Boat Drive

The Casselberry Fire Dept. will start a drive for a rescue boat within a month, Town Fire Chief Paul Bates said Wednesday.

"Because of the number of lakes and the increased population we feel it's almost a necessity," Bates said. There were several drownings in the south Seminole County area last year.

The firemen also will get weekly first aid courses starting next Wednesday. Owen W. Anstey will give the lessons each Wednesday night at the firehouse.

Elder To Speak At Church Revival

Elder Bob Mathews, evangelist and district leader of the Adventist Churches in Taft, Kissimmee and St. Cloud, will conduct a revival at the Seventh Day Adventist Church here.

The nightly meetings, beginning Sunday, will be at 7:30 p. m. every evening until May 7, when Elder Mathews will speak at the regular 11 a. m. service. On May 8, a close out meeting will be at 7:30 p. m.

The public is invited to attend any or all of these evangelistic services.

Chuluota Church Dinner Tonight

The Chuluota Community Church will have the first of its monthly covered dish dinners tonight at 6:30 p. m.

All members and friends of the church and their families are invited to attend. Each family brings one part of the meal and all share in the various dishes.

The church plans to sponsor a covered dish dinner on the last Friday of every month. This will provide the residents an opportunity to become better acquainted, and to get together with their friends.

Special Sermon

Rev. Richard Carter, pastor of the Congregational Christian Church, has announced a special sermon topic, "The Puzzle of Judas," to be given at the regular 11 a. m. worship service on Sunday.

PICTURE PRETTY

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a member of the great world. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Day	Book	Chapter	Verse
Sunday	Psalm	15	1-5
Monday	Matthew	2	13-15
Tuesday	Mark	7	14-22
Wednesday	John	14	1-16
Thursday	John	8	12-18
Friday	Philippians	1	4-11
Saturday	John	16	25-26

Pretty as a picture, isn't she? She looks "downright" angelic. Yet, five minutes from now, she may be a little bundle of fury!

Children change faster than the wind. They haven't learned to hide their feelings. But while grown-ups may present a better camouflage to the world, there are few of us without inner conflicts. And these conflicts can be serious.

It would be a lonely world if we had to keep all our problems to ourselves. We don't God never intended that we should have to solve all our difficulties single-handed. Remember, He established His Church on earth for us. In that Church we will find understanding, fellowship, and the faith to work out our own destinies.

Take your problems to Church. Pray that you will find a solution to them. Talk them over with your minister. And what seems a maze today may become a straight road tomorrow.

State Candidates Fix Attention On Boats, License Plates, Phosphate During Campaign

By United Press International
 Florida's candidates for governor fixed their attention on license plates, boats, and phosphate during Thursday's campaigning.

Farris Bryant proposed that Florida license plates be issued every two years instead of annually.

Speaking in Gainesville, Bryant said the saving in material and administrative costs could be applied to improving public schools.

Haydoh Burns rolled into Miami accompanied by a mammoth searchlight and a 60-foot barge.

The Jacksonville mayor sympathized with boat owners "bearing an unfair double taxation load which should be relieved."

John McCarty said at Tampa that a proposed severance tax would "lead to the virtual extinction of 95 per cent of the phosphate export business."

Additionally, he said, "such a tax would hurt all farmers by increasing fertilizer costs."

Another candidate at work in

Tampa Thursday, Doyle Carlton, said opponents were criticizing him because they recognized that he is leading the race.

"We've had everything thrown at us from all sides this week," he said, "from personal attacks against my family to deliberate falsehoods and smear literature."

Ted David and State Milk Commission Chief Bralley Odham swapped words over Odham's statement that he has decided to vote for Carlton.

David contended Odham decided on Carlton because he feared a vote for another candidate might be useless.

Odham disagreed. "Actually," he said, "I am voting for Carlton with some real doubts as to whether he will win, but with the firm conviction that he's the best man to be governor."

Jesa Yarbrough, Tom Adams, and Angus Laird continued running hard in the race for secretary of state.

Adams said in West Palm Beach

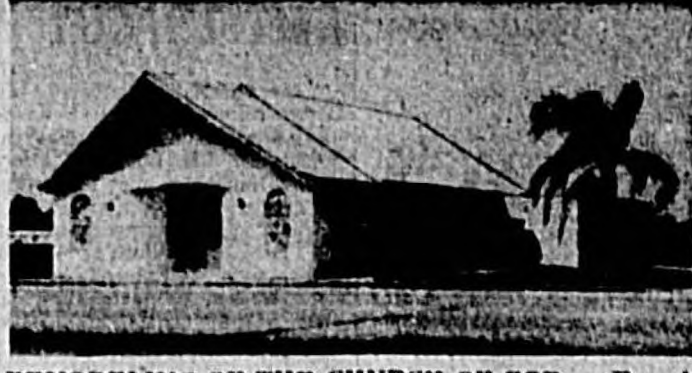

he might win the election outright Tuesday and not have to face a run-off.

In his Miami hometown, Yarbrough said he was "pledged to do everything in my power to avert a schism between the people of South Florida and those of the vast northern sectors of the state."

Laird promised at Tallahassee to make prison reform one of his major interests if he is elected.

Incumbent J. Edwin Larson and Al Cahill continued most active in the four-man race for state treasurer and insurance commissioner.

Larson, campaigning at Crestview, cited his record in support of education as a major talking point in his bid for re-election.

REMODELING OF THE CHURCH OF GOD on French Ave. has been completed. The new arrangement consists of nursery, pastors study, young adults department, Baptistery and a new kitchen. The educational department has been completed also.

Nikita Rejects In Advance Principal West Is Summit Pitch

WASHINGTON (UPI)—Soviet Premier Nikita Khrushchev has rejected in advance the West's principal summit conference pitch on Germany — a plebiscite in which the Communist East Germans could decide their own future.

His rejection came in the course of a long speech at Baku, in the Soviet republic of Azerbaijan earlier this week. But the full significance was lost in the spot news concentration on his rejection.

J. Richard Sims of Omaha was moved up from executive secretary to president to succeed Howard W. Lundgren, who was removed at a specially called meeting in Miami earlier this month.

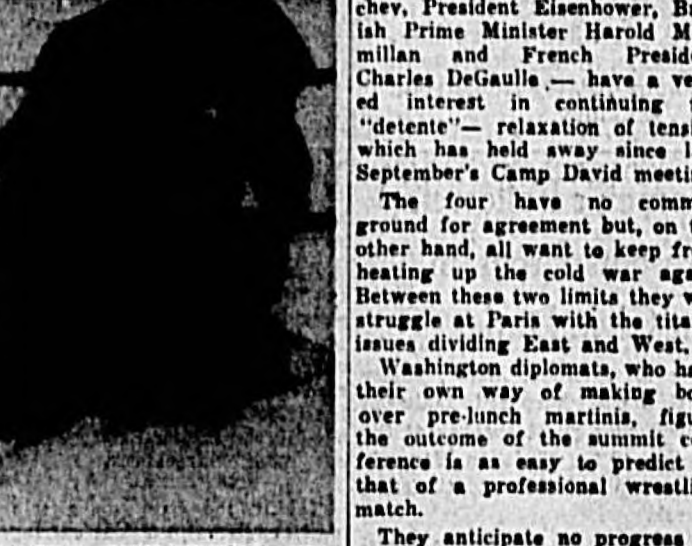

About 250 members of the society's sovereign camp met here to elect officers and act on resolutions of the board of directors.

The delegates confirmed the action of the board in dismissing Lundgren, the appointment of former Georgia Gov. E. D. Rivers as chairman of the board and the appointment of a committee set up to look into the possibility of moving the society's headquarters.

Rivers said there was "a possibility" that a large southern regional office might be established here but "there is nothing definite at this time."

Robert L. Kirk of Omaha will move from treasurer to executive secretary and William H. Martin of Lakeland will be the new treasurer.

A 22-member committee had been set up to look into the possibility of moving the headquarters from Omaha to a southern city. The committee recommended that the headquarters be at a point that had 35 per cent of the society's members within a 500-mile radius.

KARLA WELLBORN, 13-year old daughter of Mrs. Lida Dunlap, 518 S. Palmetto Ave., has recently signed a contract to make records for a recording company, with headquarters in Orlando. Karla is an eighth grade student at the Pinecrest School and sings with the glee club.

Racial Problems Growing In Mississippi

By United Press International
 Gulf Coast officials kept a close watch on the tense racial situation in Mississippi today to prevent a recurrence of the riots that broke out last weekend in Biloxi.

Further curfew restrictions were imposed by officials at Keeler Air Force Base in Biloxi to keep personnel from becoming involved in "any civil disturbance" that might occur.

In Florida, officers dispersed a large crowd which gathered Thursday in northwest Miami where a Negro was reported to have struck a white woman.

The sheriff's office reported that a white man in a car fired a pistol shot at the Negro, but missed. The crowd was dispersed quickly and no blows were struck, officers said.

In Jackson, Miss., a Negro integration leader met behind closed doors for 90 minutes with the State Sovereignty Commission.

Dr. Felix Dunn, Gulfport dentist, refused to comment on the meeting with the commission, an agency for maintaining segregation.

Dunn was one of four Negroes who filed a petition seeking equal rights along the 26-mile Gulf Beach last year. The public beach is reserved for "whites only."

Sheriff James Ira Grimsley said in Pascagoula, Miss., that all firearms in Jackson County, which borders the county where the racial violence erupted, must be registered immediately with his office.

Other developments:
 Protests against segregation in South Carolina regained momentum Thursday as Negro students in Charleston and Columbia resumed demonstrations after several weeks of quiet.

The faculty of Fisk (Negro) University in Nashville, Tenn., called on President Eisenhower to order an FBI investigation of the

bombing of a Negro leader's home.

An official Georgia commission recommended that Georgians be allowed to vote on a "freedom of choice" program permitting the state's first desegregated classrooms. In Savannah, city officials considered a proposed ordinance to outlaw assemblies of two or more persons whose activities tend to interfere with business activity.

Michigan State University's Highway Traffic Safety Center has inaugurated a new kind of driver education course—for drivers over 65.

Churches Observe Family Week May 8

The Baptist Churches of Sanford in co-operation with the Southern Baptist Convention will observe a Christian Home Week, beginning Sunday and running through May 8.

The First Baptist Church will have a Home dedication service at 11 a. m. Sunday. The special guests will be parents with children enrolled in the cradle roll class at Sunday school. A message on home dedication will be given by the church's pastor, Rev. W. P. Brooks.

Sunday evening at the 8 p. m. service, families will be seated together for a Lord's Supper observance. Wednesday night, parents and children meet in the auditorium for a film at 7:30 p. m. and then class visitation of the church school classes that the children attend.

The Elder Springs Baptist Church will have Christian Home Sunday. A special "Dedicated Homes" theme will be carried out in the morning service Sunday. Wednesday Prayer service at 8 p. m. will feature a panel discussion of "The Value of Christian Homes." Friday, family fellowship and a covered dish supper will highlight the week. In observance with Mother's Day and the close of family week, May 8, at the regular church service, there will be special recognition of the youngest, oldest and mother with the most children.

Pinecrest Baptist Church will recognize Christian Home Week and Mother's Day in a special sermon and church program on May 8, at the morning worship service. Pastor of the Sanford Area Baptists invite any interested persons to attend these programs.

A MOMENT OF TRUTH FOR SEMINOLE COUNTY

This Tuesday, May 3rd, the voters of Seminole County face a decision quite unlike any facing voters in other counties of Florida. Seminole County, after years of unfair, unequal hit or miss assessments — after a near complete breakdown in the county's ability to perform in the area of educational facilities for our children, finally was given new hope when the Governor of the State of Florida removed the tax assessor in September of 1959. The interim appointment went to Richard E. McCanna of south Seminole County. Since that time under the guidance of McCanna, Seminole County has undergone a complete revision of its tax structure. Now Seminole County schools are assured of funds to continue the current building program, to eliminate double sessions next year, and the new broad tax base is at last treating each and every tax payer of Seminole fairly in a true spirit of democracy. **FAVORITISM NO LONGER EXISTS IN THE TAX STRUCTURE OF SEMINOLE COUNTY.**

We respectfully urge your attention to the following facts: The individual who placed Seminole County in jeopardy is a candidate for the office of tax assessor once again. The same office from which she was removed by the Governor with the statement that "She has heretofore failed, and she continues to fail to discharge her duties in a lawful manner and persists in refusing to acknowledge and follow the legal requirements and responsibilities of her office." **THE EYES OF THE ENTIRE STATE ARE ON SEMINOLE COUNTY.** The future of progressive Seminole County is in the hands of the voters.

