Cheklang Governor Asks Zanni to Postpone Flight to Shanghai; Gen. Chang's Army Captures Choyang

SHANGHAI, Sept. 23.—The flight of Major Pedro Zanni, Argentine world flier, to Shanghai from Hong Kong where he arrived yesterday, has been postponed as a result of a communication from General Lu Yung Hsiang, Chek-lung governor, urging postponement because of the war.

TOKIO, Sept. 23.—General Chang Tso Lin's army captured Choyang, town in northern Chihli province, this morning, according to a dispatch from Mukden.

SHANGHAI, Sept. 23.—Fifteen hundred reinforcements for the Chekling troops defending Shanghai from the aggressive Kiangsu army were sent under cover of darkness Sunday night and Monday morning into the front lines during the night time lull in the fighting.

With the men who were sent particularly to positions in the "rail way sector"—Kiating to Hwangtu to Tsingpu—to strengthen the lines most attacked, went a number of machine guns, mountain guns and field pieces.

Reliable reports received from the south Monday morning declared the Lung Hsiang commander of the defense armies, who has declared he will capture Nanking before he voluntarily gives up the fight, has 10,000 reserves ready for action along the Shanghai-Hangchow railway between Sunkiang and Kashing.

The reserves are supplied with trains to move them on short notice should it prove necessary to use them to prevent possible drive to the south with Tsingpu, or to block a sudden shift on any of the fighting fronts.

The cruiser Huankow, principal vessel of the group which departed the Chekling coast earlier, returned to the Wangpuo, (Shanghai harbor) late last night. It was reported that the crew of the cruiser refused to join the enemy fleet at Nanking, and forced the ship's officers to return to Shanghai.

U. S. Marines Ready.
SAN DIEGO, Cal., Sept. 23.—The fourth contingent of marines bound here is being held in readiness for duty in China, it was announced Monday.

Gen. Lu's Statement.
SHANGHAI, Sept. 23.—Reiteration of his determination to prosecute the present civil war until he wins or is decisively defeated was expressed in a statement issued by Lu Yung Hsiang, commander of the Chekling army, this morning at Lungsha tonight.

General Lu declared, "I will either be in Nanking (the provincial capital of his opponent, Chi Eihob Yuan) or I will be eliminated."

"I trust fully in the loyalty of all the forces west of Shanghai (where the principal fighting is going on) and I do not doubt that we will hold every position although outnumbered five to one."

Except for an occasional shot, firing had ceased on the fronts near the city tonight. The foreign settlement was quiet, the firing a few days ago when it appeared the enemy would advance on the city, having passed.

Forecast is Made of
Cotton Crop for 1924
WASHINGTON, Sept. 23.—The cotton crop was forecast today at 12,596,000 equivalent to 600 pound bales by the Department of Agriculture. Of this crop 2,262,000 running bales counting round as half bales had been ginned prior to Sept. 16, it was reported. The condition on Sept. 16 of the crop in Florida was 72 per cent normal and forecast in thousands of bales was 23.

Increased Telephone
Rates Go Into Effect
SARASOTA, Sept. 23.—Increased telephone rates recently granted the Peñinsular Telephone Company will go into effect here on October 1. Announcement of the increased rates follows the hearing held on Aug. 21 by the state railroad commission at which there was no opposition to the request of the telephone company for the revised schedules. Under the new rates single line business telephones will cost \$4.50 a month, single line residence telephones \$3.00.

GERMANY MAY ENTER LEAGUE EQUAL FOOTING

Disarmament Conference Is Assured If Three or Four Great Powers and 10 Others Ratify Pact, Public Today

World Conference To Cut Armaments

United States To Be Invited To Participate in Meeting Which Opens in Geneva.

BERLIN, Sept. 23.—Germany will in the near future make efforts to enter the League of Nations on an equal footing with the great powers, it was officially announced today in a communique issued at the close of the cabinet meeting.

If three or four of the great powers—Great Britain, France, Italy, Japan—which have permanent seats on the council of the league of nations, and 10 other state members of the league ratify the protocol which was made public Monday, there will open at Geneva on June 16, 1925, a great international conference for the reduction of armaments.

The United States, like Germany, Russia, and other non-members of the league, has been invited to participate in the conference, the program which will be prepared under the direction of the league of nations council.

The long awaited protocol draft was presented officially Monday to the commission on disarmament, by the "big twelve" composing the sub-committee and speeches were made by Dr. Edouard Benes of Czechoslovakia, Arthur Henderson, England; Siemon Schaner, Italy; M. de Lorain, France; and M. Poincaré, Belgium.

The newest draft was presented under impressive circumstances, all the delegates sitting silently in their places and were aware of taking part in a historic meeting destined perhaps to direct the world definitely into the paths of peace. The elements did their best to record the hour, for a violent thunderstorm broke over the city.

The protocol provides a plan of arbitration for disputes of whatever nature; it also provides security for countries like France and Belgium by authorizing regional accords, stipulating that they must be open covenants and quite definitely arranged for a conference for the reduction of armaments.

Two Prominent Clauses.
From the standpoint of interest for Americans, two clauses stand out prominently. One permits states non-members of the league to adhere to the protocol of arbitration and security. This clause serves as a corollary to Article 17 of the covenant, whereby non-member states are permitted temporarily to assume the obligations of members in the league in case of dispute with league members and submit their case to inquiry by the council. The protocol clause provides that non-member states can accept the protocol "so as to assure a specific solution of conflicts with signatories of the protocol."

Rotarians Endorse
Safety Week Plan
Of Kiwanis Club

At its luncheon this noon the Rotary Club went on record as being in favor of Safety Week and expressing willingness to co-operate in making it a success. This action followed a talk by T. L. Dumas, president of the local Kiwanis Club—the organization sponsoring the movement, who said that an especial effort is being made this week to minimize the number of traffic accidents occurring here.

William Glenn, editor of the Orlando Sentinel, was a visitor and gave a short talk on a recent trip abroad at which time he visited the various Rotary Clubs of Europe. Among the clubs visited were those at London, Paris and Madrid. Mr. Glenn's talk was much enjoyed as was shown from the applause accorded him.

Walter Rhodes of Orlando also made a short talk on the possibilities of Sanford and Orlando. He brought out the fact that the two cities have unlimited natural resources which, when developed, will mean a great deal to the entire state. Other visitors were Bruce Floyd and Colte Hill of Orlando.

