The Wednesday Club

A fine attendance of the members were present Wednesday afternoon, at the residence of Mrs. J. W. Dinkins. Just here it may be well to call attention to the request of the president, Mrs. Maria, that all the members try to be more prompt, and come at 2:30 sharp.

Miss Mabel Bowler opened the program for the afternoon with a very interesting "Story of Beowulf," the bravest, noblest and most renowned warrior king of the Goths, who singly and successfully delivered his neighbors, the Danes, from the presence of the frightful man-eating monster, Grendel.

Miss Mell Whitner read the charming "Love Story of Frithiof the Bold," written by Mrs. O. W. King, who was unable to attend.

Miss Charlotte Keelar entertained the club with a fine paper, relating the "Stories of the Gods."

Mrs. Henry Wight, who represented the Wednesday Club at the meeting of the State Federation in Jacksonville, last week, made an interesting report of the Federation; also giving a fine synopsis of the work that is being done by the Federation in Florida along all lines of civic improvements, as well as the betterment and uplift of the children and all the people throughout this beautiful state.

The secretary announced that the name of Mrs. S. F. Dutton had been voted on, and that she was now a member of the Wednesday Club. After attending to several minor matters, the club adjourned until next Wednesday.

Pleasant Afternoon

The Home Mission Society of the Methodist church was entertained by Mrs. L. V. Wicker, Tuesday afternoon. Mrs. H. H. Chappell, president of the society, presided.

After the regular and routine business of the society had been attended to, the meeting was turned over to Mrs. and Miss Wicker. A social half hour followed. At the request of Miss Gennie, Miss Lucca Chappell played "Undine," one of DeMay's very pretty instrumental solos. Mrs. C. H. Summers, accompanied by Miss Lucca Chappell, sang one of Edwin Green's best songs, "Sing Me to Sleep."

After the music, Mrs. Wicker served delicious ice cream and cake. As the hour was growing late, the meeting adjourned after a very pleasant afternoon.

Mrs. H. E. Toler and her sister, Mrs. H. H. Pattishall of Geneva, went to Jacksonville Tuesday afternoon. They will remain in the Metropolis some time.

Sewing Circle Meets

Mrs. N. J. Perkins and her sisters, the Misses Beard, entertained the Sewing Circle, Thursday evening, November 23.

While the members of the circle piled their busy fingers on their pretty Christmas sewing, Miss Gail Moore, the president, and Miss Johnson took turns in reading to the others from an interesting book.

It is the intention of the circle to select some desirable book and read portions of it at each meeting every week, until completed, when another will be chosen.

The next meeting will be at the home of Miss Lillian Gibson on Magnolia ave., Friday evening, December 1.

Mrs. Perkins served delicious fruit salad wafers and coffee. The members present were Misses Mell and Lucy Whitner, Lillian Gibson, Margaret Roberts, Mrs. J. C. Bennett, Misses Johnson, Eunice Cux, Alberta Hopson, Gail Moore, Eleanor Roberts.

Welaka Club Notes

The first meeting of the music department of the Welaka Club for the season of 1931-32 was held Tuesday afternoon.

The following attractive program was arranged for the afternoon:

Musical England, by Miss Keelar. Ireland in Music, a paper prepared by Miss Veda Ward, read by Mrs. Cecil Butt. Story of Balfe, The Bohemian Girl, Scotch Music, The Bagpipe, paper prepared by Mrs. Fannie Munson, read by Miss Mabel Bowler. Mrs. Holden's niece, Miss Hays, sang from Bohemian Girl, "Then You'll Remember Me," was enjoyed so much that Miss Hays sang several solos later in the afternoon for us.

Mrs. Barnes, who is quite a talented elocutionist, gave several readings, which were enjoyed very much.

A violin solo by Mrs. W. O. Brady concluded the program.

Tea and wafers were served by the hostess, Mrs. R. J. Holly, assisted by Mrs. Fayia.

The Welaka Club has outlined a plan of campaign for education during the coming season, and every meeting will be most interesting to those who enjoy musical and literary programs.

HAPPENINGS DURING THE WEEK

Here the Readers Will Find a Brief Historical Spring Flowing For Hurrled Readers

A fire in the heart of the business district of Birmingham Saturday caused an estimated damage of \$200,000. Four firemen who were carried down into the burning structure under the weight of a heavy press in a printing plant are believed to be dead. Three firemen were injured. The body of fireman Massey was found finally beneath a big safe. His dented helmet indicated that almost instantaneous was his death. The five injured firemen will recover.

Detroit was selected by the convention at New Orleans last week as the meeting place of 1912 convention of the American Bankers' Association. The executive council at its spring meeting will select the time for calling convention together.

Two of the three men charged with complicity in the tarring of Miss Mary Chamberlain, a Kansas school teacher, John Schmidt and Sherril Clark, yesterday were found guilty of assault and battery in Judge Grover's court, while A. N. Simms, the third defendant was acquitted. The jury was out for nearly thirty hours. Sentence was deferred to permit attorneys to argue a motion for a new trial. Earlier in the day the court imposed sentences of one year in jail, the extreme penalty, on Everett G. Clark, Jay Fitzwater, Watson Scranton and Edward Ricord, confessed assailants of Miss Chamberlain.

Southern passenger train No. 14 collided headon with an engine hauling one coach near Scotland, Ga., Friday. Engineer Brantley and an express messenger were killed and Engineer Raby, Baggage Master Anchors and another express messenger and a fireman were seriously injured.

After more than half a century of silence, the hills overlooking the walled city of Nanking, the ancient capital of China, swarm with rebellious forces eager for its occupation and determined to take the stronghold where the Manchus are making their last stand south of the Yang Tze. From the Tiger Hill fort, several hours Sunday morning big guns spattered repeatedly while further up along the northwestern range from the top of Purple Mountain, overlooking the Ming Tombs for a fifteen mile semi-circle toward the Yang Tze, smaller forts scattered shells into every section of the city. So far as is known the casualty list is not large. General Wood, second in command of the defenders is among those killed.

An eleven car train known as the "Western Governor's Special" left St. Paul last night for a twenty day trip to twenty of the cities of the east and middle west. This is the first time in the history of the country that such an enterprise has been undertaken. Nearly 4,000 miles will be covered by the special before its return to St. Paul on December 16. The cities where the special will stop represent a total population of 12,500,000 people.

Chas. W. Morse, the New York banker, exchanged his bare cell at the federal prison at Atlanta Sunday for a more comfortable ward in the army hospital at Ft. McPherson, by order of Attorney General Wickersham, who recently made a special visit to Atlanta to investigate the condition of Mr. Morse. The transfer was made about 8 o'clock that morning, Morse making the trip of several miles in an automobile ambulance. He stood the trip very well, but it was stated that his physical condition did not permit of an examination today. The banker convict is expected to go through this ordeal tomorrow.