RICHARD E. McCANNA

YOUR SEMINOLE COUNTY TAX ASSESSOR

OFFERS THIS PROGRAM FOR CONTINUED
PROGRESS

Each property owner will be treated as the law provides — equally and fairly. Your Tax Assessor's office and the tax rolls of Seminole County are now and will always be open for your inspection. In this open and frank manner of operation your county will continue to grow and prosper. Because of the fair broad tax base we have used, monies will be available so that you the people of Seminole County can be assured that the services and facilities of your county government will be equal to those of any in the state of Florida.

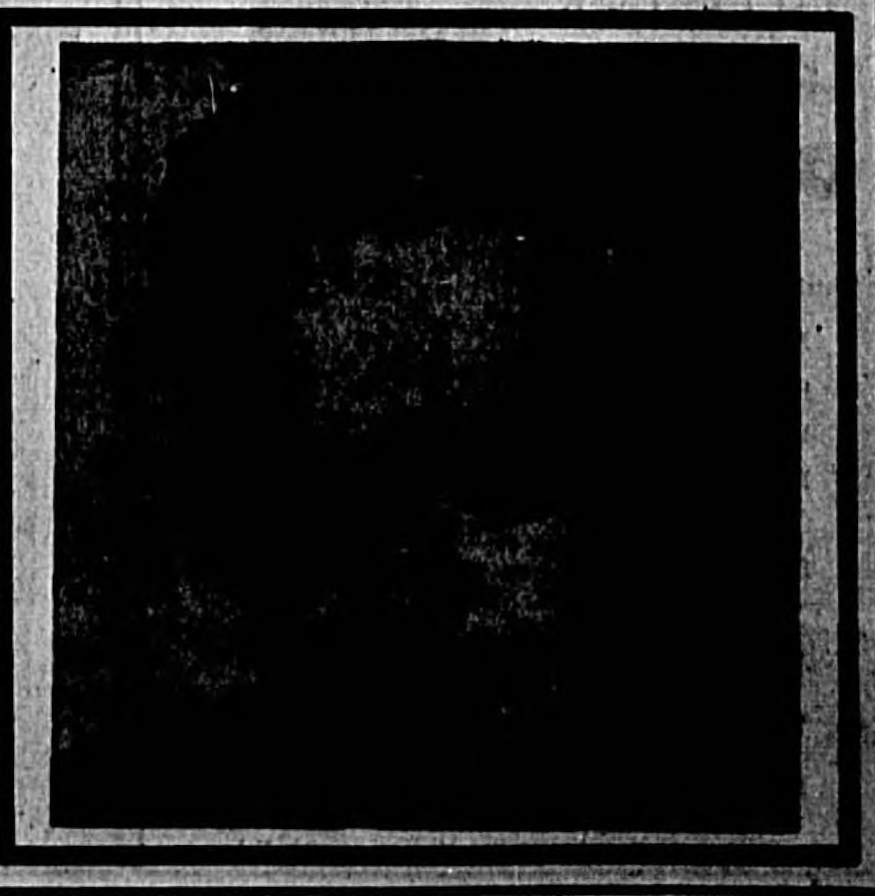

I POINT WITH PRIDE THAT MY APPOINTMENT WAS SUPPORTED UNANIMOUSLY BY THE LEGISLATIVE DELEGATION OF SEMINOLE COUNTY. I ALSO POINT WITH PRIDE TO THE FACT THAT I WEAR NO MAN'S COLLAR.

I wear no tag of any individual or special group. Make no mistake — I stand for election as a free man, free to serve you all the people in Seminole County.

Lutheran Women Receive Corsages

"The Christian Women—Her Community" was the topic for discussion when the Ladies' Aid Society of the Lutheran Church of the Redeemer met recently at the church.

Guest speakers, each representing one of Sanford's Women's clubs, were introduced by Mrs. Ray Braden, program chairman. Mrs. Fred Ganas, of the Iso-

ria Circle of the Sanford Garden Club, gave an enjoyable demonstration on corsage making. This was particularly interesting to the members as they are planning to make corsages to be given to all the mothers attending worship at the church on Mother's Day.

After her demonstration Mrs. Ganas presented the corsages she

had made to Mrs. Joe Senkark and Mrs. V. Meyer, who were celebrating April birthdays and to Mrs. Herbert Goers who was celebrating an April wedding anniversary.

Miss Myrtle Wilson, Seminole County home demonstration agent, gave an interesting account of the H. D. groups in Sanford and told of their various activities and services.

Representing the Ladies' Auxiliary of Seminole Memorial Hospital, or "Pink Ladies" as they are better known, was Mrs. John Senkark. She too acquainted those present with the organization, the duties they perform

and some of the qualifications necessary to maintain membership in the organization. Mrs. K. V. Mykkanen, of the Story League closed the program with a prayer.

Following the program, the regular business meeting was presided over by Mrs. George Daniels, president. Mrs. Jerry Senkark led the devotions for the evening.

Mrs. Claude Bomgardner and Mrs. Laverna Trued were hostesses, serving refreshments to the 28 members and 4 guests present.

Misses Miss Out
BINGHAMTON, N. Y. (UPI) — Francis Kutz, a male student nurse at the Binghamton State Hospital School of Nursing was named winner of a competition to find "Miss Student Nurse of 1939" at the hospital.

SEMINOLE COUNTY was well represented at a recent rally for gubernatorial candidate Doyle E. Carlton in Orlando. Left to right are Ernest Southward, Mrs. William Stempers, Mrs. Ernest Southward, Ira E. Southward, Mrs. Douglas Stenstrom, Robert Bennett, Herbert Sten-

strom, Carlton, Frank Wheeler, Mrs. Doyle Carlton, Joe Davis, Paul Mikler, Homer Sewell, Mrs. Joe Davis, Mrs. Frank Wheeler, Will Hawkins, Mrs. E. S. Higginbotham, Mrs. Robert Bennett, Mrs. C. O. Jones, Patty Stenstrom, Sen. Douglas Stenstrom and A. C. Doudney.

Oviedo Tea Honors Miss Sandra Lee

BY MARIAN E. JONES

Miss Sandra Justice Lee, daughter of Mr. and Mrs. J. H. Lee, Jr. of Sanford, and granddaughter of Mrs. J. H. Lee, Sr. and the late Mr. Lee of Oviedo, was honored at a tea given by her four aunts, Mrs. B. F. Wheeler Sr., Mrs. T. W. Lawton, Mrs. W. P. Carter and Mrs. W. J. Lawton at the home of Mrs. Wheeler in Oviedo. Miss Lee will become the bride of Melvin Goebel, Sanford, son of Mr. and Mrs. Glenn Goebel, at the First Methodist Church in Sanford June 10.

The party rooms of the spacious Wheeler home were decorated with a profusion of snapdragons, roses, calla lilies, sweet peas, and sun's lilies in artistic arrangements at vantage points.

Sanford guests attending the tea included Mrs. James H. Lee Jr., mother of the bride-elect, Mrs. W. L. Carter, Mrs. W. B. Kirby, Mrs. Glenn Goebel, mother of the groom-elect, Mrs. Ira Southward, Mrs. Al Doudney, Mrs. Billy Southward, Mrs. Ernest Southward, Miss Sharon Lee, Betsy Ann Carter, Jess and Rosemary Southward.

Spring lingerie has blossomed out in new color combinations—gray lace on pale pink, beige lace on orange nylon, and cinnamon over beige. Double layers of fabric also are used, such as gold nylon tulle over white, bright pink over light pink, and ivory rose tulle under white sheer.

Taking the baby on a trip is much easier with a "car carriage." One model can be converted into a bed—or used as a stroller—and then collapse for storage.

Others invited included Mrs. Arthur Evans, of Chicago, Ill., Mrs. T. W. Lawton Jr., Orlando, Mrs. W. H. Martin, Mrs. W. Evans, Mrs. Robert Lee, Mrs. Charles S. Lee Sr., Mrs. J. H. Lee Sr., grandmother of the bride-elect, Mrs. W. R. Clotis, Mrs. B. F. Wheeler Jr., and Miss Miriam Wheeler, Kathryn Lawton and Anne Martin.

Phebean S. S. Class To Buy Rug

Mrs. H. L. Swaggerty was hostess to the Phebean Class of the First Baptist Church for their April business meeting and social.

The meeting was opened with devotional prayers by the members. Mrs. Charles Thomas was welcomed to the group.

Mrs. G. W. Skipper conducted the business session and appointed Mrs. Ralph Betts, Mrs. James Smith, and Mrs. Bill Jones to serve on the committee to secure a rug for the church nursery. It was decided to send cards

to the members in service notifying them of the class activities. Games were enjoyed by the group under the direction of Mrs. Betts. Prizes were awarded to Mrs. Alfred Chiles and Mrs. Smith. Mrs. Swaggerty served refreshments from the dining table which was centered with an arrangement of red glads and red tapers.

Women's Fellowship Presents Program On Civic Duties

The Rev. Ernest Bolick, pastor of Good Shepherd Lutheran Church, was guest speaker at the meeting of the Christian Women's Fellowship of First Christian Church.

He used as his topic "The Christian Woman and Her Civic Responsibility." He told the group that it is the civic duty of each citizen to register and vote. Rev. Bolick also offered several suggestions on being good citizens including, know the law, have an interest in community meetings, attend court sessions, know your law officers and the process of law in the city, support good referendum and if you have no idea for good reforms, get behind it. He said "that it is a Christian's responsibility to be the conscience of civic leaders."

Elect **DOYLE CONNER**
Commissioner of Agriculture

THE JOB: No post in the State Cabinet has such impact upon public welfare as that of the Commissioner of Agriculture. The duties of this office go far beyond the State's agricultural pursuits—into intimate corners of everybody's life; the car you drive, the lipstick you use, the food you eat, the welfare of your child in school, the taxes you pay, your health, the economic stability of your job.

EXPERIENCE: 16 YEARS OF LEGISLATIVE SERVICE: Five terms, Florida House of Representatives. House Speaker in 1927-1928. Chairman of Agriculture Committee (two sessions); Chairman of Committee on Rules, Member Health, Finance and Taxation, Safety, Citrus Committee, Constitutional Advisory Committee, Legislative Council.

An outstanding legislative record, wide agricultural experience, complete freedom from special-interest ties and devotion to the public welfare qualify Doyle Conner for Commissioner of Agriculture.

HE pledges to:

1. promote the general welfare of Florida, and as a Member of the State Cabinet to promote increased efficiency and economy in government;
2. promote the development of markets for Florida products through the establishment of a Marketing Institute;
3. plan for better usage of Florida lands;
4. promote conservation, drainage, and development of the State's water resources;
5. promote Florida's vast citrus industry, and assure uniform inspection;
6. protect farmers and the public, by rigid inspection and control of weights, measures, and analysis of consumer products;
7. assure honest and impartial enforcement of laws regulating seeds, feed, fertilizers, insecticides, and fungicides;
8. advance the school system of Florida;
9. foster adequate care of the aged and of dependent children;
10. protect our bays, beaches, and waterfronts against indiscriminate filling;
11. secure job stability based on efficiency for Department of Agriculture employees;
12. work for adequate prison and mental institutions;
13. implement reorganization of the Agriculture Department.

BY JEANNE WARNEK
OFF FOR A WEEKEND CRUISE are Mrs. R. S. Miller and Mrs. Earl Faust who left town with their husbands, Wednesday.

MRS. FAUST
for a cruise to Haiti. They spent that evening with friends in Ft. Lauderdale and then yesterday left Fort Lauderdale on the motor vessel, "Frances C." for the cruise.

