between the two powers. goal of the Western powers set forth at the end of the Geneva foreign ministers' meeting.

But there is no reason to be-lieve that the West and the East are any nearer than they were before on the terms of controlled disarmament. A wide gap exists on the elementary business of the inspections necessary for agree-ment to end nuclear testing. And judging by the crumb of encourwhich they promptly spurned, Adenauer is unwilling to make even the first timid move toward regularizing present borders and accepting the reality of current geography. Able men in the German foreign office, such as Herbert Von Kessel, who believe this is a primary requisite are now

Tough jobs demand

A 4-Wheel-Drive Universal 'Jeep' takes you to the job, wherever it is - on the road or off! This rugged performer carries men and equipment over the highway in conventional 2-wheel drive. Then, when work calls for travel off the road-through mud, sand or snow, up hill or down-you shift a single lever for the extra traction of 4-wheel drive. With power takeoff, or hydraulic lift, the Universal 'Jeep' does an almost endless variety of jobs. To find out what it can do for you, ask for a demonstration.

In lift, the 4-wheel way, screpers, post and the features that made the 'Jeep' famous.

PACE TO FACE WITH THE PRESENT AND WITH FOND REMEMBRANCE OF THE PAST —

Time and the "CHANCES OF FORTUNE" change many things, as we all know,
During the years that we have lived in Sanford, two years of this having been devoted
to retail selling, we have enjoyed the friendship and pairwage of many past and present
residents of Seminola County, Therefore, it is
with deep regret that we now find it IMPERATIVE to sell out all of our stock, as well as
fixtures, "Lock, Stock and Barrel", and GO
OUT OF BUSINESS FOREVER.

Consequently, in space to accomplish this

Consequently, in order to accomplish this in the shortest possible time, we must out prices and sell the inventory FOR WHAT IF WILL BRING.

Come to our GOING OUT OF BUSINESS SALE in confidence. We will volume every one of you. Signed: MR. & MRS. HOWARD ROLLINS

Science Finds Clues To Noah's Flood

UNITED NATIONS, N. Y. (UPI) — A Columbia University scientist offered evidence today which he believes will support the story of the great flood described in the Holy Bible.

According to the Bible, the great flood which Noah survived by building the ark was caused by torrestial rains which lasted 40 days and 40 nights.

Dr. Rhodes W. Fairbridge said his worldwide study of sea fessils over a 16-year-period and evidence fur-mished by other scientists show that coastal areas in many lands were suddenly covered by vast expanses of

Fairbridge fixed the date at about 4,000 B.C. This is about the time that the floods mentioned in the Bible, Buddhist writing and other chronicles took place. He did this by charting the rise and fall of sea levels caused by ice ages and the shifting of ocean beds.

Fairbridge discovered fossils that he was able to connect with particular times in history and determine when see levels swelled and receded. He collected some

of them while akindiving off western Australia.

"The see level reached its highest peak about 6,000 years ago," he said in an interview with United Press International during the International Conference at the United Nations.

"The water rose gradually, inch by inch through the centuries. Suddenly it covered the coastine and moved inland," rising about 300 feet above had. Fairbridge said the great flood was a unimposed because man was unaware of the power of the elemen

and unable to protect himself. "The flood played a great part in making men more intelligent," Fairbridge said. "He had to think or go under water. And in later years men in other areas had to find means of covering himself or also freeze to
