DEMOCRATS TO SPEND MILLION TO CARRY WEST

Farm Drive In 10 Corn-Belt States Will Cost Approximately \$500,000, Says Raskob Outlining His Program

Four States Offer Disquieting Reports

Oklahoma's 100,000 Indians May Swing State To G.O.P. Because Of Senator Curtis

SAN FRANCISCO, Aug. 29.—(INS)—Incomplete returns today show that Senator Hiram W. Johnson swept the state with a gigantic vote in yesterday's primary for renomination as the Republican candidate for United States senator.

His total majority is expected to run so high as to reach into the record class. Some precincts, for instance in San Francisco, gave a 60-to-1 count for the senior senator.

HOOVER ASKS FOR EARLY REPORT ON PARTY FINANCES

Nominee Takes Steps To Prevent Repetition Of Charges Made Against Party In Controversy Offending Campaign

WASHINGTON, Aug. 29.—(INS)—Herbert Hoover today shouldered responsibility, in part at least, for the prevention of scandals in the raising and spending of \$4,000,000 in his campaign for the presidency by summoning J. R. Nutt of Cleveland, national party treasurer, and Jerome Millikan, eastern treasurer, before him for a report on their activities.

The Republican nominee is declared by many of his aides to be extremely anxious to avoid anything that might bring about a repetition of the charges made against the Republican National Committee following the Harding campaign, which resulted in a congressional investigation.

Hoover is understood to have insisted upon a complete budgeting of all expenditures and has urged Treasurer Nutt to raise his

(Continued on page 4)

Love Letters To Be Exhibited At Trial Of Young Butcher

LOS ANGELES, Cal., Aug. 29.—(INS)—Hundreds of letters written by Mrs. Myrtle Mellus to Leo P. Kelley, on trial for slaying her, will be introduced during the trial, it was announced today by the defendant's counsel. They will be introduced, Kelley's attorney said, for the purpose of showing that Kelley had no motive to kill the so-called matron.

Apparently beaten to death with a whiskey bottle, the body of Mrs. Mellus was discovered by her husband when he returned home from a fishing trip. A short time later police found Kelley hiding in a closet of the Mellus home.

It has been established that Kelley spent the day at the Mellus home by testimony of a maid at the coroner's inquest. She said Kelley breakfasted with her mistress and both of them were drinking.

Dr. A. F. Wagner, county attorney, probably will be the first witness called by the prosecution today. It is expected the slain woman's husband, Frank Melius, will follow him on the stand.

SOVIET EXPLAINS ACTION

MOSCOW, Aug. 29.—(INS)—

Soviet Russia's refusal to attend the meeting of the special League of Nations commission dealing with control of private arms and munitions manufactures has nothing to do with the Kellogg-Briand treaty for prevention of war, it was learned from an authoritative source today.

FIXES POSTAL VALUATION

WASHINGTON, Aug. 29.—(INS)—

The Interstate Commerce Commission today placed a tentative valuation, as of June 30, 1919, of \$20,603,725 on the property held by the Postal Telegraph-Cable Co., and its subsidiaries, and a valuation of \$866,225 on the property owned by the company.

A denial of charges of John J. Raskob, chairman of the Democratic National Committee, that the Republicans were planning a campaign war chest of between

\$6,000,000 and \$8,000,000 was issued today by Hubert Work, Rep-

publican chairman.

WORK DENIES BIG FUND

WASHINGTON, Aug. 29.—

A denial of charges of John J.

Raskob, chairman of the Democ-

atic National Committee, that the

Republicans were planning a

campaign war chest of between

\$6,000,000 and \$8,000,000 was is-

sued today by Hubert Work, Re-

publican chairman.

Toombs Is Evasive In Company Probe

CHICAGO, Aug. 29.—(INS)—Louis Cohen, attorney for Receiver Edwin Biell of the Toombs and Dailey Company brokerage firm today endeavored to obtain a coherent account of the manipulating of millions of dollars in stocks, checks, notes and bonds of the defunct International Life Insurance Company of St. Louis and the Toombs & Dailey Company of Chicago, from Roy C. Toombs, president of the companies. Toombs was vague in his answers. Cohen intimated that Toombs & Dailey had bought the International Life with its own money and securities, taking out of one pocket and placing in another. "Oh, no, not at all," Toombs said.

