

ALL AROUND FLORIDA

The General News of "The Land of Flowers."

CULLED FROM THE STATE PRESS

An Epitome of the Week's Most Important Happenings in the State's Domain.

The Florida potato season just now closing was notable for the wide range of distribution of the crop. Shipments were made so far South as to the Isthmus of Panama and so far North as to Alaska. Next season will see as wide a distribution and the intermediate country pretty well filled in. In fact, it looks as though the reputation of the Florida early potato may soon rival that of the Florida orange.

Eighteen persons were poisoned here at a party at the Fourth of July celebration and picnic which was given in the city. All of those effected are supposed to have eaten ice cream which was afterwards discovered to contain ptomaine.

A \$100,000 canning factory is the latest manufacturing industry proposed for Jacksonville, and the prospects for the erection of such a plant in the near future seem very bright.

Florida in general and Gainesville in particular have a right to feel proud of their representative at the conference of state supervisors of rural schools for the South, recently held at Morgan town, W. Va. in that Prof. Lynch, who is the state inspector for Florida, was honored by his election as chairman of the most important committee of that body, the other members of the committee being among the most widely known educators in the country. Especially was this a compliment to the young Floridian, since he was the most youthful on the list.

Not in recent years has the taxable valuations in Putnam county shown up as well as at present. At no time in the history of the county has property generally become more valuable than now, and its worth is constantly increasing. The property of all the people of the county was never more pronounced, and a spirit of progress, improvement and expansion in all lines of endeavor is manifest on every hand.

The Ocala Star of Thursday last said that President Reitz of the Ocala North-west railway had definitely informed the editor of the paper that the railway would be built from Palatka to The Crossville. "This extension," says the Star, has been contemplated for some time, but is now an assured thing.

Customs receipts for the port of Key West for the fiscal year ending June 30, 1911, exceeded those for the year previous by more than \$170,000. The business men of Key West are very naturally pleased over this unmistakable evidence of progress and growth, and anticipate a steady and substantial gain in the future.

St. Johns county, without any bond issue, is setting Duval county, with a million dollar issue, available, a good example in the building of good roads. At the July meeting of the commissioners of this county, the roads of the county are being surveyed, the most important roads of the county. There is every reason to believe that the John A. B. road, which will be paved to the Royal line before Duval has really awakened.

So ambitious people are being doing much improved and satisfied with the prospect of the Ponce de Leon celebration to be held in that city in the spring of 1913. At a big meeting of the board of trade, which was attended by many outsiders, the plan of selling stock in a \$200,000 corporation for the purpose of the exposition project was well received.

Schumpert's Inventions
E. A. Schumpert of this city has invented a number of labor saving devices to lighten the load of the farmer. Among his latest is a fertilizer distributor that looks so good the inventor has disposed of several in a week. Any one who has ever tried to distribute fertilizer by hand knows what a "nasty" job it is and the new distributor saves time and money and patience. Mr. Schumpert has been doing a fine business in farm implements and sewer pipes and supplies this season and deserves every bit of the success obtained for no better man lives here than E. A. Schumpert.

Major-General James Douglas Macdonald

Major-General James Douglas Macdonald, a noted Confederate soldier, died at Gainesville, Tuesday, morning at the advanced age of 91 years. He was the most noted and beloved soldier of Alachua county. The Florida people are proud to have such a hero. The news of his death is a great loss to the state. He was a brave and noble man, and his death is a great loss to the state.

DEATH OF KARL

John Karol died Sunday evening at the residence of his daughter, Mrs. W. H. Underwood, in the city of Sanford. The deceased was a well-known citizen of the city. The funeral was held at the residence of his daughter, Mrs. W. H. Underwood, on Thursday, July 13, at 10 o'clock.

Building Will Be Started

The building of the new hospital at St. Luke's Hospital at Raleigh, Va., for appendicitis and is progressing every day. Mr. Wagner has been in health for some time, and the operation was deemed advisable. His many Sanford friends will be glad to hear that the operation was successful and the Herald joins in congratulation and wishes for his speedy improvement.

CURBSTONE GLEANINGS

A Budget of Opinion "Just Between You and Me"

EVEN THE GATE POST NOT IN IT

A Child is Always Jealous of the Father and Falls in Front of Him

So says Saunderson. He attacked the postings and he didn't know it. He is a child and he is always jealous of the father and falls in front of him. He is a child and he is always jealous of the father and falls in front of him. He is a child and he is always jealous of the father and falls in front of him.

I was out on Sanford Heights last Sunday and it struck me that Dr. Robson has some of the finest yards in Sanford and if the "city people" do not look to their yards the suburbanites will get first prize for the best kept yard.

Sanford Heights is now part of the city and with all the risks made to bring them in I hope the city of Sanford will take good care of them. Give them water, sewers, gas and electric lights and in time the Heights will be a most desirable suburb. The location is good and the terrain is good and the climate is good. It is a beautiful scene and it is a most desirable suburb. The location is good and the terrain is good and the climate is good.

Even if it is getting warm weather we should more sincerely than the phoolcker should stay quiet job.

long argument and persisted pounding we have succeeded in convincing most people that the most dangerous gun in the world is the one that is "not loaded."

