif. (AP) - Patricia Hearst's father says the reported discovery of a blindfold that may have been used on his daughter recently only confirms his belief that she is acting under duress.

"I've always known that she was taken against her will from the very beginning," newspaper executive Randolph A. Hearst told newsmen Sunday at his mansion in this San Francisco suburb. "I always felt she's been coerced." Miss Hearst, 20, has said in two taped messages that she decided to join the terrorist Symbionese Liberation Army, which kidnaped her on Feb. 4. She is sought by the FBI as a material witness to an SLA bank robbery, which she said she joined in voluntarily.

The blindfold is one of the items which The Chicago Tribune said in its Sunday editions was found by federal investigators in a May 2 raid on a San Francisco apartment that had been used by the SLA.

before U.S. District Judge Barrington Parker. Failing dismissal of the three-count indictment, Reinecke wants to move his trial to San Francisco or Sacramento and suppress certain evidence he gave to the Watergate special prosecutor.

Judge Parker has set the trial date for July 15, but Reinecke repeatedly has said he wants the trial completed before voters decide on his bid for the GOP nomination

#### Sirica Mulls Tapes

WASHINGTON (AP) - President Nixon's lawyers are trying to persuade U.S. District Judge John J. Sirica that the White House should not have to give any more Watergate tapes to the special prosecutor. Also coming up for Sirica's attention is a report from a panel of tape experts on the 1814-minute gap in one of the tapes Nixon turned over earlier. The experts presented Sirica their report May 4 after nearly six months of study. The additional tapes figure in a subpoena by Watergate prosecutor Leon Jaworski, authorized by Judge Sirica on April 18, for tapes and documents covering 64 White House conversations.

#### Senators Debate Busing

WASHINGTON (AP) - The Senate is heading into a bitter floor fight over renewed efforts to virtually kill court busing orders as a method of achieving school desegregation. The first voting showdown on the issue will come Wednesday. But there may be other tests before the Senate finally disposes of the massive \$23 billion education bill serving as the vehicle for the busing battle.

#### Woodcock Decision Due

Auto Workers President Leonard Woodcock back in the negotiations is being discussed by the union's International Executive Board.

The proposal would provide three-year terms for UAW officers instead of the current twoyear tenure. If adopted, Woodccck-whose election to a third term next month is certain-would remain president of the 1.5 millionmember union until 1977.

Under the current UAW constitution, he will have to give up the office in 1976 because of mandatory retirement provisions that ban the election of UAW officers after they

#### Children Face Starvation

UNITED NATIONS, N.Y. (AP) - Many more children in poor countries face the danger of starvation because of new high food prices, the head of the United Nations Children's Fund said today.

"Before the recent price rises, it was estimated that . there were some 10 million severely malnourished children in the world with a high risk of mortality," Executive Director Henry R. Labouisse said in a report to UNICEF's 30-nation executive board. "Now we have to expect a considerable increase in their

#### Divorce On Italian Ballot

ROME (AP) - Italian voters today complete a two-day referendum on repeal or retention of divorce that could bring down Premier Mariano Rumor's government no matter how the vote goes. By Sunday night, 73.8 per cent of the country's 37.5 mil-

But a late trend indicated many people

"We have agreed in principle on everything," Schmidt Democratic party met with their partners in the governon a new cabinet and government program and would hold one or two more sessions to work out details.

#### Red Square Is Closed

MOSCOW (AP) - Red Square will be closed until November for repairs including a block-by-block restoration of Lenin's tomb, the Soviet news agency Tass reports. Numbers have been painted on the red granite blocks of the 44-year-old mausoleum so it can be put back together

after it is dismantled. The work also will include reinforcement of the earth beneath the cobblestone square and a facelift for the Spassky Tower, the main tower of the Kremlin. Tass explained that intercontinental ballistic missiles and other enormously heavy military hardware that has passed across the square during parades have damaged the granite cobblestones and caused the earth beneath