Today's luncheon was the first held in the new club room over the Seminole Cafe. Many members of the organization have expressed pleasure with the privacy of the room and state that they like it much better than public places for the holding of their luncheons.

Members present at the luncheon were: George W. Brockhahn, H. C. DuBose, R. J. Holly, M. C. Haddock, E. F. Housholder, W. M. Haynes, Edward Higgins, C. E. Henry, George W. Knight, A. R. Kay, H. Lewis, Frank MacNeill, Dr. S. Puleston, H. R. Stevens, Dr. R. E. Stevens, S. O. Shinkholer, B. J. Starling, D. L. Thraasher, F. S. Verney, and A. E. Yowell.

WORLD FLIERS BACK AGAIN AT SANTA MONICA

Two Hundred Thousand Folks Are to Attend Ceremonies at Clover Field at 2 o'clock

SANTA MONICA, Cal., Sept. 23.—The city was groomed today for the return of the globe-circling aviators who on last St. Patrick's Day set out on a round-the-world flight from Clover Field, where they are to land at 2 o'clock this afternoon, in converted into a bed of roses garden.

America's round-the-world fliers returned Monday to Rockwell Field, San Diego, from which they took off last March to start on their globe-encircling trip.

As if to give good measure to an achievement already heralded far and wide, the fliers got in ahead of the announced schedule, departing part of a large crowd which was assembled to cheer them.

The announced plan is for the fliers to resume Tuesday their trip towards Seattle, the official starting point of the flight. They expected to leave for Santa Monica about noon.

At 10:34 a. m. Lieut. Lowell Smith, commander of the squadron, dropped the wheels of his aircraft on the ground of his air field at Rockwell, and Lieut. Erik Nelson, the wingman of Lieut. Smith on the entire world voyage, brought his ship to the field at 10:34:51, followed by Lieut. Leigh Wade at 10:35 o'clock.

Smith's Mother Greets Him.
Amid the crash of a band, the cheers of spectators and the roar of the propellers as Lieut. Smith taxied to a standstill, came a cry from the lips of Mrs. Jasper Smith, mother of the war flight commander, "I want my boy."

Florida Automobile Association To Campaign In Sanford For Members

It was announced here today that the Florida Automobile Association, which is affiliated with the American Automobile Association, is preparing for a membership campaign in this city which will be directed by Secretary Jack Hughes of the organization whose headquarters are in Orlando.

Mr. Walter Wight, who is to work with the association in the campaign stated this morning that no membership work had yet been done. Within the next few days, he said, as many members as possible will be secured in this city.

The association, it is said, will protect its members against automobile theft and the improper or illegal disposition of cars; it is working for universal good roads throughout the entire United States; it will help to widely advertise, through various channels, Sanford and Florida cities where clubs have been formed; and it will advocate and work for proper sign posting.

MRS. SWEETIN IS IMPLICATED WITH MINISTER IN PLOT

The Two Poison Their Better Halves in Order to Get Married; Her Confession Comes After Minister's Confession

MOUNT VERNON, Ill., Sept. 23.—After all night vigil Mrs. Elsie Sweetin confessed this morning that she was implicated with Rev. Lawrence M. Hight in the plot to poison her husband and the minister could be married, thus confirming the confession made by Hight yesterday.

Arrested yesterday evening at her Ina home she steadfastly denied any part in the plot but broke down this morning after being closeted in a cell with a minister, state's attorney and newspaper men.

With the arrest Monday night of Mrs. Elsie Sweetin, of Ina, twelve miles south of here, and an admission by the Rev. Lawrence M. Hight, minister of Ina, that he had poisoned his wife and had bought the poison that had been administered to Wilford Sweetin, late husband of the arrested woman, State Attorney Thompson tonight was making every effort to connect the two deaths. The Rev. Hight, in jail here since last Friday, confessed today the state attorney announced that Hight had administered the poison to his wife and that it was he who had purchased the poison to be administered to Sweetin. It remains unsolved who gave Sweetin the poison that was found in his stomach by a chemist after the examination of the body on the day the clergyman was taken into custody.

At 11 o'clock this morning the minister's confession came early this morning after an all night vigil in the sheriff's office where the prisoner was questioned regarding the murder of favored parsonage of the minister's dead wife, it is believed to have prompted Hight to deviate from his other wise stoical attitude and to "make a clean breast of it."

In telling of the circumstances of his wife's death, the state attorney announced the clergyman admitted that he had given her poison so that he could marry Mrs. Sweetin. In his early confession, however, the state's attorney said, the prisoner had asserted he had administered the poison to relieve his wife of her pain.

It also had admitted, the state's attorney said, that he had given the poison to Sweetin in a glass of water.

This part of the confession however, was repudiated later in the afternoon. It was then the minister admitted that he had taken requests for expression concerning the Hill case.

"The prohibition unit," it stated, "has at all times kept in close touch with the activities of Representative John Philip Hill in the manufacture of wine and cider in his home. Samples of both were taken and tested and analyzed at the time of their manufacture and deposited with the department of justice."

Party Not Molested.
The party, which was attended by about 1,000 guests, was not molested and Monday's statement was the first indication that action was contemplated. It was, issued, he said, "in reply to numerous requests for expression concerning the Hill case."

Davis Talks Politics
To McAdoo at Lunch
NEW YORK, Sept. 23.—John W. Davis and William G. McAdoo are to discuss politics at luncheon today in a conference to be held at the Democratic headquarters here. El route back to his California home McAdoo is expected to make half a dozen addresses in behalf of Davis' campaign.

Gadner Mimiard Is Found Guilty Of Possession Liquor
At Monday morning's session of municipal court, Gadner Mimiard was charged with possession of intoxicating liquor, found guilty and fined \$200 and costs by the court or in default of payment of this sum to serve 60 days on the city streets.

Thirteen additional cases were arraigned, six of which were for speeding. The \$50 bond of Bram Bryant, charged with carrying concealed weapons, was forfeited because of his failure to appear in court. Fines, costs and estimated bonds totaled \$305.