W. Powell Hale, impersonator, will appear on the evening of Dec. 2nd at the New Longwood Hotel, at Longwood. Mr. Hale travels under the management of the Altheath Lyceum System, the same company which furnishes the talent for the Sanford High School Lyceum Course, and this alone should be a first-class recommendation. Mr. Hale is a well-known speaker and many Sanford people are arranging to attend.

CULLED FROM THE STATE PRESS

An Epitome of the Week's Most Important Happenings in the State's Domain.

Robert A. Bliven of Daytona fell from the Central bridge last Saturday evening about 8:30 o'clock and was drowned, the body not being recovered until between 9 and 10 o'clock the next morning, although the accident was known shortly after it occurred, and efforts to get the body were at once made and continued throughout the night. When found it was not far from the point at which Mr. Bliven fell from the bridge, on the north side, a short distance from the draw and in about nine feet of water. The funeral was held from the late home of the deceased, on Fairview avenue, at 10:30 o'clock Monday morning. Rev. Thos. R. Adams, pastor of the M. E. Church, South of Kingston, officiating. The interment was made in Pinewood cemetery.

Mr. M. E. Wright, a prominent hardware merchant of Lake City, committed suicide in his store last Saturday morning about eight o'clock by shooting himself through the head with a revolver. He opened his store at the usual hour Saturday morning and then stepped across the street and borrowed a revolver from a friend. No one heard the shot but a customer who entered the store found Mr. Wright dead seated in a chair with the revolver by his side, one chamber empty. Mr. Wright had been in bad health for some time and it is supposed became melancholy and committed the rash act in a moment of despondency. He was unmarried but had a number of relatives here among the most prominent and best people.

H. F. Gaundling, of Tallahassee, has dropped out of the race for congressman-at-large, and in the vernacular of the Pensacola Evening News, we have won a fight, for we advised him at the start not to do it. He gave as a reason, that his physician advised him not to run—nervousness. This leave Ellis, O'Brien, Martin, T. J. L. Brown and Claude L'Engle in the race.

With the purchase this week of \$50,000 worth of steel rails sufficient to complete eighteen miles of road from Pensacola to Gantonment and the completion of that portion of the grading work before, January first, at least seventy-five miles of the Gulf, Florida and Alabama road will be in operation near the contemplated date, April first. The rails were purchased last week in New York and will be shipped to Pensacola, probably by water, within the next few weeks.

Jacksonville is to have another ice manufacturing plant of sixty ton capacity per day. The contract calls for completion of the plant by April 1, 1912, and work will commence immediately. The plant will represent an investment of \$40,000.

Judge Bethel completed the last chapter in the present volume of the Cox case Saturday at Miami. Seven years at hard labor in the Florida penitentiary was the sentence given P. C. Cox, convicted of being accessory after the fact to the murder of Hejtie Parcel. If the defendant can furnish a bond of five thousand dollars he will be permitted to leave such time as he may be needed either for another trial or to go to the prison. Attorneys for defendant are perfecting an appeal to the supreme court.

Approximately \$44,000,000 has been expended in the cause of good roads in the Southern states during the present year. In this connection, it is interesting to note that Florida furnished a good proportion of this amount, aggregating altogether in the first ten months of this year, the sum of \$1,505,000. The largest amount paid out for road improvements in any single state during the same period was the sum of \$7,400,000.

Preparations for the execution at Palatka next Friday noon of Will McCoy and Edgar Youmans, negroes, convicted at the last term of court for the murder of two others negroes in the early part of the year at Wainright's mill, are under way, the double scaffold in the rear of the jail being almost completed. The carpenters are making a substantial job of it and the sound of hammer and saw can be plainly heard by the doomed men in their cells as the machine for their destruction is being erected.

TELEPHONE MEN IN CONVENTION

Meeting Here of Independent Telephone People of the State

A convention of the telephone men of the state is being held in Sanford today. The meeting was convened at the Sanford House this afternoon at 2:30 o'clock and is attended by most of the managers of the independent telephone companies of the state.

The meeting is called for the purpose of making preparation to comply with the new law governing telephone companies of the state, wherein the telephone business of the state is placed under the supervision of the Railroad Commission. The call was made by President W. T. Brograve of Tampa.

Mr. Geo. H. Fernald of this city, who is a member of the association, was instrumental in bringing the meeting to Sanford, assisted of course by the fact that Sanford by its location is the logical spot, being centrally located, as well as being easily accessible from all points in the state, both by water and rail.

Sanford welcomes these men and their convention to our city and hopes they will return here for future meetings. We need more of them.

Lettuce Bedding Move

Sanford's mammoth lettuce crop is beginning to move. Already several carlots have left the local stations for northern markets. Among the early carlot shippers are L. A. Brunley of Celery avenue, who shipped two cars last week, and D. R. Brisson and Roy Syms. Besides these, there have been several cars made up of small lots from a dozen different growers.

While the quality is not first-class as a rule, on account of the unfavorable weather conditions which have prevailed for the greater part of the season, the price is said to be good for the class of vegetables that have gone out. With anything like favorable weather, the next few weeks will see a continual stream of crossing wagons piled high with lettuce hampers going down First street, and a train load of vegetables going north every night—and Sanford will be herself again.

The nursing home at 8th and Elm Ave. is prepared to care for a limited number of surgical cases. Mr. Wrights, nurse in charge.

MISS STONE TO LECTURE

This Noted Missionary To Be Here on Wednesday Night

On Wednesday evening, at 8 o'clock, Miss Ellen Stone, the missionary, will lecture in the Baptist church, under the auspices of the Sanford Woman's Christian Temperance Union. A few years ago Miss Stone's fame provided material for many Associated Press dispatches. Her thrilling story is not yet forgotten—her capture by Turkish brigands and her imprisonment in mountain fastnesses until ransomed by the United States Government. This most interesting woman draws large audiences wherever she speaks, and the Sanford Union is to be congratulated on its initiative in bringing her before their home people. There will be no admission fee, but a basket offering will be taken to defray necessary expenses.

Hunting Party Returns

A Sanford hunting party, composed of several of our business men and their wives, returned last week from a ten-days' hunt up the river. Their camp was located about eight miles above Fort Christmas. All report a good time, and as evidence of their marksmanship they have to their credit two deer, eight turkeys and a quantity of quail.

Those making up the party were: Messrs. and Mesdames Newmān, Puleston, Thrasher, W. S. Hand, and Mr. W. J. Hill, Jr., and Tom Hawkins.

