"Sink one of our boats?" says Knudstadt. "One of those big whales could crush the side, even a 130-footer, but they never have." However, the thrashing whales sometimes tear away the propellor.

Knudstadt exploded the popular belief that in ambergris there is a fortune.

"One time, a five pound piece of it was worth a half million (Norwegian) crowns," he said. A trown is worth 20 cents. "But they've developed synthetics for perfumes, now. It isn't worth much today."

The Anglo Norse brought back 100 pounds of ambergris.

WHEN you buy a Tropical sult—you buy it for coolness. But don't be satisfied with only that. Look at a Genuine NORTH-COOL and learn that coolness is only the beginning of your pleasure. In style, in tailoring, in beauty of patterns and colors—NORTHCOOL reflects the skill, the practical thinking of clothing experts. As a result, NORTHCOOL is as much desired for its distinction as for the coolness and comfort that the wrinkle-resistant fabric assures. Think this over and you'll agree:—when you buy the Genuine—you buy the best. That means buy NORTHCOOL

But the surplus is jet only two thirds as large as President Truman predicts it will be when this fiscal year ends June 30. Chief reason for the big surplus is the record flow of tax collections.

These reach a climax at midnight tonight, the deadline for 55,-000,000 taxpayers to file final 1947 tax returns. It also is the deadline for several million of these taxparers to pay the first installment on 1948 income tax.

Also responsible for the heavy surplus is a decrease in govern-ment spending from last fiscal year, which ended with an excess of \$754,000,000.

The record surplus figure for a full fiscal year is about \$1,155,000,-000. It was set 21 years ago in the Coolidge administration. For the current fiscal year,