The cases so arraigned were: Hugh Bruton, speeding, continued to Wednesday; W. B. Swagaby, speeding, \$3 and costs or 10 days in jail; Joseph Garcia, operation of car on rim, \$5 bond estimated; Elijah W. W. abscondedly conduct, fined \$5 and costs or 10 days in jail, but sentence was suspended; Joe Rivers, gambling, \$5 and costs or 10 days in jail; Fred Davis, disorderly conduct, continued to Wednesday; Earl Powell, speeding and reckless driving, \$3 and costs or 10 days in jail; Dan Hanesel, speeding, continued to Wednesday; Gadner Mimiard, possession of intoxicating liquor, \$200 and costs or 60 days in jail; Will Hill, drunkenness and interfering with an officer, \$5 and costs or 10 days in jail; Fernand Westor, speeding, \$5 bond estimated; John Worthing, drunkenness, \$5 and costs or 10 days in jail; Drum Bryant, carrying concealed weapon, \$50 bond estimated; Robert A. Cameron, speeding, \$3 and costs or 10 days in jail.

CITY COMMISSION LET'S MUNICIPAL HALL CONTRACT

Is Awarded to Gerbrick Company of Jacksonville; May Begin Construction Within the Next Two Weeks

After consideration for a period of two weeks of the bid received for the erection of the new municipal building, the City Commission at its meeting Monday afternoon awarded the contract to the G. Gerbrick Company, of Jacksonville. The top bid of this company was \$54,410, the first alternate \$1,100, the second alternate \$650.

After the bids were opened at the meeting of the commissioners two weeks ago, they were referred to City Architect Elton J. Moughlin, City Engineer Fred T. Williams, and City Manager W. B. Williams, to be considered as to the reliability of the company making the bid, the sum of the contract and whatever else they might see fit to consider in regard to awarding the contract. At yesterday's meeting the committee recommended that the Gerbrick bid be accepted.

Upon being asked when construction of the building will begin, the city engineer stated that the contractors are anxious to begin work at once and that ground may be broken within the next two weeks. The company's business is rather slow just now, said Mr. Williams, and for this reason it is expected that construction will be rushed.

The building, as pointed out by Mr. Moughlin, will have handsome appearance from all four sides. Especially, he said, will it be attractive to the people coming in on the boats and to the people seeing it from Park Avenue. It is said that the city owns the entire block from Fulton Street north to the lake and from Park Avenue west to the tracks of the Atlantic Coast Line Railroad. This, it is pointed out, gives adequate room for both the city hall and the new jail building and leaves space for an attractive park on either side.

The municipal hall will be finished in two weeks. Plans of a Spanish architectural design, according to the plans, it is planned to have all of the city offices and an auditorium with a seating capacity of 1,000 in the building. The jail building, stated Mr. Moughlin, will harmonize with the city hall. It will include the municipal court, he said.

Final resolutions for the paving of a number of streets were approved by the commission. They were as follows:

Tenth Street, Myrtle Avenue west to French Avenue, a width of 24 feet; Third Street from Mill Creek west to Pecan Avenue, a width of 24 feet instead of 16 feet; Sixth Street from Palmetto Avenue east to Cypress Avenue; Union Avenue from Pump Branch east of Lake View Avenue, widening to a width of 26 feet; Sixth Street from Magnolia to Palmetto Avenue to a width of 24 feet instead of nine feet.

Acting as the Equalizing Board the City Commission gave final approval of the following paving:

Park Ave from Hughly Street to Franklin street, a width of 24 feet; Holly Avenue from Ninth Street to Goldsboro Street, surface treatment, a width of 24 feet; Central Street from Park Avenue to French Avenue, widening to 24 feet; Poplar Avenue from 23rd Street to 24th Street.

WORD RECEIVED RATE INCREASE IS WITHDRAWN

New Freight Tariff That Was Brought Would Base All Through Rates on Combination to Jacksonville

ORLANDO, Sept. 22.—Shippers, growers and merchants throughout peninsula Florida were keenly interested and gratified to learn Thursday through J. Curtis Robinson, secretary of the Growers' and Shippers' League of the City, that the transcontinental carriers of the country had filed a application with the Interstate Commerce Commission, withdrawing the proposed new freight tariffs, which sought to base all through rates to and from Florida points on the Jacksonville combination, and which called for a range of percentage increases over present rates of from 12 and three-tenths to 20 and nine-tenths.

The news of the withdrawal was received here while Mr. Robinson, of the Growers' and Shippers' League and E. D. Dow, of the Florida Citrus Exchange, were in conference at Jacksonville on Wednesday with Senator Calhoun, counsel for the Florida Railroad Commission, and J. H. Tench, rate expert for the Commission, where they were considering evidence to be presented to the Interstate Commerce Commission, showing why the proposed tariffs, basing rates to and from Jacksonville, should be permanently withdrawn.

As an illustration of what the withdrawal will save the South Florida points on class rates from San Francisco, Los Angeles and other Pacific Coast points to Orlando, Mr. Robinson gave out the following figures:

Evidence All About Us "The evidence of this," he said, "is all about us in our wealth, our educational facilities, our charities, our religious institutions, and in the moral influence which we exert on the world. Most of all, it is apparent in the unexampled place which is held by the people who toil. Our inhabitants are especially free to promote their own welfare. They are unburdened by military. They are not called upon to support any imperialistic designs. Every mother can rest in the assurance that her children will find here a land of devotion, prosperity and peace.

"The tall shaft near which we are gathered and yonder stately memorial remind us that our standards of manhood are revealed in the adoration which we pay to Washington and Lincoln. They are unrivaled and unsurpassed. Above all else, they are Americans. The institutions of our country stand justified both in reason and in experience. I am aware that they will continue to be assailed. But I know they will continue to stand. We may perish, but they will endure. They are founded on the Rock of Ages."

DECOTTES SAYS UNITED STATES IS MOST LAWLESS

(Continued from Page 1) state prison farm. Many of them are liberated in six months' time. The pardon board has its place but there should be restrictions to prevent the promiscuous granting of pardons.

"Underpaid judiciary account in a large part for misdirected justice. Often the best men cannot be obtained because of the paltry income received for such service. "The fact that many judiciary are in politics is another factor in the lawlessness of this country. A step in the progress of the nation is to take the judiciary out of politics.

"Another cause is the laxity of the citizens in practically every community in serving as juryman. Those best qualified to serve are usually the ones who give excuses and reasons to escape giving any part of their time to the execution of justice. This necessitates that men of inferior intellect and many without any education serve in the capacity of juryman. It is the duty of the good American citizen to serve in such instances and not make excuses."