Some Facts About the Sanford Building & Loan Association

In another space in this issue will be found the statement of the Sanford Building & Loan Association. This is an institution of which Sanford may be justly proud. No other concern in our city is doing more to build up the city than this association.

The Sanford Building & Loan Association is a strictly co-operative home-building association, organized three years ago with only 480 shares common stock outstanding and in debt more than four hundred dollars, the directors borrowed a few thousand dollars and started building houses for members.

At the end of eighteen months the earnings had paid all expenses and debts incurred in organization.

Money coming in too slow for the demands, the stockholders arranged to issue a limited amount of cash, or preferred stock, cumulative as to interest, providing 2 per cent interest. Some of this has been sold and a small amount is yet to be sold. In the meantime, sales of common stock go on steadily, and it is now paying 8 per cent dividend. Monthly collections are three times as large as at the beginning, but the association can't catch up with the demand for money to build homes as fast as applicants come in.

It's a good investment. It's good to help trade, and a good way to build that home you are wanting. Why not take stock, much or little, all helps? If you don't thoroughly understand its workings, call on the Secretary, over First National Bank, and talk it over.

President, G. H. Fernald; Vice-president, T. J. Miller.

Directors above named and F. P. Forster, W. D. Holden, J. C. Higgins, H. R. Stevens and A. P. Connelly.

Change of Schedule

A new schedule went into effect Sunday, changing some of the A. C. L. trains through the city. The trains effected were Nos. 84 and 85 and the Leesburg trains. No. 84, northbound, arrives at 11:03 instead of 14:35 a. m., and leaves at 11:13. No. 85, southbound, arrives at 6:05 p. m. instead of 6:40, as formerly, and departs at 6:25. The new day train to Tampa and return is also included in the new schedule, leaving Sanford at 8:20 a. m., and returning at 9:00 p. m.

I hope my friends on Sanford Heights will get that brick road now that Spencer is elected. With a few dollars judiciously spent Sanford Heights would soon become one of the finest residence suburbs in the south.

The good people of Cameron City are in a class all by themselves when it comes to good fellowship and Christian spirit. Not only do they congregate in their temple of worship on Thanksgiving Day to render thanks for the many blessings bestowed during the season but they spread a great feast in the church at noon time and all the good people are invited to sit down and enjoy the bounteous repast such as only the good ladies and serve in their own munificent manner. My good friend, Dr. Minnick, exudes good nature from his beaming countenance and the stranger is made to feel at home by the hearty hand shake of the good doctor and all of the people of this thriving little city on the shores Lake Jessup. I wish I could break bread with them on Thanksgiving Day, and mingle with these big hearted people but such will not be my good fortune for a previous engagement to eat bacon and greens will prevent my attendance. However I cannot refrain from expressing my opinion of the Cameron City folks and my best wishes are always with them. May they live long and prosper and become so enamored of Florida that they will forget the land of grasshopper, sunflowers and cyclones.

How much all of us have to be thankful for if we would stop and think for a minute. The blessings always predominate although sorrow may come in heaps.

There is nothing like the cultivation of the bright side of things, and that is not hard to do if we will only stop a few thoughtful moments and take a mental inventory of the blessings Providence has vouchsafed to us individually. When we think what of ill might have overtaken us as a nation and consider how little of ill has come, it does not require any forced optimism to inspire us with a healthful philosophy of thankfulness.

The average mortal is so constituted as to be thankful that he is alive. With this as the minimum of thankfulness, who cannot build upon it and enumerate many blessings that made life worth while and ought to make it one grand, sweet song! There is nothing like stopping, at least once a year, and taking stock of one's blessings, so to speak. It is surprising how many things are on the right side of the ledger in the humblest man's life.

When thinking of Thanksgiving and the proclamation I am reminded of an old Kentucky friend of mine who as mayor of a Kentucky city gave out the following proclamation:

By authority vested in me as mayor of an unpretentious little city, I do thus publicly proclaim:

Whereas in accord with Christian custom, Thursday, November 24, 1904, has been set apart as a day of thanksgiving and praise, I do beseech saints and sinners to go to church and be good, whether chanting hymns, shooting quail, or sipping delicious poison from the eye of beauty, "keep innocency and take heed unto the things that are right, for that shall bring a man peace at last."

Let us be thankful that our colonels are not so full of corn as our corn is full of kernels.

Though the surrounding soil, tickled with a bee, is laughing with a harvest, poor folks are still with us. From thin soup and cold potatoes, good Lord deliver them. Oh Christian men and women, assuage the stomach of the starving sufferer with oysters, turkey and mince pie. Adorn the ragged pauper with comfortable clothing. An ounce of practice is worth a pound of preaching.

Dear beloved, let us play upon a harp of a thousand strings a new song of praise, give thanks unto the Lord for the most beautiful crop of babies ever born in the old town since creation dawned and the morning stars sang together. Sweet, dainty darlings, smile on, like sunbeams in shady places. Kick up your little heels and make of earth a heaven.

dictionary, defined as "a large domestic fowl, supposed to be brought from Turkey," is a true American. Not a hint of the existence of this prince of fowls had the civilized nations of the earth ever heard until the year 1584, when the ancient voyagers dropped anchor off Axacan, now in North Carolina, then a part of what was called Virginia, and making a landing one beautiful day in midsummer, reported that they had seen deer, snow white cranes and a certain large bird which epicures have since learned to worship the name of turkey.

His merits were quickly discovered by the early "explorers and adventurers" from other countries, as the journals of Captain John Smith, William Byrd and their contemporaries attest, and it was not long before he was to be found on the tables of Europe. Brillat-Savarin, of gastronomic and literary fame, called him "the most beautiful present ever made by the new world to be old." Formerly very abundant, the wild turkey is now to be found only in small flocks here and there in the secluded glades of the Alleghany and Blue Ridge mountains, in the Florida wilds and on the plains of the far southwest. Domesticated, the turkey thrives and multiplies the world over.

"Handsome, golden, done to a turn, scanting the room enough to tempt a saint," and served with that peculiarly savory New England prodigious cranberry sauce, no one will dispute the turkey's right to the sovereignty of the Thanksgiving feast.

NOT LONG TO WAIT
Circus Day Not Far Off and the Kids Are Planning a Big Holiday

A few more days and Sparks' world's famous shows will hold forth in this city for a matinee and night exhibition, and the rare, unique and wonderful things that have been promised on paper will become a reality.

The airy riders who, in diaphanous skirts, have been pirouetting on the expansive backs of beautiful and speedy circus horses (on the billboards) will be seen in all the gorgeousness of tulle and seductive smiles; the elephants will copy their pictured acts of comedy and go them one better; the contortionist will proceed to disentangle himself from the knots he tied in his responsive body last year; the acrobatic families will turn dizzy somersaults and the clowns will work off their latest comedy stunts to the great delight of the crowds present—we all like the clowns.

