Snow Halts Autos Site Decision Pends

Junior College
Winter Blasts Sock All Of North Plains

Recommendations from the state survey team which visited Seminole County Wednesday to study proposed sites for Seminole Junior College are expected to be received in about a week or 10 days, Mason Wharton, school board chairman said today.

"The committee made no recommendations or rejections of any of the sites," Wharton explained.

"They viewed all the sites and gathered all the information we had available on each location. This information and their own observations will be compiled, analyzed and studied before any recommendations are made. After we receive their analysis, we will be in a position to make our own study and choice," said Wharton.

Monday, the board and the junior college advisory committee will meet at 7:30 p.m. to study and review information gathered during interviews with president candidates during the past two weeks.

Announcement of the name of the president is expected "soon," Wharton said.

PULL REPLY UNITED NATIONS, N. Y. (UPI)—India promised a full reply in the General Assembly to the United States' proposal for a UN peace force of African, Asian and Latin American contingents in Kashmir.

WHILE BANDS PLAYED Wednesday, Miss Vicki McArdle, head majorette of the Twirling Seminoles painted the first fish in the United Fund's proposed boatload on a sign temporarily set up at the intersection of First Street and Park Avenue. Parade kicked off 11:30 a.m. for \$35,000 for 10 participating agencies.

Marines Go Over UF Goal

First Lt. Jim Carney, Marine barracks project officer, presented Chaplain Lee McDonald, station project chairman, with a check at the base campaign "blast off."

As early as Monday, the Marines had collected \$21, going over their goal by \$1. The station goal is \$200.

The Reconnaissance Attack Wing One campaign to collect \$3,500 was launched Monday. Seminole United Fund leaders' prayers were answered.

Heavy rains also hit the southeast corner of Mississippi with winds about 10 mph.

LA Boat Works Opening Branch Here Next Week

Southeastern regional sales office for the Lancaster Boat Company of Los Angeles, will open in Sanford in about a week, with an anticipated first year's sales of \$100,000.

The new sales office, located on West 13th Street, will be a wholesale outlet for eight-10 and 12-foot polyethylene plastic fishing boats. According to regional sales manager Theodore T. Navolio, the first year's operation will be confined to Florida distribution, with Georgia and Alabama outlets to follow.

The Sanford office will be in the branch of the California firm.

The molded plastic fishing boats, one-third lighter than fiberglass boats of comparable size, are turned out in the world's largest vacuum mold, according to Navolio, and the boats are just 3/8 of an inch thick. The crafts, easily adaptable for sailing with an area sail, range in price from \$80 to \$100 on the retail market. They are guaranteed unbreakable, unburnable—virtually indestructible. Breaks can be patched in four hours with a special resin.

Navolio said the Sanford site was selected because of easy transportation access and inviting tax structure.

Navolio, who has moved from Chicago, will make his home here with his wife and five children. They have purchased a home at 3107 South Park Avenue.

Crooms Hi Grad Puts Hat In Ring

MORT LAUNDERDALE (UPI)—The first Negro to graduate from the University of Florida law school and his law partner will make a team effort to represent their area in Congress and in the Florida Legislature.

W. George Allen will try for the new 10th congressional seat, and his partner, Alice Hastings, will run for a Broward County seat in the State House of Representatives. Hastings is a Florida A&M graduate.

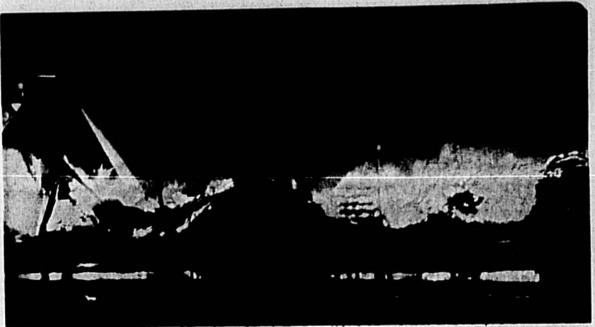

Willie George Allen was born at Midway, where his mother, Mrs. Leslie Brown, now resides. He was graduated from Crooms High School in 1932, from Florida A&M University and the University of Florida law school.

Kicked Out MOSCOW

(UPI)—The Soviets today closed down the Moscow news office of the American Broadcasting Company because of an ABC report from Washington which said a Kremlin shakedown was imminent.

GIRL SCOUTS

a participating agency of United Fund, are busily engaged in stamping United Fund leaflets for distribution. Members of Troop 808, First Presbyterian Church, stamping leaflets with their leader, Mrs. Robert L. Laverne (left), are Susan Williams, Judy Fitzgerald and Kathleen Schneider. (Herald Photo).

TWO-MILLION-DOLLAR loss was estimated today following a spectacular blaze, fears of which was visible in Sanford, Wednesday evening at the Keller Kitchen Cabinets Southern, at DeLand airport. This photo was taken three hours after the fire was discovered by Herald staff photographer Bill Vincent Jr.

2 Die In DeLand Blaze

DeLand (UPI)—Firemen recovered two bodies, today and searched the still-burned ruins of a cabinet factory for two other possible victims of a spectacular flash fire.

Police said two employees of the factory are unaccounted for.

Snow was falling today in southeastern Wyoming, northwestern Colorado and the Nebraska panhandle.

Blizzards north of the snowed hard during the night. Two weeks of snow and rain appeared to hurt chance of a good wet crop in northern Wyoming.

Omaha, Wednesday night registered 12.7 inches of rain for September, topping a record that has stood since 1880 for most rainfall in any month. Forecasters predicted up to three inches of rain would fall during the night along the Elizabeth River, a tributary of Nebraska, and warned residents of low-lying areas to prepare to leave their homes.

Heavy rains also hit the southeast.

River Estates Bond Called By County

Seminole County today called for performance of the \$44,000 street paving bond in the controversial St. Johns River Estates case.

The Board of County Commissioners authorized County Attorney Harold Johnson to instruct American Fire and Casualty Company to perform the bond according to the original specifications.

Deadline for performance was set at Oct. 15. The contractor is not to be paid until the bond is performed.

The county and the principals involved in the Seminole County subdivision have attempted to reach an agreement for several months without success.

Actually, the case goes back to 1960 when the subdivision was begun. Paved streets never have been constructed according to the original plans and specifications.

Commissioner John Fitzpatrick, who made the motion calling for the bond, said it was not to be construed as meaning that the county will accept the streets once they have been built.

Chairman John R. Alexander voiced the same viewpoint.

"Our whole intent on delay of this case was to get the best streets possible," he said. "We can't assure these people that they will receive maintenance once the streets are built."

St. Joseph Davis Jr., attorney for a group of residents in the subdivision, appeared before the board to again state his client's position. His statements were made prior to the action taken by the commission.

"We're not asking you for tax money to pave streets," Davis said. "All my clients ask is that the \$44,000 bond be enforced."

Davis reviewed the 1955 legislative act which pertains to plats in Seminole County. The act requires paved streets be put into subdivision and that a surety bond be called for.

Judge Separates Mother And Son

MIAMI (UPI)—A Michigan father who abandoned her reared son in hopes he would find help in a strange city left him a second time on a judge's orders.

Mrs. Victor Thorne, 41, said she had "a little ache in my heart," but believed that leaving her son in a school for retarded youths here was best for the boy.

Juvenile Judge Ben C. Shepard took the advice of psychiatrists who examined Mrs. Thorne in ruling Wednesday at a hearing that the boy must be put in an unidentified home in Dade County while his parents return home without him.

"They must pay the costs of keeping the boy in the institution," the judge said.

Woman Killed By Own Auto

ST. PETERSBURG (UPI)—A woman was killed Wednesday by her own car after she was struck by her own car moments after backing it out of the garage.

The Miami weather bureau said early today that the remainder of Debbie was a "little wet but over the top" southeast corner of Mississippi with winds about 10 mph.

Burns' Plan Scored

By Paul Brookshire
Rep. Lawton Chiles made a slashing attack on Gov. Haydon Burns' \$300 million road program in the Kivwits Club Wednesday.

"It is emergency roads or call safety politics," Chiles said.

"They can't sell it for any other reason so they'll try to sell it on safety," Chiles declared.

Chiles said if the Burns administration was so safety conscious "why did it not support several traffic safety measures the Legislature tried to pass?"

The Lakeland lawmaker also said many of the miles of proposed four-lane roads will have to squeeze down to cross two-lane bridges. He called this dangerous.

Chiles do not propose to four-lane roads where most of the accidents are," Chiles said. He said the accidents occur in urban areas and most of the road bond money will go to rural areas.

Chiles also said he believed the road bond issue eventually will result in a gasoline tax increase.

He said 87 miles of the proposed 1,241 miles of four-lane roads are less than 5,000 cars daily. It always has been criteria for four-lane that the road must carry an average of 5,000 cars daily, Chiles said.

The legislator also said 126 miles of the four-lane projects parallel existing interstate highways and said 118 miles of the roads are "key West boulevards."