ST. LOUIS, MO., Aug. 29.—

"A million dollars to carry the mid-west," was the Democratic program for the great agricultural belt as national managers wound up today their three-day conference here with Smith-Robinson warriors from 10 states of the upper Mississippi valley battleground.

John J. Raskob, Democratic na-

tional chairman outlined the

party program to day as he pre-

pared to depart with his chief lieutenants for Hot Springs, Ark., for the

notification ceremony. Thursday

evening of Senator Joseph T. Rob-

inson, the vice-presidential nomi-

nate.

The national committee plans

to spend \$500,000 on the farm

drive in the 10 corn-belt states,

Raskob said in summarizing the

program approved by the regional

conferences here. "There are 600

counties in these states and it is

our plan to operate organizations

in all of them. In addition we plan

to operate organizations in these

states at mid-September."

"Our reports here indicate that a

majority of the newspapers

throughout the agricultural section

are normally Republican in policy.

We shall therefore take other

means to reach the voters with Governor Smith's vigorous advocacy of equality for agriculture."

The budget approved calls for

an average outlay of a little less

than \$1,000 for each county in the

middle-western region.

Although Raskob and his ad-

visers concluded their meeting here in high enthusiasm over the Demo-

cratic outlook, there were four

disquieting notes in the reports

presented by the state managers.

Oklahoma, Tennessee, Nebraska,

and Illinois present problems

which are expected to require the

help of the National Committee, ac-

cording to these reports.

Scott Ferris, Oklahoma national

committee man, told the confere-

nce that his state organizations must

have assistance from the national

committee in countering the vigor-

ous Republican drive there. Okla-

homa's 100,000 Indians are a prob-

lem in the campaign for the first

time in history. According to Fer-

ris' report, there is strong Republi-

cans sentiment among the red men

because of their sentimental inclina-

tion toward Senator Curtis.

J. R. Nutt of Cleveland, national

party treasurer, and Jerome Millikan,

eastern treasurer, will be in front

of the Senate Finance Committee

on Sept. 10 to present their re-

ports on the campaign.

AMERICAN SECRETARY TO BE GIVEN ROUSING WELCOME BY KINGSTOWN AND DUBLIN

BIRMINGHAM, Ala., Aug. 29.—

WEDNESDAY, AUGUST 29.

How Many Men?

How many men
Have come and gone
Where you see a path
Worn smooth in stone?
Who laid the wall
Bounding this field?
What can an acre
Of granite yield?
How many feet
Have climbed this hill
Above the Village
Dark and still?
There lies Gloucester,
There lies Squam.
Between them the sea
Is never calm.
How many maidens and men
Have lain
Where we lie now?
Was an Isaac slain
On that altar of granite?
Horrid thought!
Pascual Lamb
In a pasture lot.
Slow, Slow,
The Dipper swings
Around Polaris
Furry wings
Of bats from Dogtown
Beat the night.
The light on Thatcher's
Flashes bright.
A thousand flashes more
We'll stay.
But we must go
Before it's day.
What rapture to be lying
Still
Beside you
Here on Pigeon Hill.
Open your eyes,
Come back to town,
Ree, the Dipper
Is upside down.
We must go down
From Pigeon Hill,
Back to the Village,
Dark and still.
How many lovers
Have come and gone,
Weaving this pathway
In the stone.
Treading softly
On midnight feet
Along the twisting
Narrow street?
(From Scribner's Magazine)

Al Smith will not campaign in Georgia or Florida. Instead he will let George do it.

"Nicking Cotton" is the latest dance, but we can't foresee any success for it because its name sounds too much like work.

And now Will Rogers explains that the reason Mr. Coolidge wouldn't run again was because of his humiliation over learning that his son has turned out to be a saxophone player.

A Washington woman is suing for ten thousand damages because of injuries alleged to have been inflicted by a goss. Our first impression is that the woman is making a goss of herself in suing for such a trivial thing.

Raskob raises the Democratic campaign fund limit to four million to match the Republican outlay. Multiply the figure by two and a half and you get a pretty good idea of what each party will spend before the votes are counted in November.