10,000 Murders Each Year

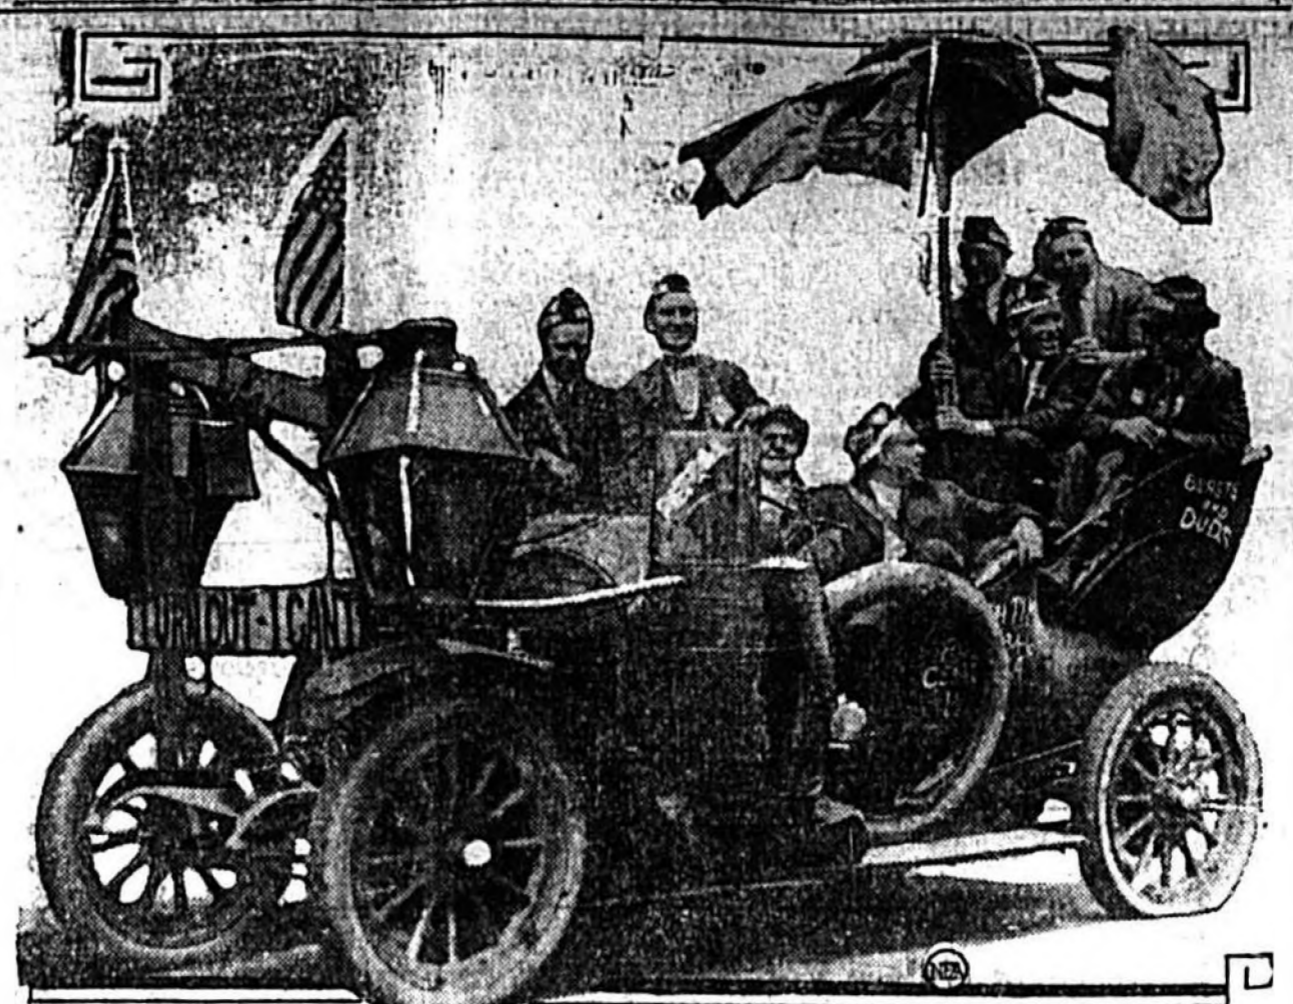

Mr. DeCottes further revealed that every year there are over 10,000 deaths in the United States due to criminal practice. There are 7.2 persons killed in the United States out of every 100,000 people while in Canada there is only one for the same number.

In England, he said, there are 4 murders in every 100,000 people; in Spain 3, in Holland 3, in Italy 3, and in Switzerland 2. There is no doubt, he stated, that conditions in the United States are rotten.

"Crime," Mr. DeCottes declared, "is mainly caused of lack of interest of parents in their children and the lack of interest of people in the welfare of the communities in which they live. Temptation is 10 fold what it was a few years ago and the people must adopt themselves to the changing conditions in such a way as to eliminate the criminal outrages going on at present."

He further stated that 90 per cent of the crime committed in this country is done by persons under 35 years of age, mostly boys. The death rate in the United States during the last 10 years due to assassinations and murders has more than doubled, he said.

"I found, moreover, that in the Middle West, contrary to the impression which prevails in some quarters, the people were deeply interested in the foreign policy of the government and entirely out of sympathy with the timid and evasive course which the present administration has pursued.

"They fully realize, moreover, that to accomplish any reform whatever, the legislative and executive branches of the government must be in complete and entire sympathy. The lack of leadership and coherence which the Republican party has exhibited has made a deep impression.

"Unquestionably the people of the West are in favor of disarmament and to any militaristic scheme. Nevertheless, they are resentful that our navy has been permitted to fall in strength in comparison with other powers—a fact to which I called attention in my speech at Cheyenne, Wyo., on the 12 of Sept. They regard the navy as the first line of defense and are determined to maintain it as such. I don't think they will be impressed with the belated interest shown in the recall of Secretary Wilbur from his speaking tour on the Pacific coast."

CITRUS MEN MEET IN TAMPA AT CONVENT

Talks and Discussions Report Fruit Growers He Made on All Important Packing, Marketing

TAMPA, Sept. 22.—A convention of sub-exchange and association managers of the Citrus Exchange will be held here, Sept. 30 to Oct. 3, announced at the monthly meeting of the Exchange board of directors Wednesday. Talks and discussions by expert fruit packers and marketing men will be made on all important packing and marketing change employes.