Chiles was introduced by Sen. Mac H. Cleveland Jr., program chairman for the Kivwits Club.

Explosion Kills Perpetrator

TAMPA (UPI)—A man apparently tried to plant dynamite under his former wife's trailer near here Wednesday night but died in the explosion, himself, police said.

Police said the operator of the trailer park on Route 60 east of here challenged James Houston Simmons, 40, when he spotted the prowler under his ex-wife's trailer.

The operator fired a shotgun when Simmons refused to come out. Police said the shotgun blast may have detonated the dynamite but witnesses said the dynamite went off a short time later.

Houston Simmons, 40, and his two teen-age children by a previous marriage, were not hurt.

New Mercury On Display Friday

The 1966 Mercury moves forward again as a premium car in the medium-price field with tasteful styling changes, a new two-door hardtop roofline, new engines, a sporty 3.5 series, and an extended list of luxury options. The new Mercury goes on sale October 1.

"Mercury is gaining a reputation in the medium-price field similar to that established in the luxury field by the Lincoln Continental," said Paul F. Lorenz, Ford Motor Company vice president and general manager of the Lincoln-Mercury Division. "This is reflected not only in sales increases, but in improved owner loyalty, greater conquest sales and outstanding owner satisfaction."

"For 1966, we are continuing Mercury in the Lincoln Continental tradition with revolutionary styling changes, plus luxury car standards of top quality design and assembly, superiority in comfort and performance, and a wide choice of options for the custom touches demanded by owners in this premium car market."

The new Mercury features a completely fresh front end and appearance, with new hood, fenders, bumper, grille and lights. Rear appearance is changed with new taillamp assemblies and rear bumper arms which increase the overall length by two inches to 220 inches. Two-door hardtops have a new roofline with a concave fastback blending smoothly into the rear deck.

Other new styling features are revised side ornamentation, new instrument cluster facing and trim styles. The wastegate on the front fender can be replaced with an optional cornering light. The overall result of these styling changes is an even longer, well-proportioned silhouette.

Mercury's big change for 1966 under the hood includes an exclusive new 410-cubic-inch engine, a new optional 428-cubic-inch engine, and two improved and more powerful 300-cubic-inch engines.

RAY WINFREE demonstrating the 1966 Mercury for Hunt Lincoln-Mercury. (Herald Photo)

The 1966 Mercury V-8 features hydraulic valve lifters, new "deep breathing" design, and is teamed only with the new heavy-duty automatic or the fully synchronized four-speed manual transmission. Higher power and efficiency result from the "deep breathing" design borrowed from the new 410 and 428-cubic-inch engines for Mercury's well-proven grille and lights. Rear appearance is changed with new taillamp assemblies and rear bumper arms which increase the overall length by two inches to 220 inches. Two-door hardtops have a new roofline with a concave fastback blending smoothly into the rear deck.

Other new styling features are revised side ornamentation, new instrument cluster facing and trim styles. The wastegate on the front fender can be replaced with an optional cornering light. The overall result of these styling changes is an even longer, well-proportioned silhouette.

Mercury's big change for 1966 under the hood includes an exclusive new 410-cubic-inch engine, a new optional 428-cubic-inch engine, and two improved and more powerful 300-cubic-inch engines.

Mercury's 1966 engine program provides significant performance improvements. The unique new 410-cubic-inch 300-horsepower V-8 becomes standard equipment on Park Lane models and is optional at extra cost for other Mercury. It utilizes a new heavy-duty dual-range automatic transmission for extra smoothness, and a new low-ratio heavy-duty rear axle for improved economy.

English Estates PTO Announces Carnival Plans

Plans for the Halloween Carnival to be held at English Estate Elementary School under the sponsorship of the Parent-Teacher Organization on Saturday, Oct. 30, have been announced by Bill Pyle, ways and means committee chairman.

Hours for the festivities are 2:30-7:30 p. m. and hot dogs, hamburgers, and cold drinks will be on sale in the cafeteria during this time.

Prizes will be given for the best costumes in grades 1-3 group and grades 4-6 group. Door prizes will be awarded every half hour.

There will be prizes for all who participate in all games.

Among the other attractions planned are a cake walk, country store, and variety store. A poster contest is being conducted for sixth graders with the winning entries to be displayed in area shopping centers.

Dog Vaccination Clinic Friday

Villages of North Orlando will stage a dog vaccination clinic Friday evening from 6-7 p. m. During those hours Dr. Brannen Murphy, Altamonte Springs veterinarian, will administer rabies shots.

Village dog licenses also will be on sale. They will cost \$1 each for tags for males and spayed females, and \$2 for unspayed females.

Residents are cautioned that beginning Saturday the village's dog ordinance will be strictly enforced.

10050 Auxiliary Has Sewing Bee

The Ladies Auxiliary of the Veterans of Foreign Wars Post 10050 of Casselberry held a sewing bee Tuesday at the home of the president, Mrs. Pat Peterman at 510 Elm Drive Casselberry.

Six members were present to work on comfort articles such as ditty bags and lap robes for veterans in the Lake City Veterans Hospital.

The articles will be taken to Lake City some time during October.

WILLIE HUNT, owner of Hunt Lincoln-Mercury, demonstrating the 1966 Continental two-door coupe. (Herald Photo)

'66 Continental Totally New Car

The 1966 Continental is a totally new car for the first time since the 1961 model; yet retains its traditional classic flavor in every line and tone. The new Continental will be introduced Friday.

In addition to a new, larger body with crisp, elegant styling, Continental for 1966 adds a two-door hardtop coupe to bring its model offerings to three. The Continental also features a new more powerful and smoother engine and transmission combination.

"Continental has made steady progress since introduction of the 1961 model, acknowledged to be the styling and quality leader of the industry," said Paul F. Lorenz, Ford Motor Company vice president and general manager of the Lincoln-Mercury Division. "Each year since 1960, sales have improved over the prior year and 1965 will be one of the best in Continental history."

Models offered are the roomy new two-door coupe—the first such body style to be offered by Lincoln since 1960—the four-door sedan, and the world's only four-door convertible.

Interiors of the new Continentals are completely restyled with a swept away panel on the passenger side and a new type of instrument cluster featuring a fingertip positioned "control console" sloping toward the driver.

For 1966, engine displacement is increased from 439 to 462 cubic inches, the industry's largest production passenger car engine. The 340-horsepower power plant is coupled to a new three-speed torque converter automatic transmission, a new driveshaft with double-cardan universal joints at each end and a new rear axle, all of which combine to provide smoother, quieter and more durable performance.

New features of the 1966 Continental include glass rear window for the convertible, reversible keys, keyless door locking, gas tank capacity increased to 25.5 gallons from 24, and double-thickness vinyl laminated windshields, a safety improvement. Front wheel disc brakes are continued from 1965 as standard equipment.

Two million commuters flood Tokyo's main railroad terminals daily.

Sisters Separated 12 Years, Reunited

By Jane Casselberry

Mrs. Frank (Faye) Messick, of 411 Hibiscus Road, Casselberry, was overjoyed to receive a long distance telephone call from her sister, Mrs. Jean Powers, of Hampton, Va., whom she has not heard from for almost 12 years.

The sisters have tried in vain to locate each other. Recently Mrs. Messick saw a notice in a veteran's magazine telling how to relocate former friends in service by sending a letter and pertinent information, which would be forwarded, if possible, through the Veterans Administration.

Although her sister had served in the WACS during World War II, Mrs. Messick could not remember her serial number, but she did find an old address book with Mrs. Powers' husband's serial number and was able to trace her through this manner.

As soon as she received the letter, Mrs. Powers placed a call to her sister and some of the many questions of the past years were answered.

The sisters plan a reunion here as soon as Mrs. Powers and her husband can make arrangements to come for a visit.

The girls and their brother and sister were orphaned as young children in West Virginia and divided up among relatives to live. The last time they were together was when they lived together for one year when Faye was 14 years old.

Later as they went their separate ways, Jean going in

Operation DARE Gets Underway Here Tonight

Seminole County agriculturalists will meet at 7:30 o'clock tonight at the Agricultural Center to kick off a program to develop the county's agricultural resources more effectively.

Under the title "Operation DARE (Developing Agricultural Resources Effectively)" this program is the first of a series of meetings to make a comprehensive analysis of Seminole's agriculture, its problems and its potential for future growth.

"Agriculture has played a major role in the economy of the area since its earliest history," County Agent Cecil Tucker said, "and it can continue to do so for many more years, helping to stabilize the economy, if we plan for it."

The fact that the Messicks moved to Florida in 1935 at so complicated the problem Mrs. Messick discovered a coincidence after receiving word of her sister's whereabouts, when she found that her neighbor across the street also has a sister living in Hampton, Va., not far from Mrs. Powers.

The magnetic needle was known to the Chinese, but the nautical compass supposedly took on its modern form about A.D. 1300.

Know Your Policeman

Police Lt. Joe T. Hickson is a quiet and confident, yet penetrating demeanor that marks him immediately as an investigator.