Headline says, "Silver Dollars and Fifty Cent Pieces Will Go Out As New Currency Comes In." But what are you gonna do, our office boy inquires, if you find your silver dollars and fifty-cent pieces going out all the time and not a ding-busted thing coming in?

The Giants are five and a half games behind now and their hopes for a pennant are fast fading. In fact, if the Cardinals continue to play as they have for the past few days, McGraw's team stands about as much chance of overtaking them as Senator Robeson has of refusing a nomination tomorrow night.

Time Will Tell

Last Monday, fifteen nations, through their representatives, signed Mr. Kellogg's multi-lateral treaty and thereby "condemned recourse to war for the solution of international controversies, and renounced it as an instrument of national policy in their relations with each other." Apparently a great forward step has been taken in the direction of abolishing force as a means of settling disputes between powers. Apparently the signatory countries have come to the realization of the futility of fighting, and are ready to submit their differences to a board of arbitration. As a result a spirit of optimism pervades the accounts of the great peace festival which has just taken place in Paris.

On the other hand there are some who view the recent negotiations with a feeling of skepticism, if not suspicion. One of those who does not enthuse over the practicability of Mr. Kellogg's pact is George Clemenceau, the aged political veteran of France. When interviewed the former premier declared: "Life is what we make it and it is so with the Kellogg anti-war treaty. That will be what the signatories make it. Probably, when the present generation has gone, sentiment surrounding the signing of the pact will be changed and we will find ourselves back at the same place we started from."

Thus the "Tiger of France," who, both by his nature and on account of his old age, is not inclined to counterfeited his thoughts, believes the pact is only a discouragement of war and will by no means preclude the possibility of another world upheaval. Also those nations which affixed their signatures to the famed document have shown by their continued military preparations no unbounded confidence in its reliability to thwart the sceptre of violence which usually lurks in the council chambers of intriguing statesmen. Time alone will tell whether Mr. Kellogg has given the world a safety valve or a "scrap of paper."

The Bobbies In Chicago

The work of English police authorities, particularly that branch known as Scotland Yard, has long been recognized as a model of efficiency. The relentless pursuit of lawbreakers in England has enabled that country to boast the lowest percentage of crime of any of the larger nations. In view of this record it is particularly interesting to note the controversy that has been started over the question of whether Scotland Yard could clean up the city of Chicago if it had the opportunity. Of course, the English authorities are certain they could rid the American city of vice, while Chicago police officers are equally as emphatic in their contention that Johnny Bull's boys would be lost in the Windy City.

The dispute was started recently when Chief of Detectives Hughes of the mid-western metropolis asserted rather forcibly that "Scotland Yard detectives would be as helpless as rank amateurs if they moved to Chicago to suppress crime." To which the English officers retorted, "Given the same freedom of action and power to adopt the drastic methods that characterize American police, a few of our fellows from the flying squad could clean out Chicago in a week." The Scotland Yard authorities took still another crack at our inefficient enforcement system with the following declaration:

"The Americans themselves regard an arrest as an act of God, and not as the work of the police. We can back that up by pointing to one of the latest reports of the National Crime Association in the United States, which declares, 'Arrests are made in only three per cent of the cases, the number who are finally convicted is necessarily so small that the luckless individual who does get arrested must attribute his misfortune to an act of God, like an earthquake.'

This is a rather severe indictment, but appears justifiable in view of the facts. A comparison of figures for Chicago and London reveals the startling information that last year London had twenty-seven murders and the guilty parties were apprehended in each instance, while in the Illinois metropolis there were more than a hundred slayings and in only three cases were there convictions. Obviously, there is something radically wrong with the Chicago police department, and, obviously, there is little or nothing to criticize in the record of Scotland Yard. Therefore, we find it exceedingly difficult to agree with Chief Hughes' disparaging remarks about Scotland Yard; in fact, we are of the opinion that the English authorities could come very near doing what they claim. We would certainly like to see them try their hand at cleaning up Chicago. It's an even bet that they could do no worse than Chief Hughes and his assistants.