By the dint of constant and unerring publicity the venal countryman has learned to become wary of gold bricks. Everybody on earth has taken warning and has learned to do better, excepting and saving the man who rocks the boat. This particular brand of phool seems to be immune to decent advice, nothing can check his activity or lessen the damage that he does. A brainless, phool idiot, not worth looking to respect or crabs, he goes on rocking the boat and endangering always better lives than his own. Often he can not swim and still he rocks the boat's occupants with his nose. The phoolkiller is on his job and someone usually pulls the boat rocker out to work his phool will once more.

"Vanity is the malnourishing of the boat-rocker, he wants God says the mark to "show off." If justice were not blind he would be branded on the forehead with the mark of the phool, only the mark would have to be a small one as he has so little forehead space on which to brand it.

Some of my married friends seem to have taken umbrage at my remarks about the phool. I am sure they are not phool. I am sure they are not phool. I am sure they are not phool. I am sure they are not phool.

many years the churches of Sanford have received my assistance and I will pass neither as a Christian any time. No man, woman or child has ever been kicked away from my door when they needed assistance and I have never been turned out of the church for being a realist in my duty to God or man. The "phool" will pass the deadly gates just as readily as those who disseminate religion ten thousand miles away and neglect the worthy work at home.

The church will be a great success and the shooting is all over and now there is not a word said about the high seas and water front improvement. Has this matter been forgotten so soon? No doubt the city fathers are debating over the subject but why not give some information to the public so we will not have to sit on our hands and wait for several years. This is one of the most important matters that has been agitated in Sanford and I hope that I would about some of the same and now that my dream about this realized the delay gets on the nerves. This work should be started as soon as possible because Sanford is about to become one of the best cities in the state and San-
ford will be a great success unless the late frost

is beautified with a bulk head and built yard. The phool committee forestalled me last week and cleaned up several vacant lots before my article could come out. I don't my chapeau to these gentlemen. They are evidently doing the best they can and there are times when they are handicapped. These gentlemen will not keep their hats clean with the "phool" with the city and just now are hard to place. The month of August are the months of weeds and it is a battle every day to keep them down. In this week the property owners should assist in some way and the hope of the phool committee is to get the weeds down.

COUNTY COMMISSIONERS.

Adjourned Meeting Held Last Week—Business Complete

Board met in adjourned meeting on July 5.

Present—Chairman, Overstreet, Commissioners Woodruff, Dillard, Brown and Merrill.

The tax assessor presented three copies of the 1911 assessment roll and the following changes were ordered made.

It was moved and seconded that the bid of the Virginia Bridge Company to build a steel draw span across the west channel of the St. Johns river at the Geneva ferry be accepted. Bid being for \$4181 and work to be done according to the plans and specifications on file in the clerk's office. It was decided that the contracts with the Virginia Bridge Company be signed and held for delivery until the engineer of the board had checked up the specifications with the contract and then forwarded to Roanoke, Va., to have the corporate seal of the company affixed. The attorney of the board is instructed to give the agent of the company the terms of the bond to be given under the contract.

Adjourned to Thursday, July 6, at 9:30 a. m.

Thursday, July 6, 1911—board met, all present.

It was moved and seconded that W. A. Ginn be employed as engineer to represent the county commissioners in building the Geneva bridge and the cut-off, and that he be paid 2 1/2 per cent on the gross cost of same.

Ordered that the Chairman be instructed to have the leaks and plastering at the court house repaired and hitching posts placed around the court house.

Bid of J. T. McLain & Co. for the cut-off and fills also off wood bridge work at the Geneva ferry was taken up; it being the unanimous opinion of the board that the price named to said bid is equitable and just, it was therefore ordered that the contract be awarded to J. T. McLain & Co. All work to be done according to the plans and specifications on file in the clerk's office. The attorney of the board was requested to draw up a suitable contract with the said company and that the company give a bond of \$1000 for good faith in carrying out the provisions of the contract. Work to be commenced as soon as contract is signed and to be finished by January 1, 1912, providing bad weather and high water does not interfere with the work. In such event the company shall have further time. The price is as follows: Cut-off, \$4000; road work, 20 cents per cubic yard; bridge work, 25 cents per foot. Chairman authorized by the board to sign the contract.

Ordered that Ginn be requested to supply the information desired by the War Department and same to be forwarded by the clerk.

The 1911 millage was assessed as follows: School, 7 mills; roads, 7 mills; general revenue, 5 mills. The state millage for 1911 is 7 1/2 mills making a total of 26 1/2 mills. The school millage asked for by the school district was three mills less every year except Ovieta, 1 mill, and Christman, 2 mills.

The accounts were examined and warrants drawn and board adjourned to this Monday in August when complete on assessments will be heard.

CAN'T BET ON ANYTHING

What is known as the Sloan-Terrell Anti-Race Track law, passed by the last session of the Florida legislature by an overwhelming majority in both houses and approved by the governor on May the tenth, is effective now, according to the provision that any bill, unless otherwise provided, shall become effective sixty days after its passage and approval by the chief executive. An attempt to pass the same bill two years before failed, it being amended into unconstitutionality and uselessness.