In fact, that is his specialty in the department — investigating and clearing up specialties, gambling offenses and illegal liquor operations.

Hickson is a native of Seminole County and grew up in Sanford and Oviedo.

Sanford has laid the final claim to him, however, and he now resides at 2500 Mellowville Avenue with his wife and two children.

Florida agriculture represents 16.5 percent of the state's income but has received only 3.7 percent of the state's general appropriations.

First Aid Classes Are Scheduled

Red Cross first aid classes, first aid instructor training courses, Gray Ladies courses, advanced first aid and medical self-help and junior first aid courses have been announced by Mrs. James McKee, public relations chairman for the ARC first aid committee.

Standard first aid courses and advanced courses are open to anyone who wishes to attend, regardless of the sponsor.

The 10-hour courses for standard first aid will begin as follows:

- Oviedo Fire Department, Oct. 12, 9 a. m., 100 Palmtoe Avenue, Charles Boe, instructor.
- Sanford Fire Department, Oct. 14, 9 a. m., 100 Palmtoe Avenue, Ernest Wright, instructor.
- Gray Ladies from Pinecrest School are to join the Oct. 14 class at the Sanford Fire Department.
- Two new Gray Ladies classes will be started. One will be at the First Baptist Church in Longwood, Oct. 7 at 9 a. m., for Longwood Elementary and South Seminole Junior High School mothers. Mrs. Glenn McCall and Mrs. Betty Kell will be instructors. The second class will be for Sanford Junior High mothers at the Seminole County health department, Oct. 5, 7:30 p. m., 74 North Fairfax Avenue, North Orlando, with Ernest Wright, instructor.

Sanford Fire Department, Oct. 15, with Mrs. James McKee as instructor.

Advanced first aid and medical self-help course of 22 hours for Girl Scout leaders in the NAS Ballroom. This is a 30-hour course, with three day classes instructed by Mrs. Carolyn Clifton, Mrs. Dorothy Sullivan and Mrs. Tamar Braden. The night class will be taught by Burt Falch and Charles Boe.

A junior first aid course of 16 hours began for Pinecrest sixth graders at 2:35 p. m. Tuesday and is being instructed by Burt Falch, Mrs. Dorothy Harley and Mrs. Ann Sicekowsky.

The first aid instructor training course, sponsored by the Navy Wives began today in the NAS Ballroom. This is a 30-hour course, with three day classes instructed by Mrs. Carolyn Clifton, Mrs. Dorothy Sullivan and Mrs. Tamar Braden. The night class will be taught by Burt Falch and Charles Boe.

Dodge Unveils Its Elegant '66 Today

Dodge today unveiled its most elegant '66 car. The car is completely new and the styling carries a fresh contemporary theme. The lines are simple and not cluttered with chrome. There are many significant new safety and mechanical features.

The Coronet is a family-size car," said Byron Nichols, Dodge general manager, "and it is in the price range most people can afford. Yet it offers a wide range of body styles and accessory options which allow the buyer to tailor it to his individual taste."

The complete Dodge line, including Monaco, Polara, Coronet and Dart will go on display Thursday.

The Coronet was introduced to the Dodge line last year and officials predicted it would lead the way for Dodge. To date it has accounted for more than 40 percent of Dodge retail sales.

"The crisp, fresh styling of the Coronet should make it even more popular in 1966," said Nichols, "and we should produce about 300,000 Coronets in the coming year."

In the economical Dodge series, there are a 2-door and a 4-door sedan, in the Deluxe series, a 4-door sedan and a 6-passenger station wagon are offered.

The Coronet 440 series has a 2-door hardtop, convertible, 4-door sedan, 6-passenger station wagon and 8-passenger wagon.

The top-of-the-line Coronet 500 series features a 2-door hardtop and a convertible. A 4-door sedan will be introduced about November 1.

Recognizing the broad range of performance preferences among car buyers, Dodge has given the buyer a wide choice of engines. The standard power plants are the economical

225-cubic-inch Slant Six and the 273-cubic-inch V-8.

Optional engines, all V-8's are: 318-cubic-inch with single two-barrel carburetor; 361-cubic-inch, single two-barrel; 383-cubic-inch, single four-barrel; and 426-cubic-inch, dual four-barrel.

The biggest engine, called the Hemi-426, has hemispherical combustion chambers, and is a competition engine tuned for normal, everyday driving.

Interiors are new and more luxurious. Features are elegant shell-design bucket seats, all-vinyl upholstery in hardtops and convertibles and a stylish console between the front seats.

The Dodge 4-door sedan will have cloth-and-vinyl upholstery patterned to give the "bench" seats a bucket-seat appearance.

Dodge engineers and stylists were able to incorporate many new safety and convenience features.

A new inside door handle, flush with the armrest, is a new safety feature. It is designed to operate and minimize the possibility of injury when the car is in motion.

New air-conditioning and heating systems are quieter and more efficient.

Parallel side window guides permit the glass to be lowered straight down and practically eliminate around-the-pane drafts.

On station wagons, the second seat has a new design which folds flat.

Redesigned power steering provides 30 per cent additional assist at low engine speeds. This means more help to the motorist when he is parking the car.

Two TorqueFlite transmissions are available, one for six-cylinder models and the other V-8's. Both have been modified to provide improved performance and durability.

There are two manual transmissions — the standard three-speed column-mounted unit and a companion floor-mounted four-speed with all-new shift mechanism. The shift pattern features a "lockout" in reverse which is a new safety feature.

NOTICE OF MEETING TO WHICH IT MAY CONCERN: The Florida State Bar Association, Florida State Bar, 1201 N. Florida Avenue, Tallahassee, Florida, will hold its annual meeting on Tuesday, October 11, 1966, at the Seminole Hotel, Tallahassee, Florida, from 10:00 a. m. to 5:00 p. m. The meeting will be held in the ballroom of the hotel. The agenda includes the following: 1. Session 1, 10:00 a. m. to 12:00 p. m. 2. Session 2, 12:00 p. m. to 1:00 p. m. 3. Session 3, 1:00 p. m. to 2:00 p. m. 4. Session 4, 2:00 p. m. to 3:00 p. m. 5. Session 5, 3:00 p. m. to 4:00 p. m. 6. Session 6, 4:00 p. m. to 5:00 p. m. The meeting is open to all members of the Florida State Bar. The fee for the meeting is \$10.00. The meeting is held in the ballroom of the Seminole Hotel, Tallahassee, Florida. Enterprise PTC Allocates Fund For Purchases

By Mrs. Ritchie Harris
Project funds of the Enterprise PTC are being allocated to a variety of purchases for the current year. Items to be purchased are a portable projector stand, a strip viewer, movie screen, projector, record player, painting easels and reading chart holders.

Mrs. Justice Semore, president, conducted the meeting and introduced new PTC officers and committee chairmen. New teachers were introduced by Mrs. Sylvia Harbin, principal.

Mrs. Jimmie Hickson, room mother chairman, reported that each class will have two parties this year, the first at Christmas and the second for Valentine's Day. Parents will be contacted for donations of money or baked goods for the parties and each class also will be responsible for refreshments at one of the PTC meetings.

Room mothers for the year are Mrs. Fay Hill, morning kindergarten; Mrs. Betty Mark, afternoon kindergarten; Mrs. Jean Moore, first grade; Mrs. Odella Small, first and second grade combination; Mrs. Marylin Stultz, second grade; Mrs. Pat Cherry, third grade; Mrs. Gloria Rudt, fourth grade; Mrs. Helen Padgett, fourth and fifth grade combination; Mrs. Dot Pittman, fifth grade; Mrs. Mildred White, fifth and sixth grade combination; and Mrs. Marian Bradstock, sixth grade.

Guest speaker for the evening was Daniel Kulkowski, who explained the new math now being taught in all the grades. He pointed out that parents should be encouraged to help their child but instead, let the child explain what he is trying to do, thus thinking for himself.

Room club banner and prizes was won by Mrs. M. L. Lewis Jr., Hot Springs, Ark., director of Lions International, will be the principal speaker at the 40th anniversary banquet of the Sanford Lions Club Friday evening at Look-out restaurant, Fern Park.

Mustang Offers Sports, Luxury Appeal

After 17 months of record-smashing success as a 1965 model, the Mustang becomes a 1966 with new sports and luxury appeal features. New styling touches, five-dial instrument cluster and new safety features are standard on all 1966 Mustangs. New Mustang options include a Stereo-sonic tape player for music lovers and a high performance engine/automatic transmission combination.

Donald N. Frey, Ford Motor Company vice president and Mustang Division general manager, announced that the 1966 Mustang continues the pattern of responsiveness to the customer demand that has marked the car since its introduction in April, 1964.

"With the Mustang, we have added a fastback model, styled steel wheels, new standard disc brakes, a styling experiment, and optional front-wheel disc brakes," Mr. Frey said. "Six months later, in April, we announced three more Mustang options — the GT equipment group, interior door group, and full-width front seat."

