Airport Authority Bill OKd

Sanford City Attorney Wiliam Hutchison has been authorized by the City Commission to draw up a proposed bill establishing an airportindustrial authority with clause inserted to give the city freedom from taxation o the former Navy base by Seminole County once the 1,750-acre site is released to the city, expected before March 1.

This provision keeps the city free of any county taxes or the land or buildings and would presumably pass the liability on to firms leasing buildings for tax on the material conents of the structure but leav ing out the land, itself, as municipally owned land.

If the county decides to tax the property, liability will not be held by the city. thereby forcing the county to seek co lection of any tax from base

However, circumstances surrounding the Florida povernor's message, show the close link which either exists or is being forged between the White House

We've Learned ... ?

Is it really too much to alk, now that man has shown he can travel around the moon Is it really too much to ask, now that man can annihilate an entire nation with a single bomb ... Is it really too much to ask, now that man has created electronic brains that can compute hundreds of times faster than his own . . . Is it too much to ask, when the conquests of man exceed average comprehension . . . Is it really too much to ask - NOW - that man learn to live with himself?

Does it not seem incredible in the light of present day knowledge that the sons of the world must be sent to destroy each other because the fathers disagree in philosophy? Does it not now seem incredible that our sons are predestined to be enemies simply because they are born in different geographic locations on an earth that is suddenly a rather small community? Does it not seem incredible that leaders of nations in conflict place a greater value on the shape of a table than on the lives of thousands of their fellow countrymen?

The sverage mother, father, son and daughter in America has no animosity toward the average mother, father, son and daughter in Russia, China, North Vietnam, North Korea, South America or South Africa. Throughout the world we all have the same concern: raising our children, hoping they will grow up in a world free of war, abundant in opportunity and free of "incurable" disease. Here in the United States, our leadership

must temper its pride in the conquest of the moon; in China, Mao Tse-tung must temper his pride in his country's ability to detonate a hydrogen bomb; Ho Chi Minh must temper his pride in his litle country's ability to make war against major powers for decades. All of this must be tempered with the appalling universal inability to make peace.

Today we have learned so much - and know Interpretive Report mly and so subordinately appropriate. How will those who will be far wiser assess what we today call "civilization"? Perhaps the same way we regard those "lower" animals that eat their voung. - Goldsboro (N.C.) News-Argus

The the mount war Goy, Claude R. Kith Jr., focussing on the Kirk performance, the Governor "These of the State" message to was in Washington doing what comes naturally, selling Florida to those with power to help our state at the national level.

> His taned remarks give an unmistakable feeling that President Nixon will be asked to lend the power and prestige of his national administration to build a "strong state government" in Florida. Here he received important voter support in the 1968 cam-paign, despite the Kirk backing of the candidacy of Gov. Nelson A. Rockefeller of New York for the GOP

> This is another year, however, and what came through clear and loud from the state message was that the exceptional ability of the lively Governor Kirk would be concentrated now on action. With 1970 just around the corner, it would be

illogical to expect any softening of the political in-Tallahassee. Even while Florida listeners and watchers were fluences which come with a gubernatorial election at the state level but he pointed to the consolidation of Jacksonville and Dade County as an example of

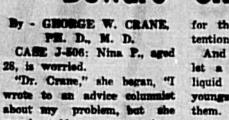

How Many Devils Can Dance

The manage itself spring no surprises. It prom-ised no new taxes and a hold-the-line budget. Great-ly increased sums to better haw enforcement and

A continuing conflict with the state cabinet (now elected) and the personnial hot issue of education surfaced with a Kirk proposal to clip the wings of Edu-cation Commissioner Floyd Christian. 1969 would be the third year of the Kirk admin-

istration and he devoted to proper restructuring of governmental agencies and implementation, as far as legally possible, of the 1968 plans.

Stating a fact, that the troubles now confront-ing the state during years of extraordinary growth were perceptible during other and earlier adminis-trations, he added "... but everyone looked politely the other way." Restructuring of government is needed not only at the state level but he pointed to the consolidation

Kirk's 1969 "State Of The State" Message!

what municipal governments could consider. Here in Sanford, however, the drive for a stronger state government has, to be sure, its supstronger state government has, to be sure, 10, sup-porters. But there have been several instances when Kirk moves have not been wisely planned or effective. We are especially concerned with the continuing identification of our city with the very important problem of migrant labor with Tallahassee joining with Albany N.Y. in a proposal which certainly has merit but lacks important prior consultation with either elected officials or employers in Sanford or Seminole County. This can be remedied and should be. On balance, however, we welcome the vigor and out-going personality of our governor. We, too, be-lieve that 1959 should be a year of performances

and not promises. Governor Kirk has set a high standard and his proposals — especially the probable huge bond issue he talked about makes the "State of the State" mensage a document which all citizens can re-read as the year goes on, as a helpful guide!

Mentalit OF LINS Examined

DADE CITY, Fla. (AP) - A hearing for a judge accused of schizophrenia - paranoia" was delayed Wednesday until March 10 so that a pair of psychiatrists can examine Circuit Court Judge Richard Kelly.

Kelly is accused before a Florida Judicial Qualification Commission panel of conduct unbecoming a judge. He took the stand Wednesday

and, waving his finger in the air and said: "I have been specifically charged here with schizophrenia, paranoia and Captain Queeg type of schizophrenia Daranola."

"You should have told us! Kelly demanded. "You should not have allowed me to be smeared with these charges." He said his attorneys were not told in advance of the specific charges against him. The comnission ordered the prosecutor, attorney William Hopkins of Tallahassee, to give Kelly's attor-

neys amended charges citing specific allegations of mental in competence. But the commission also ordered Kelly to submit to examination by two psychiatrists.

Commission members granted Kelly permission to speak, but then said they were displeased with his remarks.

A Tremendous Project

Just as the Olympics was intended to unite all countries, rather than compete with their silly war games, that Seminole sports season is well on its Little League Recreation Park just might do the same thing way. However, swimming has for Seminole County. Ah, you all know the problems connected with trying to

utilize the Sanford Municipal Stadium . . . seems like no one is ready to assume the responsibility for saying go ahead. When you talk to the City Officials, you get all kinds of static about it being a City Property and as much it wouldn't be 'fair' to let those outside the City use it, etc. (Some peo-

ple have strange ways of equating value.) In the meantime. it's neglected and not put to nearly the right amount of usage and . . . ab what's the use. Maybe the folks at Seminole Junior College will go ahead

afterall and rent Tinker Field in Orlando for ten bucks (\$10), But those folks had better watch out cause this will be kids from out of Orange County using their facilities. That's right ... just in case you missed my point -

although we hoot and holler about SJC being Seminole . . . they don't have any place locally to play their 30 games this

So, let's get back to our opening thoughts on this matter. I think that where there has arisen a division between the northern and southern parts of a comparatively small county. perhaps sports and its related activities will help to join us together again'.

Good luck to all of those with the initiative and foresight for the future. If ever we can be of service to you, it's here gotten off to a booming start at your call.