None of us regret the race track law—that is we are all glad that a statute prohibiting races has been placed on the books, but this is indeed a sweeping drastic law. It does much more than prohibit races. It prohibits wagers upon any test of speed or skill by man or beast.

Any person who wagers for a prize, to say nothing of those men and women who play euchre for money, any person who bets a cigar, on whether or not Lorton will get to first base, any person who wagers anything of value whatsoever, no matter how small, on the result of any test of speed or skill by man or beast, is from today in danger of indictment, prosecution and the payment of a penalty by fine or imprisonment. Whether or not the law will be forced to its letter depends upon the sheriffs of the counties of the state.

The preparers of the bill claimed that it was necessary to make the law read as it does, (which is almost word for word the same as the anti-race law of Louisiana and New York, so that no loop, hole, might be left thru which the race men might crawl. And it certainly will hold water; it has been tested in other states and found not to leak. Whether or not it was necessary to word the law as it is worded, the fact remains that the extreme moralists saw an opportunity to stop all kinds of gambling by making this race bill broad and inclusive of every betting, evil, feeling certain, as they did, that there would not be a majority in either house who would have the temerity to vote for any amendment before the passage of a bill that would prohibit racing.

It is very probable that most of the Florida sheriffs will enforce only the spirit of the law, which prohibits horse racing, and that the other wise players will not be pinched. But the law is on the books and the law is the law. A party of distinguished and well-known members of the state officials, who himself was a member of the party playing, and they all agreed that when the law is in force they could be indicted for violation of it. There were some attorneys in the party. Pensacola News.

PROSECUTE THE TANK STEW

First dispatched from Chicago, which is the headquarters of many concerns dealing in Florida lands, state that Uncle Sam's sleuths have been carefully investigating the work of some of these concerns and indications are that a group of so small proportions still strike the land pirates before another twelve months roll around. March strides with the force of a typhoon in the prayer of all honest Floridians.

This state has suffered for years because of the work of land sharks who run on worthless land on unsuspecting people who have few millions or more of dollars at their disposal. The land sharks are the most successful of the state but they are not the most successful of the state. The land sharks are the most successful of the state but they are not the most successful of the state.

Sanford is now planning the corn production of Florida, making the question of the corn the product of the state. The state is planning the corn production of Florida, making the question of the corn the product of the state. The state is planning the corn production of Florida, making the question of the corn the product of the state.

Being your corn to the Orange County Fair, brother, and we will stand our ground against yours. We are from Missouri and need to be shown.

WILL PUBLISH NEW LAWS
The Sanford Herald has been awarded the contract for publishing the new laws recently enacted by the Legislature and the edition will be printed for the issue of July 28. Over 4000 Herald's will be read on that date by people in Orange county alone and the advertisers who wish to reach the people should get space in the issue that contains the new laws.

Sanford will soon have deep water, a lake front, two drawbridges across the river, a ferry boat to Enterprise and many other good things. If you have not seen the best hustling city in the South look up Sanford and get in on the ground floor.

Criminal Court

Ten or more cases were disposed of by the criminal court, in session at the court house, with Judge T. P. Watlow on the bench. Prosecutor DeCortez is fighting every point and those brought before his honor can feel sure that they will get their deserts.

Thomas Lacy, colored, charged with larceny in two counts, the first act consisting of stealing a pair of trousers from Dan Avery and the second a coat from Gus Avery, the crime having been committed in Sanford, was given six months on the road in each case, or twelve months in all. Tom should make a pretty good road maker before the expiration of his time.

Roy McMillan, the chauffeur, who was charged with temporarily taking property, the act consisting of having driven Mr. Harry Boeman's car from the San Juan Garage the other night, and taking a "joy ride," an account of which was published in this paper yesterday, plead guilty and was given four months on the road or a fine of one hundred dollars.

Harry Williams, colored, charged with assault to kill, the crime being committed in the neighborhood of Conally's still, when with a shot gun he proceeded to wound another negro, Phil Jones, pled his own case. His testimony and that of the prosecuting witnesses differed materially and although he insisted that it was not a premeditated case, that the other negro had a gun and was attempting to kill him, his testimony being so very contradictory of that of the other witnesses and the offense so grave, he was given five years in the penitentiary.

Henry Harris, colored, charged with resisting an officer, the particular offense having been committed in Sanford, when Officer Graves lost his life by the accidental discharge of the revolver of Officer Safford, an account of which was published in this paper, was let off with eleven months on the road.

Henry Thomas, charged with larceny, the crime consisting of the stealing of a pair of trousers from Henry Chandler at Winter Garden, was given six months on the road.

Frank Lobo of Sanford, who insists on selling liquor in this county after the fashion of the other counties, was charged with that offense and given a fine of \$300, or six months on the road, and the officers are determined that liquor selling shall be broken up and with a constant watch being kept on the highways and lanes, only characters known to be at least passably free from these characters.