"Thus, the 1966 Mustang represents the third evolutionary step in the Mustang's proven triple appeal as a practical car, luxury car and sports car."

Mr. Frey noted that in view of the Mustang's Tiffany Award-winning design, exterior styling changes in the 1966 Mustang are limited to the grille, side scoop ornaments, wheel covers and a new filler cap. He described the changes as "inspired by the Mustang II," a styling experiment that preceded the Mustang.

The air scoop ornament on the Mustang II consisted of five horizontal vanes emanating from a vertically cantilevered support. On the 1966 Mustang, three bars emerge from the scoop in similar fashion.

Perhaps Mustang's most distinctive change is the new grille design or fine hood ornament. A large hood ornament encases the running Mustang emblem.

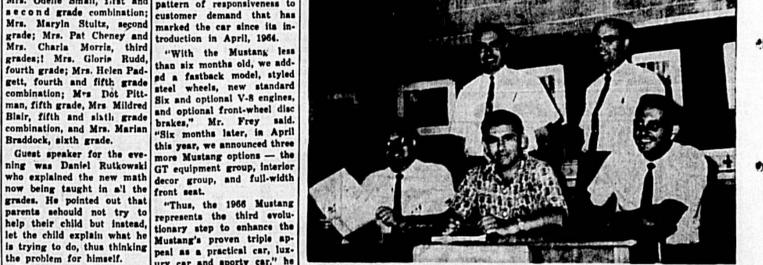

Wide wheelcovers suggest a "magnesium-wheel" look and "competition-car" feeling, and the gas filler cap has a brushed finish and Mustang emblem.

Standard Mustangs have new door insert trim panels and new textured vinyl pleated inserts on the bucket seats. The instrument panel and glove box door have a black canvas case finish on standard models, and an optional Mustang luxury trim.

The Mustang lineup for 1966 continues unchanged with the hardtop, convertible, and the Mustang 2-plus-2 fastback.

The power lean lineup introduced a year ago is continued, with the lively 200-CID six-cylinder engine standard on all models and a choice of three optional V-8 engines ranging from 300 to 426 cubic inches. A three-speed manual transmission is standard and three-speed Overdrive is optional. Logoped manual transmissions are optional with Mustang engines including the 371-horsepower high-performance engine.

A new Stereo-sonic tape player is combined with an AM radio for new music and "Tm" entertainment. It is a collection of buttons and most panels with the radio and complete little additional space. The tape carriage

Library Club Officers Named At Lyman

By Jane Casselberry
Officers for the coming year have been elected by the Lyman High School Library Club. They are Ricky Willy, president; Mary Deane vice president; Jo Balabanis, secretary; Cheri Griffin, treasurer; and Dety Lee, reporter.

Some of the projects planned by the club include the observance of National Book Week and National Library Week; writing book reviews for the school newspaper; arranging for the band, and collecting and filing pamphlet material in the vertical file.

Already processed for the year are 200 new books and 200 record books. The library is planning to give a period of library instruction to all 14 sophomores.

A group of 18 audio-visual trailers will receive lessons through the library in the operation of tape recorders and various types of projectors to aid the entire audio-visual program of the school.

Serving as library secretary this year is Mrs. Myrlyn Barck.

Other members of the Library Club include, Linda Weaver, Jane Christian, Harry Crook, James Taylor, David Bryant, and Mary Lee.

Wayfarers To Meet Monday

DeBary Wayfarers will elect a nominating committee when they meet in regular session at 8 p. m. Monday at the DeBary Community Center. All regular members are invited to attend.

Anniversaries of three members raised to the degree of Master Mason during the month of October will be recognized and all men in this group are requested to be present.

The film of DeMolay provided by the Grand Lodge of New Jersey will be shown at approximately 9 p. m. and DeMolay and prospective DeMolays are invited to join the Wayfarers at this time to see the film.

It is requested that those attending wear their name badge.

Hospital Notes

SEPTEMBER 26, 1966

Admissions

Fairlane Broadened In Family Appeal

An exciting new "his and hers" Sportlift automatic transmission, two new model series, three big new engines, new convertibles and completely new styling highlight the Fairlane for 1966.

"In completely re-engineering and re-styling the Fairlane for the first time since its introduction as a 1962 model, we have improved on the nimbleness and roominess that have led owners to think of their Fairlane as 'family sports cars,'" said Don N. Frey, Ford Motor Company vice president and Ford Division general manager.

The new model selection — four series instead of two and 13 models instead of eight — is indicative of the broadened family and sports appeal of the 1966 Fairlane.

The new series — Fairlane 500/XL and Fairlane GT — are available in convertible and 2-door hardtop models and are designed for sports and luxury-oriented customers, Mr. Frey said.

"Appropriate to their unique performance characteristics, Fairlane GT hardtops are distinguished from other Fairlane by the Ford GT racing stripes above the rocker panel, simulated hood louvers and a unique front-end grille treatment," he said. "Under the hood, the Fairlane GT's standard 300-cubic-inch V-8 is equipped with a chrome dress-up kit, heavy-duty suspension and high-performance white alloy wheels. Lotion tires also are standard."

The standard Fairlane GT transmission is the all-new, four-speed manual, all- synchro transmission and the new manually controlled Cruise-O-Matic "Sportshift" are optional. All Fairlane GT and GT-A transmission controls are floor-mounted.

Cars equipped with the "Sportshift" are designated Fairlane GT-A hardtops or convertibles," Mr. Frey said. He described the Fairlane GT-A as unique among high-performance cars. The new "Sportshift" automatic transmission offers complete manual selection of the three forward Cruise-O-Matic speeds by the driver. Yet, the same transmission can be driven without moving the control lever from the fully-automatic "drive" position, if preferred.

"We think of it as a 'his and hers' transmission," Mr. Frey said, "because it can be driven just like a conventional Cruise-O-Matic. But the driver who demands still more precise control can downshift and upshift at will — and more quickly than in a comparable car with a manual transmission — by using the Fairlane 500/XL and GT hardtops and convertibles features bucket seats of a new, wide design and a spacious interior door group comparable to the Ford Galaxie 500/XL series.

The Fairlane series retains 1- and 4-door sedans and a 4-door station wagon, while the Fairlane 500 series is broadened to include five models — 2- and 4-door sedans, a 2-door hardtop, a 4-door station wagon, and a 4-door station wagon with distinctive simulated wood trim, returns to the lineup for 1966. All Fairlane station wagons for 1966 have a new, more spacious interior which may be opened either as a tailgate for loading cargo, or as a door for passenger entry without the need of stepping over a tailgate.

All 1966 Fairlane bodies are built with construction but are completely new.

Mustang Offers Sports, Luxury Appeal

Six, bucket seats, sporty floor shift, carrying — all standard. Come by Total Performance '66.

Strickland - Morrison, Inc., Sanford, Fla.

'Bronco' New Ford Sports-Utility Vehicle

Ford Division of Ford Motor Company today launched the 1966 automotive model year with the announcement of a completely new line of four-wheel-drive vehicles called "Bronco."

The new Ford Bronco is a sports-utility vehicle which, with its standard two-and four-wheel drive, is equally at home on a rugged mountain grade or on a run to the shopping center. Designed to operate on or off the highway, the new Ford vehicle comes in three body styles — a sporty roadster, a roomy wagon and a short-cut utility model.

Donald N. Frey, company vice president and Ford Division general manager, said "The Ford Bronco has been designed to join the Mustang in providing modern, active Americans with driving adventure as well as practical transportation."

Frey noted that there are now some 300 organized "four-wheeler" groups in the U.S. — numbering about 10,000 members — who use utility vehicles for driving and camping in rugged locales.

"We talked to these owners who enjoy exploring the remote wilderness as well as to others who drive over less rugged terrain," he explained, "and they told us what features they wanted most in a sport and utility vehicle."

Frey said the characteristics asked for include: — Higher highway cruising speed. — The ability to climb steeper grades.

— Improved ride. — Weather-light cabin. — More comfortable seats. — Shorter turning radius. — Ready available parts and service.

"We achieved all these characteristics in the Bronco's design," Mr. Frey said. "We think of the Bronco as neither a conventional car nor a truck, but as a vehicle which combines the best of both worlds," he continued. "It can serve as a family sedan, a sports roadster, a snow plow, or as a farm or civil defense vehicle. It has been designed to go nearly anywhere and do nearly anything."

Mr. Frey said the market for utility vehicles has grown from slightly more than 11,000 in 1960 to more than 40,000 last year, and he predicted expansion to 70,000 by 1970.

"We expect the Bronco to be a leader in that growth," he concluded.

The new Ford Bronco will be in Ford dealer showrooms in September.

BODY STYLES — The Bronco body styles — open "roadster," short-cut utility, and fully-enclosed delivery or station wagon — are designed to provide outstanding comfort with practicality.