There is nothing on earth like the circus. It is the people's show par excellence. It is the one great American amusement that appeals to all the people. The expert knows what is coming every minute of the show, but he wouldn't have it changed for worlds. The very conventionalism of most of the performance is what makes it so delightful.

The merit is a big circus like the Sparks shows is in the fact that everything in the show is the very best of its kind. There must inevitably be riding acts, but the riders are the leaders of their profession. There must be acrobats, but the acrobatic artists and aerialists are gathered from the wide world, and are the best that money can procure.

It is this superiority in the quality of the performers that makes the Sparks shows such a welcome sight.

It is rather difficult to write poems of thanksgiving when you are in bed after a three days battle with the grip but we can always be buoyed up with the thought that it might have been worse and Richard will soon be himself again.

The Fort Myers Daily Press announces that after Dec. 1st it will be changed from a morning to an evening paper. This should enable this spicy little daily to keep up to its present standard and will be better all around for both advertiser and reader.

There are reports of indiscriminate slaughter of birds in other localities but the editor of the Herald can testify that so far as he knows not a bird has been killed near Sanford. He even took sick for several days in order to allow the contributions to come but up to date not a quail has appeared.

Sanford's publicity club is raising \$25,000 for advertising purposes—\$5,000 to be expended each year for a period of five years. Secretary Bates realizes that a city which takes an advertising spurt one year and doesn't advertise the following year, is not getting full returns for the money expended. The value of advertising lies in keeping everlastingly at it—it accumulates value like a rolling snow ball accumulates snow.—Tampa Board of Trade.

According to custom, The Herald will issue a handsome Christmas edition, containing some fifty pages of good reading, descriptive and holiday matter, good for young and old, the whole to be encased in a beautiful four-color cover that will be better than anything ever before attempted. Our solicitors will call upon the merchants immediately after Thanksgiving, as we wish to start upon the edition now and must know how much space you will need. Our task this season will be a heavy one with two papers a week, but we cannot cut out the Christmas edition, for the babies cry for it and the older folks demand it. This will be the first chance for Sanford merchants to make this city holiday headquarters that has ever been given them, because the advantages of the advertising columns of this paper are too well known to be dilated upon. Send your copy in early and get a good place in this beautiful edition.

THANKSGIVING AT HOME

Blessed, thrice blessed is the man in middle life with a family of lads and lassies growing up about him. More than thrice blessed is the man if the old homestead from which life came is still in the family, lightened and brightened by the presence of father and mother, hale and hearty though bent beneath their burden of years.

If to the old homestead children and grandchildren can gather and give thanks in unison on the coming day—next Thursday—set apart for such a service, the cup of joy in such a family is full to overflowing. No matter where the old home may be, whether on a farm made up of fertile fields or in a shaded village far from the world's maddening strife, or in a city of hum and bustle, if father and mother are there it is a shrine to thankfully gather about. When it is revivited on Thanksgiving all that is evil in any man is left behind when he enters there. It is a fit place for nothing but what is good and joyous. In that the family is gathered there in a circle unbroken is of itself a happy giving of thanks. All luxuries which burden a table of length and breadth are only occasions and evidences of thankful hearts. For the time being a man forgets the cares of business. Little cares he conceals a note due tomorrow with nothing in the bank to meet it. Little cares he for slackness of trade after the election. He is a boy again. Again he wanders by the creek or climbs the hillside as of old, where the hickory and walnut trees still live to furnish from year to year Thanksgiving nuts.

But the noonday meal—no evening affair, in full dress—is the climax for the thankful heart and hungry body. It has been the theme for song and story. The same viands are there which for a hundred years have constituted the Thanksgiving dinner. The same hearty good-will surrounds the table. The same family love, the same absence of family jealousy and bickering is noted. There is no time for anything but a good time,

and that they have, from the baby grandchild to the grandfather.

If, however, you are not to join in a family re-union, rejoice and be glad if you have a home. However plain your dinner, season it with thanks that you are surrounded by wife and children all in health and all happy, and on the morrow you can start anew on life's monotonous round hoping for another Thanksgiving Day just as full of blessings and happy hours.

"Rejoice and be exceeding glad for the mercy of the Lord—endureth forever."

Thanksgiving

Lucky Sanford should doff his cap, not to the commercial tourist, who said recently to relatives in the city; that in all his travels he had not found many towns, cleaner, or better kept than Sanford.

This volunteer statement, will be more highly appreciated, when it is understood, that this gentleman's itinerary, covers about ten thousand miles a year, and takes him into seven states.

Wade does most of the Sanford piano tuning. Phone or write to Wade, the tuner, Orlando.

Mrs. J. W. Wildman and Mrs. R. C. Maxwell returned Saturday evening from Tampa; where they went as delegates to the W. C. T. U. Convention, held there last week.

Good Supper and Pretty Girls to See, Nov

The ladies of the Episcopal church will give their annual bazaar and supper, Tuesday, December 5th—afternoon and evening, in the Stone-Grove Bldg. In room formerly occupied by the Boston. Handsome Christmas presents and a delightful supper at the following prices:

Table with menu items: Oysters 25c, Raw Ham 10c, Potato Salad 10c, Coffee 5c, Orange Sherbet 10c, Home-made Bread Served with Supper. Also includes Chicken Salad 20c, Baked Beans 10c, Tea 5c, and Cake 5c.

Use for Street Rubbish.

City authorities of Amsterdam are now considering the conversion of the street rubbish as a mass into combustible briquets for heating boilers.

Common Custom.

When a native Mexican girl falls in love with a young man, she sings songs to him—and in due time they are married. It's very much the same way in the United States, if the young lady is a singer.

M. S. Nelson of Lanark, Ill. is in the city this week looking after his interests in the Celery Delta.

Editor Holly of the Sanford Herald, is confined to his room on account of a severe attack of the grip.

A. P. Swope of the Swope Land & Investment Co., arrived last week from Kansas with a party of home seekers.

If you pay more you get no more if you pay less you get much less, than if you come to board at the Sistine Hotel. 24-1f

Gen. McCullough, who underwent an operation for appendicitis in the hospital in Ocala, is again in the city, and is feeling fine.

A. T. Rossett, J. N. Whitner, F. L. Woodruff, left Monday noon, for Fort Christmas, on a hunting expedition of several days.

Mr. Harry Falk and wife of Minneapolis Minn. who have been spending several weeks in the city left Sunday for the southern part of the state.

Rev. Mr. Warlow of Bartow, Fla., filled the pulpit of the First Presbyterian church on Sunday last, and preached able sermons both morning and evening.