Stanley Brown, a young white farm living near Sanford, was charged with maliciously maiming an animal, but was acquitted after testifying that the cow, whose leg had been broken, had gotten into his garden and in driving the leg was broken. He had seen the owner and offered to pay for her.

Wade Williams, colored, charged with uttering a forged check, when R. D. DeHann, of Sanford, was found guilty but was not sentenced.

Ellis Lacy, colored, was convicted of stealing in two counts, was again found guilty of larceny, was sentenced to six months on the road, and a pretty good road maker before the expiration of his time.

Resolution

Resolved—That Sanford Lodge No. 123, A. O. U. W., has lost by his untimely death a valuable member, and his presence will be missed at our regular meetings.

Resolved—That a copy of these resolutions be spread on the minutes, and a page dedicated to his memory and a copy be mailed in the family of the deceased brother.

Resolved—That our lodge be closed in mourning for a period of thirty days.

COLUMN DEVOTED TO PEOPLE

In This Department Will be Found the Views, Opinions and Comments of Practical Writers

Curstons Correspondent Corrected In the last issue of the Sanford Herald, in the column entitled "Curstons Gleaning" and "Special Correspondence to the Herald," a column whose paragraphs are always bright and usually sane and sound in tone, appears one paragraph so full of mis-statement of facts, so objectionable in tone and so unfair to the community that we feel that the interests of truth and justice demand a reply.

What are the facts? A case of a family in need, living near the town was brought to the attention of some of our Christian women, members of our Missionary Societies. At once steps were taken to administer relief, with the result that food and clothing in abundance were sent to the home, and the sick wife and mother was brought by a member of a Missionary Society to our extemporized town hospital where she received the care of nurses, and the best medical attention for two weeks. When she and her husband declined further attention from the physicians and she was taken back home by the same friend a member of a Missionary Society, she died suddenly, in a few minutes after partaking of a meal at her own table. As she was apparently improving no visiting lady or nurse was present, but she was cared for by her own daughter who was old enough to have the charge of the infant child during the mother's absence at the hospital. As soon as her death became known, a lady living near who also is a member of a Missionary Society went and assisted in preparing the body for burial, some kindhearted men afterwards lifting it into the coffin. A godly number of ladies, some of whom were members of Missionary Society, prepared floral offerings and attended the funeral services conducted by a Christian Minister. And since the burial other have contributed to the relief fund whose treasurer or disburser is a member of a Missionary Society.

For a man living in Christian community enjoying the companionship of Christian men and women, having had doubtless, the advantage of Christian parents and partaking of the rich blessings of a Christian civilization, to mistake or misapprehend facts as were done in this case and upon the basis of mis-statement and misrepresentation to attack through the public press, and hold up to ridicule the ladies, Missionary Societies of the town, and thereby the missionary policy of the churches, is in this way to create prejudice in the minds of men against the churches and the interest of justice and of peace and altogether laudable.

RESOLUTIONS

Unanimously Adopted by the Sunday School of First Methodist Church.

Whereas, it has pleased our All-wise Heavenly Father to call unto himself the soul of our much-loved and faithful teacher, Mrs. Miriam Merdigan Yowell, that she might dwell forevermore in the arms of joy and glory of His Blessed Kingdom;

Whereas, in the translation of our dear friend this Sunday School, and the First Methodist Church of Sanford, must part with a most faithful, earnest and zealous worker, whose beautiful silver character will ever be cherished in the hearts and memory of us all; and our Superintendent and his family lose a dutiful and affectionate daughter and sister whose love and devotion were unfeigned, and her husband given up a dear companion whose true worth can never be measured, by human speech, and whose memory will ever be a blessing to the will of a loving God and Father, who has called her well, and that we extend to her dear mother, husband, and dear ones, our perfect sympathy in this time of bereavement, and that we commend them to God our Father who alone can bless the broken-hearted and heal the wounded spirit, and whose grace is sufficient to sustain in every time of need.

Resolved, that these resolutions be suitably inscribed upon the Secretary's Record as a memorial, and a copy be furnished to her family, also to the Sanford Herald for publication.

How to Enter Herald Office

Advance to this inner door and give three raps. The door will attend to the matter. You will give your name, post-office address and number of years you owe for the paper. You will be admitted into the sanctum and will advance to the center of the room where you will address the editor with the following counterpane: Hold the right hand, about a foot from the body, with the thumb and index extended a two-finger width, and will drop into the editor's hand, saying: "Were you waiting for me?" The editor will grasp your hand and will be pressing it, and will say: "You are here."

Wappers From Saw Grass

July 7.—A plan is to be used to manufacture wappers from saw grass and paper to paper by a new process invented by Capt. H. E. Ellis, the inventor of the multiple process for paper, resembling the quality of paper of wappers will sell for \$180 a ton. Over 1,500 tons of wappers were used the past season in Florida at \$240 a ton. The saw or mill grass makes a strong paper resembling the quality of paper of the Japanese—Product News.