(Roadster) — The roadster, most in the "class," Bronco, soon as you get on the road and in an open sports model with a windshield that can be added or removed and the hood with a spring-loaded pin. A bench seat is standard equipment, and a cargo area

Seven County Grid Teams To See Action In Busy Football Weekend

By Sam Stanley
Herald Sports Editor

Local football fans will get their biggest weekend of late night when three games kick off a seven-game card that has the best of the Seminole County teams in the county line.

In game tonight, the Seminole High Junior Varsity will try again to break into the top column, with the Bishop Moore JV paying a visit to Memorial Stadium; the Lyman JV will play host to the visiting New Smyrna JV at Lyman field; the Ocoee JV will play host to the visiting Jacksonville JV at Jacksonville; the Sanford JV will play host to the visiting High Branch JV at Sanford; the Ocoee JV will play host to the visiting Jacksonville JV at Jacksonville; the Sanford JV will play host to the visiting High Branch JV at Sanford.

Panther's Air Attack Set For Jax Tonight

By Bob Thomas
Herald Sports Writer

The Ocoee High Panthers travel to Jacksonville tonight where they meet William H. Miller and his team. The Panthers spent most of the week working on pass offense. They worked on their offensive running plays. Head coach Willie Holt is happy over the return of the first two games due to an injury.

Young 'Hounds Out To Avenge Last Year's Only Loss Tonight

By Jim Beecher
Herald Sports Writer

The revenge-minded Lyman Greyhounds will be out for their first victory tonight in their rivalry competition when they tackle the New Smyrna Beach Buccaneers at Lyman field at Longwood, beginning at 7:30 p.m.

Junior High Braves Seek Second Victory In Visit To Ocoee JVs

By J. Richards
Herald Sports Writer

After coming out victorious in their first meeting at the Sanford Junior High Braves will try to duplicate that feat tonight as they travel into Ocoee to engage an older, more experienced Junior High squad from Ocoee.

Inland Team Sweeps Realtors

The Inland Materials team of the Jet Boatmen League made a clean sweep over the Ben Ward Realty team with a 17-0 victory at the Jet Boatmen League grounds.

A win-hungry Seminole Junior Varsity eleven, holding a 2-1 record, will take the field against the Baby Hornets, who are expected to win the first two games of the season.

Young 'Hounds Out To Avenge Last Year's Only Loss Tonight

Backed him up will be Charles Engle, Larry Bolden and Allen Richey will take care of the fullback duties, while Dennis Garrett, leading ground gainer against Lakeview, Milton Bousay and Dermott will alternate from the halfback post.

1964 Champion Toss Off First

By Fred Down
UPI Sports Writer

The San Francisco Giants no longer can "win" the National League pennant. The only question is whether the Los Angeles Dodgers will lose it. That's the situation in the fast-closing N.L. race today with the Giants as stunned as they were last week.

When they whipped the Cincinnati Reds 5-0 behind Koufax' overpowering two-hit, 18-strikeout pitching after the St. Louis Cards had dropped San Francisco 6-4. The Reds were mathematically eliminated by their defeat.

The Dodgers now can do no worse than tie for the pennant if they win only two of their last four games. They will clinch outright if they win three — no matter what the Giants do in their last four games. And they're coming from behind to win their last four games.

There's certainly no talking of the Dodgers' collapse requiring a change of strategy. They're coming from behind to win their last four games. And they're coming from behind to win their last four games.

Johnson enroute to his 25th victory — making him the first left-hander in N.L. history to reach the 25-victory mark in his career. His 18 strikeouts raised his season total to 269 — 21 more than the former major league mark held by Bob Feller.

'MVP' Mays Born To Lead? Just Ask His Giant Teammates

By Charles Elias
Special Correspondent

San Francisco's MVP, Willie Mays, is still in the top 20 when he became the senior player for 1955. He will be also the first man in baseball history to have won that award 11 years apart.

Mrs. Ralph Austin Smith Re-Lives Seminole County Cultural Interests

A strong sense of duty to her community fortified with an agile mind, determination and perseverance, spells the success of Mrs. Ralph Austin Smith. It is she who tells the story and history of the Seminole County Mutual Concert Association. The cultural group and the community owes much to Mrs. Smith, along with a number of other dedicated citizens, who kept the group alive.

"I have been selling tickets as long as I can remember," she said in an interview when queried as to how long she had been with the organization. She has been membership chairman a number of times and continues to serve on its board of directors from year to year.

It may come as a surprise to many to know that the concert series was initiated well over 10 years ago and was first held in a movie theatre. The first concert, a little over a year ago, was held at the old Florida State Bank Building. When the theatre closed, and Mrs. Smith determined to be remembered, they then moved to the Women's Club where the chairs, furnished by the club, were set up before each concert and taken down afterward. At this point, she would give her time, but many broken fingernails as well.

But her eyes lit up when she spoke of a harpist who came for a concert and brought her fabulous collection of harps. Mrs. Smith told of the many lovely recitals given following the concert by the late Mrs. Henry Wright in her home on Park Avenue, now occupied by her granddaughter and her husband, Dr. and Mrs. William White.

In reminiscing, the well known clubwoman mentioned some of the outstanding artists to appear here—Jose Greco, The Don Cossacks, Nelson and Neal and Claudia Finza, Ennie Finza's daughter. Too, the past presidents of the Association read like a

Who's-Who of Civic leaders—the late Bishop Martin Bram, the late H. H. Coleman, An drew Stine of Altamonte Springs, Raymond Ball, Francis Roumili, Dr. H. Wayne Rucker, Ernest Cowley, Frank Mebane, Chester Bearick of Delberry, Don Bates and C. Vernon Mize.

Touching on the very heart of the motivating force behind the continued existence of the Association, despite some disappointing years, Mrs. Smith told why she had kept faith with the group for so many years. "I gave of my time because I wanted the youth of our county to hear and enjoy the good music—to be given that opportunity."

Officers held by the civic leader are as many and varied as a concert's program. Mrs. Smith is a past president of the National Association of Parliamentarians.

Even with her very active club and social life, Mrs. Smith still finds the time to enter into selling concert memberships with great competitive spirit. Ask any one of the Association's workers and they all have the same tale to tell—"Mrs. Smith got there first!"

Determination and perseverance pay off—here's what the concert group is accomplishing on the board of the Salvation Army, the United Fund and the Family Counseling Service. She is Historian of the United Church Women of Florida and is a member of the National Association of Parliamentarians.

New Arrivals

BEAR LAKE
By Maryann Miles
Elder and Mrs. Kenneth A. Wright of 612 S. Bear Lake Road, Bear Lake, received a cable from their son, Elder Burton Wright, who is a little boy weighing five and one-half pounds had arrived, Sept. 24.

Elder and Mrs. Burton Wright are stationed in Kadabona, South Africa, where they have been since Oct. 4, 1963. He is a Bible teacher at Kadabona College and was Bible teacher at Forest Lake Academy here five years during which time his wife was school nurse at the Academy.

The newest member of the family has been named Jonathan Robert, and joins brother Jimmy, eight, and sisters Judy, 12, and Jeanne, seven.

Maternal grandparents are Elder and Mrs. William Jensen of California.

Mr. and Mrs. Marvin H. Goebel, formerly of Sanford and now residing in Richwood, announce the birth of their first child, a daughter, Ann Justine, born Sept. 22 at Stuart Circle Hospital in Richmond and weighing in at a healthy six pounds, 12 ounces.

Mrs. Goebel is the former Sandra Lee.

Ann Justine is the first grandchild for both the maternal grandparents, Mr. and Mrs. J. H. Lee Jr., and the paternal grandparents, Mr. and Mrs. Glenn Goebel, all of Sanford.

Mrs. Jim Rowe Installed President Of Jayceettes

The Lookout Restaurant in Fern Park served as a lovely scene for the installation banquet of the Sanford-Seminole Jayceettes, Saturday, Sept. 25.

In the dining room the ladies were arranged in a horseshoe fashion with white linen tablecloths and yellow candles. The glow from the candles added just the right atmosphere for the evening. The head table was adorned with a beautiful flower arrangement of white gladioli, yellow chrysanthemums and blue pom-poms.

Mrs. Herbert (Ann) Shea, chairman for the club, led everyone in reciting the creed of the Jayceettes and their motto was sealed to a delicious dinner of primo rib roast.

After dinner the outgoing president, Mrs. Jim (Linda) McKee, gave a brief summary of the 1964-65 club activities and projects. Mrs. McKee was also presented a gift by Mrs. Phillip (Betty) Skates, outgoing vice president, for all her hard work and contributions to the club for the past year.

President of the Sanford-Seminole Jayceettes and an honored guest at this event, Frank Finch, installed the newly elected officers for the 1965-66 club year.

The new officers are as follows: president, Mrs. Jim (Anne) Rowe; vice president, Mrs. George (Jo Ann) Paulk; secretary, Mrs. Wayne (Tracy) Albert; treasurer, Mrs. Sid (Jan) Whisen; directors, Mrs. Jim (Linda) McKee, Mrs. Dave (Mary Jean) Berrien and Mrs. Robert (Gwen) Murrin.

