This is the knock in your motor

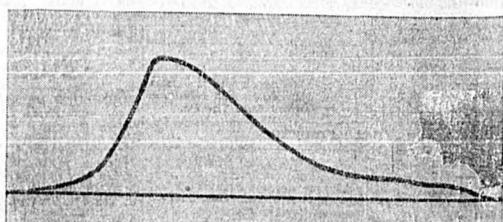

THIS PHOTOGRAPH shows what Loccurs in the engine cylinder as carbon forms, when you operate your car on ordinary gasoline. The bumps in the line show what the "knock" looks like:

The "k.oc bhu both ear and engine. It slows up engine revolutions; cuts down power and pick up; increases vibration and engine wear and tear; and entails the trouble and expense of carbon removal.

From a photograph by General Motors Research Laboratories

And this is how ETHYL' knocks it out

THIS PHOTOGRAPH shows what goes on in the same cylinder under the same conditions when operated with Crown Ethyl Gasoline. Note the absence of "knock-bumps." The "ETHYL" fluid has neutralized the heating qualities of the carbon deposits and has turned the increased pressure into additional power.

From a photograph by General Motors Research Laboratories

Crown Ethyl Gasoline is the most efficient "anti-knock" fuel yet discovered. It produces more power on hills and heavy roads. Speeds up acceleration. Eases handling

in traffic. Reduces gear-shifting.

Crown Ethyl Gasoline is available at pumps which display the emblem shown below. Fill your tank today. Only 3c a gallon more.

"OUR EIGHT PER CENT PROFIT SHARING STOCK IS NO SELLING"

Marketability is one of the three most important things to consider when you invest. It is merely another way of saying, 'Is it easy to sell?' It is a vital question to bring up.

Never invest a cent of your money until you have a satisfactory answer to this question. Preferred Stockholders of Florida Power & Light Company know the Company has made excellent provisions for such an emergency. If you ever want cash for your stock you can

get it in two ways: take the stock to your bank and get a loan on it or bring it to any office of the Company and take advantage of our Resale Department which is maintained to assist and advise local stockholders who may wish to sell their shares.

Safety-a Good Return-Marketability-arcthethree cardinal requirements of a wise investment. You obtain all three when you buy shares of Florida Power & Light Co. \$7 Preferred Stock.

Tree Planting

The problem of reforestation, which fifteen years ago 50 hours. This is in preparation was most acute, is gradually being relieved. More and more for a flight from New York to God, for the promise that Thou the people of this country are coming to the realization that, remove our transgressions if old trees are cut down, new ones must be planted if our land would escape becoming a desolate waste of mountain, valley, and plain, a few generations hence.

According to a statement issued by the Conservation channel. Department's nursery at Saratoga, over three million trees. In years to come airships above have already been shipped to persons in New York who intend storms and clouds, about eight to plant this Spring. This is said to indicate the largest Spring planting season in any state in the Union since the in smaller planes. reforestation movement began.

"There are already on file in the offices of the Conservation Department," the statement continues, "orders for 15,-450,000 trees to be planted this Spring by individuals and ually they will take wireless power municipalities and orders are pouring in at the rate of nearly ly fig. half a million a week. The department is receiving many inquiries from prospective planters who want to know whether it still is possible to obtain trees for Spring planting and how late such orders can be filled."

It is estimated by the department that tree planting this tury. An important milestone Spring by municipalities, clubs and individuals, will exceed Monday's decision by the United any prevous year by several million trees and that a total of States supreme court, sustaining approximately seventeen million young trees will be planted an injunction of stone-cutters and declaring unions subject to the

This is indeed encouraging, although it is difficult for most of us to conceive of the barrenness of a country utterly devoid of forests. We in Florida are so blest with a Holmes dissented, nevertheless wealth of tropical growth, which includes everything from now be enjoyed. It is safe to predict the little scrub palmetto to the stately Royal Palms and that in their case the Sherman act giant oaks, that we seldom give a thought to the problem of will prove efficient. reforestation and even sometimes in careless disregard for the future cut down trees in a few minutes which have taken their mind in court, even in the Nature centuries to build.