Resignation of E. P. Moore, of Homestead, as a member of the Florida Citrus Exchange, presented before his inability to attend the meeting in Tampa, was accepted by the board.

Announcement was made formation of the Charlotte Sub-Exchange, composed Arcadia and Nocatee associations and Hollingsworth and Brownville. Dozier has been chosen to head the organization. Florida Citrus Exchange directors, though because of the need of credentials were lacking, he was officially seated at a number of this meeting. Upon motion by vice president John A. Sively, the board on record as agreeing to act as a sub-exchange, on an advisory basis, until the Florida Citrus Exchange has been organized to operate on a non-profit basis, furnishing service to fruit marketing growers. Members at action among the directors on which the plan was decided. The plan for marketing was calculated to reduce the growers' losses on their fruit, at the least expense.

A report of the advertising committee, outlining projects contemplated for the coming year, was unanimously adopted in this program. The statement of a dealer's position under the supervision of advertising manager John Crisp. Approval was also given a proposition whereby the Citrus Exchange will distribute a new citrus extensor, which is expected to materially increase competition Florida fruit.

Miss Velma Shipp Leads as Third Week Ends

SECOND PERIOD IN THE HERALD'S BIG CAMPAIGN WILL CLOSE SATURDAY NIGHT

THIS IS AN IMPORTANT WEEK AND MAY BRING MANY CHANGES

Leaders in The Herald's big campaign are all counting on being in first position when next Saturday comes around.

All of them taking advantage of every opportunity which presents itself for getting new subscriptions and additional votes it will be interesting to watch developments between now and ten o'clock Saturday night when the second period ends.

Miss Velma Shipp held the honors at the end of the third week of the campaign but had a lead of only five thousand votes over Miss Naomi Fellows of second week fame. Miss Versa Woodcock isn't saying much but many are noticing the fact that she manages to make stupendous gains in her vote each week and it would not surprise her friends to see her jump in the lead at almost any time.

Confident she will eventually win out Miss Nell Williams, who led at the end of the first week of the campaign, is near the top and by a little effort could again command. She continues working steadily and piling up votes at a fast clip.

Miss Sarah Corwin and Miss Mary Kinlaw have something up their sleeves, and other contestants have as yet been unable to figure out the strategy being worked.

Friends of Mrs. E. A. Brotherson and of Mrs. M. E. Patterson are expecting them to make big gains during the present week. Mrs. Patterson has been in the campaign for one week only but has a good start already.

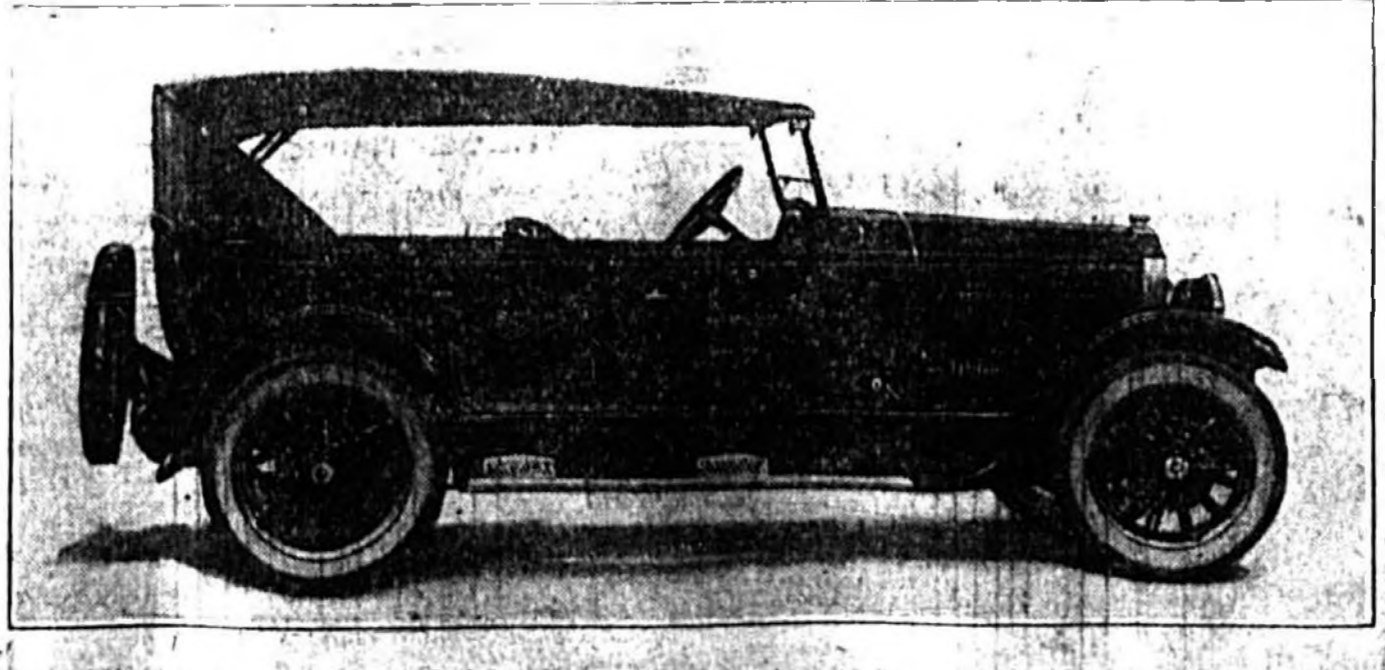

The dark horses have as yet failed to come to light but the rumors that someone is going to come forth and spring a surprise will not down.

FIRST PRIZE IN CAMPAIGN

VOTING SCHEDULE WILL AGAIN BE REDUCED AFTER NEXT SATURDAY

While contestants were dumbfounded when they notice the way the votes were reduced at the end of the first period the campaign they will again be greatly shocked when they see the cut which will take place at the beginning of the third period.

Saturday night at ten o'clock the second period in the Herald's campaign will end. For the convenience of contestants at their friends who will in all probability make a last minute rush the newspaper office will remain open until that time and the ballot box will probably become well filled with votes.

The first week of the second period was very largely preparatory work for a grand rush during the second week. Many workers have stated that they are expecting their friends to come their aid yet while the voting schedule is a liberty one, and give them all the votes possible.

The Herald assures all workers there will be no increasing the voting schedule during the remainder of the campaign. There will be a steady decrease. The last period of the contest will be hard one in which to get votes. Get them now while the getting is good.