There was a standing invitation to all the Sanford-Seminole Jayceettes and their wives or dates. Approximately 25 persons attended the banquet.

The most important reason for the success of this banquet, however, was the gracious hostess of the evening, Mrs. Phillip (Betty) Skates. Mrs. Skates was in complete charge of the banquet and congratulations are in order to her for a job well done.

Paints Make Kids Colorful Hawaiian Luau Bids Farewell To Couple

Do your youngsters like to connect autumn leaves? If so, they have a supply of easy-to-use patterns for a spatter painting session.

Each youngster needs a six-inch square of window screening and a tooth brush for each color of paint. Prepare two or three water color solutions from powdered paint, and cover the work table with paper to protect it from stray splatters. Provide plenty of paper for painting, and everything is ready.

Have each artist choose a few favorite leaves and lay one or more on a sheet of paper. To spatter paint, hold the screen over the leaf and paper, and rub paint through the screen with the brush. A fine spray of dots will outline the leaf. The more dots, the more dense the color.

Sometimes it is fun to add another color over the first, or to move the leaf slightly and repeat the original color. Several different leaves may be used in the same painting.

When the painting session is over, all you have to do is throw away the used leaves and rinse the screens and tooth brushes in warm water so they are ready for the next session.

If head lettuce is to be used immediately, the leaves can be separated easily by cutting out stalk, then forcing cold water into the opening for a minute or two.

Mr. and Mrs. Russell Hammond of Fourth Street are being welcomed home after a vacation trip to Massachusetts and Connecticut.

Table Tips

Paper napkins can be designed as well as handkerchiefs in all the way you fold them. They can be decorative or practical—hold place cards or silverware.

For a decorative, space-saving napkin idea for buffets, try this outstanding style. Unfold a dinner napkin. Then fold it into a triangle with the point at the top. Turn the lower edge up about an inch, beginning at one side. When it is all rolled, tuck in the point at the other side, and stand the napkin on end.

Another simple fold puts a two-ply napkin in shape for a place card. Unfold once so the napkin is a square. Placing it with the open points at the bottom, turn the top point down about a third and fold the side points under so they overlap in back. The place card fits under the front flap.

To make a napkin into a silverware holder, unfold the napkin, then turn each point in to meet in the center. Fold the resulting square into a triangle with the top point meeting at the top. Fold the left side over one-third. Then fold the right side over one-third and tuck the point between the layers of the left side. This leaves a pocket for silverware.

A little experimenting will turn up many more napkin ideas to dress up your dinner table.

To disguise minor scratches on woods with natural finish, use broken pieces of nutmeats such as pecan, English or black walnut, Brazil or balsa wood. Rub diagonally along the scratch until it darkens.

Birthday Party Surprises Mrs. S.C. Walker

MRS. STANLEY C. WALKER, center, was guest of honor at a surprise birthday party Sunday afternoon at the home of her daughter, Mrs. Edward Hauptkorn, right. Co-hostesses were Mrs. Curtis Lavender, left.

Mrs. B. F. Dyal Honored At Party By Church Class

Mrs. B. F. Dyal of Miami was honored recently at a party at the home of her son and daughter-in-law, Mr. and Mrs. Marvin Dyal, 505 Plumosa Drive.

Guests were members of the Trustees Class of the First Methodist Church, of which Mrs. Dyal was a member 15 years ago.

Refreshments of limeade and cookies were served with three-year-old granddaughter, Carol Dyal, assisting.

Attending were the Meses, Joy Walley, E. White, W. P. Chapman, J. P. McCelland, Clarence Pursell, R. W. Turner, Getavia Humbley, W. J. David, F. D. Hickok, J. F. Crawford, T. E. Wilson and W. J. Crawford, daughter of Mrs. Dyal.

ED HUNT demonstrating the 1966 Comet for Hunt Lincoln-Mercury. (Herald Photo)

Mercury Comet Is Changed Car

Mercury Comet, world's durability champion, for 1966 is the most completely changed car since its initial introduction six years ago. The new Comet goes on sale at Mercury dealerships October 1.

The 1966 Comet features a new, larger body with an entirely different sleek appearance inside and out. The wheelbase is lengthened for the first time and a wide selection of new big car options are introduced, including two 400-cubic-inch Mercury V-8 engines.

A new Capri series and a Voyager station wagon join the Comet line, while the sporty Cyclone series adds a convertible model and a special high performance "GT" option.

"The larger, more elegant 1966 Comet is a response to the public demand for premium automobiles in every segment of the market," said Paul F. Lorenz, Ford Motor Company vice president and general manager of Lincoln-Mercury Division.

"While moving this beautiful new Comet upwards on the product ladder, we are retaining one series at traditional Comet length for our customers who want a premium car value at no appreciable price increase."

The 1966 Comet offers customers a choice of two lengths, 196 inches for the

"202" series and 203 inches — an increase of almost eight inches over 1965 — for the upper series Capri, Caliente and Cyclone. Wheelbase is 116 inches, up two inches.

The new Comets are more spacious, with curved side bodies, significantly increasing roominess. Shoulder room is increased up to three inches and hip room more than two-and-a-half inches. Front and rear head room and leg room are greater, also. Front and rear tread are 58 inches, an increase of three inches in the rear. Overall width is increased less than one inch, to 74 inches.

Comet luggage capacity is increased in all models. Upper series sedans gain one-fourth more room at 17 cubic feet, while the shorter "202" sedans offer 15 cubic feet of space. Station wagon cargo volume is raised to 85 cubic feet.

The Comet 300 engines are improved versions of the well-proven, durable Mercury power plants of that displacement. A larger clutch and rear axle are introduced for the basic Comet 300-cubic-inch, 120-horsepower six-cylinder engine.

Comet ride and handling are upgraded for 1966 with improved front and rear torque boxes, improved underbody structure, heavier front and rear suspension components and improved steering linkage. Brakes are larger and the sound package is improved.

The interior of the 1966 Comet is completely new, featuring a swept away panel on the passenger side and a new instrument cluster with all controls in easy reach for the driver. Factory installed optional air conditioning has controls and outlets fully integrated into the instrument panel.

Comet makes many safety features standard equipment on all models for 1966. These include padded instrument panel and padded visors, windshield washers, outside rear view mirror, back-up lights, emergency flasher and front and rear safety seat belts. Windshields are double thickness vinyl laminated safety glass.

New interior trim schemes continue wood-grain styling for Caliente and black center-crest finish for Cyclone models. Luxury car padding-type interior door handles are incorporated into Caliente models.

For the first time, Comet wagons offer a third seat and a concealed, lockable compartment beneath the cargo floor. Wagons are offered in both two seat and three seat versions in Voyager and in simulated wood-grain added Villager models.

'Big 3' Offer 'More Car' For The Money

DETROIT (UPI)—Although the nation's Big Three auto manufacturers are charging more for their 1966 models, they offer "more car" along with the higher price tag.

Ford Motor Company announced its new prices Wednesday and, like General Motors and Chrysler, included with a modest price hike a selection of models featuring standard equipment, safety devices which were sold as "optional" in 1965 cars.

The result is that a 1966 Ford or GM car costs slightly less than a similarly equipped model in 1965.

Chrysler, which was first to announce 1966 prices, included a slight increase above the "more for your money" factor.

The suggested retail prices of the three manufacturers do not include additional consumer savings to be realized by the three per cent cut in federal excise taxes.

All three motor companies said they would pass the excise tax cut along to consumers.

Ford's latest prices, like those of GM, hold the line for the seventh year in a row.

The additional equipment included in the new models was in the safety field—rear seat belts, back-up lights, windshield washers, padded visors and dabs and other items.

Although you could have bought a 1965 model last July for less than its 1966 counterpart, you would not have gotten the added safety equipment without paying extra.

And if you added that equipment, the price on most Ford and GM cars would have been slightly higher than the 1966 cost.

FUTURE FARMER officers for 1965 are shown as they prepared to conduct their first meeting. From left, front row, are Gary Gibson, president; Danny Dickerson, vice president; Michael Tindel, secretary; and George Carlton, treasurer; back row, Michael Gibson, reporter; Kenneth Forest, sentinel; Arthur Patchin, chaplain, and Donald Patchin, parliamentarian. Make the most of the 1966 Comets. They're bigger, wider, up to 8 inches longer than any Comet before. They make driving their cars more like driving a big car.

Comet's new line and sported luxury seats in 24 models.

For a sample of Comet's style, take the Caliente. Notice the smart upholstery... the handsome, simulated wood grain panels. For more driving action by Comet's new line and sported luxury seats in 24 models.

Be a long, sweeping set of curves that includes built-in air conditioning... power windows, power brakes, and power everything. All this in the most exciting parade of Comets ever. Drive a real driving machine at your Mercury dealer's lot.