In Haiti they will be shown all the interesting places by a friend, Mrs. Vera Gallop, who is with the American Embassy there.

THIS IS THE SEASON for conventional Sanford people must be meeting one another as they travel to and from Miami Beach. Headed in that direction next week will be "Ceony" (Mrs. Christopher) Butler and Bettie (Mrs. Victor H.) Robello who will attend the Pink Ladies' Southern Home convention at the Davville Hotel. Mrs. Butler, local president of the Pink Ladies and Mrs. Robello, second vice-president, will stay at the Carrillon Hotel while they are representing the Auxiliary.

AND MENTIONING the Pink Ladies' brings to mind that they are busy with plans for their fund raising event to be held on Thursday, May 12 at the Woman's Club.

Mrs. Robello, party chairman, said a pleasure-filled afternoon will include refreshments, fashion show, bridge or canasta (or you name it) and many door and table prizes—all for \$1, too, so hurry and reserve a table for your friends!

Models, who will show summer styles from Yowalla's department store and outfits from Nell's noon.

Studio of Hair Design, are Mrs. A. B. Peterson, Jr., Mrs. J. M. Truluck and Mrs. Clyde Savate and from our neighboring town of DeBary, Mrs. J. L. Feistel, Mrs. B. Newton, and Mrs. Frank Woodruff. Narrator will be Mrs. Butler.

Hostesses will be Mrs. Bill Oyer, Mrs. A. B. Peterson, Sr., Mrs. C. Woodard, Mrs. J. N. Astarallo, Mrs. P. Ahrens and Mrs. A. Marsh. Among those serving on various committees are Mrs. William Crabtree, Mrs. Michael Caolo, Mrs. Reuel Robison, Mrs. Roy Britt, Mrs. Doc Faulkner, Mrs. Oyer, Mrs. W. Sandell, Mrs. Chester Reatrice, Mrs. Alonzo McCalley, Mrs. Feistel, Mrs. Frank Woodruff, and Mrs. Alonzo McCalley.

THE GREMLINS that often plague a newspaper story are so inevitable at times that they are hardly worth a mention when they do scramble your best phrased sentence or misplace a letter here and there—not when one stops to consider the many people and the intricate parts of machinery that touch every little piece of type. If only everyone could visit a newspaper plant and see the many places for the gremlins to lurk!

And while on the subject we can use Wednesday's column as a mild example—and with apologies to Mrs. Barbara Cottrell who was renamed Barbara and to Mrs. Tom Norris who is, of course, the former Shirley Wall—not Hail!

Woman's Club Plans Luncheon Meeting

The General Business Meeting and luncheon of the Sanford Woman's Club will meet at 12:30 p. m. Wednesday at the club. Mrs. B. C. Moore and her committee will be in charge of the luncheon.

All club members are urged to be present for the business session as important items of business will be presented by the board of managers.

Following the meeting, the Fine Arts Department will hold a market basket sale. Each member is requested to bring an item for the sale. Mrs. A. C. McReynolds will be the auctioneer.

Call Mrs. Albert Hardesty at FA 2-3605, for reservations to the luncheon, no later than Tuesday noon.

Titan Missile Scores Again In Test Flight

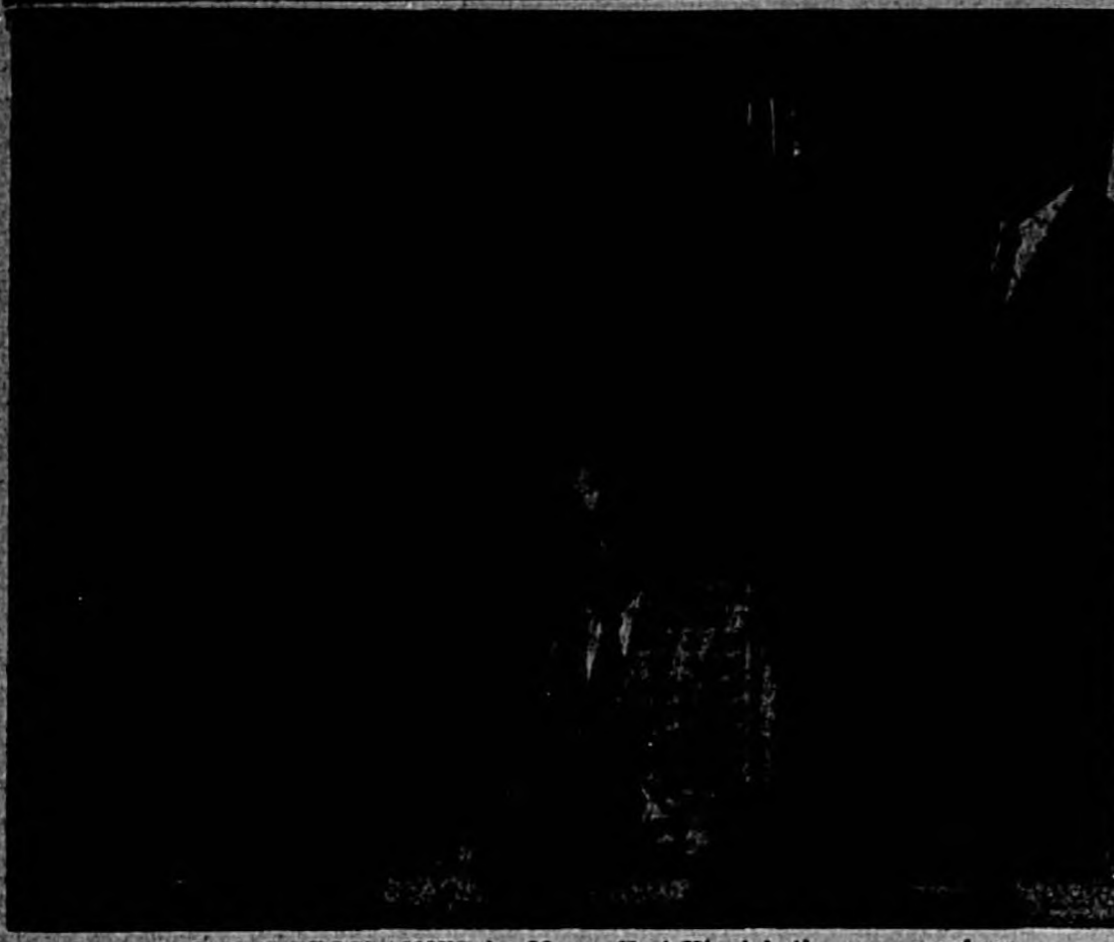

CAPE CANAVERAL, Fla. (UPI)—The Air Force Titan intercontinental ballistic missile, named to boost a Dyna Soar space glider into orbit about four years from now, made its fourth consecutive successful test flight Thursday.

The 3,000-mile shot was a real comeback for the 98-foot missile which was the object of ridicule and congressional criticism only three months ago. Until that time it had given nothing but trouble.

Only 24 hours before the shot, Titan received its first firm commitment for space duty — lifting this nation's ambitious Dyna Soar space glider into orbit around earth.

The Dyna Soar vehicle will give an American astronaut his first crack at control of a space craft's re-entry into earth's atmosphere.

The glider will ride atop the two-stage Titan as a third section, in place of a nose cone and warhead. Titan's first stage develops 300,000 pounds of thrust at sea level, and the second stage generates 80,000 pounds of thrust at about 40 miles.

Florida Bar President To Speak At Observance

The Seminole County Bar Association will hear Clyde Atkins, president-elect of the Florida Bar,

at a Law Day observance tonight. The 7:30 p. m. dinner at the King and Prince Restaurant is part of the Bar Association's commemoration of Law Day USA which is Sunday.

County Judge Vernon Mize, and attorneys Harold Johnson and Philip Logan comprise the county association's Law Day committee.

Another event in conjunction with Law Day will be an address by

attorney Kenneth McIntosh at the Rotary Club meeting Monday at the Civic Center.

President Eisenhower has urged the people of the U. S. to observe the day "as a public demonstration of their devotion to the rule of law as the keystone of peace and order in our national and international life."

Governor LeRoy Collins pointed out:

"The free exercise of religion granted by Article I of the Constitution is being enjoyed by Americans today as a direct result of a law seeking justice and enabling people to live together without undue stress, friction and inconvenience. A close relationship exists between religion and law. After people look to God for guidance, they no longer seek vengeance, but justice for all."

Teenage Couple Drowns In Lake

MONTGOMERY, Ala. (UPI)—Spring was a happy time for Betty and Robert Haney, and they were too young to know that life is uncertain.

Betty, 16, and Robert 18, will be buried side by side today in Greenwood Cemetery.

They met at a skating rink last year. Five months ago they were married. Just a few days ago they learned they were to become parents.

But they still were just kids on an outing three days ago when they awoke themselves—laughing—into a rented 14-foot boat with five other persons on Lake Jordan.

Fifty yards from shore the wake from a passing speedboat swamped the overloaded craft.

Betty did not know how to swim. Robert died in a desperate but futile attempt to save her. The five others made it safely to shore.

Longwood Project Almost Finished

Longwood's paving project is just about finished on Grant and Wilma Aves. Town Street Superintendent John Farina said Wednesday. Paving hasn't started yet on Palmetto Ave. because the street crew is waiting for some power poles to be moved. Orange Paving and Construction Co. is doing the paving job. Double surface pavement is going down on Grant Ave. from Wildmore to Georgia Ave., Palmetto Ave. from Grant west to the railroad, and on Wilma Ave. from Malnar Ave. and Church St.

Longwood workmen are laying water lines on Palmetto Ave. now, Farina said. The water line work started last week.

Only two cities in Europe have drive-in movie theaters—Rome and Madrid—although one is expected to open soon in Frankfurt.

Beverly's Mom Must Stand Trial

LOS ANGELES (UPI)—Platinum-haired Florence Adland must stand trial on charges of contributing to the delinquency of her teenage daughter, Beverly, playmate of the late Errol Flynn.

Superior Judge Allen Miller set a May 19 arraignment date after rejecting an impassioned plea for dismissal of charges against the 53-year-old divorcee.

Mrs. Adland faces a \$1,000 fine or one year in jail or both. Miller dismissed one of the charges in the district attorney's complaint—failure to provide adequate supervision for Beverly—which led to her arrest last week.

But he substituted a count accusing the mother of permitting 17-year-old Beverly to indulge in sexual affairs. Mrs. Adland is free on \$1,000 bail.

Anti-Cuban Government Plot Smashed By Secret Police

HAVANA, Cuba (UPI)—Secret police announced today they had smashed a plot against the Fidel Castro government with the arrest of five persons, including a former deputy chief of the government's super-secret intelligence agency.

They said all were members of a recently organized anti-Castro group called the "Movement of Revolutionary Recuperation."

The secret police said they had seized a large supply of arms, plus ammunition, uniforms, a United States flag, two radio transmitters and a supply of subversive proclamations.

The announcement said police underground agents trapped the conspirators by pretending disaffection with the Castro government and agreement with President Eisenhower's charge that the revolutionary government was betraying the principles which brought it to power.

Among those arrested was Sergio Sanguis Cabarcos, 45, a former deputy chief of the government's intelligence agency. The others were identified as Eduardo Suarez Rivas, son of former Sen. Eduardo Suarez Rivas, Angel Lana Mendez, 34; Jose Marquez Vega, 25; and Pedro Julio Martinez Hernandez, also a former member of the intelligence service.

Police said Sanguis contacted army commandant Rene de los Santos about returning to the army to fight "Communists" inside it and proposed having Suarez and Martinez named captains.

The bases are to be closed next spring and primary training which had been given there combined with advance training at regular Air Force bases.

An Editorial From The DeLand Sun News

'Bud' Dickinson Is Our Choice

There is a Biblical observation that "a prophet is not without honor, save in his country, or in his own house."

Certainly it is often difficult for local residents to recognize or accept the greatness of a man who wins renown in a larger sphere. They knew him "when."