LIQUID LINDS ECZEMA

WHERE SCALF FAILS

It is found that all these medical authorities are based on theory. Don't believe the disease varies in your skin by the use of treatise, and that you can cure them in millions. A cure of all eczematous diseases can be brought about only by using the leading remedy in the form of "LIQUID LINDS ECZEMA." WASH THE GERM OUT—simple wash. A compound of Oxidized Wintergreen, Thymol, and other ingredients as combined in the D. D. Prescription, penetrates to the disease germ and destroys it, then soothes and heals the skin as nothing else has ever done. To use: Dip a cotton ball into the liquid and give you instant relief.

MOORE'S STATION

To the Editor of The Herald: D. H. Moss was at home for several days' visit on the Fourth. Mr. and Mrs. Frank M. Estridge were called to Barton the third; their year-old grandson died of typhoid fever. Mr. and Mrs. Geo. W. Chamberlain left here the 7th for their trip. Their youngest son will join them in New York City. J. A. Cameron, his son, Ed, and Mr. Luke drove in Mr. C's auto to Lake Okechobee recently to look up Mr. C's cattle on range there. E. A. Gilbert has been elected superintendent of Pine Grove Sunday school to succeed D. H. Moss.

It was certainly safe and sane here the glorious Fourth as every one sought amusement elsewhere. The Allen, Craig, Johnson, Moss and Willis families and Mr. and Mrs. W. W. Miller picniced at Geneva ferry, and Mrs. Ella Greenland, Mr. and Mrs. L. M. Lucas, Mr. and Mrs. J. C. Ellsworth, Jr., J. F. McClellan, Ola and Oen Estridge and Howard Gilbert drove to Chulnota to the barbecue and picnic, running races—an old-fashioned bowery dance were some of the amusements. Walker Prevatt of Geneva, on his speedy little riding horse, won the rawhide easily. The party from here, were guests for the day of Mrs. J. W. Prevatt of Geneva.

Mr. and Mrs. L. M. Lucas were given a charivari the evening after returning from their wedding trip; about 40 gathered with shot guns and all the noise making things imaginable. Mr. and Mrs. Lucas were equal to the occasion as all were invited in and treated to delicious lemonade and cake and a very pleasant evening was enjoyed by all. All who were present joined in wishing the happy couple a long and happy life.

When we read of the terrific heat waves west, north and east we are glad we are in Florida where there are fine breezes and occasional showers.

A. J. Bell of Geneva has returned from Canton, Ohio, where he visited acquaintances.

Mr. Bell, who was with the Turner Grocery Co. of Beck Station, now has a position with the Hill Hardware Co.

Our mail man, Mr. Thomas, is taking his vacation and Mr. Habbert of Melonville is substitute.

GENEVA NOTINGS

Special Correspondence to The Herald: Mr. and Mrs. L. D. Hart left last week for a visit of a month with relatives in Georgia and Alabama.

Mr. and Mrs. Oscar Nicholson returned to their home in Geneva Beach last week.

Mr. McBride of Lake Mary spent the week end with his relatives Mr. and Mrs. Hart.

Mrs. Elton Hart and baby boy, who are now spending some weeks with her parents, returned to Geneva last week for a short visit to her sister, Grace in Gainesville where her husband will join her, stopping over from Gainesville to Geneva for the summer.

Dr. J. W. Chamberlain, Mr. L. M. Lucas of Geneva, Ga. spent a few days last week with their friend David Speer. They were very favorably impressed with Geneva and the people, and wish the good wishes of the Bell.

Mr. and Mrs. O. E. Paine left last week for India, Ga. where they will stay for a few days before returning to their home in America, Ga.

After spending a week pleasantly with relatives in Geneva, Mr. and Mrs. Wagner of Sanford, returned home on Monday.

Mr. and Mrs. Y. Davis and Miss Prevatt spent last Thursday in Geneva, going over to consult an oculist.

Mrs. Lutz spent Saturday in Sanford shopping.

Mr. and Mrs. Year of Sanford visited relatives in Geneva last Saturday and Sunday.

Mr. and Mrs. H. H. and Mrs. J. H. left last Wednesday for Chicago and other Northern cities for a stay of two months.

Mrs. C. A. Raulerson returned home last week from DeLima, Ohio, where she was visiting some time ago.

The McCoy, Daniel and Patterson families spent the several days camped on Lake Okechobee.

We and Mrs. G. P. Peters entertained a party of friends at an impromptu picnic last Thursday in honor of Dr. W. H. Chambliss and L. M. Brown of Sanford.

A series of meetings will be commenced at the Methodist church next week, beginning on Tuesday. Rev. Mitchell, former pastor at this place but now at Kissimmee church, will assist the pastor.

Mr. and Mrs. John Raulerson of Fort Pierce recently visited their sister Mrs. Homer Nicholson. They were accompanied by Mr. and Mrs. Simmons.

Messrs. Howard, McLain and Whitcome are in Jacksonville on business.

Mrs. Vance Holmes is visiting her father Mr. Vaughn in Sanford.

ENTERPRISE NOTINGS

A game of ball between Enterprise and Orange City, the score, Orange City 18, and Enterprise 4.