Mrs. H. A. Hill and daughter Miss Olive, arrived last week from Wichita-Kansas, and will spend the winter in Sanford, and other parts of Florida.

H. C. Anderson arrived yesterday from Chicago to take charge of the Sanford office of the East Sanford Land Co. who have extensive interests in this section.

H. S. Allen of this city who has been working for the Moose Lodge at Orlando and Sanford returned Saturday and will make his home in Sanford in the future.

At their annual bazaar and supper, in the old Boston store, the ladies of the Episcopal church will have a Christmas tree with presents neatly wrapped in packages for the children. Don't miss it.

Miss Lucca Chappell went over to De Land Friday, to witness the football game and make a short visit to her sister, Miss Mary, at Stetson. Miss Lucca returned Sunday afternoon.

Before concluding its duties at the fall term of the Circuit Court at DeLand, the grand jury recommended among other things that a ferry or bridge be established at what is known as Thresher's ferry.

Commencing Dec. 1st, I will discontinue home to house retail delivery. My bread is handled by all grocers whose wagons call at your door daily. Any special delivery desired will be made with pleasure. G. W. SPENCER. 24-2t

The Guild of the Church of the Holy Cross will meet at the residence of Mrs. T. A. Neal; Friday afternoon, December, 1st. Business of importance is to be attended to, and the presence of all the members is earnestly desired.

W. S. Price of Palmetto Ave., who recently suffered a painful accident by having his foot cut in the planer at the Carter Lumber Co., is able to be out again. He will resume his duties as foreman of the planing mill in a few days.

Mr. W. C. Little who recently took charge of the machine in the Carter Lumber Company planing mill, left today for North Carolina to bring his family to Sanford. He will live in the Toggles place just west of the Robbin's Nest.

The Guild of the Episcopal church met at the residence of Mrs. Cruise Barnes, Friday afternoon; eight members were present. When the sewing which the members always have on hand was completed Mrs. Barnes served delicious refreshments.

The Golden Jubilee for Missions will be held in Tampa, December 6th and 7th. The first mass-meeting will convene on the evening of the 6th, at the First M. E. church. Denominational meetings will be held at each church on the morning of the 6th.

The freight on the Sanford & Everglades has adopted a daily schedule in order to handle the lettuce crop now coming on. Car lots are being shipped daily now and, the next few weeks will see large shipments from the Celery Delta.

Engage your seat for a real, genuine Thanksgiving dinner at the Sistine Hotel. 24-1t

The many friends of Mr. and Mrs. G. E. Hoff will be glad to learn that they arrived in our city Monday night, from Evanston, Ill., and that Mr. Hoff will hereafter have charge of the offices of the Western Union here. They report snow in Chicago, and—well, there's no place like "Lucky Sanford," anyway.

The residents of New Smyrna have signified their willingness to meet the Orange county commissioners half way in bridging the St. Johns river at the foot of Celery avenue, at what is known as the Osteen crossing. There has been much discussion as to the merits of this bridge location insofar as it serves New Smyrna and South Florida and from the agitation in favor of this route there is now no doubt but what the undertaking will be rushed to completion.

A. P. Connelly, general manager of the Sanford and Everglades railway, went to Jacksonville on business. This railway is purely a local enterprise, financed, owned and managed by residents of Sanford. In addition to maintaining a freight line it operates an auxiliary company which runs a system of street cars of the gasoline type over its rails for the accommodation of residents along its line. Sanford is the only inland town in Florida having a great street railway.—Times-Union.

The publicity committee of the Sanford Commercial club is having some very attractive literature prepared relating to the advantages of Sanford as a place of both winter and summer residence. The club will have its literature made of the very best materials, the workmanship must also be first-class. In presenting the attractions of Sanford to those who contemplate a removal of their place of residence to Florida, no statements will be made that cannot be verified by fact. Nothing will be overdrawn. A clear, clean story of Sanford and environs will be told and it is deemed by those who are in a position to know that this will be amply sufficient to satisfy anyone in quest of health and pleasure.—Times-Union.

HELP MAKE A GREATER SANFORD

Every Citizen Should Do His Part. No Matter How Little

The Commercial Club is now carrying more advertisements in popular magazines and literary publications than was ever carried before for the city of Sanford. The publications have an international circulation and it will only be a short time until inquiries will begin to pour in from all parts of the world. Thus Sanford at this time stands to receive a greater and more far reaching line of publicity than has ever been placed to the credit of the city. Advertising will prove to our town, what properly applied blood, bone and potash proves to celery plants, i. e. life and vigor. We should keep up the campaign from season to season without interval or stop. Sanford must have no dull seasons.

The campaign will take money, not such a great sum as one would imagine, but some money will be needed at all times. This being the case, subscriptions for any amount will be acceptable and there is no reason why every property owner, either male or female, every clerk, bookkeeper or workman in the city should not contribute in some amount to the fund. No matter how large or how small, the money will be properly disbursed and any benefits that will accrue to our city and section from such disbursements will benefit all alike. Our interests are interwoven in such manner that it is impossible for any individual to wrest him or herself from the body politic and claim that the growth and expansion of Sanford will not prove of benefit to them. This being the case there is no reason why every resident of the city should not do their proportionate share when it comes to bearing the expense of the campaign. If you have not been called upon by the committee, you should go to the secretary with your contribution, as there are many who will be missed in the canvass and their help is needed. One party came voluntarily to the secretary and subscribed the sum of \$50 stating that before the year was out he would put up more if needed.

It does not matter how hard times may be with you, you cannot afford to refuse to do your part in helping the Commercial Club advertise Sanford. Our interests are identical and if times are hard with you, they may become more stringent if you do not help our effort to make Sanford the justiest commercial center in all of Florida. We have the advantages. All we have to do is to let these facts be known to the purchasing public and it will not be a great while until our town will be bubbling over with purchasers for town and country property. Let the Commercial Club have your subscriptions.

HOWARD-PACKARD LAND COMPANY

Bulletin

ILLINOIS FARM LANDS

Sell for the highest average price of any State in the union. In the better parts of the State these lands bring from \$150 to \$250 per acre.

Illinois is the greatest corn State and its leading crop is corn. In 1910 from 10,609,000 acres of land it produced 414,812,000 bushels of corn worth \$157,629,000, or a trifle less than 38c per bushel. The average yield per acre was 39.1 bushels. And the average value per acre was \$14.85 (These figures are taken from the Yearbook of the Department of Agriculture, pages 502 and 503.)

Now when a crop of corn is grown on the 10,609,000 acres of Illinois lands, that is the end of it for a year. Now contrast that with Sanford.