NEWBURYPORT'S COMIC STRIP MAYOR
NEW YORK HERALD-TRIBUNE

The smile with which until recently Massachusetts greeted the shenanigans of Andrew Joseph ("Bossy") Gillis, red-headed ennobled, filling station magnate and Mayor of Newburyport, has vanished. If Massachusetts laughed a shade too tolerant at "Bossy's" picturesque antics and hard-boiled vocabulary, it now seems to be frowning over severely. In "The Boston Evening Transcript" preserving a classical sense of proportion when it declares that the conduct of "the Gaekwar of Newburyport" has "brought into challenge the basic principle of government in the United States," "Bossy" is, after all, what he is, what he might be expected to be, what he always has been, and Newburyport is now getting what it so richly deserves for having elected him Mayor.

The circumstances of his election make a long though not uninteresting story. Suffice it to say that, having been refused a permit to sell gasoline on "the old Simpson property" at the end of the Newburyport Turnpike, "Bossy" determined to carry out his plan if he had to be elected Mayor to do so. Partly because of dry opposition to his opponent, who had cast wet votes as member of the Massachusetts Legislature; partly because of the barking of others who like himself had grudges against the city administration, partly because he promised everybody everything and partly because of the support of those who wished to see him successful for the fun of it, "Bossy" was elected. He entered office as a bull enters a china shop, and his bull-like roars have been reverberating throughout Massachusetts ever since. Consistently he has

EGGS FROM CALIFORNIA
BRADENTON HERALD

Manatee county has rapidly developed during the last two years into one of the foremost counties in the state in the production of poultry and eggs. Time after time emphasis has been laid on the necessity of local people buying Manatee county eggs that demand might keep up with production.

Manatee county producers have found it necessary to appeal to the people at home to purchase their products but in general Florida's egg demand far exceeds the supply. In fact, in the past we have had to call on California to help meet the situation arising from lack of eggs.

The United States Department of Agriculture is authority for the statement that during 1925 Florida purchased thirty-two carloads of eggs from far California. Florida has regularly imported eggs from Georgia, the Carolinas and Tennessee but finding it necessary to go across the continent for eggs

should be a lesson to the entire south as well as Florida.

Conditions have improved greatly since 1925 and still we must depend on other states to help supply the market. The climate of Florida has been proven ideal for the raising of poultry, this county in particular being well suited for the industry. There is more room for improvement and more poultry ranches can be operated on a pro-

pitiful scale.

The buying public should be quick to note the difference between the home-grown product and give their preference to the home produced poultry and eggs, thus adding impetus to the growth of the industry. This condition has also shown improvement in the county, assuring poultry raisers that they have a ready market for their products at home, making it unnecessary to further appeal to California.

It will be too bad if Paul is disillusioned too soon but it's not

going to be as much fun as a boy

might think if he didn't go into

the matter too deeply. There are

going to be polar bears to see, and

strange people; great oceans and

vast ice fields. But there are

also going to be days that will seem

endless, days of waiting and delay,

while the high command takes its

time to make sure every preparation

has been made to assure the

success of the final dash to the

pole. These will be the days when

a healthy boy will wish he were

back with his envious buddies in

Erie, Pa., where there are picture

shows and ball games and girls

instead of cold weather, grown-ups

and plenty of routine tasks.

Paul probably wouldn't believe

it if Commander Byrd himself told

him that it's not going to be one

mad whirl of pop-eyed events.

But that's about what the leader

of the expedition would say if he

had to settle an argument. That he

knows just how humdrum much of

the time is going to be indicated

by his choice of books for the

library he is taking along. Among

approximately 1,000 volumes,

works on adventure are numerous.

GREAT ADVENTURES
FORT MYERS TROPICAL NEWS

Paul A. Siple, the Pennsylvania

Boy Scout chosen to accompany

Commander Byrd on the expedi-

tion to the South Pole, is the envy

of thousands of American young

sters. Before him lies a great ex-

perience that will go far beyond

anything that is likely to happen

in the lives of the other lads of

his age.

Paul, himself, is most certainly

looking forward to the trip with an

eagerness natural to a young man

of 19. Unless he is wiser than his

years and lacks the imagination

of the normal American youth, he

is no doubt picturing the excite-

ment of a succession of thrills

from the moment, almost, that his

ship sails until it starts back from

the Antarctic with its mission ac-

complished.