Large field of corn, my father is on good soil, woods land, I have a station on one side of it 2 1/2 miles long and 2 1/2 miles wide. On the 10th of February I plowed the land and sowed of Spanish hard wood ashes a few days later I plowed it and sowed of cow stable manure. I sowed it on 3 feet and gave the rows a light dressing of phosphorus fertilizer and planted in potatoes of which I raised in fine potatoes as I ever raised on any bottom land. About the 15th of March I planted a row of corn. I think it is called heading. Proficiency between each potato row and 2 1/2 to 3 ft between hills leaving 2 ft to the hill.

When in raising corn, be sure at the end and cut it up feeding the cows and fodder to a cow. When it is not too hot I had a square foot. This square attracted so much attention I let it stand there. What it would make. Today, July the 8th, I measured this ground and found long and nine yards wide or twenty seven feet square I carefully counted the well matured ears of corn and there is 144 120 ears will shell one bushel and being a farmer I will guarantee 150 of these ears will make a bushel that is over two bushels on this little square. I found the amount per acre at about or over 118 bushels per acre. There is 4,500 square yards and 47,500 square feet. I measured the ground being nine yards or twenty seven feet square, will get the yield of feet fifty-nine and a fraction and the fifty-nine is 118. These are the ears to five well matured ears in every row. I noticed several stalks which were well matured ears. This corn is in my garden at Enterprise and will be all the way to August and can be harvested and measured with ears counted by the one and a half bushel.

How good. As how the goodness of growth and maturity with the little Joe Brown. See the result of his mother and admiration of the thing as he grows down and out.

Orlando fans are not as optimistic as they were last year. The Irish bodine seem to fill their boots too much, and a few seem to have reacted in 1911. However, it is an all-day party.

The Sentinel was honored this week by a visit from Hon. Forest Blake, of Sanford. Mr. Blake, who has been in Sanford for several years, has made a number of interesting excursions for the people here. He is a member of the Sentinel and has assisted himself in the compilation of the Sentinel with honors at the last session of the Legislature.

Mr. and Mrs. J. B. Pihill of this city left last Friday afternoon for Belle Glade, Florida, where they will spend the remainder of the season. Mr. Pihill is the proprietor of the Pihill at that place. They will be glad to see the friends who wish to join them on their extended trip.

Moved and Moving. Mr. and Mrs. Ransom are comfortably located in Mrs. Martin's cottage on Magnolia Avenue. Mr. and Mrs. Ray Butts are at home to their friends in the cottage recently vacated by H. E. Tolar. Mr. and Mrs. H. L. Gibson have moved into the house on Magnolia ave., formerly occupied by Mr. and Mrs. R. C. Butts. Mr. C. H. Pagenhart and family are in the corner of Oak and Third, in the house vacated by Mr. and Mrs. J. C. Ferguson, who have moved in their new home on First street.

Cotton Barbecue. There will be a great time at Apopka, July 26, when there will be a barbecue for the purpose of bringing together farmers and others interested in cotton raising. It has been demonstrated that cotton can be raised profitably in Florida, and all that is necessary is to awaken an interest in the industry to add wonderfully to the resources of the State.

Yachting Party Here. A party of well known Miami people are here this week in the two-masted yacht, Media, belonging to Judge Worley. The party are enjoying the inland waters of Florida and expect to spend several weeks upon the St. Johns. In the party are: Judge and Mrs. G. S. Worley, Misses Gladys and Kate and Master Hobson Worley and Mr. Alexander Culbertson and Mr. Russel. Accompanied by Misses Alice Whitner and Annie Lee Caldwell the party made the trip of fifty miles into the upper St. Johns.

Thirty-Six Deaths. New York, July 13.—Notwithstanding a decided drop in the mercury marking the recession of the heat wave, there were thirty-six deaths today attributed to the heat in the Metropolitan city.

Red Cross nurses are stationed at every sub-station to give first aid and to the sun stroke sufferers, and are kept busy. Nothing like this in Florida.

HOWARD-PACKARD LAND COMPANY

Bulletin

Answers to Correspondents Concerning "Volusia Farms"

BURLING, OHIO.—Speaking generally, any investment based on population growth is worth consideration, especially in regions of great natural resources where outside capital is urgently needed for development work. Such a condition is found right here. Between 1900 and 1910, the population growth of Florida was 42 per cent, the next highest being Texas with 28 per cent, followed by Louisiana and Arkansas with 20 per cent each. These figures indicate the tremendous growth of Florida and the large number of inquiries now being received from all over the country relative to prospects for a living in Florida, and the activity among the solid, proven trustworthy and substantial real estate men, foreshadow a larger influx of settlers this fall than has hitherto been witnessed in the history of the state. It stands to reason, therefore, that what has happened in the central west in regard to the high price of lands will eventually be priced much closer to their earning possibilities. The supply and demand is bound to bring this about. If the land is priced at \$40 to \$50 an acre is highly located in regard to water, transportation, roads, schools, near a commercial center, and is good land, a man has every reason for investing either purely as an investment or for his own use later on.

