

NEW COMMITTEE APPOINTED WILL FORCE THE ISSUE ON THE NAVY AGREEMENT

Former Board of Experts Discontinued in Favor of New One

"COMMITTEE OF 15"

INCLUDING PLENARY DELEGATES AND CIVIL AND NAVAL EXPERTS

WASHINGTON, Dec. 13.—New machinery to expedite final action on naval limitation agreements was set up yesterday by the arms conference.

Meanwhile, it became known that the Japanese delegation had received instructions from Tokio regarding the "5-5-3" ratio.

The "committee of fifteen" was described by a British spokesman as a means to "short circuit" delays unavoidable in the previous division of labor between committees of delegates and separate committees of naval experts.

There were indications, however, that the new step was based upon an informal communication from the Japanese delegation that Japan stood ready to accept the "5-5-3" ratio subject to certain modifications in detail of the American proposal.

The new step throws into prominence for the first time in the conference the question of the French and Italian place in the naval ratio.

That must be worked out by the "committee of fifteen" spokesmen or Italy said she is in naval straits and Italy said she was willing to stop where she is in naval strength, provided she was allowed equality with France in ratio.

DEMOCRATS ARE ASSAILED OVER ADMINISTRATION

SENATOR MOSES WANTS SOUTH TO HAVE LESS REPRESENTATION

WASHINGTON, Dec. 13.—The Democratic administration's conduct of national affairs during the war period was assailed by Senator Moses, Republican, New Hampshire, during the course of a speech yesterday in the senate in connection with the contest over the seating of Truman H. Newberry as senator from Michigan.

During his speech Senator Moses referred to representation of Southern states in congress as being based upon "abridged suffrage" and the race question was immediately opened.

Replying to demands by Mr. Moses that these states "pay the constitutional penalty" with a reduced representation, Senator Heflin, Democrat, Alabama, warned him that "some time the South is going to let you Northerners have things the way you want it, if you don't stop meddling in that problem."

Mr. Moses predicted that the Democrats would not carry a national election "in a thousand years when the South's representation is properly apportioned."

COMPROMISE IS COMPLETE OVER ISLAND OF YAP

JAPAN RETAINS ADMINISTRATIVE CONTROL WHILE U. S. SECURES CABLE RIGHTS

WASHINGTON, Dec. 13.—The American and Japanese governments have compromised their differences over the Pacific island of Yap and are preparing to sign a treaty by which Japan retains administrative control over the island and the United States secures the cable and wireless privileges therefor which she had contended since the Paris conference.

In the same treaty, Japan's league of nations mandate over Yap and all the other northern Pacific islands formerly under German sovereignty is given recognition by the United States on certain stipulated conditions. These conditions include provision for free admission of missionaries and protection of Americans in the mandated territory and request that Japan shall report to the United States as well as to the league on details of her administration of the mandate.

The Yap cable and wireless rights, regarded as highly important because of the island's advantageous position in the center of the Pacific group to the south of Japan, are accorded by the treaty to the American and Japanese governments and nationals alike on terms of absolute equality. In the exercise of these rights American nationals are to be free from taxes, license, censorship and every form of discriminatory supervision, and in addition are to be aided by the Japanese government in securing the needed property and facilities.

Opening of Long Fight on The Treaty of Versailles

MILITANT SENATORS

BORAH, REPUBLICAN, AND REED, DEMOCRAT, LAUNCH THE INITIAL ATTACK

WASHINGTON, Dec. 13.—The senate got its first taste yesterday of the fight promised by several senators on the new four power Pacific treaty. The pact was both denounced and defended in the course of discussion.

As at the opening of the long fight on the Treaty of Versailles and its league of nations covenant, practically all of the new quadruple treaty was read into the congressional record in advance of formal submission. The attack today came from two "irreconcilables" in the Versailles covenant controversy, Senator Borah, Republican, Idaho, and Reed, Democrat, Missouri. Breaking the silence he had maintained since the treaty was laid before the world, Mr. Borah spoke more than an hour devoting his attention to Article Two of the new treaty which he compared to Article Ten of the Versailles covenant. He declared that the treaty compelled the armament conference to make "real disarmament" an actuality or make the treaty a "straight out military alliance."

WASHINGTON, Dec. 13.—Declaring the new four power Pacific treaty had "all the iniquities of the League of nations with none of the virtues claimed for that document," Senator LaFollette today announced in a formal statement he would do all in his power to prevent ratification.

Merchants of Sanford should can every advertising scheme that comes to town with the intention of taking the money out of the town and leaving nothing in return.

MUNICIPAL OWNERSHIP

Orlando can usually be depended upon to do the right thing at the right time and while they have labored down there for many years to get rid of the big expense trying out various ideas on the subject they have now decided to buy the plants or build new ones but THEY HAVE DECIDED.

FINISH THE JOB

The City Commissioners have condemned certain buildings and made the owners tear them down. This was a move in the right direction but there are at least four more buildings on the principal corners of the city that are more of an eye sore than either of the buildings torn down.

his headquarters the Herald will act as a medium through which the little ones can make their wants known and the Sanford merchants will transmit the message to the jolly old fellow who will get the gifts that are needed.