Cowboys Ride Herd On (?) Motor Bikes

By William R. Branton
DODGE CITY, Kan. (UPI)—Ranchers in this cattle center of the old West have gone soft. Cattle barons of yesterday tussle over in their hand-tooled boots at livestock transactions conducted by the modern rancher.

Gone are the cattle drives up the panhandles of Texas and Oklahoma — hot in the summer, ravaged by blizzards in the winter—the inevitable gun fights at the end of the trail and the endless haggling over the price of the stock.

Modern ranchers either fly or drive in air conditioned comfort while the steers are shipped by rail or truck.

They still come here from Texas, Oklahoma, New Mexico, Colorado and some even from Mississippi and Arkansas, but that's as far as the ruggedness goes.

Sale barns now are air conditioned and the stock is herded by cowboys riding motor scooters.

In the world's largest stock and feeder auction barn, McKinley-Winter, ranchers are treated to a rare quality of comfort.

Bidders and sellers lounge on contour chairs in an air conditioned sale barn built in the shape of an old Grecian theater.

The traditional dress is there: cowboy boots, ten-gallon hats and western-styled clothing. But there are no sweating bidders in this barn.

To drink in the atmosphere of a bygone era, I traveled to this wild west center seeking the tough, arrogant cowhand.

But even in the sale barn, crowded with western-dressed cattlemen, I was hardly noticed in my Ivy League-cut business suit.

Auctioneers here run off an average of 800 fat cattle and 6,000 stocker-feeder cattle daily. They have auctioned off between 13,000 and 14,000 stocker-feeder cattle in one day.

And unless the Kansas cattlemen has tales as tall as his Texas counterpart, the cattle business in Dodge City has grown to the largest in the world.

Back in the days of wild and woolly Dodge City, ranchers herded in an estimated 325,000 head of cattle annually. Now one sale barn runs from 350,000 to 370,000 head through the auction annually.

Disappointed with the complacency of a breed whose forebears were ruthless, hard-drinking and brawling, I decided to search for adventure elsewhere.

Behind the sale barn, crowd-

New Doll Club Sets Meeting

By Julia Harton
Mrs. Dorothy Fuller, of Altamonte Springs, secretary-treasurer of the newly organized Central Florida Doll Club, has announced a meeting of the group for 2 p.m. Saturday at the home of Mrs. J. P. Fryer, 1608 E. Central Boulevard, Orlando.

Purpose of the club is to further the knowledge of history of dolls and project for the year is for each member to give a doll to some child in his or her home. It is hoped that there will be a sizeable collection of dolls on hand for this purpose by Christmas.

Any person who collects dolls or is interested in them is invited to become a member of the club. Further information is available by contacting Mrs. Fuller.

\$7 Million In New FSU Buildings

TALLAHASSEE (Sp1) — Students returning to Florida State University this fall will find the landscape changed with the completion of \$7 million in new buildings during the year. However, this new landscape will be a temporary thing since the university has an additional \$13 million in new facilities scheduled for the coming academic year. Heading the changing view at FSU will be the seven-story Physics Research Building and the towering eight-story William Hudson Rogers residence hall. The Physics Research Building cost \$1,874,000 and is connected by a walkway with the Nuclear Research Building. The Nuclear Building also received a face lifting with the addition of a fourth floor at a cost of \$290,000. The Rogers residence hall cost \$976,000 and will house 188 students in 96 apartments. Current plans call for the building to be occupied mostly by graduate students. Construction of a new Biological Science Building costing \$2 million got underway during the summer and should be completed by September, 1968. A grant of \$700,000 from the National Science Foundation helped with building costs. Workers are well along with construction of a new university hospital which will cost \$1,024,000. The four-story building will house 72 hospital beds. Completion is set for April. The next building to start on the campus will probably be the Social Science Building. A four-story building with 151,000 square feet of floor space, it will be constructed across Magnolia Way from Strozier Library. The cost of this project is estimated at \$3,280,000 with \$880,000 coming from a federal grant. Bids are to be received this fall for a 60,000 square foot addition to the Strozier Library. To be located north of the present facility, it will have a sub-basement, basement and five other floors. It will be used for shelving books, about one million of which can be placed in the addition, the new structure also will provide additional study and reading areas. Cost of the project is estimated at \$1,013,000 with federal funds providing \$529,000 of the total. Other major building projects scheduled are Chemistry Building \$3 1/2 million; Fine Arts Classroom Building, \$2 million; Engineering Science Building, \$1 million and Chemistry Building II (for undergraduate classrooms), \$1 million. The Fine Arts, Engineering Science and Chemistry Building II buildings are in the list of building projects costing \$10,538,000 authorized by the last Legislature. The Legislature provided only \$2 1/2 million in actual funds and will allow for completion of only six projects during the present biennium. The remainder of the construction funds will go for supporting facilities such as roads, parking lots and building renovation.

CTP To Study Eye Problems

By Jane Cassberry Eye problems in children will be discussed at the regular meeting of the South Seminole Elementary School Council of Teachers and Parents at 7:30 p.m. Tuesday in the school auditorium. Dr. Daniel M. Ritz, Winter Park optometrist, will speak and show slides related to a variety of visual difficulties common to children with special emphasis on amblyopia, which can be detected in children at an early age if tested properly. First grade teacher Mrs. Mary Elizabeth Dunn and Mrs. Janet Cottrill, county school nurse, will explain to parents a new eye test which they have worked out to give first graders that will detect this problem. Mrs. Dunn became interested in eye problems while taking a course on remedial reading problems at Bethune-Cookman College in Daytona Beach this summer. All parents are invited to attend and members are reminded to bring their membership cards in order to vote on the question of an appropriation of funds for the purchase of library books.

Announce Signing NEW YORK (UPI) — The New York Rangers of the National Hockey League Tuesday announced the signing of center Jean Belisle.

Highlights

TV Time Previews

9-9:30 p.m. ABC. Belitched. "We're In For A Bad Spell" Lovell Aunt Clara is back this time on an errand of mercy. She's determined to lift a curse on a descendant of one of the Salem witchcraft trial judges. Plenty of wild laughs here as Marion Lorne bumbles her way to the rescue of befuddled William Reddick. Funniest scenes as Clara, Sam and Darrin get together to try to prevent him from being haunted a third (part of the curse).

7:30 p.m. CBS. The Munsters. "Broom-Bustin' Monsters." It's into the lab for Grandpa. He's got to create a bravery potion to steady Hermann's nerves. He's afraid of his own shadow (with good cause) and tonight he's got something new to hood over. He's an unwilling entry in a bone-busting contest and he's drawn out only a wild horse, but a ferocious one.

7:30-8:30 p.m. NBC. Daniel Boone. "The Moundbuilders" (Color). A good adventure for this child-oriented series. In fact almost a western science-fiction show. Henry Silva guests as a 300-year-old archeologist who turns up near Boonesborough searching for his people's sun god. The latter died can give peace. And he has had a vision that Daniel will help in his quest. Plenty of wild mountains as Boone and Mingo join forces with Zepherus though it means going against the wishes of the neighboring Shawnees.

7:30-8 p.m. ABC. Shindig. "Barbaric Beauty." A new series. (Airt. of October 21, 1968). The latter died can give peace. And he has had a vision that Daniel will help in his quest. Plenty of wild mountains as Boone and Mingo join forces with Zepherus though it means going against the wishes of the neighboring Shawnees.

8:30-9 p.m. ABC. Crackerjack. "The Crackerjack Story" (Color). Crackerjack tries to bribe Hobart to make his social debut by going to an important birthday party. The bribe: He promises to buy his son a pet, and John tries to tell him there ain't no such beast. Even Crackerjack's billions can't conjure up the purchase. A pleasantly funny show with a delightful scene in which Crackerjack tries to buy the animal from a small boy who's supposed to own one, not knowing it's mythical.

8:11 p.m. CBS. The CBS Thursday Night Movie. "The Notorious Landlady." Jack Lemmon plays an unscrupulous diplomat in London who rents a room from the beautiful Kim Novak. He is romantically attached to her and little realizes she is a murder suspect. Fred Astaire puts his dancing shoes on and plays a straight domestic role in this widely acclaimed comedy.

10-11 p.m. NBC. The Dick Martin Show. (Color). Flylady Diller, Eddie Fisher, Abby Cadabby, John Belushi, and The Dave Clark Five are Dean's.

Year Round Job

Some people are under the impression that newspapers are just barely holding their own or are even in financial difficulty.

Their impressions appear to be supported by the periodic news of the merger or death of a newspaper.

John S. Knight, publisher of the Miami Herald, explored this theory in a recent commentary.

"It is a fact that not more than one newspaper can survive in cities below metropolitan rank," Knight declared. "Attempts to start new newspapers against entrenched rivals are usually doomed to failure, as was seen in the recent death of the short-lived Atlanta Times."

"Yet it is a grave mistake for uninformed people to conclude that all newspapers are in trouble. Quite the reverse is true, as is shown by the fantastic prices both offered and paid for newspaper properties by eager buyers, of which there seem to be plenty."