ORANGE CULTURE, VERMONT.—Twenty years ago the citrus fruit crop of the State was valued at little under three million dollars, according to nearly two million dollars ten years ago but now reaching over \$1,600,000. Twenty years ago there were less than 100 million bearing orange trees, yielding only about three million boxes. Last year Volusia county's yield was third on the list with nearly 500,000 boxes, the total yield for the State being placed at 2,000 million boxes. Through the Volusia Fruit Exchange of the Florida Orange Growers' Association, were shipped nearly 10,000 solid cars of oranges, over 2,000 solid cars of tangerines, over one thousand cars tangerines and 21,822 boxes of citrus fruit in mixed cars. In addition of nearly 21,822 boxes of tangerines shipped by Volusia, the following were shipped: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

The cultivator of an orange grove fruit and tangerine grove, can commence with an early vegetable crop, and make a combination of crops, and to my mind, you will have ample room for expansion. At first you could devote ten acres to the vegetables, and to the five or ten acres in citrus fruit trees, as soon as convenient. The returns from groves are not immediate. The fourth year

it is likely you may get two boxes per tree, the fifth year three boxes per tree, and after this, the yield is sufficient to keep any man busy in looking after it.

At present we make no difference in the price of Volusia farms whether you buy citrus fruit land or land for diversified farming, but at the time of making your reservation you should say for what purpose you want the land to aid us in making a selection for you.

HOMESEEKER, EVANSVILLE.—Homeseekers' cheap excursion rates are now in effect on the first and third Tuesday of each month during the year, DIRECT to SANFORD. Tickets during the summer months are good for TWENTY-FIVE days, during the winter, for TWELVE days only. This is to say that you can leave Evansville (and other readers can leave their home town) any first or third Tuesday of any summer month, obtain a ticket which will bring you direct to Sanford—with only one change of cars, in the majority of cases, and that change at Jacksonville, Florida—and you have about twenty-one days to investigate Volusia Farms and Volusia county. If you will write us before leaving, we will give you all information that you may require.

INCREDULOUS, MAINE.—Yes, sweet potatoes have been selling for \$150 a bushel, and the Florida Daily News correspondent reports a yield of 25 bushels per acre. Sweet potatoes can be grown on Volusia Farms. This agricultural land is now nominally priced at \$40 an acre. If you have determination, ambition, and a little money, you should do better well as others are now doing. As in the walks of life, the man who was in Florida is the man who has won elsewhere. Learn all that you can from the successful Florida farmer. Experience, hard work, and any enterprise and the experience comes from study. The determination to your own satisfaction is to have the job, standing, and continuation to your own satisfaction. The man of character has been called a man of iron. Look into your pocket. If you are not sure that you have the money to carry you through, you will fail.

WATER FRONT, COLORADO.—Volusia farms are across the river from Sanford, and the reason they are not on the river bank proper, is on the river bank between the St. Johns river and the Atlantic ocean, they cannot be rightly included as making history for Sanford. Volusia Farms can make Sanford history. VOLUSIA FARMS ARE GOOD.

ENOUGH TO MAKE THEIR OWN HISTORY. For diversified farming, there are no better lands in Florida. Right through the tract runs the Florida East Coast railway. Part of the tract borders the St. Johns river. Communication between the Farms and Sanford is by good road to the Celery avenue, Sanford, ferry. The road approaching the ferry has been rebuilt by the County and is now in good shape. As Volusia Farms settles, however, its own townsite will be its commercial center. We have several new plans we hope to put into operation for the benefit of Volusia Farms owners, of which will be explained in these Bulletins from time to time.

DIVERSIFIED, ALABAMA.—No, celery is not the main vegetable crop grown in Florida. In acreage, celery came twelfth out of fifteen crops. The largest acreage in 1910 was devoted to watermelons, followed by Irish potatoes and beets. Neither does the total value of the celery crop exceed that of all other crops. Tomatoes brought \$2,528,620 in to the state during 1910—celery \$268,084. This is not saying that celery has not yielded as high as \$2,878.74 per acre. Celery is a splendid money maker, but diversified farming, the cultivation of more crops eliminates speculation. Volusia Farms are ideal for diversified farming. Over there you can have your poultry, your bee stand, your orange grove, your early vegetable tract, your cows, your pigs. And you can have all the land you want for these things now and all the land you want for expansion at the low price of only \$40 an acre.

LAND BUYER, CALIFORNIA.—We prefer that you bought not less than 40 acres at Volusia Farms. Diversified farming cannot be properly carried on on less land. You want land for expansion—land on which to accomplish something. At the present price of \$40 an acre, and the terms of \$10 an acre down with \$500 down and the balance of \$1 per acre per month, Volusia Farms is a good investment. The natural operation of the land, the supply and demand, the land you buy today for \$40 can not be duplicated for \$60 or \$80 an acre. Within a year and we speak conservatively, the best tracts are being reserved. If you have the slightest idea of owning in Florida to live, we advise you to make personal inspection of Volusia Farms. Your duties are to be done by you. Within the next ten days, you should come here to see for yourself. Two weeks ago, in advance, we did not allow the hundreds of our agents to come here, we want you to see the land for yourself. We have our own agents, and we want you to see the land for yourself. You can authorize us to make a selection for you, subject to your approval. If you wish, you can have a personal inspection within 10 days of our making your reservation. Volusia Farms are good.