For the remainder of this week the following will be the schedule on which votes will be issued to contestants.

SECOND PERIOD VOTING SCHEDULE (For Period Ending September 27)

WIBLE THOUGHT FOR TODAY

GOD RULES WITHIN:—I will put my spirit within you, and cause you to walk in my statutes, and ye shall keep my judgments, and do them.

THE WAY OF IT

The wind is awake, pretty leaves, pretty leaves. Heed not what he says; he deceives, he deceives.

The boy is abroad, pretty maid, pretty maid. Beware his soft words, I'm afraid.

The way of the boy is the way of the wind, as light as the breeze is duty maid-kind.

Sanford went over the top. There weren't many squawks at the polls yesterday.

Acute indigestion we find is of ten caused by chronic indigestion. The real test of true love comes when he kisses his mother-in-law.

It is not at all certain that the vast herd of American tourists in Paris this summer went there to get divorced.

Moses gave us the Ten Commandments. And we have been trying to find out what to do with them ever since.

It is better to have loved and lost—yes, much better to be who loves and runs away will live to love another day.

Those who maintain that Dempsey is now seeing a large black shadow crossing his fist's career should remember that Dempsey himself casts a large black shadow.

If it continues to be fashionable for women to wear these long, heavy pendant earrings, it won't be long before cauliflower ears will be as common among women as among pugilists.

Safety Week began yesterday. People who own and drive automobiles should make it a point this week to familiarize themselves with the traffic laws and then live up to them.

We read in the Dearborn Independent that in London human hair is being used by some women to decorate their coat collars, cuffs, and blouses. That will no doubt save the style of bobbed hair.

The Prince of Wales like a true gentleman and scholar delivered his farewell address Sunday night saying that he thoroughly enjoyed his visit to America. The Prince is a good natured old liar.

As we understand it a marriage in Russia costs one ruble while a divorce is three times that amount. The Russians apparently go on the theory that it should cost more to get out of trouble than into it.

The United States has been very urgently invited to attend the disarmament conference in Geneva next year. Every courtesy is always most graciously extended the United States when disarmament is being talked of.

The Retail Merchant A Scientist

Do you consider your business a science or do you let it run itself on the hap-hazard, hit-or-miss plan? According to a department of commerce review of the "Morgue of Business Failures" the chief cause of retail business failures is "poor management."

"Only in the last three or four years," the government experts declare, "has the merchant realized that his business is a science." And it is this word "science" that The Herald is passing on to business men among its readers who may not belong yet to that growing class of American business men who recognize that scientific methods are as essential to the success of the modern mercantile house as they are to the success of any business.

Today the successful merchant studies his clientele and stocks his store with the idea of selling his goods. He does not load his shelves with stuff that must stay there year in and year out. He buys with his customers in mind; and then goes about the business of bringing those customers and their money to his store. He studies ways of making his store attractive. He drills his clerks in "manners" as well as in accuracy and watchfulness. He knows exactly what his "overhead" is, and makes a practice of selling on as close a margin as will turn his goods rapidly and yet make him a fair profit. He knows where his money goes, and he studies every angle of his expenditure, knowing that money well spent brings more money to spend.

Buying and Salesmanship and Store Management have come to be recognized as scientific study. The Herald congratulates the merchant who has learned to make use of that study. It will lead him to success.

Always Be Careful

An effort is being made this week to call to the attention of the people of Sanford the traffic rules and regulations in the hope that the number of automobile accidents taking place in this city may be reduced and that safety may take the place of danger.

It isn't always the driver who drives rapidly who causes the accidents. As a rule it is the fellow who doesn't know or who doesn't observe the rules of the road and of the community. The fact is, there are very few persons who really know what the traffic rules are. If they did know there would be less chance of having a car smashed every time it is taken from the garage.

Sanford has a speed limit of twenty miles an hour. This is in keeping with other progressive cities and is a liberal limit. At twenty miles an hour a driver should have his car under absolute control and in a case of quick action should be able to come to a sudden stop.

Sanford has few traffic laws. Those on the statute books of the city are only essential ones. The driver is given much freedom and it is the plan of the officials to put no more restrictions on the motorist than he forces on himself. Sanford gives the autost more leeway than many Florida cities.

Safety Week is for the purpose of urging people to be more careful. The man who is careful seldom has an accident. It is the one who doesn't care who generally has the trouble.

Safety Week is also for the purpose of informing people of the traffic rules and regulations so that they can live up to them.

Are you acquainted with the ordinances now in effect and being enforced by the police department? Do you know what you are allowed to do and what you cannot do?

Here are the laws as they appear on the books. It might be a good idea for every motorist to memorize them:

Keep to the right of the street. Keep to the right in permitting another vehicle to overtake you.

Park your car so that the sidewalk will be on the right of the driver.

Make left hand turns not nearer to the curb than the middle of the street.

No vehicle is allowed to stop abreast with any other vehicle on the same side of the street, nor blockade or obstruct a thoroughfare.

No person under the age of fifteen shall operate an automobile.

Automobiles driven at night must have one or more lights in front and one red light in the rear.

Automobiles must be equipped with good brakes.

Automobiles must be equipped with good horn.

Automobiles cannot be operated with cut-out open.

Unnecessary blowing of horns is prohibited.

No car shall stop or park within ten feet of a corner or of intersection of street.

No automobile or vehicle shall stop or park within twelve feet of a fire hydrant.

The speed limit is twenty miles an hour and in the business district a speed consistent with the safety of all persons using such streets is to be observed.

No car shall stop or park within ten feet of a manner.

RUNNING IN DEBT

ORLANDO REPORTER STAR

There are people who are opposed to running in debt. They are usually regarded as prudent and careful people. And they usually are.

Those same people, however, if they are successful people, have often put themselves in debt for things they thought would advance their business interests and add to their happiness. And usually they are.

The same rule holds true with a city. It must be careful and prudent, and must not run in debt except where by so doing the value

Smith Will Run. Example for Europe. Big Guns Are Toys. Advertising Psychology. BY ARTHUR BRISBANE (Copyright 1924)

GOVERNOR AL Smith of New York will run again for a third term. Governor Smith understands local politics as well as any man. His friends say, no matter what happens, Smith is sure of a great triumph, and will surely run a long way ahead of John W. Davis. "Two million more votes for Al Smith than for John W. Davis," is the motto of the campaign.