It will be too bad if Paul is dis-

illusioned too soon but it's not

going to be as much fun as a boy

might think if he didn't go into

the matter too deeply. There are

going to be polar bears to see, and

strange people; great oceans and

vast ice fields. But there are

also going to be days that will seem

endless, days of waiting and delay,

while the high command takes its

time to make sure every preparation

has been made to assure the

success of the final dash to the

pole. These will be the days when

a healthy boy will wish he were

back with his envious buddies in

Erie, Pa., where there are picture

shows and ball games and girls

instead of cold weather, grown-ups

and plenty of routine tasks.

Paul probably wouldn't believe

it if Commander Byrd himself told

him that it's not going to be one

mad whirl of pop-eyed events.

But that's about what the leader

of the expedition would say if he

had to settle an argument. That he

knows just how humdrum much of

the time is going to be indicated

by his choice of books for the

library he is taking along. Among

approximately 1,000 volumes,

works on adventure are numerous.

It's

human nature

Pride in personal appearance is inherent in all of us. No one wants to look seedy, unkempt, to appear ill-dressed or classed as a has-been. It's only human nature after all.

Members Of Fidelis Class Meet Tuesday

Telephone 148.

Residence Telephone 268J

Persons

The members of the Fidelis Class of the First Baptist Church had an interesting business and social meeting combined Tuesday night at the home of Mrs. R. R. Pippin on West First Street.

After the devotional exercises the business meeting was held and the election of officers for the coming year took place. The following officers were elected: president, Elma Lee Jowers; first vice-president, Sara Louise Branion; second vice-president, Mildred Bridges; third vice-president Annie Laurie Jowers; secretary and treasurer; Iris Britt; reporter, Easie Whittle. Mrs. Pippin was elected class teacher to take the place of Mrs. R. A. Winston.

At the conclusion of the business meeting a social hour was enjoyed and everyone joined in singing popular songs. Miss Marjorie Wright of Greenville, Ala., gave a number of piano solos and little Elizabeth Pippin gave several vocal solos which were greatly appreciated.

Late in the evening the hostess, assisted by Miss Sarah Wheless, served delicious refreshments consisting of sandwiches, punch, and mints. Those present were: Miss Elma Lee Jowers, Miss Mildred Bridges, Miss Loraine Franklin, Miss Annie Laurie Jowers, Miss Bertie Moore, Miss Ruth Whittle, Miss Norma Moore, Miss Marguerite Franklin, Miss Sarah Wheless, Miss Marjorie Wright, and Miss Easie Whittle.

Presbyterian Women Hold Enjoyable Meet

An inspirational meeting of the Womens Auxiliary of the First Presbyterian Church was held Monday afternoon at the church. The splendid program which was presented was in charge of Mrs. Charles Powell and the meeting was opened by singing the two hymns, "Abide With Me" and "Take Time To Be Holy."

The theme of the program was "A Changeless Christ in a Changing World" and the topic presented was "We Would See Jesus." This main topic was taken up under four heads: Time, Types, Testimonies, and Comparisons.

Mrs. Graham Hunter gave a most interesting talk on "The Age-Old Desire to See Jesus." Mrs. Eddie Rawson discussed "The Types of People Who Express That Desire." Mrs. H. M. Rumbley gave "The Testimonies of the Persons Who Did See Him," and Mrs. W. L. Henley gave a "Comparison of the Testimonies."

The scripture was read by Mrs. Neely and Mrs. Brantley Adams gave a delightful reading of the poem, "The Master Workman." Several other hymns were sung accompanied by Mrs. Charles Powell on the piano, and the closing prayer was given by Mrs. Rutherford Douglas. There was a large attendance at this meeting which was pronounced one of the most inspiring of all the meetings of the Auxiliary.

Jensen Holds Hope For Missing Fliers

COPENHAGEN, Denmark, Aug. 28.—(INS)—Daughard Jensen, governor for the department of southern Greenland, who is sailing for Greenland today to direct the search for Bert Hassell and Parker Cramer, missing American aviators, is confident that they will be found.

"Although it may be weeks before they are found, I am certain they will be located," Jensen said, "because of the wide expanse of the territory that must be scoured and its sparse population, the search will be difficult."