Mr. Brumley grew 50 bushels of corn to the acre on his Celery Avenue Farm last summer from April 1st to September 1st, and it is worth 90c a bushel or \$45.00 per acre. But he had already taken three crops off of the same land from September 1st, 1910, up to the time of planting his corn—two crops of lettuce and one of cucumbers. And one of the lettuce crops brought \$600 per acre on the ground. We don't know what the other crops brought.

Mr. Chase grew 75 bushels of corn to the acre.

Mr. Rossitter produced upwards of 50 bushels per acre.

Mr. Chapple grew 2,000 bushels on his farm.

Mr. Hawkins' corn yielded over 75 bushels per acre.

These men are representative

growers at Sanford. They don't pretend to be corn farmers but after growing two or three vegetable crops on their land from October 1st to April, they plant corn for a summer crop and still grow more value per acre in corn than the best farm in Illinois. There is not enough corn grown in Florida to supply the home demand because our farmers can make more money growing other crops. Consequently it must be shipped in and freight and profits added to cost makes it worth nearly double the value in Illinois. The Yearbook above referred to gives the average Florida price as 85c but in Sanford it has never been less than 90c per bushel.

Now we are not arguing for the growing of corn. There are a dozen staple crops which can be grown during the summer months which will produce more per acre value than Illinois farm lands, but what we do claim is that land should be valued for what it will produce. If Illinois land which produces an average of \$14.85 per acre is worth \$150 per acre, then it is valued on a trifle over a 10 per cent basis of gross production.

On this same basis every acre of Sanford land is worth from \$450 to \$675 for growing corn as it produces from \$45 to \$67.50 worth of corn per acre.

In last week's Herald a writer shows in detail the production of his five-acre farm and the total income was \$5,677.52, which figured at 10 per cent (the basis of Illinois land) would make the place worth \$56,775.20 or \$11,355 per acre.

But even on the net income of this farm of \$749.30 per acre it would figure \$7,493 an acre. We

see from the crops mentioned that this party did not grow a summer crop which he might have done and added to the above.

Now we have taken Illinois because it is the best of the lot. No other Northern State will show up as well.

That is not all. From now on till spring the Northern farmer must live in a cold disagreeable climate and spend his earnings of last summer in an effort to make existence tolerable.

In Sanford we live to the fullest extent for twelve months of the year in the finest climate that God's bright sun shines upon. If the world knew what we have at Sanford in comfort and value, every acre of land would double in value in a week. The world is bound to find it out, too, and then watch prices grow.

In the meantime, we have a few splendid offerings in improved places: Ten acres, good buildings, near street cars or mail route, splendid condition, \$6,500.

Ten acres, adjoining, good house, \$4,500.

Eleven acres, well located, no buildings, \$3,500.

Five acres, close to town, main street, ready to set, \$3,500.

And many others.

Twenty acres unimproved flowing well land, near street car line, bargain at \$100 per acre.

Eighty acres as good as can be found in quality and location at \$8,000.

Other choice places, all sizes, at \$150 per acre.

Our Volusia Farms across the St. Johns River at \$30 to \$50 per acre on a monthly payment contract are the best to be had for the price.

Reception For Mrs. J. W. Barnes

Mrs. O. W. King, delightfully entertained her many friends and Sanford society, at a lovely reception which she gave Friday afternoon, in honor of Mrs. J. W. Barnes, one of the early fall brides. Mrs. Barnes possesses a charming personality, and will be quite an acquisition and ornament to Sanford's social circles. Her reputation as a delightful reader is not unknown in Sanford; as it has been the pleasure of a number of ladies to hear her in that role.

The rooms were lovely in their artistic decorations of graceful green vines and pink roses.

The mantles were banked with beautiful pink roses. The soft sweet music of the piano and violin, lent an additional charm to the animated scene. The refreshment table was very attractively decorated with vines and roses. The centerpiece, being a handsome large doll dressed as a bride, with veil, orange blossoms, brides bouquet, and train; standing on a bed of roses. The dainty refreshments of sandwiches, coffee with whipped cream, olives and pickles; were charmingly served by Misses Elizabeth Kay, Mell Whitner, Rose Dickinson, Mabel Bowler.

The occasion will be remembered with pleasure by Mrs. King's guests.

Mrs. Forest Lake was the charming hostess of the Every Week Bridge Club, in Miss Keelor's pretty and attractive tea room; Saturday afternoon. Two tables of bridge were played. Mrs. G. O. McLaughlin made the highest score, and won the first prize, a handsome red leather bridge score. The hooby prize, a very pretty brass beehive tape measure, was received by Mrs. O. W. Brady. When the games were concluded, delicious chicken salad, sandwiches, olives and coffee were served. Mrs. Lake's guests were, Mrs. R. S. Keelor, Mrs. L. P. Hughes, Mrs. W. D. Holden, Mrs. C. O. McLaughlin, Mrs. W. W. Prather, Mrs. O. W. King.

Welaka Club

The Welaka Club entertained its members and visitors of the Wednesday Club and Lead A Hand Society with a very interesting Civic program; Thursday afternoon.

Mrs. Henry Wight was leader, which of itself, was sufficient guarantee of an entertaining and profitable meeting. Miss Charlotte Keelor, secretary of the State Federation of Women's clubs, read for the benefit of those present, the paper prepared by Mrs. Gay of Palatka; chairman of Civic Work in Florida; and read by her at the convention of the Federation in Jacksonville recently. Miss Keelor also told of a number of reports by the delegates to the convention from other Florida towns which are actively engaged, in the civic betterment of their communities.

Mrs. Wight after a short talk explaining many of the problems, to be overcome and suggesting ways and means of dealing with many others, read a very able and interesting paper giving a general

review, of the "Progress of Civic Betterment" along all lines of improvement; and which contained so many wise and timely suggestions and inspirations; that were they earnestly and carefully heeded, and lived up to, by the men, women and children actor's on life's stage of today; would inevitably, hasten the lifting of the curtain of Time, upon the "Millennial Dawn."

Homecoming Week

Mr. B. M. Sims, president of the Orange County Pioneer's Association has issued the following invitation to former residents of Orange County, to be present during the week of the Orange County Fair.

Orlando Fla., Nov. 17, 1911.

To the Pioneers of Orange County,

Florida Everywhere:

Through the courtesy of the Orange County Fair Association, the Pioneers of Orange County Florida, in all parts of the globe are most cordially invited to a general home-coming during the week of the fair to be held in Orlando, Fla., from January 30, to February 3, (inclusive), A. D. 1912.

It is with pleasure that the Orange County Pioneers' makes this announcement, and it is to be hoped that as many as possible of those who residents of Orange County, Fla., prior to January 1, A. D. 1885, will avail themselves of the opportunity thus afforded to attend the Fair and renew old acquaintances, and for the time live over again, the "Days of Auld Lang Syne."