But the proverb doesn't happen to apply to Sen. Fred O. (Bud) Dickinson Jr., of West Palm Beach, who was a resident of DeLand from 1940 to 1948, except for the time he spent in the military service. His DeLand friends who knew him when he was firing groves and working at a dairy while attending Stetson University, feel that his current bid for the Florida governorship is both natural and appropriate. They watched him grow in stature and wisdom over the years, and believe that he is the man for the job.

We of the DeLand Sun News number ourselves among the local people holding that opinion.

State Sen. Dickinson is our choice for the next governor of Florida, and he has our unqualified endorsement.

He was born 38 years ago in West Palm Beach, and even as a boy showed a keen interest in government. When he was only 14, he made his first race, for legislative page boy in Tallahassee, and was defeated by a narrow margin—his only political defeat.

When he entered high school in West Palm Beach, he organized the first student government and was elected its first president. Upon graduation, he entered Stetson in 1940, and because his parents had little money, he worked his way through the university, by waiting on tables, working at a local dairy and at various other jobs.

At Stetson, he was voted a class officer in every class and in 1948 he was elected student body president. As such, he persuaded the late John H. Garham of Seville, the then county commissioner of the West Volusia district, to pave the old shell road behind Chaudoin Hall, thus keeping his election campaign promise to the student body who had elected him.

Cited For Heroism

His education at Stetson was interrupted when the United States entered World War II in 1941. He immediately volunteered for the Marine Corps. At the end of boot camp, he was offered an appointment to officer's training school, but declined that he might go with his division into action in the South Pacific. At Okinawa, he was cited for heroism in combat, and by the end of the war he had worked his way from private to lieutenant.

In 1948 he began the practice of law in West Palm Beach and in 1955 he was elected to the House of Representatives from Palm Beach County. At the end of his first term, he was awarded the coveted Allen Morris Award as the "outstanding first term in the house." In 1956 he was elected senator from Palm Beach County to fill an unexpired term. In 1958 he was re-elected senator for a four-year term. Although he was not required to do so, he resigned his senate seat in order to seek the governorship of Florida. His senate term would have otherwise expired in 1963. By his resignation, he clearly emphasized that he is earnestly running for governor in 1960, and not 1964. This move also evidenced his sincere belief in fundamental democracy. The people will soon choose his successor in the election to be held May 3—not an executive committee, which would have made the choice had he jealously held his senate seat until he had learned whether he was successful in his candidacy for governor. Few men in our time have shown such self-confidence or unselfishness.

His knowledge of our area and its problems is one of the strongest reasons for our endorsement. Approximately 10 days ago, as he appeared on an unheated question and answer TV program in Daytona Beach, he was asked if he favored four-laning U. S. 92. He emphasized the need for the four-laning of the DeLand-Daytona road—a project long advocated by this newspaper—and publicly committed himself to it. He has also pledged himself to bridge Ponce de Leon inlet at New Smyrna Beach, the lack of which has retarded growth in that area.

Honored By Jaycees

"Bud" Dickinson is a brilliant and persuasive orator and is acknowledged to be one of the legislature's most effective members. His contributions earned him the "outstanding man of the year" award from the West Palm Beach Jaycees in 1958. In 1957 he was named one of the five outstanding young men of Florida by the Florida State Jaycees.

Considerable soul-searching has gone into our endorsement. We recognize that there are many outstanding candidates in the race for governor and that several of them are qualified for the job. We have earnestly attempted to evaluate the qualifications of each candidate. Recognizing that our opinion, in a matter of this importance, might be influenced by his residency in Volusia County, his many friends in the county, and by the close contacts he has maintained in this area since 1940, we have withheld our endorsement until we were sure that our judgment was based upon qualifications alone.

In the next four years Florida needs, above all, strong, positive leadership. It needs boldness, imagination and vigor in its executive department. It needs courage, integrity and sound judgment.

These attributes of Sen. Dickinson will assist him when he is called upon to deal with such matters as taxation, road-building, education, race relations, reapportionment, constitutional revision, tourism, agriculture and industrial development in a fast-growing state.

Actually, there are only two basic questions to be answered: Would he make a good governor of Florida? Is he the best qualified of the candidates?

We sincerely believe the answer to both questions is "YES."

U.S. Manned Space Craft To Have 'Wide' Variety Of Military Uses

The Sanford Herald
Fri. April 29, 1960—Page 7

WASHINGTON (UPI)—The Air Force, pursuing its role as the future U. S. space force, rushed plans Thursday for producing a manned space craft with a wide variety of military uses.

Known as Dyna Soar, the space vehicle will combine the ballistic missile and the airplane in a maneuverable machine that can put man into orbit and let him land routinely on large air bases.

The Air Force Wednesday an-

nounced the badly kept secret that the Boeing Airplane Co., Seattle, Wash., had been ordered to go ahead with "design and ground testing" looking toward construction of experimental Dyna Soars.

The Air Force space ship is a sharp departure from the Mercury Project of the National Aeronautics and Space Administration (NASA). Mercury calls for rocketing a man into space in a capsule mounted on an Atlas missile. His re-entry into the atmosphere would

be controlled from the ground and the capsule would be let down gently on a parachute.

The Defense Department holds the Dyna Soar to be a research and development project. It shies away from discussing potential military uses.

Experts consider, however, that the Dyna Soar may be able to perform these military roles in the late 1960's:

- A reconnaissance ship loaded with photographic equipment and

infra-red sensing devices to detect enemy missile launchings and other activities.

- A satellite interceptor and satellite inspector. It could examine objects in space to see whether they were friend or foe, and could be armed to neutralize or disarm enemy space vehicles.
- As a pilotless vehicle, it could orbit the earth carrying bombs which could be dropped on command from earth stations.
- It could be used as an inter-

continental guided missile, which would follow a devious rather than predictable path to its target.

The Dyna Soar project is expected to result in a flying machine by about mid-1964.

The experimental version will be a winged glider, designed to resist temperatures of 2,000 degrees on re-entering the atmosphere. It will be boosted into space by a Titan intercontinental ballistic missile.

The Air Force said \$29,700,000 had been released for the Boeing

project, and an additional \$38,000,000 was being sought in the budget now before Congress.

The Air Force expects to follow a cautious test program similar to that planned for the Mercury Project.

Some time this year, the first Mercury astronaut is expected to take a 300-mile ride down the Atlantic missile range, achieving a height of 100 miles.

In 1961, plans call for orbiting the first astronaut.

Greyhounds Win Fourth Straight

By JERRY COVINGTON
The seeming Sanford bats and strong relief pitching by Forrest Bailey gave the Greyhounds a 13-11 victory over the Daytona Beach Islanders here Thursday night.

It was the Greyhounds fourth victory in a row who now have a record of 4-3 for the season.

Tonight the local FSL entry travels to Orlando for the first meeting with the Dodgers this season and he was very impressive.

The top of the batting order did the trick for the Greyhounds. Leadoff hitter Ozzie Chavarria pounded out three hits in four trips to the plate and drove in four Sanford runs. Bill Dube, who has been experiencing a slump, finally broke out in fine style with a booming triple and two singles. He drove in three runs.

Right fielder Mike Maloney, who is now hitting at a .700 clip, continued to show great talent with the bat as he banged out three for four at the plate and drove in three runs.

First baseman Don Reed also had a good night at the plate and was two for three for the evening. He hit a sharp single in the second inning to drive in two runs.

Green, Updegraff Clash In Amateur Semi-Final Play

PINEHURST, N. C. (UPI) — Peter Green of Franklin, Mich., who won his fourth round match after a tough 20-hole fight, meets long-putting Dr. Ed Updegraff of Tucson, Ariz., today in the semi-finals of the North and South amateur golf tournament.

Charlie Smith of Gastonia, N. C., plays Glen Johnson of Grosse Pointe, Mich., in the other semi-final.

Green took a 1-up victory over Dale Morey of Morganton, N. C., Thursday on the second extra hole after the two golfers finished the 18th even.

Morey shipped about 12 feet past the pin on the 20th hole and then missed his putt. Green chipped dead to the pin and dropped the ball in to take the match.

Updegraff gained his semi-final berth with a 4 and 3 victory over Jennings Randolph Jr. of Clarksville, W. Va. Updegraff eagled with an 18-foot putt on the 8th hole over John P. Ward of Fayetteville, N. Y. Thursday morning on the soggy Pinehurst Country Club course.

Liston Named 'Top' Contender

PROVIDENCE, R. I. (UPI) — The National Boxing Assn. named Sonny Liston top heavyweight contender today but ranked Joey Giardello only fourth among mid-weight contenders.

Liston's first-round knockout over ex-challenger Roy Harris at Houston, Tex., last Monday boosted him to the number one perch, where he replaced ex-champion Floyd Patterson.

Giardello, who held Gene Fullmer, the NBA middleweight champion, to a draw in their recent title fight at Bosman, Mont., has been trying to claim the crown; but today's ranking drops the Philadelphia contender not only below champion Fullmer but below Germany's Gustav Scholz, Detroit's Henry Hank and Chicago's Spider Webb.

In the heavyweight division, former champion Patterson gets his contracted June 20 return shot at Ingomar Johnson's crown.

However, chairman Tony Petronella of the NBA rating committee made it clear that Liston of Philadelphia is regarded not only as the most dangerous contender but "as the most exciting heavyweight to come to the fore since Rocky Marciano."

The coroner of Brown County Thursday paralleled the death of a Green Bay Reformatory inmate to that of collegiate boxer Charles Mohr, on the eve of a meeting that may decide whether the ring sport continues at the University of Wisconsin.

Dr. Clota Bellia officially linked the two boxing deaths that have occurred in Wisconsin in the past two weeks when he said Michael Golubiff's accident "was probably much the same as happened in the Mohr case."

Golubiff, an 18-year-old juvenile delinquent from the Milwaukee suburb of West Allis, and the 22-year-old Mohr, from Merrick, N. Y., both suffered their killing blows without being knocked out.

An autopsy on Golubiff, a welterweight, showed he died from a cerebral hemorrhage brought on by a blow to the head. He was dead less than an hour after he had been declared loser of a tournament fight with another inmate at the reformatory.

Mohr — victim of a similar hemorrhage — lingered unconscious until Easter Sunday after suffering his injury during his middleweight national collegiate title at Madison April 9.

McCovey Comes Through Again For Giants

United Press International
Sweet-finger Willie McCovey is still playing those game-winning tunes for the San Francisco Giants.

They sang the sophomore blues for the 354-hitting rookie sensation of the National League when he proved something of a bust during spring training but you can

take it from the world champion Los Angeles Dodgers that Willie can still "boom 'em."

McCovey demonstrated that Thursday night when his three-run eighth-inning homer and four runs batted in carried the Giants to a 7-5 victory over the Dodgers and into a second-place tie behind the streaking Pittsburgh Pirates, who chalked up their seventh straight win, 3-0, over the Philadelphia Phillies.

McCovey's game-winning blow came off Ed Roebuck, who had just replaced Woody Stennis star Larry Sherry after the Giants took a 3-2 lead. A crowd of 33,313 saw Sherry tagged with his third defeat of the year while Jack Sanford won his second game.

Bob Friend, one of the Pirates' biggest disappointments of 1959, turned in his third straight victory of the new season as the Pirates equalled the longest winning streak any NL team was able to achieve in '59. Friend struck out 11 batters, only one short of the club record set by Babe Adams in 1909, in a neat four-hitter.

Friend, who fell to an 8-19 season in '59 after a 22-victory campaign in 1958, struck out rookies Pancho Herrera and Joe Koppe three times each in registering his second shutout of the year. The other National League clubs were idle.

The American League champion Chicago White Sox got a heartening pitching effort from Billy Pierce to beat the Cleveland Indians, 3-1, the Kansas City Athletics downed the Detroit Tigers, 2-1, and the Baltimore Orioles secured a 6-1 decision over the Boston Red Sox in American League action.

Pierce, who had only a 14-15 record last season, limited the Indians to three hits until the ninth inning when Woody Hall tripled and Bubba Phillips singled.