SOME OF Al Smith's followers feel that he was badly treated in the Democratic convention. They assert that he would have been nominated except for religious prejudice, and feel it their duty to punish that prejudice.

THEY EXPECT to be able to say to the Democratic party after this election, "If you don't want us during convention week, you must expect to have us on election day."

"You must make up your mind to take Al Smith for president, or the Democratic party won't have any president for some time."

THE QUESTION is, in view of La Follette's strength, whether there will be any Democratic party after this election.

Many believe that there will be a conservative party, Republican, and radical party, growing out of the La Follette movement.

ON JUNE 15, 1922, the League of Nations will call "an armistice day" of the world.

The big 12 nations that control the league, they might be reduced to 2, England and France hope, that 15 states will unite to stop war.

THE UNITED STATES, Espes so also. Here we have 48 states, that oughtly united, no war, no custom houses, none unfriendly.

Let Europe imitate the United States and organize such a combination of nations as we have here, instead of trying to drag us into the league and make us paymaster, in future wars.

WHILE EUROPE talks peace, was is progressing in China. Shanghai may be captured. Representatives of European governments there are nervous, and may withdraw.

And the Spaniards are preparing for their most desperate battle against the Moors. War is not quite ended for all time.

UNITED STATES coast artillery officers have finished experiments with two new sixteen inch rifles. Each will throw a projectile weighing two thousand pounds, a distance of 24 miles.

But the gigantic cannon will soon be only toys. No battleships will come against our coast or our sea artillery. What is the use of a 16 inch gun that can shoot 45 miles when a flock of flying machines, traveling more rapidly than the old cannon balls, that were tried at sea, would just as easily pass over the top of the ship, and drop a whole nest of coast artillery.

A CANON that can shoot five miles off the top of the Big Bertha that shot every mile will be a phantasm to the modern flying machine in a few years.

The army is making flying machines, and the navy is making flying machines, and the President would see that they were built.

PROFESSORS at Columbia College will teach the psychology of advertising. At the same time they will, of course, take up the psychology of salesmanship. Advertising is salesmanship through the written word.

THE MAIN thing for the salesman and advertiser to know is the psychology of advertising. It is to STOP talking. To say just enough, then stop putting into the brain that you are trying to "sell" just as much as it can comfortably digest, is the great advertising art.

IF YOU SAY to a customer, "I am going to give you five dollars and good reason why you should buy this," the customer will buy. If you say, "I am going to give you five dollars and good reason why you should buy this," the customer will buy.

THE ELECTION hearing is to be held October 10. It is to be held at the University of California. The hearing will be held at the University of California. The hearing will be held at the University of California.

GENERAL DAWES' rather tired and backward, continued a noble and heroic fight against "traitors" that attack and criticize the decisions of the supreme court.

That is occurred to General Dawes, that the two ablest, most earnest and most frequent critics of supreme court decisions are Justice Brandeis and Justice Holmes.

IN THEIR dissenting opinions, criticizing the majority decisions of other judges, Justices Holmes and Brandeis have criticized the supreme court, disagreed with its interpretation of the constitution.

And they have done more than La Follette and all others put together to make the people feel that a bare majority vote on the supreme bench should not overturn the will of the people in the making of laws.

WHILE GENERAL Dawes is criticizing those that criticize supreme court decisions, he should not forget the two really great critics of the country, namely Brandeis and Holmes.

THE BATTLE RAGES

JAPAN'S FUTURE

HAVANA POST

It is said by one who should be in a position to speak with authority that the future of Japan to the United States may be a matter of some importance.

Japan in the present time, it must be born in mind, a sharp political division exists between liberal and conservatism. The old and somewhat archaic policy of the militarists, who for the moment have, to function, is not entirely dead, and this group is a matter of fact has made workable capital out of the revision act passed by the American congress.

It would be a mistake to think that the militarists are really in getting under headway since modern liberalism. All that has been accomplished to date would be a danger to the nation would be lost and who knows but that there might be precipitated a war of aggression.

There is, too, the possibility of an agreement being entered into between the two groups, which would result in a sort of a compromise, and it would hold in measurable danger to the peace of the rest of the world.

The present government in Japan would rather not engage in a war of aggression, with the United States, and it is to be expected that a matter of some importance will be a matter of some importance.

It is reasonable to suppose that eventually one of two things will happen, either a war will be started, or a compromise will be reached.

WHY WILBUR HURRIED

KNOXVILLE SENTINEL

The G. O. P. Department in the White House, and the budget committee, probably, surely, it can't open its mouth without putting its foot in it, a feat for which the elephant can't help but be proud.

It is an open secret that Secretary Wilbur of the navy department was recalled from the ground to advise with the President about naval appropriations.

The White House announced in connection with the official recall of the Secretary of the Navy, that the Secretary was recalled to advise with the President about naval appropriations.

The statement issued by the White House, that the explanation given by the White House was a bit of "face saving" only reduces the conclusion reached by candid newspaper writers, which the story was given.

The news that has been made by the recall of Secretary of the Navy, Wilbur by President Coolidge, Mr. Shaver said, is typical of the bungling of the present administration.

"This political naval expedition had set out to win the Pacific coast for Coolidge but the bombardment was so erratic that it started from some quarters, and according to the press, ambassadors were dispatched to the White House to call off the expedition."

"I hear that some of the shots fired by Secretary Wilbur wrought great havoc to the Republican chances in California, because in a spirit of fairness he could not avoid using Democratic ammunition. It is also reported that Japanese naval officials through the press, have protested against some of the Secretary's utterances, especially to the one referring to two antagonistic race civilizations."

"At the very time Secretary Wilbur was recalled he was under engagement to speak in Denver Saturday night of this week. In fact the speech had been issued to the newspapers for publication, and not only was the Secretary recalled but

FIRST BAPTIST SUNDAY SCHOOL IS PREPARING FOR HOME-COMING DAY

Last Sunday morning Associate-Superintendent Schelle Maines an-
nounced to the school that next
Sunday morning would be Home
Coming Day in the First Bap-
tist Sunday School, and then proceeded
to read to the school the at-
tendance which each department
would be expected to have present.
When the totals were given, the
number was 550.

Previous to this announcement
Superintendent Jenkins had stated
that preparations were being made
for an interesting program for the
occasion. Many of the officers and
teachers will be very busy this
week making their plans and work-
ing to reach the goal set for Sun-
day morning.