"One or more newspapers will soon come to the end of the road in New York City. But their shaky economic position can be attributed to labor and management conditions peculiar to New York and not to a national trend."

In general, as Mr. Knight points out, U. S. newspapers are healthy and showing steady growth. The attention appears to be localized in a few metropolitan areas.

The famed Miami publisher also points out what it takes to have a successful newspaper.

"A successful newspaper is usually the reflection of its owner and editor. This is something more than dedication to printing unbiased news, giving voice to all points of view or the skillful assembling of an interesting array of features and comics."

"The newspaper editor also must be the conscience of the community. He should be, as Harry Golden puts it, a vigorous watchdog. Former Chicago Daily News Editor Basil L. Waters called this all important function 'the constant auditing of government.'"

"This means prodding people to action, convincing good citizens to take leading roles in community betterment rather than merely deploring what others are failing to do."

We echo the sentiments of Mr. Knight and we'd like to call his remarks to your attention. We are working with National Newspaper Week approaching.

Thought For Today

For no other foundation can anyone lay than that which is laid, which is Jesus Christ.—1 Cor. 3:11.

The famed Miami publisher also points out what it takes to have a successful newspaper.

"A successful newspaper is usually the reflection of its owner and editor. This is something more than dedication to printing unbiased news, giving voice to all points of view or the skillful assembling of an interesting array of features and comics."

Dr. Crane's

Worry Clinic

Wilma's comment shows that many readers will develop an emotional bias against me but they try to "rationalize" their inner fear by trying to attack me for being too frank or too conservative; too religious or too practical. Remember Bishop Kennedy's wonderful axiom. And remember Shakespeare's remark which you are an immortal influence.

"Last week, for example, our newspaper published two such letters criticizing me for a case in which you warned teenage girls against sexual immorality."

"Dr. Crane," she began, "I am a clergyman's daughter. Why under the sun should any intelligent person object to such a wholesome, helpful column when the front pages are full of stories of homosexuality and adultery in high places, as well as rape and all sorts of sexual assaults on women as usual children?"

"But what puzzles me is the occasional letter to the editor from an irate man or woman who claims you are an immoral influence."

"Why do they just pick on you, who are a doctor and a lifelong Sunday School teacher?"

Bishop Gerald Kennedy of California recently stated a superior law of psychology, as follows:

"You cannot remove from a man's mind by reason what he has never put there in the first place."

Such late letters from readers, as I have mentioned, are not motivated by logic but by emotion.

But those emotional motives are too airy or insipid to put into print.

So, their owners "rationalize" their emotional bias against me and then try to excite the editor by the charge that I am too frank.

For example, I'll give you a series of quick cases on this point.

(1) Many a wife whose husband is straying, will then vigorously attack this column for its sexual frankness.

This is emotional transference, whereby the fearful wives are belaboring me when they secretly realize I have put them on the spot by showing that even an apparently innocent wife is at least 70 per cent to blame for her divorce, due to her sins of omission.

(2) A clergyman whose congregation keeps dwindling, due to his poor oratory, attacks me for "insulting" the populace and overly simplifying psychology by using two-syllable words.

(3) Many psychologists who wish they had launched this column themselves, are over-come with envy and covetousness.

But such an admission is intolerable, so they accuse me of belittling the dignity of the great science of psychology.

In fact, they may even claim that their students to write such letters to the editor, after "feeding" the students the same and those representing the great science of psychology.

(4) Fatigue or cigar ad-dict's may likewise hate me for showing the mental dangers of those substance habits.

But they can't attack me because the show fits, so they must rationalize their own fault by calling me too frank or accusing me of trying to be an authority on more than one field of knowledge.

Remember, there is an old adage that when the shoe pinches, the wearer squeals!

So, someone psychological detective and look behind the obvious.

MAYBE A NEW APPROACH

Lyle C. Wilson Says:

Good Job Well Done

If the Republicans are able to salvage anything worth salvaging from their performance in the 80th Congress it is likely to be the party's record in defending local government against the massive centralization of power in Washington. That should be a good political issue in next year's congressional election.

The pat name for that issue is: states' rights. But that name has unfortunate side effects. It is a term that is used by the far right to confuse the issue of federalism with the issue of civil rights. It is a term that is used by the far right to confuse the issue of federalism with the issue of civil rights.

The only Republican case so far in this 80th Congress came about last week in the House. Republicans and conservative Democrats joined in rejecting a powerful compromise on 1971-1972 and 1973-1974 appropriations bill. It merely assures the right of the House to determine whether provision for governors to veto shall not be permitted. There seems to be at least a possibility that Dirksen will be able to prevail against bureaucratic insistence on Washington.

This limited veto vote had been opposed and defeated by administration forces in the Senate. In conference between Senate and House representatives the veto provision was eliminated from the com-

The Lighter Side

United Press International WASHINGTON (UPI) — When Gina Lollobrigida's measurements were considered at a recent House rules committee hearing, the members took a firm stand in favoring of leaving them as they are.

Rather than measure movie stars, beauty contestants and other fair damsels at strategic points to see how they stack up, we should "admeasure" them.

I got this idea from a Senate commerce committee hearing on a bill dealing with the "admeasurement" of ships. The bill would make having two or more decks. Since Miss Lollobrigida herself has two or more decks, admeasuring her would be no problem.

At the hearing, Sen. E. L. Bartlett, D-Alaska, wanted to know the difference between measurements and admeasurements.

An expert in marine law explained that admeasure-ment means "breaking it up into proportions." That, of course, is the key factor in my proposal.

Proportioning is probably even more important to the female figure than it is to ships.

Bartlett was told that the admeasurement of a ship is based on "detailed physical measurement of the hull and deck structures," plus certain calculations by "methods of integral calculus."

Furthermore, admeasuring a ship would make the statistics more interesting and meaningful.

At present, only the hull and deck structures of beauty queens are measured. If integral calculus would make the statistics more interesting and meaningful, admeasuring her would be no problem.

'Zhulinism'

By Richard C. Longworth

MOSCOW (UPI) — For the second time in three years Zhulin has been forced to buy millions of tons of wheat abroad.

The Soviet press is full of complaints about poor farm planning, careless machinery maintenance, crops rotting in the field.

An American farm delegation returned from the Soviet countryside talking of stunted corn growing "where corn never should be planted."

Even the Soviet government agrees that something is seriously wrong with this nation's vast collectivized farm system. There is as yet no sign of agreement on a cure, but the most drastic solution of all—a breakup of the collective and state farms—is believed to be under discussion.

If this solution is accepted, it may come to be known as "Zhulinism," after V. Zhulin, an obscure Karakoram mount who first proposed it in public.

It must be stressed that Zhulin's proposal, which amounts to nothing less than a dismantling of the state-owned farms that Stalin built up to break up the collective farms, though they have said it would never happen. This is what Zhulin wants to do.

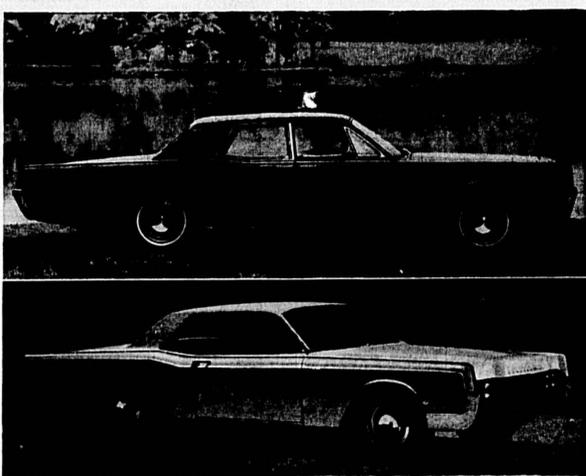

To many persons here—Russians as well as foreigners—his plan appears too drastic to win acceptance. But the fact that it was given prominent display in a major party newspaper indicates that somebody implemented—was now only three years ago by an equally obscure economist, Prof. Yev Zherman.

That's why observers of the Soviet scene took sharp notice last month when Zhulin's proposal appeared in a front page article in Komsomolskaya Pravda, the No. 1 Communist Party newspaper.

Western experts have said that the only solution to Russia's farm problems is to break up the collective farms, though they have said it would never happen. This is what Zhulin wants to do.

To many persons here—Russians as well as foreigners—his plan appears too drastic to win acceptance. But the fact that it was given prominent display in a major party newspaper indicates that somebody implemented—was now only three years ago by an equally obscure economist, Prof. Yev Zherman.

Dear Abby:

DEAR ABBY: I'm a sailor aboard the USS MIDWAY. I left my fiancée back in the States and was planning to get married as soon as I hit home port in San Francisco. Since our ship left the States I did my best to be true to my girl. However, after 40 days at sea we got liberty in Japan. I went on the town, had a couple of beers and "aimed" a little. (A whole lot, I think, would be more truthful.)

I didn't think much of it until the guys I work with told me that I talk in my sleep, and very plainly! (I like it just come right out.