The organization of the Orange County Pioneers' Association was completed at a meeting held in October last, and the various committees were appointed to their several reports on the 31st day of January, A. D., 1912—that day being set apart by the Fair Association as "Pioneers' Day," and it is the wish that all the old settlers made an especial effort to be present on that day, if not throughout the whole week of the fair.

By order of the Orange County Pioneers' Association.

B. M. SIMS, President.

L. J. DOLLINS, Secy.

Citrus Fruits Moving Rapidly

The citrus fruit movement including this week is about 1,500 cars. Cool nights have brought out the color and sweetened the fruit. The movement was heavier this week as growers anticipate a good market for the Thanksgiving trade and others want to play safe and get the fruit moved before a killing frost arrives, if the state is so unfortunate as to have one this season. The large growers who have heating apparatus can laugh at "Jack-Frost" and many of them will hold a large portion of their fruit until it is superior to shipments now moving.

The Clyde Line hauled out of Jacksonville this week about 20,000 boxes for New York and Philadelphia, and probably 25 per cent of their cargo was transported into Jacksonville by their St. Johns River line which operates as far south as Sanford. Heavy shipments by this line during the week was made from Crescent City, Beresford, Sanford and other points on the river. The Atlantic Coast Line, Florida East Coast and Seaboard Air Line railroads hauled the balance of the crop to this city, where it was distributed to the different railroads leading north and west.

The Florida East Coast railroad moved some fine stock from Merritt's Island this week and shipments from Miami were also heavy, as four packing houses are shipping and each is averaging from one to three cars daily. South of Miami at Homestead, Maranja, Goules and Coconut Grove the packing houses are working full time and from one to three cars are moving daily from each point. As far north Titusville the movement has been general and some of the stock has been particularly fine, especially grapefruit.

The growers realize that the grapefruit is short and many are holding out for \$1.50 to \$2.00 per box on the trees, but the fruit bringing \$2 is for fancy Brights. Fully 50 per cent of the fruit this year is Russet and large deals are being made at \$1.50 per box on trees.

The orange crop has improved wonderfully the past ten days. The nights have been cool without frost, with bright sunshine during the day in almost all sections of the state and growers and shippers are at work in earnest. The crop, while largely Russets, is bringing 85c to \$1 per box on the trees and buyers are closing many deals. Many of the growers are shipping on consignments as returns which have been received are very satisfactory, in many cases better than if they had sold on the trees. The fruit tastes sweet and wholesome.—Produce News.

Japanese Banks in China

Japanese banking facilities in China are good now, but are to be made larger and still better. In anticipation the older banking interests are doubling their capital and embarking in new banking lines.

There is quite a possibility that there will be a material in the case of Mrs. Gertrude Patterson, who has been on trial at Dover for the murder of her husband. The case went to the jury last evening and the jury had not returned a verdict today, indicating there is considerable disagreement as to whether the woman is guilty of murder or not.

The United States government today formally offered the government of China the services of 2,500 American troops now in the Philippines, to be used in guarding the railway lines to Peking, that communication between the capital city and the seacoast may not be broken off by any force of rebels that may seek to do so. Also such troops are to be protection of foreign residents at the capital.

South Carolina, according to information on file with the public health and marine hospital service, is the only state in the Union which has control of the corn market to prevent the spread of pellagra.

No battleship will ever enter the service of the United States navy with handsome gifts from the people of the state after which the war vessel has been named, than will the Florida, Uncle Sam's newest, and the greatest dreadnaught in the world. In addition to the magnificent silver service that is to be presented to the battleship by all of the people of Florida, there is yet to be given another most beautiful gift in the shape of a "Land of Flowers," the gift of the daughters of the American Revolution of the state of Florida.

Political eyes in Tennessee today are agog on the confessions of the friends of prohibition, called by Governor Hooper and now in session at the state capitol for his call, Governor Hooper suggested three propositions for consideration: The advisability of municipal or county option for the city; does the non-enforcement of the law in some of the larger cities justify a return to the licensed saloon? and means of making the prohibition law more effective.

Yesterday was a real Thanksgiving day for Mrs. Clara W. Moore, wife of the former New York banker who was recently transferred from the Federal penitentiary at Atlanta to the hospital at Fort McPherson, for she will dine with her husband for the first time on Thanksgiving in four years.

Uncle Sam's eagle-eyed food inspectors at Chicago have held up several carloads of peanuts intended for shipment to western cities for Christmas. Uncle Sam evidently wants the western kids to have a sound festival.

SILVER SERVICE FOR FLORIDA

New Battleship Will Have Swellest Outfit in Navy

The silver service to be presented by the citizens of Florida to the officers of the battleship bearing the name of this state is fully described in an article appearing in yesterday's Jacksonville Times-Union. That paper says:

The silver service for the new battleship Florida, the greatest fighting ship in Uncle Sam's navy, is here, and it is safe to say that no warship in the service will have as more, if as beautiful, a service outfit as the superdreadnaught named after the "Land of Flowers."

The service arrived at the jewelry establishment of Greenleaf & Crosby Co., which the committee appointed by Gov. A. W. Gilchrist gave the honor of designing and furnishing the service, at 3 o'clock yesterday. Immediately a large force of clerks was set to work unpacking the service and part of it was placed on exhibition in the west show window.

The punch bowl, which, of course, is the main piece of the set, represents the scene of the silver smith's art. The front of the bowl is embellished with a scene of Ponce de Leon's landing on the Florida shores and underneath is a likeness of the discoverer of Florida. On the reverse side of the bowl is an engraving of two Seminole Indians in a dugout, with a tropical background, while underneath appears the great seal of the state of Florida. The handles of the bowl are formed in the shape of pelicans, while the center, front, and reverse sides are decorated with a spread eagle. The piece is also handsomely decorated with oranges and blossoms, while the supports are in the shape of alligators. On the front and the reverse is the name Florida in large, raised letters. The whole is based by a heavy plateau, which is also handsomely decorated.

Other exquisite pieces of the service are two candelabras, which have the design of the palmetto tree in which are perched four cranes. On the large center piece is engraved the inscription, "Presented to U. S. S. Florida by the People of Florida."

The whole service consists of the following pieces, each of which bears the seal of the state in bas relief:

One punch bowl, one punch bowl plateau, one punch ladle, twenty-four punch cups, one centerpiece, two candelabra with seven electric lights and fittings, one waiter, one pitcher, one pitcher tray, two goblets, one fish-dish, one meat dish, one entree dish, one sauce boat, one sauce tray, one coffee urn, one sugar bowl, one cream pitcher, one coffee set tray, one fruit dish, one cigar box.