MADISON—Horne bridge over Withlacoochee River between this city and Valdosta completed and opened to traffic.

Famous Conductor to Develop Personality In Others

Persons

Paul Ash Originates New Class for Orchestra Leaders

New York City—Teaching people to lead themselves will be the unique and not entirely simple job which Paul Ash, first "personality conductor," will undertake when, and if, he retires as leader of one of the world's most famous orchestras, to train other conductors how to use their personality in music.

"Here is one place where the bright young man with no experience will be welcomed," declares Ash. "The idea of the experienced young man about personality conducting is usually evolved from copying some already-arrived conductor. I have set down experience as a liability rather than an asset for my pupils. So many leaders try to copy the successful ones, and as a result, fail utterly to develop themselves. They are nothing but an imitation of something good, and people are resentful of something just as good."

The scripture was read by Mrs. Neely and Mrs. Brantley Adams gave a delightful reading of the poem, "The Master Workman." Several other hymns were sung accompanied by Mrs. Charles Powell on the piano, and the closing prayer was given by Mrs. Rutherford Douglas. There was a large attendance at this meeting which was pronounced one of the most inspiring of all the meetings of the Auxiliary.

Mr. and Mrs. J. M. Holley of Brewton, Ala., arrived here recently from Plant City where they visited friends, to spend several days with their aunt, Mrs. F. R. Whittle at her home on French Avenue.

Mr. and Mrs. F. A. Stone returned home Tuesday from an extensive motor trip to Virginia, Pennsylvania, New York, and Canada. They were away for seven weeks and while in New York they visited relatives in Clyde, Seneca Falls, and Buffalo.

Miss Ella Mary Muirhead is expected to return home Thursday from Ft. Myers where she has spent a few days with her grandfather, Captain M. Johnson. Miss Muirhead said Saturday from Jacksonville on the S. S. Cherokee for New York where she is assistant dietitian at the Staten Island Hospital. She will be accompanied by her sister, Miss Pauline Muirhead, who will enter the Nurses Training School at the Staten Island Hospital.

PARIS, Aug. 27.—(INS)—French people speak French! advises Fred G. Hofferr of Columbia University, who fears that many Americans will stop coming to France inasmuch as they have no occasion to try their tongues at the language of Voltaire, Rodin and Anatole France.

American tourists to France numbered 220,000 in 1926 and 280,

000 in 1927, continues Professor Hofferr, "and more than ever are expected this year, but a great many of them will be disappointed when they find they have little use for the French they have learned.

"Let the shopkeepers and hotels furnish interpreters for those who demand them but refrain from answering in English except when necessary. Don't take away a large share of the pleasure they would find in speaking and trying to understand a little French."

Explaining the movement, Miss E. Dodson, specialist in the agriculture division of the university department says:

"If we are to keep good feet, we must treat them fairly during the first twenty years of our life. Then we should continue the same treatment throughout the rest of our lives."

"Comfortable footwear to dispense with care" is the slogan of the girls who have joined the 4-H clothing clubs sponsored by the Extension division.

"If we are to keep good feet, we must treat them fairly during the first twenty years of our life. Then we should continue the same treatment throughout the rest of our lives."

**TEN AIRPLANES
SEARCHING FOR
LOST AVIATORS**(Continued From Page 1)
Pennsylvania and southwestern New York.

Each plane is carrying two observers who will watch the ground planes move along.

Each plane is equipped to drop a note to any town or farm in the event the Merrill plane is located in a spot where it is not possible to land.

H. L. Kitchingman, chief instructor for the Curtis Flying Service, said much of the country over which the flight will travel is wooded and mountainous. He said he had received word from other fields that planes would be sent out to search in these areas.

Great fears were entertained for the safety of the two missing fliers because they knew every foot of the way between Buffalo and Curtis Field. They had fuel for only five or six hours flying.

Merrill had the reputation among flyers of having in his mind the location of an emergency landing field no matter at what point he might encounter difficulty flying between Buffalo and New York. He had made the trip countless times, and so had Bonne.

They left Buffalo about 1 o'clock Monday afternoon. When they failed to arrive Monday night some surprise was felt, and this feeling developed into concern when they did not report in yesterday. Merrill would realize that his continued absence would cause anxiety at the flying field.