RECIPROCITY—THOU ART A JEWEL

The Herald is continually harping about patronizing home merchants. We believe in it and practice what we preach. We feel that people have a perfect right to spend their money where they please—provided, however they are not in business in Sanford and depending upon Sanford for a living.

The following from Lakeland Star demonstrates the truth of this:

The latest "earn your winter's trip to Florida idea" is one that is deserving of special mention. A trio, composed of two young women and an elderly gent (the gent remaining in the background intend supplying blotters for the desks at the post-office free of cost that is without cost to the government.

LAND PIRATES OF FLORIDA

Colliers and other northern magazines have taken so many shots at Florida and vented their spleen so many times that the Herald has caused to pay any attention to the articles derogatory to Florida. This state has taken such a remarkable start in growth in the past ten years in spite of all that Colliers could do that we can afford to laugh at the ill concealed attempts of this magazine to be little the state that has done so much of all of these two by four writers when they come among us as guests.

The last number contains an article titled "Land of Pirates Too," which purports to be a personal relation by one of the pirates of the slick schemes by which he separated confiding suckers from their cash. If the article is what it claims to be, the author writes himself down as an arrant scoundrel at the start, whose proper place is in the penitentiary.

The scene of course is laid in Florida, for that has been the stamping ground for that kind of gentry, ever since its natural advantages of soil attracted attention to the state. Those have furnished a fine foundation about which to weave their vagaries, and we are obliged to confess that we have been afflicted in times past with a few of the "pirates" of the kind which the writer in Collier's admits himself to be. They were not invited to come; they forced themselves upon us, but they did not stay long.

But this is a tale of the past. The state has been well cleared of the delinquent romancers who cursed in its early days, and the real ones who are operating here now go up for honor and

probably with those of any state in the Union. They are not fly-by-nights but permanent residents who live, and they know they can not be promoted by falsehood and trickery. Their reliability is shown by the fact that their offerings are being taken by our own people, who know what they are doing and appreciate the possibilities of Florida investments.

BUSINESS DEPENDS UPON CIRCULATION OF MONEY

"Cash has kept around the house is dead money," says Wallace's Farmer and the truth of this statement is early recognized when one pauses to study the financial system which controls many of the other systems under which we live.

The bible says money is the root of all evil. Innumerable arguments have been caused by this statement, but a sensible minded person has ever questioned the assertion money is not in action is deadweight. This does not mean one is complicating things by saving money or by spending it economically, yet it is possible to save money or to spend money economically and at the same time stimulate the general financial system.

Cash deposited in the bank is live money. A dollar of cash deposited in the bank serves as a source of from \$5 to \$10 of credit. The man who keeps \$1,000 around the house is, in effect, preventing five to ten other men from borrowing 1,000 each from the bank.

Never keep more than \$50.00 in cash around the house, and if you can get along with as little as \$10, by all means do so. If you have large quantities of money on hand there is always danger of losing it by robbery and fire.

Colliers and other northern magazines have taken so many shots at Florida and vented their spleen so many times that the Herald has caused to pay any attention to the articles derogatory to Florida. This state has taken such a remarkable start in growth in the past ten years in spite of all that Colliers could do that we can afford to laugh at the ill concealed attempts of this magazine to be little the state that has done so much of all of these two by four writers when they come among us as guests.

The argument issued throughout. Even if a man received no interests on his money he would tide the general condition by depositing it in a bank or in some other medium of legitimate financial transactions, and by so doing would not injure himself in the slightest. On the other hand he would benefit for mediums of legitimate financial transactions pay interest, afford protection and encourage general profits to the individual.

Have You Ever Heard of a Christmas Joy-Box?

A CHRISTMAS JOY BOX can be the size of a half-pound candy box, or it may be as large as the largest wooden Dry Goods Box you ever saw. The size depends on what YOU are WILLING to put INTO it. Each JOY-BOX should have some candy, nuts, cookies, fruit and other goodies—a Christmas toy or two—a doll if it is for a girl—or a jack knife or top or baseball if it is for a boy—a new ribbon or two, handkerchief, stockings or a new tie, etc., if for a boy, and a little money for the boy or girl to spend as THEY may choose.

ing, of every kind, shape and size, hats, caps, shoes, sweaters, underwear, stockings, ribbons, ties, handkerchiefs, etc., any quantity of jellies, preserves, syrup, honey, meats, staple groceries, chickens, fruits, vegetables, nuts, etc. We can use ANYTHING that children from tiny wee babies on up—can EAT, WEAR or ENJOY. All JOY-BOXES, big or small, should be sent to our Children's Homes either at 1944 Riverside Avenue, Jacksonville, or to our West Florida Branch Home at Seventh Ave. and Jordan Streets, Pensacola.

Just stop and THINK of how good it would make YOU feel to get such a JOY-BOX for Christmas—and then just IMAGINE how happy one of our poor little homeless kiddies would feel.

In addition to Joy-Boxes we have OTHER GREAT NEEDS. They are equally important. One is more good FAMILY HOMES for our homeless children—the other is MORE MONEY to keep our great work going. WE PLEAD EARNESTLY for BOTH.

Won't YOU make YOUR OWN Christmas Happy—by sending us a check or money order RIGHT NOW before you forget, or take one of our HOMELESS youngsters in and give it a good home, or send us or get up a CHRISTMAS JOY-BOX or a BARREL for our Big Family of little unfortunates—PLEASE DO.