BASE BALL

At Orlando Friday

In the best game of baseball seen around these diggings for many moons Sanford gave Orlando as pretty a coat of whitewash as anyone could ask for and in the meantime got four real substantial tallies for themselves.

Orlando had "Gunner" Vaiden on the mound and except for a swelled head and much self confidence, he didn't have much. We got men on bases in almost every inning but couldn't bunch our hits until the 5th, when an error, a base on balls and three hits netted us four runs and a victory.

Father Wallace pitched air-tight ball for Sanford and was only in danger in the 7th, when Bennet singled stole second and tried to score on Jim Windham single to center. He was out at the plate on Galloway's perfect throw. This was the only inning in which Orlando got two hits. Their other three were well scattered.

The Sanford boys put up a splendid game, fielding in errorless from our putting the "Hep" in their work.

On the offensive Bowen shows with 2 singles and a double out of 4 times at bat.

The game was played on the new diamond which has been built in front of the big grandstand.

We opened their new diamond for them, knocked the cover off, as it were, we lamed the bad man from Fort...

Don't forget it was a shut-out. A fine little game, all in a row. That blow of Galloway's was out of the world.

Father Wallace must have found the fountain of youth. Picked like a yearling.

Lighthouse Baguwell played second. A throw over his head is a three base bludge.

We saw three Founds that game of the season and he was good at four speeds and every way.

Bowen was back in harness and started the team in good style.

Bowen and his principal brother Vaiden's heart.

Kissimmee at Sanford. Kissimmee came to Sanford Monday with an alleged ball team and won a perfect game of our authorities.

Twelve rounds to a draw. And each round furnished some kind of excitement.

Baguwell had his batting eye yesterday. Two doubles and a near home run.

It was a neat catch of Bennett's. He was playing so deep that the census taker in the next county put him.

It was Bridges' busy day. Riggs played a great game, too. It looked pretty blue in the 7th. Bases full and game down but Limerick...

Sanford at Kissimmee. The Sanford ball team journeyed over to Kissimmee to help make the trade day celebration a success and by playing a splendid game fulfilled their promise and at the same time covered themselves with glory.

Orlando had played and defeated the Kissimmee team by a 2-0 score in the morning game and when our team made their appearance in the afternoon a big crowd was on the job. The Kissimmee team had been strengthened in all departments and to beat Sanford seemed to be their sole ambition.

Manage Baguwell sent Gore to the firing line and "Biddy" proved that his judgement was correct. He had all kinds of steam, more than the engine that brought us home, and let Kissimmee down with four hits and didn't dead head a man. They only scored in the first when Snedigar singled, Stanley tripled and scored on a pass ball.

Bridges the first man up singled, to second on Burdens sacrifice and scored on Bowens single. In the second Lawler walked was sacrificed to second by Galloway and scored the tying run on Kanners one timer. In the fourth Funk, the first man to bat drove the ball about 20 feet over the center fielder's head for a clean home run, winning the game for us right there.

Summary table with columns: Sanford (110 100 000), Kissimmee (200 000 000), and scores 3-5, 1-2.

Kissimmee played real base ball. It may be hard to believe, but it's true.

Gore pitched a swell game and after the first inning just breezed.

Bowen still has his batting eye. Two hits again Wednesday.

That was some hit of Funk's. A clean line drive over the center fielder's head and the score was tied when he delivered.

Our infield is working like clock work.

Manager Spencer entertained a company of young men to a banquet supper on the Winter Park athletic ground.

Sanford at Kissimmee. One of the best games fought in the history of the Florida diamond since the great four team league game of 1909 was the one yesterday. The game was a hard fought one while the score stood 2-2 and neither side could get a run.

hit into a double play and the next man was easy. The Orlando outfield played great ball. Three Orlando players were out at the plate. Bridges threw out two and Bowen one. Old "pinch hit" had a day off. Both sides could have used him but he was not on the job. Father Wallace pitched a great game. Two fast double plays by our boys. It was a great game taken from any angle. They hook up again today.

Manager Spencer could be heard telling McMullen just how much respect he had for his pitching.

Kidding the Pitcher.

Orlando 2, Kissimmee 0. As predicted in our paper Tuesday that she would, Orlando defeated Kissimmee in an interesting game of ball Wednesday. The score was 2 to 0. Frank Smith pitched a fine game and Billy Beardall caught him admirably. The Kissimmee team also tried conclusions with the Sanford club in the afternoon. An immense crowd witnessed the morning game, a great many Orlando people being present. The Trades Day is a success in all the word means and Kissimmee will get a splendid advertising by having it. Reporter Star.

The Sanford "Juniors" defeated the boys of Sanford Heights yesterday to the tune of 9 to 2, going to show that Sanford is playing the game in every department.

Twelve rounds to a draw. And each round furnished some kind of excitement.

Baguwell had his batting eye yesterday. Two doubles and a near home run.

It was a neat catch of Bennett's. He was playing so deep that the census taker in the next county put him.

It was Bridges' busy day. Riggs played a great game, too. It looked pretty blue in the 7th. Bases full and game down but Limerick...