Several persons reported that on Monday night they heard an airplane pass over Curtis and Bonne's field heading toward the sea. Aviators who know Merrill regard him as too hasty a flier to make the mistake of getting away from land.

**Hoover Asks For
Early Report On
Party Finances**(Continued From Page 1)
DENVER, Aug. 27. (INS)—Despite the many predictions that the Republicans will break the "Solid South," the candidate is spending his time this week considering only the situation in the East. Thus far no one has been invited to confer with him on the specific question of prospects below the Mason and Dixon line.

He is, however, expected to give a report on the campaign budget being limited to \$3,000,000, the approximate amount spent in the Coolidge campaign. National committee heads, however, after completing a tentative budget, declared that it would be necessary to set the goal at a million dollars higher.

The charges of John J. Raskob, Democratic national chairman, that the Republicans were seeking a "slush fund" were not taken seriously among Hoover's advisers today. Although Treasurer Nutt declared that "things" are coming along fine, there have been persistent reports that collections are slow in coming in.

Cannassing the financial situation comprised only part of the activities of the nominees today. He also summoned John W. Good, western manager; Republican Walter H. Newton, western speaker; and Republican John Q. Tilson head of the western speakers bureau.

With this trial and National Chairman Hubert Work, Hoover tackled the problem of when and where he shall speak and also how often. That he will do considerably more campaigning than was expected at the opening of the campaign is now apparent, but he will not resort to the stump speech methods of a decade ago.

"I will do anything that will tend to dispel any doubt concerning the matter. I must reveal the truth for my own protection. I am sure that the Burnham child will not be ashamed of her father. I come from a good family in Russia and here in New York I have relatives who stand high in their own professions and vocations.

"I have considered the criticism that may be directed at me for revealing these facts. However, I stand adjoint. The truth can in no way be criticized. Those that seek to attack the truth are themselves hypocrites. I want none of them as friends. Mrs. Burnham has named the child Vera, from the Latin "Veritas," meaning truth, can I say more?"

Debris Cleared From Bank Building As Little Town Prepares To Bury Six Dead

SHERIDAN, N. C., Aug. 28.—(INS)—The dead toll, at one time thought to have been eight, was reduced when two men who were buried under the fallen timber were rescued and found to be unconscious but still alive.

A dozen negroes, working in the basement at the time of the collapse, thought to have been killed, were recovered during the night.

As this little town prepared to bury its dead, Mayor Bursey ordered an investigation of the cause of the crash. The probe, which probably will be headed by a