Rookie Dick Hall pitched a four-hitter, including a homer by Lou Berberet, to hand the Tigers their third straight loss and drop them into a first-place tie with the

NEW YORK (UPI) — Continental League President Branch Rickey turned today from the task of gaining approval for a new \$15-million stadium in New York City to the job of indemnification required for the new major league's entry into territory now held by minor league clubs.

Continental League franchisees in Minneapolis-St. Paul, Houston and Atlanta must identify the clubs into whose territory it moves as well as the league in which the teams play.

"We have run into some pretty extravagant demands," said the 78-year-old Rickey, "but we believe we can work out our problems."

Estimates of the amount of money demanded by the minor leagues and teams involved range between \$2 million and \$5 million.

Notre Dame Ace Signs With Denver

DENVER (UPI) — Frank Tripucka, 31-year-old former Notre Dame quarterback and veteran of the National and Canadian Football Leagues, signed a contract with the Denver Broncos of the American Football League today.

Dean Griffing, Denver general manager, said Tripucka is "the most experienced quarterback in the American Football League."

The new league begins operation for the first time this fall. Tripucka, a pin-point passer who seldom runs with the ball, comes out of the Canadian League where he completed 56.4 per cent of his passes over a seven-year period.

The 6-2, 205-pound native of Bloomfield, N. J., last year completed 79 of 145 passes for 1,119 yards at Ottawa and 27 of 45 passes for 311 yards at Regina. He played under coach Frank Filchock, now the Denver head coach, at Regina from 1953 through 1957. Griffing was general manager of the Regina club at that time.

LEXINGTON, Ky. (UPI) — C. V. (Sonny) Whitney, wealthy New York sportsman, was more confident than ever today that his colt, Tompon, will help him smash a long-standing jinx in the Kentucky Derby next Saturday.

Whitney never has owned a Derby winner, although he has entered horses in the classic almost every year for the last three decades.

In Babe Ruth League action, Orville slammed the Shrine Club, 10-3.

In softball play, Nazarine defeated the First Baptist Church, 17-15 while Pinercrest Baptist Church toppled Free Methodist 17-6.

MISS FLORIDA isn't performing a feat of strength here, she's holding up a large block of new material designed to add buoyancy and strength to boats. The six cubic-foot block she is holding only weighs 12 pounds, but will provide 500 pounds of flotation to a boat. It's Unifoam, a liquid to be poured into any unused space and it rises rapidly to form the white foam shown in the block. Its tiny cells seal out water when it's in place.

Palmer, Collins Pace Field In Houston Classic Tourney

HOUSTON, Tex., (UPI)—Arnold Palmer, the favorite, and Bill Collins led the pack into the second round of the \$25,000 Houston Classic golf tournament today, but only because Dave Ragan Jr. had an unusual bit of trouble.

Palmer and Collins carved out first round six-under par 66's to break in front of the field of 139 golfers, while Ragan and Billy Maxwell of Oceanide, Calif., were right behind with 67's.

Ragan, 24, who plays out of Orlando has won only one tournament in his career — the Eastern Open last year. If it hadn't been for tough luck he may have been in front today.

The bad break came on the first hole — a 350-yard par five. Ragan was 10 inches away for a par putt, but "fanned" two strokes before tapping the ball in. He was charged with three strokes, and wound up with a double bogey for the hole.

Ragan took his stance, ad-

ressed the ball, and started his stroke, then changed his mind and tried to stop the swing, but his reflexes weren't fast enough. It happened the same way again before he finally touched the ball into the cup.

Palmer, the Masters champion from Ligonier, Pa., who is far ahead of the money winners this year with \$44,257 in the bank, shot a 30-36-66. His front nine scored tied the record on this 7,122-yard layout.

Collins, from Crystal River, birdied the first three holes, the fifth and eighth, three-putted the 10th for his only bogey, and tacked on two more birdies on the back nine.

De Nucci, Jones Battle Tonight

BOSTON (UPI)—Rising young middleweight Joe De Nucci gets his first big chance — and last — tonight when he meets Ralph (Tiger) Jones in a televised 10-round battle at the Arena.

The 20-year-old slugger from suburban Newton has lost only twice while posting 23 victories in two years as a pro. Both defeats were by veteran Chico Vejar.

De Nucci, a good puncher, will be getting a thorough testing. Jones, 32, owns victories over Sugar Ray Robinson, Joey Giardello and Rory Calhoun and has been fighting since De Nucci was in the fifth grade. It will be the Brooklyn, N. Y., veteran's 46th TV appearance.

Bait Box

Florida's top fish, wildlife and conservation leaders will attend the statewide organizational meeting of the Isaak Walton League of America May 6-8, at the KoKo Motel in Cocoa Beach.

A. D. Aldrich, director of the Florida Game and Fresh Water Fish Commission, and Ernest Mitts, director of the Florida Conservation Department, will present their departments' views on the several controversial issues to be aired.

League officials said the highlight of the three-day meet will be the public hearing the night of May 6, when national, state and local officials will be present to discuss the proposals of the Central and Southern Flood Control District and its ultimate effect on the St. Johns River and this area. The meeting will be open to all interested sportsmen.

"Introduction To Outboating," a new booklet covering all phases of outboard boating for beginners, has been published by the Kiekhaefer Corporation, Fond du Lac, Wis., and is available free of charge from all Mercury outboard dealers.

Subtitled "How To Choose, Handle and Enjoy Your Outboard," the booklet has three main sections: "Which Boat For You," describing how to choose boat, motor and accessories; "Know Your Boat," telling how to get acquainted with a boat and its handling characteristics; and "Seamanship For Safety," covering rules of the road, loading, trimming, weather signals, cruising, docking.

Though written for new and would-be boaters, the booklet is comprehensive enough that those who already have outboards will find valuable tips on every page to help them get more out of boating.

FTC Warns Businessmen Against Abusing Advertising Promises

WASHINGTON (UPI) — The government warned businessmen today against abusing such advertising promises as "lowest price in town," "lifetime guarantee," and "satisfaction or your money back."

The Federal Trade Commission (FTC) served notice that from now on it would take steps to see that advertisers back up to the letter all of their guarantees.

The agency issued a guide to alert both consumers and businessmen as to what it considers false advertising of guarantees on products.

FTC Chairman Earl W. Kinter said the guide was essentially educational but contained a "mailed list." In a speech prepared for delivery to the Better Business Bureau in Los Angeles, he warned that the commission would "bring legal action against an alleged violator" of the rules set forth in the new guide.

The guide stipulates that all product guarantees must "clearly and conspicuously" disclose the following information:

—What product or part of a product is guaranteed and an exact explanation of what the guarantee involves, including its duration.

—The manner in which the guarantee will be backed up—for example, by repair, replacement, or refund.

—Whether the manufacturer or the retailer is the guaranteeing party.

Kinter cited many examples of phony guarantees which he said make it tough for the honest businessman to compete with "the slick and the greedy."

SEMINOLE HIGH SPANISH CLUB members really dress the part as they meet with their faculty advisor, Mrs. Esther Williams. From the left in the top picture are Mrs. Williams; Eileen Myers, club secretary; Frankie Jones; and Faye Garner, treasurer; in the front row. In the back are Robert Bruce, vice president; and Billy Musselwhite, president. In the bottom picture, the youngsters take a look at one of the main areas of their study. (Herald Photos)

Spanish Club Takes Lively Interest In Subject

Habla Espanol? No? Well there are 62 students at Seminole High who joined a club for that very purpose. These teenage seniors and seniors get together to talk over old times in Spanish. They are, of course, the Seminole High Spanish Club.

Mrs. Esther Williams, who sports a charming Spanish accent herself, formed the club last term. It has grown to be one of the largest in the school.

Nearly three-quarters of Seminole High's 97 Spanish students are in the group. Each has a Spanish name so the club abounds with Robertos, Juans and Dianas, plus several Luis', Juanitas, Lorenzos, Estebanos, Pablos, Miguels, and James. Sometimes the students just translate their own names, but they are allowed to try any "name" they wish.

Spanish Club members bring Latin American clothes and foods into the classroom to add more atmosphere and background to their studies. Mrs. Williams explained some of the colorful South American dances this year too. Next year the students will dance them. Spanish Club members have also learned about the "posada" or party given at Christmas in Mexico; the "Navidad" or Christmas Eve celebration; the Ano Nuevo, or new year celebration; and "El Carnaval" which is similar to our Mardi Gras.

The students learned to salute the flag, sing "America," recite the Lord's Prayer, and read from the Bible in Spanish. The "nines Espanola" have studied Florida towns of Spanish origin and Mrs. Williams is planning trips to old Spanish towns in the state. A Seminole "cracker" might be surprised to see Orinda on a map of Spain. Mrs. Williams' real ambition is to take the club on a tour of South America some summer.

Conversational Spanish is stressed in Mrs. Williams' language classes, a little chit-chat "en

at the school for the first time. Next week, Seminole High will buy a "language laboratory" Mrs. Williams said Thursday. This sound booth and photograph setup is designed to let students hear their own pronunciation. Mrs. Williams just arrived at Seminole High last term herself. Before that she taught at Lyman School.

Red Chinese Premier Leaves New Delhi Talks Like 'Hero'

BY PHIL NEWSON
UPI Foreign Editor

A smiling Red Chinese Premier Chou En-lai left New Delhi like a hero this week, leaving a definitely chilly prime minister Jawaharlal Nehru behind.

Whereas Chou managed to wave several times before the door of his airplane closed behind him, Nehru confined himself to a single wave at the last moment.

Furthermore Chou insisted that friendship between Red China and India was "immortal."

It appeared Nehru was not so sure.

These were surface results of Chou's week in New Delhi, during which he and Nehru spent more than 17 hours in consultation over the border dispute which has disrupted seriously relations between their two countries.

Both were committed to a policy of no retreat and both held to it.

The territory involved covers 51,000 square miles along the Sino-Indian frontier which India considers hers by treaty and tradition. It runs along the so-called

McMahon Line which follows the Himalaya Mountains and the watershed. About a third of it is all but inaccessible.

Two areas were in specific dispute. One was the Ladakh Region of Kashmir bordering Tibet. Here the Chinese have built a strategic road linking Tibet with the province of Sinking.

The other was in India's Northeast Frontier Agency where Red Chinese forces occupied Longju, killing three Indian border policemen in the process.

Chou claimed Ladakh by right of "history" and said Longju was north of the McMahon Line which India considers the official boundary.

Both views were exactly the opposite of those held by Nehru.

The deadlocked state of the talks left these unofficial reactions in New Delhi.

The dispute may not lead to war but it will take years to settle, with a corresponding and continuous strain on relations of the two countries.

At home, at least, Nehru regained some of the stature he lost when news of the dispute leaked out after being officially buried for five years and when he agreed to negotiate with Chou.

Indians were happy that he had rejected firmly all Chinese demands.

THE NEW SEMINOLE HIGH on Lake Jennie is going up fast with students scheduled to occupy it next fall. The campus style, 30 classroom layout will cost \$11.5 million. It will include science, homemaking, library, diver-

sified cooperative training, music, band and art, rooms, a gymnasium, auditorium, and cafeteria. SHS juniors Bonnie Steinruck and Johnny Welchel here take a look at the school they will attend in the fall.

Allies Reacting Cool To Ike's Idea On Summit 'Sub'

LONDON (UPI) — America's European Allies are reacting coolly to the idea of using Vice President Richard Nixon as a substitute at next month's summit meeting in Paris should President Eisenhower be called away.

The British and French governments so far have withheld any official comment on Eisenhower's stand-in plan.

Privately, however, Western European officials admitted they were disturbed by the American President's surprise announcement. They said it could put a crimp in the summit talks by making Russia feel the meeting was being "scaled down" in importance by the United States.

There has been no reaction from Moscow yet, but this may be because Soviet Premier Nikita Khrushchev currently is vacationing away from the capital.

Diplomatic sources here feared the Soviet chief might be prone to argue the matter. They remember the much publicized Khrushchev-Nixon "kitchen debate" while the vice president was visiting Moscow last summer and doubt that Khrushchev has any great liking for his speech-making opponent.