Every time we find it necessary to destroy a single tree, we should be morally, if not legally, bound to plant two in its

IT SHOULD NOT be necessary to arrest people in order to preserve the beautiful flowers that grow on the roadside. > WM. G. McADOO and Al E. Smith must be wiped off the slate, for the present at least. If they are not, the democratic party will be in 1928, so far as practical purposes are concerned. It is a distressing state of affairs. Still it is, as Senator Caraway said in regard to the other thing, "wiser that the truth be known now than let a false impression gain headway, only to be found without foundation later." The sooner these two gentlemen are put aside and the hubbub about them ceased the better it will be. If the democratic party is to be considered McAdoo and Smith cannot be. That out any engine from a mountain is all there is to the situation as it at present exists.—Tampa peak in Bavaria, 2,000 feet high.

Championship Fight May Be Staged This Summer In WindyCity

CHICAGO, Apr. 14—(INS)— Chicago as the site for a world's a syweight championship fight this summer loomed today follow-ing a conference here between Billy Gibson, manager of Gene Tunney, and promoter Jim Mul-len. Gibson stopped off here on his way to Cleveland.

After assuring Gibson it would be possible to finance the affair in Chicago, either at Soldiers' Field or in one of the baseball parks, Mullen was told to go ahead and "sign up the best opponent in the heavyweight division."

Gibson said the recent ruling of

Gibson said the recent ruling of the New York Commission which with Tex Richard, makes the cham plon a free agent. After the conference with Mullen, Gibson said:

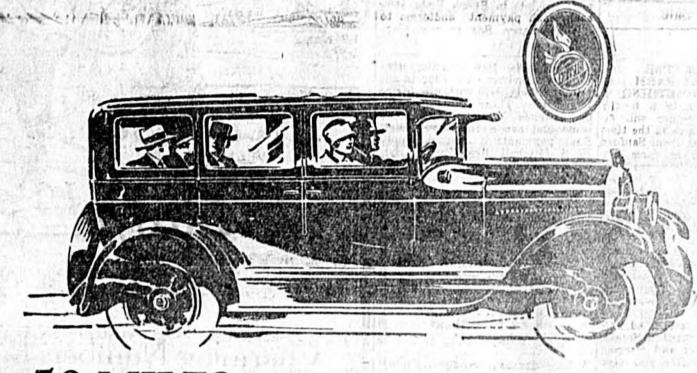

"A heavyweight championship bout for Chicago would be a big boost for boxing in the middlewest I am sure Tunney will agree to defend his title any place where his price is met."

50 MILES and more per bour 5 to 25 MILES in 8 seconds 25 MILES to the gallon

In the Chrysler "50", Walter P. Chrysler and his corps of engineers, studying the field of fine and low-priced six-cylinder cars, strove to produce a four-cylinder car which would unmistakably advertise its greater value by its greater performance, greater sturdiness and greater long life.

In its 50-miles-plus per hour, 5 to 25 miles in 8 seconds, 25 miles to the gallon, they gave the public something immediate, something convincing, something final and conclusive with which to measure Chrysler "50" against and above anything around its class either in six or four cylinders.

Chrysler "50" has been overwhelmingly accepted by the public for what it was designed and built to be -the giant of its class in Standardized Quality, out-standing performance, full family size, complete appointment and every essential that makes for outstanding and indisputable value.

Coupe, \$750; Coach, \$780; Roadster, (with rumble seat), \$795; Sedre, \$830; Landau Scalan, \$885. All prices f. v. b. Detroit, subject to current Federal excise tax.

All Chrysler Cars are protected against theft under the Fedco System.

All Chrysler dealers are in a position to extend the convenience of time payments. Ash about Chrysler's attractive plan.
