By MILL HERING Grade school-to-the-grave baseball in Sanford, is just one of the many sports benefits of which the average local male can boast. He

can play or he can just watch. Whichever he chooses, the opportunities are more than abundant. Flourishing in vacant fields scattered throughout the city are number erous seven-to-nine year old sandiot teams. After school the young fry,

uniformed in baseball odds and ends, can be seen gathering in team small groups to "choose" up six Likely as not the outfield is overlooked due to the shortage of available players. But the spirit

is there, and even more important, so is the dormant talent. From nine to 12, a Sanford youngster who is earnestly interested in the game regardless of ability, comes under the wing of the local Lions Club. Regulation equipment is used in the Lions league with the result that some of the time the bats are nearly as

Hardly a night slips by during the season that some team in Sanford doesn't have a contest sched

It all boils down to this: If you want to play baseball in Sanford you can; or if you just wish to be an onlooker the opportunities to fill that role are unlimited.
One way or the other, if baseball is your forte, you can expect a full diet of the sport in Sanford. And you can expect it from the grade school to the grave.

Let us take a typical case. Suppose you are president of the so-clety for relieving impoverishment among Eskimo architects. You want the society's annual dinner to be a success, so you go to a pro-

four bits a head."
So the wise old lady says don't
be foolish, nobody goes to a two
buck affair anymore. She schedules the dinner at the WaldorfPlaza liotel and ups the entrance
fee to \$15 a ducat.

You clear \$5,000. Then you discover there are only five really

You forward the money to them,
they put stoves in their igloos,
and the central heating gives them
pneumonia — and in three weeks
there are no more Eskimo architects.

You then disband your society.
But that doesn't worry the professional dinner arranger. She is fee to \$15 a ducat.

The question to come before them is whether Dr. Sander has violated medical law, more properly called medical ethics. This medical law is fully as strict as legal laws, and frequently more strictly enforced.

The House of Delegates will meet in closed session, discuss Dr. Sander and Issue a statement on their decision. There is no appeal. They will consider whether Di Sander has made himself unfit in the eyes of his fellows by giving an air injection, something that in all the evidence to date canno linve any other effect than hazin to a patient, and death if enough

It is possible that the state medical society's action may, be forestelled by the State Board of Registration, the legal body that licenses doctors to practice.