THE SCOUT BALL GAME

Troop 2 Won By the Small Score of 3 to 1

The game started to be a hot contest. Troop 1 scored one run in the first and one in the second innings.

Troop 2 tied them up in the third inning by scoring two runs, and gained one run in the seventh inning.

Troop 1, in their half of the eighth inning, scored one run. But when Troop 2 came to bat in the eighth, the first work started.

The opposing pitcher, Hume Rumph, weakened and Troop 2 scored two runs. That won the game. THE MANAGER.

Chicago Land Show Crowded With Visitors Wanting Fertile Florida Lands

Chicago, Nov. 30.—(Special.)—Florida scored heavily today at the big land show in Chicago. Being Thanksgiving day in the nation's second city, enormous crowds turned out to visit the land and irrigation exposition. All the booths representing Florida were busy and the interest in the far south was ill disguised. Floridians at the land show joined hands in their efforts to make an impression on the throng.

Products that are strange to the North were on display everywhere and even the black soil of the reclaimed lands of Florida was handled and sifted between the fingers of the land show crowds. It is hard for a Floridian to appreciate the unbounded interest which Northerners have in the state of Florida. The land show therefore can be reckoned as an educational institution well worthy of the time.

Alchus and Bradford counties maintain a booth in the big land show. H. P. Porter, manager of the Florida Co-operative Real Estate Association, who is in charge of this booth, found it necessary to call for extra clerks during the day. They were employed to pass out literature concerning Florida, and also to answer questions concerning the free gift of a ten-acre truck farm donated to Florida's cause by the Raley-Hamby Land Company of Lawley, Fla.

Since the land show opened the paid admissions to the big Coliseum where the exposition is being held have been more than 200,000. This number does not include the thousands who have come as guests of exhibitors.

Few of this crowd got by the Florida booth without seeing and being told about it. The booth is drawn along lines of a log cabin as it appears in the cotton picking season.

The unbounded interest in Florida and its products is best demonstrated by the fact that the visitors to the land show even carried home the humble cotton seed, looking upon it as a wonderful creation.

The whole booth is surmounted by long strips of live oak moss, while the entrance to the booth is made of a bowler of sugar cane. J. D. Rooney, assistant industrial agent of the Seaboard with headquarters at Jacksonville, is one of the familiar and busy figures at the land show. He has made his headquarters with his Alchus county display and missionary work done by him has tended to increase the Chicagoans' interest in Florida. Yesterday more than fifteen barrels of Florida pecans were distributed by the Floridians. A handful was given to each visitor to the land show.

CULLED FROM THE STATE PRESS

An Epitome of the Week's Most Important Happenings in the State's Domain.

The passenger station at Fort Meade has been wired for electric lights, and two large lights will be erected outside, near the station, for the accommodation of passengers on the night trains.

The grand-stand of the South Side Athletic field, in South Jacksonville, was destroyed by fire a few days ago. It is thought that this was the work of incendiaries. The grand-stand was the property of the ferry company.

James B. Hammond, the millionaire New York typewriter manufacturer, narrowly escaped death a few mornings ago in a fire which partially destroyed his \$50,000 yacht, as she lay at the foot of Main street in Jacksonville awaiting repairs to her machinery. Mr. Hammond came to Florida in his yacht on a pleasure trip and for his health.

The contract has just been awarded in Fort Dade for the installation of a new set of boilers to operate the electric light plant and water supply of the reservation. The entire contract calls for the outfit on the part of the Government of \$9,300.

BROKEN RAIL CAUSES WRECK

Train No. 85 Has Accident Last Night Near Kissimmee

Going south last night with a load of tourists and returning excursionists, train No. 85 was derailed near Kissimmee. The engine, in charge of Engineer Toler, and the mail car passed over the rail, but the baggage car and the rest of the coaches were turned over into the ditch. Baggage-master Royall was badly injured by the car-load of trunks piling on top of him, and it is thought he cannot recover. Conductor Allen was also badly injured.

The passengers were badly shaken up and bruised, but none of them were seriously hurt. Had the engine turned over there would have been a different story to tell, and many lives would have been lost.

GOING OUT OF STYLE

Ladies Are Discarding The Old Style Lace Shoes

Yes, said Manager Tillinghast, of the Duckworth shoe store, the other day.

"I sell three pairs of button boots to every pair of laced ones. The boots are undeniably smarter, and with the short walking skirts now they are almost essential, for they make the foot much daintier and more graceful than the laced models, which of course, suggest utility rather than beauty. The well dressed woman selects for shopping use buttoned boots of soft, fine quality calf in a dull finish, or of patent leather with dull leather tops. Cloth-topped buttoned boots with very light soles are liked for dress wear, and it is probable that the white buckskin buttoned boot which was a fad last summer will continue in popularity all through the winter. For country and stormy day wear there are knobby looking tan boots also buttoned, and trimmed with broguing and heavy stitching.

"The Chorus Lady"

The great big success of the past dramatic season, "The Chorus Lady" by James Forbes, author of "The Travelling Salesman" and "The Computers," will appear at the Imperial Theatre on Wednesday Dec. 6. This comedy ran for one whole year in New York, nine months in Boston, six months in Chicago and six months in London, England.

The story of the play deals with the life of the chorus girl, of the present day, and shows the temptations and the dangers she is exposed to, but when she knows the good from the bad, as our "Pat" does, she routs her tempters in characteristic fashion. The dressing room scene in the second act, is one of the best and most laughable scenes ever produced and lets us see "life behind the scenes."

Were Married in Sanford

Our readers, or some of them at least, will remember that Mabel Paige, who is filling an engagement here and who with her company will present the play, "Billy" tonight, was married to Mr. Charles W. Ritchie, her present manager, in Sanford some three years ago. Archdeacon Brown who performed the ceremony is an inmate of the Church Home and Hospital, and will probably spend his declining years there. The meeting between the three parties must have been pleasing, for Mr. and Mrs. Ritchie are seemingly as happy as any newly weds and they naturally feel good toward the man of God who bound them hand and heart. Several members of the company who were with them and are still members, witnessed the ceremony and joined in the felicitations that followed.—Reporter-Star.

The Pensacola Electric Company has found it necessary to order four new street cars in order to accommodate its increasing passenger traffic.

An electric light plant will be installed at Winter Haven just as soon as the machinery and material can be gotten and put up. This little town will look very cliffed when she gets lighted up with electricity.

Four of the large Mallory Line steamers were at the docks in Tampa at the same time one day last week and there was great activity on the water front in that city.

The E. O. Painter Fertilizer Company in Jacksonville has recently purchased thirteen acres of land adjoining its big plant in South Jacksonville. Extensive improvements will be made on the new property.