Eisenhower had said that if the summit talks lasted longer than a week he might have to return to Washington to handle legislation pending before Congress. In that case, Nixon would be called in, but the President stressed such an emergency is not likely.

Experts on diplomacy point out that the sole object of a summit conference is to bring together a group of men who have no need to consult with any superiors on matters that require immediate decision.

School Team Shows Way For South To Help Pay For Education Needs

ATLANTA (UPI) — A University of Kentucky research team has looked into a somewhat unpopular subject—sources of tax revenue—and has advised southern states they could pick up another one and one-half billion dollars a year.

The reason given for the study was to determine whether there are "legal opportunities" for raising additional state and local revenues in the South to pay for the growing needs of higher education.

The Southern Regional Education Board reported recently that it cost 300 million in 1958-59 for higher education in Dixie's state-supported institutions and estimated it would require 50 million a year by 1960.

James W. Martin, director, and Kenneth E. Quindry, research assistant, of the University of Kentucky Bureau of Business Research, have some ideas about where the "taxes" can find the money by tapping "new potentials" of existing tax structures.

The Martin report said the states raised more than six billion dollars in taxes in 1957, the latest year for which full statistics are available, but could hike that by 25 per cent.

The report centers on four sources of added revenue—sales and gross receipts, property, individual income and corporate income taxes.

"The greatest unrealized potential" in the South is the sales tax, the report said. Next in line is personal income revenue.

It lists eight southern states that "impose less than the average tax load" as measured against income: Alabama, Delaware, Florida, Kentucky, Maryland, Texas, Virginia and West Virginia.

Arkansas and Mississippi were named as the leading states of Dixie in "high tax burden."

"It will be very difficult to find additional state revenue for higher education or other purposes" in Mississippi, the report said.

Other highlights:

Texas has a half-billion dollar new revenue potential since it

Prayer Opening 'Low' Cost Homes

Today, Prayer Homes is opening three new low cost two and three bedroom model homes at 2715 S. Sanford Ave.

Prices start at \$6,250 with FHA down payment of \$250 and monthly payments as low as \$37 including principal, interest, taxes and insurance. There are no closing costs.

All homes are provided with features usually found only in higher priced models. Covered entries, carports, semi-circular drives on two models and fully sprigged front and side yards enhance the attractive exteriors. Heating is provided by wall furnaces. Full mica kitchen cabinets, extra closets with ventilated floors, ceramic tile bathrooms and window sills are included in the purchase price of these homes. Two models feature sliding glass patio doors. All homes are on high, dry ground engineered for good drainage and are fully protected against termites throughout.

A city sewer and water system, piped-in underground gas and paved streets with curbs make this new Prayer development a complete, going modern community.

In a paper going into the report, the SRB said it could "help guide a search for the best possible decision but the answer to the question must come from the legislators and ultimately from the public."

Paris, London Tours On TV Better On Paper Than Videotape

By FRED DANZIG
 NEW YORK (UPI) — Television served up the tale of two cities Wednesday night. "Invitation to Paris" on ABC-TV curialed to the lovely French capital and NBC-TV's "Perry Como Show" rattled around the city of London.

The French offering, with Maurice Chevalier and Fernandel in bit roles, comparatively speaking, probably looked better on paper than it did on videotape. While many charming local ornaments—architectural and feminine—were recorded, too many outdoor numbers just didn't come off well. The biggest flop was a jazz number in Montmartre, which was confused.

The fact that some of the high-powered performers appeared and looked awkward didn't help matters. I guess the weather can't be helped but we certainly didn't see much of the bright, sunny April-in-Paris weather we hear about.

My favorite parts of this many-fragment show had an all-girl chorus singing a lively song at Place des Vosges, a singer named Dalida performing in a cafe and the combination of Les Compagnons de la Chanson singing "The Three Bells" before Notre Dame.

A traditional can-can dance was tossed into the hour. This is something that loses me. I never have been able to figure out why, if the girls must keep showing leg, they handicap themselves with those floor-length skirts.

Speaking of legs, one number, featuring Line Renaud took place on a stage filled with feathers, females, legs and chorus boys. It was the comedy highlight of the night. Unintentionally, of course.

Having survived the wartime blitz, it was no problem for old London to be subdued over Perry Como.

And it was a subdued Perry Como who appeared Wednesday night in a show that originated in the British capital. Perhaps the trip tired him.

At any rate, the videotaped hour proceeded at a pace that was more tuckered-out than is customary even for standard stateside Como. One exception: Some lively singing in a pub.

The show opened with first waiting airport foolishness that seems to attract all our talent when they land overseas. After that, Perry took us to see a number of landmarks. The production crew succeeded in squeezing as much out of each historic site as local rules allowed, I'm sure.

One off-beat feature that wasn't fully exploited had Como, ever informal, roaming about the splendor of Woburn Abbey, a showplace estate run by the Duke of Bedford.

The final quarter-hour was salvaged by a choral group's rendition of "Greensleeves" after Como delivered his solo numbers in an untidy manner.

One consolation for Perry might be that he did a better job in London— conversationally and pictorially— than did NBC's last emigrant to Britain, Jack Paar.

Housing Bill Gets 'Lukewarm' Senate Reception

WASHINGTON (UPI) — A House - passed billion - dollar housing bill got a lukewarm reception in the Senate today in advance of what was certain to be a cold greeting if it ever reached the White House.

The Democratic measure, cleared by a 214 to 183 vote Thursday, will come up for consideration at Senate housing subcommittee hearings beginning May 9, along with 17 other housing measures.

President Eisenhower has opposed any major spending for housing this year as unnecessary and a threat to the budget.

Sen. Homer E. Capehart (R-Ind.), ranking GOP subcommittee member, said he did not think that as much federal money as the House voted was needed at present to stimulate housing.

The House bill would provide one billion dollars of federal money to help finance sale of new houses. The money would be used to purchase GI and FHA mortgages costing \$13,000 or less.

The House approved it after defeating a GOP attempt to kill it with a civil rights amendment.

The amendment — which would have barred racial discrimination among buyers of the estimated 70,000 new houses the bill would finance — would have alienated the bill's southern Democratic supporters.

ONE VOTE HAS CHANGED THE COURSE OF MODERN CIVILIZATION

- 1800 One Vote tied the electoral vote between Thomas Jefferson and Aaron Burr. The Vote was 73-73. The House elected Jefferson and Burr became Vice President of the United States.
- 1876 One Vote elected Rutherford B. Hayes President of the United States over Samuel J. Tilden. The Vote in the Electoral College was 185-184.
- 1940 One Vote in the House of Representatives passed the Selective Service Act of 1940. The Vote was 203-202.
- 1952 One Vote in the United States Senate by the Vice President broke a 41-41 deadlock to pass the Defense Production Act Amendment providing the Wage Stabilization Board composed of industry and labor members.

The American Way — the democratic way — to investigate the issues — get to know the candidates and then cast your vote for the person who most nearly represents your views. History has shown time and again that minorities have ruled because a majority failed to vote and be heard on matters affecting their destiny.

The ballot is the hammer and chisel that hews the pattern of government we must live by. If each of us casts our ballot in the forth coming election, the image of government on local, state and national levels will be the image of the majority of thinking people. Let us be masters in our house and with the guidance of Prayer and common sense be heard by the ballot in the choices to be made from those offering themselves in Public Service.

Primary Voting Almost Here

Well, the final political rally of the local campaign for the primary is scheduled Saturday night and we want to say one more time that we feel that the voters ought to take advantage of the opportunity to listen to the candidates speak and talk to them in person about what they can and will do to provide the county with leadership.

This year Seminole County must elect people who can, and are willing, to grab progress by the tail and swing it. This county has passed up some opportunities in the past and consequently has gotten a late start in the real prosperity that has come to the state in recent years.

It's up to the people to vote for good leaders and then to keep the pressure on them to produce programs that will keep pace with the general progress.

This also is true on the state level — there is a tendency these days toward big government on state level as well as the national level and the voters of each county ought to consider carefully all the candidates for state offices.

There is startling lack of familiarity with the functions of many state offices—particularly the cabinet positions which form Florida's "board of directors."

Sen. Tom Adams, running for secretary of state, stressed here recently that the people should realize that these men have one vote the same as the governor on the budgets and issues that come before the cabinet and should take more interest in them.

Adams said he entered the race for secretary of state because he feels that it is a post from which a man dedicated to service "can spend much of his time working to mold worthwhile solutions to problems that will benefit the majority of the people."

We believe that he is right about that and hope that the voters will fulfill their responsibility in learning more about all the governmental agencies and becoming more interested in what they do.

If the qualified voters cast ballots that reflected studied opinions instead of a line of X marks representing the opinions or influences of a special interest or political machine, they would have far fewer complaints about their government.

There might even come a day, through the will of the people, when we have less of it to complain about. And that would cost us less and be more effective anyway.

Duke Of Windsor Won't Attend Wedding Of Princess Margaret

LONDON (UPI)—The Duke of Windsor, once Princess Margaret's favorite uncle, will not be present at her wedding at Westminster Abbey May 6 to Anthony Armstrong-Jones.

Neither will Prince Philip's mother, Princess Andrew of Greece.

Michael McAllister, Philip's secretary, said today he had not been asked to make arrangements for the presence at the wedding of the former King Edward VIII, nor does his name appear among those who will take part in the royal procession at the wedding.

No explanation was offered for the ex-king's prospective absence, or for that of Princess Andrew. It is known, however, that she doesn't always attend royal functions.

Among the guests, only Denmark's Queen Ingrid and Prince Consort and four of Philip's German and Princess Georg will represent a reigning house. The other "foreign royalty" present will be said to be cavorting Europe for man relatives—Prince Maximilian and Ludwig of Baden, Prince Karl of Hesse and Prince Gottfried Hohenlohe-Langenburg.

Armstrong-Jones, his best man, Dr. Roger Gilliat, Princess Anne and seven other school-age bridesmaids will ride from Buckingham Palace to the Abbey by car.

Queen Elizabeth II, Margaret, Queen Mother Elizabeth, Philip and other members of the royal family will ride through the city in a five-carriage cavalcade. Margaret and Philip will ride in the famous "glass coach."

Grandstand and window seats along the line of march are being offered for as much as \$75 each, but there apparently was no rush of business. Seat-sellers were Yugoslav Prince and Princess Tomislav and four of Philip's German potential customers.

ASSIGNMENT WASHINGTON

WASHINGTON — The man said civil defense needed the \$60,000 this coming year to learn how a human behaves in a disaster. But the congressmen reminded the witness that civil defense already got \$60,000 a year for three years — and now a fourth year?

And the witness, Leo Hoegh, director of CD, said his research people have uncovered a lot of facts in this study. For instance he said, in a mine disaster at Nova Scotia "they found out that people can survive with very, very little in the way of food, and live just on water."

Rep. Edward P. Boland (D., Mass.) observed tiredly that this very information has been known for thousands of years. He sighed: "This just seems to be a waste of money."

There isn't a family in the United States that would be urged to build a shelter. It would cost \$60,000 — or \$75 million, which is the amount they're spending this year — if it would increase just one tiny notch their chance to survive an atomic attack.

WASHINGTON CALLING

WASHINGTON — In Sen. Hubert Humphrey's home state of Minnesota there is a salutary example of how little religion means in voter choice. It has relevance to the West Virginia primary where ugly manifestations of prejudice threaten more than the fate of one candidate or the other in the Democratic contest.

Sen. John F. Kennedy seems to have been saying, until his speech to the American Society of Newspaper Editors, that the citizens of West Virginia owed it to themselves to vote for him to prove they were not bigoted. Some of his more ardent supporters have been trying to make it appear that a vote for Humphrey is a vote for the Ku Klux Klan. This is bound to harm Kennedy at least as much as it may Humphrey.

With the intervention of West Virginia's egregious Sen. Robert Byrd, Humphrey is embarrassed by the implication that he is merely a stalking horse for the "stop Kennedy" movement. By defeating Kennedy he will open the way to a compromise choice at the convention.

Eugene McCarthy is the other senator from Minnesota. He was the first Catholic elected in a statewide election as governor or senator.