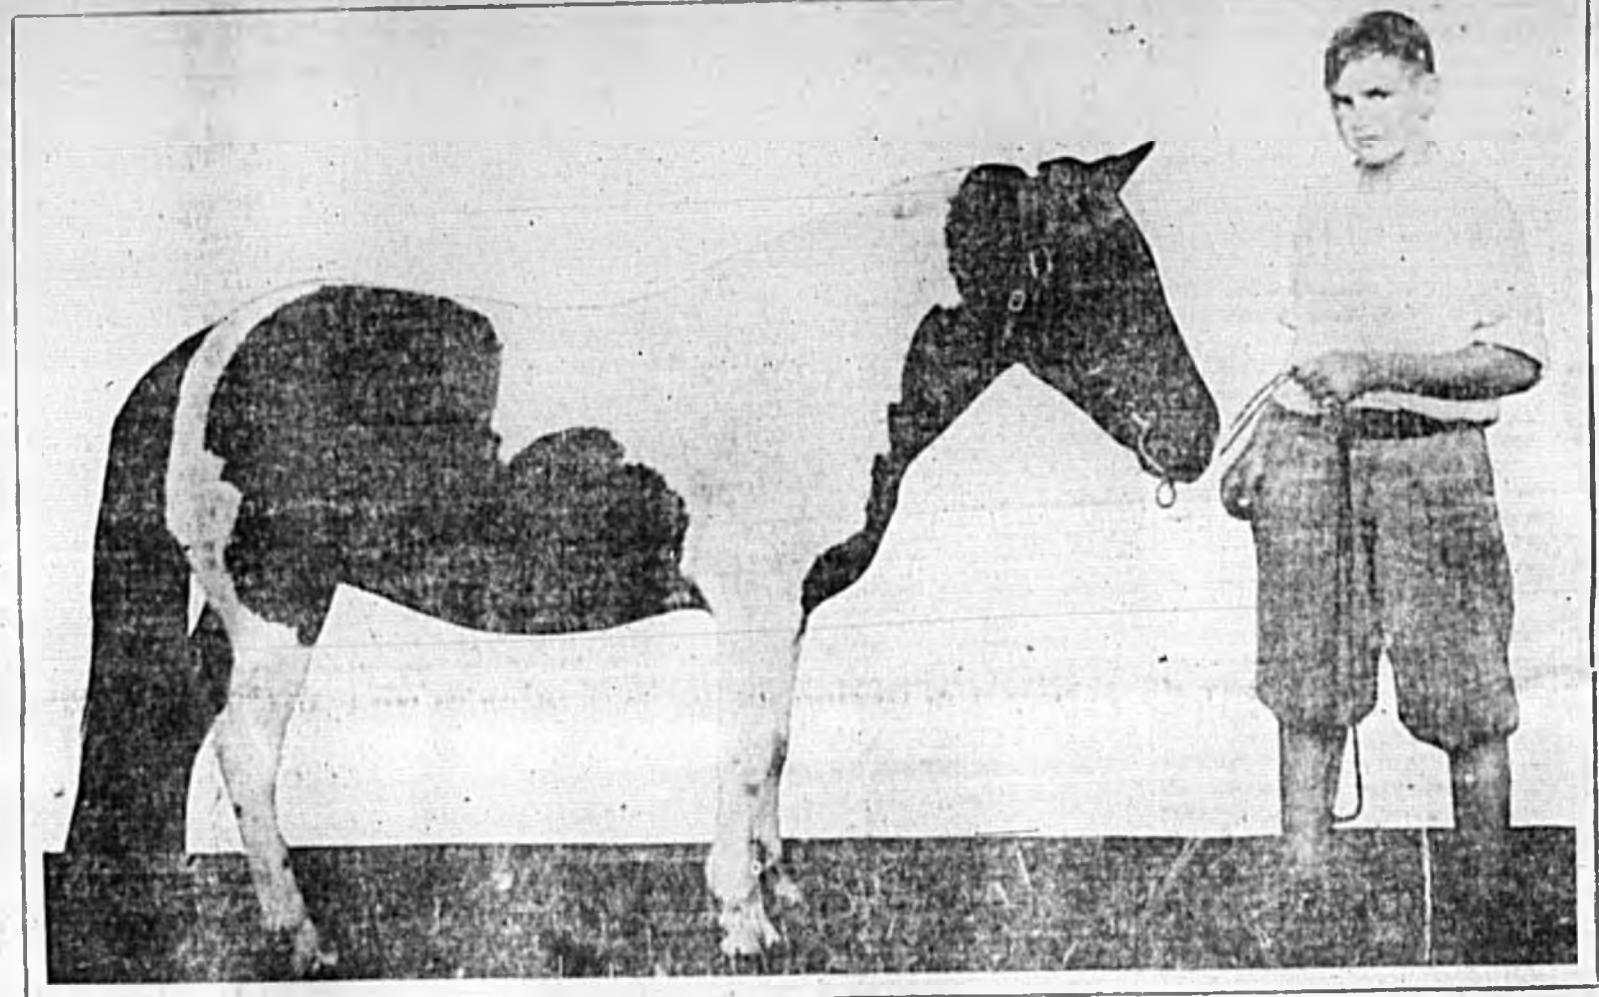

police chief in the absence of the town building inspector, was set to start today.

The list of seriously injured stood at 75. Among these was George Blanton, acting vice president of the bank and senior bank employee. None of the injured was expected to die. They were all being treated at a local hospital.

The building, which housed the First National Bank temporarily until a possible permanent heft which took place earlier in the day when an unidentified man made away with a hand bag before the sky had died away, it is thought that the loss did not more than a few hundred dollars.

GROVELAND, Fla., Aug. 28.—(INS)—A bridge, 15 miles northwest between here and Park City, collapsed apparently caused by excavation work to prepare ground for an adjoining building. J. S. McKinley, the owner, was having a basement dug in