Sunday School officials state that
although many of the members
have been away for part of the

summer, yet the school has main-
tained the highest average in its
history, and the outlook for a great
fall's work was never quite so
good. In a conference held yester-
day afternoon of some of the of-
ficers of the T. E. E. class, Mrs.
B. R. Beck said, "The T. E. E. L.
class should break all records this
fall." Last evening Superintendent
John D. Jenkins said: "We have
gone through our best summer,
and there is every reason for be-
lieving that the present season
should be the greatest the school
has ever had."

Every member of the Sunday
school and every member of the
church are urged to be present
Sunday morning at 9:30. Also, a
most cordial welcome is extended
to the friends of the school to share
the information, inspiration, and
fellowship of the hour.

Mrs. Overlin and Mrs. McRory Entertain St. Agnes Guild Monday

Mrs. Howard Overlin and Mrs.
McRory were the charming host-
esses at the home of the latter
Monday afternoon for the St. Ag-
nes Guild.

The meeting was the most en-
thusiastic held in a long time. It
was decided that the guild would
give a benefit card party Wed-
nesday, Oct. 1. The guild card
parties in the past have been most
enjoyable, and a large number of
guests are anticipated.

Father A. S. Peck was present
for the first time in several months
and gave a most interesting talk
must to the delight of the mem-
bers.

Members present included Mes-
dames R. W. Pearson, Jr., Clifford
Penbody, Earl T. Field, Leake, Paul
Biggers, Chris Mathews, J. N. Rob-
son and B. L. Perkins.

Keeps out damp and it NEVER WARPS

Damp and chill are kept out of every room and building
that you ceil with Sheetrock, the fireproof wallboard.

Sheetrock makes solid, tight-jointed and permanent
walls and ceilings, at low cost.

Being made from pure gypsum rock, it is a natural in-
sulator against heat, cold and damp, and it will not
warp, buckle or shrink.

Sheetrock comes all ready for use. Just nail the broad,
high sheets to the joists or studding. Saws and nails
like lumber. No canvas is needed with it. It takes any
decoration—wall paper, paint, panels, or Textone, The
Sheetrock Decorator.

Sheetrock is made only by the United States Gypsum
Company. Ask your lumber or building material dealer
for a sample and prices.

CORKRAN WINS LOW MEDAL IN AMATEUR PLAY

Impetus of Unprecedented 67 of Saturday Carries Him to a Total of 142 for The 36-Hole Qualifying Test; Bobby Jones Duplicates 72 of First Round

ARDMORE—Penn., Sept. 23.—Dudley Clarke Corkran of the Huntingdon Valley club, Philadelphia, Monday won the qualifying medal of the national amateur golf tournament with another record. The impetus of his unprecedented 67 of last Saturday carried him to a total of 142 for the 36 hole qualifying test, two strokes lower than Bobby Jones of Atlanta.

Corkran has the honor of making the lowest 18 hole medal score ever made in national amateur golf and also the lowest qualifying score for 36 holes. The old 36 hole record was equaled by Jones today.

BROOKLYN NOW ONLY ONE POINT BEHIND GIANTS

New York-Pittsburgh Game Postponed Account of Rain; Washington Retains Lead

NEW YORK, Sept. 23. Brooklyn, by winning from Chicago Monday, 2 to 1 in 12 innings, advanced to within one point of the Giants whose game with Pittsburgh, one and one half contests back of the two leaders, was postponed by rain.

Washington retained its two game advantage in the American league over New York as Walter Johnson won his 14th straight game by defeating Chicago 8 to 3. The Yankees won from Cleveland, 10 to 4, and Detroit defeated Boston, but the Tigers dropped out of the race as they cannot win now even by taking all of their contests even if Washington loses its six.

The Senators can now claim the pennant by winning five of their six games, or tie it by winning 4 even though the Yankees take their remaining six.

Pittsburgh, by winning all of its eight games, can finish ahead of New York and Brooklyn.

This, it was said, means that the annual football game, scheduled to be played in Winter Park, will not be held this year.

DODGERS TRIM CUBS IN LONG GAME MONDAY

Zach Wheat's Double to Right Center in Twelfth Inning Brings in the Winning Run

BROOKLYN, Sept. 23. Zach Wheat's double to right center in the twelfth inning, came pitched from first base, brought a 2-1 victory over Chicago in the evening game of the season here Monday. Bill Doak, twirling for the Dodgers, allowed but five safe hits and struck in his tenth consecutive victory. The Dodgers scored a half game on the Giant by winning Monday while the New York club was idle because of rain.

SENATORS HIT HARD AND WIN FROM CHICAGO

Walter Johnson Wins Fourteenth Consecutive Game After Getting Bad Start; Yankees Trounce Indians, Detroit Swamps Boston, Athletics Trim St. Louis

CHICAGO, Sept. 23. Washington sent a battling romp in the evening game Monday and driving Mike Cooney out the mound, easily defeated Chicago, 8 to 3, and retained a two game run margin over the Yankees, who defeat Cleveland.

Walter Johnson faced the Sox and after getting away to a 2-0 start, because of an error by Chicago, settled down and led his club to a 5-0 victory. The game was the tenth consecutive game won by the Senators. He also turned the Sox going into a season total of 14 and a life time mark of 20.

Trainers of Black Gold Are Grooming Him For October 11

LATONIA, Ky., Sept. 22.—The Latonia International special, to be run here Oct. 11, over a mile and a quarter, is the jewel the trainers of Black Gold are grooming him for as a fitting complement to the crown of four derbies already won by him. The coal black son of Black Toney and Usecit is quartered at the track where he will remain until the last of a series of three international races in which the famous French race horse Epinard will run, have been staged.

Entrance to the unpretentious stall of the horse is closely guarded by a dog on whose face is unmistakably hung a "Not Welcome" sign. This dog is Black Gold's close companion and wherever the horse goes the dog usually can be found near at hand.

It is considered likely that Black Gold will be entered in one of the races during the Latonia fall meeting. His entry will be merely to sharpen his condition for the big race, which has been given a greater caste by the entrance of Epinard.

Black Gold has become temperamental since he has been in temporary retirement. He has a playful habit of tearing clothes of visitors, and all are cautioned before going anywhere near the part Indian pony to be on the alert for some of his pranks.