In Minnesota the proportion of Catholics to the population is about 40 percent. It is not true, according to McCarthy, that more than half the Democrats in his state are Catholics. What is striking about McCarthy's election in 1958 is the small part that religion played in a state in which the Lutheran population is in many counties well over 60 percent.

Congressional Quarterly has done a careful and detailed statistical analysis of the Minnesota returns that show just this. While independent analysts who were asked to go over the CQ material found that a Catholic "pull" toward McCarthy did exist of approximately twice the Lutheran "drag," it was a minor factor in his defeat of the Republican incumbent, Sen. Edward J. Thye.

AN OPEN LETTER TO THE PEOPLE OF SEMINOLE COUNTY

Dear Friends,

I have made every effort to contact the voters all over the county in regard to my candidacy for the School Board, however, due to the vast growth of the county, this is almost impossible.

For the benefit of the citizens I have not been able to contact personally, I am using this means to give you a little of my background. I have lived in Seminole County for fifteen years, married and have two children. I am President of Oaklawn Memorial Park and a member of the First Baptist Church.

I was urged to enter this race by friends from all parts of the county who are interested in good schools and are concerned about the future of the school system. I am sure that the majority of our citizens are interested in good schools and good teachers and, above all, what is being taught in our schools. I believe in electing people to public office who are willing to take a definite stand upon matters pertaining to our schools. We need to elect people who will represent all of the people all of the time. I am concerned about the continual loss of control over our schools at a local level. Year after year we are losing more and more control. This I am opposed to and if I am elected, I will continually speak out against this situation.

I appreciate your taking time to read this letter and if you share my feelings, I shall appreciate your vote and your support next Tuesday.

Sincerely,
Ray Slaton

Promoters Build Wild West Park

PHOENIX, Ariz. (UPI) — Construction is underway on a \$300,000 permanent TV and motion picture "Western Street" at Apache Junction 30 miles from here. "Western Street" will be part of \$2,000,000 Apache Junction Park which its promoters say will be the Wild West Disneyland. "Western Street" is scheduled to be finished by July 15 with the entire park in operation early next year.

Not Wisniewski, consultant and planner of Apache Junction Park de-

scribed the park as a "huge continuing fair with recreational facilities as imaginative as those of Disneyland and all keyed to the faded lore of the Indians, outlaws, miners, gamblers, soldiers, and missionaries of the Southwest."

Kids Brush Up

CAIRO (UPI) — The UAR government has decided to give each school pupil a toothbrush and a regular supply of toothpaste free of charge. The education ministry already has earmarked \$28,000 for the first round covering 100,000 primary school pupils throughout the Egyptian Region.

WORRY CLINIC by Dr. G. W. Crane

Rita is heart broken, and Ted is unhappily entering marriage to a scheming girl who doesn't illustrate "true love." Scrapbook this tragic example of what happens to young people when they mix liquor and sexual indistinctness. Instead of idyllic and true love, infatuation and true love both give you "butterflies" and goose pimples, so beware!

CASE E-440: Rita L., aged 18, is a college freshman.
"Dr. Crane," she sobbed, "I am heartbroken. Ted and I were sweethearts.
"We planned to get married when we graduated from college. But he dated another girl while I was away on vacation last summer for a student tour of Europe."
"The girl was supposed to be a friend of mine. But Ted says she was very jealous of me and vowed she'd win him."
Well, Ted had an affair with her and now she is pregnant, so Ted is marrying her.

What can I do? I don't feel like living any longer! I just go through the motions, for I can't eat or sleep. Nothing in life appeals to me in the slightest. Oh, Dr. Crane, I wish I could die!
Let's consider the other girl who vowed she'd win Ted away from Rita.
Do you readers think her feelings for Ted were "true love," of the sort shown by Sidney Carton in Dickens' Tale of Two Cities? Was her affection of that divine sort shown by Nora, the wife who was dying of cancer, but who insisted her husband register with our Scientific Marriage Foundation to be sure he would continue a happy marital life after she was gone?

Or was this girl primarily interested in her own selfish wishes to get Ted at all costs?
When a freshman college student is planning a career, if a girl TRULY loves him, wouldn't she be concerned about his finishing college so he could attain success in his chosen profession?
Ted had to drop out of college after the first semester in order to get a job in a textile factory so he could support his "shotgun" wife and forthcoming baby.

From my vantage point, having interviewed various people who knew Ted and Rita and the other girl, I believe the other girl wanted to flaunt her victory over Rita. She had cherished a lifelong jealousy of Rita, for they had attended grammar and high school together.
So she took special delight in poaching on Rita's domain while Rita was in Europe on that student tour.
The other girl also was fond of taverns and coaxed Ted to take liquor on her dates.
Ted admitted he was partly drunk when he had his affair with her. And she apparently planned it that way, figuring if she could compromise him sufficiently, she'd

win him away from Rita at all costs.
Such a girl does not demonstrate "true love," for the essence of true love is unselfishness.
Whenever a young person is thinking primarily about his own pleasures and selfish indulgences, he may be sexually infatuated but is not truly in love.
So you teenagers can analyze your romances accordingly. Beware, for sexual infatuation will give you "butterflies" and goose pimples and tingling sensations when you kiss, just as true love does.
But the infatuation puts the emphasis on selfish desires, while true love stresses the ultimate welfare and greater happiness of the other partner!

Young Publishers Merge Papers, End Hot Rivalry

CLEVELAND (UPI) — James Henry Miller III the 11-year-old editor of "The Rocket Journal" plans to merge his newspaper with one published by his rival Tom Bardman Jr.
Thirty-five relatives and friends read Jim's newspaper which he has published since "I was fairly young."
Tom's paper "The Hot News" has a circulation of 20.
Both come out whenever there is enough news to fill them usually once or twice a fortnight. The new publication will be called the "Rocket Journal and Hot News."

Alaska Trying To Get Islands

JUNEAU, Alaska (UPI)—Alaska's Gov. William A. Egan has described state action to obtain the Walrus Islands in Bristol Bay as a major step in a firm conservation program for the 4th state.
A claim for the group of islands, just off the coast of Alaska, has been filed under the state's land selection program by the department of natural resources. The request for the claim was made by the Alaska Board of Fish and Game.
The islands are frequented each summer by a herd of 1,000 to 3,000 walrus and represent the last remaining site under the United States flag where walrus haul out on land.

Deer Antlers May Help Fallout Study

ST. PAUL, Minn. (UPI)—Those dusty deer antlers you've been meaning to take out of the attic and throw away could help scientists in their studies of radioactive fallout.
The Minnesota Division of Game and Fish is looking for antlers dating back to 1940. Scientists of the division want to find out if the deer are using calcium and strontium from the fallout in helping to build their antlers.

Wolf Recovering From Severe Burns

Altamonte Springs Town Councilman John Wolf is rapidly winning his battle with the severe injuries he suffered in the Rosenwald Elementary School fire Feb. 17.

Altamonte Mayor Wilbur Hawkins said Wednesday that as far as he knows, Wolf had his last serious operation April 20. Wolf is in very good spirits, Hawkins said.

The councilman-fighter suffered about 20 fractures when a brick wall fell on him at the Rosenwald fire. Both Wolf's feet were crushed and he suffered internal injuries. He is convalescing in Florida Sanitarium.

Critics Of Benson Take Note; He Won't Be Around In January

By DICK WEST
WASHINGTON (UPI)—If we could figure out a way to bottle the adhesive qualities of Ezra T. Benson, we probably could make a fortune in the glue business.

More than seven years have passed since the call went out to Salt Lake City beckoning Benson to Washington to become President Eisenhower's first secretary of agriculture.

The way Benson heard it, the call beckoned him to become Eisenhower's first and only agriculture secretary.

As subsequent events were to prove, when Benson gets a call he is a hard man to disconnect. Such grey-beards as can remember Benson's arrival here say that even then he had a settled look about him, as though he intended to stay a long, long time.

Since that fateful day, a host of congressional Democrats, plus a goodly number of Republicans, have used everything but a shoe-horn to try to pry Benson out of his cabinet seat. When last seen, they were shopping for shoe-horn.

But even his most die-hard critics finally came to realize that trying to "dump Benson" was about like trying to skin-dive in the Great Salt Lake.

Nevertheless, time is at last running out on the tenure of the undumpable secretary. Under the 22nd Amendment, Eisenhower can't seek reelection and not even Benson expects to stay on board after the new president is inaugurated next January.

So when I heard that Benson was going to testify before the Senate Agriculture Appropriations subcommittee, the thought struck me that it might be my last chance to see him confront his critics.

When I arrived at the Senate Office Building, Benson already was ensconced in the witness chair and was expressing "deep appreciation" to the subcommittee for the "cooperation" it had given him over the years.

If what Benson received from any congressional group was "co-

operation," then he and I have different definitions of the word. I figured he either had a short memory or was tendering an olive branch, garnished with by-gones.

As it turned out, the subcommittee members also were in an Auld Lang Syne mood. It is true they made some rather pointed comments about Benson's programs. But nobody read aloud the airline schedules to Salt Lake City or anything like that.

When the hearing was over, I went to the Senate library and looked up the testimony that Benson gave the first time he appeared before the subcommittee on April 13, 1953.

"The time has come," he said then, "when we must face the hard facts of squaring our spending with our income."

Then I noted that since 1953, the Agriculture Department budget has risen from \$2,917,000,000 to \$4,201,000,000. The time apparently changed even if the secretary didn't.

Industrialist Andrew Carnegie who said "to die rich is to die disgraced," gave away \$350,000,000 before his death in 1919.

Current Payola Investigation Termed A Real 'Gasser'

By DICK WEST
WASHINGTON (UPI) — Hello all of you out there in northern radioland. In southern radioland, hello you all.

This is your teen-age disc jockey reporter about to scatter a little platter chatter your way. So put down that homework and lend an ear, hey.

Your teen-age disc jockey reporter has been over in the House caucus room tuning in on the Dick Clark investigation. It's a gasser, man. A real gasser.

Like those cats on the House Oversight Committee seem to think that our boy Dick has been doing the old payola bit or something. I mean, how corny can you get?

Like everybody knows that Dick had an interest in a lot of record companies. He's a real free enterpriser, that lad. So what is that? A crime or something?

The thing that makes you sick, sick, sick is all this jazz about Dick playing his own companies' records on his own, deejay show just so we would go out and buy them.

We liked those records, didn't we, gang? I men, they were absolutely and positively the most.

They were songs to study by and songs to eat double-decker hamburgers by. If your hamburgers leaked a little mustard on the records, they sounded even better.

But don't worry, gang. Dick is playing this thing real cool. He went out and hired the "computech" company to analyze the records he played on the "American Bandstand" show.

According to Computech, the analysis showed that Dick played the records that were most popular, regardless of whether he had a financial interest in them.

But I guess those committee cats don't dig mathematics or something. Anyway, they brought in these three statisticians to give the Computech analysis a going-over.

Van Johnson Sued

SANTA MONICA, Calif. (UPI) Actor Van Johnson Wednesday was sued for divorce by his wife, Eve, who charged him with causing her "grievous mental suffering" and extreme cruelty. The 43-year-old actor, who is in Switzerland, was ordered to appear in court May 5 and answer his wife's demands for temporary alimony and child support. She listed her necessary monthly expenses at \$4,319.42.

DON'T LET the makeup fool you... it's James Stewart in the Academy Award-winning picture, "The Greatest Show On Earth," coming to the Movieland Drive-In Saturday. Picture on the right shows Betty Hutton also starred in the production.

Circus Epic At Movieland Saturday

That all-time circus epic, which stands in a class by itself as far as spectacular entertainment is concerned—"The Greatest Show On Earth" opens a five night run at the Movieland Drive-In Saturday. Starring Betty Hutton, Cornel Wilde, Charlton Heston, Dorothy Lamour, Gloria Grahame and James Stewart, "The Greatest Show On Earth" shows the thrills of the Big Top and a powerful, personal story dramatised brilliantly by the stars. Made with the cooperation of the Ringling people, the Cecil DeMille epic features hundreds of famed acrobats, tightrope walkers, clowns, performing animals and other hair-raising thrills. The other feature on the program is "The Saga of Hemp Brown" starring Rory Calhoun. Starting Thursday, and running for a full week, will be "South Pacific," the famed Broadway play starring Rosanne Brazill and Mimi Gaynor. The other feature on the program will be "The Forbidden Desert."

THE BEATEST BEATNIK of them all is Jerry Lewis as a visitor from outer space in "Visit to a Small Planet" due at the Ritz Theatre Saturday. Also in the cast is Barbara Lawson.

Outer Space Comedy Due At Ritz

Just in case the earth doesn't have enough to cope with, Saturday when Jerry Lewis arrives at the Ritz Theatre in "Visit to a Small Planet" it will have more! The film production is an adaptation of the hit Gore Vidal Broadway show. It co-stars Joan Blackman, Earl Holliman and Fred Clark and features John Williams, Gale Gordon and a truly remarkable young dancer, Barbara Lawson. Jerry portrays Kreton, an im-pish creature from outer space whose insatiable curiosity about humans and their ways sends him to spinning from out of the mysterious stratosphere to a realistic "grounding" somewhere in Virginia on the "small planet" beneath. He arrives dressed in what he believes the appropriate attire for the period—the uniform of a Confederate Army officer but he luckily "visits" a family that is about to attend a masquerade party so his outlandish attire is taken for granted as just another costume.

First X-Ray Photo Of Sun Is Shown In Science Exhibit

WASHINGTON (UPI)—The first X-ray picture ever taken of the sun was exhibited at the National Academy of Sciences Thursday. The photograph, taken by a rocket fired last week at White Sands, N. M., shows that the sun is surrounded by a vast halo of X-radiation within its super hot corona. Scientists attending the academy's annual meeting called the X-ray picture a tremendous technical achievement. They said it will provide new understanding of radiations which govern radio communications on earth.

The photograph was obtained by a Naval Research Laboratory team, headed by Richard L. Blake with the help of an Aerobee-II rocket fired 130 miles into the sky.

It shows the sun rimmed by a bright X-ray halo and several intense spots of bright X-ray emission distributed over the halo's disc.

Dr. Herbert Friedman, superintendent of the atmosphere and astrophysics division of the laboratory, explained the photograph at a symposium on solar emissions.

The surface of the visible sun has a temperature of about 10,000 degrees Fahrenheit. Stretching millions of miles into space is the sun's coronal atmosphere, very thin, but very hot.

The corona's average temperature is about 1,000,000 degrees Fahrenheit with local hot spots reaching perhaps 18 million degrees.

At this temperature the gas is ionized into electrons and positively charged heavier particles.

"The electrons race about at such high speeds," Friedman said "that their collisions with the heavy nuclei generate X-rays."

Friedman said the X-ray intensity "has been found to play an important role in the formation of the ionosphere," the charged regions of the upper atmosphere, "which in turn controls long-range radio communications."

Be Seated

SWAMPSCOTT, Mass. (UPI)—Selectman Donald E. Costin opposed the idea of a pay raise for the selectmen. But taxpayers voted them raises of \$150 a year each, anyhow. Costin announced his \$150 would be spent to buy three new swivel chairs for the three selectmen.

\$2 MILLION HAIL STORM swept through central Texas and pelted San Angelo with hail stones as big as golf balls and some pellets actually reached the size of baseballs. This picture shows part of the damage done in San Angelo.

Franco May Announce Plans Soon To Return King

By PHIL NEWSON
UPI Foreign Editor

There is speculation in Spain that Generalissimo Francisco Franco may be about to disclose one of his most closely guarded secrets.

That would be something about

his own plans to step down and when or if a king is to return to the Spanish throne.

The speculation arises from a recent meeting between Franco and the royal pretender, Don Juan de Borbon. Officially unconfirmed reports from that meeting say Franco recognized the Borbon's royal claim, thus eliminating other possible claimants.

Within the Borbon family, there are two possibilities—Don Juan de Borbon, or his son, Prince Juan Carlos.

The son, under Franco's guidance, has been given the education of royalty—attendance at all three of the nation's military academies, army, navy and air.

He now is embarking on a

term of civilian studies under tutors. Monarchist sources say the father, allowed his son to return to Spain only upon assurance from Franco that the Borbon dynasty would be the chosen one.

Don Juan is the man on whom monarchists currently are placing their bets.

Spanish law now provides that whoever takes the Spanish throne must be more than 30 years old, a Catholic, a Spaniard and from a recognized royal family. The 47-year-old Don Juan fits the description. His son still is too young.

Monarchist sources in France and Portugal expect Franco to give a hint of his plans during a forthcoming visit to Barcelona where he is expected to make at least two important speeches.

These sources believe one of Franco's first moves will be to bring forth a law establishing the rights and powers both of a chief of state and a chief of government, roles now filled by Franco.

Franco himself has said repeatedly that Spain is a monarchy but that he has a lifetime mandate to direct Spain's destiny. Only one thing would cause him to abandon what he considers a providential duty. That would be ill health.

In Portugal, where the pretender lives in exile, royalist sources expect nothing concrete for two years. But they also believe it might come earlier.

Anti-Missile

Test A Success

WASHINGTON (UPI)—The Army successfully fired its powerful Nike-Zeus anti-missile from underground for the first time at the White Sands testing range in New Mexico.

An announcement here said the huge missile, packing 450,000 pounds of thrust in its first stage, roared aloft from an underground "cell" or "silos."

The test rocket carried a dummy second stage and warhead. Five previous Zeus firings have been conducted from the surface, three of them successfully.

New Officers

To Be Installed

The Longwood Civic League will install its new officers at a covered dish supper and family night celebration May 5.

Mrs. Garland Shaw was re-elected president in the recent election. Mrs. W. J. Hartley was named vice president; Mrs. Ira Wilson, second vice president; Miss Dorothy Heath, secretary; Mrs. Stephen Rockwell, treasurer; Miss Elizabeth Abbot, recording secretary; and Miss Ella Cummings, house chairman.

The supper will be at 6:30 p.m. at the league building.

Motels In Trouble?

TALLAHASSEE (UPI)—State Hotel and Restaurant Commissioner Richard Edgerton said today an estimated 14 to 16 Florida resort hotels and motels will go bankrupt this year. Edgerton said this is more than usual, but is not an indication of a decline in tourist business.

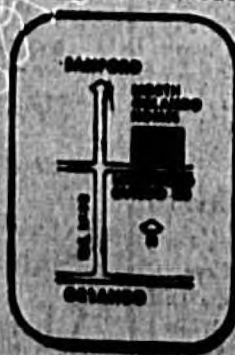

American Home says...

Chessman Is Executed

SAN QUENTIN, Calif. (UPI)—Caryl Chessman was executed today. He was gassed to death at San Quentin prison in the electric chair at 11:05 a. m. today. He was gassed to death at San Quentin prison in the electric chair at 11:05 a. m. today. He was gassed to death at San Quentin prison in the electric chair at 11:05 a. m. today.

bar, letters and telegrams poured into Gov. Edmund G. Brown's Sacramento office from around the world pleading that he be spared. But Brown, an opponent of capital punishment, refused to interfere with the execution. He granted Chessman an 11th hour reprieve Feb. 19 so the California Legislature could consider a capital punishment law and because of fears that his execution might trigger demonstrations against President Eisenhower on his South American trips.

The Legislature refused to ban the death penalty. Brown said he was powerless to act because the State Supreme Court voted three times by a 4-3 margin against recommending clemency. Thus ended the incredible story of an obscure habitual criminal who after entering death row became a best-selling author, self-taught legal expert and worldwide symbol in the campaign against capital punishment. During his years on death row Chessman saw 98 men and one

woman pass his cell en route to the gas chamber. He wrote four books, including "Cell 2455, Death Row," which sold half a million copies. His more than \$100,000 in earnings helped finance the legal moves he master-minded himself to cheat the gas chamber. He made nearly 50 appeals to various courts. And while on death row the court reporter at his 1948 trial, the judge who sentenced him to death and the warden who received him at San Quentin died. As he died demonstrators protesting against his execution clustered outside the San Quentin gates, the governor's mansion in Sacramento and the State Supreme Court building in San Francisco.

It's All Over Now But The Voting!

Candidates for 20 county offices were doing last minute patchwork on their political strategy after making their final formal primary pleas before about 1,000 residents at the Democratic rally Saturday night.

The field of 22 candidates seeking countywide offices, two men running for one school board position and two sets of district candidates and peace justice candidates make up the county ballot.

Seminole Voters also will help Brevard County choose a state senator for the two-county 37th Senatorial District, with Bernard Parrish of Titusville and Gary Bennett Jr. of Cocoa running for this seat.

Candidates Woo Big Dade Vote

MIAMI (UPI)—Florida's candidates for governor gathered in vote-heavy Miami today for an 11th hour television appearance.

Between 200,000 and 250,000 votes are expected to be cast in the Miami area—Dade County — in the Florida primary election Tuesday.

With such a light vote, Dade County could be the key. The long-range weather prediction was for scattered showers in the peninsula from Tampa southward Tuesday, with clear weather to the north.

Unopposed candidates are John Galloway, tax collector; Vernon Mize, county judge; Karlisle Housholder, county prosecuting attorney; R. T. Milwee, supt. of public instruction; James A. Birkenmeier, member of the board of public instruction from District 3; George Kelsey, constable District 3; W. Hugh Duncan, justice of the peace, district 4 and A. C. Doudney, county surveyor.

Transportation

At least two candidates offered the public free transportation to the polls Tuesday. Sheriff J. L. Hobby asked that anyone wishing a free ride call FA 2-5621, FA 2-6363, FA 2-5117 or FA 2-7411.

In other races, Arthur Beckwith Jr. will be trying to unseat David Gatchel as Clerk of the Circuit Court.

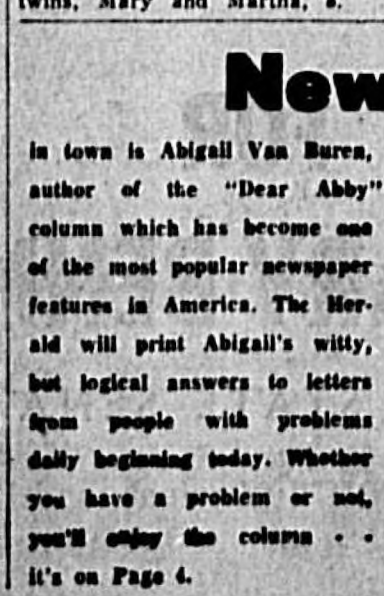

New Girl

In town is Abigail Van Buren, author of the "Dear Abby" column which has become one of the most popular newspaper features in America. The Herald will print Abigail's witty, but logical answers to letters from people with problems daily beginning today. Whether you have a problem or not, you'll enjoy the column. It's on Page 4.

Pre-Summit Talks Hampered By Turkey Riots

ISTANBUL (UPI)—Anti-government rioters shouting "freedom! freedom!" battled military police today outside City Hall, where leaders of the Atlantic Pact were holding crucial pre-summit talks.

Several rioters were injured, and several more were arrested. The outbreak was the latest of a series in the past five days in which 14 persons had been reported killed. Authorities confirmed only one death.

A cordon of military police in red and white helmets beat the rioters back from the City Hall, holding them about 300 yards from the building. Their shouts could be heard clearly.

Several thousand persons were involved in the demonstration. No shots were heard, although Gen. Fahri Ozdilak had ordered troops maintaining order in Istanbul to shoot if there were any new demonstrations today.

Foreign Minister Fatih R. Zorlu, opening the pact session, said the current Korea-style rioting in Turkey does not affect the nation's unity in support of the Western alliance.

Zorlu said Premier Adnan Menderes, whose government is the target of the demonstrations, regretted "with deep sorrow" his inability to be present at the pact session.

Menderes remained in Ankara, the nation's capital, instead of coming here because of the anti-government disorders.

A 24-hour curfew imposed on Istanbul Sunday ended at 4 a. m., and U. S.-made Patton tanks were withdrawn from the approaches to city hall at that hour. However, strong military forces remained in the area.
